(8) Defines a quorum as five of its members.

(9) Adopts parliamentary meeting procedure generally as described in Robert's Rules of Order.

WAC 286-04-030 Goals. The general goals of the committee are to:

(1) Provide funds and planning assistance for acquisition and development and use of outdoor recreation and habitat conservation resources to maximize protection of the natural quality of the environment;

(2) Provide funds and planning assistance for a system of public recreational facilities and opportunities for state residents and visitors;

(3) Aid organizations and local government, with funds and planning assistance, in providing the type of facilities and resources which, under their jurisdiction, will best serve their needs for outdoor recreation and habitat conservation;

(4) Encourage programs which promote outdoor education, skill development, participation opportunity and proper stewardship of recreation and natural resources. See also RCW 43.99.010.

WAC 286-04-050 Compliance with Environmental Act guidelines. (1) The committee has determined that all of its activities and programs in effect as of December 12, 1975, or pursuant to WAC 197-11-800 are exempt from threshold determinations and environmental impact statement requirements under the provisions of WAC 197-11-875.

(2) To the extent applicable, it is the responsibility of applicants and sponsors to comply with the provisions of chapter 197-11 WAC, the State Environmental Policy Act rules for acquisition or development of projects, the National Environmental Protection Act, and to obtain associated land-use permits.

WAC 286-04-060 Manuals and waivers—Guidance. (1) The committee shall adopt manuals that describe its general administrative policies for use by applicants, potential applicants, sponsors, and others. These manuals shall not have the force or effect of administrative code rules.

(2) Committee policies, including those in the manuals shall be considered and approved by the committee in an open public meeting. Notice of such considerations will be given by distribution of the agenda for the meeting, press releases, formal meeting notice in the Washington State Register, or other such means.

(3) Project applicants, sponsors, or other interested parties may petition the director for a waiver or waivers of those items dealing with general administrative matters and procedures within the manuals. Determinations on petitions for waivers made by the director are subject to review by the committee at the request of the petitioner.

(4) Petitions for waivers of subjects dealing with committee policy, and those petitions that in the judgment of the
director require committee review, shall be referred to the committee for deliberation. Such waivers may be granted after consideration by the committee at an open public meeting.

WAC 286-04-065 Project evaluations. It is the policy of the committee to use an open, public, competitive selection process to guide it in allocating funds to grant applicants. In this regard, the director shall use priority rating systems in preparing funding recommendations for committee consideration. These systems shall:

(1) Be developed, to a reasonable extent, through the participation of interested parties and specialists;

(2) Consider applicant, local, regional, and statewide needs, a project's technical merits, and other criteria;

(3) Be adopted by the committee in advertised public meetings;

(4) Be made available in published form to interested parties;

(5) Be designed for use by a team of evaluators selected for this purpose;

(6) Be in accord with statutes.

WAC 286-04-070 Director's authority. Consistent with RCW 43.99.025, and other applicable laws, the director is delegated the authority and responsibility to carry out policies of the committee. This includes, but is not limited to the authority to:

(1) Administer committee programs; employ, discipline, and terminate staff, consistent with applicable merit system and personnel rules;

(2) Administer all applicable rules, regulations and requirements established by the committee or reflected in the laws of the state;

(3) Approve certain cost increase or waiver requests.

WAC 286-04-080 Federal overlay and requirements. At times through the years, the committee's grant programs have been closely interrelated with certain federal grant programs. For example, see WAC 286-40-010, Land and Water Conservation Fund. The result of this interrelationship is that there are many federal requirements imposed on the committee and its applicants over which the committee has no control.

Many of these requirements may be found in the Land and Water Conservation Fund Grants Manual (National Park Service). In addition, most of the federal requirements are restated or clarified in the manuals.

WAC 286-04-085 Declaratory order—Petition requisites—Consideration—Disposition. (1) Any person may submit a petition for a declaratory order in accordance with RCW 34.05.240 in any form so long as it:

(a) Clearly states the question the declaratory order is to answer; and

(b) Provides a statement of the facts which raise the question.

(2) The director may conduct an independent investigation in order to fully develop the relevant facts.

