Chapter 296-18
INDUSTRIAL INSURANCE AND
MEDICAL AID CLASSIFICATION MANUAL

Reviser's note: The classification of occupations was enacted by the legislature as section 1, chapter 247, Laws of 1947. They were revised by the director from time to time under the authority of RCW 51.12.030, 51.12.040, and 51.16.100. As so revised, they were reenacted by the legislature as chapter 51.20 RCW, which was part of chapter 23, Laws of 1961, which reenacted the entire industrial insurance law as Title 51 RCW. The classification as originally published in the WAC conforms to the 1961 statute. The effective date of chapter 23, Laws of 1961 was February 14, 1961.

Chapter 51.20 RCW and its parallels in chapter 231, Laws of 1961, have subsequently been repealed by section 39, chapter 93, Laws of 1972 ex. sess.

- 296-42-050 Fire and explosions—Smoking, matches, lighters. [Rule 5.010, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-060 Fire and explosions—Fire protection and fire fighting equipment. [Rule 5.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-070 Fire and explosions—Cleaning oils. [Rule 5.030, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-080 Fire and explosions—Static electricity. [Rule 5.040, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-090 Fire and explosions—Spontaneous ignition. [Rule 5.050, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-100 Fire and explosions—Fire permits. [Rule 5.060, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-110 Fire and explosions—Surge tanks. [Rule 5.070, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-120 Fire and explosions—Flammable waste gases or vapors. [Rule 5.080, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-130 Fire and explosions—Transfer of light oils by air displacement. [Rule 5.090, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-140 Fire and explosions—Steam hose. [Rule 5.100, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-150 Dangerous exposure. [Rules 6.010 and 6.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-160 Enclosed and confined spaces—Ventilation. [Rule 7.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-170 Enclosed and confined spaces—Confined spaces. [Rule 7.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-180 Escape exits. [Rule 8.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-200 Tanks—Stationary tanks. [Rule 9.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-210 Tanks—Stationary tank maintenance. [Rule 9.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-220 Tanks—Diversion and retaining walls. [Rule 9.030, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-230 Gas and vapor testing. [Rule 10.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-240 Opening and blinding pipe lines and equipment—Opening pipe lines and equipment. [Rule 11.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-250 Opening and blinding pipe lines and equipment—Blinding of pipe lines and equipment. [Rule 11.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-260 Hazardous commodities—General. [Rule 12.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-270 Hazardous commodities—Corrosives. [Rule 12.020, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-280 Hazardous commodities—Leaded gasoline stationary tanks. [Rule 12.030, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-290 Drainage. [Rule 13.010, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-300 Agitation and heating of liquids in tanks. [Rule 14.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-310 Process equipment maintenance—General. [Rule 15.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-320 Process equipment maintenance—Condenser and cooling boxes. [Rule 15.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-330 Pumps, pipe lines and valves—Pumps. [Rule 16.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-340 Pumps, pipe lines and valves—Pipe lines and piping. [Rule 16.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-350 Pumps, pipe lines and valves—Valves. [Rule 16.030, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-360 Equipment leakage and breakage—Leakage control. [Rule 17.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-370 Equipment leakage and breakage—Gage glasses. [Rule 17.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-380 Equipment identification. [Rule 18.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-390 Gas compressors and engines—Gas compressor or gas processing plant protection. [Rule 19.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-400 Gas compressors and engines—Gas compressors. [Rule 19.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-410 Gas compressors and engines—Stationary internal combustion engines. [Rule 19.030, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-420 Loading and unloading facilities and operations—Loading platforms. [Rule 20.010, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-430 Loading and unloading facilities and operations—Loading and unloading operations. [Rule 20.020, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-440 Loading and unloading facilities and operations—Liquefied petroleum gases—Loading and unloading. [Rule 20.030, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-450 Laboratories and pilot plants. [Rule 21.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-460 Wharves. [Rule 22.010, filed 1/11/63.] Repealed by Order 76-28, filed 9/28/76.
- 296-42-470 Bulk distributing plants. [Rule 23.010, filed 1/11/63 and 1/15/63.] Repealed by Order 76-28, filed 9/28/76.

SAFETY STANDARDS—ELECTRICAL CONSTRUCTION CODE
- 296-44-005 Preface. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-005, filed 7/25/86; Preface (part), filed 3/23/60, effective 12/1/58.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-010 Definitions of special terms. [§ 1, filed 3/23/60, effective 12/1/58.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-011 Definitions of special terms applicable to this chapter. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-011, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-013 Purpose and scope. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-013, filed 7/25/86; § 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-015 Lines constructed prior to these rules. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-015, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.

- 296-44-016 Applicability. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-016, filed 7/25/86; § 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-017 References. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-017, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-019 Applicability of rules—To construction and reconstruction of lines. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-022 Applicability of rules—Restoration of clearances. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-023 Grounding methods for electric supply and communication facilities. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-023, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02301 Purpose. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02301, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02305 Scope. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02305, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02309 Point of connection of grounding conductor. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02309, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02315 Grounding conductor and means of connection. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02315, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02319 Grounding electrodes. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02319, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02323 Method of connection to electrode. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02323, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02329 Ground resistance. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02329, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02335 Separation of grounding conductors. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02335, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-02349 Grounding methods for telephone and other communication apparatus on circuits exposed to supply lines or lightning. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-02349, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-025 Applicability of rules—Lines constructed prior to these rules. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-028 Applicability of rules—Reconstruction or alteration. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-031 Applicability of other standards. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-034 Design, construction and maintenance. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-035 Rules for the installation and maintenance of electric supply stations and equipment. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-035, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-03505 Purpose. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-03505, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-03509 Scope. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-03509, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-037 Limiting conditions specified. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-040 Waiving of rules. [§ 2 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-041 Protective arrangements in electric supply stations. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-041, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-04105 General requirements. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-04105, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-04109 Illumination. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-04109, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.

- 296-44-184 Transformers, induction regulators, rheostats, ground detectors, and similar equipment—Ground detectors. [§ 14 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-187 Conductors—Electrical protection. [§ 15 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-190 Conductors—Precaution against mechanical and thermal damage. [§ 15 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-193 Conductors—Isolation. [§ 15 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-194 Relations between various classes of lines. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-194, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-19405 Relative levels. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-19405, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-19421 Avoidance of conflict. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-19421, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-19433 Joint use of structures. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-19433, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-196 Conductors—Guarding conductors. [§ 15 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-199 Conductors—Guarding in hazardous locations. [§ 15 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-202 Conductors—Taping ends and joints. [§ 15 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-205 Conductors—Wiring for illumination. [§ 15 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-208 Fuses, circuit-breakers, switches, and controllers—Accessible and indicating. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-211 Fuses, circuit-breakers, switches, and controllers—Oil switches. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-212 Clearances. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-212, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21209 General. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21209, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21221 Clearances of supporting structures from other objects. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21221, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].-040, [49.17].050 and [49.17].060.
- 296-44-21230 Vertical clearance of wires, conductors, cables, and live parts of equipment above ground, rails, or water. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21230, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21241 Clearances between wires, conductors, and cables carried on different supporting structures. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21241, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21253 Clearance of wires, conductors, and cables from buildings, bridges, rail cars, swimming pools, and other installations. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21253, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21265 Clearance for wires, conductors, or cables carried on the same supporting structure. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21265, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-21273 Climbing space. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21273, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21279 Working space. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21279, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21287 Vertical clearance between certain communication and supply facilities located on the same structure. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21287, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-21295 Clearances of vertical and lateral conductors from other wires and surfaces on the same support. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-21295, filed 7/25/86.]

	Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.		(Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-214	Fuses, circuit-breakers, switches, and controllers—Where switches are required. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-247	Switchboards—Arrangement and identification. [§ 17 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-217	Fuses, circuit-breakers, switches, and controllers—Switches or other grounding devices. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-250	Switchboards—Spacings and barriers against short-circuit. [§ 17 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-220	Fuses, circuit-breakers, switches, and controllers—Capacity of switches and disconnectors. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-253	Switchboards—Switchboard grounding. [§ 17 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-223	Fuses, circuit-breakers, switches, and controllers—Where fuses or automatic circuit-breakers are required. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-256	Switchboards—Guarding live parts on switchboards. [§ 17 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-226	Fuses, circuit-breakers, switches, and controllers—Disconnection of fuses before handling. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-259	Switchboards—Instrument cases. [§ 17 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-229	Fuses, circuit-breakers, switches, and controllers—Arcing or suddenly moving parts. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-262	Lightning arresters—Location. [§ 18 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-232	Fuses, circuit-breakers, switches, and controllers—Grounding noncurrent-carrying metal parts. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-263	Loading for Grades B, C, and D. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-263, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
296-44-235	Fuses, circuit-breakers, switches, and controllers—Guarding live parts of switches, fuses, and automatic circuit-breakers. [§ 16 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-277	General requirements applying to overhead and underground lines—Design and construction. [§ 21 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-244	Switchboards—Necessary equipment. [§ 17 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007	296-44-278	Strength requirements. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-278, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
		296-44-27809	Preliminary assumptions. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-27809, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.

- 296-44-27821 Grades B and C construction. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-27821, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-27833 Grade D construction. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-27833, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-27847 Grade N construction. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-27847, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-280 General requirements applying to overhead and underground lines—Installation and maintenance. [§ 21 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-283 General requirements applying to overhead and underground lines—Accessibility. [§ 21 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-286 General requirements applying to overhead and underground lines—Inspection and tests of lines and equipment. [§ 21 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-289 General requirements applying to overhead and underground lines—Isolation and guarding. [§ 21 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-292 General requirements applying to overhead and underground lines—Grounding of circuits and equipment. [§ 21 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-295 General requirements applying to overhead and underground lines—Arrangement of switches. [§ 21 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-29501 Line insulation. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29501, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-29509 Application of rule. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29509, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-29515 Material and marking. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29515, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-29523 Ratio of flashover to puncture voltage. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29523, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-29529 Insulation level. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29529, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-29539 Factory tests. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29539, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-29541 Special insulator applications. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29541, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-29551 Protection against arcing and other damage. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29551, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-29563 Mechanical strength of insulators. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29563, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-29572 Aerial cable systems. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-29572, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-298 Relations between various classes of lines—Relative levels. [§ 22 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-301 Relations between various classes of lines—Avoidance of conflict. [§ 22 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-304 Relations between various classes of lines—Joint use of poles by supply and communication circuits. [§ 22 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-307 Relations between various classes of lines—Separate pole lines. [§ 22 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-310 Clearances—General. [§ 23 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-313 Clearances—Horizontal clearances of supporting structures from other objects. [§ 23 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-316 Clearances—Vertical clearance of wires above ground or rails. [§ 23 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-317 Miscellaneous requirements. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-317, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-31709 Structures for overhead lines. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31709, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-31719 Tree trimming. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31719, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-31729 Guying and bracing. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31729, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.
- 296-44-31738 Insulators in guys attached to supporting structures. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31738, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
- 296-44-31749 Span-wire insulators. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31749, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority:

	RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.		Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-31757	Overhead conductors. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31757, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.	296-44-350	Safety rules for the installation and maintenance of underground electric-supply and communication lines. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-350, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
296-44-31765	Equipment on supporting structures. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31765, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-35009	Purpose. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-35009, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
296-44-31772	Communications protective requirements. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31772, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-35021	Scope. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-35021, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
296-44-31783	Circuits of one class used exclusively in the operation of circuits of another class. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31783, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.	296-44-352	Loading for Grades B, C, and D—General loading map. [§ 25 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-31792	Electric railway construction. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-31792, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].-060.	296-44-355	Loading for Grades B, C, and D—Conductor loading. [§ 25 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-319	Clearances—Wire-crossing clearances. [§ 23 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-358	Loading for Grades B, C, and D—Loads upon line supports. [§ 25 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-322	Clearances—Clearances of conductors of one line from other conductors and structures. [Tables 4 and 5, filed 10/30/64, effective 12/1/64; § 23 (part), Tables 4 and 5, filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-361	Strength requirements—Preliminary assumptions. [§ 26 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-325	Clearances—Minimum line conductor clearances and separations at supports. [Subsections (1)(b)(ii) and (1)(c)(ii), filed 10/30/64, effective 12/1/64; § 23 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-364	Strength requirements—Grades B and C construction. [§ 26 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-328	Clearances—Climbing space. [§ 23 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-365	General requirements applying to underground lines. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-365, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.
296-44-331	Clearances—Working space. [§ 23 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-36518	Installation and maintenance. [§ 31 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-46739	Location in underground structures. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-46739, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-499	Conductors—Guarding and isolating conductors. [§ 31 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-46747	Installation. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-46747, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-502	Conductors—Guarding in damp or hazardous locations. [§ 31 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-46755	Grounding. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-46755, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-505	Conductors—Precautions against excessive inductance and eddy currents. [§ 31 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-46761	Identification. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-46761, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-508	Conductors—Splicing and taping. [§ 31 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-469	Installation and maintenance of electric utilization equipment—Grounding. [§ 30 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-511	Conductors—Uninsulated conductors. [§ 31 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-472	Installation and maintenance of electric utilization equipment—Working spaces about electric equipment. [§ 30 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-514	Fuses, circuit-breakers, switches and controllers—General requirements for switches. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-478	Installation and maintenance of electric utilization equipment—Guarding or isolating live parts. [§ 30 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-517	Fuses, circuit-breakers, switches and controllers—Hazardous locations. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-481	Installation and maintenance of electric utilization equipment—Hazardous locations. [§ 30 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-520	Fuses, circuit-breakers, switches and controllers—Where switches are required. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-484	Installation and maintenance of electric utilization equipment—Protection by disconnection. [§ 30 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-523	Fuses, circuit-breakers, switches and controllers—Character of switches and disconnectors. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-487	Installation and maintenance of electric utilization equipment—Identification of equipment. [§ 30 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-526	Fuses, circuit-breakers, switches and controllers—Disconnection of fuses and thermal cut-outs before handling. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-490	Conductors—Electrical protection. [§ 31 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-529	Fuses, circuit-breakers, switches and controllers—Arcing or suddenly moving parts. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-491	Installation in tunnels. [Statutory Authority: RCW 49.17.040 and 49.17.050. 86-16-007 (Order 86-26), § 296-44-491, filed 7/25/86.] Repealed by 98-07-009, filed 3/6/98, effective 5/6/98. Statutory Authority: RCW 49.17.010, [49.17].040, [49.17].050 and [49.17].060.	296-44-532	Fuses, circuit-breakers, switches and controllers—Grounding noncurrent-carrying metal parts. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-49109	General. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
		296-44-538	Fuses, circuit-breakers, switches and controllers—Inclosed air-break switches (not including snap switches). [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
		296-44-541	Fuses, circuit-breakers, switches and controllers—Control equipment. [§ 32 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed

	7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.		(Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-544	Switchboards and panelboards—Accessibility and convenient attendance. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-601	Electric furnaces, storage batteries, transformers, and lightning arresters—Lightning arresters. [§ 35 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-547	Switchboards and panelboards—Location and illumination. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-604	Lighting fixtures and signs—Fixtures. [§ 36 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-550	Switchboards and panelboards—Arrangement and identification. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-607	Lighting fixtures and signs—Receptacle for convenience outlet. [§ 36 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-553	Switchboards and panelboards—Spacing, barriers and covers. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-610	Lighting fixtures and signs—Exposed live parts. [§ 36 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-556	Switchboards and panelboards—Grounding frames. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-613	Lighting fixtures and signs—Signs. [§ 36 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-559	Switchboards and panelboards—Guarding current-carrying parts. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-616	Lighting fixtures and signs—Connectors for signs. [§ 36 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-562	Switchboards and panelboards—Fuses on switchboards. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-619	Lighting fixtures and signs—Lamps in series circuits. [§ 36 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-565	Switchboards and panelboards—Panelboards. [§ 33 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-622	Lighting fixtures and signs—Safe access to arc lamps. [§ 36 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-568	Motors and motor-driven machinery—Control devices. [§ 34 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-625	Portable appliances, cables and connectors, and insect eliminators (not including those for communication systems)—Insulation. [§ 37 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-571	Motors and motor-driven machinery—Hazardous locations. [§ 34 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-628	Portable appliances, cables and connectors, and insect eliminators (not including those for communication systems)—Grounding of frames. [§ 37 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-574	Motors and motor-driven machinery—Deteriorating agencies. [§ 34 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-631	Portable appliances, cables and connectors, and insect eliminators (not including those for communication systems)—Cable connectors. [§ 37 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-577	Motors and motor-driven machinery—Guards for live parts. [§ 34 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-634	Portable appliances, cables and connectors, and insect eliminators (not including those for communication systems)—Identified conductors, cords, and connectors. [§ 37 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-580	Motors and motor-driven machinery—Grounding machine frames. [§ 34 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-637	Portable appliances, cables and connectors, and insect eliminators (not including those for communication systems)—Use of portables and pendants. [§ 37 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-583	Motors and motor-driven machinery—Protecting moving parts. [§ 34 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-640	Portable appliances, cables and connectors, and insect eliminators (not including those for communication systems)—Portable outdoor equipment of more than 750 volts between conductors. [§ 37 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-586	Electric furnaces, storage batteries, transformers, and lightning arresters—Protection from burns. [§ 35 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-643	Portable appliances, cables and connectors, and insect eliminators (not including those for communication systems)—Insect eliminators. [§ 37 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-589	Electric furnaces, storage batteries, transformers, and lightning arresters—Grounding of furnace frames. [§ 35 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.	296-44-646	Electrically operated industrial locomotives, cars, cranes, hoists, and elevators—Guarding live and moving parts. [§ 38 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
296-44-592	Electric furnaces, storage batteries, transformers, and lightning arresters—Guarding live parts. [§ 35 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.		
296-44-595	Electric furnaces, storage batteries, transformers, and lightning arresters—Storage batteries. [§ 35 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.		
296-44-598	Electric furnaces, storage batteries, transformers, and lightning arresters—Transformers. [§ 35 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007		

- 296-44-649 Electrically operated industrial locomotives, cars, cranes, hoists, and elevators—Grounding noncurrent-carrying parts. [§ 38 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-652 Electrically operated industrial locomotives, cars, cranes, hoists, and elevators—Control of energy supply to cars, cranes, and industrial locomotives. [§ 38 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-655 Control of movement of industrial locomotives, cars, cranes, and elevators. [§ 38 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-658 Control of movement of industrial locomotives, cars, cranes, and elevators—Subway and car lighting. [§ 38 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-661 Telephone and other communication apparatus on circuits exposed to supply lines or lightning—Protective requirements. [§ 39 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-664 Telephone and other communication apparatus on circuits exposed to supply lines or lightning—Guarding current-carrying parts. [§ 39 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-667 Telephone and other communication apparatus on circuits exposed to supply lines or lightning—Grounding. [§ 39 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-670 Rules for radio and T.V. installations—Scope. [§ 50, filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-673 Classification of radio stations. [§ 51, filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-676 Antenna and counterpoise installation—Application of rules. [§ 52 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-679 Antenna and counterpoise installation—General requirements. [§ 52 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-682 Antenna and counterpoise installation—Locations to be avoided. [§ 52 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-685 Antenna and counterpoise installation—Ordinary construction of antenna systems. [§ 52 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-688 Antenna and counterpoise installation—Special construction of antenna systems. [§ 52 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-691 Antenna and counterpoise installation—Guarding of antennas. [§ 52 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-694 Antenna and counterpoise installation—Supply circuits as antennas or grounds. [§ 52 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-697 Lead-in conductors—Application of rules. [§ 53 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-700 Lead-in conductors—Material. [§ 53 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-703 Lead-in conductors—Size. [§ 53 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-706 Lead-in conductors—Installation of lead-in conductor. [§ 53 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-709 Construction at building entrance—Application of rules. [§ 54 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-712 Construction at building entrance—Entrance. [§ 54 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-715 Construction at building entrance—Creepage and air-gap distance. [§ 54 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-718 Construction at building entrance—Mechanical protection of bushings. [§ 54 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-721 Protective devices—Application of rules. [§ 55 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-724 Protective devices—Receiving stations. [§ 55 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-727 Protective devices—Low-power transmitting stations. [§ 55 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-730 Protective and operating grounding conductors—Application of rules. [§ 56 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-733 Protective and operating grounding conductors—General. [§ 56 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-736 Protective and operating grounding conductors—Material and size. [§ 56 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-739 Protective and operating grounding conductors—Installation of grounding conductors. [§ 56 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.
- 296-44-742 Grounds and ground connections—Application of rules. [§ 57 (part), filed 3/23/60, effective 12/1/58.] Repealed by 86-16-007 (Order 86-26), filed 7/25/86. Statutory Authority: RCW 49.17.040 and 49.17.050.

- 296-51-130 Processing plant for sensitizing ammonium nitrate operation and storage requirements—Open drains and piping—Warehouse floors. [Rule 2.040, effective 11/1/62; § 3a, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-140 Processing plant for sensitizing ammonium nitrate operation and storage requirements—Floors in processing plant. [Rule 2.050, effective 11/1/62; § 3b, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-150 Processing plant for sensitizing ammonium nitrate operation and storage requirements—Fuel storage. [Rule 2.060, effective 11/1/62; § 1c and 3b, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-160 Processing plant for sensitizing ammonium nitrate operation and storage requirements—Heat. [Rule 2.070, effective 11/1/62; § 3d, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-170 Processing plant for sensitizing ammonium nitrate operation and storage requirements—Smoking. [Rule 2.080, effective 11/1/62; § 3j, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-180 Processing plant for sensitizing ammonium nitrate operation and storage requirements—One day's production. [Rule 2.090, effective 11/1/62; § 3f, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-200 General provisions—Unusual compositions. [Rule 3.010, effective 11/1/62; § 3e, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-210 General provisions—Mixing for above ground use at jobsite. [Rule 3.020, effective 11/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-220 General provisions—Ammonium nitrate bag accumulation prohibited. [Rule 3.030, effective 11/1/62; § 3k, filed 8/8/60 and 5/1/62; § 6e(3a), filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-230 General provisions—Cleanliness. [Rule 3.040, effective 11/1/62; Rule 3l, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-240 General provisions—Proper stacking. [Rule 3.050, effective 11/1/62; § 3m, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-250 General provisions—Mobile equipment. [Rule 3.060, effective 11/1/62; § 4a, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-260 General provisions—Volatile fuels. [Rule 3.070, effective 11/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-270 General provisions—Crude oil and crankcase oil prohibited. [Rule 3.080, effective 11/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-280 General provisions—Misfires (other than underground). [Rule 3.090, effective 11/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-300 General storage requirements—Standard magazine construction. [Rule 4.010, effective 11/1/62; § 3h, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-310 General storage requirements—Calculation of distance limitations. [Rule 4.020, effective 11/1/62; § 1a, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-320 General storage requirements—Storage of processed compositions. [Rule 4.030, effective 11/1/62; § 1d, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-330 General storage requirements—Ventilation of storage areas. [Rule 4.040, effective 11/1/62; § 3c, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-340 General storage requirements—Storage in vans. [Rule 4.050, effective 11/1/62; § 3g, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-350 General storage requirements—Storage van requirements. [Rule 4.060, effective 11/1/62; § 3i, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-360 General storage requirements—Limitation of amount of fuel sensitized ammonium nitrate at blasting site. [Rule 4.070, effective 11/1/62; § 5a, filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-400 Underground blasting operations—Permit required—Must be renewed annually—Posted on premises. [Rule 5.010, effective 11/1/62; § 6e, filed 8/8/60; § 6e, filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-410 Underground blasting operations—Rating of blasting agents. [Rule 5.020, effective 11/1/62; § 6f, filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-420 Underground blasting operations—Loading of holes. [Rule 5.030, effective 11/1/62; § 6e(1a), filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-430 Underground blasting operations—Priming. [Rule 5.040, effective 11/1/62; § 6a, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-440 Underground blasting operations—Grounding. [Rule 5.050, effective 11/1/62; § 6e(2a), filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-450 Underground blasting operations—Firing. [Rule 5.060, effective 11/1/62; § 6e(5a), filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-460 Underground blasting operations—Misfire. [Rule 5.070, effective 11/1/62; § 6b & 6c, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-470 Underground blasting operations—Fumes. [Rule 5.080, effective 11/1/62; § 6d, filed 8/8/60 and 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-480 Underground blasting operations—Wet holes. [Rule 5.090, effective 11/1/62; § 6e(4a), filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.
- 296-51-490 Underground blasting operations—Liners prohibited. [Rule 5.100, effective 11/1/62; § 6e(4a), filed 5/1/62.] Repealed by Order 76-28, filed 9/28/76.

Chapter 296-53

SAFETY REQUIREMENTS FOR
EXPLOSIVE-ACTUATED FASTENING TOOLS

- 296-53-010, 296-53-020, 296-53-030, 296-53-040, 296-53-050, 296-53-060, 296-53-070, 296-53-080, 296-53-090, 296-53-100, 296-53-110. [Paragraphs I through XI, effective 8/1/52, filed 3/23/60.] Repealed by Order 68-6, filed 10/24/68, effective 12/1/68.
- 296-53-200 Scope. [Order 68-6, § 296-53-200, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-210 Purpose. [Order 68-6, § 296-53-210, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-220 Exception. [Order 68-6, § 296-53-220, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-230 References to other codes. [Order 68-6, § 296-53-230, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-240 Effective date. [Order 68-6, § 296-53-240, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-250 Definitions. [Order 68-6, § 296-53-250, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-260 Design requirements—High velocity tools. [Order 68-6, § 296-53-260, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-270 Low velocity piston tools. [Order 68-6, § 296-53-270, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-280 Hammer-operated piston tools—Low velocity type. [Order 68-6, § 296-53-280, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-290 Requirements for loads and fasteners. [Order 68-6, § 296-53-290, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-300 Approvals. [Order 68-6, § 296-53-300, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-310 Operation. [Order 68-6, § 296-53-310, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-320 Servicing. [Order 68-6, § 296-53-320, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-330 Qualification and certification of operators. [Order 68-6, § 296-53-330, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-340 Storage of explosive-actuated tools, instruction books, cleaning kits, and tools. [Order 68-6, § 296-53-340, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.
- 296-53-350 Use low velocity tools when possible. [Order 68-6, § 296-53-350, filed 10/24/68, effective 12/1/68.] Repealed by Order 75-12, filed 4/4/75.

Chapter 296-58		296-58-125
SAFETY STANDARDS—METALS INDUSTRY		
296-58-001	Foreword. [Foreword, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-130
296-58-004	Practical application of standards. [Practical application paragraphs, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-135
296-58-010	Safe place standards. [Standard 1, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-140
296-58-015	Safe practice standards. [Standard 2, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-145
296-58-020	Standard safeguard defined. [Standard 3, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-150
296-58-025	Approved. [Standard 4, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-155
296-58-030	Substantial. [Standard 5, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-160
296-58-035	Exposed to contact. [Standard 6, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-165
296-58-040	Warning placards. [Standard 7, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-170
296-58-045	Wooden guards. [Standard 8, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-175
296-58-050	Metal guards—Framework. [Standard 9, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-180
296-58-055	Standard railings. [Standard 10, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-185
296-58-060	Fillers. [Standard 11, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-190
296-58-065	Filling material for metal guards. [Standard 12, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-195
296-58-070	Safeguards must not admit rod or pipes. [Standard 13, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-200
296-58-075	Lighting and illumination. [Standard 14, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-205
296-58-080	Diffusion and distribution of artificial and natural light. [Standard 15, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-210
296-58-085	Foundations. [Standard 16, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-215
296-58-090	Housekeeping. [Standard 17, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-220
296-58-095	Plant location. [Standard 18, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-225
296-58-100	Power transmission equipment and machine parts. [Standard 19, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-230
296-58-105	Saw guarding (metal and wood). [Standard 20, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-235
296-58-110	Machine power control. [Standard 21, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-240
296-58-115	Loose pulleys and cone pulleys. [Standard 22, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	296-58-245
296-58-120	Exposure to harmful atmospheric conditions and exposure to harmful materials. [Standard 23, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.	
		Nontoxic dusts. [Standard 24, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Methods of control. [Standard 25, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Minimum general requirements for electrical safety. [Standard 26, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Helpers around machines shall receive instructions. [Standard 27, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Machines shall be stopped in making repairs. [Standard 28, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Torn and loose clothing. [Standard 29, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Personal protective equipment and clothing. [Standard 30, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Sterilization of equipment. [Standard 31, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Caps or other head covering. [Standard 32, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Prevention of industrial disease. [Standard 33, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Carbon monoxide gas. [Standard 34, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Acids and chemicals. [Standard 35, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Steam pipes. [Standard 36, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Hot liquid vats—Location of. [Standard 37, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Vats and tanks guarded. [Standard 38, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Building—Floors. [Standard 39, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Stairways. [Standard 40, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Fire escapes. [Standard 41, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Swinging doors—Windows required. [Standard 42, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Doorways near railroad tracks and roadways. [Standard 43, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Platforms and runways. [Standard 44, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Floor openings. [Standard 45, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.
		Trestles and walks in industrial plants. [Standard 46, effective 6/1/55, filed 3/23/60.] Repealed by Order 76-7, filed 3/1/76. Later promulgation, see chapter 296-61 WAC.

Chapter 296-66

SAFETY STANDARDS—PAINTING AND DECORATING INDUSTRY

- 296-66-005 Foreword. [Foreword, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-010 Safety educational standards—Introduction. [§ A-1, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-015 Safety educational standards—Management's responsibility. [§ A-2, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-020 Safety educational standards—Employee's responsibility. [§ A-3, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-025 Safety educational standards—Safety inspector plan. [§ A-4, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-030 Safety educational standards—Settlement of disputes. [§ A-5, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-035 Safety educational standards—Safety committee plan. [§ A-6, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-040 Safety educational standards—Settlement of disputes. [§ A-7, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-045 Safety educational standards—Safety educational report. [§ A-8, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-050 Safety educational standards—Safety bulletin board. [§ A-9, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-055 Safety educational standards—Minimum requirements for first aid. [§ A-9, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-060 Safety educational standards—First-aid kit. [§ A-11, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-065 Safety educational standards—First-aid room. [§ A-12 (part), effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-070 Safety educational standards—Conclusion—Approval for changes. [§ A-12 (part), effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
- 296-66-080 Ladders and scaffolds—Purpose and application. [Ladder and scaffold rules (part), effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.

296-66-085	Ladders and scaffolds—Definitions. [Ladder and scaffold definitions, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-220	Life nets—Safety belts—Life lines. [§§ S-1 through S-5, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-090	Ladders and scaffolds—General requirements. [§§ B-1 through B-27, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-225	Application of paint coating—General. [Paint coating rules (part), effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-095	Ladders and scaffolds—Built-up wood scaffolds. [§§ C-1 through C-8, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-230	Application of paint coating—Definitions. [Paint coating definitions, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-100	Ladders and scaffolds—Factory-built scaffold units. [§ D-1, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-235	Spray coating of buildings, structures and outdoor spraying—Scope of rules. [Scope of spray coating rules, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-105	Ladders and scaffolds—Tubular post scaffolds. [§§ E-1 through E-15, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-240	Spray coating of buildings, structures and outdoor spraying—Equipment. [§§ T-1 and T-2, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-110	Ladders and scaffolds—Swinging scaffolds—Construction. [§§ F-1 through F-27, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-245	Spray coating of buildings, structures and outdoor spraying—Operation. [§§ U-1 through U-12, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-115	Ladders and scaffolds—General requirements for swinging scaffolds. [§§ G-1 through G-18, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-250	Spray coating of buildings, structures and outdoor spraying—Protection of person. [§§ V-1 through V-14, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-120	Ladders and scaffolds—Needle beam scaffolds. [§§ H-1 through H-21, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-255	Coating operations inside of buildings. [§§ W-1 through W-7, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-125	Ladders and scaffolds—Horse scaffold. [§§ I-1 through I-21, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-260	Electrical equipment. [§§ X-1 through X-17, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-130	Ladders and scaffolds—Plasterers' and decorators' inside scaffolds. [§§ J-1 through J-17, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-265	Air supply. [§§ Y-1 through Y-3, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-135	Ladders and scaffolds—Interior hung scaffolds. [§§ J-18 through J-24, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-270	Operation. [§§ Z-1 through Z-3, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-140	Ladders and scaffolds—Window jack scaffolds. [§§ K-1 through K-6, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-66-275	Maintenance. [§§ AA-1 through AA-5, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-145	Ladders and scaffolds—Crawling boards or chicken ladders. [§§ L-1 through L-6, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	Appendix	Illustrations 1 thru 10. [Appendix, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.
296-66-150	Ladders and scaffolds—Ladder supported scaffolds. [§§ M-1 through M-9, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	Chapter 296-68	
296-66-155	Ladders and scaffolds—Ladder specifications—Definitions. [Definitions for ladder specifications, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	SAFETY STANDARDS—POWER PROPELLED TRUCKS	
296-66-160	Ladders and scaffolds—Ladder material. [§ N-1, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-005	Preface. [Preface, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-165	Ladders and scaffolds—Step ladders. [§ N-2, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-010	Use of intoxicants. [Rule A-1, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-170	Ladders and scaffolds—Single ladders. [§ N-3, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-015	Employer's responsibility. [Rules B-1 through B-3, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-175	Ladders and scaffolds—Extension ladders. [§ N-4, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-020	Foreman's responsibility. [Rules C-1 through C-3, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-180	Ladders and scaffolds—Trestle and extension ladders. [§ N-5, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-025	Workman's responsibility. [Rules D-1 and D-2, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-185	Ladders and scaffolds—Painter's ladder. [§ N-6, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-030	State inspector. [Rules E-1 and E-2, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-190	Ladders and scaffolds—Extension trestles. [§ N-7, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-035	Safety meetings. [Rules F-1 through F-4, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-195	Ladders and scaffolds—Metal ladders. [§ N-8, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-040	First-aid instruction and treatment of injured. [Rules G-1 through G-3, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-200	Testing scaffold planks and stringers. [§§ O-1 through O-4, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	296-68-045	Safety standards—Relating to the use of power-propelled trucks used principally in warehouses and docks (housed)—Construction of equipment and operation thereof. [Rules 1 through 16, effective 4/1/38.] Repealed by Order 75-13, filed 4/4/75.
296-66-205	Care and use of ladders. [§§ P-1 through P-31, effective 11/1/48, filed 3/23/60.] Repealed by Order 76-29, filed 9/30/76.	Chapter 296-70

- 296-306A-36005 What does this part cover? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36005, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36010 What definitions apply to this part? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36010, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-362 General electrical requirements. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-362, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36203 What electrical equipment must be approved? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36203, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36206 How must electrical equipment safety be determined? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36206, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36209 What requirements apply to guarding live parts? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36209, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36212 What workspace must be provided? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36212, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36215 What general requirements apply to splices? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36215, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36218 What protection must be provided against combustible materials? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36218, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36221 How must electrical equipment be marked? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36221, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36224 How must disconnecting means be marked? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36224, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36227 What access and working space must be provided for electrical equipment of 600 volts, nominal, or less? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36227, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36230 What access and working space must be provided for electrical equipment over 600 volts, nominal? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36230, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-364 Electrical installation and maintenance. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-364, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36403 How must flexible cords and cables be installed and maintained? [Statutory Authority: RCW 49.17.040,

- [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36403, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36406 How must attachment plugs and receptacles be installed and maintained? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36406, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36409 What must employees do when equipment causes electrical shock? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36409, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36412 What grounding and bonding requirements apply to equipment installation and maintenance? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36412, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36415 What requirements apply to disconnecting means? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36415, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36418 What requirements apply to identification and load rating of electrical equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36418, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36421 How must equipment be installed in wet locations? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36421, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-366 Wiring design and protection. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-366, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36603 How must grounded and grounding conductors be used and identified? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36603, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36606 What ampere rating must outlet devices have? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36606, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36609 What requirements apply to conductors? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36609, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36612 What design and protection requirements apply to service-entrances? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36612, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36615 What overcurrent protection must be provided? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36615, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36618 What premises wiring systems must be grounded? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36618, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36621 Must the conductor be grounded for AC premises wiring? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36621, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36624 What general requirements apply to grounding conductors? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36624, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36627 Must the path to ground be continuous? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36627, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36630 What supports, enclosures, and equipment must be grounded? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36630, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36633 How must fixed equipment be grounded? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36633, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36636 How must high voltage systems be grounded? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36636, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-368 Wiring methods, components, and equipment for general use. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-368, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36803 Does this section apply to factory-assembled equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36803, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36806 What wiring methods must be used for temporary wiring? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36806, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36809 When may cable trays be used? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36809, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36812 What requirements apply to open wiring on insulators? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36812, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36815 What wiring requirements apply to cabinets, boxes, and fittings? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36815, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36818 What requirements apply to switches? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36818, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36821 Where must switchboards and panelboards be located? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36821, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36824 When must conductors be insulated? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36824, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36827 When may flexible cords and cables be used? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36827, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36830 How must flexible cords and cables be identified, spliced, and terminated? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36830, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36833 What requirements apply to multiconductor portable cable? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36833, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36836 When may fixture wires be used? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36836, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36839 What requirements apply to wiring for lighting fixtures, lampholders, lamps, and receptacles? [Statutory

- Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36839, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36842 What requirements apply to wiring for receptacles, cord connectors, and attachment plugs (caps)? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36842, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36845 What requirements apply to wiring for appliances? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36845, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36848 What requirements apply to wiring for motors, motor circuits, and controllers? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36848, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36851 What requirements apply to wiring for transformers? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36851, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36854 What requirements apply to wiring for capacitors? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36854, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36857 How must storage batteries be ventilated? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36857, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-36860 What other miscellaneous requirements apply to wiring methods? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-36860, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.

- 296-306A-43523 How must containers be charged? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-43523, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-43525 What fire protection must be provided for mobile cook units? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-43525, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-440 LP-gas service stations. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-440, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44001 What does this section cover? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44001, filed 10/31/96, effective

- 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44003 How must storage containers be designed and classified? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44003, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44005 What requirements apply to valves and accessories? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44005, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44007 What requirements apply to safety devices? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44007, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44009 What is the maximum capacity allowed for containers? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44009, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44011 How must storage containers be installed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44011, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44013 What equipment must be protected against tampering? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44013, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44015 What requirements apply to the transport truck unloading point? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44015, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44017 What requirements apply to piping, valves, and fittings? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44017, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44019 What requirements apply to pumps and accessory equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44019, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44021 What requirements apply to LP-gas dispensing devices? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44021, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44023 Is smoking allowed at LP-gas service stations? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44023, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-44025 What fire protection must be provided at LP-gas service stations? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-44025, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-450 Other hazardous materials. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-450, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45001 What general requirements apply to hazardous materials and flammable and combustible liquids? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45001, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45003 What requirements apply to dip tanks containing flammable or combustible liquids? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45003, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45005 What definitions apply to this section? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45005, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45007 What requirements must ventilation systems meet? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45007, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45009 What general requirements apply to the construction of dip tanks? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45009, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45011 How must overflow pipes for dip tanks be constructed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45011, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45013 How must the bottom drains of dip tanks be constructed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45013, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45015 How must liquids used in dip tanks be stored and handled? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45015, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45017 What measures must an employer take to prevent hazards from electrical and other ignition sources? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45017, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45019 How must dip tanks be operated and maintained? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45019, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45021 What requirements must fire extinguishing systems meet? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45021, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45023 What requirements apply to hardening and tempering tanks? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45023, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45025 What requirements apply to flow coat applications? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45025, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45027 What requirements apply to electrostatic apparatus? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45027, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-45029 What requirements apply to roll coating applications? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-45029, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-475 Welding, cutting, and brazing. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-475, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-47501 What definitions apply to this part? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-47501, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-480 Installation and operation of oxygen fuel gas systems for welding and cutting. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-480, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48001 What general requirements apply to oxygen fuel gas systems? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48001, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48003 What requirements apply to portable cylinders? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48003, filed

- 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48005 What general requirements apply to storing compressed gas cylinders? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48005, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48007 How must fuel-gas cylinders be stored? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48007, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48009 How must oxygen cylinders be stored? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48009, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48011 What general operating procedures apply to working with cylinders and containers? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48011, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48013 What requirements apply to safety devices on cylinders? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48013, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48015 How must cylinders be transported? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48015, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48017 How must cylinders be handled? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48017, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48019 What requirements apply to cylinder valves? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48019, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48021 What requirements apply to cylinder regulators? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48021, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48023 What requirements apply to fuel-gas manifolds? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48023, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48025 What requirements apply to high pressure oxygen manifolds? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48025, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48027 What requirements apply to low pressure oxygen manifolds? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48027, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48029 What requirements apply to manifolding portable outlet headers? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48029, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48031 What operating procedures apply to cylinder manifolds? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48031, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48033 How must service piping systems be designed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48033, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48035 What requirements apply to piping joints? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48035, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48037 How must service piping systems be installed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48037, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48039 How must service piping systems be painted and marked? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48039, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48041 How must service piping systems be tested? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48041, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48043 How must equipment be installed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48043, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48045 How must service piping systems be protected? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48045, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48047 What requirements apply to piping protective equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48047, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48049 What requirements apply to station outlet protective equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48049, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48051 What requirements apply to hose and hose connections? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48051, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48053 What requirements apply to pressure-reducing regulators? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48053, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-485 Installation and operation of resistance welding equipment. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-485, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48501 What general requirements apply to resistance welding equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48501, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48503 What requirements apply to portable welding machines? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48503, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48505 What requirements apply to flash welding equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48505, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48507 Who must perform a job hazard analysis? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48507, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-48509 What maintenance requirements apply to resistance welding equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-48509, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-490 Application, installation, and operation of arc welding and cutting equipment. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-490, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49001 What environmental conditions must be taken into account when selecting arc welding equipment? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49001, filed

- 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49003 What voltages must arc welding equipment use? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49003, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49005 How must arc welding equipment be designed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49005, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49007 How must arc welding equipment be installed? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49007, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49009 How must arc welding equipment be grounded? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49009, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49011 What requirements apply to supply connections and conductors? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49011, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49013 How must arc welding equipment be operated? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49013, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49015 How must arc welding equipment be maintained? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49015, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-495 Fire prevention and protection. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-495, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49501 What basic fire prevention precautions must be taken? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49501, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49503 What special fire prevention precautions must be taken? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49503, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49505 What precautions must be taken when welding or cutting containers? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49505, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-49507 What precautions must be taken when welding in confined spaces? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-49507, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-500 Protection of employees. [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-500, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50001 How must eye protection be selected? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50001, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50003 What specifications must eye protection meet? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50003, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50005 What protective clothing must welders wear? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50005, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50007 What other requirements apply to employee protection? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50007, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50009 What employee protection must be provided in confined spaces? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50009, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50011 What general requirements apply to welding ventilation? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50011, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50013 What ventilation must be provided for general welding and cutting? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50013, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50015 What requirements apply to local exhaust hoods and booths? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50015, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50017 What ventilation must be provided in confined spaces? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50017, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50019 What requirements apply to welding fluorine compounds? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50019, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50021 What requirements apply to welding zinc? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50021, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50023 What requirements apply to welding lead? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50023, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50025 What requirements apply to welding beryllium? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50025, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50027 What requirements apply to welding cadmium? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50027, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-50029 What requirements apply to welding mercury? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-50029, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-520 Powered industrial trucks (forklifts). [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-520, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-52001 What does this section cover? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-52001, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-52003 What is a "powered industrial truck"? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-52003, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-52005 What manufacturers requirements apply to powered industrial trucks? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-52005, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-52007 What are the classifications of powered industrial trucks? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-52007, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.
- 296-306A-52009 What must a user consider before choosing a powered industrial truck? [Statutory Authority: RCW

	49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-52009, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.		
296-306A-52011	What requirements determine which trucks to use in specific hazardous environments? [Statutory Authority: RCW 49.17.040, [49.17.]050 and [49.17.]060. 96-22-048, § 296-306A-52011, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97.	296-306A-52043	296-306A-52041, filed 10/31/96, effective 12/1/96.] Decodified by 97-09-013, filed 4/7/97, effective 4/7/97. What requirements apply to loading powered industrial trucks? WAC 296-05-001 Purpose, scope, and authority. (1)

The Washington State Apprenticeship and Training Act (chapter 49.04 RCW) establishes the Washington state apprenticeship and training council (WSATC) and designates as its administrative arm the apprenticeship section of the department of labor and industries. The WSATC, acting in compliance with chapter 49.04 RCW, 29 CFR Part 29 and 29 CFR Part 30, has adopted these rules to:

- (a) Establish operating procedures for the WSATC;
- (b) Establish standards for apprenticeship programs;
- (c) Implement the intent and purpose of the Washington State Apprenticeship and Training Act;
- (d) Perform other duties directed by the statute;
- (e) Promote labor standards and the registration of approved programs to protect the welfare of the apprentice; and

(f) Encourage the establishment of apprenticeship programs and committees.

(2) These rules are necessary to:

(a) Strengthen apprenticeship and training in the state of Washington;

(b) Facilitate approval and registration of apprenticeship and training programs;

(c) Explain factors related to apprenticeship and training in Washington state and federal laws;

(d) Establish procedures for presenting matters to the WSATC;

(e) Govern the WSATC's operation and ability to carry out its statutory obligations;

(f) Establish a specific procedure to resolve an impasse if a tie vote occurs on the WSATC; and

(g) Regulate registered apprenticeship and training programs.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-001, filed 10/31/01, effective 1/17/02.]

WAC 296-05-003 Definitions. The following definitions apply to this chapter:

Adjudicative proceeding: A proceeding before the WSATC in which an opportunity for a hearing before the WSATC is authorized by chapter 49.04 RCW or these rules before or after the entry of an order by the WSATC.

Apprentice: Is an individual who is employed to learn an apprenticeable occupation and is registered with a sponsor in an approved apprenticeship program according to chapter 49.04 RCW and these rules.

Apprenticeable occupation: Is a skilled trade(s) or craft(s) which has been recognized by the United States Department of Labor, Office of Apprenticeship, Training, Employer, and Labor Services or the WSATC and meets the criteria established in WAC 296-05-305.

Apprenticeship agreement: A written agreement between an apprentice and either the apprentice's employer(s), or an apprenticeship committee acting as agent for employer(s), containing the terms and conditions of the employment and training of the apprentice.

Apprenticeship committee: A quasi-public entity approved by the WSATC to perform apprenticeship and training services for employers and employees.

Apprenticeship program: A plan for administering an apprenticeship agreement(s). The plan must contain all terms and conditions for the qualification, recruitment, selection, employment and training of apprentices, including such matters as the requirement for a written apprenticeship agreement.

Approved: Approved by the WSATC or a person or entity authorized by the WSATC to do so.

CFR: The Code of Federal Regulations.

Cancellation: The termination of the registration or approval status of a program at the request of the supervisor or sponsor. Cancellation also refers to the termination of an apprenticeship agreement at the request of the apprentice, supervisor, or sponsor.

Certificate of completion: A record of the successful completion of a term of apprenticeship (see WAC 296-05-323).

Certification: Written approval by the WSATC of:

(1) A set of apprenticeship standards established by an apprenticeship program sponsor and substantially conforming to the standards established by the WSATC.

(2) An individual as eligible for probationary employment as an apprentice under a registered apprenticeship program.

Committee program: All apprenticeship programs as further described in WAC 296-05-309.

Competent instructor: An instructor who has demonstrated a satisfactory employment performance in his/her occupation or trade for a minimum of three years beyond the customary learning period for that trade or occupation.

Current instruction: The related/supplemental instructional content is and remains reasonably consistent with the latest trade practices, improvements, and technical advances.

Department: The department of labor and industries.

Employer: Any person or organization employing an apprentice whether or not such person or organization is a party to an apprenticeship agreement with the apprentice. "Employer" includes both union and open shop employers.

File: To send to:

Supervisor of Apprenticeship and Training
Department of Labor and Industries
Apprenticeship Section
Post Office Box 44530
Olympia, Washington 98504-4530

Or deliver to and receipt at:
Department of Labor and Industries
7273 Linderson Way SE
Tumwater, Washington 98501

Individual agreement: A written agreement between an apprentice and/or trainee and either the apprentice's employer or an apprenticeship committee acting as agent for the employer.

Industry wide standards: The current, acceptable trade practices, including technological advancements, that are being used in the different trades.

Journey level: An individual who has sufficient skills and knowledge of a trade, craft, or occupation, either through formal apprenticeship training or through practical on-the-job work experience, to be recognized by a state or federal registration agency and/or an industry as being fully qualified to perform the work of the trade, craft, or occupation. Practical experience must be equal to or greater than the term of apprenticeship.

On-the-job training program: A program that is set up in the same manner as an apprenticeship program with any exceptions authorized by the WSATC and as further described in WAC 296-05-311.

Notice: Where not otherwise specified, notice means posted in United States mail to the last known address of the person to be notified. Notice may be given by telefacsimile

where copies are mailed simultaneously or by a commercial parcel delivery company.

Petitions, requests, and correspondence: Any written business brought before the WSATC (examples may include: (1) Requests for new committees; (2) Requests for revisions to the standards; and (3) Appeals).

Probation: (1) Initial: The period following the apprentice's acceptance into the program which is limited in time by these rules and during which the apprentice's appeal rights are impaired. (2) Disciplinary: A time assessed when the apprentice's progress is not satisfactory. During this time the program sponsor may withhold periodic wage advancements, suspend or cancel the apprenticeship agreement, or take further disciplinary action. A disciplinary probation may only be assessed after the initial probation is completed. During the disciplinary probation, the apprentice has the right to file an appeal of the committee's action with the WSATC (as described in WAC 296-05-009).

RCW: The Revised Code of Washington.

Registration: Maintaining the records of apprenticeship and training agreements and of training standards.

Regular quarterly meeting: A public meeting held quarterly by the WSATC as described in WAC 296-05-200.

Related/supplemental instruction: Is instruction approved by the program sponsor and taught by an instructor approved by the program sponsor. Instructors must be competent in his/her trade or occupation. A sponsor must review related/supplemental instruction annually to insure that it is relevant and current.

Relevant instruction: Is related/supplemental instructional content that is directly required in and applicable to the performance of the apprentice's work. Relevant does not mean academic course content taught by a solely academically qualified instructor except for courses approved by the committee or specified by state law.

Secretary: The individual appointed by the director of the department according to RCW 49.04.030.

Special meeting: A public meeting of the council as described in WAC 296-05-203.

Sponsor: Any person, firm, association, committee, or organization operating an apprenticeship and training program and in whose name the program is registered or is to be registered.

Standards: Is a written agreement containing specific provisions for operation and administration of the apprenticeship program and all terms and conditions for the qualifications, recruitment, selection, employment, and training of apprentices, as further defined in WAC 296-05-316.

Supervision: The necessary education, assistance, and control provided by a journey-level employee that is on the same job site at least seventy-five percent of each working day, unless otherwise approved by the WSATC.

Supervisor: The individual appointed by the director of the department according to RCW 49.04.030 who acts as the secretary of the WSATC. Where these rules indicate a duty of the supervisor or secretary of the WSATC, the supervisor may designate a department of labor and industries' employee to assist in the performance of those duties subject to the supervisor's oversight and direction.

Trade: Any apprenticeable occupation defined by the apprenticeship, training, employer and labor services section of the United States Department of Labor and these rules.

Trainee: An individual registered with the supervisor according to WAC 296-05-311.

Training agent: Employer of registered apprentices approved by the program sponsor to furnish on-the-job training to satisfy the approved apprenticeship program standards who agrees to employ registered apprentices in that work process. The training agent shall use only registered apprentices to perform the work processes of the approved program standards.

Training agreement: A written agreement between a training agent and a program sponsor that contains the provisions of the apprenticeship program applicable to the training agent and the duties of the training agent in providing on-the-job training.

WAC: The Washington Administrative Code.

WSATC: The Washington state apprenticeship and training council.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW 01-22-055, § 296-05-003, filed 10/31/01, effective 1/17/02.]

WAC 296-05-005 Rule development. (1) In developing and adopting rules, the WSATC:

(a) Seeks the cooperation and assistance of all interested persons, organizations, and agencies affected by its rules.

(b) Promotes the operation of apprenticeship programs to satisfy the needs of employers and employees for high quality training.

(c) Recognizes that rapid economic and technological changes require that workers must be trained to meet the demands of a changing marketplace.

(d) Recognizes employers will benefit if graduates of state approved apprenticeship programs are skilled workers trained to industry wide standards rather than the exclusive standards of an individual employer or group of employers.

(e) Acknowledges that approved apprenticeship programs should be organized and administered to assure the maximum protection of apprentices' rights.

(f) Recognizes that the number of apprentices in a trade or group of trades in any geographic area must be sufficient to meet the needs of all employers and not be so large as to create an oversupply of apprentices.

(g) Promotes comprehensive training and a variety of work experiences relevant to the occupations. Seeks to assure that during the approval process all apprenticeship standards are open to all employers on an equal and nondiscriminatory basis.

(h) Recognizes that quality training, equal treatment of apprentices, and efficient delivery of apprenticeship training are best provided by registered apprenticeship programs.

(2) All amendments to this chapter must be developed and adopted according to the provisions of chapter 49.04 RCW, Apprenticeship Act; chapter 34.05 RCW, Administrative Procedure Act; and Executive Order 97-02. All proposed amendments to these rules must be approved by a two-thirds majority vote of regular WSATC members before they are published for public hearing. All WSATC members, the

apprenticeship supervisor, committees and any other interested parties must be promptly notified, in writing, of any proposed rule amendments, public hearings on proposed rule amendments and new rule adoptions.

(3) The specific procedure(s) and form(s) for petitions requesting the making, amendment, or repeal of a rule are in chapter 34.05 RCW, as are the specific procedure and form for requesting declaratory rulings.

(4) Such petitions and requests must be addressed to:

The Washington State Apprenticeship and Training Council
Attention: Supervisor of Apprenticeship and Training
Department of Labor and Industries
Post Office Box 44530
Olympia, Washington 98504-4530

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-005, filed 10/31/01, effective 1/17/02.]

WAC 296-05-007 Rules of procedure. All hearings and adjudication, under chapter 49.04 RCW and these rules, shall be conducted according to chapter 34.05 RCW, the Administrative Procedure Act and chapter 10-08 WAC, Model Rules of Procedure. The chair (or vice-chair in the chair's absence) is the presiding officer for adjudicative proceedings, held before the WSATC. The WSATC may either adjudicate matter(s) themselves or refer matter(s) to the office of administrative hearings for initial adjudication.

If the initial adjudication is before the WSATC, the WSATC will enter a final order. If the initial adjudication has been held at the office of administrative hearings, the administrative hearings judge shall issue an initial order. The WSATC, upon review of the initial order shall enter the final order. An initial order shall become final without further WSATC action five working days after the next regular quarterly meeting unless:

(1) The WSATC upon its own motion determines that the initial order should be reviewed; or

(2) A party to the proceedings files a petition for review of the initial order.

The WSATC may appoint a person to review the initial order and prepare and enter the final WSATC order.

[Statutory Authority: RCW 49.04.010 and 2001 c 204 (SHB 1234). 02-10-083, § 296-05-007, filed 4/29/02, effective 6/1/02. Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-007, filed 10/31/01, effective 1/17/02.]

WAC 296-05-009 Complaint review procedures. If a local committee or other organization administering the agreement cannot satisfactorily resolve a complaint, any apprentice who has completed his/her initial probationary period may submit the complaint to the apprenticeship program for resolution. Complaints that involve matters covered by a collective bargaining agreement are not subject to the complaint review procedures in this section. The investigation or review of any controversy by the supervisor or the WSATC will not affect any action taken or decision made by a committee or other organization until a final decision resolving the matter is issued.

(1) Within thirty days of the action leading to the complaint, the apprentice must request the local committee or other organization to reconsider action.

(2003 Ed.)

(2) The local committee or other organization must, within thirty days of the apprentice's request, provide written notification to the apprentice of its decision on the request for reconsideration. This notification shall be considered the final action of the committee.

(3) If the apprentice chooses to pursue the complaint further, the apprentice must submit a written complaint describing the controversy to the supervisor of the apprenticeship division within thirty days of the final action taken on the matter by the local committee or other organization. The written complaint must be specific and include all relevant facts and circumstances contributing to the complaint. Any documents or correspondence relevant to the complaint must be attached to the complaint. The apprentice must send a copy of the complaint to the interested local committee or other organization.

(4) The supervisor must investigate complaints received from an apprentice. The supervisor must complete the investigation within thirty working days. During the investigation, the supervisor must attempt to effect a settlement between the parties. During the investigation the apprentice and the committee or other organization must fully cooperate with the supervisor by providing any relevant information or documents requested. The supervisor may delegate the investigation to any employee in the apprenticeship division. If the controversy is not settled during the investigation, the supervisor must issue a written decision resolving the controversy when the investigation is concluded.

(5) If the apprentice, committee or other organization is dissatisfied with the decision of the supervisor, they may request the WSATC to review the decision. The request must be in writing and made within thirty days of the supervisor's decision. It must specify the reasons supporting the request. The party requesting review must provide a copy of the request to the other parties involved in the controversy. The WSATC must conduct an informal hearing to consider the request for review of the supervisor's decision. Unless special circumstances dictate, the hearing must be held in conjunction with the regular quarterly meeting.

At the hearing, the WSATC must review the supervisor's decision and all records of the investigation. The WSATC may also accept testimony or documents from any person, including the supervisor and the supervisor's staff, who has knowledge relating to the controversy. Parties at the informal hearing may be represented by counsel and may, at the WSATC's discretion, present argument concerning the controversy. The WSATC must not apply formal rules of evidence.

(6) Within thirty days after the hearing, the WSATC must issue a written decision resolving the controversy. The WSATC's decision may be to affirm the decision of the supervisor. In that case, the supervisor's decision becomes the decision of the WSATC. All parties to the informal hearing must be sent a copy of the WSATC's decision. The chair may sign the decision for the WSATC.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-009, filed 10/31/01, effective 1/17/02.]

WAC 296-05-011 Compliance reviews. (1) The purpose of a compliance review is to systematically and periodically

[Title 296 WAC—p. 125]

cally review apprenticeship programs to ensure that the sponsor is complying with the approved program standards and these rules. Compliance reviews consist of a comprehensive analysis and evaluations of each aspect of the apprenticeship program. They must include on-site investigations and audits.

(2) A compliance review may be required:

(a) For all existing programs on a regular and comprehensive basis.

(b) When the WSATC receives a complaint, which has not been referred to a private review body. (See WAC 296-05-009.)

(c) When a sponsor seeks to reregister a program.

(d) When a sponsor seeks to register a new program.

(3) If a compliance review indicates that the sponsor is not operating as required by these rules, the supervisor must notify the sponsor in writing of the results of the review. The supervisor must:

(a) Make a reasonable effort to secure voluntary compliance on the part of the program sponsor within a reasonable time before penalizing as authorized in WAC 296-05-013.

(b) Provide recommendations to the sponsor to assist in achieving compliance.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-011, filed 10/31/01, effective 1/17/02.]

WAC 296-05-013 Sanctions for noncompliance. The WSATC is responsible to take the necessary action to bring a noncomplying program into compliance with these rules.

When the apprenticeship supervisor, based upon a compliance review or other reason, concludes that an apprenticeship program is not in compliance with the rules of this chapter and that the sponsor will not take voluntary corrective action, the WSATC must:

(1) Institute proceedings to withdraw the program registration;

(2) Refer the matter to the equal employment opportunity commission;

(3) Refer the matter to the attorney general with recommendations for the institution of a court action under Title VII of the Civil Rights Act of 1964, as amended; or

(4) Refer the matter to the attorney general for other court action as authorized by law.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-013, filed 10/31/01, effective 1/17/02.]

PART A—WSATC MEMBERS—COMPOSITION, OFFICERS, AND DUTIES

WAC 296-05-100 WSATC composition. (1) The director of the department appoints three voting representatives each from employer and employee organizations, respectively. Each member shall be appointed for a three-year term.

(2) The governor shall appoint, subject to confirmation by the senate, a voting public member for a three-year term.

(3) The WSATC may also include ex officio members. These members have the right to participate in the discussion of any matter before the council but they may not vote.

(4) An appointed member shall remain on the council until replaced by a qualified successor. When a vacancy does

occur, it shall be filled for the remaining portion of the vacated term.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-100, filed 10/31/01, effective 1/17/02.]

WAC 296-05-103 Officers. (1) To carry out the business of the WSATC and to conduct business efficiently the WSATC has three officers:

- Chair;
- Vice-chair; and
- Secretary.

(2) The chair and vice-chair shall be elected by majority vote of the WSATC members present. This election will take place in odd-numbered years at the April regular quarterly meeting. They shall hold office for a term of two years and until the successor(s) are elected, or until death, resignation, or incapacitation. The supervisor of apprenticeship shall be the secretary of the WSATC.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-103, filed 10/31/01, effective 1/17/02.]

WAC 296-05-105 Officer duties. (1) The chair shall preside over all meetings, conducting them in accordance with *Robert's Rules of Order* as modified by these rules and regulations. The chair may vote in all matters before the WSATC as a regular member and may participate in discussion of all matters before the WSATC. The chair may also have other powers and duties that are provided in these rules; and are usual or necessary with the office of the chair; and as provided in *Robert's Rules of Order*.

(2) The vice-chair shall preside over all WSATC meetings in the absence of the chair. When presiding, the vice-chair shall have all of the powers and duties of the chair.

(3) The secretary, with the assistance of a recording secretary, must take and keep minutes of all special and regular meetings on file in the supervisor's office. The secretary must forward copies of minutes of all meetings to all regular and ex officio members of the WSATC. The secretary must also make copies of the minutes of all meetings available to the public upon written request. The secretary may also have other powers and duties that are provided in these rules or are usual or customary to the office of secretary; and as provided in *Robert's Rules of Order*.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-105, filed 10/31/01, effective 1/17/02.]

WAC 296-05-107 Additional duties for the supervisor-administrator of WSATC. (1) In addition to being the council secretary, the apprenticeship supervisor (supervisor) is the WSATC administrator. As WSATC administrator, the supervisor must:

(a) Perform the duties listed in RCW 49.04.030;

(b) Register all apprenticeship agreements that comply with the rules in this chapter;

(c) Review apprenticeship programs and recommend cancellation of any committee program, or plant program previously registered which is not operated in conformity with its apprenticeship standards; and

(d) Receive all documents concerning apprenticeship or training agreements (including revisions to) or any other matters affecting apprenticeship or training.

All written correspondence to the supervisor should be addressed to:

Supervisor of Apprenticeship and Training
Department of Labor and Industries
Apprenticeship Section
P.O. Box 44530
Olympia, Washington 98504-4530

(2) The supervisor and the supervisor's staff:

(a) May be consulted on any matters concerning apprenticeship and training and will provide on request, any information concerning apprenticeship and training available to them.

(b) Will conduct systematic reviews of the operation of all programs and investigate any discrepancies between the actual and required operations of any program. The supervisor will notify the noncompliant committee of any violation.

(c) May recommend sanctions including cancellation of a program not in compliance with its approved program standards.

(d) Assists in the resolution of any complaints against committees or other organizations administering apprenticeship agreements, which have been filed with the WSATC by apprentice(s) who have completed his/her initial probationary period.

(e) Must investigate any discrepancies of all complaints as specified in WAC 296-05-009.

(f) Conducts compliance reviews as specified in WAC 296-05-011.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-107, filed 10/31/01, effective 1/17/02.]

WAC 296-05-109 Merit awards. The WSATC may issue awards when appropriate.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-109, filed 10/31/01, effective 1/17/02.]

PART B—WSATC MEETINGS—TYPES, PROCEDURES, AND CONDUCT

WAC 296-05-200 Regular meetings. (1) Each year, regular meetings of the WSATC shall be convened on the third Thursday of January, April, July, and October. These regular quarterly meetings shall be held at locations within the state of Washington. All meetings are open to the general public.

(2) Notice of each regular quarterly meeting shall be given to all:

- WSATC members;
- Ex officio members; and
- Approved program sponsors.

In addition, notices of meetings may be sent to all persons, organizations, agencies, or interested parties whose presence is desired and to any newspaper, news service, television, radio station, or other interested parties who have requested notices of WSATC meetings. The supervisor must

(2003 Ed.)

distribute the notice of the regular meeting at least thirty days prior to the meeting date.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-200, filed 10/31/01, effective 1/17/02.]

WAC 296-05-203 Special meetings. (1) Special meetings of the WSATC may be called at the request of the chair or by a majority of the WSATC members. To call a special meeting, a written notice of the meeting must be personally delivered or mailed to:

- Each member of the WSATC;
- All approved program sponsors; and
- Each general circulation newspaper, television or radio station which has on file with the WSATC or the supervisor a written request to be notified of special meetings.

In addition, notices of meetings may be sent to all persons, organizations, agencies, or interested parties whose presence is desired.

(2) To be valid, the written notice must list the date, time and location of the meeting and specify the business to be transacted by the WSATC. The WSATC cannot take final action on any matter that is not specified in the written notice. Special meetings must be open to the general public and adhere to the same open meeting requirements that apply to the regular quarterly WSATC meetings.

(3) Notices of special meetings must be delivered personally or by mail at least twenty-four hours before the specified time of the meeting.

(4) The exception is when a special meeting is called to consider rule changes according to chapter 34.05 RCW. In this case, the notice of the special meeting must be delivered at least twenty days before the time specified in the notice.

(5) If the notice requirements in this section are not followed, any action taken by the WSATC at the special meeting will be null and void. However, the notice requirements can be waived if each regular WSATC member signs a written waiver of notice, at or prior to the meeting, and files it with the supervisor. With this filing, the notice shall be considered waived by any WSATC member present when the meeting convenes. Rule changes may not be made at special meetings where the notice requirements have been waived unless the requirements of chapter 34.05 RCW have been satisfied.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-203, filed 10/31/01, effective 1/17/02.]

WAC 296-05-205 Petitions, requests, and correspondence submitted to the WSATC. (1) For the WSATC to act upon petitions or requests at a regular quarterly meeting, the petitions or requests must be submitted in writing to the supervisor at least forty-five days prior to the date of the regular quarterly meeting. Any petitions or requests not submitted forty-five days prior to a quarterly meeting must be deferred to the next regular quarterly meeting. If a petition or request is deferred, the supervisor must notify the petitioner.

(2) Generally, correspondence not related to apprenticeship and training agreements and meetings, petitions and requests, must be submitted in writing to the supervisor of apprenticeship at least fifteen working days before the quarterly meeting at which the WSATC's consideration is

requested. However, if the WSATC determines that the correspondence is crucial to any deliberations regarding approval or disapproval of an apprenticeship agreement, the supervisor may waive this fifteen-day requirement.

(3) Noncrucial correspondence submitted less than fifteen working days before the quarterly meeting must be considered by the WSATC at the next quarterly meeting.

(4) When an apprenticeship committee petitions the council or the supervisor, only the signature of the elected chair and secretary of the committee shall be accepted as a valid signature unless the petitioning committee has asked the council to recognize and accept the signature of another person. A petition requesting the recognition of a signature other than that of the elected chair and secretary must be signed by a quorum of the members from the petitioning committee.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-205, filed 10/31/01, effective 1/17/02.]

WAC 296-05-207 Other regulations that apply to council meeting conduct. (1) All council meetings must be open to the general public. Members of the public cannot be required to register his/her name, give any information, or fulfill any condition prior to attending council meetings. All council meetings must be conducted according to the provisions of chapter 42.30 RCW, the Open Public Meetings Act and chapter 34.05 RCW, the Administrative Procedure Act. The following WSATC activities must take place in open public meetings:

- All transactions of official business;
- All commitments or promises;
- All collective discussions;
- All collective decisions; and
- All council actions.

(2) The approval or disapproval of committee programs, plant programs, or amendments to those programs can only occur at regular quarterly meetings.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-207, filed 10/31/01, effective 1/17/02.]

WAC 296-05-209 Voting. (1) A quorum is two-thirds of the WSATC members entitled to vote.

(2) All council members appointed by either the director or the governor are voting members of the council. Ex officio members may not vote on any issue.

(3) To resolve tie votes, the chair shall establish a standing tie-breaker committee. The committee shall be comprised of an employer representative, an employee representative, and the public member on the WSATC. In case of a tie vote on any proposed standards brought before the WSATC, the tie-breaker committee shall meet or confer, review the record, and render a decision within thirty days. The supervisor or a designee of the supervisor shall act as secretary to the committee and furnish all information necessary for a decision.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-209, filed 10/31/01, effective 1/17/02.]

[Title 296 WAC—p. 128]

WAC 296-05-211 Rules of order. *Robert's Rules of Order* shall prevail at all meetings unless otherwise provided for by these rules.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-211, filed 10/31/01, effective 1/17/02.]

WAC 296-05-213 Retroactivity. The WSATC may make any action or decision which it takes retroactive to the date of the previous business session.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-213, filed 10/31/01, effective 1/17/02.]

PART C—APPRENTICESHIP PROGRAMS— COMMITTEE, AGREEMENTS, TYPES, AND RECOGNITION

WAC 296-05-300 Apprenticeship and training programs—Approval. The WSATC is the body responsible for matters concerning apprenticeship and training in the state of Washington. The principal function of the WSATC is to approve, register, and regulate apprenticeship and training agreements. Persons or organizations desiring to institute an apprenticeship or training program must follow these steps:

(1) Organize an apprenticeship and training committee according to WAC 296-05-303 and file affidavits with the WSATC requesting that the committee be recognized.

(2) Once the committee is recognized, it must propose standards conforming to these rules and to chapter 49.04 RCW. In addition, the standards must include the composition of the committee and general rules that it will follow in administering the program. (The apprenticeship supervisor and department apprenticeship coordinators are available to give assistance drafting standards.)

(3) These standards must be presented to the supervisor at least forty-five days before the regular quarterly meeting at which the WSATC is requested to consider such proposed standards.

(4) At the regular quarterly meeting, the proposed standards will be considered by the WSATC. The WSATC will:

- (a) Approve;
- (b) Approve provided the sponsor accepts the changes recommended by the WSATC; or
- (c) Disapprove.

At the regular quarterly meeting, the WSATC will allow changes to correct clerical errors. The addition of standard language will be allowed if authorized representatives of the sponsor are present and authorized to accept changes. At the regular quarterly meeting, the WSATC will not accept changes to the format, language, or provisions of the submitted program standards which are not reasonably consistent with previously approved program standards.

If the WSATC disapproves the standards, it shall direct the department to inform the sponsor in writing the reason for disapproval.

(5) Once the WSATC approves the program standards the committee is authorized to function and perform its duties as described in WAC 296-05-316.

(6) If a competitor objects to the proposed standards or proposed amendment(s) to existing standards, the WSATC

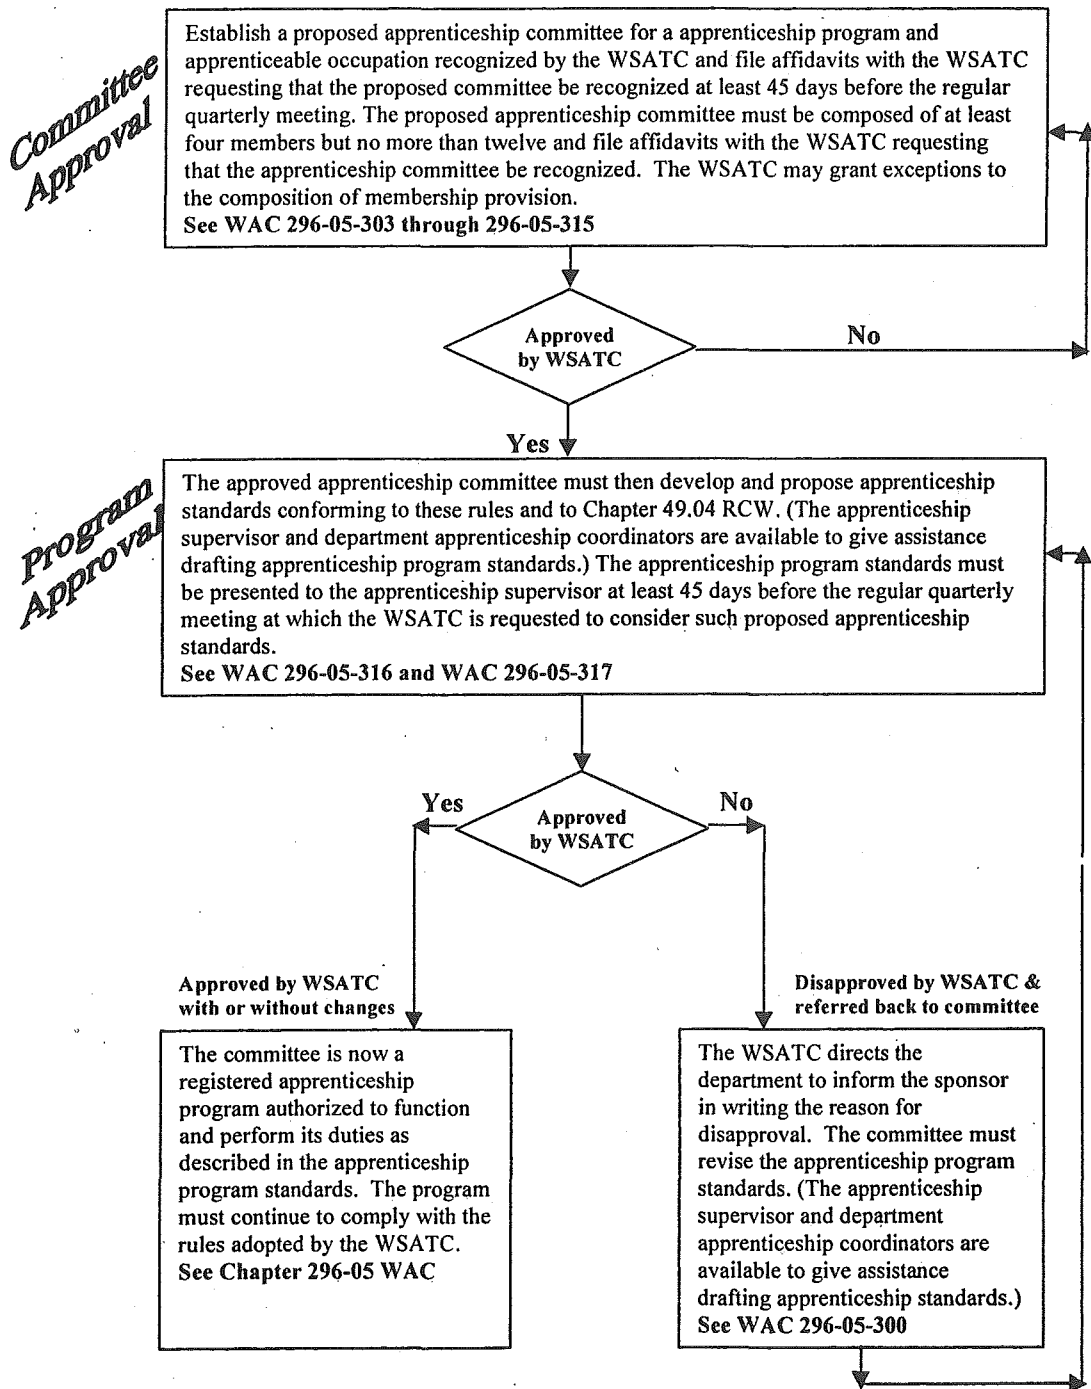

may either adjudicate the objection(s) with the proposed standards or refer the objection(s) with the proposed standards or proposed amendment(s) to existing standards to an administrative hearing as described in WAC 296-05-007. For purposes of this subsection "competitor" means a competing

apprenticeship program in a similar or subset of the trade, craft, or occupation within the geographic area served.

Apprenticeship Committee/Program Approval Process

Note: This flowchart represents the general process for apprenticeship committee/program approval and does not include exceptions and variations.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-302, filed 10/31/01, effective 1/17/02.]

WAC 296-05-303 Apprenticeship committees—Duties and responsibilities. (1) Apprenticeship committees are appointed according to the provisions of RCW 49.04.040 and are composed of at least four members but no more than twelve. However, the WSATC may grant exceptions to this provision.

(2) Chapter 49.04 RCW, these rules, and the approved standards under which a committee operates define the duties of an apprenticeship committee. Committees shall function, administer or relinquish authority only with the consent of the WSATC.

(3) A committee is responsible for:

- The day-to-day operations of the apprenticeship and training program;
- Operating the program according to WSATC approved standards;
- Accepting or rejecting applicants for apprenticeship or training;
- Registering approved applicants with the supervisor;
- Removing apprentices from the program as provided by the approved program standards;
- Informing the supervisor of any matters that affect the standing of individuals as apprentices; and
- Entering into agreements with other apprenticeship committees for the use of apprentices by training agents that are working outside their approved geographic area served.

The WSATC will only recognize apprentices registered with the supervisor.

(4) Committees approved by the WSATC must offer training opportunities on an equal basis to all employers and apprentices including all rights, appeals, and services available in the existing apprenticeship program. All existing committees that represent multiple employer or employer associations, except for committees that represent plant programs, are expected to provide access to apprenticeship and training opportunities to employers not currently participating in the program. Those opportunities must:

- Provide training at a cost equivalent to that incurred by currently participating employers and apprentices;
- Grant equal treatment and opportunity for all apprentices;
- Offer reasonable working and training conditions and apply those conditions to all apprentices uniformly and equally;
- Not require an employer to sign a collective bargaining agreement as a condition of participation in an apprenticeship program;
- Require all employers requesting "approved training agent" status to comply with an WSATC approved agreement and all federal and state apprenticeship rules and the appropriate apprenticeship standards. (The training agent shall employ only registered apprentices when training for that occupation or trade);
- Require sponsors, who approve "approved training agent" agreements, to furnish the department with a copy of the agreement and/or the list of approved training agents within thirty days of committee approval; and
- Require sponsors who rescind "approved training agent" agreements and/or the list of approved training agents

[Title 296 WAC—p. 130]

to notify the department that they have done so within thirty days of said action.

(5) If an existing committee fails to or refuses to offer apprenticeship and training opportunities to all employers, the WSATC may take action to remove the restrictions to access in order to comply with the intent of chapter 49.04 RCW and these rules. Action may include, but is not limited to, the decertification of the existing committee and recognition of a new committee.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-303, filed 10/31/01, effective 1/17/02.]

WAC 296-05-305 Apprenticeable occupations. An apprenticeable occupation is a skilled trade which possesses all of the following characteristics:

- (1) It is customarily learned in a practical way through related instruction and on-the-job supervised training.
- (2) It is clearly identified and commonly recognized throughout an industry.
- (3) It is not part of an occupation previously recognized by the registering agency as apprenticeable, unless such part is practiced industry wide as an identifiable and distinct trade.
- (4) It involves manual, mechanical, or technical skills and knowledge which require a minimum of two thousand hours of on-the-job work experience.
- (5) It requires a minimum of one hundred forty-four hours of related instruction per year to supplement on-the-job work experience.

(6) It involves skill sufficient to establish normal career sustaining employment for the length of the apprentice's work life. It entails technical and theoretical considerations which are susceptible to instruction within the period defined in the program standards.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-305, filed 10/31/01, effective 1/17/02.]

WAC 296-05-307 Types of apprenticeship agreements recognized by the WSATC. The WSATC acting according to RCW 49.04.060, recognizes the following types of written apprenticeship agreements (statements) that describe the apprenticeship training conditions:

- (1) Agreements between an association of employers and an organization of employees.
- (2) An agreement between an employer and an employee organization.
- (3) An employer's statement when there is no bona fide employee organization in the plant affected by the agreement.
- (4) An agreement between an apprenticeship program and an individual apprentice.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-307, filed 10/31/01, effective 1/17/02.]

WAC 296-05-309 Apprenticeship programs approved by the WSATC. The following apprenticeship programs may be approved by the WSATC. All the following programs with the exception of individual waiver programs must be administered by a committee.

(1) Group-joint, or area joint. A program where there is a labor organization. These programs are jointly sponsored by

(2003 Ed.)

a group of employers and a labor organization. They are administered by employer and employee representatives from an apprenticeship and training committee composed equally from management and labor.

(2) Individual-joint. A program where there is a labor organization. These programs are jointly sponsored by an individual employer and a labor organization. They are administered by employer and employee representatives from an apprenticeship and training committee composed equally from management and labor.

(3) Group nonjoint, or area group. A program where there is no labor organization. These programs are sponsored by an employer association(s) administered by an apprenticeship committee.

(4) Individual nonjoint. A program where there is no labor organization. These programs are sponsored and administered by an individual employer.

(5) Group waiver. These programs involve an employer association(s) and a labor organization. Either the employer group or the labor organization voluntarily waives participation in the program by notifying the other party in writing.

(6) Individual waiver. These programs involve an individual person, company, plant, firm, and a labor organization. Either management or labor voluntarily waives participation by notifying the other party in writing.

(7) Plant. A program for a single physical location or a group of physical locations owned by the sponsor. The WSATC, based on the authority in RCW 49.04.040, assumes jurisdiction and serves as the committee. The apprenticeship agreement must specify the number of required hours for completion of the apprenticeship. The hours specified must represent at least two thousand hours of reasonably continuous employment. That agreement must conform to the applicable provisions of chapter 49.04 RCW and these rules.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-309, filed 10/31/01, effective 1/17/02.]

WAC 296-05-311 On-the-job training programs. On-the-job training programs may be set up in the same manner as apprenticeship programs with any exceptions authorized by the WSATC. However, no on-the-job training program must be established or authorized where there is a parallel apprenticeship program in existence. An on-the-job training program shall be any program that requires two thousand or less hours of employment for completion. All of the rules in this chapter that apply to apprenticeship agreements and programs also apply to on-the-job training programs except on-the-job training programs will be approved by the supervisor subject to the review of the WSATC.

A sample standard for an on-the-job training program is available from the supervisor.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-311, filed 10/31/01, effective 1/17/02.]

WAC 296-05-313 Apprenticeship committees—Composition. (1) Apprenticeship committees must be composed of an equal number of management and nonmanagement representatives.

(2) For apprenticeship committees that represent one occupation, at least fifty percent of the members of commit-

tees must be occupationally qualified by education and experience in the specific occupation for which the committee is responsible. The committee must be able to verify the occupational qualifications of the members.

(3) For apprenticeship committees that represent multiple occupations, the committee members must either:

- Be occupationally qualified by education and experience in the specific occupations for which the committee is responsible and must be able to verify the occupational qualifications of the members; or

- Be known to represent the interests of the multiple occupations served.

(4) All committee members must be knowledgeable in the process of apprenticeship and/or the application of chapter 49.04 RCW and these rules.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-313, filed 10/31/01, effective 1/17/02.]

WAC 296-05-315 Nonjoint and waiver committees—Additional requirements. (1) The WSATC shall only recognize nonjoint and waiver standards for a specific occupation or directly related occupations.

(2) When multiple related occupations are approved on a single standard, each occupation shall be considered as an individual standard.

(3) Unrelated occupations shall be submitted under separate standards.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-315, filed 10/31/01, effective 1/17/02.]

WAC 296-05-316 Apprenticeship agreements—Standards requirements. The WSATC shall have the authority to develop, administer, and enforce program standards for the operation and success of an apprenticeship and training program.

The sponsor's proposed program standards must include a list of duties and responsibilities of the program sponsor reasonably consistent with other approved program standards.

All apprenticeship agreements must comply with the approved program standards, chapter 49.04 RCW, and these rules. The standards of apprenticeship agreements must include the following:

(1) A statement of the trade or craft to be taught and the required hours for completion of apprenticeship which must not be less than two thousand hours of reasonably continuous employment.

(2) A statement identifying the program sponsor, establishing the apprenticeship committee and enumerating the sponsor's and committee's duties and responsibilities. This statement must include provisions to:

(a) Elect a chair and a secretary from employer and employee representatives of the committee.

