(iv) **Government-to-government agreement.** A tribe and the department may enter into an agreement covering the treaty fishery and taxable activities of enrolled members, in which case the terms of the agreement govern.

(7) **Nonmembers in Indian country - preemption of state tax.** Generally, a nonenrolled person doing business in Indian country is subject to tax. Unless specifically described as preempted by this rule, the department will review transactions on a case-by-case basis to determine whether tax applies. A nonmember who is not taxable on the basis of preemption should refer to WAC 458-20-101 (tax registration) to determine whether the person must register with the department.

(a) **Preemption of tax on nonmembers - gaming.** Gaming by Indian tribes is regulated by the federal Indian Gaming Regulatory Act. Nonmembers who operate or manage gaming operations for Indian tribes are not subject to tax for business conducted in Indian country. This exclusion from tax applies to taxes imposed on income attributable to the business activity (e.g., the B&O tax), and to sales and use tax on the property used in Indian country to conduct the activity. Sales tax will apply if delivery of property is taken outside of Indian country.

Nonmembers who purchase tangible personal property at a gaming facility are subject to retail sales or use tax, unless:

(i) The item is preempted based on the outcome of the balancing test. For example, depending on the relative state, tribal, and federal interests, tax on food at restaurants or lounges owned and operated by the tribe or a tribal member or sales of member arts and crafts at gift shops might be preempted. See the balancing test discussion in subsection (c) below; or

(ii) The item is purchased for use in the gaming activity at the facility, such as bingo cards or daubers.

(b) **Preemption of B&O and public utility tax - sales of tangible personal property or provision of services by nonmembers in Indian country.** As explained in this subsection, income from sales in Indian country of tangible personal property to, and from the performance of services in Indian country for, tribes and tribal members is not subject to B&O (chapter 82.04 RCW) or public utility tax (chapters 82.16 and 54.28 RCW). The taxpayer is responsible for maintaining suitable records so that the taxpayer and the department can distinguish between taxable and nontaxable activities.

(i) **Sales of tangible personal property.** Income from sales of tangible personal property to the tribe or to tribal members is not subject to B&O tax if the tangible personal property is delivered to the buyer in Indian country and if:

(A) The property is located in Indian country at the time of sale; or

(B) The seller has a branch office, outlet, or place of business in Indian country that is used to receive the order or distribute the property; or

(C) The sale of the property is solicited by the seller while the seller is in Indian country.

(ii) **Provision of services.** Income from the performance of services in Indian country for the tribe or for tribal members is not subject to the B&O or public utility tax. Services performed outside of Indian country are subject to tax. In those instances where services are performed both on and off of Indian country, the activity is subject to state tax to the extent that services are substantially performed outside of Indian country.

(A) It will be presumed that a professional service (e.g., accounting, legal, or dental) is substantially performed outside of Indian country if twenty-five percent or more of the time taken to perform the service occurs outside of Indian country. The portion of income subject to state tax is determined by multiplying the gross receipts from the activity by the quotient of time spent outside of Indian country performing the service divided by total time spent performing the service.

For example, an accountant with an office outside of Indian country provides accounting services to a tribal member. The accountant performs some of the work at the office and some work at the business of the tribal member in Indian country. If at least twenty-five percent of the time performing the work is spent outside of Indian country, the services are substantially performed outside of Indian country and therefore a portion is subject to state tax. As explained above, the accountant must maintain suitable records to distinguish between taxable and nontaxable income in order to provide for a reasonable approximation of the amount of gross income subject to B&O tax. In this case, suitable records could be a log of the time and location of the services performed for the tribal matter by the accountant, his or her employees, and any contractors hired by the accountant.

(B) For services subject to the retailing and/or wholesaling B&O tax (e.g., building, installing, improving, or repairing structures or tangible personal property), the portion of income relative to services actually performed outside of Indian country is subject to state tax.

For example, a contractor enters into a contract with a tribe to install a sewer line that extends off reservation. Only the income attributable to the installation of the portion of the sewer line off reservation is subject to state tax.

(C) For public utility services under chapters 82.16 and 54.28 RCW it will be presumed that the service is provided where the customer receives the service.

(c) **Preemption of tax on nonmembers - balancing test - value generated on the reservation.** In certain instances state sales and use tax may be preempted on nonmembers who purchase goods or services from a tribe or tribal members in Indian country. The U.S. supreme court has identified a number of factors to be considered when determining whether a state tax borne by non-Indians is preempted, including: The degree of federal regulation involved, the respective governmental interests of the tribes and states (both regulatory and revenue raising), and the provision of tribal or state services to the party the state seeks to tax. See *Salt River Pima-Maricopa Indian Community v. Waddell*, 50 F.3d 734, (1995). This analysis is known as the "balancing test." This preemption analysis does not extend to subsequent transactions, for example if the purchaser buys for resale the tax imposed on the consumer in the subsequent sale is not preempted. However, because these balancing test determinations are so fact-based, the department will rule on these issues on a case-by-case basis. For such a ruling please contact the department at:

Department of Revenue
Executive
P.O. Box 47454
Olympia, WA 98504-7454

(d) **Federal contractors.** The preemption analysis does not extend to persons who are doing work for the federal government in Indian country. For example, a nonmember doing road construction for the Bureau of Indian Affairs within an Indian reservation is subject to state tax jurisdiction.

(e) **Indian housing authorities.** RCW 35.82.210 provides that the property of housing authorities and the housing authorities themselves are exempt from taxes, such as state and local sales and use taxes, state and local excise taxes, state and local property taxes, and special assessments. This covers tribal housing authorities and intertribal housing authorities both on and off of Indian land. Please note that tribal housing authorities, like all other housing authorities, are exempt from tax anywhere in the state, and the delivery requirement and other geographic thresholds are not applicable.

Not all assessments are exempted under RCW 35.82.-210. See *Housing Authority of Sunnyside v. Sunnyside Valley Irrigation District*, 112 Wn2d 262 (1989).

For the purposes of the exemption:

(i) "Intertribal housing authority" means a housing authority created by a consortium of tribal governments to operate and administer housing programs for persons of low income or senior citizens for and on behalf of such tribes.

(ii) "Tribal government" means the governing body of a federally recognized Indian tribe.

(iii) "Tribal housing authority" means the tribal government or an agency or branch of the tribal government that operates and administers housing programs for persons of low income or senior citizens.

(8) **Motor vehicles, trailers, snowmobiles, etc., sold to Indians or Indian tribes.** Sales tax is not imposed when a motor vehicle, trailer, snowmobile, off-road vehicle, or other such property is delivered to an Indian or the tribe in Indian country or if the sale is made in Indian country. Similarly, use tax is not imposed when such an item is acquired in Indian country by an Indian or the tribe for at least partial use in Indian country. For purposes of this rule, acquisition in Indian country creates a presumption that the property is acquired for partial use in Indian country.

(a) **Registration of vehicle, trailer, etc.** County auditors, subagencies appointed under RCW 46.01.140, and department of licensing vehicle licensing offices must collect use tax when Indians or Indian tribes apply for an original title transaction or transfer of title issued on a vehicle or vessel under chapters 46.09, 46.10, 46.12, or 88.02 RCW unless the tribe/Indian shows that they are not subject to tax. To substantiate that they are not subject to tax the Indian/tribe must show that they previously paid retail sales or use tax on their acquisition or use of the property, or that the property was acquired on or delivered to Indian country. The person claiming the exclusion from tax must sign a declaration of delivery to or acquisition in Indian country. A statement in substantially the following form will be sufficient to establish eligibility for the exclusion from sales and use tax.

(b) **Declaration.**

DECLARATION OF DELIVERY OR ACQUISITION IN INDIAN COUNTRY

The undersigned is (circle one) an enrolled member of the tribe/authorized representative of the tribe or tribal enterprise, and the property was delivered/acquired within Indian country, for at least partial use in Indian country.

name of buyer
date of delivery/acquisition
address of delivery/acquisition

(9) **Miscellaneous taxes.** The state imposes a number of excise taxes in addition to the most common excise taxes administered by the department (e.g., B&O, public utility, retail sales, and use taxes). The following is a brief discussion of some of these taxes.

(a) **Cigarette tax.** The statutory duties applicable to administration and enforcement of the cigarette tax are divided between the department and the liquor control board. Enforcement of nonvoluntary compliance is the responsibility of the liquor control board. Voluntary compliance is the responsibility of the department of revenue. See chapter 82.24 RCW for specific statutory requirements regarding purchase of cigarettes by Indians and Indian tribes. For a specific ruling regarding the taxability of and stamping requirements for cigarettes manufactured by Indians or Indian tribes in Indian country, please contact the department at:

Department of Revenue
Executive
P.O. Box 47454
Olympia, WA 98504-7454

Where sales of cigarettes are the subject of a government-to-government cooperative agreement, the provisions of that agreement supersede conflicting provisions of this subsection.

(i) Sales of cigarettes to nonmembers by Indians or Indian tribes are subject to the cigarette tax. The wholesaler is obligated to make precollection of the tax. Therefore, Indian or tribal sellers making sales to non-Indian customers must (A) purchase a stock of cigarettes with Washington state cigarette tax stamps affixed for the purpose of making such sales or (B) they may make purchases of cigarettes from licensed cigarette distributors for resale to qualified purchasers or (C) may purchase a stock of untaxed unstamped cigarettes for resale to qualified purchasers if the tribal seller gives advance notice under RCW 82.24.250 and Rule 186.

For purposes of this rule, "qualified purchaser" means an Indian purchasing for resale within Indian country to other Indians or an Indian purchasing solely for his or her use other than for resale.

(ii) Delivery or sale and delivery by any person of stamped exempt cigarettes to Indians or tribal sellers for sale to qualified purchasers may be made only in such quantity as is approved in advance by the department. Approval for delivery will be based upon evidence of a valid purchase order of a quantity reasonably related to the probable demand of qualified purchasers in the trade territory of the seller. Evidence submitted may also consist of verified record of previous sales to qualified purchasers, the probable demand as indicated by average cigarette consumption for the number of qualified purchasers within a reasonable distance of the seller's place of business, records indicating the percentage of such trade that has historically been realized by the seller, or such other statistical evidence submitted in support of the proposed transaction. In the absence of such evidence the department may restrict total deliveries of stamped exempt cigarettes to Indian country or to any Indian or tribal seller thereon to a quantity reasonably equal to the national average cigarette consumption per capita, as compiled for the most recently completed calendar or fiscal year, multiplied by the resident enrolled membership of the affected tribe.

(iii) Any delivery, or attempted delivery, of unstamped cigarettes to an Indian or tribal seller without advance notice to the department will result in the treatment of those cigarettes as contraband and subject to seizure. In addition, the person making or attempting such delivery will be held liable for payment of the cigarette tax and penalties. See chapter 82.24 RCW.

Approval for sale or delivery to Indian or tribal sellers of stamped exempt cigarettes will be denied where the department finds that such Indian or tribal sellers are or have been making sales in violation of this rule.

(iv) Delivery of stamped exempt cigarettes by a licensed distributor to Indians or Indian tribes must be by bonded carrier or the distributor's own vehicle to Indian country. Delivery of stamped exempt cigarettes outside of Indian country at the distributor's dock or place of business or any other location outside of Indian country is prohibited unless the cigarettes are accompanied by an invoice.

(b) **Refuse collection tax.** Indians and Indian tribes are not subject to the refuse collection tax for service provided in

Indian country, regardless of whether the refuse collection company hauls the refuse off of Indian country.

(c) **Leasehold excise tax.** Indians and Indian tribes in Indian country are not subject to the leasehold excise tax. Leasehold interests held by nonenrolled persons are subject to tax.

(d) **Fish tax.** Chapter 82.27 RCW imposes a tax on the commercial possession of enhanced food fish, which includes shellfish. The tax is imposed on the fish buyer. The measure of the tax is the value of the enhanced food fish at the point of landing. A credit is allowed against the amount of tax owed for any tax previously paid on the same food fish to any legally established taxing authority, which includes Indian tribes. Transactions involving treaty fish are not subject to the fish tax, regardless of where the transaction takes place.

(e) **Tobacco tax.** The tobacco tax is imposed on "distributors" as that term is defined in RCW 82.26.010. Tobacco tax is not imposed on Indian persons or tribes who take delivery of the tobacco in Indian country. Effective July 1, 2002, persons who handle for sale any tobacco products that are within this state but upon which tax has not been imposed are subject to the tobacco tax. Chapter 325, Laws of 2002. Thus, persons purchasing tobacco products for resale from Indians who are exempt from the tobacco tax are subject to tobacco tax on the product. See WAC 458-20-185, Tax on tobacco products.

(f) **Real estate excise tax.** The real estate excise tax is imposed on the seller. A sale of land located in Indian country by a tribe or a tribal member is not subject to real estate excise tax. A sale of land located within Indian country by a nonmember to the tribe or to a tribal member is subject to real estate excise tax.

(g) **Timber excise tax.** Payment of the timber excise tax is the obligation of the harvester. The tribe or tribal members are not subject to the timber excise tax in Indian country. Generally, timber excise tax is due from a nonmember who harvests timber on fee land within Indian country. Timber excise tax is not due if the timber being harvested is on trust land or is owned by the tribe and located in Indian country, regardless of the identity of the harvester. There are some instances in which the timber excise tax might be preempted on non-Indians harvesting timber on fee land in Indian country due to tribal regulatory authority. For such a ruling please contact the department at:

Executive
P.O. Box 47454
Olympia, WA 98504-7454

[Statutory Authority: RCW 82.32.300. 02-14-133, § 458-20-192, filed 7/2/02, effective 8/2/02; 00-24-050A, § 458-20-192, filed 11/30/00, effective 1/1/01; 80-17-026 (Order ET 80-3), § 458-20-192, filed 11/14/80; Order ET 76-4, § 458-20-192, filed 11/12/76; Order ET 74-5, § 458-20-192, filed 12/16/74; Order ET 70-3, § 458-20-192 (Rule 192), filed 5/29/70, effective 7/1/70.]

WAC 458-20-193 Inbound and outbound interstate sales of tangible personal property. (1) **Introduction.** This section explains Washington's B&O tax and retail sales tax applications to interstate sales of tangible personal property. It covers the outbound sales of goods originating in this state to persons outside this state and of inbound sales of goods originating outside this state to persons in this state. This section does not include import and export transactions.

(2) **Definitions:** For purposes of this section the following terms mean:

(a) "State of origin" means the state or place where a shipment of tangible personal property (goods) originates.

(b) "State of destination" means the state or place where the purchaser/consignee or its agent receives a shipment of goods.

(c) "Delivery" means the act of transferring possession of tangible personal property. It includes among others the transfer of goods from consignor to freight forwarder or for-hire carrier, from freight forwarder to for-hire carrier, one for-hire carrier to another, or for-hire carrier to consignee.

(d) "Receipt" or "received" means the purchaser or its agent first either taking physical possession of the goods or having dominion and control over them.

(e) "Agent" means a person authorized to receive goods with the power to inspect and accept or reject them.

(f) "Nexus" means the activity carried on by the seller in Washington which is significantly associated with the seller's ability to establish or maintain a market for its products in Washington.

(3) **Outbound sales.** Washington state does not assess its taxes on sales of goods which originate in Washington if receipt of the goods occurs outside Washington.

(a) Where tangible personal property is located in Washington at the time of sale and is received by the purchaser or its agent in this state, or the purchaser or its agent exercises ownership over the goods inconsistent with the seller's continued dominion over the goods, the sale is subject to tax under the retailing or wholesaling classification. The tax applies even though the purchaser or its agent intends to and thereafter does transport or send the property out-of-state for use or resale there, or for use in conducting interstate or foreign commerce. It is immaterial that the contract of sale or contract to sell is negotiated and executed outside the state or that the purchaser resides outside the state.

(b) Where the seller delivers the goods to the purchaser who receives them at a point outside Washington neither retailing nor wholesaling business tax is applicable. This exemption applies even in cases where the shipment is arranged through a for-hire carrier or freight consolidator or freight forwarder acting on behalf of either the seller or purchaser. It also applies whether the shipment is arranged on a "freight prepaid" or a "freight collect" basis. The shipment may be made by the seller's own transportation equipment or by a carrier for-hire. For purposes of this section, a for-hire carrier's signature does not constitute receipt upon obtaining the goods for shipment unless the carrier is acting as the purchaser's agent and has express written authority from the purchaser to accept or reject the goods with the right of inspection.

(4) **Proof of exempt outbound sales.**

(a) If either a for-hire carrier or the seller itself carries the goods for receipt at a point outside Washington, the seller is required to retain in its records documentary proof of the sales and delivery transaction and that the purchaser in fact received the goods outside the state in order to prove the sale is tax exempt. Acceptable proofs, among others, will be:

(i) The contract or agreement of sale, if any, **And**

(ii) If shipped by a for-hire carrier, a waybill, bill of lading or other contract of carriage indicating the seller has delivered the goods to the for-hire carrier for transport to the purchaser or the purchaser's agent at a point outside the state with the seller shown on the contract of carriage as the consignor (or other designation of the person sending the goods) and the purchaser or its agent as consignee (or other designation of the person to whom the goods are being sent); or

(iii) If sent by the seller's own transportation equipment, a trip-sheet signed by the person making delivery for the seller and showing:

The seller's name and address,

The purchaser's name and address,

The place of delivery, if different from purchaser's address,

The time of delivery to the purchaser together with the signature of the purchaser or its agent acknowledging receipt of the goods at the place designated outside the state of Washington.

(b) Delivery of the goods to a freight consolidator, freight forwarder or for-hire carrier merely utilized to arrange for and/or transport the goods is not receipt of the goods by the purchaser or its agent unless the consolidator, forwarder or for-hire carrier has express written authority to accept or reject the goods for the purchaser with the right of inspection. See also WAC 458-20-174, 458-20-175, 458-20-176, 458-20-177, 458-20-238 and 458-20-239 for certain statutory exemptions.

(5) **Other B&O taxes - outbound and inbound sales.**

(a) **Extracting, manufacturing.** Persons engaged in these activities in Washington and who transfer or make delivery of such produced articles for receipt at points outside the state are subject to business tax under the extracting or manufacturing classification and are not subject to tax under the retailing or wholesaling classification. See also WAC 458-20-135 and 458-20-136. The activities taxed occur entirely within the state, are inherently local, and are conducted prior to the commercial journey. The tax is measured by the value of products as determined by the selling price in the case of articles on which the seller performs no further manufacturing after transfer out of Washington. It is immaterial that the value so determined includes an additional increment of value because the sale occurs outside the state. If the seller performs additional manufacturing on the article after transferring the article out-of-state, the value should be measured under the principles contained in WAC 458-20-112.

(b) **Extracting or processing for hire, printing and publishing, repair or alteration of property for others.** These activities when performed in Washington are also inherently local and the gross income or total charge for work performed is subject to business tax, since the operating incidence of the tax is upon the business activity performed in this state. No deduction is permitted even though the articles produced, imprinted, repaired or altered are delivered to persons outside the state. It is immaterial that the customers are located outside the state, that the work was negotiated or contracted for outside the state, or that the property was shipped in from outside the state for such work.

(c) **Construction, repair.** Construction or repair of buildings or other structures, public road construction and similar contracts performed in this state are inherently local business activities subject to B&O tax in this state. This is so even though materials involved may have been delivered from outside this state or the contracts may have been negotiated outside this state. It is immaterial that the work may be performed in this state by foreign sellers who performed preliminary services outside this state.

(d) **Renting or leasing of tangible personal property.** Lessors who rent or lease tangible personal property for use in this state are subject to B&O tax upon their gross proceeds from such rentals for periods of use in this state. Proration of tax liability based on the degree of use in Washington of leased property is required.

It is immaterial that possession of the property leased may have passed to the lessee outside the state or that the lease agreement may have been consummated outside the state. Lessors will not be subject to B&O tax if all of the following conditions are present:

(i) The equipment is not located in Washington at the time the lessee first takes possession of the leased property; and

(ii) The lessor has no reason to know that the equipment will be used by the lessee in Washington; and

(iii) The lease agreement does not require the lessee to notify the lessor of subsequent movement of the property into Washington and the lessor has no reason to know that the equipment may have been moved to Washington.

(6) **Retail sales tax - outbound sales.** The retail sales tax generally applies to all retail sales made within this state. The legal incidence of the tax is upon the purchaser, but the seller is obligated to collect and remit the tax to the state. The retail sales tax applies to all sales to consumers of goods located in the state when goods are received in Washington by the purchaser or its agent, irrespective of the fact that the purchaser may use the property elsewhere. However, as indicated in subsection (4)(b), delivery of the goods to a freight consolidator, freight forwarder or for-hire carrier arranged either by the seller or the purchaser, merely utilized to arrange for and/or transport the goods out-of-state is not receipt of the goods by the purchaser or its agent in this state, unless the consolidator, forwarder or for-hire carrier has express written authority to accept or reject the goods for the purchaser with the right of inspection.

(a) The retail sales tax does not apply when the seller delivers the goods to the purchaser who receives them at a point outside the state, or delivers the same to a for-hire carrier consigned to the purchaser outside the state. This exemption applies even in cases where the shipment is arranged through a for-hire carrier or freight consolidator or freight forwarder acting on behalf of either the seller or the purchaser. It also applies regardless of whether the shipment is arranged on a "freight prepaid" or a "freight collect" basis and regardless of who bears the risk of loss. The seller must retain proof of exemption as outlined in subsection (4), above.

(b) RCW 82.08.0273 provides an exemption from the retail sales tax to certain nonresidents of Washington for purchases of tangible personal property for use outside this state when the nonresident purchaser provides proper documentation to the seller. This statutory exemption is available only to residents of states and possessions or Province of Canada other than Washington when the jurisdiction does not impose a retail sales tax of three percent or more. These sales are subject to B&O tax.

(c) A statutory exemption (RCW 82.08.0269) is allowed for sales of goods for use in states, territories and possessions of the United States which are not contiguous to any other state (Alaska, Hawaii, etc.), but only when, as a necessary incident to the contract of sale, the seller delivers the property to the purchaser or its designated agent at the usual receiving terminal of the for-hire carrier selected to transport the goods, under such circumstance that it is reasonably certain that the goods will be transported directly to a destination in such noncontiguous states, territories and possessions. As proof of exemption, the seller must retain the following as part of its sales records:

(i) A certification of the purchaser that the goods will not be used in the state of Washington and are intended for use in the specified noncontiguous state, territory or possession.

(ii) Written instructions signed by the purchaser directing delivery of the goods to a dock, depot, warehouse, airport or other receiving terminal for transportation of the goods to their place of ultimate use. Where the purchaser is also the carrier, delivery may be to a warehouse receiving terminal or other facility maintained by the purchaser when the circumstances are such that it is reasonably certain that the goods will be transported directly to their place of ultimate use.

(iii) A dock receipt, memorandum bill of lading, trip sheet, cargo manifest or other document evidencing actual delivery to such dock, depot, warehouse, freight consolidator or forwarder, or receiving terminal.

(iv) The requirements of (i) and (ii) above may be complied with through the use of a blanket exemption certificate as follows:

Exemption Certificate

We hereby certify that all of the goods which we have purchased and which we will purchase from you will not be used in the State of Washington but are for use in the state, territory or possession of. . . . .

You are hereby directed to deliver all such goods to the following dock, depot, warehouse, freight consolidator, freight forwarder, transportation agency or other receiving terminal:

. . . .
. . . .

for the transportation of those goods to their place of ultimate use.

This certificate shall be considered a part of each order that we have given you and which we may hereafter give to you, unless otherwise specified, and shall be valid until revoked by us in writing.

DATED . . . .

. . . .
(Purchaser)
By . . . .
(Officer or Purchaser's Representative)
Address . . . .

(v) There is no business and occupation tax deduction of the gross proceeds of sales of goods for use in noncontiguous states unless the goods are received outside Washington.

(d) See WAC 458-20-173 for explanation of sales tax exemption in respect to charges for labor and materials in the repair, cleaning or altering of tangible personal property for nonresidents when the repaired property is delivered to the purchaser at an out-of-state point.

(7) **Inbound sales.** Washington does not assert B&O tax on sales of goods which originate outside this state unless the goods are received by the purchaser in this state and the seller has nexus. There must be both the receipt of the goods in Washington by the purchaser and the seller must have nexus for the B&O tax to apply to a particular sale. The B&O tax will not apply if one of these elements is missing.

(a) Delivery of the goods to a freight consolidator, freight forwarder or for-hire carrier located outside this state merely utilized to arrange for and/or transport the goods into this state is not receipt of the goods by the purchaser or its agent unless the consolidator, forwarder or for-hire carrier has express written authority to accept or reject the goods for the purchaser with the right of inspection.

(b) When the sales documents indicate the goods are to be shipped to a buyer in Washington, but the seller delivers the goods to the buyer at a location outside this state, the seller may use the proofs of exempt sales contained in subsection 4 to establish the fact of delivery outside Washington.

(c) If a seller carries on significant activity in this state and conducts no other business in the state except the business of making sales, this person has the distinct burden of establishing that the instate activities are not significantly associated in any way with the sales into this state. Once nexus has been established, it will continue throughout the statutory period of RCW 82.32.050 (up to five years), notwithstanding that the instate activity which created the nexus ceased. Persons taxable under the service B&O tax classification should refer to WAC 458-20-194. The following activities are examples of sufficient nexus in Washington for the B&O tax to apply:

(i) The goods are located in Washington at the time of sale and the goods are received by the customer or its agent in this state.

(ii) The seller has a branch office, local outlet or other place of business in this state which is utilized in any way, such as in receiving the order, franchise or credit investigation, or distribution of the goods.

(iii) The order for the goods is solicited in this state by an agent or other representative of the seller.

(iv) The delivery of the goods is made by a local outlet or from a local stock of goods of the seller in this state.

(v) The out-of-state seller, either directly or by an agent or other representative, performs significant services in relation to establishment or maintenance of sales into the state, even though the seller may not have formal sales offices in Washington or the agent or representative may not be formally characterized as a "salesperson."

(vi) The out-of-state seller, either directly or by an agent or other representative in this state, installs its products in this state as a condition of the sale.

(8) **Retail sales tax - inbound sales.** Persons engaged in selling activities in this state are required to be registered with

the department of revenue. Sellers who are not required to be registered may voluntarily register for the collection and reporting of the use tax. The retail sales tax must be collected and reported in every case where the retailing B&O tax is due as outlined in subsection 7. If the seller is not required to collect retail sales tax on a particular sale because the transaction is disassociated from the instate activity, it must collect the use tax from the buyer.

(9) **Use tax - inbound sales.** The following sets forth the conditions under which out-of-state sellers are required to collect and remit the use tax on goods received by customers in this state. A seller is required to pay or collect and remit the tax imposed by chapter 82.12 RCW if within this state it directly or by any agent or other representative:

(i) Has or utilizes any office, distribution house, sales house, warehouse, service enterprise or other place of business; or

(ii) Maintains any inventory or stock of goods for sale; or

(iii) Regularly solicits orders whether or not such orders are accepted in this state; or

(iv) Regularly engages in the delivery of property in this state other than by for-hire carrier or U.S. mail; or

(v) Regularly engages in any activity in connection with the leasing or servicing of property located within this state.

(a) The use tax is imposed upon the use, including storage preparatory to use in this state, of all tangible personal property acquired for any use or consumption in this state unless specifically exempt by statute. The out-of-state seller may have nexus to require the collection of use tax without personal contact with the customer if the seller has an extensive, continuous, and intentional solicitation and exploitation of Washington's consumer market. (See WAC 458-20-221).

(b) Every person who engages in this state in the business of acting as an independent selling agent for unregistered principals, and who receives compensation by reason of sales of tangible personal property of such principals for use in this state, is required to collect the use tax from purchasers, and remit the same to the department of revenue, in the manner and to the extent set forth in WAC 458-20-221.

(10) **Examples - outbound sales.** The following examples show how the provisions of this section relating to interstate sales of tangible personal property will apply when the goods originate in Washington (outbound sales). The examples presume the seller has retained the proper proof documents and that the seller did not manufacture the items being sold.

(a) Company A is located in Washington. It sells machine parts at retail and wholesale. Company B is located in California and it purchases machine parts from Company A. Company A carries the parts to California in its own vehicle to make delivery. It is immaterial whether the goods are received at either the purchaser's out-of-state location or at any other place outside Washington state. The sale is not subject to Washington's B&O tax or its retail sales tax because the buyer did not receive the goods in Washington. Washington treats the transaction as a tax exempt interstate sale. California may impose its taxing jurisdiction on this sale.

(b) Company A, above, ships the parts by a for-hire carrier to Company B in California. Company B has not previously received the parts in Washington directly or through a receiving agent. It is immaterial whether the goods are received at either Company B's out-of-state location or any other place outside Washington state. It is immaterial whether the shipment is freight prepaid or freight collect. Again, Washington treats the transaction as an exempt interstate sale.

(c) Company B, above, has its employees or agents pick up the parts at Company A's Washington plant and transports them out of Washington. The sale is fully taxable under Washington's B&O tax and, if the parts are not purchased for resale by Company B, Washington's retail sales tax also applies.

(d) Company B, above, hires a carrier to transport the parts from Washington. Company B authorizes the carrier, or another agent, to inspect and accept the parts and, if necessary, to hold them temporarily for consolidation with other goods being shipped out of Washington. This sale is taxable under Washington's B&O tax and, if the parts are not purchased for resale by Company B, Washington's retail sales tax also applies.

(e) Washington will not tax the transactions in the above examples (a) and (b) if Company A mails the parts to Company B rather than using its own vehicles or a for-hire carrier for out-of-state receipt. By contrast, Washington will tax the transactions in the above examples (c) and (d) if for some reason Company B or its agent mails the parts to an out-of-state location after receiving them in Washington. The B&O tax applies to the latter two examples and if the parts are not purchased for resale by Company B then retail sales tax will also apply.

(f) Buyer C who is located in Alaska purchases parts for its own use in Alaska from Seller D who is located in Washington. Buyer C specifies to the seller that the parts are to be delivered to the water carrier at a dock in Seattle. The buyer has entered into a written contract for the carrier to inspect the parts at the Seattle dock. The sale is subject to the B&O tax because receipt took place in Washington. The retail sales tax does not apply because of the specific exemption at RCW 82.08.0269. This transaction would have been exempt of the B&O tax if the buyer had taken no action to receive the goods in Washington.

(11) **Examples - inbound sales.** The following examples show how the provisions of this section relating to interstate sales of tangible personal property will apply when the goods originate outside Washington (inbound sales). The examples presume the seller has retained the proper proof documents.

(a) Company A is located in California. It sells machine parts at retail and wholesale. Company B is located in Washington and it purchases machine parts for its own use from Company A. Company A uses its own vehicles to deliver the machine parts to its customers in Washington for receipt in this state. The sale is subject to the retail sales and B&O tax if the seller has nexus, or use tax if nexus is not present.

(b) Company A, above, ships the parts by a for-hire carrier to Company B in Washington. The goods are not accepted by Company B until the goods arrive in Washington. The sale is subject to the retail sales or use tax and is also subject to the B&O tax if the seller has nexus in Washington. It is immaterial whether the shipment is freight prepaid or freight collect.

(c) Company B, above, has its employees or agents pick up the parts at Company A's California plant and transports them into Washington. Company A is not required to collect sales or use tax and is not liable for B&O tax on the sale of these parts. Company B is liable for payment of use tax at the time of first use of the parts in Washington.

(d) Company B, above, hires a carrier to transport the parts from California. Company B authorizes the carrier, or an agent, to inspect and accept the parts and, if necessary, to hold them temporarily for consolidation with other goods being shipped to Washington. The seller is not required to collect retail sales or use tax and is not liable for the B&O tax on these sales. Company B is subject to use tax on the first use of the parts in Washington.

(e) Company B, above, instructs Company A to deliver the machine parts to a freight consolidator selected by Company B. The freight consolidator does not have authority to receive the goods as agent for Company B. Receipt will not occur until the parts are received by Company B in Washington. Company A is required to collect retail sales or use tax and is liable for B&O tax if Company A has nexus for this sale. The mere delivery to a consolidator or for-hire carrier who is not acting as the buyer's receiving agent is not receipt by the buyer.

(f) Transactions in examples (11)(a) and (11)(b) will also be taxable if Company A mails the parts to Company B for receipt in Washington, rather than using its own vehicles or a for-hire carrier. The tax will continue to apply even if Company B for some reason sends the parts to a location outside Washington after the parts were accepted in Washington.

(g) Company W with its main office in Ohio has one employee working from the employee's home located in Washington. The taxpayer has no offices, inventory, or other employees in Washington. The employee calls on potential customers to promote the company's products and to solicit sales. On June 30, 1990 the employee is terminated. After this date the company no longer has an employee or agent calling on customers in Washington or carries on any activities in Washington which is significantly associated with the seller's ability to establish or maintain a market for its products in Washington. Washington customers who had previously been contacted by the former employee continue to purchase the products by placing orders by mail or telephone directly with the out-of-state seller. The nexus which was established by the employee's presence in Washington will be presumed to continue through December 31, 1994 and subject to B&O tax. Nexus will cease on December 31, 1994 if the seller has not established any new nexus during this period. Company W may disassociate and exclude from B&O tax sales to new customers who had no contact with the former employee. The burden of proof to disassociate is on the seller.

(h) Company X is located in Ohio and has no office, employees, or other agents located in Washington or any other contact which would create nexus. Company X receives by mail an order from Company Y for parts which are to be shipped to a Washington location. Company X purchases the parts from Company Z who is located in Washington and requests that the parts be drop shipped to Company Y. Since Company X has no nexus in Washington, Company X is not subject to B&O tax or required to collect retail sales tax. Company X has not taken possession or dominion or control over the parts in Washington. Company Z may accept a resale certificate from Company X which will bear the registration number issued by the state of Ohio. Company Y is required to pay use tax on the value of the parts.

(i) Company ABC is located in Washington and purchases goods from Company XYZ located in Ohio. Upon receiving the order, Company XYZ ships the goods by a for-hire carrier to a public warehouse in Washington. The goods will be considered as having been received by Company ABC at the time Company ABC is entitled to receive a warehouse receipt for the goods. Company XYZ will be subject to the B&O tax at that time if it had nexus for this sale.

(j) P&S Department Stores has retail stores located in Washington, Oregon, and in several other states. John Doe goes to a P&S store in Portland, Oregon to purchase luggage. John Doe takes physical possession of the luggage at the store and elects to finance the purchase using a credit card issued to him by P&S. John Doe is a Washington resident and the credit card billings are sent to him at his Washington address. P&S does not have any responsibility for collection of retail sales or use tax on this transaction because receipt of the luggage by the customer occurred outside Washington.

(k) JET Company is located in the state of Kansas where it manufactures specialty parts. One of JET's customers is AIR who purchases these parts as components of the product which AIR assembles in Washington. AIR has an employee at the JET manufacturing site who reviews quality control of the product during fabrication. He also inspects the product and gives his approval for shipment to Washington. JET is not subject to B&O tax on the sales to AIR. AIR receives the parts in Kansas irrespective that JET may be shown as the shipper on bills of lading or that some parts eventually may be returned after shipment to Washington because of hidden defects.

[Statutory Authority: RCW 82.32.300. 91-24-020, § 458-20-193, filed 11/22/91, effective 1/1/92. Formerly WAC 458-20-193A and 458-20-193B.]

WAC 458-20-19301 Multiple activities tax credits. (1) Introduction. Under the provisions of RCW 82.04.440 as amended effective August 12, 1987, Washington state's business and occupation taxes imposed under chapter 82.04 RCW were adjusted to achieve constitutional equality in the tax treatment of persons engaged in intrastate commerce (within this state only) and interstate commerce (between Washington and other states). The business and occupation tax system taxes the privilege of engaging in specified business activities based upon "gross proceeds of sales" (RCW 82.04.070) and the "value of products" (RCW 82.04.450) produced in this state. In order to maintain the integrity of this taxing system, to eliminate the possibility of discrimination between taxpayers, and to provide equal and uniform treatment of persons engaged in extracting, manufacturing, and/or selling activities regardless of where performed, a statutory system of internal and external tax credits was adopted, effective August 12, 1987. This tax credits system replaces the multiple activities exemption which, formerly, assured that the gross receipts tax would be paid only once by persons engaged in more than one taxable activity in this state in connection with the same end products. Unlike the multiple activities exemption which only prevented multiple taxation from within this state, the credits of the new system apply for gross receipts taxes paid to other taxing jurisdictions outside this state as well.

(2) Definitions. For purposes of this section the following terms will apply.

(a) "Credits" means the multiple activities tax credit(s) authorized under this statutory system also referred to as MATC.

(b) "Gross receipts tax" means a tax:

(i) Which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which the deductions allowed would not constitute the tax an income tax or value added tax; and

(ii) Which is not, pursuant to law or custom, separately stated from the selling price.

(c) "Extracting tax" means a gross receipts tax imposed on the act or privilege of engaging in business as an extractor, and includes the tax imposed by RCW 82.04.230 (tax on extractors) and similar gross receipts taxes paid to other states.

(d) "Manufacturing tax" means a gross receipts tax imposed on the act or privilege of engaging in business as a manufacturer, and includes:

(i) The taxes imposed in RCW 82.04.240 (tax on manufacturers) and subsections (2) through (5) and (7) of RCW 82.04.260 (tax on special manufacturing activities) and

(ii) Similar gross receipts taxes paid to other states.

The term "manufacturing tax," by nature, includes a gross receipts tax upon the combination of printing and publishing activities when performed by the same person.

(e) "Selling tax" means a gross receipts tax imposed on the act or privilege of engaging in business as a wholesaler or retailer of tangible personal property in this state or any other state. The term "selling" has its common and ordinary meaning and includes the acts of making either wholesale sales or retail sales or both.

(f) "State" means:

(i) The state of Washington,

(ii) A state of the United States other than Washington or any political subdivision of such other state,

(iii) The District of Columbia,

(iv) Territories and possessions of the United States, and

(v) Any foreign country or political subdivision thereof.

(g) "Taxes paid" means taxes legally imposed and actually paid in terms of money, credits, or other emoluments to a taxing authority of any "state." The term does not include taxes for which liability for payment has accrued but for which payment has not actually been made. This term also includes business and occupation taxes being paid to Washington state together with the same combined excise tax return upon which MATC are taken.

(h) "Business," "manufacturer," "extractor," and other terms expressly defined in RCW 82.04.020 through 82.04.212 have the meanings given in those statutory sections regardless of how the terms may be used for other states' taxing purposes.

(3) Scope of credits. This integrated tax credits system is intended to assure that gross receipts from sales or the value of products determined by such gross receipts are taxed only one time, whether the activities occur entirely within this state or both within and outside this state. External tax credits arise when activities are taxed in this state and similar activities with respect to the same products produced and sold are also subject to similar taxes outside this state. There are five ways in which external tax credits may arise because of taxes paid in other states.

(a) Products or ingredients are extracted (taken from the ground) in this state and are manufactured or sold and delivered in another state which imposes a gross receipts tax on the latter activity(s). The credit created by payment of the other state's tax may be used to offset the Washington extracting tax liability.

(b) Products are manufactured, in whole or in part, in this state and sold and delivered in another state which imposes a gross receipts tax on the selling activity. Again, payment of the other state's tax may be taken as a credit against the Washington manufacturing tax liability.

(c) Conversely, products or ingredients are extracted outside this state upon which a gross receipts tax is paid in the state of extracting, and which are sold and delivered to buyers here. The other state tax payment may be taken as a credit against Washington's selling taxes.

(d) Similarly, products are manufactured, in whole or in part, outside this state and sold and delivered to buyers here. Any other state's gross receipts tax on manufacturing may be taken as a credit against Washington's selling tax.

(e) Products are partly manufactured in this state and partly in another state and are sold and delivered here or in another state. The combination of all other states' gross receipts taxes paid may be taken as credits against Washington's manufacturing and/or selling taxes.

Thus, the external tax credits may arise in the flow of commerce, either upstream or downstream from the taxable activity in this state, or both. Products extracted in another state, manufactured in Washington state, and sold and delivered in a third state may derive credits for taxes paid on both of the out-of-state activities.

Internal tax credits arise from multiple business activities performed entirely within this state, all of which are now subject to tax, but with the integrated credits offsetting the liabilities so that tax is only paid once on gross receipts. Under this system Washington extractors and manufacturers who sell their products in this state at wholesale and/or retail must report the value of products or gross receipts under each applicable tax classification. Credits may then be taken in the amount of the extracting and/or manufacturing tax paid to offset the selling taxes due. There are three ways in which credits may arise because of taxes paid exclusively in this state.

(f) Products are extracted in Washington and directly sold in Washington. Extracting business and occupation tax and selling business and occupation tax must both be reported but the payment of the former is a credit against the latter.

(g) Similarly, ingredients are extracted in Washington and manufactured into new products in this state. The extracting business and occupation tax reported and paid may be taken as a credit against manufacturing tax reported.

(h) Products manufactured in Washington are sold in Washington. Again, the payment of the manufacturing tax reported may be credited against the selling tax (wholesaling and/or retailing business and occupation tax) reported.

All of the external and internal tax credits derived from any flow of commerce may be used, repeatedly if necessary, to offset other tax liabilities related to the production and sale of the same products.

(4) Eligibility for taking credits. Statutory law places the following eligibility requirements and limitations upon the MATC system.

(a) The amount of the credit(s), however derived, may not exceed the Washington tax liability against which the credit(s) may be used. Any excess of credit(s) over liability may not be carried over or used for any purpose.

(b) The person claiming the credit(s) must be the same person who is legally obligated to pay both the taxes which give rise to the credit(s) and the taxes against which the credit is claimed. The MATC is not assignable.

(c) The taxes which give rise to the credit(s) must be actually paid before credit may be claimed against any other tax liability. Tax liability merely accrued is not creditable.

(d) The business activity subject to tax, and against which credit(s) is claimed, must involve the same ingredients or product upon which the tax giving rise to the credit(s) was paid. The credits must be product-specific.

(e) The effective date for developing and claiming credit(s) for products manufactured in Washington state and sold and delivered in other states which impose gross receipts selling taxes is June 1, 1987.

(f) The effective date for developing and claiming all credits other than those explained in subsection (e) above, is August 12, 1987.

(g) Persons who are engaged only in making wholesale or retail sales of tangible personal property which they have not extracted or manufactured are not entitled to claim MATC. Also, persons engaged in rendering services in this state are not so entitled, even if such services have been defined as "retail sales" under RCW 82.04.050. (See WAC 458-20-194 for rules governing apportionment of gross receipts from interstate services.)

(5) Other states' qualifying taxes. The law defines "gross receipts tax" paid to other states to exclude income taxes, value added taxes, retail sales taxes, use taxes, or other taxes which are generally stated separately from the selling price of products sold. Only those taxes imposed by other states which include gross receipts of a business activity within their measure or base are qualified for these credit(s). The burden rests with the person claiming any MATC for other states' taxes paid to show that the other states' tax was a tax on gross receipts as defined herein. Gross receipts taxes generally include:

(a) Business and occupation privileges taxes upon extracting, manufacturing, and selling activities which are similar to those imposed in Washington state in that the tax measure or base is not reduced by any allocation, apportionment, or other formulary method resulting in a downward adjustment of the tax base. If costs of doing business may be generally or routinely deducted from the tax base, the tax is not one which is similar to Washington state's gross receipts tax.

(b) Severance taxes measured by the selling price of the ingredients or products severed (oil, logs, minerals, natural products, etc.) rather than measured by costs of production, stumpage values, the volume or number of units produced, or some other formulary tax base.

(c) Business franchise or licensing taxes measured by the gross volume of business in terms of gross receipts or other financial terms rather than units of production or the volume of units sold.

Other states' tax payments claimed for MATC must be identifiable with the same ingredients or products which incurred tax liability in Washington state, i.e., they must be product specific.

(d) The department will periodically publish an excise tax bulletin listing current taxes in other jurisdictions which are either qualified or disqualified for credit under the MATC system.

(6) Deductions in combination with MATC. Effective August 12, 1987, with the enactment of the MATC system, the liability for actual payment of tax by persons who extract, manufacture, and sell products in this state was shifted from the selling activity (wholesaling or retailing) to the production activity (extracting and/or manufacturing). As explained, the payment of the production taxes may now be credited against the liability for selling taxes on the same products. However, the deductions from tax provided by chapter 82.04 RCW (business and occupation tax deductions) may still be taken before tax credits are computed and used, with noted exceptions. In order for the MATC system to result in the correct computation of tax liabilities and credit applications, the tax deductions which may apply for any reporting period must be taken equally against both levels of tax liability reported, i.e., at both the production and selling levels. Failure to report tax deductions in this manner will result in overreporting tax due and may result in overpayment of tax. Thus, with the exceptions noted below, tax deductions formerly reported only against selling activities should now be reported against production activities as well. All such deductions, the result of which is to reduce the measure of tax reported, should be taken against both the production taxes (extracting or manufacturing) and the selling taxes (wholesaling and/or retailing) equally.

(a) Example:

(i) A company manufactures products in Washington which it also sells at wholesale for $5,000 and delivers to a buyer in this state. The buyer defaults on part of the payment and the seller incurs a $2,000 credit loss which it writes off as a bad debt during the tax reporting period. The bad debt deduction provided by RCW 82.04.4284 must be shown on both the manufacturing-other line and the wholesaling-other line of the combined excise tax return. Taking the deduction on only one of those activities results in overreported tax liability on the $2,000 loss.

(b) Exceptions. The deductions generally provided by RCW 82.04.4286, for interstate or foreign sales (where goods are sold and delivered outside this state) may not be taken against tax reported at the production level (extracting or manufacturing). This is because the MATC system itself provides for tax credits instead of tax deductions on gross receipts from transactions involving goods produced in this state and sold in interstate or foreign commerce. Thus, deductions which eliminate transactions from tax reporting may be taken only against selling taxes.

(c) Applicable deductions should be shown on the front of the combined excise tax return (Column #3) on each applicable tax classification line and detailed on the back side of the return, as usual, before MATC is taken.

(d) It is not the intent of the MATC law to invalidate or nullify the business and occupation tax exemption for taxable amounts below minimum (see WAC 458-20-104). Thus any person whose gross receipts or value of products reported under any single tax classification with respect to the production and sale of any product is less than the minimum taxable amount will not incur tax liability merely because of the requirement to report those gross receipts or value of products on the same product under other tax classifications as well.

(i) Example: A person both manufactures and sells at wholesale $2,000 worth of widgets in the first quarter of a tax year. The requirement to report the $2,000 tax measure under both the manufacturing-other classification and the wholesaling-other classification gives the false appearance of $4,000 in gross receipts during this quarter. However, only the amount reported under the manufacturing-other classification need be considered to determine eligibility for the amount-below-minimum exemption.

(7) How and when to take MATC. The credits available under the MATC system are all to be taken on the combined excise tax return beginning in August, 1987 and thereafter. The return form has been modified to accommodate these credits. Each tax return upon which MATC has been taken must be accompanied by a completed Schedule C. This schedule details the business activities and credits computations. The line by line instructions insure that no more or no less credits are claimed than are authorized under the law.

(8) Consolidation of tax liabilities and credits. Under the MATC system a person's Washington tax liability for all activities involved in that person's production and sale of the same ingredients or products (extracting, and/or manufacturing, and/or selling) is to be reported only at the time of the sale of such products or at the time of that person's own use of such products for commercial or industrial consumption. All of the taxable activities are to be reported on that same periodic excise tax return. Also, all external and internal tax credits derived from the payment of any gross receipts taxes on any of these activities are to be taken at that time. Thus, the taxable activities and the tax credits are procedurally consolidated for reporting. This consolidation generally overcomes any need to track ingredients or products from their extraction to their sale. It also overcomes any need to report and pay Washington tax liability during one reporting period and to take credits against that tax liability in a different reporting period. Thus, except as noted below, there can be no credit carryovers or carrybacks under this system.

(a) Exception. Where different tax reporting periods are assigned by Washington state and another state to a company doing business both within and outside Washington state, the other state's gross receipts tax on the same products may not yet have been paid when the Washington tax is due for reporting and payment. In such cases the Washington tax due must be timely reported and paid during the period in which the sale is made. The external credit arising later, when the other state's tax is paid, may be taken as a credit against any Washington business and occupation tax reported during that later period. Thus, the limitation that the MATC must be product-specific by being limited to the amount of Washington tax paid on the same products does not mean that the credit(s) can only be used against precisely those same Washington taxes paid.

(i) In the situation described in subsection (a) above, if there is not sufficient Washington business and occupation tax due for payment in the later period, when the external tax credit arises, to allow for utilization of the entire credit, the amount of any overage may be carried forward and taken against Washington taxes reported in subsequent reporting periods until fully used.

When filing such exception returns, the full amount of any credits should be claimed, even though that credit amount will exceed the amount of tax liability reported for that period. The department of revenue itself will make the necessary adjustments and will perform the carrying over of any excess credits into future reporting periods.

(ii) In the same situation, if the person entitled to claim such credit overage is no longer engaged in taxable business in this state or for any other reason does not incur sufficient Washington business and occupation tax liability to fully utilize the perfected credit overage, a tax refund will be issued.

(iii) No tax refunds, MATC carryovers, or MATC carrybacks will be allowed under any circumstances other than those explained above.

(b) Special circumstances may arise where it is not possible to specifically identify ingredients or products as they move from production to sale (e.g., fungible commodities from various sources stored in a common warehouse). In such cases the taxpayer should seek advance approval from the department, in writing, for tax reporting and credit taking on a test period, formulary, or volume percentage basis, subject to audit verification.

(9) Recordkeeping requirements. Persons claiming the MATC must keep and preserve such records and documents as may be necessary to prove their entitlement to any credits taken under this system (RCW 82.32.070). It is not required to submit copies of such proofs when credits are claimed or together with the Schedule C detail. Rather, such records must be kept for a period no less than five years from the date of the tax return upon which the related tax credits are claimed. Such records are fully subject to audit for confirmation of the validity and amounts of credits taken. Records which must be preserved by persons claiming external tax credits include:

(a) Copies of sales contracts, or other written or memorialized evidence of any sales agreements, including purchase and billing invoices showing the origin state and destination state of products sold.

(b) Copies of shipping or other delivery documents identifying the products sold and delivered, reconcilable with the selling documents of subsection (a) above, if appropriate.

(c) Copies of production reports, transfer orders, and similar such documents which will reflect the intercompany or interdepartmental movement of extracted ingredients or manufactured products where no sale has occurred.

(d) Copies of tax returns or reports filed with other states' taxing authorities showing the kinds and amounts of taxes paid to such other states for which MATC is claimed.

(e) Copies of cancelled checks or other proofs of actual tax payment to the other state(s) giving rise to the MATC claimed.

(f) Copies of any other state(s) taxing statutes, laws, ordinances, and other appropriate legal authorities necessary to establish the nature of the other states' tax as a gross receipts tax, as defined in this section.

(g) Failure to keep and preserve proofs of entitlement to the MATC will result in the denial of credits claimed and the assessment of all taxes offset or reduced by such credits as well as the additional assessment of interest and penalties as required by law. (See RCW 82.32.050.)

(10) MATC in combination with other credits. The tax credits authorized under this system may be taken in combination with other tax credits available under Washington law. Such other credit programs, however, authorize credit carryovers from reporting period to period until the credits are fully utilized. Thus, the MATC must be computed and used to offset business and occupation tax liabilities during any tax reporting period before any other program credits to which a claimant may be entitled are claimed or applied. Failure to compute and take the MATC before applying other available credits may result in the loss of the other credit benefits.

(11) Superseding provisions. The MATC provisions of this section supersede and control the provisions of other sections of chapter 458-20 WAC (other tax rules) relating to intrastate, interstate, and foreign transactions to the extent that such provisions are or appear to be contrary or conflicting.

(12) Unique or special credit situations—Appeals. The provisions of this section generally explain the nature of the MATC system and the tax credit qualifications, limitations, and claiming procedures. The complexity of the integrated tax reporting and credit taking procedures may develop situations or questions which are not addressed herein. Such matters and requests for specialized rulings should be submitted to the department of revenue for prior determination before credits are claimed. Generally, prior determinations will be provided within sixty days after the department receives the information necessary to make such a ruling. Adverse rulings, tax credit denials, or tax assessments resulting from audits or other examinations of returns upon which the MATC is claimed may be administratively appealed under the provisions of chapter 82.32 RCW and WAC 458-20-100.

[Statutory Authority: RCW 82.32.300. 87-23-008 (Order 87-8), § 458-20-19301, filed 11/6/87.]

WAC 458-20-193C Imports and exports—Sales of goods from or to persons in foreign countries.

WAC 458-20-193 deals with interstate and foreign commerce and is published in four separate parts:

Part A. Sales of goods originating in Washington to persons in other states.
Part B. Sales of goods originating in other states to persons in Washington.
Part C. Imports and exports: Sales of goods from or to persons in foreign countries.
Part D. Transportation, communication, public utility activities, or other services in interstate or foreign commerce.

Part C.

Foreign Commerce

Foreign commerce means that commerce which involves the purchase, sale or exchange of property and its transportation from a state or territory of the United States to a foreign country, or from a foreign country to a state or territory of the United States.

Imports. An import is an article which comes from a foreign country (not from a state, territory or possession of the United States) for the first time into the taxing jurisdiction of a state.

Taxation of such goods is impermissible while the goods are still in the process of importation, i.e., while they are still in import transportation. Further, such goods are not subject to taxation if the imports are merely flowing through this state on their way to a destination in some other state.

Exports. An export is an article which originates within the taxing jurisdiction of the state destined for a purchaser in a foreign country. Thus ships stores and supplies are not exports.

Business and Occupation Tax

Wholesaling and Retailing.

Imports. Sales of imports by an importer or his agent are not taxable and a deduction will be allowed with respect to the sales of such goods, if at the time of sale such goods are still in the process of import transportation. Immunity from tax does not extend: (1) To the sale of imports to Washington customers by the importer thereof or by any person after completion of importation whether or not the goods are in the original unbroken package or container; nor (2) to the sale of imports subsequent to the time they have been placed in use in this state for the purpose for which they were imported; nor (3) to sales of products which, although imports, have been processed or handled within this state or its territorial waters.