(3) The director will present the petition to the committee at the first meeting when it is practical to do so and will provide the petitioner with at least five days notice of the time and place of such meeting. Such notice may be waived by the petitioner.

(4) The petitioner may present additional material and/or argument at any time prior to the issuance of the declaratory order.

(5) The committee may decide that a public hearing would assist its deliberations and decisions. If such a hearing is ordered, it will be placed on the agenda of a meeting and at least five days notice of such meeting shall be provided to the petitioner.

WAC 286-04-090 What is the history of the committee's fund sources? WAC 286-13-010 What is the purpose of this chapter? This chapter contains general rules affecting grant program eligibility, applications, and projects funded with money from or through the committee. Further rules are in chapter 286-26 WAC (Nonhighway and off-road vehicle program), chapter 286-27 WAC (Washington wildlife and recreation program), chapter 286-30 WAC (Firearms and archery range recreation program), chapter 286-35 WAC (Initiative 215 boating facilities program), chapter 286-40 WAC (Land

[Title 286 WAC—p. 7]
WAC 286-13-020 Application form. (1) All grant requests must be completed and submitted in the format prescribed by the committee unless otherwise allowed by the director. (2) If the director determines that the applicant is eligible to apply for federal funds administered by the committee, the applicant must execute the forms necessary for that purpose.

WAC 286-13-030 Application review. (1) All applications for funding submitted to the committee will be referred to the director for review and recommendations. In reaching a recommendation, the director shall seek the advice and counsel of the committee's staff and other recognized experts, including those gathered at technical review and evaluation meetings or from other parties with experience in the field. (2) The committee shall inform all applicants of the specific project process and methods of review, including current evaluation test and instruments, by delineating these items in the manuals or other publicly available formats.

WAC 286-13-040 What are the grant program deadlines and how can the deadlines be waived? (1) Applications. To allow time for review, applications must be submitted at least four calendar months before the funding meeting at which the applicant's project is first considered. Applications must be completed in final form and on file with the committee at least one calendar month before this meeting. Excepted are applications for the National Recreational Trails Funding Act, Riparian Habitat, and Youth Athletic Facilities Programs, and programs where the director specifically establishes another deadline to accomplish new or revised statutory direction. (2) Plans. Plans required for participation in committee grant programs must be complete and on file with the committee at least three calendar months before the funding meeting at which the applicant's project is first considered. On the director's acceptance of the plan, the applicant shall be granted eligibility to submit applications for a period of up to six years.

(3) Matches. To allow time for development of funding recommendations, written assurance must be provided whenever matching resources are to be considered as a part of an application. This assurance must be provided by the applicant to the committee at least one calendar month before the meeting at which the project is to be considered for funding. (4) Project agreement. An applicant has three calendar months from the date of the committee's mailing of the project agreement to execute and return the agreement to the committee's office. After this period, the committee or director may reject any agreement not signed and returned and reallocate the grant funds to another project(s). (5) Waivers. Compliance with these deadlines is required for eligibility unless a waiver is granted by the director. Such waivers are considered based on several factors which may vary with the type of waiver requested, including: (a) When the applicant started the application/planning process (for application and plan deadline waivers); (b) Progress made; (c) When final plan adoption will occur (for plan deadline waivers); (d) The cause of the delay (procedural or content related, etc.); (e) Impact on the committee's evaluation process; (f) Equity to other applicants; and (g) Such other information as may be relevant.

WAC 286-13-045 What rules govern eligible matching resources? (1) When requiring a match from an applicant for committee administered funds, or giving preference to an applicant that provides a match, it is the intent of the committee to do so to foster local commitment to the proposed project and to demonstrate that commitment, and to make funds from a given grant program (and revenue source) available to a greater number of projects. (2) Applicant resources used to match committee funds include, but are not limited to: Cash; local impact/mitigation fees; certain federal funds; the value of donations such as privately owned real estate, equipment, equipment use, materials, and labor; or any combination thereof. (3) An agency's or organization's match may include state and federal funds, including funds from other grant programs administered by the committee. However, the committee may require the agency or organization to provide a portion of the match in local resources. (4) Private donated real property, or the value of that property, must consist of real property (land and facilities) that would normally qualify for committee grant funding. (5) State agency projects may be assisted by one hundred percent funding from committee sources except where prohibited by law.
(6) The eligibility of some federal and state funds to be used as a match is governed by federal and state requirements and thus may vary with individual program policies.