EXCEPTION: This provision is not necessary for a plant program.

(b) Convene at least three annual regular meetings of the program sponsor and apprenticeship committee. The meetings shall be at least three times per year, be attended by a quorum of committee members (as defined in the approved program standards), be documented with minutes which must

be periodically submitted to the department and made available to the WSATC upon request. Conference call meetings may be conducted in lieu of regular meetings but must not exceed the number of attended meetings and no disciplinary action shall be taken at conference call meetings.

(c) Determine need for apprentices in the area covered by the apprenticeship standards established under these rules. (Statistical analysis of workload projections, demographics, and information relating to expected workload growth are examples of ways the sponsor may demonstrate that the need for apprentices exists.)

(d) Establish minimum standards of education and skilled occupational experience required of apprentices.

(e) Rotate apprentices in the various processes of the skilled occupation to assure a well-rounded, competent worker.

(f) Determine the adequacy of an employer to furnish proper on-the-job training in accordance with the provisions of the approved standards.

EXCEPTION: This does not apply to plant programs.

(g) Recommend competent instructors and related/supplemental instruction in accordance with local vocational requirements.

(h) Recommend a course outline for related/supplemental instruction, as well as coordinate related/supplemental instruction with on-the-job work experience.

(i) Hear and adjust all complaints of violations of apprenticeship agreements.

(j) Adopt, as necessary, program rules to administer the apprenticeship program in compliance with its standards, chapter 49.04 RCW, and these rules.

(k) Periodically review and evaluate apprentices before advancement to the apprentice's next wage progression period.

(l) Maintain apprenticeship records and records of the administrative program as may be required by the WSATC, chapter 49.04 RCW, and these rules. (See WAC 296-05-318.)

(3) The following Equal Employment Opportunity Pledge:

"The recruitment, selection, employment and training of apprentices during their apprenticeship shall be without discrimination because of race, sex, color, religion, national origin, age, disability or as otherwise specified by law. The sponsor shall take positive action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required by the rules of the Washington State Apprenticeship and Training Council and Title 29, Part 30 of the Code of Federal Regulations."

(4) When applicable, an affirmative action plan and selection procedures.

(5) A numeric ratio of apprentices to journey-level workers may not exceed one apprentice per journey-level worker. It must be consistent with proper supervision, training, safety, continuity of employment, and applicable provisions in collective bargaining agreement, if any. The ratio must be described in the program standards and shall be specific and clear as to application in terms of job site, work group, department, or plant. An exception to this requirement may be granted by the WSATC.

(6) A statement of the related/supplemental instruction including content, format, hours of study per year (which shall be a minimum of one hundred forty-four hours per year).

(7) An attendance policy which includes a provision that if the apprentice fails to fulfill the related/supplemental instruction obligations, the sponsor may withhold the apprentice's periodic wage advancement, suspend or cancel the apprenticeship agreement. A provision that time spent in related/supplemental instruction classes shall not be considered as hours of work and the apprentice is not paid for the classroom time. A provision that the hours of actual attendance by the apprentice in related supplemental instruction classes must be reported to the department on a quarterly basis for industrial insurance purposes.

(8) A provision to ensure that the sponsor provides for instruction of the apprentice during the apprentice's related/supplemental instruction in safe and healthful work practices in compliance with the Washington Industrial Safety and Health Act, and applicable federal and state regulations.

(9) A provision for a formal agreement between the apprentice and the sponsor and for registering that agreement with the department.

(10) A provision for the timely notice to the department of all requests for disposition or modification of apprenticeship agreements including:

- Certificate of completion;
- Additional credit;
- Suspension;
- Military service;
- Reinstatement;
- Cancellation; and
- Corrections.

(11) A provision for advancing an apprentice's standing based on previous experience in the skilled trade or in some other related capacity.

(12) A provision for the transfer of an apprentice from one training agent to another training agent or the sponsor in order to provide as much as possible, continuous employment and diversity of training experiences for apprentices.

(13) A provision for the amendment of the standards or deregistration of the program. This provision must comply with chapter 49.04 RCW, these rules, and WSATC policies and procedures.

(14) An apprenticeship appeal procedure in compliance with chapters 49.04, 34.05 RCW, and these rules.

(15) A statement of the processes in the trade or craft divisions in which the apprentice is to be taught and the approximate amount of time to be spent at each process.

(16) A statement of the number of hours to be spent by the apprentice in work and the number of hours to be spent in related/supplemental instruction which instruction shall be not less than one hundred forty-four hours per year.

(17) A statement of the minimum qualifications for persons entering the apprenticeship program including the age of the apprentice which may not be less than sixteen years of age. All exceptions to minimum qualifications, if any, must be clearly stated and applied in a nondiscriminatory manner.

(18) Provision that the services of the supervisor and the WSATC may be utilized for consultation regarding the settlement of differences arising out of the apprenticeship agreement where such differences cannot be adjusted locally or as required by the established trade procedure.

(19) Provision that if an individual training agent is unable to fulfill its obligation under the apprenticeship agreement, it will transfer the obligation to the program sponsor.

(20) Such additional standards as may be prescribed in accordance with the provisions of this chapter.

(21) Disciplinary procedures and criteria for apprentices. The procedures may include a committee-imposed disciplinary probation during which the committee may according to expressed criteria:

- Withhold periodic wage advancements;
- Suspend or cancel the apprenticeship agreement;
- Take further disciplinary action; or
- The disciplinary procedures must include a notice to the apprentice that the apprentice has the right to file an appeal, of the committee's action, to the WSATC.

(22) A provision for an initial probation which the WSATC or the supervisor of apprenticeship may terminate an apprenticeship agreement at the written request by any affected party. The initial probation must not exceed twenty percent of the term of apprenticeship unless an exemption has been granted for longer probationary periods as specified by Civil Service or law. The initial probationary period must be expressed in hours of employment. During the initial probationary period, the apprenticeship agreement may be terminated by the sponsor or the apprentice without a hearing or stated cause. An appeal process is available to apprentices who have completed the initial probationary period.

(23) Provisions prohibiting discrimination on the race, sex, color, religion, national origin, age, disability or as otherwise specified by law during all phases of apprenticeship.

(24) Provisions to ensure adequate records of the selection process are kept for a period of at least five years and are available to the WSATC or its representative on request. ("Adequate records" means at least a brief summary of any interviews and the conclusions reached on each of the specific factors which are part of the total judgment concerning each applicant.)

(25) Provisions to ensure that local committee rules and regulations be consistent with these rules and the applicable apprenticeship agreement.

(26) Provisions to ensure any proposed standards for apprenticeship are reasonably consistent with any standards for apprenticeship already approved by the WSATC for the industry, craft or trade in question taking into account the WSATC's determination of the apprenticeship needs of the trade and geographic area. (Statistical analysis of workload projections, demographics, and information relating to expected workload growth are examples of ways the sponsor may demonstrate that the need for apprentices exists.) The goal is to achieve general statewide uniformity of standards in each industry, trade or craft. Proposed standards for a new program shall be considered consistent if they are equal to or exceed the minimum number of hours approved by the United States Department of Labor for a trade, craft, or occupation. If the United States Department of Labor has not

established a minimum number of hours for a trade, craft, or occupation, the WSATC may utilize its discretion to determine the minimum number of hours that must be achieved. In addition, the course content and delivery method must be designed to achieve the same levels of skills as existing standards within the state for that industry, trade, or craft.

(27) A provision to ensure that the progressively increasing wage scales based on specified percentages of journey-level wage, which must be submitted, at least annually, to the WSATC. These may be submitted on a form provided by the department.

A sample apprenticeship agreement and a standard form for program standards are available from the supervisor.

WAC 296-05-318 Records required by the WSATC.

Each sponsor must keep adequate records including, but not limited to, the following:

- (1) Selection of applicants:
 - (a) A summary of the qualifications of each applicant;
 - (b) The basis for evaluation and for selection or rejection of each applicant;
 - (c) The records pertaining to the interviews of applicants; and
 - (d) The original application for each applicant.
- (2) Operation of the apprenticeship program:
 - (a) On-the-job training assignments;
 - (b) Promotion, demotion, layoff, or termination;
 - (c) Rates of pay or other forms of compensation or conditions of work;
 - (d) Hours of training provided; and
 - (e) Any other records needed by WSATC to determine compliance with these rules.
- (3) Affirmative action plans:
 - (a) A copy of the program's complete affirmative action plan. All data and analysis made to determine enrollment deficiencies;
 - (b) Evidence that affirmative action plans are reviewed on an annual basis; and
 - (c) Evidence that affirmative action plans, goals and timetables are updated when necessary.
- (4) Documentation necessary to establish a sponsor's good faith effort in implementing its affirmative action plan:
 - (a) Who was contacted;
 - (b) When the contacts were made;
 - (c) Where the contacts occurred;
 - (d) How the contacts were made; and
 - (e) The content of each contact.

(5) Qualification standards: Evidence that the sponsor's qualification standards meet the requirements of WAC 296-05-316.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-318, filed 10/31/01, effective 1/17/02.]

WAC 296-05-319 Apprenticeship agreement—Individual registration. All individual agreements are subject to the approval of the supervisor and must be registered with the supervisor.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-319, filed 10/31/01, effective 1/17/02.]

WAC 296-05-321 Apprenticeship agreement—Cancellation. The supervisor may recommend that an agreement and program be canceled when a program does not comply with these rules or the program's standards. The procedures for cancellation are as follows:

(1) When any program is found to be operating inconsistently or contrary to these rules or its established program standards, the supervisor must notify the offending committee, person, firm or agency of the violation(s).

(2) The offending committee, firm, or agency has sixty days to correct the violation(s).

(3) If the supervisor does not receive notice, within sixty days, that action has been taken to correct the violations, the supervisor may recommend cancellation of the apprenticeship or training program and agreement to the WSATC.

(4) A recommendation to cancel a program must be in writing, addressed to each WSATC member, and detail the reasons for the recommendation.

(5) A copy of the recommendation, along with a notice that the WSATC will consider the recommendation, must be mailed to the last known address of each member of the committee administering said program, or to those persons responsible for the program.

(6) The WSATC must consider the recommendation at its next regularly scheduled quarterly meeting. However, at least thirty days must pass between the date of the recommendation and the date of the regular quarterly meeting. If thirty days has not passed, the recommendation must be considered at the subsequent regular quarterly meeting.

(7) At the regular quarterly meeting, all interested person(s) may present evidence or testimony regarding the recommendation.

(8) The WSATC must act on the recommendation by a majority vote of the members present and voting.

(9) Once the WSATC has voted, it must give written notification of its decision to all interested parties along with the reasons supporting it.

(10) The cancellation of any program or agreement automatically cancels any agreement(s) registered under them. However, any organization or firm not responsible for the violations that caused the cancellation may petition the WSATC for approval of the canceled agreement or program as a new program.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-321, filed 10/31/01, effective 1/17/02.]

[Title 296 WAC—p. 134]

WAC 296-05-323 Certificate of completion. At the request of the apprenticeship committee, the WSATC shall issue certificates of completion. An affidavit of the secretary, chair, or authorized official of the committee concerned must accompany the request. The affidavit must state that the apprentice has been an active, registered participant of that committee's program for at least six months and has successfully completed his/her apprenticeship. These may be submitted on a form provided by the department.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-323, filed 10/31/01, effective 1/17/02.]

WAC 296-05-325 Union waiver. (1) When apprenticeship programs allowing for the substantive union participation are proposed for registration by an employer or employers' association and the union does participate, the proposal must be accompanied by a written statement from the union supporting the registration. Such a statement is referred to as a "no objection" statement.

(2) When there is no evidence of any union participation, the employer or employers' association must simultaneously furnish to the union that serves as the collective bargaining agent of the employees to be trained, copies of the registration application and the apprenticeship program. Before taking a final action on the application, the supervisor must give the union a reasonable time period to respond. (A "reasonable time" shall be at least thirty days but no more than sixty days.) If the union fails to comment within the allotted time period, it will have waived its right to participate in the program.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-325, filed 10/31/01, effective 1/17/02.]

WAC 296-05-327 Reciprocity. Reciprocity means that the WSATC will recognize and approve out-of-state apprenticeship programs and standards of employers and unions in other than the building and construction industry if certain conditions are met and the out-of-state sponsoring entity requests it. To qualify for reciprocity, the out-of-state sponsoring employers and unions must:

(1) Jointly form a sponsoring entity on a multistate basis; and

(2) Register with any recognized state apprenticeship agency/council or with the United States Department of Labor, Apprenticeship Training and Employer Labor Services according to the requirements of 29 CFR Part 29, as adopted February 15, 1977.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-327, filed 10/31/01, effective 1/17/02.]

PART D—EQUAL EMPLOYMENT OPPORTUNITY IN APPRENTICESHIP

WAC 296-05-400 Equal employment opportunity plan—Purpose, scope and authority. The WSATC's affirmative action plan is based on the statutory authority granted in chapter 49.04 RCW and according to the provisions of 29 CFR Part 30. The purpose of the affirmative action plan is to promote equality of opportunity in apprenticeship by:

(2003 Ed.)

- Prohibiting discrimination in apprenticeship programs based on race, sex, color, religion, national origin, age disability or as otherwise specified by law;
- Requiring equal employment opportunities in apprenticeship programs through affirmative action; and
- Coordinating the WSATC's equal employment opportunity programs with affirmative action policies and procedures with other equal opportunity programs.

The following sections contain the policies and procedures to promote equality of opportunity and equity of treatment of apprentices in apprenticeship programs approved by the WSATC. These policies and procedures are to be used to:

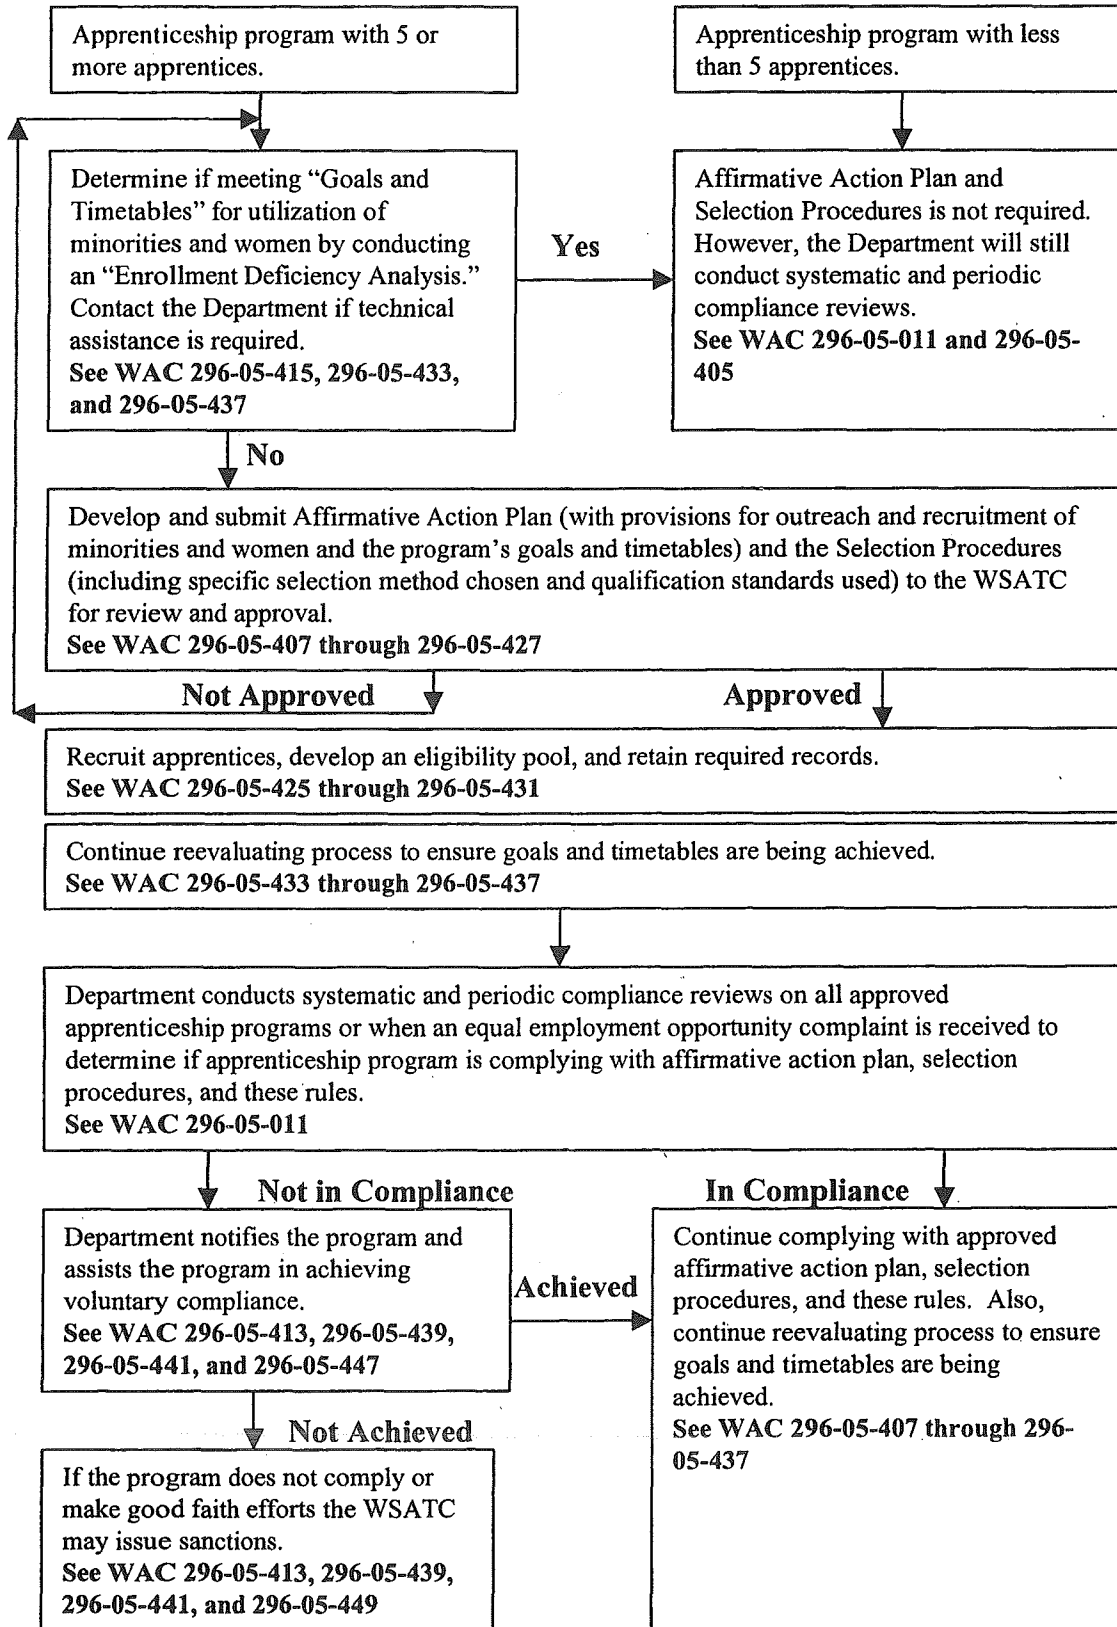

- Recruit and select apprentices;
 - Review and revise apprenticeship programs;
 - Process equal employment opportunity complaints;
 - Take corrective action when appropriate;
 - Deregister noncomplying apprenticeship programs;
- and
- Continue recognition or withdraw recognition of apprenticeship programs.

An affirmative action program must not be used to discriminate against any qualified applicant or apprentice on the basis of race, sex, color, religion, national origin, age, disability or as otherwise specified by law.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-400, filed 10/31/01, effective 1/17/02.]

WAC 296-05-402 Equal employment opportunity process.

Equal Employment Opportunity Process

[Statutory Authority: RCW 49.04.010 and 2001 c 204 (SHB 1234). 02-10-083, § 296-05-402, filed 4/29/02, effective 6/1/02. Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-402, filed 10/31/01, effective 1/17/02.]

WAC 296-05-403 Definitions for Part D. The following definitions are to be used with this part.

Underutilization: Enrolling minorities and women in a ratio not proportionate to the participation of minorities and women that is representative of the geographical region served.

Women or female: As used in Part D of this chapter refers to minority women and nonminority women.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-403, filed 10/31/01, effective 1/17/02.]

WAC 296-05-405 Exceptions to the requirement for adopting an affirmative action plan and a selection procedure. (1) A sponsor is not required to adopt an affirmative action plan or a selection procedure if:

- (a) It has fewer than five apprentices; or
- (b) The program is determined by the WSATC to be in compliance with an approved equal employment opportunity program. An approved program is one which:
 - (i) Provides for selection of apprentices;
 - (ii) Provides for affirmative action in apprenticeship;
 - (iii) Includes goals and timetables for participation of minorities and women in the labor force in apprenticeship which meet or exceed the requirements of WAC 296-05-415; and

(iv) Meets the requirements of the following laws:

- Title VII of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000, et seq.);
- The regulations implementing 42 U.S.C. 2000, et seq.;
- Executive Order 11246 as amended; and
- The regulations (41 CFR Part 60) implementing Executive Order 11246.

(2) A program sponsor must submit satisfactory evidence of its qualification for the exception to the WSATC. If the program sponsor designed the apprenticeship program or the equal opportunity program to circumvent the requirements of these rules, the program will not qualify for an exception.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-405, filed 10/31/01, effective 1/17/02.]

WAC 296-05-407 Apprenticeship program sponsor's obligations. (1) A sponsor of an approved apprenticeship program must:

- (a) Promote equal opportunity in its apprenticeship program; and
- (b) Recruit, select, employ and train apprentices without discrimination based on race, sex, color, religion, national origin, age, disability or as otherwise specified by law.

(2) A sponsor of an approved apprenticeship program with five or more apprentices must uniformly apply all rules related to apprentices. Such rules include, but are not limited to:

- Equality of wages;
- Periodic advancement;
- Promotion;
- Assignment of work;
- Job performance;
- Rotation among all work processes of the trade;

- Imposition of penalties or other disciplinary action; and
- All other aspects of the apprenticeship program administered by the program sponsors.

(3) Adopt and implement an affirmative action plan and selection procedure as required by chapter 49.04 RCW, 29 CFR Part 30, and these rules unless the approved apprenticeship program qualifies for an exception (see WAC 296-05-405).

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-407, filed 10/31/01, effective 1/17/02.]

WAC 296-05-409 Affirmative action information required by WSATC. In addition to the program standards required by WAC 296-05-316, program sponsors seeking new program registration and approval by the WSATC must submit the following:

- (1) The proposed affirmative action plan;
- (2) The proposed selection procedures; and
- (3) Any other information about the sponsor's equal employment opportunity plan required by the WSATC.

The affirmative action plan and additional information is considered in conjunction with the program standards in the WSATC's decision whether to approve or disapprove an apprenticeship program. If the WSATC disapproves the apprenticeship program, it shall direct the department to inform the sponsor in writing the reason for disapproval.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-409, filed 10/31/01, effective 1/17/02.]

WAC 296-05-411 Affirmative action plan. An approved affirmative action plan must:

- (1) Be in writing.
- (2) Be more than passive nondiscrimination.
- (3) Include procedures, methods and programs to:
 - (a) Clearly identify present and potential minority and female apprentices.
 - (b) Establish affirmative action goals and timetables.
 - (c) Equalize opportunity in apprenticeship to allow full utilization of the work potential of minorities and women.
 - (d) Assure equal opportunity in apprenticeship for all individuals participating in or seeking entrance into Washington's labor force.

(4) Include provisions for outreach and positive recruitment to increase the participation of minorities and women in apprenticeship programs by expanding and promoting apprenticeship opportunities to minorities and women. (See WAC 296-05-413.)

Nothing in a sponsor's approved affirmative action plan may be used to discriminate against any qualified applicant or apprentice on the basis of race, sex, color, religion, national origin, age, disability or as otherwise specified by law.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-411, filed 10/31/01, effective 1/17/02.]

WAC 296-05-413 Outreach and recruitment requirements—Specific. To gain approval, an affirmative action plan must include the following specific provisions for outreach and recruitment criteria:

(1) To increase minority and female participation in apprenticeship, program sponsors are expected to strengthen program outreach and recruitment efforts. The affirmative action plan must specify the activities they will use to achieve this result.

(2) The program sponsor is not necessarily required to include all of the listed activities in its affirmative action program. The WSATC, when approving the sponsor's affirmative action plan, will determine the number of specific activities a sponsor must implement to satisfy this outreach and recruitment requirement. The WSATC will consider all circumstances including the size and type of the program and its resources. When special circumstances exist, the WSATC may provide financial or other assistance it deems necessary to implement the requirements of this section from any funds made available to it for such purpose.

(3) Examples of positive outreach and recruitment activities are:

(a) Distributing information about the nature of apprenticeship programs, program admission requirements, current apprenticeship opportunities, sources of apprenticeship applications, and the equal opportunity policy of the sponsor.

For programs only accepting applications at specific intervals, such information shall be disseminated at least thirty days in advance of each application date. For programs that accept applications throughout the year, this information must be distributed at least semiannually.

To be effective, the information described in this section must be given to the WSATC, local schools, employment service offices, women's centers, outreach programs and community organizations which effectively reach minorities and women. Also it must be published in newspapers which are circulated in the minority community and among women as well as the general areas in which the program sponsor operates.

(b) Participating in workshops conducted by employment service agencies, school districts, and community based organizations to increase apprenticeship program awareness of apprenticeship opportunities.

(c) Cooperating with local school districts, vocational education systems, and school employees to develop programs for preparing students to meet the standards and criteria required to qualify for entry into apprenticeship programs.

(d) Increasing awareness of a sponsor's equal opportunity policy within the sponsor's organization. The goal of this increased awareness within the sponsor's organization is to foster understanding, acceptance, and support among the sponsor's various officers, supervisors, employees, employers, and members. This is to encourage the necessary active assistance in achieving the program's obligations required by these rules.

(e) Participating in existing outreach programs whose focus is the recruitment and preparation of minority and female apprenticeship applicants. Whenever possible, these should provide applicants with pretesting experience and training.

(f) Developing outreach programs whose focus is the recruitment and preparation of minority and female apprenticeship applicants. If apprenticeship outreach programs do not exist, the sponsor should attempt to develop them. This

effort may require working with other sponsors and appropriate community organizations. It may require obtaining financial assistance from the WSATC. Also, the sponsor shall initiate programs that prepare and encourage women to enter traditionally male dominated apprenticeship programs and trades.

(g) Encouraging the development and use of programs for preapprenticeship education, preparatory trade training, or other work related experiences that prepare candidates for apprenticeship.

(h) Granting to all applicants, without prejudice, advance standing or credit for previously acquired experience, training, skills, or aptitude.

(i) Engaging in other activities to ensure that the recruitment, selection, employment, and training of apprentices without discrimination based upon race, color, religion, national origin, sex, age, disability or as otherwise specified by law. Some examples of these activities include:

(i) General publication of advertisements, industry reports, articles on apprenticeship opportunities and advantages.

(ii) Use minority and female apprentices and journey-level workers as recruiters.

(iii) Provide career counseling to prospective applicants.

(iv) Periodically audit affirmative action programs to see if goals are being met.

(v) Develop monitoring procedures to ensure that employers are granting equal employment opportunities to apprentices (these procedures may include reporting systems, on-site reviews, or briefing sessions).

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-413, filed 10/31/01, effective 1/17/02.]

WAC 296-05-415 Affirmative action goals and timetables. (1) An affirmative action plan must include goals and timetables. The first step in deciding whether goals and timetables are necessary is the completion of an analysis of the sponsor's program to determine whether there is an underutilization of minorities and/or women in the trade(s) represented by the program. This analysis must be:

(a) Conducted by the sponsor with technical assistance provided by the department;

(b) In writing; and

(c) Included in the sponsor's affirmative action plan.

(2) If the sponsor's analysis demonstrates that minorities and females are underutilized in the program, the program has an enrollment deficiency that must be corrected. Enrollment goals and timetables to correct this deficiency must be established and they must be included in the sponsor's affirmative action plan. (See WAC 296-05-433.)

(3) If the sponsor's analysis demonstrates that no enrollment deficiencies exist, enrollment goals and timetables are not required. However, where no goals and timetables are established, the affirmative action plan must include a detailed explanation why no goals and timetables have been established.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-415, filed 10/31/01, effective 1/17/02.]

WAC 296-05-417 Selection of apprentices for approved apprenticeship programs. In addition to development of a written affirmative action plan, the sponsor must submit a written plan for the selection of apprentices. The selection plan must ensure that minorities and women have an equal opportunity to be selected as apprentices and that full utilization and equal opportunity in apprenticeship is achieved promptly. The selection procedures must use one of the methods specified in this section.

(1) A sponsor may not implement any selection method until the WSATC approves the program's affirmative action plan. In the affirmative action plan, the sponsor must identify the approved selection method it has adopted. The WSATC allows the following selection methods to be used:

(a) **Selection on basis of rank from pool of eligible applicants.** With this method, a sponsor selects apprentices from a pool of eligible applicants based upon a rank ordering of applicant qualifying standard scores. A sponsor adopting this method must create a pool of eligible candidates who have either reached the minimum legal working age and meet the sponsor's minimum physical requirements or who have reached the minimum legal working age and meet the sponsor's qualification standards.

(b) **Random selection from pool of eligible applicants.** A pool of eligible applicants must be created from persons who have either reached the minimum legal working age and meet the sponsor's minimum physical requirements or who have reached the minimum legal working age and meet the sponsor's qualification standards. With WSATC approval, a sponsor may randomly select apprentices from a pool of eligible applicants. This method must be supervised by an impartial person(s) not associated with the administration of the apprenticeship program. The time and place of the selection, and the number of apprentices to be selected, must be publicly announced before the selection takes place. The selection process must be open to all applicants and the public. The names of apprentices drawn by this method shall be posted immediately following the selection at the program sponsor's place of business.

(c) **Selection from pool of current employees.** A sponsor may select apprentices from an eligibility pool of program employees. The actual selection process may be prescribed by a collective bargaining agreement where one exists, or by the sponsor's established promotion policy.

(d) **Alternative selection methods.** In addition to the above specified methods, the WSATC allows a sponsor to select apprentices by alternative methods, including its present selection method. However, the sponsor who adopts an alternative method of selection must submit the following information to the apprenticeship supervisor:

- (i) A detailed discussion of the selection method it proposes to use;
- (ii) A copy of its affirmative action plan;
- (iii) A copy of its enrollment deficiency analysis; and
- (iv) If necessary, its goals and timetables for increasing the number of minority and female applicants and apprentices in the program.

The sponsor may not implement any such alternative method until the WSATC has approved the method and the

(2003 Ed.)

affirmative action program (including its goals and timetables).

When an alternative selection method is used and the training agent selects the apprentices, the employer must sign an agreement with the WSATC, agreeing to comply with the equal employment opportunity requirements of these rules and 29 CFR Part 30.

(2) Exceptions to selection procedures may be used if:

(a) An employee of an employer not qualifying as a journey-level worker becomes a training agent, he/she shall be evaluated by the apprenticeship program using constant standard nondiscriminatory means and registered at the appropriate period of apprenticeship based on previous work experience and related training.

(b) The individual who signs an authorization card during the organizing effort by an employer wherein fifty percent or more of the employees have signed whether or not the individual is approved as a training agent, an individual not qualifying as a journey-level worker shall be evaluated by the sponsor and registered at the appropriate period of apprenticeship based on previous work experience and related training.

(3) Organizing statements specified in subsection (2) of this section, that result in direct entry into the apprenticeship program, shall be properly placed within the program selection procedure as an exemption.

(4) If the WSATC or the department fails to act upon the sponsor's selection method and affirmative action program within thirty days of its submission to the department, the sponsor may implement the selection method until acted upon by the WSATC.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW 01-22-055, § 296-05-417, filed 10/31/01, effective 1/17/02.]

WAC 296-05-419 Qualification standards. Qualification standards are the criteria, used by sponsors to select applicants into an eligibility pool. These qualification standards and the procedures used to determine the standards must be specified in detail in the sponsor's affirmative action plan and must:

- Identify the specific criteria and attributes used to evaluate applicants;
- Specify the acceptable scores required for each qualification standard;
- Demonstrate a direct relationship between each qualification standard, its required score and the expected job performance;
- Establish a significant statistical relationship between the score required for admission to the pool and the applicant's performance in the apprenticeship program. This statistical relationship must be based upon the procedures discussed in 41 CFR Part 60-3 (Guidelines on employee selection procedures); and
- Specify that the applicant has achieved an acceptable score on all the qualification. Unless an applicant achieves an acceptable score on all the qualification standards, the applicant will be ineligible for admission to the pool.

(1) **Aptitude test scores for use as qualification standards.** Aptitude tests may be used as qualification standards; however, any aptitude test score used as a qualification stan-

dard must be directly related to apprenticeship job performance. To demonstrate this relationship, there must be a significant statistical relationship between the aptitude test scores required for admission to the pool and performance in the apprenticeship program. In determining this relationship, the sponsor must follow the procedures discussed in 41 CFR Part 60-3. These requirements also apply to any aptitude tests used by a program sponsor and administered either by a state employment agency or any person, agency or organization engaged in the selection or evaluation of personnel. If a national aptitude test is developed and administered by a national apprenticeship committee, it must meet these requirements before it will be approved by the United States Department of Labor.

(2) **Educational achievements for use as qualification standards.** Educational achievements can be used as qualification standards; however, all such achievements used to determine admission to a program pool must be directly related to apprenticeship job performance. This direct relationship must be demonstrated by a significant statistical relationship between the achievement scores required for admission and expected performance in the apprenticeship program. In demonstrating such a statistical relationship, the sponsor must meet the requirements of 41 CFR Part 60-3.

Official school records or a certified passing grade on a general educational development (GED) test recognized by state or local public instruction officials shall be evidence of educational achievement. These education achievement requirements must be uniformly applied to all applicants.

(3) **Role of the interview in the applicant selection process.** Interviews must not be used as a qualification standard for admission to an eligibility pool for programs using the selection methods described in WAC 296-05-417 (1) and (2). However, after an applicant is placed in a pool and before selections are made from that pool, an applicant can be interviewed. When interviews are conducted, they must:

(a) Consist only of objective questions relevant to the applicant's fitness for the apprenticeship program.

(b) Not include questions related to qualifications previously used to determine entrance to the pool.

(c) Require each interviewer to record the questions and the general nature of the applicant's answers.

(d) Require each interviewer to prepare a summary of any interview conclusions.

Adequate records of the interviews must be kept including a brief summary and conclusion and how the specific factors like applicant motivation, ambition, and willingness to accept direction affected the interviewer's final decision.

(4) **Examples of qualification standards include:**

- Standardized aptitude tests;
- School diplomas or the equivalent;
- Health requirements essential to the chosen occupation;
- Interviews conducted in a fair manner (see subsection

(3) of this section);

- School grades; and
- Previous work experience.

In applying these standards, the sponsor must meet the requirements of 41 CFR Part 60-3.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-419, filed 10/31/01, effective 1/17/02.]

[Title 296 WAC—p. 140]

WAC 296-05-427 Notification requirements. All applicants who meet the program admission requirements must be notified that they have been placed in an eligibility pool. All program sponsors must give a written notice of rejection to each applicant who is not selected for either an eligibility pool or the apprenticeship program. This rejection notice must include the reasons for rejection, the admission requirements for those admitted to the pool or program and the appeal procedures available.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-427, filed 10/31/01, effective 1/17/02.]

WAC 296-05-429 Existing lists of eligibles and public notice. (1) A sponsor who adopts a selection method under WAC 296-05-417 must conduct an enrollment deficiency analysis (see WAC 296-05-433). If, as a result of this analysis, the sponsor concludes that there are fewer minorities and/or women on its existing pools and lists than there should be, these pools and lists must be discarded.

(2) Once the existing pools and lists have been discarded, new eligibility pools must be established and lists must be posted at the sponsor's place of business. Sponsors must allow at least a two-week period for accepting applications for admission to the apprenticeship program. There must be at least thirty days of public notice in advance of the earliest date for application for admission to the apprenticeship program (see WAC 296-05-411).

(3) Once an applicant has been placed in an eligibility pool, they must be retained on the eligibility lists for two years unless they request, in writing, that they be removed or unless they fail to respond to an apprentice job opportunity mailed to applicant's last known address by certified mail, return receipt requested. It is the applicant's responsibility to keep the sponsor informed of the applicant's current mailing address. A sponsor, upon receiving a written request from a former applicant whose name was removed from an eligibility list, may restore the applicant's name to the list.

(4) Applicants who have been accepted in the program must be given a reasonable time in which to report for work. A "reasonable time" will be interpreted in light of the customs and practices of the industry for reporting for work. All applicants must be treated equally in the determination and application of "a reasonable time."

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-429, filed 10/31/01, effective 1/17/02.]

WAC 296-05-431 Affirmative action records of the WSATC retained by the department. The WSATC must keep the following types of records in the apprenticeship supervisor's office:

- (1) Registration requirements;
- (2) Individual program standards;
- (3) Registration records;
- (4) Program compliance reviews and investigations;
- (5) Any other records pertinent to the determination of compliance with these rules; and
- (6) Any records that must be reported to the United States Department of Labor.

The records required by these rules and any other information relevant to compliance with 29 CFR Part 30 must be

(2003 Ed.)

maintained for five years. Also, these records and related information must be made available upon request to the United States Department of Labor or other authorized representatives.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-431, filed 10/31/01, effective 1/17/02.]

WAC 296-05-433 Enrollment deficiency analysis. (1)

In analyzing a program to determine whether a deficiency exists, the sponsor must consider at least the following factors:

(a) The percentage of the working age minority and female population in the program sponsor's labor market area;

(b) The percentage of the minority and female labor force in the program sponsor's labor market area;

(c) The percentage of the minority and female apprentices participating in a particular trade or craft compared to the percentage of minorities and women in the labor force in the program sponsor's labor market area;

(d) The percentage of minorities and women participating as journey-level employee(s) employed by the employer(s) participating in the program as compared with the percentage of minorities and women in the sponsor's labor market area and the extent to which the sponsor should be expected to correct any deficiencies through the achievement of goals and timetables for the selection of apprentices; and

(e) The general availability of minorities and women in the sponsor's labor market that have present or potential capacity for apprenticeship in the program sponsor's labor market area.

(2) To calculate the above percentage(s) or any other percentages for the analysis, the sponsor must use the following formula: Divide the number of minority individuals or females in a particular classification in the labor force or population by the total labor force or population.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-433, filed 10/31/01, effective 1/17/02.]

WAC 296-05-435 Data and information. (1) The apprenticeship supervisor must provide program sponsors with data and information on minorities and women labor force characteristics generated by the employment security department or the office of financial management. This information is available for standard metropolitan statistical areas as well as special statistical areas.

(2) The specific data used to calculate the percentages in WAC 296-05-433 must be obtained from records maintained by apprenticeship committees.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-435, filed 10/31/01, effective 1/17/02.]

WAC 296-05-437 Developing and evaluating enrollment goals and timetables. (1) Goals and timetables must be based upon the sponsor's enrollment analysis of its underutilization of minorities and women and its entire affirmative action program. Specific enrollment goals for minorities and a separate single goal for women may be acceptable unless a

(2003 Ed.)

particular group is employed in a substantially disparate manner. In such a case, separate goals must be established for the disparate group. An example of such a situation would be where a specific minority group of women were underutilized even though the sponsor had achieved its enrollment goals for women generally. A separate, additional goal should be established to increase the enrollment of this specific group.

(2) In establishing the enrollment goals and timetables, the sponsor should establish reasonable goals that can be achieved through a good faith effort.

(3) In evaluating whether a sponsor has satisfied the affirmative action requirements of these rules, the WSATC must determine whether the sponsor has made a good faith effort to do so.

(4) The sponsor's good faith efforts shall be judged by whether the sponsor is following its affirmative action program and attempting to make it work. A specific example of a good faith effort by a sponsor would be when a sponsor conducts evaluations of its affirmative action program and makes the necessary changes to achieve success in the attainment of its goals.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-437, filed 10/31/01, effective 1/17/02.]

WAC 296-05-439 Failure to meet goals and timetables. (1) If a sponsor, despite its good faith efforts, fails to meet its goals and timetables within a reasonable period of time, the sponsor may be required to make appropriate changes in its affirmative action program in order to obtain maximum effectiveness toward the attainment of its goals.

(2) If the WSATC determines the failure of a sponsor to meet its goals and timetables is substantially a result of the enrollment selection method adopted, the sponsor may be required to develop and adopt a WSATC prescribed selection method.

(3) If a sponsor's failure to meet its goals is substantially a result of the qualification standard it used to select minorities and/or women, the sponsor may be required to show that the qualification standards directly relate to job performance. Specifically, the sponsor will be expected to demonstrate a significant statistical relationship between the qualification standards used and the required job performance. This statistical relationship must be based upon the procedures discussed in 41 CFR Part 60-3 (Guidelines on employee selection procedures).

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-439, filed 10/31/01, effective 1/17/02.]

WAC 296-05-441 Noncompliance with federal and state equal opportunity requirements. When a compliance review concludes that a sponsor is not operating according to the federal or state laws or regulations requiring equal opportunity, the apprenticeship supervisor must take action. Such action must include:

(1) Notifying the sponsor in writing of the review results;

(2) Making a reasonable effort to secure voluntary compliance from the program sponsor; and

[Title 296 WAC—p. 141]

(3) Giving the sponsor a reasonable amount of time to comply with the review recommendations before undertaking sanctions under WAC 296-05-013.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-441, filed 10/31/01, effective 1/17/02.]

WAC 296-05-443 Complaint filing. (1) Any apprentice or applicant for apprenticeship who believes they have been discriminated against may file a complaint. The basis of the complaint may be:

(a) Discrimination on the basis of race, sex, color, religion, national origin, age, disability or as otherwise specified by law by a sponsor or a sponsor's program;

(b) The equal opportunity standards have not been followed; or

(c) The sponsor's affirmative action plan does not comply with the requirements of this chapter.

(2) A complaint may be filed in person or through an authorized representative. The complainant may choose to file a complaint with the WSATC or with a private review panel as established in WAC 296-05-445.

(3) A complaint must be in writing and shall be signed by the complainant. The complaint must include the name, address, and telephone number of the person allegedly discriminated against, the program sponsor involved, and a brief description of the circumstances leading to the complaint.

(4) The complaint must be filed not later than one hundred eighty days from the date of the alleged discrimination or violation of the sponsor's affirmative action plan or the rules of this chapter. If a complaint is initially filed with the private review panel and the complainant later wishes to refer the complaint to the WSATC, the referral must occur within one hundred eighty days of the circumstances leading to the complaint or within thirty days of the private review panel's final decision, whichever is later. If good cause is shown, the WSATC may extend these time periods.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-443, filed 10/31/01, effective 1/17/02.]

WAC 296-05-445 Private review panels. Sponsors may establish private review panels to resolve affirmative action complaints. The WSATC encourages sponsors to establish, fair, speedy, and effective procedures for the operation of the private review panel. Private review panels should be comprised of three or more responsible persons from the community who will serve without compensation. They should not be directly associated with the administration of an apprenticeship program. If necessary, sponsors may join together to establish a private review panel.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-445, filed 10/31/01, effective 1/17/02.]

WAC 296-05-447 Processing of complaints. (1) All approved programs must establish procedures explaining the program's complaint review process. These procedures must comply with the requirements of this section. Each sponsor must give a copy of the complaint procedures to each apprenticeship applicant and to all enrolled apprentices.

(2) When the apprenticeship supervisor receives a complaint and the sponsor has a private review panel in place, the

complaint must be referred to the panel unless the complainant chooses otherwise or unless the council concludes that the panel will not satisfactorily resolve the complaint.

(3) Once the complaint is referred to the private review panel, the panel has no more than thirty days to resolve it. At the end of the period, the supervisor will obtain the reports from the complainant and the review body as to the disposition of the complaint. If the complaint has been satisfactorily resolved and there is no other indication of failure to apply equal opportunity standards, the case shall be closed and the parties formally notified.

(4) If the private review panel has not satisfactorily resolved the complaint within ninety days, the WSATC may conduct a compliance review and take all necessary steps to resolve the complaint.

(5) If the review panel satisfactorily resolves the complaint but there is evidence that the equal opportunity practices of the sponsor's program are not in compliance with the requirements of this chapter, the council must conduct a compliance review and take all steps necessary to bring the program into compliance.

(6) When a private review panel does not exist, the WSATC may conduct a compliance review to determine the facts of the complaint and any other information necessary to resolve the dispute.

(7) If the WSATC believes that satisfactorily resolving a complaint requires a change in the time limits established in this section, it can modify the time constraints by adopting special processing procedures. However, special processing procedures must only be adopted when circumstances warrant them and only if they will not prejudice any person or party associated with the complaint.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-447, filed 10/31/01, effective 1/17/02.]

WAC 296-05-449 Program registration cancellation procedures. (1) If the WSATC decides to withdraw a program's registration, it must give written notice to the sponsor that there is reasonable cause, under WAC 296-05-013, to do so.

(2) If the sponsor requests a hearing, it must be a written request to the apprenticeship supervisor within fifteen days of the receipt of the WSATC's withdrawal notice. When the supervisor receives the sponsor's request, a hearing must be convened. The WSATC's final decision to withdraw a program's registration must be based on the compliance review file and other evidence presented at the hearing. The WSATC may allow the sponsor a reasonable time to achieve voluntary corrective action. If the WSATC decides that the apprenticeship program is not in compliance and that voluntary corrective action is not an option, the program's registration may be withdrawn. If the WSATC decides to withdraw the program's registration, it must make public notice of the order and give written notice to the sponsor. If the withdrawal was the result of complaint proceedings, the WSATC must give written notice of the withdrawal to the complainant as well.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-449, filed 10/31/01, effective 1/17/02.]

WAC 296-05-451 Reinstatement of program registration. Any apprenticeship program deregistered as authorized by these rules may be reinstated upon presentation of adequate evidence to the WSATC that the apprenticeship program is operating in compliance with these rules.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-451, filed 10/31/01, effective 1/17/02.]

WAC 296-05-453 Adoption of consistent state plans. All apprenticeship programs registered with the WSATC must comply with the requirements of these rules and 29 CFR Part 30. If a program fails to comply or is inconsistent with the requirements of these rules and/or 29 CFR Part 30, the WSATC may disapprove or deregister the program. The WSATC must notify the United States Department of Labor of any state apprenticeship program disapproved and deregistered by it. The state apprenticeship program disapproved or deregistered by the WSATC for noncompliance with the requirements of these rules or 29 CFR Part 30 may, within fifteen days of the receipt of the notice of disapproval or deregistration, appeal to the United States Department of Labor to set aside the determination of the WSATC. The United States Department of Labor must make its determination on the basis of the record. The United States Department of Labor may grant the state program sponsor, the state apprenticeship and training, and the complainant, if any, the opportunity to present oral or written argument.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-453, filed 10/31/01, effective 1/17/02.]

WAC 296-05-455 Intimidatory or retaliatory acts.

(1) Any intimidation, threat, coercion, or retaliation by or with the approval of a sponsor, against a person who has exercised rights or privilege under Title VII of the Civil Rights Act of 1964 as amended or the amended Executive Order 11246 is a violation of the equal opportunity standards of these rules. Such acts may be investigated by the WSATC and, if appropriate, will be prosecuted.

(2) Identity of a complainant must be kept confidential except when it is necessary to carry out the intent of these rules, for example, the need to conduct an investigation, hearing, or judicial proceeding.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-455, filed 10/31/01, effective 1/17/02.]

WAC 296-05-457 Exemptions. A sponsor may request an exemption from Part D of these rules. The request may ask exemption from all of the section or from selected ones. The request must be in writing and must be addressed to the apprenticeship supervisor. It must explain why an exemption is needed. An exemption may be granted either by the WSATC or by the secretary of the United States Department of Labor, but can only be granted for good cause. If the WSATC approves an exemption that affects a substantial number of employers, it must notify the United States Department of Labor explaining why the exemption was allowed.

[Statutory Authority: RCW 49.04.010, 2001 c 204, and chapter 49.04 RCW. 01-22-055, § 296-05-457, filed 10/31/01, effective 1/17/02.]

WAC 296-06-010 Purpose. The department of labor and industries is a department of state government created by RCW 43.17.010. It shall hereafter in this chapter be referred to as the "department." Where appropriate, "department" also refers to its staff and employees. The department promulgates this chapter to ensure compliance with the provisions of chapter 42.17 RCW, and in particular with sections of that act dealing with public records.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-010, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-010, filed 9/28/76; Order 73-12, § 296-06-010, filed 7/31/73.]

WAC 296-06-020 Description of organization of the department. (1) **Central organization.** The chief executive officer of the department is the director of labor and industries, hereinafter called "director." He or she is appointed by the governor with the consent of the senate to hold office at the pleasure of the governor. The department is organized in five divisions: Industrial insurance, industrial safety and health, industrial relations, apprenticeship, and building and construction safety inspection services. Each division is responsible to a deputy director or assistant director appointed by the director, although the industrial relations and apprenticeship divisions both report to one assistant director, whose appointment as the head of apprenticeship must be confirmed by the Washington state apprenticeship and training council, the members of which are also appointed by the director. This combined industrial relations and apprenticeship division, which includes a section to administer the Crime Victims Act, chapter 7.68 RCW, is known as the employment standards, apprenticeship and crime victims compensation division. Major policy decisions, rule-making, and the primary administrative functions of the department are carried out by the department's central organizations in Olympia.

(2) **Field organization.**

(a) The department maintains service locations, or major field offices, in seventeen cities other than Olympia. These service locations are grouped into six regions throughout the state, each of which is headed by a regional field service manager. In addition, certain programs operate field offices in other cities, but these are not complete service locations and are not required to keep complete policy manuals and other records available for public inspection.

(b) The department's rehabilitation center in Tukwila is headed by a superintendent.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-020, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-020, filed 9/28/76; Order 73-12, § 296-06-020, filed 7/31/73.]

WAC 296-06-030 Location of established places where information about the department may be obtained and department's public records inspected and copied. (1) **Olympia office.**

(a) The office of the director, the administrative office of the department, the main offices of the division of industrial insurance, and the office of the public records officer are in the General Administration Building, Olympia, Washington. The main offices of the other divisions are located at the following places: Industrial Safety and Health at 805 Plum Street S.E., Olympia, Washington; Apprenticeship, Employment Standards, and Crime Victims Compensation at 925 Plum Street S.E., Olympia, Washington; and Building and Construction Safety Inspection Services at 406 Legion Way S.E., Olympia, Washington. General information about the department and its divisions may be obtained at these places.

WAC 296-06-040 Operations and procedures. The general course and method of channeling and determining the operations of the five divisions of the department and the nature of requirements of all formal and informal procedures

connected therewith are summarized in the following subsections:

(1) **Industrial insurance.** This division administers medical care and payment of disability compensation for workers (or their dependents or survivors) sustaining job injuries or occupational diseases. Virtually all employers in the state must provide this industrial insurance coverage. The medical program of the state fund is funded through payments by employers and employees. The disability payments by the state fund are funded by premiums collected from employers. Descriptions of procedures to be followed by employers and employees are outlined in department publications entitled *Employers' Guide to Industrial Insurance* and *Workers' Guide to Industrial Insurance Benefits*.

In order to ensure that premium costs are equitably distributed, the division sets rates, determines classifications, rates individual firms based on claims experience, and periodically audits businesses to ensure accurate reporting and premium payment. Information about the records required during an industrial insurance audit can be found in the department publication *Preparing for Your Audit*.

The division also provides guidance to individual employers and groups of employers in controlling industrial insurance premiums through better claims management, return-to-work efforts, and effective safety programs, as well as through a financial incentive program known as retrospective rating. Further information is available in *Guide to Loss Control and Retrospective Rating*.

The department also certifies certain employers to become "self-insured," which means that they are permitted to pay the legally defined industrial insurance benefits from their own funds. After the department certifies an employer as a self-insurer, it monitors all claims for injury benefits to make certain employees receive all rightful benefits. Descriptions of procedures to be followed by self-insured employers and their employees are outlined in *Employers' Guide to Self-insurance* and *Employees of Self-insured Businesses: Guide to Industrial Insurance Benefits*.

(2) **Industrial safety and health.** This division endeavors to prevent job injuries and illnesses by adopting and enforcing safety and health standards and by training employers and employees in safe working procedures. It administers the Washington Industrial Safety and Health Act (WISHA), operating under a state plan agreement with the federal Occupational Safety and Health Administration (OSHA). Employer and employee procedures and responsibilities are outlined in the department's publications, *A Guide to WISHA* and *Workplace Safety and Health Standards*. Information about voluntary consultations to improve workplace safety can be found in *Free. No Fault. No Hassle.*, and reporting workplace accidents to OSHA is outlined in *Injury and Illness Recordkeeping Requirements*.

(3) **Employment standards, apprenticeship and crime victims compensation.** The industrial relations, or employment standards, portion of this division administers the laws regulating wages, hours, and working conditions. It also enforces the minimum wage and family care laws and may assist in the collection of claims for unpaid wages. The industrial statistician determines the "prevailing rate of wage" on

public works contracts and gathers information on wages and conditions of labor in the state, the consumer price index, standard family budgets, and manpower data on the labor force, employment, unemployment, and earnings. The section headed by the supervisor of employment standards administers the state employment standard designed to protect the health, safety, and welfare of the vast majority of employees. This section also issues minor work permits designed to protect young workers from exploitation and hazardous environments. More information on this subject can be found in *Youth in the Job Force: A Guide for Employers and Minor Workers*. Industrial relations agents investigate complaints of violations of employment standards, the minimum wage law and other wage laws; hold conferences between employees and employers; inspect records; make investigations to determine whether or not there have been violations of statutes, rules, or regulations; and suggest remedial actions.

The apprenticeship portion of this division, with the Washington state apprenticeship and training council, administers the apprenticeship training law for those persons desiring to become skilled in any one of various trades, crafts, and services. Local joint apprenticeship committees and program sponsors throughout the state are responsible for the actual training. This division acts as a liaison between these committees and the council to make certain that the policies of the council are followed uniformly. The division also administers on-the-job training programs for those persons training in occupations other than occupations in which apprenticeship is an option.

The crime victims compensation section of this division pays medical and disability benefits to innocent victims (or to their dependents or survivors) who sustain injuries as a result of criminal acts. Benefit payments and procedures are outlined in the department's publication *Help for Crime Victims*. This section also certifies local prosecutor-based victim-witness units.

(4) **Building and construction safety inspection services.** This division administers programs designed to protect the life, health, and property of the general public. The various sections of this division issue licenses; promulgate rules and regulations; certify standards; and ensure compliance. The division conducts electrical inspections; registers electrical contractors; inspects and regulates the use of boilers and pressure vessels; inspects elevators; ensures compliance with the standards for the manufacture, lease, and sale of mobile homes and recreational vehicles; enforces the statutes, rules, and regulations governing factory-built structures; reviews electrical plans for health care facilities, plans for elevators and other conveyances, and plans for factory-assembled structures; tests and licenses plumbers and electricians; and registers general and specialty contractors.

WAC 296-06-050 Rules of procedure, substantive rules, general policy statements, and interpretations of general applicability. The department's rules of procedures, substantive rules of general applicability, and statements of

general policy and interpretations of general applicability adopted as authorized by law are contained in Title 296 WAC.

[Order 76-27, § 296-06-050, filed 9/28/76; Order 73-12, § 296-06-050, filed 7/31/73.]

WAC 296-06-080 Authorization for release of information. Any person having a right of privacy in any public records of the department may authorize the inspection and copying of any such records by persons not otherwise so authorized by providing the department with a signed and dated written authorization describing the records covered by the authorization, and naming the person or persons authorized to inspect and copy. In the event that a department file contains information related to a disease or condition usually transmitted through sexual contact, or to testing for the presence of such a disease, the authorization to release information must be specific to sexually transmitted disease. A general authorization to release information is not adequate for the release of information related to sexually transmitted disease. The department shall make a record of all authorizations to release information. The authorizations shall be immediately attached to such files and records and shall become a part thereof. No such authorization shall be valid until submitted to the department.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-080, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-080, filed 9/28/76; Order 73-12, § 296-06-080, filed 7/31/73.]

WAC 296-06-090 Public records officer. The department's public records officer shall have charge of its public records. He or she shall have an office in the administrative office of the department at Olympia, Washington. He or she shall be responsible for the enforcement of the department's rules and regulations regarding the release of public records, and shall ensure compliance and cooperation of the department's staff with the public records disclosure requirements of chapter 42.17 RCW. He or she may choose such designees as may be necessary.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-090, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-090, filed 9/28/76; Order 73-12, § 296-06-090, filed 7/31/73.]

WAC 296-06-100 Office hours. The customary office hours of the department's Olympia offices and complete service locations, for the purpose of inspection and copying of any of the department's public records as provided by this chapter, shall be from 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding legal holidays. The only exceptions to this are the Okanogan and Walla Walla service locations, where the customary office hours shall be from 8:00 a.m. to noon and from 1:00 p.m. to 5:00 p.m.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-100, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-100, filed 9/28/76; Order 73-12, § 296-06-100, filed 7/31/73.]

WAC 296-06-110 Requests for public records. Persons requesting opportunity to copy or inspect the department's public records shall follow these procedures:

[Title 296 WAC—p. 146]

(1) Informal oral requests may be made to any of the department's full service locations or its office in Olympia.

(2) The department may require a person who has made an informal request to submit a formal written request.

(3) All formal requests shall be submitted by mail or personally to the deputy director or assistant director who heads the division or the section from which records are being requested. If such a request is misdirected, department staff shall forward it to the proper person.

(4) Each formal request shall include the following information:

(a) The name of the person or persons making the request;

(b) The time of day and calendar date on which the request is made;

(c) The nature of the request, including description of the requested records by title, subject matter, date, and other means of enabling the staff of the department to identify the requested records and make them available.

(d) A signed statement that the material will not be used for commercial purposes, in the event that a list of any type is included in the material being requested.

(5) The staff of the department shall assist any person making a request, whether formal or informal, in identifying the requested record or records but in the event the records cannot be identified, the department shall so advise the person making the request, and, in the case of formal requests, return the formal request for resubmission with additional description of the requested records.

(6) When any request is made to inspect and copy material in files and public records where a right of privacy is involved, or when such files and records are exempt by any other provision of law, inspection and copying shall not be permitted until the authorization described in WAC 296-06-080, together with a formal request, is presented to the department.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-110, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-110, filed 9/28/76; Order 73-12, § 296-06-110, filed 7/31/73.]

WAC 296-06-120 Copying and fees. Where copies of public records are requested, the department may charge a fee, to be set by the public records officer, for reimbursement of its actual costs incident to such a request. The fees the contractor registration section charges for copies of material from a contractor's file are set out in WAC 296-200-900. Whenever copies of public records are mailed to the person making the request, the department may require reimbursement for postage costs. All copies made at the request of persons desiring copies on copy equipment of the department will be made by department staff at times when the making of such copies will not unreasonably disrupt the operations of the department. If the records to be copied contain information that would violate any right of personal privacy, the department staff member shall prevent such information from appearing on any copy. Where the use of such equipment does not harm the public records or impede the normal work of the department, those requesting copies of public records may use their own copying equipment and paper without

charge, but in such event the department staff will supervise the copying at all times.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-120, filed 3/9/90, effective 4/9/90. Statutory Authority: RCW 18.27.040, 42.17.290 and 42.17.300. 82-18-026 (Order 82-26), § 296-06-120, filed 8/25/82; Order 76-27, § 296-06-120, filed 9/28/76; Order 73-12, § 296-06-120, filed 7/31/73.]

WAC 296-06-130 Denials of requests for public records. Only the public records officer or his or her designee shall have the power to deny a request for public records. Action on all such requests shall be prompt. In cases of informal requests, any member of the department's staff to whom an informal request is made may require the person making the request to submit a formal request or such staff member may bring the matter to the attention of the assistant director or his designee of the division from which records are being requested.

A decision on a formal request may be deferred for a reasonable time but immediate written notice of such deferral shall be given. All denials of requests for public records shall be in written form. All denials shall include a statement specifying the reason for the denial, a statement of any exemption authorizing withholding the record and a brief explanation of how the exemption applies to the record withheld, and the signature of the public records officer or his or her designee.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-130, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-130, filed 9/28/76; Order 73-12, § 296-06-130, filed 7/31/73.]

WAC 296-06-140 Review of denials of requests for inspection or copying of public records. After any request for inspection or copying is denied, any person may petition the department to review its denial. Any such petition for review must be made in writing to the public records officer prior to the end of the second business day following the denial. Such petition shall specifically refer to the denial and shall contain a brief statement or any reasons for reconsideration of the denial. Any such petition shall be immediately referred to the director or such persons as he or she may designate to review such petitions. The person reviewing such petitions shall review and reconsider the matter and either affirm or reverse the denial and communicate the decision to the person submitting the petition prior to the end of the second business day following the petition for review.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-140, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-140, filed 9/28/76; Order 73-12, § 296-06-140, filed 7/31/73.]

WAC 296-06-150 Protection of public records. The department shall protect public records from damage or disorganization and prevent excessive interference with other essential functions of the department. All inspections of public records shall be supervised by a department staff member. Any staff member supervising public records inspection may decline to act upon the requests of person who are intoxicated, violent, abusive, threatening, or disruptive, and may terminate the inspection or copying of public records by such persons. Any staff member supervising public records inspection will at all times ensure that those inspecting the

(2003 Ed.)

department's public records do not tear, mutilate, mark, or otherwise harm such records and shall terminate the inspection or copying of public records by any person who has harmed such records. The staff member may limit inspection and copying to any extent necessary to prevent such activity from unreasonably disrupting the department's operations. Any staff member supervising public records inspection shall at all times provide full, prompt, courteous assistance to persons requesting the inspection and copying of the department's public records.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-150, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-150, filed 9/28/76; Order 73-12, § 296-06-150, filed 7/31/73.]

WAC 296-06-170 Records index. The department of labor and industries will not maintain a current index as provided for in RCW 42.17.260(2). As provided in RCW 42.17-260(3), this formal order is issued and published specifying the reasons why and the extent to which maintenance of such a current index would unduly burden or interfere with the operations of the department.

(1) It would both unduly burden and interfere with department operations to maintain a current index with the items specified in RCW 42.17.260 (2)(a), "final opinions, including concurring and dissenting opinions, as well as orders, made in the adjudication of cases," as the department through its several divisions, sections, and other subdivisions routinely and regularly issues a great number of determinative orders. The division of industrial insurance alone is estimated to issue daily an average of about 1,200 to 2,000 or more determinative orders. To index all such orders would either require more personnel and consequent expense or reduce the level of handling the essential functions and result in constantly greater periods of delay. Furthermore, all indexes maintained for departmental use by the various divisions, sections, and subdivisions of the department for internal use will remain available for public inspection and copying where permitted by law. A listing of such indexes and other available material shall be available for public inspection and copying.

Accordingly, and for the above reasons, it is ordered that the public records officer not establish an index relative to such subject matter.

(2) It would both unduly burden and interfere with the department's operations to maintain a current index with all "instructions to staff that affect a member of the public" within the scope of RCW 42.17.260 (2)(c). The inclusion of every such instruction to the staff would require either more personnel to index such instructions or a reduction in the department's capacity to carry out its other functions. The department will, however, continue to make available to the public for inspection or copying all instructions of a general nature to its staff that affects members of the public. A listing of all manuals containing such instructions shall be available for public inspection and copying.

Accordingly, and for the above reasons, it is ordered that the public records officer not establish an index relative to such subject matter.

(3) It would both unduly burden and interfere with department operations to maintain a current index of the

[Title 296 WAC—p. 147]

materials within the scope of RCW 42.17.260 (2)(f), that is, all "correspondence, and materials, referred to therein, by and with the agency relating to any regulatory, supervisory or enforcement responsibilities of the agency, whereby the agency determines, or opines upon, or is asked to determine or opine upon, the rights of the state, the public, a subdivision of state government, or of any private party." The department daily, routinely, and regularly receives and sends a vast amount of material fitting this description. It would require either a greatly increased staff to index everything of that nature or a drastic reduction of the department's ability to carry out its other essential functions.

Accordingly, and for the above reasons, it is ordered that the public records officer not establish an index relative to such subject matter.

(4) The department did maintain a current index of the matters not covered by subsections (1) through (3) for nearly three years following the promulgation of its initial set of public records rules which was filed with the office of the code reviser on July 31, 1973. That index was virtually never asked for, nor was it used to any extent at all by the public. The department devoted many manhours that could have been put to accomplishment of its statutory duties to prepare and maintain that current index. The department finds it has been unduly burdensome to make the extensive effort necessary to maintain such a current index. Therefore, pursuant to RCW 42.17.260(3), the department issues and publishes this formal order specifying the reasons why and the extent to which compliance with any of the provisions of RCW 42.17.260(2) requiring the maintenance of a current index would unduly burden or interfere with its operations. The department herewith states that it will not hereafter maintain such a current index. The department further states that it will, however, make available for public inspection and copying all indexes and lists, not otherwise exempt, maintained for normal agency use. Guidance to public records available through the department and a general listing of such records and how they may be obtained will be provided by the public records officer upon request.

[Statutory Authority: RCW 51.04.020(4) and 51.04.030. 90-07-004, § 296-06-170, filed 3/9/90, effective 4/9/90; Order 76-27, § 296-06-170, filed 9/28/76; Order 73-12, § 296-06-170, filed 7/31/73.]

the "department"; the director of labor and industries as the "director"; the State Environmental Policy Act, chapter 43.21C RCW, as "SEPA"; chapter 197-10 WAC effective January 16, 1976 as the "SEPA guidelines"; and environmental impact statement as "EIS."

[Order 76-16, § 296-07-010, filed 5/20/76.]

WAC 296-07-020 Purpose and scope. The rules contained in this chapter are to carry out the policy and procedures of SEPA and the SEPA guidelines, and shall govern the application of SEPA requirements to the department. These rules are adopted pursuant to the requirement of and authority provided by chapter 43.21C RCW and chapter 197-10 WAC.

From the effective date of this chapter the department in undertaking nonexempt actions shall conform to those relevant and applicable policies and procedures declared mandatory by the provisions of SEPA or the SEPA guidelines. Such pertinent and mandatory policy and procedures are hereby incorporated by reference and adopted as the policy and procedures of the department.

[Order 76-16, § 296-07-020, filed 5/20/76.]

WAC 296-07-030 Meaning of words and terms. The words and terms in this chapter and in all proceedings of the department in compliance with SEPA shall be deemed to conform to the mandatory definitions contained in the SEPA guidelines.

WAC 296-07-060 Designation of responsible official. The assistant director of any department, division, or head of any independent department section with major responsibility for any nonexempt action shall be the responsible official for the purpose of complying with SEPA. In any other case the director shall be the responsible official or he shall designate another person to be the responsible official.

[Order 76-16, § 296-07-060, filed 5/20/76.]

WAC 296-07-070 Department's SEPA public information center. There is hereby established a department public information center to carry out the functions contemplated by the SEPA guidelines, WAC 197-10-830, to be located in the offices of the department at Olympia, Washington. The department's public records officer shall have charge thereof.

[Order 76-16, § 296-07-070, filed 5/20/76.]

WAC 296-07-080 Maintenance of EIS available register. The department shall maintain an EIS available register at its SEPA public information center. Said register shall be in the charge of the department's public records officer and it shall be available for public inspection and copying.

[Order 76-16, § 296-07-080, filed 5/20/76.]

WAC 296-07-090 Exemption for emergency actions. When actions are exempted from the requirements of SEPA or the SEPA guidelines because they are actions which must be taken immediately, or within a time too short to allow full compliance with SEPA or the SEPA guidelines to avoid an imminent danger to public or private property, or to prevent an imminent threat of serious environmental degradation, the responsible official shall prepare a written statement showing the nature of the action and the reasons for immediate action. Such statement shall be filed in the department's SEPA public information center.

[Order 76-16, § 296-07-090, filed 5/20/76.]

WAC 296-07-100 Chapter to be amended when SEPA guidelines amended. When amendments are adopted to the SEPA guidelines the department shall adopt all amendments to this chapter within one hundred twenty days to bring this chapter into conformance with the SEPA guidelines as amended.

[Order 76-16, § 296-07-100, filed 5/20/76.]

WAC 296-07-110 Consideration of economic values. In promulgating rules in compliance with the SEPA guidelines and any environmental, social, health, safety, or other standards connected therewith, the department shall, pursuant to chapter 117, Laws of 1975-76 2nd ex. sess., give appropriate consideration to economic values along with such other considerations.

WAC 296-08-001 Effective date and validity. These rules of practice and procedure have been adopted by the department of labor and industries in accordance with the authority vested in it by law and pursuant to a hearing held at Olympia, Washington, on March 10, 1960. The effective date of these rules is March 18th, 1960.

[Rule .08.591, effective 3/18/60, filed 3/23/60.]

WAC 296-08-010 Appearance and practice before agency—Who may appear. No person may appear in a representative capacity before the department or any division, board, commission or council thereof or its designated hearing officer other than the following:

- (1) Attorneys at law duly qualified and entitled to practice before the supreme court of the state of Washington.
- (2) Attorneys at law duly qualified and entitled to practice before the highest court of record of any other state, if the attorneys at law of the state of Washington are permitted to

[Title 296 WAC—p. 149]

appear in a representative capacity before administrative agencies of such other state, and if not otherwise prohibited by our state law.

(3) Persons otherwise qualified as possessing the requisite skill to appear and expertly represent others who have applied to the department or the division, board, commission or council thereof and have been duly authorized by the same to appear before it in a representative capacity.

(4) A bona fide officer, partner, or full time employee of an individual firm, association, partnership, or corporation.

[Rule .08.010, effective 3/18/60, filed 3/23/60.]

WAC 296-08-020 Appearance and practice before agency—Appearance in certain proceedings may be limited to attorneys. In all hearings involving the taking of testimony and the formulation of a record subject to review by the courts, where the department or any division, board, commission or council thereof or its designated hearing officer determine that representative activity in such hearing requires a high degree of legal training, experience, and skill, the department or the division, board, commission or council thereof or its designated hearing officer may limit those who may appear in a representative capacity to attorneys at law.

[Rule .08.020, effective 3/18/60, filed 3/23/60.]

WAC 296-08-025 Attorney's fees. (1) The department of labor and industries (hereinafter department) shall fix a reasonable attorney fee to be paid by the worker, crime victim, or beneficiary for services rendered with the department if written application therefor is made by the attorney, worker, crime victim, or beneficiary, as provided in RCW 51.52.120.

(a) Fees will be set only for services rendered prior to the notice of appeal;

(b) On closed claims, fees will only be set if written application is received by the department within one year from the claim closure date as indicated on the department order.

(c) If such application for fixing of a fee is made by the attorney, it shall set forth therein the monetary amount which the attorney considers reasonable for all services rendered with the department, the reason such fee is considered to be reasonable, and a detailed breakdown of the time spent by the attorney in representing the injured worker.

(d) In all instances, the department shall afford to all parties affected a minimum of ten days in which to submit comment and material information which may be helpful to the department in setting a fair and reasonable fee.

(e) The department will provide copies of information sent to the department to the attorney, worker, crime victim, or beneficiary upon request.

(f) Informal contact may be made with the parties to determine the feasibility of reaching an agreement on the amount of the fees.

(g) Additional information necessary to reach a decision may be requested by the department.

(2) *Fee fixing criteria.* All attorney fees fixed by the department where application therefor has been made shall

[Title 296 WAC—p. 150]

be established in accordance with the following general principles:

(a) Only one fee shall be fixed for legal services in any one claim regardless of the number of attorneys representing the worker, crime victim, or beneficiary, except that in cases of multiple beneficiaries represented by one or multiple attorneys the department has the discretion to set more than one attorney fee if so requested.

(b) The department shall defer fixing a fee until such time as information, which it deems sufficient upon which to base a fee, is available.

(c) A fee shall be fixed only in those cases where the attorney's services are instrumental in securing additional benefits to the worker, crime victim, or beneficiary.

(d) Where increased compensation is obtained, the fee may be fixed without regard to any medical benefits secured.

(e) In setting all fees, the following factors shall be carefully considered and weighed:

(i) Nature of the claim.

(ii) Novelty and complexity of the issues presented or other unusual circumstances.

(iii) Time and labor expended.

(iv) Skill and diligence in resolving the claim.

(v) Extent and nature of the relief.

(vi) The prevalent practice of charging contingency fees in the department.

(vii) The worker's or crime victim's circumstance and the remedial social purposes of the Industrial Insurance Act and of the Crime Victims Compensation Act, which are intended to provide sure and adequate relief to injured workers and crime victims and their families.

(3) The manager of the claims consultant division of the department is the director's designee to process all petitions to set attorney's fees and to issue orders setting those fees for services rendered by attorneys in securing industrial insurance benefits. The supervisor of the crime victims section of the department is the director's designee to process all petitions to set attorney's fees and to issue orders setting those fees for services rendered by attorneys in securing crime victims benefits.

WAC 296-08-030 Appearance and practice before agency—Solicitation of business unethical. It shall be unethical for persons acting in a representative capacity before the department or any division, board, commission or council thereof to solicit business by circulars, advertisements or by personal relations, provided that such representatives may publish or circulate business cards. It is equally unethical to procure business indirectly by solicitors of any kind.

[Rule .08.030, effective 3/18/60, filed 3/23/60.]

WAC 296-08-040 Appearance and practice before agency—Standards of ethical conduct. All persons appearing in proceedings before the department of any division, board, commission or council thereof in representative capacity shall conform to the standards of ethical conduct

(2003 Ed.)

required of attorneys before the courts of Washington. If any such person does not conform to such standards, the department or the division, board, commission or council thereof may decline to permit such person to appear in a representative capacity in any proceeding before it.

[Rule .08.040, effective 3/18/60, filed 3/23/60.]

WAC 296-08-050 Appearance and practice before agency—Appearance by former employee of agency or former member of attorney general's staff. No former employee of the department or any division, board, commission or council thereof or member of the attorney general's staff may at any time after severing his employment with the department or the division, board, commission or council thereof or the attorney general appear, except with the written permission and in compliance with RCW 42.22.040, in a representative capacity on behalf of other parties in a formal proceeding wherein he previously took an active part as a representative of the department or any division, board, commission or council thereof.

[Rule .08.050, effective 3/18/60, filed 3/23/60.]

WAC 296-08-060 Appearance and practice before agency—Former employee as expert witness. No former employee of the department or any division, board, commission or council thereof shall at any time after severing his employment with the department or the division, board, commission or council thereof appear, except with the written permission and in compliance with RCW 42.22.040, as an expert witness on behalf of other parties in a formal proceeding wherein he previously took an active part in the investigation as a representative of the department or any division, board, commission or council thereof.

[Rule .08.060, effective 3/18/60, filed 3/23/60.]

WAC 296-08-070 Computation of time. In computing any period of time prescribed or allowed by the rules or by the order of the department or any division, board, commission or council thereof or by any applicable statute, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday or a legal holiday, in which event the period runs until the end of the next day which is neither a Saturday, Sunday nor a holiday. When the period of time prescribed or allowed is less than seven days, intermediate Saturdays, Sundays and holidays shall be excluded in the computation.

[Rule .08.070, effective 3/18/60, filed 3/23/60.]

WAC 296-08-080 Notice and opportunity for hearing in contested cases. In any contested case, all parties shall be served with a notice at least 10 days before the date set for the hearing, unless otherwise prescribed by law, or unless all interested parties waive such notice in writing. The notice shall state the time, place, and issues involved, as required by RCW 34.04.090 (2)(i).

[Rule .08.080, effective 3/18/60, filed 3/23/60.]

(2003 Ed.)

WAC 296-08-090 Service of process—By whom served. The department or any division, board, commission or council thereof shall cause to be served all orders, notices and other papers issued by it, together with any other papers which it is required by law to serve. Every other paper shall be served by the party filing it.

[Rule .08.090, effective 3/18/60, filed 3/23/60.]

WAC 296-08-100 Service of process—Upon whom served. All papers served by either the department or any division, board, commission or council thereof or any party shall be served upon all counsel of record at the time such filing and upon parties not represented by counsel or upon their agents designated by them by law. Any counsel entering an appearance subsequent to the initiation of the proceeding shall notify all other counsel then of record and all parties not represented by counsel of such fact.

[Rule .08.100, effective 3/18/60, filed 3/23/60.]

WAC 296-08-110 Service of process—Service upon parties. The final order, and any other paper required to be served by the agency upon a party, shall be served upon such party or upon the agent designated by him or by law to receive service of such papers, and a copy shall be furnished to counsel of record.

[Rule .08.110, effective 3/18/60, filed 3/23/60.]

WAC 296-08-120 Service of process—Methods of service. Service of papers shall be made personally or, unless otherwise provided by law, by first-class, or registered, or certified mail; or by telegraph.

[Rule .08.120, effective 3/18/60, filed 3/23/60.]

WAC 296-08-130 Service of process—When service complete. Service upon parties shall be regarded as complete: By mail, upon deposit in the United States mail properly stamped and addressed; by telegraph, when deposited with a telegraph company properly addressed and with charges prepaid.

[Rule .08.130, effective 3/18/60, filed 3/23/60.]

WAC 296-08-140 Service of process—Filing with agency. Papers required to be filed with the department or any division, board, commission or council thereof shall be deemed filed upon actual receipt by the department or the division, board, commission or council thereof at the place specified in its rules accompanied by proof of service upon parties required to be served.

[Rule .08.140, effective 3/18/60, filed 3/23/60.]

WAC 296-08-150 Subpoenas—Where provided by law—Form. Every subpoena, where authorized by law, shall state "department of labor and industries, state of Washington (name of appropriate division, board, etc.)" and the title of the proceeding, if any, and shall command the person to whom it is directed to attend and give testimony or produce design-

nated books, documents or things under his control at a specified time and place.

[Rule .08.150, effective 3/18/60, filed 3/23/60.]

WAC 296-08-160 Subpoenas—Issuance to parties.

Upon application of counsel or other representative authorized to practice before the agency for any party to a contested case, there shall be issued to such party subpoenas requiring the attendance and testimony of witnesses or the production of evidence in such proceeding. Where authorized by law, the department, or any division, board, commission or council thereof may issue subpoenas to parties not so represented upon request or upon a showing of general relevance and reasonable scope of the testimony or evidence sought.

[Rule .08.160, effective 3/18/60, filed 3/23/60.]

WAC 296-08-170 Subpoenas—Service.

Unless the service of a subpoena is acknowledged on its face by the person subpoenaed, service shall be made by delivering a copy of the subpoena to such person and by tendering him on demand, if entitled to make such demand, the fees for one day's attendance and the mileage allowed by law.

[Rule .08.170, effective 3/18/60, filed 3/23/60.]

WAC 296-08-180 Subpoenas—Fees.

Witnesses summoned before the department or any division, board, commission or council thereof shall be paid by the party at whose instance they appear the same fees and mileage that are paid to witnesses in the superior courts of the state of Washington.

[Rule .08.180, effective 3/18/60, filed 3/23/60.]

WAC 296-08-190 Subpoenas—Proof of service.

The person serving the subpoena shall make proof of service by filing the subpoena and the required return, affidavit or acknowledgment of service with the department or the division, board, commission or council thereof or the officer before whom the witness is required to testify or produce evidence. If service is made by a person other than an officer of the department or the division, board, commission or council thereof and such service has not been acknowledged by the witness, such person shall make an affidavit of service. Failure to make proof of service does not affect the validity of the service.

[Rule .08.190, effective 3/18/60, filed 3/23/60.]

WAC 296-08-200 Subpoenas—Quashing.

Upon motion made promptly, and in any event at or before the time specified in the subpoena for compliance, by the person to whom the subpoena is directed (and upon notice to the party to whom the subpoena was issued) the department or the division, board, commission or council thereof or its authorized member or officer may (1) quash or modify the subpoena if it is unreasonable or requires evidence not relevant to any matter in issue, or (2) condition denial of the motion upon just and reasonable conditions.

[Rule .08.200, effective 3/18/60, filed 3/23/60.]

[Title 296 WAC—p. 152]

WAC 296-08-210 Subpoenas—Enforcement. Upon application and for good cause shown, the department or any division, board, commission or council thereof will seek judicial enforcement of subpoenas, where authorized by law, issued to parties and which have not been quashed.

[Rule .08.210, effective 3/18/60, filed 3/23/60.]

WAC 296-08-220 Subpoenas—Geographical scope.

Such attendance of witnesses and such production of evidence may be required from any place in the state of Washington, at any designated place of hearing.

[Rule .08.220, effective 3/18/60, filed 3/23/60.]

WAC 296-08-370 Official notice—Matters of law.

The department or any division, board, commission or council thereof or its hearing officer upon request made before or during a hearing, will officially notice:

(1) **Federal law.** The Constitution; congressional acts, resolutions, records, journals and committee reports; decisions of federal courts and administrative agencies; executive orders and proclamations; and all rules, orders and notices published in the federal register.

(2) **State law.** The Constitution of the state of Washington, acts of the legislature, resolutions, records, journals and committee reports; decisions of administrative agencies of the state of Washington, executive orders and proclamations by the governor; and all rules, orders and notices filed with the code reviser.

(3) **Governmental organization.** Organization, territorial limitations, officers, departments, and general administration of the government of the state of Washington, the United States, the several states and foreign nations.

(4) **Agency organization.** The department's or any division's, board's, commission's or council's thereof organization, administration, officers, personnel, official publications, and practitioners before its bar.

[Rule .08.370, effective 3/18/60, filed 3/23/60.]

WAC 296-08-380 Official notice—Material facts.

In the absence of controverting evidence, the department or any division, board, commission or council thereof and its hearing officers, upon request made before or during a hearing, may officially notice:

(1) **Agency proceedings.** The pendency of, the issue and position of the parties therein, and the disposition of any proceeding then pending before or theretofore concluded by the department or the division, board, commission or council thereof;

(2) **Business customs.** General customs and practices followed in the transaction of business;

(3) **Notorious facts.** Facts so generally and widely known to all well-informed persons as not to be subject to reasonable dispute, or specific facts which are capable of immediate and accurate demonstration by resort to accessible sources of generally accepted authority, including but not exclusively, facts stated in any publication authorized or permitted by law to be made by any federal or state officer, department, or agency;

(4) **Technical knowledge.** Matters within the technical knowledge of the department or the division, board, commission or council thereof as a body of experts, within the scope or pertaining to the subject matter of its statutory duties, responsibilities or jurisdiction;

(5) **Request or suggestion.** Any party may request, or the hearing officer or the department or the division, board, commission or council thereof may suggest, that official notice be taken of a material fact, which shall be clearly and precisely stated, orally on the record, at any prehearing conference or oral hearing or argument, or may make such request or suggestion by written notice, any pleading, motion, memorandum, or brief served upon all parties, at any time prior to a final decision;

(6) **Statement.** Where an initial or final decision of the department or the division, board, commission or council thereof rests in whole or in part upon official notice of a material fact, such fact shall be clearly and precisely stated in such decision. In determining whether to take official notice of material facts, the hearing officer of the department or the division, board, commission or council thereof may consult any source of pertinent information, whether or not furnished as it may be, by any party and whether or not admissible under the rules of evidence;

(7) **Controversion.** Any party may controvert a request or a suggestion that official notice of a material fact be taken at the time the same is made if it be made orally, or by a pleading, reply or brief in response to the pleading or brief or notice in which the same is made or suggested. If any decision is stated to rest in whole or in part upon official notice of a material fact which the parties have not had a prior opportunity to controvert, any party may controvert such fact by appropriate exceptions if such notice be taken in an initial or intermediate decision or by a petition for reconsideration if notice of such fact be taken in a final report. Such controversion shall concisely and clearly set forth the sources, authority and other data relied upon to show the existence or nonexistence of the material fact assumed or denied in the decision;

(8) **Evaluation of evidence.** Nothing herein shall be construed to preclude the department or the division, board, commission or council thereof or its authorized agents from utilizing their experience, technical competence, and specialized knowledge in the evaluation of the evidence presented to them.