Exports. A deduction is allowed with respect to export sales when as a necessary incident to the contract of sale the seller agrees to, and does deliver the goods (1) to the buyer at a foreign destination; or (2) to a carrier consigned to and for transportation to a foreign destination; or (3) to the buyer at shipside or aboard the buyer's vessel or other vehicle of transportation under circumstances where it is clear that the process of exportation of the goods has begun, and such exportation will not necessarily be deemed to have begun if the goods are merely in storage awaiting shipment, even though there is reasonable certainty that the goods will be exported. The intention to export, as evidenced for example, by financial and contractual relationships does not indicate "certainty of export" if the goods have not commenced their journey abroad; there must be an actual entrance of the goods into the export stream.

In all circumstances there must be (a) a certainty of export and (b) the process of export must have started.

It is of no importance that title and/or possession of the goods pass in this state so long as delivery is made directly into the export channel. To be tax exempt upon export sales, the seller must document the fact that he placed the goods into the export process. That may be shown by the seller obtaining and keeping in his files any one of the following documentary evidence:

(1) A bona fide bill of lading in which the seller is shipper/consignor and by which the carrier agrees to transport the goods sold to the foreign buyer/consignee at a foreign destination; or

(2) A copy of the shipper's export declaration, showing that the seller was the exporter of the goods sold; or

(3) Documents consisting of:

(a) Purchase orders or contracts of sale which show that the seller is required to get the goods into the export stream, e.g., "f.a.s. vessel"; and

(b) Local delivery receipts, tripsheets, waybills, warehouse releases, etc., reflecting how and when the goods were delivered into the export stream; and

(c) When available, United States export or customs clearance documents showing that the goods were actually exported; and

(d) When available, records showing that the goods were packaged, numbered, or otherwise handled in a way which is exclusively attributable to goods for export.

Thus, where the seller actually delivers the goods into the export stream and retains such records as above set forth, the tax does not apply. It is not sufficient to show that the goods ultimately reached a foreign destination; but rather, the seller must show that he was required to, and did put the goods into the export process.

Sales of tangible personal property, of ships stores, and supplies to operators of steamships, etc., are not deductible irrespective of the fact that the property will be consumed on the high seas, or outside the territorial jurisdiction of this state, or by a vessel engaged in conducting foreign commerce. However, on July 1, 1985, a statutory business and occupation tax deduction became effective for sales of fuel for consumption outside the territorial waters of the United States by vessels used primarily in foreign commerce. In order to qualify for this deduction sellers must take a certificate signed by the buyer or the buyer's agent stating: The name of the vessel for which the fuel is purchased; that the vessel is primarily used in foreign commerce; and, the amount of fuel purchased which will be consumed outside of the territorial waters of the United States. Sellers must exercise good faith in accepting such certificates and are required to add their own signed statement to the certificate to the effect that to best of their knowledge the information contained in the certificate is correct. The following is an acceptable certificate form:

Foreign Fuel Exemption Certificate

SELLER: . . . . VESSEL: . . . .

WE HEREBY CERTIFY that this purchase of (kind and amount of product) from (seller) will be consumed as fuel outside the territorial waters of the United States by the above-named vessel. We further certify that said vessel is used primarily in foreign commerce and that none of the fuel purchased will be consumed within the territorial boundaries of the State of Washington.

DATED. . . . . , 19. . . . .
Purchaser

. . . .
Purchaser's Agent
By: . . . .
. . . .
Title or Office

When a completed certification such as this is taken in good faith by the seller, the sale is exempt of business and occupation tax, whether made at wholesale or retail, and even though the fuel is delivered to the buyer in this state.

Extracting, manufacturing. Persons engaged in these activities in Washington and who transfer or make delivery of articles produced to points outside the state are subject to business tax under the extracting or manufacturing classification and are not subject to business tax under the retailing or wholesaling classification. See also WAC 458-20-135 and 458-20-136. The activities taxed occur entirely within the state, are inherently local, and are conducted prior to the commercial journey. The tax is measured by the value of products as determined by the selling price. See WAC 458-20-112. It is immaterial that the value so determined includes an additional increment of value because the sale occurs outside the state.

Retail Sales Tax

The same principles apply to the retail sales tax as are set forth for business and occupation tax above, except that certain statutory exemptions may apply. (See WAC 458-20-174, 458-20-175, 458-20-176, 458-20-177, 458-20-238 and 458-20-239.)

Use Tax

The use tax is imposed upon the use, including storage, of all tangible personal property acquired for any use or consumption in this state unless specifically exempt by statute.

[Statutory Authority: RCW 82.32.300. 86-07-005 (Order ET 86-3), § 458-20-193C, filed 3/6/86; 83-07-033 (Order ET 83-16), § 458-20-193C, filed 3/15/83; Order ET 76-3, § 458-20-193C, filed 8/31/76; Order ET 70-3, § 458-20-193C (Rule 193 Part C), filed 5/29/70, effective 7/1/70.]

WAC 458-20-193D Transportation, communication, public utility activities, or other services in interstate or foreign commerce.

WAC 458-20-193 deals with interstate and foreign commerce and is published in four separate parts:

Part A.	Sales of goods originating in Washington to persons in other states.
Part B.	Sales of goods originating in other states to persons in Washington.
Part C.	Imports and Exports: Sales of goods from or to persons in foreign countries.
Part D.	Transportation, communication, public utility activities, or other services in interstate or foreign commerce.

Part D.

Business and Occupation Tax, Public Utility Tax

In computing tax there may be deducted from gross income the amount thereof derived as compensation for performance of services which in themselves constitute interstate or foreign commerce to the extent that a tax measured thereby constitutes an impermissible burden upon such commerce. A tax does not constitute an impermissible burden upon interstate or foreign commerce unless the tax discriminates against that commerce by placing a burden thereon that is not borne by intrastate commerce, or unless the tax subjects the activity to the risk of repeated exactions of the same nature from other states. Transporting across the state's boundaries is exempt, whereas supplying such transporters with facilities, arranging accommodations, providing funds and the like, by which they engage in such commerce is taxable.

Examples of Exempt Income:

(1) Income from those activities which consist of the actual transportation of persons or property across the state's boundaries is exempt.

(2) That portion of commissions received by local brokers or commission merchants for interstate or foreign sales which was paid to out-of-state independent agents is exempt.

(3) Income from services rendered by an out-of-state branch or office of the taxpayer regularly maintained outside the state is exempt. (See WAC 458-20-194.)

Examples of Taxable Income:

(1) Compensation received by persons engaged in business within this state for performance of business activities which are only ancillary to transportation across the state's boundaries is taxable.

(2) Compensation received by merchandise brokers or commission merchants for services rendered within this state to principals engaged in interstate or foreign commerce is taxable.

(3) Compensation received by contracting, stevedoring or loading companies for services performed within this state is taxable.

Persons engaged in stevedoring and associated activities involving the movement of goods and commodities in waterborne interstate or foreign commerce are subject to business tax at the rate .0033 upon the gross proceeds from such activities. Stevedoring and associated activities means all activities of a labor, service, or transportation nature whereby cargo is loaded or unloaded to or from vessels or barges, passing over, onto, or under a wharf, pier, or similar structure, including also the moving of cargo to a warehouse or similar holding or storage yard or area to await further movement in import or export; also the movement to a consolidation freight station to be stuffed, unstuffed, containerized, separated or otherwise segregated or aggregated for delivery or loading on any mode of transportation for delivery to its consignee. Specific activities included in this definition are: Wharfage, handling, loading, unloading, moving of cargo to a convenient place of delivery to the consignee or a convenient place for further movement to export mode; documentation services in connection with the receipt, delivery, checking, care, custody and control of cargo required in the transfer of cargo; imported automobile handling prior to delivery to consignee; terminal stevedoring and incidental vessel services, including but not limited to plugging and unplugging refrigerator service to containers, trailers, and other refrigerated cargo receptacles, and securing ship hatch covers.

Persons engaging in business as an international steamship agent, international customs house broker, international freight forwarder, vessel and/or cargo charter broker in foreign commerce, or international air cargo agent are subject to business tax at the rate .0033 upon gross income with respect to such international activities.

In computing public utility tax, there may be deducted from gross income so much thereof as is derived from actually transporting persons or property or transmitting communications or electrical energy, from this state to another state or territory or to a foreign country and vice versa.

Persons, including dock companies or wharfage companies, are permitted no deduction from gross income of amounts received for services performed in this state consisting of the handling of cargo or freight even though such cargo or freight has moved or will move across the state's boundaries.

No deduction is permitted with respect to gross income derived from activities which are ancillary to transportation across the state's boundaries, such as income received by a wharf company or warehouse company for the storage of goods. The mere ownership or operation of facilities by means of which others engage in foreign or interstate commerce is an activity ancillary to such commerce and any income received therefrom is taxable.

Insofar as the transportation of goods is concerned, the interstate movement of cargo or freight ceases when the goods have arrived at the destination to which it was billed by the out-of-state shipper, and no deduction is permitted of the gross income derived from transporting the same from such point of destination in this state to another point within this state. Thus, freight is billed from San Francisco, or a foreign point, to Seattle. After arrival in Seattle it is transported to Spokane. No deduction is permitted of the gross income received for the transportation from Seattle to Spokane. Again, freight is billed from San Francisco, or a foreign point, to a line carrier's terminal, or a public warehouse in Seattle. After arrival in Seattle it is transported from the line carrier's terminal or public warehouse to the buyer's place of business in Seattle. No deduction is permitted of the gross income received as transportation charges from the line carrier's terminal or public warehouse to the buyer's place of business in Seattle.

The interstate movement of cargo or freight begins when the goods are committed to a carrier for transportation out of the state, which carrier will start the transportation to a point outside the state.

[Statutory Authority: RCW 82.32.300. 83-07-033 (Order ET 83-16), § 458-20-193D, filed 3/15/83; Order ET 74-1, § 458-20-193D, filed 5/7/74; Emergency Order ET 74-6, filed 9/30/74 and Emergency Order ET 74-7, filed 10/3/74, effective 1/1/75; Order ET 70-3, § 458-20-193D (Rule 193 Part D), filed 5/29/70, effective 7/1/70.]

WAC 458-20-194 Doing business inside and outside the state. (1) **Introduction.**

(a) This section applies to persons entitled to apportion income under RCW 82.04.460(1). Specifically this section applies to taxpayers who maintain places of business both within and without the state that contribute to the rendition of services and who are taxable under RCW 82.04.290, 82.04.2908, or any other statute that provides for apportionment under RCW 82.04.460(1). Persons subject to the service and other activities, international investment income, licensed boarding home, and low-level radioactive waste disposal business and occupation (B&O) tax classifications, and who are not required to apportion their income under another statute or rule, should use this section. In addition, this section describes Washington nexus standards for business activities subject to apportionment under RCW 82.04.460(1). Nexus is described in subsection (2) of this section; separate accounting in subsection (3) of this section; and cost apportionment in subsection (4) of this section.

(b) Readers may also find helpful information in the following rules:

(i) WAC 458-20-14601 (Financial institutions—Income apportionment).

(ii) WAC 458-20-170 (Constructing and repairing of new or existing buildings or other structures upon real property).

(iii) WAC 458-20-179 (Public utility tax).

(iv) WAC 458-20-193 (Inbound and outbound interstate sales of tangible personal property).

(v) WAC 458-20-236 (Baseball clubs and other sport organizations).

(c) The examples included in this section identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of all situations must be determined after a review of all the facts and circumstances.

(2) **Nexus.**

(a) **Place of business - minimum presence necessary for tax.** The following discussion of nexus applies only to gross income from activities subject to apportionment under this rule. A place of business exists in a state when a taxpayer engages in activities in the state that are sufficient to create nexus. Nexus is that minimum level of business activity or connection with the state of Washington which subjects the business to the taxing jurisdiction of this state. Nexus is created when a taxpayer is engaged in activities in the state, either directly or through a representative, for the purpose of performing a business activity. It is not necessary that a taxpayer have a permanent place of business within a state to create nexus.

(b) **Examples.** The following examples demonstrate Washington's nexus principles.

(i) Assume an attorney licensed to practice only in Washington performs services for clients located in both Washington and Florida. All of the services are performed within Washington. The attorney does not have nexus with any state other than Washington.

(ii) Assume the same facts as the example in (b)(i) of this subsection, plus the attorney attends continuing education classes in Florida related to the subject matter for which his Florida clients hired him. The attorney's presence in Florida for the continuing education classes does not create nexus because he is not engaging in business in Florida.

(iii) Assume the same facts as the example in (b)(ii) of this subsection, plus the attorney is licensed to practice law in Florida and frequently travels to Florida for the purpose of conducting discovery and trial work. Even though the attorney does not maintain an office in Florida, the attorney has nexus with both Washington and Florida.

(iv) Assume an architectural firm maintains physical offices in both Washington and Idaho. The architectural firm has nexus with both Washington and Idaho.

(v) Assume an architectural firm maintains its only physical office in Washington, and when the firm needs a presence in Idaho, it contracts with nonemployee architects in Idaho instead of maintaining a physical office in Idaho. Employees of the Washington firm do not travel to Idaho. Instead, the contract architects interact directly with the clients in Idaho, and perform the services the firm contracted to perform in Idaho. The architectural firm has nexus with both Washington and Idaho.

(vi) Assume the same facts as the example in (b)(v) of this subsection except the contracted architects never meet with the firm's clients and instead forward all work products to the firm's Washington office, which then submits that work product to the client. In this case, the architectural firm does not have nexus with Idaho. The mere purchase of services from a subcontractor located in another state that does not act as the business' representative to customers does not create nexus.

(vii) Assume that an accounting firm maintains its only office in Washington. The accounting firm enters into contracts with individual accountants to perform services for the firm in Oregon and Idaho. The contracted accountants represent the firm when they perform services for the firm's clients. The firm has nexus with Washington, Oregon, and Idaho.

(viii) Assume that an accounting firm maintains its only office in Washington and has clients located in Washington, Oregon, and Idaho. The accounting firm's employees frequently travel to Oregon to meet with clients, review client's records, and present their findings, but do not travel to Idaho. The accounting firm has nexus with Washington and Oregon, but does not have nexus with Idaho.

(ix) Assume that a sales representative earns commissions from the sale of tangible personal property. The sales representative is located in Oregon and does not enter Washington for any business purpose. The sales representative contacts Washington customers only by telephone and earns commissions on sales of tangible personal property to Washington customers. The sales representative does not have nexus with Washington and the commissions earned on sales to Washington customers are not subject to Washington's business and occupation tax.

(x) The examples in this subsection (2) apply equally to situations where the Washington activities and out-of-state activities are reversed. For example, in example (b)(ix) of this subsection, if the locations were reversed, the sales representative would have nexus with Washington, but not in Oregon.

(3) **Separate accounting.**

(a) **In general.** "Separate accounting" refers to a method of accounting that segregates and identifies sources or activities which account for the generation of income within the state of Washington. Separate accounting is distinct from cost apportionment, which assigns a formulary portion of total worldwide income to Washington. A separate accounting method must be used by a business entitled to apportion its income under RCW 82.04.460(1) if this use results in an accurate description of gross income attributable to its Washington activities.

(b) **Accuracy.** Separate accounting is accurate only when the activities that significantly contribute, directly or indirectly, to the production of income can be identified and segregated geographically. Separate accounting thus links taxable income to activities occurring in a discrete jurisdiction. The result is inaccurate when services directly supporting these activities occur in different jurisdictions. For example, if a taxpayer provides investment advice to clients in Washington, but performs all of its research and due diligence activities in another state, then separate accounting would not be accurate. However, if instead of research and due diligence, only the client billing activity is performed in another state, then separate accounting would be allowed.

(c) **Approved methods of separate accounting.** The following methods of separate accounting are acceptable to the department, if accurate:

(i) **Billable hours of employees or representative third parties performing services in Washington.** If a business charges clients an hourly rate for the performance of services, and the place of performance of the employee, contractor, or other individual whose time is billed is reasonably ascertainable, then the billable hours may be used as a basis for separate accounting. The gross amount received from hours billed for services performed in Washington should be reported.

(ii) **Specific projects or contracts.** A business may assign the revenue from specific projects or contracts in or out of Washington by the primary place of performance. For example:

(A) A consulting business with no other presence in Washington that agrees to provide on-site management consulting services for a Washington business and receives five hundred thousand dollars in payment for the project must report five hundred thousand dollars in gross income to Washington.

(B) If the same business gets another Washington client for on-site management consulting, and receives another payment of five hundred thousand dollars, the business must report an additional five hundred thousand dollars in gross income to Washington.

(C) If a business contracts to distribute advertisements for another business within the state of Washington, the gross amount received for this action should be reported as Washington income.

(iii) **Other reasonable and accurate methods—Notice to the department.**

(A) A taxpayer may report with, or the department may require, the use of one of the alternative methods of separate accounting.

(B) A taxpayer reporting under this subsection must notify the department at the time of filing that it is using an alternative method and provide a brief description of the method employed. If a taxpayer reports using an alternate method, the same method must be used for all subsequent tax reporting periods unless it is demonstrated another method is necessary under the standard in (c)(iii)(E) of this subsection.

(C) If on review of a taxpayer's return(s) the department determines another method is necessary to fairly represent the extent of a taxpayer's business activity in Washington, then the department may impose the method for all returns within the statute of limitations. Statutory interest applies to both balances due and refund or credit claims arising under this section. Further, applicable penalties will be imposed on balances due arising under this section. However, if the taxpayer reported using the separate accounting method in (c)(i) or (ii) of this subsection or cost apportionment under subsection (4)(a) through (h) of this section, the department may impose the alternate method for future periods only.

(D) A taxpayer may request that the department approve an alternative method of separate accounting by submitting a request for prior ruling pursuant to WAC 458-20-100. Such letter ruling may be subject to audit verification before issuance.

(E) The taxpayer or the department, in requesting or imposing an alternate method of separate accounting, must demonstrate by clear and convincing evidence that the separate accounting methods in (c) of this subsection do not fairly represent the extent of the taxpayer's business activity in Washington.

(4) **Cost apportionment.**

(a) **Apportionment ratio.**

(i) Each cost must be computed according to the method of accounting (cash or accrual basis) used by the taxpayer for Washington state tax purposes for the taxable period. Persons should refer to WAC 458-20-197 (When tax liability arises) and WAC 458-20-199 (Accounting methods) for further guidance on the requirements of each accounting method. Taxpayers must file returns using costs calculated based on the taxpayer's most recent fiscal year for which information is available, unless there is a significant change in business operations during the current period. A significant change in business operations includes commencement, expansion, or termination of business activities in or out of Washington, formation of a new business entity, merger, consolidation, creation of a subsidiary, or similar change. If there is a significant change in business operations, then the taxpayer must estimate its cost apportionment formula based on the best records available and then make the appropriate adjustments when the final data is available.

(ii) The apportionment ratio is the cost of doing business in Washington divided by the total cost of doing business as described in RCW 82.04.460(1). The apportionment ratio is calculated under this section as follows. The denominator of the apportionment ratio is the worldwide costs of the apportionable activity and the numerator is all costs specifically assigned to Washington plus all costs assigned to Washington by formula, as described below. Costs are calculated on a worldwide basis for the tax reporting period in question. The tax due to Washington is calculated by multiplying total income times the apportionment ratio times the tax rate. Available tax credits may be applied against the result. Statutory interest and penalties apply to underreported income. For the purposes of this rule, "total income" means gross income under the tax classification in question, less deductions, calculated as if the B&O tax classification applied on a worldwide basis.

(b) **Place of business requirement.** A taxpayer must maintain places of business within and without Washington that contribute to the rendition of its services in order to apportion its income. This "place of business" requirement, however, does not mean that the taxpayer must maintain a physical location as a place of business in another taxing jurisdiction in order to apportion its income. If a taxpayer has activities in a jurisdiction sufficient to create nexus under Washington standards, then the taxpayer is deemed to have a "place of business" in that jurisdiction for apportionment purposes. See subsection (2) of this section.

(c) **Noncost expenditures.** The following is a list of expenditures that are not costs of doing business within the meaning of RCW 82.04.460 and are therefore excluded from both the numerator and the denominator of the apportionment ratio. Expenditures that are not costs of doing business include expenditures that exchange one business asset for another; that reflect a revaluation of an asset not consumed in the course of business; or federal, state, or local taxes measured by gross or net business income. This list is not exclusive. Costs of an activity taxable under another B&O tax classification are also excluded from the apportionment ratio. Similarly, the costs of acquiring a business by merger or otherwise, including the financing costs, are not the costs of doing the apportioned business activity and must be excluded from the cost apportionment calculation.

(i) The cost of acquiring assets that are not depreciated, amortized, or otherwise expensed on the taxpayer's books and records on the basis of generally accepted accounting principles (GAAP), or a loss incurred on the sale of such assets. For example, expenditures for land and investments are excluded from the cost apportionment formula.

(ii) Taxes (other then taxes specifically related to items of property such as retail sales or use taxes and real and personal property taxes).

(iii) Asset revaluations such as stock impairment or goodwill impairment.

(iv) Costs of doing a business activity subject to the B&O tax under a classification other than RCW 82.04.290 or 82.04.2908. For example, if a taxpayer were subject to manufacturing, wholesaling and service and other activities B&O tax, the costs associated with a warehouse and a manufacturing plant (property and employee costs) are excluded from the cost apportionment formula. But if costs support both the service activity and either manufacturing or wholesaling (for example, costs associated with headquarters or joint operating centers), then those costs must be included in the cost apportionment formula without segregating the service portion of the costs.

(d) **Specifically assigned costs.** Real or tangible personal property costs, employee costs, and certain payments to third parties are specifically assigned under (e) through (g) of this subsection.

(e) **Property costs.**

(i) **Definitions.** Real or tangible personal property costs are defined to include:

(A) Depreciation as reported on the taxpayer's books and records according to GAAP, provided that if a taxpayer does not maintain its books and records in accordance with GAAP, it may use tax reporting depreciation. A taxpayer may not change its method of calculating depreciation costs without approval of the department;

(B) Maintenance and warranty costs for specific property;

(C) Insurance costs for specific property;

(D) Utility costs for specific property;

(E) Lease or rental payments for specific property;

(F) Interest costs for specific property; and

(G) Taxes for specific property.

(ii) **Assignment of costs.** Real or tangible personal property costs are assigned to the location of the property. Property in transit between locations of the taxpayer to which it belongs is assigned to the destination state. Property in transit between a buyer and seller and included by a taxpayer in the denominator of the apportionment ratio in accordance with its regular accounting practices is assigned to the destination state. Mobile or movable property located both within and without Washington during the measuring period is assigned in proportion to the total time within Washington during the measuring period. An automobile assigned to a traveling employee is assigned to the state to which the employee's compensation is assigned below or to the state in which the automobile is licensed. Where a business contracts for the maintenance, warranty services, or insurance of multiple properties, the relative rental or depreciation expense may be used to assign these costs.

(f) **Employee costs.**

(i) **Definitions.** For the purposes of this subsection:

(A) "Compensation" means wages, salaries, commissions, and any other form of remuneration paid to or accrued to employees for personal services. Employer contributions under a qualified cash plan, deferred arrangement plan, and nonqualified deferred compensation plan are considered compensation. Stock based compensation is considered compensation under this rule to the extent included in gross income for federal income tax purposes.

(B) "Employee" means any individual who, under the usual common-law rules applicable in determining the employer-employee relationship, has the status of an employee, but does not include corporate officers.

(ii) **Allocation method.** Employee costs include all compensation paid to employees and all employment based taxes and other fees, for example, amounts paid related to unemployment compensation, labor and industries insurance premiums, and the employer's share of Social Security and medicare taxes. An employee's compensation is assigned to Washington if the taxpayer reports the employee's wages to Washington for unemployment compensation purposes. Employee wages reported for federal income tax purposes may be used to assign the remaining compensation costs.

(g) **Representative third-party costs.**

(i) **Definitions.** For the purposes of this section:

"Representative third party" includes an agent, independent contractor, or other representative of the taxpayer who provides services on behalf of the taxpayer directly to customers. The term includes leased employees who meet the standards under (g) of this subsection.

(ii) **Allocation method.** Payments to a representative third party are assigned to the third party's place of performance. For example, if a business subcontracts with a representative third party who provides services on behalf of the taxpayer from a California location, the cost of compensating the representative third party is assigned to California. This is true even if the third party provides services to Washington customers. Conversely, the cost of compensating a representative third party providing services to California customers from a Washington location is assigned to Washington.

(iii) **Examples.**

(A) X, a Washington business, hires Taxpayer to design and write custom software for a document management system. Taxpayer subcontracts with Z, whose employees determine the needs of X, negotiate a statement of work, write the custom software, and install the software. Z's employees perform all of these services on-site at the X business location. Taxpayer's payments to Z are representative third-party costs and specifically assigned to Washington.

(B) Taxpayer, a service provider, subcontracts with X, who agrees to maintain a customer service center where staff will answer telephone inquiries about Taxpayer's services. X in turn subcontracts with Z, whose employees actually respond to questions from a phone center located in California. The payments by taxpayer to X are representative third-party costs with respect to Taxpayer because X is responsible for providing the staff of the service center. The payments to X are specifically assigned to California.

(C) Taxpayer sells various manufacturers' products at wholesale on a commission basis. Taxpayer subcontracts with X, who agrees to act as Taxpayer's sales representative on the West Coast. Taxpayer has various other sales representatives working on as independent contractors, who are assigned territories, but may make sales from an office or through in-person visits, or a combination of both. Taxpayer does not maintain records sufficient to show the representatives' places of performance. Taxpayer may use sales records and the standards under (h) of this subsection to assign commissions by each subcontractor.

(h) **Costs assigned by formula.**

(i) Costs not specifically assigned under (e) through (g) of this subsection and not excluded from consideration by (c) of this subsection are assigned to Washington by formula. These costs are multiplied by the ratio of sales in Washington over sales everywhere. For example, if a business has one thousand dollars in other unassigned costs and sales of ten thousand dollars in each of the four states in which it has nexus under Washington standards (including Washington), twenty-five percent ($10,000/$40,000), or two hundred fifty dollars of the other costs are assigned to Washington.

(ii) Sales are assigned to where the customer receives the benefit of the service. If the location where the services are received is not readily determinable, the services are attributed to the location of the office of the customer from which the services were ordered in the regular course of the customer's trade or business. If the ordering office cannot be determined, the services are attributed to the office of the customer to which the services are billed.

(iii) If under the method described above a sale is attributed to a location where the taxpayer does not have nexus under Washington standards, the sale must be excluded from both the numerator and denominator of the sales ratio. For the purposes of this calculation only, the department will presume a taxpayer has nexus anywhere the taxpayer has employees or real property, or where the taxpayer reports business and occupation, franchise, value added, income or other business activity taxes in the state. The burden is on the taxpayer to demonstrate nexus exists in other states.

(i) **Alternative methods.**

(i) A taxpayer may report with, or the department may require, the use of one of the alternative methods of cost apportionment described below:

(A) The exclusion of one or more categories of costs from consideration;

(B) The specific allocation of one or more categories of costs which will fairly represent the taxpayer's business activity in Washington; or

(C) The employment of another method of cost apportionment that will effectuate an equitable apportionment of the taxpayer's gross income.

(ii) A taxpayer reporting under (i) of this subsection must notify the department at the time of filing that it is using an alternative method and provide a brief description of the method employed. If a taxpayer reports using an alternate method, the same method must be used for all subsequent tax reporting periods unless it is demonstrated another method is necessary under the standard in (i)(v) of this subsection.

(iii) If on review of a taxpayer's return(s) the department determines another method is necessary to fairly represent the extent of a taxpayer's business activity in Washington, the department may impose the method for all returns within the statute of limitations. Statutory interest applies to both balances due and refund or credit claims arising under this section. Further, applicable penalties will be imposed on balances due arising under this section. However, if the taxpayer reported using the cost apportionment method in (a) through (h) of this subsection and separate accounting is unavailable, the department may impose the alternate method for future periods only.

(iv) A taxpayer may request that the department approve an alternative method of cost apportionment by submitting a request for prior ruling pursuant to WAC 458-20-100. Such letter ruling may be subject to audit verification before issuance.

(v) The taxpayer or the department, in requesting or imposing an alternate method, must demonstrate by clear and convincing evidence that the cost apportionment method in (a) through (h) of this subsection does not fairly represent the extent of the taxpayer's business activity in Washington.

(5) **Effective date.** This amended rule shall be effective for tax reporting periods beginning on January 1, 2006, and thereafter.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 05-24-054, § 458-20-194, filed 12/1/05, effective 1/1/06. Statutory Authority: RCW 82.32.-300. 83-08-026 (Order ET 83-1), § 458-20-194, filed 3/30/83; Order ET 70-3, § 458-20-194 (Rule 194), filed 5/29/70, effective 7/1/70.]

WAC 458-20-195 Taxes, deductibility. (1) **Introduction.** This rule explains the circumstances under which taxes may be deducted from the gross amount reported as the measure of tax under the business and occupation tax, retail sales tax, and public utility tax. It also lists deductible and nondeductible taxes.

(2) **Deductibility of taxes.** In computing tax liability, the amount of certain taxes may be excluded or deducted from the gross amount reported as the measure of tax under the business and occupation (B&O) tax, the retail sales tax, and the public utility tax. These taxes may be deducted provided they have been included in the gross amount reported under the classification with respect to which the deduction is sought, and have not been otherwise deducted through inclusion in the amount of another allowable deduction, such as credit losses.

The amount of taxes which are not allowable as deductions or exclusions must in every case be included in the gross amount reported. License and regulatory fees are not deductible. Questions regarding the deductibility or exclusion of a tax that is not specifically identified in this rule should be submitted to the department of revenue for determination.

(3) **Motor vehicle fuel taxes.** RCW 82.04.4285 provides a B&O tax deduction for certain state and federal motor vehicle fuel taxes when the taxes are included in the sales price. These taxes include:

State motor vehicle fuel tax . . .	chapter 82.36 RCW;
State special fuel tax	chapter 82.38 RCW;
Federal tax on diesel and special motor fuels (including leaking underground storage tank taxes), except train and aviation fuels .	26 U.S.C.A. Sec. 4041;
Federal tax on inland waterway commercial fuel	26 U.S.C.A. Sec. 4042;
Federal tax on gasoline and diesel fuel for use in highway vehicles and motorboats	26 U.S.C.A. Sec. 4081.

(4) **Taxes collected as an agent of municipalities, the state, or the federal government.** The amount of taxes collected by a taxpayer, as agent for municipalities, the state of Washington or its political subdivisions, or the federal government, may be deducted from the gross amount reported. These taxes are deductible under each tax classification of the Revenue Act under which the gross amount from such sales or services must be reported.

This deduction applies only where the amount of such taxes is received by the taxpayer as collecting agent and is paid by the agent directly to a municipality, the state, its political subdivisions, or to the federal government. When the taxpayer is the person upon whom a tax is primarily imposed, no deduction or exclusion is allowed, since in such case the tax is a part of the cost of doing business. The mere fact that the amount of tax is added by the taxpayer as a separate item to the price of goods sold, or to the charge for services rendered, does not in itself, make such taxpayer a collecting agent for the purpose of this deduction. Examples of deductible taxes include:

FEDERAL—	
Tax on communications services (telephone and teletypewriter exchange services)	26 U.S.C.A. Sec. 4251;
Tax on transportation of persons	26 U.S.C.A. Sec. 4261;
Tax on transportation of property	26 U.S.C.A. Sec. 4271;
STATE—	
Aviation fuel tax collected from buyers by a distributor as defined by RCW 82.42.010	chapter 82.42 RCW;
Leasehold excise tax collected from lessees	chapter 82.29A RCW;
Oil spill response tax collected from taxpayers by marine terminal operators	chapter 82.23B RCW;
Retail sales tax collected from buyers	chapter 82.08 RCW;
Solid waste collection tax collected from buyers	chapter 82.18 RCW;
State enhanced 911 tax collected from subscribers.	chapter 82.14B RCW;
Use tax collected from buyers	chapter 82.12 RCW;
MUNICIPAL—	
City admission tax	RCW 35.21.280;
County admissions and recreations tax.	chapter 36.38 RCW;
County enhanced 911 tax collected from subscribers.	chapter 82.14B RCW;
Local retail sales and use taxes collected from buyers	chapter 82.14 RCW.

(5) **Specific taxes which are not deductible.** Examples of specific taxes which may be neither deducted nor excluded from the measure of the tax include the following:

FEDERAL—	
A.A.A. compensating tax	7 U.S.C.A. Sec. 615(e);
A.A.A. processing tax . . .	7 U.S.C.A. Sec. 609;
Aviation fuel	26 U.S.C.A. Sec. 4091;
Distilled spirits, wine and beer taxes	26 U.S.C.A. chapter 51;
Diesel and special motor fuel tax for fuel used for purposes other than motor vehicles and motorboats	26 U.S.C.A. Sec. 4041;
Employment taxes	26 U.S.C.A. chapters 21-25;
Estate taxes	26 U.S.C.A. chapter 11;
Firearms, shells and cartridges	26 U.S.C.A. Sec. 4181;
Gift taxes	26 U.S.C.A. chapter 12;
Importers, manufacturers and dealers in firearms . . .	26 U.S.C.A. Sec. 5801;
Income taxes.	26 U.S.C.A. Subtitle A;
Insurance policies issued by foreign insurers.	26 U.S.C.A. Sec. 4371;
Sale and transfer of firearms tax	26 U.S.C.A. Sec. 5811;
Sporting goods	26 U.S.C.A. Sec. 4161;

Superfund tax	26 U.S.C.A. Sec. 4611;
Tires	26 U.S.C.A. Sec. 4071;
Tobacco excise taxes	26 U.S.C.A. chapter 52;
Wagering taxes	26 U.S.C.A. chapter 35;
STATE —	
Ad valorem property taxes	Title 84 RCW;
Alcoholic beverages licenses and stamp taxes (Breweries, distillers, distributors and wineries)	chapter 66.24 RCW;
Aviation fuel tax when not collected as agent for the state	chapter 82.42 RCW;
Boxing, sparring and wrestling tax	chapter 67.08 RCW;
Business and occupation tax	chapter 82.04 RCW;
Cigarette tax	chapter 82.24 RCW;
Gift and inheritance taxes	Title 83 RCW;
Insurance premiums tax	chapter 48.14 RCW;
Hazardous substance tax	chapter 82.21 RCW;
Litter tax	chapter 82.19 RCW;
Pollution liability insurance fee	RCW 70.149.080;
Parimutuel tax	RCW 67.16.100;
Petroleum products - underground storage tank tax	chapter 82.23A RCW;
Public utility tax	chapter 82.16 RCW;
Real estate excise tax	chapter 82.45 RCW;
Tobacco products tax	chapter 82.26 RCW;
Use tax when not collected as agent for state	chapter 82.12 RCW;
MUNICIPAL—	
Local use tax when not collected as agent for cities or counties	chapter 82.14 RCW;
Municipal utility taxes	chapter 54.28 RCW;
Municipal and county real estate excise taxes	chapter 82.46 RCW.

[Statutory Authority: RCW 82.32.300. 00-16-015, § 458-20-195, filed 7/21/00, effective 8/21/00; 99-13-053, § 458-20-195, filed 6/9/99, effective 7/10/99; 83-08-026 (Order ET 83-1), § 458-20-195, filed 3/30/83; Order ET 70-3, § 458-20-195 (Rule 195), filed 5/29/70, effective 7/1/70.]

WAC 458-20-196 Bad debts. (1) **Introduction.**

(a) **New laws effective July 1, 2004.** This rule provides information about the tax treatment of bad debts under the business and occupation (B&O), public utility, retail sales, and use taxes, and reflects legislation enacted in 2003 and 2004 conforming Washington law to provisions of the national Streamlined Sales and Use Tax Agreement. See chapter 168, Laws of 2003 and chapter 153, Laws of 2004. The new laws related to bad debts are effective July 1, 2004.

(b) **Bad debt deduction for accrual basis taxpayers.** Bad debt credits, refunds, and deductions occur when income reported by a taxpayer is not received. Taxpayers who report using the cash method do not report income until it is received. For this reason, bad debts are most relevant to taxpayers reporting income on an accrual basis. However, some transactions must be reported on an accrual basis by all taxpayers, including installment sales and leases. These transactions are eligible for a bad debt credit, refund, or deduction as described in this rule. For information on cash and accrual accounting methods, refer to WAC 458-20-197 (When tax liability arises) and WAC 458-20-199 (Accounting methods). Refer to WAC 458-20-198 (Installment sales, method of reporting) and WAC 458-20-199(3) for information about reporting installment sales.

(c) **Relationship between retailing B&O tax deduction and retail sales tax credit.** Generally, a retail sales tax credit for bad debts is reported as a deduction from the measure of sales tax on the excise tax return. The amount of this deduction, or the measure of a recovery of sales tax that must be reported, is the same as the amount reported as a deduction or recovery under the retailing B&O tax classification.

(d) **Relationship to federal income tax return.** Washington credits, refunds, and deductions for bad debts are based on federal standards for worthlessness under section 166 of the Internal Revenue Code. If a federal income tax return is not required to be filed (for example, where the taxpayer is an exempt entity for federal purposes), the taxpayer is eligible for a bad debt credit, refund, or deduction on the Washington tax return if the taxpayer would otherwise be eligible for the federal bad debt deduction.

(2) **Retail sales and use tax.**

(a) **General rule.** Under RCW 82.08.037 and 82.12.037, sellers are entitled to a credit or refund for sales and use taxes previously paid on "bad debts" under section 166 of the Internal Revenue Code, as amended or renumbered as of January 1, 2003. Taxpayers may claim the credit or refund for the tax reporting period in which the bad debt is written off as uncollectible in the taxpayer's books and records and would be eligible for a bad debt deduction for federal income tax purposes. However, the amount of any credit or refund must be adjusted to exclude amounts attributable to:

(i) Amounts due on property that remains in the possession of the seller until the full purchase price is paid;

(ii) Expenses incurred in attempting to collect debt; and

(iii) The value of repossessed property taken in payment of debt.

(b) **Recoveries.** If a taxpayer takes a credit or refund for sales or use taxes paid on a bad debt and later collects some or all of the debt, the amount of sales or use tax recovered must be repaid in the tax-reporting period during which collection was made. The amount of tax that must be repaid is determined by applying the recovered amount first proportionally to the taxable price of the property or service and the sales or use tax thereon and secondly to any interest, service charges, and any other charges.

(3) **Business and occupation tax.**

(a) **General rule.** Under RCW 82.04.4284, taxpayers may deduct from the measure of B&O tax "bad debts" under section 166 of the Internal Revenue Code, as amended or renumbered as of January 1, 2003, on which tax was previously paid. Taxpayers may claim the deduction for the tax reporting period in which the bad debt is written off as uncollectible in the taxpayer's books and records and would be eligible for a bad debt deduction for federal income tax purposes. However, the amount of the deduction must be adjusted to exclude amounts attributable to:

(i) Amounts due on property that remains in the possession of the seller until the full purchase price is paid;

(ii) Sales or use taxes payable to a seller;

(iii) Expenses incurred in attempting to collect debt; and

(iv) The value of repossessed property taken in payment of debt.

(b) **Recoveries.** Recoveries received by a taxpayer after a bad debt is claimed are applied under the rules described in subsection (2)(b) of this section if the transaction involved is a retail sale. The amount attributable to "taxable price" is reported under the retailing B&O tax classification. If the recovery of debt is not related to a retail sale, recovered amount is applied proportionally against the components of the debt (e.g., interest and principal remaining on a wholesale sale).

(c) **Extracting and manufacturing classifications.** Bad debt deductions are only allowed under the extracting or manufacturing classifications when the value of products is computed on the basis of gross proceeds of sales.

(4) **Public utility tax.** Under RCW 82.16.050(5), taxpayers may deduct from the measure of public utility tax "bad debts" under section 166 of the Internal Revenue Code, as amended or renumbered as of January 1, 2003, on which tax was previously paid. Taxpayers may claim the deduction for the tax reporting period in which the bad debt is written off as uncollectible in the taxpayer's books and records and would be eligible for a bad debt deduction for federal income tax purposes. No deduction is allowed for collection or other expenses.

(5) **Application of payments - general rule.** The special rules for application of payments received in recovery of previously claimed bad debts described in subsections (2)(b) and (3)(b) of this section are not used for other payments. Payments received before a bad debt credit, refund, or deduction is claimed should be applied first against interest and then ratably against other charges. Another commercially reasonable method may be used if approved by the department.

(6) **Assigned debt and installment sales.**

(a) **General rule.** If a person makes a retail sale under an installment sales contract and then legally assigns his or her rights under the contract to another party, the assignee "steps into the shoes" of the person making the sale and may claim a bad debt credit or refund for unpaid retail sales tax to the extent a credit or refund would have been available to the original seller and to the extent that the assignee actually incurs a loss. The seller's B&O tax deduction for bad debt may not be claimed by an assignee. A retail sales tax bad debt credit or refund for unpaid sales tax is available only to the person who makes the retail sale or an assignee under the contract. For example, a bank that loans money to the purchaser of a vehicle may not claim a retail sales tax bad debt credit or refund. The bank did not sell the vehicle and is not an assignee of the dealer who made the retail sale.

(b) **Discounts.** A person who makes a retail sale on credit and then assigns the sales contract in exchange for less than the face value of the contract may not claim a bad debt credit, refund, or deduction for the difference between the face value and the amount received. The discount is a nondeductible cost of doing business, not a bad debt. An assignee of a retail sales contract that pays less than face value for the contract is not required to reduce the amount of a retail sales tax bad debt credit or refund in proportion to the amount of the discount. The assignee may take a credit or refund for the amount that would have been available to the original seller if the original seller had retained the contract and received the payments made by the buyer.

(c) **Recourse financing.** An assignee who receives payment on a bad debt from the assignor must reduce the sales tax credit in proportion to the payment. The assignor may claim a sales tax credit and retailing B&O tax deduction in proportion to the payment if obligated to make the payment and otherwise qualified under this rule.

(d) **Documentation.** All persons claiming a bad debt credit for installment contracts must retain appropriate documentation, including documentation establishing:

(i) The amount of the original sale by the seller, and component amounts necessary to determine that amount, such as credits for trade-ins, down payments, and individual amounts charged for different products;

(ii) The buyer's equity in any trade-in property;

(iii) The contract principal owed at the time of repossession, if any; and

(iv) The deductibility of the debt as worthless for federal income tax purposes.

(7) **Reserve method.** Ordinarily, taxpayers must report bad debt refunds, credits or deductions for specifically identified transactions. However, taxpayers who are allowed by the Internal Revenue Service to use a reserve method of reporting bad debts for federal income tax purposes, or who secure permission from the department to do so, may deduct a reasonable addition to a reserve for bad debts. What constitutes a reasonable addition to a reserve for bad debts must be determined in light of the facts and will vary between classes of business and with conditions of business prosperity. An addition to a reserve allowed as a deduction by the Internal Revenue Service for federal income tax purposes, in the absence of evidence to the contrary, will be presumed reasonable. When the reserve method is employed, an adjustment to the amount of loss deducted must be made annually to make the total loss claimed for the tax year coincide with the amount actually sustained.

(8) **Statute of limitations for claiming bad debts.** No credit, refund, or deduction, as applicable, may be claimed for debt that became eligible for a bad debt deduction for federal income tax purposes more than four years before the beginning of the calendar year in which the credit, refund, or deduction is claimed.

(9) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

In all cases, an eight percent combined state and local sales tax rate is assumed. Figures are rounded to the nearest dollar. Payments are applied first against interest and then ratably against the taxable price, sales tax, and other charges except when the special rules for subsequent recoveries on a bad debt apply (see subsections (2) and (3) of this section). It is assumed that the income from all retail sales described has been properly reported under the retailing B&O tax classification and that all interest or service fees described have been accrued and reported under the service and other activities B&O tax classification.

(a) Seller makes a retail sale of goods with a selling price of $500 and pays $40 in sales tax to the department. No payment is received by Seller at the time of sale. One and a half years later, no payment has been received by Seller, and the balance with interest is $627. Seller is entitled to claim a bad debt deduction on the federal income tax return. Seller is entitled to claim a bad debt sales tax credit or refund in the amount of $40, a B&O tax deduction of $500 under the retailing B&O tax classification, and a B&O tax deduction of $87 under the service and other activities B&O tax classification.

(b) The facts are the same as in (a) of this subsection, except that six months after the credit and deduction are claimed, a $50 payment is received on the debt. Recoveries received on a retail sale after a credit and deduction have already been claimed must be applied first proportionally to the taxable price and sales tax thereon in order to determine the amount of tax that must be repaid. Therefore, Seller must report $4, or $50 x ($40/$540), of sales tax on the current excise tax return and $46, or $50 x ($500/$540) under the retailing B&O tax classification. Additional recoveries should be applied in the same manner until the original $40 credit is reduced to zero.

(c) Seller makes a retail sale of goods on credit for $500 and pays $40 in sales tax to the department. No payment is received at the time of sale. Over the following year, regular payments are received and the debt is reduced to $345, exclusive of any interest or service charges. The $345 represents sales tax due to Seller in the amount of $26, or $345 x ($40/$540), and $319 remaining of the original purchase price, or $345 x ($500/$540). Payments cease. Six months later the balance with interest and service fees is $413. Seller is entitled to claim a bad debt deduction on the federal income tax return. Seller is entitled to claim a sales tax refund or credit on the current excise tax return of $26, a deduction under the retailing B&O tax classification of $319, and a deduction under the service and other activities B&O tax classification of $68.

(d) The facts are the same as in (c) of this subsection, except that before Seller charges off the debt, Seller repossesses the goods. At that time, the goods have a fair market value of $250. No credit is allowed for repossessed property, so the value of the collateral must be applied against the outstanding balance. After the value of the collateral is applied, Seller has a remaining balance of $163, or $413 - $250. The allocation rules for recoveries do not apply because a bad debt credit or refund has not yet been taken. The value is applied first against the $68, or $413 - $345, of interest, so the $163 remaining is attributable entirely to taxable price and sales tax. Any costs Seller may incur related to locating, repossessing, storing, or selling the goods do not offset the value of the collateral because no credit is allowed for collection costs. Seller is entitled to a sales tax refund or credit in the amount of $12, or $163 x ($40/$540) and deduction of $151, or $163 x ($500/$540) under the retailing B&O tax classification. If Seller later sells the repossessed goods, Seller must pay B&O tax and collect retail sales tax as applicable. If the sales price of the repossessed goods is different from the fair market value previously reported and the statute of limitations applicable to the original transaction has not expired, Seller must report the difference between the selling price and the claimed fair market value as an additional bad debt credit or deduction or report it as an additional recovery, as appropriate.

(e) Seller sells a car at retail for $1000 and charges the buyer an additional $50 for license and registration fees. Seller accepts trade-in property with a value of $500 in which the buyer has $300 of equity. (The value of trade-in property of like kind is excluded from the selling price for purposes of the retail sales tax. Refer to WAC 458-20-247 for further information.) Seller properly bills the buyer for $40 of sales tax, for a total of $1090 owed to Seller by the buyer. Seller pays the department the $40 in sales tax. No payment other than the trade-in is received by Seller at the time of sale. Eight months later, Seller has not received any payment. Seller is entitled to claim a bad debt deduction on the federal income tax return. The equity in the trade-in is equivalent to a payment received at the time of purchase, reducing the balance remaining on the initial sale to $790, or $1090 - $300. Seller is entitled to claim a sales tax credit or refund of $29, or $790 x ($40/$1090) of sales tax, and a deduction of $725, or $790 x ($1000/$1090) under the retailing B&O tax classification, exclusive of any deduction for accrued interest.

(f) Seller sells a car at retail for $1000, and charges the buyer an additional $50 for license and registration fees. Seller properly bills the buyer for $80 of sales tax and remits it to the department. No money is received from the buyer at the time of sale. Eight months later Seller is entitled to claim a bad debt deduction on the federal income tax return. Seller claims an $80 sales tax credit, a $1000 retailing B&O tax deduction, and an additional amount under the service and other activities classification for accrued interest. Six months after that, Seller receives a $200 payment from the buyer. Recoveries must be allocated first proportionally to the taxable price (the measure of the sales tax) and the sales tax thereon, and secondly to other charges. B&O tax consequences follow the same rules. Accordingly, Seller must report $15, or $200 x ($80/$1080) of sales tax and $185, or $200 x ($1000/$1080) of income under the retailing B&O tax classification. Additional recoveries should be applied in the same manner until the original $80 sales tax credit is reduced to zero.

(g) Seller sells a car at retail for $1000, and charges the buyer an additional $50 for license and registration fees. Seller accepts trade-in property with a value of $500 in which the buyer has $300 of equity. Seller properly bills the buyer for $40 of sales tax for a total of $1090 owed to Seller by the buyer. No payment other than the trade-in is received by Seller at the time of sale. Eight months later, no payment has been received by Seller. Seller is entitled to claim a bad debt deduction on the federal income tax return. The equity in the trade-in is equivalent to a payment received at the time of purchase, reducing the balance remaining on the initial sale to $790, or $1090 - $300. Seller is entitled to claim a sales tax credit or refund of $29, or $790 x ($40/$1090) of sales tax, and a deduction of $725, or $790 x ($1000/$1090) under the retailing B&O tax classification, exclusive of any deduction for accrued interest. Six months after that, Seller receives a $200 payment from the buyer. Recoveries must be allocated first proportionally to the taxable price (the measure of the sales tax) and sales tax thereon, and secondly to other charges. B&O tax consequences follow the same rules. Accordingly, Seller must report $15, or $200 x ($40/$540) in sales tax, and $185, or $200 x ($500/$540) under the retailing B&O tax classification. Additional recoveries should be applied in the same manner until the original $29 sales tax credit is reduced to zero.

(h) The facts are the same as in (e) of this subsection, except that immediately after the sale, Seller assigns the contract to a finance company without recourse, receiving face value for the contract. The finance company may claim the retail sales tax credit or refund of $29. The finance company may not claim any deductions for Seller's B&O tax liability. No bad debt deduction or credit is available to Seller.

(i) The facts are the same as in (h) of this subsection, except that the Seller receives less than face value for the contract. The result is the same as in (h) of this subsection for both parties. The finance company may claim a $29 retail sales tax bad debt credit or refund, but may not claim a B&O bad debt deduction for Seller's B&O tax liability. No bad debt deduction or credit is available to Seller.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 06-01-005, § 458-20-196, filed 12/8/05, effective 1/8/06. Statutory Authority: RCW 82.32.300, 82.01.060(1), and 34.05.230. 05-04-048, § 458-20-196, filed 1/27/05, effective 2/27/05. Statutory Authority: RCW 82.32.300. 83-07-032 (Order ET 83-15), § 458-20-196, filed 3/15/83; Order ET 70-3, § 458-20-196 (Rule 196), filed 5/29/70, effective 7/1/70.]

WAC 458-20-197 When tax liability arises. (1) Gross proceeds of sales and gross income shall be included in the excise tax return for the period in which the value proceeds or accrues to the taxpayer. For the purpose of determining tax liability of persons making sales of tangible personal property, a sale takes place when the goods sold are delivered to the buyer in this state. With respect to leases or rentals of tangible personal property, liability for retail sales tax arises as of the time the rental payments fall due (see WAC 458-20-211).

(2) **Accrual basis.**

(a) When excise tax returns are made upon the accrual basis, value accrues to a taxpayer at the time:

(i) The taxpayer becomes legally entitled to receive the consideration, or,

(ii) In accord with the system of accounting regularly employed, enters as a charge against the purchaser, customer, or client the amount of the consideration agreed upon, whether payable immediately or at a definitely determined future time.

(b) Amounts actually received do not constitute value accruing to the taxpayer in the period in which received if the value accrues to the taxpayer during another period. It is immaterial if the act or service for which the consideration accrues is performed or rendered, in whole or in part, during a period other than the one for which excise tax return is made. The controlling factor is the time when the taxpayer is entitled to receive, or takes credit for, the consideration.

(3) **Cash receipts basis.**

(a) When returns are made upon cash receipts and disbursements basis, value proceeds to a taxpayer at the time the taxpayer receives the payment, either actually or constructively. It is immaterial that the contract is performed, in whole or in part, during a period other than the one in which payment is received.

(b) See: WAC 458-20-199 for limitation as to persons who may report on the cash receipts basis.

(4) **Special application, contractors.**

Value accrues for a building or construction contractor who maintains his accounting records on the accrual basis, as of the time the contractor becomes entitled to compensation under the contract.

(a) If by the terms of the contract the taxpayer becomes entitled to compensation upon estimates as the work progresses, value, to the extent of such estimates, accrues as of the time that each estimate is made and the balance at the time of the completion of the work or of the final estimate.

(b) If by the terms of the contract the taxpayer becomes entitled to compensation only upon the completion of the work, value accrues as of the earlier of the completion of the work, or, any use of the facilities being constructed, or, 60 days after the facility is substantially complete.

(i) Example: A contractor agrees to build two buildings for a buyer. Under the terms of the contract, payment is to be made only upon completion of both buildings. One building is substantially completed and occupied on April 15, 1991, the other building is substantially completed on May 15, 1991 and occupied on July 1, 1991. The work on both buildings is completed under the contract on June 15, 1991. Value accrues for the first building on April 15, 1991, the date it was used. Value accrues for the remainder of the contract on June 15, 1991, the date the work was completed.

(ii) Example: A contractor agrees to build a building for a buyer. Under the terms of the contract, the buyer is to make payment for the building only upon completion of the building. The building is completed, except for minor alterations, and available for planned occupancy on August 15, 1990. However, because of a contract dispute between the buyer and his tenant for the building, the buyer is unable to pay the contractor until February 25, 1991 when the building is finally occupied. The building is completed under the contract on November 15, 1990. Value accrues on the building for sales tax and B&O tax purposes on October 14, 1990, 60 days after August 15, 1990, the date the building was substantially complete.

(5) **Warehouse operators.** In the case of warehouse operators value proceeds or accrues to the taxpayer as follows:

(a) When the taxpayer is reporting upon the accrual basis, value accrues at the time the charge is entered against the owner of the goods stored in accordance with the terms of the contract between the parties and the regular system of accounting employed by the taxpayer.

(i) Value accrues when the charge is entered whether the consideration for storage is at a fixed rate per unit per month or other period, or, at a flat charge regardless of the length of time, or, whether payable periodically or at the time of withdrawal.

(ii) Thus, where a warehouse operator, keeping books on accrual basis, customarily enters as a charge to the owner of the goods and a credit to storage income the full amount of a flat storage charge as of the time the goods are received, even though the time for payment is deferred until withdrawal of the goods, value accrues as of the time the goods are received. However, if the warehouse operator customarily does not enter such charge until the time of withdrawal, value accrues as of such later date.