**WAC 286-13-050 Final decision.** The committee will review recommendations for grant projects at regularly scheduled funding sessions. It retains the authority and responsibility to accept or deviate from these recommendations and, where statutory authority exists, it alone will make the final decision concerning the funding of a project.

**WAC 286-13-060 Project agreement.** For every funded project, an agreement must be executed as provided in this section.

(1) The project agreement shall be prepared by the director subsequent to approval of the project by the committee at a public meeting. The director shall execute the agreement on behalf of the committee and tender the document to the applicant. On execution by the applicant, who through this action becomes the sponsor, the parties are bound by the agreement's terms. The applicant may not proceed with the project until the agreement has been executed and the project start date listed in the agreement has arrived, unless specific authorization pursuant to WAC 286-13-085 (1)(a) has been given by the director.

(2) If the project is approved by the committee to receive a grant from federal funds, the director shall not execute an agreement or amendment with the applicant until federal funding has been authorized through execution of a concurrent project agreement with the applicable federal agency.

**WAC 286-13-070 Disbursement of funds.** Except as otherwise provided herein, the director will authorize disbursement of project funds only on a reimbursable basis, after the sponsor has spent its own funds and has presented a bill showing satisfactory evidence of partial acquisition or development.

(4) Exceptions.

(a) State agencies' Initiative 215 (Marine Recreation Land Act) appropriations. Prior to the 1995-1997 biennium (July 1, 1995,) state agencies were required to submit voucher forms with the supporting documentation specified in the manual in effect at the time of completion of project acquisition, relocation or development.

(b) Direct payment. Direct payment to escrow of the committee's share of the approved cost of real property may be made following committee approval of an acquisition project when the sponsor indicates a temporary lack of funds to purchase the property. Prior to release of the committee's share of escrow funds, the sponsor must provide the director with a copy of a binding sale agreement between the sponsor and the seller and evidence of deposit of the sponsor's share (if any) into an escrow account.

**WAC 286-13-080 What rules govern expenses incurred before execution of a project agreement?** Except as hereinafter provided, the committee will not approve the disbursement of funds for expenses incurred before execution of a project agreement.

**WAC 286-13-085 Retroactive and increased costs.** See WAC 286-04-010 for definition of terms for the following section.

Under most conditions, eligible expenses may only be reimbursed for activities that occur within the period cited in the project agreement. This is known as the committee's prohibition on retroactivity. To avoid this prohibition, a waiver may be issued.

(1) Retroactive land acquisition costs.

The director may grant a waiver of retroactivity whenever an applicant asserts, in writing, that a condition exists which may jeopardize the project. When evidence warrants, the director may grant the applicant permission to proceed by issuing the written waiver. This waiver of retroactivity will not be construed as an approval of the proposed project. If the project is subsequently approved, however, the costs incurred will be eligible for assistance. If the project is to remain eligible for grant support from federal funds, the director shall not authorize a waiver of retroactivity to the applicant until the federal agency administering the federal funds has issued its own waiver of retroactivity as provided under its rules and regulations.

(2009 Ed.)
(2) Retroactive development costs. The only retroactive development costs eligible for reimbursement consideration are preliminary expenses (e.g., engineering costs).

However, solely in respect to WWRP projects on LEAP Capital Document 5, the director is authorized to grant a waiver of retroactivity which establishes eligibility for future reimbursement of all appropriate development costs. Such applicants' retroactivity requests must be in writing, and provide sufficient justification. Reimbursement of expenditures is subject to the provisions of WAC 286-13-070. This authority shall be effective until the execution of a project agreement or June 30, 1997, whichever occurs first.

(3) Cost increases.
(a) Cost increases for approved projects may be granted by the committee if financial resources are available.