[Rule .08.380, effective 3/18/60, filed 3/23/60.]

WAC 296-08-390 Presumptions. Upon proof of the predicate facts specified in the following six subsections hereof without substantial dispute and by direct, clear, and convincing evidence, the department or the division, board, commission or council thereof with or without prior request or notice, may make the following presumptions, where consistent with all surrounding facts and circumstances:

(1) **Continuity.** That a fact of a continuous nature, provided to exist at a particular time, continues to exist as of the date of the presumption, if the fact is one which usually exists for at least that period of time;

(2) **Identity.** That persons and objects of the same name and description are identical;

(2003 Ed.)

(3) **Delivery.** Except in a proceeding where the liability of the carrier for nondelivery is involved, that mail matter, communications, express or freight, properly addressed, marked, billed and delivered respectively to the post office, telegraph, cable or radio company, or authorized common carrier of property with all postage, tolls and charges properly prepaid, is or has been delivered to the addressee or consignee in the ordinary course of business;

(4) **Ordinary course.** That a fact exists or does not exist, upon proof of the existence or nonexistence of another fact which in the ordinary and usual course of affairs, usually and regularly co-exists with the fact presumed;

(5) **Acceptance of benefit.** That a person for whom an act is done or to whom a transfer is made has, does or will accept same where it is clearly in his own self-interest so to do;

(6) **Interference with remedy.** That evidence, with respect to a material fact which in bad faith is destroyed, eloi-gned, suppressed or withheld by a party in control thereof, would if produced, corroborate the evidence of the adversary party with respect to such fact.

[Rule .08.390, effective 3/18/60, filed 3/23/60.]

WAC 296-08-400 Stipulations and admissions of record. The existence or nonexistence of a material fact, as made or agreed in a stipulation or in an admission of record, will be conclusively presumed against any party bound thereby, and no other evidence with respect thereto will be received upon behalf of such party, provided:

(1) **Upon whom binding.** Such a stipulation or admission is binding upon the parties by whom it is made, their privies and upon all other parties to the proceeding who do not expressly and unequivocally deny the existence or nonexistence of the material fact so admitted or stipulated, upon the making thereof, if made on the record at a prehearing conference, oral hearing, oral argument or by a writing filed and served upon all parties within five days after a copy of such stipulation or admission has been served upon them;

(2) **Withdrawal.** Any party bound by a stipulation or admission or record at any time prior to final decision may be permitted to withdraw the same in whole or in part by showing to the satisfaction of the hearing officer or the department or the division, board, commission or council thereof that such stipulation or admission was made inadvertently or under a bona fide mistake of fact contrary to the true fact and that its withdrawal at the time proposed will not unjustly prejudice the rights of other parties to the proceeding.

[Rule .08.400, effective 3/18/60, filed 3/23/60.]

WAC 296-08-410 Form and content of decisions in contested cases. Every decision and order, whether proposed, initial, or final, shall:

(1) Be correctly captioned as to name of agency and name of proceeding;

(2) Designate all parties and counsel to the proceeding;

(3) Include a concise statement of the nature and background of the proceeding;

(4) Be accompanied by appropriate numbered findings of fact and conclusions of law;

[Title 296 WAC—p. 153]

(5) Whenever practical, include the reason or reasons for the particular order or remedy afforded;

(6) Wherever practical, be referenced to specific provisions of the law and/or regulations appropriate thereto, together with reasons and precedents relied upon to support the same.

[Rule .08.410, effective 3/18/60, filed 3/23/60.]

WAC 296-08-420 Definition of issues before hearing.

In all proceedings the issues to be adjudicated shall be made initially as precise as possible, in order that hearing officers may proceed promptly to conduct the hearings on relevant and material matter only.

[Rule .08.420, effective 3/18/60, filed 3/23/60.]

WAC 296-08-430 Prehearing conference rule—

Authorized. In any proceeding the department or any division, board, commission or council thereof or its designated hearing officer upon its or his own motion, or upon the motion of one of the parties or their qualified representatives, may in its or his discretion direct the parties or their qualified representatives to appear at a specified time and place for a conference to consider:

- (1) The simplification of the issues;
- (2) The necessity of amendments to the pleadings;
- (3) The possibility of obtaining stipulations, admissions of facts and of documents;
- (4) The limitation of the number of expert witnesses;
- (5) Such other matters as may aid in the disposition of the proceeding.

[Rule .08.430, effective 3/18/60, filed 3/23/60.]

WAC 296-08-440 Prehearing conference rule—

Record of conference action. The department of the division, board, commission or council thereof or its designated hearing officer shall make an order or statement which recites the action taken at the conference, the amendments allowed to the pleadings and the agreements made by the parties or their qualified representatives as to any of the matters considered, including the settlement or simplification of issues, and which limits the issues for hearing to those not disposed of by admissions or agreements; and such order or statement shall control the subsequent course of the proceeding unless modified for good cause by subsequent order.

[Rule .08.440, effective 3/18/60, filed 3/23/60.]

WAC 296-08-450 Submission of documentary evidence in advance.

Where practical the department or the division, board, commission or council thereof or its designated hearing officer may require:

(1) That all documentary evidence which is to be offered during the taking of evidence be submitted to the hearing examiner and to the other parties to the proceeding sufficiently in advance of such taking of evidence to permit study and preparation of cross-examination and rebuttal evidence.

(2) That documentary evidence not submitted in advance, as may be required by subsection (1), be not received in evidence in the absence of a clear showing that

the offering party had good cause for his failure to produce the evidence sooner;

(3) That the authenticity of all documents submitted in advance in a proceeding in which such submission is required, be deemed admitted unless written objection thereto is filed prior to the hearing, except that a party will be permitted to challenge such authenticity at a later time upon a clear showing of good cause for failure to have filed such written objection.

[Rule .08.450, effective 3/18/60, filed 3/23/60.]

WAC 296-08-460 Excerpts from documentary evidence.

When portions only of a document are to be relied upon, the offering party shall prepare the pertinent excerpts, adequately identified, and shall supply copies of such excerpts, together with a statement indicating the purpose for which such materials will be offered, to the hearing examiner and to other parties. Only the excerpts, so prepared and submitted, shall be received in the record. However, the whole of the original document shall be made available for examination and for use by all parties to the proceeding.

[Rule .08.460, effective 3/18/60, filed 3/23/60.]

WAC 296-08-470 Expert or opinion testimony and testimony based on economic and statistical data—Number and qualifications of witnesses.

That the hearing examiner or other appropriate officer in all classes of cases where practicable make an effort to have the interested parties agree upon the witness or witnesses who are to give expert or opinion testimony, either by selecting one or more to speak for all parties or by limiting the number for each party; and, if the interested parties cannot agree, require them to submit to him to the other parties written statements containing the names, addresses and qualifications of their respective opinion or expert witnesses, by a date determined by him and fixed sufficiently in advance of the hearing to permit the other interested parties to investigate such qualifications.

[Rule .08.470, effective 3/18/60, filed 3/23/60.]

WAC 296-08-480 Expert or opinion testimony and testimony based on economic and statistical data—Written sworn statements.

That the hearing examiner or other appropriate officer, in all classes of cases in which it is practicable and permissible, require, and when not so permissible, make every effort to bring about by voluntary submission, that all direct opinion or expert testimony and all direct testimony based on economic or statistical data be reduced to written sworn statements, and, together with the exhibits upon which based, be submitted to him and to the other parties to the proceeding by a date determined by the hearing officer and fixed a reasonable time in advance of the hearing; and that such sworn statements be acceptable as evidence upon formal offer at the hearing, subject to objection on any ground except that such sworn statements shall not be subject to challenge because the testimony is not presented orally, and provided that witnesses making such statements shall not be subject to cross-examination unless a request is made sufficiently in advance of the hearing to insure the presence of the witnesses.

[Rule .08.480, effective 3/18/60, filed 3/23/60.]

WAC 296-08-490 Expert or opinion testimony and testimony based on economic and statistical data—Supporting data. That the hearing examiner or other appropriate officer, in his discretion but consistent with the rights of the parties, cause the parties to make available for inspection in advance of the hearing, and for purposes of cross-examination at the hearing, the data underlying statements and exhibits submitted in accordance with WAC 296-08-480, but, wherever practicable that he restrict to a minimum the placing of such data in the record.

[Rule .08.490, effective 3/18/60, filed 3/23/60.]

WAC 296-08-500 Expert or opinion testimony and testimony based on economic and statistical data—Effect of noncompliance with WAC 296-08-470 or 296-08-480. Whenever the manner of introduction of opinion or expert testimony or testimony based on economic or statistical data is governed by requirements fixed under the provisions of WAC 296-08-470 or 296-08-480, such testimony not submitted in accordance with the relevant requirements shall not be received in evidence in the absence of a clear showing that the offering party had good cause for his failure to conform to such requirements.

[Rule .08.500, effective 3/18/60, filed 3/23/60.]

WAC 296-08-510 Continuances. Any party who desires a continuance shall, immediately upon receipt of notice of hearing, or as soon thereafter as requiring such continuance come to his knowledge, notify the department or the division, board, commission or council thereof or its designated hearing officer of said desire, stating in detail the reasons why such continuance is necessary. The department or the division, board, commission or council thereof or its designated hearing officer, in passing upon a request for continuance, shall consider whether such request was promptly and timely made. For good cause shown the department or the division, board, commission or council thereof or its designated hearing officer may grant such a continuance and may at any time order a continuance upon its or his own motion. During a hearing, if it appears in the public interest or in the interest of justice that further testimony or argument should be received, the examiner or other officer conducting the hearing may in his discretion continue the hearing and fix a date for introduction of additional evidence or presentation of argument. Such oral notice shall constitute final notice of such continued hearing.

[Rule .08.510, effective 3/18/60, filed 3/23/60.]

WAC 296-08-520 Rules of evidence—Admissibility criteria. Subject to the other provisions of these rules, all relevant evidence is admissible which, in the opinion of the officer conducting the hearing, is the best evidence reasonably obtainable, having due regard for its necessity, availability and trustworthiness. In passing upon the admissibility of evidence, the officer conducting the hearing shall give consideration to, but shall not be bound to follow, the rules of evidence governing civil proceedings in matters not involv-

(2003 Ed.)

ing trial by jury, in the superior court of the state of Washington.

[Rule .08.520, effective 3/18/60, filed 3/23/60.]

WAC 296-08-530 Rules of evidence—Tentative admission—Exclusion—Discontinuance—Objections. When objection is made to the admissibility of evidence such evidence may be received subject to a later ruling. The officer conducting the hearing may, in his discretion, either with or without objection, exclude inadmissible evidence or order cumulative evidence discontinued. Parties objecting to the introduction of evidence shall state the precise grounds of such objection at the time such evidence is offered.

[Rule .08.530, effective 3/18/60, filed 3/23/60.]

WAC 296-08-540 Petitions for rule making, amendment or repeal. Any interested person may petition the department or any division, board, commission or council thereof requesting the promulgation, amendment, or repeal of any rule.

[Rule .08.540, effective 3/18/60, filed 3/23/60.]

WAC 296-08-550 Petitions for rule making, amendment or repeal—Requisites. Where the petition requests the promulgation of a rule, the requested or proposed rule must be set out in full, the petition must also include all the reasons for the requested rule together with briefs of any applicable law. Where the petition requests the amendment or repeal of a rule presently in effect, the rule or portion of the rule in question must be set out as well as a suggested amended form, if any. The petition must include all reasons for the requested amendment or repeal of the rule.

[Rule .08.550, effective 3/18/60, filed 3/23/60.]

WAC 296-08-560 Petitions for rule making, amendment or repeal—Agency must consider. All petitions shall be considered by the department or the division, board, commission or council thereof and the department or the division, board, commission or council thereof may, in its discretion, order a hearing for the further consideration and discussion of the requested promulgation, amendment, repeal or modification of any rule.

[Rule .08.560, effective 3/18/60, filed 3/23/60.]

WAC 296-08-570 Petitions for rule making, amendment or repeal—Notice of disposition. The department or the division, board, commission or council thereof shall notify the petitioning party within a reasonable time of the disposition, if any, of the petition.

[Rule .08.570, effective 3/18/60, filed 3/23/60.]

WAC 296-08-580 Declaratory rulings. As prescribed by RCW 34.04.080, any interested person may petition the department or any division, board, commission or council thereof for a declaratory ruling. The department or the division, board, commission or council thereof shall consider the petition and within a reasonable time shall:

- (1) Issue a nonbinding declaratory ruling; or

[Title 296 WAC—p. 155]

(2) Notify the person that no declaratory ruling is to be issued; or

(3) Set a reasonable time and place for a hearing or the submission of written evidence upon the matter, and give reasonable notification to the person of the time and place for such hearing or submission and of the issues involved.

If a hearing is held or evidence is submitted as provided in subsection (3), the department or the division, board, commission or council thereof shall within a reasonable time:

(1) Issue a binding declaratory rule; or

(2) Issue a nonbinding declaratory ruling; or

(3) Notify the person that no declaratory ruling is to be issued.

[Rule .08.580, effective 3/18/60, filed 3/23/60.]

WAC 296-08-590 Forms. (1) Any interested person petitioning the department or the division, board, commission or council thereof for a declaratory ruling pursuant to RCW 34.04.080, shall generally adhere to the following form for such purpose.

(a) At the top of the page shall appear the wording "before the department of labor and industries (name of appropriate division board, etc.)." On the left side of the page below the foregoing the following caption shall be set out: "In the matter of the petition of (name of petitioning party) for a declaratory ruling." Opposite the foregoing caption shall appear the word "petition."

(b) The body of the petition shall be set out in numbered paragraphs. The first paragraph shall state the name and address of the petitioning party. The second paragraph shall state all rules or statutes that may be brought into issue by the petition. Succeeding paragraphs shall set out the state of facts relied upon in form similar to that applicable to complaints in civil actions before the superior courts of this state. The concluding paragraphs shall contain the prayer of the petitioner. The petition shall be subscribed and verified in the manner prescribed for verification of complaints in the superior courts of this state.

(c) The original and two legible copies shall be filed with the agency. Petitions shall be on white paper, either 8-1/2" x 11" or 8-1/2" x 13" in size.

(2) Any interested person petitioning the department or any division, board, commission or council thereof requesting the promulgation, amendment or repeal of any rules shall generally adhere to the following form for such purpose:

(a) At the top of the page shall appear the wording, "before the department of labor and industries (name of appropriate division, board, etc.)." On the left side of the page below the foregoing the following caption shall be set out: "In the matter of the petition of (name of petitioning party) for (state whether promulgation, amendment or repeal) of rule (or rules)." Opposite the foregoing shall appear the word "petition."

(b) The body of the petition shall be set out in numbered paragraphs. The first paragraph shall state the name and address of the petitioning party and whether petitioner seeks the promulgation of new rule or rules, or amendment or repeal of existing rule or rules. The second paragraph, in case of a proposed new rule or amendment of an existing rule, shall set forth the desired rule in its entirety. Where the peti-

tion is for amendment, the new matter shall be underscored and the matter proposed to be deleted shall appear in double parentheses. Where the petition is for repeal of an existing rule, such shall be stated and the rule proposed to be repealed shall either be set forth in full or shall be referred to by agency rule number. The third paragraph shall be set forth concisely the reasons for the proposal of the petitioner and shall contain a statement as to the interest of the petitioner in the subject matter of the rule. Additional numbered paragraphs may be used to give full explanation of petitioner's reason for the action sought.

(c) Petitions shall be dated and signed by the person or entity named in the first paragraph or by his attorney. The original and two legible copies of the petition shall be filed with the agency. Petitions shall be on white paper, either 8-1/2" x 11" or 8-1/2" x 13" in size.

WAC 296-09-010 Appearance and practice before agency—Who may appear. No person may appear in a representative capacity before the board of boiler rules or its designated hearing officer other than the following:

(1) Attorneys at law duly qualified and entitled to practice before the supreme court of the state of Washington.

(2) Attorneys at law duly qualified and entitled to practice before the highest court of record of any other state, if the attorneys at law of the state of Washington are permitted to appear in a representative capacity before administrative agencies of such other state, and if not otherwise prohibited by our state law.

(3) Persons otherwise qualified as possessing the requisite skill to appear and expertly represent others who have applied to the board of boiler rules and have been duly authorized by the same to appear before it in a representative capacity.

(4) A bona fide officer, partner, or full-time employee of an individual firm, association, partnership, or corporation.

[Rule .08.010, effective 3/10/60, filed 3/23/60.]

WAC 296-09-020 Appearance and practice before agency—Appearance in certain proceedings may be limited to attorneys. In all hearings involving the taking of testimony and the formulation of a record subject to review by the courts, where the board of boiler rules or its designated hearing officer determine that representative activity in such hearing requires a high degree of legal training, experience, and skill, the board or its designated hearing officer may limit those who may appear in a representative capacity to attorneys at law.

[Rule .08.020, effective 3/10/60, filed 3/23/60.]

WAC 296-09-030 Appearance and practice before agency—Solicitation of business unethical. It shall be unethical for persons acting in a representative capacity before the board of boiler rules to solicit business by circulars, advertisements or by personal relations, provided that such representatives may publish or circulate business cards. It is equally unethical to procure business indirectly by solicitors of any kind.

[Rule .08.030, effective 3/10/60, filed 3/23/60.]

WAC 296-09-040 Appearance and practice before agency—Standards of ethical conduct. All persons appearing in proceedings before the board of boiler rules in representative capacity shall conform to the standards of ethical conduct required of attorneys before the courts of Washington. If any such person does not conform to such standards, the board may decline to permit such person to appear in a representative capacity in any proceeding before it.

[Rule .08.040, effective 3/10/60, filed 3/23/60.]

(2003 Ed.)

WAC 296-09-050 Appearance and practice before agency—Appearance of former employee of board or former member of attorney general's staff. No former employee of the board of boiler rules or member of the attorney general's staff may at any time after severing his employment with the board or the attorney general appear, except with the written permission and in compliance with chapter 42.22 RCW, in a representative capacity on behalf of other parties in a formal proceeding wherein he previously took an active part as a representative of the board.

[Rule .08.050, effective 3/10/60, filed 3/23/60.]

WAC 296-09-060 Appearance and practice before agency—Former employee as expert witness. No former employee of the board of boiler rules shall at any time after severing his employment with the board appear, except with the written permission and in compliance with chapter 42.22 RCW, as an expert witness on behalf of other parties in a formal proceeding wherein he previously took an active part in the investigation as a representative of the board.

[Rule .08.060, effective 3/10/60, filed 3/23/60.]

WAC 296-09-070 Computation of time. In computing any period of time prescribed or allowed by the rules or by the order of the board of boiler rules or by any applicable statute, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday or a legal holiday, in which event the period runs until the end of the next day which is neither a Saturday, Sunday nor a holiday. When the period of time prescribed or allowed is less than seven days, intermediate Saturdays, Sundays and holidays shall be excluded in the computation.

[Rule .08.070, effective 3/10/60, filed 3/23/60.]

WAC 296-09-080 Notice and opportunity for hearing in contested cases. In any contested case, all parties shall be served with a notice at least 10 days before the date set for the hearing, unless otherwise prescribed by law, or unless all interested parties waive such notice, and such waiver be noted in the minutes. The notice shall state the time, place, and issues involved, as required by RCW 34.04.090(1).

[Rule .08.080, effective 3/10/60, filed 3/23/60.]

WAC 296-09-090 Service of process—By whom served. The board of boiler rules shall cause to be served all orders, notices and other papers issued by it, together with any other papers which it is required by law to serve. Every other paper shall be served by the party filing it.

[Rule .08.090, effective 3/10/60, filed 3/23/60.]

WAC 296-09-100 Service of process—Upon whom served. All papers served by either the board of boiler rules or any party shall be served upon all counsel of record at the time [of] such filing and upon parties not represented by counsel or upon their agents designated by them by law. Any counsel entering an appearance subsequent to the initiation of

[Title 296 WAC—p. 157]

the proceeding shall notify all other counsel then of record and all parties not represented by counsel of such fact.

[Rule .08.100, effective 3/10/60, filed 3/23/60.]

WAC 296-09-110 Service of process—Service upon parties. The final order, and any other paper required to be served by the agency upon a party, shall be served upon such party or upon the agent designated by him or by law to receive service of such papers, and a copy shall be furnished to counsel of record.

[Rule .08.110, effective 3/10/60, filed 3/23/60.]

WAC 296-09-120 Service of process—Method of service. Service of papers shall be made personally or, unless otherwise provided by law, by first-class, or registered, or certified mail; or by telegraph.

[Rule .08.120, effective 3/10/60, filed 3/23/60.]

WAC 296-09-130 Service of process—When service complete. Service upon parties shall be regarded as complete: By mail, upon deposit in the United States mail properly stamped and addressed; by telegraph, when deposited with a telegraph company properly addressed and with charges prepaid.

[Rule .08.130, effective 3/10/60, filed 3/23/60.]

WAC 296-09-140 Service of process—Filing with agency. Papers required to be filed with the board of boiler rules shall be deemed filed upon actual receipt by the board at the place specified in its rules accompanied by proof of service upon parties required to be served.

[Rule .08.140, effective 3/10/60, filed 3/23/60.]

WAC 296-09-370 Official notice—Matters of law. The board of boiler rules or its hearing officer upon request made before or during a hearing, will officially notice:

(1) **Federal law.** The Constitution; congressional acts, resolutions, records, journals and committee reports; decisions of federal courts and administrative agencies; executive orders and proclamations; and all rules, orders and notices published in the Federal Register.

(2) **State law.** The Constitution of the state of Washington, acts of the legislature, resolutions, records, journals and committee reports; decisions of administrative agencies of the state of Washington, executive orders and proclamations by the governor; and all rules, orders and notices filed with the code reviser.

(3) **Governmental organization.** Organization, territorial limitations, officers, departments, and general administration of the government of the state of Washington, the United States, the several states and foreign nations.

(4) **Agency organization.** The board of boiler rules' organization, administration, officers, personnel, official publications, and practitioners before its bar.

[Rule .08.370, effective 3/10/60, filed 3/23/60.]

[Title 296 WAC—p. 158]

WAC 296-09-380 Official notice—Material facts. In the absence of controverting evidence, the board of boiler rules and its hearing officers, upon request made before or during a hearing, may officially notice:

(1) **Agency proceedings.** The pendency of, the issue and position of the parties therein, and the disposition of any proceeding then pending before or theretofore concluded by the board of boiler rules;

(2) **Business customs.** General customs and practices followed in the transaction of business;

(3) **Notorious facts.** Facts so generally and widely known to all well-informed persons as not to be subject to reasonable dispute, or specific facts which are capable of immediate and accurate demonstration by resort to accessible sources of generally accepted authority, including but not exclusively, facts stated in any publication authorized or permitted by law to be made by any federal or state officer, department, or agency;

(4) **Technical knowledge.** Matters within the technical knowledge of the board of boiler rules as a body of experts, within the scope or pertaining to the subject matter of its statutory duties, responsibilities or jurisdiction;

(5) **Request or suggestion.** Any party may request, or the hearing officer or the board of boiler rules may suggest, that official notice be taken of a material fact, which shall be clearly and precisely stated, orally on the record, at any pre-hearing conference or oral hearing or argument, or may make such request or suggestion by written notice, any pleading, motion, memorandum, or brief served upon all parties, at any time prior to a final decision;

(6) **Statement.** Where an initial or final decision of the board of boiler rules rests in whole or in part upon official notice of a material fact, such fact shall be clearly and precisely stated in such decision. In determining whether to take official notice of material facts, the hearing officer of the board may consult any source of pertinent information, whether or not furnished as it may be, by any party and whether or not admissible under the rules of evidence;

(7) **Controversion.** Any party may controvert a request or a suggestion that official notice of a material fact be taken at the time the same is made if it be made orally, or by a pleading, reply or brief in response to the pleading or brief or notice in which the same is made or suggested. If any decision is stated to rest in whole or in part upon official notice of a material fact which the parties have not had a prior opportunity to controvert, any party may controvert such fact by appropriate exceptions if such notice be taken in an initial or intermediate decision or by a petition for reconsideration if notice of such fact be taken in a final report. Such controversion shall concisely and clearly set forth the sources, authority and other data relied upon to show the existence or nonexistence of the material fact assumed or denied in the decision;

(8) **Evaluation of evidence.** Nothing herein shall be construed to preclude the board of boiler rules or its authorized agents from utilizing their experience, technical competence, and specialized knowledge in the evaluation of the evidence presented to them.

[Rule .08.380, effective 3/10/60, filed 3/23/60.]

(2003 Ed.)

WAC 296-09-390 Presumptions. Upon proof of the predicate facts specified in the following six subdivisions hereof without substantial dispute and by direct, clear, and convincing evidence, the board of boiler rules with or without prior request or notice, may take the following presumptions, where consistent with all surrounding facts and circumstances:

(1) **Continuity.** That a fact of a continuous nature, provided to exist at a particular time, continues to exist as of the date of the presumption, if the fact is one which usually exists for at least that period of time;

(2) **Identity.** That persons and objects of the same name and description are identical;

(3) **Delivery.** Except in a proceeding where the liability of the carrier for nondelivery is involved, that mail matter, communications, express or freight, properly addressed, marked, billed and delivered respectively to the post office, telegraph, cable or radio company, or authorized common carrier of property with all postage, tolls and charges properly prepaid, is or has been delivered to the addressee or consignee in the ordinary course of business;

(4) **Ordinary course.** That a fact exists or does not exist, upon proof of the existence or nonexistence of another fact which in the ordinary and usual course of affairs, usually and regularly coexists with the fact presumed;

(5) **Acceptance of benefit.** That a person for whom an act is done or to whom a transfer is made has, does or will accept same where it is clearly in his own self-interest so to do,

(6) **Interference with remedy.** That evidence, with respect to a material fact which in bad faith is destroyed, eloi-gned, suppressed or withheld by a party in control thereof, would if produced, corroborate the evidence of the adversary party with respect to such fact.

[Rule .08.390, effective 3/10/60, filed 3/23/60.]

WAC 296-09-400 Stipulations and admissions of record. The existence or nonexistence of a material fact, as made or agreed in a stipulation or in an admission of record, will be conclusively presumed against any party bound thereby, and no other evidence with respect thereto will be received upon behalf of such party, provided:

(1) **Upon whom binding.** Such a stipulation or admission is binding upon the parties by whom it is made, their privies and upon all other parties to the proceeding who do not expressly and unequivocally deny the existence or nonexistence of the material fact so admitted or stipulated, upon the making thereof, if made on the record at a prehearing conference, oral hearing, oral argument or by a writing filed and served upon all parties within five days after a copy of such stipulation or admission has been served upon them;

(2) **Withdrawal.** Any party bound by a stipulation or admission or record at any time prior to final decision may be permitted to withdraw the same in whole or in part by showing to the satisfaction of the hearing officer or the board of boiler rules that such stipulation or admission was made inadvertently or under a bona fide mistake of fact contrary to the true fact and that its withdrawal at the time proposed will not

(2003 Ed.)

unjustly prejudice the rights of other parties to the proceeding.

[Rule .08.400, effective 3/10/60, filed 3/23/60.]

WAC 296-09-410 Form and content of decisions in contested cases. Every decision and order, whether proposed, initial, or final, shall:

(1) Be correctly captioned as to name of agency and name of proceeding;

(2) Designate all parties and counsel to the proceeding.

(3) Include a concise statement of the nature and background of the proceeding;

(4) Be accompanied by appropriate numbered findings of fact and conclusions of law;

(5) Whenever practical, include the reason or reasons for the particular order or remedy afforded;

(6) Wherever practical, be referenced to specific provisions of the law and/or regulations appropriate thereto, together with reasons and precedents relied upon to support the same.

[Rule .08.410, effective 3/10/60, filed 3/23/60.]

WAC 296-09-420 Definition of issues before hearing.

In all proceedings the issues to be adjudicated shall be made initially as precise as possible, in order that hearing officers may proceed promptly to conduct the hearings on relevant and material matter only.

[Rule .08.420, effective 3/10/60, filed 3/23/60.]

WAC 296-09-430 Prehearing conference rule—

Authorized. In any proceeding the board of boiler rules or its designated hearing officer upon its or his own motion, or upon the motion of one of the parties or their qualified representatives, may in its or his discretion direct the parties or their qualified representatives to appear at a specified time and place for a conference to consider

(1) The simplification of the issues;

(2) The necessity of amendments to the pleadings;

(3) The possibility of obtaining stipulations, admissions of facts and of documents;

(4) The limitation of the number of expert witnesses;

(5) Such other matters as may aid in the disposition of the proceeding.

[Rule .08.430, effective 3/10/63, filed 3/23/60.]

WAC 296-09-440 Prehearing conference rule—

Record of conference action. The board of boiler rules or its designated hearing officer shall make an order or statement which recites the action taken at the conference, the amendments allowed to the pleadings and the agreements made by the parties or their qualified representatives as to any of the matters considered, including the settlement or simplification of issues, and which limits the issues for hearing to those not disposed of by admissions or agreements; and such order or statement shall control the subsequent course of the proceeding unless modified for good cause by subsequent order.

[Rule .08.440, effective 3/10/60, filed 3/23/60.]

WAC 296-09-450 Submission of documentary evidence in advance. Where practical the board of boiler rules or its designated hearing officer may require:

(1) That all documentary evidence which is to be offered during the taking of evidence be submitted to the hearing examiner and to the other parties to the proceeding sufficiently in advance of such taking of evidence to permit study and preparation of cross-examination and rebuttal evidence.

(2) That documentary evidence not submitted in advance, as may be required by subsection (1), be not received in evidence in the absence of a clear showing that the offering party had good cause for his failure to produce the evidence sooner;

(3) That the authenticity of all documents submitted in advance in a proceeding in which such submission is required, be deemed admitted unless written objection thereto is filed prior to the hearing, except that a party will be permitted to challenge such authenticity at a later time upon a clear showing of good cause for failure to have filed such written objection.

[Rule .08.450, effective 3/10/60, filed 3/23/60.]

WAC 296-09-460 Excerpts from documentary evidence. When portions only of a document are to be relied upon, the offering party shall prepare the pertinent excerpts, adequately identified, and shall supply copies of such excerpts, together with a statement indicating the purpose for which such materials will be offered, to the hearing examiner and to other parties. Only the excerpts, so prepared and submitted, shall be received in the record. However, the whole of the original document shall be made available for examination and for use by all parties to the proceeding.

[Rule .08.460, effective 3/10/60, filed 3/23/60.]

WAC 296-09-470 Expert or opinion testimony and testimony based on economic or statistical data—Number and qualifications of witnesses. That the hearing examiner or other appropriate officer in all classes of cases where practicable make an effort to have the interested parties agree upon the witness or witnesses who are to give expert or opinion testimony, either by selecting one or more to speak for all parties or by limiting the number for each party; and, if the interested parties cannot agree, require them to submit to him [and] to the other parties written statements containing the names, addresses and qualifications of their respective opinion or expert witnesses, by a date determined by him and fixed sufficiently in advance of the hearing to permit the other interested parties to investigate such qualifications.

[Rule .08.470, effective 3/10/60, filed 3/23/60.]

WAC 296-09-480 Expert or opinion testimony and testimony based on economic or statistical data—Written sworn statements. That the hearing examiner or other appropriate officer, in all classes of cases in which it is practicable and permissible, require, and when not so permissible, make every effort to bring about by voluntary submission, that all direct opinion or expert testimony and all direct testimony based on economic or statistical data be reduced to written sworn statements, and, together with the exhibits upon which

[Title 296 WAC—p. 160]

based, be submitted to him and to the other parties to the proceeding by a date determined by the hearing officer and fixed a reasonable time in advance of the hearing; and that such sworn statements be acceptable as evidence upon formal offer at the hearing, subject to objection on any ground except that such sworn statements shall not be subject to challenge because the testimony is not presented orally, and provided that witnesses making such statements shall not be subject to cross-examination unless a request is made sufficiently in advance of the hearing to insure the presence of the witnesses.

[Rule .08.480, effective 3/10/60, filed 3/23/60.]

WAC 296-09-490 Expert or opinion testimony and testimony based on economic or statistical data—Supporting data. That the hearing examiner or other appropriate officer, in his discretion but consistent with the rights of the parties, cause the parties to make available for inspection in advance of the hearing, and for purposes of cross-examination at the hearing, the data underlying statements and exhibits submitted in accordance with WAC 296-09-480, but, wherever practicable that he restrict to a minimum the placing of such data in the record.

[Rule .08.490, effective 3/10/60, filed 3/23/60.]

WAC 296-09-500 Expert or opinion testimony and testimony based on economic or statistical data—Effect of noncompliance with WAC 296-09-470 or 296-09-480. Whenever the manner of introduction of opinion or expert testimony or testimony based on economic or statistical data is governed by requirements fixed under the provisions of WAC 296-09-470 or 296-09-480, such testimony not submitted in accordance with the relevant requirements shall not be received in evidence in the absence of a clear showing that the offering party had good cause for his failure to conform to such requirements.

[Rule .08.500, effective 3/10/60, filed 3/23/60.]

WAC 296-09-510 Continuances. Any party who desires a continuance shall, immediately upon receipt of notice of hearing, or as soon thereafter as requiring such continuance come to his knowledge, notify the board of boiler rules or its designated hearing officer of said desire, stating in detail the reasons why such continuance is necessary. The board or its designated hearing officer, in passing upon a request for continuance, shall consider whether such request was promptly and timely made. For good cause shown the board or its designated hearing officer may grant such a continuance and may at any time order a continuance upon its or his own motion. During a hearing, if it appears in the public interest or in the interest of justice that further testimony or argument should be received, the examiner or other officer conducting the hearing may in his discretion continue the hearing and fix a date for introduction of additional evidence or presentation of argument. Such oral notice shall constitute final notice of such continued hearing.

[Rule .08.510, effective 3/10/60, filed 3/23/60.]

WAC 296-09-520 Rules of evidence—Admissibility criteria. Subject to the other provisions of these rules, all relevant evidence is admissible which, in the opinion of the officer conducting the hearing, is the best evidence reasonably obtainable, having due regard for its necessity, availability and trustworthiness. In passing upon the admissibility of evidence, the officer conducting the hearing shall give consideration to, but shall not be bound to follow, the rules of evidence governing civil proceedings in matters not involving trial by jury, in the superior court of the state of Washington.

[Rule .08.520, effective 3/10/60, filed 3/23/60.]

WAC 296-09-530 Rules of evidence—Tentative admission—Exclusion—Discontinuance—Objections. When objection is made to the admissibility of evidence such evidence may be received subject to a later ruling. The officer conducting the hearing may, in his discretion, either with or without objection, exclude inadmissible evidence or order cumulative evidence discontinued. Parties objecting to the introduction of evidence shall state the precise grounds of such objection at the time such evidence is offered.

[Rule .08.530, effective 3/10/60, filed 3/23/60.]

WAC 296-09-540 Petitions for rule making, amendment or repeal—Who may petition. Any interested person may petition the board of boiler rules requesting the promulgation, amendment, or repeal of any rule.

[Rule .08.540, effective 3/10/60, filed 3/23/60.]

WAC 296-09-550 Petitions for rule making, amendment or repeal—Requisites. Where the petition requests the promulgation of a rule, the requested or proposed rule must be set out in full, the petition must also include all the reasons for the requested rule together with briefs of any applicable law. Where the petition requests the amendment or repeal of a rule presently in effect, the rule or portion of the rule in question must be set out as well as a suggested amended form, if any. The petition must include all reasons for the requested amendment or repeal of the rule.

[Rule .08.550, effective 3/10/60, filed 3/23/60.]

WAC 296-09-560 Petitions for rule making, amendment or repeal—Agency must consider. All petitions shall be considered by the board of boiler rules and the board may, in its discretion, order a hearing for the further consideration and discussion of the requested promulgation, amendment, repeal or modification of any rule.

[Rule .08.560, effective 3/10/60, filed 3/23/60.]

WAC 296-09-570 Petitions for rule making, amendment or repeal—Notice of disposition. The board of boiler rules shall notify the petitioning party within a reasonable time of the disposition, if any, of the petition.

[Rule .08.570, effective 3/10/60, filed 3/23/60.]

(2003 Ed.)

WAC 296-09-580 Declaratory rulings. (1) As prescribed by RCW 34.04.080, any interested person may petition the board of boiler rules for a declaratory ruling. The board shall consider the petition and within a reasonable time shall:

- (a) Issue a nonbinding declaratory ruling; or
- (b) Notify the person that no declaratory ruling is to be issued; or
- (c) Set a reasonable time and place for a hearing or the submission of written evidence upon the matter, and give reasonable notification to the person of the time and place for such hearing or submission and of the issues involved.

(2) If a hearing is held or evidence is submitted as provided in subsection (c), the department or the board shall within a reasonable time:

- (a) Issue a binding declaratory rule; or
- (b) Issue a nonbinding declaratory ruling; or
- (c) Notify the person that no declaratory ruling is to be issued.

[Rule .08.580, effective 3/10/60, filed 3/23/60.]

WAC 296-09-590 Forms. (1) Any interested person petitioning the board of boiler rules thereof for a declaratory ruling pursuant to RCW 34.04.080, shall generally adhere to the following form for such purpose.

At the top of the page shall appear the wording "Before the board of boiler rules." On the left side of the page below the foregoing the following caption shall be set out: "In the matter of the petition of (name of petitioning party) for a declaratory ruling." Opposite the foregoing caption shall appear the word "petition."

The body of the petition shall be set out in numbered paragraphs. The first paragraph shall state the name and address of the petitioning party. The second paragraph shall state all rules or statutes that may be brought into issue by the petition. Succeeding paragraphs shall set out the state of facts relied upon in form similar to that applicable to complaints in civil actions before the superior courts of this state. The concluding paragraphs shall contain the prayer of the petitioner. The petition shall be subscribed and verified in the manner prescribed for verification of complaints in the superior courts of this state.

The original and two legible copies shall be filed with the agency. Petitions shall be on white paper, either 8 1/2" x 11" or 8 1/2" x 13" in size.

(2) Any interested person petitioning the board of boiler rules thereof requesting the promulgation, amendment or repeal of any rules shall generally adhere to the following form for such purpose.

At the top of the page shall appear the wording, "Before the board of boiler rules." On the left side of the page below the foregoing the following caption shall be set out: "In the matter of the petition of (name of petitioning party) for (state whether promulgation, amendment or repeal) of rule (or rules)." Opposite the foregoing caption shall appear the word "petition."

The body of the petition shall be set out in numbered paragraphs. The first paragraph shall state the name and address of the petitioning party and whether petitioner seeks the promulgation of new rule or rules, or amendment or

repeal of existing rule or rules. The second paragraph, in case of a proposed new rule or amendment of an existing rule, shall set forth the desired rule in its entirety. Where the petition is for amendment, the new matter shall be underscored and the matter proposed to be deleted shall appear in double parentheses. Where the petition is for repeal of an existing rule, such shall be stated and the rule proposed to be repealed shall either be set forth in full or shall be referred to by agency rule number. The third paragraph shall set forth concisely the reasons for the proposal of the petitioner and shall contain a statement as to the interest of the petitioner in the subject matter of the rule. Additional numbered paragraphs may be used to give full explanation of petitioner's reason for the action sought.

Petitions shall be dated and signed by the person or entity named in the first paragraph or by his attorney. The original and two legible copies of the petition shall be filed with the agency. Petitions shall be on white paper, either 8 1/2" x 11" or 8 1/2" x 13" in size.

296-13-070	Solicitation of business unethical. [§ VI, filed 10/15/65.] Repealed by 84-18-009 (Order 84-16), filed 8/27/84. Statutory Authority: RCW 19.28.123 and 19.28.590.
296-13-120	Administrative Procedure Act. [§ XI, filed 10/15/65.] Repealed by 84-18-009 (Order 84-16), filed 8/27/84. Statutory Authority: RCW 19.28.123 and 19.28.590.

WAC 296-13-001 Foreword. (1) The electrical law, chapter 19.28 RCW, establishes the electrical board and fixes their responsibilities. The board's principal functions are: To advise the department in adopting rules with respect to electrical installations and appliances; to act as a board of appeals in contested cases regarding the application or interpretation of installation, alteration or maintenance standards prescribed in the electrical law, chapter 19.28 RCW or chapter 296-46 WAC, Safety standards—Installing electric wires and equipment—Administrative rules; to act as an appeals board in contested cases as provided for in chapter 296-402 WAC, Electrical testing laboratory accreditation; to act as an appeals board in contested cases as provided for in chapter 296-403 WAC, Amusement rides or structures; to establish tests and test procedures for electricians and administrators; and to act as a board of appeals in contested cases that have been heard by the office of administrative hearings regarding the revocation or suspension of an electrical contractor's license or an electrician's or administrator's certificate.

(2) The purpose of this chapter is to provide a uniform procedure for persons, firms, corporations, or other entities to: (a) Communicate with the department about rules that should be adopted, amended, or repealed; (b) appeal a decision of the department revoking or suspending a contractor's license, an electrician's certificate, or an administrator's certificate; (c) appeal a decision of the department suspending, revoking, refusing to renew, or reducing or refusing to renew the product categories for an electrical testing laboratory under chapter 296-402 WAC; and (d) appeal a decision of the department denying or revoking an amusement ride or structure operating permit or ordering the cessation of the operation of an amusement ride or structure, or suspending, revoking, or refusing to issue an amusement ride inspector certificate of competency under chapter 296-403 WAC.

[Statutory Authority: RCW 19.28.060. 88-16-002 (Order 88-15), § 296-13-001, filed 7/21/88. Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-001, filed 8/27/84; Foreword, filed 10/15/65.]

WAC 296-13-010 Definitions. Whenever used in this chapter, the words:

(1) "Administrative law judge" means an administrative law judge appointed pursuant to chapter 34.12 RCW.

(2) "Board" means the electrical board established pursuant to RCW 19.28.065. The term "board" also includes an administrative law judge or a board member appointed by the board to hear a contested case.

(3) "Chapter" means chapter 296-13 WAC.

(4) "Contested case" means a contested case as defined by RCW 34.04.010(3). It includes appeals from decisions or orders of the department: (a) Revoking or suspending an electrical contractor's license or an administrator's or electrician's certificate; (b) revoking or suspending or refusing to renew an electrical testing laboratory accreditation or product categories; and (c) denying or revoking an amusement ride or structure operating permit, ordering the cessation of the operation of an amusement ride or structure or suspending, revoking, or refusing to issue an amusement ride inspector certificate of competency. It also includes challenges to the department's interpretation of the installation requirements of chapter 19.28 RCW and chapter 296-46 WAC and appeals of a citation issued by the department for violations of chapter 19.28 or 67.42 RCW, or chapter 296-46, 296-401, 296-402, or 296-403 WAC.

(5) "Department" means the department of labor and industries of the state of Washington.

(6) "Director" means the director of the department.

(7) "Proceeding" means any matter before the board other than a contested case.

[Statutory Authority: RCW 19.28.060, 88-16-002 (Order 88-15), § 296-13-010, filed 7/21/88. Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-010, filed 8/27/84; Definitions, filed 10/15/65.]

WAC 296-13-020 Officers. In addition to the chairperson, the board shall elect from its members a vice chairperson who shall perform all functions of the chairperson in his or her absence. The department chief electrical inspector serves as secretary to the board.

[Statutory Authority: RCW 19.28.060, 88-16-002 (Order 88-15), § 296-13-020, filed 7/21/88. Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-020, filed 8/27/84; § I, filed 10/15/65.]

WAC 296-13-030 Internal management. The board adopts *Roberts' Rules of Order, revised* as its rules of procedure.

[Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-030, filed 8/27/84; § II, filed 10/15/65.]

WAC 296-13-035 Dates of meetings. (1) The board shall hold regular meetings on the last Thursday of January, April, July, and October of each year.

(2) The director or the chairperson of the board may call a special meeting at any other time.

(3) Each board member and the board secretary shall be notified in writing of the date, time, and place of each regular meeting and special meeting.

[Statutory Authority: RCW 19.28.060, 88-16-002 (Order 88-15), § 296-13-035, filed 7/21/88. Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-035, filed 8/27/84.]

(2003 Ed.)

WAC 296-13-040 Duties of the board. (1) The board shall study proposed rules submitted to it by the department and shall make recommendations concerning their adoption.

(2) The board shall develop and submit for consideration to the department administrative procedures, organizational plans, and rules relating to improving the functions of the electrical section.

(3) The board shall at each meeting consider any written proposals made by any persons, firms, corporations, or other entities for electrical rules or for changes in administrative procedures of the electrical section.

(4) The board shall hear formal appeals in matters under its jurisdiction in contested cases involving a ruling or interpretation by the department of the provisions of chapter 19.28 RCW and chapters 296-46, 296-402, and 296-403 WAC.

(5) The board shall consider proposed expenditures from the electrical fund.

(6) The board shall establish tests and test procedures for journeyman and specialty electricians and for general and specialty administrators.

(7) The board will hear informal appeals in matters under its jurisdiction, including those from persons who desire to contest:

(a) Decisions of the department that they do not qualify to take an examination;

(b) The loss of a certificate because of a failure timely to renew the certificate; and

(c) Grades given on examinations for administrator or electrician certificates.

(8) The board will issue a decision on formal appeals that have been heard by an administrative law judge in contested cases involving an order or decision of the department as provided for in RCW 19.28.350 and WAC 296-401-170 that revokes or suspends an electrical contractor's license, an administrator's certificate, or an electrician's certificate, or lessens the number of hours of work a trainee electrician has accumulated.

[Statutory Authority: RCW 19.28.060, 88-16-002 (Order 88-15), § 296-13-040, filed 7/21/88. Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-040, filed 8/27/84; § III, filed 10/15/65.]

WAC 296-13-050 Hearings. (1) The board will grant a formal hearing on contested cases. It will grant an informal hearing on all other proceedings that are within its jurisdiction.

(2) A person, firm, corporation, or other entity that desires a formal hearing on a contested case must file a written appeal of the department's decision, order, or interpretation with the secretary of the board. The written appeal must state the decision, order, or interpretation of the department that is being appealed and the relief that is desired. An appeal of a decision or order of the department must be filed within fifteen days of the day the appellant received notice of the department's decision, order, or interpretation.

(3) The board may delegate to an administrative law judge or a board member the responsibility to preside over the hearing and to issue a proposed decision and order. If the board does so, the administrative law judge or a board member shall set the time and place for the hearing. If the board

[Title 296 WAC—p. 163]

retains the responsibility to preside over the hearing, the board shall set the time and place.

(4) The board shall assign to the office of administrative hearings each appeal of the department's decision, order citation, or interpretation regarding an electrical contractor license, administrator certificate, electrician certificate, or training certificate as provided for in RCW 19.28.350 and 19.28.620, or citation for the sale or exchange of electrical equipment associated with spas, hot tubs, swimming pools, and hydromassage bathtubs that does not bear the product certification mark of an electrical products testing laboratory that has been accredited by the department. The board shall be allowed a minimum of twenty days to review the proposed decision of the administrative law judge and shall issue its decision and order no later than the next regularly scheduled board meeting.

(5) A person, firm, corporation, or other entity desiring an informal hearing on a proceeding other than a contested case shall file a written request to that effect with the secretary of the board. The written request should describe concisely the matters or proposals on which the informal hearing is requested and the relief that is desired.

[Statutory Authority: RCW 19.28.060, 88-16-002 (Order 88-15), § 296-13-050, filed 7/21/88. Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-050, filed 8/27/84; § IV, filed 10/15/65.]

WAC 296-13-052 Hearing before administrative law judge or a board member. An administrative law judge or a board member to whom the board has delegated the authority to preside over a hearing in a contested case may exercise all powers the board could exercise in the course of the hearing. After the hearing, the administrative law judge or a board member shall serve on each party and file with the board a proposed decision.

[Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-052, filed 8/27/84.]

WAC 296-13-053 Appeal of proposed decision to board. A party to a contested case may appeal a proposed decision to the full board within thirty days after a copy of the proposed decision is served upon that party. The appeal shall be filed with the board as provided in WAC 296-13-057. If no appeal is filed, the proposed decision becomes final with no further action on the part of the board.

The notice of appeal must specify the contentions of the appealing party, and must specify to which conclusions of law and findings of fact the party takes exception.

The appeal shall be based on the record of the hearing. The board shall not grant a hearing de novo.

[Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-053, filed 8/27/84.]

WAC 296-13-055 Quorum. A majority of the board constitutes a quorum for purposes of making a decision in a contested case. If a majority does not attend a hearing on a contested case, the board may either continue the hearing to a date certain or may hear the testimony and arguments. If the board hears the testimony and arguments, the members of the board who are absent may make their decisions after hearing the tape recording or reading the transcript, of the hearing.

[Title 296 WAC—p. 164]

[Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-055, filed 8/27/84.]

WAC 296-13-057 Place and time of filing. A paper that must be filed with the board shall be filed only at the Office of the Chief Electrical Inspector, Electrical Section, 805 Plum Street S.E., P.O. Box 9519, Olympia, WA 98504-9519. The paper may be filed by ordinary mail, certified or registered mail, telegram, or by personal delivery. The date of filing is the date the paper is actually received in the office of the chief electrical inspector.

[Statutory Authority: RCW 19.28.060, 88-16-002 (Order 88-15), § 296-13-057, filed 7/21/88. Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-057, filed 8/27/84.]

WAC 296-13-060 Appearance and practice before board. No person may appear as a representative in a contested case before the board other than the following:

(1) Attorneys at law qualified to practice before the supreme court of the state of Washington.

(2) Attorneys at law qualified to practice before the highest court of record of another state, if the attorneys at law of the state of Washington are permitted to appear as representatives before administrative agencies of the other state, and if not otherwise prohibited by Washington law.

(3) An owner, officer, partner, or full-time employee of a firm, association, organization, partnership, or corporation who appears for the firm, association, organization, partnership, or corporation.

[Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-060, filed 8/27/84; § V, filed 10/15/65.]

WAC 296-13-080 Standards of ethical conduct. All persons appearing in proceedings or contested cases before the board as a representative shall conform to the standards of ethical conduct required of attorneys before the courts of Washington. If a person does not conform to these standards, the board may decline to permit the person to appear as a representative in any proceeding or contested case before the board.

[Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-080, filed 8/27/84; § VII, filed 10/15/65.]

WAC 296-13-090 Appearance by former employee. No former employee of the board, the department, or the attorney general's staff may at any time after severing his or her employment with the board, the department, or the attorney general appear as a representative for another party in any proceeding or contested case in which he or she previously took an active part as a representative of the board or the department.

[Statutory Authority: RCW 19.28.123 and 19.28.590, 84-18-009 (Order 84-16), § 296-13-090, filed 8/27/84; § VIII, filed 10/15/65.]

WAC 296-13-100 Former employee as expert witness. Except with the written permission of the board, no former employee of the board or the department shall appear, after severing his or her employment with the board or the department, as an expert witness for another party in any proceeding or contested case in which he or she previously took

an active part in the investigation as a representative of the board or the department.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-100, filed 8/27/84; § IX, filed 10/15/65.]

WAC 296-13-110 Computation of time. In computing any period of time prescribed or allowed by any applicable statute or rule, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday, or legal holiday, in which case the period runs until the next day that is not a Saturday, Sunday, or holiday.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-110, filed 8/27/84; § X, filed 10/15/65.]

WAC 296-13-130 Notice and opportunity for hearing. (1) In any contested case the board shall serve all parties with a notice and opportunity for hearing not less than twenty days before the date set for hearing. The notice shall state the time and place of the hearing and the issues involved, as required by RCW 34.04.090.

(2) In any other proceeding before the board, the board shall give reasonable notice and an opportunity to be heard by mail or by telephone not less than two days before the date set for the informal hearing.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-130, filed 8/27/84.]

WAC 296-13-140 Service of process—By whom served. The board shall cause to be served all orders, notices, and other papers it issues that pertain to a contested case, together with any other papers it is required by law to serve. Every other paper that must be served shall be served by the party that files it.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-140, filed 8/27/84.]

WAC 296-13-150 Service of process—Upon whom served. All papers served by either the board or a party shall be served upon all counsel of record at the time the paper is served and upon parties not represented by counsel or upon their representatives designated by them or by law. Any counsel that enters an appearance after the beginning of the contested case shall notify all other counsel then of record and all parties not represented by counsel of his or her appearance.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-150, filed 8/27/84.]

WAC 296-13-160 Service of process upon parties. The final order, and any other paper the board must serve upon a party, shall be served upon each party or upon his or her representative. If the board serves a paper on a party personally, the board shall furnish a copy to the representative of record of the party. Service on the counsel or other representative representing a party constitutes service on the party.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-160, filed 8/27/84.]

(2003 Ed.)

WAC 296-13-170 Method of service of process. Papers shall be served personally, by registered or certified mail, or by telegraph.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-170, filed 8/27/84.]

WAC 296-13-180 When service of process is complete. Service upon a party shall be regarded as complete: By mail, upon deposit in the United States mail properly stamped and addressed; by telegraph, when deposited with a telegraph company properly addressed and with charges prepaid.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-180, filed 8/27/84.]

WAC 296-13-190 Subpoenas. (1) In a contested case, upon application of a party or a representative, the board shall issue to the party subpoenas requiring the attendance and testimony of witnesses or the production of evidence in the contested case. The board may condition the issuance of the subpoenas upon a showing of the general relevance and reasonable scope of the testimony or evidence sought. An attorney of a party in a contested case may issue subpoenas under his or her own authority.

(2) Every subpoena shall state the name of the board and the title of the proceeding, and shall command the person to whom it is directed to attend at a specified time and place and give testimony or to produce designated books, documents, or things under his or her control.

(3) Attendance of witnesses and production of evidence may be required from any place in the state of Washington, at any designated place of hearing.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-190, filed 8/27/84.]

WAC 296-13-200 Subpoenas—Service and fees. (1) Unless the service of a subpoena is acknowledged on its face by the person subpoenaed, service shall be made by delivering a copy of the subpoena to the person and by tendering him or her on demand the fees for one day's attendance and the mileage allowed by law.

(2) Witnesses summoned before the agency shall be paid, by the party at whose instance they appear, the same fees and mileage that are paid to witnesses in the superior courts of the state of Washington.

(3) The person serving the subpoena shall make proof of service by filing the subpoena and the required return, affidavit, or acknowledgement of service with the board. Failure to make proof of service does not affect the validity of the service.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-200, filed 8/27/84.]

WAC 296-13-210 Quashing of subpoenas. Upon motion made at or before the time specified in the subpoena for compliance, by the person to whom the subpoena is directed and upon notice to the party to whom the subpoena was issued, the board may (1) quash or modify the subpoena if it is unreasonable or requires evidence not relevant to any

[Title 296 WAC—p. 165]

matter in issue, or (2) condition denial of the motion upon just and reasonable conditions.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-210, filed 8/27/84.]

WAC 296-13-220 Enforcement of subpoenas. Upon application and for good cause shown a party may seek judicial enforcement of subpoenas that have been issued and that have not been quashed.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-220, filed 8/27/84.]

WAC 296-13-230 Right to take depositions and interrogatories in contested cases. (1) A party may take the testimony of any person, including a party, by deposition upon oral examination or written interrogatories for use as evidence in a contested case, except that leave of the deponent must be obtained if a proponent serves notice of the deposition or interrogatories on the deponent within twenty days after the filing of an appeal. The attendance of the deponent may be compelled by the use of a subpoena. Depositions shall be taken only in accordance with this rule and the rule on subpoenas.

(2) Unless the board otherwise orders, the deponent may be examined regarding any matter that is relevant to the subject matter involved in the contested case and is not privileged.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-230, filed 8/27/84.]

WAC 296-13-240 Officer before whom depositions are taken. Within the United States, or within a territory or insular possession subject to the dominion of the United States, depositions shall be taken before an officer authorized to administer oaths by the laws of the state of Washington or of the place where the examination is held. Within a foreign country, depositions shall be taken before a secretary of an embassy or legation, consul general, vice consul or consular agent of the United States, or before a person designated by the board or agreed upon by the parties by stipulation in writing filed with the board. Except by stipulation, no deposition shall be taken before a person who is a party or the privy of a party, or a privy of any counsel of a party, or who is financially interested in the contested case.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-240, filed 8/27/84.]

WAC 296-13-250 Notice of depositions. A party that desires to take the deposition of any person upon oral examination shall give reasonable notice of not less than three days in writing to the board and all parties. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known. If the name is not known, the notice shall contain a general description sufficient to identify him or her or the particular class or group to which he or she belongs. On motion of a party upon whom the notice is served, the board may, for cause shown, enlarge or shorten the time. If the parties so stipulate in writ-

[Title 296 WAC—p. 166]

ing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-250, filed 8/27/84.]

WAC 296-13-260 Depositions and interrogatories in contested cases—Protection of parties and deponents. After notice is served for taking a deposition or of written interrogatories, upon the board's own motion or upon motion made by any party or by the deponent and upon notice and for good cause shown, the board may order that: (1) The deposition or interrogatories shall not be taken, (2) the deposition may be taken only at some designated place other than that stated in the notice, (3) the deposition may be taken only on written interrogatories, (4) the examination shall be limited to certain matters, (5) the examination shall be held with no one present except the parties to the action and their officers or counsel, (6) after being sealed, a deposition shall be opened only by order of the board, (7) business secrets or secret processes, developments, or research need not be disclosed, or (8) the parties shall simultaneously file specified documents, or information enclosed in sealed envelopes to be opened as directed by the board. The board may make any other order that justice requires to protect the party or witness from annoyance, embarrassment, or oppression. At any time during the taking of a deposition, on motion of any party or of the deponent and upon a showing that the examination is being conducted in bad faith or in a manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the board may order the officer conducting the examination to cease taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in subsections (1) through (8) of this section. If the order ends the examination, it shall be resumed thereafter only upon the order of the board. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to move for an order.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-260, filed 8/27/84.]

WAC 296-13-270 Oral examination and cross-examination in depositions. Examination and cross-examination during oral examination shall proceed as at an oral hearing. In lieu of participating in the oral examination, a party may transmit written interrogatories to the person taking the deposition who, without previously disclosing them to any person, and after the direct testimony is complete, shall propound them seriatim to the deponent and record the answers verbatim.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-270, filed 8/27/84.]

WAC 296-13-280 Recording of depositions. The person before whom the deposition is to be taken shall put the deponent on oath and shall personally, or by someone acting under his or her direction and in his or her presence, record the testimony. Objections to the notice, the qualifications of the person taking the deposition, the manner of taking the deposition, to the evidence presented, or to the conduct of the

person taking the deposition or of any party, shall be noted in the record. All objections by any party not made are waived.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-280, filed 8/27/84.]

WAC 296-13-290 Depositions in contested cases—

Signing attestation and return. (1) When the testimony of a deposition is fully transcribed, the deposition shall be submitted to the deponent for examination and shall be read to or by him or her, unless the examination and reading are waived by the deponent and by the parties. Any changes in form or substance that the deponent desires to make shall be entered upon the deposition by the person taking the deposition with a statement of the reasons given by the deponent for making them. The deposition shall then be signed by the deponent, unless the parties by stipulation waive the signing or the deponent is ill or cannot be found or refuses to sign. If the deponent does not sign the deposition, the person taking the deposition shall sign it and state on the record whether the deponent did not sign because of a waiver, an illness or absence, or a refusal to sign together with the reason, if any, given for a refusal. The deposition may then be used as fully as though signed, unless on a motion to suppress, the board holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(2) The person taking the deposition shall certify on the deposition that the deponent was duly sworn by him or her and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in an envelope indorsed with the title of proceeding and marked "Deposition of (here insert name of witness)" and shall promptly send it by registered or certified mail to the board, for filing. The party taking the deposition shall give prompt notice of its filing to all other parties.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-290, filed 8/27/84.]

WAC 296-13-300 Use and effect of depositions. Subject to rulings by the board upon objections, a deposition taken and filed as provided in WAC 296-13-290 will not become a part of the record in the proceeding until received in evidence by the board upon its own motion or the motion of a party. Except by agreement of the parties or ruling of the board, a deposition will be received only in its entirety. A party does not make a party, or the privy of a party, or any hostile witness its witness by taking his or her deposition. A party may rebut any relevant evidence contained in a deposition whether introduced by him or her or by any other party.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-300, filed 8/27/84.]

WAC 296-13-310 Fees of deponents. Deponents are entitled to the same fees as are paid for similar services in the superior courts of the state of Washington. The fees shall be paid by the party at whose instance the depositions are taken.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-310, filed 8/27/84.]

(2003 Ed.)

WAC 296-13-320 Submission of interrogatories. If a deposition is taken upon written interrogatories, the party offering the testimony shall consecutively number each interrogatory, file them with the board, and serve them on all parties and the person who is to answer them with a notice stating the name and address of the person who is to answer them.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-320, filed 8/27/84.]

WAC 296-13-330 Attestation and return of interrogatories. The person before whom the interrogatories are answered shall (1) certify under his or her official signature and seal that the deponent was duly sworn by him or her, that the interrogatories and answers are a true record of the deponent's testimony, and (2) promptly file the original copy of the deposition and exhibits with his or her attestation to the board, serve one copy on the counsel who submitted the interrogatories, and serve a copy on the deponent and on each other party.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-330, filed 8/27/84.]

WAC 296-13-340 Official notice—Matters of law. The board, upon request made before or during a hearing, will officially notice:

(1) **Federal law.** The Constitution; congressional acts, resolutions, records, journals, and committee reports; decisions of federal courts and administrative agencies; executive orders and proclamations; and all rules, orders, and notices published in the Federal Register;

(2) **State law.** The Constitution of the state of Washington, acts of the legislature, resolutions, records, journals, and committee reports; decisions of administrative agencies of the state of Washington, and executive orders and proclamations by the governor; and all rules, orders, and notices published in the Washington State Register.

(3) **Governmental organization.** The organization, territorial limitations, officers, departments, and general administration of the governments of the state of Washington, the United States, the several states, and foreign nations.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-340, filed 8/27/84.]

WAC 296-13-350 Official notice—Material facts. (1) In the absence of controverting evidence, the board, upon request made before or during a hearing, may officially notice:

(a) The pendency of, the issues and position of the parties in, and the disposition of any proceeding then pending before or previously concluded by the board.

(b) General customs and practices followed in the transaction of business;

(c) Facts so generally and widely known to all well-informed persons as not to be subject to reasonable dispute, or specific facts that are capable of immediate and accurate demonstration by resort to accessible sources of generally accepted authority, including facts stated in any publication

authorized or permitted by law to be made by any federal or state officer, department, or agency; and

(d) Matters within the technical knowledge of the board as a body of experts, or within the scope of its statutory duties, responsibilities, or jurisdiction.

(2) At any prehearing conference, or a hearing, or argument, a party may request, or the board may suggest, that official notice be taken of a material fact, which shall be stated on the record. A party or the board may also make such a request or suggestion by written notice, or in any pleading, motion, memorandum, or brief, served upon all parties, at any time before a final decision.

(3) If an initial or final decision of the board rests in whole or in part upon official notice of a material fact, the fact shall be clearly stated in the decision. In determining whether to take official notice of material facts, the board may consult any source of pertinent information, whether or not it is admissible under the rules of evidence.

(4) A party may controvert a request or a suggestion that official notice of a material fact be taken. If a decision is stated to rest in whole or in part upon official notice of a material fact that a party has not had a prior opportunity to controvert, the party may controvert the fact by exception if the decision is a proposed decision, or by a petition for reconsideration if the decision is a final decision. The controversion shall concisely and clearly set forth the sources, authority, and other data relied upon to show the existence or nonexistence of the material fact assumed or denied in the decision.

(5) Nothing herein shall be construed to preclude the board from using its experience, technical competence, and specialized knowledge in evaluating the evidence presented to them.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-350, filed 8/27/84.]

WAC 296-13-360 Presumptions. Upon proof of the predicate facts specified in this section by clear and convincing evidence, and without substantial dispute, the board, with or without prior request or notice, may make the following presumptions, where consistent with all surrounding facts and circumstances:

(1) That a fact of a continuous nature, proved to exist at a particular time, continues to exist as of the date of the presumption, if the fact is one that usually exists for at least that period of time;

(2) That persons or objects of the same name and description are identical;

(3) That mail matter, communications, express, or freight that are properly addressed, marked, billed, and delivered as appropriate to the post office, telegraph, cable or radio company, or authorized common carrier of property, and for which with all postage, tolls, or charges are properly prepaid, is or has been delivered to the addressee or consignee in the ordinary course of business;

(4) That a fact exists or does not exist, upon proof of the existence or nonexistence of another fact that, in the ordinary and usual course of affairs, usually and regularly coexists with the fact presumed;

[Title 296 WAC—p. 168]

(5) That a person for whom an act is done or to whom a transfer is made has, does, or will accept the act or transfer where it is clearly in his or her own self-interest so to do;

(6) That evidence, with respect to a material fact which in bad faith is destroyed, eligned, suppressed, or withheld by a party in control of the fact, would, if produced, corroborate the evidence of the adversary party with respect to the fact.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-360, filed 8/27/84.]

WAC 296-13-370 Stipulations and admissions of record. The existence or nonexistence of a fact, as made or agreed in a stipulation or in an admission of record, will be conclusively presumed against any party bound by the stipulation or admission, and no other evidence with respect to the fact will be received upon behalf of the party.

The stipulation or admission is binding upon the parties by whom it is made and their privies, and upon all other parties to the proceeding who do not expressly deny the existence or nonexistence of the fact, upon the making thereof, if made on the record at a prehearing conference, oral hearing, or oral argument, or by a writing filed and served upon all parties within five days after a copy of the stipulation or admission has been served upon them.

A party bound by a stipulation or admission of record at any time before the final decision may be permitted to withdraw it in whole or in part by showing to the satisfaction of the hearing officer of the agency that the stipulation or admission was made inadvertently or under a bona fide mistake of fact and that its withdrawal at the time proposed will not unjustly prejudice the rights of other parties to the proceeding.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-370, filed 8/27/84.]

WAC 296-13-380 Form and content of board decisions in contested cases. (1) Every proposed and final decision and order in a contested case shall:

- (a) Contain the correct names of the board and the case;
- (b) Name all parties and counsel in the case;
- (c) State concisely the nature and background of the case; and
- (d) Contain numbered findings of fact and conclusions of law.

(2) Whenever practical, (a) the conclusions of law shall include the reasons for and precedents supporting the particular order or remedy afforded; and (b) the conclusions and order shall refer to the appropriate laws and rules.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-380, filed 8/27/84.]

WAC 296-13-390 Definition of issues before hearing. In all contested cases the issues to be adjudicated shall be made as precise as possible, in order that the board may proceed promptly to conduct the hearing on relevant and material matter only.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-390, filed 8/27/84.]

WAC 296-13-400 Prehearing conference. (1) In a contested case the board, upon its own motion or the motion of one of the parties, may direct the parties to appear at a specified time and place for a conference to consider:

- (a) The settlement or simplification of issues;
- (b) The necessity of amendments to the pleadings;
- (c) The possibility of obtaining stipulations, or admissions of facts and of documents;
- (d) The limitation of the number of expert witnesses; or
- (e) Other matters that may help dispose of the proceeding.

(2) The board shall make an order that recites the action taken at a prehearing conference and the agreements made by the parties as to any of the matters considered and that limits the issues for hearing to those not disposed of by admission or agreement. The order shall control the subsequent course of the contested case unless modified for good cause by a later order.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-400, filed 8/27/84.]

WAC 296-13-410 Submission of documentary evidence in advance. Where practicable the board may require that:

(1) All documentary evidence that is to be offered during a hearing, deposition, or prehearing conference be submitted to the board and to the other parties sufficiently in advance of the taking of evidence to permit study and preparation of cross-examination and rebuttal evidence;

(2) Documentary evidence not submitted in advance, as required by subsection (1) of this section, be not received in evidence in the absence of a clear showing that the offering party had good cause for its failure to produce the evidence sooner;

(3) The authenticity of all documents submitted in advance, as required by subsection (1) of this section, be deemed admitted unless a written objection to admission is filed before the time for taking the evidence. A party will be permitted to challenge the authenticity at a later time upon a clear showing of good cause for failure to have filed a written objection.

[Statutory Authority: RCW 19.28.123 and 19.28.590. 84-18-009 (Order 84-16), § 296-13-410, filed 8/27/84.]

WAC 296-13-420 Continuances. A party who wants a continuance shall, immediately upon receipt of notice of a hearing, prehearing conference, or deposition, or as soon thereafter as facts requiring a continuance come to his or her knowledge, notify the board of his or her desire, stating in detail the reasons why a continuance is necessary. A formal motion is not required. The board, in ruling on a request for continuance, shall consider whether the request was timely made. For good cause shown, the board may grant a continuance and may at any time order a continuance upon its own motion. During a hearing, if it appears in the public interest or in the interest of justice that further testimony or argument should be received, the board may continue the hearing. Oral notice of a continuance, given at a hearing, shall constitute final notice of the continuance.

WAC 296-13-430 Rules of evidence—Admissibility criteria. Subject to the other provisions of this chapter, all relevant evidence is admissible that, in the opinion of the board, is the best evidence reasonably obtainable, having due regard for its necessity, availability, and trustworthiness. In passing upon the admissibility of evidence, the board shall consider, but need not follow, the rules of evidence governing civil proceedings in the superior court of the state of Washington.

WAC 296-14-100 Definition of voluntary retirement.

(1) **What is voluntarily retired?** The worker is considered voluntarily retired if both of the following conditions are met:

(a) The worker is not receiving income, salary or wages from any gainful employment; and

(b) The worker has provided no evidence to show a bonafide attempt to return to work after retirement.

Time-loss compensation is not paid to workers who voluntarily retired from the work force.

(c) Payment of union dues or medical or life insurance premiums does not constitute attachment to the work force.

(2) **When is a worker determined not to be voluntarily retired?** A worker is not voluntarily retired when the industrial injury or occupational disease is a proximate cause for the retirement.

[Statutory Authority: RCW 51.04.020, 99-18-062, § 296-14-100, filed 8/30/99, effective 9/30/99. Statutory Authority: RCW 51.32.060, 51.32.090, 51.32.160, 51.21.220(6) [51.32.220(6)] and 51.32.240 (1), (2) or (3). 86-18-036 (Order 86-33), § 296-14-100, filed 8/28/86.]

WAC 296-14-150 Definition of gainful employment for wage. Gainful employment for wages for the purposes of RCW 51.32.160 shall mean performing work at any regular gainful occupation for income, salary or wages.

[Statutory Authority: RCW 51.32.060, 51.32.090, 51.32.160, 51.21.220(6) [51.32.220(6)] and 51.32.240 (1), (2) or (3). 86-18-036 (Order 86-33), § 296-14-150, filed 8/28/86.]

WAC 296-14-200 Waiver of recovery for worker compensation benefits overpayments. Whenever the director determines whether to exercise the discretion granted by RCW 51.32.240 (1), (2) or (3) or 51.32.220(6) the following shall apply:

(1) The decision of the director shall apply to the state fund or to the self-insurer, as the case may be.

(2) In the case of recoupment of an overpayment from any future payments, the director will entertain a request to exercise his or her discretion to waive recovery up to sixty days after communication of the order and/or notice to the recipient that benefits are being withheld to satisfy the previous overpayment.

(3) A finding by the director that recovery of an overpayment would be against equity and good conscience shall be required before the overpayment can be waived in whole or in part. The director shall consider the following factors and any other factors relevant to the particular case:

(a) Whether the claimant was without fault in applying for and accepting benefits which gave rise to the overpayment;

(b) Whether recovery of the overpayment, in whole or in part, would defeat the purposes of Title 51 RCW;

(c) Whether the claimant reasonably relied upon the benefits, or notice that such benefits would be paid and relin-

quished a valuable right or changed his or her position for the worse;

(d) Whether the claimant reasonably relied upon misinformation from an official source (i.e., a representative of the department or self-insurer, as the case may be) in accepting the benefit payment which gave rise to the overpayment.

(4) The claimant's application for waiver of an overpayment contemplated under RCW 51.32.240 (1), (2), or (3), or 51.32.220(6) shall clearly set forth the reason(s) that he or she believes that recovery of the overpayment in whole or in part, as the case may be, is against equity and good conscience.

[Statutory Authority: RCW 51.32.060, 51.32.090, 51.32.160, 51.21.220(6) [51.32.220(6)] and 51.32.240 (1), (2) or (3). 86-18-036 (Order 86-33), § 296-14-200, filed 8/28/86.]

WAC 296-14-300 Mental condition/mental disabilities. (1) Claims based on mental conditions or mental disabilities caused by stress do not fall within the definition of an occupational disease in RCW 51.08.140.

Examples of mental conditions or mental disabilities caused by stress that do not fall within occupational disease shall include, but are not limited to, those conditions and disabilities resulting from:

(a) Change of employment duties;

(b) Conflicts with a supervisor;

(c) Actual or perceived threat of loss of a job, demotion, or disciplinary action;

(d) Relationships with supervisors, coworkers, or the public;

(e) Specific or general job dissatisfaction;

(f) Work load pressures;

(g) Subjective perceptions of employment conditions or environment;

(h) Loss of job or demotion for whatever reason;

(i) Fear of exposure to chemicals, radiation biohazards, or other perceived hazards;

(j) Objective or subjective stresses of employment;

(k) Personnel decisions;

(l) Actual, perceived, or anticipated financial reversals or difficulties occurring to the businesses of self-employed individuals or corporate officers.

(2) Stress resulting from exposure to a single traumatic event will be adjudicated with reference to RCW 51.08.100.

[Statutory Authority: Chapters 51.08 and 51.32 RCW. 88-14-011 (Order 88-13), § 296-14-300, filed 6/24/88.]

WAC 296-14-350 Claim allowance and wage determination in occupational disease cases. (1) The liable insurer in occupational disease cases is the insurer on risk at the time of the last injurious exposure to the injurious substance or hazard of disease during employment within the coverage of Title 51 RCW which gave rise to the claim for compensation. Such Title 51 RCW insurer shall not be liable, however, if the worker has a claim arising from the occupational disease that is allowed for benefits under the maritime laws or Federal Employees' Compensation Act.

(2) The compensation schedules and wage base for claims shall be based on the schedule in effect on the date of disease manifestation. Compensation shall be based on the monthly wage of the worker as follows:

(a) If the worker was employed at the time the disease required medical treatment or became totally or partially disabling, whichever occurred first, compensation shall be based on the monthly wage paid on that date regardless of whether the worker is employed in the industry that gave rise to the disease or in an unrelated industry.

(b) If the worker was not employed, for causes other than voluntary retirement, at the time the disease required medical treatment or became totally or partially disabling, whichever occurred first, compensation shall be based upon the last monthly wage paid.

(3) Benefits shall be paid in accordance with the schedules in effect on the date of manifestation. Manifestation is the date the disease required medical treatment or became totally or partially disabling, whichever occurred first, without regard to the date of the contraction of the disease or the date of filing the claim.

[Statutory Authority: Chapters 51.04, 51.08, 51.12, 51.24 and 51.32 RCW and 117 Wn.2d 122 and 121 Wn.2d 304, 93-23-060, § 296-14-350, filed 11/15/93, effective 1/1/94. Statutory Authority: Chapters 51.08 and 51.32 RCW, 88-14-011 (Order 88-13), § 296-14-350, filed 6/24/88.]

WAC 296-14-400 Reopenings for benefits. The director at any time may, upon the workers' application to reopen for aggravation or worsening of condition, provide proper and necessary medical and surgical services as authorized under RCW 51.36.010. This provision will not apply to total permanent disability cases, as provision of medical treatment in those cases is limited by RCW 51.36.010.

The seven-year reopening time limitation shall run from the date the first claim closure becomes final and shall apply to all claims regardless of the date of injury. In order for claim closure to become final on claims where closure occurred on or after July 1, 1981, the closure must include documentation of medical recommendation, advice or examination. Such documentation is not required for closing orders issued prior to July 1, 1981. First closing orders issued between July 1, 1981, and July 1, 1985, shall for the purposes of this section only, be deemed issued on July 1, 1985.

The director shall, in the exercise of his or her discretion, reopen a claim provided objective evidence of worsening is present and proximately caused by a previously accepted asbestos-related disease.

In order to support a final closure based on medical recommendation or advice the claim file must contain documented information from a doctor, or nurse consultant (departmental) or nurse practitioner supervised by a doctor. The doctor or nurse practitioner may be in private practice, acting as a member of a consultation group, employed by a firm, corporation, or state agency.

For the purpose of this section, a "doctor" is defined in WAC 296-20-01002.

When a claim has been closed by the department or self-insurer for sixty days or longer, the worker must file a written application to reopen the claim. An informal written request filed without accompanying medical substantiation of worsening of the condition will constitute a request to reopen, but the time for taking action on the request shall not commence until a formal application is filed with the department or self-insurer as the case may be.

(2003 Ed.)

A formal application occurs when the worker and doctor complete and file the application for reopening provided by the department. Upon receipt of an informal request without accompanying medical substantiation of worsening of the worker's condition, the department or self-insurer shall promptly provide the necessary application to the worker for completion.

If, within seven years from the date the first closing order became final, a formal application to reopen is filed which shows by "sufficient medical verification of such disability related to the accepted condition(s)" that benefits are payable, the department, or the self-insurer, pursuant to RCW 51.32.210 and 51.32.190, respectively shall mail the first payment within fourteen days of receiving the formal application to reopen. If the application does not contain sufficient medical verification of disability, the fourteen-day period will begin upon receipt of such verification. If the application to reopen is granted, compensation will be paid pursuant to RCW 51.28.040. If the application to reopen is denied, the worker shall repay such compensation pursuant to RCW 51.32.240.

Applications for reopenings filed on or after July 1, 1988, must be acted upon by the department within ninety days of receipt of the application by the department or the self-insurer. The ninety-day limitation shall not apply if the worker files an appeal or request for reconsideration of the department's denial of the reopening application.

The department may, for good cause, extend the period in which the department must act for an additional sixty days. "Good cause" for such an extension may include, but not be limited to, the following:

- (1) Inability to schedule a necessary medical examination within the ninety-day time period;
- (2) Failure of the worker to appear for a medical examination;
- (3) Lack of clear or convincing evidence to support reopening or denial of the claim without an independent medical examination;
- (4) Examination scheduled timely but cannot be conducted and a report received in sufficient time to render a decision prior to the end of the ninety-day time period.

The department shall make a determination regarding "good cause" in a final order as provided in RCW 51.52.050.

The ninety-day limitation will not apply in instances where the previous closing order has not become final.

[Statutory Authority: RCW 51.32.190 and 51.32.210, 90-22-054, § 296-14-400, filed 11/5/90, effective 12/6/90. Statutory Authority: Chapters 51.08 and 51.32 RCW, 88-14-011 (Order 88-13), § 296-14-400, filed 6/24/88.]

WAC 296-14-410 Reduction, suspension, or denial of compensation as a result of noncooperation. (1) **Can the department or self-insurer reduce, suspend or deny industrial insurance benefits from a worker?** The department or the self-insurer, after receiving the department's order, has the authority to reduce, suspend or deny benefits when a worker (or worker's representative) is noncooperative with the management of the claim.

[Title 296 WAC—p. 171]

(2) **What does noncooperative mean?** Noncooperation is behavior by the worker (or worker's representative) which obstructs and/or delays the department or self-insurer from reaching a timely resolution of the claim.

(a) Noncooperation can include any one of the following:

(i) Not attending or cooperating with medical examinations or vocational evaluations requested by the department or self-insurer.

(ii) Failure to keep scheduled appointments or evaluations with attending physician or vocational counselor.

(iii) Engaging in unsanitary or harmful actions that jeopardize or slow recovery.

(iv) Not accepting medical and/or surgical treatment that is considered reasonably essential for recovery from the industrial injury or occupational disease.

(3) **Are there ever exceptions to attending a scheduled examination or vocational evaluation?** The worker will not be considered uncooperative if refusal to attend a scheduled examination is for any one of the following reasons:

(a) The department or self-insurer did not mail notice to the worker and designated representative at least fourteen but no more than sixty days prior to the examination. The notice must contain the date, time and location of the examination.

(b) If the worker is thirty or less minutes late for the appointment.

(c) If the worker has not been examined or evaluated and leaves after waiting for more than one hour after the scheduled time.

(4) **What actions are taken before reducing, suspending or denying industrial insurance benefits?**

(a) The department or self insurer must first send a letter to the worker (or the worker's representative) advising that benefits may be suspended and asking for an explanation for the noncooperation, obstruction and/or delay of the management of the claim.

(b) The worker has thirty days to respond in writing to the letter. This written response should include the reason(s) the worker has for not cooperating with the department or self insurer.

(5) **What are the actions the department can take if a worker (or a worker's representative) is determined to be noncooperative?** If the worker does not respond in thirty days to the letter asking for justification for not cooperating or it is determined there is no good cause the department or self insurer, after receiving the department's order, may take the following action:

(a) Reduce current or future time-loss compensation by the amount of the charge incurred by the department or self-insurer for any examination, evaluation, or treatment that the worker failed to attend.

(b) Reduce, suspend or deny all or part of the time-loss benefits.

(c) Suspend or deny medical benefits.

[Statutory Authority: RCW 51.04.020, 99-18-062, § 296-14-410, filed 8/30/99, effective 9/30/99. Statutory Authority: RCW 51.32.110 and 51.32.190(6), 90-19-028, § 296-14-410, filed 9/12/90, effective 10/13/90.]

[Title 296 WAC—p. 172]

WAC 296-14-420 Payment of benefits—Aggravation reopening/new injury. (1) Whenever an application for benefits is filed where there is a substantial question whether benefits shall be paid pursuant to the reopening of an accepted claim or allowed as a claim for a new injury or occupational disease, the department shall make a determination in a single order. Where one of the claims is with a self-insured employer and another is with a state fund employer, such determination shall be made jointly by the program managers for claims administration and self insurance, or their respective designees.

(2) Pending entry of the order, benefits shall be paid promptly by the entity which would be responsible if the claim were determined to be a new injury or occupational disease.

(3) The department is required to act under this rule only if:

(a) There is substantial evidence that the worker will be determined to be entitled to benefits on one of the claims; and

(b) There is uncertainty regarding which of the entities is responsible.

(4) Time-loss compensation shall be paid at the lesser of the two entitlements that may apply to the claim until responsibility has been determined between state fund and self-insured employer, two self-insured employers, or two state fund employers.

(5) If, upon final determination of the responsible insurer, the entity that paid benefits under subsection (2) of this section is determined not to be responsible for payment of benefits, such entity shall be reimbursed by the responsible entity for all amounts paid.

WAC 296-14-600 Payment of benefits on asbestos-related disease claims. The department shall furnish the benefits provided under Title 51 RCW to any worker or beneficiary who may have a right or claim for benefits under the maritime laws of the United States resulting from an asbestos-related disease if there are objective clinical findings to substantiate that the worker has an asbestos-related claim for occupational disease; and the worker's employment history has a prima facie indicia of injurious exposure to asbestos fibers while employed in the state of Washington in employment covered under Title 51 RCW.

(1) A worker's employment history will be deemed to have a prima facie indicia of injurious exposure to asbestos fibers if the employment history as contained in the department's file permits a reasonable conclusion that the worker was exposed to asbestos fibers and that such exposure was of sufficient duration to be injurious. "Injurious" means impairing to either a partial or total extent, and may be either permanent or temporary.