(b) When the taxpayer is reporting upon a cash receipts basis, value proceeds at the time the payment for storage is received.

(c) **Exception for grain warehouse operators.** Persons operating grain warehouses, licensed under chapter 22.09 RCW, may report the value proceeding or accruing from their grain warehouse operations on either a cash receipts or accrual basis. RCW 82.04.090.

For effect of rate changes, see WAC 458-20-235 (Effect of rate changes on prior contracts and sales agreements).

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 07-17-111, § 458-20-197, filed 8/17/07, effective 9/17/07. Statutory Authority: RCW 82.32.-300. 90-10-082, § 458-20-197, filed 5/2/90, effective 6/2/90; Order ET 70-3, § 458-20-197 (Rule 197), filed 5/29/70, effective 7/1/70.]

WAC 458-20-198 Installment sales, method of reporting. (1) **Introduction.** This rule explains the tax-reporting responsibilities of persons making installment sales of tangible personal property under the business and occupation (B&O), retail sales, and use taxes.

(2) **How is income from installment sales of tangible personal property reported?** The seller must report the full selling price of installment sales of tangible personal property in the tax-reporting period during which the sale is made. This is true even when the buyer pays the tax to the seller in installments over time.

(a) **Leases not taxable as installment sales.** A lease under WAC 458-20-211 (Leases or rentals of tangible personal property, bailments) is not taxable as an installment sale.

(b) **Interest income.** Persons who receive interest or finance charges from an installment sale must pay B&O tax under the service and other business activities classification on receipt of these amounts. Retail sales and use taxes do not generally apply to these amounts. Refer to WAC 458-20-109 (Finance charges, carrying charges, interest, penalties) for further information.

(c) **Assignment of rights to receive payments.** A seller may sell or assign the right to receive payments on an installment sale to another business. The assignee should not report any sales or use taxes on such payments because the seller is responsible for remitting the full amount of sales tax. For information on how to report a buyer's default on an installment obligation, refer to WAC 458-20-196 (Bad debts).

[Statutory Authority: RCW 82.32.300, 82.01.060(1), and 34.05.230. 05-04-048, § 458-20-198, filed 1/27/05, effective 2/27/05. Statutory Authority: RCW 82.32.300. 83-07-032 (Order ET 83-15), § 458-20-198, filed 3/15/83; Order ET 70-3, § 458-20-198 (Rule 198), filed 5/29/70, effective 7/1/70.]

WAC 458-20-199 Accounting methods. (1) **Introduction.** In computing tax liability under the business and occupation tax and the retail sales tax, one of the following accounting methods must be used. This is true for all businesses, whether their activity involves the sale of tangible personal property or the rendering of services. (See WAC 458-20-197 for an explanation of when tax liability arises under the accrual method versus the cash receipts method.)

(2) **Method one, cash basis.** A taxpayer may file excise tax returns in each reporting period with figures based upon cash receipts only if the taxpayer's books of account are regularly kept on a cash receipts basis. (See RCW 82.04.090.) A taxpayer whose books of account recognize income at the time a sale is made or a service is rendered, regardless of when payment is received, is keeping its records on an accrual basis and must report and pay tax on the accrual basis. For those taxpayers who maintain formal accounting records, the department of revenue will generally look to the revenue accounts of the general ledger of the taxpayer and to the method of accounting used for reporting of federal income taxes to determine when the income is recognized. However, all records of the taxpayer will be considered by the department in determining whether the records are being kept on an accrual basis, particularly for those taxpayers who do not maintain formal records such as a general ledger.

The fact that a taxpayer makes sales "on account" and has records to identify the accounts receivable does not preclude the taxpayer from reporting on a cash receipts basis. Taxpayers can have accounts receivable and still report on the cash basis, provided the accounting records, such as the general ledger or federal income tax returns, do not record the sales on account as income until the cash is actually received. If a taxpayer keeps a general ledger on an accrual basis and federal income tax returns on a cash basis, the taxpayer may elect to report state tax returns on either the cash basis or the accrual basis. However, once a reporting basis is selected, the reporting basis may not be changed without authorization from the department unless the method for reporting federal taxes changes or the method used in keeping the records changes. A taxpayer who maintains its records throughout the year on a cash basis, including a general ledger, and elects to make a worksheet adjustment at year-end to report federal taxes on an accrual basis, will be permitted to report state taxes on a cash basis.

(3) **Method two, accrual basis.** A taxpayer who does not regularly keep books of account on a cash receipts basis must file returns with figures based on the accrual method. These taxpayers must report the gross proceeds from all cash sales made in the tax reporting period in which the sales are made, together with the total amount of charge sales during such period. The law does not require a taxpayer to use a particular accounting system. However, the taxpayer must report based on the system of accounting used by the business, regardless of the taxpayer's reasons for selecting a particular accounting system. It will be presumed that a taxpayer who is permitted under federal law or regulations to report its federal income taxes on a cash basis and does do so is maintaining the records on a cash basis. A taxpayer who maintains a general ledger on an accrual basis and files federal tax returns on an accrual basis must also report state tax returns on an accrual basis.

(a) Taxpayers who make installment sales or leases of tangible personal property must use the accrual method when they compute their tax liability. (See RCW 82.08.090, WAC 458-20-198 and 458-20-211.)

(b) In the case of rentals or leases, the income is considered to have accrued to the seller in the tax reporting period in which the seller is entitled to receive the rental or lease payment.

(4) **Constructive receipt.** "Constructive receipt" means income that a cash basis taxpayer is entitled to receive, but will not receive because of an action taken by the taxpayer. Constructive receipts are taxable in the tax reporting period in which the taxpayer gives up the entitlement to actual future receipt of the income. The following examples show how this applies to a cash basis taxpayer.

(a) XYZ has $10,000 in accounts receivable which XYZ expects to collect over the next six months. XYZ elects to sell these accounts receivable for eighty percent of their face value. Even though the taxpayer only receives $8,000 from the sale of the accounts receivable, XYZ is taxable on the full $10,000 because it has taken constructive receipt of the full $10,000 by taking an action to give up entitlement to the $2,000.

(b) XYZ has $1,500 in accounts receivable from customers who are delinquent in making payment. XYZ turns these accounts receivable over to a collection agency with the understanding that the collection agency may keep half of whatever is collected. The collection agency over the next month collects $500 and keeps $250 of this amount for its services. XYZ is taxable on the full $500 collected by the collection agency. XYZ has constructive receipt of this amount and the $250 retained by the collection agency is a cost of doing business to the taxpayer.

(c) XYZ is involved in a bankruptcy proceeding. The receipt of cash from accounts receivable will be placed in an escrow account. These funds will be used to pay creditors and a portion of these amounts will be given to the taxpayer. The full amount of the accounts receivable collected and going into the escrow is taxable income to XYZ. XYZ has received the full benefit of the cash received from the accounts receivable through payment of XYZ's creditors.

[Statutory Authority: RCW 82.32.300. 96-12-024, § 458-20-199, filed 5/30/96, effective 6/30/96; 92-03-026, § 458-20-199, filed 1/8/92, effective 2/8/92; 83-07-032 (Order ET 83-15), § 458-20-199, filed 3/15/83; Order ET 70-3, § 458-20-199 (Rule 199), filed 5/29/70, effective 7/1/70.]

WAC 458-20-200 Leased departments. (1) Any person leasing departments of the business conducted may include in its tax returns the business done and sales made by the lessee where such lessor keeps the books for the lessee and makes collection on the latter's account: Provided, however, That each lessee must apply for and obtain from the department of revenue a certificate of registration, as provided under WAC 458-20-101. The lessee will remain liable for its tax liability if the lessor fails to make the proper return or fails to pay taxes due.

(2) **Business and occupation tax and retail sales tax.** Any taxpayer making returns for any leased department shall report the total tax liability thereof under both the business and occupation tax and the retail sales tax, including therein all cash and charge sales. The leased department in such case is not entitled to the taxable minimum provided in WAC 458-20-104.

(a) Where the lessor receives a flat monthly rental or a percentage of sales as rental for a leased department, such income is presumed to be from the rental of real estate and is not taxable. In a determination of whether an occupancy is a rental of real estate, all the facts and circumstances, including the actual relationship of the parties, are to be considered (see: WAC 458-20-118). Written agreements, while not required, are preferred and are given considerable weight in deciding the nature of the occupancy. While the fact that the written agreement may identify the occupancy as a "lease" is not controlling, agreements which contain the following provisions support the presumption that the occupancy is a rental of real estate:

i. The occupant is granted exclusive possession and control of the space.

ii. The occupancy is for a time certain which is more than 30 days, i.e. month to month, yearly, etc.

iii. The parties are required to notify each other in the event of termination of the occupancy.

(b) If the lessor provides any clerical, credit, accounting, janitorial, or other services to the lessee, the lessor must report the income from these services under the service B&O tax classification. The amounts for providing these services must be segregated from the amounts received from the rental of real estate. In the absence of a reasonable segregation, it will be presumed that the entire income is for providing these services.

(3) Examples. The following examples identify a number of facts and then state a conclusion as to whether the situation is a rental of real estate. These examples should be used only as a general guide. The tax status of each occupancy must be determined after a review of the agreement and all of the facts and circumstances.

(a) A retailer enters into a written occupancy agreement for rental of space within a mall for a one year term. The agreement can be terminated upon thirtieth days written notice of either party, subject to some penalty provisions for early termination. The agreement provides that the retailer can decorate the store and arrange the inventory in any manner desired by the retailer so long as the facility does not create a safety hazard to the mall or other tenants and is consistent with the overall decor of the mall. The mall owner may enter the premises of the retailer during nonbusiness hours only with the consent of the retailer except for emergencies where physical property is at risk. The retailer's area is separated from other lessees by walls with the exception of the front area which is open to the mall common area and is used as the entrance by potential customers and the retailer. The retailer does have a movable partition that can be locked and is used to close off the entrance from the mall common area. The agreement calls for the retailer to be open for business at all times during the hours stipulated by the mall.

This is a rental of real estate with the rental term being for a fixed period. The agreement and the facts and circumstances have established a rental of real estate. The retailer has exclusive possession and control over a specific area as indicated by the control the retailer has over the premises, even to the exclusion of the mall owner. The restriction which requires the retailer to maintain the same business hours as other lessees does not make this a license to use real estate. The lessor can exclude from the B&O tax that portion of the income which is from the rental of the real estate. The lessor must identify and pay a B&O tax on the portion of the income which is from providing services such as security, janitorial, or accounting.

(b) A hairdresser enters into an oral occupancy agreement with the operator of a hair salon for the use of a work station. The hairdresser has use of a specific work station during specific hours of every day. A particular work station may be used by more than one hairdresser during a particular month or even during a given day. This work station can not be closed off from other areas within the shop. The hairdresser must obtain advance permission from the owner to make any changes to the work area. This hairdresser also shares a sink, telephone, and other facilities with others in the shop.

This occupancy is not a rental of real estate. The hairdresser does not have EXCLUSIVE possession and control over the premises to the exclusion of others as is indicated by the requirement that the hairdresser must obtain approval for any changes in the work area. This is further indicated by hairdressers use of a specific work station only during specific hours of every day with multiple users of the same work station. The work station could not be closed off from other areas of the shop, but this in itself is not determinative of whether this is a rental of real estate or a license to use. The presence of walls or the lack of walls is not controlling. The fact that the agreement uses the term "lease" is also not controlling. This is a "license to use" taxable under the service B&O tax classification.

(c) Department store agrees to sell household paint for a paint supplier. The paint supplier checks on the inventory on a monthly basis and provides additional paint as needed. The department store handles stocking of shelves and all aspects of the sale. The department store makes a charge to the paint supplier based on the space required to maintain the inventory. By agreement of the parties, the department store agrees to report the retailing and retail sales tax on paint sales.

This is not a leased department or a rental of real estate. The income is merely tied to the amount of space being used. However, the income is a commission from the sale of merchandise for the paint supplier and held on consignment. The retailing tax is the liability of the paint supplier and is paid by the department store only by agreement. The commission is taxable under the service B&O tax classification. See WAC 458-20-159.

[Statutory Authority: RCW 82.32.300. 91-02-057, § 458-20-200, filed 12/28/90, effective 1/28/91; Order ET 70-3, § 458-20-200 (Rule 200), filed 5/29/70, effective 7/1/70.]

WAC 458-20-201 Interdepartmental charges. The term "interdepartmental charges" means amounts credited to the sales account or other gross income account of a taxpayer for goods, materials or services furnished by one department or branch of a business organization to another department or branch of the same business concern or firm.

Tax may be due upon interdepartmental charges covering transfers of goods from a central location to two or more retail outlets. See WAC 458-20-231, Tax on internal distributions. Tax is also due upon the value of products extracted or manufactured by one branch or department of a business for commercial or industrial use of another branch or department of the same business. See WAC 458-20-134. In other cases amounts representing interdepartmental charges may be excluded in computing tax due. This does not permit the exclusion or deduction of charges against or income derived from an affiliated corporation or other affiliated association.

Municipal corporations are entitled to an exclusion of interdepartmental charges in computing tax whether or not the charges represent an actual transfer of money or merely a bookkeeping entry (see WAC 458-20-189).

[Statutory Authority: RCW 82.32.300. 83-08-026 (Order ET 83-1), § 458-20-201, filed 3/30/83; Order ET 70-3, § 458-20-201 (Rule 201), filed 5/29/70, effective 7/1/70.]

WAC 458-20-202 Pool purchases. The term "pool purchase" means the joint purchase by two or more persons, engaging in independent business activities, of commodities in carload or truck load quantities for the purpose of obtaining a purchase price or freight rate which is less than when purchased or delivered in smaller quantities.

The term "principal member" means that member of the pool to whom the goods are charged by the vendor of the commodities purchased.

In computing tax liability of the principal member under chapter 82.04 RCW, there may be deducted from gross proceeds of sales the amount received by him from other members of the pool of their proportionate share of the cost thereof of the commodities purchased.

This deduction is allowed only when all of the following conditions are met:

(1) The amount received is included in gross proceeds of sales.

(2) The pool purchase agreement was entered into prior to the time of placing the order for the commodities purchased.

(3) The pool purchase agreement provides that each member shall accept a specific portion of the shipment.

(4) Division of the shipment is made prior to warehousing of the commodities by a member of the pool.

In no event will a "pool purchase" deduction be allowed when an agreement relative to the amount of the share to be distributed to any member is made after the date of the purchase order, or where one member of a pool pays an amount for his portion in excess of the proportionate amount paid by another member.

Revised June 1, 1970.

[Order ET 70-3, § 458-20-202 (Rule 202), filed 5/29/70, effective 7/1/70.]

WAC 458-20-203 Corporations, Massachusetts trusts. Each separately organized corporation is a "person" within the meaning of the law, notwithstanding its affiliation with or relation to any other corporation through stock ownership by a parent corporation by the same group of individuals.

Each corporation shall file a separate return and include therein the tax liability accruing to such corporation. This applies to each corporation in an affiliated group, as the law makes no provision for filing of consolidated returns by affiliated corporations or for the elimination of intercompany transactions from the measure of tax.

Each unincorporated association organized under the Massachusetts Trust Act of 1959 (chapter 23.90 RCW) is likewise taxable in the same way as are separate corporations.

Revised June 20, 1959.

[Order ET 70-3, § 458-20-203 (Rule 203), filed 5/29/70, effective 7/1/70.]

WAC 458-20-204 Outdoor advertising and advertising display services. The term "outdoor advertising" means the business of rendering an advertising service to others by posting or painting advertising copy upon billboards owned or controlled by the outdoor advertiser.

The term "advertising display service" means the business of installing and maintaining advertising displays upon property of others, when title to the property used in the display is retained by the person engaged in such business.

Business and Occupation Tax

Service and other business activities. Taxable under the service and other business activities classification upon the gross income from advertising services.

Retail Sales Tax

Persons engaged in the business of outdoor advertising or advertising display services are performing an advertising service, and are not required to collect the retail sales tax. Persons purchasing or producing tangible personal property for use in the performance of advertising services are required to pay the retail sales tax upon purchasing such property, or the use tax upon the value of the property produced and used in the performance of such services.

Revised May 1, 1943.

[Order ET 70-3, § 458-20-204 (Rule 204), filed 5/29/70, effective 7/1/70.]

WAC 458-20-205 Sales of utility services by building companies. When building companies, apartment house owners or other real estate owners or lessors furnish utility services such as heat and electrical energy to their own tenants of office buildings, apartment houses and storerooms under circumstances indicating it is a part of the normal and customary landlord-tenant relationship and the charge made therefor is the cost of this utility service to the owner or lessor prorated among his tenants based upon the use or consumption of such services, the income derived therefrom is construed to be incidental to and a part of gross income from the renting or leasing of real estate and not subject to the provisions of the business and occupation tax. This is true whether the charge therefor is included in a lump sum rental or is billed separately. However, when the furnishing of utility services is not in accordance with the foregoing, the income derived therefrom is considered to be a separate business activity and is taxable under the appropriate chapter of the Revenue Act.

Revised June 1, 1970.

[Order ET 70-3, § 458-20-205 (Rule 205), filed 5/29/70, effective 7/1/70.]

WAC 458-20-207 Legal, arbitration, and mediation services. (1) **Introduction.** This rule explains the taxability of amounts received for legal, arbitration, and mediation services.

(2) **Definitions.**

(a) "Arbitration" means the process by which the parties to a dispute submit to the hearing and judgment of an impartial person or group appointed by mutual consent or statute.

(b) "Arbitration services" means services relating to the resolution of a dispute submitted to arbitration.

(c) "Attorney" means an active member of a state Bar Association engaged in the practice of law. The term also includes a professional service corporation incorporated under chapter 18.100 RCW, a professional limited liability company formed under chapter 18.190 RCW, or a partnership, provided the ownership of these business entities are properly restricted to attorneys and organized primarily for engaging in the practice of law.

(d) "Legal services" means services relating to or concerned with the law. Such services include, but are not limited to, representation by an attorney (or other person, when permitted) in an administrative or legal proceeding, legal drafting, paralegal services, legal research services, arbitration, mediation, and court reporting services.

(e) "Mediation" means the process by which the parties to a dispute or negotiations agree to have an intermediary hear their differences and/or positions and facilitate and/or make suggestions concerning an agreement and/or the resolution of their dispute.

(3) **Business and occupation tax.** Gross income from legal, arbitration, or mediation services is subject to the service and other activities classification.

(a) Gross income. The gross income of the business generally includes the amount of compensation paid for legal, arbitration, or mediation services and amounts attributable to providing those services (i.e., charges for tangible personal property directly used or consumed in supplying legal, arbitration, or mediation services). Reimbursed general overhead costs are generally included in the gross income of the business even though indirectly related to litigation. Any reimbursed costs (not directly related to litigation) for which the attorney assumes personal liability for payment are also included in gross income.

(b) Overhead costs. Amounts received (or, for taxpayers reporting under the accrual accounting method, accrued) to compensate for overhead costs are fully subject to tax. Such overhead costs are taxable even though they may be separately stated on the billings or expressly denominated as costs of the client. Examples of such overhead costs include, but are not limited to:

(i) Photocopy or other reproduction charges, except charges paid to the provider, or the agent of the provider, for the official or original copy of a record, or other document, provided for litigation;

(ii) Long distance telephone tolls;

(iii) Secretarial expenses;

(iv) Office rent;

(v) Office supplies;

(vi) Travel, meals and lodging;

(vii) Utilities, including facsimile telephone charges; and

(viii) Postage, unless paid for service of legal papers as a direct cost of litigation.

(c) Excluded amounts. The following amounts are excluded from gross income if complete and accurate records are maintained of these amounts.

(i) Client trust accounts. The gross income of the business does not include amounts held in trust for the client.

(ii) Litigation expenses. Attorneys are bound by the rules of professional conduct. RPC 1.8(e) prohibits an attorney from financing the expenses of contemplated or pending litigation unless the client remains ultimately liable for these expenses. This means that an attorney normally acts solely as the agent for the client when financing litigation. Accordingly, amounts received from a client for the direct expenses of litigation do not constitute gross income to the attorney. Amounts received (or, for taxpayers reporting under the accrual accounting method, accrued) to compensate for the following direct litigation expenses are not included in gross income:

(A) Filing fees and court costs;

(B) Process server and messenger fees;

(C) Court reporter fees;

(D) Expert witness fees; and

(E) Costs of associate counsel.

A cash basis taxpayer cannot exclude or deduct amounts of unreimbursed litigation expenses. For example, an attorney advances all the litigation expenses for a contingency fee case. The case is ultimately resolved against the attorney's client and the expenses are not repaid because of the client's bankruptcy. The attorney cannot then deduct these expenses as a bad debt or otherwise exclude them against other income earned by the attorney.

(iii) Expense advances and reimbursements. Sometimes in the regular course of business an attorney may receive amounts from a client for expenses of third-party providers or other costs incurred in connection with a legal matter other than litigation. Such amounts are excluded from the business and occupation tax only if the attorney has no obligation for payment other than as agent for the client or equivalent commitment for their payment (see WAC 458-20-111, Advances and reimbursements). Generally, such amounts will be for third-party service providers (for example, accountants, appraisers, architects, artists, drafters, economists, engineers, investigators, physicians, etc.). However, these costs could also include client expenses for registration, licensing or maintenance fees, title and other insurance premiums, and escrow fees paid to third-party escrow agents. These costs are excludable only when the attorney does not have any personal liability to the third-party provider for their payment.

(iv) Records requirement. In order to support the exclusion from taxable gross income of any of the foregoing expenses, the attorney must maintain records which indicate the amount of the payment received from the client, the name of the client, the name of the person to whom the attorney has made payment, and a description of the item for which payment was made. If the foregoing expenses are incurred outside the context of litigation or contemplated litigation, the attorney must maintain records which indicate the amount of the payment received, the name of the client, and the person to whom the attorney makes payment. In addition, the attorney must provide the person to whom payment is made with written notice that:

(A) Payment is made, or will be made on behalf of a named client; and

(B) The attorney assumes no liability for payment, other than as agent for the named client.

(d) Multiple business activities. Attorneys and other persons engaged in providing legal, arbitration, and mediation services sometimes engage in other business activities which are classified under a different tax classification (i.e., escrow services). In some circumstances, income from these other business activities will be subject to tax under a different tax classification.

(i) Independent business activities. If the other activities engaged in by the person are independent from the legal, arbitration, or mediation services provided to the client, these activities are taxed based on the tax classification that applies to each of those other activities, provided these other activities are separately accounted for and/or itemized as a separate amount in billings or invoices to the client. Failure to separately account and/or itemize for such activities will result in classification of all activities under the service and other activities classification.

(ii) Combined business activities. If the other activities are related to the legal, arbitration, or mediation services provided to the client, the primary activity provided the client in each taxable period will determine the tax classification. Generally, the activity will be considered as related when there is some interaction between the two activities to reach an ultimate goal (i.e., a law firm which provides legal advice and brokers the financing of a business arrangement). There are a number of elements which may be examined to determine whether a sufficient relationship between the multiple activities exist. Some elements considered are the timing for the selection and provision of services, the relationship between the contracting parties, the procedure used in the selection process, the dependence of the relationship between the two or more activities, the relationship of the prices between the two activities, and the means of payment selected for the activities.

(iii) Examples. The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax status of each situation must be determined after a review of all of the facts and circumstances.

(A) A law firm has an escrow department. This escrow department is run by employees who are not attorneys (but the supervising employee is a limited practice officer who has experience as a certified escrow agent), has a separate phone number, separate bank account, separate trust account, separate computer system, and maintains its own accounting system. Contracts for the escrow services state that the law firm is being retained as an independent escrow agent and not to represent any person involved in the transaction. Further, the contract states that the law firm shall not offer legal advice upon the transaction. The escrow department of this law firm would be considered an independent business activity and be taxed separately under the retailing classification for escrow businesses (see WAC 458-20-156, Abstract, title insurance, and escrow business).

(B) A law firm limits its practice to real estate. It primarily provides escrow services and real estate closings. Even though this firm has chosen to limit its practice, it is the nature and the character of its activities which will determine the primary activity for each closing. When a closing includes the preparation, selection, or drafting of the deed between the purchaser and seller, drafting legal documents to obtain clear title, and/or the preparation, selection or drafting of the promissory notes, deeds of trust, mortgages, and agreements modifying these documents, it will be presumed that the primary activity performed for the client is providing these legal services.

(I) The law firm closed a real estate transaction performing all the escrow services**.** Except for the escrow services provided, the firm represented the buyer in the closing. Although an attorney from the firm reviewed and approved the legal documents provided by the seller, the attorney did not prepare any legal documents for the transaction. Since the firm was representing a specific client in this real estate closing, the escrow services are considered incidental to the legal services provided. Accordingly, the firm will report the income from this transaction under the service and other activities classification.

(II) The firm was engaged by both parties in a real estate transaction to handle a real estate closing. An attorney for the firm selected and prepared the earnest money escrow agreement, the purchase and sales agreement, the closing agreement, and the deeds for the transfer. Title was clear and did not require any additional drafting. The firm also entered into an escrow agreement with both parties and held in escrow the buyer's deposit and the seller's deed. Since an attorney for the law firm was required to select, analyze, and review the legal documents in this transaction, the escrow activity will be considered incidental. This closing is reported under the service and other activities classification for legal services.

(III) A certified escrow agency, owned by a principal qualified under APR 12 (the limited practice rule for limited practice officers), provides both escrow and the limited legal services allowed under APR 12 to its clients. The escrow company itemizes the services provided. APR 12(d) allows a limited practice officer to select, prepare and complete documents in a form previously approved by the board for use in closing a loan, extension of credit, sale or other transfer of real or personal property. The nature of this limited license prevents an escrow company using limited practice officers from ever engaging in legal services as a primary activity in a real estate closing. Accordingly, the escrow company will report the income from escrow and closings under the retail sales classification (see WAC 458-20-156, Abstract, title insurance, and escrow business).

(IV) The same facts as above, but the escrow company hires employees who are attorneys to provide the allowable limited legal services. The result is the same. Under RPC 5.4, an attorney is prohibited from sharing legal fees with a nonlawyer and, under RPC 5.5, cannot assist a person who is not a member of the Bar Association in the performance of an activity that constitutes the unauthorized practice of law, and under RPC 7.1 a lawyer cannot make false or misleading communications about the lawyer or the lawyer's services. Accordingly, an attorney hired by an escrow company would not be providing legal services to the escrow companies' clients except to the extent authorized for a limited practice officer. Since only limited legal services can be offered, the escrow company would continue to report all fees from both the escrow and closing services under the retail sales tax classification.

(4) **Retail sales tax.** Sales of tangible personal property to attorneys for use in rendering professional services are retail sales upon which the retail sales tax must be collected. Such sales include, among others, sales of office furniture and equipment, stationery, office supplies, law books, and reference materials.

(5) **Use tax.**

(a) The use tax applies upon the use of articles purchased or manufactured for use upon which retail sales tax has not been paid or collected. This includes, but is not limited to, the following:

(i) Materials used and consumed while rendering legal, arbitration, or mediation services; and

(ii) Office supplies and office equipment purchased by the firm for its own use.

(b) The use tax also applies to all purchases of tangible personal property acquired without payment of retail sales tax and resold to clients but not separately stated from legal services rendered on the agency's billing.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 04-13-091, § 458-20-207, filed 6/18/04, effective 7/19/04. Statutory Authority: RCW 82.32.-300. 99-13-092, § 458-20-207, filed 6/14/99, effective 7/15/99. Statutory Authority: RCW 82.32.300 and 34.05.410. 95-15-013, § 458-20-207, filed 7/7/95, effective 8/7/95. Statutory Authority: RCW 82.32.300. 85-20-012 (Order ET 85-4), § 458-20-207, filed 9/20/85; Order ET 70-3, § 458-20-207 (Rule 207), filed 5/29/70, effective 7/1/70.]

WAC 458-20-208 Exemptions for wholesale sales of new motor vehicles between new car dealers and for accommodation sales. (1) **Introduction.** This rule discusses the business and occupation (B&O) tax exemptions for certain wholesale sales of new motor vehicles between new car dealers. The rule also discusses the B&O tax exemption for accommodation sales and clarifies the applicability of the accommodation sale exemption to exchanges of fungible products, such as gasoline and oil.

(2) **Wholesale sales of new motor vehicles by new car dealers.** Effective July 1, 2001, RCW 82.04.422 provides a B&O tax exemption for wholesale sales of new motor vehicles by new car dealers to other new car dealers. This exemption does not apply to amounts derived by a manufacturer, distributor, or factory branch as defined in chapter 46.70 RCW.

New car dealers will in most cases find the statutory requirements of this exemption to be less restrictive than those of the accommodation sales exemption discussed in subsection (3) of this rule. Unlike the exemption for accommodations sales, there is no restriction on the amount that the selling dealer can charge the buying dealer, nor is there any requirement that the sale be made to fill an existing order from a customer. While these circumstances may be present in a particular transaction, there is no need to use or rely upon the B&O tax exemption for accommodation sales when the requirements for the exemption for wholesale sales between new car dealers are met. The exemption for wholesale sales of new motor vehicles between new car dealers provided by RCW 82.04.422 is subject to the following conditions.

(a) **New motor vehicle.** The property sold must be a new motor vehicle. For the purposes of this rule, "new motor vehicle" means every motor vehicle that is self-propelled and is required to be registered and titled under Title 46 RCW, has not been previously titled to a retail purchaser, and is not a "used motor vehicle" as defined under RCW 46.04.660. RCW 46.70.011. Examples of motor vehicles include passenger cars, trucks, motorcycles, and motor homes.

(b) **Wholesale sale between new car dealers selling the same make of new motor vehicles.** The sale must be a wholesale sale and must occur between new car dealers selling the same make of vehicle. For purposes of determining whether the exemption applies to transactions involving trades, the trade of each new motor vehicle is considered a separate sale.

(i) **Example 1.** A new car dealer sells a new light pickup truck, Make A, to another new car dealer. The purchasing dealer also sells new Make A passenger vehicles. This sale qualifies for the exemption.

(ii) **Example 2.** New Car Dealer ABC and New Car Dealer XYZ both sell new motor vehicles by Make A and Make X. New Car Dealer ABC sells Make A passenger vehicle to Dealer XYZ. Dealer XYZ sells Make X passenger vehicle to Dealer ABC. Both dealers regularly engage in the business of selling both new motor vehicle makes. Both sales qualify for the exemption.

(iii) **Example 3.** A new car dealer sells a new passenger vehicle, Make X, to another new car dealer. The purchasing dealer is not regularly engaged in the business of selling new Make X vehicles. This sale does not qualify for the exemption.

(iv) **Example 4.** New Car Dealer DEF sells new motor vehicles by Make A and Make X. New Car Dealer LMN sells new motor vehicles by Make A and Make Y. New Car Dealer DEF sells Make A passenger truck to New Car Dealer LMN. New Car Dealer LMN sells Make Y passenger truck to New Car Dealer DEF. Both dealers regularly engage in the business of selling Make A new motor vehicles while only New Car Dealer DEF engages in the business of selling Make Y. The sale of new motor vehicle Make A by Dealer DEF qualifies for the exemption while the sale of Make Y by Dealer LMN does not.

(c) **Documentation.** A person claiming the B&O tax exemption under RCW 82.04.422 for a wholesale sale of a new motor vehicle must maintain sufficient documentation to verify the exemption. The documentation should identify:

(i) The buyer's name and address;

(ii) The seller's name and address;

(iii) The buyer's UBI/tax registration number;

(iv) The make, model, and serial number of the motor vehicle;

(v) The date of purchase;

(vi) That the buyer and seller both regularly engage in making sales of the same make of new motor vehicle; and

(vii) The buyer's signature and title.

(3) **Accommodation sales.** RCW 82.04.425 provides a B&O tax exemption for wholesale sales of tangible personal property by persons who regularly engage in making sales of the type of property so sold to other persons who similarly engage in the business of selling such property.

The following conditions must be satisfied for the exemption to apply.

(a) **Amount paid by buyer may not exceed amount paid by seller.** The amount the buyer pays to the seller may not exceed the amount the seller paid to the seller's vendor in the acquisition of the property. Thus, a seller who manufactured the property sold cannot claim the exemption because the property has not been acquired from a vendor.

(i) **Expenses associated with preparing property for sale.** A seller may add reasonable expenses for preparing the property for sale, such as actual freight or delivery costs incurred by the seller and billed as such to the buyer. Questions concerning whether the exemption is available when other costs are included should be submitted to the department for determination at:

Department of Revenue
Taxpayer Services
P.O. Box 47478
Olympia, WA 98504-7478

(ii) **What is the effect of holdbacks or discounts on amount paid?** The amount paid by the seller may not be reduced by the amount of any manufacturer's holdbacks or discounts received after an article has been sold to adjust inventory levels even though the seller may retain such holdbacks or discounts.

For the following examples, presume an equipment dealer receives two tractors from the manufacturer on June 1st. The manufacturer's sales invoice indicates an invoice price of $16,600 and a holdback of $500 for each tractor. The dealer is entitled to receive the holdback on July 1st, thirty days after being billed for the tractors by the manufacturer.

(A) **Example 1.** The equipment dealer sells one of the tractors to another equipment dealer on June 10th. The amount paid by the selling dealer in the acquisition of the vehicle is $16,600.

(B) **Example 2.** The equipment dealer sells the other tractor to another equipment dealer on July 18th. The amount paid by the selling dealer in the acquisition of the vehicle is $16,100.

(b) **Sale is an accommodation to fill an existing order.** The sale must occur as an accommodation to allow the buyer to fill a bona fide existing order of a customer or occur within fourteen days to reimburse in-kind a previous accommodation sale by the buyer to the seller. A bona fide existing order is present if there is a commitment by the buyer's customer to purchase the property. The buyer must retain records demonstrating the customer's commitment to purchase, such as a written agreement or deposit.

For example, Recreational Vehicle Dealer A purchases a fifth-wheel trailer from Recreational Vehicle Dealer B as an accommodation. Ten days later, Dealer A sells a travel trailer to Dealer B as reimbursement in-kind of the previous accommodation sale. For Dealer A to claim the B&O tax exemption for the sale of the travel trailer to Dealer B, Dealer A must keep sufficient records to document a bona fide existing customer order for the fifth-wheel trailer purchased from Dealer B.

(c) **Documentation.** A person claiming the exemption for an accommodation sale must maintain sufficient documentation to verify the exemption. In addition to the documentation noted above establishing, where pertinent, the existence of a bona fide existing customer order, this documentation must include:

(i) The buyer's name and address;

(ii) The seller's name and address;

(iii) The buyer's UBI/tax registration number;

(iv) Description of the property purchased, including make, model, and serial numbers as appropriate;

(v) The date of purchase and the purchase price;

(vi) A statement by the buyer as to whether the purchase is to fill a bona fide existing order or to reimburse a previous in-kind accommodation sale, including information identifying the previous accommodation sale; and

(vii) The buyer's signature and title.

(4) **Exchanges of fungible products.** Persons engaged in the selling and distributing of fungible products often enter into exchange agreements. An exchange is a sale regardless of whether it results in a profit because a transfer of the ownership of, title to, or possession of property for valuable consideration occurs. RCW 82.04.040. Exchanges are subject to the B&O tax unless otherwise exempt by law.

(a) **What is a fungible product?** Fungible products are products that lose their physical identity to the point that they cannot be distinguished from like-kind items when commingled. Examples of fungible products include gasoline, bulk oil products, grains, logs, wood chips, fruits, and vegetables.

(b) **What is an exchange?** Under typical exchange agreements, a person is required to furnish products to another person selling and distributing the same products, sometimes receiving payment in-kind or with a substitute product at a later date. Exchange agreements may require the person to arrange for direct delivery from his or her vendor to the third party distributor. In some cases, actual title and/or possession of the product may pass directly from the vendor to the third-party distributor.

Persons exchanging fungible products often do so on a regular and continuing basis to cover shortages occurring because of a lack of storage or production facilities, and/or to effect savings in transportation costs. Exchanges may be carried as loans on the books of account (in which case the exchanges are often referred to as "intercompany loans"). Products acquired via an exchange may or may not be carried as regular inventory on the books of account.

(c) **May an exchange of fungible products qualify as an accommodation sale?** The fact that the product sold is a fungible product does not preclude a claim that the sale is exempt as an accommodation sale. However, such a claim will be recognized only if the statutory requirements of RCW 82.04.425 are met.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 04-17-025, § 458-20-208, filed 8/9/04, effective 9/9/04. Statutory Authority: RCW 82.32.300, 82.01.060(2), and 34.05.230. 03-07-066, § 458-20-208, filed 3/17/03, effective 4/17/03; Order ET 70-3, § 458-20-208 (Rule 208), filed 5/29/70, effective 7/1/70.]

WAC 458-20-209 Farming for hire and horticultural services performed for farmers. (1) **Introduction.** This section provides tax reporting information for persons performing horticultural services for farmers. Persons providing horticultural services to persons other than farmers should refer to WAC 458-20-226. Farmers and persons making sales to farmers may also want to refer to the following sections of chapter 458-20 WAC:

(a) WAC 458-20-122 (Sales of feed, seed, fertilizer, spray materials, and other tangible personal property for farm use);

(b) WAC 458-20-210 (Sales of agricultural products by farmers); and

(c) WAC 458-20-239 (Sales to nonresidents of farm machinery or implements).

(2) **Definitions.** For the purposes of this section, the following definitions apply:

(a) "Farmer" means any person engaged in the business of growing or producing, upon the person's own lands or upon the lands in which the person has a present right of possession, any agricultural product whatsoever for sale. "Farmer" does not include a person using such products as ingredients in a manufacturing process, or a person growing or producing such products for the person's own consumption. The term does not include a person selling any animal or substance obtained therefrom in connection with the person's business of operating a stockyard, slaughter or packing house. "Farmer" does not include any person in respect to the business of taking, cultivating, or raising timber. RCW 82.04.213.

(b) "Agricultural product" means any product of plant cultivation or animal husbandry including, but not limited to a product of horticulture, grain cultivation, vermiculture, or viticulture. "Agricultural product" includes plantation Christmas trees, animals, birds, insects, or the substances obtained from such animals. RCW 82.04.213. On and after July 1, 1993, "agricultural product" includes products of "aquaculture" and animals that are "cultured aquatic products," as those terms are defined by RCW 15.85.020. Also effective July 1, 1993, "turf" was added to the definition of "agricultural product," and "animals intended to be pets" were specifically excluded. (See chapter 25, Laws of 1993 sp.s.)

(c) "Horticultural services" include services related to the cultivation of vegetables, fruits, grains, field crops, ornamental floriculture, and nursery products. The term "horticultural services" includes, but is not limited to, the following:

(i) Soil preparation services such as plowing or weed control before planting;

(ii) Crop cultivation services such as planting, thinning, pruning, or spraying; and

(iii) Crop harvesting services such as threshing grain, mowing and baling hay, or picking fruit.

(3) **Business and occupation tax.** Persons performing horticultural services for farmers are generally subject to the service and other business activities B&O tax upon the gross proceeds. However, if the person providing horticultural services also sells tangible personal property for a separate and distinct charge, the charge made for the tangible personal property will be subject to either the wholesaling or retailing B&O tax, depending on the nature of the sale. Persons making sales of tangible personal property to farmers should refer to WAC 458-20-122 to determine whether the wholesaling or retailing tax applies, and under what circumstances retail sales tax must be collected.

(a) A farmer who occasionally assists another farmer in planting or harvesting a crop is generally not considered to be engaged in the business of performing horticultural services. These activities are generally considered to be casual and incidental to the farming activity. For example, a farmer owning baling equipment which is used primarily for baling hay produced by the farmer, but who may occasionally accommodate neighboring farmers by baling small quantities of hay produced by them, is not considered to be in business with respect thereto.

(b) The extent to which horticultural services are performed for others is determinative of whether or not they are considered taxable business activities. Persons who advertise or hold themselves out to the public as being available to perform farming for hire will be considered as being engaged in business. For example, a person who regularly engages in baling hay or threshing grain for others is engaged in business and taxable upon the gross proceeds derived therefrom, irrespective of the amount of such business or that this person also does some farming of his or her own land.

(c) In cases where doubt exists in determining whether or not a person is engaged in the business of performing horticultural services, all pertinent information should be submitted to the department of revenue for a specific ruling.

(4) **Deferred sales or use tax.** If the seller fails to collect the appropriate retail sales tax, the purchaser is required to pay the deferred sales or use tax directly to the department.

(a) Purchases of machinery, machinery parts and repair, tools, and cleaning materials by persons performing horticultural services are subject to retail sales tax.

(b) Persons taxable under the service and other business activities B&O tax classification are defined as consumers of anything they use in performing their services. (Refer to RCW 82.04.190.) As such, these persons are required to pay retail sales or use tax upon the purchase of all items used in performing the service, such as fertilizers, spray materials, and baling wire, which are not sold separate and apart from the service they perform.

(5) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

(a) John Doe is a wheat farmer owning threshing equipment which is generally used only for threshing his own wheat. Occasionally a neighbor's threshing equipment may break down and John will use his own equipment to assist the neighbor in completing the neighbor's wheat harvest. While John receives payment for providing the threshing assistance, this activity is considered to be a casual and isolated sale. John does not hold himself out as being in the business of performing farming (threshing) for hire. John Doe is not considered to be engaging in taxable business activities. The amounts John Doe receives for assisting in the harvest of his neighbors' wheat is not subject to tax.

(b) X Spraying applies fertilizer to orchards owned by Farmer A. The sales invoice provided to Farmer A by X Spraying reflects a "lump sum" amount with no segregation of charges for the fertilizer and the application. When reporting its tax liability, X Spraying would report the total charge under the service B&O tax classification. X Spraying must also remit retail sales or use tax upon the purchase of the fertilizer. The entire amount charged by X Spraying is for horticultural services, and X Spraying is considered the consumer of the fertilizer.

(c) Z Flying aerial sprays pesticides on crops owned by Farmer B. The sales invoice Z Flying provides to Farmer B segregates the charge for the pesticides and the charge for the application. When reporting its tax liability, Z Flying would report the charge for the application under the service B&O tax classification. The charge for the sale of the spray materials is subject to the wholesaling B&O tax, provided Z Flying obtains a resale certificate from Farmer B. (See WAC 458-20-122.) Z Flying's purchase of the pesticides is a purchase for resale and not subject to the retail sales tax.

[Statutory Authority: RCW 82.32.300. 94-07-050, § 458-20-209, filed 3/10/94, effective 4/10/94; 83-08-026 (Order ET 83-1), § 458-20-209, filed 3/30/83; Order ET 70-3, § 458-20-209 (Rule 209), filed 5/29/70, effective 7/1/70.]

WAC 458-20-210 Sales of tangible personal property for farming—Sales of agricultural products by farmers. (1) **Introduction.** This rule explains the application of business and occupation (B&O), retail sales, and use taxes to the sale and/or use of feed, seed, fertilizer, spray materials, and other tangible personal property for farming. This rule also explains the application of B&O, retail sales, and litter taxes to the sale of agricultural products by farmers. Farmers should refer to WAC 458-20-101 to determine whether they must obtain a tax registration endorsement or a temporary registration certificate from the department of revenue (department).

Farmers and persons making sales to farmers may also want to refer to the following rules for additional information:

(a) WAC 458-20-209 (Farming for hire and horticultural services provided to farmers);

(b) WAC 458-20-222 (Veterinarians);

(c) WAC 458-20-239 (Sales to nonresidents of farm machinery or implements, and related services); and

(d) WAC 458-20-262 (Retail sales and use tax exemptions for agricultural employee housing).

(2) **Who is a farmer?** A "farmer" is any person engaged in the business of growing, raising, or producing, upon the person's own lands or upon the lands in which the person has a present right of possession, any agricultural product to be sold. A "farmer" does not include a person growing, raising, or producing agricultural products for the person's own consumption; a person selling any animal or substance obtained therefrom in connection with the person's business of operating a stockyard, slaughterhouse, or packing house; or a person in respect to the business of taking, cultivating, or raising timber. RCW 82.04.213 and chapter 118, Laws of 2001.

(3) **What is an agricultural product?** An "agricultural product" is any product of plant cultivation or animal husbandry including, but not limited to: A product of horticulture, grain cultivation, vermiculture, viticulture, or aquaculture as defined in RCW 15.85.020; plantation Christmas trees; short-rotation hardwoods as defined in RCW 84.33.035 (as of July 22, 2001); turf; or any animal, including, but not limited to, an animal that is a private sector cultured aquatic product as defined in RCW 15.85.020, a bird, an insect, or the substances obtained from such animals. An "agricultural product" does not include animals defined under RCW 16.70.020 as "pet animals." RCW 82.04.213 and chapter 118, Laws of 2001.

(4) **Sales to farmers.** Persons making sales of tangible personal property to farmers are generally subject to wholesaling or retailing B&O tax, as the case may be, on the gross proceeds of sales. Sales of some services performed for farmers, such as installing or repairing tangible personal property, are retail sales and subject to retailing B&O tax on the gross proceeds of such sales. Persons making retail sales must collect retail sales tax from the buyer, unless the sale is specifically exempt by law. Readers should refer to subsection (6)

of this rule for information about specific sales tax exemptions available for sales to farmers.

(a) **Documenting wholesale sales.** A seller must obtain a resale certificate from the buyer to document the wholesale nature of any transaction. (Refer to WAC 458-20-102 for detailed information about resale certificates.)

(b) **Buyer's responsibility when the seller does not collect retail sales tax on a retail sale.** If the seller does not collect retail sales tax on a retail sale, the buyer must pay the retail sales tax (commonly referred to as "deferred sales tax") or use tax directly to the department, unless the sale is specifically exempt by law. The "Combined Excise Tax Return" does not have a separate line for reporting deferred sales tax. Consequently, deferred sales tax liability should be reported on the use tax line of the buyer's Combined Excise Tax Return. If a deferred sales tax or use tax liability is incurred by a farmer who is not required to obtain a tax registration endorsement from the department (see WAC 458-20-101), the farmer must report the tax on a "Consumer Use Tax Return" and remit the appropriate tax to the department. Refer to WAC 458-20-178 for detailed information regarding use tax.

The Consumer Use Tax Return can be obtained by calling the department's telephone information center at 1-800-647-7706. The return may also be obtained from the department's web site at: http://dor.wa.gov.

(c) **Feed, seed, seedlings, fertilizer, spray materials, and agents for enhanced pollination.** Sales to farmers of feed, seed, seedlings, fertilizer, spray materials, and agents for enhanced pollination, including insects such as bees, to be used for the purpose of producing an agricultural product, whether for wholesale or retail sale, are wholesale sales.

However, when these items are sold to consumers for purposes other than producing agricultural products for sale, the sales are retail sales. For example, sales of feed to riding clubs, racetrack operators, boarders, or similar persons who do not resell the feed at a specific charge are retail sales. Sales of feed for feeding pets or work animals, or for raising animals for the purpose of producing agricultural products for personal consumption are also retail sales. Sales of seed, fertilizer, and spray materials for use on lawns and gardens, or for any other personal use, are likewise retail sales.

(i) **What is feed?** "Feed" is any substance used as food to sustain or improve animals, birds, fish, or insects, including whole and processed grains or mixtures thereof, hay and forages or meals made therefrom, mill feeds and feeding concentrates, stock salt, hay salt, bone meal, fish meal, cod liver oil, double purpose limestone grit, oyster shell, and other similar substances. Food additives that are given for their beneficial growth or weight effects are "feed."

Hormones or similar products that do not make a direct nutritional or energy contribution to the body are not "feed," nor are products used as medicines.

(ii) **What is seed?** "Seed" is the propagative portions of plants commonly used for seeding or planting whether true seed, bulbs, plants, seed-like fruits, seedlings, or tubers.

(iii) **What is fertilizer?** "Fertilizer" is any substance containing one or more recognized plant nutrients and is used for its plant nutrient content and/or is designated for use in promoting plant growth. "Fertilizer" includes limes, gypsum, and manipulated animal and vegetable manures. There is no requirement that fertilizers be applied directly to the soil.

(iv) **What are spray materials?** "Spray materials" are any substance or mixture of substances in liquid, powder, granular, dry flowable, or gaseous form, which is intended to prevent, destroy, control, repel, or mitigate any insect, rodent, nematode, mollusk, fungus, weed, and any other form of plant or animal life normally considered to be a pest. The term includes treated materials, such as grains, that are intended to destroy, control, or repel such pests. "Spray materials" also include substances that act as plant regulators, defoliants, desiccants, or spray adjuvants.

(v) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

(A) Sue grows vegetables for retail sale at a local market. Sue purchases fertilizers and spray materials that she applies to the vegetable plants. She also purchases feed for poultry that she raises to produce eggs for her personal consumption. Because the vegetables are an agricultural product produced for sale, retail sales tax does not apply to Sue's purchases of fertilizers and spray materials, provided she gives the seller a resale certificate. Retail sales tax does apply to her purchases of poultry feed, as the poultry are raised to produce eggs for Sue's personal consumption.

(B) WG Vineyards (WG) grows grapes that it uses to manufacture wine for sale. WG purchases pesticides and fertilizers that are applied to its vineyards. WG may purchase these pesticides and fertilizers at wholesale, provided WG gives the seller a resale certificate.

(C) Seed Co. contracts with farmers to raise seed. Seed Co. provides the seed and agrees to purchase the crop if it meets specified standards. The contracts provide that ownership of the crop is retained by Seed Co., and the risk of crop loss is borne by the farmers. The farmers are obligated to pay for the seed whether or not the crop meets the specified standard. The transfer of the possession of the seed to the farmers is a wholesale sale, provided Seed Co. obtains a resale certificate from the farmers.

(d) **Chemical sprays or washes.** Sales of chemical sprays or washes, whether to farmers or other persons, for the purpose of post-harvest treatment of fruit for the prevention of scald, fungus, mold, or decay are wholesale sales.

(e) **Farming equipment.** Sales to farmers of farming equipment such as machinery, machinery parts and repair, tools, and cleaning materials are retail sales and subject to retailing B&O and retail sales taxes, unless specifically exempt by law. Refer to subsections (4)(i) and (6) of this rule for information about sales tax exemptions available to farmers.

(f) **Packing materials and containers.** Sales of packing materials and containers, or tangible personal property that will become part of a container, to a farmer who will sell the property to be contained therein are wholesale sales, provided the packing materials and containers are not put to intervening use by the farmer. Thus, sales to farmers of binder twine for binding bales of hay that will be sold or wrappers for fruit and vegetables to be sold are subject to wholesaling B&O tax. However, sales of packing materials and containers to a farmer who will use the items as a consumer are retail sales and subject to retailing B&O and retail sales taxes. Thus, sales of binder twine to a farmer for binding bales of hay that will be used to feed the farmer's livestock are retail sales.

(g) **Purchases for dual purposes.** A buyer normally engaged in both consuming and reselling certain types of tangible personal property and not able to determine at the time of purchase whether the particular property purchased will be consumed or resold must purchase according to the general nature of his or her business. RCW 82.08.130. If the buyer principally consumes the articles in question, the buyer should not give a resale certificate for any part of the purchase. If the buyer principally resells the articles, the buyer may issue a resale certificate for the entire purchase. For the purposes of this subsection, the term "principally" means greater than fifty percent.

If a buyer makes a purchase for dual purposes and does not give a resale certificate for any of the purchase and thereafter resells some of the articles purchased, the buyer may claim a "taxable amount for tax paid at source" deduction. Refer to WAC 458-20-102 for additional information regarding purchases for dual purposes and the "taxable amount for tax paid at source" deduction.

(i) **Potential deferred sales tax liability.** If the buyer gives a resale certificate for all purchases and thereafter consumes some of the articles purchased, the buyer is liable for deferred sales tax and must remit the tax directly to the department. Refer to subsection (4)(b) of this rule and WAC 458-20-102 for more information regarding deferred sales tax.

(ii) **Example.** A farmer purchases binder twine for binding bales of hay. Some of the hay will be sold and some will be used to feed the farmer's livestock. More than fifty percent of the binder twine is used for binding bales of hay that will be sold. Because the farmer principally uses the binder twine for binding bales of hay that will be sold, the farmer may issue a resale certificate to the seller for the entire purchase. The farmer is liable for deferred sales tax on the binder twine used for binding bales of hay that are used to feed the farmer's livestock and must remit the tax directly to the department.

(h) **"Fruit bin rentals" by fruit packers.** Fruit packers often itemize their charges to farmers for various services related to the packing and storage of fruit. An example is a charge for the bins which the packer uses in the receiving, sorting, inspecting, and storing of fruit (commonly referred to as "bin rentals"). The packer delivers the bins to the grower, who fills them with fruit for eventual storage in the packer's warehouse. Charges by fruit packers to farmers for such bin rentals do not constitute the rental of tangible personal property to the farmer where the bins are under the control of the packer for use in the receiving, sorting, inspecting, and storing of fruit. These charges are income to the packer related to the receipt or storage of fruit. The packer, as the consumer of the bins, is subject to retail sales or use tax on the purchase or use of the bins. (Information regarding the taxability of fruit packing is contained in WAC 458-20-214.)

(i) **Machinery and equipment used directly in a manufacturing operation.** Machinery and equipment used directly in a manufacturing operation by a manufacturer or processor for hire is exempt from sales or use tax provided that all requirements for the exemption are met. RCW 82.08.02565 and 82.12.02565. This exemption is commonly referred to as the M&E exemption. Farmers who use agricultural products that they have grown, raised, or produced as ingredients in a manufacturing process may be entitled to the M&E exemption on the acquisition of machinery and equipment used directly in their manufacturing operation. Refer to WAC 458-20-13601 for detailed information regarding the M&E exemption.

See subsection (5)(b) of this rule for an example illustrating a farmer using agricultural products that the farmer has grown as an ingredient in a manufacturing process.

(5) **Sales by farmers.** Farmers are not subject to B&O tax on wholesale sales of agricultural products. RCW 82.04.-330. Farmers who manufacture products using agricultural products that they have grown, raised, or produced should refer to subsection (5)(b) of this rule for tax-reporting information.