(b) Each cost increase request will be considered on its merits.

(c) If an approved project recommended for federal funding is denied by the appropriate federal agency, the sponsor may request that the committee increase assistance by an equivalent amount; such requests shall be considered on their merits.

(d) The director may approve a sponsor's acquisition, development, and/or noncapital project cost increase request so long as the total request does not exceed ten percent of the project's approved initial cost. The director's approval of an acquisition project cost increase is limited to a parcel-by-parcel appraised and reviewed value.

WAC 286-13-090 Federal assistance. Insofar as is possible under the committee's statewide plan(s) provided under WAC 286-04-020(3) applications will be administered and approved in a manner that will maximize any federal assistance available for the benefit of projects in Washington.

WAC 286-13-100 Nonconformance and repayment. Any sponsor expenditure of committee grant moneys deemed by the committee or director to conflict with applicable statutes, rules and/or related manuals must be repaid, upon written request from the director, to the appropriate state account. Such repayment requests may be made in consideration of an applicable report from the state auditor's office.

WAC 286-13-110 Income, income use. (1) Income.
(a) Compatible source. The source of any income generated in a committee assisted project or project area must be compatible with the element(s) defined in the project agreement. The way the project or project area is defined varies with the source of funds provided by the committee. That is, income generated in a project assisted with funds that originate from:
(i) A state source must be consistent with the limits of the element(s) assisted by the committee (for example, within the area of an athletic field or habitat area).
(ii) The federal land and water conservation fund must be consistent within the boundary described in chapter 660.2.6.A. ("project area") of the L&WCF Grants-in-Aid Manual.

(b) Fees. User and/or other fees may be charged in connection with land acquired or facilities developed with committee grants if the fees are consistent with the:
(i) Value of any service(s) furnished; and
(ii) Value of any opportunity(ies) furnished; and
(iii) Prevailing range of public fees in the state for the activity.

Excepted are firearms and archery range program safety classes (firearm and/or hunter) for which a facility/range fee must not be charged (RCW 77.12.720).

(2) Income use. Regardless of whether income or fees in a committee assisted area (including entrance, utility corridor permit, cattle grazing, timber harvesting, farming, etc.) are gained during or after the reimbursement period cited in the project agreement, unless precluded by state law the revenue may only be used to offset:
(a) The sponsor's matching funds; and/or
(b) The project's total cost; and/or
(c) The expense of operation, maintenance, and/or repair of the facility or program assisted by the committee grant; and/or
(d) The expense of operation, maintenance, and/or repair of other units in the sponsor's park and recreation and/or habitat conservation system; and/or
(e) Capital expenses for similar acquisition and/or development.

WAC 286-13-115 Discrimination, preferences. (1) Sponsors shall not discriminate against users of projects assisted with committee funds on the basis of race, creed, color, sex, religion, national origin, disability, marital status, or sexual orientation.

(2) Sponsors shall not express a preference for users of committee grant assisted projects on the basis of residence (including preferential reservation, membership, and/or permit systems). However, reasonable differences in admission and other fees may be maintained on the basis of residence. The committee does not encourage the imposition of such differential fees. Fees for nonresidents must not exceed twice

WAC 286-26-080  Does this program have planning eligibility requirements? Yes. To be eligible for grant consideration under this chapter, applicants must complete a plan in accordance with WAC 286-13-040(2), except that such a plan is not required to support a funding request for education—enforcement and/or maintenance—operation projects. At minimum the plan must include:

2. An inventory, or description of the planning area;
3. An analysis of demand and need, that is, why actions are required;
4. A description of how the planning process gave the public ample opportunity to be involved in development of the plan;
5. A current capital improvement program of at least six years;
6. Evidence that this plan has been approved by the applicant’s governing agency most appropriate to the plan’s scope. For example, a city or county-wide plan must be approved at the council or commission level. Plans with a different scope will be approved by department heads, district supervisors, etc.

WAC 286-26-083  What long term rules apply? (1) Without prior approval of the committee, land, natural resources and/or facilities purchased and/or developed with committee administered NOVA funds shall not be converted to uses other than those for which the funds were originally approved.