(2) Whenever the department has determined to pay benefits pursuant to chapter 271, Laws of 1988, the department shall render a decision as to the liable insurer and shall continue to pay benefits until the liable insurer initiates payments or benefits are otherwise properly terminated.

(2003 Ed.)

The department shall render its decision in a final order as provided in RCW 51.52.050.

Initiation of payments by a liable insurer shall be deemed to occur on the date such insurer issues a check or warrant or otherwise remits to the worker, beneficiary, or any provider any payment of any benefits owed by such insurer on the claim for asbestos.

(3) Benefits shall be paid on all pending asbestos-related claims as of July 1, 1988. Pending claims are those which have not been finally adjudicated by order of the department or the board of industrial insurance appeals or by the entry of a judgment of a superior court or decision of the court of appeals or the supreme court.

If any order of the department granting such benefits is appealed, benefits shall continue, if otherwise available, until a final determination is made by the board of industrial insurance appeals or the courts, or upon initiation of payments by a liable insurer.

(4) If benefits are paid by the department from the medical aid fund on an asbestos-related claim, and it is determined by the department that such benefits are owed to the worker or beneficiary by an insurer under the maritime laws of the United States or by another federal program other than the Federal Social Security, Old Age Survivors and Disability Insurance Act, 42 U.S.C., the department shall pursue such insurer or program to recover such benefits as may have been paid by the department.

The determination by the department shall be expressed in a final order as provided by RCW 51.52.050.

(5) Whenever a self-insured employer is determined to be liable, the self-insured employer shall reimburse benefits to the department within ten days after the department order becomes final and binding. Failure to do so shall subject the employer to a penalty as authorized in RCW 51.48.080.

(6) The director's discretion to waive recovery of the benefits paid to the claimant or beneficiary shall be exercised in accordance with WAC 296-14-200 (3)(c).

(7) No information obtained under this section is subject to release by subpoena or other legal process. The department will release information only to those persons authorized access to claim files by RCW 51.28.070.

WAC 296-14-940 Removal of special assistant attorneys general. (1) RCW 51.12.102 and 51.24.110 and WAC 296-14-900 through 296-14-940 do not give private attorneys on the special assistant attorneys general lists any right to expect employment.

(2) Private attorneys, unless representing the department in a specific case, must not:

[Title 296 WAC—p. 173]

- (a) Refer to themselves as "special assistant attorney general"; or
- (b) Include this designation on any correspondence or pleadings relating to services.
- (3) The department, in conjunction with the office of the attorney general and the Washington State Bar Association, may remove an attorney for cause from the lists of attorneys eligible to represent the department. Cause includes, but is not limited to:

- (a) Misuse of the designation "special assistant attorney general;"
- (b) Lapse of any qualification; or
- (c) Failure to meet performance requirements of the department contract.
- (4) After one year an attorney may write to the department and request to be placed on the lists of attorneys eligible to represent the department again. The department in its discretion may place the attorney on its lists again.
- (5) If the department removes an attorney from the lists a second time, or if the department decides not to place a removed attorney on its lists again, the department must notify the office of the attorney general to cancel the appointment. The department may refer the attorney to the Washington State Bar Association for consideration of disciplinary action. The attorney must reapply for appointment.

WAC 296-14-970 Worker's review of claim file. (1)

Pursuant to RCW 51.28.070, workers may be allowed to review their claim file(s) upon written request to the department or self-insurer. The written request should contain the worker's name, claim number, signature, and the information requested. If the request is approved, the department or self-insurer shall provide a copy of the claim file to the worker.

(2) Reasons for denying release of a claim file, to a worker shall include, but not be limited to the following:

(a) Presence of psychological, mental health, or physical treatment records, investigative reports or other records, release of which may not be in the interest of the worker.

(b) Medical opinion or other documented information indicates the worker is a danger to himself or herself or others.

(3) If, pursuant to the criteria established under subsection (2) of this section, the self-insured employer determines that release of the claim file, in whole or in part, may not be in the worker's interest, the employer must submit a request for denial with explanations along with a copy of that portion of the claim file not previously submitted to the self-insurance section within twenty days after receipt of the request from the worker.

(4) If the request for the claim file is denied, in whole or in part, a written order of denial will be issued by the department and mailed to the worker. The worker may appeal the order to the board of industrial insurance appeals.

(5) The provisions of this rule will apply to all claims regardless of the date of injury.

WAC 296-15-021 Individual firm self insurance application. (1) What does individual firm mean when applying for certification to self insure workers' compensation benefits? When applying for certification to self insure workers' compensation benefits, an individual firm means a sole proprietor, partnership or corporation which is responsible for its own audited financial statements.

(2) **What minimum requirements must an individual firm meet to apply for self insurance certification?** The department will consider an individual firm's application for self insurance certification if it:

- (a) Meets the department's net worth requirement;
- (b) Has been in business for three years; and
- (c) Has acceptable accident prevention programs in place for at least six months in Washington locations.

(3) **How does an individual firm apply?** The individual firm must submit Self Insurance Application SIF-1 L&I form F207-001-000 and three years of financial statements with the most recent year's financial statement audited by a certified independent public accountant.

(4) **What happens after an individual firm submits its application to the department?** After the department receives an application from an individual firm, the department will:

- (a) Conduct an evaluation of the written accident prevention program in effect at a sample of the applicant's locations;
- (b) Consider all matters related to the application; and
- (c) Notify the individual firm whether certification is approved or denied thirty days before the requested certification date unless more time is needed.

(5) **What if the application is denied?** The application will be denied if the individual firm does not meet the department's financial and/or accident prevention program requirements. If the application is denied for:

(a) Financial reasons, the individual firm may reapply after its next independently audited financial statement is available. The department may require the applicant to provide additional information.

(b) Accident prevention program deficiencies, the individual firm may be required to wait six months before reapplying.

(c) Both financial reasons and accident prevention program deficiencies, the individual firm may reapply after its next independently audited financial statement is available. The department may also require the applicant to wait six months before reapplying.

(6) **What if the application is approved?**

(a) If the application is approved, the individual firm must do all of the following before certification will be granted:

(i) Provide written acknowledgment L&I form F207-144-000 of its responsibility to pay benefits on all claims incurred during its period of self insurance. This obligation will continue even if the individual firm voluntarily or involuntarily surrenders its self insurance certification.

(ii) Provide surety in the amount determined necessary by the department. Surety must be filed with the department on a form provided by the department. Initial surety will be the greatest of:

(A) The minimum surety. This amount is calculated annually by department actuaries and is equal to the projected average current cost of a permanent total disability claim, including time loss, pension reserve and other claim costs paid prior to pension.

(B) The estimated annual amount of accident fund and medical aid fund premiums the self insurer would have paid if still in the state fund.

(C) The estimated amount of developed incurred benefits based on the self insurer's past experience with state fund adjusted for changes in the benefit schedules and exposure.

(D) The estimated average annual incurred losses made by an independent qualified actuary and accepted by the department.

Surety will never be established at a level lower than the minimum surety amount. The department may increase the initial surety amount if other conditions are expected to alter the potential claim costs and/or the self insurer's ability to pay them. A decrease will not be considered during the first three years of certification.

(iii) Pay its share of any state fund deficit or insufficiency. See the Employer's Guide to Self Insurance L&I form F207-079-000 for how the deficit share is calculated.

(iv) Obtain the services of an individual or service organization with an individual qualified to administer a Washington workers' compensation program.

(A) A qualified claim administrator has satisfactorily demonstrated to the department:

(I) A thorough knowledge in Title 51 RCW and all workers' compensation rules; and

(II) An expertise in claim adjudication.

(B) The claim administrator must also have the authority to make prompt:

(I) Payment of all compensation and assessments when due; and

(II) Decisions regarding claim adjudication and awards.

(C) If a service organization will be used, submit a copy of the service contract.

(I) The contract copy may delete clause(s) relating to payment of services.

(II) However, if payment for services is based on the number of claims filed by the self insurer's workers, this must be explained in detail. The department may require an unaltered copy of the agreement for clarification.

(b) The self insured individual firm will be held accountable for:

(i) Its entire workers' compensation program, including all actions on its claims, regardless of whether it contracts with a service organization or administers its own program; and

(ii) Complying with and keeping informed of all changes to industrial insurance laws and rules.

(c) Certification of an individual self insurer will include all of its subsidiaries (fifty percent owned and/or financial interest controlled by) or divisions doing business in Washington. One certificate will be issued to an approved self insurer. The subsidiaries or divisions will be considered one self insurer for all industrial insurance purposes.

(d) The effective date of certification will be the first day of the quarter after the department receives the surety and required documentation. If the applicant fails to provide the required information before the approved certification date and later wishes to follow through, the department will require the individual firm to reapply.

(7) What if an individual firm is a subsidiary of a corporation?

(a) If an individual self insured firm has a parent (owner of fifty percent and/or having controlling financial interest), the parent must provide the department with its written guarantee L&I form F207-040-000 to assume responsibility for all workers' compensation liabilities of the subsidiary if the subsidiary defaults on its liabilities.

(b) If a parent fails to provide a guarantee, the department will require the subsidiary to provide surety at one hundred twenty-five percent of its actual requirement. The subsidiary must continue to provide surety at the higher level as long as it has no parental guarantee.

WAC 296-15-031 Employee stock ownership plan self insurance application. (1) What does employee stock ownership plan (ESOP) mean when applying for certification to self insure workers' compensation benefits? When applying for certification to self insure workers' compensation benefits, an employee stock ownership plan (ESOP) means the employees of a self insured firm have purchased majority controlling financial interest in the firm. The new ESOP will be required to return to the state fund for workers' compensation coverage, and after one year in the state fund, the ESOP may apply to become self insured.

(2) What minimum requirements must an ESOP meet to apply for self insurance certification? The department will consider an ESOP's application for self insurance certification if it:

- (a) Meets the department's net worth requirement;
- (b) Has been in business for one year; and
- (c) Has acceptable accident prevention programs in place for at least six months in Washington locations.

(3) How does an ESOP apply? The ESOP must submit Self Insurance Application SIF-1 L&I form F207-001-000 with the most recent year's financial statement audited by a certified independent public accountant.

(4) What happens after an ESOP submits its application to the department? After the department receives an application from an ESOP, the department will:

- (a) Conduct an evaluation of the written accident prevention program in effect at a sample of the applicant's locations;
- (b) Consider all matters related to the application; and
- (c) Notify the ESOP whether certification is approved or denied thirty days before the requested certification date unless more time is needed.

(5) What if the application is denied? The application will be denied if the ESOP does not meet the department's financial and/or accident prevention program requirements. If the application is denied for:

(a) Financial reasons, the ESOP may reapply after its next independently audited financial statement is available. The department may require the applicant to provide additional information.

(b) Accident prevention program deficiencies, the ESOP may be required to wait six months before reapplying.

(c) Both financial reasons and accident prevention program deficiencies, the ESOP may reapply after its next independently audited financial statement is available. The department may also require the applicant to wait six months before reapplying.

(6) What if the application is approved?

(a) If the application is approved, the ESOP must do all of the following before certification will be granted:

(i) Provide written acknowledgment on L&I form F207-144-000 of its responsibility to pay benefits on all claims incurred during its period of self insurance. This obligation will continue even if the ESOP voluntarily or involuntarily surrenders its self insurance certification.

(ii) Provide surety in the amount determined necessary by the department. Surety must be filed with the department on a form provided by the department. For the first three years of certification, an ESOP must provide surety equal to one hundred twenty-five percent of its actual requirement. Initial surety will be the greatest of:

(A) The minimum surety. This amount is calculated annually by department actuaries and is equal to the projected average current cost of a permanent total disability claim, including time loss, pension reserve and other claim costs paid prior to pension.

(B) The estimated annual amount of accident fund and medical aid fund premiums the self insurer would have paid if still in the state fund.

(C) The estimated amount of developed incurred benefits based on the self insurer's past experience with state fund adjusted for changes in the benefit schedules and exposure.

(D) The estimated average annual incurred losses made by an independent certified public accountant and accepted by the department.

Surety will never be established at a level lower than the minimum surety amount. The department may increase the initial surety amount if other conditions are expected to alter the potential claim costs and/or the self insurer's ability to pay them. A decrease will not be considered during the first three years of certification.

(iii) Pay its share of any state fund deficit or insufficiency. See the Employer's Guide to Self Insurance L&I form F207-079-000 for how the deficit share is calculated.

(iv) Obtain the services of an individual or service organization with an individual qualified to administer a Washington workers' compensation program.

(A) A qualified claim administrator has satisfactorily demonstrated to the department:

(I) A thorough knowledge in Title 51 RCW and all workers' compensation rules; and

(II) An expertise in claim adjudication.

(B) The claim administrator must also have the authority to make prompt:

(I) Payment of all compensation and assessments when due; and

(II) Decisions regarding claim adjudication and awards.

(C) If a service organization will be used, submit a copy of the service contract.

(I) The contract copy may delete clause(s) relating to payment of services.

(II) However, if payment for services is based on the number of claims filed by the self insurer's workers, this must be explained in detail. The department may require an unaltered copy of the agreement for clarification.

(b) The self insured ESOP will be held accountable for:

(i) Its entire workers' compensation program, including all actions on its claims, regardless of whether it contracts with a service organization or administers its own program; and

(ii) Complying with and keeping informed of all changes to industrial insurance laws and rules.

(c) Certification of an ESOP will include all of its subsidiaries (fifty percent owned and/or financial interest controlled by) or divisions doing business in Washington. One certificate will be issued to an approved self insurer, and the subsidiaries or divisions will be considered one self insurer for all industrial insurance purposes.

(d) The effective date of certification will be the first day of the quarter after the department receives the surety and required documentation. If the applicant fails to provide the required information before the approved certification date and later wishes to follow through, the department will require the ESOP to reapply.

(7) What if an ESOP firm is a subsidiary of a corporation?

(a) If an ESOP has a parent (owner of fifty percent and/or having controlling financial interest), the parent must provide the department with its written guarantee L&I form F207-040-000 to assume responsibility for all workers' compensation liabilities of the subsidiary if the subsidiary defaults on its liabilities.

(b) If a parent fails to provide a guarantee, the department will require the subsidiary to provide surety at one hundred twenty-five percent of its actual requirement. The subsidiary must continue to provide surety at the higher level as long as it has no parental guarantee.

WAC 296-15-041 Joint venture self insurance application. (1) What does joint venture mean when applying for certification to self insure workers' compensation benefits? When applying for certification to self insure workers' compensation benefits, a joint venture means two or more firms which have signed a contractual agreement to operate as a single unit for a specified period of time.

(2) What minimum requirements must a joint venture meet to apply for self insurance certification? The department will consider a joint venture's application for self insurance certification if the joint venture is sponsored by a current self insurer, and the sponsor has majority financial interest in the joint venture's assets and profits.

(3) How does a joint venture apply? The joint venture must submit Self Insurance Application SIF-1 L&I form F207-001-000 and:

(a) Three years of financial statements of all parties having at least twenty percent financial interest in the joint ven-

ture, with each party's most recent year's financial statement audited by a certified independent public accountant;

(b) A copy of the joint venture agreement describing the obligations of each party for the joint venture's industrial insurance program; and

(c) Each party's written acknowledgment of its joint and several liability for continuing compensation if any party defaults. This responsibility continues until the department provides a written release from this responsibility to the joint venture or remaining party to the joint venture.

(4) What happens after a joint venture submits its application to the department? After the department receives an application from a joint venture:

(a) The sponsoring self insurer has the responsibility to ensure the adequacy of the written accident prevention program in effect at the joint venture's locations;

(b) The department will consider all matters related to the application; and

(c) The department will notify the joint venture whether certification is approved or denied thirty days before the requested certification date unless more time is needed.

(5) What if the application is denied? The application will be denied if the joint venture does not meet the department's financial requirements. If the application is denied, the joint venture may reapply after the next independently audited financial statements of the original applicants are available. The department may require the joint venture to provide additional information.

(6) What if the application is approved?

(a) If the application is approved, the joint venture must do all of the following before certification will be granted:

(i) Provide surety in the amount determined necessary by the department. Surety must be filed with the department on a form provided by the department. Surety must name the joint venture and all parties as principal. Initial surety will be the greatest of:

(A) The minimum surety. This amount is calculated annually by department actuaries and is equal to the projected average current cost of a permanent total disability claim, including time loss, pension reserve and other claim costs paid prior to pension.

(B) The estimated annual amount of accident fund and medical aid fund premiums the self insurer would have paid if still in the state fund.

Surety will never be established at a level lower than the minimum surety amount.

(ii) Pay its share of any state fund deficit or insufficiency. See the Employer's Guide to Self Insurance L&I form F207-079-000 for how the deficit share is calculated.

(iii) Obtain the services of an individual or service organization with an individual qualified to administer a Washington workers' compensation program.

(A) A qualified claim administrator has satisfactorily demonstrated to the department:

(I) A thorough knowledge in Title 51 RCW and all workers' compensation rules; and

(II) An expertise in claim adjudication.

(B) The claim administrator must also have the authority to make prompt:

(I) Payment of all compensation and assessments when due; and

(II) Decisions regarding claim adjudication and awards.

(C) If a service organization will be used, submit a copy of the service contract.

(I) The contract copy may delete clause(s) relating to payment of services.

(II) However, if payment for services is based on the number of claims filed by the self insurer's workers, this must be explained in detail. The department may require an unaltered copy of the agreement for clarification.

(b) The self insured joint venture will be held accountable for:

(i) Its entire workers' compensation program, including all actions on its claims, regardless of whether it contracts with a service organization or administers its own program; and

(ii) Complying with and keeping informed of all changes to industrial insurance laws and rules.

(c) The effective date of certification will be the first day of the month after the department receives the surety and required documentation. If the applicant fails to provide the required information before the approved certification date and later wishes to follow through, the department will require the joint venture to reapply.

(7) **What responsibility does the self insured sponsor have for the joint venture?** The sponsor must provide written acknowledgment of its responsibility for the management of all claims and payment of all compensation incurred during the period of the joint venture's self insurance and after the joint venture has been dissolved. The acknowledgment must include the sponsor's responsibility for the continuation of benefits if any party to the joint venture or the joint venture defaults.

(8) **When can a minority partner be released from its joint venture obligations?** If the sponsor submits a written request, the department may release a minority party from its obligations under the joint venture after:

(a) The contract has been fulfilled; and

(b) A final settlement of the joint venture account has been made.

WAC 296-15-051 Public entity self insurance application. (1) **What does public entity mean when applying for certification to self insure workers' compensation benefits?** When applying for certification to self insure workers' compensation benefits, public entity means an individual city, county, school district, port, public hospital district, public utility district, or other public corporation.

(2) **What minimum requirements must a public entity meet to apply for self insurance certification?** The department will consider a public entity's application for self insurance certification if it:

(a) Meets the department's net worth requirement;

(b) Has been in business for three years; and

(c) Has acceptable accident prevention programs in place for at least six months in Washington locations.

(3) **How does a public entity apply?** A public entity must submit Self Insurance Application SIF-1 L&I form F207-001-000 and three years of financial statements with the most recent year's financial statement audited by a certified independent public accountant or state auditor.

(4) **What happens after a public entity submits its application to the department?** After the department receives an application from a public entity, the department will:

(a) Conduct an evaluation of the written accident prevention program in effect at a sample of the applicant's locations;

(b) Consider all matters related to the application; and

(c) Notify the public entity whether certification is approved or denied thirty days before the requested certification date unless more time is needed.

(5) **What if the application is denied?** The application will be denied if the public entity does not meet the department's financial and/or accident prevention program requirements. If the application is denied for:

(a) Financial reasons, the public entity may reapply after its next independently audited financial statement is available. The department may require the applicant to provide additional information.

(b) Accident prevention program deficiencies, the public entity may be required to wait six months before reapplying.

(c) Both financial reasons and accident prevention program deficiencies, the public entity may reapply after its next independently audited financial statement is available. The applicant may also be required to wait six months before reapplying.

(6) **What if the application is approved?**

(a) If the application is approved, the public entity must do all of the following before certification will be granted:

(i) Provide written acknowledgment L&I form F207-144-000 of its responsibility to pay benefits on all claims incurred during its period of self insurance. This obligation will continue even if the public entity voluntarily or involuntarily surrenders its self insurance certification.

(ii) Provide surety in the amount determined necessary by the department.

(A) A public entity's surety must provide for sufficient revenues to satisfy the total estimated claim costs for the upcoming fiscal period. Surety must be filed with the department on a form provided by the department. The minimum surety level will be established by the department.

(B) Each public entity must also establish a cumulative reserve of at least twenty-five percent of its surety requirement. Use a surety type accepted by the department.

The department may increase the initial surety amount if other conditions are expected to alter the potential claim costs and/or the self insurer's ability to pay them. A decrease will not be considered during the first three years of certification.

(iii) Pay its share of any state fund deficit or insufficiency. See the Employer's Guide to Self Insurance L&I form F207-079-000 for how the deficit share is calculated.

(iv) Obtain the services of an individual or service organization with an individual qualified to administer a Washington workers' compensation program.

(A) A qualified claim administrator has satisfactorily demonstrated to the department:

(I) A thorough knowledge in Title 51 RCW and all workers' compensation rules; and

(II) An expertise in claim adjudication.

(B) The claim administrator must also have the authority to make prompt:

(I) Payment of all compensation and assessments when due; and

(II) Decisions regarding claim adjudication and awards.

(C) If a service organization will be used, submit a copy of the service contract.

(I) The contract copy may delete clause(s) relating to payment of services.

(II) However, if payment for services is based on the number of claims filed by the self insurer's workers, this must be explained in detail. The department may require an unaltered copy of the agreement for clarification.

(b) The self insured public entity will be held accountable for:

(i) Its entire workers' compensation program, including all actions on its claims, regardless of whether it contracts with a service organization or administers its own program; and

(ii) Complying with and keeping informed of all changes to industrial insurance laws and rules.

(c) Certification of a public entity will include all of its business operations in Washington. One certificate will be issued to an approved self insurer, and the public entity's business operations will be considered one self insurer for all industrial insurance purposes.

(d) The effective date of certification will be the first day of the quarter after the department receives the surety and required documentation. If the applicant fails to provide the required information before the approved certification date and later wishes to follow through, the department will require the public entity to reapply.

WAC 296-15-061 Employer group self insurance application. (1) **What does an employer group mean when applying for certification to self insure workers' compensation benefits?** When applying for certification to self insure its workers' compensation benefits, an employer group means a group of employers qualified to self insure under Title 51 RCW.

(2) **What minimum requirements must a group meet to apply for self insurance certification?** The department will consider a group's application for self insurance certification if the qualified group of employers has acceptable accident prevention programs in place for at least six months in Washington locations.

(3) **How does an employer group apply?** The initial board of trustees of the proposed group must submit a complete and accurate application, including:

(a) A copy of the group's bylaws.

(b) Individual applications and current audited financial statement of each member.

(c) A financial statement collectively showing the financial condition of members.

(d) Evidence of the fiscal agent's/administrator's fidelity bond with the trust fund. The bond must be sufficient to protect the trust fund against misappropriation or misuse of any money or securities. The bond is a condition for a group to become certified and for the continued operation of the trust fund.

(e) A listing of the estimated standard premium to be developed for each member individually and the estimated standard premium of the group as a whole.

(f) An indemnity agreement jointly and severally binding the group and each member to comply with the provisions of Title 51 RCW.

(g) A detailed budget of all projected administrative expenses for the first year of operation.

(4) **What happens after the application is submitted to the department?** After the application is submitted, the department will:

(a) Conduct an evaluation of the proposed group members' written accident prevention programs in effect at a sample of the applicant's locations;

(b) Consider all matters related to the application; and

(c) Notify the group whether certification is approved or denied thirty days before the requested certification date unless more time is needed.

(5) **What if the application is denied?** The application will be denied if the group does not meet the department's financial and/or accident prevention program requirements. If the application is denied for:

(a) Financial reasons, the group may reapply after the next independently audited financial statements of the original applicants are available. The department may require additional information.

(b) Because of deficiencies in its accident prevention program, the applicant may be required to wait six months before reapplying.

(c) Both financial reasons and accident prevention program deficiencies, the group may reapply after the next independently audited financial statements of the original applicants are available. The department may also require the applicant to wait six months before reapplying.

(6) **What if the application is approved?**

(a) If the application is approved, the group must do all of the following before certification will be granted:

(i) Provide to the department:

(A) Written acknowledgment L&I form F207-144-000 of the group's responsibility for the payment of benefits on all claims incurred during its period of self insurance. This obligation will continue even if the group voluntarily or involuntarily surrenders its self insurance certification.

(B) Evidence of the administrator or fiscal agent's fidelity bond.

(C) Surety in the amount determined necessary by the department. Surety must be filed with the department on a form provided by the department. The group self insurer must maintain adequate financial reserves to cover the group's claims liabilities and administrative expenses, including the administrative assessment which would apply to claim costs if the group discontinued.

(I) For the first year of operation, adequate means the group self insurer has collected revenues from members which total one hundred twenty-five percent of the premiums which would have been paid into the state fund, and the group has submitted documentation of the collected revenues to the department.

(II) For subsequent years of operation, adequate means the group self insurer has collected revenues from its members which equal one hundred percent of the premiums which would have been paid into the state fund for each year of operation, and the group has submitted documentation of the collected revenues to the department.

(D) Evidence of:

(I) Excess workers' compensation coverage and reserves covering the difference between the aggregate retention level and claim expenditures; or

(II) Maintaining a contingency reserve to cover any adverse development of claim liability. The contingency reserve must equal the greater of fifteen percent of the claims liability or twenty-five percent of the premium amount.

The department may increase the initial surety amount if other conditions are expected to alter the potential claim costs and/or the group's ability to pay them. A decrease will not be considered during the first five years of certification.

(ii) Pay its share of any state fund deficit or insufficiency. See the Employer's Guide to Self Insurance L&I form F207-079-000 for how the deficit share is calculated.

(iii) Obtain the services of an individual or service organization with an individual qualified to administer a Washington workers' compensation program.

(A) A qualified claim administrator has satisfactorily demonstrated to the department:

(I) A thorough knowledge in Title 51 RCW and all workers' compensation rules; and

(II) An expertise in claim adjudication.

(B) The claim administrator must also have the authority to make prompt:

(I) Payment of all compensation and assessments when due; and

(II) Decisions regarding claim adjudication and awards.

(C) If a service organization will be used, submit a copy of the service contract.

(I) The contract copy may delete clause(s) relating to payment of services.

(II) However, if payment for services is based on the number of claims filed by the self insurer's workers, this must be explained in detail. The department may require an unaltered copy of the agreement for clarification.

(b) The group self insurer will be held accountable for:

(i) Its entire workers' compensation program, including all actions on its claims, regardless of whether it contracts with a service organization or administers its own program; and

(ii) Complying with and keeping informed of all changes to industrial insurance laws and rules.

(c) Certification will be effective the first day of the quarter after the department receives the surety and required documentation. If the applicant fails to provide the required information before the approved certification date and later

wishes to follow through, the department will require the group to reapply.

(d) Certification of a group will include all of its members doing business in Washington. One certificate will be issued to an approved self insurer. All members of a group will be considered as one self insurer for the purposes of Title 51 RCW.

(7) After becoming self insured, how will a group admit or terminate individual members?

(a) A prospective member must submit its application to the group's board of trustees or its administrator. Approved applications must be filed with the department. Membership will take effect the first day of the calendar quarter after the department receives the application.

(b) A group may terminate individual members according to its bylaws, or members may choose to terminate membership. Termination will be effective at the end of the month after the department receives notification.

(8) Who is on a group self insurer's board of trustees? Members of the group elect the board of trustees. Trustees serve stated terms of office and direct the administration of the trust fund.

(9) What are the responsibilities of a group self insurer's board of trustees?

(a) A group self insurer's board of trustees is responsible for all operations of the group's trust fund and is expected to ensure the fund's financial stability. The board's duties include:

(i) Approving new members' applications.

(ii) Designating a fiscal agent and/or administrator to administer the financial affairs of the trust fund in accordance with Title 51 RCW and workers' compensation rules, including those regarding investments of funds, budget and accounting procedures.

(iii) Setting the schedule of due dates and premium amounts.

(iv) Managing deposits to and disbursements from the trust fund.

(v) Auditing the accounts and records of the trust fund annually and whenever required by the department. Copies of audits are due in the department within six months after the close of the fund year.

(vi) Maintaining and providing at department request:

(A) Summary loss data; and

(B) Certified copies of the minutes of trustee meetings.

(b) If specifically defined in board meeting minutes, the board may delegate authority for:

(i) Contracting with a service organization.

(ii) According to department requirements regarding investing surplus moneys, determining premiums and refunds.

(iii) Approving applications for membership.

(10) What are a group self insurer's trustees, fiscal agents or administrators specifically prohibited from?

(a) A group self insurer's trustee, fiscal agent or administrator CANNOT BE either:

(i) An owner or employee of a company under contract to the trust fund; or

(ii) An officer or employee of a service organization contracted to handle any business function of the group.

(b) A group self insurer's trustee, fiscal agent or administrator CANNOT DO any of the following:

(i) Extend credit to members for premium payment.

(ii) Use money collected as premiums for any purpose unrelated to workers' compensation.

(iii) Borrow from or in the name of the fund without prior department approval. The group must advise the department of the purpose of the loan, and the department may decline to approve the loan.

(iv) During any coverage period, collect less than will be needed to cover claim and administrative costs, department assessments and a contingency reserve.

WAC 296-15-121 Surety for a self insurance program. (1) **What is surety?** Surety is the legal financial guarantee each self insurer must provide to the department for its self insured workers' compensation program. Failure to provide surety in the amount required by the department will result in the withdrawal of the self insurer's certification. If a self insurer defaults on (stops payment of) benefits and assessments, the department will use its surety to cover these costs.

(a) Surety must be provided on the department's form. The original will be kept by the department. Surety must cover all past, present and future self insurance liabilities.

(b) Surety may not be used by a self insurer to:

(i) Pay its workers' compensation benefits; or

(ii) Serve as collateral for any other banking transactions.

(c) Surety is not an asset of the self insurer and will not be released by the department if the self insurer files a petition for dissolution or relief under bankruptcy laws.

(d) The department will determine the amount of surety each self insurer must provide. The surety level may be increased or decreased to maintain its adequacy when necessary.

(2) **What types of self insurance surety will the department accept?** The department will accept the following types of surety:

(a) Cash, corporate or governmental securities deposited with a department approved escrow agent and administered by a written agreement L&I form F207-039-000 between the department, self insurer and escrow agent. Use L&I form F207-137-000 for any rider/amendment to the escrow account.

(2003 Ed.)

An escrow account may not be used by the self insurer to satisfy any other obligation to the bank which maintains the escrow account.

(b) A bond on L&I form F207-068-000 written by a company approved to transact surety business in Washington. Use L&I form F207-134-000 for any rider/amendment to the bond.

(c) An irrevocable standby letter of credit (LOC) on L&I form F207-112-000 if the self insurer has a net worth of at least 500 million dollars. Use L&I form F207-111-000 for any rider/amendment. LOCs are subject to acceptance by the department. Acceptance includes, but is not limited to, approval of the financial condition of the issuing or confirming bank.

(i) The issuing or confirming bank must have a location in Washington. The bank must provide the department with an audited financial statement or call report made to the banking regulatory agencies for the most recent fiscal year. An audited statement/call report is due at LOC issuance and annually while the LOC is in effect.

(ii) The self insurer must provide the department a memorandum of understanding on L&I form F207-113-000 showing the self insurer's agreement with the following conditions:

(A) The department will automatically extend an LOC for an additional year unless notified otherwise by registered mail at least sixty days prior to expiration.

(B) If the department is notified an LOC will not be replaced, and the self insurer fails to provide acceptable replacement surety within thirty days of notice:

(I) The department will draw the full value of the LOC. All proceeds of the LOC will be deposited with the department;

(II) Accrued interest in excess of the surety requirement will be returned semiannually to the self insurer; and

(III) If acceptable replacement surety is later provided, the proceeds of the LOC and accrued interest will be returned to the self insurer.

(C) If the self insurer defaults on the payment of workers' compensation benefits and has failed to provide acceptable replacement surety for an expired LOC:

(I) The title to the proceeds will be transferred to the department; and

(II) The proceeds and accrued interest will be used to pay the self insurer's workers' compensation benefits.

(D) If the self insurer defaults on the payment of workers' compensation benefits and has an LOC in force:

(I) The department will draw the full value of the LOC. All proceeds of the LOC will be deposited with the department; and

(II) The proceeds and accrued interest will be used to pay the self insurer's workers' compensation benefits.

(iii) If the self insurer provides another acceptable type of surety in the amount required by the department, the department's interest in the LOC will be released.

(iv) All legal proceedings regarding a self insurer's LOC will be subject to Washington laws and courts.

(3) **How often is each self insurer's surety requirement reviewed?** Each self insurer's surety requirement is reviewed annually based on the self insurer's annual report.

[Title 296 WAC—p. 183]

(4) When could a self insurer's surety level change?

(a) Surety will be maintained at the current level unless the department's estimate or an independent qualified actuary's estimate of the self insurer's outstanding claim liabilities changes by more than twenty-five thousand dollars.

(b) Surety changes are due by July 1 of each year.

(5) How does the department determine the required surety level? The department analyzes each self insurer's loss history using incurred development, paid development or other department approved actuarial methods of loss development. The following factors also may influence the surety determination:

(a) Pension claims.

(b) Reinsurance.

(c) Inconsistency in reserving practices.

(d) Independent qualified actuarial estimate.

(e) Surety cap.

(6) What is considered reinsurance? For the purposes of Title 51 RCW, excess insurance and reinsurance mean the same thing.

(7) May a self insurer reinsure part of its liability?

(a) A self insurer may reinsure up to eighty percent of its liability under Title 51 RCW.

(b) The reinsuring company and its personnel are prohibited from participating in the administration of the responsibilities of the self insurer.

(c) Reinsurance policies issued after July 1, 1975, must include endorsements which state (a) and (b) of this subsection.

(d) The self insurer must:

(i) Notify the department of the name of the insurance carrier, the extent and coverage period of the policy; and

(ii) Submit copies of all reinsurance policies in force including all modifications and renewal provisions.

(e) The department may accept a certificate of insurance on L&I form F207-095-000 in place of the policy if the certificate certifies all coverage conditions and exceptions and that the reinsurance company and its personnel do not participate in the administration of the responsibilities of the self insurer under Title 51 RCW.

(8) What if a self insurer ends its self insured workers' compensation program? If a self insurer voluntarily surrenders certification or has its certificate involuntarily withdrawn by the department, the former self insurer must continue to do all of the following:

(a) Pay benefits on claims incurred during its period of self insurance. Claim reopenings and new claims filed for occupational diseases incurred during the period of self insurance remain the obligation of the former self insurer.

(b) File quarterly and annual reports as long as quarterly reporting is required. A former self insurer may ask the department to release it from quarterly reporting after it has had no claim activity with the exception of pension or death benefits for a full year.

(c) Provide surety at the department required level. The department may require an increase in surety based on annual reports as they continue to be filed. Surety will not be reduced from the last required level (while self insured) until three full calendar years after the certificate was terminated. A bond

may be cancelled for future obligations, but it continues to provide surety for claims occurring prior to its cancellation.

(d) Pay insolvency trust assessments for three years after surrender or withdrawal of certificate.

(e) Pay all expenses for a final audit of its self insurance program.

(9) When could the department consider releasing surety to a former self insurer or its successor?

(a) The department may consider releasing surety to a former self insurer or its successor when all of the following have occurred:

(i) All claims against the self insurer are closed; and

(ii) The self insurer has been released from quarterly reporting for at least ten years.

(b) If the department releases surety, the former self insurer remains responsible for claim reopenings and new claims filed for occupational disease incurred during the period of self insurance.

WAC 296-15-140 Expense of out-of-state audit. The audit of self-insurance plans at locations outside the state of Washington, shall be at the expense of the self-insurer and the expense incurred in making such audit shall be paid by the self-insurer.

Such expenses shall be calculated at the usual and normal per diem and travel expense rates established by law and in effect at the time the expenses are incurred.

[Order 74-38, § 296-15-140, filed 11/18/74, effective 1/1/75.]

WAC 296-15-151 Surety for a public entity's self insurance program. (1) **How does the department determine the required surety level for a public entity?** The required surety level for a public entity will be its estimated claim costs for all claims during the upcoming fiscal year. The minimum surety amount will be determined annually by the department.

(2) **How does a public entity provide surety?** By July 1 of each year, each public entity must submit its public entity surety certification. A public entity's surety certification must demonstrate that it has sufficient revenues in its next budget to meet its estimated claim costs for the next fiscal year by documenting:

(a) The estimated claim liabilities;

(b) Source of revenues, detailing accounts identified for self insurance obligations; and

(c) How the cumulative reserve (twenty-five percent of the required surety) is funded. Show the account balance.

(3) **What type of surety may a public entity use for its cumulative reserve?** A public entity may provide surety for its cumulative reserve using any of the surety types listed in WAC 296-15-221.

[Statutory Authority: RCW 51.14.077, 51.14.120(7), 51.14.150(4), 51.14.160, 51.44.040(3), 51.44.070 and 51.44.150. 99-23-107, § 296-15-151, filed 11/17/99, effective 12/27/99.]

WAC 296-15-161 Surety for a group self insurance program. (1) How does the department determine the required surety level for a group self insurer? After the initial five years of certification, the department will annually calculate the surety requirement for a group self insurer by comparing its original liability estimate to its reserve fund. If the difference is:

(a) Less than fifteen percent, the department will accept the stated reserves of the group as the required surety level.

(b) Greater than fifteen percent, the department will establish the group's required surety level.

(2) **What type of surety is acceptable for a group self insurer's reserve fund?** A group self insurer's reserve fund must be cash.

(3) **May a group self insurer pay expenses from its reserve fund?** A group self insurer may pay only the following items from its cash reserve fund:

(a) Administrative expenses for operating the group self insurance program, including claims handling expenses, legal, investigative or administrative costs and department administrative assessments.

(b) Claim expenditures. Supplemental pension fund (SPRF) benefits may also be paid from the reserve fund if the group redeposits SPRF reimbursements into the reserve account. Interest earned by the reserve account must remain in the account while this method is in effect.

(c) Reinsurance premiums. All recoveries from these policies must be redeposited into the reserve fund. Within eighteen months of premium payment, the group must return the amount paid for premiums if reinsurance recoveries were not sufficient to return the account to its original amount.

(4) **How can a group self insurer assess its members for reserve fund costs?** A group self insurer may determine how it will assess members for required reserve fund costs. The group's bylaws must describe the procedures it will use to collect these costs.

(5) **Must a group self insurer purchase reinsurance?** A group self insurer must obtain reinsurance for each year of operation to ensure adequate protection against catastrophic or unexpected loss.

(6) **What if a group self insurer collects excess premiums during a fund year and has a surplus?** A group self insurer may refund surplus money from a fund year if it retains sufficient money to fulfill all of its workers' compensation obligations. This includes maintaining the required reserve fund.

(7) **What if a group self insurer collects insufficient premiums during a fund year and has a deficit?** A group self insurer may cover a deficit by:

(a) After receiving department approval, using:

(i) Unencumbered surplus from a different fund year;

(ii) An alternative method; or

(b) Assessing the membership. The department may require the group to use this method.

(2003 Ed.)

WAC 296-15-171 Surety for a self insured pension or fatality claim. (1) When must a self insurer provide funding for a permanent total disability (pension) or fatality claim? Within sixty days of receipt of the department's order, the self insurer must fund the pension or fatality claim.

(2) **What types of funding may a self insurer use for a pension or fatality claim?** A self insurer may fund a pension or fatality claim with cash, a bond on L&I form F207-065-000, annuity on L&I form F207-129-000 or assignment of account on L&I form F207-058-000. If the pension benefit level increases, the self insurer must increase the surety level or provide additional surety to cover the deficiencies.

(3) **What is an annuity?** An annuity is a contract with an insurance company where the insurance company agrees to pay to the department a specific amount covering the lifetime of a claimant.

(4) **What is an assignment of account?** A self insurance assignment of account/certificate of deposit is a legal instrument executed by the self insurer and an approved commercial banking institution in Washington. The assignment of account must:

(a) Identify an existing account on deposit with the approved banking institution in the name of the self insurer. The existing assigned account must contain the amount determined necessary by the department to cover the pension benefits on the specific claim beyond all other assignments on that account. A separate assignment of account must be established for each pension.

(b) Bind the self insurer to maintain a balance in the assigned account at least equal to the current present cash value of the pension benefits on the claim and beyond all other assignments on the account for the life of the claim. Present cash values of the assigned account/certificate of deposit will be revised annually by the department. Quarterly pension payments made from the assigned account must not reduce the account balance below the present cash value of the pension beyond all other assignments on the same account.

(c) Authorize the department, if the self insurer defaults, to immediately withdraw up to the entire amount assigned to the pension claim from the assigned account/certificate of deposit. The department will take this action without notifying the defaulting self insurer.

(d) If the bank holding the assignment of account/certificate of deposit fails, the self insurer is responsible for the entire amount of the pension or fatality obligation. Within thirty days, the self insurer must:

(i) Establish a new assignment of account/certificate of deposit, bond; or

(ii) Deposit cash into the reserve fund.

(e) If the self insurer ends its self insurance status, the assignment of account/certificate of deposit will be placed with the department. The department will determine the required reserve for the pension or fatality claim, and any excess will be returned to the former self insurer.

[Title 296 WAC—p. 185]

WAC 296-15-181 Funding the benefits of an insolvent self insurer. (1) **What happens when a self insurer defaults on (stops paying) workers' compensation benefits and assessments?** When a self insurer stops paying workers' compensation benefits or assessments, and the default is not due to a claims administration decision, the department will take over its surety and claims. The department will manage the claims and bill the surety each quarter to reimburse benefits paid.

(2) **If a defaulting self insurer has multiple types of surety, who determines the order in which surety will be used?** The department has the sole authority to determine the order in which surety types will be used.

(3) **What happens if the defaulting self insurer's surety is exhausted?** When surety is exhausted, the insolvency trust (all self insurers except school districts, cities and counties) will be assessed quarterly to cover the claim costs paid on behalf of the defaulted self insurer.

(4) **Who is on the insolvency trust board?** The insolvency trust board consists of the director or designee, three representatives of self insured employers and one representative of workers. Representatives are nominated by the self insured and labor communities and are appointed by the director for overlapping two year terms.

(5) **What does the insolvency trust board do?** The board advises the department on insolvency trust matters. The department makes all final decisions.

(6) **What annual report is provided on the insolvency trust fund?** The department provides an annual written status report on the insolvency trust fund as of the end of the previous calendar year to the workers' compensation advisory committee. The report is presented at the committee's first quarterly meeting no later than March 31.

WAC 296-15-200 Claims log—Evaluation. Beginning January 1, 1976, each self-insurer shall maintain a log of all claims filed by any worker injured in its employ or any worker having contracted an occupational disease as a result of his/her employment with the self-insurer.

The claims log shall contain the following minimum information: The injured worker's name, the date of the injury or first knowledge of an occupational disease, the claim number assigned by the department, the date the claim is closed, and whether the claim is compensable or treatment only. Additional information may be recorded at the discretion of the employer.

WAC 296-15-221 Self insurers' reporting requirements. (1) **What information must self insurers report to the department?** Each self insurer must provide the department:

(a) The name, title, address and phone number of the single contact person who is the liaison with the department in all self insurance matters. This contact will be sent all department correspondence and is responsible for forwarding information to appropriate parties for timely action.

(b) A copy of its current policy of applying sick leave, health and welfare benefits or any other compensation in conjunction with, or as a substitute for, time loss benefits.

(2) **When must self insurers notify the department of business status changes?** Self insurers must notify the department in writing:

(a) Immediately, of any plans to:

(i) Cease business entirely or cease business in Washington; or

(ii) Dispose of controlling financial interest of the original self insurer. The self insurer must surrender its certificate for cancellation if requested by the department.

(b) Within thirty days, of any:

(i) Amendment(s) or modification(s) to the self insurer's articles, charter or agreement of incorporation, association, copartnership or sole proprietorship which will materially change the business identity or structure originally certified.

(A) The department may require additional documentation.

(B) If the self insurer becomes a subsidiary to another firm, the parent must provide the department with its written guarantee on L&I form F207-040-001 to assume responsibility for all workers' compensation liabilities of the subsidiary if the subsidiary defaults on its liabilities. See WAC 296-15-021 for additional information.

(ii) Separation (for example, divestiture or spinoff) of any part of the original self insurer.

(A) The original self insurer remains responsible for claims liability of the separated part up to the date of separation unless the department approves an alternative.

(B) If the separating part wishes to continue self insurance, it must submit an application to the department at least thirty days before separation and requested certification.

(C) If certification cannot be granted before separation, industrial insurance coverage must be purchased from the state fund from the date of separation.

(iii) Relocating, adding or closing physical locations.

(3) **When must self insurers notify the department of administrative changes?** A self insurer must notify the department in writing within ten days, of any change to its:

(a) Single contact person who is the liaison with the department in all self insurance matters. Include the contact's title, address and phone number.

(b) Contract with a service organization/third party administrator independent of the self insurer which will participate in the self insurer's responsibilities. Submit a copy of the service contract. See WAC 296-15-021 for additional information.

(c) Administrator of its workers' compensation program.

(4) **What reports must self insurers submit to the department?** Each self insurer must submit:

(a) Complete and accurate quarterly reports summarizing worker hours and claim costs paid the previous quarter. Use a form substantially similar to the preprinted SIQTRR

form sent by the department. Payment is due the 30th day after receiving the preprinted report from the department. This report is the basis for determining the administrative, second injury fund, supplemental pension, asbestosis and insolvency trust assessments.

(i) Administrative, second injury fund and insolvency trust assessments are based on a self insurer's total claim costs. Total claim costs during a quarter include, but are not limited to:

(A) Time loss compensation. Include the amount of time lost the worker would have been entitled to if kept on full salary.

(B) Permanent partial disability (PPD) awards.

(C) Medical bills.

(D) Prescriptions.

(E) Medical appliances.

(F) Independent medical examinations and/or consultations.

(G) Loss of earning power.

(H) Travel expenses for treatment or rehabilitation.

(I) Vocational rehabilitation expenses.

(J) Penalties paid to injured workers.

(K) Interest on board orders.

(ii) Supplemental pension (SPRF) and asbestosis fund assessments are based on a self insurer's worker hours. Worker hours must be reported as defined in chapter 296-17 WAC General reporting rules, classifications, audit and recordkeeping, rates and rating system for Washington workers' compensation insurance.

Note: Self insurers may request reimbursement quarterly from SPRF as authorized under Title 51 RCW. Use a form substantially similar to L&I form F207-011-000 or F207-011-222, if there is social security offset.

(iii) The administrative assessment covers department administrative costs, including expenses of other department divisions, the University of Washington environmental research facility, the board of industrial insurance appeals and other general administrative costs. The administrative assessment rate is applied to a self insurer's total claim costs.

(A) The administrative assessment rate is based on the actual costs of the previous fiscal year and the anticipated costs of the upcoming fiscal year. Employers certified after the fiscal year used for calculation will be assessed at a rate that does not include prior fiscal periods.

(B) Employers no longer self insured must pay an adjusted assessment rate until one year after all self insurance liabilities and responsibilities are terminated.

(C) The minimum quarterly assessment is twenty-five dollars.

(iv) The second injury fund rate will be based on anticipated second injury fund costs.

(A) Self insurers' contributions to the second injury fund will be recorded in the self insurers' account, separate from the state fund account.

(B) The self insurers' second injury fund must maintain a two hundred thousand dollar minimum balance.

(v) Insolvency trust members (all self insurers except school districts, cities and counties) are also assessed to cover claim payments made by the department on behalf of insolvent self insurers. School districts, cities and counties are

exempt from and are not covered by this insolvency trust. Any interest earned on the assessment becomes part of the insolvency trust fund. The insolvency assessment rate is applied to a self insurer's total claim costs. Failure to pay an insolvency trust assessment is grounds for withdrawal of certification. Members who voluntarily surrender certification must continue to pay this assessment for three years after the date of surrender.

(b) Complete and accurate annual report of all claim costs paid for each year of liability with an estimate of future claim costs. Use a form substantially similar to SIF-7 L&I form F207-007-000. This report is due March 1 and is the basis for the department's annual determination of each self insurer's surety requirement.

(c) Fully audited financial statement within six months after the end of the self insurer's fiscal year. This report demonstrates the self insurer's continued ability to provide benefits and assessments as required. The department will consider a written request for filing time extension.

(i) This statement must be prepared by a certified public accountant.

(ii) A self insurer with a parental guarantee may submit the parent's fully audited financial statement if the parent's audited statement includes the financial condition of all subsidiaries, including the self insurer.

(iii) A political subdivision of the state may submit a state auditor's report if it includes the self insurer's audited financial statement. If the state auditor does not audit annually, political subdivisions must submit financial statements prepared internally for the years between reports by the state auditor.

WAC 296-15-255 Hearings for corrective action or withdrawal of certification. (1) This section applies only to proceedings to withdraw certification or for corrective action instituted by the director in response to a petition filed with the department pursuant to RCW 51.14.090. This section shall not apply to actions instituted by the director to withdraw certification pursuant to RCW 51.14.080 nor to corrective action instituted by the director pursuant to RCW 51.14.095.

(2) When there is a petition for such action by any employee or union or association having a substantial number of employees in the employ of the self-insured, the director or the director's designee may, in the director's or designee's sole discretion, hold a hearing to determine whether or not there are grounds for action. In reviewing such a petition, the director or the designee may require additional information from a petitioner before deciding whether to hold a hearing under this section.

(3) Any such hearing shall be conducted in accordance with the department's rules governing administrative hearings. The director will notify all parties at least twenty days prior to the date of the hearing. The notice shall include the following:

(a) Nature of proceedings;

(b) Legal authority for holding the hearing;

(c) Reference to the section of statutes and rules involved;

(d) A description of matters asserted;

(e) The date, time, and place of the hearing.

All parties will be allowed to respond and present evidence and arguments on the issues involved.

Within thirty days of the hearing date, the department will provide written notification of the proceedings, findings, and conclusions to all hearing participants.

(4) If, following the hearing, the decision is to withdraw certification or take corrective action, such action shall comply with the provisions of RCW 51.14.090 and/or 51.14.095.

WAC 296-15-260 Corrective action or withdrawal of certification. (1) Corrective action against a self-insured employer shall be by order and notice. A notice of corrective action shall include the nature and specifics of the findings and may include the following:

(a) Probationary certification status for the self-insured employer for a period not to exceed one year;

(b) Mandatory training to correct areas of program deficiency to be approved by the department.

The subject matter to be covered shall be specified in the notice of corrective action. Personnel required to attend and the time period within which the training is to be conducted will also be identified.

(c) Monitoring activities of the self-insured employer for a specified period of time to determine progress regarding correction of program deficiencies may be required. The department may require submission of complete and accurate records and/or conduct an audit to verify program compliance.

(d) If there is a contract between the self-insured employer and a service organization which has been filed with the department (WAC 296-15-110), the corrective action order may specify and require that the service organization be subject to mandatory training and monitoring of activity provisions of the order.

(e) The corrective action order shall specify a time frame for submission of progress reports to the department's self-insurance section.

(f) During the first thirty days following the corrective action order, the self-insured employer shall submit a plan for the implementation of corrective action which shall include specific completion dates. If the plan is determined to be incomplete or inadequate, the department's self-insurance administrator shall notify the self-insurer of the necessary requirements or changes needed, and shall specify the date by which an amended plan shall be submitted.

(2) If sufficient grounds for decertification exist, an order and notice will be issued. The order and notice will include the following:

(a) The grounds upon which the determination is based.

(b) The period of time within which the grounds existed or arose.

(c) The date, not less than ninety days after the self-insured employer's receipt of the order and notice, when certification will be withdrawn.

(d) Provisions as stipulated by RCW 51.14.090.

(3) Upon conclusion of the probationary certification period in the case of corrective action, the program deficiencies requiring corrective action by the self-insured employer shall be evaluated by the department and a written report sent to affected parties. Program activities may be reaudited beyond the stated time period in order to assess continuing compliance with the objectives of the corrective action directives.

(4) If, at the conclusion of the probationary period, program deficiencies continue to exist, the department shall decide whether to extend the period of probation, require additional corrective action or proceed with decertification of the self-insured employer. An order and notice stating the decision shall be issued.

WAC 296-15-400 Self-insured workers' rights and obligations. How must a self-insurer notify its workers of their rights and obligations under the industrial insurance laws?

Self-insurers must notify workers of their industrial insurance rights and obligations at the following times:

(1) Within thirty days of hire, provide a form substantially similar to the one page Workers' Compensation Filing Information L&I form F207-155-000.

(2) When a worker files a claim, provide the following information in writing:

(a) The current edition of the department's pamphlet Employees of Self-Insured Businesses Guide to Industrial Insurance Benefits L&I pamphlet P207-085-000 or this same information in substantially similar format; and

(b) The name, address, and phone number of the person or organization handling the worker's claim.

[Statutory Authority: RCW 51.32.190(6), 51.32.055 (8)(a) and (9)(a), 98-24-121, § 296-15-400, filed 12/2/98, effective 1/2/99.]

WAC 296-15-405 Filing a self-insured claim. (1) What form is used to report a self-insured worker's industrial injury or occupational illness?

The reporting form for a self-insured worker's industrial injury or occupational illness is the Self-Insurer Accident Report (SIF-2) L&I form F207-002-000. Self-insurers must obtain these forms from the department and must report their workers' industrial injuries and illnesses to the department with SIF-2s. The department tracks the claim numbers assigned to self-insurers.

When notified of injury or illness, the self-insurer must provide the worker with this prenumbered form and assistance in filing a claim. The self-insurer must provide the worker the designated copy of the completed SIF-2 (which includes an explanation of the worker's rights and responsibilities) within five working days of completion.

(2) What form does a doctor use to report a self-insured worker's industrial accident or occupational illness?

Physicians should report a self-insured claim with a Physician's Initial Report (PIR) L&I form F207-028-000 when a self-insured worker has an industrial injury or is notified of an occupational illness. Replacements are acceptable.

[Statutory Authority: RCW 51.32.190(6), 51.32.055 (8)(a) and (9)(a), 98-24-121, § 296-15-405, filed 12/2/98, effective 1/2/99.]

WAC 296-15-420 After a self-insured claim is filed.
(1) What must a self-insurer do when beginning time loss (TL) benefits on a claim?

When beginning time loss payments, a self-insurer must:

	Send to the worker	Send to the department	The department will
At the same time as the first TL payment.	A complete and accurate SIF-5 ¹ and SIF-5A ² .		
Within 5 working days of first TL payment.		Copies of the SIF-2, SIF-5, and SIF-5A.	Allow the claim UNLESS a request for interlocutory order (see subsection (2)) or denial (see subsection (3)) has been received.

¹ The SIF-5 is the Self-Insurer's Report on Occupational Injury or Disease. Use a form substantially similar to L&I form F207-005-000.

² The SIF-5A is the Time Loss Calculation Rate Notice. Use a form substantially similar to L&I form F207-156-000.

(2) How must a self-insurer request an interlocutory¹ order?

When requesting an interlocutory order from the department, a self-insurer must:

	Send to the worker	Send to the department	The department will	And the self-insurer pays
Within 60 ² days of claim filing.	A complete and accurate SIF-5 and SIF-5A if TL was paid.	Copies of the SIF-2, SIF-5 (with the interlocutory order box checked), SIF-5A, AND all medical and other pertinent information AND a reasonable explanation why an investigation is needed.	If it agrees, issue an interlocutory order.	Provisional TL if the worker is eligible AND other benefits as entitled. Ongoing medical treatment and vocational services are NOT PAYABLE unless the claim is allowed.
			If it disagrees, issue an allowance order if the facts show the claim should be allowed.	TL if the worker is eligible, and other entitled benefits.

¹ An interlocutory order places a claim in provisional status while the self-insurer investigates the validity of the claim.

² When not specified, time is in calendar days.

(3) How must a self-insurer request claim denial from the department?

When requesting claim denial from the department, a self-insurer must:

	Send to the worker	Send to the department	The department will	And the self-insurer pays
Within 60 days of claim filing.	SIF-4.* Copy to the attending or treating doctor.	SIF-4 AND all medical and other pertinent information supporting denial.	If it agrees, issue a denial order. The denial order will restate the self-insurer's right to request reimbursement of provisional TL from the worker.	For all medical evaluations and diagnostic studies used to make the determination.
			If it finds insufficient information to make a decision, issue an interlocutory order AND direct the employer to obtain the necessary information.	Provisional TL if the worker is eligible and other benefits as entitled. Ongoing medical treatment and vocational services are NOT PAYABLE unless the claim is allowed.
			If it disagrees, issue an allowance order if the facts show the claim should be allowed.	TL if the worker is eligible AND other entitled benefits.

* The SIF-4 is the Self-Insured Employer's Notice of Denial of Claim. Use a form substantially similar to L&I form F207-163-000.

(4) What if a self-insurer does not request allowance, denial, or an interlocutory order for a claim within sixty days?

If a self-insurer does not request allowance, denial, or an interlocutory order within sixty days, the department will intervene and adjudicate the claim. The department may obtain additional medical information to make the determination. The claim remains in provisional status until the department makes the determination.

The exception to this requirement is the allowance of medical only claims. Self-insurers are not required to request allowance for medical only claims.

(5) Must a self-insurer submit an SIF-5 each time the department requests one?

A self-insurer must submit a complete and accurate SIF-5 within ten working days of receipt of a written request from the department.

(6) What must a self-insurer do when the department requests information on a claim by certified mail?

A self-insurer must submit all information in its possession concerning the claim within ten working days of receipt of the department's request by certified mail.

(7) How long does a self-insurer have to provide a copy of the claim file to the worker or worker's representative?

A self-insurer must provide a copy of the claim file within fifteen days of receiving a written request from the worker or worker's representative. Unless the worker or representative requests a particular portion of the file, the self-insurer must provide a copy of the entire file.

(8) When may a self-insurer charge a worker or his/her representative for a copy of the claim file?

A self-insurer must provide the first copy of a claim file free of charge. Upon receipt of a subsequent written request, the self-insurer must provide any material not previously supplied free of charge. The self-insurer may charge the worker or any representative a reasonable fee for any material previously supplied.

(9) What must a self-insurer do when it terminates time loss because it has found the worker ineligible for vocational services?

Within five working days of time loss termination, a self-insurer must notify the department it has found the worker ineligible for vocational services. Use an Employability Assessment Report (EAR) substantially similar to L&I form F207-121-000.

[Statutory Authority: RCW 51.32.190(6), 51.32.055 (8)(a) and (9)(a). 98-24-121, § 296-15-420, filed 12/2/98, effective 1/2/99.]

WAC 296-15-450 Closure of self-insured claims. (1) Who closes self-insured claims?

The department has the authority to close all self-insured claims. Self-insurers have the authority to close certain claims.

Within two years of claim closure, the department may require a self-insurer to pay additional benefits on a claim the self-insurer closed if the self-insurer:

- (a) Made an error in benefits paid; or
- (b) Violated the conditions of claim closure.

(2) What claims may a self-insurer close?

A self-insurer may close	If the	With time loss?	Other requirements?	With PPD?	If a previous determinative order was issued?
Medical only (MO) claims	Claim was filed on or after 07/26/81	Without	None.	Without ¹	May not be closed by the employer.
Time loss (TL) claims	Injury/illness occurred on or after 07/01/86	With	1. Not if the department issued an order resolving a dispute; AND 2. Permanent partial disability (PPD) claims	Injury/illness occurred on or after 08/01/97	With or without	1. Not if the department issued an order resolving a dispute; AND 2. Only if the worker returned to work with the employer of record at the same job or at a job with comparable wages and benefits; ² AND 3. Only if the closing medical report was sent to the attending or treating doctor and 14 ³ days allowed for response.	With	May be closed by the employer if the order did not resolve a dispute.

¹ A self-insurer may not close a claim with PPD if the injury or illness occurred before 08/01/97.

² Comparable means the wages and benefits are at least ninety-five percent of the wages and benefits received by the worker at the time of injury.

³ When not specified, time is in calendar days.

(3) When a self-insurer is closing a PPD claim, what must it do with the closing medical report?

When a self-insurer is closing a PPD claim, it must send the closing medical report to the attending or treating doctor, and the doctor must be allowed fourteen days to respond. When the attending or treating doctor responds:

Within 14 days	And the doctor AGREES with	And the doctor DISAGREES with	Then the self-insurer	
Within	Fixed and stable and PPD rating		MAY	Close the claim.
Does not respond			MAY	Close the claim
Within or before the order is issued		Fixed and stable	MUST	1. Obtain a supplemental medical opinion from (an) examiner(s) listed on the department's approved examiner's list; OR 2. Forward the claim to department for closure. The department may require additional medical examinations.
Within or before the order issued	Fixed and stable	PPD rating	MUST	1. Obtain a supplemental medical opinion from (an) examiner(s) listed on the department's approved examiner's list; OR 2. Forward the claim to department for closure. The department may require additional medical examinations.
Not within, after the order is issued, but before the order is final		Fixed and stable and/or PPD rating	MUST	Forward the claim including the doctor's response to the department as a protest within five working days of receipt.

(4) What must a self-insurer do with a closing medical report, regardless of who is closing the claim?

A self-insurer must send the closing medical report to the attending or treating doctor. If the doctor responds that he/she does not concur with the results, the self-insurer must:

(a) Obtain a supplemental medical opinion from (an) examiner(s) listed on the department's approved examiner's list in order to do the closing action itself; OR

(b) Forward the claim to department for closure. The department may require additional medical examinations.

(5) When a self-insurer is closing a claim, what written notice must it provide to the worker and attending or treating doctor?

At claim closure, a self-insurer must send the closing order to the worker and attending or treating doctor.

(a) For a MO claim, use a Self Insurer's Claim Closure Order and Notice substantially similar to F207-020-111.

(b) For a TL claim, use a Self Insured Employers' Time Loss Claim Closure Order and Notice substantially similar to F207-070-000. Include a complete and accurate SIF-5 substantially similar to L&I form F207-005-000 with the worker's copy.

(c) For a PPD claim:

(i) When no TL or loss of earning power (LOEP) was paid, use a form substantially similar to L&I form F207-165-000 (MO with PPD). Include a complete and accurate SIF-5 with the worker's copy.

(ii) When TL or LOEP was paid, use a form substantially similar to L&I form F207-164-000 (TL with PPD). Include a complete and accurate SIF-5 with the worker's copy.

(6) When a self-insurer is closing a claim, what information must it submit to the department?

A self-insurer must submit to the department:

(a) MO claim closures by the end of the month following closure. These may be transferred electronically or reported by paper.

(i) Closures transferred electronically must be in the department's format.

(ii) Closures submitted in paper must include the SIF-2 L&I form F207-002-000 showing the date of closure and any vocational services provided.

(b) TL and PPD claim closures at the time of closure. Include copies of each of the following:

(i) SIF-2 if not previously submitted.

(ii) Closure order.

Note: If no one protests the self-insurer's closure order, it will become final and binding in sixty days, just like a department order.

(iii) A PPD Payment Schedule, if necessary, substantially similar to L&I form F207-162-000.

(A) A payment schedule is required when the amount of the award is more than three times the state's average monthly wage at the date of injury. At initial/down payment, send copies to the worker and the department.

(B) The first payment of the PPD award must be paid within five working days of claim closure. Continuing payments must be paid according to the established payment schedule.

(iv) A complete and accurate SIF-5 (with the Rehabilitation Outcome Report (ROR) portion completed if vocational

(2003 Ed.)

services were provided) showing all requirements for closure have been met, any TL or LOEP paid, period of payment, and total amount paid.

(7) When the department is closing a claim, what must the self-insurer submit when requesting claim closure?

When a self-insurer is asking the department to close the claim, it must submit:

(a) A complete and accurate SIF-5 (with the ROR portion completed if vocational services were provided); and

(b) All medical and other pertinent information (not previously submitted to the department).

(8) When the department has closed a PPD claim, when must the self-insurer create a payment schedule?

When the department has closed a PPD claim, the self-insurer must create a PPD Payment Schedule substantially similar to L&I form F207-162-000 when the amount of the award is more than three times the state's average monthly wage at the date of injury. At initial/down payment, send copies to the worker and the department.

(9) When the department has closed a PPD claim, when must the self-insurer make the first payment of the award?

When the department has closed a PPD claim, the self-insurer must make the first payment of the award without delay. Continuing payments must be paid according to the established payment schedule.

WAC 296-15-480 After a self-insured claim is closed.**(1) When must a self-insurer submit a worker's written protest or appeal to the department?**

A self-insurer must submit a written protest or appeal by a worker to the department within five working days of receipt. The date the protest or appeal is received by the self-insurer is considered the date the protest or appeal is received by the department.

(2) When must a self-insurer forward an application to reopen a claim to the department?

A self-insurer must forward an application to reopen a claim to the department within five working days of receipt.

[Statutory Authority: RCW 51.32.190(6), 51.32.055 (8)(a) and (9)(a). 98-24-121, § 296-15-480, filed 12/2/98, effective 1/2/99.]

WAC 296-15-490 When a self-insured claim is on appeal. (1) How may department orders be defended in self-insured appeals?

The department may ask the office of the attorney general to represent the department at the board of industrial insurance appeals.

(2) What must a self-insurer send to the department when any party appeals a claim to superior or appellate court?

When any party appeals a claim to superior or appellate court, the self-insurer must promptly send to the department copies of the notice of appeal, judgment, and all other relevant information.

WAC 296-15-500 What vocational rehabilitation reports are required for self-insured employers? The following reports are required from the self-insurer to be sent to the self-insurance section. The criteria outlined in RCW 51.32.095, WAC 296-19A-010 and department guidelines must be followed to determine employability.

(1) Self-insured rehabilitation referral. A form submitted no later than after paying ninety continuous days of time loss after the initial filing or reopening of a claim. If more time is necessary, an extension may be requested on this form. The format for this form will be supplied by the department.

(2) Employability assessment report. If a vocational referral is not being made and an extension of time is not necessary, this form must be completed and submitted to the self-insured section no later than after paying ninety continuous days of time loss after the initial filing or reopening of a claim. The format for this form will be supplied by the department.

(3) A vocational rehabilitation plan shall be submitted to the self-insurance section by the self-insurer no later than ten calendar days after being signed by the injured worker, vocational rehabilitation provider and the employer. The plan will follow the criteria below:

(a) A vocational rehabilitation plan shall be approved by the referral source prior to its implementation. After the plan has been approved by the referral source, injured worker and vocational rehabilitation counselor, a copy of it shall be sent to all individuals with responsibilities under it. The plan shall contain the following:

(i) Assessment of the skills and abilities, based on the physical capacities and mental status, aptitudes, and transferable skills of the injured worker;

(ii) The services necessary to enable the injured worker to become employable at gainful employment;

(iii) Labor market information indicating the employability of the injured worker at plan completion;

(iv) An estimate of the cost and the time necessary for the completion of the plan;

(v) A direct comparison of the injured worker's skills with potential types of employment to demonstrate a likelihood of success;

(vi) If necessary, a job analysis of the injured worker's previous occupation, including earnings, may be included; and

(vii) Any other information that will significantly affect the plan.

(b) The following priorities shall be addressed and justification given to why each preceding priority was not used:

(i) Return to the previous job with the same employer;

(ii) Modification of the previous job with the same employer including transitional return to work;

(iii) A new job with the same employer in keeping with any limitations or restrictions;

[(iv)] Modification of a new job with the same employer including transitional return to work;

(iv) [(v)] Modification of the previous job with a new employer;

(v) [(vi)] A new job with a new employer or self-employment based upon transferable skills;

(vi) [(vii)] Modification of a new job with a new employer;

[(viii)] A new job with a new employer or self-employment involving on-the-job training; and

(vii) [(x)] Short-term retraining and job placement.

(c) Each plan shall be signed by the vocational rehabilitation counselor and the injured worker. The following statement shall be printed above the signatures:

I have read the above plan and understand its contents. By signing this plan I agree to faithfully execute my responsibilities described in it.

(4) Closing report. Upon completion of a formal program, the self-insurer will submit the closing report to the department. The closing report shall contain at least the following:

(a) Assessment of the injured worker's employability status at the time of completion of vocational services;

(b) Whether or not the injured worker has returned to work;

(c) Any remaining barriers to the injured worker becoming employable at gainful employment; and

(d) An ability to work summary may be substituted for a closing report.

(5) Rehabilitation outcome report. This form is to be submitted with the final self-insurer's report on occupational injury or disease (SIF-5) or, in the case of medical only claims, with the self-insurers accident report (SIF-2), which is submitted at the time of claim closure. The format for this form will be supplied by the department and applies to all claims where vocational rehabilitation services have been provided.

WAC 296-15-510 What is the process used for vocational rehabilitation with regard to self-insured employees?

(1) No later than paying ninety continuous days of time loss following the initial filing or reopening of a claim, the self-insurer shall notify the self-insurance section as to whether or not vocational rehabilitation services are neces-

sary and likely to enable the injured worker to become employable at gainful employment. Each of these cases will be reviewed by the self-insurance section. The criteria outlined in RCW 51.32.095, WAC 296-19A-010 and department guidelines must be followed to determine employability. If the injured worker is determined employable, the self-insurer will submit an employability assessment form which contains objective reasons why the injured worker is employable. Within twenty calendar days of receipt of an employability assessment form, the supervisor's designee within the self-insurance section will inform the self-insurer and the injured worker as to whether or not self-insurers determination of employability is approved. If an employability determination cannot be made due to medical instability, the self-insured shall request an extension by notifying the self-insurance section of the injured worker's condition and when a determination can be made. If the request for extension is not approved, notice will be sent within fifteen calendar days of receipt.

(2) The supervisor's designee within the self-insurance section of the department will receive from the self-insurer the vocational rehabilitation plan signed by the injured worker and employer. Within ten calendar days of receipt of the vocational plan, the supervisor's designee will inform the self-insurer, the vocational rehabilitation counselor and the injured worker that the plan has been received. A review of the vocational rehabilitation plan by the supervisor's designee will be initiated upon request by the employer or the injured worker. Reasons for the review must be stated in writing. A request for a plan review must be made prior to completion or termination of the plan. If necessary, conflict resolution techniques, such as conferences and fact-finding, will be used in order to resolve problems with the plan in as fair and expedient manner as possible. The supervisor's designee shall notify the parties of the plan review results no later than sixty days from the date the request was received.

Disputes of the supervisor's designee's determination must be submitted to the director in accordance with WAC 296-19A-410 to 296-19A-470.

(3) Upon completion of the formal program, the self-insurer will submit to the self-insurance section a closing report. Within ten calendar days of receipt of the closing report, the supervisor's designee shall inform the injured worker and employer that vocational services have concluded.

(4) The self-insurer shall provide the self-insurance section with a rehabilitation outcome report on a form prescribed by the department. The rehabilitation outcome report shall be attached to the final self-insurer's report on occupational injury or disease (SIF-5) or, in the case of medical only claims, with the self-insurers accident report (SIF-2), which is submitted at the time of claim closure. A rehabilitation outcome report will be submitted on all claims where vocational rehabilitation services have been provided.

Chapter 296-16 WAC EMPLOYER—WORKER REEMPLOYMENT INCENTIVES

WAC

296-16-010 Premium waived for employment of preferred worker.

WAC 296-16-010 Premium waived for employment of preferred worker. In order to implement the provisions of RCW 51.16.120(3) by way of encouraging employment of injured workers who are not reemployed by the employer at the time of injury, the following provisions are adopted:

Any employer who employs a "preferred worker" as defined in these rules shall be excused from the payment of industrial insurance premiums and/or accident costs under the circumstances and conditions herein provided:

(1) A "preferred worker" may be classified as such by the department when the supervisor or his or her designee shall

[Title 296 WAC—p. 193]

determine, in his or her discretion, that such person has sustained an industrial injury or occupational disease under our state Industrial Insurance Act which prevents the worker from returning to work with the former employer and that such injury or occupational disease is substantially impairing the likelihood of such worker's reemployment with other employers. A worker may be certified as a preferred worker for a period not to exceed thirty-six calendar months.

(2) Any state fund employer, other than the employer at the time of injury or exposure, who employs a "preferred worker" shall be excused, during the period of employment of such worker but not to exceed thirty-six calendar months, from the payment of any accident fund premiums and medical aid premiums which would otherwise be due based upon such employment.

(3) In the event that a further injury or occupational disease is sustained by a reemployed "preferred worker" during the first thirty-six months subsequent to the hiring of such "preferred worker," while in the employ of the accepting employer, such employer, whether insured by the state fund or self-insured, shall not be charged with the costs of any such claim which would otherwise be charged to or paid by such employer. Such costs shall be charged against the second injury fund.

The provisions of subsections (2) and (3) of this section shall apply only if the intent to hire form is completed and received by the department within sixty days from the first day of employment. Receipt of the intent to hire form authorizes the department to assign the appropriate risk classification to the employers' account.

determine, in his or her discretion, that such person has sustained an industrial injury or occupational disease under our state Industrial Insurance Act which prevents the worker from returning to work with the former employer and that such injury or occupational disease is substantially impairing the likelihood of such worker's reemployment with other employers. A worker may be certified as a preferred worker for a period not to exceed thirty-six calendar months.

(2) Any state fund employer, other than the employer at the time of injury or exposure, who employs a "preferred worker" shall be excused, during the period of employment of such worker but not to exceed thirty-six calendar months, from the payment of any accident fund premiums and medical aid premiums which would otherwise be due based upon such employment.

(3) In the event that a further injury or occupational disease is sustained by a reemployed "preferred worker" during the first thirty-six months subsequent to the hiring of such "preferred worker," while in the employ of the accepting employer, such employer, whether insured by the state fund or self-insured, shall not be charged with the costs of any such claim which would otherwise be charged to or paid by such employer. Such costs shall be charged against the second injury fund.

The provisions of subsections (2) and (3) of this section shall apply only if the intent to hire form is completed and received by the department within sixty days from the first day of employment. Receipt of the intent to hire form authorizes the department to assign the appropriate risk classification to the employers' account.

WAC 296-17-31001 Introduction. WAC 296-17-31001 through 296-17-31029 provides rules applicable to workers' compensation insurance coverage (industrial insurance) that employers in the state of Washington must provide for their workers. We refer to these rules (WACs) as sections and the complete body of information as the *workers' compensation underwriting manual*. The workers' compensation underwriting manual contains sections (WACs) that define or explain:

- Words and phrases which we use
- Who the workers' compensation system applies to
- How to obtain workers' compensation coverage
- Why a classification system is necessary
- How our classification plan is designed
- How our classification approach compares to other states
- How we assign classifications to your business
- How we classify your business if a specific classification treatment is not referenced in our classification plan
- How employers report and pay premiums to us
- How we compute base rates
- Audit and recordkeeping requirements
- Experience rating plan
- Base rate tables.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31001, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31002 General rule definitions. In developing the general reporting rules and classifications which govern Washington's workers' compensation classification plan, we have used certain words or phrases which could have several meanings. Many of these words or phrases are defined by law in the Revised Code of Washington (*Title 51 RCW*) and can be found in **Appendix A** of this manual. Some words, however, are not defined by law. To reduce the misunderstanding which can result by our use of certain words or phrases not defined in law (*Title 51 RCW*), we have developed definitions which will govern what these words and phrases mean for purposes of this chapter (*chapter 296-17 WAC*).

The following words or phrases mean:

Account: A unique numerical reference that we assign to you that identifies your business or businesses and allows us to track exposure that you report to us and losses (*claims*) which we pay on your behalf.

[Title 296 WAC—p. 206]

Actual hours worked: A worker's composite work period during each work day, including all of the time the employee performed work, *and* all periods of mandatory presence at the worksite. Actual hours worked *does not* include nonpaid lunch periods. The following example is provided to illustrate how work hours are to be reported. If you have questions on reporting please contact our underwriting section at (360) 902-4817.

Example: *A carpet installer arrives at the employer's place of business at 8:00 a.m. to pick up supplies, carpet, and the job assignment. The carpet installer arrives at the job site at 9:00 a.m. and works until 12 noon. The installer takes a half hour nonpaid lunch period and resumes working from 12:30 p.m. until 4:00 p.m. The installer then returns to the employer's premise to drop off supplies and carpet waste. The installer leaves the employer's premise at 5:30 p.m. The employer is to report nine hours of work time regardless of whether the employee is paid by the hour or by the number of yards of carpet installed.*

All: When a classification contains a descriptive phrase beginning with "all" such as in "all employees," "all other employees," "all operations," or "all work to completion," it includes all operations and employments which are normally associated with the type of business covered by the classification. This condition applies even if the operations or employments are physically separated or conducted at a separate location. Operations or employments are to be classified separately when the classification wording requires it, or when the operations or employments are not incidental to, and not usually associated with, the business described by the classification.

And: When this word is contained in any rule it is to be considered the same as the phrase "and/or."

Basic classification: A grouping of businesses or industries having common or similar exposure to loss without regard to the separate employments, occupations or operations which are normally associated with the business or industry. Basic classifications describe a specific type of business operation or industry such as mechanical logging, sawmills, aircraft manufacturing, or restaurants. In most business operations some workers are exposed to very little hazard, while others are exposed to greater hazard. Since a basic classification reflects the liability (*exposure to hazard*) of a given business or industry, all the operations and occupations that are common to an industry are blended together and included in the classification. The rate for a basic classification represents the average of the hazards within the classification. All classifications contained in this manual are considered basic classifications with the exception of classifications 4806, 4900, 4904, 5206, 6301, 6302, 6303, 7101, and temporary help classifications 7104 through 7121. Classification descriptions contained in WAC 296-17-501 through 296-17-779, establish the intended purpose or scope of each classification. These descriptions will routinely include types of businesses, operations, processes or employments which are either included or excluded from the classification. These references are not to be considered an all inclusive listing unless the classification wording so specifies.

(2003 Ed.)

But not limited to: When this phrase is used in any rule in this manual it is not to be interpreted as an all inclusive list. Such a list is meant to provide examples of operations, employments, processes, equipment or types of businesses which are either included or excluded from the scope of the classification.

Excludes or excluding: When a classification contains a descriptive phrase beginning with "excludes" or "excluding" such as "excluding drivers or delivery," "excluding second hand appliance stores," or "excludes construction operations," you must report those operations in a separate classification. If a business fails to keep the records required in the auditing recordkeeping section of this manual and we discover this, we will assign all workers hours for which records were not maintained to the highest rated classification applicable to the work which was performed.

Exposure: Worker hours, worker days, licenses, material, payroll or other measurement which we use to determine the extent to which an employer's workers have been exposed to the hazards found within a particular business or industry classification.

Governing classification: Is the basic classification assigned to a business that produces the largest number of worker hours during a calendar year (*twelve months*). The governing classification rule applies only to situations where a business has been assigned two or more basic classifications and is used for the sole purpose of determining what classification applies to employees and covered owners who support two or more operations. The governing classification rule is not to be used to determine the basic classification of a business.

Includes or including: When a classification contains a descriptive phrase beginning with "includes" or "including" such as "including clerical office," "including meter readers," or "includes new construction or extension of lines," you must report these operations in that basic classification even though they may be specifically described by some other classification contained in this manual or may be conducted at a separate location.

Industrial insurance: Refer to the definition of "workers' compensation insurance."

N.O.C.: This abbreviation stands for not otherwise classified. Classifications are often worded in this way when there are many variations of the same general type of business and it would be nearly impossible to list all the variations. Before a classification designated with N.O.C. is used, all other related classifications must be reviewed to determine if the business or industry is specified in another classification.

Example: *You operate a retail store that sells greeting cards. In our search to classify your business we come across a classification that covers retail stores N.O.C. Before our underwriter assigns this classification to your business, they would look at other retail store classifications to see if a more precise classification could be found. In our review we note several classifications such as grocery and department stores where greeting cards are sold. None of these classifications, however, specify that they include*

(2003 Ed.)

stores that exclusively sell greeting cards. Classification 6406 "Retail stores, N.O.C.," on the other hand, contains language in its description that states it includes stores that sell items such as greeting cards, table top appliances, tropical fish and birds, and quick print shops. We would assign classification 6406 "Retail stores, N.O.C." to your business.

Or: Refer to the definition of the word "and."

Policy manager: An individual who works in the underwriting section of the department of labor and industries and manages an employer's workers' compensation insurance account. A policy manager is also referred to as an underwriter.

Premium: The total amount of money owed to the department of labor and industries as calculated by multiplying the assigned classification composite rate by the total units of exposure.

Rate: The amount of premium due for each unit of exposure. All rates are composite rates per worker hour except as otherwise provided for by other rules in this manual.

Risk: All insured operations of one employer within the state of Washington.

Temporary help: The term "temporary help" means the same as temporary service contractors defined in (*Title 19 RCW*) and applies to any person, firm, association or corporation conducting a business which consists of employing individuals directly for the purpose of furnishing such individuals on a part-time or temporary help basis to others.

Underwriter: Refer to the definition of a "policy manager."

Work day: Any consecutive twenty-four hour period.

Work hour: Refer to the definition of "actual hours worked."

Workers' compensation insurance: The obligation imposed on an employer by the industrial insurance laws (*Title 51 RCW*) of the state of Washington to insure the payment of benefits prescribed by such laws.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31002, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31003 No-fault insurance. What is a workers' compensation insurance program? Workers' compensation insurance is a no-fault insurance program that eliminates blame to either party for workplace injuries or illnesses. The principle features include:

- Wage and medical benefits to employees who suffer on-the-job injuries or illnesses; and
- Immunity from lawsuits for employers as a result of workplace injuries or illnesses suffered by their employees.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31003, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31004 Coverage requirements. I own a business. Am I required to have workers' compensation insurance coverage for my employees? Nearly every employer doing business in the state of Washington is required to have workers' compensation insurance for their

[Title 296 WAC—p. 207]

employees. Washington law (RCW 51.12.020) does exempt certain types of employment from coverage. A copy of this law can be found in **Appendix A** of the workers' compensation manual. If you employ only individuals who are excluded from mandatory workers' compensation insurance coverage, you are not required to have workers' compensation insurance coverage.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-31004, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31005 Employer/employee relationship. How do I determine if I am an employer? Chances are that if you employ one or more individuals to work for you, you are probably an employer. RCW 51.08.070, 51.08.180 and 51.08.195 all define the employer/employee relationship. These laws present the conditions that must exist before an exception or an independent contractor status can be recognized. Copies of these laws can be found in **Appendix A** of the workers' compensation underwriting manual. You may call one of our offices and a representative will help you determine if you are an employer. We are listed in the government pages of your local telephone directory, or you can call our underwriting section at (360) 902-4817 for assistance.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-31005, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31006 Application process. (1) Where can I buy workers' compensation insurance? Washington law requires that you:

- Purchase your workers' compensation insurance through labor and industries; or
- Be certified as a self-insured employer by the self insurance section of the department of labor and industries.

Employers engaged exclusively in interstate or foreign commerce are permitted to purchase workers' compensation insurance from a private carrier in another state if they do business in that state. The workers' compensation laws of the other state must allow the Washington drivers to be covered in that state. You will need to complete a *master application* to obtain workers' compensation insurance from us. For more information on self insurance you can call (360) 902-6867 and one of our self insurance representatives will assist you.

(2) Where can I get a master application?

You can get a master application from any labor and industries, employment security, department of revenue office, the department of licensing master license service, or the corporations division of the office of the secretary of state. For your convenience you can call us at (360) 902-4817 and we will mail you one.

(3) Where do I send my completed master application?

You can mail your completed master application to the department of licensing address shown on the form, or you can return it to your local labor and industries, department of revenue, or employment security district tax office. Be sure to include the appropriate fees indicated on the form.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-31006, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31007 Owner coverage. (1) As a business owner, can I buy workers' compensation insurance to cover myself?