Farmers are subject to retailing B&O tax on retail sales of agricultural products and retailing or wholesaling B&O tax on sales of nonagricultural products, as the case may be, unless specifically exempt by law. Also, B&O tax applies to sales of agricultural products that the seller has not grown, raised, or produced upon the seller's own land or upon land in which the seller has a present right of possession, whether these products are sold at wholesale or retail. Likewise, B&O tax applies to sales of animals or substances derived from animals in connection with the business of operating a stockyard, slaughterhouse, or packing house. Farmers may be eligible to claim a small business B&O tax credit if the amount of B&O tax liability in a reporting period is under a certain amount. For detailed information about this credit, refer to WAC 458-20-104.

(a) **Litter tax.** The gross proceeds of sales of certain products, including food for human or pet consumption, are subject to litter tax. RCW 82.19.020. Litter tax does not apply to sales of agricultural products that are exempt from B&O tax under RCW 82.04.330. RCW 82.19.050 and chapter 118, Laws of 2001. Thus, farmers are not subject to litter tax on wholesale sales of agricultural products but are liable for litter tax on the gross proceeds of retail sales of agricultural products that constitute food for human or pet consumption. Also, farmers that manufacture products for use and consumption within this state (e.g., a farmer who produces wine from grapes that the farmer has grown) may be liable for litter tax measured by the value of the products manufactured. For detailed information about the litter tax, refer to chapter 82.19 RCW and WAC 458-20-243.

For example, RD Orchards (RD) grows apples at its orchards. Most apples are sold at wholesale, but RD operates a seasonal roadside fruit stand from which it makes retail sales of apples. The wholesale sales of apples are exempt from both B&O and litter taxes. The retail sales of apples are subject to retailing B&O and litter taxes but are exempt from sales tax because the apples are sold as a food product for human consumption. (See subsection (6)(d) of this rule for information about the retail sales tax exemption applicable to sales of food products for human consumption.)

(b) **Farmers using agricultural products in a manufacturing process.** The B&O tax exemption provided by RCW 82.04.330 does not apply to any person selling manufactured substances or articles. Thus, farmers who manufacture products using agricultural products that they have grown, raised, or produced are subject to manufacturing B&O tax on the value of products manufactured. Farmers who sell their manufactured products at retail or wholesale in the state of Washington are also generally subject to the retailing or wholesaling B&O tax, as the case may be. In such cases, a multiple activities tax credit (MATC) may be available. For detailed information regarding the manufacturing B&O tax and the MATC, refer to WAC 458-20-136 and 458-20-19301, respectively.

For example, WG Vineyards (WG) produces wine from grapes that it grows in its vineyards located within this state. WG makes wholesale sales of its wine to customers both within and outside of this state. WG is subject to manufacturing B&O tax on the value of the wine it produces. WG is also subject to wholesaling B&O tax on wholesale sales of wine delivered to buyers within this state, and WG is entitled to a multiple activities tax credit. In addition, WG is subject to litter tax on the value of wine sold within this state. (See subsection (5)(a) of this rule for information on the litter tax.)

(i) **Special B&O tax rate for manufacturing fresh fruits and vegetables.** A special lower B&O tax rate is provided by RCW 82.04.260 to persons manufacturing fresh fruits or vegetables by canning, preserving, freezing, processing, or dehydrating. Thus, farmers and other persons manufacturing fresh fruits and vegetables using these processes should report their manufacturing activity under the manufacturing fresh fruits and vegetables B&O tax classification.

Wholesale sales of fresh fruits or vegetables canned, preserved, frozen, processed, or dehydrated by the seller and sold to purchasers who transport the goods out of this state in the ordinary course of business are also subject to the lower B&O tax rate provided by RCW 82.04.260.

(ii) **Special B&O tax rate for manufacturing dairy products.** Effective September 20, 2001, a special lower B&O tax rate is provided by RCW 82.04.260 to persons manufacturing dairy products that, as of that date, are identified in 21 CFR, chapter 1, parts 131, 133, and 135. These products include milk, buttermilk, cream, yogurt, cheese, and ice cream, and also include by-products from the manufacturing of dairy products such as whey and casein. Thus, farmers and other persons manufacturing qualifying dairy products should report their manufacturing activity under the manufacturing dairy products B&O tax classification. This special rate does not apply, however, when dairy products are used merely as an ingredient or component of a manufactured product that is not a dairy product (e.g., milk-based soups or pizza).

The special B&O tax rate provided by RCW 82.04.260 also applies to persons selling manufactured dairy products to purchasers who transport the goods outside of this state in the ordinary course of business. Unlike the special B&O tax rate for certain wholesale sales of fresh fruits or vegetables (see subsection (5)(b)(i) of this rule), the special B&O tax rate for sales of qualifying dairy products does not require that the sales be made by the person who manufactured the dairy products nor that they be sales at wholesale.

(c) **Raising cattle for wholesale sale.** Persons who raise cattle for wholesale sale are exempt from B&O tax under RCW 82.04.330 provided that the cattle are held for at least sixty days prior to the sale. Persons who purchase and hold cattle for fewer than sixty days before reselling the cattle are not considered to be engaging in the normal activities of growing, raising, or producing livestock for sale.

For example, a feedlot operation purchases cattle and feeds them until they attain a good market condition. The cattle are then sold at wholesale. The feedlot operator is exempt from B&O tax on wholesale sales of cattle if the cattle are held for at least sixty days while they are prepared for market. However, the feedlot operator is subject to wholesaling B&O tax on wholesale sales of cattle held for fewer than sixty days prior to the sale.

(d) **B&O tax exemptions available to farmers.** In addition to the exemption for wholesale sales of agricultural products, there are several other B&O tax exemptions available to farmers which are discussed in this subsection.

(i) **Growing, raising, or producing agricultural products owned by other persons.** RCW 82.04.330 exempts amounts received by a farmer for growing, raising, or producing agricultural products owned by others, such as custom feed operations.

For example, a farmer is engaged in the business of raising cattle owned by others (commonly referred to as "custom feeding"). After the cattle attain a good market condition, the owner then sells them. Amounts received by the farmer for custom feeding are exempt from B&O tax under RCW 82.04.330, provided that the cattle are held by the farmer for at least sixty days. Farmers are not considered to be engaging in the activity of raising cattle for sale unless the cattle are held for at least sixty days while the cattle are prepared for market. (See subsection (5)(c) of this rule.)

(ii) **Sales of hatching eggs or poultry.** RCW 82.04.410 exempts amounts received for the sale of hatching eggs or poultry by farmers producing hatching eggs or poultry, when these agricultural products are for use in the production for sale of poultry or poultry products.

(iii) **Processed hops shipped outside Washington for first use.** RCW 82.04.337 exempts amounts received by hop growers or dealers for hops shipped outside the state of Washington for first use, if those hops have been processed into extract, pellets, or powder in this state. However, the processor or warehouser of such products is not exempt on amounts charged for processing or warehousing such products.

(e) **B&O tax credit to encourage alternatives to field burning.** Persons who qualify for a sales or use tax exemption under RCW 82.08.840 or 82.12.840 (machinery, equipment, or structures that reduce emissions from field burning) also qualify for a B&O tax credit. RCW 82.04.4459. The amount of the credit is equal to fifty percent of the amount of costs expended for constructing structures or acquiring machinery and equipment for which an exemption was taken under RCW 82.08.840 or 82.12.840. (See subsection (6)(l) of this rule for information about the sales and use tax exemptions provided by RCW 82.08.840 and 82.12.840.) No application is necessary for the credit. Persons taking the credit must keep records necessary for the department to verify eligibility for the credit. This credit is subject to the following limitations:

(i) No credit may be taken in excess of the amount of B&O tax that would otherwise be due;

(ii) Credit may not be carried over to subsequent calendar years;

(iii) The credit must be claimed by the due date of the last tax return for the calendar year in which the payment is made;

(iv) Any unused credit expires;

(v) Refunds will not be given in place of credits;

(vi) The credit may not be claimed for expenditures that occurred before March 22, 2000; and

(vii) The credit expires on January 1, 2006.

(6) **Retail sales and use tax exemptions.** This subsection provides information about a number of retail sales tax and corresponding use tax exemptions available to farmers and persons buying tangible personal property at retail from farmers. Some exemptions require the buyer to provide the seller with an exemption certificate. Readers should refer to subsection (7) of this rule for additional information regarding exemption certificates.

This subsection contains a number of examples which illustrate these exemptions. The examples identify a number of facts and then state a conclusion. The examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

(a) **Pollen.** Pollen is exempt from retail sales and use taxes. RCW 82.08.0277 and 82.12.0273.

(b) **Semen.** Semen used in the artificial insemination of livestock is exempt from retail sales and use taxes. RCW 82.08.0272 and 82.12.0267.

(c) **Feed for livestock at public livestock markets.** Feed to be consumed by livestock at a public livestock market is exempt from retail sales and use taxes. RCW 82.08.0296 and 82.12.0296.

(d) **Food products.** Food products for human consumption are exempt from retail sales and use taxes. RCW 82.08.0293 and 82.12.0293. This exemption also applies to the sale and/or use of livestock for personal consumption as food. For detailed information about food products that qualify for this exemption, refer to WAC 458-20-244.

(e) **Auction sales of farm property.** Retail sales and use taxes do not apply to tangible personal property, including household goods, which have been used in conducting a farm activity, if the property was purchased from a farmer at an auction sale held or conducted by an auctioneer upon a farm. RCW 82.08.0257 and 82.12.0258.

(f) **Poultry.** Poultry used in the production for sale of poultry or poultry products is exempt from retail sales and use taxes. RCW 82.08.0267 and 82.12.0262.

For example, a poultry hatchery produces poultry from eggs. The resulting poultry are sold to egg producers. These sales are exempt from retail sales taxes under RCW 82.08.0267. (They are also exempt from B&O tax. See subsection (5)(d)(ii) of this rule.)

(g) **Leases of irrigation equipment.** Retail sales and use taxes do not apply to the lease or use of irrigation equipment, but only if:

(i) The lessor purchased the irrigation equipment for the purpose of irrigating land controlled by the lessor;

(ii) The lessor has paid retail sales or use tax upon the irrigation equipment;

(iii) The irrigation equipment is attached to the land in whole or in part; and

(iv) The irrigation equipment is leased to the lessee as an incidental part of the lease of the underlying land and is used solely on such land. RCW 82.08.0288 and 82.12.0283.

(h) **Beef and dairy cattle.** Beef and dairy cattle to be used by a farmer in producing an agricultural product are exempt from retail sales and use taxes. RCW 82.08.0259 and 82.12.0261.

For example, John operates a farm where he raises beef and dairy cattle for sale. He also raises other livestock for sale including hogs, sheep, and goats. All of John's sales of dairy and beef cattle for use on a farm are exempt from retail sales tax. However, John must collect retail sales tax on all retail sales of sheep, goats, and hogs unless the sales qualify for either the food products exemption described in subsection (6)(d) of this rule, or the exemption for sales of livestock for breeding purposes which is described immediately below.

(i) **Livestock for breeding purposes.** The sale or use of livestock, as defined in RCW 16.36.005, for breeding purposes where the animals are registered in a nationally recognized breed association is exempt from retail sales and use taxes. RCW 82.08.0259 and 82.12.0261. This exemption is available only when the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department.

For example, ABC Farms raises and sells quarter horses registered in the American Quarter Horse Association (AQHA). Quarter horses are generally recognized as a definite breed of horse, and the AQHA is a nationally recognized breed association. Therefore, ABC Farms is not required to collect sales tax on retail sales of quarter horses for breeding purposes, provided it receives a completed exemption certificate from the buyer.

(j) **Bedding materials for chickens.** Retail sales and use taxes do not apply to bedding materials used by farmers to accumulate and facilitate the removal of chicken manure provided that the farmer is raising chickens that are sold as agricultural products. RCW 82.08.920 and 82.12.920. The exemption became effective September 20, 2001, and is available only when the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department.

(i) **What are bedding materials?** "Bedding materials" are wood shavings, straw, sawdust, shredded paper, and other similar materials.

(ii) **Example.** Farmer raises chickens for use in producing eggs for sale. When the chickens are no longer useful for producing eggs, Farmer sells the chickens to food processors for soup and stew meat. Farmer purchases bedding materials used to accumulate and facilitate the removal of chicken manure. The purchases of bedding materials by Farmer are exempt from retail sales tax. The law merely requires that the chickens be sold as agricultural products. It is immaterial that Farmer primarily raises the chickens to produce eggs.

(k) **Propane or natural gas used to heat structures housing chickens.** Retail sales and use taxes do not apply to propane or natural gas used by farmers to heat structures used to house chickens. The propane or natural gas must be used exclusively to heat the structures, and the structures must be used exclusively to house chickens that are sold as agricultural products. RCW 82.08.910 and 82.12.910. The exemption became effective September 20, 2001, and is available only when the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department.

(i) **What are "structures"?** "Structures" are barns, sheds, and other similar buildings in which chickens are housed.

(ii) **Example.** Farmer purchases natural gas that is used to heat structures housing chickens. The natural gas is used exclusively to heat the structures, and the structures are used exclusively to house chickens. The chickens are used to produce eggs. When the chickens are no longer useful for producing eggs, Farmer sells the chickens to food processors for soup and stew meat. The purchase of natural gas by Farmer is exempt from retail sales tax. The law merely requires that the chickens be sold as agricultural products. It is immaterial that Farmer primarily houses these chickens to produce eggs.

(iii) **Example.** Farmer purchases natural gas that is used to heat structures used in the incubation of chicken eggs and structures used for washing, packing, and storing eggs. The natural gas used to heat these structures is not exempt from retail sales tax because the structures are not used exclusively to house chickens that are sold as agricultural products.

(l) **Machinery, equipment, and structures used to reduce emissions from field burning.** RCW 82.08.840 and 82.12.840 provide a sales and use tax exemption for certain property used to reduce field burning of cereal grains and field and turf grass grown for seed, or to reduce air emissions resulting from such field burning. The retail sales tax exemption applies to sales of machinery and equipment, and to services rendered in respect to constructing structures, installing, constructing, repairing, cleaning, decorating, altering, or improving of structures or eligible machinery and equipment, and to sales of tangible personal property that becomes an ingredient or component of eligible structures or eligible machinery and equipment, if all of the requirements for the exemption listed below in this subsection are met. The sales tax exemption is effective March 22, 2000. The use tax exemption applies to the use of machinery and equipment, and of tangible personal property that becomes an ingredient or component of eligible machinery and equipment, if all of the requirements for the exemption listed below in this subsection are met. This use tax exemption is also effective March 22, 2000. The use tax exemption also applies to the use of services rendered in respect to installing, repairing, cleaning, altering, or improving of eligible machinery and equipment, if all of the requirements for the exemption are met. This component of the use tax exemption is effective June 1, 2002.

These exemptions expire January 1, 2006. Persons taking an exemption must keep records necessary for the department to verify eligibility for the exemption. Persons who have taken an exemption and then discover that they do not meet the requirements for the exemption are subject to a deferred sales tax or use tax liability. (For additional information about deferred sales tax and use tax, refer to subsection (4)(b) of this rule.)

(i) **Majority use requirement.** To qualify for an exemption, the machinery, equipment, or structure must be used more than half (50%) of the time:

(A) For gathering, densifying, processing, handling, storing, transporting, or incorporating straw or straw-based products that results in a reduction in field burning of cereal grains and field and turf grass grown for seed; or

(B) To decrease air emissions resulting from field burning of cereal grains and field and turf grass grown for seed.

(ii) **Exemption certificates.** For the sales tax exemption, the buyer must provide the seller with an exemption certificate in a form and manner prescribed by the department.

(iii) **Examples.** The following examples illustrate this exemption:

(A) Farmer cultivates turf grass. Farmer purchases spray equipment. As an alternative to field burning, the fields in which the spray equipment is used must be sprayed five times instead of twice. The use of the spray equipment meets the requirement that the equipment be used more than half of the time to decrease air emissions resulting from field burning; therefore, the purchase of the spray equipment is exempt.

(B) Farmer, who performs custom baling, purchases a new baler for use in baling hay and straw. The purchase of the baler is exempt if it will be used more than half of the time to bale straw, which results in a reduction in field burning.

(C) Farmer purchases a new combine for use in harvesting wheat. In addition to cutting the stalks, separating the kernels from the chaff, and unloading the kernels, the combine also chops the residual chaff before discharging it onto the field. While the need for field burning may decrease because the smaller residue more readily decomposes, the purchase of the combine does not qualify for the exemption. The combine is not used more than half of the time to decrease air emissions from field burning.

(m) **Dairy nutrient management equipment and facilities.** RCW 82.08.890 and 82.12.890 provide a sales and use tax exemption for persons operating dairy nutrient management equipment and facilities. The retail sales tax exemption applies to sales to eligible persons of services rendered in respect to operating, repairing, cleaning, altering, or improving of dairy nutrient management equipment and facilities, or to sales of tangible personal property that becomes an ingredient or component of the equipment and facilities. The sales tax exemption became effective July 13, 2001. The use tax exemption applies to the use by an eligible person of tangible personal property that becomes an ingredient or component of dairy nutrient management equipment and facilities. This use tax exemption also became effective July 13, 2001. The use tax exemption also applies to the use of labor and services rendered in respect to repairing, cleaning, altering, or improving eligible tangible personal property. This component of the use tax exemption is effective June 1, 2002. The sales and use tax exemption applies to sales made or to the use of tangible personal property or labor and services made after the dairy nutrient management plan is certified under chapter 90.64 RCW.

(i) These exemptions are available only if all of the following requirements are met:

(A) The equipment and facilities must be used exclusively for activities necessary to maintain a dairy nutrient management plan as required under chapter 90.64 RCW; and

(B) The buyer provides the seller with an exemption certificate in a form and manner prescribed by the department which must be retained in the seller's files. The department will provide an exemption certificate to an eligible person upon application. A sample letter for use in applying for an exemption certificate can be obtained from the department as provided in subsection (7) of this rule.

(ii) For purposes of this exemption, the following definitions apply:

(A) "Eligible person" means a person licensed to produce milk under chapter 15.36 RCW who has a certified dairy nutrient management plan by December 31, 2003, as required by chapter 90.64 RCW.

(B) "Dairy nutrient management equipment and facilities" means machinery, equipment, and structures used exclusively in the handling and treatment of dairy manure, such as aerators, agitators, alley scrapers, augers, dams, gutter cleaners, loaders, lagoons, pipes, pumps, separators, and tanks. The term also includes tangible personal property that becomes an ingredient or component of the equipment and facilities, including repair and replacement parts.

(n) **Animal pharmaceuticals.** Certain animal pharmaceuticals are exempt from retail sales and use taxes when sold to, or used by, farmers or veterinarians. RCW 82.08.880 and 82.12.880. To qualify for the exemption, the animal pharmaceutical must be administered to an animal that is raised by a farmer for the purpose of producing an agricultural product for sale. Also, the animal pharmaceutical must be approved by the United States Department of Agriculture (USDA) or the United States Food and Drug Administration (FDA).

This exemption became effective August 1, 2001, and is available only when the buyer provides the seller with an exemption certificate in a form and manner prescribed by the department.

(i) **What is a "veterinarian"?** A "veterinarian" means a person who is licensed to practice veterinary medicine, surgery, or dentistry under chapter 18.92 RCW.

(ii) **How can I determine whether the FDA or USDA has approved an animal pharmaceutical?** The FDA and USDA have an established approval process set forth in federal regulations. The FDA maintains a list of all approved animal pharmaceuticals called the "*Green Book*." The USDA maintains a list of approved biotechnology products called the "*Veterinary Biologics Product Catalogue*." Pharmaceuticals that are not on either of these lists have not been approved and are not eligible for the exemption.

(iii) **Example.** Dairy Farmer purchases sterilizing agents. The sterilizing agents are applied to the equipment and facilities where Dairy Farmer's cows are milked. Dairy Farmer also purchases teat dips, antiseptic udder washes, and salves that are not listed in either the FDA's *Green Book* of approved animal pharmaceuticals or the USDA's *Veterinary Biologics Product Catalogue* of approved biotechnology products. The purchases of sterilizing agents are not exempt as animal pharmaceuticals because the sterilizing agents are not administered to animals. The teat dips, antiseptic udder washes, and salves are likewise not exempt because they have not been approved by the FDA or USDA. This is the case even if these products are approved by the United States Environmental Protection Agency or any other governmental agency.

(iv) **What type of animal must the pharmaceutical be administered to?** As noted above, the exemption is limited to the sale and/or use of animal pharmaceuticals administered to an animal that is raised by a farmer for the purpose of producing an agricultural product for sale. The conditions under which a farmer may purchase tax-exempt animal pharmaceuticals are similar to those under which a farmer may purchase feed at wholesale. Both types of purchases require that the particular product be sold to a farmer (or a veterinarian in the case of animal pharmaceuticals), and that the product be given or administered to an animal raised by a farmer for the purpose of producing an agricultural product for sale.

(v) **Examples of animals raised for the purpose of producing agricultural products for sale.** The animal pharmaceutical exemption is available in the following nonexclusive list of examples because the animals are being raised for the purpose of producing an agricultural product for sale, presuming all other requirements for the exemption are met:

(A) Horses, cattle, or other livestock raised by a farmer for sale;

(B) Cattle raised by a farmer for the purpose of slaughtering, if the resulting products are sold;

(C) Milk cows raised and/or used by a dairy farmer for the purpose of producing milk for sale;

(D) Horses raised by a farmer for the purpose of producing foals for sale;

(E) Sheep raised by a farmer for the purpose of producing wool for sale; and

(F) "Private sector cultured aquatic products" as defined by RCW 15.85.020 (e.g., salmon, catfish, and mussels) raised by an aquatic farmer for the purpose of sale.

(vi) **Examples of animals that are not raised for the purpose of producing agricultural products for sale.** The animal pharmaceutical exemption is not available in the following nonexclusive list of examples because the animals are not being raised for the purpose of producing an agricultural product for sale:

(A) Cattle raised for the purpose of slaughtering if the resulting products are not produced for sale;

(B) Sheep and other livestock raised as pets;

(C) Dogs or cats, whether raised as pets or for sale. Dogs and cats are pet animals; therefore, they are not considered to be agricultural products. (See subsection (3) of this rule); and

(D) Horses raised for the purpose of racing, showing, riding, and jumping. However, if at some time in the future the horses are no longer raised for racing, showing, riding, or jumping and are instead being raised by a farmer for the purpose of producing foals for sale, the exemption will apply if all other requirements for the exemption are met.

(vii) **Do products that are used to administer animal pharmaceuticals qualify for the exemption?** Sales of products that are used to administer animal pharmaceuticals (e.g., syringes) do not qualify for the exemption, even if they are later used to administer a tax-exempt animal pharmaceutical. However, sales of tax-exempt animal pharmaceuticals contained in a product used to administer the animal pharmaceutical (e.g., a dose of a tax-exempt pharmaceutical contained in a syringe or cotton applicator) do qualify for the exemption.

(7) **Sales tax exemption certificates.** As indicated in subsection (6) of this rule, certain sales of tangible personal property and retail services either to or by farmers are exempt from retail sales tax. Except as provided below, for those exemptions that require the buyer to provide the seller with

an exemption certificate at the time of sale, farmers may use the department's "Farmers' Retail Sales Tax Exemption Certificate" or another certificate with substantially the same information as it relates to the claimed exemption. Sellers must retain a copy of the exemption certificate in their files. Without proper documentation, sellers are liable for payment of the retail sales tax on sales claimed as exempt.

The Farmers' Retail Sales Tax Exemption Certificate cannot be used for the dairy nutrient management exemption discussed in subsection (6)(m) of this rule. However, as noted above, the department will provide eligible persons, upon application, with an exemption certificate for this exemption. The Farmers' Retail Sales Tax Exemption Certificate and a sample letter for use in applying for the Dairy Nutrient Management Exemption Certificate can be obtained by calling the department's taxpayer information center at 1-800-647-7706. These documents can also be downloaded from the department's web site at http://dor.wa.gov/.

[Statutory Authority: RCW 82.01.060(2), 82.32.300, and 34.05.230. 03-18-024, § 458-20-210, filed 8/25/03, effective 9/25/03. Statutory Authority: RCW 82.32.300. 94-07-048, § 458-20-210, filed 3/10/94, effective 4/10/94; 86-21-085 (Order ET 86-18), § 458-20-210, filed 10/17/86; 86-07-005 (Order ET 86-3), § 458-20-210, filed 3/6/86; 83-08-026 (Order ET 83-1), § 458-20-210, filed 3/30/83. Statutory Authority: RCW 82.01.060(2) and 82.32.300. 78-07-045 (Order ET 78-4), § 458-20-210, filed 6/27/78; Order ET 70-3, § 458-20-210 (Rule 210), filed 5/29/70, effective 7/1/70.]

WAC 458-20-211 Leases or rentals of tangible personal property, bailments. (1) **Introduction.** This section explains how persons are taxable who rent or lease tangible personal property or rent equipment with an operator. RCW 82.04.050(4) was amended by chapter 25, Laws of 1993 sp. sess. to specifically include the rental of equipment with an operator as a retail sale. However, as will be explained in more detail below, some activities performed by operated equipment may be taxable under classifications other than retail sales if the operator and equipment perform activities as a prime contractor or subcontractor and these activities are specifically classified under other tax classifications by the revenue act.

(2) **Definitions.**

(a) The terms "leasing" and "renting" are used interchangeably and refer generally to the act of granting to another the right of possession to and use of tangible personal property for a consideration. When "lease," "leasing," "lessee," or "lessor" are used in this section, these terms are intended to include rentals as well, even if not specifically stated.

Persons may not claim to be leasing or renting equipment to themselves since they are not granting to another the right of possession.

(b) The term "bailment" refers to the act of granting to another the temporary right of possession to and use of tangible personal property for a stated purpose without consideration to the grantor.

(c) The term "subcontractor" refers to a person who has entered into a contract for the performance of an act with the person who has already contracted for its performance. A subcontractor is generally responsible for performing the work to contract specification and determines how the work will be performed. In purchasing subcontract services, the customer is primarily purchasing the knowledge, skills, and expertise of the contractor to perform the task, as distinguished from the operation of the equipment.

(d) The term "rental of equipment with operator" means the provision of equipment with an operator to a lessee to perform work under the specific direction of the lessee. In such cases the lessor is generally not responsible for performing work to contract specification and does not determine how the work will be performed. Though not controlling, persons who rent equipment with an operator typically bill on the basis of the amount of time the equipment was used.

(e) The term "true object test" as it relates to this section means the analysis of a transaction involving equipment and an operator to determine if the lessee is simply purchasing the use of the equipment or purchasing the knowledge, skills, and expertise of the operator beyond those needed to operate the equipment. Even if it is determined that the customer is purchasing the knowledge, skills, and expertise of the operator, the transaction may still be a retail sale if the activity is specifically included by statute within the definition of a retail sale. This test can also be applied to rentals of tangible personal property when the seller performs some service in connection with the rental.

(f) The term "true lease" (often referred to as an "operating lease") refers to the act of leasing property to another for consideration with the property under the dominion and control of the lessee for the term of the lease with the intent that the property will revert back to the lessor at the conclusion of the lease.

(g) The term "financing lease" (often referred to as a "capital lease") typically involves the lease of property for a stated period of time with ownership transferring to the "lessee" at the conclusion of the lease for a nominal or minimal payment. The transaction is structured as a lease, but retains some elements of an installment sale. Financing leases will generally be taxed as if they are installment sales. The presence of some or all of the following factors indicates a financing lease with the transaction treated as an installment sale:

(i) The lessee is given an option to purchase the equipment, and, if so, the option price is nominal (sometimes referred to as a "bargain purchase option");

(ii) The lessee acquires equity in the equipment;

(iii) The lessee is required to bear the entire risk of loss;

(iv) The lessee pays all the charges and taxes imposed on ownership;

(v) There is a provision for acceleration of rent payments; and

(vi) The property was purchased specifically for lease to this lessee.

(3) A true lease, rental, or bailment of personal property does not arise unless the lessee or bailee, or employees or independent operators hired by the lessee or bailee actually takes possession of the property and exercises dominion and control over it. Where the owner/lessor of the equipment or the owner's/lessor's employees or agents maintain dominion and control over the personal property and actually operate it, the owner/lessor has not generally relinquished sufficient control over the property to give rise to a true lease, rental, or bailment of the property.

(4) RCW 82.04.050 excludes from the definition "retail sale" any purchases for the purpose of resale, "as tangible personal property." Persons who use equipment in perform-

ing services either as prime contractors or as subcontractors are not purchasing the equipment for purposes of reselling the equipment as tangible personal property. These contractors must pay retail sales tax or use tax at the time the equipment is acquired. Generally persons who rent equipment with an operator are not purchasing the equipment for resale as tangible personal property and must pay retail sales or use tax at the time the equipment is acquired. Persons renting operated equipment to others may purchase the equipment without payment of retail sales tax only when the equipment is rented as tangible personal property. This can be demonstrated only when:

(a) The agreement between the parties is designated as an outright lease or rental, without reservations; and

(b) The lessee acquires the right of possession, dominion, and control of the equipment, even to the exclusion of the lessor.

This last requirement is a factual question and the burden of proof is upon the owner/operator of the equipment to establish that the degree of control has been relinquished necessary to constitute a lessor-lessee relationship. Weight will be given to such factors as who has physical, operating control of the equipment; who is responsible for its maintenance, fueling, repair, storage, insurance (risk of loss or damage), safety and security of operation, and whether the operator is a loaned employee. If control of these factors is left with the owner/operator, then as a matter of fact, there has not been a relinquishing of control of the equipment to the degree necessary to create a lessor-lessee relationship for the rental of tangible personal property. This is true, even though the customer exercises some constructive control over such matters as when and where the equipment is used in connection with the construction work being performed, i.e., the contractor controls the job site.

(5) **Business and occupation (B&O) tax.**

(a) Outright rentals of bare (unoperated) equipment or other tangible personal property as well as leases of operated equipment are generally subject to the retailing classification of the business and occupation tax.

(i) When a lessor purchases equipment for bare rental or lease, the seller of the equipment is making a wholesale sale to the lessor and is required to obtain a resale certificate from the lessor as provided in WAC 458-20-102.

(ii) Under unique circumstances when equipment is rented for rerent by the lessee, without intervening use, then the original rental is subject to the wholesaling classification of tax and the subsequent rental is subject to the retailing classification. The original seller is required to obtain a resale certificate for these wholesale sales.

(iii) Persons who purchase equipment for use as prime contractors or subcontractors are considered to be the consumers of these purchases. They are the consumers because they are not specifically reselling the tangible personal property. Persons selling equipment to these persons are retailers and subject to the retailing B&O tax.

(b) Persons who provide equipment or other tangible personal property and, in addition, operate the equipment or supply an employee to operate the same for a charge, without relinquishing substantial dominion and control to the customer, are providing a service that is classified as a retail sale unless the nature of the activity is specifically classified under another tax classification. Where a specific tax classification applies to the activity, the income is subject to the business and occupation tax (or public utility tax) according to the classification of the activities performed by the equipment and operator. In the case of building construction, it will be presumed that the rental of equipment with operator to a contractor is a retail sale unless the operator has responsibility for performing construction to contract specifications and assumes control over how the work will be performed.

(c) Under some circumstances, the leasing or renting of tangible personal property can be subject to the special "retailing of interstate transportation equipment" B&O tax classification. This classification applies if the sale is exempt from retail sales tax because of the specific tax exemptions of RCW 82.08.0261, 82.08.0262, or 82.08.0263. These exemptions apply primarily to sales to private or common carriers who are engaged in interstate or foreign commerce.

(d) The following examples show how the tax would be applied to certain situations.

(i) The charge made by a subcontractor to a prime construction contractor for use of equipment with an operator used in the paving of a parking lot as part of the construction of a building would be taxable under wholesaling—other when the subcontractor has the responsibility to perform the work to contract specification and determines how the work will be performed.

(ii) A contractor performing work to contract specification making a charge to a city for use of equipment and operator in the construction of a publicly owned road would be taxable under public road construction.

(iii) Income for loading of a vessel using equipment with an operator is taxable under the stevedoring classification.

(iv) Income from transporting persons or property for hire by motor vehicle, including leasing or renting motor carrier equipment with driver, is generally taxable under either motor transportation or urban transportation.

(v) A customer rents scaffolding and the seller is responsible for a technician to setup, move, and dismantle it. This is the rental of tangible personal property since the true object of the transaction is having the scaffolding available for use by the customer. The customer also assumes dominion or control over the scaffolding by determining who will use the scaffolding and by controlling the use of the scaffolding.

(vi) Income from transporting persons or property for hire by vessel is not a retail equipment rental with operator.

(6) **Retail sales tax.** Persons who rent or lease tangible personal property to users or consumers are required to collect from their lessees the retail sales tax measured by gross income from rentals as of the time the rental payments fall due.

(a) RCW 82.04.050 excludes from the definition of the term "retail sale," purchases for resale "as tangible personal property." Thus the retail sales tax does not apply upon sales of tangible personal property to persons who purchase the same solely for the purpose of renting or leasing such property without operators. However, the retail sales tax applies upon sales to persons who provide such property with operators for a charge, without relinquishing substantial dominion and control, or who intend to make some use of the property other than or in addition to renting or leasing.

(b) Financing leases are treated for state tax purposes as installment sales. The retail sales tax applies to the full selling price. Refer to WAC 458-20-198.

(c) The retail sales tax does not apply to lease payments made by a seller/lessee under a sale/leaseback agreement in respect to property, equipment, and components used by the seller/lessee primarily in the business of canning, preserving, freezing, or dehydrating fresh fruits, vegetables, and fish. Nor does the sales tax apply to the purchase amount paid by the lessee pursuant to an option to purchase this specific kind of processing equipment at the end of the lease term. (See RCW 82.08.0295.) In both situations the availability of this special sales tax exemption is contingent upon the seller/lessee having paid retail sales tax or use tax at the time of acquisition of such special processing property, equipment, and components. The use tax will also not apply if the sales tax does not apply.

(7) **Use tax and/or deferred retail sales tax.** Consumers who rent or lease tangible personal property from others and who have not paid the retail sales tax to their lessors are liable for the retail sales tax or use tax on the amount of the rental payments as of the time the payments fall due unless an exemption from the tax applies. However, if the rental payments do not represent a reasonable rental value for the article, the taxable value shall be determined according to the rental charges made by other sellers of similar articles of like quality and character. This can include using the rate of return as a percentage of the capitalized value that lessors of the particular type of property are generally using in rate setting.

In some cases lessors may lease articles wherein the lease payments do not include property taxes or insurance. These leases are often referred to as "net leases" with the insurance and taxes paid directly by the lessee. If the lessor is the party insured and the party legally liable for payment of the taxes, the payments made directly by the lessee must be treated as additional consideration to the lessor and subject to the retailing and retail sales tax.

(a) Bailment. The value of tangible personal property held or used under bailment is subject to use tax if the property was purchased or acquired under conditions whereby the retail sales tax was not paid by the bailor. Tax liability is that of the bailor, or of the bailee if the bailor has not paid the tax. The measure of the tax to the bailor is the fair market value of the article at the time the article was first put to use in Washington. The measure of the use tax to the bailee for articles acquired by bailment is the reasonable rental with the value to be determined as nearly as possible according to the rental price at the place of use of similar products of like quality and character. In the absence of rental prices for similar products, the reasonable rental may be computed by prorating the retail selling price over the period of possession had by a bailee and payable in monthly installments. No further use tax is due upon property acquired by bailment after tax has been paid by the bailee or any previous bailee upon the full original value of the article.

(b) Use tax does not apply to use by a bailee of any article of tangible personal property which is entirely consumed in the course of research, development, experimental, and testing activities conducted by the user, providing the acquisition or use of such articles by the bailor are exempt from sales or use tax. (RCW 82.12.0265.)

(8) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances. In some situations it may be difficult to determine if the transaction is a retail equipment rental with operator. If in doubt as to whether a particular rental with an operator is a retail sale, taxpayers should contact the department for a specific ruling.

(a) ABC Crane is hired to supply a crane and operator to lift air conditioning equipment from the ground and hold it in place on the roof of a six-story building while the prime construction contractor bolts the unit down. ABC Crane's operator will retain control over the crane. ABC Crane has no responsibility to attach wiring, plumbing, or otherwise make the unit operational. ABC Crane is renting equipment with an operator since it has no responsibility to perform actual construction to contract specification. The activity of renting a crane with an operator is a service included within the definition of a retail sale and is not otherwise tax classified elsewhere within the revenue act. The purchase of the crane by ABC is also a retail transaction because ABC retained control over the crane and is not renting the crane as tangible personal property.

(b) ABC Crane is hired by a prime contractor to install a neon sign on the side of a new six-story building which is being constructed. ABC is responsible for making certain that the sign is correctly fastened to the side of the building and for installation of the electrical connections and meets the proper building codes. ABC is directly involved in construction and performs work to contract specification. Since the work is being done for the prime contractor for further resale, this is a wholesale sale, provided a resale certificate is obtained. Had ABC only been hired to hold the sign in place while the prime contractor fastened it, this would have been a retail rental of equipment with operator.

(c) XYZ Concrete Pumping is hired by a prime contractor to supply a concrete pump and operator to pump concrete from a premix concrete delivery truck to the location of the forms. XYZ has no responsibility to build forms, do the concrete finishing, or otherwise see that the concrete meets or is placed according to contract specifications. In short, the pump functions similarly to a wheelbarrow, but in a more efficient manner. XYZ is not a subcontractor and is making a retail rental of equipment with an operator.

(d) ABC Company purchases a crane which it rents to others as a bare rental. It periodically rents the crane to lessees on this basis for two years. Beginning in the third year of ownership of this crane, ABC decides to start providing these customers with an employee to operate the crane. The employee will operate under the direction of ABC with ABC retaining dominion and control over the crane. Does ABC owe use tax on the crane, and if so, what is the measure of the use tax?

ABC owes use tax upon the first use of the crane as a consumer. This occurred in the third year of ownership when ABC began supplying an operator. The measure of the tax is the retail market value of the crane at the time it is put to use by ABC.

(e) Farm Services, Inc. specializes in the cutting and baling of hay for farmers. The hay, after being cut and baled, is sold by the farmer. Farm Services is not making a retail rental of equipment with operator, but is engaged in a farming for hire activity which is taxable under the service and other business activities B&O tax classification. See WAC 458-20-209.

(f) Helicopter, Inc. contracts with Logs, Inc. to move logs from where they have been cut in the woods to a landing approximately one mile away where the logs will be sorted, loaded on trucks, and transported to a mill. Total control over the helicopter operation rests with Helicopter, Inc. This is not a rental of equipment with an operator, nor is it considered as an air transportation service. This activity is directly part of the timber extracting and harvesting activity and is taxable as extracting for hire.

(g) ABC Sound Productions provides lighting, amplifying equipment, and speakers as part of the services it sells to entertainment promoters. ABC also provides several operators of the equipment. This is a rental of equipment with operator. In applying the true object test, the promoter is primarily purchasing the use of the lighting and sound equipment. The performer or promoter could be expected to specify the color, location, and degree of lighting and may also request changes and modifications to the level of sound amplification during the performance.

(h) John Doe purchased a vessel which will be rented to others as a bare boat rental. The rentals will be arranged through an agent at a marina. The marina receives a commission based on any usage of the vessel, including usage by the owner. The rental of the boat is a retail sale when the boat is rented to others. The usage of the boat by John Doe is not a rental. Since John Doe will be using the boat at times for his own use, he may not purchase the boat for resale.

[Statutory Authority: RCW 82.32.300 and 82.08.010(1). 96-03-139, § 458-20-211, filed 1/24/96, effective 2/24/96. Statutory Authority: RCW 82.32.-300. 87-17-015 (Order 87-4), § 458-20-211, filed 8/11/87; 83-08-026 (Order ET 83-1), § 458-20-211, filed 3/30/83; Order ET 71-1, § 458-20-211, filed 7/22/71; Order ET 70-3, § 458-20-211 (Rule 211), filed 5/29/70, effective 7/1/70.]

WAC 458-20-212 Insurance adjusters. The word "adjuster," as used herein, means a person licensed as such under the provisions of chapter 48.17 RCW.

Business and Occupation Tax

Persons engaged in business as insurance adjusters are taxable under the service and other business activities classification upon the gross income of the business.

There must be included within gross income all fees received for services rendered, and all charges recovered for expenses incurred in performing services, such as transportation costs, hotel, restaurant, telephone and telegraph charges, etc.

In computing tax liability, there may be deducted from gross income (if included therein) money or credits received as reimbursement of advances made for towing, storage of and repairs to damaged automobiles, or advances for doctor, hospital, and ambulance fees and charges, and other such expenditures made with respect to damaged property or injured persons, payment of which was the obligation of the insurer or the insured.

Revised May 1, 1947.

[Order ET 70-3, § 458-20-212 (Rule 212), filed 5/29/70, effective 7/1/70.]

WAC 458-20-214 Cooperative marketing associations and independent dealers acting as agents of others with respect to the sale of fruit and produce. (1) Persons engaged in the business of buying and selling fruit or produce, as agents of others, are taxable under the provisions of the business and occupation tax and the retail sales tax as provided in this section. Tax is due on the business activities of such persons, irrespective of whether the business is conducted as a cooperative marketing association or as an independent produce agent.

(2) Persons who derive income from receiving, washing, sorting, packing, or otherwise preparing for sale, perishable horticultural products for others are also subject to business and occupation tax, except when such activities are performed for the growers of such products (RCW 82.04.4287.)

(3) Business and occupation tax.

(a) Retailing. Taxable with respect to the sale of ladders, picking bags, and similar equipment to consumers.

(b) Wholesaling. Taxable with respect to:

(i) The sale of boxes, nails, labels and similar supplies sold to growers for their use in packing fruit and produce for sale;

(ii) The sale of insecticides used as spray for fruits and produce;

(c) Warehousing. Taxable with respect to gross income from cold storage warehousing, but not including the rental of cold storage lockers. See also WAC 458-20-182.

(d) Service and other business activities. Taxable with respect to:

(i) Commissions for buying or selling;

(ii) Charges made for interest, no deduction being allowed for interest paid;

(iii) Charges for handling;

(iv) Charges for receiving, washing, sorting, and packing of fresh perishable horticultural products and the material and supplies used therein, when performed for persons other than the growers thereof;

(v) Rentals of cold storage lockers; and

(vi) Other miscellaneous charges, including analysis fees, but excepting actual charges made for foreign brokerage and bona fide charges for receiving, washing, sorting and packing fresh perishable horticultural crops and the materials and supplies used therein when performed for the grower, either as agent or independent contractor.

(4) Where a seller performs packing services for the grower and furnishes the materials and supplies used therein, the amount of the charge therefor is deductible, even though the boxes and other packing material are loaned or charged to the grower prior to the time the fruit or produce is received for packing, provided that the boxes and packing materials are returned by the grower to the seller for use in packing fruit and produce for the grower.

(5) Retail sales tax.

(a) The retail sales tax applies to sales of ladders, picking bags, and other equipment sold to consumers, whether sold by associations to members, or by agents to their principals.

(b) Retail sales tax does not apply to sales of materials and supplies directly used by cooperative marketing associations, agents, or independent contractors for the purpose of packing fresh perishable horticultural products for the growers thereof. "Growers" are those persons described as exempt orchardists or farmers under RCW 82.04.330.

(c) Sales of food products are not subject to retail sales tax. See WAC 458-20-244.

(6) Use tax.

(a) The use tax applies upon the use by consumers of any article of tangible personal property which is subject to retail sales tax as noted above, but upon which retail sales tax has not been paid for any reason.

[Statutory Authority: RCW 82.32.300. 88-20-014 (Order 88-6), § 458-20-214, filed 9/27/88; 83-08-026 (Order ET 83-1), § 458-20-214, filed 3/30/83. Statutory Authority: RCW 82.01.060(2) and 82.32.300. 78-07-045 (Order ET 78-4), § 458-20-214, filed 6/27/78; Order ET 70-3, § 458-20-214 (Rule 214), filed 5/29/70, effective 7/1/70.]

WAC 458-20-216 Successors, quitting business. (1) **Introduction.** RCW 82.32.140 requires a taxpayer to remit any outstanding tax liability to the department of revenue (department) within ten days of quitting business. If this tax is not paid by the taxpayer, any successor to the taxpayer becomes liable for the outstanding tax. This rule explains under what circumstances a person is considered a successor to a person quitting business. It explains the successor's responsibility for payment of an outstanding tax liability owed by the taxpayer quitting business, whether that liability is known at the time of purchase or not. This rule also provides examples illustrating when successorship does or does not apply.

(2) **Who is a "successor"?**

(a) **"Successor" on or after July 1, 2003.**

(i) RCW 82.04.180 provides that a "successor" is:

(A) Any person to whom a taxpayer quitting, selling out, exchanging, or disposing of a business sells or otherwise conveys, directly or indirectly, in bulk and not in the ordinary course of the taxpayer's business, more than fifty percent of the fair market value of either the (I) tangible assets or (II) intangible assets of the taxpayer;

(B) Any surviving corporation of a statutory merger; or

(C) Any person obligated to fulfill the terms of a contract as a surety or guarantor of a defaulting contractor, in which case the person is deemed a successor only to tax liability arising out of that contract.

(ii) A person, however, is not a "successor" if the person acquires more than fifty percent of the fair market value of the tangible or intangible assets of the taxpayer through insolvency proceedings, regular legal proceedings to enforce a lien, security interest, or judgment, or by repossession under a security agreement.

(b) **"Successor" prior to July 1, 2003.**

(i) For the periods prior to July 1, 2003, a "successor" is:

(A) Any person to whom a taxpayer quitting, selling out, exchanging, or disposing of a business sells or otherwise conveys, directly or indirectly, in bulk and not in the ordinary course of business, a major part of the taxpayer's materials, supplies, merchandise, inventory, fixtures, or equipment, whether he or she operates the business or not. RCW 82.04.180. A person acquires a "major part" of the taxpayer's materials, supplies, merchandise, inventory, fixtures, or equipment if he or she acquired more than fifty percent of the fair market value of such property at the time of the sale or conveyance;

(B) Any person obligated to fulfill the terms of a contract as a surety or guarantor of a defaulting contractor, in which case the person is deemed a successor only to tax liability arising out of that contract.

(ii) A person, however, is not a "successor" if the person acquires a major part of a taxpayer's materials, supplies, merchandise, inventory, fixtures, or equipment through insolvency proceedings, regular legal proceedings to enforce a lien, security interest, or judgment, or by repossession under a security agreement.

(c) **Surviving corporation of statutory merger taken effect prior to July 1, 2003.** A surviving corporation of a statutory merger that takes effect prior to July 1, 2003, is liable for the full tax liability of the nonsurviving corporation, plus any interest or penalties due, under RCW 23B.11.060 or similar laws in other jurisdictions.

(3) **What are tangible and intangible assets for purposes of this rule?**

(a) **Tangible assets.** "Tangible assets" include, but are not limited to, materials, supplies, merchandise, inventory, equipment, or other tangible personal property.

(b) **Intangible assets.** "Intangible assets" include, but are not limited to, all moneys and credits including mortgages, notes, accounts, certificates of deposit; tax certificates; judgments; state, county and municipal bonds; bonds of the United States and of foreign countries; bonds, stocks, or shares of private corporations; personal service contracts; trademarks; trade names; brand names; patents; copyrights; trade secrets; franchise agreements; licenses; permits; core deposits of financial institutions; noncompete agreements; business name; telephone numbers and internet addresses; customer or patient lists; favorable contracts and financing agreements; reputation; exceptional management; prestige; good name; integrity of a business; or other intangible personal property.

(4) **What are taxpayer's responsibilities for outstanding tax liability?** Whenever a taxpayer quits business, or sells out, exchanges, or otherwise disposes of more than fifty percent of the tangible or intangible assets of the business, any tax administered by the department and for which the taxpayer is liable is immediately due and payable. The taxpayer must, within ten days, complete a tax return and pay the tax due. RCW 82.32.140.

(5) **What are successor's responsibilities for taxpayer's outstanding tax liability?**

(a) Withholding tax or obtaining documentation that no tax is due from taxpayer. A successor must withhold from the purchase price a sum sufficient to pay any tax due from the taxpayer until the taxpayer produces either a statement of tax status from the department showing payment in full of any tax due or a certificate from the department that no tax is due. If the tax is not paid by the taxpayer within ten days from the date of sale, exchange, or disposal of the business, the successor will become liable for the payment of the full amount of tax. A successor as defined in RCW 82.04.180 is not liable for interest or penalties associated with the taxpayer's tax liability. RCW 82.32.140.

(b) **Payment of successor liability is payment against purchase price.** The payment of the taxpayer's tax liability by the successor is deemed a payment upon the purchase price. If the sum of the payment to the department plus any payments made, directly or indirectly, to the taxpayer is greater in amount than the purchase price, the amount of the difference becomes a debt due the successor from the taxpayer. RCW 82.32.140.

(c) **Limitation on successor's responsibility for taxpayer's outstanding tax liability.** Effective July 1, 2003, if the fair market value of the assets acquired by a successor is less than fifty thousand dollars, the successor's liability for payment of the unpaid tax is limited to the fair market value of the assets acquired from the taxpayer. The burden of establishing the fair market value of the assets acquired is on the successor.

(6) **Can a successor avoid responsibility for taxpayer's outstanding tax liability?**

(a) **What must a successor do to avoid responsibility for tax due by a taxpayer?** A successor is not liable for any tax due from the taxpayer if the successor provides written notice of the acquisition to the department and within six months of receiving the written notice, the department has not issued a tax assessment against the taxpayer and mailed a copy of a notice of tax due to the successor. RCW 82.32.140. The six-month period begins upon the department's receipt of the written notice, or the date the person becomes a successor, whichever is later.

If there are circumstances that prohibit an audit from being completed within six months of the department receiving a proper written notice, the successor and the department may execute a Liability of Successor Waiver Agreement (Form Rev 31 0068) to extend the time in which the department may issue a tax assessment, and the successor will remain liable for the taxes. In lieu of executing such agreement, the department may issue a protective assessment under RCW 82.32.100 if the records cannot be made available for examination in a timely manner.

(b) **How does a successor notify to the department of the acquisition of a taxpayer?** Written notice of the acquisition must be made on a form prescribed by the department, or it must contain substantially the same information. The written notice must be provided by mailing to the Department of Revenue, Attn: Successorship Notices, P.O. Box 47476, Olympia, Washington 98504-7476.The written notice is available on the department's internet web site at www.dor.wa.gov under forms. The written notice must contain the following information:

(i) The (predecessor) taxpayer's name, business name, address, and UBI number;

(ii) The successor's name, business name, address, and UBI number;

(iii) The date of the acquisition;

(iv) Whether or not the successor acquired more than fifty percent of the tangible or intangible assets of the (predecessor) taxpayer;

(v) A description of the assets acquired and their estimated fair market value;

(vi) The total costs of acquisition; and

(vii) How the person became a successor (i.e., asset purchase, merger, guarantor of a defaulting contractor, etc.).

(7) **Disclosure.** The department is not prohibited from disclosing to a person against whom the department has asserted liability as a successor under RCW 82.32.140 return or tax information pertaining to the specific business of the taxpayer to which the person has succeeded. RCW 82.32.330. For example, a successor is liable under RCW 82.32.140 for payment of an outstanding tax liability of the predecessor taxpayer. The department is only authorized to provide the successor return or tax information related to that outstanding tax liability.

(8) **Tax deferrals not terminated.** A tax deferral granted to a (predecessor) taxpayer may be transferred to the successor if the successor meets the eligibility requirements for the remaining periods of the deferral and the parties agree in writing that the successor will assume liability for the tax deferral. RCW 82.60.060, 82.63.045, 82.68.050 and 82.69.050. If the deferral is transferred, the successor of the investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient of the deferral. If the deferral is not transferred, the successor's liability for deferred tax is limited to the deferred taxes due at the time of the transfer. Refer to WAC 458-20-24001 and 458-20-24001A (Sales and use tax deferral—Manufacturing and research/development activities in distressed areas), 458-20-24002 (Sales and use tax deferral—New manufacturing and research/development facilities), and 458-20-24003 (Tax incentives for high technology businesses) for further reference regarding successors of deferral investment projects.

(9) **Examples.** The following factual situations illustrate the application of successorship. These factual situations should be used only as a general guide. The successorship status of each situation depends on all the facts and circumstances. Assume all the examples below occur on or after July 1, 2003.

(a) **Example 1.** Taxpayer quits business and sells all equipment and inventory to one purchaser. The taxpayer may be either solvent or insolvent at the time of sale. The purchaser is a successor.

(b) **Example 2.** Taxpayer quits business, selling all of its intangible assets consisting of customer lists and a covenant not to compete. The purchaser is a successor.

(c) **Example 3.** Taxpayer sells its entire business, including all equipment (60% of its tangible assets) to Purchaser A, and all inventory (40% of its tangible assets) to Purchaser B. Purchaser A is a successor. Purchaser B is not a successor.

(d) **Example 4.** Taxpayer sells its entire business, including all assets as follows to three purchasers on January 1, 2004:

PURCHASER A	PURCHASER B	PURCHASER C
Inventory of $200,000	Equipment of $100,000	Receivable of $45,000

Purchaser A is a successor because it has acquired more than 50% of the fair market value, of the tangible assets of the taxpayer. Purchaser B is not a successor because it has acquired less than 50% of the fair market value of the tangible assets of the taxpayer. Purchaser C is a successor because it has acquired more than 50% of the intangible assets of the taxpayer. Purchaser C's tax liability is limited to $45,000 because the fair market value of the assets acquired is less than $50,000.

(i) On February 1, 2004, Purchaser C provides a proper written notice to the department regarding its purchase from the taxpayer. Purchaser A does not provide any written notice to the department regarding its purchase from the taxpayer. On September 30, 2004, the department issues a tax assessment to the taxpayer for $100,000 in taxes owed, plus penalties and interest. A copy of the tax assessment is also mailed to Purchaser A as a successor to the taxpayer. Purchaser A is liable for the $100,000 in taxes owed by the taxpayer since it did not provide a proper written notice to the department. Purchaser C is not liable for the $100,000 in taxes because it provided a proper written notice, and the department did not issue an assessment within six months of receiving the notice.

(ii) Same facts as in the previous example except the department issues its tax assessment on July 15, 2004, and mails a copy of the tax assessment to both Purchasers A and C as successors. Both Purchasers A and C are liable as successors for the taxes owed by the taxpayer. However, Purchaser C's liability is limited to $45,000 in taxes since the fair market value of the assets it acquired was less than $50,000.