1. All practical alternatives to the conversion have been evaluated and rejected on a sound basis; and
2. Another resource(s) will serve as a replacement. The replacement resource(s) must:
   a. (If a land acquisition) be real property(ies) of at least equal fair market value and public benefit at the time of conversion;

   c. Be of reasonably equivalent or greater recreation usefulness and location;
   d. Be administered by the same political jurisdiction as the converted property and/or development;
   e. Satisfy need(s) identified in the committee’s or sponsor’s plan; and
   f. Include only elements eligible under the committee’s program from which funds were originally allocated.

WAC 286-26-090  For land acquisition projects, are there long term obligations? Yes. Sponsors must execute an instrument(s) containing:

1. For fee or perpetual property rights acquisition projects:

   c. A prohibition on conversion of use of the land to a principal use other than that for which funds were originally approved without prior approval of the committee.

2. For lease, less than fee, or nonperpetual property rights, a binding agreement which:
   a. Contains a legal description of the property and rights acquired;
   b. Contains a conveyance to the state of Washington for the right to use the described real property for outdoor recreation purposes for the period of the lease;
   c. Contains a prohibition on conversion of use of the land/natural resource to a principal use other than that for which funds were originally approved without prior approval of the committee.
   d. Is for at least twenty-five years unless precluded by state law;
   e. Is not revocable at will;
   f. Has a value supported through appraisal requirements approved by the committee;
   g. Is paid for in lump sum at initiation.

[Statutory Authority: RCW 79.90.245, 2004 c 276, and WAC 46.09.240. 05-01-030, § 286-26-090, filed 12/3/04, effective 1/3/05.]

WAC 286-27-010  What is the purpose of this chapter? This chapter contains rules affecting the Washington wildlife and recreation grant program (WWRP) administered by the committee under chapter 79A.15 RCW. Additional provisions are contained in "General grant assistance rules," chapter 286-13 WAC. These moneys are available through the committee for projects in the following accounts and categories:

1. Farmlands preservation account.
2. Habitat conservation account:
   a. Critical habitat category;
   b. Natural areas category;
   c. Urban wildlife habitat category; and
   d. Restoration-enhancement on state lands category.
3. Outdoor recreation account:
   a. State parks category;
   b. Local parks category;
   c. Trails category;
   d. Water access category; and
   e. Development-renovation on state lands category.
4. RIParian protection account.

WAC 286-27-040 Does the WWRP have planning requirements? Yes. Except as noted under subsection (2) of this section, to be eligible for grant consideration under this chapter, applicants must complete a plan in accordance with WAC 286-13-040(2).

(1) At minimum the plan must include:
   (a) A statement of the applicant's long-range goals and objectives;
   (b) An inventory, or description of the planning area;
   (c) An analysis of demand and need, that is, why actions are required;
   (d) A description of how the planning process gave the public ample opportunity to be involved in development of the plan;
   (e) A current capital improvement program of at least six years;
   (f) Evidence that this plan has been approved by the applicant's governing entity. For example, a city plan would be approved at the council level and a county-wide plan at the county council or commission level. Plans with a different scope would be approved by department heads, regional managers/supervisors, etc.;

(2) A plan is not required for projects submitted in the farmlands preservation account.

WAC 286-27-045 What is a conversion of use? A "conversion" occurs when interests in real property and facilities acquired, developed, renovated, enhanced or restored with WWRP funds are converted to uses other than those for which the funds were originally approved and described in the project agreement with the committee. Interests in real property include, but are not limited to, options, rights of first refusal, conservation easements, leases, and mineral rights.

WAC 286-27-055 Are there long-term obligations for acquiring interest in real property? Yes. Sponsors must execute an instrument(s) containing these provisions:

(1) For acquisition of perpetual interest in real property:
   (a) A legal description of the property and a description of the interests acquired;
   (b) A conveyance to the state of Washington of the right to use the described real property for farmland, habitat conservation, and/or outdoor recreation purposes; and
   (c) Except as provided in WAC 286-27-066, agreement to a prohibition on conversion of use.