Yes. If you are a sole proprietor, partner, corporate officer, or member of a limited liability company you may not be required to have industrial insurance coverage as provided in RCW 51.12.020. In these instances, you can still obtain workers' compensation coverage from us. We refer to this coverage as optional coverage since as the owner/officer, you are not required to have this insurance. Because owner insurance coverage is optional, you must meet certain conditions and requirements which are detailed on the *application for owner/officer optional coverage*. These requirements include:

- Completing an application for optional owner/officer coverage;
- Reporting owner/officer hours in the classification assigned to your business that is applicable to the work being performed by the owner/officer;
- Submitting a supplemental report which lists the name of each covered owner/officer; and
- Reporting four hundred eighty hours or actual hours worked each quarter for each covered owner/officer and in the applicable workers' compensation classification code.

(2) When will my owner/officer coverage become effective?

Your coverage will become effective upon receipt of your application in the department unless you indicate a future date. We will not make coverage effective on a date prior to our receipt of your completed application for owner/officer coverage.

(3) Where can I obtain an application for owner/officer coverage?

To obtain a copy of this application, contact your local labor and industries office. We are listed in the government pages of your local directory or you can call our underwriting section at (360) 902-4817.

[Statutory Authority: RCW 51.04.020, 51.16.035 and 51.32.073, 99-24-055, § 296-17-31007, filed 11/29/99, effective 12/31/99. Statutory Authority: RCW 51.16.035, 99-18-068, § 296-17-31007, filed 8/31/99, effective 10/1/99; 98-18-042, § 296-17-31007, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31008 Notification requirements. (1) Will you notify me when you have opened my workers' compensation insurance account?

Yes, we will notify you when we have opened your workers' compensation insurance account.

(2) Will you contact me if you need additional information about my business?

Yes, we will contact you if we need additional information to classify your business or establish your workers' compensation insurance account.

(2003 Ed.)

(3) Will you provide me with instructions on how to report and pay premiums to you?

Yes, we will send you a written notice describing the classification or classifications we have assigned to your business and how to report the worker hours or other exposure of your employees to us. You will receive a rate notice which will detail information about your premium rate and what portions of the rate you may deduct from your employees wages. You should keep these notices with your business records. A copy of a rate notice can be found in **Appendix B** of this manual.

(4) Will you notify me if you are going to change a classification assigned to my business?

Yes, if we need to change the classifications assigned to your business, we will send you a written notice describing the new classifications and when they become effective.

(5) How do I notify my employees that they are covered by workers' compensation insurance?

We will send you a certificate of coverage and a packet of information when we open your account. The packet will include some special notices which you are required to post in areas where employees frequently gather. Areas where you might consider posting the special notices include employee break rooms, employee bulletin boards, or areas where time cards are kept. These notices will inform your employees that they are covered for workers' compensation insurance under the Washington state fund and will tell them what they must do if they suffer a workplace injury or illness. The certificate of coverage should be posted in a place visible to the public. This certificate provides confirmation that you have obtained workers' compensation insurance coverage for your employees.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31008, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31009 Reciprocal agreements. (1) Occasionally one of my Washington employees will do some work for me in another state. Do I need to buy workers' compensation insurance in the state where they are working?

In some cases, we can provide workers' compensation insurance coverage for your Washington based employees working for you on a temporary assignment in another state. We have formal written agreements with some states which detail coverage and jurisdiction issues. We refer to these formal agreements as "*reciprocal agreements*." If you have questions regarding temporary coverage in another state you should contact your policy manager for assistance. The name and telephone number of your policy manager can be found on your quarterly premium report or annual rate notice. For your convenience you can call us at (360) 902-4817 for assistance and we will put you in contact with your assigned policy manager.

(2) What is a reciprocal agreement?

A reciprocal agreement is a contract between the department of labor and industries acting on behalf of the state of Washington and another state. The primary purpose of the agreement is to identify which state will be responsible for

(2003 Ed.)

paying benefits if one of your employees is injured. This also limits your insurance costs. If you employ only Washington workers you need to buy workers' compensation insurance only from us.

(3) You mentioned that there are circumstances when you can provide insurance coverage. What are the circumstances?

The actual circumstances will vary by state. In most cases we will look at:

- The work to be performed,
- The location where the work is to be performed,
- Where the employee was first hired to work,
- How long the employee will be working in the other state.

(4) Which states have reciprocal agreements with Washington? We currently have reciprocal agreements with the following states:

- Idaho
- Montana
- Nevada
- North Dakota
- Oregon
- South Dakota
- Wyoming.

(5) Can I get a copy of a reciprocal agreement? You can get a copy of a reciprocal agreement by calling your policy manager. The name and telephone number of your policy manager can be found on your quarterly premium report or your annual rate notice. For your convenience you can call us at (360) 902-4817 and we will put you in contact with your assigned policy manager.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31009, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31010 Premium cost. How much will I pay for workers' compensation insurance? What you pay for workers' compensation insurance will vary by:

- The nature of the business you are conducting,
- The specific classifications applicable to your business,
- The unit of exposure applicable to your industry, and
- Your company's experience factor.

You may call our underwriting section at (360) 902-4817 and one of our representatives will help you estimate your premium cost per hour.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31010, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31011 Classification system and plan.**(1) What is a workers' compensation classification system?**

A workers' compensation classification system is an objective method of collecting money (*premiums*) to pay the benefits of workers injured on the job. We believe the method used to spread this cost among the employers we insure should be fair and have some relationship to their hazard and potential for loss. Classifications are the tool used to achieve a fair method of distributing the risk among employers we insure. Objective boundaries are established for each classification. These boundaries describe the types of businesses

[Title 296 WAC—p. 209]

which are included in the classification, as well as the operations and employments routinely encountered. We refer to these objective boundaries as the scope of the classification. Once these boundaries have been defined, we can begin collecting information about the employers assigned to each classification. The information includes the exposure which is being covered (*risk*) and the losses (*claims*) which are related to these businesses. Next, we use this information to establish premium rates that employers in each industry will pay for their workers' compensation insurance. Our goal is to produce fair insurance rates which reflect the hazardous nature of each industry. We have tailored our classification system in Washington to reflect industries found in our state. This makes our system responsive to change and provides rate payer equity to the employers we insure. Employers engaged in more hazardous industries such as logging will pay higher insurance rates than employers engaged in less hazardous businesses such as retail store operations.

(2) Why is a classification system needed?

We need a classification system to provide fair premium rates. Washington law (*RCW 51.16.035*) also requires us to have a classification system.

(3) Is the classification system the same as the classification plan?

No, we refer to the body of rules (*WACs*) which establish the general parameters of how classifications are to be used as the "classification system." These rules speak to the requirements of workers' compensation insurance and to our general classification approach, such as classifying by nature of business in the state of Washington, not by occupation of worker. The "classification plan" refers to all of the various classification descriptions which describe different types of business or industry. The classification system rules (*general rules*) will apply to all businesses unless another treatment is specifically provided for in the classification plan rules (*special rules*).

(4) How is our classification plan designed?

We have designed a plan which is keyed to the nature of the businesses or industries of the employers we insure. Our plan has over three hundred business or industry classifications. Each classification carries a premium rate which reflects the hazards that workers are exposed to. Descriptions of our classifications can be found in *WAC 296-17-501* through *296-17-779*.

(5) Is your classification approach similar to the approach used by private insurance companies?

Yes, we are required by law (*RCW 51.16.035*) to use the same classification (*underwriting*) approach used by private carriers.

[Statutory Authority: *RCW 51.16.035, 51.04.020, 00-14-052, § 296-17-31011*, filed 7/1/00, effective 7/1/00. Statutory Authority: *RCW 51.16.035, 98-18-042, § 296-17-31011*, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31012 Classification assignment. (1) How are classifications assigned to my business?

We will assign a basic classification or classifications to your business based on the nature of your business operation(s) in the state of Washington. We will not assign classifications to your business based on the individual operations,

[Title 296 WAC—p. 210]

duties or occupations of individuals found within your business unless the basic classification assigned to your business either requires or permits a separate classification treatment for specified operations or employments. Exceptions to this approach are outlined in *WAC 296-17-31017* and *296-17-31018*.

(2) Does this same classification approach apply if I have several businesses?

This classification approach will apply to each separate legal entity. Each separate legal entity will be classified on its own merits.

(3) How do you decide what classification(s) to assign to my business?

To determine what classification(s) to assign to your business, we need enough information to give us a clear understanding of the precise nature of your business and the hazards your business poses to your workers. In some cases we will need to call you to obtain more detailed information about your business. Occasionally one of our field representatives may visit your business to gain a better understanding of the nature of your business. In most cases we will find a classification that specifically describes your business.

Example: You operate a company that sells baked goods to retail customers. Before we can classify your business we need to determine whether you bake the goods you are selling or are simply selling goods another business has baked. Once we have determined the precise nature of your business, we will review all of the available classifications to find the one that best describes the entire business. If the business has baked the products they are selling, we would consider a bakery classification or maybe a restaurant classification. If your business simply sells baked goods that another business made, we may look at a retail store classification. In most cases we will find a classification that specifically describes the business we are classifying.

WAC 296-17-31013 Building construction. (1) Does this same classification approach apply to building and construction contractors?

Yes, but it may not appear that way without further explanation. We classify contractors by phase and type of construction since it is common for each contract to vary in scope.

Example: A contractor who builds and remodels private residences may frame the structure and work on no other phases of the project. On another job the same contractor may do only the interior finish carpentry. On still another job the contractor may install a wood deck or build a garden arbor. Each of these carpentry activities is covered by a different classification code. To ensure that contractor businesses receive the same treatment as other businesses, we assign classifications according to the phases and types of construction they contract to perform. Since some contractors specialize in one area of construction, such as plumbing,

(2003 Ed.)

roofing, insulation, or electrical services, this classification approach mirrors that of nonbuilding contractor businesses. The policy of assigning several basic classifications to contractors engaged in multiple phases of construction may seem to be in conflict with the classification approach used for nonbuilding contractor businesses, but we have simply used the **multiple business classification approach**.

If we have assigned multiple classifications to your construction business you should take special care in maintaining the records required in the auditing and recordkeeping section of this manual. If we discover that you have failed to keep the required records we will assign all worker hours for which the records were not maintained to the highest rated classification applicable to the work that was performed.

(2) Who does this rule apply to?

If you are a building, construction or erection contractor and we have assigned one or more of the following classifications to your business, this rule applies to you: 0101, 0103, 0104, 0105, 0107, 0108, 0201, 0202, 0210, 0212, 0214, 0217, 0219, 0301, 0302, 0303, 0306, 0307, 0403, 0502, 0504, 0506, 0507, 0508, 0509, 0510, 0511, 0512, 0513, 0514, 0516, 0517, 0518, 0519, 0521, 0540, 0541, 0550, 0551, 0601, 0602, 0603, 0607, 0608, and 0701.

(3) Can I have a single classification assigned to my business to cover a specific construction project?

Yes, to simplify recordkeeping and reporting requirements we will assign a single classification to cover an entire project.

(4) How do I request the single classification for one of my construction projects?

You should send your request to the attention of your policy manager at the address below:

Department of Labor and Industries
P.O. Box 44144
Olympia, Washington 98504-4144

(5) If I have asked for a single classification on one of my construction projects, how do you determine which classification will apply?

You must supply us with a description of the project and a break down of the total number of hours of exposure by phase of construction that you are responsible for.

Example: You notify us that your company will be responsible for all plumbing and iron erection work on a commercial building site. You have requested a single classification for this project. In your request you tell us that you estimate that it will take one thousand work hours to perform all the plumbing work and five hundred work hours to do the steel erection work.

With this information we will estimate the premiums by classification.

Example: We determine that the plumbing work is covered under classification 0306 and the steel erection work is covered under classification 0518. Assume that classification 0306 has an hourly premium rate of \$1.50 and classification 0518 has an hourly premium rate of \$2.55. We estimate the total premium on this job to be \$2,775 (1,000 hours x \$1.50 = \$1,500 + 500 hours x \$2.55 = \$1,275).

Our next step in this process is to develop an average hourly rate for the project. We will use this information to select the single classification which will apply to this project.

Example: We will take the estimated premium (\$2,775) and divide this number by the estimated hours (1,500) and arrive at an average hourly rate of \$1.85.

To select the single classification that will apply to a construction project, we will compare the average hourly rate that we have computed to the rates of the classifications applicable to the project. We will select the classification whose hourly rate is the closest to the average hourly rate that we computed from the information you supplied us with.

Example: From the information you supplied, we have determined that the average hourly rate for this project is \$1.85. We also know that the rate for the plumbing classification (0306) is \$1.50 per hour and the rate for steel erection is \$2.55 per hour. We would assign classification 0306 as the single classification applicable to this project.

(6) How will I know what classification will apply to my construction project?

We will send you a written notice which will specify the basic classification and premium rate that will apply to this project.

(7) If I have asked for a single classification to cover one of my construction projects, am I required to use the single classification which you gave me?

No, but you should call your policy manager to verify what other classifications would apply to the project. The name and phone number of your policy manager can be found on your quarterly premium report or your annual rate notice. For your convenience you can call us at (360) 902-4817 and we will put you in contact with your assigned policy manager.

(8) I am a general construction or erection contractor, I subcontract all my work and have no employees of my own. Do I have to report to the department of labor and industries?

No, since you do not have employees, you do not need to report to the department of labor and industries. You should be aware that the workers' compensation insurance laws of Washington include certain independent contractors as workers. If we determine that an independent contractor that you used qualifies as a covered worker, you will be responsible for the premium due for their work time. You can also be held responsible for premiums due to labor and industries if you subcontract with an unregistered contractor and they fail to pay premiums on behalf of their employees. It is in your best interest to make sure that your subcontractors are registered contractors by contacting us at 1-800-647-0982.

(9) Am I required to keep any special records of subcontractors that I use?

Yes, you are required to keep certain information about the subcontractors that you use. The information required is:

- Subcontractor's legal name;
- Contractor registration number and expiration date;
- UBI number (or labor and industries account ID number).

If you supply materials to a subcontractor, also keep a record of the:

- Amount of material supplied;
- Project name or location;
- Date material was supplied; and
- Completion date of contracted work.

Failure to maintain these records may result in the subcontractor being considered a covered worker for whom you must report hours.

[Statutory Authority: RCW 51.16.035. 01-23-059, § 296-17-31013, filed 11/20/01, effective 1/1/02; 99-18-068, § 296-17-31013, filed 8/31/99, effective 10/1/99; 98-18-042, § 296-17-31013, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31014 Farming and agriculture. (1) Does this same classification approach apply to farming or agricultural operations?

Yes, but it may not appear so without further explanation. We classify farming and agricultural operations by type of crop or livestock raised. This is done because each type of grower will use different processes and grow or raise multiple crops and livestock which have different levels of hazards. It is common for farmers and ranchers to have several basic classifications assigned to their account covering various types of crops or livestock. If you fail to keep the records required in the auditing recordkeeping section of this manual, and we discover this, we will assign all worker hours for which records were not maintained to the highest rated classification applicable to the work performed.

(2) I am involved in diversified farming and have several basic classifications assigned to my business. Can I have one classification assigned to my account to cover the different types of farming I am involved in?

Yes, your policy manager can assist you in determining the single classification that will apply to your business. The name and phone number of your policy manager can be found on your quarterly premium report or your annual rate notice. For your convenience you can call us at (360) 902-4817 and we will put you in contact with your assigned policy manager.

(3) How do you determine what single farming classification will be assigned to my business?

The approach used to assign a single classification to a farming business is much the same as we use for construction or erection contractors. To do this, we will need a break down of exposure (*estimate of hours to be worked by your employees*) by type of crop or livestock being cared for (*classification*). This information will be used to estimate the premium which would be paid using multiple classifications. The total premium is then divided by the total estimated hours to produce an average rate per hour. We will select the classification assigned to your business which carries the hourly premium rate which is the closest to the average rate that we produced from the estimated hours. Classification 4806 is not to be assigned to any grower as the single farming classification.

(4) How will I know what single farming classification you have assigned to my business?

We will send you a written notice of the basic classification that will apply to your business.

[Title 296 WAC—p. 212]

(5) If I requested a single classification for my farming operation can I change my mind and use multiple classifications?

Yes, but you will need to call your policy manager to verify the applicable classifications.

The name and phone number of your policy manager can be found on your quarterly premium report or your annual rate notice. For your convenience you can call us at (360) 902-4817 and we will put you in contact with your assigned policy manager.

(6) I am a farm labor contractor. How is my business classified?

If you are a farm labor contractor we will assign the basic classification that applies to the type of crop being grown, or livestock being cared for. If you contract to supply both machine operators and machinery on a project, all operations are to be assigned to classification 4808.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31014, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31015 General inclusions. When are certain operations like delivery drivers included in a basic classification and when are they excluded? There are certain operations, such as delivery of goods or merchandise, which are routinely found in the businesses we insure. We refer to these operations as *general inclusions* to a basic classification. Although these operations are sometimes covered by a specific basic classification, we will not assign separate basic classifications to a business to cover these operations unless it was, coincidentally, the nature of the employer's business. *General inclusion* operations are support functions or operations of a business and, as such, are usually included within the scope of each basic classification. The determination of whether or not these operations will be included within the scope of a basic classification is made when the basic classification is first developed. That is why some basic classifications will exclude certain operations and others will include them. Unless the wording of a basic classification specifically excludes any operation listed below, they are to be included. The more common general inclusion operations are:

- Aircraft travel by employees in connection with the business of the employer, other than members of the flying crew.
- Commissaries and restaurants for the employers' employees. However, such operations, when operated in connection with construction, erection, lumbering, or mining, will be assigned classification 3905 - restaurants.
- Manufacture of containers, such as bags, barrels, bottles, boxes, cans, cartons, wooden pallets, or packing cases by employees of the employers for use in the employer's operations.
- Hospitals, medical facilities, or dispensaries operated by employers for their employees.
- Printing, lithography, or similar operations of the employer when used exclusively for their own products or needs.
- Maintenance or ordinary repair of the employer's building or equipment when performed by employees of the employer.

(2003 Ed.)

- Pick up and delivery when performed by employees of the employer in connection with the business of the employer.
- Sales of all products being manufactured by the employer.
- Warehousing, handling, packing, and shipping when performed by employees of the employer in connection with the business of the employer.
- Testing or analytical laboratories when operated by employees of the employer in connection with the business of the employer.

Example: Picture the variety of delivery vans and trucks you encounter as you drive down a highway. In this example, there is a company-owned truck delivering grocery items, a van that delivers parcels and packages, a moving van transporting household furnishings for a customer, and a common carrier company hauling goods from one state to another. Even though the drivers of these vehicles are performing similar duties (hauling goods/driving on a freeway), we would not assign them to the same basic classification. Our classification policy requires us to assign classifications based on the type of the businesses they work for and to consider the overall operations of that business. We learn that the truck delivering grocery items was owned by a retail grocery store and they were transporting goods from a central warehouse to one of their stores. Since the employer is engaged in operating retail grocery stores we would begin our classification search by looking for a classification that covers retail grocery stores. Our search discloses classification 6402 which covers retail grocery stores. A review of the wording of that classification does not require drivers to be reported in another classification so the grocery store classification would include the driver. Now, assume that the driver of the van delivering parcels and packages is an employee of a drug store. Drug stores are covered in classification 6406. A review of that classification reveals that drivers are to be reported separately in classification 1101. Therefore the driver would be reported in classification 1101 and not classification 6406. Moving and storage companies are covered in classification 6907. Since this classification does not exclude drivers, the driver would be reported in classification 6907. And, finally, we would assign the interstate/intrastate trucking classification 1102 to the common carrier trucking operation.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31015, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31016 Classification by analogy. How do you determine what classification(s) to assign to my business if a specific reference does not exist in the classification plan? You may operate a business which is not specifically referenced in our classification plan. This can simply be the result of differences in terminology. Classifications are constantly evolving as employers adopt new technology, employ more specialized employees, modernize equipment, and employ new processes. In rare instances our classification plan will not specifically reference a type of business. When we discover a type of business or industry for which a classification does not exist, we will follow the

(2003 Ed.)

same general classification approach that we use to classify a business when a reference does exist. However, we need to go a step further by considering the processes used and the related hazards. We call this *classifying by analogy*.

Example: You are the owner of a pen manufacturing business. Assume we have contacted you and learn the following:

- You purchase all the plastic components from another unrelated business;
- Some of your pens have plastic housings and others have metal housings;
- You manufacture all of the small metal components at your plant;
- Your metal manufacturing consists of metal stamping, using metal lighter than nine gauge, and extrusion processes;
- You also manufacture small boxes to package your pens;
- You operate a printing department for printing your company's logo and pen information on the boxes;
- As a special service to customers, you will deliver their pens if they are within a sixty mile radius of your plant.

We have over three hundred classifications. To simplify the classification process, we have grouped our classification codes into about thirty-eight smaller groupings which we refer to as a schedule grouping. In the case of a pen manufacturer, we can narrow our search to the group which covers metal goods manufacturing. Within the metal goods manufacturing group we have classifications that cover the fabrication of structural iron or steel beams used in construction; classifications that cover the manufacture of wood stoves, storage tanks, and other products using plate metal; classifications that cover light weight sheet metal works such as heating and ventilating duct work; and a classification that covers the manufacture of light metal products. In our search for a classification we encounter classification 3602. Classification 3602 includes the manufacture of fishing tackle, scientific instruments, metal buttons, and jewelry. When we consider the weight of metal, other materials used in the manufacture of the product, the manufacturing processes, and the end product, we conclude that classification 3602 is the most applicable to the manufacture of writing pens and would assign this classification to your pen manufacturing business.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31016, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31017 Multiple classifications. (1) Can I have more than one basic classification assigned to my account?

Yes, we will assign other classifications to your business when the assignment of another basic classification is required or permitted by the description(s) of the employer's other classification(s).

Example: You operate a retail book store. We would assign classification 6406 to your retail book store. Assume that as a part of the book store business you have a separate lunch counter and espresso bar in one section of the book store. A review of classification 6406 reveals that lunch

[Title 296 WAC—p. 213]

counters are to be reported separately in classification 3905. We would assign classification 3905 for your lunch counter and espresso bar operation. This classification (3905) would be in addition to the book store classification (6406). Remember to keep accurate records of the exposure of each employee by classification. If you do not keep accurate records we will assign the exposure of each employee to the highest rated classification applicable to the work they performed for you. A detailed explanation of payroll records you must keep can be found in WAC 296-17-35201.

(2) Are there other circumstances when I can have more than one basic classification assigned to my account?

Yes, under certain circumstances we will assign more than one basic classification to your account. These circumstances include:

- The employer is operating a secondary business which includes operations that we do not consider a normal part of that employer's principal business in Washington, or
- The employer has multiple retail store locations.

In these instances we will assign additional basic classifications *only if all of the following conditions are met:*

- The employer maintains separate payroll records for each business,
- Different employees work in each business,
- Each business is separated by structural partitions if they share a common business location,
- Each business can exist independently of the other, and
- The classification language of the principal business does not prohibit the assignment of the secondary classification.

If all of the above *five* conditions are not met, then the operations of the secondary business will be reported in the highest rated classification that applies to the employer.

(3) What do you mean by the term "principal business?"

The principal business is represented by the basic classification assigned to an employer which produces the greatest amount of exposure. The principal business does not include standard exception or general exclusion classifications or operations.

(4) If I have more than one basic classification assigned to my business and I have employees who do work in more than one of these classifications, can I divide their hours between these classifications on my quarterly report?

Yes, you can divide the work hours of any one employee between two or more basic classifications provided the following conditions are met:

- The basic classification assigned to your business allows or requires a division of hours; and
- You keep detailed records of the actual time spent by each employee in each classification. Use of percentages, averages or estimates is not permitted. If you do not have original time card or time book entries to support your reporting, all worker hours in question will be assigned to the highest rated classification applicable to the work being performed.

Example: In a previous rule (WAC 296-17-31017) we described a book store business that operated a lunch counter and espresso bar in connection with the book store. In that example, the book store business was assigned classification 6406. A review of classification 6406 revealed that the lunch counter operation was to be reported separately in classification 3905. Assume that you have one employee who, in addition to stocking and selling books, prepares sandwiches for customers on occasion. You must keep accurate time records by day for each employee. This time record must reflect the actual time the employee worked in the book store operation and the actual time worked preparing sandwiches. If you fail to keep these records all work hours in question would be assigned to the highest rated classification which, in this example, is classification 3905.

(5) If my business is assigned a basic classification and a standard exception classification and I have an employee who works in both classifications, can I divide their exposure (hours) between the two classifications on my quarterly report?

No, you cannot divide an employee's exposure (*work hours*) between a basic classification and standard exception classification. An explanation of "standard exception classification" is discussed in the next section (WAC 296-17-31018(2)). If an employee performs work covered by a basic classification and a standard exception classification, all of their exposure (*hours*) must be reported in the basic classification applicable to your business. You cannot report the exposure (*hours*) of any employee in a standard exception classification if they perform duties covered by a basic classification assigned to your business. Refer to WAC 296-17-31018 for a list and explanation of the "*exception classifications*."

(6) I have more than one standard exception classification assigned to my business. One of my employees works in more than one of the standard exception classifications. Can I divide their exposure (hours) between two or more standard exception classifications on my quarterly report?

No, you cannot divide an employee's work hours between two standard exception classifications. You must report all exposure (*work hours*) in the highest rated standard exception classification applicable to the work being performed.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31017, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31018 Exception classifications. (1) What are exception classifications?

In WAC 296-17-31012 we discussed our classification policy. We described the process used to classify risk and stated that we assign the basic classification or basic classifications that best describe the nature of your company's business. While this policy is modeled after the policy used by private insurance carriers and is geared to administrative ease for you, we recognize that there are some duties or operations where your employees do not share the same general work-

place hazards that your other employees are exposed to. To provide for those operations that are outside the scope of a basic classification, we have created three types of exception classifications listed below:

- Standard exception classifications,
- Special exception classifications, and
- General exclusion classifications.

(2) What are the standard exception classifications?

Standard exception classifications cover those employments that are administrative in nature and common to many industries. Employees covered by a standard exception classification cannot be exposed to any operative hazard of the business. If the language of the basic classification assigned to your business does not include these employments, you may be able to report them separately. The standard exception classifications are:

- Classification 4904 (WAC 296-17-653) "clerical office employment." This classification includes clerical, administrative, and drafting employees.
- Sales personnel classifications 6301 (WAC 296-17-696), 6302 (WAC 296-17-697), and 6303 (WAC 296-17-698) includes outside sales personnel and messengers.
- Classification 7101 (WAC 296-17-754) applies to corporate officers who have elected optional coverage. A corporate officer as used in these rules is a person who is an officer in the corporation, such as the president, who also serves on the corporation's board of directors and owns stock in the corporation.
- Classification 7100 (WAC 296-17-75306) applies to members of a limited liability company who have elected optional coverage.

Clerical office employees are defined as employees whose duties are limited to: Answering telephones; handling correspondence; creating or maintaining financial, employment, personnel, or payroll records; composing informational material on a computer; creating or maintaining computer software; and technical drafting. Their work must be performed in a clerical office which is restricted to:

- A work area which is physically separated by walls, partitions, or other physical barriers, from all other work areas of the employer, and
- Where only clerical office work as described in this rule is performed.

A clerical office does not include any work area where inventory is located, where products are displayed for sale, or area where the customer brings products for payment. Clerical office employees can perform cashiering and telephone sales work if they do not provide any retail or wholesale customer service that involves handling, showing, demonstrating, or delivering any product sold by the employer. Clerical office employees can make bank deposits, pick up and deliver mail at the post office, or purchase office supplies, if their primary work duties are clerical office duties as defined in this rule.

Sales personnel are defined as employees whose duties are limited to: Soliciting new customers by telephone or in person; servicing existing customer accounts; showing, selling, or explaining products or services; completing correspondence; placing orders; performing public relations duties; and estimating. Although some of sales person's

duties may be performed in a clerical office, most of their work is conducted away from the employer's physical business location or in showrooms. We refer to work that takes place away from the employer's premises as "*outside sales.*" Sales personnel whose duties include customer service activities such as, but not limited to, the delivery of product, stocking shelves, handling inventory, or otherwise merchandising products sold to retail or wholesale customers are excluded from all standard exception classifications. Sales personnel with duties such as delivery and stocking of shelves are to be reported in the basic classification applicable to the business unless the basic classification assigned to the business requires another treatment.

Messengers are defined as employees whose duties are delivering interoffice mail, making deposits, and similar duties that are exclusively for the administration of the employer's business. Classification 6303 "messengers" does not include delivering mail or packages to the employer's customer or as a service to the public. If a messenger is engaged in delivering mail or packages as a service to the public they are to be assigned to the basic classification of the business or classification 1101 as applicable.

Corporate officers duties in classification 7101 must be limited to: Clerical duties; outside sales duties as described above; administrative duties such as hiring staff, attending meetings, negotiating contracts, and performing public relations work. To qualify for this classification, a corporate officer must:

- Be a shareholder in the corporation,
- Be elected as a corporate officer and empowered in accordance with the articles of incorporation or bylaws of the corporation,
- Serve on the corporation's board of directors,
- Not have any exposure to any operative hazard of the business, and
- Not directly supervise employees who have any exposure to any operative hazard of the business.

Members of a limited liability company (LLC) duties in classification 7100 must be limited to: Clerical duties; outside sales duties as described above; administrative duties such as hiring staff, attending meetings, negotiating contracts, and performing public relations work. This includes only those members who have duties and authority similar to the exemption criteria of corporate officers in RCW 51.12.020.

Classification 6303 may apply to a corporate officer or member of a limited liability company whose duties are limited to outside sales activities as described in the sales personnel section of this rule. Under no circumstance is classification 4904 to be assigned to any corporate officer or member of a limited liability company. You cannot divide the work hours of an employee between a standard exception classification and a basic classification unless it is permitted by another rule. If an employee works part of their time in a standard exception classification and part of their time in your basic classification, then all exposure (hours) must be reported in the highest rated basic classification applicable to the work being performed.

(3) What are the special exception classifications?

Special exception classifications represent operations found within an employer's business that are allowed to be

reported separately when certain conditions are met. Assuming the conditions have been met, the following classifications may be used even if your basic classification includes the phrases "all operations" or "all employees."

Security guards - classification 6601 (WAC 296-17-723) will apply if the security guard:

- Is an employee of an employer engaged in logging or construction,
- Is for the purpose of guarding the employer's logging or construction sites,
- Is employed at the site only during the hours the employer is not conducting any other operations at the site,
- Has no other duties during their work shift as a security guard.

If all of the above conditions are not met, the security guard is to be reported in the basic classification applicable to the construction or logging operation being conducted.

Janitors - classification 6602 (WAC 296-17-724) will apply if:

- The janitorial/cleaning activities being performed are limited to the employer's clerical office,
- The clerical office meets the criteria described earlier in this rule, and
- The employer's office employment is assigned to be reported in classification 4904.

Log truck drivers - classification 5003 (WAC 296-17-66001) will apply if the log truck driver has no other duties during their work shift that are subject to the logging classification 5001 (WAC 296-17-659).

(4) What are the general exclusion classifications?

General exclusion classifications represent operations that are so exceptional or unusual that they are excluded from the scope of all basic classifications. If you have these operations, we will assign a separate classification to cover them. You must keep accurate records of the work hours your employees work in these classifications. If you do not keep accurate time records for each employee performing work covered by a general exclusion classification, we will assign the work hours in question to the highest rated classification applicable to those hours. The general exclusion classifications are:

- Aircraft operations: All operations of the flying crew.
- Racing operations: All operations of the drivers and pit crews.
- Diving operations: All operations of diving personnel and ship tenders who assist in diving operations.
- New construction or alterations of the business premises.
- Musicians and entertainers.

A division of work time is permitted between a standard exception classification and flight crew operations, racing operations, or diving operations. If you fail to keep original time records that clearly show the time spent in the office or in sales work, we will assign all work hours in question to the highest rated classification applicable to the work hours in question.

Example: Assume a corporate officer performs duties which are described in classification 7101. Occasionally, the officer flies a plane to attend a meeting. You would report the

flying exposure (hours) of the corporate officer in classification 6803. The remainder of the corporate officer's time would continue to be reported in classification 7101.

WAC 296-17-31019 Standard exception classification describes business. What if the only classification that describes my business is a standard exception classification? How do you assign classifications to my business?

When this happens we will assign the standard exception classification that best fits your business. Any work performed by employees that is outside of the scope of the exception classification will be classified according to the type of work being performed.

Example: You operate an insurance company. Besides having office and sales employees you have a printing department where you produce office stationery, brochures, and insurance policies, and maintenance employees to clean the office. We would assign classification 4904 to your office employees, classification 6303 to your sales employees, classification 4101 for your printing operation and classification 6602 for your janitorial staff. Since classifications 4904 and 6303 are standard exceptions, they do not include printing or maintenance operations.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31019, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31020 Employee supporting multiple business operations. I have more than one basic classification assigned to my business. I have employees such as laundry workers whose duties never change but who support several operations. Can I divide their work hours on my quarterly report?

No, if we have assigned two or more basic classifications to your business and you have employees whose duties remain the same and are performed at the same location regardless of the operation they support, you would report these workers in the classification which carries the largest number of worker hours. To arrive at the classification that carries the largest number of worker hours, you must first eliminate the hours related to the employees who support two or more operations. Whichever basic classification carries largest number of worker hours after the supporting personnel have been segregated is the classification the supporting employees are to be reported in.

Example: You operate a motel and a restaurant which are located next to each other. You have a laundry operation that cleans the linens for the restaurant as well as doing the sheets and towels for the motel. The laundry employee's duties never change regardless of whether they are doing linens or sheets. The classification of the laundry workers would depend on which classification produces the largest amount of exposure. Let us assume for this illustration that the motel has a larger exposure (hours worked) because you

have reported the laundry workers in that classification. When you remove the laundry workers hours from both classifications the restaurant classification has the larger volume of exposure (hours worked). You would report the laundry workers in the restaurant classification.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-31020, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31021 Units of exposure. (1) What is a "unit of exposure?"

A unit of exposure is the measure which is used to help determine the premium you will pay. For most businesses the unit of exposure is the *hours* worked by their employees. Because not all employees are compensated based on the hours they work, we have developed reporting alternatives to make reporting to us easier. Those alternatives are outlined in subsection (2) of this section. In other cases, the department may authorize some other method in assuming workers hours for premium calculation purposes.

(2) What are the alternatives to actual hours worked?

The exceptions are:

- **Apartment house managers, caretakers, or similar employees:** To determine the number of hours you need to report to us, divide an employee's total compensation, including housing and utility allowances, by the average hourly wage for the classification. The total number of work hours to be reported for each employee is not to exceed 520 hours per quarter. You will need to call us at (360) 902-4817 to obtain average hourly wage information.
- **Baseball, basketball, and soccer teams as defined in WAC 296-17-745 - including players, coaches, trainers, and officials:** Report each individual at 40 hours per week for each week in which they have duties.
- **Commission employees - outside (such as, but not limited to, real estate and insurance sales):** You must select one of the following methods to report your commission employees - outside:
 - Actual hours worked; or
 - Assumed hours of eight hours per day for part-time employees or one hundred-sixty hours per month for full-time employees.

All outside commission employees of an employer must be reported by the same method. You cannot report some outside commission employees based on the actual hours they work and others using the eight hours per day for part-time employees or one hundred-sixty hours per month for full-time employees method.
- **Drywall - stocking, installation, scrapping, taping, and texturing:** Premiums are based on material installed/finished rather than the hours it took to install/finish the drywall.
- **Horse racing - excluding jockeys:** Employers in the horse racing industry pay premiums based on a type of license their employees hold rather than the hours the employees work. Premiums are collected by the Washington horse racing commission at the time of licensing.
- **Jockeys:** Report ten hours for each race/mount or for any day in which duties are reported.
- **Race car drivers:** Report ten hours for each race/heat.

- **Salaried employees:** You must select one of the following methods to report your salaried employees:
 - Actual hours worked; or
 - Assumed hours of one hundred-sixty hours per month.

All salaried employees of an employer must be reported by the same method. You cannot report some salaried employees based on the actual hours they work and others using the one hundred sixty hours per month method. Provided further, as in the case of contract personnel employed by schools and/or school districts, the school or school district shall report actual hours worked for each employee, one hundred sixty hours per month for each employee, or the department may authorize some other method in assuming workers hours for premium calculation purposes.

(3) Can I use assumed work hours for piece workers?

No, if you employ piece workers you must report the actual hours these individuals work for you unless another unit of exposure is required.

Example: If you have employees engaged in drywall work you would report and pay premiums on the basis of the square footage of the material they installed not the hours they worked.

[Statutory Authority: RCW 51.16.035, 51.04.020, 00-14-052, § 296-17-31021, filed 7/1/00, effective 7/1/00. Statutory Authority: RCW 51.16.035, 99-18-068, § 296-17-31021, filed 8/31/99, effective 10/1/99; 98-18-042, § 296-17-31021, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31022 Reporting exception classification employees. How do I report exception classification employees on my quarterly report? If the language of the basic classification assigned to your business does not include those occupations, operations or employments which we have defined by exception classifications and treatments, you may report them separately in the applicable exception classification. To report these employments, operations and occupations separately, you must meet all of the conditions specified in the exception classification rules which are applicable to the classification.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-31022, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31023 Premium reporting. How often will I need to report and pay premiums? Most employers will report and pay premiums once every three months. We refer to these three-month periods as quarters. For example, the months of January, February, and March represent the first quarter of a calendar year. In some cases employers report at more frequent intervals.

Example: Reforestation contractors report on a contract basis for any project over ten thousand dollars. Since contracts may last only a few days, reforestation contractors may file reports daily, weekly, and monthly.

If you do not have employees during a quarter, you must return your premium report by the due date and indicate "no payroll" or "no employees" across the face of the report. If you do not submit reports when required, we will estimate premiums and initiate legal action against you to collect premiums due.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-31023, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31024 Classification rates. (1) How do you determine what rate to charge me?

Each classification has a corresponding base rate. The base rate assigned to your business will depend on the basic classification or classifications assigned to your business.

(2) What do you mean by a base rate?

The base rate is a comparison of losses (*claims*) and exposure to produce a cost per unit of exposure. The base rate is an unmodified rate that all employers with an experience factor of 1.000 will pay in a specific classification.

(3) Do all employers in the same classification pay the base rate?

In practice, only a few employers pay the *base rate*. If you are a new employer, you will pay the base rate until you have reported worker hours during the current *experience period*. After you have reported hours during an experience period, your rate will be modified as of January 1, of the next calendar year. We refer to that modified rate as your *experience rate*. Your experience rate is the base rate adjusted by your own company's claims losses (*experience factor*). It can produce a premium higher or lower than the *base rate*. This means that employers with few claims will pay less than employers in the same classification who have many claims. Experience rating encourages strong safety and accident prevention programs. Details of how experience rating affects your premium are outlined in WAC 296-17-850 through 296-17-875. Your policy manager can also answer questions about your individual experience factor. The name and phone number of your policy manager can be found on your quarterly premium report or your annual rate notice. For your convenience you can call us at (360) 902-4817 and we will put you in contact with your assigned policy manager.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31024, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31025 Change in business operations. If I change the type of business I operate, or add a new operation, should I call you? Yes, we rely on you to update us about changes in your business operations. We provide a place on your quarterly premium reports to let us know about any changes you have made. If you need help determining if changes to your account are necessary, you can call your policy manager. Depending on the type of change you are making, you may need to complete a new master application. The name and phone number of your policy manager can be found on your quarterly premium report or annual rate notice. For your convenience you can call us at (360) 902-4817 and we will put you in contact with your assigned policy manager.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31025, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31026 Reporting multiple business operations. If I have more than one business, can I report them on the same account? The way the businesses are organized will make a difference. Each separate "*ownership type*" must be classified and reported separately from any other much the same way you must keep each business' finan-

cial records separate from any other. Your master application must specify the "*ownership type*" of your business, such as, sole proprietor, partnership, corporation, etc. If that one ownership type registration is for more than one location of the same business or more than one type of business, you can choose to report all of them on the same account or on separate accounts. However, if you register each as a separate ownership type, you must report them on separate accounts.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31026, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31027 Temporary help company. Sometimes I use temporary help employees which I obtain through a temporary help company. Do I have to report those workers to labor and industries in my basic classification? No, if you obtain temporary help employees from a temporary help company, the temporary help company should report these workers to us and pay the required premiums. Temporary help companies have special classifications assigned to them to report and pay premiums on behalf of their client businesses. These classifications are used only in the temporary help industry and are different from our basic classifications which are assigned to nontemporary help companies. If the temporary help service fails to pay premiums to us, the client company is held responsible for the unpaid premiums of any temporary help employee used by the client company.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31027, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31028 Closing accounts. What are my responsibilities when I close my business, or when I no longer have employees? You must notify us in writing when you close your business or when you no longer have employees. You may either send a letter, or include a note on your final quarterly report. We will not close your account from a telephone call.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-31028, filed 8/28/98, effective 10/1/98.]

WAC 296-17-31029 Insurance principles. (1) What insurance principles does the department of labor and industries use when a new classification is developed?

Those principles are broken down into four major components as follows:

- Administration
- Equity
- Homogeneity
- Safety

A detailed explanation of these principles can be found in subsection (2) of this section.

(2) What are these principles?

- **Administration:** Recordkeeping requirements must be simple and easy to follow. If our classification system imposed burdensome recordkeeping requirements, most employers would find it difficult to comply. Resolving complaints related to burdensome recordkeeping requirements would be in nobody's interest. The premium rate for your basic classification is based

on the *average* exposure to hazard of all your workers. If our classification system were based upon individual occupations, you would pay a lower rate for your workers whose duties are considered low hazard, but you would pay a higher rate for your workers who have duties that expose them to a greater hazard. The total premium you pay would not be decreased; it would only be redistributed and would require more record-keeping. Having one basic classification assigned to cover all the operations makes recordkeeping and reporting easier for you.

- **Statistical credibility or equity:** By monitoring our classification plan, we ensure that enough hours are reported in each classification to provide a meaningful statistical base. A large enough statistical base helps avoid sudden large increases or decreases in rates and keeps them at the lowest possible level. We refer to this as *statistical credibility*. Classifications must also be *responsive to change* if equity and fairness are to be achieved. Our classification plan is in a constant state of evolution. In the early 1970s we had approximately 45 classifications. Today we have over 300 main classifications and approximately 1,000 subclassification codes to track losses. In some industries, the evolution is gradual, and no change to the classification itself is needed. We recognize that the wording used to describe a classification may not have kept up with changes in an industry. However, as the industry conditions evolve because of modern equipment, new processes or materials, or changes in employment laws and safety standards, so does the experience upon which the rate is based. In other words, the changes in the experience which is used to develop premium rates *reflect* new developments in processes, equipment, and technology even though the wording in the classification is unchanged. We strive to keep our classification language current. Although it would be easy to just change the classification wording as we encounter changes in an industry, Washington law requires that we conduct public hearings before we make official changes to the rule. We do this as a public safeguard and to involve business in the change process. As technologies change or new industries develop, we receive requests from industry representatives for new classifications or for determination of proper classification assignments for the new processes. We will evaluate the request and determine if there is a large enough group of employers to justify a new classification. Any classification must produce enough premium to cover losses. In addition, as specific industries become obsolete or certain processes are no longer in use we will discontinue the classifications that covered them.
- **Homogeneity:** Although it is rare that any two businesses are identical, our classification plan recognizes that similar businesses have similar exposures to occupational injury and disease. Employers with similar operations and exposures are grouped together so each classification includes common exposures and carries a rate that reflects those exposures. This method of grouping *homogenous* risks ensures that the overall cost of the workers' compensation system is distributed fairly among the businesses we insure. Classifications must also be *mutually exclusive*. Our classifications are clearly defined so that each type of business or industry fits in only one basic classification.
- **Workplace safety and accident prevention:** By classifying employers by the nature of their business, each

industry can take responsibility for controlling its own workers' compensation costs. Employers may belong to a trade association, which usually offers safety or risk management services. If such services result in fewer and less costly accidents, that improved experience will tend to lower the base rates for that industry. If our classification system were based upon the occupations or duties of employees, the success of a single industry's safety or risk management program would have little impact on its premium costs.

Example: Many retail grocery stores employ meat cutters. If grocery stores wanted to reduce the frequency of injury to their meat cutters they could develop a safety plan that focused on proper meat handling, lifting, and cutting. Assuming the safety program was successful and reduced the cost associated with meat cutter claims, the rate for grocery stores would go down. If, on the other hand, all meat cutters, such as those who work for restaurants, grocery stores, or slaughter houses, reported in a single meat cutter classification, it is doubtful that the grocery stores' safety program would have any impact on the premium rates since grocery stores' meat cutters would represent only a small portion of a meat cutter classification.

WAC 296-17-352 Audits. An audit of the employer's books, records and payrolls performed pursuant to the authority contained in RCW 51.48.040 may include but will not be limited to:

- (1) An audit to determine whether an employer engaged in a business or trade has employment subject to the industrial insurance laws.
- (2) A visual inspection of the employer's workplace or places for the purpose of determining appropriate classifications in accordance with the industrial insurance laws and rules as set forth in chapter 296-17 WAC.
- (3) Audits containing a complete and detailed examination of the employer's books and records for a specific period to establish the reporting of the employer's payroll in accordance with the industrial insurance laws and the rules as set forth in chapter 296-17 WAC, and as well, chapter 296-15 WAC in the event the employer has been certified a self-insurer.

Except as otherwise provided in this rule any audit time period may be less than, but will not exceed, three years of the due dates of any payments from any employer where the department has requested submission of the employer's books, or three years of the due dates of any payments where the employer makes claim for adjustment, recomputation or alteration of any such payment: Provided, That an employer certified to self-insure pursuant to the authority contained in chapter 51.14 RCW, shall be subject to such audit as deemed necessary to guarantee its compliance with the industrial insurance laws and rules and regulations for self-insurers: Provided further, That an employer who fails to make any books and records, or certified copies thereof, available for audit in the state of Washington, will be charged for all costs incurred by the department in auditing any books and records maintained at other places: Provided further, That in any

instance where fraud may be indicated with respect to underpayment or nonpayment of premiums the audit time period may be extended beyond that previously set forth.

WAC 296-17-35201 Recordkeeping and retention.

Washington law (RCW 51.48.030) requires every employer to make, keep, and preserve records which are adequate to facilitate the determination of premiums due to the state for workers' compensation insurance for their covered workers. In the administration of Title 51 RCW, the department of labor and industries has deemed the records and information required in the various subsections of this section to be essential in the determination of premiums due to the state fund. The records so specified and required, shall be provided at the time of audit to any authorized representative of the department who has requested them.

Failure to produce the requested records within thirty days of the request, or within an agreed upon time period shall constitute prima facie evidence of noncompliance with this rule and shall invoke the statutory bar to challenge found in RCW 51.48.030 and/or 51.48.040.

(1) Employment records. Every employer shall with respect to each worker, make, keep, and preserve original records containing all of the following information for three full calendar years following the calendar year in which employment occurred:

- (a) The name of each worker;
- (b) The Social Security number of each worker;
- (c) The beginning date of employment for each worker and, if applicable, the separation date of employment of each such worker;
- (d) The basis upon which wages are paid to each worker;
- (e) The number of units earned or produced for each worker paid on a piecework basis;
- (f) The risk classification applicable to each worker whenever the worker hours of any one employee are being divided between two or more classifications;
- (g) The number of actual hours worked (WAC 296-17-31002) by each worker, unless another basis of computing hours worked is prescribed in WAC 296-17-31021;
- (h) A summary time record for each worker showing the calendar day or days of the week work was performed and the actual number of hours worked each work day;
 - (i) The workers' total gross pay period earnings;
 - (j) The specific sums withheld from the earnings of each worker, and the purpose of each sum withheld;
 - (k) The net pay earned by each such worker.

(2) Business, financial records, and record retention. Every employer is required to keep and preserve all original employment time records for three full calendar years following the calendar year in which employment occurred. The three-year period is specified in WAC 296-17-352 as the composite period from the date any such premium became due.

Employers who pay their workers by check are required to keep and preserve all check registers and bank statements. Employers who pay their workers by cash are required to keep and preserve records of these cash transactions which provide a detailed record of wages paid to each worker.

(3) Recordkeeping - Estimated premium computation. Any employer required by this section to make, keep, and preserve records containing the information as specified in subsections (1) and (2) of this section, who fails to make, keep, and preserve such records, shall for the purpose of premium calculation assume worker hours using the average hourly wage rate for each classification, and also will be subject to penalties prescribed in subsection (4) of this section. The records of the department as compiled for the preceding fiscal year ending June 30, shall be the basis for determining the average hourly wage rate: Provided, That the average hourly wage rate shall be no less than the state minimum wage existing at the time such assumed hours are worked. Notwithstanding any other provisions of this section, workers employed in a work activity center subject to Classification 7309 shall be reported on the basis of the average hourly wage.

(4) Failure to maintain records - Penalties. Any employer required by this section to make, keep, and preserve records containing the information as specified in subsections (1) and (2) of this section, who fails to make, keep, and preserve such record, shall be liable, subject to RCW 51.48.030, to a penalty in the amount of two hundred fifty dollars for each such offense. Failure to make, keep, and preserve records containing the information as specified in subsections (1) and (2) of this section, for a single employee shall constitute one offense, for two employees two offenses, and so forth.

[Statutory Authority: RCW 51.16.035. 99-18-068, § 296-17-35201, filed 8/31/99, effective 10/1/99. Statutory Authority: RCW 51.04.020. 95-08-052, § 296-17-35201, filed 4/3/95, effective 7/1/95.]

WAC 296-17-35202 Definitions. For the purpose of interpretation of this manual, chapter 296-17 WAC, or administering Title 51 RCW, the following terms shall have the meanings given below:

(1) "Free from control or direction" shall mean that the contracted individual has the responsibility to deliver a finished product or service without the contracting firm or individual either exercising direct supervision over the work hours or the methods and details of performance or having the right to exercise that authority under the contract.

(2) "Principle place of business" shall be the physical location of the business from which the contract of service is directed and controlled.

(3) "Within a reasonable period" for establishing an account with state agencies shall be the time prior to the first date on which the individual begins performance of service toward the contract or the date upon which the individual is required to establish an account with a state agency, as otherwise required by law, whichever event shall last occur.

(4) "Bona fide officer" means any person empowered in good faith by stockholders or directors, in accordance with articles of incorporation or bylaws, to discharge the duties of such officer.

(5) "Related by blood within the third degree" means the degree of kinship as computed according to the rules of the civil law.

(6) "Related by marriage" means the union subject to legal recognition under the domestic relations laws of this state.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-35202, filed 8/28/98, effective 10/1/98.]

WAC 296-17-35203 Special reporting instruction. (1) Professional and semiprofessional athletic teams. Athletes assigned to a Washington-domiciled sports team are mandatorily covered by Washington industrial insurance: Provided, That a professional athlete who is under contract with a parent team domiciled outside of the state of Washington while assigned to a team domiciled within Washington is subject to mandatory coverage by Washington industrial insurance unless the player and employer (parent team) have agreed in writing as to which state shall provide coverage in accordance with RCW 51.12.120(5).

The following rules shall apply to the written agreement:

(a) Agreement must be in writing and signed by the employer and the individual athlete.

(b) Agreement must specify the state that is to provide coverage. The state agreed upon to provide coverage must be a state in which the player's team, during the course of the season, will engage in an athletic event. For example, if the Washington-based team is a part of a league with teams in only Washington, Oregon, and Idaho, the player and the employer can agree to any of those three states to provide coverage. However, they could not agree to have California provide the coverage as this would not qualify as a state in which the player regularly performs assigned duties.

(c) The state agreed upon accepts responsibility for providing coverage and acknowledges such to the department by certified mail.

(d) Agreement and certification by the other state must be received by this department's underwriting section prior to any injury incurred by the athlete.

(e) Agreement will be for one season only commencing with the assigning of the player to a particular team. A separate agreement and certification must be on file for each additional season.

Failure to meet all of these requirements will result in the athlete being considered a Washington worker for premium and benefit purposes until such time as all requirements have been met.

Professional sports teams who are domiciled outside the state of Washington and who participate in sporting events with Washington-domiciled teams are not subject to Washington industrial insurance for their team members while in this state. These out-of-state teams are not considered employers subject to Title 51 on the basis that they are not conducting a business within this state.

(2) **Excluded employments.** Any employer having any person in their employ excluded from industrial insurance whose application for coverage under the elective adoption provisions of RCW 51.12.110 or authority of RCW 51.12.-095 or 51.32.030 has been accepted by the director shall report and pay premium on the actual hours worked for each

such person who is paid on an hourly, salaried-part time, percentage of profit or piece basis; or one hundred sixty hours per month for any such person paid on a salary basis employed full time. In the event records disclosing actual hours worked are not maintained by the employer for any person paid on an hourly, salaried-part time, percentage of profits or piece basis the worker hours of such person shall be determined by dividing the gross wages of such person by the state minimum wage for the purpose of premium calculation. However, when applying the state minimum wage the maximum number of hours assessed for a month will be one hundred sixty.

(3) **Special trucking industry rules.** The following subsection shall apply to all trucking industry employers as applicable.

(a) **Insurance liability.** Every trucking industry employer operating as an intrastate carrier or a combined intrastate and interstate carrier must insure their workers' compensation insurance liability through the Washington state fund or be self-insured with the state of Washington.

Washington employers operating exclusively in interstate or foreign commerce or any combination of interstate and foreign commerce must insure their workers' compensation insurance liability for their Washington employees with the Washington state fund, be self-insured with the state of Washington, or provide workers' compensation insurance for their Washington employees under the laws of another state when such other state law provides for such coverage.

Interstate or foreign commerce trucking employers who insure their workers' compensation insurance liability under the laws of another state must provide the department with copies of their current policy and applicable endorsements upon request.

Employers who elect to insure their workers' compensation insurance liability under the laws of another state and who fail to provide updated policy information when requested to do so will be declared an unregistered employer and subject to all the penalties contained in Title 51 RCW.

(b) **Reporting.** Trucking industry employers insuring their workers' compensation insurance liability with the Washington state fund shall keep and preserve all original time records/books including supporting information from drivers' logs for a period of three calendar years plus three months.

Employers are to report actual hours worked, including time spent loading and unloading trucks, for each driver in their employ. For purposes of this section, actual hours worked does not include time spent during lunch or rest periods or overnight lodging.

Failure of employers to keep accurate records of actual hours worked by their employees will result in the department estimating work hours by dividing gross payroll wages by the state minimum wage for each worker for whom records were not kept. However, in no case will the estimated or actual hours to be reported exceed five hundred twenty hours per calendar quarter for each worker.

(c) **Exclusions.** Trucking industry employers meeting all of the following conditions are exempted from mandatory coverage.

(i) Must be engaged exclusively in interstate or foreign commerce.

(ii) Must have elected to cover their Washington workers on a voluntary basis under the Washington state fund and must have elected such coverage in writing on forms provided by the department.

(iii) After having elected coverage, withdrew such coverage in writing to the department on or before January 2, 1987.

If all the conditions set forth in (i), (ii), and (iii) of this subsection have not been met, employers must insure their workers' compensation insurance liability with the Washington state fund or under the laws of another state.

(d) Definitions. For purposes of interpretation of RCW 51.12.095(1) and administration of this section, the following terms shall have the meanings given below:

(i) "Agents" means individuals hired to perform services for the interstate or foreign commerce carrier that are intended to be carried out by the individual and not contracted out to others but does not include owner operators as defined in RCW 51.12.095(1).

(ii) "Contacts" means locations at which freight, merchandise, or goods are picked up or dropped off within the boundaries of this state.

(iii) "Doing business" means having any terminals, agents or contacts within the boundaries of this state.

(iv) "Employees" means the same as the term "worker" as contained in RCW 51.08.180.

(v) "Terminals" means a physical location wherein the business activities (operations) of the trucking company are conducted on a routine basis. Terminals will generally include loading or shipping docks, warehouse space, dispatch offices and may also include administrative offices.

(vi) "Washington" shall be used to limit the scope of the term "employees." When used with the term "employees" it will require the following test for benefit purposes (all conditions must be met).

- The individual must be hired in Washington or must have been transferred to Washington; and
- The individual must perform some work in Washington (i.e., driving, loading, or unloading trucks).

(4) **Forest, range, or timber land services—Industry rule.** Washington law (RCW 51.48.030) requires every employer to make, keep, and preserve records which are adequate to facilitate the determination of premiums (taxes) due to the state for workers' compensation insurance coverage for their covered workers. In the administration of Title 51 RCW, and as it pertains to the forest, range, or timber land services industry, the department of labor and industries has deemed the records and information required in the various subsections of this section to be essential in the determination of premiums (taxes) due to the state fund. The records so specified and required, shall be provided at the time of audit to any representative of the department who has requested them.

Failure to produce these required records within thirty days of the request, or within an agreed upon time period, shall constitute noncompliance of this rule and RCW 51.48.-030 and 51.48.040. Employers whose premium computations are made by the department in accordance with (d) of this

subsection are barred from questioning, in an appeal before the board of industrial insurance appeals or the courts, the correctness of any assessment by the department on any period for which such records have not been kept, preserved, or produced for inspection as provided by law.

(a) General definitions. For purpose of interpretation of this section, the following terms shall have the meanings given below:

(i) "Actual hours worked" means each workers' composite work period beginning with the starting time of day that the employees' work day commenced, and includes the entire work period, excluding any nonpaid lunch period, and ending with the quitting time each day work was performed by the employee.

(ii) "Work day" shall mean any consecutive twenty-four-hour period.

(b) Employment records. Every employer shall with respect to each worker, make, keep, and preserve original records containing all of the following information for three full calendar years following the calendar year in which the employment occurred:

- (i) The name of each worker;
- (ii) The Social Security number of each worker;
- (iii) The beginning date of employment for each worker and, if applicable, the separation date of employment for each such worker;
- (iv) The basis upon which wages are paid to each worker;
- (v) The number of units earned or produced for each worker paid on a piece-work basis;
- (vi) The risk classification(s) applicable to each worker;
- (vii) The number of actual hours worked by each worker, unless another basis of computing hours worked is prescribed in WAC 296-17-31021. For purposes of chapter 296-17 WAC, this record must clearly show, by work day, the time of day the employee commenced work, and the time of day work ended;

(viii) A summary time record for each worker showing the calendar day or days of the week work was performed and the actual number of hours worked each work day;

(ix) In the event a single worker's time is divided between two or more risk classifications, the summary contained in (b)(viii) of this subsection shall be further broken down to show the actual hours worked in each risk classification for the worker;

- (x) The workers' total gross pay period earnings;
- (xi) The specific sums withheld from the earnings of each worker, and the purpose of each sum withheld;
- (xii) The net pay earned by each such worker.

(c) Business, financial records, and record retention. Every employer is required to keep and preserve all original time records completed by their employees for a three-year period. The three-year period is specified in WAC 296-17-352 as the composite period from the date any such premium became due.

Employers who pay their workers by check are required to keep and preserve a record of all check registers and cancelled checks; and employers who pay their workers by cash are required to keep and preserve records of these cash trans-

actions which provide a detailed record of wages paid to each worker.

(d) Recordkeeping - estimated premium computation. Any employer required by this section to make, keep, and preserve records containing the information as specified in (b) and (c) of this subsection, who fails to make, keep, and preserve such records, shall have premiums calculated as follows:

(i) Estimated worker hours shall be computed by dividing the gross wages of each worker for whom records were not maintained and preserved, by the state's minimum wage, in effect at the time the wages were paid or would have been paid. However, the maximum number of hours to be assessed under this provision will not exceed five hundred twenty hours for each worker, per quarter for the first audited period. Estimated worker hours computed on all subsequent audits of the same employer that disclose a continued failure to make, keep, or preserve the required payroll and employment records shall be subject to a maximum of seven hundred eighty hours for each worker, per quarter.

(ii) In the event an employer also has failed to make, keep, and preserve the records containing payroll information and wages paid to each worker, estimated average wages for each worker for whom a payroll and wage record was not maintained will be determined as follows: The employer's total gross income for the audit period (earned, received, or anticipated) shall be reduced by thirty-five percent to arrive at "total estimated wages." Total estimated wages will then be divided by the number of employees for whom a record of actual hours worked was not made, kept, or preserved to arrive at an "estimated average wage" per worker. Estimated hours for each worker will then be computed by dividing the estimated average wage by the state's minimum wage in effect at the time the wages were paid or would have been paid as described in (d)(i) of this subsection.

(e) Reporting requirements and premium payments.

(i) Every employer who is awarded a forest, range, or timber land services contract must report the contract to the department promptly when it is awarded, and prior to any work being commenced, except as provided in (e)(iii) of this subsection. Employers reporting under the provisions of (e)(iii) of this subsection shall submit the informational report with their quarterly report of premium. The report shall include the following information:

(I) The employers' unified business identification account number (UBI).

(II) Identification of the landowner, firm, or primary contractor who awarded the contract, including the name, address, and phone number of a contact person.

(III) The total contract award.

(IV) Description of the forest, range, or timber land services work to be performed under terms of the contract.

(V) Physical location/site where the work will be performed including legal description.

(VI) Number of acres covered by the contract.

(VII) Dates during which the work will be performed.

(VIII) Estimated payroll and hours to be worked by employees in performance of the contract.

(ii) Upon completion of every contract issued by a landowner or firm that exceeds a total of ten thousand dollars, the

contractor primarily responsible for the overall project shall submit in addition to the required informational report described in (e)(i) of this subsection, report the payroll and hours worked under the contract, and payment for required industrial insurance premiums. In the event that the contracted work is not completed within a calendar quarter, interim quarterly reports and premium payments are required for each contract for all work done during the calendar quarter. The first such report and payment is due at the end of the first calendar quarter in which the contract work is begun. Additional interim reports and payments will be submitted each quarter thereafter until the contract is completed. This will be consistent with the quarterly reporting cycle used by other employers. Premiums for a calendar quarter, whether reported or not, shall become due and delinquent on the day immediately following the last day of the month following the calendar quarter.

(iii) A contractor may group contracts issued by a landowner, firm, or other contractor that total less than ten thousand dollars together and submit a combined quarterly report of hours, payroll, and the required premium payment in the same manner and periods as nonforestation, range, or timber land services employers.

(f) Out-of-state employers. Forest, range, or timber land services contractors domiciled outside of Washington state must report on a contract basis regardless of contract size for all forest, range, or timber land services work done in Washington state. Out-of-state employers will not be permitted to have an active Washington state industrial insurance account for reporting forest, range, or timber land services work in the absence of an active Washington forest, range, or timber land services contract.

(g) Work done by subcontract. Any firm primarily responsible for work to be performed under the terms of a forest, range, or timber land services contract, that subcontracts out any work under a forest, range, or timber land services contract must send written notification to the department prior to any work being done by the subcontractor. This notification must include the name, address, Social Security number, farm labor contractor number, (UBI) of each subcontractor, and the amount and description of contract work to be done by subcontract.

(h) Forest, range, or timber land services contract release - verification of hours, payroll, and premium. The department may verify reporting of contractors by way of an on-site visit to an employers' work site. This on-site visit may include close monitoring of employees and employee work hours. Upon receipt of a premium report for a finished contract, the department may conduct an audit of the firm's payroll, employment, and financial records to validate reporting. The department will notify the contractor, and the entity that awarded the contract, of the status of the contractors' account immediately after verification. The landowner, firm, or contractors' premium liability will not be released until the final report for the contract from the primary contractor and any subcontractors has been received and verified by the department.

(i) Premium liability - work done by contract. Washington law (RCW 51.12.070) places the responsibility for industrial insurance premium payments primarily and directly

upon the person, firm, or corporation who lets a contract for all covered employment involved in the fulfillment of the contract terms. Any such person, firm, or corporation letting a contract is authorized to collect from the contractor the full amount payable in premiums. The contractor is in turn authorized to collect premiums from any subcontractor they may employ his or her proportionate amount of the premium payment.

To eliminate premium liability for work done by contract permitted by Title 51 RCW, any person, firm, or corporation who lets a contract for forest, range, or timber land services work must submit a copy of the contract they have let to the department and verify that all premiums due under the contract have been paid.

Each contract submitted to the department must include within its body, or on a separate addendum, all of the following items:

- (I) The name of the contractor who has been engaged to perform the work;
- (II) The contractor's UBI number;
- (III) The contractor's farm labor contractor number;
- (IV) The total contract award;
- (V) The date the work is to be commenced; a description of the work to be performed including any pertinent acreage information;
- (VI) Location where the work is to be performed;
- (VII) A contact name and phone number of the person, firm, or corporation who let the contract;
- (VIII) The total estimated wages to be paid by the contractor and any subcontractors;
- (IX) The amount to be subcontracted out if such subcontracting is permitted under the terms of the contract;
- (X) The total estimated number of worker hours anticipated by the contractor and his/her subcontractors in the fulfillment of the contract terms;
- (j) Reports to be mailed to the department. All contracts, reports, and information required by this section are to be sent to:

The Department of Labor and Industries
Reforestation Team 8
P.O. Box 44168
Tumwater, Washington 98504-4168

(k) Rule applicability. If any portion of this section is declared invalid, only that portion is repealed. The balance of the section shall remain in effect.

(5) Logging and/or tree thinning—Mechanized operations—Industry rule. The following subsection shall apply to all employers assigned to report worker hours in risk classification 5005, WAC 296-17-66003.

(a) Every employer having operations subject to risk classification 5005 "logging and/or tree thinning - mechanized operations" shall have their operations surveyed by labor and industries insurance services staff prior to the assignment of risk classification 5005 to their account. Annual surveys may be required after the initial survey to retain the risk classification assignment.

(b) Every employer as a prerequisite of being assigned risk classification 5005 and having exposure (work hours) which is reportable under other risk classifications assigned

to the employer shall be required to establish a separate sub-account for the purpose of reporting exposure (work hours) and paying premiums under this risk classification (5005). Except as otherwise provided for in this rule, only exposure (work hours) applicable to work covered by risk classification 5005 shall be reported in this subaccount. In the event that the employer's only other reportable exposure (work hours) is subject to one of the standard exception risk classifications, or the shop or yard risk classification then all exposure (work hours) will be reported under a single main account.

(c) Every employer assigned to report exposure (work hours) in risk classification 5005 shall supply an addendum report with their quarterly premium report which lists the name of each employee reported under this classification during the quarter, the Social Security number of such worker, the piece or pieces of equipment the employee operated during the quarter, the number of hours worked by the employee during the quarter, and the wages earned by the employee during the quarter.

(6) Special drywall industry rule.

(a) What is the unit of exposure for drywall reporting? Your premiums for workers installing and finishing drywall (reportable in risk classifications 0540, 0541, 0550, and 0551) are based on the amount of material installed and finished, not the number of hours worked.

The amount of material installed equals the amount of material purchased or taken from inventory for a job. No deduction can be made for material scrapped (debris). A deduction is allowed for material returned to the supplier or inventory.

The amount of material finished for a job equals the amount of material installed. No deduction can be made for a portion of the job that is not finished (base layer of double-board application or unfinished rooms).

Example: Drywall installation firm purchases 96 4' x 8' sheets of material for a job which includes some double-wall installation. The firm hangs all or parts of 92 sheets, and returns 4 sheets to the supplier for credit. Drywall finishing firm tapes, primes and textures the same job. Both firms should report 2,944 square feet (4 x 8 x 92) for the job.

(b) I do some of the work myself. Can I deduct material I as an owner install or finish? Yes. Owners (sole proprietors, partners, and corporate officers) who have not elected coverage may deduct material they install or finish.

When you as an owner install (including scrap) or finish (including tape and prime or texture) only part of a job, you may deduct an amount of material proportional to the time you worked on the job, considering the total time you and your workers spent on the job.

To deduct material installed or finished by owners, you must report to the department by job, project, site or location the amount of material you are deducting for this reason. You must file this report at the same time you file your quarterly report:

Total owners hours ÷ (owners hours + workers hours) =
% of owner discount.

% of owner discount x (total footage of job – subcontracted
footage, if any) = Total owner deduction of footage.

(c) **Can I deduct material installed or finished by subcontractors?** You may deduct material installed or taped by subcontractors you are not required to report as your workers. You may not deduct for material only scrapped or primed and textured by subcontractors.

To deduct material installed or taped by subcontractors, you must report to the department by job, project, site or location the amount of material being deducted. You must file this report at the same time you file your quarterly report. You must have and maintain business records that support the number of square feet worked by the subcontractor.

(d) **I understand there are discounted rates available for the drywall industry. How do I qualify for them?** To qualify for discounted drywall installation and finishing rates, you must:

(i) Have an owner attend two workshops the department offers (one workshop covers claims and risk management, the other covers premium reporting and recordkeeping);

(ii) Provide the department with a voluntary release authorizing the department to contact material suppliers directly about the firm's purchases;

(iii) Have and keep all your industrial insurance accounts in good standing (including the accounts of other businesses in which you have an ownership interest), which includes fully and accurately reporting and paying premiums as they come due, including reporting material deducted as owner or subcontractor work;

(iv) Provide the department with a supplemental report (filed with the firm's quarterly report) showing by employee the employee's name, the wages paid them during the quarter, how they are paid (piece rate, hourly, etc.), their rate of pay, and what work they performed (installation, scrapping, taping, priming/texturing); and

(v) Maintain accurate records about work you subcontracted to others and materials provided to subcontractors (as required by WAC 296-17-31013), and about payroll and employment (as required by WAC 296-17-35201).

The discounted rates will be in effect beginning with the first quarter your business meets all the requirements for the discounted rates.

Note: If you are being audited by the department while your application for the discounted classifications is pending, the department will not make a final decision regarding your rates until the audit is completed.

(e) **Can I be disqualified from using the discounted rates?** Yes. You can be disqualified from using the discounted rates for three years if you:

(i) Do not file all reports, including supplemental reports, when due;

(ii) Do not pay premiums on time;

(iii) Underreport the amount of premium due; or

(iv) Fail to maintain the requirements for qualifying for the discounted rates.

Disqualification takes effect when a criterion for disqualification exists.

(2003 Ed.)

Example: A field audit in 2002 reveals that the drywall installation firm underreported the amount of premium due in the second quarter of 2001. The firm will be disqualified from the discounted rates beginning with the second quarter of 2001, and the premiums it owed for that quarter and subsequent quarters for three years will be calculated using the nondiscounted rates.

If the drywall underwriter learns that your business has failed to meet the conditions as required in this rule, your business will need to comply to retain using the discounted classifications. If your business does not comply promptly, the drywall underwriter may refer your business for an audit.

If, as a result of an audit, the department determines your business has not complied with the conditions in this rule, your business will be disqualified from using the discounted classifications for three years (thirty-six months) from the period of last noncompliance.

(f) **If I discover I have made an error in reporting or paying premium, what should I do?** If you discover you have made a mistake in reporting or paying premium, you should contact the department and correct the mistake. Firms not being audited by the department who find errors in their reporting and paying premiums, and who voluntarily report their errors and pay any required premiums, penalties and interest promptly, will not be disqualified from using the discounted rates unless the department determines they acted in bad faith.

WAC 296-17-35204 Penalty assessments for employers who fail to register under Title 51 RCW. (1) Any employer who has failed to secure payment of compensation for their workers covered under this title will be liable, subject to RCW 51.48.010, to a maximum penalty in a sum of five hundred dollars or in a sum double the amount of premiums due for the four quarters prior to securing payment of compensation under this title, whichever is greater, for the benefit of the medical aid fund.

(2) If an injury or occupational disease is sustained by a worker of an employer who has failed to secure payment of compensation under this title that employer may also be liable for the cost of such an injury or occupational disease at the time the claim for benefits is accepted by the department.

For the purposes of this section only the cost of such claim will be determined as follows:

The case reserve value shall be determined by the nature of the injury or occupational disease, the part of the body affected and other factors which will impact the cost, including but not limited to, age, education and work experience. The case reserve value will include actual costs paid to date and estimated future claim costs. No further adjustments or evaluations of the cost of the claim will be made for the purposes of this subsection after assessment for the cost of an injury or occupational disease is made by the department.

[Title 296 WAC—p. 225]

WAC 296-17-501 Classification 0101.**0101-00 Land clearing: Highway, street and road construction, N.O.C.**

Applies to contractors engaged in clearing right of ways for subsurface construction on a new or existing highway, street, or roadway project that is not covered by another classification (N.O.C.). The subsurface is the roadbed foundation consisting of dirt, sand, gravel and/or ballast which has been leveled and compressed. Unless the finished project is a compressed gravel road, the subsurface or sub base is constructed prior to any asphalt or concrete paving activities. Work contemplated by this classification involves the excavation of rocks and boulders, removal of tree stumps, clearing or scraping land of vegetation, grubbing, earth excavation, cut and fill work, and bringing the roadbed to grade. Equipment used by contractors subject to this classification includes a variety of earth moving equipment such as, but not limited to, shovels, scrapers, bulldozers, graders, rollers, and dump trucks.

This classification excludes asphalt surfacing or resurfacing on roadways which is to be reported separately in classification 0210; construction specialty services such as the installation of guardrails, lighting standards and striping which is to be reported separately in classification 0219; bridge or tunnel construction including the abutments and approaches which is to be reported separately in classification 0201; felling of trees which is to be reported separately in the applicable logging classification; and logging road construction which is to be reported separately in classification 6902.

0101-01 Land clearing: Airport landing strips, runways and taxi ways; alleys and parking lots

Applies to contractors primarily engaged in clearing right of ways for subsurface construction on a new or existing airport landing strip, runway, and taxi way. This classification also includes clearing of right of ways for alley and parking lot projects. The subsurface is the foundation consisting of dirt, sand, gravel and/or ballast which has been leveled and compressed. Unless the finished project is compressed gravel, the subsurface or sub base is constructed prior to any asphalt or concrete paving activities. Work contemplated by this classification involves the excavation of rocks and boulders, removal of tree stumps, clearing or scraping land of vegetation, grubbing, earth excavation, cut and fill work, and bringing the roadbed or project site to grade. Equipment used by contractors subject to this classification includes a variety of earth moving equipment such as, but not limited to, shovels, scrapers, bulldozers, graders, rollers, and dump trucks.

This classification excludes asphalt surfacing or resurfacing on roadways which is to be reported separately in classification 0210; construction specialty services such as the installation of guardrails, lighting standards and striping which is to be reported separately in classification 0219; and felling of trees which is to be reported separately in the applicable logging classification.

0101-02 Excavation work, N.O.C.

Applies to contractors engaged in general excavation work for others that is not covered by another classification (N.O.C.). Work contemplated by this classification involves

excavating or digging of earth to form the foundation hole such as for a wood-frame or nonwood-frame building and side sewer hookups (street to house) when performed as part of the excavation contract. Activities include, but are not limited to, excavation of rocks and boulders, removal of tree stumps, clearing or scraping land of vegetation, grubbing, piling or pushing of earth, earth excavation, cut and fill work, backfilling, etc. Equipment used by contractors subject to this classification includes a variety of earth moving equipment such as, but not limited to, shovels, scrapers, bulldozers, graders and dump trucks.

This classification excludes asphalt surfacing or resurfacing on roadways which is to be reported separately in classification 0210 and felling of trees which is to be reported separately in the applicable logging classification.

0101-03 Grading work, N.O.C.

Applies to contractors engaged in various forms of grading work for others that are not covered by another classification (N.O.C.). Typical equipment used is a grader, but other equipment such as a bulldozer and a front end loader may also be used. Work contemplated by this classification includes, but is not limited to, leveling and grading lands, spreading dirt, sand, gravel and/or ballast to desired contour on farm lands or other tracts of land.

0101-04 Land clearing, N.O.C.

Applies to contractors engaged in general land clearing work that is not covered by another classification (N.O.C.). This classification includes, but is not limited to, excavation of rocks and boulders, removal of tree stumps, clearing or scraping land of vegetation, grubbing, piling or pushing of earth to rearrange the terrain, earth excavation, cut and fill work, backfilling, and slope grooming. Equipment used by contractors subject to this classification includes a variety of earth moving equipment such as, but not limited to, shovels, scrapers, bulldozers, graders and dump trucks.

This classification excludes felling of trees which is to be reported separately in the applicable logging classification.

0101-16 Railroad line: Construction, maintenance and repair, N.O.C.

Applies to contractors engaged in the construction, maintenance and repair of railroad tracks not covered by another classification (N.O.C.), including the dismantling of track and the sale of salvaged track metal and ties. Work contemplated by this classification includes all operations on new or existing main lines, side tracks and spurs to industrial properties. This classification includes, but is not limited to, the laying of rock or ballast, laying of ties and track, installation of crossover frogs and switches, erection of switch stands and switch mechanism, erection of cattle guards, the placing of grade crossing planks, and similar activities related to the laying or relaying of railroad lines and also includes the dismantling of railroad main lines, side tracks and spurs to include track, ties, etc., and the subsequent storage and sale of salvaged material after the railroad line is dismantled.

This classification excludes asphalt surfacing/resurfacing and all concrete construction work which is to be reported separately in the applicable asphalt or concrete construction

classification; logging railroad construction which is to be reported separately in classification 6902; and the construction, maintenance, or repair of an elevated railway which is to be reported separately in classification 0508.

0101-17 Retaining wall: Construction or repair when done in connection with road, street and highway construction, N.O.C.

Applies to contractors engaged in the construction or repair of retaining walls in connection with highway, street, or roadway projects that are not covered by another classification (N.O.C.). Retaining walls are often constructed to protect against potential problems such as earth slides or erosion of banks alongside a roadway or overpass. Work contemplated by this classification involves large scale excavation to contour a specific area of earth serving as a retaining wall. Activities include, but are not limited to, excavation, clearing, cut and fill work, backfilling, grading and slope grooming. Fill material used may include dirt, sand, stone or boulder. Equipment used by contractors subject to this classification includes, but is not limited to, scrapers, bulldozers, graders, backhoes and dump trucks.

This classification excludes asphalt surfacing or resurfacing on roadways which is to be reported separately in classification 0210; concrete construction which is to be reported separately in the applicable concrete construction classification; construction specialty services such as the installation of guardrails, lighting standards and striping which is to be reported separately in classification 0219; bridge or tunnel construction including the abutments and approaches which is to be reported separately in classification 0201; felling of trees by chain saw which is to be reported separately in classification 5001; logging road construction which is to be reported separately in classification 6902; and tunnels and approaches including lining, cofferdam work, shaft sinking and well digging with caissons which is to be reported separately in classification 0201.

0101-36 Tree care and pruning services, N.O.C.

Applies to specialist contractors engaged in providing a variety of tree care services such as tree topping and tree pruning that are not covered by another classification (N.O.C.). Work contemplated by this classification generally takes place in residential areas, parking lots, business parks, shopping malls, or settings adjacent to nonforestry or timberland roadways. A primary purpose of this work is to remove tree or branch hazards from power lines, structures, or buildings. This classification includes, but is not limited to, incidental ground operations such as picking up branches and limbs, operating mobile chip machines used in connection with a tree care service, spraying or fumigating of trees, debris removal and stump removal when conducted by employees of an employer subject to this classification.

This classification excludes tree care services done in connection with an orchard operation which is to be reported separately in classification 4803 when performed by orchard employees; tree care services done in connection with a nursery operation which is to be reported separately in classification 4805; tree care services done in connection with a public or private forest or timberland which is to be reported separately in classification 5004; tree care services done in con-

nection with a Christmas tree farm operation which is to be reported separately in classification 7307; and felling trees which is to be reported separately in classification 5001.

0101-37 Soil remediation

Applies to establishments engaged in various types of remediation of soil contaminated with hazardous or toxic materials. Soil remediation can take place at the site of the contamination, or the contaminated soil may be hauled to another area for remediation. This classification also includes oil spill cleanup on land. Equipment used will include backhoes and front end loaders, as well as other types of dirt moving equipment.

The methods used for soil remediation include, but are not limited to,:

- Bio-remediation: Contaminated soil is mixed with nutrients, sawdust, and various other additives. Naturally occurring bacteria in the soil break down the pollutants.

- Encapsulation: Contaminated soil is enclosed in some type of protective material to prevent drainage into surrounding soil.

- Excavation and hauling to an approved disposal site.

- Hot air vapor extraction: A burner unit is mounted on a trailer. Contaminated soil is arranged in layers on which an aluminum perforated pipe system is placed at 2' intervals, with a return pipe on the top layer. The soil stack is enclosed in visqueen, then hot air is pumped into the piping system which creates the steam that is recycled through the system and carries the contaminants back through the catalytic burner. Because of the catalytic action there are virtually no contaminants exhausted into the atmosphere.

- Soil vapor extraction: A series of holes are bored in the ground and vacuum pumps are used to suck the trapped gases which are drawn through carbon filters for decontamination.

- In situ vitrification: Graphite electrodes are fed into contaminated soil at a specified rate, where high voltage "melts" the organic and inorganic materials in the soil and forms a solid, glasslike substance.

- Land farming: Contaminated soil is deposited and spread out by a farm type spreader on an area of ground dedicated for this purpose. Chemical or manure fertilizer is added to provide a medium for naturally occurring bacteria to thrive. (This part is similar to bio-remediation.) The soil is turned frequently by tillers or rototillers to assist in the aeration of the soil and in the growth of the bacteria. It may take anywhere from a month to two years to cleanse the soil, depending on the volatility of the contaminants. This method is used particularly with soil that is heavily contaminated with oil.

- Mobile incineration: Contaminated soil is loaded onto a conveyor belt which carries it into the hopper of a mobile unit mounted on a lowboy trailer. The unit is heated to burn off the contaminants in the soil. The mobile unit contains a type of dust-collecting mechanism which filters out gases and other nondesirable elements so only clean air enters the atmosphere as the refreshed soil is produced. There are various methods of mobile incineration, but the general process and the end result are similar.

- Thermal disabsorption: A process similar to mobile incineration.

- Stabilization: Concrete landfill cells are created by mixing cement with refuse or other contaminated soil to stabilize the material and reduce the seepage into the surrounding soil.

This classification excludes oil spill cleanup involving diking or ditching work which is to be reported separately in classification 0201.

0101-39 Pool or pond excavation

Placement of pool or pond liners

Applies to contractors engaged in the excavation of pools or ponds. Work contemplated by this classification involves excavating or digging of earth to form the hole such as for a swimming pool or pond. Work contemplated by this classification includes excavation of rocks and boulders, removal of tree stumps, clearing or scraping land of vegetation, grubbing, piling or pushing of earth, earth excavation, cutting, filling or backfilling, etc. Equipment used by contractors subject to this classification includes a variety of earth moving equipment such as, but not limited to, shovels, bulldozers, backhoes and dump trucks. This classification includes the placement of plastic pool and pond liners provided it is not in connection with concrete work.

This classification excludes concrete construction which is to be reported separately in the applicable concrete construction classification.

0101-40 Mowing or chemical spraying of roadway median strips, roadsides, and/or power line right of ways

Applies to contractors engaged in mowing, grooming, picking up litter, and chemical spraying of roadway median strips and edges, roadsides, and power line right of ways. Work contemplated by this classification includes spraying chemicals to control weeds and unwanted vegetation, tall grass, brush, brambles and tree seedlings as part of a roadway, roadside or right of way maintenance contract. Equipment used by contractors subject to this classification includes, but is not limited to, a variety of equipment such as backhoes, tractors, push mowers, brush mowers, weed eaters, as well as hand tools such as machetes, sickles, and pruners.