(e) **Example 5.** Taxpayer obtains a loan from a financial institution to purchase equipment and inventory. The financial institution secures the loan by taking a security interest in the equipment and inventory. Taxpayer quits business, leaving the equipment and inventory behind. The financial institution repossesses these items. The financial institution is not a successor.

(f) **Example 6.** Taxpayer purchases all equipment and inventory under a line of credit extended by a bank and guaranteed by a third party. The third party perfects a security interest in the equipment and inventory. Taxpayer quits business, surrendering the equipment and inventory to the third party guarantor. The third party guarantor is not a successor.

(g) **Example 7.** Taxpayer leaves business, including equipment, materials, and inventory, which the landlord holds for unpaid rent. The landlord forecloses the landlord's lien using the summary foreclosure provisions of RCW 60.10.030, or holds a foreclosure sale by the sheriff, or accepts a bill of sale in satisfaction of the landlord's lien for rent created by RCW 60.72.010. The landlord is not a successor.

(h) **Example 8.** Taxpayer purchases all equipment and inventory under a security agreement.

(i) If the property is repossessed by the vendor, the vendor is not a successor.

(ii) If the taxpayer sells his or her equity under the security agreement to a third person, the third person is a successor.

(iii) If the equipment and inventory is not repossessed and the vendor buys back the interest of the taxpayer without following the summary foreclosure provisions of RCW 60.10.030, the vendor is a successor.

(i) **Example 9.** Taxpayer dies or becomes bankrupt, goes into receivership, or makes an assignment for the benefit of creditors. The executor, administrator, trustee, receiver, or assignee is not a successor but stands in the place of the taxpayer and is responsible for payment of tax out of the proceeds derived upon disposition of the assets. A purchaser from the executor, administrator, trustee, receiver, or assignee is not a successor, unless under the terms of the purchase agreement the purchaser assumes and agrees to pay taxes and/or lien claims.

(j) **Example 10.** Taxpayer is a contractor and is required to post a bond to insure completion of the contract. Taxpayer defaults on the contract and the bonding company completes it. The bonding company is a successor to the contractor to the extent of the contractor's liability for that particular contract and is also liable for taxes incurred in the completion of the contract.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 05-14-107, § 458-20-216, filed 6/30/05, effective 7/31/05. Statutory Authority: RCW 82.32.300. 99-08-034, § 458-20-216, filed 3/31/99, effective 5/1/99; Order ET 70-3, § 458-20-216 (Rule 216), filed 5/29/70, effective 7/1/70.]

WAC 458-20-217 Lien for taxes. (1) **Introduction.** This rule provides an overview of the administrative collection remedies and procedures available to the department of revenue (department) to collect unpaid and overdue tax liabilities. It discusses tax liens and the liens that apply to probate, insolvency, assignments for the benefit of creditors, bankruptcy and public improvement contracts. The rule also explains the personal liability of persons in control of collected but unpaid sales tax. Although the department may use judicial remedies to collect unpaid tax, most of the department's collection actions are enforced through the administrative collection remedies discussed in this rule.

(2) **Tax liens.** The department is not required to obtain a judgment in court to have a tax lien. A tax lien is created when a warrant issued under RCW 82.32.210 is filed with a superior court clerk who enters it into the judgment docket. A copy of the warrant may be filed in any county in this state in which the department believes the taxpayer has real and/or personal property. The department is not required to give a taxpayer notice prior to filing a tax warrant. *Peters v Sjoholm*, 95 Wn.2d 871, 877, 631 P.2d 937 (1981) *appeal dismissed, cert. denied* 455 U.S. 914 (1982). The tax lien is an encumbrance on property. The department may enforce a tax lien by administrative levy, seizure or through judicial collection remedies.

(a) **Attachment of lien.** The filed warrant becomes a specific lien upon all personal property used in the conduct of the business and a general lien against all other real and personal property owned by the taxpayer against whom the warrant was issued.

(i) The specific lien attaches to all goods, wares, merchandise, fixtures, equipment or other personal property used in the conduct of the business of the taxpayer. Other personal property includes both tangible and intangible property. For example, the specific lien attaches to business assets such as accounts receivable, chattel paper, royalties, licenses and franchises. The specific lien also attaches to property used in the business which is owned by persons other than the taxpayer who have a beneficial interest, direct or indirect, in the operation of the business. (See subsection (3) of this section for what constitutes a beneficial interest.) The lien is perfected on the date it is filed with the superior court clerk. The lien does not attach to property used in the business that was transferred prior to the filing of the warrant. It does attach to all property existing at the time the warrant is filed as well as property acquired after the filing of the warrant. No sale or transfer of such personal property affects the lien.

(ii) The general lien attaches to all real and personal nonbusiness property such as the taxpayer's home and nonexempt personal vehicles.

(b) **Lien priorities.** The department does not need to levy or seize property to perfect its lien. The lien is perfected when the warrant is filed. The tax lien is superior to liens that vest after the warrant is filed.

(i) The lien for taxes is superior to bona fide interests of third persons that vested prior to the filing of the warrant if such persons have a beneficial interest in the business.

(ii) The lien for taxes is also superior to any interest of third persons that vested prior to the warrant if the interest is a mortgage of real or personal property or any other credit transaction that results in the mortgagee or the holder of the security acting as the trustee for unsecured creditors of the taxpayer mentioned in the warrant.

(iii) In most cases, to have a vested or perfected security interest in personal property, the secured party must file a UCC financing statement indicating its security interest. RCW 62A.9-301. See RCW 62A.9-302 for the exceptions to this general rule. The financing statement must be filed prior to the filing of the tax warrant for the lien to be superior to the department's lien.

(c) **Period of lien.** A filed tax warrant creates a lien that is enforceable for the same period as a judgment in a civil case that is docketed with the clerk of the superior court. RCW 82.32.210(4). A judgment lien expires ten years from the date of filing. RCW 4.56.310. The department may extend the lien for an additional ten years by filing a petition for an order extending the judgment with the clerk of the superior court. The petition must be filed within ninety days of the expiration of the original ten-year period. RCW 6.17.-020.

(3) **Persons who have a beneficial interest in a business.** A third party who receives part of the profit, a benefit, or an advantage resulting from a contract or lease with the business has a beneficial interest in the operation of the business. A party whose only interest in the business is securing the payment of debt or receiving regular rental payments on equipment does not have a beneficial interest. Also, the mere loaning of money by a financial institution to a business and securing that debt with a UCC filing does not constitute a beneficial interest in the business. Rather, a party who owns property used by a delinquent taxpayer must also have a beneficial interest in the operation of that business before the lien will attach to the party's property. The definition of the term "beneficial interest" for purposes of determining lien priorities is not the same as the definition used for tax free transfers described in WAC 458-20-106.

(a) **Third party.** A third party is simply a party other than the taxpayer. For example, if the taxpayer is a corporation, an officer or shareholder of that corporation is a "third party" with a beneficial interest in the operation of the business. If the corporate insider has a security interest in property used by the business, the tax lien will be superior even if the corporate insider's lien was filed before the department's lien.

(b) **Beneficial interest of lessor.** In some cases a lessor or franchisor will have a beneficial interest in the leased or franchised business. For example, an oil company that leases a gas station and other equipment to an operator and requires the operator to sell its products is a third party with a beneficial interest in the business. Factors which support a finding of a beneficial interest in a business include the following:

(i) The business operator is required to pay the lessor or franchisor a percentage of gross receipts as rent;

(ii) The lessor or franchisor requires the business operator to use its trade name and restricts the type of business that may be operated on the premises;

(iii) The lease places restrictions on advertising and hours of operation; and/or

(iv) The lease requires the operator to sell the lessor's products.

(c) A third party who has a beneficial interest in a business with a filed lien is not personally liable for the amounts owing. Instead, the amount of tax, interest and penalties as reflected in the warrant becomes a specific lien upon the third party's property that is used in the business.

(4) **Notice and order to withhold and deliver.** A tax lien is sufficient to support the issuance of a writ of garnishment authorized by chapter 6.27 RCW. RCW 82.32.210(4). A tax lien also allows the department to issue a notice and order to withhold and deliver. A notice and order to withhold and deliver (order) is an administrative garnishment used by the department to obtain property of a taxpayer from a third party such as a bank or employer. See RCW 82.32.235. The department may issue an order when it has reason to believe that a party is in the possession of property that is or shall become due, owing or belonging to any taxpayer against whom a warrant has been filed.

(a) **Service of order.** The department may serve an order to withhold and deliver to any person, or to any political subdivision or department of the state. The order may be served by the sheriff or deputy sheriff of the county where service is made, by any authorized representative of the department, or by certified mail.

(b) **Requirement to answer order.** A person upon whom service has been made is required to answer the order in writing within twenty days of service of the order. The date of mailing or date of personal service is not included when calculating the due date of the answer. All answers must be true and made under oath. If an answer states that it cannot presently be ascertained whether any property is or shall become due, owing, or belonging to such taxpayer, the person served must answer when such fact can be ascertained. RCW 82.32.235.

(i) If the person served with an order possesses property of the taxpayer subject to the claim of the department, the party must deliver the property to the department or its duly authorized representative upon demand. If the indebtedness involved has not been finally determined, the department will hold the property in trust to apply to the indebtedness involved or for return without interest in accordance with the final determination of liability or nonliability. In the alternative, the department must be furnished a satisfactory bond conditioned upon final determination of liability. RCW 82.32.235.

(ii) If the party upon whom service has been made fails to answer an order to withhold and deliver within the time prescribed, the court may enter a default judgment against the party for the full amount claimed owing in the order plus costs. RCW 82.32.235.

(c) **Continuing levy.** A notice and order to withhold and deliver constitutes a continuing levy until released by the department. RCW 82.32.237.

(d) **Assets that may be attached.** Both tangible assets, as a vehicle, and intangible assets may be attached. Examples of intangible assets that may be attached by an order to withhold and deliver include, but are not limited to, checking or savings accounts; accounts receivable; refunds or deposits; contract payments; wages and commissions, including bonuses; liquor license deposits; rental income; dealer reserve accounts held by service stations or auto dealers; and funds held in escrow pending sale of a business. Certain insurance proceeds are subject to attachment such as the cash surrender value of a policy. The department may attach funds in a joint account that are owned by the delinquent taxpayer. Funds in a joint account with the right of survivorship are owned by the depositors in proportion to the amount deposited by each. RCW 30.22.090. The joint tenants have the burden to prove the separate ownership.

(e) **Assets exempt from attachment.** Examples of assets which are not attachable include Social Security, railroad retirement, welfare, and unemployment benefits payable by the federal or state government.

(5) **Levy upon real and/or personal property.** The department may issue an order of execution, pursuant to a filed warrant, directing the sheriff of the county in which the warrant was filed to levy upon and sell the real and/or personal property of the taxpayer in that county. RCW 82.32.220. If the department has reason to believe that a taxpayer has personal property in the taxpayer's possession that is not otherwise exempt from process or execution, the department may obtain a warrant to search for and seize the property. A search warrant is obtained from a superior or district court judge in the county in which the property is located. See RCW 82.32.245.

(6) **Probate, insolvency, assignment for the benefit of creditors or bankruptcy.** In all of these cases or conditions, the claim of the state for unpaid taxes and increases and penalties thereon, is a lien upon all real and personal property of the taxpayer. RCW 82.32.240. All administrators, executors, guardians, receivers, trustees in bankruptcy, or assignees for the benefit of creditors are required to notify the department of such administration, receivership, or assignment within sixty days from the date of their appointment and qualification. In cases of insolvency, this includes the duty of the person who is winding down the business to notify the department.

(a) The state does not have to take any action to perfect its lien. The lien attaches the date of the assignment for the benefit of creditors or of the initiation of the probate or bankruptcy. In cases of insolvency, the lien attaches at the time the business becomes insolvent. The lien, however, does not affect the validity or priority of any earlier lien that may have attached in favor of the state under any other provision of the Revenue Act.

(b) Any administrator, executor, guardian, receiver, or assignee for the benefit of creditors who does not notify the department as provided above is personally liable for payment of the taxes and all increases and penalties thereon. The personal liability is limited to the value of the property subject to administration that otherwise would have been available to pay the unpaid liability.

(c) In probate cases in which a surviving spouse or surviving domestic partner is separately liable for unpaid taxes and increases and penalties thereon, the department does not need to file a probate claim to protect the state's interest against the surviving spouse or surviving domestic partner. The department may collect from the separate property of the surviving spouse or surviving domestic partner and any assets formerly community property or property of the domestic partnership which become the property of the surviving spouse or the surviving domestic partner. If the deceased spouse or deceased domestic partner and/or the community or domestic partnership also was liable for the tax debt, the claim also could be asserted in the administration of the estate of the deceased spouse or deceased domestic partner.

(7) **Lien on retained percentage of public improvement contracts.** Every public entity engaging a contractor under a public improvement project of twenty thousand dollars or more, shall retain five percent of the total contract price, including all change orders, modifications, etc. This retainage is a trust fund held for the benefit of the department and other statutory claimants. In lieu of contract retainage, the public entity may require a bond. All taxes, increases, and penalties due or to become due under Title 82 RCW from a contractor or the contractor's successors or assignees with respect to a public improvement contract of twenty thousand dollars or more shall be a lien upon the amount of the retained percentage withheld by the disbursing officer under such contract. RCW 60.28.040.

(a) **Priorities.** The employees of a contractor or the contractor's successors or assignees who have not been paid the prevailing wage under the public improvement contract have a first priority lien against the bond or retainage. The department's lien for taxes, increases, and penalties due or to become due under such contract is prior to all other liens. The amount of all other taxes, increases and penalties due from the contractor is a lien upon the balance of the retained percentage after all other statutory lien claims have been paid. RCW 60.28.040.

(b) **Release of funds.** Upon final acceptance by the public entity or completion of the contract, the disbursing officer shall contact the department for its consent to release the funds. The officer cannot make any payment from the retained percentage until the department has certified that all taxes, increases, and penalties due have been paid or are readily collectible without recourse to the state's lien on the retained percentage. RCW 60.28.050 and 60.28.051.

(8) **Personal liability for unpaid trust funds.** The retail sales tax is to be held in trust. RCW 82.08.050. As a trust fund, the retail sales tax is not to be used to pay other corporate or personal debts. RCW 82.32.145 imposes personal liability on any responsible person who willfully fails

to pay or cause to be paid any collected but unpaid retail sales tax. Collection authority and procedures prescribed in chapter 82.32 RCW apply to the collection of trust fund liability assessments.

(a) **Responsible person.** A responsible person is any officer, member, manager, or other person having control or supervision of retail sales tax funds collected and held in trust or who has the responsibility for filing returns or paying the collected retail sales tax.

(i) A responsible person may have "control and supervision" of collected retail sales tax or the responsibility to report the tax under corporate bylaws, job description, or other proper delegation of authority. The delegation of authority may be established by written documentation or by conduct.

(ii) A responsible person must have significant but not necessarily exclusive control or supervision of the trust funds. Neither a sales clerk who only collects the tax from the customer nor an employee who only deposits the funds in the bank has significant supervision or control of the retail sales tax. An employee who has the responsibility to collect, account for, and deposit trust funds does have significant supervision or control of the tax.

(iii) A person is not required to be a corporate officer or have a proprietary interest in the business to be a responsible person.

(iv) A member of the board of directors, a shareholder, or an officer may have trust fund liability if that person has the authority and discretion to determine which corporate debts should be paid and approves the payment of corporate debts out of the collected retail sales trust funds.

(v) More than one person may have personal liability for the trust funds if the requirements for liability are present for each person.

(b) **Requirements for liability.** In order for a responsible person to be held personally liable for collected and unpaid retail sales tax:

(i) The tax must be the liability of a corporate or limited liability business;

(ii) The corporation must be terminated, dissolved, or abandoned;

(iii) The failure to pay must be willful; and

(iv) The department must not have a reasonable means of collecting the tax from the corporation.

(c) **Willful failure to pay.** A willful failure to pay means that the failure was an intentional, conscious, and voluntary course of action. An intent to defraud or a bad motive is not required. For example, using collected retail sales tax to pay other corporate obligations is a willful failure to pay the trust funds to the state.

(i) A responsible person depositing retail sales tax funds in a bank account knowing that the bank might use the funds to off-set amounts owing to it is engaging in a voluntary course of action. It is a willful failure to pay if the bank does exercise its right of set off which results in insufficient funds to pay the corporate retail sales tax that was collected and deposited in the account. To avoid personal liability in such a case, the responsible party can set aside the collected retail sales tax and not commingle it with other funds that are subject to attachment or set off.

(ii) If the failure to pay the trust funds to the state was due to reasons beyond that person's control, the failure to pay is not willful. For example, if the person responsible for remitting the tax provides evidence that the trust funds were unknowingly stolen or embezzled by another employee, the failure to pay is not considered willful. To find that a failure to pay the trust funds to the state was due to reasons beyond that person's control, the facts must show both that the circumstances caused the failure to pay the tax and that the circumstances were beyond the person's control.

(iii) If a responsible person instructs an employee or hires a third party to remit the collected sales tax, the responsible person is not relieved of personal liability for the tax if the tax is not paid.

(d) **Extent of liability.** Trust fund liability includes the collected but unpaid retail sales tax as well as the interest and penalties due on the tax.

(i) An individual is only liable for trust funds collected during the period he or she had the requisite control, supervision, responsibility, or duty to remit the tax, plus interest and penalties on those taxes. RCW 82.32.145(2).

(ii) Any retail sales taxes that were paid to the department but not collected may be deducted from the retail sales taxes collected but not paid.

(e) **No reasonable means of collection.** The department has "no reasonable means of collection" if the costs of collection would be more than the amount that could be collected; if the amount that might be recovered through a levy, foreclosure or other collection action would be negligible; or if the only means of collection is against a successor corporation.

(f) **Appeal of personal liability assessment.** Any person who receives a personal liability assessment is encouraged to request a supervisory conference if the person disagrees with the assessment. The request for the conference should be made to the department representative that issued the assessment or the representative's supervisor at the department's field office. A supervisory conference provides an opportunity to resolve issues with the assessment without further action. If unable to resolve the issue, the person receiving the assessment is entitled to administrative and judicial appeal procedures. RCW 82.32.145(4). See also RCW 82.32.160, 82.32.170, 82.32.180, 82.32.190, and 82.32.200.

While encouraged to request a supervisory conference, any person receiving a personal liability assessment may elect to forego the supervisory conference and proceed directly with an appeal of the assessment. Refer to WAC 458-20-100 for information about the department's administrative appeal procedures, including how to timely file a petition for appeal.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 08-16-073, § 458-20-217, filed 7/31/08, effective 8/31/08. Statutory Authority: RCW 82.32.-300. 02-15-158, § 458-20-217, filed 7/23/02, effective 8/23/02; 00-16-016, § 458-20-217, filed 7/21/00, effective 8/21/00; 88-01-050 (Order 87-9), § 458-20-217, filed 12/15/87; Order ET 71-1, § 458-20-217, filed 7/22/71; Order ET 70-3, § 458-20-217 (Rule 217), filed 5/29/70, effective 7/1/70.]

WAC 458-20-218 Advertising agencies. Advertising agencies are primarily engaged in the business of rendering professional services, but may also make sales of tangible personal property to their clients or others or make purchases of such articles as agents in behalf of their clients. Articles acquired or produced by advertising agencies may be for their own use in connection with the rendition of an advertising service or may be for resale as tangible personal property to their clients.

Business and Occupation Tax

The gross income received for advertising services, including commissions or discounts received upon articles purchased as agents in behalf of clients, is taxable under the service and other business activities classification. (See WAC 458-20-144 for discounts or commissions allowed by printers.) Included in this classification are amounts attributable to sales of tangible personal property, unless charges for such articles are separately stated in billings rendered to clients.

The retailing or wholesaling classification applies to articles of tangible personal property sold to persons for whom no advertising service is rendered and also to charges to clients for such articles if separately stated from charges for advertising services in billings rendered.

The manufacturing classification applies to articles manufactured for sale or commercial or industrial use (see WAC 458-20-134), and also to interstate sales of manufactured articles separately stated from advertising services. (General principles covering sales or services to persons in other states are contained in WAC 458-20-193.)

Retail Sales Tax

The retail sales tax applies upon all sales of plates, engravings, electrotypes, etchings, mats, and other articles to advertising agencies for use by them in rendering an advertising service and not resold to clients.

The retail sales tax must be paid by advertising agencies to vendors upon retail purchases made by them as agent in behalf of clients.

Advertising agencies are required to collect the retail sales tax upon charges taxable under the retailing classification as indicated hereinabove, and resale certificates may be given by advertising agencies in respect to purchases of such articles.

Use Tax

The use tax applies upon the use of articles purchased or manufactured for use in rendering an advertising service. Articles acquired without payment of retail sales tax which are resold to clients, but not separately stated from charges for advertising service, are also subject to use tax.

[Statutory Authority: RCW 82.32.300. 83-08-026 (Order ET 83-1), § 458-20-218, filed 3/30/83; Order ET 70-3, § 458-20-218 (Rule 218), filed 5/29/70, effective 7/1/70.]

WAC 458-20-221 Collection of use tax by retailers and selling agents. (1) **Statutory requirements.** RCW 82.12.040(1) provides that every person who maintains a place of business in this state, maintains a stock of goods in this state, or engages in business activities within this state must obtain a certificate of registration and must collect use tax from purchasers at the time it makes sales of tangible personal property for use in this state. The legislature has directed the department of revenue to specify, by rule, activities which constitute engaging in business activities within this state. These are activities which are sufficient under the Constitution of the United States to require the collection of use tax.

(2) **Definitions.**

(a) "Maintains a place of business in this state" includes:

(i) Maintaining, occupying, or using, permanently or temporarily, directly or indirectly, or through a subsidiary, or agent, by whatever name called, an office, place of distribution, sales or sample room or place, warehouse or storage place, or other place of business; or

(ii) Soliciting sales or taking orders by sales agents or traveling representatives.

(b) "Engages in business activities within this state" includes:

(i) Purposefully or systematically exploiting the market provided by this state by any media-assisted, media-facilitated, or media-solicited means, including, but not limited to, direct mail advertising, unsolicited distribution of catalogues, computer-assisted shopping, telephone, television, radio or other electronic media, or magazine or newspaper advertisements or other media; or

(ii) Being owned or controlled by the same interests which own or control any seller engaged in business in the same or similar line of business in this state; or

(iii) Maintaining or having a franchisee or licensee operating under the seller's trade name in this state if the franchisee or licensee is required to collect use tax.

(c) "Purposefully or systematically exploiting the market provided by this state" is presumed to take place if the gross proceeds of sales of tangible personal property delivered from outside this state to destinations in this state exceed five hundred thousand dollars during a period of twelve consecutive months.

(3) **Liability of buyers for use tax.** Persons in this state who buy articles of tangible personal property at retail are liable for use tax if they have not paid sales tax. See WAC 458-20-178.

(4) **Obligation of sellers to collect use tax.** Persons who obtain a certificate of registration, maintain a place of business in this state, maintain a stock of goods in this state, or engage in business activities within this state are required to collect use tax from persons in this state to whom they sell tangible personal property at retail and from whom they have not collected sales tax. Use tax collected by sellers shall be deemed to be held in trust until paid to the department. Any seller failing to collect the tax or, if collected, failing to remit the tax is personally liable to the state for the amount of tax. (For exceptions as to sale to certain persons engaged in interstate or foreign commerce see WAC 458-20-175.)

(5) **Local use tax.** Persons who are obligated to collect use tax solely because they are engaged in business activities within this state as defined in subsection (2)(b)(i) of this section may elect to collect local use tax at a uniform statewide rate of .005 without the necessity of reporting taxable sales to the local jurisdiction of delivery. Amounts collected under the uniform rate shall be allocated by the department to counties and cities in accordance with ratios reflected by the distribution of local sales and use taxes collected from all other taxpayers. Persons not electing to collect at the uniform statewide rate or not eligible to collect at the uniform state rate

shall collect local use tax in accordance with WAC 458-20-145.

(6) **Reporting frequency.** Persons who are obligated to collect use tax solely because they are engaged in business activities within this state as defined in subsection (2)(b) of this section shall not be required to file returns and remit use tax more frequently than quarterly.

(7) **Selling agents.** RCW 82.12.040 of the law provides, among other things, as follows:

(a) "Every person who engages in this state in the business of acting as an independent selling agent for persons who do not hold a valid certificate of registration, and who receives compensation by reason of sales of tangible personal property of his principals made for use in this state, shall, at the time such sales are made, collect from the purchasers the tax imposed under this chapter, and for that purpose shall be deemed a retailer as defined in this chapter."

(b) However, in those cases where the agent receives compensation by reason of a sale made pursuant to an order given directly to his principal by the buyer, and of which the agent had no knowledge at the time of sale, the said agent will be relieved of all liability for the collection of or payment of the tax. Furthermore, in other cases where payment is made by the buyer direct to the principal and the agent is unable to collect the tax from the buyer, the agent will be relieved from all liability for the collection of the tax from the buyer and for payment of the tax to the department, provided that within ten days after receipt of commission on any such sale, the agent shall forward to the department a written statement showing the following: Name and address of purchaser, date of sale, type of goods sold, and selling price. (Agents may avoid all liability for collection of this tax, provided their principals obtain a certificate of registration.)

(8) **Time and manner of collection.** The use tax is computed upon the value of the property sold. At the time of making a sale of tangible personal property, the use of which is taxable under the use tax, the seller must collect the tax from the purchaser and upon request give to the purchaser a receipt therefor. This receipt need not be in any particular form, and may be an invoice which identifies the property sold, shows the sale price thereof and the amount of the tax. It is a misdemeanor for a retailer to refund, remit, or rebate to a purchaser or transferee, either directly or indirectly, by whatever means, all or any part of the use tax.

(9) **Effective date.** This rule shall take effect on April 1, 1989.

[Statutory Authority: RCW 82.32.300. 89-06-016 (Order 89-4), § 458-20-221, filed 2/23/89, effective 4/1/89; 83-08-026 (Order ET 83-1), § 458-20-221, filed 3/30/83; Order ET 70-3, § 458-20-221 (Rule 221), filed 5/29/70, effective 7/1/70.]

WAC 458-20-222 Veterinarians. (1) **Introduction.** This rule explains Washington's business and occupation (B&O), retail sales, and use tax applications to sales and services provided by veterinarians. It explains the tax liability resulting from the performance of professional services and the sale of medicines and supplies for use in the care of animals. This rule also explains the tax liability of persons who provide other services for live animals including grooming, boarding, training, artificial insemination, and stud services.

(2) **Business and occupation tax.** Persons providing services for live animals are subject to the B&O tax as follows:

(a) **Service and other activities.** The service and other activities B&O tax applies to the gross income derived from veterinary services. For purposes of this rule, "veterinary services" includes the diagnosis, cure, mitigation, treatment, or prevention of disease, deformity, defect, wounds, or injuries of animals. It also includes the administration of any drug, medicine, method or practice, or performance of any operation, or manipulation, or application of any apparatus or appliance for the diagnosis, cure, mitigation, treatment, or prevention of any animal disease, deformity, defect, wound, or injury. "Veterinary services" does not include the therapeutic use of an item of personal property opened and partly administered by the veterinarian or by an assistant under his or her direction, and taken by the customer for further administration by the customer to the animal, provided the charge for the item is separately stated on the invoice.

(i) The gross income derived from veterinary services includes the amount paid by a customer for any drug, medicine, apparatus, appliance, or supply administered by the veterinarian or by an assistant under his or her direction, even when the charge is separately stated on the invoice from charges for other veterinary services.

(ii) The service and other activities B&O tax applies to the gross income derived from grooming, boarding, training, artificial insemination, stud services, or other services provided to live animals. However, if the person providing these services also sells tangible personal property to a consumer for a separate and distinct charge, the charge made for the tangible personal property is subject to the retailing classification of B&O tax.

(b) **Retailing.** The retailing classification of B&O tax applies to the gross income from the sale of drugs, medicines, or other substances or items of personal property to consumers when the sale is not part of veterinary services. The retailing classification applies only when the veterinarian does not administer, or only administers part of the drug, medicine, or other substance or item of personal property to the animal with further administration to be completed by the customer. Adequate records must be kept by the veterinarian to distinguish drugs, medicines, or other substances or items of personal property that are administered as part of veterinary services from those that are sold at retail. The retailing classification also applies to gross income from the sale of tangible personal property for which there is a separate and distinct charge, when sold by persons providing grooming, boarding, training, artificial insemination, stud services, or other services for live animals.

(3) **Retail sales tax.** The retail sales tax applies to all the retail sales identified under subsection (2) of this rule, unless a specific exemption applies.

(a) **Sales to veterinarians and others who provide services to live animals.** Sales of tangible personal property to veterinarians for use or consumption by them in performing veterinary services are retail sales upon which the retail sales tax must be collected. Such sales include, among others, sales of medicines, bandages, splints and other supplies primarily for use by veterinarians in performing their professional services. Sales of tangible personal property to persons who provide grooming, boarding, training, artificial insemination, stud services, or other services for live animals for use or consumption by those persons in performing their services are also retail sales upon which the retail sales tax must be collected.

Sales to veterinarians and others who purchase tangible personal property for the purpose of resale in the regular course of business without intervening use by the buyer are sales at wholesale and not subject to the retail sales tax, provided the buyer presents the seller with a resale certificate. Refer to WAC 458-20-102 (Resale certificates) for more information regarding the use of resale certificates, and particularly the subsection of that rule regarding purchases for dual purposes.

(b) **Sales to consumers.** Tangible personal property sold by a veterinarian to a consumer that is carried away by or left with the consumer is a retail sale and the retail sales tax must be collected. Items of personal property include those that the veterinarian may have opened and used for therapy but were taken by the consumer to complete the therapy. The tax applies whether the tangible personal property was sold at the time the professional services were performed or was sold subsequently, provided the charge for the item is separately stated. Sales to a consumer of tangible personal property by a person who provides other than veterinary services to live animals and who separately states the charges, are subject to retail sales tax and the retail sales tax must be collected. (See WAC 458-20-122 for additional information regarding sales of feed to farmers.)

(c) **Exemptions.** A retail sales tax exemption is available for sales of feed for purebred livestock used for breeding purposes, provided the seller obtains a completed purebred livestock exemption certificate from the buyer. Also exempt are sales of semen for use in the artificial insemination of livestock. These sales remain subject to the retailing B&O tax.

(4) **Use tax.** The use tax complements the retail sales tax by imposing a tax of like amount upon the use within this state as a consumer of any tangible personal property purchased at retail, where the user has not paid retail sales tax with respect to the purchase of the property used. (See also WAC 458-20-178.) If the seller fails to collect the appropriate retail sales tax, the purchaser is required to pay the retail sales or use tax directly to the department unless the purchase and/or use is exempt from tax. Complementary use tax exemptions are available for the use of those items identified in subsection (3)(c) of this rule. Veterinarians and others who provide services to live animals are required to pay use tax on any samples that they acquire or give away unless retail sales tax or use tax has been previously paid on these samples.

(5) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax status of other situations must be determined after a review of all of the facts and circumstances.

(a) A dog owner brings her dog to a veterinarian for professional services. The dog has multiple wounds and a broken leg. The veterinarian sets the broken bone and uses a cast and other appropriate therapeutic medicines on the dog in the course of treatment. The veterinarian also applies some salve to the wounds and gives the remainder of the salve to the dog's owner for application over the next few days. The veterinarian segregates the charges for the veterinary services, including the cast materials, and the medicines. The charge for the salve is also separately stated on the billing invoice. The gross income for the veterinary services is subject to the service and other activities B&O tax classification. This includes the charges for the cast materials and the medicines. The charge for the salve is considered a retail sale, and subject to the retailing B&O and retail sales taxes. If the veterinarian had previously paid sales or use tax on the salve, he or she is allowed a tax paid at source deduction (see also the discussion of tax paid at source deductions in WAC 458-20-102).

(b) AB boards other person's horses for a fee. When AB bills the customer, AB separately lists the charges for the boarding services and the feed. The gross income received by AB for boarding services is subject to B&O tax under the service classification. The charges for the feed are subject to the retailing B&O and retail sales taxes. However, a retail sales tax exemption is available for any sales of feed for purebred livestock, if the livestock is used for breeding purposes and AB obtains a completed purebred livestock exemption certificate from the customer.

(c) CD trains and boards dogs for various lengths of time. CD bills the customer a lump sum amount for the training and boarding, including feed for the dogs. The gross income received by CD is subject to B&O tax under the service classification. CD must pay retail sales tax or use tax on the feed it purchases for the dogs.

(d) EF is a farrier and shoes horses for others. When EF performs this service, he lists a separate charge on the invoice for the horseshoes. The charge for the horseshoeing service is subject to B&O tax under the service classification, and the separate charge for the horseshoes is subject to the retailing B&O and retail sales taxes. EF's purchases of the horseshoes are purchases for resale and not subject to the retail sales tax.

[Statutory Authority: RCW 82.32.300. 99-08-033, § 458-20-222, filed 3/31/99, effective 5/1/99; 83-08-026 (Order ET 83-1), § 458-20-222, filed 3/30/83; Order ET 70-3, § 458-20-222 (Rule 222), filed 5/29/70, effective 7/1/70.]

WAC 458-20-223 Persons performing contracts on the basis of time and material, or cost-plus-fixed-fee.

Business and Occupation Tax

Such persons are subject to business tax in accordance with the principles laid down in the department of revenue's published rules, as follows:

As to manufacturing or processing for hire, WAC 458-20-136;

As to constructing and repairing of new or existing buildings, WAC 458-20-170;

As to building or improving of publicly owned roads, etc., WAC 458-20-171;

As to contracts involving only the grading and clearing of land, WAC 458-20-172;

As to service and other business activities, WAC 458-20-224.

The measure of the tax under each of the foregoing types of contracts is the amount of profit or fixed fee received, plus the amount of reimbursements or prepayments received on account of sales of materials and supplies, on account of labor costs, on account of taxes paid, on account of payments made to subcontractors, and on account of all other costs and expenses incurred by the contractor, plus all payments made by his principal direct to a creditor of the contractor in payment of a liability incurred by the latter.

Retail Sales Tax

The retail sales tax applies upon sales made to or by contractors to the extent set forth in said WAC 458-20-136, 458-20-170, 458-20-171, 458-20-172 and 458-20-224.

[Statutory Authority: RCW 82.32.300. 83-08-026 (Order ET 83-1), § 458-20-223, filed 3/30/83; Order ET 70-3, § 458-20-223 (Rule 223), filed 5/29/70, effective 7/1/70.]

WAC 458-20-224 Service and other business activities. (1) Chapter 82.04 RCW imposes a tax upon every person for the privilege of engaging in business in this state. Persons engaged in the certain specifically named business activities are subject to a tax rate set out in the statute which is measured by value of products, gross sales or gross income, e.g.: Extracting, manufacturing, retailing, wholesaling, printing and publishing, and building and repairing of publicly owned streets and roads.

(2) Persons engaged in any business activity, other than or in addition to those for which a specific rate is provided in the statute, are taxable under a classification known as service and other business activities, and so designated upon return forms. In general, it includes persons rendering professional or personal services to persons (as distinguished from services rendered to personal property of persons) such as accountants, aerial surveyors and map makers, agents, ambulances, appraisers, architects, assayers, attorneys, automobile brokers, barbers, baseball clubs, beauty shop owners, brokers, chemists, chiropractors, collection agents, community television antenna owners, court reporters, dentists, detectives, employment agents, engineers, financiers, funeral directors, refuse collectors, hospital owners, janitors, kennel operators, laboratory operators, landscape architects, lawyers, loan agents, music teachers, oculists, orchestra or band leaders contracting to provide musical services, osteopathic physicians, physicians, real estate agents, school bus operators, school operators, sewer services other than collection, stenographers, warehouse operators who are not subject to other specific statutory tax classifications, teachers, theater operators, undertakers, veterinarians, and numerous other persons.

(3) It does not include persons engaged in the business of cleaning, repairing, improving, etc., the personal property of others, such as automobile, house, jewelry, radio, refrigerator and machinery repairmen, laundry or dry cleaners. Also, it does not include certain personal and professional services specifically included within the definition of the term "sale at retail" in RCW 82.04.050, such as amusement and recreation businesses of a participatory nature (see WAC 458-20-183); abstract, title insurance and escrow businesses, credit bureau businesses and automobile parking and storage garage businesses. Furthermore, it does not include persons who render services to others in the capacity of employees as distinguished from independent contractors. (See WAC 458-20-105.)

(4) Business and occupation tax. Persons engaged in any business activity, other than or in addition to those for which a specific rate is provided in chapter 82.04 RCW, are taxable under the service and other business activities classification upon gross income from such business.

(5) Persons engaged in a public service business taxable under chapter 82.16 RCW (see WAC 458-20-179) are exempt from business tax under chapter 82.04 RCW with respect to such businesses.

(6) Retail sales tax. The retail sales tax applies upon all sales of tangible personal property made to persons for use or consumption in performing a business activity which is taxable under the service and other business activities classification of chapter 82.04 RCW.

[Statutory Authority: RCW 82.32.300. 86-18-069 (Order 86-16), § 458-20-224, filed 9/3/86; 83-17-099 (Order ET 83-6), § 458-20-224, filed 8/23/83; 83-07-032 (Order ET 83-15), § 458-20-224, filed 3/15/83; Order ET 70-3, § 458-20-224 (Rule 224), filed 5/29/70, effective 7/1/70.]

WAC 458-20-226 Landscape and horticultural services. (1) **Introduction.** This rule provides tax reporting instructions for persons who provide landscape and horticultural services. This rule does not apply to silvicultural activities or to horticultural services provided to farmers. Silviculture means the commercial production of timber and includes activities such as growing seed into seedlings, planting, fertilizer and pesticide application, pruning and thinning as provided to timber growers. Silvicultural activities are generally subject to the extracting B&O tax classification or the service and other business activities B&O tax classification. (See WAC 458-20-135 and 458-20-224.)

(2) **Retail landscape and horticultural services.** Landscape and horticultural services which are retail sales include:

(a) Grading, filling, leveling, planting, seeding, sodding, removing, cutting, trimming, pruning, mulching, aerating, applying chemicals, watering, and fertilizing to establish, promote, or control the growth of trees, shrubs, flowers, grass, ground cover and other flora for ornamentation or other nonagricultural purposes.

(b) The sale or rental of landscaping materials and the construction of sprinkling systems, walks, pools, fences, trellises, rockeries, and retaining walls.

(c) Cultivating fruits, flowers, and vegetables for consumers other than farmers.

(d) All tree trimming other than for farmers or persons engaged in silviculture. This includes all trimming for size, shape, aesthetics, removal of diseased branches, and removal of limbs because they are too close to structures. It does not include tree trimming performed for public and private electric utilities or at the direction of electric utilities to keep power lines, distribution lines, or equipment free of tree branches or brush.

(3) **Nonretail landscape and horticultural services.** Landscape and horticultural services which are not retail sales include:

(a) Landscape design services performed by a landscape architect separate from a contract for landscape maintenance.

(b) Planting trees for farmers.

(c) Thinning or planting of trees for persons who are involved in the commercial production of timber. These are silvicultural activities and silvicultural activities are not considered to be horticultural or landscape maintenance activities. (See WAC 458-20-135 and 458-20-209.)

(d) Landscape services performed for municipal corporations or political subdivisions of the state on real property owned by those entities if the real property is used or held for public road purposes. (See WAC 458-20-171.)

(e) Horticultural services, including spraying and fertilizing, performed for farmers for agricultural purposes. See WAC 458-20-209 for examples of horticultural services performed for farmers.

(f) Pruning, trimming, repairing, removing, and clearing of trees and brush near electric transmission or distribution lines or equipment, if performed by or at the direction of an electric utility. The removing and clearing of trees includes the stump removal by grinding, digging, or any other means, if performed by or at the direction of an electric utility. These are retail activities when not performed by or at the direction of an electric utility.

(4) **Business and occupation tax.** The business and occupation tax applies as follows.

(a) **Retailing.** The gross income from landscape and horticultural services which are retail sales and which are performed for consumers is taxable under the retailing classification.

(b) **Wholesaling.** The gross income from services which are retail sales and which are performed for other contractors for resale is taxable under the wholesaling classification.

(c) **Service.** The gross income from horticultural services provided to farmers is taxable under the service and other activities classification. This tax classification also applies to income received from pruning, tree trimming, removing and clearing of trees and brush near electric lines, if performed by or at the direction of an electric utility. Beginning July 1, 1998, income from services performed by landscape architects is subject to this classification. (See chapter 7, Laws of 1997.) For the period July 1, 1993, through June 30, 1998, landscape architects who performed design services were taxable under the selected business service tax classification.

(d) **Public road construction.** Persons who perform landscape services for municipal corporations or political subdivisions of the state on real property owned by those entities are taxable under the public road construction B&O tax classification, but only if the real property is used or held for public road purposes.

(e) **Government contracting.** This classification applies to persons engaged in the business of constructing, repairing, decorating, or improving new or existing buildings or other structures for the United States, or a city or county housing authority created under chapter 35.82 RCW. This classification would include the construction or maintenance of items such as walls, fences, walks, pools and other structures. This classification does not include the planting of lawns or trees or the cutting of grass or tree trimming performed for these customers. These activities are subject to the retailing classification.

(5) **Retail sales and use tax.** Landscape gardeners and horticulturists, except horticulturists performing services for farmers, must generally collect and report the retail sales tax upon the full contract price when performing landscaping or horticultural services for consumers. For purposes of collecting the local option retail sales tax, the sale takes place where the service is performed. See WAC 458-20-145. The retail sales tax does not apply to charges to the United States for landscape services, including landscape maintenance services, and sellers may take a deduction from the retail sales tax classification in reporting those sales which are taxable under the retailing B&O tax classification.

(a) Persons performing a landscaping or horticultural service for a contractor for resale must provide a resale certificate. See WAC 458-20-102.

(b) Landscape gardeners and horticulturists must pay the retail sales tax to their vendors when purchasing tools, equipment, and supplies which are not resold, either directly or as a component part of the finished work. They must pay deferred sales or use tax directly to the department upon the value of any such property that was purchased or acquired without payment of Washington retail sales tax.

(c) Plants, shrubs, trees, sod, seed, chemicals, fertilizer, peat moss, sprinkler systems, rocks, building materials and any other tangible personal property which becomes a part of the finished work may be purchased for resale, except items used in providing horticultural services for farmers and items used in performing public road construction, government contracting, or services for timber growers.

(d) Retail sales tax or use tax is due with respect to items purchased by horticulturists for use in performing services for farmers. (See also WAC 458-20-209.)

(e) Retail sales tax or use tax is due with respect to items purchased for use in performing services for timber growers or which are taxable as either public road construction or government contracting. This includes items such as sod, seed, trees, building materials, fertilizers, spray materials, etc.

(f) The retail sales tax does not apply to the charge made by persons performing tree trimming near electric transmission or distribution lines, but only if the work is performed at the direction of an electric utility. Persons performing these services must pay retail sales or use tax on all materials, supplies, tools, and equipment used in performing the service.

(6) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all facts and circumstances.

(a) John Doe, a landscaper, was hired by a city to maintain the landscaping around the buildings at the city's municipal golf courses. He must collect and report the retail sales tax and pay retailing B&O tax on the full contract amount.

(b) John Doe purchased several plants, some fertilizer, and insect spray to use in landscaping the golf course. He also purchased some solvent and mineral oil to clean and maintain some of his landscaping tools. His purchases of the plants, fertilizer and insect spray are purchases for resale. He must pay retail sales tax to his vendors on his purchases of the solvent and mineral oil.

(c) Landscaping company provides complete landscaping services including landscape design by a licensed landscape architect, installation, and maintenance. Landscaping charged Jane Smith two hundred dollars for a landscaping plan for her new home. She planned to purchase the plants and do the landscaping work herself. Landscaping must report B&O tax on the charge for the design service at the service and other activities classification rate.

(d) Landscaping company entered into a contract to landscape the yard for a client's new home. The company must collect and report retail sales tax and pay retailing B&O on the full contract amount, even though part of Landscaping's services included drawing a landscaping plan.

(e) Landscaping company entered into a two-phase contract with a county. Phase one required the company to plant trees and shrubs and put in a sprinkling system as part of a public road project. The sprinkler system is located in the public road right of way. The contract provided Landscaping would receive five hundred thousand dollars for phase one of the project. Phase two provided that Landscaping would maintain the trees and shrubs for a period of five years. The contract provided for payments of four thousand dollars per month plus costs for fertilizer and spray for maintaining the planted strips.

(i) Phase one is part of public road construction and Landscaping is taxable under the public road construction classification upon the five hundred thousand dollars received for phase one. The company must pay sales tax when purchasing the trees and shrubs and materials for the sprinkling system for use in phase one of the project. See WAC 458-20-171 for the tax liability for public road construction.

(ii) Phase two for the maintenance of the completed project is also public road construction. This is not a retail sale because the work is performed for a municipal corporation or political subdivision of the state on land owned by that entity and which is being used for public road purposes. See RCW 82.04.190.

Landscaping will owe B&O tax under the public road construction classification and must pay retail sales or use tax on any items used in performing this work, including purchases of fertilizers, chemicals and other materials.

(f) John Doe operates a tree trimming business and has a contract with a public utility district (PUD) to trim trees along the PUD's power lines. Some of these trees are on private property with the PUD obtaining the permission of the owners to trim the trees. Some trees are also located on land for which the PUD has an easement, including along public road right of ways. This tree trimming is not a retail sale, but taxable under the service and other activities classification. This includes trimming performed along the road right of way. The property on the road right of way is not owned by the PUD for whom the work is being performed. The easement is not for use as a public road and as such the tree trimming is not public road construction.

(g) John Doe provides a tree trimming service to his residential customers. The tree trimming is performed at the direction of the residential customer to remove diseased limbs, limbs too close to the house, limbs which are a safety hazard because of their proximity to power lines, and limbs which are objectionable to the desired shape of the tree. All of this tree trimming is a retail activity, regardless of the specific reason for cutting the limbs.

[Statutory Authority: RCW 82.32.300. 99-09-013, § 458-20-226, filed 4/13/99, effective 5/14/99. Statutory Authority: RCW 82.32.300 and to implement RCW 82.04.050. 96-05-080, § 458-20-226, filed 2/21/96, effective 3/23/96. Statutory Authority: RCW 82.32.300 and 82.04.050 (3)(e). 94-23-053, § 458-20-226, filed 11/10/94, effective 12/11/94. Statutory Authority: RCW 82.32.300. 83-08-026 (Order ET 83-1), § 458-20-226, filed 3/30/83; Order ET 70-3, § 458-20-226 (Rule 226), filed 5/29/70, effective 7/1/70.]

WAC 458-20-227 Subscriber television services. (1) **Definitions.** The following definitions apply to this section.

(a) "Subscriber television" refers to all businesses providing television programming to consumers for a fee. It includes, but is not limited to, cable television and satellite television. Subscriber television often transmits to its customers special channels offering a variety of programming such as movies, sporting events, children's entertainment, news and other informational services.

(b) "Fee" includes the amount paid by the subscriber to receive the subscription television service. Generally, the fee consists of an amount for installation and a monthly charge for maintenance or service.

(2) **Business and occupation tax.** Persons engaging in the business of subscriber television are subject to the business and occupation tax as follows:

(a) Gross income derived from the charge made for installation and the monthly rental or service fee is subject to tax under the classification service and other activities. (See WAC 458-20-224.)

(b) Gross income derived from advertising revenues is subject to tax under the classification radio and television broadcasting. (See WAC 458-20-241.)

(c) No deductions from gross income may be taken for affiliate fees, video service fees, satellite fees, copyright fees, or any other amounts paid to other firms for special programming provided to subscribers.

(3) **Use tax.** Persons engaging in the business of subscriber television are subject to retail sales tax or use tax on all purchases of tangible personal property utilized or required in providing service to subscribers. (See WAC 458-20-178.)

[Statutory Authority: RCW 82.32.300. 91-05-039, § 458-20-227, filed 2/13/91, effective 3/16/91; 83-08-026 (Order ET 83-1), § 458-20-227, filed 3/30/83; Order ET 70-3, § 458-20-227 (Rule 227), filed 5/29/70, effective 7/1/70.]

WAC 458-20-228 Returns, payments, penalties, extensions, interest, stay of collection. (1) **Introduction.** This section discusses the responsibility of taxpayers to pay their tax by the appropriate due date, and the acceptable methods of payment. It discusses the interest and penalties that are imposed by law when a taxpayer fails to pay the correct amount of tax by the due date. It also discusses the circumstances under which the law allows the department of revenue (department) to waive interest or penalties.

(a) **Where can I get my questions answered, or learn more about what I owe and how to report it?** Washington's tax system is based largely on voluntary compliance. Taxpayers have a legal responsibility to become informed about applicable tax laws, to register with the department, to seek instruction from the department, to file accurate returns, and to pay their tax liability in a timely manner (chapter 82.32A RCW, Taxpayer rights and responsibilities). The department has a taxpayer services program to provide taxpayers with accurate tax-reporting assistance and instructions. The department staffs local district offices, maintains a toll-free question and information phone line (1-800-647-7706), provides information and forms on the internet (http://dor.wa.gov), and conducts free public workshops on tax reporting. The department also publishes notices, interpretive statements, and sections discussing important tax issues and changes. It's all friendly, free, and easy to access.

(b) **What is electronic filing (or e-file), and how can it help me?** Many common reporting errors are preventable when taxpayers take advantage of the department's electronic filing (e-file) system. E-file is an internet-based application that provides a secure and encrypted way for taxpayers to file and pay many of Washington state's business related excise taxes online. The e-file system helps taxpayers by performing all the math calculations and checking for other types of reporting errors. **Using e-file to file electronically will help taxpayers avoid penalties and interest related to unintentional underpayments and delinquencies.** Persons who wish to use e-file should access the department's internet site (http://dor.wa.gov) and open the page for electronic filing, which has additional links to pages answering frequently asked questions, and explaining the registration process for e-file. Taxpayers may also call the department's toll-free electronic filing help desk for more information, during regular business hours.

(c) **Index of subjects addressed in this section:**

Topic—Description	**See subsection**
Where can I get my questions answered, or learn more about what I owe and how to report it? - By phone or on-line, the department provides a number of free and easy resources to help you find answers. One of them is right for you.	(1)(a) of this section, (see above)
What is electronic filing (or e-file), and how can it help me? - E-filing guides you through the return and helps you avoid many common mistakes.	(1)(b) of this section, (see above)
Do I need to file a return? - How do I get returns and file them? Can I file my returns electronically?	(2) of this section
What methods of payment can I use? - What can I use to pay my taxes? Some taxpayers are required to pay electronically.	(3) of this section
When is my tax payment due? - Different reporting frequencies can have different due dates. What if the due date is a weekend or a holiday? If my payment is in the mail on the due date, am I late or on time?	(4) of this section
Penalties - What types of penalty exist? How big are they? When do they apply?	(5) of this section
Statutory restrictions on imposing penalties - More than one penalty can apply at the same time, but there are restrictions. Which penalties can be combined?	(6) of this section
Interest - In most cases interest is required. What interest rates apply? How is interest applied?	(7) of this section
Application of payment towards liability - Interest, penalties, and taxes are paid in a particular order. If my payment doesn't pay the entire liability, how can I determine what parts have been paid?	(8) of this section
Waiver or cancellation of penalties - I think I was on time, or I had a good reason for not paying the tax when I should have. What reasons qualify me for a waiver of penalty? How can I get a penalty removed?	(9) of this section
Waiver or cancellation of interest - Interest will only be waived in two limited situations. What are they?	(10) of this section
Stay of collection - Revenue will sometimes temporarily delay collection action on unpaid taxes. When can this happen? Can I request that revenue delay collection?	(11) of this section
Extensions - Can I get an extension of my due date? How long does an extension last?	(12) of this section

(2) **Do I need to file a return?** A "return" is defined as any paper or electronic document a person is required to file by the state of Washington in order to satisfy or establish a tax or fee obligation which is administered or collected by the department, and that has a statutorily defined due date. RCW 82.32.090(8).

(a) Returns and payments are to be filed with the department by every person liable for any tax which the department administers and/or collects, except for the taxes imposed under chapter 82.24 RCW (Tax on cigarettes), which are collected through sales of revenue stamps. Returns must be made upon forms, through the electronic filing (e-file) system (see subsection (1)(b) of this section), or by other means, provided or accepted by the department. The department provides tax returns upon request or when a taxpayer opens an active tax reporting account. Tax returns are generally mailed to all registered taxpayers prior to the due date of the tax. However, it remains the responsibility of taxpayers to timely request a return if one is not received, or to otherwise insure that their return is filed in a timely manner. E-file taxpayers do not receive paper returns. However, if an e-file taxpayer specifically requests it, the department will send an electronic reminder for each upcoming return as the time to file approaches.

(b) Taxpayers whose accounts are placed on an "active nonreporting" status do not automatically receive a tax return and must request a return, or register to file by e-file, if they no longer qualify for this reporting status. (See WAC 458-20-101, Tax registration, for an explanation of the active nonreporting status.)

(c) Some consumers may not be required to register with the department and obtain a tax registration endorsement. (Refer to WAC 458-20-101 for detailed information about tax registration and when it is required.) But even if they do not have to be registered, consumers may be required to pay use tax directly to the department if they have purchased items without paying Washington's sales tax. An unregistered consumer must report and pay their use tax liability directly to the department on a "Consumer Use Tax Return." Consumer use tax returns are available from the department at any of the local district offices. A consumer may also call the department's toll free number 1-800-647-7706 to request a consumer use tax return by fax or mail. Finally, the consumer use tax return is available for download from the department's internet site at http://dor.wa.gov, along with a number of other returns and forms which are available there.

The interest and penalty provisions of this rule may apply if use tax is not paid on time. Unregistered consumers should refer to WAC 458-20-178 (Use tax) for an explanation of their tax reporting responsibilities.

(3) **What methods of payment can I use?** Payment may be made by cash, check, cashier's check, money order, and in certain cases by electronic funds transfers, or other electronic means approved by the department.

(a) Payment by cash should only be made at an office of the department to ensure that the payment is safely received and properly credited.