(2) For acquisition of nonperpetual interest in real property:
   (a) A legal description of the property and a description of the interests acquired;
   (b) A conveyance to the state of Washington of the right to use the described real property for farmland, habitat conservation, and/or outdoor recreation purposes for the term of the lease or easement;
   (c) Except as provided in WAC 286-27-066, agreement to a prohibition on conversion of use;
   (d) A lease(s) or easement(s) period of at least fifty years except for:
      (i) Farmlands preservation account projects which shall be for at least twenty-five years;
      (ii) Projects that extend conservation reserve enhancement program leases which shall be for at least twenty-five years;
      (e) Is not revocable at will;
      (f) Has a value supported through appraisal methods approved by the committee;
      (g) Terms of payment between the sponsor and seller.

WAC 286-27-061 Are there long-term obligations for restoration projects? Yes.

(1) Unless otherwise approved by the committee, environmental restoration and enhancement projects granted WWRP funds must continue to provide the functions for which the funds were originally approved and not be converted to any other use.

(2) When approving such a conversion, the committee shall require the grant recipient or successor to provide for environmental restoration or enhancement as a replacement. When approving the replacement, committee considerations shall include the intended ecological benefits of the replacement compared to those of the original project and likelihood that the replacement project will be successful.

WAC 286-27-065 Are there long-term obligations for development projects? Yes.

(1) Properties, structures, and facilities developed with the assistance of money granted by the committee shall not be converted except as provided in WAC 286-27-066.

(2) Properties, structures, and facilities developed with the assistance of money granted by the committee shall be built, operated, and maintained according to applicable regulations, laws, building codes, and health standards to assure a reasonably safe condition and to prevent premature deterioration.

(3) Properties, structures, and facilities intended for public use shall meet state and federal accessibility guidelines and nondiscrimination laws, regulations, and policies; be maintained to a standard that encourages use; and be open and available to the public at reasonable hours and times of the year.
WAC 286-27-066 What additional rules apply to conversions of use? (1) Except as provided in this section, interest in real property and facilities acquired, developed, renovated, enhanced or restored with WWRP funds shall not, without prior approval of the committee be converted to uses other than those for which the funds were originally approved.

(2) The committee shall assure the substitution or replacement of interest in real property and/or facilities in accordance with this chapter.

(3) The committee shall only approve conversions when:

(a) All practical alternatives to the conversion have been evaluated and rejected; and

(b) The sponsor or successor will provide another interest in real property(s) and/or facilities to serve as a replacement. The replacement must:

(i) Be of equivalent or greater usefulness and location;

(ii) Be administered by the same sponsor or successor unless otherwise approved by the committee;

(iii) Satisfy need(s) identified in the most recent plan(s) required under WAC 286-27-040;

(iv) Be eligible to receive a grant in the WWRP account or category from which funds were originally allocated, unless otherwise authorized by the committee;

(v) If acquisition of interests in real property: Be interest in real property(ies) of at least equal market value and public benefit at the time of replacement;

(vi) If a development: Provide a facility of at least equal market value and public benefit as that which existed at the time of the original investment of WWRP funds; and

(vii) If a restoration or enhancement project: Provide restoration or enhancement activities necessary to replicate the ecological benefit intended by the project.

(4) Projects authorized by the Interstate Commerce Commission under section 8(d) of the National Trails System Act, 16 U.S.C. § 1247(d) shall convert to railroad purposes automatically upon reactivation of a line for rail purposes under an ICC order. Substitution or replacement with interest in real property, facilities or moneys which are of at least equal market value at the time of replacement may be required.

WAC 286-27-071 What rules apply to the sale of farmland? (1) Any moneys from the sale of farmland acquired by a city or county in fee simple with farmlands preservation account funds, along with any net income derived from agricultural activities on the property, shall be returned to the farmlands preservation account, or, used by the city or county to purchase interests in additional farmland properties. The city or county may deduct expenses associated with the transaction and management of the property as authorized by the committee.

(2) The sale of the farmland and use of funds to purchase additional farmland properties must be approved by the committee.