This classification excludes mowing and/or grooming of roadway median strips, roadsides, and power line right of ways when performed by employees of cities, counties, state agencies, or other municipalities which is to be reported in the classification applicable to the type of municipality performing the work; forest, timber or range land contract work which is to be reported separately in the classification applicable to the work being performed; and the felling and removal of trees by chain saw which is to be reported separately in classification 5001.

Special note: Classification 0301, "landscape construction," and classification 0308, "landscape maintenance," are not to be assigned to mowing and/or grooming of roadway median strips, roadsides, and power line right of ways.

WAC 296-17-503 Classification 0103.

0103-09 Drilling or blasting: N.O.C.

Applies to contractors engaged in drilling operations for others not covered by another classification (N.O.C.). Work contemplated by this classification includes, but is not limited to, well drilling for oil, gas or water; exploratory well drilling; and drilling of holes in rock for shot holes. Such drilling generally contemplates the digging of a hole using a rotating or pounding type tool. Equipment used by drilling contractors includes earth auger drills, jackhammers, drilling rigs, and bits which will vary in size depending upon the terrain or material to be drilled and the depth and size of holes to be drilled. This classification also includes blasting operations not covered by another classification (such as the blasting of rock in connection with highway, street or road construction).

This classification excludes drilling operations performed in connection with concrete or building construction which is to be reported separately in the construction classification applicable for the work being performed; drilling done in connection with all types of underground or surface mining and quarry operations which is to be reported separately in the applicable mining classification; and blasting performed as part of building demolition which is to be reported separately in classification 0506.

0103-10 Geophysical exploration: Seismic detection of the mechanical properties of the earth

Applies to establishments engaged in geophysical exploration, by seismic detection, of the earth's subsurface. Work contemplated by this classification involves a seismograph work crew consisting of a party chief, a permit person, a surveyor, drillers, shooters, observers and a computer analyst. The seismic method utilizes a dynamite blast that simulates a miniature earthquake. The recorder of the vibrations is the sensitive earthquake detector which records the intense vibrations on a rapidly moving tape. The data collected from the tapes and photographic records are interpreted and a contour map of the rocks and their foundation to depths of several thousand feet is developed.

This classification excludes geophysical exploration without seismic detection which is to be reported separately in classification 1007.

WAC 296-17-504 Classification 0104.**0104-12 Dredging, N.O.C.**

Applies to contractors engaged in providing dredging services to others that are not covered by another classification (N.O.C.). Work contemplated by this classification includes cleaning, deepening or widening a body of water such as a harbor or other waterway. Scooping or suction machinery is generally employed in the dredging process to remove sand, clay, mud or other material from the body of water that is being dredged.

This classification excludes diving operations which are to be reported separately in classification 0202; underground mining operations which are to be reported separately in classification 1702; and dredging for the production of sand, gravel, or shale which is to be reported separately in classification 0112.

Special note: Dredging projects could occur on or adjacent to navigable waters (a harbor, river, canal) which is defined as those which form a continuous highway for interstate or international commerce. Workers who perform the work activities from a vessel could be subject to the Admiralty Law which recognizes such work crews and workers as a master or member of a vessel, and subject to federal law known as the Jones Act. Every person on board a vessel is deemed a seaman if connected with the operation while on navigable water. The term vessel has been interpreted by the courts to include any type of man-made floating object such as a floating derrick or dredge, or type of pontoon which is a flat bottom boat or portable float. Workers who perform the work activities from the shoreline or from adjacent areas such as an existing dock or bridge may or may not be subject to federal law covered under the U.S. Longshore and Harbor Workers Act. Usually, dredging projects involve a variety of types of work crews such as those working from a floating derrick or dredge, a pontoon, a shoreline dredge, workers who are on shore distributing the discharged material, as well as the maintenance and repair of the dredge and equipment. Care should be exercised prior to assignment of this classification as the workers could be subject to either or both of these acts. The criteria used in determining federal law and coverage is based on the most current federal court decisions and case law.

WAC 296-17-505 Classification 0105.**0105-13 Fence erection or repair: N.O.C.; parking meter installation; and placement of wire mesh on slopes for slope protection**

Applies to contractors engaged in the erection and repair of all types of metal, wood, plastic, or vinyl fences not covered by another classification (N.O.C.). Work contemplated by this classification includes the use of a tractor with a propelled auger, or a mechanical or manual post hole digger. The poles or posts are set in the ground with small quantities of sand, gravel or concrete. Occasionally, a fence contractor

may pour a concrete footing around the perimeter of the fence to be constructed. Work of this nature, when done in connection with a fence construction project, is included within the scope of this classification. This classification also includes the installation or removal of entire parking meter units, and the placement of wire mesh on slopes for slope protection.

This classification excludes contractors engaged in the erection or repair of brick, masonry or stone fences or planters which are to be reported separately in classification 0302; erection or repair of concrete fences or planters which are to be reported separately in classification 0217; and service or repair of parking meters which is to be reported separately in classification 0606.

Special note: It is common for contractors subject to this classification to sell kennel kits, fence repair parts and fencing materials. Sales of fencing materials by a fence contractor are included in classification 0105. Classifications 2009, 6309 or similar store classifications are not to be assigned to a contracting business.

WAC 296-17-50601 Classification 0107.**0107-00 Utility line construction: Underground, N.O.C.**

Applies to contractors engaged in underground utility line or cable construction that is not covered by another classification (N.O.C.). Work contemplated by this classification includes the installation and maintenance of underground television cable, power, and telephone line including main, extension, and outside service connection lines. Installation of these types of utilities usually occurs at a depth of 3' or less. This classification includes digging narrow trenches, laying pipe or conduit, laying line or cable, and filling or backfilling trenches. In some instances automatic equipment is used which in one operation opens the trench, lays the line and backfills. Equipment used by contractors subject to this classification includes backhoes, mechanical or manual trench diggers, automatic equipment and dump trucks.

This classification excludes land or road clearing and excavation which is to be reported separately in classification 0101; overhead television, power, or telephone lines including poles or towers which are to be reported separately in classification 0509 or the applicable utility company classification; asphalt surfacing/resurfacing which is to be reported separately in classification 0210 or 0212; concrete construction which is to be reported separately in the applicable concrete construction classification(s); and construction specialty services including the installation of guardrails, lighting standards and striping which is to be reported separately in classification 0219.

0107-01 Pipelaying, N.O.C.

Applies to contractors engaged in underground pipelaying or pipeline construction not covered by another classification (N.O.C.). Work contemplated by this classification includes the installation and maintenance of underground gas, oil or water main construction, and other pipelines such as those extending cross country. Installation of these types of pipes usually occurs at a depth of approximately 3'. This classification includes digging narrow trenches, laying pipe, making connections, and filling or backfilling trenches. This classification includes machinery and equipment such as backhoes, mechanical or manual trench diggers, and dump trucks.

This classification excludes land or road clearing and excavation which is to be reported separately in classification 0101; construction of sewer lines and drainage systems, canals, ditches, underground tanks generally occurring at a depth greater than 3' which are to be reported separately in classification 0108; asphalt surfacing/resurfacing which is to be reported separately in classification 0210 or 0212 as applicable; concrete construction which is to be reported separately in the applicable concrete construction classification(s); and construction specialty services such as the installation of guardrails, lighting standards and striping which is to be reported separately in classification 0219.

WAC 296-17-50602 Classification 0108.**0108-00 Ditches and canals, N.O.C.**

Applies to contractors engaged in the construction of ditches and canals not covered by another classification (N.O.C.). A ditch or canal consists of a long trench dug in the ground that will remain uncovered to serve as an artificial waterway or artificially improved river such as for irrigation, drainage, or a boundary line. Work contemplated by this classification includes digging of main irrigation canals or drainage ditches and all laterals extending from the canal or ditch, installation of pipe, making connections as needed, and filling or backfilling as needed. Equipment used by contractors subject to this classification includes a variety of machinery and equipment such as power shovels, backhoes, bulldozers, dump trucks, and mechanical or hand tool trench diggers.

This classification excludes asphalt surfacing/resurfacing which is to be reported separately in classification 0210 or 0212, and concrete construction which is to be reported separately in the applicable concrete construction classification(s).

0108-01 Sewer construction; septic tank installation

Applies to contractors engaged in the construction or repair of new or existing sewer lines and systems. This

includes, but is not limited to, sewers, cesspools, drainpools, storm drains, and septic tanks including the drainfield construction. Work contemplated by this classification includes the installation and maintenance of all types of storm, sanitary or sewage lines and systems. Installation of these types of pipelines and systems occur entirely, or in part, at a depth greater than 3'. This classification includes such activities as excavation, trench digging, leveling trench with fill material such as sand or gravel, filling or backfilling, installation of force main type sewage work, the installation of storm sewer lines including the outfall construction of drain concrete boxes, catch basins, manholes, handling and laying of pipe (regardless of the size of pipe or depth below the ground), making connections, etc. Equipment used by contractors subject to this classification includes a variety of machinery and equipment such as power shovels, backhoes, bulldozers, dump trucks, and mechanical or manual trench diggers.

This classification excludes side sewer hookups (street to house) when performed by a plumbing contractor as part of a plumbing contract which is to be reported separately in classification 0306; and sewer pipe cleaning including services engaged in line cleaning and unplugging of waste lines which is to be reported separately in classification 0306.

0108-02 Tanks, N.O.C. - underground: Installation, repair, or removal

Applies to contractors engaged in the installation, repair or removal of underground tanks not covered by another classification (N.O.C.) such as those used to store gas or oil. Activities include excavating or digging of holes, placement or removal of tank, and filling or backfilling. This classification makes no distinction as to the size of tank being placed or removed. Usually, the actual lifting into or out of the ground occurs with the use of a power shovel, front end loader or backhoe. Equipment used by contractors subject to this classification includes a variety of earth moving equipment such as power shovels, front end loaders, backhoes, bulldozers, and dump trucks.

WAC 296-17-50603 Classification 0112.**0112-00 Commercial production of sand, gravel, clay and stone products**

Applies to establishments engaged in the production of sand, gravel, clay and stone products. Material may be excavated in an open or surface type pit at the production site, or from a mine or quarry operation. Sand, gravel and stone is washed, crushed, sorted, graded and screened. Sand or gravel in its natural state usually requires only screening with the larger stones being removed. The larger stones are crushed and rescreened. Clay is screened and graded. Refined prod-

ucts are stored in bins, hoppers, piles or yards prior to delivery by truck or rail to customers. This classification includes dealers who stockpile or store products in a yard type of environment prior to delivery to the customers when done in connection with the production of such products. Equipment includes, but is not limited to, scrapers, shovels, front end loaders, trucks, conveyors, jaw crushers, gyrators, roll crushers, and shaking tables.

This classification excludes establishments engaged in selling custom soil mixes, bark, decorative rock, sand, or gravel purchased from others which are to be reported separately in classification 1103.

Special note: Classifications 0112 and 1103 are not to be assigned to the same business unless all the conditions of the general reporting rule covering the operation of a secondary business have been met.

0112-01 Humus or peat digging

Applies to establishments engaged in the digging or stripping of humus or peat. Humus is a brown or black organic substance consisting of decayed vegetable matter that provides nutrients for plants and increases the water retention of soil. Peat is a partially carbonized vegetable matter found in bogs and used as fertilizer and fuel. Work contemplated by this classification involves stripping material from the surface or bogs with mechanical equipment such as, but not limited to, power shovels, scrapers, drag lines, clamshell diggers or cranes, and hydraulic dredges. The material is conveyed from the pit or bog to hoppers by trucks or belt conveyors. At times it is necessary to grade, screen and dry the material prior to storage or delivery to customers. This classification includes dealers who stockpile or store material in a yard type of environment prior to delivery to customers when done in connection with the digging or stripping of such products.

Special note: Classifications 0112 and 1103 are not to be assigned to the same business unless all of the conditions of the general reporting rule covering the operation of a secondary business have been met.

0112-02 Pit, crusher and bunker operations in connection with road, street and highway construction

Applies to establishments engaged in pit, crusher and bunker operations in connection with highway, street or roadway construction projects. Generally, this type of operation is located in close proximity to the project site and is only set up for the duration of the project. Work contemplated by this classification includes excavating open or surface pits, scraping or stripping the surface, crushing, and bunker (storage) of material. Products extracted from the pit or surface include boulders, stone, rock, gravel, aggregate, sand, dirt or clay. These products can be used directly without any further refinements or could be washed, sorted, crushed and/or screened. Products are stored in bunkers or piles until needed. These products are used in a variety of ways as part of the roadway project such as, but not limited to, making preliminary roads into an area, filling in low or uneven areas, use as natural barriers, and bringing the roadbed and surrounding areas to grade. Equipment includes, but is not limited to, power shovels, scrapers, bulldozers, front end loaders

(2003 Ed.)

and other earth moving equipment, trucks, conveyors, jaw crushers, gyrators, roll crushers, shaking tables, etc.

Special note: This classification excludes contractors that maintain a temporary pit, crusher or bunker operation when performed by a contractor engaged in additional phases of the same road, street or highway construction project which is to be reported separately in classification 0101.

0112-03 Sand, gravel, or shale: Digging, N.O.C.

Applies to establishments engaged in the digging or dredging of sand, gravel or shale that is not covered by another classification (N.O.C.). The material is excavated from surface pits with mechanical equipment such as power shovels, drag lines, clamshell diggers or cranes, or obtained from nonnavigable waters by means of hydraulic dredges, clamshell dredges, etc. The material is conveyed from the bank, pit or dredge to hoppers by trucks, belt conveyors, narrow gauge railroads or pipelines. It is then washed, graded, screened and stored in bins, hoppers, or piles prior to delivery by truck or rail to customers. Sand or gravel in its natural state usually requires only screening with the larger stones being removed. In some instances, the larger stones may be crushed and rescreened which is included in this classification. This classification includes dealers who stockpile or store material in a yard type of environment prior to delivery to customers when done in connection with the digging or stripping of such products.

This classification excludes underground mining operations which are to be reported separately in classification 1702.

Special note: Classifications 0112 and 1103 are not to be assigned to the same account unless all the conditions of the general reporting rule covering the operation of a secondary business have been met.

WAC 296-17-508 Classification 0201.

0201-01 Bridge, trestle, overhead crossing and viaduct: Construction, maintenance and repair

Applies to contractors engaged in the construction, maintenance or repair of bridges, trestles, overhead crossings and viaducts including the foundations and approaches. These types of structures provide a series of spans or arches, or a type of vertical and horizontal framework for a road or railroad passage over an obstacle such as a waterway, wide valley, other roads, or railroads. Work contemplated by this classification includes the construction of approaches, abutments, foundation supports, framework, and includes all concrete, iron or steel, timber, or carpentry work to completion of the project. The approach is the area of ground or roadway built up just before entering onto a structure such as a bridge or trestle. The abutments are the reinforced foundation supports at the end of the approach which will bear much of the weight for the structure. The erection of the structure usually begins at both ends of the approaches and abutments and gradually continues toward the center of the structure. This classification includes activities such as, but not limited to, the placement and securing of piles, beams and members by

[Title 296 WAC—p. 231]

way of boom or crane, forming columns, piers and supports, tying reinforcing steel, set-up and tear down of forms, pouring and finishing of concrete, installing precast deck supports, decking slabs and nonstructural members, constructing the retaining walls, erecting iron railings, and the installation of suspension cables and cable clamps. This classification also includes shaft sinking, pile driving, caisson and cofferdam work as it is considered an integral part of the structure's foundation and support.

This classification excludes asphalt surfacing/resurfacing on roadways which is to be reported separately in classification 0210 and concrete paving which is to be reported separately in classification 0214.

Special note: Care should be exercised prior to assignment of this classification as the workers could be subject to federal laws covered by the Jones Act or by the U.S. Longshore and Harbor Workers Act. A detailed description of these acts can be found in classifications 0104 or 0202.

0201-04 Breakwater, jetty, levee: Construction, maintenance and repair

Applies to contractors engaged in the construction, maintenance or repair of a jetty, levee or breakwater. These types of barriers or embankments are very similar to a dike, but involve substantially more construction in that they usually begin away from the water and extend into a body of water and are sometimes used as protection for a harbor to prevent adverse currents from interfering with shipping. Work contemplated by this classification involves building, protecting and/or filling in an embankment or barrier of a river, harbor or other body of water. The predominant activity involves earth moving or placing of fill or other material. This classification includes, but is not limited to, clearing of land, excavation, filling, and grading and involves earth moving equipment such as, but not limited to, drag lines, graders, scrapers, bulldozers, and dump trucks. Materials include, but are not limited to, dirt, sand, stones or boulders, concrete piles, timber or heavy timber cribbing filled with stones or boulders. Often, the barrier or embankment being built is seeded or paved in part with asphalt, concrete, soil, or cement to assist in strengthening the structure.

This classification excludes pile driving operations in connection with jetty, levee and breakwater operations which are to be reported separately in classification 0202, and asphalt surfacing/resurfacing which is to be reported separately in the classification applicable to the work being performed.

Special note: Care should be exercised prior to assignment of this classification as the workers could be subject to federal laws covered by the Jones Act or by the U.S. Longshore and Harbor Workers Act. A detailed description of these acts can be found in classifications 0104 or 0202.

0201-05 Bulkhead retaining walls: Construction, maintenance and repair, riprapping - all water hazard

Applies to contractors engaged in the construction, maintenance or repair of a bulkhead. A bulkhead is a wall or embankment constructed to protect against potential problems such as earth slides, erosion of banks alongside water, or excessive increases in the water level. Work contemplated

by this classification involves building, protecting and/or filling in a wall or embankment of a river, harbor or other body of water, or other areas of land. The predominant activity involves earth moving or placing of fill or other material. This classification includes, but is not limited to, clearing of land, excavation, filling, and grading. Equipment used by contractors subject to this classification includes, but is not limited to, drag lines, graders, scrapers, bulldozers, and dump trucks. Materials include, but are not limited to, dirt, sand, stones, boulders, concrete piles, timber or heavy timber cribbing filled with stones or boulders. Often, the wall or embankment being built, or if it already exists, is seeded or paved in part with asphalt, concrete, cement, or soil to assist in strengthening the structure. This classification includes riprapping work which is a loose assemblage of broken stones erected in water or on soft ground. Such stone serves as a fill-in material to assist with the building of a dike, levee, or bulkhead.

This classification excludes pile driving operations in connection with bulkhead construction operations which is to be reported separately in classification 0202, and asphalt surfacing/resurfacing which is to be reported separately in the classification applicable to the work being performed.

Special note: Care should be exercised prior to assignment of this classification as the workers could be subject to federal laws covered by the Jones Act or by the U.S. Longshore and Harbor Workers Act. A detailed description of these acts can be found in classifications 0104 or 0202.

0201-06 Concrete culverts; aluminum, steel, or other types of culverts over 12 feet

Applies to contractors engaged in the construction or placement of concrete culverts or other types of culverts greater than twelve feet in diameter. A culvert is a sewer or drain running under a road, embankment, or structure such as a bridge. Culverts can be made of material such as, but not limited to, concrete, aluminum, and galvanized steel. Their primary purpose is to channel excess water away from the road, embankment, or structure to assist in preventing water damage or flooding. Work contemplated by this classification includes excavation, laying of sand or gravel, placement of culverts, and filling in the site.

0201-08 Tunnels and approaches

Applies to contractors engaged in the construction of tunnels and approaches including the lining, cofferdam work, shaft sinking, and well digging with caissons. A tunnel is a passage through or under a barrier to be used as a roadway, railway or pedestrian walkway. The approach is the area of ground built up before the entrance of a tunnel or similar type of structure. Work contemplated by this classification includes, but is not limited to, the construction of approaches, shaft sinking, caisson and cofferdam work, boring, the framework or lining, and all concrete, iron or steel, timber, and carpentry work to completion of the project. In some instances, the initial phase of a tunnel project may require that the approaches and abutments be put in place. This may involve extensive excavation and fill work depending on how uneven the terrain is with the proposed tunnel entrances. The abutments are the reinforced foundation supports at the end of the approach and will bear much of the weight at the tunnel

entrances. Most often, the abutments will consist of metal beams or concrete with reinforced steel, that are placed vertically, horizontally or at an angle into the ground. The boring of the tunnel may include the removal of earth, rock and water with mechanical equipment, drilling and boring machines, rock drills and chippers, explosives, well drilling with caissons, and the need for pumps and drains piped to the outside of the bore. Occasionally, a cofferdam is erected which is a temporary structure from which water can be pumped or sucked to provide a dry work area during construction of the structure. Once the structural support is complete, the cofferdam is taken apart and removed. As the bore progresses steel I-beams are placed and horizontal beams or solid bar stock are bolted or welded for support. Shielding the bore between the I-beams requires bolting or welding steel plates to the beams. This is followed by filling the gaps between the face of the bore and the shielding with sand or concrete grout. Some tunnels will then be lined with concrete, steel or tile, and lighting, ventilation and drains may be installed.

This classification excludes underground mining operations which are to be reported separately in classification 1702, and asphalt surfacing/resurfacing or concrete paving which is to be reported separately in the classification applicable to the work being performed.

0201-09 Diking, N.O.C.

Applies to contractors engaged in the construction of dikes not covered by another classification (N.O.C.). A dike is a type of protective barrier or embankment which keeps a body of water such as a river in its proper channel and prevents the erosion of banks. Work contemplated by this classification involves building up and/or protecting the embankment. This classification includes, but is not limited to, earth moving work, assemblage of loose stone or rock, placement of sandbags or concrete piles, fill dirt or broken pieces of concrete, or building of crib work which may be filled in with stone or other types of fill. This classification also applies to diking or ditching work in connection with oil spill clean-up such as alongside a river bank or other shoreline.

This classification excludes pile driving operations which are to be reported separately in classification 0202.

Special note: Care should be exercised prior to assignment of this classification as the workers could be subject to federal laws covered by the Jones Act or by the U.S. Longshore and Harbor Workers Act. A detailed description of these acts can be found in classifications 0104 or 0202.

WAC 296-17-509 Classification 0202.

0202-02 Pile driving - wood or concrete piling construction

Applies to contractors engaged in pile driving and piling construction. Pile driving involves long sturdy posts or columns of timber, steel, or concrete being driven into the earth as a foundation or support for a structure such as a building,

(2003 Ed.)

pier or wharf. This type of activity usually occurs when a portion of the structure is going to be under water, in mud, at a site where the ground is soft or unstable, or when the structure is expected to be of extraordinary weight. Work contemplated by this classification includes driving wood or steel beams, driving concrete columns, shaft sinking or caisson work, stacking of concrete piles, erection of a cofferdam, and includes all cross beaming, decking, and similar carpentry incidental to, and connected with, pile driving operations as part of the foundation construction project. Shaft sinking is removal of earth from a hole with a relatively small diameter and usually at a considerable depth. The cofferdam is a temporary structure from which water can be pumped or sucked to provide a dry work area during construction of the foundation or substructure. Once the foundation support is complete, the cofferdam is taken apart and removed.

This classification excludes diving operations or activities which are to be reported separately in classification 0202-04.

Special note: Pile driving projects could occur on or adjacent to navigable waters (harbors, rivers, canals) which is defined as those which form a continuous highway for interstate or international commerce. Workers who perform the work activities from on board a vessel could be subject to the Admiralty Law which recognizes such work crews and workers as a master or member of a vessel, and subject to federal law known as the Jones Act. Every person on board a vessel is deemed a seaman if connected with the operation while on navigable water. The term vessel has been interpreted by the courts to include any type of man-made floating object such as a floating derrick, pile driver or dredge, a barge, or a pontoon (which is a flat bottom boat) or portable float. Workers who perform the work activities from the shoreline or from adjacent areas such as an existing dock, pier, or bridge may or may not be subject to federal law covered under the U.S. Longshore and Harbor Workers Act. Usually, pile driving projects involve a variety of types of work crews such as those working from a floating derrick or pile driver, a barge, a pontoon, a shoreline pile crew, workers inside the cofferdam, as well as the maintenance and repair of the construction material or equipment. Care should be exercised prior to assignment of this classification as the workers could be subject to either or both of these acts. The criteria used in determining federal law and coverage is based on the most current federal court decisions and case law.

0202-03 Wharf, pier, dock and marine railway: Construction, maintenance and repair

Applies to contractors engaged in the construction, maintenance or repair of piers, wharves, docks and marine railways. A pier or wharf is a platform extending from a shore over water and supported by piles or pillars. A dock is the area between two piers or alongside a pier or wharf. These types of platforms are for vessels to tie up and provide an area for loading, unloading, or repairing vessels. Most often, the construction of such platforms will include the foundation or substructure being under water or mud, and the remainder of the platform being exposed above the water or mud. Work contemplated by this classification includes, but is not limited to, construction of the foundation or substructure.

[Title 296 WAC—p. 233]

ture which consists of shaft sinking, pile driving, stacking of piles and/or erection of a cofferdam, and includes all concrete, steel or carpentry work after the foundation or substructure is built to completion of the project. Shaft sinking involves the removal of earth from a hole with a relatively small diameter and usually at a considerable depth. Pile driving involves long sturdy posts or columns of timber, steel, or concrete being driven into the earth as a foundation or support for the structure. The cofferdam is a temporary structure from which water can be pumped or sucked to provide a dry work area during construction of the foundation or substructure. Once the foundation support is complete, the cofferdam is taken apart and removed. This classification also includes caisson work as part of the construction for the foundation or substructure support.

This classification excludes diving operations or activities which are to be reported separately in classification 0202-04.

Special note: The construction of piers, wharves, docks and marine railways could occur on or adjacent to navigable waters (harbors, rivers, canals) which is defined as those which form a continuous highway for interstate or international commerce. Workers who perform the work activities from on board a vessel could be subject to the Admiralty Law which recognizes such work crews and workers as a master or member of a vessel, and subject to federal law known as the Jones Act. Every person on board a vessel is deemed a seaman if connected with the operation while on navigable water. The term vessel has been interpreted by the courts to include any type of man-made floating object such as a floating derrick, floating barge, a pontoon (which is a flat bottom boat) or portable float. Workers who perform the work activities from the shoreline or from adjacent areas such as an existing dock, pier, or bridge may or may not be subject to federal law covered under the U.S. Longshore and Harbor Workers Act. Usually, these types of projects involve a variety of work crews such as those working from a floating derrick or barge, a pontoon, a shoreline pile crew, workers inside the cofferdam, as well as the maintenance and repair of the construction material or equipment. Care should be exercised prior to assignment of this classification as the workers could be subject to either or both of these acts. The criteria used in determining federal law and coverage is based on the most current federal court decisions and case law.

0202-04 Diving operations and subaqueous work, N.O.C.

Applies to establishments engaged in diving operations not covered by another classification (N.O.C.). Diving operations such as underwater diving, skin diving or scuba diving are performed in numerous types of uncontrolled environments such as the ocean, harbors, bays, dams, lakes, as well as controlled environments such as swimming pools or aquarium tanks. Work contemplated by this classification includes, but is not limited to, marine salvage and wreckage, underwater mining and sweeping, underwater construction or demolition, installation, repair and/or inspection of wharves, piers, and docks, inspection of ships, barges, and other vessels, subaqueous harvesting of geoduck, sea cucumbers, or similar marine life, underwater exploration, as well as diving instruction. Classification 0202 includes all diving activities

with the following exception: Diving instructors who provide instructional lessons in a controlled environment such as a swimming pool may be reported separately in classification 6209 provided accurate time records are maintained for the instructional lesson hours. Failure to maintain accurate time records will result in the hours in question being assigned to classification 0202 without a division of hours between the two classifications.

Special note: Many diving operations and activities occur on or adjacent to navigable waters (a harbor, river, canal, dam, lake) which is defined as those which form a continuous highway for interstate or international commerce. Workers who perform diving activities (to include divers, deck hands, or "diving tenders" who are support personnel such as line handlers and pump persons) from on board a vessel could be subject to the Admiralty Law which recognizes such work crews and workers as a master or member of a vessel, and subject to federal law known as the Jones Act. Every person on board a vessel is deemed a seaman if connected with the operation while on navigable water. The term vessel has been interpreted by the courts to include any type of man-made floating object such as a floating derrick or dredge, a boat or ship, a barge, or type of pontoon (which is a flat bottom boat) or portable float. Workers who perform diving activities (to include divers, deck hands, or "diving tenders" who are support personnel such as line handlers and pump persons) from the shoreline or from adjacent areas such as an existing dock, pier or bridge may or may not be subject to federal law covered under the U.S. Longshore and Harbor Workers Act. Care should be exercised prior to assignment of this classification as the workers could be subject to either or both of these acts. The criteria used in determining federal law and coverage is based on the most current federal court decisions and case law.

WAC 296-17-50908 Classification 0210.

0210-00 Asphalt paving or surfacing: Highway, street or roadway

Applies to contractors engaged in forms of asphalt paving or surfacing, resurfacing, scraping, sawing, cutting or patching operations performed on or in connection with new or existing highway, street, or roadway projects including approaches and bridges. The process begins after the roadbed or roadside grade has already been established and the subsurface or sub base has been prepared. Work contemplated by this classification is limited to laying crushed stone, placement of expansion joints, application of oil or other adhesive bonding materials, and the surface spreading and rolling of crushed aggregate. Equipment used by a contractor subject to this classification includes, but is not limited to,

scrapers, graders, rollers, paving machinery, oil trucks and dump trucks.

This classification excludes preliminary roadbed or roadside construction such as clearing of right of ways, establishing grades, subsurfaces or sub bases which is to be reported separately in classification 0101; asphalt surfacing/resurfacing not in connection with highway, street or roadway projects which is to be reported separately in classification 0212; construction specialty services such as the installation of guardrails, lighting standards and striping which is to be reported separately in classification 0219; and concrete construction which is to be reported separately in the classification applicable to the work being performed.

WAC 296-17-50910 Classification 0212.

0212-00 Asphalt paving or surfacing, N.O.C.

Applies to contractors engaged in asphalt paving or surfacing not in connection with highway, street, or roadway projects not covered by another classification (N.O.C.). This classification covers all forms of asphalt paving or surfacing, resurfacing, scraping, sawing, cutting or patching operations not in connection with highway, street, or roadway projects such as, but not limited to, parking lots, airport runways and landing strips, driveways, walking paths, bicycle trails, tennis courts, playgrounds, and golf cart paths. The process begins after the land grade has already been established and the subsurface or sub base has been prepared. Work contemplated by this classification includes the laying of crushed stone, placement of expansion joints, application of oil or other adhesive bonding materials, and the surface spreading and rolling of crushed aggregate. Equipment used by a contractor subject to this classification includes, but is not limited to, scrapers, graders, rollers, paving machinery, oil trucks and dump trucks. This classification also applies to the application of various types of cushion surfaces for playgrounds.

This classification excludes the preliminary clearing of land, establishing grades, subsurfaces or sub bases which are to be reported separately in classification 0101; asphalt surfacing/resurfacing in connection with highway, street, or roadway projects which is to be reported separately in classification 0210; application of asphalt sealant to roadways and parking lots which is to be reported separately in classification 0219; application of asphalt sealant to driveways which is to be reported separately in classification 0504-06; construction specialty services such as the installation of guardrails, lighting standards and striping which are to be reported separately in classification 0219; and concrete construction which is to be reported separately in the classification applicable to the work being performed.

WAC 296-17-50912 Classification 0214.

0214-00 Concrete paving and repaving: Highways, streets or roadways

(2003 Ed.)

Applies to contractors engaged in concrete paving and repaving of highways, streets, or roadways including approaches and bridges. This classification covers all forms of concrete paving, repaving, scraping, sawing, drilling or cutting operations in connection with a highway, street or roadway project, including the construction of curbs, gutters, sidewalks, median walls and retaining walls when performed as part of the roadway paving or repaving project. The process begins after the roadbed or roadside grade has already been established and the subsurface or sub base has been prepared. Work contemplated by this classification includes the laying of crushed stone, placement of reinforcing steel or expansion joints, grading or rolling stone base, set-up and tear down of forms, pouring, and finishing of concrete. Equipment used by a contractor subject to this classification includes, but is not limited to, scrapers, graders, rollers, paving machinery, water trucks and dump trucks.

This classification excludes preliminary roadbed or roadside construction such as clearing right of ways, establishing grades, subsurfaces or sub bases which are to be reported separately in classification 0101; asphalt paving, surfacing/resurfacing which is to be reported separately in the classification applicable to the work being performed; concrete flatwork not in connection with highway, street, or roadway projects which is to be reported separately in classification 0217; and construction specialty services such as the installation of guardrails, lighting standards and striping which are to be reported separately in classification 0219.

0214-01 Concrete curbs, gutters, and sidewalks: Construction and repair in connection with highways, streets or roadways

Applies to contractors engaged in the construction or repair of concrete curbs, gutters, and sidewalks in connection with highways, streets, or roadways including approaches and bridges. The process begins after the roadbed or roadside grade has already been established and the subsurface or sub base has been prepared. Work contemplated by this classification includes the set-up and tear down of forms, placement of reinforcing steel or expansion joints, and the pouring and finishing of concrete.

This classification excludes preliminary roadbed or roadside construction such as clearing right of ways, establishing grades, subsurfaces or sub bases which are to be reported separately in classification 0101; asphalt paving, surfacing/resurfacing which is to be reported separately in the classification applicable to the work being performed; concrete flatwork not in connection with highway, street, or roadway projects which is to be reported separately in classification 0217; and construction specialty services such as the installation of guardrails, lighting standards and striping which are to be reported separately in classification 0219.

0214-02 Concrete median walls and retaining walls: Construction and repair in connection with highways, streets or roadways

Applies to contractors engaged in the construction or repair of concrete median (divider) walls and retaining walls in connection with highway, street, or roadway projects including approaches and overpasses. The process begins

[Title 296 WAC—p. 235]

after the roadbed or roadside grade has already been established and the subsurface or sub base has been prepared. Work contemplated by this classification includes the set-up and tear down of forms, placement of reinforcing steel or expansion joints, and the pouring and finishing of concrete to form median or divider walls, median strips, or retaining walls alongside the roadway.

This classification excludes the preliminary land excavation of a retaining wall area, as well as roadbed or roadside construction such as clearing right of ways, establishing grades, subsurfaces or sub bases which are to be reported separately in classification 0101; asphalt paving, surfacing/resurfacing which is to be reported separately in the classification applicable to the work being performed; concrete flatwork not in connection with highway, street, or roadway projects which is to be reported separately in classification 0217; and construction specialty services such as the installation of guardrails, lighting standards and striping which are to be reported separately in classification 0219.

0214-03 Concrete sawing, drilling, and cutting: In connection with highways, streets or roadways

Applies to contractors engaged in concrete sawing, drilling and cutting in connection with concrete highway, street, or roadway projects including concrete curbs, gutters, sidewalks, median walls and retaining walls. These activities occur on new or existing roadway and related projects such as, but not limited to, the sawing, cutting and drilling for manholes, drainage grates, poles or posts, exposing underground utility lines and systems, and repairing defective areas.

This classification excludes preliminary roadbed or roadside construction such as clearing right of ways, establishing grades, subsurfaces or sub bases which is to be reported separately in classification 0101; asphalt paving, or surfacing/resurfacing which is to be reported separately in the classification applicable to the work being performed; concrete flatwork not in connection with highway, street, or roadway projects which is to be reported separately in classification 0217; and construction specialty services such as the installation of guardrails, lighting standards and striping which are to be reported separately in classification 0219.

[Statutory Authority: RCW 51.16.035, 98-18-042, § 296-17-50912, filed 8/28/98, effective 10/1/98; 96-12-039, § 296-17-50912, filed 5/31/96, effective 7/1/96.]

WAC 296-17-50915 Classification 0217.

0217-00 Concrete flatwork - construction and/or repair: N.O.C.

Applies to contractors engaged in the construction and/or repair of concrete flatwork not covered by another classification (N.O.C.) such as, but not limited to, walkways, pathways, fences, and curbing. Work in this classification includes the set-up and tear down of forms, placement of reinforcing steel and wire mesh, and the pouring and finishing of concrete.

This classification excludes land clearing and excavation which is to be reported separately in classification 0101; concrete work performed on or in connection with highway, street, or roadway projects including sidewalks, curbs, gut-

ters, median or retaining walls, sawing, drilling, or cutting operations which is to be reported separately in classification 0214; and concrete work contained within a concrete, masonry, iron or steel frame building or structure such as the foundation, floor slabs, precast or poured in place bearing floors or wall panels, columns, pillars, metal erection or any other portion of the building or structure itself which is to be reported separately in classification 0518.

0217-01 Concrete foundation and flatwork construction and repair: Wood structural buildings

Applies to contractors engaged in the construction and/or repair of concrete foundation and flatwork for wood structural buildings not to exceed three stories in height. This classification includes the set-up and tear down of forms, placement of reinforcing steel and wire mesh, pouring, and finishing of concrete footings, stem walls, floor pads, cellar or basement floors, garage floors, swimming pools and ponds. This includes incidental concrete work such as walkways or driveways when performed by a foundation contractor.

This classification excludes land clearing and excavation which is to be reported separately in classification 0101; concrete work performed on or in connection with highway, street, or roadway projects including sidewalks, curbs, gutters, median or retaining walls, sawing, drilling, or cutting operations as part of the roadway which is to be reported separately in classification 0214; and concrete work contained within a concrete, masonry, iron or steel frame building or structure such as the foundation, floor slabs, precast or poured in place bearing floors or wall panels, columns, pillars, metal erection or any other portion of the building or structure itself which is to be reported separately in classification 0518.

0217-02 Concrete sawing, drilling and cutting, N.O.C.

Applies to contractors engaged in concrete sawing, drilling and cutting not covered by another classification (N.O.C.), including repairs. Work contemplated by this classification includes concrete sawing, drilling and cutting operations in connection with wood frame and nonwood frame buildings or structures, including flatwork such as, but not limited to, foundations, walkways, driveways, patios and swimming pools which may or may not be part of the building or structure. Activities include, but are not limited to, the sawing, cutting and drilling for ventilation boxes in the footings or stem walls, cut outs for windows or door ways, preparation to mount brackets for stairways or interior bearing walls, cutting interior walls as part of a building renovation project, cut outs for electrical and switch boxes, and repairing defective areas.

This classification excludes concrete sawing, drilling, and cutting operations performed on or in connection with highway, street, or roadway projects including sidewalks, curbs, gutters, median or retaining walls as part of roadways which are to be reported separately in classification 0214; bridge construction which is to be reported separately in classification 0201; and new dam construction which is to be reported separately in classification 0701.

WAC 296-17-50917 Classification 0219.

0219-00 Construction specialty services, N.O.C.

Applies to contractors engaged in the installation or removal of highway, street, or roadway lighting, signs, guardrails, roadside reflectors, lane buttons or turtles, or lane markers not covered by another classification (N.O.C.). Usually, these activities occur as finishing touches after new or existing roadways are paved or surfaced. Roadway lighting includes traffic signal lights, and halogen or mercury vapor lights mounted to metal standards erected alongside the roadway. Signs (such as speed limit, road condition, city and town mile destination) are mounted on overpasses or on wood or metal poles erected alongside the roadway. Guardrails include metal barriers mounted on wood or metal poles driven into the roadside shoulder. Lane markers, lane buttons or turtles consist of small reflectors, or chips of plastic or concrete attached to the road with an adhesive bonding material. This classification includes the related hook-up of power to the light standard.

This classification excludes the installation of power lines that feed into power poles which is to be reported separately in the applicable construction classification for the work being performed.

Special note: This classification excludes exterior sign erection, repair, or removal not in connection with displaying highway, street, or roadway information or conditions even though such signs may be erected or placed alongside roadways (such as advertisement bill boards, business, or personal property signs) which is to be reported separately in classification 0403.

0219-01 Construction specialty services

Applies to contractors engaged in specialty services such as the painting or striping of highways, streets, roadways, or parking lots not covered by another classification (N.O.C.). This classification includes painting, striping, numbering, or lettering highways, streets, roadways, parking lots, parking garages, airport runways, taxi ways, curbs, roadway dividers or median strips, and special traffic areas such as fire, bus, handicap, and no parking zones. The paint or other material used for these markings is usually applied to the surface using a mechanical device, either self-propelled or towed by a truck or other motor vehicle. In some instances, the paint will be applied manually with brush or roller which is included in this classification. This classification includes the application of asphalt sealants to roadways or parking lots. This classification also includes concrete barrier installation, in connection with road construction, by a concrete barrier rental business or by a flagging contractor who also supplies the concrete barriers. This includes the flaggers who are necessary during the installation of the barriers as well as any flaggers the company supplies to the road construction project itself.

This classification excludes the interior painting of buildings which is to be reported separately in classification 0521, the exterior painting of buildings or structures which is

to be reported separately in classification 0504; application of asphalt sealant to driveways which is to be reported separately in classification 0504-06; the rental of the concrete barriers and other flagging equipment which is to be reported separately in classification 6409; and flaggers who are not employed by a concrete barrier rental business or by a flagging contractor who also supplies the concrete barriers which are to be reported separately in classification 7116 or 7118 as appropriate.

WAC 296-17-510 Classification 0301.

0301-04 Lawn type sprinkler systems: Installation, service or repair

Applies to contractors engaged in the installation, service or repair of lawn type sprinkler systems. This type of activity is performed by landscaping contractors, plumbing contractors, and irrigation specialist contractors. Generally, lawn type sprinkler systems are installed at private residences or commercial businesses. The process involves identifying the area of land to be covered to determine the size and amount of pipe and sprinkler heads needed for the job. The installation involves cutting a trench in the ground (12" to 18" deep and wide enough to accommodate the pipe) with a vibrating plow or pipe pulling machine. Next, pipe is laid in the trench, glued, or otherwise joined, heads and canisters are installed, and the timer is hooked up. The system is checked for leaks, needed adjustments are made, and the pipe and heads are buried.

This classification excludes open canal type irrigation systems which are to be reported separately in classification 0108; the installation, service or repair of above or below ground agricultural/irrigation systems which is to be reported separately in classification 0301-06; and maintenance and cleaning of lawn sprinkler system pipes and heads done in connection with a landscape maintenance contract which is to be reported separately in classification 0308.

0301-06 Agricultural sprinkler/irrigation systems, N.O.C.: Installation, service or repair

Applies to contractors engaged in the installation, service or repair of above or below ground agricultural sprinkler and irrigation systems not covered by another classification (N.O.C.). The more common types of systems include below ground, fixed or movable, and wheel or impulse. Generally, these types differ from lawn sprinkler systems in that the size of pipes and pumps installed are much larger to produce the water pressure needed to irrigate large areas of land. Installation of below ground systems involves the use of trenching equipment to dig trenches, which are usually more than two feet deep to lay pipe. The above ground systems are laid out and assembled based on the need of the land area.

This classification excludes open canal type irrigation systems which are to be reported separately in classification 0108, and the installation, service or repair of lawn type sprinkler systems which is to be reported separately in classification 0301-04.

0301-08 Landscape construction operations, N.O.C.

Applies to landscape contractors engaged in new landscape construction or renovation projects not covered by another classification (N.O.C.). This classification also applies to specialist contractors engaged in the installation of invisible fences which are usually used to confine animals within a given area. Landscape construction work contemplated by this classification includes producing a preliminary drawing of the landscape or renovation project, preparing the ground (which may include tilling and spreading top soils or custom mix soils), installing sprinkler systems, planting trees, plants or shrubs, planting or replanting grass from seed or sod, installing ground cover material or plastic to retard weeds, placement of concrete borders, and the incidental construction of rockery, fences, ponds, paths, walkways, arbors, trellis and gazebos when performed by employees of a landscape contractor as part of a landscape contract. Such activities conducted separately from a landscape contract and not part of the landscape project are to be reported separately in the classification applicable to the work being performed. Equipment used by contractors subject to this classification includes, but is not limited to, tractors with till attachments, small front end loaders, trenchers, mowers, fertilizer spreaders, wheelbarrows, and electric power tools.

Invisible fence construction work contemplated by this classification includes identifying the land area to be fenced, sketching a preliminary drawing, burying the wire in a narrow trench (about 1" wide by 2" to 6" deep) that has been dug along the field perimeter (or just securing the wire onto the ground around the perimeter), and connecting end of wire to a low voltage transmitter box (usually about the size of a hand-held calculator) that plugs into a 110 volt electrical outlet. This classification includes training sessions for the animal and related maintenance and repair at the customer's location. Equipment used to install invisible fences includes, but is not limited to, rakes or other hand tools, and small trench diggers.

This classification excludes all grading, clearing, or contouring of land which is to be reported separately in classification 0101; bulkheads not adjacent to water, or similar structures built of rock, which are to be reported separately in classification 0302; and lawn care maintenance or chemical spraying or fumigating which is to be reported separately in classification 0308.

WAC 296-17-511 Classification 0302.**0302-01 Brick, block, rock and slate work, N.O.C.**

Applies to contractors engaged in interior or exterior brick, block, rock and slate work not covered by another clas-

sification (N.O.C.). Included in this classification are projects related to sidewalks, walkways, driveways, patios, steps, pads for wood stoves, flower or planting boxes, fences, inlay for fireplaces, countertops, buffets, full or partial interior or exterior walls, and includes the construction of entire buildings or structures with brick, block or rock products. Work contemplated by this classification includes, but is not limited to, laying and cutting and/or polishing brick, block, rock, slate, marble, granite, and adhering with mortar or tuck pointing (filling and/or finishing brickwork or stonework joints with cement or mortar).

This classification excludes plastering, stuccoing or lathing work which is to be reported separately in classification 0303; tile setting which is to be reported separately in classification 0502; and concrete work which is to be reported separately in the classification applicable to the work being performed.

0302-02 Masonry, N.O.C.

Applies to contractors engaged in interior or exterior masonry work not covered by another classification (N.O.C.), including chimney and fireplace construction. This classification includes lining or relining fireplace walls or boxes, chimneys, blast furnaces, ovens, firepits, and setting tombstones. Work contemplated by this classification includes, but is not limited to, laying and cutting brick or stone, and tuck pointing (filling and/or finishing brickwork or stonework joints with cement or mortar).

This classification excludes plastering, stuccoing or lathing work which is to be reported separately in classification 0303; tile setting which is to be reported separately in classification 0502; and concrete work which is to be reported separately in the classification applicable to the work being performed.

WAC 296-17-51101 Classification 0303.**0303-00 Plastering, stuccoing and lathing buildings, N.O.C.**

Applies to contractors engaged in interior and exterior plastering, stuccoing and lathing work on buildings or structures not covered by another classification (N.O.C.). Work contemplated by this classification includes the lathing work which involves nailing thin wood or metal strips and wire mesh or Styrofoam panels to studs or joists to support the application of plaster or stucco, mixing of plaster or cement with water, and applying the mixture by hand trowel or low pressure spray apparatus to the lathing material.

This classification excludes masonry or brick work which is to be reported separately in classification 0302; interior painting which is to be reported separately in classification 0521; exterior painting which is to be reported separately in classification 0504; and concrete work which is to be

reported separately in the classification applicable to the work being performed.

WAC 296-17-512 Classification 0306.

0306-00 Plumbing, N.O.C.

Applies to contractors engaged in plumbing work not covered by another classification (N.O.C.). Work contemplated by this classification includes activities such as, but not limited to, rough-in plumbing work as part of new or remodel projects, placement of pipe (plastic, copper or galvanized), cutting and/or threading pipe, soldering, welding or gluing all types of pipe, fittings or valves, installation of fixtures (sinks, showers and tubs, faucets), installation of appliances (dishwashers, hot water tanks, refrigerators with ice and water dispensers), and other necessary plumbing activities in connection with water supplies, water carrying, dispensing, or drainage systems. This classification includes incidental side sewer hook ups (street to house) when performed by a plumbing contractor subject to this classification, and only when it is performed as a part of a plumbing contract which includes installation of waste lines and waste carry systems within a building; and sewer pipe cleaning including services provided by service providers engaged in cleaning or unplugging waste lines.

This classification excludes side sewer hook ups performed as part of an excavation contract which are to be reported separately in classification 0101, and underground water line or water main construction which is to be reported separately in classification 0107.

Special note: This classification includes the installation of display areas or showrooms which provide prospective customers an opportunity to inspect the quality of workmanship and products carried by the contractor. Generally, displays or showrooms are installed where the contractor stores his materials. It is common for contractors subject to this classification to sell plumbing fixtures and supplies, but the intent of these areas is not to sell products to walk-in customers. Sale of these products by a plumbing contractor is included in classification 0306. Classifications 2009, 6309, or similar store classifications are not to be assigned to a contractor's business. Employees engaged exclusively in showing the display areas or showrooms to customers are to be assigned classification 6303 provided the conditions of the standard exception general reporting rule have been met.

0306-02 Automatic sprinkler systems or fire extinguishing systems: Installation, service or repair within buildings

Applies to contractors engaged in the installation, service or repair of automatic sprinkler or fire extinguishing systems within buildings. Work contemplated by this classification includes installation of pipe, fittings, couplings, valves, hangers, regulators, and alarms in ceilings, walls and floors, and cutting and/or threading pipe. These systems are usually equipped to release dry chemicals or water automatically when the surrounding temperature exceeds a predetermined limit.

(2003 Ed.)

This classification excludes contractors engaged in the installation, service or repair of outside lawn type and agricultural/irrigation sprinkler systems who are to be reported separately in classification 0301, and contractors engaged in all types of general plumbing installation or repair work who are to be reported separately in classification 0306-00.

0306-03 Boilers, steam pipes, water pipes, heating ducts: Installation of covering insulation

Applies to contractors engaged in the installation of insulated covering on boilers, steam pipes, water pipes and heating ducts to help them retain heat. A boiler is a type of enclosed storage tank erected within a building which heats and circulates extremely hot water or converts hot water into steam. Contractors subject to this classification may also install water jets inside the tanks.

This classification excludes contractors primarily engaged in the erection of boiler tanks who are to be reported separately in classification 0306-04, and the removal of asbestos from boilers which is to be reported separately in classification 0512.

0306-04 Boilers, N.O.C.: Installation, service or repair

Applies to contractors engaged in the installation, service or repair of boilers not covered by another classification (N.O.C.), including boiler scaling and tank erection within buildings. A boiler is a type of enclosed storage tank erected within a building which heats and circulates extremely hot water or converts hot water into steam. Work contemplated by this classification includes the erection and/or installation of the boiler or tank (which is above ground), pipes, tubing, ducts, heating units, valves, headers, jets and insulation coverings. Also included is the process of boiler scaling which is the removal of scales or residue from the tank or pipes using chemicals, steam or mechanical methods.

This classification excludes contractors primarily engaged in covering a boiler and pipes with insulation covering who are to be reported separately in classification 0306-03, and the erection of exterior tanks which is to be reported separately in classification 0508.

0306-05 Pump installation, service or repair, N.O.C.

Applies to contractors engaged in the installation, service or repair of pumps related to water or waste carrying systems, and which are not covered by another classification (N.O.C.). Work contemplated by this classification applies to all types of water or sump pumps in connection with residential or commercial settings, water wells, and irrigation and drainage systems. A pump is a device that siphons or transfers material from one source or container to another. Activities include pump installation or repair services related to a building's water lines and water carrying systems, plumbing fixtures, dispensers, swimming pools and hot tubs, water wells, and agricultural or irrigation systems.

This classification excludes the installation of water pumps in connection with drilling operations which is to be reported separately in classification 0103; the installation or repair of service station pumps which is to be reported separately in classification 0603; and contractors engaged in all types of general plumbing installation or repair work who are to be reported separately in classification 0306-00.

[Title 296 WAC—p. 239]

0306-06 Water softening or treatment systems - installation of new equipment systems

Applies to establishments engaged in the installation of plumbing lines for new water conditioning, purifying or softening systems. Establishments providing this type of service are not required to be a "licensed plumber" to do the installation; however, it does involve plumbing work. The installation involves cutting the water line between the water source and the building or home. The line is cut with a hacksaw, reciprocating saw, or copper tube cutter, depending on the type of pipe involved. After the line is cut, the water source is connected to the intake of the system and the building or home is connected to the outlet of the system with supply and return lines. The bypass unit will allow the water to remain hard for the outside faucet. A small rubber hose is installed under the house into the drain. Occasionally, a sump pump is needed. For plastic pipes, glue is used to seal the connections. On copper pipes, soldering equipment is used to secure the connections. Water softening is a process by which the water passes through a resin tank where calcium ions are exchanged for sodium ions, resulting in "soft" water. Periodically, the resin is recharged by "back flushing" with a saturated salt solution from another tank. Installations of this type include the two tanks, pressure regulators, valves, and in new facilities an automatic timer.

Special note: This classification allows for the service or repair of water softening or treatment systems to be reported separately in classification 0607 provided accurate time records are maintained which distinguishes new installation contract work from service or repair contract work.

0306-07 Hot water heater: Installation, service or repair

Applies to contractors engaged exclusively in the installation, service or repair of hot water heater units. Work contemplated by this classification includes removal of old units and the installation of new or replacement units. This includes activities such as disconnecting hot heater units, removal of plastic, copper or galvanized water pipes, installing or setting up new or replacement units, installing new pipes, cutting and/or threading pipe, soldering, welding or gluing all types of pipe, fittings or valves, filling and testing the new or replacement units, and wrapping hot water heaters with insulation blankets.

This classification excludes contractors engaged in all types of general plumbing work, or when the installation, service or repair of a hot water heater unit is performed as part of a general plumbing contract which is to be reported separately in classification 0306-00.

WAC 296-17-513 Classification 0307.**0307-01 Furnaces and heating systems: Installation, service or repair**

Applies to contractors engaged in the installation, service, or repair of furnaces and heating systems, including duct work, in all types of residential and commercial settings. These services are generally performed by furnace contractors, heating and ventilation contractors, or sheet metal contractors. Work contemplated by this classification includes the fabrication, erection, installation and duct work performed at the job site. Materials include, but are not limited to, gas or electric furnace units, heater units, heat pumps, air purification systems, fireplace inserts or units, hot water tanks, thermostats, flat sheets of metal, vents, preformed or bent venting duct and pipe, vent collars and reels, fittings, galvanized pipe, insulation wrap, concrete pads and gas logs. Contractors who operate a sheet metal fabrication shop or who prefabricate the duct systems in a shop away from the construction site are to be assigned classification 3404 for the shop fabrication work. When a contractor's business is assigned classification 3404 for shop operations, then classification 5206, "Permanent yard or shop," is no longer applicable to the contractor's business for the storage of materials or repair to equipment.

This classification excludes sheet metal fabrication shops which are to be reported separately in classification 3404; duct cleaning work which is to be reported separately in classification 1105; installation or repair of ventilation, air conditioning and refrigeration systems which is to be reported separately in classification 0307-04; or the installation of wood stoves which is to be reported separately in classification 0307-05.

Special note: This classification includes the installation of display areas or showrooms which provide prospective customers an opportunity to inspect the quality of workmanship and products carried by the contractor. Generally, displays or showrooms are installed where the contractors store their materials. It is common for contractors subject to this classification to sell furnace and heating system materials and accessories, but the intent of these areas is not to sell products to walk-in customers. Sales of these products by a furnace and heating systems contractor are included in classification 0307. Classification 2009, 6309, or similar store classifications, are not to be assigned to a contracting business. Employees engaged exclusively in showing the display areas or showrooms to customers are to be assigned classification 6303 provided the conditions of the standard exception general reporting rule have been met.

0307-04 Ventilating, air conditioning and refrigeration systems: Installation, service or repair, N.O.C.

Applies to contractors engaged in the installation, service, or repair of ventilating, air conditioning and refrigeration systems not covered by another classification (N.O.C.), including duct work at the job site in all types of residential and commercial settings. These services are generally performed by heating and ventilation contractors, refrigeration contractors, or sheet metal contractors. Work contemplated by this classification includes the fabrication, erection, installation and duct work performed at the job site. Materials

include, but are not limited to, air conditioning units, refrigeration systems, air purification systems, hoods and protective metal covers, hot water tanks, flat sheets of metal, vents, preformed or bent duct portions, vent collars and reels, thermostats, fittings, galvanized pipe, insulation wrap, and concrete pads. This classification includes the installation or repair of built-in vacuum systems and air (pneumatic) tube systems, such as those at drive-up teller windows. Contractors who operate a sheet metal fabrication shop or who prefabricate the duct systems in a shop away from the construction site are to be assigned classification 3404 for the shop fabrication work. When a contractor's business is assigned classification 3404 for shop operations, then classification 5206 "Permanent yard or shop" is no longer applicable to the contractor's business for the storage of materials or repair to equipment.

This classification excludes sheet metal fabrication shops which are to be reported separately in classification 3404; installation or repair of furnace or heating systems which is to be reported separately in classification 0307-01; and the installation of wood stoves which is to be reported separately in classification 0307-05.

Special note: This classification includes the installation of display areas or showrooms which provide prospective customers an opportunity to inspect the quality of workmanship and products carried by the contractor. Generally, displays or showrooms are installed where the contractors store their materials. It is common for contractors subject to this classification to sell ventilating and air conditioning equipment and materials, but the intent of these areas is not to sell products to walk-in customers. Sales of these products by a ventilating and air conditioning contractor are included in classification 0307. Classifications 2009, 6309, or similar store classifications, are not to be assigned to a contracting business. Employees engaged exclusively in showing the display areas or showrooms to customers are to be assigned classification 6303 provided the conditions of the standard exception general reporting rule have been met.

0307-05 Wood, pellet, or gas stove: Installation, service or repair

Applies to contractors engaged in the installation, service or repair of wood, pellet or gas stoves in all types of residential and commercial settings. Work contemplated by this classification includes the fabrication, installation and duct work performed at the job site. Materials include, but are not limited to, wood, gas or pellet stoves, inserts, heater units, protective metal covers or hoods, gas fireplace logs, preformed or bent venting duct and pipe, or vents and vent collars. Contractors who operate a sheet metal fabrication shop or who prefabricate the duct systems in a shop away from the installation site are to be assigned classification 3404 for the shop fabrication work. When a contractor's business is assigned classification 3404 for the shop operations, then classification 5206, "Permanent yard or shop," is no longer applicable to the contractor's business for the storage of materials or repair to equipment.

This classification excludes wood stove and accessory stores which are to be reported separately in classification 6309; stove manufacturing which is to be reported separately in classification 5209; sheet metal fabrication shops which

are to be reported separately in classification 3404; brick or masonry work which is to be reported separately in classification 0302; and the installation or repair of furnace or heating systems which is to be reported separately in classification 0307-01.

Special note: This classification includes the installation of display areas or showrooms which provide prospective customers an opportunity to inspect the quality of workmanship and products carried by the contractor. Generally, displays or showrooms are installed where the contractors store their materials. It is common for contractors subject to this classification to sell wood stove installation materials and accessories, but the intent of these areas is not to sell products to walk-in customers. Sales of these products by a wood stove installation contractor are included in classification 0307. Classifications 2009, 6309, or similar store classifications, are not to be assigned to a contracting business. Employees engaged exclusively in showing the display areas or showrooms to customers are to be assigned classification 6303 provided the conditions of the standard exception general reporting rule have been met.

WAC 296-17-51301 Classification 0308.

0308-00 Chemical spraying and fumigating

Applies to establishments engaged in providing chemical spraying and fumigating services only to established residential landscaping and commercial properties. Work contemplated by this classification includes, but is not limited to, the application of various liquid and granular chemicals (fertilizers, herbicides, pesticides, insecticides, iron, nitrogen, slow release food stakes) for use on grass, plants, shrubs, flowers, trees, moss, ivy or weeds. Employees of establishments subject to this classification arrive at the location site in a tank truck equipped with a premixed solution that is dispensed with a spray hose, or by fertilizer spreaders, injection guns, and back pack dispensers.

This classification excludes chemical spraying of roadway median strips by nonmunicipal employees adjacent to state, city or town roadways which is to be reported separately in classification 0101; chemical spraying done in connection with forest roads or reforestation projects which is to be reported in the applicable forestry classification; pest and termite control which is to be reported separately in classification 6602; chemical spraying and fumigating by employees of cities, counties, state agencies, or other municipalities which is to be reported in the classification applicable to the type of municipality performing the work; chemical spraying of agricultural farms or orchards which may be reported separately in classification 4808 or in the agricultural classification applicable to the employer's operation; and crop dusting by aircraft which is to be reported separately in classification 6903.

0308-01 Lawn care maintenance

Applies to contractors engaged in maintenance of established lawns and gardens. Work contemplated by this classification includes, but is not limited to, mowing and thatching lawns, edging, weeding flower beds, raking, rototilling gardens, application of fertilizers, and spraying and trimming of shrubs. Also included is minor landscape renovation and/or restoration activities incidental to, and performed as part of, the lawn care maintenance contract for an existing lawn or landscape such as the removal and replacement of plants, turf repair or reseeded of grass, and the spreading of decorative rock, topsoil, or bark. This classification includes replacement of sprinkler heads and cleaning of lawn type sprinkler systems only when performed in connection with and incidental to the lawn care maintenance contract. Equipment used by contractors subject to this classification includes, but is not limited to, riding or power lawn mowers, power sweepers, edgers, thatchers, weed eaters, grass blowers, fertilizer spreaders, sprayers, gas or electric power tools, and hand tools.

This classification excludes new landscape construction which is to be reported separately in classification 0301; tree care and pruning services which are to be reported separately in classification 0101; grading, clearing, or contouring of land which is to be reported separately in classification 0101; installation, service or repair of lawn type sprinkler systems which is to be reported separately in classification 0301; and the installation, service or repair of above or below ground agricultural irrigation systems which is to be reported separately in classification 0301.

Special notes: Classifications 0308 and 0301 may be assigned to the same business provided that the conditions of the general reporting rule covering the operation of a secondary business have been met.

Care should be exercised in the assignment of this classification when tree services are included. Tree care service contracts generally call for the radical topping, pruning or cutting of tree limbs to remove or eliminate a hazard to buildings, property, or power lines. Tree trimming as part of this classification is only for the purpose of shaping and maintaining healthy trees and to control size for the visual relationship to other landscape material.

WAC 296-17-516 Classification 0403.**0403-00 Sign: Erection, repair, and/or removal, including related painting and maintenance**

Applies to contractors engaged in the erection, repair, and/or removal of signs, including related painting and maintenance. Signs include, but are not limited to, commercial business or personal property signs, advertisement billboards, poster panels erected at commercial or residential properties, private properties, buildings or structures, or open spaces. Signs may be made of wood, metal, plastic, glass, or neon tube. Free standing sign erection process begins with digging or drilling holes in which to stand or set poles or posts. The sign is attached to the pole or post prior to stand-

ing or is lifted with a boom or crane to be mounted and secured. Other signs are mounted and secured directly to buildings or structures. This classification includes the related electrical hook-up work to install neon and digital signs such as those located at banks and stores including the maintenance, repair, and painting of signs at the customer's location or at the contractor's shop.

This classification excludes the installation or removal of highway, street, or roadway signs that specify roadway information (such as speed limits, road conditions, city and town mile destinations) which are mounted on overpasses or erected alongside the roadway which are to be reported separately in classification 0219; the placement of temporary signs which is to be reported separately in classification 4910; or the manufacturing of signs which is to be reported separately in the applicable classification.

0403-10 Sign painting or lettering outside buildings or structures, N.O.C.

Applies to contractors engaged in sign painting or lettering outside buildings or structures not covered by another classification (N.O.C.), and includes all contractor's shop operations. Generally, this classification involves specialty lettering or painting such as, but not limited to, business logos, addresses, business hours or phone numbers, murals or other artwork.

This classification excludes contractors engaged in the installation or removal of highway, street, or roadway signs that specify roadway information (such as speed limits, road conditions, city and town mile destinations) which are mounted on overpasses or erected alongside the roadway which are to be reported separately in classification 0219; striping parking lots and painting curbs (and numbering on curbs) which is to be reported separately in classification 0219; sign painting or lettering inside of buildings, including inside murals or other artwork, which is to be reported separately in classification 4109; exterior painting of buildings or structures which are to be reported separately in classification 0504; painting or lettering in connection with an automotive body shop which is to be reported separately in classification 3412; and the erection, repair or removal of outdoor signs which is to be reported separately in classification 0403-00.

0403-11 Street and building decoration: Hanging or removing flags or bunting

Applies to establishments engaged in hanging or removing flags or bunting for conventions, celebrations, events, or similar decorations on the exterior or interior of buildings, structures, or streets. Buntings are strips of decorative cloth which may be used to span a roadway to promote events, as overhead streamers at an auto sales lot, or as a sign hung on a building to advertise grand openings.

This classification excludes the manufacture of flags or bunting which is to be reported separately in the applicable classification.

WAC 296-17-517 Classification 0502.**0502-04 Rug, linoleum, tile and other floor or drainboard covering: Installation or removal**

Applies to contractors engaged in the installation or removal of floor or drainboard coverings such as, but not limited to, rugs, wall to wall carpet, linoleum, vinyl, laminate, tile, parquet or astroturf in residential or commercial settings. Work contemplated by this classification includes, but is not limited to, the installation and/or removal of foam or rubber padding, floor coverings such as rugs or carpet, tack strips, door strips, subflooring (particle board or plywood), linoleum, vinyl, base board or door strips, and hauling existing floor covering debris away. This classification also includes the installation of counter tops and the installation of clay or ceramic tiles on drainboards and backsplashes.

This classification excludes contractors engaged in the installation of counter tops as part of an interior finish carpentry or cabinetry contract which is to be reported separately in classification 0513; the installation of hardwood floors which is to be reported separately in classification 0513; the installation of decorative brick, slate, marble or granite which is to be reported separately in classification 0302; installation of roofing tiles which is to be reported separately in classification 0507; and floor covering stores which are to be reported separately in the applicable classification.

WAC 296-17-519 Classification 0504.**0504-06 Waterproofing, N.O.C.: Buildings or structures**

Applies to contractors engaged in waterproofing buildings or structures not covered by another classification (N.O.C.). This classification includes the application and repair services of waterproofing material to all types of buildings or structures, regardless of height, including, but not limited to, foundations and foundation walls, floors, decks, fences, walkways and driveways. Waterproof material is applied to a variety of surfaces such as wood, concrete, asphalt, steel, metal, plaster, or stone. There are several types of waterproof processes: Membrane, which adheres long strips of rubber and pumice to exterior walls or foundations with the use of primer; pressure injection, which uses a long wand inserted into the ground to fill cracks; epoxy injection, which is performed on the interior or exterior with use of a caulk gun to inject a silicon material into cracks; or application with use of a brush, roller or spray directly onto the surface. This classification includes the application of asphalt sealant to driveways.

This classification excludes excavation work performed in conjunction with a waterproofing contract which is to be reported separately in classification 0101; waterproofing operations performed in connection with roofing or subaqueous work which is to be reported separately in the classification applicable to the work being performed; the application of asphalt sealant or waterproof materials to roadways and

parking lots which is to be reported separately in classification 0219; and the application of waterproof materials performed by a concrete contractor as part of the concrete construction project which is to be reported separately in the classification applicable to the work being performed.

Special note: Classification 0101 applies when excavation work is performed (to remove dirt away from a foundation wall or to push it against the wall after the waterproofing material is applied) regardless of the type of contractor performing the excavation work.

0504-18 Pressure washing services or sandblasting, N.O.C.: Buildings or structures

Applies to contractors engaged in pressure washing or sandblasting buildings or structures, not covered by another classification (N.O.C.). This classification includes cleaning, washing, pressure washing or sandblasting buildings or structures. These services are performed to remove dirt, moss, rust or old paint from buildings or structures. Pressure washing involves a forced spray of air and water to remove unwanted surface materials, whereas, sandblasting, or abrasive blasting, involves a forced spray of sand, steel, or glass. This classification includes the cleaning of roofs, gutters, and downspouts, the removal of moss or snow from multiple story buildings, and the cleaning of ceiling tiles. Pressure washing and sandblasting systems include portable blast and pressure cleaning machines, hand-operated, cabinet-type sandblasting or pressure washing machines, automatic blast or pressure cleaning machines and wet-blast cleaning machines.

This classification excludes contractors engaged in multimedia blasting in shop which is to be reported separately in classification 3402; pressure washing or sandblasting by a painting contractor as a part of the preparation for painting exterior buildings, structures, or the interior/exterior of tanks which is to be reported separately in the classification 0504-21; pressure washing as a part of interior building painting contracts which is to be reported separately in classification 0521; cleaning or washing roofs, or removing snow from, single story buildings (provided the cleaning or washing is not part of a painting or roofing contract) which is to be reported separately in classification 6602; waterproofing buildings or structures, N.O.C. which is to be reported separately in classification 0504-06; and pressure washing or sandblasting operations performed in conjunction with and as a part of another type of business such as a foundry, metal goods manufacturer, auto body repair shop, etc., which is to be reported separately in the applicable classification.

0504-20 Lead abatement

Applies to contractors engaged in lead abatement which is performed on structures where there are significant amounts of lead-based paint and lead dust. Contractors must comply with various governmental regulations. The first step in all lead abatement projects is the preliminary testing of the site to determine the presence of lead and the extent of the contamination. If the ground surrounding the proposed worksite is contaminated, it will require remediation, which is done by a soil remediation contractor who is to be reported separately in the appropriate classification. The next step is deciding which abatement procedure is right for the project

such as: Encapsulation which is used on interior surfaces to seal the lead-based paint with a bonding material; enclosure which is used on interior and exterior surfaces and involves constructing special airtight enclosures made out of gypsum wallboard, plywood paneling, aluminum, vinyl or wood exterior sidings; component replacement which involves removing building components such as paneling, moldings, windows and doors which are coated with lead-based paint and replacing them with new components; and chemical removal, abrasive removal or handscraping which are methods to physically remove the lead paint. This classification includes all preparation work and all cleanup work.

This classification excludes soil remediation work which is to be reported separately in classification 0101; asbestos abatement which is to be reported separately in classification 0512; and lead abatement as part of a painting contract for interior/exterior of buildings or structures, or the interior/exterior of tanks which is to be reported separately in the applicable classification.

0504-21 Painting: Exterior buildings or structures, N.O.C.; Cleaning: Interior/exterior of oil or gas storage tanks, beer vats, and sewage treatment tanks

Applies to contractors engaged in painting the exterior of all types of buildings or structures not covered by another classification (N.O.C.), regardless of height. Buildings and structures include, but are not limited to, bridges, towers, smokestacks, stadiums, factories, warehouses, stores, churches, and residential or commercial single or multiple story buildings. Paint is applied by brush, roller or spray to a variety of surfaces such as wood, concrete, steel, metal, plaster, stone, or other types of exterior surfaces. This classification includes all preparation work such as the set up of scaffolding or power lifts, pressure washing, removal of old paint or asbestos, sandblasting, taping or masking, and cleanup work. This classification also applies to cleaning, coating, or painting the interior/exterior of oil or gas storage tanks, beer vats, or sewage treatment tanks.

This classification excludes contractors engaged in waterproofing buildings or structures, N.O.C. which are to be reported separately in classification 0504-06; pressure washing services or sandblasting of buildings or structures which are to be reported separately in classification 0504-18; interior painting of buildings which is to be reported separately in classification 0521; painting of murals or other artwork on the interior of buildings which is to be reported separately in classification 4109; and painting of murals or other artwork on the exterior of buildings which is to be reported separately in classification 0403.

WAC 296-17-52001 Classification 0506.

0506-03 Building raising, moving and underpinning

Applies to contractors engaged in raising, moving and underpinning buildings. Work contemplated by this classification includes a variety of services involving the change of a building's elevation, location or support structure including incidental shoring and removal or rebuilding of walls, foundations, columns or piers. Employees of the contractor responsible for the overall completion of the project are to be reported in this classification. *Underpinning* is a process to correct wall cracks, foundation settling or collapse of a building or structure. Generally, underpinning involves one of two methods. In the first method, earth around a foundation is removed to permit construction of a new foundation to replace the old one or to allow for the installation of subfoundations to support the existing earth. This would include masonry or concrete work, blasting (when required) and shoring of surrounding ground and building or structure to prevent cave-ins while foundation work is being performed. The second method deals with steel or wooden beams being inserted through a lower point of the building or structure. The beams are raised and supported by jacks until the foundation is relieved of some or all of its ground pressure. *Building raising or moving* is a process to change a building's position, either raised to a new elevation in place or moved to a new site, or both. Workers, subcontractors or utility companies will first disconnect all utilities from the building or structure to be moved. Workers will remove all detachable items and open foundation walls to allow metal or wood beams to be placed under the floor structure. Once beams are placed, hydraulic jacks are used to lift the building or structure clear of the old foundation high enough for a new foundation to be constructed, or high enough to allow the carrying vehicle (trailer) to be placed under the beams if it is to be moved. The trailer is moved along a previously graded and cleared path to the new location. The building or structure is then set down on a new foundation which is usually constructed by a separate contractor. Miscellaneous repair work is performed and utilities are reconnected.

This classification excludes contractors engaged in clearing paths, grading and excavation work who are to be reported separately in classification 0101; contractors who disconnect or hook-up underground gas, water or power lines who are to be reported separately in classification 0107; contractors who construct concrete foundations for wood frame or nonwood frame buildings who are to be reported separately in classification 0217, or in classification 0518 as applicable; and contractors engaged in the delivery and set up of factory built housing units who are to be reported separately in classification 0517.

0506-04 Building wrecking or demolition

Applies to contractors engaged in wrecking or demolishing buildings or structures. Work contemplated by this classification includes incidental sales of materials, burning or hauling away of debris, and incidental ground clearing activities at the site to permit other use of land. Wrecking and demolition involves barricading the site and walkways to keep nonconstruction workers out of the area to prevent possible injury to them. Guards, watchmen, and traffic control-

lers (flaggers) are on-site and in adjacent areas to keep work areas secure. Work hours are occasionally restricted to avoid interference with surrounding business activities. Salvage of materials is usually done by hand. Loading of trucks with debris is by chute or front end loaders. Actual demolition of a building or structure is performed in a variety of ways, including dismantling board by board, by crane (pulling sections to the ground), by crane equipped with a steel ball which is swung from the boom of the crane, or by explosives. Employees of the contractor responsible for the overall completion of the project are to be reported in this classification.

This classification excludes security guards employed by contractors to guard the job site before or after the construction work activity hours who are to be reported separately in classification 6601; establishments primarily engaged in selling salvaged building materials which are to be reported separately in classification 2009; and all types of wood frame and nonwood frame building construction, remodeling, or repair work which is to be reported separately in the applicable classification.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-52001, filed 8/28/98, effective 10/1/98; 85-24-032 (Order 85-33), § 296-17-52001, filed 11/27/85, effective 1/1/86; 83-24-017 (Order 83-36), § 296-17-52001, filed 11/30/83, effective 1/1/84; 82-24-047 (Order 82-38), § 296-17-52001, filed 11/29/82, effective 1/1/83.]

WAC 296-17-52002 Classification 0507.

0507-05 Roofwork construction and repair

Applies to contractors engaged in the installation or repair of roofing material on all types of new or existing buildings or structures. Roofing materials include, but are not limited to, felt roofing paper, rolled composition, wood, fiberglass or composition shingles or shakes, aluminum or sheet metal, masonry or ceramic tile, tar, and polyurethane foam. Installation of roofing materials varies with the product. Wood, fiberglass and composition shingles are nailed; masonry, slate or ceramic tiles require drilling, nailing or cementing; polyurethane foam is applied by spray then coated with a protective layer of paint-like material; hot tar requires melting in tanks, usually at ground level, then it is pumped or raised by bucket to the roof top and applied by spray or mop; cold apply uses an adhesive to bond roofing membranes to form a roofing system; cold tar is applied by brush, spray or mop; single ply involves large sheets of roofing material which are unrolled on the roof with edges overlapping and seamed; and metal roofing is seam welded or nailed. For purposes of this classification the term "roofwork" includes repairs to the subroof such as the replacement of trusses, rafters, supports, and sheathing, but excludes the placement of trusses, rafters, supports or sheathing on new building construction. Essentially, when removing the existing roof material from an existing building or structure it is not uncommon to find dry rot or deterioration to parts of the subroof. The repair of the subroof is part of the roof repair or replacement project and is included in this classification. By contrast, when a subroof is constructed on new buildings or structures, this activity is to be reported separately in the classification applicable to the work being performed such as 0510 for wood frame construction or 0518 for nonwood frame construction.

(2003 Ed.)

This classification excludes roof cleaning, moss or snow removal on single story buildings not incidental to, or part of, a roofing contract which is to be reported separately in classification 6602; roof cleaning or moss removal of multiple story buildings not incidental to, or part of, a roofing contract which is to be reported separately in classification 0504; the installation of gutters and downspouts which is to be reported separately in classification 0519; waterproofing parts of buildings other than roofs which is to be reported separately in classification 0504 and/or 0101; placing roof trusses, rafters, supports and sheathing on new wood frame buildings which is to be reported separately in classification 0510; the application of polystyrene strips used as insulation on mobile homes which is to be reported separately in classification 0512; and placing roof trusses, rafters, supports and sheathing on new buildings, N.O.C. which is to be reported separately in classification 0518.

WAC 296-17-521 Classification 0508.

0508-00 Radio, television, cellular or water towers, poles and towers, N.O.C.: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of iron, steel, or wood radio, television, cellular or water towers, poles, towers and those towers which are not covered by another classification (N.O.C.). Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the foundation/excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation, on-site fabrication and assembly of parts, erecting the frame, installation of scaffolding, raising structural members by crane and welding or bolting them into place, and the installation, removal, service and/or repair of antennas, dish units and/or other transmitting/receiving apparatus to the structure. This classification also includes the delivery of material and supplies to the job site when done by employees of an employer having operations subject to this classification.

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification; and the construction of a control building or installation of a modular control building which is to be reported separately in the applicable construction classification.

Special note: This classification does not allow the separate reporting of excavation or foundation work irrespective of who performs the work. This classification includes spe-

[Title 296 WAC—p. 245]

cialty contractors who install, remove, service or repair antennas, dish units and/or other transmitting/receiving apparatus to a structure covered by this classification.

0508-01 Smokestack: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of iron, steel or concrete smokestacks. These structures are part of an industrial complex and facilitate the discharge of combustion vapors, gases, or smoke. Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation, on-site fabrication and assembly of parts, installation of scaffolding, raising segments into place with a crane and welding or bolting them into place. This classification includes the delivery of material and supplies to the job site and installation of any apparatus onto a structure covered by this classification when done by employees of an employer having operations subject to this classification.

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the installation of machinery which is to be reported separately in classification 0603; preliminary clearing of land by a contractor who is not also excavating the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification; and the construction of a control building or installation of a modular control building which is to be reported separately in the applicable construction classification.

Special note: This classification does not allow separate reporting of excavation or foundation work irrespective of who performs the work.

0508-02 Windmill and silo: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of iron, steel or wood windmills or silos. Windmills use the force of wind passing around the rotor blades to turn turbines and produce electric power. These may be built individually or in groups known as "wind farms." Additional apparatus and storage batteries are housed in separate buildings nearby. Silos are large cylindrical structures used to store grain or fodder (silage). They are filled through the top by means of a conveyor. Within the structure, augers and pumps can move the grain to blend, aerate, or feed it out the chute. Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation, on-site fabrication and assembly of parts, erecting the frame, installation of scaffolding, raising structural members by crane and welding or bolting them into place. This classification includes the delivery of material and supplies to the job site and the installation of apparatus onto a structure covered

by this classification when done by employees of an employer having operations subject to this classification.

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the installation of machinery which is to be reported separately in classification 0603; the preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification; and the construction of a control building or installation of a modular control building which is to be reported separately in the applicable construction classification.

Special note: This classification does not allow the separate reporting of excavation or foundation work irrespective of who performs the work.

0508-03 Oil still or refinery: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of oil stills or refineries. These facilities are basically composed of multi-story storage tanks, chimneys, pipelines, separating apparatus and steam generating systems. They receive unprocessed petroleum (crude oil) and convert it into usable products such as gasoline, kerosene, wax, grease and chemical feed stocks. Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation and other concrete, on-site fabrication and assembly of parts, erecting framework, installation of scaffolding, raising structural members by crane and welding or bolting them into place. This classification includes the delivery of material and supplies to the job site and the installation of apparatus in an oil still or refinery when done by employees of an employer having operations subject to this classification.

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the installation of machinery which is to be reported separately in classification 0603; preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification; and the construction of control or pump houses and other buildings not part of the main processing plant which is to be reported separately in the applicable construction classification.

Special note: This classification does not allow separate reporting of excavation or foundation work irrespective of who performs the work and plant maintenance contract work which is to be reported separately in classification 0603.

0508-04 Blast furnace and metal burners: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of blast furnaces and metal burners. These are tall, very heavy gauge, cylindrical

cal steel structures in which heated air and combustible fuels are combined to produce the heat necessary to separate the usable material in metal ores from the waste products. Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation, on-site fabrication and assembly of parts, erecting the frame, installation of scaffolding, installation of a brick lining, raising structural members by crane and welding or bolting into place. This classification includes the delivery of material and supplies to the job site and the installation of apparatus onto a structure covered by this classification when done by employees of an employer having operations subject to this classification.

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the installation of machinery which is to be reported separately in classification 0603; the preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification; and the construction of additional buildings as part of an ore reduction or metal producing facility which is to be reported separately in the applicable construction classification.

Special note: This classification does not allow separate reporting of excavation or foundation contractors irrespective of who performs the work.

0508-08 Elevated railway, tram, lift or similar conveyances: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of elevated railways, trams, lifts or similar conveyances. An elevated railway can be a full scale railroad or a smaller scale system such as a recreational monorail. For the purposes of this classification, trams are overhead cable cars, and lifts are similar to the typical ski lift. Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation, on-site fabrication and assembly of parts, erecting frames and supports (metal or concrete), installation of scaffolding, raising structural members by crane and welding or bolting them into place, and installing and securing tracks, cables or pulley systems. This classification includes the delivery of material and supplies to the job site and the installation of apparatus onto a structure covered by this classification when done by employees of an employer having operations subject to this classification.

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the installation of machinery which is to be reported separately in classification 0603; the preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a mate-

rial supplier or a common carrier which is to be reported separately in the applicable classification; or the construction of a control building or installation of a modular control building which is to be reported separately in the applicable construction classification.

Special note: This classification does not allow separate reporting of excavation or foundation contractors irrespective of who performs the work.

0508-09 Exterior tanks, N.O.C.: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of all types of exterior tanks not covered by another classification (N.O.C.). These tanks may be part of water storage and distribution systems, chemical or petroleum processing and storage operations, or other industrial applications. This classification includes the erection or construction of tanks that are elevated on structural piers and those that rest on the ground. These tanks may be constructed singly or in groups known as "tank farms" which are common to the petroleum industry. Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation, on-site fabrication and assembly of parts, erecting the frame, installation of scaffolding, and raising structural members by crane and welding or bolting them into place. This classification includes the delivery of material and supplies to the job site and installation of apparatus onto a structure covered by this classification when done by employees of an employer having operations subject to this classification.

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the installation of machinery which is to be reported separately in classification 0603; the preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification; and the construction of a control building or installation of a modular control building which is to be reported separately in the applicable construction classification.

Special note: This classification does not allow separate reporting of excavation or foundation contractors irrespective of who performs the work.

0508-11 Crane or derrick: Installation, construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the installation, construction or erection, dismantling, maintenance or repair of nonmobile cranes and derricks for commerce and industrial use. Cranes and derricks can be very similar in that they are both defined as machines for hoisting and moving heavy objects through the use of stationary or movable booms equipped with cables. An object, sometimes weighing many tons, can be secured to the cables and moved into position along the length of a stationary boom or to another location within the reach of a movable boom. A derrick, however, can

also be a permanent framework over an opening, such as an oil-drilling operation, to support boring equipment. The cranes included in this classification are those that are permanently installed at a marine port, cargo handling facility or an industrial facility to move supplies, cargo containers, or heavy objects (vertically or horizontally) that are being assembled and must pass through the length of a building to complete the process. Work contemplated by this classification includes, but is not limited to, the placement of forms and reinforcing steel for a foundation (in the case of some structures described above, the additional reinforcing required to support the crane is usually contemplated in the plan for the building's foundation where the crane is being anchored), on-site fabrication and assembly of parts, erecting the frame, installation of scaffolding, raising structural members by hoist and welding or bolting them into place. This classification includes the delivery of material and supplies to the job site and installation of apparatus onto a structure covered by this classification when done by employees of an employer having operations subject to this classification.