(b) Payment may be made by uncertified bank check, but if the check is not honored by the financial institution on which it is drawn, the taxpayer remains liable for the payment of the tax, as well as any applicable interest and penalties. RCW 82.32.080. The department may refuse to accept any check which, in its opinion, would not be honored by the financial institution on which that check is drawn. If the department refuses a check for this reason the taxpayer remains liable for the tax due, as well as any applicable interest and penalties.

(c) The law requires that certain taxpayers pay their taxes through electronic funds transfers. The department notifies taxpayers who are required to pay their taxes in this manner, and can explain how to set up the electronic funds transfer process. (See WAC 458-20-22802 on electronic funds transfers.)

(4) **When is my tax payment due?** RCW 82.32.045 provides that payment of the taxes due with the excise tax return must be made monthly and within twenty-five days after the end of the month in which taxable activities occur, unless the department assigns the taxpayer a longer reporting frequency. Payment of taxes due with returns covering a longer reporting frequency are due on or before the last day of the month following the period covered by the return. (For example, payment of the tax liability for a first quarter tax return is due on April 30th.) WAC 458-20-22801 (Tax reporting frequency—Forms) explains the department's procedure for assigning a quarterly or annual reporting frequency.

(a) If the date for payment of the tax due on a tax return falls upon a Saturday, Sunday, or legal holiday, the filing shall be considered timely if performed on the next business day. RCW 1.12.070 and 1.16.050.

(b) The postmark date as shown by the post office cancellation mark stamped on the envelope will be considered conclusive evidence by the department in determining if a tax return or payment was timely filed or received. RCW 82.32.080. It is the responsibility of the taxpayer to mail the tax return or payment sufficiently in advance of the due date to assure that the postmark date is timely.

Refer to WAC 458-20-22802 (Electronic funds transfer) for more information regarding the electronic funds transfer process, due dates, and requirements.

(c) If a taxpayer suspects that it will not be able to file and pay by the coming due date, it may be able to obtain an extension of the due date to temporarily avoid additional penalties. Refer to subsection (12) of this section for details on requesting an extension.

(5) **Penalties.** Various penalties may apply as a result of the failure to correctly or accurately compute the proper tax liability, or to timely pay the tax. Separate penalties may apply and be cumulative for the same tax. Interest may also apply if any tax has not been paid when it is due, as explained in subsection (7) of this section. (The department's electronic filing system (e-file) can help taxpayers avoid additional penalties and interest. See subsection (1)(b) of this section for more information.)

The penalty types and rates addressed in this subsection are:

Penalty Type—Description	**Penalty Rate**	**See subsection**
Late payment of a return - Five percent added when payment is not received by the due date, and increases if the tax due remains unpaid.	5/15/25%	(5)(a) of this section
Unregistered taxpayer - Five percent added against unpaid tax when revenue discovers a taxpayer who has taxable activity but is not registered.	5%	(5)(b) of this section
Assessment - Five percent added when a tax assessment is issued if the tax was "substantially underpaid," and increases if the tax due remains unpaid.	5/15/25% or 0/15/25%	(5)(c) of this section
Issuance of a warrant - Ten percent added when a warrant is issued to collect unpaid tax, and does not require actual filing of a lien.	10%	(5)(d) of this section
Disregard of specific written instructions - Ten percent added when the department has provided specific, written reporting instructions and tax is underpaid because the instructions are not followed.	10%	(5)(e) of this section
Evasion - Fifty percent added when tax is underpaid and there is an intentional effort to hide that fact.	50%	(5)(f) of this section
Misuse of resale certificates - Fifty percent added against unpaid sales tax when a buyer uses a resale certificate but should not have.	50%	(5)(g) of this section

Penalty Type—Description	**Penalty Rate**	**See subsection**
Failure to remit sales tax to seller - Ten percent added against sales tax when the department proceeds directly against a buyer who fails to pay sales tax to the seller as part of a sales taxable retail purchase.	10%	(5)(h) of this section
Failure to obtain the contractor's unified business identifier (UBI) number - A flat two hundred fifty dollar maximum penalty (does not require any tax liability) when specified businesses hire certain contractors but do not obtain and keep the contractor's UBI number.	$250 max	(5)(i) of this section

(a) **Late payment of a return.** RCW 82.32.090(1) imposes a five percent penalty if the tax due on a taxpayer's return is not paid by the due date. A total penalty of fifteen percent is imposed if the tax due is not paid on or before the last day of the month following the due date, and a total penalty of twenty-five percent is imposed if the tax due is still not paid on or before the last day of the second month following the due date. The minimum penalty for late payment is five dollars.

Various sets of circumstances can affect how the late payment of a return penalty is applied. See (a)(i) through (iii) of this subsection for some of the most common circumstances.

(i) **Will I avoid the penalty if I file my return without the payment?** The department may refuse to accept any return which is not accompanied by payment of the tax shown to be due on the return. If the return is not accepted, the taxpayer is considered to have failed or refused to file the return. RCW 82.32.080. Failure to file the return can result in the issuance of an assessment for the actual, or an estimated, amount of unpaid tax. Any assessment issued may include an assessment penalty. (See RCW 82.32.100 and (c) of this subsection for details of when and how the assessment penalty applies.) If the tax return is accepted without payment and payment is not made by the due date, the late payment of return penalty will apply.

(ii) **What if my account is given an active nonreporting status, but I later have taxes I need to report and pay?** WAC 458-20-101 provides information about the active nonreporting status available for tax reporting accounts. In general, the active nonreporting status allows persons, under certain circumstances, to engage in business activities subject to the Revenue Act without filing excise tax returns. Persons placed on an active nonreporting status by the department are required to timely notify the department if their business activities no longer meet the conditions to be in active nonreporting status. One of the conditions is that the person is not required to collect or pay a tax the department is authorized to collect. The late payment of return penalty will be imposed if a person on active nonreporting status incurs a tax liability that is not paid by the due date for taxpayers that are on an annual reporting basis (i.e., the last day of January next succeeding the year in which the tax liability accrued).

(iii) **I didn't register my business with the department when I started it, and now I think I was supposed to be paying taxes! What should I do?** You should fill out and send in a Master Application to get your business registered. It is important for you to register before the department identifies you as an unregistered taxpayer and contacts you about your business activities. (WAC 458-20-101 provides information about registering your business.) Except as noted below, if a person engages in taxable activities while unregistered, but then registers prior to being contacted by the department, the registration is considered voluntary. When a person voluntarily registers, the late payment of return penalty does not apply to those specific tax-reporting periods representing the time during which the person was unregistered.

(A) However, even if the person has voluntarily registered as explained above, the late payment of return penalty will apply if the person:

(I) Collected retail sales tax from customers and failed to remit it to the department; or

(II) Engaged in evasion or misrepresentation with respect to reporting tax liabilities or other tax requirements; or

(III) Engaged in taxable business activities during a period of time in which the person's previously open tax reporting account had been closed.

(B) Even though other circumstances may warrant retention of the late payment of return penalty, if a person has voluntarily registered, the unregistered taxpayer penalty (see (b) of this subsection) will not be due.

(b) **Unregistered taxpayer.** RCW 82.32.090(4) imposes a five percent penalty on the tax due for any period of time where a person engages in a taxable activity and does not voluntarily register prior to being contacted by the department. "Voluntarily register" means to properly complete and submit a master application to any agency or entity participating in the unified business identifier (UBI) program for the purpose of obtaining a UBI number, all of which is done before any contact from the department. For example, if a person properly completes and submits a master application to the department of labor and industries for the purpose of obtaining a UBI number, and this is done prior to any contact from the department of revenue, the department considers that person to have voluntarily registered. A person has not voluntarily registered if a UBI number is obtained by any means other than submitting a properly completed master application. WAC 458-20-101 (Tax registration and tax reporting) provides additional information regarding the UBI program.

(c) **Assessment.** If the department issues an assessment for substantially underpaid tax, a five percent penalty will be added to the assessment when it is issued. If any tax included in the assessment is not paid by the due date, or by any extended due date, the penalty will increase to a total of fifteen percent against the amount of tax that remains unpaid. If any tax included in the assessment is not paid within thirty days of the original or extended due date, the penalty will further increase to a total of twenty-five percent against the amount of tax that remains unpaid. The minimum for this penalty is five dollars. RCW 82.32.090(2).

(i) As used in this section, "substantially underpaid" means that:

(A) The taxpayer has paid less than eighty percent of the amount of tax determined by the department to be due for all of the types of taxes included in, and for the entire period of time covered by, the department's examination; and

(B) The amount of underpayment is at least one thousand dollars. If both of these conditions are true when an assessment is issued, it will include the initial five percent assessment penalty. If factual adjustments are made after issuance of an assessment, and those adjustments change whether a taxpayer paid less than eighty percent of the tax due, the department will reevaluate imposition of the original five percent penalty.

(ii) If the initial five percent assessment penalty is included with an assessment when it is issued, the penalty is calculated against the total amount of tax that was not paid when originally due and payable (see RCW 82.32.045). Audit payments made prior to issuance of an assessment will be applied to the assessment after calculation of the initial five percent assessment penalty. At the discretion of the department, preexisting credits or amendments paid prior to an audit or unrelated to the scope of the assessment may be applied before the five percent assessment penalty is calculated, reducing the amount of the penalty. Additional assessment penalty is assessed against the amount of tax that remains unpaid at that particular time, after payments are applied to the assessment.

(d) **Issuance of a warrant.** If the department issues a tax warrant for the collection of any fee, tax, increase, or penalty, an additional penalty will immediately be added in the amount of ten percent of the amount of the tax due, but not less than ten dollars. RCW 82.32.090(3). Refer to WAC 458-20-217 for additional information on the application of warrants and tax liens.

(e) **Disregard of specific written instructions.** If the department finds that all or any part of a deficiency resulted from the disregard of specific written instructions as to reporting of tax liabilities, an additional penalty of ten percent of the additional tax found due will be imposed because of the failure to follow the instructions. RCW 82.32.090(5).

(i) **What is "disregard of specific written instructions"?** A taxpayer is considered to have received specific written instructions when the department has informed the taxpayer in writing of its tax obligations and specifically advised the taxpayer that failure to act in accordance with those instructions may result in this penalty being imposed. The specific written instructions may be given as a part of a tax assessment, audit, determination, or closing agreement. The penalty applies when a taxpayer does not follow the specific written instructions, resulting in underpayment of the tax due. The penalty may be applied only against the taxpayer given the specific written instructions. However, the taxpayer will not be considered to have disregarded the instructions if the taxpayer has appealed the subject matter of the instructions and the department has not issued its final instructions or decision.

(ii) **What if I try to follow the written instructions, but I still don't get it quite right?** The penalty will not be applied if the taxpayer has made a good faith effort to comply with specific written instructions.

(f) **Evasion.** If the department finds that all or any part of the deficiency resulted from an intent to evade the tax due, a penalty of fifty percent of the additional tax found to be due will be added. RCW 82.32.090(6). The evasion penalty is imposed when a taxpayer knows a tax liability is due but attempts to escape detection or payment of the tax liability through deceit, fraud, or other intentional wrongdoing. An intent to evade does not exist where a deficiency is the result of an honest mistake, miscommunication, or the lack of knowledge regarding proper accounting methods. The department has the burden of showing the existence of an intent to evade a tax liability through clear, cogent and convincing evidence.

(i) **Evasion penalty only applies to the specific taxes that a taxpayer intended to evade.** To the extent that the evasion involved only specific taxes, the evasion penalty will be added only to those taxes. The evasion penalty will not be applied to those taxes which were inadvertently underpaid. For example, if the department finds that the taxpayer intentionally understated the purchase price of equipment in reporting use tax and also inadvertently failed to collect or remit the sales tax at the correct rate on retail sales of merchandise, the evasion penalty will be added only to the use tax deficiency and not the sales tax.

(ii) **What actions may establish an intent to evade?** The following is a nonexclusive list of actions that are generally considered to establish an intent to evade a tax liability. This list should only be used as a general guide. A determination of whether an intent to evade exists may be ascertained only after a review of all the facts and circumstances.

(A) The use of an out-of-state address by a Washington resident to register property to avoid a Washington excise or use tax, when at the time of registration the taxpayer does not reside at the out-of-state address on a more than temporary basis. Examples of such an address include, but are not limited to, the residence of a relative, mail forwarding or post office box location, motel, campground, or vacation property;

(B) The willful failure of a seller to remit retail sales taxes collected from customers to the department; and

(C) The alteration of a purchase invoice or misrepresentation of the price paid for property (e.g., a used vehicle) to reduce the amount of tax owing.

(g) **Misuse of resale certificates.** Any buyer who uses a resale certificate to purchase items or retail services without payment of sales tax, and who is not entitled to use the certificate for the purchase, will be assessed a penalty of fifty percent of the tax due. RCW 82.32.291. The penalty can apply even if there was no intent to evade the payment of the tax. For more information concerning this penalty or the proper use of a resale certificate, refer to WAC 458-20-102 (Resale certificates).

(h) **Failure to remit sales tax to seller.** The department may assert an additional ten percent penalty against a buyer who has failed to pay the seller the retail sales tax on taxable purchases, if the department proceeds directly against the buyer for the payment of the tax. This penalty is in addition to any other penalties or interest prescribed by law. RCW 82.08.050.

(i) **Failure to obtain the contractor's unified business identifier (UBI) number.** If a person who is liable for any fee or tax imposed by chapters 82.04 through 82.27 RCW contracts with another person or entity for work subject to chapter 18.27 RCW (Registration of contractors) or chapter 19.28 RCW (Electricians and electrical installations), that person must obtain and preserve a record of the UBI number of the person or entity performing the work. A person failing to do so is subject to the public works contracting restrictions in RCW 39.06.010 (Contracts with unregistered or unlicensed contractors prohibited), and a penalty determined by the director, but not to exceed two hundred and fifty dollars. RCW 82.32.070(2).

(6) **Statutory restrictions on imposing penalties.** Depending on the circumstances, the law may impose more than one type of penalty on the same tax liability. However, those penalties are subject to the following restrictions:

(a) The penalties imposed for the late payment of a return, unregistered taxpayer, assessment, and issuance of a warrant (see subsection (5)(a) through (d) of this section) may be applied against the same tax concurrently, each unaffected by the others, up to their combined maximum rates. Application of one or any combination of these penalties does not prohibit or restrict full application of other penalties authorized by law, even when they are applied against the same tax. RCW 82.32.090(7).

(b) The department may impose either the evasion penalty (subsection (5)(f) of this section) or the penalty for disregarding specific written instructions (subsection (5)(e) of this section), but may not impose both penalties on the same tax. RCW 82.32.090(8). The department also will not impose the penalty for the misuse of a resale certificate (subsection (5)(g) of this section) in combination with either the evasion penalty or the penalty for disregarding specific written instructions on the same tax.

(7) **Interest.** The department is required by law to add interest to assessments for tax deficiencies and overpayments. RCW 82.32.050 and 82.32.060. Interest applies to taxes only. (Refer to WAC 458-20-229 for a discussion of interest as it relates to refunds and WAC 458-20-230 for a discussion of the statute of limitations as applied to interest.)

(a) For tax liabilities arising before January 1, 1992, interest will be added at the rate of nine percent per annum from the last day of the year in which the deficiency is incurred until the date of payment, or December 31, 1998, whichever comes first. Any interest accrued on these liabilities after December 31, 1998, will be added at the annual variable interest rates described below in (e) of this subsection. RCW 82.32.050.

(b) For tax liabilities arising after December 31, 1991, and before January 1, 1998, interest will be added at the annual variable interest rates described below in (e) of this subsection, from the last day of the year in which the deficiency is incurred until the date of payment.

(c) For interest imposed after December 31, 1998, interest will be added from the last day of the month following each calendar year included in a notice, or the last day of the month following the final month included in a notice if not the end of the calendar year, until the due date of the notice. However, for 1998 taxes only, interest may not begin to accrue any earlier than February 1, 1999, even if the last period included in the notice is not at the end of calendar year 1998. If payment in full is not made by the due date of the notice, additional interest will be due until the date of payment. The rate of interest continues at the annual variable interest rates described below in (e) of this subsection. RCW 82.32.050.

(d) **How is interest applied to an assessment that includes underpaid tax from multiple years?** The following is an example of how the interest provisions apply. Assume that a tax assessment is issued with a due date of June 30, 2000. The assessment includes periods from January 1, 1997, through September 30, 1999.

(i) For calendar year 1997 tax, interest begins January 1, 1998, (from the last day of the year). When the assessment is issued the interest is computed through June 30, 2000, (the due date of the assessment).

(ii) For calendar year 1998 tax, interest begins February 1, 1999, (from the last day of the month following the end of the calendar year). When the assessment is issued interest is computed through June 30, 2000, (the due date).

(iii) For the 1999 tax period ending with September 30, 1999, interest begins November 1, 1999, (from the last day of the month following the last month included in the assessment period). When the assessment is issued interest is computed through June 30, 2000, (the due date).

(iv) Interest will continue to accrue on any portion of the assessed taxes which remain unpaid after the due date, until the date those taxes are paid.

(e) **How is each year's interest rate determined?** The annual variable interest rate will be an average of the federal short-term rate as defined in 26 U.S.C. Sec. 1274(d) plus two percentage points. The rate for each new year will be computed by taking an arithmetical average to the nearest percentage point of the federal short-term rate, compounded annually. The average is calculated using the federal short-term rates from January, April, July of the calendar year immediately preceding the new year, and October of the previous preceding year, as published by the United States Secretary of the Treasury. The interest rate will be adjusted on the first day of January of each year.

(f) **How is the interest applied if an assessment includes some years that are underpaid and some that are overpaid?** If the assessment contains tax deficiencies in some years and overpayments in other years with the net difference being a tax deficiency, the interest rate for tax deficiencies will also be applied to the overpayments. (Refer to WAC 458-20-229 for interest on refunds.)

(8) **Application of payment towards liability.** The department will apply taxpayer payments first to interest, next to penalties, and then to the tax, without regard to any direction of the taxpayer. RCW 82.32.080.

In applying a partial payment to a tax assessment, the payment will first be applied against the oldest tax liability. For purposes of RCW 82.32.145 (Termination, dissolution, or abandonment of corporate business—Personal liability of person in control of collected sales tax funds), it will be assumed that any payments applied to the tax liability will be first applied against any retail sales tax liability. For example, an audit assessment is issued covering a period of two years, which will be referred to as "YEAR 1" (the earlier year) and "YEAR 2" (the most recent year). The tax assessment includes total interest and penalties for YEAR 1 and YEAR 2 of five hundred dollars, retail sales tax of four hundred dollars for YEAR 1, six hundred dollars retail sales tax for YEAR 2, two thousand dollars of other taxes for YEAR 1, and seven thousand dollars of other taxes for YEAR 2. The order of application of any payments will be first against the five hundred dollars of total interest and penalties, second against the four hundred dollars retail sales tax in YEAR 1, third against the two thousand dollars of other taxes in YEAR 1, fourth against the six hundred dollars retail sales tax of YEAR 2, and finally against the seven thousand dollars of other taxes in YEAR 2.

(9) **Waiver or cancellation of penalties.** RCW 82.32.105 authorizes the department to waive or cancel penalties under limited circumstances.

(a) **Circumstances beyond the control of the taxpayer.** The department will waive or cancel the penalties imposed under chapter 82.32 RCW upon finding that the underpayment of the tax, or the failure to pay any tax by the due date, was the result of circumstances beyond the control of the taxpayer. It is possible that a taxpayer will qualify for a waiver of one type of penalty, without obtaining a waiver for all penalties associated with a particular tax liability. Circumstances determined to be beyond the control of the taxpayer when considering a waiver of one type of penalty are not necessarily pertinent when considering a waiver of a different penalty type. For example, circumstances that qualify for waiver of a late payment of return penalty do not necessarily also justify waiver of the assessment penalty or the penalty for misuse of a resale certificate. Refer to WAC 458-20-102 (Resale certificates) for examples of circumstances which are beyond the control of the taxpayer specifically regarding the penalty for misuse of resale certificates found in RCW 82.32.291.

(i) A request for a waiver or cancellation of penalties should contain all pertinent facts and be accompanied by such proof as may be available. The taxpayer bears the burden of establishing that the circumstances were beyond its control and directly caused the late payment. The request should be made in the form of a letter; however, verbal requests may be accepted and considered at the discretion of the department. Any petition for correction of assessment submitted to the department's appeals division for waiver of penalties must be made within the period for filing under RCW 82.32.160 (within thirty days after the issuance of the original notice of the amount owed or within the period covered by any extension of the due date granted by the department), and must be in writing, as explained in WAC 458-20-100 (Appeals, small claims and settlements). Refund requests must be made within the statutory limitation period.

(ii) The circumstances beyond the control of the taxpayer must actually cause the late payment. Circumstances beyond the control of the taxpayer are generally those which are immediate, unexpected, or in the nature of an emergency. Such circumstances result in the taxpayer not having reasonable time or opportunity to obtain an extension of the due date or otherwise timely file and pay. Circumstances beyond the control of the taxpayer include, but are not necessarily limited to, the following.

(A) The return payment was mailed on time but inadvertently sent to another agency.

(B) Erroneous written information given to the taxpayer by a department officer or employee caused the delinquency. A penalty generally will not be waived when it is claimed that erroneous oral information was given by a department employee. The reason for not cancelling the penalty in cases of oral information is because of the uncertainty of the facts presented, the uncertainty of the instructions or information imparted by the department employee, and the uncertainty that the taxpayer fully understood the information given. Reliance by the taxpayer on incorrect advice received from the taxpayer's legal or accounting representative is not a basis for cancellation of a penalty.

(C) The delinquency was directly caused by death or serious illness of the taxpayer, or a member of the taxpayer's immediate family. The same circumstances apply to the taxpayer's accountant or other tax preparer, or their immediate family. This situation is not intended to have an indefinite application. A death or serious illness which denies a taxpayer reasonable time or opportunity to obtain an extension or to otherwise arrange timely filing and payment is a circumstance eligible for penalty waiver.

(D) The delinquency was caused by the unavoidable absence of the taxpayer or key employee, prior to the filing date. "Unavoidable absence of the taxpayer" does not include absences because of business trips, vacations, personnel turnover, or terminations.

(E) The delinquency was caused by the destruction by fire or other casualty of the taxpayer's place of business or business records.

(F) The delinquency was caused by an act of fraud, embezzlement, theft, or conversion on the part of the taxpayer's employee or other persons contracted with the taxpayer, which the taxpayer could not immediately detect or prevent, provided that reasonable safeguards or internal controls were in place. See (a)(iii)(E) of this subsection.

(G) The department does not respond to the taxpayer's request for a tax return (or other forms necessary to compute the tax) within a reasonable period of time, which directly causes delinquent filing and payment on the part of the taxpayer. This assumes that, given the same situation, if the department had provided the requested form(s) within a reasonable period of time, the taxpayer would have been able to meet its obligation for timely payment of the tax. In any case, the taxpayer has responsibility to insure that its return is filed in a timely manner (e.g., by keeping track of pending due dates) and must anticipatively request a return for that purpose, if one is not received. (Note: Tax returns and other forms are immediately available to download at no cost from the department's internet site, http://dor.wa.gov. When good cause exists, taxpayers are advised to contact the department and request an extension of the due date for filing, before the due date of concern has passed. See subsection (12) of this section. Taxpayers who have registered to file electronically with e-file will avoid potential penalties relating to unreceived paper returns. See subsection (1)(b) of this section.)

(iii) The following are examples of circumstances that are generally not considered to be beyond the control of the taxpayer and will not qualify for a waiver or cancellation of penalty:

(A) Financial hardship;

(B) A misunderstanding or lack of knowledge of a tax liability;

(C) The failure of the taxpayer to receive a tax return form, EXCEPT where the taxpayer timely requested the form and it was still not furnished in reasonable time to mail the return and payment by the due date, as described in (a)(ii)(G) of this subsection;

(D) Registration of an account that is not considered a voluntary registration, as described in subsection (5)(a)(iii) and (b) of this section;

(E) Mistakes or misconduct on the part of employees or other persons contracted with the taxpayer (not including conduct covered in (a)(ii)(F) of this subsection); and

(F) Reliance upon unpublished, written information from the department that was issued to and specifically addresses the circumstances of some other taxpayer.

(b) **Waiver of the late payment of return penalty.** The late payment of return penalty (see subsection (5)(a) of this section) may be waived either as a result of circumstances beyond the control of the taxpayer (RCW 82.32.105(1) and (a) of this subsection) or after a twenty-four month review of the taxpayer's reporting history, as described below.

(i) If the late payment of return penalty is assessed on a return but is not the result of circumstances beyond the control of the taxpayer, the penalty will still be waived or canceled if the following two circumstances are satisfied:

(A) The taxpayer requests the penalty waiver for a tax return which was required to be filed under RCW 82.32.045 (taxes reported on the combined excise tax return), RCW 82.23B.020 (oil spill response tax), RCW 82.27.060 (tax on enhanced food fish), RCW 82.29A.050 (leasehold excise tax), RCW 84.33.086 (timber and forest lands), RCW 82.14B.030 (tax on telephone access line use); and

(B) The taxpayer has timely filed and paid all tax returns due for that specific tax program for a period of twenty-four months immediately preceding the period covered by the return for which the waiver is being requested. RCW 82.32.-105(2).

If a taxpayer has obtained a tax registration endorsement with the department prior to engaging in business within the state and has engaged in business activities for a period less than twenty-four months, the taxpayer is eligible for the waiver if the taxpayer had no delinquent tax returns for periods prior to the period covered by the return for which the waiver is being requested. As a result, the taxpayer's very first return due can qualify for a waiver under the twenty-four month review provision. (See also WAC 458-20-101 for more information regarding the tax registration and tax reporting requirements.) This is the only situation under which the department will consider a waiver when the taxpayer has not timely filed and paid tax returns covering an immediately preceding twenty-four month period.

(ii) A return will be considered timely for purpose of the waiver if there is no tax liability on it when it is filed. Also, a return will be considered timely if any late payment penalties assessed on it were waived or canceled due to circumstances beyond the control of the taxpayer (see (a) of this subsection). The number of times penalty has been waived due to circumstances beyond the control of the taxpayer does not influence whether the waiver in this subsection will be granted. A taxpayer may receive more than one of the waivers in this subsection within a twenty-four month period if returns for more than one of the listed tax programs are filed, but no more than one waiver can be applied to any one tax program in a twenty-four month period.

For example, a taxpayer files combined excise tax returns as required under RCW 82.32.045, and timber tax returns as required under RCW 84.33.086. This taxpayer may qualify for two waivers of the late payment of return penalty during the same twenty-four month period, one for each tax program. If this taxpayer had an unwaived late payment of return penalty for the combined excise tax return during the previous twenty-four month period, the taxpayer may still qualify for a penalty waiver for the timber tax program.

(iii) The twenty-four month period reviewed for this waiver is not affected by the due date of the return for which the penalty waiver is requested, even if that due date has been extended beyond the original due date.

For example, assume a taxpayer's September 2003 return has had the original due date of October twenty-fifth extended to November twenty-fifth. The return and payment are received after the November twenty-fifth extended due date. A penalty waiver is requested. Since the delinquent return represented the month of September 2003, the twenty-four months which will be reviewed begin on September 1, 2001, and end with August 31, 2003, (the twenty-four months prior to September 2003). All of the returns representing that period of time will be included in the review. The extension of the original due date has no effect on the twenty-four month period under review.

(iv) A twenty-four month review is only valid when considering waiver of the late payment of return penalty described in subsection (5)(a) of this section. The twenty-four month review process cannot be used as justification for a waiver of interest, assessment penalty, or any penalty other than the late payment of return penalty.

(10) **Waiver or cancellation of interest.** The department will waive or cancel interest imposed under chapter 82.32 RCW only in the following situations:

(a) The failure to pay the tax prior to issuance of the assessment was the direct result of written instructions given the taxpayer by the department; or

(b) The extension of the due date for payment of an assessment was not at the request of the taxpayer and was for the sole convenience of the department. RCW 82.32.105(3).

(11) **Stay of collection.** RCW 82.32.190 allows the department to initiate a stay of collection, without the request of the taxpayer and without requiring any bond, for certain tax liabilities when they may be affected by the outcome of a question pending before the courts (see (a) of this subsection). RCW 82.32.200 provides conditions under which the department, at its discretion, may allow a taxpayer to file a bond in order to obtain a stay of collection on a tax assessment (see (b) of this subsection). The department will grant a taxpayer's stay of collection request, as described in RCW 82.32.200, only when the department determines that a stay is in the best interests of the state.

(a) Circumstances under which the department may consider initiating a stay of collection without requiring a bond (RCW 82.32.190) include, but are not necessarily limited to, the existence of the following:

(i) A constitutional issue to be litigated by the taxpayer, the resolution of which is uncertain;

(ii) A matter of first impression for which the department has little precedent in administrative practice; or

(iii) An issue affecting other similarly situated taxpayers for whom the department would be willing to stay collection of the tax.

(b) The department will give consideration to a request for a stay of collection of an assessment (RCW 82.32.200) if:

(i) A written request for the stay is made prior to the due date for payment of the assessment; and

(ii) Payment of any unprotested portion of the assessment and other taxes due is made timely; and

(iii) The request is accompanied by an offer of a cash bond, or a security bond that is guaranteed by a specified authorized surety insurer. The amount of the bond will generally be equal to the total amount of the assessment, including any penalties and interest. However, where appropriate, the department may require a bond in an increased amount not to exceed twice the amount for which the stay is requested.

(c) Claims of financial hardship or threat of litigation are not grounds that justify the granting of a stay of collection. However, the department will consider a claim of significant financial hardship as grounds for staying collection procedures, but this will be done only if a partial payment agreement is executed and kept in accordance with the department's procedures and with such security as the department deems necessary.

(d) If the department grants a stay of collection, the stay will be for a period of no longer than two calendar years from the date of acceptance of the taxpayer request, or thirty days following a decision not appealed from by a tribunal or court of competent jurisdiction upholding the validity of the tax assessed, whichever date occurs first. The department may extend the period of a stay originally granted, but only for good cause shown.

(e) Interest will continue to accrue against the unpaid tax portion of a liability under stay of collection. Effective January 1, 1997, the interest rates prescribed by RCW 82.32.190 and 82.32.200 changed from nine percent and twelve percent per annum, respectively, to the same predetermined annual variable rates as are described in subsection (7)(e) of this section.

(12) **Extensions.** The department, for good cause, may extend the due date for filing any return. Any permanent extension more than ten days beyond the due date, and any temporary extension in excess of thirty days, must be conditional upon deposit by the taxpayer with the department of an amount equal to the estimated tax liability for the reporting period or periods for which the extension is granted. This deposit is credited to the taxpayer's account and may be applied to the taxpayer's liability upon cancellation of the permanent extension or upon reporting of the tax liability where a temporary extension of more than thirty days has been granted.

The amount of the deposit is subject to departmental approval. The amount will be reviewed from time to time, and a change may be required at any time that the department concludes that such amount does not approximate the tax liability for the reporting period or periods for which the extension was granted.

WAC 458-20-22801 Tax reporting frequency—Forms. (1) Introduction. Every person liable for an excise tax imposed by the laws of the state of Washington for which the department of revenue has primary or secondary administrative responsibility, i.e., Title 82 RCW and chapters 67.28 (Hotel/motel tax), 70.93 (Litter tax), 70.95 (Tax on tires), and 84.33 RCW (Forest excise tax), shall file a tax return with the department of revenue accompanied by a payment of the tax due; Provided, The taxes under chapter 82.24 RCW (Tax on cigarettes) shall be collected through sales of revenue stamps.

(2) Reporting frequency—Forms. Combined excise tax returns with payments of the tax due are to be filed monthly. However, the department may relieve any taxpayer or class of taxpayers from this monthly obligation and may require the return to cover other longer reporting periods, but not in excess of one year. See: RCW 82.32.045.

(a) General rule. Unless otherwise provided by the department, a taxpayer shall report and pay taxes due according to the following schedule:

IF ANNUAL ESTIMATED TAX LIABILITY IS:	REPORTING FREQUENCY
Over $4800.00 per year	Monthly returns:
Between $1050.00 & $4800.00 per year	Quarterly returns:
Less than $1050.00 per year	Annual returns:

(b) When requested by a taxpayer or group of taxpayers, the department may approve more frequent or less frequent reporting if, in the opinion of the department, the change assists the department in the efficient and effective administration of the tax laws of this state.

(c) For the same reasons, the department may require a taxpayer or group of taxpayers to report more frequently or less frequently. Changes in reporting frequency are effective only after the department has consented to or required the change, and notice of the change has been given by the department to the taxpayer or group of taxpayers.

(d) Situations when changes in reporting frequency may be approved or required include, but are not limited to, the following:

(i) An increase or decrease in the estimated annual tax liability of a taxpayer results in a different threshold as provided in section (2)(a) above;

(ii) A taxpayer or group of taxpayers has substantial periods of no taxable business activity during the calendar year, i.e., seasonal businesses;

(iii) The department finds a taxpayer or a group of taxpayers has repeatedly failed to comply with tax reporting and/or payment obligations.

(e) Notice. No change in reporting frequency shall be effective except upon at least thirty days advance written notice from the department to the taxpayer at the taxpayer's last reported business address.

(f) Forms. Returns shall be made upon forms provided or approved and accepted by the department. Forms provided by the department are mailed to all registered taxpayers prior to the due date of the tax.

(g) Taxes not reported upon the combined excise tax return, i.e. forest excise tax, etc. shall be reported at such times and upon such forms as are otherwise provided by the department.

(3) See WAC 458-20-228 for information on returns, remittances, penalties, extensions, stay of collection.

[Statutory Authority: RCW 82.32.300 and 82.32.045. 90-05-044, § 458-20-22801, filed 2/15/90, effective 3/18/90.]

WAC 458-20-22802 Electronic funds transfer. (1) **Introduction.** Certain taxpayers are required to pay the taxes reported on the combined excise tax return with an electronic funds transfer (EFT). RCW 82.32.080. Taxpayers who are not required to pay by EFT may still use this method of payment if they notify the department of their desire to pay by EFT in advance of making their first EFT payment. Taxpayers who are either required or voluntarily choose to pay their excise tax returns by EFT must furnish the department with the necessary information, as described in subsection (9) of this section.

(2) **Definitions.** For the purposes of this section, the following terms will apply:

(a) "Electronic funds transfer" or "EFT" means any transfer of funds, other than a transaction originated by check, draft, or similar paper instrument, which is initiated through an electronic terminal, telephonic instrument, or computer or magnetic tape so as to order, instruct, or authorize a financial institution to debit or credit an account.

(b) "ACH" or "automated clearing house" means a central distribution and settlement system for the electronic clearing of debits and credits between financial institutions.

(c) "ACH debit" means the electronic transfer of funds cleared through the ACH system that is generated by the taxpayer instructing the department's bank to charge the taxpayer's account and deposit the funds to the department's account.

(d) "ACH credit" means the electronic transfer of funds cleared through the ACH system that is generated by the taxpayer instructing the taxpayer's bank to charge the taxpayer's account and deposit the funds to the department's account.

(e) "Department's bank" means the bank with which the department of revenue has a contract to assist in the receipt of taxes and includes any agents of the bank.

(f) "Collectible funds" actually means collected funds that have completed the electronic funds transfer process and are available for immediate use by the state.

(g) "ACH CCD + addenda" and "ACH CCD + record" mean the information in a required ACH format that needs to be transmitted to properly identify the payment.

(h) "Service access key" means a unique code that allows an ACH debit transaction to occur.

(3) **Taxpayers required to pay by EFT.** Taxpayers who have taxes due of $240,000 or more in a calendar year are required to pay by EFT. Total taxes due from the last complete calendar year will be used to determine whether a taxpayer is required to pay by EFT. When a calendar year total indicates a taxpayer is required to pay by EFT, the department will notify that taxpayer. The notification will be made at least three months prior to the date that the first EFT payment is required.

The requirement to pay by EFT will be waived if the taxpayer reasonably shows to the department that it will not meet or exceed the EFT threshold for taxes due in the calendar year.

(4) **Taxes covered.** The taxes covered by the EFT payment are taxes reported on the combined excise tax return. The included taxes are those administered by the department under chapter 82.32 RCW except city and town taxes on financial institutions (chapter 82.14A RCW), county tax on telephone access lines (chapter 82.14B RCW), cigarette tax (chapter 82.24 RCW), enhanced food fish tax (chapter 82.27 RCW), leasehold excise tax (chapter 82.29A RCW), and forest tax (chapter 84.33 RCW).

(5) **Refunds by EFT.** Overpayments of tax will be either credited to future tax liabilities or, at the taxpayer's request, will be refunded. If the taxpayer is required to pay the taxes on the combined excise tax return by EFT, the taxpayer is entitled to a refund of those taxes by EFT. However, if the taxpayer wishes to have the refund made by EFT, the taxpayer must provide the department with the information necessary to make an appropriate EFT or the refund will be issued as a warrant (check).

(6) **EFT methods.** Taxpayers required to pay by EFT must do so through the use of the ACH debit or ACH credit methods. All other taxpayers paying via EFT must do so through the use of ACH debit, ACH credit or other electronic payment methods approved by the department. In an emergency, the taxpayer should contact the department for alternative methods of payment. Contact information will be included in the notification materials sent to all EFT remitters.

(7) **Due date of EFT payment.** The EFT payment is due on or before the banking day following the tax return due date. An EFT payment made using the ACH credit method is timely when the state receives collectible U.S. funds on or before 5:00 p.m., Pacific Time, on the EFT payment due date. An EFT payment made using the ACH debit method is timely if the payment is initiated on or before 11:59 p.m. Pacific Time on the EFT return due date, and the effective date for that payment is on or before the next banking day following the tax return due date. The ACH system, either ACH debit or ACH credit, requires that the necessary information be in the originating bank's possession on the banking day preceding the date for completion of the transaction. Each bank generally has its own transaction deadlines and it is the responsibility of the taxpayer to insure timely payment.

(a) The tax return due date is the next business day after the statutory due date if the statutory due date falls on a Saturday, Sunday, or legal holiday. Legal holidays are determined under state of Washington law and banking holidays are those recognized by the Federal Reserve System in the state of Washington.

(b) Example. The tax return due date is December 25th, a legal and banking holiday, which, for the example, falls on a Friday. The next business day is Monday, December 28th, and this is the new tax return due date. EFT must be completed by 5:00 p.m., Pacific Time, Tuesday, December 29th, which is the next banking day after the new due date. For an

ACH debit user, the department's bank must have the appropriate information by 5:00 p.m., Pacific Time, on Monday, December 28th.

(8) **Coordinating return and payment.** The filed return and the EFT payment will be coordinated by the department. A return will be considered timely filed only if it is received by the department on or before the due date. If the return is sent by United States mail, it will be considered received on the date shown by the post office cancellation mark stamped on the envelope. RCW 82.32.080. In addition, the EFT payment must be received by the next banking day after the tax return due date. If both events occur, there is timely filing and payment and no penalties apply.

(9) **Form and contents of EFT.** The form and content of EFT will be as follows:

(a) If the taxpayer wishes to use the ACH debit system of EFT, the taxpayer will furnish the department with the information needed to complete the transaction. The department's bank will provide a service access key only to the taxpayer and all transactions must be initiated by the taxpayer.

(b) If the taxpayer wishes to use the ACH credit system of the EFT, the taxpayer is responsible to see that its bank has the information necessary for timely completion. The taxpayer must provide the information necessary for its bank to complete the ACH CCD + addenda for transmittal to the department's bank.

(c) If the taxpayer is not a taxpayer that is required to pay by EFT, and wishes to use any other electronic payment method approved by the department, the taxpayer must provide the information necessary for the payment processing institution to timely process the payment.

(10) **Crediting and proof of payment.** The department will credit the taxpayer with the amount paid as of the date the payment is received by the department's bank. The proof of payment by the taxpayer will depend on the means of transmission.

(a) An ACH debit transaction may be proved by use of the verification number received from the department's bank that the transaction was initiated and bank statements or other evidence from the bank that the transaction was settled.

(b) An ACH credit transaction is initiated by the taxpayer through the taxpayer's bank. The taxpayer is responsible for completion of the transaction. The taxpayer generally will be given a verification number by the taxpayer's bank. This verification number with proof of the ACH CCD + record showing the department's bank and account number, plus confirmation that the transaction has been settled will constitute proof of payment.

(c) Taxpayers using any other electronic payment method are responsible for completion of the transaction. Proof of payment will include transaction initiation date and any other evidence from a financial institution that the transaction was settled.

(11) **Correcting errors.** Errors in the EFT process will result in either an underpayment or an overpayment of the tax. In either case, the taxpayer needs to contact the department to arrange for appropriate action. Overpayments may be used as a credit or the taxpayer may apply for a refund. The department will expedite a refund where it is caused by an error in transmission. Underpayments should be corrected by the taxpayer immediately to avoid any penalties.

(12) **Penalties.** There are no special provisions for penalties when payment is made by EFT. The general provisions for all taxpayers apply. To avoid the imposition of penalties, it is necessary for the payment to be timely. WAC 458-20-228 discusses the various penalties that may apply and the limited circumstances under which they may be waived.

(a) In an ACH debit transaction, the department's bank is the originating bank and is responsible for the accuracy of transmission. If the taxpayer has timely initiated the ACH debit, received a verification number, and shows adequate funds were available in the account, no penalties will apply with respect to those funds authorized.

(b) In an ACH credit transaction, the taxpayer's bank is the originating bank and the taxpayer is primarily responsible for its accuracy. The taxpayer must have timely initiated the transaction, provided the correct information for the ACH CCD + record, and shown that there were sufficient funds in the account, in order to prove timely compliance. If the taxpayer can make this showing, then no penalties will apply as to those funds authorized if the transaction is not completed.

(c) With the use of other electronic payment methods, the taxpayer's financial institution is the originator of the payment transaction and the taxpayer is primarily responsible for the accuracy of this transaction. The taxpayer must have timely initiated the transaction and shown that there were sufficient funds in the account in order to prove timely compliance. If the taxpayer can make this showing, then no penalties will apply as to those funds authorized if the transaction is not completed.

[Statutory Authority: RCW 82.32.085, 82.32.300, and 82.01.060(2). 06-23-066, § 458-20-22802, filed 11/9/06, effective 12/10/06. Statutory Authority: RCW 82.32.300 and 82.32.085. 01-07-017, § 458-20-22802, filed 3/13/01, effective 4/13/01. Statutory Authority: RCW 82.32.300. 91-24-070, § 458-20-22802, filed 12/2/91, effective 1/2/92; 90-19-052, § 458-20-22802, filed 9/14/90, effective 10/15/90.]

WAC 458-20-229 Refunds. (1) **Introduction.** This section explains the procedures relating to refunds or credits for the overpayment of taxes, penalties, or interest. It describes the statutory time limits for refunds and the interest rates that apply to those refunds.

References to a "refund application" in this section include a request for a credit against future tax liability as well as a refund to the taxpayer.

Examples provided in this section should be used only as a general guide. The tax results of other situations must be determined after a review of all facts and circumstances.

(2) **What are the time limits for a tax refund or credit?**

(a) **Time limits.** No refund or credit may be made for taxes, penalties, or interest paid more than four years before the beginning of the calendar year in which a refund application is made or examination of records by the department is completed. See RCW 82.32.060. This is a nonclaim statute rather than a statute of limitations. This means a valid application must be filed within the statutory period, which may not be extended or tolled, unless a waiver extending the time for assessment has been entered into as described in (c) of this subsection.

For example, a refund or credit may be granted for any overpayment made in a shaded year in the following chart:

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6
					Refund application is filed no later than December 31st

(b) **Relation back to date paid.** Because the time limits relate to the date the taxes, penalties, or interest is paid, a refund application can be timely even though the payment concerned liabilities for a tax year normally outside the time limits. For example, Taxpayer P owes $1,000 in B&O tax for activity undertaken in December 2000. In January 2001, Taxpayer P makes an arithmetic error and submits a payment of $1,500 with its December 2000 tax return. In December 2005, Taxpayer P requests a refund of $500 for the overpayment of taxes for the December 2000 period. This request is timely because the overpayment occurred within the time limits, even though the payment concerned tax liabilities incurred (December 2000) outside the time limits.

Fact situations can be complicated. For example, Taxpayer P pays B&O taxes in Years 1 through 4. The department subsequently conducts an audit of Taxpayer P that includes Years 1-4. The audit is completed in Year 5. As a result of the audit, the department issues an assessment in Year 5 for $50,000 in additional retail sales taxes that were due from Years 1-4. Taxpayer P pays the assessment in full in Year 6. In Year 10, Taxpayer P files an application requesting a refund of B&O taxes. Taxpayer P's application is timely because it relates to a payment (payment of the assessment in Year 6) made no more than four years before the year in which the application is filed. It does not matter that the taxes relate to years outside the time limits; the actual payment occurred within four years before the refund application. Nor does it matter that the refund is based on an overpayment of B&O taxes while the assessment involved retail sales taxes, because both taxes relate to the same tax years. However, the amount of any refund is limited to $50,000 - the amount of the payment that occurred within the time limits.

Assume the same facts as described above. When the department reviews Taxpayer P's refund application, it determines that the refund is valid. After reviewing the new information, however, the department also determines that Taxpayer P should have paid $20,000 in additional B&O taxes during Years 1-4. Because Taxpayer P paid $30,000 more than the amount properly due ($50,000 overpayment less $20,000 underpayment), the amount of the refund will be $30,000.

(c) **Waiver.** Under RCW 82.32.050 or 82.32.100, a taxpayer may agree to waive the time limits and extend the time for the assessment of taxes, penalties and interest. If the taxpayer executes such a waiver, the time limits for a refund or credit are extended for the same period.

(3) **How do I get a refund or credit?**

(a) **Departmental examination of returns.** If the department performs an examination of the taxpayer's records and determines that the taxpayer has overpaid taxes, penalties, or interest, the department will issue a refund or a credit, at the taxpayer's option. In this situation, the taxpayer does not need to apply for a refund.

(b) **Taxpayer application.**

(i) If a taxpayer discovers that it has overpaid taxes, penalties, or interest, it may apply for a refund or credit. Refund application forms are available from the following sources:

• The department's internet web site at http://dor.wa.gov

• By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options)

• By writing to:

Taxpayer Services
Washington State Department of Revenue
P.O. Box 47478
Olympia, WA 98504-7478.

The application form should be submitted to the department at the following location:

Taxpayer Account Administration
P.O. Box 47476
Olympia, WA 98504-7476.

Taxpayers are encouraged to use the department's refund application form to ensure that all necessary information is provided for a timely valid application. However, while use of the department's application form is encouraged, it is not mandatory and any written request for refund or credit meeting the requirements of this section shall constitute a valid application. Filing an amended return showing an overpayment will also constitute an application for refund or credit, provided that the taxpayer also specifically identifies the basis for the refund or credit.

(ii) A taxpayer must submit a refund application within the time limits described in subsection (2)(a) of this section. An application must contain the following five elements:

(A) The taxpayer's name and UBI/TRA number must be on the application.

(B) The amount of the claim must be stated. Where the exact amount of the claim cannot be specifically ascertained at time of filing, the taxpayer may submit an application containing an estimated claim amount. Taxpayers must explain why the amount of the claim cannot be stated with specificity and how the estimated amount of the claim was determined.

(C) The tax type and taxable period must be on the application.

(D) The specific basis for the claim must be on the application. Any basis for a refund or credit not specifically identified in the initial refund application will be considered untimely, except that an application may be refiled to add additional bases at any time before the time limits in subsection (2) of this section expire.

(E) The signature of the taxpayer or the taxpayer's representative must be on the application. If the taxpayer is represented, the confidential taxpayer information waiver signed by the taxpayer specifically for that refund claim must be received by the department by the date the substantiation documents are first required, without regard to any extensions. If the signed confidential taxpayer information waiver for the refund claim lists the representative as an entity, every member or employee of that entity is authorized to represent the taxpayer. If the signed confidential taxpayer information waiver for the refund claim lists the representative as an individual, only that individual is authorized to represent the taxpayer.

(iii) If the nonclaim statute has run prior to the filing of the application, the department will deny the application and notify the taxpayer.

(iv) If the department determines that the taxpayer is not entitled to a refund as a matter of law, the application may be denied without requiring substantiation. The taxpayer shall be responsible for maintaining substantiation as may eventually be needed should taxpayer appeal.

(v) The taxpayer is encouraged to file substantiation documents at the time of filing the application. However, once an application is filed, the taxpayer must submit sufficient substantiation to support the claim for refund or credit before the department can determine whether the claim is valid. The department will notify the taxpayer if additional substantiation is required. The taxpayer must provide the necessary substantiation within ninety days after such notice is sent, unless the documentation is under the control of a third party, not affiliated with or under the control of the taxpayer, in which case the taxpayer will have one hundred eighty days to provide the documentation. The department may request any other books, records, invoices or electronic equivalents and, where appropriate, federal and state tax returns to determine whether to accept or deny the claimed refund and to assess an existing deficiency.

(vi) In its discretion and upon good cause shown, the department may extend the period for providing substantiation upon its own or the taxpayer's request, which may not be unreasonably denied.

(vii) If the department does not receive the necessary substantiation within the applicable time period, the department shall deny the claim for lack of adequate substantiation and shall so notify the taxpayer. Any application denied for lack of adequate substantiation may be filed again with additional substantiation at any time before the time limits in subsection (2) of this section expire. Once the department determines that substantiation is sufficient, the department shall process the refund claim within ninety days, except that the department may extend the time of processing such claim upon notice to the taxpayer and explanation of why the claim cannot be completed within such time.

(viii) The following examples illustrate the refund application process:

(A) A taxpayer discovers in January 2005 that its June 2004 excise tax return was prepared using incorrect figures that overstated its sales, resulting in an overpayment of tax. The taxpayer files an amended June 2004 tax return with the department's taxpayer account administration division. The department will treat the taxpayer's amended June 2004 tax return as an application for a refund or credit of the amounts overpaid during that tax period, except that the taxpayer must also specifically identify the basis for the refund or credit and provide sufficient substantiation to support the claim for refund or credit. The taxpayer may satisfy this obligation by submitting a completed refund application form with its amended return or providing the additional required substantiation by other means.

(B) On December 31, 2005, a taxpayer files an amended return for the 2001 calendar year. The return includes changed figures indicating that an overpayment occurred, but does not provide any supporting substantiation. No written waiver of the time limits, under subsection (2)(c) of this section, for this time period exists. The department sends a letter notifying the taxpayer that the taxpayer's application is not complete and substantiation must be provided within ninety days or the application will be denied. If the taxpayer does not provide the necessary substantiation by the stated date, the claim will be denied and, if refiled, will not be granted because it is then past the nonclaim limit of the statute.

(C) Taxpayer submits a refund application on December 31, 2004, claiming that taxpayer overpaid use tax in 2000 on certain machinery and equipment obtained by the taxpayer at that time. No substantiation is provided with the application and no written waiver of the time limit, under subsection (2)(c) of this section, for this taxable period exists. The department sends a letter notifying the taxpayer that the taxpayer's application is not complete and substantiation must be provided within ninety days or the application will be denied. The taxpayer does not respond by the stated date. The claim will be denied and, if refiled, will not be granted since it is then past the nonclaim limit of the statute.

(D) Assume the same facts as in (b)(viii)(B) and (C) of this subsection, except that within ninety days from the date the department sent the letter the taxpayer submits substantiation, which the department deems sufficient. The taxpayer's claim is valid, notwithstanding that the substantiation was provided after the nonclaim limit expired.

(E) Assume the same facts as in (b)(viii)(B) and (C) of this subsection, except that before the ninety-day period expires, the taxpayer requests an additional fifteen days in which to respond, explaining why the substantiation will require the additional time to assemble. The department agrees to the extended deadline. If the taxpayer submits the requested substantiation within the resulting one hundred five-day period, the department will not deny the claim for failure to provide timely substantiation.

(F) Assume the same facts as in (b)(iii)(B) and (C) of this subsection, except that the taxpayer submits substantiation within ninety days. The department reviews the substantiation and finds that it is still insufficient. The department, in its discretion, may extend the deadline and request additional substantiation from the taxpayer or may deny the refund claim as not substantiated.

(4) **May I get a refund of retail sales tax paid in error?**

(a) **Refund from seller.** Except as provided for in RCW 82.08.130 regarding deductions for tax paid at source, if a buyer pays retail sales tax on a transaction that the buyer later believes was not taxable, the buyer should request a refund or credit directly from the seller from whom the purchase was made. If the seller determines the tax was not due and issues a refund or credit to the buyer, the seller may seek its own refund from the department. It is better for a buyer to seek a retail sales tax refund directly from the seller. This is because the seller has the records to know if retail sales tax was collected on the original sale, knows the buyer, knows the circumstances surrounding the original sale, is aware of any disputes between itself and the buyer concerning the product, and may already be aware of the circumstances as to why a refund of sales tax is or is not appropriate. If a seller questions whether he or she should refund sales tax to a buyer, the seller may request advice from the department's telephone information center at 1-800-647-7706.

(b) **Refund from department.** In certain situations where the buyer has not received a refund from the seller, the department will refund retail sales tax directly to a buyer. The buyer must file a complete refund application as described in subsection (3)(b) of this section and either a seller's declaration or a buyer's declaration, under penalty of perjury, must be provided for each seller.

(i) If the buyer is able to obtain a waiver from the seller of the seller's right to claim the refund, the buyer should file a seller's declaration, under penalty of perjury, with the refund application. A seller's declaration substantiates that:

(A) Retail sales tax was collected and paid to the department on the purchase for which a refund is sought;

(B) The seller has not refunded the retail sales tax to the buyer or claimed a refund from the department; and

(C) The seller will not seek a refund of the sales tax from the department.

(ii) If the seller no longer exists, the seller refuses to sign the declaration, under penalty of perjury, or the buyer is unable to locate the seller, the buyer should file a buyer's declaration, under penalty of perjury, with the refund application. The buyer's declaration explains why the buyer is unable to obtain a seller's declaration and provides information about the seller and declares that the buyer has not obtained and will not in the future seek a refund from the seller for that claim.

(iii) Seller's declaration, under penalty of perjury, and buyer's declaration, under penalty of perjury, forms are available from the following sources:

• The department's internet web site at http://dor.wa.gov

• By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options)

• By writing to:

Taxpayer Services
Washington State Department of Revenue
P.O. Box 47478
Olympia, WA 98504-7478.