This classification excludes the installation of machinery which is to be reported separately in classification 0603; the preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; and delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification.

Special note: This classification does not allow separate reporting of excavation or foundation contractors irrespective of who performs the work.

0508-12 Water cooling towers or structures - metal or wood: Construction or erection, dismantling, maintenance or repair

Applies to contractors engaged in the construction or erection, dismantling, maintenance or repair of metal or wood water cooling towers or vertical structures. These structures are usually part of an industrial complex in which water is used as a cooling element in a manufacturing process. The water, which absorbs heat from the machinery being cooled, can be circulated and reused after it has been channeled through a cooling tower to be chilled sufficiently. A common design allows the hot water to tumble down numerous open louvers or steps to lower its temperature. These towers are often composed of prefabricated parts which are delivered to the site and then assembled by bolting or welding together, then the necessary motors, pipes, fans and pumps are installed. Work contemplated by this classification includes, but is not limited to, clearing of land (if done by the excavation contractor), excavating for the foundation, the placement of forms, installation of reinforcing steel, pouring and finishing the foundation, on-site fabrication and assembly of parts, erecting the frame, installation of scaffolding, raising structural members by crane and welding, bolting or otherwise fastening them into place. This classification includes the delivery of material and supplies to the job site and installation of apparatus onto a structure covered by this classification when done by employees of an employer having operations subject to this classification.

[Title 296 WAC—p. 248]

This classification excludes the felling of timber which is to be reported separately in the applicable logging classification; the installation of machinery which is to be reported separately in classification 0603; the preliminary clearing of land by a contractor who is not also excavating for the foundation which is to be reported separately in classification 0101; delivery of material to the site by employees of a material supplier or a common carrier which is to be reported separately in the applicable classification; and the construction of other related buildings at the project site which is to be reported separately in the applicable construction classification.

Special notes: This classification does not allow separate reporting of excavation or foundation irrespective of who performs the work. Construction of a water cooling structure that uses a horizontal rather than tower-like design is to be reported separately in classification 0518.

WAC 296-17-52101 Classification 0509.

0509-00 Overhead telephone or telegraph lines: New construction or extension of lines - including poles or towers; erection, maintenance or repair by contractor

Applies to contractors engaged in the construction, maintenance or repair of overhead telephone or telegraph lines, poles and towers. Work contemplated by this classification includes, but is not limited to, clearing a right of way (excluding logging-type operations), boring holes for poles to be set in, installing cross arms, insulators and brackets on poles (which may be wood or metal), setting poles or towers into position, installing guy wires if necessary, stringing the lines, incidental tree topping, tying into the low-voltage power source, and making service connections when done by employees of an employer having operations subject to this classification. Towers may be of a solid wall, cylindrical steel construction or of a fabricated steel cross member design reaching a height of about 50 feet, and are secured to a concrete pad or set into the ground. They may be used to elevate the lines to cross long distances or to support microwave antennae or receivers.

This classification excludes specialty contractors engaged in any single phase of the work described above: Land clearing and grading operations which are to be reported separately in classification 0101; erection of poles or towers which is to be reported separately in classification 0508; drilling holes which is to be reported separately in classification 0103; tree topping which is to be reported separately in classification 0101; service connections which are to be reported separately in classification 0608; underground

(2003 Ed.)

telephone line installation which is to be reported separately in classification 0107; and the felling of timber which is to be reported separately in the applicable logging classification.

Special note: If done by a telephone or telegraph company the work described above is included in classification 1303. A contractor engaged in the installation of electric and/or cable television overhead lines in addition to telephone and telegraph lines is to be reported in classification 0509-03. If a specialty contractor is only stringing telephone or telegraph lines, and not erecting poles or towers, classification 0509-00 is still applicable.

0509-01 Overhead television lines: New construction or extension of lines - including poles or towers; erection, maintenance or repair by contractor

Applies to contractors engaged in the construction, maintenance or repair of overhead television lines, poles and towers. Work contemplated by this classification includes, but is not limited to, clearing a right of way (excluding logging-type operations), boring holes for poles to be set in, installing cross arms, insulators and brackets on poles (which may be wood or metal), setting poles or towers into position, installing guy wires if necessary, stringing the lines, incidental tree topping, tying into the low-voltage power source, and making service connections when done by employees of an employer having operations subject to this classification. Towers may be of a solid wall, cylindrical steel construction or of a fabricated steel cross member design reaching a height of about 50 feet, and are secured to a concrete pad or set into the ground. They may be used to elevate the lines over long distances or to support microwave antennae or receivers.

This classification excludes specialty contractors engaged in any single phase of the work described above: Land clearing and grading operations which are to be reported separately in classification 0101; erection of poles or towers which is to be reported separately in classification 0508; drilling holes which is to be reported separately in classification 0103; tree topping which is to be reported separately in classification 0101; service connections which are to be reported separately in classification 0601; underground television line installation which is to be reported separately in classification 0107; and the felling of timber which is to be reported separately in the applicable logging classification.

Special note: If done by a cable television company the work described above is included in classification 1305. A contractor engaged in the installation of overhead electric and/or telephone or telegraph lines in addition to overhead television lines is to be reported in classification 0509-03. If a specialty contractor is only stringing overhead television lines, and not erecting poles or towers, classification 0509-01 is still applicable.

0509-02 Overhead electric transmission lines: New construction or extension of lines - including poles, or towers; erection, maintenance or repair by contractor

Applies to contractors engaged in the construction, maintenance or repair of overhead electric transmission lines, poles and towers. Work contemplated by this classification includes, but is not limited to, clearing a right of way (excluding logging-type operations), boring holes for poles to be set

in, installing cross arms, insulators and brackets on poles (which may be wood or metal), setting poles or towers into position, installing guy wires if necessary, stringing the lines, installing circuit breakers and transformers, incidental tree topping, tying into the high-voltage power source, and making service connections when done by employees of an employer having operations subject to this classification. Towers may be of a solid wall, cylindrical steel construction or of a fabricated steel cross member design reaching a height of about 50 feet, and are secured to a concrete pad or set into the ground. They may be used to elevate the lines over long distances or to support electric power distribution apparatus.

This classification excludes specialty contractors engaged in any single phase of the work described above: Land clearing and grading operations which are to be reported separately in classification 0101; erection of poles or towers which is to be reported separately in classification 0508; drilling holes which is to be reported separately in classification 0103; tree topping which is to be reported separately in classification 0101; underground electric line installation which is to be reported separately in classification 0107; and the felling of timber which is to be reported separately in the applicable logging classification.

Special note: If done by an electric power company the work described above is included in classification 1301. A contractor engaged in the installation of overhead telephone or telegraph lines and/or television lines in addition to overhead electric lines is to be reported in classification 0509-03. If a specialty contractor is only stringing overhead electric lines, and not erecting poles or towers, classification 0509-02 is still applicable.

0509-03 Overhead transmission lines, N.O.C.: New construction or extension of lines - including poles or towers; erection, maintenance or repair by contractor

Applies to contractors engaged in the construction, maintenance or repair of more than one type of overhead transmission line, including poles and towers which are not covered by another classification (N.O.C.). If the contractor specializes in either telephone, telegraph, television or electric lines, they can be specifically defined elsewhere within classification 0509. Work contemplated by this classification includes, but is not limited to, clearing a right of way (excluding logging-type operations), boring holes for poles to be set in, installing cross arms, insulators and brackets on poles (which may be wood or metal), setting poles or towers into position, installing guy wires if necessary, stringing the lines, incidental tree topping, installing circuit breakers and transformers, tying into the power source, and making service connections when done by employees of an employer having operations subject to this classification. Towers may be of a solid wall cylindrical steel construction or of a fabricated steel cross member design reaching a height of about 50 feet, and are secured to a concrete pad or set into the ground. They may be used to elevate the lines over long distances or to support microwave antennae, receivers or electric power distribution apparatus.

This classification excludes specialty contractors engaged in any single phase of the work described above: Land clearing and grading operations which are to be

reported separately in classification 0101; erection of poles or towers which is to be reported separately in classification 0508; drilling holes which is to be reported separately in classification 0103; tree topping which is to be reported separately in classification 0101; service connections for cable television lines which is to be reported separately in classification 0601; underground line installation which is to be reported separately in classification 0107; and the felling of timber which is to be reported separately in the applicable logging classification.

Special note: If done by a telephone or telegraph company, the work described above is included in classification 1303; if done by a cable television company it is included in classification 1305; if done by an electric utility company it is included in classification 1301. If a specialty contractor is only stringing a combination of types of overhead lines, and not erecting poles or towers, classification 0509-03 is still applicable.

WAC 296-17-52102 Classification 0510.

0510-00 Wood frame building: Construction or alterations, N.O.C.

Applies to contractors engaged in wood frame building construction or alterations not covered by another classification (N.O.C.). For the purposes of this classification, wood frame building construction means buildings erected exclusively of wood or wood products. This classification includes all building framing activities done in connection with wood frame building construction including the placement of roof trusses, sheathing roofs, installation of exterior building siding, and the installation of exterior doors and door frames. This classification also includes the installation of windows, window frames, and skylights when performed by framing workers as part of the framing contract on a wood frame building.

This classification excludes all other phases of wood frame building construction not listed as part of the framing activities above such as, but not limited to, site preparation and excavation (0101); overhead or underground utilities, asphalt work, or concrete work which is to be reported separately in the applicable classification; new landscape work (0301); brick work (0302); stucco work (0303); plumbing work (0306); HVAC work (0307); carpet and tile work (0502); exterior painting (0504); roof work (0507); insulation work (0512); interior finish carpentry - interior doors, cabinets, fixtures or molding (0513); installation of garage doors (0514); installation of sheet metal siding, gutters, and non-structural sheet metal patio covers/carports (0519); interior painting (0521); electrical work (0601) or wallboard installation, taping or texturing which are to be reported separately in the applicable classifications. For a more thorough description of the activities included and excluded from wood frame building construction, review the Construction Industry Guide.

Special note: Classification 0510 also includes wood frame building alterations or remodel work when the activity involves building new additions. The term "new additions" is defined as adding on to an existing wood frame building (upwards or outwards) in which the use of structural supports and main bearing beams is required. This is distinguishable from classification 0516 - building repair or carpentry work that typically does not require the placement of structural supports or main bearing beams. The purpose of classification 0516 is to build or rebuild with nonstructural or bearing beams, or to replace an existing portion (including existing structural and bearing beams) of a wood frame building for appearances or as a result of deterioration to make it appear new again. Care should be exercised as the terminology to build, rebuild, remodel, construct or reconstruct is irrelevant to assignment of classification which should recognize what the project actually involves.

Guidelines:

Constructing a new wood frame building that never existed - 0510

Altering all or part of an existing wood frame building by adding on new additions - 0510

Remodeling all or part of an existing wood frame building *without* adding on new additions - 0516

Installation of wood or vinyl siding on a new or existing wood frame building - 0510

Constructing a new wood garage that never existed - 0510

Altering all or part of an existing wood garage by adding on new additions - 0510

Remodeling all or part of an existing wood garage without adding on new additions - 0516

Constructing a new wood carport or wood shed that never existed - 0510

Rebuilding an existing wood carport or wood shed (all or part) with or without new additions - 0516

Construction of a new wood deck by the framing contractor when a new wood house is being built - 0510

Constructing or replacing a wood deck on an existing wood house - 0516

Constructing or replacing a wood deck for any type of nonwood building - 0516

Altering the existing interior of a wood frame building by adding exterior additions - 0510

Remodeling the existing interior of a wood frame building without adding exterior additions - 0516

Constructing, altering, or remodeling the interiors of nonwood frame buildings - 0516

Installation of windows, window frames, and skylights when performed by framing workers as part of the framing contract of a wood frame building - 0510.

WAC 296-17-52103 Classification 0511.

0511-00 Glass installation in buildings

Applies to contractors and glass merchants engaged in the installation and/or removal of glass in buildings and residences. This type of work is generally performed by a "glazier" who installs, removes, and/or boards up broken or damaged window or door glass. This classification includes a variety of glass, plastic and similar materials in buildings and residences, including exterior glass curtain walls on multi-story buildings, skylights, mirrors, storm windows, window sashes and window/door glass. This classification also includes glass tinting or the application of tinted plastic film to glass windows and doors in buildings or residences.

This classification excludes glass merchants which are to be reported separately in classification 1108; the installation of auto glass which is to be reported separately in classification 1108 when performed at or away from the glass merchant's shop; glass frosting, etching or beveling which is to be reported separately in classification 1108; tinting or the application of tinted plastic film to auto glass by an auto detailer which is to be reported separately in classification 3406; glass manufacturing which is to be reported separately in classification 3503; and the installation of windows, window frames and skylights when performed as part of a framing contract on a wood frame building by the framing workers which is to be reported separately in classification 0510.

Special note: Care should be exercised when determining if the business is a glass installation contractor or a glass merchant. A glass merchant in classifications 1108 and 0511, does not qualify for classification 5206 "Permanent yard or shop." However, if the business is engaged exclusively as a glass installation contractor, and not as a glass merchant, the contractor's business *may* qualify for classification 5206 for the storage of materials.

WAC 296-17-52104 Classification 0512.

0512-00 Insulation or sound proofing materials: Installation, N.O.C.

Applies to contractors engaged in installing insulation or sound proofing materials not covered by another classification (N.O.C.). This classification includes the installation or removal of insulation material for all types of residential or commercial buildings or structures. Insulation materials include, but are not limited to, flexible types in the form of blankets, rolls or quilts, loose fills or mineral substances in granulated, powder, cellulose or fibrous wood forms, pads and bats of mineral wool, slabs of cork board or wood fiber, rigid types such as wood and sugarcane fiberboard or panels, and the reflective type often consisting of aluminum foil encased in paper. The methods of installation include hand, blower, nailing, or cementing with special adhesive. This classification includes the installation of suspended or acous-

tical grid ceilings. This classification includes installation of weather strip and caulking, roof or soffit ventilators, energy efficient doors and related carpentry work done in connection with the weatherization or retrofitting of buildings and residences. This classification also includes the application of polystyrene strips placed as insulation on the tops of mobile homes.

This classification excludes the installation of glass windows in buildings which is to be reported separately in classification 0511; energy auditors with no installation or delivery duties who may be reported separately in classification 6303 provided all the conditions of the general reporting rules covering standard exception employees have been met; asbestos abatement which is to be reported separately in classification 0512-01; lead abatement which is to be reported separately in classification 0504; and the installation of insulated covering on boilers or steam pipes which is to be reported separately in classification 0306.

0512-01 Asbestos abatement

Applies to contractors engaged in the removal of asbestos. Work contemplated by this classification includes all operations such as, but not limited to, the removal of damaged, deteriorated or unwanted existing asbestos coverings and material from buildings and other structures such as, but not limited to, ceilings, walls, partitions, floors, and from around air conditioning and heating ducts. Also included in this classification is the removal of asbestos insulated covering around boilers and steam pipes, asbestos used as insulation, fireproofing, and in various building materials such as floor coverings, ceiling tiles, cement sheeting, granular and corrugated wrap, and acoustical and decorative treatment for walls and ceilings.

This classification excludes contractors engaged in the installation of boiler and steam pipe insulation coverings who are to be reported separately in classification 0306; lead abatement which is to be reported separately in classification 0504; asbestos abatement as a part of painting the interior or exterior of buildings or structures or the interior/exterior of tanks which is to be reported separately in the applicable classification.

WAC 296-17-52105 Classification 0513.

0513-00 Interior finish carpentry

Applies to contractors engaged in interior finish carpentry work for all types of buildings. Generally, the interior finish carpentry work begins after the drywall, taping, texturing, and painting and/or wallpapering is complete. This classification includes a variety of interior finish or trim carpentry work to include, but not be limited to, the installation of wood paneling and wainscoting, wood fireplace mantels, stair railings, posts and banisters, interior doors and door frames, wood molding on windows, baseboards, interior fixtures such as towel bars and tissue holders, closet organizers, installa-

tion and/or finishing of hardwood flooring, and cabinets such as kitchen, medicine, laundry and storage. Contractors who operate a wood cabinet manufacturing or assembly shop away from the construction site, are to be assigned classification 2907 for the shop manufacturing work. When a contractor's business is assigned classification 2907 for the shop operation, then classification 5206, "Permanent yard or shop," is no longer applicable to the contractor's business for the storage of materials or repair of equipment. This classification includes the installation of counter tops as part of a contract which includes the installation of cabinets or other interior finish or carpentry work. Contractors engaged exclusively in the installation of counter tops or as part of a floor covering contract are to be reported separately in classification 0502.

This classification excludes all carpentry work on the exterior of a building, or interior work such as framing interior walls, installing wallboard, taping and texturing walls, plastering, painting, masonry, glazing, insulation, installing overhead garage or exterior doors, concrete, electrical and plumbing work which is to be reported separately in the applicable classification.

Special note: This classification includes the installation of cabinet display areas or showrooms which provide prospective customers an opportunity to inspect the quality of workmanship and products carried by the contractor. Generally, displays or showrooms are installed where the contractors store their materials. It is common for contractors subject to this classification to sell some interior finish-related products, but the intent of these areas is not to sell products to walk-in customers. Sale of these products by an interior finish contractor is included in classification 0513. Classifications 2009, 6309, or similar store classifications, are not to be assigned to a contracting business. Employees engaged exclusively in showing the display areas or showrooms to customers are to be assigned classification 6303 provided all the conditions of the general reporting rule covering standard exception employees have been met.

WAC 296-17-52106 Classification 0514.

0514-00 Garage or overhead door: Installation, service or repair

Applies to contractors engaged in the installation, service or repair of garage or overhead doors made of wood, metal, or aluminum. As part of a new construction project, the installation usually occurs before the building or structure is painted. Garage or overhead door installation can also occur as a replacement to an existing door or as an alteration or addition to a building or structure. The process involves installing door tracks on both sides of the doorway, inserting the door, which usually consists of panels or sections, into the tracks, and attaching panels or sections to one another. This classification also includes the installation of automatic door openers when performed as a part of the garage or overhead door installation contract, and by the same contractor installing the doors.

[Title 296 WAC—p. 252]

This classification excludes the installation, service or repair of commercial automatic door openers when it is not performed as a part of the garage or overhead door installation contract which is to be reported separately in classification 0603; the installation, service or repair of residential automatic door openers when it is not performed as a part of the garage or overhead door installation contract which is to be reported separately in classification 0607; the installation of exterior glass doors and door frames such as nonautomatic and automatic opening doors at retail establishments or commercial buildings which are to be reported separately in classification 0511; the installation of interior or exterior doors and door frames when performed by a framing contractor as part of framing a wood frame building which is to be reported separately in classification 0510; the installation of interior doors and door frames which is to be reported separately in classification 0513; the installation of wood, fiberglass or metal exterior doors as part of a nonwood frame building when performed by employees of the general contractor which is to be reported separately in classification 0518; and the repair or replacement of wood, fiberglass or metal doors on an existing building which is to be reported separately in classification 0516.

0514-01 Nonstructural additions to buildings or structures: Installation, removal, alteration, and/or repair

Applies to contractors engaged in the installation, removal, alteration, and/or repair of nonstructural additions to buildings or structures. Nonstructural iron, steel, brass or bronze additions include, but are not limited to, fire escapes, staircases, balconies, railings, window or door lintels, protective window or door gratings, bank cages, decorative elevator entrances or doors, permanent stadium seating, and wall facades and facings. Shutters and similar decorative add-ons may be made of wood, vinyl or plastic. Generally, the process involves bolting, screwing, riveting, or welding these additions to the interior or exterior of buildings or structures. Contractors who operate a shop to prefabricate the additions are to be assigned the classification applicable for the shop manufacturing work being performed. When a contractor's business is assigned a manufacturing classification for shop operations, classification 5206, "Permanent yard or shop," is no longer applicable to the contractor's business for the storage of materials or repair of equipment.

This classification excludes sheet metal installation such as siding, gutters and downspouts, and nonstructural sheet metal patio covers/carports which are to be reported separately in classification 0519; the installation, repair or dismantling of portable bleachers or stages which is to be reported separately in classification 0603; and the erection of commercial metal carports, service station canopies, and structural iron or steel work as part of a building or structure which is to be reported separately in classification 0518.

WAC 296-17-52108 Classification 0516.**0516-00 Building repair and carpentry, N.O.C.**

Applies to contractors engaged in building repair and carpentry work, not covered by another classification (N.O.C.). This classification applies to carpentry-related framing work on concrete, brick and steel buildings, and to wood framed building renovation and remodeling projects where the structure is not being modified or altered. Typical projects include, but are not limited to: Converting a room from one use to another, such as a bedroom to a study, or a garage to a family room; enlarging or changing the configuration of a room by removing or adding an interior wall; upgrading a kitchen or bathroom; or adding structures such as a wooden deck to an existing building, screening a porch, installing a wood patio cover, or assembling sheet metal tool or garden sheds. Contractors subject to this classification use a variety of dimensional lumber and wood products as well as metal fasteners (nails, screws and bolts), and metal reinforcing or support straps such as joist hangers and post brackets. Technological changes have produced new materials which are replacing wood and wood products. These materials include, but are not limited to, light weight metal studs and plastic and fiber reinforced boards. This classification includes the framing of private residences with light weight metal studs and the installation of earthquake tie downs on residential buildings. This classification also includes specialty service providers or contractors engaged in providing general repair services (handyman) on buildings and dwellings. Classification 0516-00 can be used for these businesses to simplify recordkeeping and reporting if they provide general carpentry work and at least two of the following types of *repair* work; electrical, plumbing, cabinet, interior alteration, painting, drywall, masonry, carpet/linoleum/laminate, glazing, or appliance repair.

This classification excludes roofing or roof work which is to be reported separately in classification 0507.

0516-01 Wood playground equipment: Installation and/or repair

Applies to contractors engaged in the installation and/or repair of wood playground equipment. Work contemplated by this classification begins after the area of land has been excavated and/or cleared and includes installing wood playground equipment at private residences and in public settings such as, but not limited to, schools, parks, day care centers, churches, and hotels. This classification usually includes a variety of playground equipment comprised of treated wood beams, poles, posts, and a variety of dimensional lumber used in building swings, forts, stationary and swinging bridges, balance beams, climbing towers, slides, and rope and tire walks. Generally, the process involves setting poles or posts with use of a post hole digger, backhoe or tractor equipped with an auger. The poles or posts may be set in concrete. Depending on the piece of equipment being built, use of beams, planks, dimensional lumber, rope, chains, tires, and metal bars or rings, are securely attached with nails, screws, bolts or eye hooks. This classification includes the building of borders surrounding the playground equipment area with beams or railroad ties and the spreading of pea gravel, sand or wood chips underneath the equipment.

(2003 Ed.)

This classification excludes the installation of metal playground equipment which is to be reported separately in classification 0603, and the excavation or clearing of land which is to be reported separately in classification 0101.

WAC 296-17-52109 Classification 0517.**0517-00 Factory built housing units: Set up by contractor or by employees of the manufacturer**

Applies to the set up of factory built housing units such as mobile/manufactured homes, modular homes, or prefab cedar homes by contractors who work independently from a sales dealership or by employees of the manufacturer. This classification includes delivery of the factory built unit when performed by the set up contractor. The set up process includes placement of the unit or unit sections on blocks or foundations; joining the interior and exterior sections which may involve incidental placement of ridge cap, siding, trim boards, moldings, and interior seams; plumbing and electrical connections; and the installation of skirting, awnings or decks.

This classification excludes mobile home or factory built housing sales dealerships who set up and/or deliver the unit to a sales location or customer's site which are to be reported separately in classification 3415; the delivery of a mobile home or other factory built housing unit by a trucking service which is to be reported separately in classification 1102; the pouring of foundations; and/or the construction of nonstructural sheet metal patio covers/carports, garages or storage sheds regardless if performed by employees of the set up contractor or by another contractor which is to be reported separately in the applicable classification.

WAC 296-17-52110 Classification 0518.**0518-00 Building construction, N.O.C.: Alterations and concrete construction, N.O.C.**

Applies to contractors engaged in building construction, not covered by another classification (N.O.C.), including alterations. Work contemplated by this classification includes nonwood frame buildings and structures such as, but not limited to, waste treatment and waste disposal plants, fish hatcheries and stadiums in which the superstructure, skeleton framework, or building shell consists of concrete, iron or steel, or a combination of concrete, iron, steel and/or wood. This classification makes no distinction to the size of the structure or number of stories within the building and includes all concrete tilt-up buildings. Activities include, but are not limited to, the set up and tear down of forms, placement of reinforcing steel, rebar, or wire mesh, pouring and finishing concrete within the building or structure such as

[Title 296 WAC—p. 253]

foundations, monolithic slabs, ground supported floor pads, precast or poured in place bearing floors or wall panels, columns, pillars, balconies, stairways, including the raising and/or standing of concrete tilt-up walls or precast floors and wall portions, and raising and securing metal frames or members into place using a crane or boom and securing by bolt, rivet or weld.

This classification excludes all other phases of construction which are not in connection with building the superstructure, skeleton framework, or building shell such as, but not limited to, site preparation and excavation which is to be reported separately in classification 0101; bridge or tunnel construction which is to be reported separately in classification 0201; pile driving which is to be reported separately in classification 0202; underground utilities and systems which is to be reported separately in the classification applicable to the work being performed; asphalt work which is to be reported separately in the classification applicable to the work being performed; concrete paving or flatwork not contained within the building which is to be reported separately in the classification applicable to the work being performed; new landscape construction which is to be reported separately in classification 0301; brick, block, granite, marble, slate or masonry work which is to be reported separately in classification 0302; plastering, stuccoing and lathing work which is to be reported separately in classification 0303; plumbing work which is to be reported separately in classification 0306; HVAC work which is to be reported separately in classification 0307; carpet and tile work which is to be reported separately in classification 0502; exterior painting which is to be reported separately in classification 0504; roof work which is to be reported separately in classification 0507; installation of glass panels, curtain walls or windows which is to be reported separately in classification 0511; installation of insulation, sound proofing or suspended acoustical ceilings which is to be reported separately in classification 0512; interior finish carpentry such as the installation of interior doors, cabinets, fixtures or molding which is to be reported separately in classification 0513; installation of overhead doors, garage doors which is to be reported separately in classification 0514; installation of exterior doors and door frames, interior framing and carpentry work which is to be reported separately in classification 0516; installation of sheet metal siding or gutter work which is to be reported separately in classification 0519; interior building painting which is to be reported separately in classification 0521; electrical work which is to be reported separately in classification 0601; the installation of elevators and elevator door bucks which is to be reported separately in classification 0602; new dam construction projects which are to be reported separately in classification 0701; wood frame buildings which are to be reported separately in classification 0510; sheet metal tool sheds which are to be reported separately in classification 0516; brick or block buildings which are to be reported separately in classification 0302 and wallboard installation, taping or texturing which are to be reported separately in the applicable classifications.

[Title 296 WAC—p. 254]

0518-01 Metal carport: Erection

Applies to contractors engaged in the erection of metal carports such as those used for commercial parking lots. This classification includes raising and securing metal frames, members, or I-beams into place with a boom or crane and securing by bolt, rivet or weld.

This classification excludes the erection of nonstructural sheet metal patio cover/carports which is to be reported separately in classification 0519, and the erection of a wood carport which is to be reported separately in the applicable carpentry classification (see classification 0510 for additional information).

0518-02 Metal service station canopy: Erection

Applies to contractors engaged in the erection of metal service station canopies. Work contemplated by this classification includes, but is not limited to, raising and securing metal frames, members, or I-beams into place with a boom or crane and securing by bolt, rivet or weld.

This classification excludes the removal or installation of underground tanks which is to be reported separately in classification 0108, and the removal or installation of service station pumps which is to be reported separately in classification 0603.

WAC 296-17-52111 Classification 0519.

0519-00 Building construction sheet metal work, N.O.C.

Applies to contractors engaged in the installation or repair of sheet metal work in building construction, not covered by another classification (N.O.C.). Work contemplated by this classification applies to interior and exterior sheet metal work for residential or commercial buildings and includes wood frame, pole buildings, and nonwood frame buildings. This classification includes the installation of metal siding, gutters and downspouts, nonstructural sheet metal patio covers/carports, metal industrial shelving, stainless steel counter tops, and interior wall panels (such as the back splash behind stoves or sinks). Contractors who operate a sheet metal fabrication shop or prefabricate the gutters, downspouts and posts in a shop away from the construction site are to be assigned classification 3404 for the shop operations. When a contractor's business is assigned classification 3404 for shop operations then classification 5206 "Permanent yard or shop" is no longer applicable to the contractor's business for the storage of materials or repair to equipment.

This classification excludes sheet metal work as part of heating ventilation and air conditioning systems installation which is to be reported separately in classification 0307; the installation of aluminum or sheet metal as part of roof work which is to be reported separately in classification 0507; the installation of light weight sheet metal tool sheds which is to be reported separately in classification 0516; and the installation of commercial metal carports and service station canopies which is to be reported separately in classification 0518.

WAC 296-17-52113 Classification 0521.

0521-00 Painting building interiors; wallpaper hanging/removal

Applies to contractors engaged in painting building interiors regardless of the height inside the building. This classification includes building interiors such as, but not limited to, single and multiple story residential houses and commercial buildings, warehouses, factories, coliseums, theaters, stores and churches. The following structures are examples which would *not meet* the definition of a building or qualify as interior painting: Bridges, refineries, grain silos, water towers, service station canopies, or tanks. Paint is applied by brush, roller or spray to a variety of surfaces such as wood, wallboard, plaster, stucco, metal, concrete, or other types of surfaces found within the interior of a building. This classification includes all preparation work such as the set up of scaffolding, sanding, removal of old paint or asbestos, taping or masking, and clean up work. This classification also includes the hanging or removal of wallpaper. The process of hanging wallpaper includes cleaning or scraping walls to ensure the wallpaper will adhere to the surface. Depending on the type of wallpaper, adhesive is applied to the wall surface, the wallpaper, or both. Patterns are matched and the strip is applied to the surface and brushed smooth to remove the air pockets. This process is repeated until the entire job is complete. This classification also includes refinishing or resurfacing of tubs, sinks, appliances and countertops.

This classification excludes exterior painting of buildings or structures which is to be reported separately in classification 0504. Classifications 0521 and 0504 may be assigned to the same employer provided accurate records are maintained which distinguish interior building painting contracts from exterior building or structure painting contracts. This classification also excludes contractors engaged in waterproofing buildings or structures N.O.C., pressure washing services or sandblasting of buildings or structures, lead paint abatement, and the exterior painting of buildings or structures, including interior/exterior tanks which are all to be reported separately in classification 0504; painting of murals or other artwork on the interior of buildings which is to be reported separately in classification 4109; and painting of murals or other artwork on the exterior of buildings which is to be reported separately in classification 0403.

WAC 296-17-52140 Classification 0540.

0540-00 Wallboard installation, including scrapping - discounted rate (to be assigned only by the drywall underwriter)

Applies to contractors engaged in the installation or repair of wallboard. This classification includes the installation of wallboard, drywall, or sheetrock in all types of resi-

(2003 Ed.)

dential or commercial buildings or structures. The process consists of cutting wallboard with a utility knife, hacksaw, or power saw to the desired size and then butting material into place and nailing or screw fastening to wood or metal wall studs. Electrical box, window, or door openings are cut out where needed. Installation may require the use of scaffolding, ladders, specialty lifts, or stilts when working at heights, including the use of T holders or hydraulic lifts to hold material being installed on ceilings. This classification also includes wallboard scrapping (picking up and discarding unused portions of wallboard remnants or scraps) at the construction site when performed by employees of the wallboard contractor.

This classification excludes delivery of materials to the construction site by material dealer employees which is to be reported separately in the applicable delivery classification; delivery and stocking of materials to the construction site when performed by employees of the wallboard contractor which is to be reported separately in classification 1101; wallboard taping (including priming and texturing when performed by employees of the wallboard contractor) which is to be reported separately in classification 0541 or 0551; wallboard scrapping by nonwallboard contractor employees which is to be reported separately in the applicable construction debris cleanup classification; plastering, stuccoing or lathing work which is to be reported separately in classification 0303; and the framing of nonbearing walls when performed by the drywall contractor which is to be reported separately in classification 0516.

WAC 296-17-52141 Classification 0541.

0541-00 Wallboard taping, including texturing and priming - discounted rate (to be assigned only by the drywall underwriter)

Applies to contractors engaged in taping wallboard in residential or commercial buildings or structures. The process of taping occurs after wallboard, drywall, or sheetrock has been installed and involves taping the seams, and spreading joint compound over the seams and nail or screw heads. When dry, the seams are sanded to remove any rough edges. This classification includes the following activities when performed by employees of a wallboard contractor and part of the taping process which includes wallboard texturing (a putty-like material that is sprayed over the prepared wallboard in a clump-like application and smoothed with a trowel or putty knife), and wallboard priming (the application of an undercoating that may be applied either directly to the wallboard or after it has been textured). This classification also includes incidental painting when performed by employees of a wallboard contractor and part of the taping process.

This classification excludes wallboard installation which is to be reported separately in classification 0540 or 0550; wallboard priming and texturing not performed by employees of the wallboard contractor and part of the taping process which is to be reported separately in classification 0521; interior painting which is to be reported separately in classifica-

tion 0521; and wallboard scrapping by nonmaterial dealer employees which is to be reported separately in classification 0540 or 0550.

WAC 296-17-52150 Classification 0550.

0550-00 Wallboard installation, including scrapping - nondiscounted rate (to be assigned only by the drywall underwriter)

Applies to contractors engaged in the installation or repair of wallboard. This classification includes the installation of wallboard, drywall, or sheetrock in all types of residential or commercial buildings or structures. The process consists of cutting wallboard with a utility knife, hacksaw, or power saw to the desired size and then butting material into place and nailing or screw fastening to wood or metal wall studs. Electrical box, window, or door openings are cut out where needed. Installation may require the use of scaffolding, ladders, specialty lifts, or stilts when working at heights, including the use of T holders or hydraulic lifts to hold material being installed on ceilings. This classification also includes wallboard scrapping (picking up and discarding unused portions of wallboard remnants or scraps) at the construction site when performed by employees of the wallboard contractor.

This classification excludes delivery of materials to the construction site by material dealer employees which is to be reported separately in the applicable delivery classification; delivery and stocking of materials to the construction site when performed by employees of the wallboard contractor which is to be reported separately in classification 1101; wallboard taping (including priming and texturing when performed by employees of the wallboard contractor) which is to be reported separately in classification 0541 or 0551; wallboard scrapping by nonwallboard contractor employees which is to be reported separately in the applicable construction debris cleanup classification; plastering, stuccoing or lathing work which is to be reported separately in classification 0303; and the framing of nonbearing walls when performed by the drywall contractor which is to be reported separately in classification 0516.

WAC 296-17-52151 Classification 0551.

0551-00 Wallboard taping, including texturing and priming - nondiscounted rate (to be assigned only by the drywall underwriter)

Applies to contractors engaged in taping wallboard in residential or commercial buildings or structures. The process of taping occurs after wallboard, drywall, or sheetrock has been installed and involves taping the seams, and spreading joint compound over the seams and nail or screw heads. When dry, the seams are sanded to remove any rough edges.

[Title 296 WAC—p. 256]

This classification includes the following activities when performed by employees of a wallboard contractor and part of the taping process which includes wallboard texturing (a putty-like material that is sprayed over the prepared wallboard in a clump-like application and smoothed with a trowel or putty knife), and wallboard priming (the application of an undercoating that may be applied either directly to the wallboard or after it has been textured). This classification also includes incidental painting when performed by employees of a wallboard contractor and part of the taping process.

This classification excludes wallboard installation which is to be reported separately in classification 0540 or 0550; wallboard priming and texturing not performed by employees of the wallboard contractor and part of the taping process which is to be reported separately in classification 0521; interior painting which is to be reported separately in classification 0521; and wallboard scrapping by nonmaterial dealer employees which is to be reported separately in classification 0540 or 0550.

WAC 296-17-522 Classification 0601.

0601-00 Electrical wiring in buildings; electrical wiring, N.O.C.; Permanent flood lighting: Installation

Applies to contractors engaged in the electrical wiring of buildings, or in electrical wiring not covered by another classification (N.O.C.). Work contemplated by this classification is characterized as general electrical work, including installation, service or repair at residential and commercial settings. This classification includes electrical work which generally begins at the power meter and extends to the inside or outside of the building or its exterior setting, including, but not limited to, the installation of the breaker panel, fuses, plugs and snap switches, rough-in electrical work to include the stringing of insulated or encased wiring and mounting of plug-in or switch housing boxes, installation of plug-in, dimmer and switch units; installation of light fixtures, recessed canister and fluorescent lighting, track lighting, and other interior and exterior lighting fixtures, installation of ceiling fans, and the installation of residential and commercial appliances such as built-in microwaves, dishwashers, electric ovens and oven hoods. This classification also includes the installation of permanent flood lighting at stadiums and parks. Generally, flood lighting fixtures are mounted onto poles, buildings, or other structures; the erection or construction of those structures is not included in this classification.

This classification excludes the installation of overhead or underground power lines and poles by an electric utility company which is to be reported separately in classification 1301; the installation of overhead power lines by a nonelectric utility contractor which is to be reported separately in classification 0509; and the installation of underground power lines by a nonelectric utility contractor which is to be reported separately in classification 0107.

0601-07 Electrical machinery and auxiliary apparatus: Installation and repair

Applies to contractors engaged in the installation and repair of electrical machinery and auxiliary apparatus such as, but not limited to, heavy motors, generators, converters, transformers, compressors and power switchboard equipment. Generally, this type of work occurs at industrial or commercial plants, power plants, or sites where large machinery is to be installed. Work contemplated by this classification includes extending insulator or encased wiring or cable from the power meter, breaker or control panel to the physical location where the machinery is to be installed, and incidental wiring of the machinery or auxiliary apparatus.

0601-08 Temporary floodlights or search lights: Erection

Applies to contractors engaged in the erection or set up of temporary floodlights away from the contractor's premises. Usually, these lights are mounted on a truck or trailer, then transported to the customer site or location where they are operated with use of a generator. Uses of temporary floodlights and searchlights include, but are not limited to, advertising grand openings or special sales at shopping malls, auto dealers, grocery and outlet stores, marking the location of special events such as carnivals or concerts, or at construction project sites.

This classification excludes the erection of permanent floodlight fixtures to poles, buildings or structures which is to be reported separately in classification 0601-00.

0601-15 Television cable: Installation service or repair in buildings by contractor

Applies to contractors engaged in the installation, service or repair of television cable in buildings. This classification includes the installation of television cable lines in residential and commercial buildings and includes the dropping of lines from the pole to the house, mounting of cable control panel boxes to the exterior of buildings, extending cable, mounting multiple line adapter units and relay switches, and affixing the cable end for hook-up to televisions and other stereo components.

This classification excludes the installation of underground or overhead television cable lines when performed by a television cable company which is to be reported separately in classification 1305; installation of underground television cable lines when performed by a nontelevision cable company contractor which is to be reported separately in classification 0107; and installation of overhead television cable lines from pole to pole by a nontelevision cable company contractor which is to be reported separately in classification 0509.

WAC 296-17-523 Classification 0602.

0602-03 Elevators or elevator door bucks: Installation, service and/or repair

(2003 Ed.)

Applies to contractors engaged in the installation, service and/or repair of freight or passenger elevators and elevator door bucks in private residences and commercial buildings or structures. Generally, the process begins after the elevator shaft has been erected, to include, but not be limited to, the installation of elevator units, doors, door bucks, cables and hoisting systems, motors, and electrical apparatus and wiring in connection with operation of the elevator.

This classification excludes the installation or repair of escalators and industrial machinery which is to be reported separately in classification 0603, and the erection of temporary construction elevators as part of a construction project which is to be reported separately in the classification applicable to the phase of construction being supported.

WAC 296-17-524 Classification 0603.

0603-00 Machinery: Installation, service and/or repair, N.O.C.; Millwright work, N.O.C.

Applies to contractors engaged in the installation, service and/or repair of heavy machinery or equipment at a customer's location which is not covered by another classification (N.O.C.). Millwright work and the service or repair of engines and gas machines is also included. A millwright is a technician who specializes in installing and repairing industrial machinery. Typical customers include, but are not limited to, wood, metal and plastic manufacturing plants, fuel refineries, and mills. Types of machinery installed and repaired includes, but is not limited to, escalators, conveyor systems, printing presses, lathes, mill saws, dairy equipment and wind machines. (Store operations of dairy equipment/supply dealers or wind machine dealers are to be reported separately in classification 6407.) Work contemplated by this classification includes, but is not limited to, the pouring of a concrete pad on which the machinery will be installed, cutting and welding of brackets and mountings, assembling component parts, any incidental electrical connections needed to complete the installation, and calibrating the controls and testing the machinery's operation when done by employees of an employer having operations subject to this classification. Placement of heavy machinery must often be done with cranes or by rigging hoists. This classification also includes the dismantling and removal of machinery and equipment covered by this classification.

0603-05 Dynamos, electrical generators and turbines: Installation, service and/or repair

Applies to contractors engaged in the installation, service and/or repair of dynamos, electrical generators and turbines at a customer's location. A dynamo is a generator of direct electrical current; a turbine is a mechanism that converts moving fluid into mechanical power. Customers include, but are not limited to, electrical utilities, manufacturing plants, mills, and telecommunications companies. Work contemplated by this classification includes, but is not limited to,

[Title 296 WAC—p. 257]

ited to, preparation of a concrete pad on which the machinery will be installed, cutting and welding of brackets and mountings, assembly of component parts if necessary, any incidental electrical connections needed to complete the installation, and calibrating and testing the machinery's operation when done by employees of an employer having operations subject to this classification. Placement of heavy machinery must often be done with cranes or by rigging hoists. Also included is the dismantling and removal of dynamos, generators and turbines.

This classification excludes the installation of underground overhead power lines and poles by an electric utility company which is to be reported separately in classification 1301; the installation of overhead power lines by a nonelectric utility contractor which is to be reported separately in classification 0509; and the installation of underground power lines by a nonelectric utility contractor which is to be reported separately in classification 0107.

0603-07 Industrial plant maintenance by contractor

Applies to contractors engaged in maintaining, repairing and installing machinery on a long-term contract basis for customers at the customers' location. Customers include, but are not limited to, manufacturing or chemical plants, petroleum refineries, food processing plants and mills. Work contemplated by this classification includes all routine maintenance and repair of a customer's equipment such as, but not limited to, cleaning, oiling and regularly scheduled maintenance and replacement of machinery or machinery parts, equipment and other mechanical installations that are part of the customer's building when done by employees of an employer having operations subject to this classification.

0603-08 Metal playground equipment, portable bleachers or stages, above ground swimming pools: Installation, dismantling, and/or repair

Applies to contractors engaged in the installation, dismantling, and/or repair of metal playground equipment, portable bleachers or stages, and above ground swimming pools. Playground equipment includes, but is not limited to, swings, monkey bars, merry-go-rounds, and slides. Work contemplated by this classification for the erection of playground equipment and portable bleachers or stages includes boring holes in the ground (usually with an auger) into which the various pieces of equipment will be set in concrete, any incidental cutting, welding, drilling and bolting of the tubular steel components which are usually from one to four inches in diameter, and fastening on the chains, swings, handlebars, sliding surface, platforms, bench seats, or other components. Activities in the installation of above ground pools are similar. This classification also includes the application of any finish material or paint when done by employees of an employer having operations subject to this classification.

This classification excludes the installation of wood playground equipment which is to be reported separately in classification 0516.

0603-09 Commercial equipment: Installation, dismantling, service, and/or repair

Applies to contractors engaged in the installation, dismantling, service, and/or repair of commercial equipment

[Title 296 WAC—p. 258]

such as, but not limited to, commercial dishwashing units, bakery and restaurant ovens, stoves, grills, sanitizers, steam tables, car washing equipment, commercial laundry equipment, electric entry doors, dry cleaning equipment, gas pumps, or parimutuel totalizer equipment at horse racing facilities. Work contemplated by this classification includes, but is not limited to, placing and leveling the equipment, any assembly of component parts if necessary, connecting or bolting to the wall or floor, making any necessary incidental plumbing or electrical connections, and calibrating and testing the equipment when done by employees of an employer having operations subject to this classification. Some pieces of equipment in this classification may be large enough that they must be moved and positioned with hoists or cranes. Also included is the dismantling and removal of commercial equipment.

WAC 296-17-525 Classification 0604.

0604-04 Scrap metal dealers or processors: Collecting, sorting and reduction of scrap metal

Applies to establishments engaged as dealers or processors of ferrous and nonferrous scrap metals for resale. Ferrous metals are primarily composed of iron or steel. Nonferrous metals include, but are not limited to, aluminum, brass, bronze, copper, lead, magnesium, pewter, tin, and zinc. If the dealer collects scrap metals from mills, foundries, refineries, or fabricators, they usually leave dumpster containers with the "customer" and pick up the full containers with their own trucks. If they buy scrap from independent collectors, the collectors bring the metals to the dealer's yard. In either case, the metal is weighed, graded, and sorted by type at the dealer's yard. It may be resold as is to customers who occasionally come to the yard; however, it is usually further processed and prepared for shipping to industrial customers. Shipping is done by rail, ship, or common carrier. As an incidental service, scrap dealers may also buy back recyclable goods such as, but not limited to, aluminum cans, glass, and batteries; this activity is included within the scope of this classification when performed by employees of employers subject to this classification. Processing includes one or more of the following operations: Cutting off impure metals or plastic parts with acetylene cutting torches; cutting scraps into smaller pieces with alligator shears or cutting torches; slicing heavier scrap metals or flattened automobiles with hydraulic guillotine shears; crushing auto bodies with crushers; ripping apart large pieces of scrap with shredders; separating metal from rubber, plastic, wood, dirt, and other materials with magnetic separators; removing insulated coverings from copper wire with wire choppers, and compressing scraps into bales with balers. Additional machinery includes,

(2003 Ed.)

but is not limited to, conveyors, scales, forklifts, tractor-trailer trucks, cranes, electromagnets or grapples, front end loaders, and grinders. Because of recent EPA regulations, instead of melting down metals in their own furnaces, scrap dealers usually ship it to foundries or steel mills that conform with the regulations. However, reduction of metals is included within the scope of this classification if performed by an establishment subject to this classification.

This classification excludes dealers that sell new iron, steel, wire or cable which are to be reported separately in classification 2004; automobile or truck wrecking or dismantling establishments which are to be reported separately in classification 1104; and recycle, collection, and receiving stations (known as buy-back stations) for rags, bottles, paper, and metal containers which are to be reported separately in classification 2102.

Special note: Scrap metal dealers vary widely in the type of metals or usable items they buy and sell. Often the term "junk yards" is used to describe dealers who carry a sizable inventory of used goods, such as, but not limited to, bottles, rags, paper, appliances, nails, rubber, in addition to scrap metal in varying amounts. It is the activity of the business that must be considered when determining the classification, rather than how the business refers to its activities. Receiving/Buy-back stations for recyclable items in classification 2102 are different from dealers in classification 0604. Receiving stations buy back only recyclable items which they do not process, other than condensing the materials into bales, and selling it to others.

WAC 296-17-526 Classification 0606.

0606-01 Vending, coin-, or token-operated machines: Installation service and/or repair

Applies to establishments engaged in the installation, service and/or repair of vending, coin- or token-operated machines. Operations contemplated by this classification include, but are not limited to, delivering machines to desired location, unloading and setting up machines, servicing machines, collecting money, repairing machines, and restocking product into machines. Coin-operated machines include pay telephone booths, weight machines, juke boxes, change makers, pull tabs, slot machines, and similar gaming devices. Vending machine products include, but are not limited to, soft drinks, candies, sandwiches, stamps, cigarettes, frozen desserts, coffee, and personal hygiene products. This classification also includes the preparation of products such as, but not limited to, salads, sandwiches, cookies, and deserts, and honor snack food services when performed by employees of an employer subject to this classification.

This classification excludes honor snack services operated independently from, and not in connection with, coin-operated vending machine services which are to be reported separately in classification 1101; and the installation of park-

ing meter units which is to be reported separately in classification 0105.

0606-02 Fire extinguisher and fire safety equipment: Sales and service

Applies to establishments engaged in the sales and servicing of fire extinguishers and related safety equipment. Operations contemplated by this classification include, but are not limited to, retail and wholesale store operations, field testing services, recharging services, and related safety training. Establishments subject to this classification routinely sell a variety of home and commercial type fire extinguishers, protective clothing, gloves, and hats, specialty shoes, smoke and fire alarms, and first aid kits. Fire extinguisher sales and service companies may also carry other safety items such as traffic cones, construction and speed signs.

0606-03 Money collecting service of coin-operated and vending machines

Applies to establishments engaged in the removal and/or replacement of money into coin-operated machines. Operations contemplated by this classification are limited to the collection and replenishing of coins in coin-operated or vending machines. This classification also applies to replenishing currency in automated teller machines (cash machines) and removal of coins from parking meters and pay telephones.

This classification excludes the servicing of machines, placement of products into machines for sale, installation of machines, or any product preparation, which is to be reported separately in the applicable classification; installation of free standing automated teller machines which is to be reported separately in classification 0607; establishments engaged in the construction of structures which house automated teller machines, such as those found in parking lots of shopping centers, which are to be reported separately in the applicable construction classifications.

0606-12 Coin- or token-operated amusement devices in stores or shopping malls, N.O.C.: Installation, removal, service and/or repair

Applies to establishments engaged in the placement and servicing of coin- or token-operated amusement devices, not covered by another classification (N.O.C.), within stores and shopping malls for use by the general public. Operations contemplated by this classification include, but are not limited to, the installation, service, repair, or removal of the devices, such as, but not limited to, video games, pinball machines, carousels and small amusement rides for children. Establishments subject to this classification generally are not involved in the operations of arcades or amusement rides. If an establishment subject to this classification also operates a video or amusement arcade, such operations may be reported separately in classification 6406 provided all the conditions of the general reporting rules covering the operation of a secondary business have been met.

WAC 296-17-527 Classification 0607.

0607-11 Household appliances: Installation, service and/or repair by nonstore service or repair company; dealers of used household appliances

Applies to establishments engaged in the installation, service and/or repair of electrical or gas household appliances and to dealers of used electrical or gas household appliances. Many establishments covered by this classification have small retail store operations where they offer reconditioned or second hand appliances for sale, a parts department, and an area where appliances brought into the shop are repaired. Although this classification deals primarily with service away from the shop, the store, parts department and shop operations are included within the scope of this classification. The term "household appliances" includes, but is not limited to, stoves, ovens, ranges, dishwashers, refrigerators, trash compactors, television sets, residential type garage door openers, washing machines, and clothes dryers. This classification also applies to the installation, service or repair of automated teller machines. Repair services provided by establishments subject to this classification may also include related smaller appliances such as video players, portable television sets, stereo systems, microwave and toaster ovens, blenders, coffee makers and mixers. The *servicing* of water softening systems, coffee and juice machines, and beer taps is also included in this classification.

This classification excludes dealers of new household appliances who are to be reported separately in classification 6306; installation, service, and/or repair of commercial appliances such as those used in laundries, bakeries, and restaurants which is to be reported separately in classification 0603; installation, service, and repair of commercial garage doors and openers which is to be reported separately in classification 0603; installation of water softening systems which is to be reported separately in classification 0306; and small table top or counter top appliance stores which are to be reported separately in classification 6406.

Special note: Classification 0607 is distinguishable from classification 6306-02 operations in that appliance stores covered in classification 6306-02 are engaged primarily in the sales of new appliances. Although classification 6306 includes repair of appliances, most repairs are related to warranty work and represent a minor part of the business. By contrast, the repair of appliances in classification 0607 is the primary activity of the business.

0607-16 Television antenna or satellite dish: Installation, removal, service and/or repair

Applies to establishments engaged in the installation, removal, service and/or repair of television antennas or satellite dish receiving units. Operations contemplated by this classification are limited to rooftop installation of television antennas or ground or rooftop-mounted satellite dish reception units. Establishments covered by this classification will generally employ technicians and installers to install systems and trouble shoot reception problems. Equipment is limited

primarily to delivery trucks, vans, ladders, and small power and/or hand tools.

This classification excludes specialty contractors who install, remove, service or repair antennas, dish units, and/or other transmitting/receiving apparatus to a structure covered by classification 0508, who are to be reported separately in classification 0508; and establishments engaged in the sale of new console type and big screen televisions who also sell and install antennas which are to be reported separately in classification 6306.

0607-17A Safes or vaults, private mail boxes, or safe deposit boxes: Installation, removal, service and/or repair

Applies to contractors engaged in the installation, removal, service and/or repair of all types of safes or vaults regardless of size or application, private mail or postal boxes, or safe deposit box units within buildings. Safes and vaults are found in businesses such as, but not limited to, banks, jewelry stores, rare coin and stamp stores, grocery stores, and gasoline service stations, as well as in private residences. Services contemplated by this classification include, but are not limited to, safe opening services.

0607-17B Lock sets and/or dead bolt locks: New installation

Applies to the *new installation* of lock sets and/or dead bolt locks on buildings or structures by contractor or by employees of a locksmith. The term new installation applies to installing a lock set (locking doorknob) or a dead bolt where none previously existed. The process consists of measuring and marking where the unit is to be placed on the door, boring holes into the door to accept the lock set or dead bolt lock, and installing the lock set unit using a power drill and basic hand tools.

This classification excludes the installation of a *replacement* lock set or dead bolt lock unit by employees of a locksmith, and locksmith store operations which are to be reported separately in classification 6309.

0607-18A Window/door blinds, shades, curtains and drapes: Installation

Applies to contractors and employees of store operations who are engaged in the installation of indoor or outdoor window coverings, such as, but not limited to, blinds, shades, screens, exterior roll shutters and draperies or curtains, but does not include awnings. The process consists of marking the location of covering on the frame or opening, securing brackets or hardware, rods and poles, and installing the covering.

This classification excludes the installation of window and door awnings which is to be reported separately in the applicable classification, and the manufacture of coverings which is to be reported in the applicable classification.

Special note: Care should be taken when considering the assignment of a store classification to an establishment engaged in the installation of coverings to verify that a store exists. It is common for establishments subject to this classification to have show rooms to help customers visualize covering products available for sale. These establishments have little or no product available for immediate sale, as most

items are special order from the manufacturer. A bona fide window/door covering store will have a large assortment of coverings, as well as related home interior products such as, but not limited to, pillows, small rugs, and accent pieces, readily available for sale to customers.

0607-19 Advertising or merchandise display: Set up or removal within buildings by nonstore employees

Applies to contractors engaged in the set up or removal of advertising or merchandise displays within buildings for retail or wholesale store customers. Operations contemplated by this classification will vary from seasonal panoramas with extensive carpentry, painting, and art work to dressing mannequins to be displayed in store windows. Classification 0607 also includes employees of a manufacturer and manufacturer's representatives who are involved in the setting up of these displays.

This classification excludes employees of store operations engaged in setting up displays who are to be reported separately in the applicable store classification as this is a common store activity.

0607-21 Meat slicer or grinder: Installation, service and/or repair

Applies to contractors and employees of equipment manufacturers engaged in the installation service and/or repair of meat cutting, slicing, or grinding equipment within stores, restaurants, or processing plants. Repair may be performed at the customer's location or in a shop operated by an employer subject to this classification. This classification includes repair shops, field technicians, installers, and warehouse or parts department employees.

Special note: Establishments subject to this classification generally do not have store operations. Equipment is generally ordered from the manufacturer or distributor and shipped to the customer's location where it will be installed. In the event that an establishment subject to this classification has a store operation it is included within classification 0607.

0607-22 Protective bumpers: Installation

Applies to contractors engaged in the installation of protective bumpers on structures such as, but not limited to, store loading docks for freight or cargo. Operations contemplated by this classification are limited to measuring the dock to be fitted with a rubber bumper, finish cutting or otherwise fabricating the rubber pieces to fit the required application, and fastening the dock bumper with the use of hand tools. Dock bumpers are made of rubber from recycled tires or similar pliable materials.

This classification excludes the manufacture of loading dock bumpers which is to be reported separately in the applicable manufacturing classification.

0607-23 Cellular phone systems or audio components: Installation in vehicles, service and repair

Applies to establishments engaged in the installation of cellular phone systems and/or audio components in vehicles. Audio components include, but are not limited to, radios and stereo systems, speakers and amplifiers, alarm systems, television units, antennas, two-way radio systems. This classification applies to installation employees of stores that sell

products as well as to auto service centers that specialize in the installation of products covered by this classification.

This classification excludes retail and wholesale store operations which are to be reported separately in the applicable store classification.

0608-01 Electrical alarm systems: Installation, service, and/or repair

Applies to contractors engaged in the installation, service, and/or repair of electrical alarm systems such as, but not limited to, burglar, smoke, security, and fire, within buildings. Operations contemplated by this classification include, but are not limited to, installing low voltage wiring for security units, connecting control panels, installing motion or magnetic sensors on doors, windows, and hallways, installing security cameras and recording equipment, and installing smoke and fire alarm units on walls or ceilings. This classification includes both field and shop operations.

0608-02 Intercom or audio call box: Installation, service, and/or repair

Applies to contractors engaged in the installation, service, and/or repair of all types of building or plant audio communication systems such as, but not limited to, intercoms, sound and paging systems in stores and shopping malls, and call box units in factories and refineries. Operations contemplated by this classification include, but are not limited to, installation of low voltage wiring, installation of audio and speaker units and connecting control units. This classification includes both field and shop operations.

0608-04 Telephone and/or telephonic equipment - prewire by contractor: Installation, service, and/or repair

Applies to contractors engaged in the installation, service, and/or repair of all types of telephone and/or telephonic equipment within residences, office buildings, stores and shopping malls, factories, refineries or other types of buildings. Operations contemplated by this classification include, but are not limited to, installation of low voltage wiring, installation of telephone units, and connecting control units. This classification includes both field and shop operations, as well as contractors engaged only in prewiring buildings for telephone and computer systems, but who do not install equipment.

WAC 296-17-528 Classification 0701.

0701-00 New dam construction: All operations in dam site area

Applies to contractors engaged in the construction of new dams only, and includes all operations in the dam site area. A dam is a barrier built across a waterway to control the flow or level of water. Work contemplated by this classification includes the construction of the foundation and substructure such as, but not limited to, earth and rock excavation; boring or tunneling; pile driving or shaft sinking; caisson work; erection of cofferdams; placement of reinforcing steel and rebar; setting and stripping of forms, false work (temporary forms and support structures), concrete distributing apparatus; erection of scaffolds; pouring and finishing concrete; and the placement of gates, turbines, control towers and electrical wiring apparatus. This classification also includes the incidental construction of fish ladders as part of the new dam construction project.

This classification excludes all other construction, service, or repair work done as part of an existing dam which is to be reported separately in the classification applicable to the phase of construction work being performed. For example, the inspection of the foundation by divers is to be reported separately in classification 0202; the patching of cracks in the dam is to be reported separately in classification 0518.

0803-00 Cities and towns - all other employees

Applies to employees of cities or towns who perform manual labor, or who supervise a work crew performing manual labor such as custodial or maintenance, and machinery or equipment operators including transit bus drivers. This classification includes administrative personnel such as engineers, safety inspectors, and biologists, who have field exposure, and also includes store and stock clerks. For purposes of this classification, field exposure is defined as any exposure other than the normal travel to a work assignment, such as an auditor or social worker would encounter.

This classification excludes municipal power districts which are to be reported separately in classification 1301; privately owned and operated bus or transit systems which are to be reported separately in classification 1407; irrigation and waterworks operations which are to be reported separately in classification 1507; law enforcement officers who are to be reported separately in classifications 6905 and 6906, as appropriate; fire fighters who are to be reported separately in classification 6904; volunteers who are to be reported separately in classification 6901; and clerical office and admin-

istrative employees who are to be reported separately in classification 5305.

WAC 296-17-532 Classification 0901.

0901-00 Ship building and/or repair, N.O.C. (to be assigned only by the maritime underwriter)

Applies to establishments engaged in the building and/or repair of ships not covered by another classification (N.O.C.) and to the dismantling of hulls. Ships contemplated by this classification are recreational vessels under sixty-five feet and some commercial vessels such as, but not limited to, military vessels, tugs, scows, and barges. This classification may also include vessels over sixty-five feet that do not meet the situs and status provisions of the United States Longshore and Harbor Workers Compensation Act. This classification includes shop operations.

This classification excludes wood boat building and repair which is to be reported separately in classification 2903; sheet aluminum boat building which is to be reported separately in classification 3404; fiberglass boat building which is to be reported separately in classification 3511; plate aluminum boat building which is to be reported separately in classification 5209; and boat dealers, marinas, and boat house operations including repair centers which are to be reported separately in classification 3414.

Special note: This classification is seldom assigned as most work would be covered by LHWCA. Commercial vessels included in this classification are required to have a Small Vessel Exception Certificate issued by the U.S. Department of Labor.

WAC 296-17-534 Classification 1002.

1002-00 Sawmills: Operation and maintenance

Applies to establishments engaged in the operation and maintenance of a sawmill. Sawmills receive raw logs which they usually store temporarily in their yard before cutting them into rough and finished lumber. This classification includes operations such as, but not limited to, loading raw logs onto the conveyor or log slip; sawing logs with a variety of head, cut-off, circular or band saws; grading and sorting lumber; drying green (wet) lumber; and the stacking and storing of lumber. The raw logs are cut into rough lumber, such

as cants and blocks, or into finished lumber, such as posts, planks or boards.

This classification excludes all operations conducted in the woods, such as logging or use of a portable sawmill, which is to be reported separately in classification 5001, and establishments engaged *only* in the manufacturing of wood, veneer, veneer products, or lumber remanufacturing which is to be reported separately in the classification applicable to the manufacturing being performed.

1002-08 Shake and shingle mills - automated process

Applies to establishments operating an automated shake and shingle mill which manufacture shakes, shingles and/or ridge caps using automated processes. For purposes of this classification, automated processes refers to shake and shingle mills equipped with automatic feeders on all saws, adjustable packing and cutting stations, and fully automatic systems for conveying material to work stations. All equipment must be equipped with automatic shut off switches. Within a shingle mill the operation of a trim saw must be performed by an individual as a separate function from that of the shingle saw operator (shingle sawyer is not to perform both functions). Shake splitters must be equipped with a gauge control mechanism which permits the operator to automatically set the thickness of the cut. Conveyor systems must have dual controls to allow the deck man and sawyer the ability to control incoming material to the work station.

Block mills must be equipped with an automated pallet dump to eliminate the handling of material to the sawyer work station or an adjustable scissor lift adjacent to the shingle saw or shake splitter. Blocked wood purchased by mills must be contained in pallets prior to entering the mill yard or premises. Log mills must be equipped with a fully mechanized log slip (used to move logs into the deck area), log levelers, stabilizers, and lifters must be present in the deck area, automatic deck cut-off saw, live deck for moving material from the deck to the splitting area and overhead mounted splitters. Trim saws, also referred to as clipper saws, must be equipped with a laser guide or quartz light. This lighting reveals to the operator where its saw blade is in relationship to the material being processed.

For purposes of this classification, the following terms or words shall be given the meanings below:

Automatic deck or cut-off saw: A large saw, usually circular, used to trim logs to a specified length (rounds) before they enter a manufacturing plant.

Clipper saw: A machine used to make shingle edges parallel.

Shingle: Roofing or siding material having sawn faces and backs, are of a standard thickness at the butt end and tapered finish at the other end.

Shake: Roofing or siding material having at least one surface with a natural grain textured split surface.

Live deck: A chain driven platform located in the same proximity as the deck saw and is used to convey cut rounds from the cutting area to the splitting area.

Log stabilizer: A levered device adjacent to the deck saw used to hold the log steady while it is being cut.

Log slip: A chain driven conveyor used to move logs into the deck area.

Laser or quartz guide light: An overhead mounted light above a saw that illuminates that portion of a work surface where the saw blade will pass or make a cut.

Log leveler: A levered device adjacent to the deck saw used to level a log automatically.

Overhead splitter: A ceiling mounted hydraulic, air, or electrically operated apparatus with wedge shaped end that is used to split log rounds into block wood when activated by the splitterman.

Shingle saw: A machine used to make shingles.

Shake splitter: A machine used to split blocks into shake blanks.

Shake saw: A machine used to saw shake blanks into a finished wedged shaped product.

This classification excludes all operations conducted in the woods, such as logging or the cutting and splitting of shake or shingle bolts, which are to be reported separately in classification 5001.

Special notes: Shake and shingle mills not meeting all the conditions as set forth above shall be reported separately in classification 1005 "shake and shingle mills, N.O.C."

WAC 296-17-535 Classification 1003.

1003-02 Dry kiln operations

Applies to establishments engaged in kiln drying of wood as a service for customers in the wood products industry. They may also purchase and dry wood themselves for later sale to a wood product manufacturer. Operations contemplated by this classification include, but are not limited to, receiving green lumber or logs, peeling (mechanized or manual), any incidental machining or turning, layering on a trolley (with spacers in between to allow for air circulation), drying in the heated kiln, and the incidental application of preservative, fire retardant, or insecticide treatments, storing, and delivery. Preservatives may be oil or water based and may be applied through a heated, pressurized vacuum process in an autoclave, by surface application (spraying, brushing, dipping) or by soaking in tanks. Machinery and equipment includes, but is not limited to, log handling and trimming machinery, kilns, boilers that heat the kilns, autoclaves, storage tanks, trolley cars, fork lifts, hand tools and delivery trucks.

This classification excludes dry kiln operations that are part of a wood, veneer or lumber product manufacturing or remanufacturing operation which are to be reported separately in the classification applicable for the operation being performed; all operations conducted in the woods, such as the felling of timber, which are to be reported separately in the applicable logging classification, and work conducted away

from the shop or yard, except delivery, which is to be reported separately in the classification applicable for the work being performed.

1003-03 Creosote works; pile and pole treating

Applies to establishments engaged in treating wood poles with creosote or other chemicals to inhibit deterioration. Poles produced by this type of business are intended for use as utility line poles, supports for bridges and trestles, or piles to be driven into the ground as part of the support for a pier or other structure. Operations contemplated by this classification include, but are not limited to, receiving logs, storing, seasoning (either by air or kiln drying), peeling (mechanized or manual), any incidental machining and turning (which may include cutting material into ties or cross arms), the application of creosote or other chemical preservative, and pick up and delivery. Preservative may be applied to seasoned wood through a heated, pressurized vacuum process in an autoclave, by surface application (spraying, brushing, dipping), or soaking in tanks. Machinery and equipment includes, but is not limited to, log handling/trimming/cutting machinery, kilns, boilers that heat the kiln, autoclaves, storage tanks, trolley cars for use in the kiln, fork lifts, hand tools, and trucks.

This classification excludes all operations conducted in the woods, such as the felling of timber, which are to be reported separately in the applicable logging classification, and work conducted away from the shop or yard, except delivery, which is to be reported separately in the classification applicable for the work being performed.

1003-04 Pole yards

Applies to establishments engaged in producing wood poles to a customer's specifications or for their own resale. These poles are intended for a variety of uses and are finished to varying requirements. Work contemplated by this classification includes, but is not limited to, receiving logs, storing, seasoning (either by air or kiln drying), peeling (mechanized or manual), incidental machining or turning (which may include cutting some material into cross arms, cutting and boring), the application of creosote or other chemical preservative, and pick up and delivery. Preservative may be applied to seasoned wood through a heated, pressurized vacuum process in an autoclave, by surface application (spraying, brushing, dipping), or soaking in tanks. Machinery and equipment includes, but is not limited to, log handling/trimming/cutting machinery, kilns, boilers that heat the kiln, autoclaves, storage tanks, trolley cars for use in the kiln, fork lifts, hand tools, and trucks.

This classification excludes all operations conducted in the woods, such as the felling of timber, which are to be reported separately in the applicable logging classification, and work conducted away from the shop or yard, except delivery, which is to be reported separately in the classification applicable for the work being performed.

1003-05 Masts and spars yards

Applies to establishments engaged in producing wood masts and spars. Masts and spars are the main and secondary supports, respectively, for sails and running rigging on sailing vessels. These businesses may also produce poles for

other uses which may need to be more precisely shaped and finished than those produced in 1003-04. Work contemplated by this classification includes, but is not limited to, receiving logs, storing, seasoning (either by air or kiln drying), peeling the logs (mechanized or manual), machining and turning to size (which may include cutting and boring holes), application of chemical preservative, sanding if necessary, and pick up and delivery. The application of wood finish is also included when performed by employees of an employer having operations subject to this classification. Preservative may be applied to seasoned wood through a heated, pressurized vacuum process in an autoclave, by surface application (spraying, brushing, dipping), or soaking in tanks. Machinery and equipment includes, but is not limited to, log handling/trimming/cutting machinery, kilns, boilers that heat the kiln, autoclaves, storage tanks, trolley cars for use in the kiln, fork lifts, wood finishing equipment, hand tools, and trucks. This classification includes the production of finished logs that will be used in the manufacture of log houses or cabins.

This classification excludes all operations conducted in the woods, such as the felling of timber, which are to be reported separately in the applicable logging classification, and work conducted away from the shop or yard, except delivery, which is to be reported separately in the classification applicable for the work being performed.

WAC 296-17-53501 Classification 1004.

1004-00 Log storage and log sorting yards

Applies to establishments engaged in the operation of log storage or sorting yards. The logs may be owned by the yard, for later sale, or stored for others. Operations contemplated by this classification include, but are not limited to, loading/unloading log trucks, grading logs by type or size, stacking logs, recordkeeping, security and routine maintenance of grounds and equipment.

This classification excludes all trucking outside of the yard which is to be reported separately in classification 1102; log storage or sorting yards operated by a logging company at a side or a remote location, which are considered an inclusion and are to be reported separately in classifications 5001 or 5005 as applicable; and log storage yards operated in conjunction with a pole yard, log drying, or wood products manufacturing business which are to be reported separately in the classification applicable to the business.

[Statutory Authority: RCW 51.16.035. 98-18-042, § 296-17-53501, filed 8/28/98, effective 10/1/98; 96-12-039, § 296-17-53501, filed 5/31/96, effective 7/1/96; 85-24-032 (Order 85-33), § 296-17-53501, filed 11/27/85, effective 1/1/86; 83-24-017 (Order 83-36), § 296-17-53501, filed 11/30/83, effective 1/1/84; 80-17-016 (Order 80-23), § 296-17-53501, filed 11/13/80, effective 1/1/81.]

WAC 296-17-53502 Classification 1005.**1005-02 Shake and/or shingle mills**

Applies to establishments engaged in the operation and maintenance of a shake and/or shingle mill. Work contemplated by this classification includes receiving raw logs which they cut and split into shakes, shingles and ridge caps. A shake is a roofing or siding material having at least one surface with a natural grain textured split surface. A shingle is a roofing or siding material having sawn faces and backs and are of a standard thickness at the butt end and tapered finish at the other end. A ridge cap is produced from two pieces nailed together to form a "v" shape placed on the center line of a roof. Raw logs are temporarily stored in the yard. This classification may include operations such as, but not limited to, loading raw logs onto a conveyor or log slip, cutting the log into rounds, splitting the rounds into blocks, feeding the blocks through a shake or shingle saw, grading and sorting, bundling, stacking and storing of finished shakes, shingles and/or ridge caps. Machinery and equipment includes, but is not limited to, log loaders, conveyors, log slips, overhead splitters, cut-off saws, shake saws, shingle saws, taper saws, head saws, pallet presses, and forklifts.

This classification excludes establishments engaged exclusively in the manufacturing of ridge caps or shims which are to be reported separately in classification 2903; automated shake and shingle mills which are to be reported separately in classification 1002 provided the entire process to produce shakes and shingles uses automated processes at the mill site, meets the requirements defined in WAC 296-17-534; and all operations conducted in the woods, such as logging or the cutting and splitting of shake or shingle bolts, which are to be reported separately in the applicable logging classification.

WAC 296-17-53504 Classification 1007.**1007-08 Geophysical exploration, N.O.C.**

Applies to contractors engaged in geophysical exploration, with no core drilling, and without seismic detection, who are not covered by another classification (N.O.C.). The more common methods of geophysical exploration are gravitational, electric and magnetic. In the gravitational method, delicate pendulums and torsion balances capable of detecting differences in the gravitational pull of the earth at various places enable the geologist to tell where oil is likely to be found. There are two electrical methods, resistivity and inductive. In the resistivity method, measurements are taken on an ohmmeter, which indicate the resistivity of the subsurface. The inductive method is somewhat comparable, but instead of determining the resistivity of the subsurface formations, the conductivity is measured enabling the geologist to determine the character of the subsurface being studied. The magnetic method is accomplished by means of a highly developed form of magnetic dipping needle with a telescope magnifier. The magnetic attraction exerted by magnetic

(2003 Ed.)

rocks and formations causes the needle to deflect from its horizontal plane, thereby enabling a geologist to develop contour maps with lines of equal magnetic attraction. This classification includes prospectors who may specialize in particular instrumentation such as electrical, gravity, magnetic or seismic. The prospector studies structure of subsurface rock formations to locate petroleum deposits; conducts research using geophysical instruments such as seismograph, gravimeter, torsion balance, and magnetometer, pendulum devices, and electrical resistivity apparatus to measure characteristics of the earth; computes variations in physical forces existing at different locations and interprets data to reveal subsurface structures likely to contain petroleum deposits; and determines desirable locations for drilling operations. This classification includes prospecting for mineral ores and the testing of soil for percolation when performed by employees of an employer subject to this classification.

This classification excludes core drilling and seismic geophysical exploration which are to be reported separately in classification 0103, and geophysical crews employed by oil companies who are to be reported in the classification applicable to the business.

Special note: When assigning classifications 1007-08, 4901-16 - Geologists, and 0103-10 - Seismic geophysical exploration, care must be taken to look beyond the word "geologist" to determine the actual nature of the activities being performed.

1007-09 Testing and inspecting of pipelines using radiographic or X-ray analysis process by contractor at industrial plants or construction sites

Applies to establishments engaged in the testing or inspecting of pipelines or conduits for others, provided the testing or inspecting is not performed in conjunction with the construction of the pipeline. This classification includes testing or inspecting involving radiographic or X-ray analysis processes such as the X-raying of containers, inspecting of utility lines, and the drawing of oil samples on-site when performed by employees of an employer subject to this classification. Classification 1007-09 is assigned primarily to field activities.

This classification excludes testing or inspecting done in conjunction with construction which is to be reported separately in the appropriate construction classification.

1007-15 Inspection and grading bureaus, N.O.C.; log scaling and grading bureaus; lumber inspection services; weigh scale attendants, N.O.C.; weather stations; rain-making - no aircraft

Applies to establishments operating as *inspection and grading bureaus*, not covered by another classification (N.O.C.), including, but not limited to, those involved in inspecting and grading commodities such as logs, lumber, shingles, shakes, poles, and railroad ties. The commodity is examined and stamped with a grademark which indicates the grade, species, producer's name or number and other pertinent data. A certificate of inspection may be issued in lieu of a grademark. The purpose of the inspection is to grade, tally, and stamp only those products which meet certain required specifications and to cull those products which do not meet

the established standards. *Log scaling and grading bureaus* measure the logs, and by applying log rule formulas, determine the net yield, usually expressed in board feet. A scale ticket containing descriptive data is attached to the end of the log. This classification also applies to *weigh scale attendants* not covered by another classification (N.O.C.), when the service is available to the general public, otherwise the weigh scale attendants are to be included in the basic classification of the business. This classification includes establishments engaged exclusively in such services as auto emission control testing, air flow balancing and testing, the balancing and testing of heating, ventilating and air conditioning systems, hydrostatic testing of such objects as boilers, tanks, pipes and fittings using compressed air or water pressure to detect leaks, the strength testing of building material such as, but not limited to, asphalt, concrete and steel; and the testing or inspecting of steel weldments. This classification also includes *weather stations* which observe and record weather conditions for use in forecasting, and which read weather instruments, including thermometers, barometers, and hygrometers to ascertain elements such as temperature, barometric pressure, humidity, wind velocity, and precipitation. Weather data is transmitted and received also from other stations. A fully automated (computerized) weather station can be reported under classification 4904. This classification also covers rainmaking without the use of aircraft.

Special note: Classification 1007, classification 5001, and classification 5004, shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.

1007-16 Foresters (to be assigned only by reforestation underwriter)

Applies to foresters engaged in forest management for others. Foresters may plan and direct forestation or reforestation projects, map forest areas, estimate standing timber and future growth, or manage timber sales. Foresters also may plan cutting programs to assure continuous production of timber, and determine methods of cutting and removing timber with a minimum of waste and environmental damage. They may plan and design forest fire suppression and fire-prevention programs, plan and design construction of fire towers, trails, roads and fire breaks and may also plan and design projects for control of floods, soil erosion, tree diseases, and insect pests in forests. Foresters may specialize in one aspect of forest management.

This classification excludes manual labor or direct supervision of manual labor.

Special note: Classification 1007, classification 5001, and classification 5004 shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.

1007-18 Foresters and timber cruisers - scientific tree, forestry, and watershed studies (to be assigned only by reforestation underwriter)

Applies to establishments engaged in scientific tree studies for others. Scientific tree studies are research oriented; random sample plots are measured and data such as the size of trees, species, disease and insect or animal damage, and seedling mortality, are recorded. Plots are maintained where each tree is tagged, its genealogy recorded, and growth statistics entered. A scion (a detached living shoot or twig) may be grafted onto a root stock and detailed records maintained of its genealogy and growth. Other data, such as fertilizers used, also may be maintained. These test plots are sometimes referred to as progeny plots or progeny studies. This classification includes scientific studies of watersheds or watershed restoration which involves the evaluation of slopes, road systems, streams and the entire ecosystem (an ecological community with its physical environment, regarded as a unit). This classification also includes precommercial thinning layouts or pruning inspections to determine if an area is ready for thinning or pruning.

This classification excludes manual labor or direct supervision of manual labor.

Special note: Classification 1007, classification 5001, and classification 5004 shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.

1007-19 Timber cruisers (to be assigned only by reforestation underwriter)

Applies to timber cruisers engaged in cruising timber land to estimate the volume and quality of a timber stand through an on-site visual inspection for others. A timber cruiser collects data concerning forest conditions for appraisal, sales, administration, logging, land use, and forest management planning. A forest area is traversed on foot in an established pattern and sampling techniques applied. The height and diameter of each tree in a test site is recorded as are defects such as rot and bends, to estimate the useable wood in each tree. From the data collected a summary report is prepared giving the timber types, sizes, condition and outstanding features of an area, such as existing roads, streams, and communication facilities. Trees may be marked with spray paint to denote trail, boundary, or for cutting.

This classification excludes manual labor or direct supervision of manual labor.

Special note: Classification 1007, classification 5001, and classification 5004 shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.

1007-20 Foresters and timber cruisers - tree auditing (to be assigned only by reforestation underwriter)

Applies to establishments engaged in tree auditing for others. This service is generally associated with new plantations and is the process of evaluating the quality and the rate

of planting of new trees, as well as surveying newly planted sites on a periodic schedule to determine the survival rate.

This classification excludes tree auditing services when planting is in process, which is to be reported separately in classification 5004, and manual labor or direct supervision of manual labor.

Special note: Classification 1007, classification 5001, and classification 5004 shall not be assigned to the same business unless the operations described by these classifications are conducted as separate and distinct businesses and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.

1007-21 Environmental and ecological surveyor services, N.O.C.

Applies to establishments engaged in providing environmental and ecological surveying services not covered by another classification (N.O.C.) for others. Environmental or ecological surveying firms typically serve as consultants to industrial or commercial enterprises, governmental agencies or private citizens. Environmental engineer is a term applied to engineering personnel who apply knowledge of chemical, civil, mechanical, or other engineering disciplines to preserve the quality of life by correcting and improving various areas of environmental concern, such as air, soil, or water pollution. Services include identifying and projecting potential environmental impact resulting from proposed projects, assessing the source, severity and extent of environmental damage resulting from human or natural causes, and recommending solutions to protect or regain the natural balance between organisms and their environment. Activities of environmental surveying/consulting establishments include, but are not limited to, locating archaeological sites for preservation, researching and collecting field data on birds and insects, preparing impact statement for landowners and developers, stream and fish monitoring, botanical surveys, wetland surveys, soil and groundwater testing for contamination, air monitoring including industrial hygiene services, monitoring and testing at hazardous waste sites, providing advice on pollution control at its source, and developing a plan for cleaning up already recognized problems such as waste disposal sites, radon or asbestos contamination. Other services provided may include helping clients develop a system for complying with various governmental regulations. This classification includes employees of the environmental surveying service who conduct field work as well as those who are assigned to act as project managers or project superintendents to oversee the work of remediation contractors.

This classification excludes all types of remediation work which is to be reported separately in the classification applicable to the type of remediation work being performed, and surveyors employed by construction companies or other types of businesses who are to be reported separately in the applicable classifications.

Special note: When assigning classifications 1007 or 4901, care must be taken to look beyond the words "consulting" or "engineering" to determine the actual nature of the activities being performed. Classifications 1007 and 4901 shall not be assigned to the same business unless the operations described by these classifications are conducted as sep-

arate and distinct businesses, each business has separate and distinct employees, and the conditions set forth in the general reporting rules covering the operation of a secondary business have been met.

WAC 296-17-536 Classification 1101.

1101-04 Automobile delivery or repossessing

Applies to establishments engaged in delivering or repossessing individual automobiles for others. Generally, a client will contact the service company and arrange for a car to be delivered to a specific destination or request that a car of which they (client) is the legal owner, be repossessed and delivered to a specific location. In either case, a driver, not a motorized transportation service, does the delivery. Duties of employees subject to this classification are generally limited to unlocking vehicles and driving. It is common on long distance deliveries for the service company to use more than one driver. This classification also applies to drivers of sound trucks.

This classification excludes operation of tractor/trailer combinations to transport vehicles which is to be reported separately in classification 1102 or classification 1109, depending on the method of transporting.

1101-06 Delivery by retail and wholesale stores and distributors, N.O.C.

Applies to employees of retail and wholesale stores engaged in inter-store delivery, customer merchandise delivery when excluded from the store classification, and delivery not covered by another classification (N.O.C.). Employees subject to this classification are generally involved in loading and unloading delivery vans or trucks and driving from store to store, or from a store to a customer's location. Drivers may or may not have designated routes or delivery areas. This classification is not applicable to establishments engaged in general trucking services which are to be reported separately in classification 1102. Classification 1101 is distinguishable from delivery operations reported in classification 1102 in that businesses covered by classification 1102 generally do not own the merchandise they are transporting.

1101-09 Parcel delivery companies for delivery of small parcels

Applies to establishments engaged in the delivery of small parcels for others. Establishments subject to this classification may offer overnight express services, but usually do not deliver packages that exceed 150 pounds. Work contemplated by this classification includes, but is not limited to, driving, loading and unloading delivery vehicles. This classification also applies to contract mail delivery route drivers and contract hauling of mail between post offices.

This classification excludes the delivery of bulk freight such as that delivered by trucking companies which are to be reported separately in classification 1102.

1101-14 News agents or distributors of magazines, periodicals and telephone books - no retail dealers

Applies to establishments engaged in the distribution of newspapers, periodicals, and telephone books. Work contemplated by this classification includes, but is not limited to, driving, loading and unloading the vehicles, stocking shelves, and removing old periodicals from shelves.

1101-17 Driver delivery sales, N.O.C.

Applies to establishments engaged in route sales of a wide variety of merchandise not covered by another classification (N.O.C.), including, but not limited to, hand tools, automotive supply, household items, used clothing, snack foods (such as potato chips), dairy products, greeting cards, over-the-counter medications, grooming products, and pamphlets. Sales personnel drive company vehicles to deliver products which have been previously ordered and, while at the customer's location, solicit further orders, remove outdated merchandise, and restock shelves or displays. They may also call on new customers along their route. The classification also applies to establishments or employees who travel to their customer's place of business and remove outdated merchandise from shelves and restock with new products.

1101-19 Route food services

Applies to establishments engaged in route food services where prepackaged, prepared food is sold, or where food may be prepared in the mobile unit for immediate sale by employees of the route food service. Duties include, but are not limited to, driving, food preparation, loading and unloading the vehicle, and cashiering. Typical route food services include, but are not limited to, traveling coaches that sell beverages and prepared pastries or snack items at various locations during a given work day, ice cream wagons, refrigerated trucks that sell specialty prepackaged foods to route customers, or mobile "short-order" food services that sell fast foods at special events or at locations where hot food may not be available.

This classification excludes food preparation at a fixed location for the route food vehicles which may be reported separately in classification 3905 or as applicable.

1101-20 Computer tape or accounting records delivery service

Applies to establishments engaged in picking up and delivering computer tape, accounting records, or similar financial records to or from storage centers to customer locations. Delivery drivers in this classification often work in metropolitan areas and drive small cars or bicycles.

1101-21 Errand service

Applies to establishments engaged in providing errand services for others. Types of errands include, but are not limited to, shopping services, delivery of food, beverages or other commodities, and delivery of body fluid samples to laboratories. Vehicles used by these services are typically small

cars or bicycles. This classification also applies to the distribution of sample merchandise by vehicle.

WAC 296-17-537 Classification 1102.

1102-02 Interstate trucking

Applies to establishments engaged in interstate trucking. Interstate trucking is the hauling of goods that either originate out-of-state or have an out-of-state destination. Duties include driving, mechanical repair, and in some cases loading/unloading vehicles. The loading and unloading may be done with forklifts, pallet jacks, hand trucks, or by hand. The drivers may have an assigned route, or they may be assigned a different destination each trip.

Special notes: Effective July 1, 1993, trucking establishments are allowed to have both the trucking classification 1102 and the freight handling classification 2002. However, hours cannot be split for a worker who works in both classes. If an employee has any driving duties, *all* their hours are to be reported in classification 1102. Establishments subject to this classification are to report actual hours worked for each driver. However, the hours are to be capped at 520 hours per driver per quarter. Detailed information can be found in the general audit rule covering the trucking industry and in RCW 51.12.095.

1102-03 Intrastate trucking

Applies to establishments engaged in intrastate trucking. Intrastate trucking is the hauling of goods *only* within the boundaries of a state. In other words, the goods must have both an origin and destination in the same state. Duties include driving, mechanical repair and, in some cases, loading and unloading the vehicles. The loading and unloading may be done with forklifts, pallet jacks, hand trucks, or by hand. The drivers are usually assigned routes or a territory. Businesses in this classification usually have terminals or storage depots where merchandise is stored awaiting transfer.

Special notes: Effective July 1, 1993, trucking establishments are allowed to have both the trucking classification 1102 and the freight handling classification 2002. However, hours cannot be split for a worker who works in both classes. If an employee has any driving duties, *all* their hours are to be reported in classification 1102. Establishments subject to this classification are to report actual hours worked for each driver. However, the hours are to be capped at 520 hours per driver per quarter. Detailed information can be found in the general audit rule covering the trucking industry and in RCW 51.12.095.

1102-04 Combined interstate/intrastate trucking

Applies to establishments engaged in a combination of interstate/intrastate trucking activities. Businesses assigned to this classification generally do not produce, manufacture, or legally own the goods they are hauling. Interstate trucking is the hauling of goods which either originate out-of-state or have an out-of-state destination. Intrastate trucking is the hauling of goods *only* within the boundaries of a state. In other words, the goods have both an origin and destination in the same state. Duties include driving, mechanical repair and, in some cases, loading and unloading the vehicles. The loading and unloading may be done with forklifts, pallet jacks, hand trucks, or by hand. The drivers are usually assigned routes or a territory. Establishments in this classification usually have terminals or storage depots where merchandise is stored awaiting transfer.

Special notes: Effective July 1, 1993, trucking establishments are allowed to have both the trucking classification 1102 and the freight handling classification 2002. However, hours cannot be split for a worker who works in both classes. If an employee has any driving duties, *all* their hours are to be reported in classification 1102. Establishments subject to this classification are to report actual hours worked for each driver. However, the hours are to be capped at 520 hours per driver per quarter. WAC 296-17-538 Classification 1103.**1103-00 Coal and solid fuel dealers - yard operations**

Applies to establishments engaged in the sale and delivery of coal, pressed wood fiber logs (fire logs), wood stove pellets, wood chips, and sawdust. Operations contemplated by this classification include all related store, yard and delivery operations when conducted by employees of employers having operations subject to this classification.

This classification excludes all manufacturing operations which are to be reported separately in the classification applicable to the material and process used, and all mining operations which are to be reported separately in the applicable classification.

1103-02 Firewood dealers - yard operations

Applies to establishments engaged in the sale of firewood. This classification is limited to establishments operating a firewood sales lot where customers either pick up firewood or the dealer will make deliveries from. Operations contemplated by this classification are limited to yard and delivery operations.

This classification excludes firewood cutting operations conducted in timber or forest lands and firewood sales lots conducted from a logging landing which are both to be reported separately in the applicable logging classification.

(2003 Ed.)

Special note: Establishments subject to this classification may purchase precut firewood from other nonrelated businesses or may have a cutting crew. The only cutting operations allowed in classification 1103 are those conducted in the sales lot.

1103-04 Composting

Applies to establishments engaged in composting yard waste or other materials. Depending on the type of yard waste accepted, grinders may be used to reduce the size of the material for faster composting. Once the material is an acceptable size for composting, it may be placed in static curing piles, turned periodically to aerate until it is adequately decomposed, then sometimes screened. Another method of curing is to place the waste material in long rows, called "windrows" which are turned periodically. Other establishments, either operated privately or by municipalities, may use processed and dewatered sludge which is mixed with other materials such as shredded yard waste, sawdust, or other wood waste. The mixture must be designed to have the right degree of moisture and air to maintain a temperature of between 130 and 160 degrees Fahrenheit. The end product, in either instance, is a "Class A" pathogen product, meaning it can be used in soil for raising vegetables and is referred to as "manufactured" soil. This classification includes delivery when performed by employees of an employer having operations subject to this classification.

1103-05 Pallet recycle service - yard operations

Applies to establishments engaged in the sale of used wood pallets to others. Operations contemplated by this classification are limited to the pick up of discarded used pallets from stores, warehouses, or other facilities, transporting of pallets to the establishment's sorting and storage yard where they are sorted by grade and size, reloading of pallets onto trucks, and delivery of pallets to customers.

This classification excludes all pallet repair activities which are to be reported separately in classification 2903.

1103-06 Top soil, humus, peat and beauty bark dealers - yard operations

Applies to establishments engaged in the sale of soils, humus, peat, and beauty bark to others. Operations contemplated by this classification are limited to the receipt of soils, peat, humus, bark and compost in bulk and the subsequent load out of bark, soil and related organic matter into customer vehicles. This classification includes custom mixing soils, incidental sales of landscaping rock, sand, gravel, and crushed rock, and delivery when performed by employees of an employer subject to this classification.

This classification excludes contract delivery by non-dealer employees who are to be reported separately in classification 1102, and digging of soils/humus/peat/gravel or grinding of bark which are to be reported separately in the applicable classification.

WAC 296-17-53801 Classification 1104.

1104-00 Auto or truck wrecking or dismantling

Applies to establishments engaged in salvaging, dismantling and parting out motorized vehicles, motorcycles, and aircraft. Parts may be removed and inventoried or removed when there is a special request for them. Afterwards, hulls are stripped and may be crushed. Operations contemplated by this classification includes removal of salable parts with the use of hand tools and discarding frames and bodies for future sale to scrap dealers and metal manufacturers. Any subsequent breaking up of stripped chassis and bodies with torches or shears to be sold as iron or steel scrap is also included within the scope of this classification as is the reconditioning of the yard's own autos and trucks for resale. In addition to the yard work, salvaged parts will be reconditioned or repaired and sold over the counter. New parts may also be sold. A dismantler may locate and obtain parts from another yard for a customer. Dismantlers may haul cars and trucks to the yard by tow truck, flatbed, or multi-car carrier or the owner may bring the vehicle to the yard. Tow truck operations related to the hauling of vehicles purchased by the wrecking yard for sale by the yard are included within the scope of this classification.

This classification excludes establishments engaged in tow truck services to the public which are to be reported separately in classification 1109, and establishments engaged in salvaging, collecting, sorting and reducing scrap metal which are to be reported separately in classification 0604.

WAC 296-17-53802 Classification 1105.

1105-00 Septic tank pumping

Applies to establishments engaged in septic tank pumping services. Operations contemplated by this classification include driving, locating the septic tank and digging as necessary to uncover it, connecting the pumping hose to the septic tank, pumping out the sludge, and disposing of the waste products.

This classification excludes installation and repair of septic tanks or systems which are to be reported separately in classification 0108, and cleaning of sewage treatment tanks which is to be reported separately in classification 0504.

1105-01 Street sweeping; parking lot sweeping; and portable chemical toilet servicing

Applies to establishments that perform street sweeping and parking lot sweeping services for others. Trucks used for sweeping are equipped with rotating or nonrotating brushes and vacuum/suction devices. In addition to driving duties, the drivers may adjust/unclog the brushes, and clean the holding tanks contained on the sweeping or pumping vehicle. This classification also includes snow removal by plowing,

delivery of portable toilets and the related servicing and disposal of waste products which are recovered by establishments subject to this classification.

1105-02 Vacuum truck services

Applies to establishments engaged in vacuum truck services for others. Services include, but are not limited to, cleaning of duct work, picking up waste oils, lubricants, anti-freeze, bilge water, and similar waste products. Establishments subject to this classification may offer a regular service, one-time or occasional pick-up service. The driver has kits for testing the materials and, if there is a question, a sample is taken to a laboratory for further analysis. If the waste material is acceptable, it is pumped into the tanker truck. The waste material may be consolidated with similar products and "bulked" in storage tanks, then taken to appropriate treatment or disposal facilities, or it may be taken directly to appropriate facilities. If it is to be "bulked" with other products, it will be filtered as it is pumped into the storage tanks and allowed to sit for a few days for any water to settle to the bottom of the tank and be drained off. Bulked materials may be hauled away by the establishment's own trucks or by common carrier. Establishments subject to this classification may pick up containers of used oil filters and bring them into their plant where they are sorted into crushed and uncrushed filters, and gaskets removed. This activity is included within the scope of this classification if it is an incidental service. This classification includes the related disposal of waste products which are recovered by establishments subject to this classification.

This classification excludes septic tank pumping which is to be reported separately in classification 1105-00.

WAC 296-17-53803 Classification 1106.

1106-00 Rental stores, N.O.C.; Truck canopy sales

Applies to establishments engaged in the rental of items, not covered by another classification (N.O.C.), such as hand tools, air compressors, automotive tools, baby equipment, convalescent equipment, exercise equipment, floor care equipment, pressure washers, party and banquet equipment, light construction tools or equipment such as saws, drills, and sanders, and lawn and garden equipment, as opposed to machinery or larger commercial or industrial equipment. The tools and equipment are generally rented to homeowners for use on their property. Rental stores within this classification rent a variety of tools and equipment unlike specialty rental stores that specialize in one type of product. This classification includes clerical office personnel, sales personnel, as well as the maintenance and repair of rented goods when performed by employees of the rental store. This classification also applies to establishments engaged in the sale and installation of truck canopies and related accessories, but who do not sell other types of vehicles or trailers.

This classification excludes establishments engaged in the rental of commercial or industrial equipment and/or machinery such as, but not limited to, bulldozers, tractors, and backhoes which are to be reported separately in classification 6409; establishments engaged in the rental of farm

machinery equipment which are to be reported separately in classification 6408; establishments engaged in the rental of vehicles which are to be reported separately in the applicable classification; establishments engaged in the rental of sporting goods which are to be reported separately in classification 6309; establishments engaged in the rental of clothing or costumes which are to be reported separately in classification 6305; and establishments engaged in the rental of furniture which are to be reported separately in classification 6306.

WAC 296-17-53805 Classification 1108.

1108-02 Glass tempering

Applies to establishments engaged in glass tempering services for others. Operations contemplated by this classification include glass cutting, bending, grinding, beveling, and silvering. Tools and equipment include metal and wood cutting tools and machinery, grinders, sanders, drills, saws, knives, suction cups, putty, caulking, cleaning solvents, forklifts, packing materials, delivery and service vehicles and tempering ovens. The process of glass tempering consists of taking auto or sheet glass which has been purchased from a glass manufacturer or distributor and placing it in a tempering oven. The oven heat realigns the molecular structure of the glass creating added strength, however, the appearance of the glass remains unchanged. This classification includes the sale of accessories for flat glass such as sealants, screening, aluminum frames for storm windows and doors, mirror backings, frames and glass cleaners.

This classification excludes establishments engaged in the installation of glass, mirrors, aluminum or wood window sashes or similar products away from the shop which are to be reported separately in classification 0511; establishments engaged in the manufacture of glass which is to be reported separately in classification 3503; merchants who specialize in selling or installing auto glass which is to be reported separately in classification 1108-04; glass merchants engaged exclusively in flat glass sales which are to be reported separately in classification 1108-03; and combined auto/flat glass merchants with no tempering which are to be reported separately in classification 1108-05.

1108-03 Flat glass merchants - no tempering

Applies to establishments engaged in receiving, storing and selling all types of fabricated glass and plexiglas. Glass products include, but are not limited to, window glass, plate glass, safety glass for automobiles, and mirrors. Work contemplated by this classification includes cutting of glass to customers specified dimensions, beveling, buffing, grinding, polishing, silvering of plate glass, and the installation of glass into frames within the shop or adjacent yard. Some dealers may specialize in cutting, selling or installing fabricated flat glass or they may also sell and install plate, laminated, window, cathedral, stained, bullet proof, opalescent flat, picture, skylight and tempered glass. Most glass dealers will cut glass

to order. Tools and equipment include metal and wood cutting tools and machinery, grinders, sanders, drills, saws, knives, suction cups, putty, caulking, cleaning solvents, forklifts, packing materials, delivery and service vehicles. This classification includes the sale of accessories for flat glass such as sealants, screening, aluminum frames for storm windows and doors, mirror backings, frames and glass cleaners.

This classification excludes establishments engaged in the installation of glass, mirrors, aluminum or wood window sashes or similar products away from the shop which are to be reported separately in classification 0511; manufacturing of glass which is to be reported separately in classification 3503; glass merchants who perform glass tempering which are to be reported separately in classification 1108-02; and merchants who specialize in selling or installing auto glass which are to be reported separately in classification 1108-04.

1108-04 Auto glass merchants

Applies to establishments engaged in selling and installing automobile glass in vehicles. In addition to selling and installing new or replacement auto glass, merchants typically repair auto windshield cracks, scratches, bullseyes and breaks. Tools and equipment include metal and wood cutting tools, grinders, sanders, drills, saws, knives, windshield sticks, suction cups, putty, caulking, cleaning solvents, delivery and service vehicles. Solar tinting of auto glass with film to reduce heat and glare may also be performed, as well as selling and installing sun roofs. Auto glass merchants may offer 24-hour emergency service or pickup and delivery. Installation of auto glass, truck glass or boat tops performed in or away from the shop is included within the scope of this classification.

This classification excludes establishments engaged in the manufacturing of glass which are to be reported separately in classification 3503; tinting or the application of tinted plastic film to auto glass by an auto detailer which is to be reported separately in classification 3406; glass merchants who perform glass tempering which are to be reported separately in classification 1108-02; glass merchants exclusively dealing in flat glass which are to be reported in classification 1108-03; and combined auto/flat glass merchants with no tempering which are to be reported in classification 1108-05.

1108-05 Combined auto and flat glass merchants - no tempering

Applies to establishments engaged in receiving, storing and selling all types of fabricated glass and plexiglas as window glass, plate glass, safety glass for automobiles, mirrors and other types of glass at a permanent shop location or adjacent yard. Work contemplated by this classification includes cutting of glass to customers' specified dimensions, beveling, buffing, grinding, polishing, silvering of plate glass and the installation of glass into frames. Tools and equipment include metal and wood cutting tools and machinery, grinders, sanders, drills, saws, knives, suction cups, windshield sticks, putty, caulking, cleaning solvents, forklifts, packing materials, and delivery and service vehicles. A glass merchant performing the installation of glass in automobiles is also included within the scope of this classification; as are related services such as, but not limited to, repair of auto windshield cracks, scratches, bullseyes and breaks; in vehicle

tinting of auto glass to reduce heat and glare; and installing sun roofs. Other dealers may specialize in cutting, selling or installing fabricated flat glass or they may also sell and install plate, laminated, window, cathedral, stained, bullet proof, opalescent flat, picture, skylight and tempered glass. Included within the scope of this classification is the sale of accessories for flat glass such as sealants, screening, aluminum frames for storm windows and doors, mirror backings, frames and glass cleaners.

This classification excludes establishments engaged in the installation of glass, aluminum or wood window sashes or similar products away from the shop which are to be reported separately in classification 0511; manufacturing of glass which is to be reported separately in classification 3503; tinting or the application of tinted plastic film to auto glass by an auto detailer which is to be reported separately in classification 3406; glass merchants who perform glass tempering which are to be reported separately in classification 1108-02; and flat glass merchants who do not sell or install auto glass which are to be reported separately in classification 1108-03.

1108-06 Glass frosting, etching, beveling or grinding

Applies to establishments engaged in shaping and finishing solid glass by cutting, frosting, etching, beveling, grinding, sandblasting, carving, glue chipping, decorating or grooving. Custom items manufactured in this classification include, but are not limited to, video game tops, glass signs, glass used in the assembly of electrical appliances such as microwave ovens, electronically controlled cabinets and display panels, and mirrors of all sizes. Machinery includes diamond or glass cutting saws, diamond or glass grinding wheels and discs, drills, polishing laps, etching tools and other hand tools. In the manufacture of mirrors, metallic solutions (usually silver), shellacs or varnishes, paints, and plate glass are received from outside sources. The glass is cut to size, ground, smoothed, and the edges may be beveled. Hole drilling, chemical etching, drying, buffing and polishing may be performed. Reflective surfaces are generally produced by pouring or spraying metallic solutions over prepared glass. Heavier coats are obtained by successive applications of the plating solution. After applying the plating solution, the mirrors are sprayed or hand brushed with shellac or varnish, then with paint. Frames, handles or similar finishings may be attached. Production manufacturing of insulated glass by sealing together two or more sheets of glass with an air space between them is also included when performed by employees of an employer subject to this classification.

This classification excludes the mining, digging or quarrying of raw materials which is to be reported separately in the applicable classification; glass merchants who do incidental grinding, beveling, silvering and cutting of glass who are to be reported separately in the classification applicable to the type of glass they specialize in; establishments manufacturing optical goods or telescopes, or perform precision grinding of blank or rough lenses which are to be reported separately in classification 6604; and establishments engaged in manufacturing stained or leaded glassware, or in melting or blowing glass which are to be reported separately in classification 3503.

WAC 296-17-53806 Classification 1109.

1109-00 Automobile or truck towing services, N.O.C.

Applies to establishments engaged in providing towing services to others which are not covered by another classification (N.O.C.). Operations contemplated by this classification are limited to tow truck drivers and their assistants who are engaged in towing services for hire. For purposes of this classification "towing services for hire" means, but is not limited to, the towing of disabled vehicles to a shop (that is unrelated to the towing service) for repair; the recovery of repossessed vehicles for others by tow truck; roadside assistance during snow, ice or flooding to recover or free stuck vehicles; and the towing in of disabled vehicles to a secured yard for insurance or law enforcement agencies. It is common for towing companies to also operate a vehicle repair garage or service center in conjunction with the towing service. Auto service centers and repair garages, auto body shops and wrecking yard operations are to be reported separately in the applicable service or repair classification provided that the conditions of the general reporting rules covering the operation of a secondary business and the division of worker hours have been met. Tow truck dispatchers who have no other duties may be reported separately in classification 4904 provided that the conditions of the standard exception general reporting rules have been met.

Special note: Towing is common to many classifications. Employers offering towing services should be contacted to verify whether the towing service they provide is only in connection with their auto repair, auto body or wrecking yard (*towing service not for hire*), or provided as a general service unrelated to their repair garage (*towing services for hire*). Only towing services for hire are to be assigned to classification 1109. If a business provides both towing services for hire and not for hire, worker hours for drivers and their assistants maybe divided between this classification and the applicable repair garage classification provided that the conditions of the general reporting rule covering the division of worker hours has been met. Otherwise, all driver and assistant hours are to be assigned to the highest rated classification applicable to the business.

WAC 296-17-539 Classification 1301.

1301-00 Electric light and power plants operated by cities, towns, or counties

Applies to establishments, operated by a city, town, or county, engaged in generating and distributing electricity to their residents. These may be hydroelectric, fossil fuel steam

(2003 Ed.)

or turbo-generator plants. This classification includes the regular installation, maintenance and repair of power plant machinery and equipment, the extension and maintenance of lines (including poles, towers and underground lines), the installation and maintenance of circuit breakers and transformers on poles, pole-to-house hook-ups (service connections), meter installation and meter readers when done by employees of an employer having operations subject to this classification. Machinery and equipment may include, but not be limited to, boilers, turbines, generators, cables, transformers, switchgears, circuit breakers, control panels, substations, poles, lines, relays, computers, cranes, forklifts, vehicles and garages, warehouse equipment, meters and hand tools. Clerical office and administrative personnel are to be reported separately in classification 5305 for a city or town, or 5306 for a county.

This classification excludes contractors engaged in underground line construction maintenance or repair who are to be reported separately in classification 0107; contractors engaged in overhead line, pole and tower construction, maintenance or repair, who are to be reported separately in classification 0509; contractors engaged in wiring within buildings who are to be reported separately in classification 0601; contractors engaged in the installation of machinery or equipment who are to be reported separately in classification 0601 or 0603 as applicable; and the construction of any buildings which is to be reported separately in the applicable construction classification.

1301-01 Electric light and power cooperatives

Applies to establishments, in the form of cooperatives, engaged in generating and distributing electricity to their customers. A cooperative is formed by, and owned jointly by, those who make use of the service being provided. The power may be generated by a hydroelectric, fossil fuel steam or turbo-generator plant. This classification is appropriate whether a cooperative owns a power plant or is distributing power purchased from another utility company. Work contemplated by this classification includes the regular installation, maintenance and repair of power plant machinery and equipment, the extension and maintenance of lines (including poles, towers and underground lines), the installation and maintenance of circuit breakers and transformers on poles, pole-to-house hook-ups (service connections), meter installation and meter readers when done by employees of an employer having operations subject to this classification. Machinery and equipment may include, but not be limited to, boilers, turbines, generators, cables, transformers, switchgears, circuit breakers, control panels, substations, poles, lines, relays, computers, cranes, forklifts, vehicles and garages, warehouse equipment, meters and hand tools. Clerical office and administrative personnel are to be reported separately as appropriate for the ownership of the cooperative; 5305 for cities and towns; 5306 for counties; or 4904 and 6303 for nonmunicipal.

This classification excludes contractors engaged in underground line construction maintenance or repair who are to be reported separately in classification 0107; contractors engaged in overhead line, pole and tower construction, maintenance or repair, who are to be reported separately in classification

0509; contractors engaged in wiring within buildings who are to be reported separately in classification 0601; contractors engaged in the installation of machinery or equipment who are to be reported separately in classification 0601 or 0603 as applicable; and the construction of any buildings which is to be reported separately in the applicable construction classification.

1301-02 Electric light and power plants operated by public utility districts

Applies to establishments, in the form of a public utility district (P.U.D.), engaged in generating and distributing electric power to a part of a county. This classification applies whether a P.U.D. owns a power plant or is distributing power purchased from another utility. Work contemplated by this classification includes the regular installation, maintenance and repair of power plant machinery and equipment, the extension and maintenance of lines (including poles, towers and underground lines), the installation and maintenance of circuit breakers and transformers on poles, pole-to-house hook-ups (service connections), meter installation and meter readers when done by employees of an employer having operations subject to this classification. Machinery and equipment may include, but not be limited to, boilers, turbines, generators, cables, transformers, switchgears, circuit breakers, control panels, substations, poles, lines, relays, computers, cranes, forklifts, vehicles and garages, warehouse equipment, meters and hand tools. Clerical office and administrative personnel are to be reported separately in 5306.

This classification excludes contractors engaged in underground line construction maintenance or repair who are to be reported separately in classification 0107; contractors engaged in overhead line, pole and tower construction, maintenance or repair, who are to be reported separately in classification 0509; contractors engaged in wiring within buildings who are to be reported separately in classification 0601; contractors engaged in the installation of machinery or equipment who are to be reported separately in classification 0601 or 0603 as applicable; and the construction of any buildings which is to be reported separately in the applicable construction classification.

1301-05 Steam heat power plants

Applies to establishments engaged in the operation of a steam heat power plant. These businesses use coal, oil, natural gases or electric power to produce steam which is distributed through a network of under or overground pipes to customers (the plant must be very near the purchaser). The initial process of producing the steam is the same as the process used in a steam powered electric generating plant, but the steam is channeled out to the purchaser instead of being used to turn turbines. The purchasers use the steam for heating buildings, operating saunas, as a heat source for cooking or processing in food processing plants, breweries or restaurants, producing the heat needed for wood drying kilns, or to convert back to hot water. Work contemplated by this classification includes, but is not limited to, the regular installation, maintenance or repair of plant machinery and equipment, the extension and maintenance of over or underground pipes, main-to-user hook-ups, meter installation and meter readers. Clerical office and administrative personnel are to be

reported separately as appropriate for the ownership of the steam plant; 5305 for cities and towns; 5306 for counties; or 4904 and 6303 for nonmunicipal.

This classification excludes contractors engaged in over or underground pipeline construction, maintenance or repair, main-to-house line extensions and hook-ups, who are to be reported separately in classification 0107; contractors engaged in the installation or contract maintenance of machinery or equipment who are to be reported separately in classification 0603; and the construction of any buildings which is to be reported separately in the applicable construction classification.

WAC 296-17-540 Classification 1303.

1303-00 Telephone companies - all other employees

Applies to establishments engaged in providing telecommunications services which enable subscribers to converse or transmit coded data. Work contemplated by this classification includes, but is not limited to, the regular installation, maintenance and repair of machinery and equipment, the extension and maintenance of lines (including poles, towers and underground lines), clearing right of ways, installing telephones and wiring in buildings, and making service connections when done by employees of an employer having operations subject to this classification. Machinery and equipment includes, but is not limited to, central control and switching center equipment, relays, computers, antennae, cranes, forklifts, vehicles and garages, warehouse equipment, and hand tools.

This classification excludes clerical office, exchange operators and administrative personnel who are to be reported separately in classification 1304; contractors engaged in underground line construction maintenance or repair who are to be reported separately in classification 0107; contractors engaged in overhead line, pole, and tower construction, maintenance or repair, who are to be reported separately in classification 0509; contractors engaged in wiring within buildings and making pole-to-house hook-ups who are to be reported separately in classification 0608; contractors engaged in the installation or contract maintenance of machinery or equipment who are to be reported separately in classification 0603; and establishments primarily engaged in selling telephone equipment retail which are to be reported separately in classification 6406.

1303-01 Telegraph companies - all other employees

Applies to establishments engaged in providing telecommunication services which enable printed messages (telegrams) to be transmitted from one agent to another for receipt by, or delivery to, a designated party. Telegraph companies also provide a "moneygram" service which allows an agent to receive a sum of money at one location and transmit a message to another agent to pay out the same amount of money to a designated party at another location. Work contemplated

by this classification includes the regular installation, maintenance and repair of machinery and equipment, the extension and maintenance of lines (including poles, towers and underground lines), installing transmission and receiving equipment, the clearing of right of ways, and delivery work when done by employees of an employer having operations subject to this classification. Machinery and equipment includes, but is not limited to, cables, control panels, poles, lines, relays, computers, cranes, forklifts, vehicles and garages, warehouse equipment, and hand tools.

This classification excludes clerical office and administrative personnel who are to be reported separately in classification 1304; contractors engaged in underground line construction maintenance or repair who are to be reported separately in classification 0107; contractors engaged in overhead line, pole, and tower construction, maintenance or repair, who are to be reported separately in classification 0509; contractors engaged in wiring within buildings who are to be reported separately in classification 0608; and contractors engaged in the installation or contract maintenance of machinery or equipment who are to be reported separately in classification 0603.

WAC 296-17-541 Classification 1304.

1304-00 Telephone companies - exchange operators, clerical office and sales personnel

Applies to the administrative and clerical office personnel of establishments engaged in providing telecommunication services which enable two or more parties to converse or transmit coded data. For purposes of this classification, administrative personnel includes clerical office, sales, data processing, exchange operators, customer service, marketing, and retail telephone store (when operated by the telephone company) sales personnel.

This classification excludes all other telephone company employees who are to be reported separately in classification 1303.

1304-01 Telegraph companies - clerical office and sales personnel

Applies to administrative and clerical office personnel of establishments engaged in providing telecommunication services which enable printed messages (telegrams) or moneygrams to be transmitted from one agent to another for receipt by a designated party. For purposes of this classification, administrative personnel includes clerical office, sales, data processing, customer service, marketing, cashiers and operators of telegraph, teletype or other transmitting and receiving equipment.

This classification excludes all other telegraph company employees who are to be reported separately in classification 1303.

WAC 296-17-54101 Classification 1305.

1305-00 Television cable companies - all other employees

Applies to establishments engaged in providing point-to-point subscription cable communications services. This classification is restricted to companies that provide the total spectrum of cable services for a fee or rental charge. These companies will normally operate and maintain antenna and control centers where they receive signals from broadcasting stations and transmit them through a cable system to local customers. This classification also includes homeowner associations and co-ops that operate a central system for residential users. Work contemplated by this classification includes, but is not limited to, the regular installation, maintenance and repair of machinery and equipment, the extension and maintenance of lines (including poles, towers and underground lines), installation of antennae, the clearing of right of ways, erections of poles, crossarms and insulators, and subscriber service connections when done by employees of an employer having operations subject to this classification. Machinery and equipment includes, but is not limited to, cables, transformers, control panels, poles, lines, antennae, relays, computers, cranes, forklifts, vehicles and garages, warehouse equipment, and hand tools.

This classification excludes contractors engaged in underground line construction, maintenance or repair who are to be reported separately in classification 0107; contractors engaged in overhead line installation who are to be reported separately in classification 0509; contractors engaged in pole and tower construction, maintenance or repair who are to be reported separately in classification 0508; contractors engaged in wiring within buildings and making pole-to-house service connections who are to be reported separately in classification 0601; and clerical office employees of television cable companies who are to be reported separately in classification 4502.

WAC 296-17-542 Classification 1401.

1401-01 Taxicab companies

Applies to establishments engaged in furnishing passenger transportation to others. Work contemplated by this classification includes, but is not limited to, operation of the vehicle, loading/unloading passengers' luggage, assisting passengers in and out of the vehicle, incidental "cabulance" services which may be offered in conjunction with the taxi service, and maintenance/repair of the vehicle when performed by employees of an employer subject to this classification.

(2003 Ed.)

Businesses that operate pedicab and horse-drawn carriage services are included in this classification.

This classification excludes: Establishments that operate ambulance services which are to be reported separately in classification 1405; establishments that operate cabulance and paratransit services exclusively which are to be reported separately in classification 1404; and dispatchers with no other job duties who may be reported separately in classification 4904.

Special note: Establishments that furnish only a dispatch service for taxicab drivers who own or lease their own vehicles may be reported separately in classification 4904 provided all the conditions of the general reporting rules covering standard exception employees have been met. Employees of a taxicab dispatch service who perform maintenance/repair are to be reported separately in classification 3411. See RCW 51.08.180 for the definition of "worker" to aid in determining if drivers are employees. Please also refer to the special note in classification 1404-12.

WAC 296-17-544 Classification 1404.

1404-06 Vessels, ferries, tugs, and steamboats, N.O.C.

Applies to employees not covered under federal jurisdiction, or another classification (N.O.C.), who provide services for seaworthy vessels such as ferries, tugs, or steamboats at the docking site or on adjacent land. Vessels may operate seasonal or year-round. Employments include, but are not limited to, dock workers, maintenance workers, traffic control personnel, and night security personnel.

Special note: Care should be exercised prior to assignment of this classification as the workers could be subject to federal laws covered by the Jones Act or by the U.S. Longshore and Harbor Workers Act. A detailed description of these acts can be found in classifications 0104 or 0202.

1404-07 Train rides

Applies to establishments engaged in the operation of passenger excursion train rides for scenic or amusement purposes on an intrastate basis only. Excursion train rides are typically operated from a mountain, lake or similar site. The trains may operate on a seasonal basis in direct relation to the volume of tourists, weather conditions, or dates of local celebration. Employments in this classification include, but are not limited to, drivers/engineers, guides, lecturers, hostesses, and maintenance personnel. Ticket sellers may be reported separately in classification 4904 provided that they do not handle baggage and that the conditions of the standard exception general reporting rules have been met. On-board food service personnel may be reported separately in classification 3905 as long as their duties are limited to food service and they do not facilitate the train ride or train ride operation in any way.

[Title 296 WAC—p. 275]

1404-11 Escort and pilot cars

Applies to establishments that provide escort or pilot car services for others. The duties include driving ahead of, or behind, various types of vehicles.

This classification excludes employees of an employer assigned to drive escort or pilot cars in connection with the delivery of equipment, buildings, goods, or similar items which the employer sells or contracts to deliver. Such employment is to be reported separately in the classification applicable to sales or delivery of such items. For example, an escort driver employed by a common carrier transporting a modular home to a customer's site is to be reported separately in classification 1102.

1404-12 Cabulance and paratransit

Applies exclusively to establishments that provide on-demand, nonemergency transportation services to passengers with special needs. Vehicles used are usually vans that are equipped for accessibility to accommodate passengers with mobility limitations including passengers in wheelchairs or gurneys. Work contemplated by this classification includes, but is not limited to, operation of the vehicle, assisting passengers in and out of the vehicle, and maintenance/repair of the vehicle when performed by employees of an employer subject to this classification.

This classification excludes: Cabulance services offered in conjunction with a taxi service which are to be reported separately in classification 1401, cabulance services offered in conjunction with an ambulance service which are to be reported separately in classification 1405, paratransit services offered in conjunction with a municipal bus or transit system which are to be included in classification 0803 or 1501 as appropriate, ambulance services which are to be reported separately in classification 1405, limousine drivers who are to be reported separately in classification 6301, and dispatchers with no other duties who are to be reported separately in classification 4904.

Special note: Care should be exercised in determining what type of cabulance service is being provided. This classification *is not to be* assigned when provided as an incidental part of a taxi cab service subject to classification 1401. A cabulance service as defined in this rule will need a specialized van or bus to transport passengers as opposed to a passenger automobile that is not equipped to accommodate special mobility needs, and whereby the transportation service has been prearranged. For purposes of this subclassification, paratransit businesses reporting under classification 1405-00 are not required to report in this subclassification until January 1, 2001.

WAC 296-17-54401 Classification 1405.**1405-00 Ambulance services**

Applies to establishments engaged in prehospital emergency care and transportation of ill or injured persons to or from medical facilities. The services provided by any one ambulance company will vary to some degree, however, normal operations for ambulance companies include, but are not limited to, the following: Prehospital care, responding to calls where the injury or accident does not require medical treatment other than that provided by Emergency Medical Technicians (para-medics) who work for the ambulance company, standby at events, assisting in providing prehospital care and patient transport services of injured players or spectators at games, concerts, and fairs, public education/training, teaching CPR, first aid, and related courses to the public, and cabulance service (transporting patients who do not require prehospital care to and from medical facilities).

This classification excludes: Cabulance services offered in conjunction with a taxi service which are to be reported separately in classification 1401; companies engaged exclusively in cabulance and paratransit services which are to be reported separately in classification 1404; and similar emergency services provided by a municipality which are to be reported separately in classification 6904.

Special notes: Special care must be taken in classifying *cabulance services* which may also be included in classifications 1401 or 1404. In order to qualify for classification 1405, a company must be primarily in business as an ambulance company. For premium reporting purposes, ambulance companies are to report all employees on an hourly basis, provided the maximum will not exceed eight hours during any twenty-four hour period. If verifiable records disclosing actual time worked are unavailable, employees are to be reported at eight hours per day for each day they had duties. If records do not disclose hours or days worked by individual employees, an assessment of forty hours per week is to be made for each week in which an employee had duties, or one hundred and sixty hours per month. For *air ambulance services*, flight time is to be reported separately in classification 6803, and ground operations are to be reported separately in classification 1405.

WAC 296-17-54403 Classification 1407.**1407-00 Bus companies**

Applies to establishments engaged in providing transportation services such as, but not limited to, charter and tour bus, contract school bus, shuttle van, and nonmunicipal, scheduled bus systems. Work contemplated by this classification includes operation of the vehicle and related loading/unloading duties, cleaning, maintenance and ordinary repair of all facilities, equipment, and vehicles, all bus terminal employment except for office personnel. Ticket sellers and dispatchers may be reported separately in classification 4904 provided that they do not handle baggage and that all of

the conditions of the standard exception general reporting rules have been met.

This classification excludes: Municipal transit and bus service provided by a county or taxing district which is to be reported separately in classification 1501; municipal transit and bus service provided by a city or town which is to be reported separately in classification 0803; taxicab companies which are to be reported separately in classification 1401; cabulance and paratransit companies which are to be reported separately in classification 1404; and drivers employed by a limousine company who are to be reported separately in classification 6301.

[Statutory Authority: RCW 51.16.035, 51.04.020, 00-14-052, § 296-17-54403, filed 7/1/00, effective 7/1/00.]

WAC 296-17-545 Classification 1501.

1501-00 Counties and taxing districts, N.O.C. - all other employees

Applies to employees of counties and taxing districts, not covered by another classification (N.O.C.), who perform manual labor, or who supervise a work crew performing manual labor such as custodial or maintenance, and machinery or equipment operators including transit bus drivers. This classification includes administrative personnel such as engineers, safety inspectors, and biologists who have field exposure, and internal inventory and supply clerks. For purposes of this classification, field exposure is defined as any exposure other than the normal travel to or from a work assignment.

This classification excludes electric light and power public utility districts which are to be reported separately in classification 1301; privately owned and operated bus or transit systems which are to be reported separately in classification 1407; water distribution or purification system public utility districts which are to be reported separately in classification 1507; irrigation system public utility districts which are to be reported separately in classification 1507; port districts which are to be reported separately in classification 4201; school districts, library districts or museum districts which are to be reported separately in classifications 6103 or 6104; hospital districts which are to be reported separately in classification 6105; fire fighters who are to be reported separately in classification 6904; law enforcement officers who are to be reported separately in classification 6905 and 6906, as appropriate; clerical office and administrative employees who are to be reported separately in classification 5306, and volunteers who are to be reported separately in classifications 6901 or 6906, as appropriate.

1501-01 Housing authorities, N.O.C. - all other employees

Applies to employees of housing authorities, not covered by another classification, who perform manual labor, or who supervise a work crew performing manual labor such as custodial or maintenance, and machinery or equipment operators. This classification includes all functional operations of a housing authority such as inspection, maintenance and repairs, including minor structural repairs, janitorial service, and building and grounds maintenance. Also included in this classification are meter readers, security personnel, other than those with law enforcement powers, administrative per-

sonnel such as engineers and safety inspectors who have field exposure, and internal inventory and supply clerks. For purposes of this classification, housing authorities are defined as nonprofit, public and political entities which serve the needs of a specific city, county or Indian tribe. The nature and objectives of some of the projects undertaken by housing authorities include providing decent, safe and sanitary living accommodations for low income persons, or providing group homes or halfway houses to serve developmentally or otherwise disabled persons or juveniles released from correctional facilities. A housing authority has the power to prepare, carry out, lease and operate housing facilities; to provide for the construction, reconstruction, improvement, alteration or repair of any housing project; to sell or rent dwellings forming part of the project to or for persons of low income; to acquire, lease, rent or sell or otherwise dispose of any commercial space located in buildings or structures containing a housing project; to arrange or contract for the furnishing of the units; and to investigate into the means and methods of improving such conditions where there is a shortage of suitable, safe and sanitary dwelling accommodations for persons of low income.

This classification excludes new construction or major alteration activities which are to be reported separately in the appropriate construction classifications; clerical office and administrative employees who are to be reported separately in classification 5306; security personnel with law enforcement powers who are to be reported separately in classification 6905; and volunteers who are to be reported separately in classifications 6901 or 6906, as appropriate.

1501-08 Native American tribal councils - all other employees

Applies to employees of Native American tribal councils who perform manual labor, or who supervise a work crew performing manual labor such as custodial or maintenance, and machinery or equipment operators. This classification includes administrative personnel such as engineers, safety inspectors, and biologists who have field exposure, and internal inventory and supply clerks of the tribal council. For purposes of this classification, field exposure is defined as any exposure other than the normal travel to and from a work assignment.

This classification excludes electric light and power public utility districts which are to be reported separately in classification 1301; water distribution or purification system public utility districts which are to be reported separately in classification 1507; irrigation system public utility districts which are to be reported separately in classification 1507; school districts, library districts or museum districts which are to be reported separately in classifications 6103 or 6104; hospital districts which are to be reported separately in classification 6105; fire fighters who are to be reported separately in classification 6904; law enforcement officers who are to be reported separately in classifications 6905 and 6906; new construction or reconstruction activities which are to be reported separately in the appropriate construction classification; clerical office and administrative employees who are to be reported separately in classification 5306.

Special notes: Housing authorities operating under the name of, and for the benefit of, a particular tribe are not exempt from mandatory coverage. These housing authorities are federally funded and are not owned or controlled by a tribe.

Only those tribal operations which are also provided by county governments are subject to classification 1501. The following activities, such as but not limited to, visiting nurses and home health care, grounds keepers, building maintenance, park maintenance, road maintenance, and garbage and sewer works, are considered to be normal operations to be included in this classification. All other tribal council operations which are not normally performed by a county government shall be assigned the appropriate classification for the activities being performed. The following operations, such as but not limited to, meals on wheels, bingo parlors, casinos, liquor stores, tobacco stores, grocery stores, food banks, gift shops, restaurants, motels/hotels, Head Start programs, fish/shellfish hatcheries, logging, and tree planting/reforestation are outside the scope of classification 1501 and are to be reported separately in the applicable classifications.

1501-09 Military base maintenance, N.O.C.

Applies to establishments, not covered by another classification (N.O.C.), engaged in providing all support operations and services on a military base on a contract basis. Such services include, but are not limited to, data processing, photography, mail delivery (on post and to other military facilities), hotel/motel services, mess halls, recreational facilities, grounds and building maintenance, vehicle maintenance, and may also include the maintenance of such facilities as water works, sewer treatment plants and roads.

This classification excludes new construction or construction repair projects which are to be reported separately in the applicable construction classification for the work being performed; contracts for specific activities on a military base such as, but not limited to, building maintenance, club or mess hall operations, or vehicle maintenance, which are to be reported separately in the applicable classification for the work being performed; firefighters who are to be reported separately in classification 6904; law enforcement officers who are to be reported separately in classification 6905; and clerical office and administrative employees who are to be reported separately in classification 5306.

Special note: Classification 1501-09 is to be assigned to an establishment only when *all* support services on a military base are being provided by the contractor.

WAC 296-17-546 Classification 1507.

1507-01 Irrigation ditches operation, repair and maintenance

Applies to establishments engaged in providing water for agricultural irrigation through a network of ditches, canals and/or pipelines. Irrigation system operations may be owned by individuals, a private company, cooperatives or a municipality. Water for irrigation can come from a natural above or below ground source or a reservoir and is kept flowing by means of pumping plants. Irrigation water usage is monitored at the "turn-out" which must be manually opened by an employee of the irrigation company and is located between the ditch/pipeline and the user's field. Work contemplated by this classification includes, but is not limited to, digging and maintaining ditches or canals, installing underground pipe, installation or maintenance of control gates and pumps, cleaning of ditches, spraying to control insects, and regular maintenance of vehicles and equipment when done by employees of an employer having operations subject to this classification. Machinery and equipment includes, but is not limited to, water pumps, ditch digging/pipe laying equipment, control gates, pumps, vehicles, spraying equipment and hand tools. This classification includes the operation of drainage systems by a private company or a municipal special purpose district.

This classification excludes: Contractors engaged in the digging of ditches or canals who are to be reported separately in classification 0108 or 0201 as applicable; contractors engaged in underground pipe laying which is to be reported separately in classification 0107; contractors engaged in the installation of agricultural sprinkler systems which is to be reported separately in classification 0301; contractors engaged in the installation or repair of irrigation/drainage pumps which is to be reported separately in classification 0306; the routine irrigation of individual agricultural acreage with the owner's own system which is to be reported separately in the classification applicable to the establishment; the construction of any new buildings which is to be reported separately in the construction classification applicable to the work being performed; and clerical office and administrative personnel who are to be reported separately as appropriate, classification 5305 for cities and towns, classification 5306 for counties, or classifications 4904 and 6303 for nonmunicipal ownership.

Special note: Many water supply operations in Washington may have "irrigation district" as part of their name because of their original purpose, but they are actually functioning as a waterworks supplying residential users and are to be reported separately in classification 1507-02.

1507-02 Waterworks operations, repair and maintenance

Applies to establishments engaged in the operation of water purification and distribution systems known as waterworks. Water is obtained from natural sources of surface or ground water, piped to filtration plants, filtered, treated with chemicals, then pumped to holding facilities for eventual distribution to the user through underground pipes. Waterworks may be owned by cooperatives, such as homeowners' associations, a private company, or a municipality (as a P.U.D.). Work contemplated by this classification includes, but is not

limited to, erection of towers and tanks, underground waterline construction, maintenance of purification and filtration facilities, installation of fire hydrants, operating a laboratory, main-to-house hook-ups and the installation and reading of meters when done by employees of an employer having operations subject to this classification. Machinery and equipment includes, but is not limited to, excavating, pipe laying, erecting and welding equipment, vehicles, machine shop equipment, pumps and gauges, meters and hand tools. This classification includes the operation of sewerage treatment plants by owner or contract.

This classification excludes: Contractors engaged in underground waterline construction, maintenance or repair, including main-to-house hook-ups, who are to be reported separately in classification 0107; plumbing contractors engaged in waterline main-to-house hook-ups as part of an all-inclusive plumbing installation contract which is to be reported separately in classification 0306; the erection of water towers and tanks by a contractor which is to be reported separately in classification 0508; contractors engaged in industrial plant maintenance who are to be reported separately in classification 0603; the construction of dams which is to be reported separately in classification 0701; the construction of any new buildings which is to be reported separately in the construction classification applicable to the work being performed; and clerical office and administrative personnel who are to be reported separately as appropriate, classification 5305 for cities and towns, classification 5306 for counties, or classifications 4904 and 6303 for nonmunicipal.

WAC 296-17-548 Classification 1701.

1701-02 Ore reduction, by wet or dry process without application of heat at mine

Applies to establishments engaged in the reduction of coarse ores by a wet or dry process at a mine site. Work contemplated by this classification involves a variety of ore milling activities. The process begins by crushing, screening and washing the ores. Next, ores are placed in a rotating cylindrical mill which contains steel balls, flint pebbles, rods or rock for further grinding. Then with the use of amalgamation (introduction of a chemical such as mercury to break down the ores) or flotation (uses water to separate by buoyancy and densities), the ore material is broken down and dried to obtain concentrated ores of metals. The milling of ores to recover some nonmetallic minerals which do not require amalgamation or flotation are also included within this classification.

This classification excludes underground mining operations which are to be reported separately in classification 1702, and open cut mining operations which are to be reported separately in classification 1703.

WAC 296-17-549 Classification 1702.

1702-01 Coal mines and mines N.O.C., underground; coke ovens

Applies to establishments engaged in underground mining, not covered by another classification (N.O.C.), involving the extraction of coal, ores, stone, clay or other minerals. Operations contemplated by this classification include excavation and tunneling below ground as well as the incidental activities occurring above ground. Underground mining may involve shaft sinking, slope sinking, rock tunneling, and the building of drifts and shafts with heavy timbers or steel beams. Material is broken loose within the tunnel or shaft with explosives, drilling machines, rock drills, chippers, power hand drills and picks. After the material is broken loose it is removed from underground by way of hoist, conveyor, or some type of haulage car on steel track. On the surface, some of the extracted material is further refined such as coal which is crushed, screened, washed and graded before being hauled away. Additional equipment includes elevators, ventilation and communication systems, water pipes, lighting systems, as well as front end loaders, bulldozers and trucks. This classification also applies to establishments engaged in the manufacture of coke which is a solid carbonaceous residue obtained from bituminous coal after the removal of volatile materials by a distillation process. The method usually consists of a beehive or by-product oven process. Coal is fed into crushers which breaks oversized pieces into smaller pieces which are then conveyed to bunkers serving the ovens. This classification also applies to ore reduction involving heat processes.

This classification excludes ore reduction operations which do not require the use of heat which are to be reported separately in classification 1701, and open cut mining which is to be reported separately in classification 1703.

WAC 296-17-550 Classification 1703.

1703-01 Open cut mining - all types; placer or hydraulic mining

Applies to establishments engaged in open cut mining to extract all types of ore including certain minerals such as, but not limited to, phosphate rock, graphite, talc, chalk, mica, asphalt, asbestos and gypsum. The process of open cut mining is also commonly referred to as surface mining, open pit mining or strip mining whereby such ores and minerals are extracted from a large hole or pit on the surface. Operations contemplated by this classification involve excavating and stripping the surface material with use of drag lines, power shovels or earth moving equipment. The products are loaded onto dump trucks or belt conveyors for movement to railroad sidings and loading into ore cars for shipment to processing

[Title 296 WAC—p. 279]

plants. The equipment generally involves compressors, pneumatic drilling rigs, conveyors, trucks, drag lines, shovels, scrapers and bulldozers. This classification also applies to establishments engaged in hydraulic mining in which material is excavated by moving a stream of high pressure water over the mining face, and placer mining which obtains minerals from placers by use of running water such as on a stream or the shoreline.

This classification excludes underground mining which is to be reported separately in classification 1702, and quarrying which is to be reported separately in classification 1704.

WAC 296-17-551 Classification 1704.

1704-02 Quarries, N.O.C.

Applies to establishments engaged in quarrying, not covered by another classification (N.O.C.), to extract large solid stone such as, but not limited to, limestone, sandstone, granite, marble, slate, hard shale rock, ballast rock, cement rock, coral rock, etc., from hillsides or open pits. Operations contemplated by this classification involve exposing stone with use of drag lines, power shovels, scrapers or other earth moving equipment. In some instances, blasting with explosives is performed on large stone masses to break portions loose. The stone is separated into large blocks, sometimes called loafs. There are several methods to cut a loaf - line drilling, wire sawing, diamond wire sawing or chiseling. The loafs are removed from the quarry pit and taken to the surface. This classification includes all other activities occurring on the surface of the quarry site which could involve the further cutting of the loafs or the crushing of stone into smaller pieces.

This classification excludes open pit mining operations which are to be reported separately in classification 1703, and underground mining which is to be reported separately in classification 1702.

WAC 296-17-552 Classification 1801.

1801-01 Lead smelting, sintering, or refining; calcium carbide manufacturing

Applies to establishments primarily engaged in the smelting, sintering, or refining of lead, including the manufacturing of calcium carbide. The lead ore most commonly mined is galena which is the sulfide of lead. The ore is mixed with other metalliferous minerals, such as sphalerite, copper pyrites and iron pyrites. The smelting process consists of fusing or separating the metallic elements. After ore has been received, the process begins by crushing, washing and screening the ore. There may be various steps of milling, concentration or amalgamation (floatation) to separate the galena from the sphalerite and other minerals. The roasting or sintering process takes place in rotary kilns or other types of furnaces. In this way the material is sintered or converted

into lumps (called sinter) which are mixed with coke and placed into a shaft furnace. The material is then desilvertized which is achieved by adding metallic zinc and raising the temperature sufficiently to dissolve it. The molten metal is then cast into ingots. The ingots may go through further refining processes or may be considered a finished product. This classification also includes the manufacturing of calcium carbide which is a crystalline material produced by heating pulverized limestone or quicklime with carbon and used to generate acetylene gas, as a dehydrating agent, and in making graphite and hydrogen.

This classification excludes aluminum smelting operations which are to be reported separately in classification 1802; the smelting, sintering or refining of ores not covered by another classification, (N.O.C.) which is to be reported separately in classification 1801-08; the recovering, refining or reprocessing of metals which is to be reported separately in classification 1801-09; ore reduction which is to be reported separately in classification 1701; and open pit or underground mining operations which are to be reported separately in the classification applicable to the mining being performed.

1801-03 Steel or iron rolling mills; rolling mills, N.O.C.

Applies to establishments engaged in operating iron or steel rolling mills. In a rolling mill ingots and/or slabs of steel are rolled (i.e., they are passed between rollers whereby they undergo an increase in length and a corresponding reduction in depth). The rollers used by the rolling mills vary widely in size and shape, depending on the type of rolled section(s) to be produced. Depending upon the thickness of the metal to start and the desired thickness when finished, a single piece of metal may pass through the same or a different set of rollers several times.

Rolling mills for pipes may be divided into two categories - welded pipes and seamed pipes. Welded pipes are produced from a steel strip which is bent to a tubular shape and whose edges are then joined by welding. Seamed pipes are produced from cast or rolled billets at rolling temperature. There are different processes for both kinds of manufacturing. Whatever method is used the metals are somehow heated to temperatures up to 1400 degrees Fahrenheit. The equipment may include, but is not limited to, rakes, ladle, forklifts and front loaders.

This classification excludes aluminum smelting plant operations which are to be reported separately in classification 1802, and establishments engaged in the manufacture of pipe or tube from iron or steel by drawing or bending which are to be reported separately in classification 5101.

1801-08 Ore smelting, sintering or refining, N.O.C.

Applies to establishments engaged in the smelting, sintering, or refining of ores not covered by another classification (N.O.C.). Smelting and sintering are refining processes which use different properties of heat which may or may not reduce the ore to molten form. Temperatures are usually lower than 1400 degrees Fahrenheit. Ore is received direct from the mine or in a variety of forms such as, but not limited to, pellets, particles, molds and briquettes. The process begins by crushing, washing and screening; there may be various steps of milling, concentration or amalgamation. The

roasting or sintering process takes place in rotary kilns or other types of furnaces. In this way the material is sintered or converted into lumps (called sinter) which may be mixed with other materials and placed into a shaft furnace. The molten metal ore is then cast or recast into ingots. The ingots may go through further refining processes or may be considered a finished product.

This classification excludes aluminum smelting operations which are to be reported separately in classification 1802; the smelting, sintering or refining of lead which is to be reported separately in classification 1801-01; the recovering, refining or reprocessing of metals which is to be reported separately in classification 1801-09; ore reduction which is to be reported separately in classification 1701; and open pit or underground mining operations which are to be reported separately in the classification applicable to the mining being performed.

1801-09 Metal recovering, refining or reprocessing

Applies to establishments engaged in the recovering, refining, or reprocessing of metals. These establishments are considered secondary processors or reproducers to primary metal producers. The primary producer uses ore to manufacture metal, whereas, the secondary processors or reproducers will recover, refine, or reproduce refined metals from coarse metal. Types of metal include, but are not limited to, gold, aluminum, silver, lead, and zinc. Metal comes in various forms to include cast ingots, dross, and scrap material. The scrap material and dross are recycled to extract reusable metallic elements. Other metals are reprocessed and may include adding alloys and/or other elements, or recasting the metals into different shapes and sizes. An example may include adding magnesium to zinc as part of the recycling process in which zinc oxide is produced and sold to rubber companies for manufacturing tires and other rubber products. Metals are weighed, sorted and/or sifted through a variety of screens and includes crushing as needed. Next, the materials are placed in an oven or furnace and chemicals and/or alloys are added. At this point the metal may be placed in molds and cooled by air or water. Finished products are inspected, graded, weighed, packaged and shipped. To assist in the processing function, ladles, rakes, conveyers, scales, hoist, front end loaders and forklifts may be used. This classification also includes the incidental buying and selling of scrap metal.

This classification excludes aluminum smelting operations which are to be reported separately in classification 1802; the smelting, sintering or refining of lead which is to be reported separately in classification 1801-01; the smelting, sintering or refining ores not covered by another classification N.O.C., which is to be reported separately in classification 1801-08; ore reduction which is to be reported separately in classification 1701; scrap metal dealers which are to be reported separately in classification 0604; and establishments which compact or recycle metal containers such as aluminum or tin cans which are to be reported separately in classification 2102.

WAC 296-17-55201 Classification 1802.

1802-00 Aluminum smelting

Applies to establishments engaged in the primary smelting of aluminum from alumina using an electrolytic reduction process. This classification includes the alloying and casting of sheet ingots, T-ingots, rolling ingots, notched ingots, sows, pigs, extrusion logs, extrusion billets and other primary production shapes when performed by a primary producer subject to this classification. Aluminum is produced from alumina. Alumina is extracted from bauxite which is an ore found in the earth's crust. Bauxite contains approximately 50% aluminum oxide (alumina) together with iron oxide, silica, and titanium oxide. The aluminum smelting process is two-fold; first, pure aluminum oxide is produced, then the aluminum is decomposed from the oxygen by an electrolytic treatment. The process is complex, labor intensive and power intensive. The use of an electric current causes pure aluminum to go to the cathode (part of the smelting structure) and accumulates as a layer floating on the molten salt in a large vat. This aluminum has a purity of 99.99% and is removed from time to time and cast into suitable shapes from molds.

This classification excludes secondary processors who do not reduce aluminum from alumina, but whose principle business is casting, rolling, extruding, foiling or recycling aluminum alloys from molten aluminum, primary production shapes or used scrap and dross which are to be reported separately in the applicable classification; ore reduction which is to be reported separately in classification 1701; and open pit or underground mining operations which are to be reported separately in the classification applicable to the mining being performed.

WAC 296-17-555 Classification 2002.

2002-13 Freight handler services, N.O.C.

Applies to establishments engaged in packing, handling, shipping, or repackaging merchandise or freight which is owned by others and is not covered by another classification, (N.O.C.). General cargo is usually in boxes, cartons, crates, bales, or bags. Other cargo includes, but is not limited to, lumber, logs, steel, pipe, grains, produce, machinery, and vehicles. These establishments are generally located at railroad yards, airports, or warehouses not located on piers or areas adjoining piers. This classification includes the repackaging of goods from damaged containers. Employees of freight handler services perform duties such as, but not limited to, unloading, checking in and weighing goods, sorting and repackaging goods, tiering (placing in a series of rows one above the other), and reloading goods for shipment. Employments include, but are not limited to, superintendents, checkers, tally men, and lumpers. Machinery and equipment includes, but is not limited to, pallet jacks, hand trucks, forklifts, boom trucks, mobile cranes or overhead track cranes, and hand tools. This classification also includes moving or uncrating, and assembly of modular work stations or other types of office furniture.

[Title 296 WAC—p. 281]

This classification excludes drivers and freight handling employees with driving duties who are to be reported separately in classification 1102 without a division of work hours; establishments engaged in loading, unloading, or icing refrigerator cars which are to be reported separately in classification 2002-31; and establishments engaged in warehousing operations for general merchandise which are to be reported separately in classification 2102.

Special notes: Establishments engaged as freight handlers have the hazard of the continual movement of goods, in contrast to warehousing operations in classification 2102-00 that usually store goods for long periods of time. In addition, freight handling services providers do not operate warehouses and storage facilities as a general rule. Freight handling operations performed in connection with the loading or unloading of vessels or rail lines on piers or adjoining areas may be subject to coverage under the U.S. Longshore and Harbor Workers Act. Care should be exercised prior to the assignment of this classification to determine proper jurisdiction.

2002-31 Refrigeration car - loading, unloading or icing

Applies to establishments engaged in loading, unloading, or icing refrigeration cars at railroad yards, airports, or warehouses not located on piers or in areas adjoining piers. This classification includes the repackaging of goods from damaged containers. Establishments in this classification have no equity or ownership in the merchandise being handled. They may contract with customers such as, but not limited to, grocery distributors, meat packers, or pharmaceutical suppliers to pick up and deliver frozen goods. Goods are loaded into refrigerated containers and shipped by common carrier or into refrigerated railcars. Icing the refrigeration systems by adding water, ammonia, or other additives is done to maintain the cold temperatures. Machinery and equipment includes, but is not limited to, pallet jacks, hand trucks, forklifts, compressors, and hand tools.

This classification excludes drivers and freight handling employees with driving duties who are to be reported separately in classification 1102 without a division of work hours; establishments engaged in freight handler services not covered by another classification (N.O.C.) which are to be reported separately in classification 2002-13; and establishments engaged in warehousing operations for general merchandise which are to be reported separately in classification 2102.

Special notes: Establishments engaged as freight handlers have the hazard of the continual movement of goods, in contrast to warehousing operations in classification 2102-00 that usually store goods for long periods of time. In addition, freight handling services providers do not operate warehouses and storage facilities as a general rule. *Freight handling* operations performed in connection with the loading or unloading of vessels or rail lines on piers or adjoining areas may be subject to coverage under the U.S. Longshore and Harbor Workers Act. Care should be exercised prior to the assignment of this classification to determine proper jurisdiction.

WAC 296-17-557 Classification 2004.

2004-21 Iron or steel merchants; wire rope and cable dealers

Applies to establishments engaged as iron or steel merchants or as dealers of wire rope, cable, or metal conduit. This classification includes the merchandising of nonferrous metals such as, but not limited to, copper, brass, or aluminum. This classification is distinguished from scrap metal dealers in classification 0604 who deal primarily in used metal as opposed to merchants in classification 2004 who sell new goods. Iron or steel merchants receive metal in the form of beams, sheets, plates, bars, rods, pipe, rounds, channels, angles, tubes, or coils from the mills which they unload with overhead cranes, and store them in their shop or yard. Using power equipment such as shearers, hacksaws, drills, benders, and cutting torches, they are cut, sheared, and formed to customer specifications. Wire rope and cable dealers use coilers to wind the wire rope or cable from large spools onto smaller spools, and use saws or other cutting tools to cut it to length and large hydraulic presses to attach sockets, pulleys and other hardware to wire rope to form rigging used by the fishing, logging, and construction industry.

This classification excludes scrap metal and junk dealers which are to be reported separately in classification 0604, and rebar fabricators which are to be reported separately in classification 5209.

WAC 296-17-560 Classification 2007.

2007-02 Grain elevator or warehouse

Applies to establishments engaged in providing grain elevator or warehouse facilities. These facilities may range from hundred thousand bushel country elevators to multi-million bushel terminal elevators, the latter of which are located near railroad lines or seaports. Grain may be stored in elevators for years, depending on market conditions. Grain elevators operate year round or seasonally and may offer a variety of services ranging from storage only to grain milling (see exclusions below). Typical operations in this classification include weighing, grading, cleaning and drying of the grain, and conveyance to the storage lofts. Most grain elevators also provide a brokerage service for their customers.

This classification excludes grain milling which is to be reported separately in classification 2101 and bean or pea elevators which are to be reported separately in classification 2007-03.

2007-03 Bean or pea elevator or warehouse

Applies to establishments engaged in providing bean or pea elevator or warehouse facilities. Bean or pea elevators run all year round or seasonally and may offer a variety of services ranging from storage only to brokerage services. Typical operations in this classification include weighing, grading, cleaning and drying of the bean or pea, and conveyance to the storage lofts.

This classification excludes seed merchants who are to be reported separately in classification 2101; grain elevators which are to be reported separately in classification 2007-02; and vegetable cannery or processing operations and pea vining by cannery employees which are to be reported separately in classification 3902.

WAC 296-17-561 Classification 2008.**2008-01 Warehouses - field bonded**

Applies to establishments engaged in providing bonded warehouse services at the customers location. Field bonding involves appropriating a warehouse (or portion of one), that is owned by the customer, for the purpose of segregating and securing a portion of that customer's merchandise to be used as collateral for a bank loan. The field bonding company will catalog the merchandise that is involved in the transaction, issue a receipt (the receipt is presented as collateral for the loan), and ensure its security and value for the length of the contract. The field bonding company is not responsible for the maintenance of the facility and doesn't become involved in handling, moving or shipping the goods. Work contemplated by this classification is limited to employees who catalog the goods being held, security guards, and clerical help employed at the secured location.

This classification excludes drivers who are to be reported separately in classification 1102.

Special note: Traditional warehousing establishments (such as those described in classification 2102) may be "bonded" in that they can assure their customers that goods regulated by the Bureau of Alcohol, Tobacco and Firearms, or goods awaiting inspection by U.S. Customs, will remain secured. This type of bonding is similar in that it is an assurance of value and safekeeping, but differs from classification 2008 in that the goods are delivered to, and held at, the warehouse company's own facility.

WAC 296-17-56101 Classification 2009.**2009-00 Building material dealers and lumber yards**

Applies to establishments engaged as building material dealers or lumber yards. For purposes of this classification the term "building materials" includes, but is not limited to, such items as wallboard, roofing, insulation, sheet metal,

(2003 Ed.)

bricks, blocks, windows, fixtures, cabinets, doors, linoleum, tile, paneling, interior wood and plastic trim and molding, concrete mix, pipe, plumbing, and electrical supplies. In addition, such establishments often carry a variety of paints and accessories, garden tools and accessories, and hardware items such as nails, nuts and bolts, tools, hinges, doorknobs, locks, and more. It is not uncommon for a building material dealer to specialize and sell only one of the above types of items. Establishments engaged as lumber yards carry a diverse line of wood and lumber products and usually with sufficient quantity to build an entire wood structure. This line of wood and lumber products could include beams, planks, boards, plywood, an array of dimensional lumber (1x2, 2x4, 2x12, etc.), fence posts, railroad ties, shakes and shingles, siding, wood paneling, as well as interior wood trim and molding. Such establishments often carry a variety of other building materials such as electrical supplies, pipe and plumbing supplies, fixtures, cabinets, doors, windows, wallboard, insulation, linoleum, tile, paneling, bricks, blocks, concrete mix, roofing materials, sheet metal and more. These establishments often utilize one or more covered sheds to protect less durable materials from the outside climate, and will also utilize an uncovered open yard type of environment for storage of more durable wood, lumber, and building materials. In addition, such establishments could also have an inside store operation to include a variety of items such as hand and power tools, table saws, paints and varnishes, caulking, and a variety of hardware type items such as nails, nuts and bolts, hinges, doorknobs, locks, and more. This classification also includes retail/wholesale fence material dealers. This classification includes all store and yard operations and the transfer of materials or inventory between related stores.

This classification excludes delivery drivers (other than those involved in intrastore or intrayard transfers mentioned above) who are to be reported separately in classification 1101; nondelivery activities conducted away from the store or yard; hardware stores with building materials or lumber which are to be reported separately in classification 2009-03; and warehouse centers which are to be reported separately in classification 2009-05.

2009-01 Electrical supply dealers

Applies to establishments engaged as electrical hardware and supply dealers who primarily sell electrical hardware and supplies in bulk to the contractor trades, such as electrical and construction, although sales also may be made to individuals for their own use. Supplies are typically received in bulk quantity and may include, but are not limited to, spools of electrical wiring and cable, wiring harnesses, plastic and flex hosing, panel boxes, brackets, electrical outlet boxes, fuses, switches, plates, and residential and commercial canisters and light fixtures. This classification includes all store and yard operations and the transfer of materials or inventory between related stores.

This classification excludes delivery drivers (other than those involved in intrastore or intrayard transfers mentioned above) who are to be reported separately in classification 1101; nondelivery activities conducted away from the store or yard; all service or repair work which is to be reported sep-

arately in the applicable classification whether it is conducted at the store or a customer's location; retail lighting fixture stores which demonstrate lights and fixtures to walk-in customers which are to be reported separately in classification 6406; and establishments engaged as wholesale lighting fixture and light bulb dealers who buy direct from manufacturers and who sell wholesale to retail lighting fixture stores or other such stores or institutions who are to be reported separately in classification 6407.

2009-02 Farm supply stores

Applies to establishments primarily engaged in operating farm supply or farm cooperative stores. These establishments carry a diverse line of farm feeds, products, and accessories. Typical items may include, but are not limited to, bulk quantities of mixed and unmixed feeds, seeds, oats and grains; bales of alfalfa or hay; bag feed for dogs, cats, chickens, birds, and other animals; bulk and bag fertilizers; pesticides and other garden items including peat moss and bark; animal grooming and care accessories; horse tack; specialty clothing; feed and water bins; metal fencing and grates for livestock; fence posts; barbed wire; pumps and piping; hardware and tools; automotive and tractor parts and accessories; and miscellaneous homeowner or yard equipment such as mowers, rototillers, and a variety of small tractors and accessories. This classification includes all store and yard operations and the transfer of materials or inventory between related stores.

This classification excludes delivery drivers (other than those involved in transferring materials or inventory between related stores) who are to be reported separately in classification 1101; all other nondelivery activities conducted away from the store or yard; all service or repair work which is to be reported separately in the applicable classification whether it is conducted at the store or a customer's location; and establishments primarily engaged in the sale, service and/or repair of farm machinery and implements which are to be reported separately in classification 6408.

Special note: Farm supply or farm cooperative stores may conduct additional operations which are to be reported separately. These activities may occur at a single location operated by the business or at separate locations and may include an oil or gas dealership which is to be reported separately in classification 3407; self-service gas or diesel stations which are to be reported separately in classification 3409; or agricultural fertilizer dealers (not including the manufacture of raw materials) which are to be reported separately in classification 2106.

2009-03 Hardware stores with lumber or building material supplies

Applies to establishments engaged in operating hardware stores that also sell building material supplies. For purposes of this classification the term "building materials" includes, but is not limited to, such items as wallboard, roofing, insulation, sheet metal, bricks, blocks, and windows, cabinets, doors, windows, sheet metal, roofing materials, concrete mix, boards, plywood, dimensional lumber (1x2, 2x4, 2x12, etc.), fence posts, railroad ties, siding, and wood paneling, as well as interior wood trim and molding. The merchandise carried will vary from store to store. For the

purposes of this classification, hardware includes items such as, but not limited to, nails, nuts, bolts, screws, door fixtures, hinges, locks, power and hand tools, garden tools and accessories, electrical and plumbing supplies, and paint and automobile supplies. Depending on their location and customer base, hardware stores may also sell a limited selection of giftware, housewares, sporting goods, athletic equipment, games or similar items. Other services provided could include making keys, threading pipe, mixing paint, and the sale of fishing or hunting licenses. This classification includes all store and yard operations and the transfer of materials or inventory between related stores.

This classification excludes delivery drivers (other than those involved in transferring materials or inventory between related stores) who are to be reported separately in classification 1101; all other nondelivery activities conducted away from the store or yard operation; and all service or repair work which is to be reported separately in the applicable classification whether it is conducted at the store or a customer's location.

Special note: Hardware stores with lumber or building material supplies are smaller and offer a smaller product selection than warehouse centers which are reported separately in classification 2009-05. Establishments primarily engaged as building material dealers and lumber yards are to be reported separately in classification 2009-00.

2009-04 Pump, plumbing, irrigation, and pipe supply dealers

Applies to establishments engaged as pump, plumbing, irrigation, and pipe supply dealers. Merchandise includes, but is not limited to, pumps, above and below ground irrigation systems and supplies, pipe, fittings, elbows, adapters, connectors, hoses, valves, water softeners, filters, disposals, hot water tanks, heaters, sinks, tubs, toilets, and shower units. Merchandise is typically received in bulk quantity by the pallet, sling, crate or box. Merchandise is sold primarily to plumbing and irrigation contractors. This classification includes all store and yard operations, including showrooms or display areas and in-shop services such as the rebuilding or repair of pumps, and cutting and threading pipe. Also included in this classification is the transfer of product or material inventory between related stores.

This classification excludes delivery drivers who are to be reported separately in classification 1101; all other nondelivery activities conducted away from the store or yard; and all service or repair work not described above which is to be reported separately in the applicable classification whether it is conducted at the store or a customer's location.

2009-05 Warehouse centers

Applies to establishments engaged in operating warehouse centers with lumber or building material supplies. For purposes of this classification a warehouse center is an enclosed building or structure which serves to protect the majority of the items or products contained within the warehouse environment. Warehouse centers are larger than traditional hardware stores and offer a wider product selection. A dominant characteristic of a warehouse center is that excess stock is stacked up to 25 feet high throughout the building. The term "building materials" as used in this classification

includes, but is not limited to, such items as wallboard, roofing, insulation, sheet metal, bricks, blocks, and windows. Merchandise carried by warehouse centers may include hardware, variety items, building materials, as well as wood or lumber. Hardware items may include such items as nails, nuts, bolts, door fixtures, hinges, locks, hand or power tools, garden tools, garden supplies and accessories, lawn mowers, electrical supplies, plumbing supplies, paint, and auto supplies. Variety items may include giftware, housewares, sporting goods, athletic equipment, games, rugs, and lawn chairs. Wood and lumber products may include beams, planks, boards, plywood, dimensional lumber (1x2, 2x4, 2x12, etc.), fence posts, railroad ties, shakes and shingles, siding, and wood paneling. This classification includes all store and yard operations and the transfer of materials or inventory between related stores.

This classification excludes delivery drivers (other than those involved in transferring materials or inventory between related stores) who are to be reported separately in classification 1101; all other nondelivery activities conducted away from the store or yard; and all service or repair work which is to be reported separately in the applicable classification whether it is conducted at the store or a customer's location.

Special note: Hardware stores with lumber or building material supplies are smaller and offer a smaller product selection than warehouse centers and are reported separately in classification 2009-03. Establishments primarily engaged as building material dealers and lumber yards are to be reported separately in classification 2009-00.

2009-06 HVAC supply dealers

Applies to establishments engaged as heating, ventilation, and air conditioning product and supply dealers. Merchandise includes, but is not limited to, furnace units, gas fireplaces, air conditioning and heater units, hot water tanks, thermostats, vents, venting duct and pipe, vent collars and reels, registers, fittings, adapters, galvanized pipe, insulation wrap, preformed or bent duct portions, flat sheets of metal, concrete pads and gas logs. Merchandise is typically received in bulk quantity by the pallet, sling, crate or box. Merchandise is primarily sold to heating and ventilation contractors, furnace contractors and sheet metal contractors. This classification includes all store and yard operations and the transfer of product or material inventory between related stores.

This classification excludes sheet metal fabrication shops which are to be reported separately in classification 3404; delivery drivers (other than those involved in intrastore or intrayard transfers) who are to be reported separately in classification 1101; all other nondelivery activities conducted away from the store or yard; and all service or repair work which is to be reported separately in the applicable classification whether it is conducted at the store or a customer's location.

(2003 Ed.)

WAC 296-17-562 Classification 2101.

2101-00 Grain milling; flour mills; feed mills; feed manufacturing

Applies to establishments engaged in milling grain into flour or meal or in the manufacture of dry (powdered, granule or pellet) feed. Operations contemplated by this classification include the receipt of grain (wheat, barley, oats, corn) in bulk or bag which is purchased from others, grinding or milling the grain to either a coarse or a fine powder, adding binder (molasses), adding and mixing ingredients (depending on product being made), and packaging. This classification includes delivery of products in packaged or bulk form to customers.

This classification excludes establishments engaged in the further processing of flour or meal to manufacture food products which are to be reported separately in the applicable food manufacturing classification, and establishments engaged in the manufacture of canned or frozen animal food which are to be reported separately in classification 3902.

2101-01 Hay, grain or feed dealers

Applies to establishments engaged in the sale of grain, feed, and hay to others. Operations contemplated by this classification are limited to the purchase of hay, grain, or feed in bulk from others and the subsequent resale of these items in bulk to others. Establishments subject to this classification may have a small store operation, a substantial storage facility, or they may haul product from location to location all of which are included within the scope of this classification when done by employees of employers subject to this classification.

This classification excludes the sale of hay by farm operations which is to be reported separately in classification 4808, and establishments engaged in the manufacture of animal feed which are to be reported separately in classification 2101-00.

2101-02 Seed processing

Applies to establishments engaged in the processing of agricultural seeds for wholesale or retail sales. These establishments receive produce such as wheat, barley, alfalfa, lentils, vegetables, fruit or flowers from farmers the seed company has contracted with, or in the case of larger seed companies, they may have their own fields for raising the seed crop. Work contemplated by this classification includes, but is not limited to, cleaning, grading, crushing, separating, and packaging of the product (either by hand or by machine). Machinery includes, but is not limited to, screening machines, air gravity separators, clippers, tumbling drums for polishing, and bagging machines. This classification also includes trial plots or lab research facilities used to develop new seed hybrids and improve existing varieties, consultation services provided to the farmers during planting and harvesting seasons, and custom milling work conducted at the farmer's premises. Also included in this classification are establishments engaged exclusively in providing grain or seed drying services.

This classification excludes growing of seeds, other than on a trial plot, which is to be reported separately in the appropriate agricultural classification; merchants engaged in hand

packaging seeds that have been processed by others who are to be reported separately in classification 6309-06; grain milling which is to be reported separately in classification 2101-00; hay/grain/feed dealers which are to be reported separately in classification 2101-01; and grain or bean/pea elevators which are to be reported separately in classification 2007.

2101-05 Hop pellet manufacturing

Applies to establishments engaged in the manufacture of hop pellets. Hop pellets are one of several ingredients used by breweries in the manufacture of beer and ale. Operations contemplated by this classification include, but are not limited to, cold storage room operations where bales of hops are kept, bale breaking and grinding of hops into powder, blending of powders and additives, testing of hops, pelletizing, packaging, and shipping. Establishments subject to this classification may own the hops or do custom blending for others.

This classification excludes establishments engaged in the manufacture of hop extract which are to be reported separately in classification 3701.

Special note: Hop pellets are often referred to as a flavoring so care should be taken, when another classification is being considered, to determine the process used.

WAC 296-17-563 Classification 2102.

2102-00 Warehouses - general merchandise

Applies to establishments operating as warehouses for general merchandise. This merchandise belongs to a customer and is usually stored for long periods of time. Products typically involved are bulk, nonperishable materials which might include, but not be limited to, rice, coffee, potatoes, or dry cement. Work contemplated by this classification includes, but is not limited to, unloading deliveries, moving merchandise within the facility, recordkeeping, security, and maintaining the facility. Equipment and machinery used includes pallet jacks, forklifts, routine maintenance, cleaning and recordkeeping supplies, and shop vehicles.

This classification excludes delivery drivers who are to be reported separately in classification 1102; wholesale dealers who operate a warehouse for storage of their own product which is to be reported separately in the classification applicable to the product being sold; warehousing of household furnishings by a moving and storage company which is to be reported separately in classification 6907; cold storage plants which are to be reported separately in classification 4401; mini-storage warehousing which is to be reported separately in classification 4910; field bonded warehouses which are to be reported separately in classification 2008; and the warehousing of a manufacturer's own product which is to be reported separately in the manufacturing classification applicable to the work being performed.

[Title 296 WAC—p. 286]

Special note: Even though this type of operation may handle some "grocery" products, it differs from 2102-11 in that the products being handled in 2102-00 are in bulk packaging (not cases of consumer-size packages), do not belong to the business that is warehousing them, and are not intended for sale to a wholesaler/retailer.

2102-04 Recycle, collection and receiving stations; rags, bottles, paper and metal container dealers, N.O.C.

Applies to establishments engaged in the collection of used paper, aluminum, tin, glass, and plastic for the purpose of selling the material to another business that will recycle/remanufacture it into new products. These facilities normally acquire material by placing collection bins at various remote locations, operating a drop-off center (this phase of the business is known in the trade as a "buy back center"), and employing drivers to pick up from businesses. Work contemplated by this classification includes, but is not limited to, sorting material, operating various pieces of equipment used to crush, reduce, wash, and bale material, weighing containers, paying customers for receipt of items that have a redemption value by the pound or piece ("buying back"), and operating shop or yard vehicles. Machinery and equipment includes, but is not limited to, shredders, balers, can crushers, weigh scales, forklifts, collection bins, shop or yard vehicles, and rolloff trucks to handle the collection bins. This classification includes dealers of rags, bottles, paper and metal containers not covered by another classification (N.O.C.)

This classification excludes drivers who are to be reported separately in classification 1102 and establishments engaged in collecting, sorting and reducing scrap metal such as junk dealers, scrap metal dealers or processors, which also receives glass, paper, plastic, etc., which are to be reported separately in classification 0604.

Special note: Classification 2102-04 should not be assigned to an employer who also operates a business subject to classification 4305-18 (Garbage, refuse or ashes collecting) without careful review and an on-site survey. Most garbage collecting businesses have some type of "recycle" program as part of their normal operations in an effort to sort and reduce the amount of waste that goes to landfills and this is considered an inclusion.

2102-11 Grocery, fruit or produce distributors - wholesale or combined wholesale and retail

Applies to establishments engaged in the wholesale, or wholesale/retail, distribution of a variety of grocery items, fruit and produce. A business in this classification buys products from the manufacturer and sells to retail grocery stores, restaurants, and similar businesses. Grocery items may include, but not be limited to, packaged foods, frozen foods, household cleaning supplies, paper products, personal care items, beer, soda, and dairy products. Work contemplated by this classification includes, but is not limited to, unloading deliveries, moving merchandise within the facility, incidental repackaging, breakdown of merchandise into smaller lots, recordkeeping, security, and maintaining the facility. Equipment and machinery includes, but is not limited to, pallet jacks, forklifts, strapping and shrink wrapping equipment, and vehicles.

(2003 Ed.)

This classification excludes delivery drivers who are to be reported separately in classification 1101; any general merchandise warehouse operations in which the operator of the warehouse does not own the merchandise being handled and it is in bulk quantities, which is to be reported separately in classification 2102-00; cold storage plants handling food products which are to be reported separately in classification 4401; operations specializing in vegetable/fruit packing for wholesale distribution which are to be reported separately in classification 2104; operations specializing in wholesale distribution of beer, wine, ale or soft drinks which is to be reported separately in classification 2105; field bonded warehouses which are to be reported separately in classification 2008; and the warehousing of a manufacturer's own product which is to be reported separately in the manufacturing classification applicable to the work being performed.

2102-28 Wool or cotton merchants

Applies to establishments operating as wool or cotton merchants. Merchants subject to this classification buy raw wool or cotton from others, do incidental sorting, grading and repackaging, and sell the product to another business for use as a raw material to make products such as yarn, thread or fabric. Work contemplated by this classification includes, but is not limited to, unloading deliveries, moving merchandise within the facility, hand sorting the product by grade (quality), repackaging, recordkeeping, security, and maintaining the facility. Equipment and machinery includes, but is not limited to, pallet jacks, forklifts, repackaging equipment and vehicles.

This classification excludes drivers who are to be reported separately in classification 1102; wholesale dealers of a finished wool or cotton product which are to be reported separately in the classification applicable to the product; and the warehousing of a manufacturer's own product which is to be reported separately in the manufacturing classification applicable to the work being performed.