(5) **May I use statistical sampling to substantiate a refund?** Sampling will only be used when a detailed audit is not possible. However, if your applications for refund or credit involve voluminous documents, the preferred method for substantiating your application is the use of statistical sampling. Alternative methods of sampling, including but not limited to, random sampling, time period sampling, transaction sampling, and block sampling, may be used when the department agrees that such methods are appropriate.

When using statistical sampling or an alternative method to substantiate an application for refund or credit, the applicant must contact the department prior to preparing the sampling to obtain the department's approval of the sampling plan. The sampling plan will describe the following:

• Population and sampling frame;

• Sampling unit;

• Source of the random numbers;

• Who will physically locate the sample units and how and where they will be presented for review;

• Any special instructions to those who were involved in reviewing the sample units;

• Special valuation guidelines to any of the sample units selected in the sample;

• How the sample will be evaluated, including the precision and confidence levels; and

• The applicant must obtain a seller's declaration from those sellers identified in the sample and separately certify, under penalty of perjury, that applicant will not otherwise request or accept a refund or credit for sales or deferred sales tax paid to any seller or any use tax remitted during the taxable period covered by the audit.

Failure to contact the department before preparing the sampling may result in the department rejecting the application on the grounds that the results are not statistically valid.

Contact the department prior to performing a statistical sampling at these locations:

• The department's internet web site at http://dor.wa.gov

• By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options)

• By writing to:

Taxpayer Services
Washington State Department of Revenue
P.O. Box 47478
Olympia, WA 98504-7478.

(6) **Is my refund final?** The department may review a refund or credit provided on the basis of a taxpayer application without an examination by audit. If the refund or credit is granted and the department subsequently determines that the refund or credit exceeded the amount properly due the taxpayer, the department may issue an assessment to recover the excess amount. This assessment must be made within the time limits of RCW 82.32.050.

(7) **Refunds made as a result of a court decision.** The department will grant refunds or credits required by a court or Board of Tax Appeals decision, if the decision is not under appeal.

If the court action requires the refund or credit of retail sales taxes, the department will not require that buyers attempt to obtain a refund directly from the seller if it would be unreasonable and an undue burden on the buyer. In such a case, the department may refund the retail sales tax directly to the buyer and may use the public media to notify persons that they may be entitled to refunds or credits. The department will make available special refund application forms that buyers must use for these situations. The application will request the appropriate information needed to identify the buyer, item purchased, amount of sales tax to be refunded, and the seller. The department may, at its discretion, request additional documentation that the buyer could reasonably be expected to retain, based on the particular circumstances and value of the transaction. The department will approve or deny such refund requests within ninety days after the buyer has submitted all documentation.

(8) **What interest is due on my refund?** Interest is due on a refund or credit granted to a taxpayer as provided in this subsection.

(a) **Rate for overpayments made between 1992 through 1998.** For amounts overpaid by a taxpayer between January 31, 1991 and December 31, 1998, the rate of interest on refunds and credits is:

(i) Computed the same way as the rate provided under (b) of this subsection minus one percent, for interest allowed through December 31, 1998; and

(ii) Computed the same way as the rate provided under (b) of this subsection, for interest allowed after December 31, 1998.

(b) **Rate for overpayments after 1998.** For amounts overpaid by a taxpayer after December 31, 1998, the rate of interest on refunds and credits is the average of the federal short-term rate as defined in 26 U.S.C. Sec. 1274(d) plus two percentage points. The rate is adjusted on the first day of January of each year by taking an arithmetical average to the nearest percentage point of the federal short-term rate, compounded annually, for the months of January, April and July of the immediately preceding calendar year and October of the previous preceding year, as published by the United States Secretary of Treasury.

(c) **Start date for the calculation of interest.** If the taxpayer made all overpayments for each calendar year and all reporting periods ending with the final month included in a credit notice or refund on or before the due date of the final return for each calendar year or the final reporting period included in the notice or refund, interest is computed from either:

(i) January 31st following each calendar year included in a notice or refund; or

(ii) The last day of the month following the final month included in a notice or refund.

If the taxpayer did not make all overpayments for each calendar year and all reporting periods ending with the final month included in the notice or refund, interest is computed from the last day of the month following the date on which payment in full of the liabilities was made for each calendar year included in a notice or refund, and the last day of the month following the date on which payment in full of the liabilities was made if the final month included in a notice or refund is not the end of a calendar year.

(d) **Calculation of interest on credits.** The department will include interest on credit notices with the interest computed to the date the taxpayer could reasonably be expected to use the credit notice, generally the due date of the next tax return. If a taxpayer requests that a credit notice be converted to a refund, interest is recomputed to the date the refund (warrant) is issued, but not to exceed the interest that would have been granted through the credit notice.

(9) **May the department apply my refund against other taxes I owe?** The department may apply overpayments against existing deficiencies and/or future assessments for the same legal entity. However, if preliminary schedules have not been issued regarding existing deficiencies or future assessments and the taxpayer is not presently under audit, the refund of an overpayment may not be delayed when the department determines a refund is due. The following examples illustrate the application of overpayments against existing deficiencies:

(a) The taxpayer's records are audited for the period Year 1 through Year 4. The audit disclosed underpayments in Year 2 and overpayments in Year 4. The department will apply the overpayments in Year 4 to the deficiencies in Year 2. The resulting amount will indicate whether a refund or credit is owed the taxpayer or whether the taxpayer owes additional tax.

(b) The department has determined that the taxpayer has overpaid its real estate excise tax. The department believes that the taxpayer may owe additional B&O taxes, but this has yet to be established. The department will not delay the refund of the real estate excise tax while it schedules and performs an audit for the B&O taxes.

(c) The department simultaneously performed a timber tax audit and a B&O tax audit of a taxpayer. The audit disclosed underpayments of B&O tax and overpayments of timber tax. Separate assessments were issued on the same date, one showing additional taxes due and the other overpayments. The department may apply the overpayment against the tax deficiency assessment since both the underpayment and overpayment have been established.

(10) **How do I appeal the department's decision?** The taxpayer may appeal the denial of: A refund claim (or any part thereof, including tax, penalties, or interest overpayments), a request for an extension for providing substantiation, or a request to use a specific sampling technique. Taxpayer may appeal to either:

(a) The department as provided in WAC 458-20-100, Appeals, small claims and settlements; or

(b) Directly to Thurston County superior court.

(11) **Application.** This section applies to refund applications or amended returns showing overpayments, where the taxpayer has also specifically identified the basis for the refund or credit, that are received by the department on or after the effective date of this section.

[Statutory Authority: RCW 82.01.060(2) and 82.32.300. 08-14-038, § 458-20-229, filed 6/23/08, effective 7/24/08; 07-17-065, § 458-20-229, filed 8/13/07, effective 9/13/07. Statutory Authority: RCW 82.32.300. 93-04-077, § 458-20-229, filed 2/1/93, effective 3/4/93; 83-08-026 (Order ET 83-1), § 458-20-229, filed 3/30/83; Order ET 70-3, § 458-20-229 (Rule 229), filed 5/29/70, effective 7/1/70.]

WAC 458-20-230 Statutory limitations on assessments. (1) **Introduction.** This section explains the time period during which the department of revenue may issue a tax assessment. It also explains the circumstances under which the department may request that a taxpayer complete a statute of limitations waiver.

(2) **Assessment period.** Tax assessments must be made within four years after the close of the tax (calendar) year in which the tax was incurred with the following exceptions:

(a) Against a taxpayer who was not registered as required by chapter 82.32 RCW.

(b) Upon a showing of fraud or of misrepresentation of a material fact by the taxpayer.

(c) Where the taxpayer has executed a written waiver of such limitation.

(d) Sales tax collected by a seller upon retail sales and not remitted to the department.

(3) **Unregistered taxpayer.** Except for evasion or misrepresentation, if the department of revenue discovers any unregistered taxpayer doing business in this state, the department will assess taxes, interest, and penalties for a period of seven years plus the current year. If a taxpayer voluntarily registers before being contacted by the department, assessments will not exceed four years plus the current year, provided the taxpayer has made a good faith attempt to report correctly and there is no evidence of intent to evade tax under RCW 82.32.050. It will be presumed that a taxpayer has registered with the department if the taxpayer voluntarily files for an identification number under the Unified Business Identifier (UBI) system prior to any contact from the department of revenue.

(4) **Evasion or misrepresentation.** There is no limitation for the period in which an assessment or correction of an assessment can be made upon a showing of evasion or of misrepresentation of a material fact. Evasion involves a situation where the taxpayer knows a tax liability is due and the taxpayer attempts to escape detection through deceit, fraud, or other intentional wrongdoing. The evasion must be shown by clear, cogent, and convincing evidence which is objective and creditable. However, in the case of evasion or misrepresentation, any assessment for taxes which extends beyond four years and the current year will be limited to taxes which were underpaid as a result of the evasion or misrepresentation. (See RCW 82.32.050 and 82.32.090.)

(5) **Statute of limitations waiver.** The department may request that a taxpayer complete a waiver of the statute of limitations in those cases where the delay in timely completing an audit or issuance of an assessment is the result of actions of the taxpayer. If the department requests that a statute of limitations waiver be completed, the waiver will also hold open the period during which the department may refund taxes discovered to have been overpaid. The department may also request that a taxpayer complete a waiver of the statute of limitations in connection with a request from a taxpayer for a refund or credit for overpaid taxes. If the refund or credit request relates to a year for which the statute of limitations will expire within a short period, the department may be able to more promptly issue a refund by delaying the verification process until it is more convenient to the taxpayer and/or the department if the taxpayer will execute a statute of limitations waiver. (Refer to WAC 458-20-229.)

(6) **Trust funds.** Retail sales tax which is collected by a seller must be remitted to the department of revenue. These amounts are deemed to be held in trust by the seller until paid to the department. The statute of limitations does not apply to retail sales tax which was collected and not remitted to the department.

(7) **Revised assessments.** The department may issue an assessment to correct errors found in examining tax returns or it may issue an assessment to correct errors based on a review of the taxpayer's records. Assessments which are based on a review of the tax returns are subject to further review and revision by future audit. Once issued, the department may revise an audit assessment subject to the following restrictions.

(a) The assessment generally may not be increased from the amount originally assessed for those years for which the statute of limitations would have expired if this were an original assessment. For these years an assessment can be reduced, but not increased.

(b) An assessment may be increased upon discovery of fraud/evasion or misrepresentation of a material fact.

(8) **Assessments following conditional refunds or credits.** Taxpayers may petition for a credit or refund of overpaid taxes by following the procedures in WAC 458-20-229. The department at its option may grant such credits or refunds without further immediate verification. If it is later determined that a refund was granted in error and that there was no fraud/evasion or misrepresentation of a material fact, the department may issue an assessment to recover the taxes and interest which were refunded in error, provided the assessment is issued within four years from the close of the tax year in which the tax was incurred or within a period covered by a statute of limitations waiver.

(9) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax status of each situation must be determined after a review of all of the facts and circumstances.

(a) ABC Manufacturing has manufacturing plants in Oregon and Washington. This taxpayer properly registered with the department of revenue when first engaging in business in Washington a number of years ago and has remained registered. In 1987 the taxpayer transferred equipment from its Oregon plant and used the equipment in its Washington plant. (See RCW 82.12.010 for a definition of use.) This transfer was recorded in the accounting records in 1987, but the taxpayer inadvertently failed to report the use tax. The taxpayer's records were audited in 1992 at which time this transfer and the failure to report the use tax came to the department's attention. Since the department discovered the use tax had not been paid more than four years after the close of 1987 and none of the exceptions as stated in subsection (2) of this section apply, the department is barred by the statute of limitations from now assessing the use tax. The department can expand the statute of limitations to seven years plus the current year if the taxpayer was required to be registered and failed to do so.

(b) The department issued its assessment on December 20, 1992, for use taxes owed by ABC Manufacturing covering the period January 1, 1988, through September 30, 1992. The taxpayer contacted the department in April 1994 and provided documentation to support that retail sales tax had been paid on some items assessed for use tax in the tax years 1989 and 1990. In the process of reviewing the documentation, the department discovered that the auditor inadvertently had failed to assess use tax on some assets purchased in the year 1988 which would have resulted in a larger tax assessment for that year than originally assessed. The department issued a revised assessment on June 15, 1994, covering the period January 1, 1988, through September 30, 1992 which reflected the deletion of the use tax assessed in error for 1989 and 1990. The revised assessment did not increase the tax assessment for taxes owed in 1988 because this would have resulted in the assessment being increased more than four years after the close of the 1988 tax year. Any petition for refund must be made within four years of the close of the tax year in which the tax was paid.

(c) The department contacted XYZ Distributing on September 1, 1992, to schedule a routine audit of its records. The taxpayer requested that the department delay the start of the audit until December 1, 1992, because its records are maintained on a fiscal year ending September 30 and the audit would be extremely disruptive to its year end closing if begun immediately. This delay would not allow the department sufficient time to complete the review of the records for 1988 and timely make an assessment for any taxes found to be due. The department may request the taxpayer to complete a statute of limitations waiver for the year 1988 in exchange for delaying the start of the audit. The completion of the waiver by the taxpayer will also hold open the year 1988 for refund or credit of any taxes found to have been overpaid in this period until such time as an assessment is issued or the waiver expires.

(d) ABC Manufacturing was being audited by the department for the period January 1, 1988, through September 30, 1992. During the process of examining the records, the department discovered that ABC had collected retail sales tax on sales in 1986 which had never been remitted to the department. There was no fraud or misrepresentation involved in the taxpayer's failure to remit the tax. The department appropriately expanded the period covered by the assessment to include the unremitted retail sales tax in the year 1986. Retail sales tax collected by a seller is deemed to be held in trust until paid to the department and the statute of limitations does not apply. (See RCW 82.08.050.)

(e) The department, through staff at its Seattle office, was unable to find a registration for ARC Company. The department contacted ARC by letter inquiring about its business activities in Washington and asking ARC for its registration number. ARC had not registered with the department of revenue, nor had it registered with any other state agencies through the UBI system. Shortly after being contacted by the department's Seattle staff, ARC contacted the Olympia office of the department and completed an application for registration without disclosing the earlier contact by the Seattle office. ARC subsequently argued that the assessment should be restricted to four years plus the current year. The department appropriately made its assessment for seven years plus the current year because the taxpayer was unregistered at the time of being first contacted by the department.

(f) John Smith lives in Washington part of the year, votes in Washington, has a Washington driver's license, and uses his Washington address in filing federal tax returns. He spends the winters in Arizona. In 1986, while in Arizona, he purchased a new motor home which he licensed in Arizona. He assumed that it was appropriate to license the vehicle in Arizona since he spends a considerable part of the year there and was not aware that he should pay use tax on the first use in Washington which occurred later that year. In 1992 he traded this motor home for a new motor home which he purchased from an Arizona dealer. Shortly thereafter, he returned to Washington and the department became aware of Mr. Smith's use of both of these motor homes in Washington. The department concluded that use tax was due. However, because the department could not show any evidence of evasion or misrepresentation and the taxpayer was not required to be registered with the department, the statute of limitations had expired on the 1986 purchase. Use tax was properly due and assessed on the 1992 purchase with the value based on the total purchase price after allowing a deduction for the trade-in value.

(g) In 1992 the department audited the records of XYZ Hauling for the years 1988 through 1991. The audit disclosed that some income from hauling performed in 1988 had not been reported and issued an assessment in 1992 for additional taxes owed under the motor transportation public utility tax. The taxpayer paid the assessment in 1992. In 1994 the taxpayer contacted the department with additional records which disclosed that part of the hauling for which motor transportation tax was assessed for the year 1988 should have been assessed under the urban transportation classification, a lower tax rate. The taxpayer requested that all of the motor transportation tax be refunded and argued that the urban transportation tax could not be assessed since the statute of limitations had expired for the year 1988. The department issued a revised assessment in which it subtracted the tax that should have been paid under urban transportation from the motor transportation tax which was assessed. The department refunded the difference. The revised assessment did not result in additional taxes being assessed, but was a reduction of the original assessment.

[Statutory Authority: RCW 82.32.300. 93-03-004, § 458-20-230, filed 1/8/93, effective 2/8/93; Order ET 70-3, § 458-20-230 (Rule 230), filed 5/29/70, effective 7/1/70.]

WAC 458-20-233 Tax liability of medical and hospital service bureaus and associations and similar health care organizations. All medical service bureaus, medical service corporations, hospital service associations and similar health care organizations engaging in business within this state are subject to the provisions of the business and occupation tax and are taxable under the service and other business activities classification upon their gross income. The term "gross income" as defined in RCW 82.04.080 is construed to include the total contributions, fees, premiums or other receipts paid in by the members or subscribers. Insofar as tax liability is concerned it is immaterial that such organizations may be incorporated as charitable or nonprofit corporations.

Certain of these organizations operate under contracts by the terms of which the bureau or association acts solely as the agent of a physician, hospital, or ambulance company in offering to its members or subscribers medical and surgical services, hospitalization, nursing, and ambulance services. In computing tax liability such bureaus and associations, therefore, will be entitled to deduct from their gross income the amounts paid to member physicians, hospitals and ambulance companies. No deduction will be allowed with respect to amounts retained as surplus or reserve accounts or to amounts expended for the purchase of supplies or for any other expense of the bureau or association other than as provided herein.

Under contracts wherein these organizations furnish to their members medical and surgical, hospitalization and ambulance services as a principal and not as an agent, no such deduction is allowed.

Revised July 1, 1956.

[Order ET 70-3, § 458-20-233 (Rule 233), filed 5/29/70, effective 7/1/70.]

WAC 458-20-235 Effect of rate changes on prior contracts and sales agreements. The term "retail sales tax" as used herein means the state sales tax of chapter 82.08 RCW as well as the local sales taxes of chapter 82.14 RCW. The following principles govern the applicability of changes in the rates of tax imposed under the Revenue Act with respect to contracts and sales agreements made prior to the effective date of the change:

When an unconditional contract to sell tangible personal property is entered into prior to the effective date of a rate change, and the goods are delivered after that date, the new rates will be applicable to the transaction. When an unconditional contract to sell tangible property is entered into prior to the effective date, and the goods are delivered prior to that date, the tax rates in effect for the prior period will be applicable.

When a contract to sell tangible personal property contains a specific provision to pass title at some time prior to delivery of the goods, such a specific provision will be deemed controlling and the tax rates in effect at that time will be applicable.

The retail sales tax and business and occupation tax due on conditional and installment sales must be wholly reported during the period in which the sale is made (see WAC 458-20-198), irrespective of the fact that the seller may elect to receive payment of the sales tax in installments. Therefore, sellers who receive installment payments after the effective date of a rate change on conditional and installment sales made prior to that date must collect the sales tax due on such installments at the rate applicable when the contract was written and the sale was made.

Lessors who lease tangible personal property are required to collect from their lessees the retail sales tax measured by the gross income from rentals as of the time the rental payments fall due (WAC 458-20-211). Lessors must collect the retail sales tax and pay the business and occupation tax at the new rates on all rental payments which fall due on and after the effective date of a rate change, including rental payments on leases entered into prior to that date.

Persons installing, repairing, cleaning, altering, imprinting or improving tangible personal property for others, or constructing, repairing, decorating or improving buildings or other structures upon the real property of others will collect retail sales tax and pay the business and occupation tax at the new rates with respect to all such services performed and billed on and after the effective date of a rate change. With respect to contracts requiring the above services or construction which were executed prior to the effective date of a change in rates, the new rates will be applicable to the full contract price unless the contract work is completed and accepted prior to the effective date. If, however, under the terms of the contract, the seller is entitled to periodic payments which amounts are calculated to compensate the seller for the work completed to the date of payment, the applicable tax rates upon such payments (including, in the case of public works contracts, the percentage retained by the public agency pursuant to the provisions of RCW 60.28.010) will be those in effect at the time the contractor becomes entitled to receive said payments.

Taxpayers filing returns on the cash basis (i.e., reporting charge sales at the time payment is received rather than at the time of sale) must make an accounts receivable adjustment (see WAC 458-20-199) at the time of a change in tax rates. For example, if a change of tax rate becomes effective July 1, a cash basis taxpayer should report along with the June cash receipts all accounts receivable outstanding as of June 30.

Intricate questions should be submitted in writing to the department of revenue for specific rulings.

[Statutory Authority: RCW 82.32.300. 83-07-032 (Order ET 83-15), § 458-20-235, filed 3/15/83; Order ET 70-3, § 458-20-235 (Rule 235), filed 5/29/70, effective 7/1/70.]

WAC 458-20-236 Baseball clubs and other sport organizations.

Business and Occupation Tax

Baseball clubs and other sport organizations are taxable under the classification of service and other business activities upon the total income derived from games for which such clubs are the sponsors or hosts, even though a fixed amount or a certain percentage of such income is paid to another team or club.

Conversely, amounts received by baseball clubs or other sport organizations as their share of the proceeds from games for which they are not the sponsor or host may be excluded from the measure of tax.

Issued July 1, 1956.

[Order ET 70-3, § 458-20-236 (Rule 236), filed 5/29/70, effective 7/1/70.]

WAC 458-20-238 Sales of watercraft to nonresidents—Use of watercraft in Washington by nonresidents. (1) **Introduction.** This section explains the retail sales tax exemption provided by RCW 82.08.0266 for sales to nonresidents of watercraft requiring United States Coast Guard documentation or state registration; the retail sales tax exemption provided by RCW 82.08.02665 for sales of watercraft to residents of foreign countries; and the retail sales and use tax exemptions contained in Substitute House Bill No. 1002 (SHB 1002), chapter 22, Laws of 2007 relating to sales or use of vessels thirty feet or longer to or by nonresident individuals. These statutes provide the exclusive authority for granting a retail sales tax exemption for sales of such watercraft when delivery is made within Washington. This section explains the requirements to be met, and the documents which must be preserved, to substantiate a claim of exemption. It also discusses use tax exemptions for nonresidents bringing watercraft into Washington for enjoyment and/or repair.

This section primarily deals with the retail sales and use taxes where delivery takes place or vessel is used in Washington. Sellers should refer to WAC 458-20-193 Inbound and outbound interstate sales of tangible personal property if they deliver the vessel to the purchaser at an out-of-state location. Purchasers also should be aware that there is a watercraft excise tax which may apply to the purchase or use of watercraft in Washington. (See chapter 82.49 RCW et seq.) In addition, purchasers of commercial vessels may have annual liability for personal property tax.

(2) **Business and occupation (B&O) tax.** Retailing B&O tax is due on all sales of watercraft to consumers if delivery is made within the state of Washington, even though the sale may qualify for an exemption from the retail sales tax. If the seller also manufactures the vessel in Washington, the seller must report under both the manufacturing and wholesaling or retailing classifications of the B&O tax, and claim a multiple activities tax credit (MATC). Manufacturers should also refer to WAC 458-20-136 (Manufacturing, processing for hire, fabricating) and WAC 458-20-19301 (Multiple activities tax credits).

(3) **Retail sales tax.** The retail sales tax generally applies to the sale of watercraft to consumers when delivery is made within the state of Washington. Under certain conditions, however, retail sales tax exemptions are available for sales of watercraft to nonresidents of Washington, even when delivery is made within Washington.

(a) **Exemptions for sales of watercraft, to nonresidents, requiring United States Coast Guard documentation and certain sales of vessels to residents of foreign countries.** RCW 82.08.0266 provides an exemption from the retail sales tax for sales of watercraft to residents of states other than Washington for use outside this state, even when delivery is made within Washington. The exemption provided by RCW 82.08.0266 is limited to sales of watercraft requiring United States Coast Guard documentation or registration with the state in which the vessel will be principally used, but only when that state has assumed the registration and numbering function under the Federal Boating Act of 1958.

RCW 82.08.02665 provides a retail sales tax exemption for sales of vessels to residents of foreign countries for use outside this state, even when delivery is made in Washington. This exemption is not limited to the types of watercraft qualifying for the exemption provided by RCW 82.08.0266. The term "vessel," for the purposes of RCW 82.08.02665, means every watercraft used or capable of being used as a means of transportation on the water, other than a seaplane.

(i) **Exemption requirements.** The following requirements must be met to perfect any claim for exemption under RCW 82.08.0266 and 82.08.02665:

(A) The watercraft must leave Washington waters within forty-five days of delivery;

(B) The seller must examine acceptable proof that the buyer is a resident of another state or a foreign country; and

(C) The seller, at the time of the sale, must retain as a part of its records a completed exemption certificate to document the exempt nature of the sale. This requirement may be satisfied by using the department's "buyer's retail sales tax exemption certificate," or another certificate with substantially the information as it relates to the exemption provided by RCW 82.08.0266 and 82.08.02665. The certificate must be completed in its entirety, and retained by the seller. A blank certificate can be obtained via the internet at http://dor.wa.gov, by facsimile by calling Fast Fax at (360) 786-6116 or (800) 647-7706 (using menu options), or by writing to: Taxpayer Services, Department of Revenue, P.O. Box 47478, Olympia, Washington 98504-7478. The seller should not accept an exemption certificate if the seller becomes aware of any information prior to the completion of the sale which is inconsistent with the purchaser's claim of residency, such as a Washington address on a credit application.

(ii) **Component parts and repairs.** The exemptions provided by RCW 82.08.0266 and 82.08.02665 apply only to sales of watercraft. For the purposes of these exemptions, the term "watercraft" includes component parts which are installed in or on the watercraft prior to delivery to and acceptance by the buyer, but only when these parts are sold by the seller of the watercraft. "Component part" means tangible personal property which is attached to and used as an integral part of the operation of the watercraft, even if the item is not required mechanically for the operation of the watercraft. Component parts include, but are not necessarily limited to, motors, navigational equipment, radios, depthfinders, and winches, whether themselves permanently attached to the watercraft or held by brackets which are permanently attached. If held by brackets, the brackets must be permanently attached to the watercraft in a definite and secure manner.

These exemptions do not extend to the sale of boat trailers, repair parts, or repair labor. These exemptions also do not extend to a separate seller of unattached component parts, even though these parts may be manufactured specifically for the watercraft and/or permanently installed in or on the watercraft prior to the watercraft being delivered to and accepted by the buyer.

(b) **Exemption for vessels thirty feet or longer.** Effective July 1, 2007, SHB 1002, chapter 22, Laws of 2007, a retail sales tax exemption is available for sales of vessels thirty feet or longer to individuals who are nonresidents of Washington.

(i) **Exemption requirements.** The following requirements must be met in order for an individual to claim this exemption:

(A) The individual must provide valid proof of nonresidency at the time of purchase;

(B) The vessel purchased must measure at least thirty feet in length; and

(C) The individual must obtain a valid use permit from the vessel dealer authorized to sell use permits.

(ii) **Valid proof of nonresidency.** An individual may prove nonresidency with identification that:

(A) Includes a photograph of the individual;

(B) Is issued by the jurisdiction in which the individual claims residency;

(C) Includes the individual's residential address; and

(D) Is issued for the purpose of establishing an individual's residency in a jurisdiction outside Washington state.

Acceptable identification includes a valid out-of-state driver's license.

(iii) **Use permits.** A use permit is not renewable and costs five hundred dollars for vessels thirty to fifty feet and eight hundred dollars for vessels greater than fifty feet in length. The permit includes an affidavit (affidavit) from the buyer declaring that the purchased vessel will be used in a manner consistent with this exemption. The use permit also includes an adhesive sticker (sticker) that must be displayed on the purchased vessel and which is valid for twelve consecutive months from the date of purchase. The sticker serves as proof of a validly issued use permit. Vessel dealers are not obligated to issue use permits to any individual. Buyers must elect this exemption irrevocably and may not elect additional exemptions under RCW 82.08.0266 and 82.08.02665 for the same period. Individuals must wait twenty-four months from the expiration of a use permit before claiming the use tax exemption for their vessel pursuant to RCW 82.12.0251.

(iv) **What are the obligations of vessel dealers?** A vessel dealer who elects to issue a use permit under this section has the following obligations:

(A) Examine and determine, in good faith, whether the individual has valid proof of nonresidency.

(B) Use department of revenue's (department) approved use permits. Obtain department's use permits from: Taxpayer Account Administration Division, Department of Revenue, P.O. Box 47476, Olympia, Washington 98504-7476, Telephone 360-902-7065.

(C) Retain copies of issued use permits in his or her records for the statutory period. For information about the statutory period, please refer to WAC 458-20-254 Recordkeeping.

(D) Provide copies of issued use permits to the department on a quarterly basis. Copies of issued permits must be sent to: Taxpayer Account Administration Division, Department of Revenue, P.O. Box 47476, Olympia, Washington 98504-7476.

(E) Collect, remit and report use permit fees. Dealers report use permit fees on their excise tax returns and remit in accordance with RCW 82.32.045.

(F) Electronically file all returns, as described in RCW 82.32.050, with the department. Nonelectronically filed returns are not deemed filed unless approved by the department for good cause shown.

(v) **Liability for retail sales and use tax.**

(A) If an individual obtains a use permit for a vessel under this section and uses that vessel in Washington after the use permit expires, the individual will be liable for retail sales tax on the original selling price of that vessel (along with interest retroactive to the date of purchase at the rate provided in RCW 82.32.050).

(B) Vessel dealers will be personally liable for retail sales tax if the dealer either does not collect retail sales tax when making sales to individuals without valid identification establishing nonresidency, or fails to maintain records of sales as provided under (b)(iv) of this subsection.

(4) **Deferred retail sales or use tax.** If Washington retail sales tax has not been paid, persons using watercraft on Washington waters are required to report and remit to the department such sales tax (commonly referred to as deferred retail sales tax) or use tax, unless the use is specifically exempt by law. A credit against Washington's use tax is allowed for retail sales or use tax previously paid by the user or the user's bailor or donor with respect to the property to any other state of the United States, any political subdivision thereof, the District of Columbia, and any foreign country or political subdivision thereof, prior to the use of the property in Washington. RCW 82.12.035. See also WAC 458-20-178 Use tax.

(a) Tax is due on the use by any nonresident of watercraft purchased from a Washington vendor and first used within this state for more than forty-five days if retail sales or use tax has not been paid by the user. Tax is due notwithstanding the watercraft qualified for retail sales tax exemption at the time of purchase.

(b) Use tax does not apply to the temporary use or enjoyment of watercraft brought into this state by nonresidents while temporarily within this state.

(i) For watercraft owned by nonresident entities (i.e., corporations, limited liability companies, trusts, partnerships, etc.), it will be presumed that use within Washington exceeding sixty days in any twelve-month period is more than temporary use and use tax is due, except as otherwise provided in this section.

(ii) Nonresident individuals (whether residents of other states or foreign countries) may temporarily bring watercraft into this state for their use or enjoyment without incurring liability for the use tax if such use does not exceed a total of six months in any twelve-month period. To qualify for this six-month exemption period, the watercraft must be issued a valid number under federal law or by an approved authority of the state of principal operation, be documented under the laws of a foreign country, or have a valid United States customs service cruising license. The watercraft must also satisfy all identification requirements under RCW 88.02.030 for any period after the first sixty days. Failure to meet the applicable documentation and identification requirements will result in a loss of the exemption.

(c) Watercraft owned by nonresidents and in this state exclusively for repair, alteration, or reconstruction are exempt from the use tax if removed from this state within sixty days. If repair, alteration, or reconstruction cannot be completed within this period, the exemption may be extended by filing with the department's compliance division an affidavit as required by RCW 88.02.030 verifying the vessel is located upon the waters of this state exclusively for repair, alteration, reconstruction, or testing. This document, titled "Nonresident Out-of-State Vessel Repair Affidavit," is effective for sixty days. If additional extensions of the exemption period are needed, additional affidavits must be sent to the department. Failure to file this affidavit can result in requiring that the vessel be registered in Washington and subject to the use tax.

(d) **Use tax exemption for vessels thirty feet or longer.** Effective July 1, 2007, SHB 1002, chapter 22, Laws of 2007 exempts from use tax the purchase of vessels thirty feet or longer used in Washington by nonresident individuals. This exemption is available to nonresident individuals in any of the three following situations: The vessel is purchased from a vessel dealer and a use permit is obtained in accordance with subsection (3)(b) of this section; the vessel is purchased in Washington from someone other than a vessel dealer and within fourteen days of purchase the nonresident individual obtains a use permit under this subsection; the vessel is acquired outside Washington and the nonresident individual, within fourteen days of bringing the vessel into Washington, buys a use permit under this subsection. Any vessel dealer that issues permits under subsection (3)(b) of this section must also issue permits under this subsection.

(i) **What are the obligations of vessel dealers?** Vessel dealers that issue use permits have the same obligations as those described in subsection (3)(b)(iv) of this section. Vessel dealers may not issue use permits under this subsection where a nonresident individual has already obtained a use permit under subsection (3)(b) of this section.

(ii) **Valid proof of nonresidency.** Nonresident individuals must meet the same identification requirements described in subsection (3)(b)(ii) of this section.

(iii) **Use permits.** The use permit is not renewable and costs five hundred dollars for vessels thirty to fifty feet and eight hundred dollars for vessels greater than fifty feet in length. This use permit must be displayed on the vessel and is valid for twelve consecutive months from the date of issuance. Nonresident individuals must obtain a use permit from a vessel dealer; however, vessel dealers are not obligated to issue these use permits. Nonresident individuals must elect this exemption irrevocably and may not elect exemption under RCW 82.08.0266 and 82.08.02665 for the same period. The nonresident individual must wait twenty-four consecutive months from the expiration of a use permit before claiming exemption for a vessel under RCW 82.12.0251.

(iv) **Liability for use tax.**

(A) If a nonresident individual continues to use a vessel in Washington after his or her use permit expires, that individual shall be liable for use tax under RCW 82.12.020. Liability for use tax will be based upon the value of the vessel at the time it was either purchased or first brought into Washington. Interest will accrue retroactive to the date of purchase or first use in Washington at a rate set by RCW 82.32.050.

(B) Vessel dealers are personally liable for use tax where a dealer either issues a use permit to a nonresident individual who does not hold valid proof of nonresidency, or fails to maintain records for each use permit issued showing the type of identification accepted, the identification numbers, and expiration date.

(5) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all facts and circumstances. In all examples, retailing B&O tax is due from the seller for all sales of watercraft and parts, and all charges for repair parts and labor.

(a) Mr. Kelley, a resident of California, pilots his cabin cruiser which is registered in that state into Puget Sound for his enjoyment. On the sixtieth day of his stay, Mr. Kelley obtains an identification document for the cabin cruiser under RCW 88.02.030 from the department of licensing. To further extend his stay in Washington waters, he applies for a second identification document within the prescribed period. In the middle of his fifth month on Puget Sound, Mr. Kelley departs and returns the craft to its home port in California. The stay would not subject Mr. Kelley to use tax. On the other hand, if Mr. Kelley were a resident of Vancouver, British Columbia, bringing a vessel registered in Canada, he would also have to timely obtain and display the appropriate identification document required by RCW 88.02.030 to allow his temporary use of the watercraft in Washington.

(b) Company A sells a yacht to John Doe, an Oregon resident, who takes delivery in Washington. The yacht is required to be registered by the state of Oregon. The vessel is removed from Washington waters within forty-five days of delivery. Company A examines a driver's license confirming John Doe to be an Oregon resident, and records this information in the sales file. Company A does not complete and retain the required exemption certificate.

The sale of the yacht is subject to the retail sales tax. The exclusive authority for granting a retail sales tax exemption for this sale is provided by RCW 82.08.0266. Completion of an exemption certificate is a statutorily imposed condition for obtaining this exemption. Company A has not satisfied the conditions and requirements necessary to grant an exemption under this statute. The exemption provisions under RCW 82.08.0273 for sales to nonresidents of states having less than three percent retail sales tax can not be used for purchases of vessels which require United States Coast Guard documentation, or registration in the state of principal use. If the exemption certificate had been properly completed at the time of sale, this sale would have qualified for retail sales tax exemption.

(c) Mr. Jones, a California resident, contracts Company B to manufacture a pleasure yacht. Mr. Jones purchases a boat motor from Company Y with instructions that delivery be made to Company B for installation on the yacht. The yacht is required to be registered with the state of California, which has assumed the registration and numbering function under the Federal Boating Act of 1958. Company B examines Mr. Jones' driver's license to verify Mr. Jones is a nonresident of Washington, and retains the proper exemption certificate at the time of sale. Delivery is made in Washington, and Mr. Jones removes the vessel from Washington waters within forty-five days of delivery.

The sale of the yacht by Company B to Mr. Jones is not subject to the retail sales tax, as the requirements and conditions for exemption have been satisfied. Retail sales tax does, however, apply to the sale of the motor by Company Y to Mr. Jones. The exemption provided by RCW 82.08.0266 does not extend to a separate seller of unattached component parts, even though the parts are installed in the watercraft prior to delivery.

(d) Mr. Smith, a resident of British Columbia, Canada, brings his yacht into Washington with the intention of temporarily using the yacht for personal enjoyment. Mr. Smith obtains the required identification document issued by the department of licensing. After four months of personal use, the yacht experiences mechanical difficulty. The yacht is taken to a repair facility and due to the extensive nature of the damage the yacht remains at the repair facility for six months. As explained in subsection (4)(c) of this section, Mr. Smith makes a timely filing of each required "Nonresident Out-of-State Vessel Repair Affidavit." An employee of the repair facility is on board the yacht during all testing, and there is no personal use by Mr. Smith during this period. Upon completion of the repairs and testing, Mr. Smith takes delivery at the repair facility.

Mr. Smith may personally use the yacht in Washington waters for up to two months after taking delivery of the repaired yacht. He will not incur liability for use tax because the instate use of the yacht for personal enjoyment will not exceed six months in a twelve-month period. The time the yacht is at the repair facility exclusively for repair does not count against the period of time Mr. Smith is considered to be "temporarily" using the yacht in Washington for personal enjoyment. Retail sales tax is due, and must be paid, however, on all charges for repair parts and labor. The exemption from sales tax for purchases of vessels does not extend to repairs.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), 82.08.0266, and 82.08.02665. 08-14-022, § 458-20-238, filed 6/20/08, effective 7/21/08. Statutory Authority: RCW 82.32.300. 00-23-003, § 458-20-238, filed 11/1/00, effective 12/2/00; 95-24-103, § 458-20-238, filed 12/6/95, effective 1/6/96; 83-21-061 (Order ET 83-7), § 458-20-238, filed 10/17/83; 83-08-026 (Order ET 83-1), § 458-20-238, filed 3/30/83; Order ET 70-3, § 458-20-238 (Rule 238), filed 5/29/70, effective 7/1/70.]

WAC 458-20-239 Sales to nonresidents of farm machinery or implements, and related services. (1) **Introduction.** This rule explains the retail sales tax exemption provided by RCW 82.08.0268 for sales to nonresidents of farming machinery and implements, parts for farming machinery and implements, and related labor and services. The rule also explains the documents that must be preserved to substantiate a claim of exemption. Sellers should refer to WAC 458-20-193 if they deliver farm machinery or implements to the purchaser at an out-of-state location.

(2) **Tax-reporting requirements.** Retailing B&O and retail sales taxes generally apply to all sales of tangible personal property, parts, and repair labor in Washington.

(a) RCW 82.08.0268 provides an exemption from retail sales tax for sales to nonresidents of the following when used in conducting a farm activity outside the state of Washington:

(i) Machinery and implements;

(ii) Parts for machinery and implements; and

(iii) Labor and services for repair of machinery, implements, and parts.

(b) To qualify for the exemption, the machinery, implements, or parts must be transported outside the state immediately after sale or completion of the repair or service. Prior to June 11, 1998, the exemption applied only to farm machinery and implements, and repair parts and components if attached to the machinery or implements. The exemption did not apply to labor and services.

(c) This exemption is allowed even though the property sold or serviced is delivered to the purchaser in this state, but only when the seller receives from the buyer an exemption certificate, and examines acceptable proof that the buyer is a resident of a state or country other than the state of Washington.

(d) The exempt nature of the transaction must be documented by using the department's "buyer's retail sales tax exemption certificate," or another certificate with substantially the same information as it relates to the exemption provided by RCW 82.08.0268. The certificate must be completed in its entirety, and retained by the seller.

A blank certificate can be obtained via the internet at http://dor.wa.gov, by facsimile by calling Fast Fax at (360) 786-6116 or (800) 647-7706 (using menu options), or by writing to Taxpayer Services, Washington State Department of Revenue, Post Office Box 47478, Olympia, Washington 98504-7478. If, prior to completion of the sale, the seller becomes aware of any information inconsistent with the purchaser's claim of residency, such as a Washington address on a credit application, the seller should not accept an exemption certificate.

[Statutory Authority: RCW 82.32.300. 00-09-092, § 458-20-239, filed 4/19/00, effective 5/20/00; 83-08-026 (Order ET 83-1), § 458-20-239, filed 3/30/83; Order ET 70-3, § 458-20-239 (Rule 239), filed 5/29/70, effective 7/1/70.]

WAC 458-20-240 Manufacturer's new employee tax credits. (1) Introduction. Chapter 82.62 RCW provides business and occupation (B&O) tax credits to certain persons engaged in manufacturing and research and development activities. These credits are intended to stimulate the economy by creating employment opportunities in specific rural counties and community empowerment zones of this state. The credits are as much as $4,000 per qualified employment position. This rule explains the eligibility requirements and application procedures for this program. It is important to note that an application for the tax credits must be submitted to the department of revenue before the actual hiring of qualified employment positions. See subsection (6) of this rule for additional information regarding this application requirement. This tax credit program is a companion to the tax deferral program under chapter 82.60 RCW; however, the eligible geographic areas in the two programs are not identical.

The department of employment security and the department of community, trade, and economic development administer programs for rural counties and job training. These agencies should be contacted directly for information concerning those programs.

(2) **Who is eligible for these tax credits?** Subject to certain qualifications, an applicant (person applying for a tax credit under chapter 82.62 RCW) who is engaged in an eligible business project is entitled to the tax credits provided by chapter 82.62 RCW.

(a) **What is an eligible business project?** An "eligible business project" means manufacturing, commercial testing, or research and development activities conducted by an applicant in an eligible area at a specific facility, subject to the restriction noted in the following paragraph. An "eligible business project" does not include any portion of a business project undertaken by a light and power business or any portion of a business project creating employment positions outside an eligible area.

To be considered an "eligible business project," the applicant's number of average full-time qualified employment positions at the specific facility must be at least fifteen percent greater in the calendar year for which credit is being sought than the number of positions at the same facility in the immediately preceding calendar year. Subsection (4) of this rule explains how to determine whether this threshold is satisfied.

(b) **What is an eligible area?** As noted above, the facility must be located in an eligible area to be considered an eligible business project. An "eligible area" is:

(i) A rural county, which is a county with fewer than one hundred persons per square mile or, on and after April 1, 2004, a county smaller than two hundred twenty-five square miles, as determined annually by the office of financial management and published by the department of revenue effective for the period of July 1st through June 30th (see RCW 82.62.010(3)); or

(ii) A community empowerment zone (CEZ). CEZ means an area meeting the requirements of RCW 43.31C.020 and officially designated by the director of the department of community, trade, and economic development.

(iii) **How to determine whether an area is an eligible area.** Rural county designation information can be obtained from the office of financial management internet web site at www.ofm.wa.gov/popden/rural.htm. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at www.dor.wa.gov.

(c) **What are manufacturing and research and development activities?** Manufacturing or research and development activities must be conducted at the facility to be considered an eligible business project.

(i) **Manufacturing.** "Manufacturing" has the meaning given in RCW 82.04.120. In addition, for the purposes of chapter 82.62 RCW "manufacturing" also includes computer programming, the production of computer software, other computer-related services, and the activities performed by research and development laboratories and commercial testing laboratories.

(ii) **Research and development.** "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. "Commercial sales" does not include sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(iii) **Computer-related services.** "Computer-related services," for the purposes of chapter 82.62 RCW's definition of "manufacturing," are services that are connected with or interact directly in the manufacture of computer hardware or software or the programming of the manufactured hardware. "Computer-related services" includes the manufacture of hardware such as chips, keyboards, monitors, and any other hardware, and the components of these items. "Computer-related services" also includes creating operating systems and software that will be copied and sold as canned software. The activities performed by the manufacturer to test, correct, revise, or upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services. "Computer-related services" does not include services such as information services.

(3) **What are the hiring requirements?** The average full-time qualified employment positions at the specific facility during the calendar year for which credits are claimed must be at least fifteen percent greater than the average full-time qualified employment positions at the same facility for the preceding calendar year.

(a) **What is a qualified employment position?** A "qualified employment position" means a position filled by a permanent full-time employee employed at an eligible business project for twelve consecutive months**.** Once a full-time position is established and filled it will continue to qualify for twelve consecutive periods so long as any person fills the position. The position is considered "filled" even during periods of vacancy, provided these periods do not exceed thirty consecutive days and the employer is training or actively recruiting a replacement employee.

(b) **What is a "permanent full-time employee"?** A "permanent full-time employee" is a position that is filled by an employee who satisfies any one of the following minimum thresholds:

(i) Works thirty-five hours per week for fifty-two consecutive weeks;

(ii) Works four hundred fifty-five hours, excluding overtime, each quarter for four consecutive quarters; or

(iii) Works one thousand eight hundred twenty hours, excluding overtime, during a period of twelve consecutive months.

(c) **"Permanent full-time employee" - Seasonal operations.** For applicants that regularly operate on a seasonal basis only and that employ more than fifty percent of their employees for less than a full twelve month continuous period, a "permanent full-time employee" is a permanent full-time employee as described above or an equivalent in full time equivalent (FTE) work hours.

(4) **How to determine if the fifteen percent employment increase requirement is met.** Qualification for tax credits depends upon whether the applicant hires enough new positions to meet the fifteen percent average increase requirement.

(a) **Determining the fifteen percent increase.** To determine the projected number of permanent full-time qualified employment positions necessary to satisfy the fifteen percent employment increase requirement:

(i) Determine the average number of permanent full-time qualified employment positions that existed at the facility during the calendar year prior to the year in which tax credit is being claimed.

(ii) Multiply the average number of full-time positions from subsection (i) by .15 or fifteen percent. The resulting number equals the number of positions that must be filled to meet the fifteen percent increase. Numbers are rounded up to the nearest whole number at point five (.5).

(b) **When does hiring have to occur?** All hiring increases must occur during the calendar year for which credits are being sought for purposes of meeting the fifteen percent threshold test. Positions hired in a calendar year prior to making an application are not eligible for a credit but the positions are used to calculate whether the fifteen percent threshold has been met.

(c) **The department will assist applicants to determine their hiring requirements.** Accompanying the tax credit application is a worksheet to assist the applicant in determining if the fifteen percent qualified employment threshold is satisfied. Based upon the information provided in the application, the department will advise applicants of their minimum number of hiring needs for which credits are being sought.

(d) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax status of each situation must be determined after a review of all of the facts and circumstances.

(i) ABC Company anticipates increasing employment during the 2001 calendar year at a manufacturing facility by an average of 15 full-time qualified employment positions for a total of 113 positions. The average number of full-time qualified employment positions during the 2000 calendar year was 98. To qualify for the tax credit program the minimum average number of full-time qualified employment positions required for the 2001 calendar year is 98 x .15 = 14.7 (rounding up to 15 positions). Therefore, ABC Company's plan to hire 15 full-time qualified employment positions for 2001 meets the 15% employment increase requirement.

(ii) ABC anticipates increasing employment at this same manufacturing facility by an average of 15 additional full-time qualified employment positions during the 2002 calendar year to a total of 128 positions. To qualify for the tax credit program the minimum average number of full-time qualified employment positions required for the 2002 calendar year is 17 (113 x .15 = 16.95, rounding up to 17). Therefore, ABC Company's plan to hire 15 full-time qualified employment positions for 2002 does not meet the 15% employment increase requirement.

(5) **Restriction against displacing existing jobs within Washington.** The law provides that no recipient may use tax credits approved under this program to decertify a union or to displace existing jobs in any community of the state. Thus, the average expected increase of employment positions at the specific facility for which application is made must reflect a gross increase in the applicant's employment of persons at all locations in this state. Transfers of personnel from existing positions outside of an eligible area to new positions at the specific facility within an eligible area will not be allowed for purposes of approving tax credits. Also, layoffs or terminations of employment by the recipient at other locations in Washington but outside an eligible area for the purpose of hiring new positions within an eligible area will result in the withdrawal of any credits taken or approved.

(6) **Application procedures.** A taxpayer must file an application with and obtain approval from the department of revenue to receive tax credits under this program. A separate application must be submitted for each calendar year for which credits are claimed. RCW 82.62.020 requires that application for the tax credits be made prior to the actual hiring of qualified employment positions. Applications failing to satisfy this statutory requirement will be disapproved.

(a) **How to obtain and file applications.** Application forms will be provided by the department upon request either by calling 360-902-7175 or via the department's internet web site at www.dor.wa.gov under forms. The completed application may be sent by fax to 360-586-0527 or mailed to the following address:

State of Washington
Department of Revenue
Taxpayer Account Administration
P.O. Box 47476
Olympia, WA 98504-7476

The U.S. Post Office postmark or fax date will be used as the date of application.

(b) **Confidentiality.** Information contained in applications, reports, or any other information received by the department in connection with this tax credit program is not confidential and is subject to disclosure. All other taxpayer information is subject to the confidentiality provisions in RCW 82.32.330.

(c) **Department to act upon application within sixty days.** The department will determine if the applicant qualifies for tax credits on the basis of the information provided in the application and will approve or disapprove the application within sixty days. If approved, the department will issue a credit approval notice containing the dollar amount of tax credits available for use and the procedures for taking the credit. If disapproved, the department will notify the applicant in writing of the specific reasons for disapproval. The applicant may seek administrative review of the department's disapproval of an application by filing a petition for review with the department. The petition must be filed within thirty days from the date of notice of the disallowance pursuant to the provisions of WAC 458-20-100, Appeals, small claims and settlements.

(d) **No adjustment of credit after approval.** After an application is approved and tax credits are granted, no upward adjustment or amendments of the application will be made for that calendar year.

(7) **How much is the tax credit?** The amount of tax credit is based on the number of and the wages and benefits paid to qualified employment positions created.

(a) **How much tax credit may I claim for each qualified employment position?** The amount of tax credit that may be claimed for each position created is as follows:

(i) Two thousand dollars for each qualified employment position that pays forty thousand dollars or less in wages and benefits annually and is employed in an eligible business project; and

(ii) Four thousand dollars for each qualified employment position that pays more than forty thousand dollars in wages and benefits annually and is employed in an eligible business project.

(b) **What qualifies as wages and benefits?** For the purposes of chapter 82.62 RCW, "wages" means compensation paid to an individual for personal services, whether denominated as wages, salary, commission, bonus, or otherwise. "Benefits" means compensation not paid as wages and includes Social Security, retirement, health care, life insurance, industrial insurance, unemployment compensation, vacation, holiday, sick leave, military leave, and jury duty. "Benefits" does not include any amount reported as wages.

(8) **How to claim approved credits.** The recipients must take the tax credits approved under this program on their regular combined excise tax return for their regular assigned tax reporting period. These tax credits may not exceed the B&O tax liability. The amount of credit taken should be entered into the "credit" section of the return form, with a copy of the credit approval notice issued to the recipient attached to the return.

(a) **When can credits be used?** The credits may be used as soon as hiring of the projected qualified employment positions begins or may accrue until they are most beneficial for the recipient's use. For example, if a recipient has been approved for $12,000 of tax credits based upon projections to hire five new positions, that recipient may use $2,000 or $4,000 of tax credit at the time it hires each new employee, depending on the wage/benefit level of the position filled.

(b) **No refunds for unused credits.** No tax refunds will be made for any tax credits which exceed tax liability during the life of this program. If tax credits derived from qualified hiring exceed the recipients' business and occupation tax liability in any one calendar year under this program, they may be carried forward to the next calendar year(s), until used.

(9) **Annual report to be filed by recipient.** A recipient of tax credits under this program must complete and submit an annual report of employment activities to substantiate that he or she has complied with the hiring and retention requirements for approved credits. RCW 82.62.050. This report must be filed with the department by January 31st of the year following the calendar year for which credit was approved by the department. Based upon this report the department will verify that the recipient is entitled to the tax credits approved by the department when the application was reviewed. The completed annual report may be sent by FAX to 360-586-0527 or mailed to the following address:

State of Washington
Department of Revenue
Taxpayer Account Administration
P.O. Box 47476
Olympia, WA 98504-7476

The U.S. Post Office postmark or FAX date will be used as the date of filing.

(a) **Verification of annual report.** The department will use the same report the recipient provides to the department of employment security, which is known as the quarterly employment security report, to verify the recipient's eligibility for tax credits. The recipient must maintain copies of the quarterly employment report for the year prior to the year for which credits are claimed, the year credits are claimed, and for the four quarters following the hiring of persons to fill the qualified employment positions. (The recipient does not have to forward copies of the quarterly employment report to the department each quarter.) The department may use other wage information provided to the department by the department of employment security. The taxpayer must provide additional information to the department, as the department finds necessary to calculate and verify wage eligibility.

(b) **Failure to file report.** The law provides that if any recipient fails to submit a report or submits an inadequate report, the department may declare the amount of taxes for which credit has been used to be immediately due and payable. An inadequate report is one which fails to provide information necessary to confirm that the requisite number of employment positions has been created and maintained for twelve consecutive months.

(10) **What if the required number of positions is not created?** The law provides that if the department finds that a recipient is not eligible for tax credits for any reason, other than failure to create the required number of qualified employment positions, the amount of taxes for which any credit has been used will be immediately due. No interest or penalty will be assessed in such cases. However, if the department finds that a recipient has failed to create the specified number of qualified employment positions, the department will assess interest, but not penalties, on the taxes against which the credit has been used. This interest on the assessment is mandatory and will be assessed at the statutory rate under RCW 82.32.050, retroactively to the date the tax credit was used. The interest will accrue until the taxes for which the credit was used are fully repaid. RCW 82.32.050. The interest rates under RCW 82.32.050 can be obtained from the department's internet web site at www.dor.wa.gov or by calling the department's information center at 1-800-647-7706.

(11) **Program thresholds.** The department cannot approve any credits that will cause the total credits approved to exceed seven million five hundred thousand dollars in any fiscal year. RCW 82.62.030. A "fiscal year" is the twelve-month period of July 1st through June 30th. If all or part of an application for credit is disallowed due to cap limitations, the disallowed portion will be carried over for approval the next fiscal year. However, the applicant's carryover into the next fiscal year is only permitted if the total credits approved for the next fiscal year does not exceed the cap for that fiscal year as of the date on which the department has disallowed the application.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 05-01-079, § 458-20-240, filed 12/10/04, effective 1/10/05. Statutory Authority: RCW 82.32.-300, 82.62.070 and chapter 82.62 RCW. 01-17-069, § 458-20-240, filed 8/15/01, effective 9/15/01. Statutory Authority: RCW 82.32.300. 88-17-047 (Order 88-5), § 458-20-240, filed 8/16/88; 87-19-007 (Order ET 87-5), § 458-20-240, filed 9/8/87; 86-14-019 (Order ET 86-13), § 458-20-240, filed 6/24/86; 83-08-026 (Order ET 83-1), § 458-20-240, filed 3/30/83; Order ET 71-1, § 458-20-240, filed 7/22/71; Order ET 70-3, § 458-20-240 (Rule 240), filed 5/29/70, effective 7/1/70.]

WAC 458-20-24001 Sales and use tax deferral—Manufacturing and research/development activities in rural counties—Applications filed after March 31, 2004. (1) **Introduction.** Chapter 82.60 RCW establishes a sales and use tax deferral program. The purpose of the program is to promote economic stimulation, create employment opportunities, and reduce poverty in certain areas of the state. The legislature established this program to be effective solely in those areas and under circumstances where the deferral is for investments that result in the creation of a specified minimum number of jobs or investment for a qualifying project.

(a) This deferral program applies to taxes imposed on the construction of qualified buildings or acquisition of qualified machinery and equipment and requires the recipient of the deferral to maintain the manufacturing or research and development activity for an eight-year period. This section does not address RCW 82.08.02565 and 82.12.02565, which provide a statewide sales and use tax exemption for machinery and equipment used directly in a manufacturing operation. Refer to WAC 458-20-13601 for more information regarding the statewide exemption.

(b) This program was first enacted in 1985. The legislature made major revisions to program criteria in 1993, 1994, 1995, 1996, 1999, and 2004, specifically to the definitions of "eligible area," "eligible investment project," and "qualified building." Each revision created additional criteria for prospective applicants. This section sets forth the requirements for applications made after March 31, 2004. For applications made prior to April 1, 2004, see WAC 458-20-24001A.

(c) The employment security department and the department of community, trade, and economic development administer programs for rural counties and job training and should be contacted directly for information concerning these programs.

(2) **Who is eligible for the sales and use tax deferral program?** A person engaged in manufacturing or research and development activity is eligible for this deferral program for its eligible investment project.

(a) **What does the term "person" mean for purposes of this section?** "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW.

(i) The lessor or owner of the qualified building is not eligible for deferral unless:

(A) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(B) All of the following conditions are met:

(I) The lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee;

(II) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.60.070;

(III) The economic benefit of the deferral passed to the lessee is no less than the amount of tax deferred by the lessor; and

(IV) Upon request, the lessor must provide the department with written documentation to support the eligibility of the deferral, including any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

For example, economic benefit of the deferral is passed through to the lessee when evidenced by written documentation that the amounts paid to the lessor for construction of tenant improvements are reduced by the amount of the sales tax deferred, or that the lessee receives more tenant improvements through a credit for tenant improvements or other mechanism in the lease equal to the amount of the sales tax deferred.

(ii) The lessor of the qualified building who receives a letter of intent from a qualifying lessee may be eligible for deferral, assuming that all other requirements of chapter 82.60 RCW are met. At the time of application, the lessor must provide to the department a letter of intent by the lessee to lease the qualified building and any other information to prove that the lessee will engage in qualified research and development or pilot scale manufacturing once the building construction is complete. After the investment project is certified as operationally complete, the lessee must actually occupy the building as a lessee and engage in qualified research and development or pilot scale manufacturing. Otherwise, deferred taxes will be immediately due to the lessor, and interest will be assessed retroactively from the date of deferral.

(b) **What is "manufacturing" for purposes of this section?** "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, in addition, includes computer programming, the production of computer software, and other computer-related services, and the activities performed by research and development laboratories and commercial testing laboratories. Effective July 1, 2006, manufacturing also includes the conditioning of vegetable seeds.

For purposes of this section, both manufacturers and processors for hire may qualify for the deferral program as being engaged in manufacturing activities. Refer to WAC 458-20-136 (Manufacturing, processing for hire, fabricating) for more information on processors for hire.

For purposes of this section, "computer-related services" means activities such as programming for the manufactured product. It includes creating operating systems, software, and other similar goods that will be copied and sold as canned software. "Computer-related services" does not include information services, such as data or information processing. The activities performed by the manufacturer to test, correct, revise, or upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services.

For purposes of this section, "vegetable seeds" includes the seeds of those crops that are grown in gardens and on truck farms and are generally known and sold under the name of vegetable or herb seeds in this state. "Vegetable seeds" includes, but is not limited to, cabbage seeds, carrot seeds, onion seeds, tomato seeds, and spinach seeds. Vegetable seeds do not include grain seeds, cereal seeds, fruit seeds, flower seeds, tree seeds, and other similar properties.

(c) **What is "research and development" for purposes of this section?** "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. For purposes of this section, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(3) **What is eligible for the sales and use tax deferral program?** This deferral program applies to an eligible investment project for sales and use taxes imposed on the construction, expansion, or renovation of qualified buildings and acquisition of qualified machinery and equipment.

(a) **What is an "eligible investment project" for purposes of this section?** "Eligible investment project" means an investment project in an eligible area. Refer to (g) of this subsection for more information on eligible area. "Eligible investment project" does not include an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. It also does not include an investment project that has already received a deferral under chapter 82.60 RCW.

(b) **What is an "investment project" for purposes of this section?** "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(c) **What is "qualified buildings" for purposes of this section?** "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for manufacturing or research and development activities.

(i) "Qualified buildings" is limited to structures used for manufacturing and research and development activities. "Qualified buildings" includes plant offices and warehouses if such facilities are essential to or an integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development.

(A) "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. An office may be located in a separate building from the building used for manufacturing or research and development activities, but the office must be located at the same site as the qualified building in order to qualify. Each individual office may only qualify or disqualify in its entirety.

(B) "Warehouse" means buildings or facilities used for the storage of raw materials or finished goods. A warehouse may be located in a separate building from the building used for manufacturing or research and development activities, but the warehouse must be located at the same site as the qualified building in order to qualify. Warehouse space may be apportioned based upon its qualifying use.

(C) A site is one or more immediately adjacent parcels of real property. Adjacent parcels of real property separated only by a public road comprise a single site.

(ii) "Qualified buildings" does not include construction of landscaping or most other work outside the building itself, even though the landscaping or other work outside the building may be required by the city or county government in order for the city or county to issue a permit for the construction of a building.

However, "qualified buildings" includes construction of specialized sewerage pipes connected to a qualified building that are specifically designed and used exclusively for manufacturing or research and development.

Also, "qualified buildings" includes construction of parking lots connected to or adjacent to the building if the parking lots are for the use of workers performing manufacturing or research and development in the building. Parking lots may be apportioned based upon its qualifying use.

(d) **When is apportionment of qualified buildings appropriate?** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of an existing building used in manufacturing or research and development. Where a building(s) is used partly for manufacturing or research and development and partly for purposes that do not qualify for deferral under this section, apportionment is necessary.

(e) **What are the apportionment methods?** The deferral is determined by one of the following two apportionment methods. The first method of apportionment is based on square footage and does not require tracking the costs of materials for the qualifying/nonqualifying areas of a building. The second method of apportionment tracks the costs of materials used in the qualifying/nonqualifying areas, and it is primarily used by those industries with specialized building requirements.

(i) **First method.** The applicable tax deferral can be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways, bathrooms, and conference rooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Costs x Tax Rate = Eligible Tax Deferred.

(ii) **Second method.** If the applicable tax deferral is not determined by the first method, it will be determined by tracking the cost of construction of qualifying/nonqualifying areas as follows:

(A) Tax on the cost of construction of areas devoted solely to manufacturing or research and development may be deferred.

(B) Tax on the cost of construction of areas not used at all for manufacturing or research and development may not be deferred.

(C) Tax on the cost of construction of areas used in common for manufacturing or research and development and for other purposes, such as hallways, bathrooms, and conference rooms, may be deferred by apportioning the costs of construction on a square footage basis. The apportioned costs of construction eligible for deferral are established by using the ratio, expressed as a percentage, of the square feet of the construction, expansion, or renovation devoted to manufacturing or research and development, excluding areas used in common, to the total square feet of the construction, expansion, or renovation, excluding areas used in common. That percentage is applied to the cost of construction of the common areas to determine the costs of construction eligible for tax deferral. Expressed as a formula, apportionment of the cost of the common areas is determined by:

$$\frac{\text{Square feet devoted to manufacturing or research and development, excluding square feet of common areas}}{\text{Total square feet, excluding square feet of common areas}} = \text{Percentage of total cost of construction of common areas eligible for deferral}$$

(f) **What is "qualified machinery and equipment" for purposes of this section?** "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes computers, desks, filing cabinets, photocopiers, printers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

For purposes of this section, "industrial fixture" means an item attached to a building or to land. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and improvements to land such as concrete slabs.

(i) **Are qualified machinery and equipment subject to apportionment?** Qualified machinery and equipment are not subject to apportionment.

(ii) **To what extent is leased equipment eligible for the deferral?** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date, the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(g) **What is an "eligible area" for purposes of this section?** "Eligible area" means:

(i) **Rural county.** A rural county is a county with fewer than one hundred persons per square mile or a county smaller than two hundred twenty-five square miles as determined annually by the office of financial management and published by the department of revenue effective for the period July 1st through June 30th; or

(ii) **Community empowerment zone (CEZ).** A "community empowerment zone" means an area meeting the requirements of RCW 43.31C.020 and officially designated as a CEZ by the director of the department of community, trade, and economic development, or a county containing a CEZ.

(h) **What if an investment project is located in an area that qualifies both as a rural county and as a CEZ?** If an investment project is located in an area that qualifies under more than one type of eligible area, the department will automatically assign the project to the eligible area that imposes the least burden on the taxpayer and with the greatest benefit to the taxpayer. If the applicant elects to be bound by the requirements of the other potential eligible area, the applicant must make a written statement to that effect. For example, on October 1, 2004, the city of Yakima qualifies as a CEZ, and the entire county of Yakima has fewer than one hundred persons per square mile. The CEZ requirements are more restrictive than counties containing fewer than one hundred persons per square mile. The department will assign the project to the "fewer than one hundred persons per square mile designation" unless the applicant elects to be bound by the CEZ requirements. Refer to subsection (4) of this section for more information on the application process.

(i) **Are there any hiring requirements for an investment project?** There may or may not be a hiring requirement, depending on the location of the project.

(i) **Rural county.** There are no hiring requirements for qualifying projects located in rural counties.

(ii) **Community empowerment zone (CEZ).** There are hiring requirements for qualifying projects located in CEZs or in counties containing CEZs. The applicant applies for a deferral of investment that correlates to the estimated number of persons to be hired based on the following formula:

Number of qualified employment positions to be hired x $750,000 = amount of investment eligible for deferral

Applicants must make good faith estimates of anticipated hiring. Refer to subsection (4) of this section for more information on the application process. The recipient must fill the positions by persons who at the time of hire are residents of the CEZ. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at http://www.dor.wa.gov. A recipient must fill the qualified employment positions by the end of the calendar year following the year in which the project is certified as operationally complete and retain the position during the entire tax year. Refer to subsection (7) of this section for more information on certification of an investment project as operationally complete. If the recipient does not fill the qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

(A) **What is a "qualified employment position" for purposes of this section?** "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full-time" means at least thirty-five hours a week, four hundred fifty-five hours a quarter, or one thousand eight hundred twenty hours a year.

(B) **Who are residents of the CEZ?** "Resident" means the person who fills the qualified employment position makes his or her home in the CEZ. A mailing address alone is insufficient to establish that a person is a resident.

(4) **What are the application and review processes?** An application for sales and use tax deferral under this program must be made prior to the initiation of construction, prior to the acquisition of machinery and equipment, and prior to the filling of qualified employment positions. Persons who apply after construction is initiated or finished or after acquisition of machinery and equipment are not eligible for the program. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify. Applications for persons subject to hiring requirements must include information regarding the estimated total project cost and the qualified employment positions.

(a) **What is "initiation of construction" for purposes of this section?** "Initiation of construction," in regards to the construction, expansion, or renovation of buildings, means the commencement of on-site construction work. Neither planning nor land clearing prior to excavation of the building site constitutes the commencement of on-site construction work.

(b) **What is "acquisition of machinery and equipment" for purposes of this section?** "Acquisition of machinery and equipment" means the machinery and equipment is under the dominion and control of the recipient or its agent.

(c) **How may a taxpayer obtain an application form?** Application forms may be obtained at department of revenue district offices, by downloading from the department's web site (dor.wa.gov), by telephoning the telephone information center (800-647-7706), or by contacting the department's special programs division at:

Department of Revenue
Special Programs Division
Post Office Box 47477
Olympia, WA 98504-7477
Fax 360-586-2163

Applicants must mail or fax applications to the special programs division at the address or fax number given above. Applications received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. RCW 82.60.100.

For purposes of this section, "applicant" means a person applying for a tax deferral under chapter 82.60 RCW, and "department" means the department of revenue.

(d) **Will the department approve the deferral application?** In considering whether to approve or deny an application for a deferral, the department will not approve an application for a project involving construction unless:

(i) The construction will begin within one year from the date of the application; or

(ii) The applicant shows proof that, if the construction will not begin within one year of construction, there is a specific and active program to begin construction of the project within two years from the date of application. Proof may include, but is not limited to:

(A) Affirmative action by the board of directors, governing body, or other responsible authority of the applicant toward an active program of construction;

(B) Itemized reasons for the proposed construction;

(C) Clearly established plans for financing the construction; or

(D) Building permits.

Similarly, after an application has been granted, a deferral certificate is no longer valid and should not be used if construction has not begun within one year from the date of application or there is not a specific and active program to begin construction within two years from the date of application. However, the department will grant requests to extend the period for which the certificate is valid if the holder of the certificate can demonstrate that the delay in starting construction is due to circumstances beyond the certificate holder's control such as the acquisition of building permit(s). Refer to subsection (6) of this section for more information on the use of tax deferral certificate.

(e) **What is the date of application?** "Date of application" means the date of the U.S. Post Office postmark, fax, or electronic transmittal, or when the application is hand delivered to the department. The statute in effect on the "date of application" will determine the program criteria the applicant must satisfy.

(f) **When will the department notify approval or disapproval of the deferral application?** The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval.

(g) **May an applicant request a review of department disapproval of the deferral application?** The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of the disallowance pursuant to the provisions of WAC 458-20-100 (Appeals). The filing of a petition for review with the department starts a review of departmental action.

(5) **What happens after the department approves the deferral application?** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

For purposes of this section, "recipient" means a person receiving a tax deferral under this program.

(6) **How should a tax deferral certificate be used?** A tax deferral certificate issued under this program is for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings or qualified machinery and equipment as defined in this section. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

The tax deferral certificate is to be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102 (Resale certificates). The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

For purposes of this section, "certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(7) **What are the processes of an investment project that is certified by the department as operationally complete?** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

For purposes of this section, "operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(a) **What should a certificate holder do if its investment project reaches the estimated costs but the project is not yet operationally complete?** If a certificate holder has an investment project that has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral taxes are requested. Requests must be mailed or faxed to the department.

(b) **What should a certificate holder do when its investment project is operationally complete?** The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project is operationally complete. The certificate holder of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(8) **Is a recipient of tax deferral required to submit annual surveys?** Each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(9) **Is a recipient of tax deferral required to repay deferred taxes?** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection.

(a) **Is repayment required for machinery and equipment exempt under RCW 82.08.02565 or 82.12.02565?** Repayment of tax deferred under chapter 82.60 RCW is not required, and interest and penalties under RCW 82.60.070 will not be imposed, on machinery and equipment that qualifies for exemption under RCW 82.08.02565 or 82.12.02565.

(b) **When is repayment required?** The following subsections describe the various circumstances under which repayment of the deferral may occur. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year.

Repayment Year		Percentage of Deferred Tax Waived
1	(Year operationally complete)	0%
2		0%
3		0%
4		10%
5		15%
6		20%
7		25%
8		30%

Any action taken by the department to disqualify a recipient for tax deferral or assess interest will be subject to administrative review pursuant to the provisions of WAC 458-20-100 (Appeals). The filing of a petition for review with the department starts a review of departmental action.

(i) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual survey or other information, including that submitted by the employment security department, the department of revenue finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. An example of a disqualification under this section is a facility not being used for a manufacturing or research and development operation. No penalties or interest will be assessed on the deferred sales/use tax; however, all other penalties and interest applicable to excise tax assessments may be assessed and imposed.

(ii) **Failure of investment project to satisfy required employment positions conditions.** If, on the basis of the recipient's annual survey or other information, the department finds that an investment project has been operationally complete and has failed to create the required number of qualified employment positions under subsection (3)(i) of this section, the amount of taxes deferred will be immediately due. There is no proration of the amount owed under this subsection. No penalties or interest will be assessed on the deferred sales/use tax; however, all other penalties and interest applicable to excise tax assessments may be assessed and imposed.

(10) **When will the tax deferral program expire?** No applications for deferral of taxes will be accepted after June 30, 2010.

(11) **Is debt extinguishable because of insolvency or sale?** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes.

(12) **Does transfer of ownership terminate tax deferral?** Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of chapter 82.60 RCW, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient of the deferral.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 06-17-007, § 458-20-24001, filed 8/3/06, effective 9/3/06; 04-01-127, § 458-20-24001, filed 12/18/03, effective 1/18/04. Statutory Authority: RCW 82.32.300. 01-12-041, § 458-20-24001, filed 5/30/01, effective 6/30/01; 88-17-047 (Order 88-5), § 458-20-24001, filed 8/16/88; 87-19-139 (Order 87-6), § 458-20-24001, filed 9/22/87; 86-14-019 (Order ET 86-13), § 458-20-24001, filed 6/24/86; 85-21-013 (Order ET 85-5), § 458-20-24001, filed 10/7/85.]

WAC 458-20-24001A Sales and use tax deferral—Manufacturing and research/development activities in rural counties—Applications filed prior to April 1, 2004. Introduction. Chapter 82.60 RCW establishes a sales and use tax deferral program. The purpose of the program is to promote economic stimulation, create employment opportunities, and reduce poverty in certain areas of the state. The legislature established this program to be effective solely in those areas and for those circumstances where the deferral is for investments that result in the creation of a specified minimum number of jobs or investment for a qualifying project.

The program applies to sales and use taxes on materials and labor and services rendered in the construction of qualified buildings or acquisition of qualified machinery and equipment and requires the recipient of the deferral to maintain the manufacturing or research and development activity for an eight-year period. This rule does not address RCW

82.08.02565 and 82.12.02565, which provide a statewide sales and use tax exemption for machinery and equipment used directly in a manufacturing operation. Refer to WAC 458-20-13601 for more information regarding the statewide exemption.

This program was enacted in 1985. The legislature made major revisions to program criteria in 1993, 1994, 1995, 1996, 1999, and 2004, specifically to the definitions of "eligible area," "eligible investment project," and "qualified building." Each revision created additional criteria for prospective applicants. This rule is written in four parts and covers applications made prior to April 1, 2004. Each part sets forth the requirements on the basis of the period of time in which application is made. Refer to the year during which application was made for information on an individual application. For applications made after March 31, 2004, see WAC 458-20-24001.

The employment security department and the department of community, trade, and economic development administer additional programs for distressed areas and job training and should be contacted directly for information concerning these programs.

PART I
Applications from August 1, 1999, to March 31, 2004

(1) **Definitions.** The following definitions apply to applications made on and after August 1, 1999, and before April 1, 2004:

(a) "Acquisition of equipment or machinery" means the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Computer-related services" means activities such as programming for the manufactured product. It includes creating operating systems, software, and other similar goods that will be copied and sold as canned software. "Computer-related services" does not include information services, such as data or information processing. The activities performed by the manufacturer to test, correct, revise, or upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services.

(e) "Date of application" means the date of the U.S. Post Office postmark, fax, or electronic transmittal, or when the application is hand delivered to the department. The statute in effect on the "date of application" will determine the program criteria the applicant must satisfy.

(f) "Department" means the department of revenue.

(g) "Eligible area" means:

(i) Rural county. A rural county is a county with fewer than one hundred persons per square mile as determined annually by the office of financial management and published by the department of revenue effective for the period July 1st through June 30th; or

(ii) Community empowerment zone (CEZ). A "community empowerment zone" means an area meeting the requirements of RCW 43.31C.020 and officially designated as a CEZ by the director of the department of community, trade, and economic development or a county containing a CEZ.

(h) "Eligible investment project" means an investment project in an eligible area. "Eligible investment project" does not include an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. It also does not include an investment project that has already received a deferral under chapter 82.60 RCW.

(i) "Industrial fixture" means an item attached to a building or to land. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and improvements to land such as concrete slabs.

(j) "Initiation of construction," in regards to the construction, expansion, or renovation of buildings, means the commencement of on-site construction work. Neither planning nor land clearing prior to excavation of the building site constitutes the commencement of on-site construction work.

(k) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify.

(l) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing also includes computer programming, the production of computer software, and other computer-related services, and the activities performed by research and development laboratories and commercial testing laboratories.

(m) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(n) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests in the lessor/owner, or unless the lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(o) "Qualified buildings" means construction of new structures and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for manufacturing and research and development activities.

"Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential to or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means buildings or facilities used for the storage of raw materials or finished goods.

(p) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. Full-time means at least thirty-five hours a week, four hundred fifty-five hours a quarter, or one thousand eight hundred twenty hours a year.

(q) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes computers, desks, filing cabinets, photocopiers, printers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(r) "Recipient" means a person receiving a tax deferral under this program.

(s) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(t) "Resident" means the person who fills the qualified employment position makes his or her home in the CEZ. A mailing address alone is insufficient to establish that a person is a resident.

(2) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

(3) **Eligible investment amount.** There may or may not be a hiring requirement, depending on the location of the project.

(a) **No hiring requirements.** There are no hiring requirements for qualifying projects located in counties with fewer than one hundred persons per square mile. Monitoring and reporting procedures are explained in subsection (10) of this section. Buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (4) of this section explains the procedure for apportionment.

(b) **Hiring requirements.** There are hiring requirements for qualifying projects located in CEZs or in counties containing CEZs. The applicant applies for a deferral of investment that correlates to the estimated number of persons to be hired based on the following formula:

Number of qualified employment positions to be hired x $750,000 = amount of investment eligible for deferral

Applicants must make good faith estimates of anticipated hiring. The recipient must fill the positions by persons who at the time of hire are residents of the CEZ. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at http://www.dor.wa.gov. A recipient must fill the qualified employment positions by the end of the calendar year following the year in which the project is certified as operationally complete and retain the position during the entire tax year. If the recipient does not fill the qualified employment positions by the end of the second calendar year following the year in which the project is certified as operationally complete, all deferred taxes are immediately due.

(4) **Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings used in manufacturing, research and development, or commercial testing laboratories.

(a) Where a building(s) is used partly for manufacturing or research and development and partly for purposes that do not qualify for deferral under this rule, the deferral will be determined by one of the following apportionment methods. The first method of apportionment is based on square footage and does not require tracking the costs of materials for the qualifying/nonqualifying areas of a building. The second method of apportionment tracks the costs of materials used in the qualifying/nonqualifying areas and is primarily used by those industries with specialized building requirements.

(i) The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(ii) If a building is used partly for manufacturing, research and development, or commercial testing and partly for other purposes, the applicable tax deferral shall be determined as follows:

(A) Tax on the cost of construction of areas devoted solely to manufacturing, research and development, or commercial testing may be deferred.

(B) Tax on the cost of construction of areas not used at all for manufacturing, research and development, or commercial testing may not be deferred.

(C) Tax on the cost of construction of areas used in common for manufacturing, research and development, or commercial testing and for other purposes, such as hallways, bathrooms, and conference rooms, may be deferred by apportioning the costs of construction on a square footage basis. The apportioned costs of construction eligible for deferral are established by using the ratio, expressed as a percentage, of the square feet of the construction, expansion, or renovation devoted to manufacturing, research and development, or commercial testing, excluding areas used in common to the total square feet of the construction, expansion, or renovation, excluding areas used in common. That percentage is applied to the cost of construction of the common areas to determine the costs of construction eligible for tax deferral. Expressed as a formula, apportionment of the cost of the common areas is determined by:

$$\frac{\text{Square feet devoted to manufacturing, research and development, or commercial testing, excluding square feet of common areas}}{\text{Total square feet, excluding square feet of common areas}} = \text{Percentage of total cost of construction of common areas eligible for deferral}$$

(b) Qualified machinery and equipment is not subject to apportionment.

(5) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(6) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior to the initiation of construction, prior to the acquisition of machinery and equipment, and prior to the filling of qualified employment positions. Persons who apply after construction is initiated or finished or after acquisition of machinery and equipment are not eligible for the program. Applications for persons subject to hiring requirements must include information regarding the estimated total project cost and the qualified employment positions.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

State of Washington
Department of Revenue
Special Programs
P.O. Box 47477
Olympia, WA 98504-7477

Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.)

(b) In considering whether to approve or deny an application for a deferral, the department will not approve an application for a project involving construction unless:

(i) The construction will begin within one year from the date of the application; or

(ii) If the construction will not begin within one year of application, the applicant shows proof that there is a specific and active program to begin construction of the project within two years from the date of application. Proof may include, but is not limited to:

(A) Affirmative action by the board of directors, governing body, or other responsible authority of the applicant toward an active program of construction;

(B) Itemized reasons for the proposed construction;

(C) Clearly established plans for financing the construction; or

(D) Building permits.

Similarly, after an application has been granted, a deferral certificate is no longer valid and should not be used if construction has not begun within one year from the date of application or there is not a specific and active program to begin construction within two years from the date of application. However, the department will grant requests to extend the period for which the certificate is valid if the holder of the certificate can demonstrate that the delay in starting construction is due to circumstances beyond the certificate holder's control such as the acquisition of building permit(s).

(c) The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval.

(d) The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of the disallowance pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action.

(7) **Eligible area criteria.** The office of financial management will determine annually the counties with fewer than one hundred persons per square mile. The department will update and distribute the list each year. The list will be effective on July 1 of each year.

If an investment project is located in an area that qualifies under more than one type of eligible area, the department will automatically assign the project to the eligible area that imposes the least burden on the taxpayer and with the greatest benefit to the taxpayer. If the applicant elects to be bound by the requirements of the other potential eligible area, the applicant must make a written statement to that effect. For example, on October 1, 1999, the city of Yakima qualifies as a CEZ, and the entire county of Yakima has fewer than one hundred persons per square mile. The CEZ requirements are more restrictive than counties containing fewer than one hundred persons per square mile. The department will assign the project to the "fewer than one hundred persons per square mile designation" unless the applicant elects to be bound by the CEZ requirements.

(8) **Use of the certificate.** A tax deferral certificate issued under this program is for the use of the recipient for deferral of sales and use taxes due on each eligible invest-

ment project. Deferral is limited only to investment in qualified building or qualified machinery and equipment as defined in Part I. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

The tax deferral certificate is to be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

(9) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral taxes are requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project is operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(10) **Reporting and monitoring procedure.**

(a) **Requirement to submit annual reports.** Each recipient of a tax deferral under chapter 82.60 RCW must submit a report on December 31st of the year in which the investment project is certified by the department as having been operationally completed and on December 31st of each of the seven succeeding calendar years. The report must be made to the department in a form and manner prescribed by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately due and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(b) **Requirement to submit annual surveys.** Effective April 1, 2004, each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey **instead of an annual report.** If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(11) **Repayment of deferred taxes.** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection.

(a) Repayment of tax deferred under chapter 82.60 RCW is not required, and interest and penalties under RCW 82.60.070 will not be imposed, on machinery and equipment that qualifies for exemption under RCW 82.08.02565 or 82.12.02565.

(b) The following subsections describe the various circumstances under which repayment of the deferral may occur. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year.

Repayment Year		Percentage of Deferred Tax Waived
1	(Year operationally complete)	0%
2		0%
3		0%
4		10%
5		15%
6		20%
7		25%
8		30%

Any action taken by the department to disqualify a recipient for tax deferral or assess interest will be subject to administrative review pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action.

(c) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the employment security department, the department of revenue finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. An example of a disqualification under this section is a facility not being used for a manufacturing or research and development operation.

(d) **Failure of investment project to satisfy required employment positions conditions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete and has failed to create the required number of qualified employment positions, the amount of taxes deferred will be immediately due. There is no proration of the amount owed under this subsection. No penalties or interest will be assessed on the deferred sales/use tax; however, all other penalties and interest applicable to excise tax assessments may be assessed and imposed.

(12) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is trans-

ferred, subject to the successor meeting the eligibility requirements of chapter 82.60 RCW, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient of the deferral.

(13) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.) Effective April 1, 2004, all information collected in annual surveys, except the amount of tax deferral taken, is confidential and not subject to disclosure. Information on the amount of tax deferral taken in annual surveys is not confidential and may be disclosed to the public upon request.

PART II
Applications from July 1, 1995, to July 31, 1999

(14) **Definitions.** For the purposes of this part, the following definitions apply for applications made on and after July 1, 1995, and before August 1, 1999:

(a) "Acquisition of equipment or machinery" means the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Computer-related services" means services that are connected or interact directly in the manufacture of computer hardware or software or the programming of the manufactured hardware. This includes the manufacture of hardware such as chips, keyboards, monitors, any other hardware, and the components of these items. It includes creating operating systems and software that will be copied and sold as canned software. "Computer-related services" does not include information services. The activities performed by the manufacturer to test, correct, revise, or upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services.

(e) "Department" means the department of revenue.

(f) "Eligible area" means one of the areas designated according to the following classifications:

(i) Unemployment county. A county in which the average level of unemployment for the three calendar years preceding the year in which an application is filed exceeds the average state unemployment for those years by twenty percent. In making this calculation, the department will compare the county's average unemployment rate in the prior three years to one hundred twenty percent of the state's average unemployment rate based on official unemployment figures published by the department of employment security;

(ii) Median income county. On and after June 6, 1996, a county that has a median household income that is less than seventy-five percent of the state median income for the previous three years;

(iii) MSA. A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under chapter 82.60 RCW exceeds the average state unemployment for such calendar year by twenty percent;

(iv) CEZ and county containing a CEZ. A designated community empowerment zone (CEZ) approved under RCW 43.63A.700 or a county containing such a community empowerment zone;

(v) Timber impact area towns. A town with a population of less than twelve hundred persons that is located in a county that is a timber impact area, as defined in RCW 43.31.601, but that is not an unemployment county as defined in Part I;

(vi) Governor's designation county. A county designated by the governor as an eligible area under RCW 82.60.047; or

(vii) Contiguous county. A county that is contiguous to an unemployment county or a governor's designation county.

(g)(i) "Eligible investment project" means:

(A) An investment project in an unemployment county, a median income county, an MSA, a timber impact area town, or a governor's designation county; or

(B) That portion of an investment project in a CEZ, a county containing a CEZ, or a contiguous county, that is directly utilized to create at least one new full-time qualified employment position for each seven hundred fifty thousand dollars of investment.

(ii) "Eligible investment project" does not include an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than that portion of a cogeneration project that is used to generate power for consumption within the manufacturing site of which the cogeneration project is an integral part. It also does not include an investment project that has already received a deferral under chapter 82.60 RCW.

(h) "Industrial fixture" means an item attached to a building or to land. Fixtures become part of the real estate to which they are attached and upon attachment are classified as real property, not personal property. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and certain concrete slabs.

(i) "Initiation of construction," in regards to the construction, expansion, or renovation of buildings, means the commencement of on-site construction work. Land clearing prior to excavation of the building site does not commence construction nor does planning commence construction.

(j) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify.

(k) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, for purposes of the distressed area deferral program, also includes computer programming, the production of computer software, and other computer-related services, and the activities performed by research and development laboratories and commercial testing laboratories.

(l) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(m) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests exclusively in the lessor/owner, or unless the lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(n) "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for manufacturing and research and development activities.

"Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means facilities used for the storage of raw materials or finished goods.

(o) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full time" means at least 35 hours a week, 455 hours a quarter, or 1,820 hours a year.

(p) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation. "Qualified machinery and equipment" includes computers, desks, filing cabinets, photocopiers, printers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(q) "Recipient" means a person receiving a tax deferral under this program.

(r) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(15) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

(16) **Eligible investment amount.** There may or may not be a hiring requirement, depending on the location of the project.

(a) **No hiring requirements.** There are no hiring requirements for qualifying projects located in distressed counties, MSAs, median income counties, governor-designated counties, or timber impact towns. Monitoring and reporting procedures are explained in subsection (23) of this section. Buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (17) of this section explains the procedure for apportionment.

(b) **Hiring requirements.** There are hiring requirements for qualifying projects located in CEZs, in counties containing CEZs, or in contiguous counties. Total qualifying project costs, including any part of the project that would qualify under RCW 82.08.02565 and 82.12.02565, must be examined to determine the number of positions associated with the project. An applicant who knows at the time of application that he or she will not fill the required qualified employment positions is not eligible for the deferral. Applicants must make good faith estimates of anticipated hiring. The applicant applies for a deferral of investment that correlates to the estimated number of persons to be hired. The investment must include the sales price of machinery and equipment eligible for the sales and use tax exemption under RCW 82.08.02565 and 82.12.02565. An applicant can amend the number of persons hired until completion of the project. The qualified employment positions filled by December 31 of the year of completion are the benchmark to be used during the next seven years in determining hiring compliance.

(i) Total qualifying project costs are divided by seven hundred fifty thousand, the result being the qualified employment positions.

(ii) In addition, the number of qualified employment positions created by an investment project will be reduced by the number of full-time employment positions maintained by the recipient in any other community in this state that are displaced as a result of the investment project. This reduction requires a reexamination of whether the seventy-five percent hiring requirement (as explained below) is met.

(iii) This number, which is the result of (i) and (ii) of this subsection, is the number of positions used as the benchmark over the life of the deferral. For recipients locating in a CEZ or a county containing a CEZ, seventy-five percent of the new positions must be filled by residents of a CEZ located in the county where the project is located. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at http://www.dor.wa.gov. For recipients located in a contiguous county, residents of an adjacent unemployment or governor-designated county must fill seventy-five percent of the new positions.

(iv) The qualified employment positions are reviewed each year, beginning December 31st of the year the project is operationally complete and each year for seven years. If the recipient has failed to create the requisite number of positions, the department will issue an assessment as explained under subsection (24) of this section.

(v) In addition to the hiring requirements for new positions under (b) of this subsection, the recipient of a deferral for an expansion or diversification of an existing facility must ensure that he or she maintains the same percentage of employment positions filled by residents of the contiguous county or the CEZ that existed prior to the application being made. This percentage must be maintained for seven years.

(vi) Qualified employment positions do not include those positions filled by persons hired in excess of the ratio of one employee per required dollar of investment for which a deferral is granted. In the event an employee is either voluntarily or involuntarily separated from employment, the employment position will be considered filled if the employer is either training or actively recruiting a replacement employee, so long as the position is not actually vacant for any period in excess of thirty consecutive days.

(17) **Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings used in manufacturing, research and development, or commercial testing.

(a) Where a building(s) is used partly for manufacturing, research and development, or commercial testing and partly for purposes that do not qualify for deferral under this rule, the deferral will be determined by apportionment of the total project costs. The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing, research and development, or commercial testing purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(b) Qualified machinery and equipment is not subject to apportionment.

(18) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(19) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior to the initiation of construction and the acquisition of machinery and equipment. Persons who apply after construction is initiated or after acquisition of machinery and equipment are not eligible for the program. Applications for persons subject to hiring requirements must include information regarding the estimated total project cost and the qualified employment positions.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

State of Washington
Department of Revenue
Special Programs
P.O. Box 47477
Olympia, WA 98504-7477

(b) The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval. The U.S. Post Office postmark or fax date will be used as the date of application.

(c) The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of disallowance pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action.

(20) **Eligible area criteria.** The statewide and county unemployment statistics last published by the department will be used to determine eligible areas based on unemployment. Median income county designation is based on data produced by the office of financial management and made available to the department on November 1 of each year. The timber impact town designation is based on information provided by the department of employment security.

If an investment project is located in an area that qualifies under more than one type of eligible area, the department will automatically assign the project to the eligible area that imposes the least burden on the taxpayer and with the greatest benefit to the taxpayer. If the applicant elects to be bound by the requirements of the other potential eligible area, the applicant must make a written statement to that effect. For example, on May 1, 1998, the city of Yakima qualifies as a CEZ, and the entire county of Yakima qualifies as an unemployment county. The CEZ requirements are more restrictive than the unemployment county requirements. The department will assign the project to the distressed area eligible area unless the applicant elected to be bound by the CEZ requirements.

(21) **Use of the certificate.** A tax deferral certificate issued under this program is for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified building or qualified machinery and equipment as defined in this Part II. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom

the recipient does business, persons the recipient hires, or employees of the recipient.

The tax deferral certificate is used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller is relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

(22) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral is requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project was operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(23) **Reporting and monitoring procedure.**

(a) Requirement to submit annual reports. Each recipient of a deferral granted after July 1, 1995, must submit a report to the department on December 31st of the year in which the investment project is certified by the department as having been operationally completed, and on December 31st of each of the seven succeeding calendar years. The report must be made to the department in a form and manner prescribed by the department. The report must contain information regarding the actual employment related to the project and any other information required by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately due and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(b) **Requirement to submit annual surveys.** Effective April 1, 2004, each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey **instead of an annual report.** If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(24) **Repayment of deferred taxes.** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection, on an investment project for which a deferral has been granted under chapter 82.60 RCW after June 30, 1994.

(a) Taxes deferred under this chapter need not be repaid on machinery and equipment for lumber and wood product industries, and sales of or charges made for labor and services, of the type which qualified for exemption under RCW 82.08.02565 or 82.12.02565.

(b) The following describes the various circumstances under which repayment of the deferral may be required. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year.

Repayment Year		Percentage of Deferred Tax Waived
1	(Year operationally complete)	0%
2		0%
3		0%
4		10%
5		15%
6		20%
7		25%
8		30%

Any action taken by the department to disqualify a recipient for tax deferral or require payment of all or part of deferred taxes is subject to administrative review pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action. See subsection (24)(d) of this section for repayment and waiver for deferrals with hiring requirements.

(c) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the department of employment security, the department finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. For example, a reason for disqualification would be that the facilities are not used for a manufacturing or research and development operation.

(d) **Failure of investment project to satisfy required employment positions conditions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete for three years and has failed to create the required number of qualified employment positions, the amount of taxes deferred will be immediately due. The department will assess interest at the rate and as provided for delinquent excise taxes under RCW 82.32.050 (retroactively to the date the application was filed). There is no proration of the amount owed under this subsection. No penalties will be assessed.

(e) **Failure of investment project to satisfy employee residency requirements.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project under RCW 82.60.040 (1)(b) or (c) has failed to comply with any requirement of RCW 82.60.045 for any calendar year for which reports are required under this subsection, twelve and one-half percent of the amount of deferred taxes will be immediately due. For each year a deferral's requirements are met twelve and one-half percent of the amount of deferred taxes will be waived. The department will assess interest at the rate provided for delinquent excise taxes under RCW 82.32.050, retroactively to the date the application was filed. Each year the employment requirement is met, twelve and one-half percent of the deferred tax will be waived, if all other program requirements are met. No penalties will be assessed.

(f) The department of employment security makes and certifies to the department all determinations of employment and wages required under this subsection.

(25) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(26) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.) Effective April 1, 2004, all information collected in annual surveys, except the amount of tax deferral taken, is confidential and not subject to disclosure. Information on the amount of tax deferral taken in annual surveys is not confidential and may be disclosed to the public upon request.

PART III
Applications from July 1, 1994, to June 30, 1995

(27) **Definitions.** For the purposes of this part, the following definitions apply for applications made on and after July 1, 1994, and before July 1, 1995.

(a) "Acquisition of equipment or machinery" means the date the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Computer-related services" means services that are connected or interact directly in the manufacture of computer hardware or software or the programming of the manufactured hardware. This includes the manufacture of hardware such as chips, keyboards, monitors, any other hardware, and the components of these items. It includes creating operating systems and software that will be copied and sold as canned software. "Computer-related services" does not include information services. The activities performed by the manufacturer to test, correct, revise, and upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services in this instance.

(e) "Department" means the department of revenue.

(f) "Eligible area" means:

(i) Unemployment county. A county in which the average level of unemployment for the three calendar years preceding the year in which an application is filed exceeds the average state unemployment for those years by twenty percent. The department may compare the county's average unemployment rate in the prior three years to one hundred twenty percent of the state's average unemployment rate based on official unemployment figures published by the department of employment security;

(ii) MSA. A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under chapter 82.60 RCW exceeds the average state unemployment for such calendar year by twenty percent;

(iii) CEZ. A designated community empowerment zone approved under RCW 43.63A.700;

(iv) Timber impact area towns. A town with a population of less than twelve hundred persons that is located in a county that is a timber impact area, as defined in RCW 43.31.601, but that is not an unemployment county as defined in this subsection;

(v) Contiguous county. A county that is contiguous to an unemployment county or a governor's designation county; or

(vi) Governor's designation county. A county designated by the governor as an eligible area under RCW 82.60.047.

(g)(i) "Eligible investment project" means that portion of an investment project which:

(A) Is directly utilized to create at least one new full-time qualified employment position for each seven hundred fifty thousand dollars of investment on which a deferral is requested; and

(B) Either initiates a new operation, or expands or diversifies a current operation by expanding, equipping, or renovating an existing facility with costs in excess of twenty-five percent of the true and fair value of the facility prior to improvement. "Improvement" means the physical alteration by significant expansion, modernization, or renovation of an existing facility, excluding land, where the cost of such expansion, etc., exceeds twenty-five percent of the true and fair value of the existing facility prior to the initiation of the expansion or renovation. The term "improvement" is further defined to include those portions of an existing facility which do not increase the usable floor space, but is limited to the renovation, modernization, or any other form of alteration or addition and the equipment and machinery installed therein during the course of construction. The twenty-five percent test may be satisfied by considering the value of both the building and machinery and equipment; however, at least forty percent of the total renovation costs must be attributable to the physical renovation of the building structure alone. "True and fair value" means the value listed on the assessment roles as determined by the county assessor for the buildings or equipment for ad valorem property tax purposes at the time of application.

(ii) "Eligible investment project" does not include either an investment project undertaken by a light and power business as defined in RCW 82.16.010, other than cogeneration projects that are both an integral part of a manufacturing facility and owned at least fifty percent by the manufacturer, or investment projects that have already received deferrals under chapter 82.60 RCW.

(h) "Industrial fixture" means an item attached to a building or to land. Fixtures become part of the real estate to which they are attached and upon attachment are classified as real property, not personal property. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and certain concrete slabs.

(i) "Initiation of construction," in regards to the construction of new buildings, means the commencement of on-site construction work.

(j) "Initiation of construction," in regards to the construction of expanding or renovating existing structures for the purpose of increasing floor space or production capacity used for manufacturing and research and development, means the commencement of the new construction by renovation, modernization, or expansion, by physical alteration.

(k) "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. A person who does not build or remodel his or her own building, but leases from a third party, is eligible for sales and use tax deferral on the machinery and equipment provided that an investment in qualified machinery and equipment is made by such person and a new structure used to house the manufacturing activities is constructed.

(l) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, for purposes of the distressed area deferral program, also includes computer programming, the production of computer software, and other computer-related services, and the activities performed by research and development laboratories and commercial testing laboratories.

(m) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(n) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.60 RCW. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests exclusively in the lessor/owner, or unless the lessor has by written contract agreed to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(o) "Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means facilities used for the storage of raw materials or finished goods.

(p) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full time" means at least 35 hours per week, 455 hours a quarter, or 1,820 hours a year.

(q) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing operation or research and development operation. "Qualified machinery and equipment" includes: Computers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(r) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(s) "Recipient" means a person receiving a tax deferral under this program.

(28) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much tax is deferred.

(29) **Eligible investment amount.**

(a) Projects located in unemployment counties, MSAs, governor-designated counties, or timber impact towns are eligible for a deferral on the portion of the investment project that represents one new qualified employment position for each seven hundred fifty thousand dollars of investment. The eligible amount is computed by dividing the total qualifying project costs by seven hundred fifty thousand, the result being the qualified employment positions. In addition, the number of qualified employment positions created by an investment project will be reduced by the number of full-time employment positions maintained by the recipient in any other community in this state that are displaced as a result of the investment project. This is the number of positions used as the hiring benchmark. The qualified employment positions must be filled by the end of year three. Monitoring and reporting procedures are set forth in subsection (36) of this section. In addition, buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (30) of this section explains the procedure for apportionment.

(b) Projects located in CEZs, counties containing CEZs, or counties contiguous to an eligible county, are eligible for a deferral if the project meets specific hiring requirements. The recipient is eligible for a deferral on the portion of the investment project that represents one new qualified employment position for each seven hundred fifty thousand dollars of investment. The eligible amount is computed by dividing the total qualifying project costs by seven hundred fifty thousand, the result being the qualified employment positions. This is the number of positions used as the hiring benchmark over the life of the deferral. The qualified employment positions are reviewed each year, beginning December 31st of the year the project is operationally complete and each year for seven years. Monitoring and reporting procedures are set forth in subsection (36) of this section. In addition, buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (30) of this section explains the procedure for apportionment.

(c) In addition to the hiring requirements for new positions under (b) of this subsection, the recipient of a deferral for an expansion or diversification of an existing facility must ensure that he or she maintains the same percentage of employment positions filled by residents of the contiguous county or the CEZ that existed prior to the application being made. This percentage must be maintained for seven years. The department has instituted a geographic information system (GIS) to assist taxpayers in determining taxing jurisdiction boundaries, local tax rates, and a mapping and address lookup system to determine whether a specific address is within a CEZ. The system is available on the department's internet web site at http://www.dor.wa.gov.

(d) Qualified employment positions does not include those persons hired in excess of the ratio of one employee per required dollar of investment for which a deferral is granted. In the event an employee is either voluntarily or involuntarily separated from employment, the employment position will be considered filled if the employer is either training or actively recruiting a replacement employee so long as the position is not actually vacant for any period in excess of thirty consecutive days.

(30) **Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings used in manufacturing, research and development.

(a) Where a building(s) is used partly for manufacturing or research and development and partly for purposes which do not qualify for deferral under this rule, the deferral will be determined by apportionment of the total project costs. The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(b) Qualified machinery and equipment is not subject to apportionment.

(31) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(32) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior to the initiation of construction and the acquisition of machinery and equipment. Persons who apply after construction is initiated or after acquisition of machinery and equipment are not eligible for the program.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

State of Washington
Department of Revenue
Special Programs
P.O. Box 47477
Olympia, WA 98504-7477

(b) The department will verify the information contained in the application and approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval. The U.S. Post Office postmark or fax date will be used as the date of application.

(c) The applicant may seek administrative review of the department's disapproval of an application within thirty days from the date of notice of disallowance pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action.

(33) **Eligible area criteria.** The department will use the statewide and county unemployment statistics as last published by the department. Timber impact town designation is based on information provided by the department of employment security. The department will update the list of eligible areas by county, annually.

(34) **Use of the certificate.** A tax deferral certificate issued under this program will be for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings or qualified machinery and equipment as defined in this Part III. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment. In addition, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or

employees of the recipient. The tax deferral certificate is be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales.

(35) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral of sales and use taxes is requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project was operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(c) The recipient will be notified in writing of the total amount of deferred taxes, the date(s) upon which the deferred taxes must be paid, and any reports required to be submitted in the subsequent years. If the department disallows any portion of the amount of sales and use taxes requested for deferral, the recipient may seek administrative review of the department's action within thirty days from the date of the notice of disallowance pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action.

(36) **Reporting and monitoring procedure.**

(a) Requirement to submit annual reports. Each recipient of a sales and use tax deferral must submit a report to the department on December 31st of the year in which the investment project is certified by the department as having been operationally completed, and on December 31st of each of the seven succeeding calendar years. The report must be made to the department in a form and manner prescribed by the department. The report must contain information regarding the actual employment related to the project and any other information required by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately due and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(b) Requirement to submit annual surveys. Effective April 1, 2004, each recipient of a tax deferral granted under chapter 82.60 RCW after June 30, 1994, must complete an annual survey **instead of an annual report.** If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020(4), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. Refer to WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(37) **Repayment of deferred taxes.** Repayment of tax deferred under chapter 82.60 RCW is excused, except as otherwise provided in RCW 82.60.070 and this subsection on an investment project for which a deferral has been granted under chapter 82.60 RCW after June 30, 1994.

(a) The following describes the various circumstances under which repayment of the deferral may be required. Outstanding taxes are determined by reference to the following table. The table presumes the taxpayer maintained eligibility for the entire year. See subsection (c) for repayment and waiver for deferrals with hiring requirements.

Repayment Year		Percentage of Deferred Tax Waived
1	(Year operationally complete)	0%
2		0%
3		0%
4		10%
5		15%
6		20%
7		25%
8		30%

Any action taken by the department to disqualify a recipient for tax deferral or require payment of all or part of deferred taxes is subject to administrative review pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action.

(b) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the department of employment security, the department finds that an investment project is not eligible for tax deferral, other than failure to create the required number of positions, the department will declare the amount of deferred taxes outstanding to be immediately due. For example, a reason for disqualification would be that the facility is not used for manufacturing or research and development operations.

(c) **Failure of investment project to satisfy employment positions conditions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete for three years and has failed to create the required number of qualified employment positions, the amount of taxes deferred will be immediately due. The department will assess interest at the rate and as provided for delinquent excise taxes under RCW 82.32.050 (retroactively to the date of deferral). No penalties will be assessed.

(d) **Failure of investment project to satisfy employee residency requirements.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project under RCW 82.60.040 (1)(b) or (c) has failed to comply with the special hiring requirements of RCW 82.60.045 for any calendar year for which reports are required under this subsection, twelve and one-half percent of the amount of deferred taxes will be immediately due. For each year a deferral's requirements are met twelve and one-half percent of the amount of deferred taxes will be waived. The department will assess interest at the rate provided for delinquent excise taxes under RCW 82.32.050, retroactively to the date of deferral. No penalties will be assessed.

(e) The department of employment security makes and certifies to the department all determinations of employment and wages required under this subsection, per request.

(38) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project is liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(39) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.) Effective April 1, 2004, all information collected in annual surveys, except the amount of tax deferral taken, is confidential and not subject to disclosure. Information on the amount of tax deferral taken in annual surveys is not confidential and may be disclosed to the public upon request.

PART IV
Applications from July 1, 1992, to June 30, 1994

(40) **Definitions.** For the purposes of this part, the following definitions apply for applications made after July 1, 1992, but before July 1, 1994:

(a) "Acquisition of equipment or machinery" means the equipment and machinery is under the dominion and control of the recipient.

(b) "Applicant" means a person applying for a tax deferral under chapter 82.60 RCW.

(c) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(d) "Computer-related services" means services that are connected or interact directly in the manufacture of computer hardware or software or the programming of the manufactured hardware. This includes the manufacture of hardware such as chips, keyboards, monitors, any other hardware, and the components of these items. It includes creating operating systems and software that will be copied and sold as canned software. "Computer-related services" does not include information services. The activities performed by the manufacturer to test, correct, revise, and upgrade software or hardware before they are approved for sale to the consumer are considered computer-related services in this instance.

(e) "Department" means the department of revenue.

(f) "Eligible area" means:

(i) Unemployment county. A county in which the average level of unemployment for the three calendar years preceding the year in which an application is filed exceeds the average state unemployment for those years by twenty percent. The department may compare the county's average unemployment rate in the prior three years to one hundred twenty percent of the state's average unemployment rate based on official unemployment figures published by the department of employment security;

(ii) MSA. A metropolitan statistical area, as defined by the Office of Federal Statistical Policy and Standards, United States Department of Commerce, in which the average level of unemployment for the calendar year immediately preceding the year in which an application is filed under chapter 82.60 RCW exceeds the average state unemployment for such calendar year by twenty percent; or

(iii) CEZ. Beginning July 1, 1993, a designated community empowerment zone approved under RCW 43.63A.700.

(g)(i) "Eligible investment project" means that portion of an investment project which:

(A) Is directly utilized to create at least one new full-time qualified employment position for each three hundred thousand dollars of investment on which a deferral is requested; and

(B) Either initiates a new operation, or expands or diversifies a current operation by expanding, or renovating an existing building with costs in excess of twenty-five percent of the true and fair value of the plant complex prior to improvement. "Improvement" means the physical alteration by significant expansion, modernization, or renovation of an existing plant complex, excluding land, where the cost of such expansion, etc., exceeds twenty-five percent of the true and fair value of the existing plant complex prior to the initiation of the expansion or renovation. The term "improvement" is further defined to include those portions of an existing building which do not increase the usable floor space, but is limited to the renovation, modernization, or any other form of alteration or addition and the equipment and machinery installed therein during the course of construction. The twenty-five percent test may be satisfied by considering the value of both the building and machinery and equipment; however, at least forty percent of the total renovation costs must be attributable to the physical renovation of the building structure alone. "True and fair value" means the value listed on the assessment rolls as determined by the county assessor for the land, buildings, or equipment for ad valorem property tax purposes at the time of application; or

(C) Acquires machinery and equipment to be used for either manufacturing or research and development. The lessor/owner of the structure is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person.

(ii) "Eligible investment project" does not include any portion of an investment project undertaken by a light and power business as defined in RCW 82.16.010 or investment projects that have already received deferrals under chapter 82.60 RCW.

(h) "Industrial fixture" means an item attached to a building or to land. Fixtures become part of the real estate to which they are attached and upon attachment are classified as real property, not personal property. Examples of "industrial fixtures" are fuel oil lines, boilers, craneways, and certain concrete slabs.

(i) "Initiation of construction," in regards to the construction of new buildings, means the commencement of on-site construction work.

(j) "Initiation of construction," in regards to the construction of expanding or renovating existing structures for the purpose of increasing floor space or production capacity used for manufacturing and research and development, means the commencement of new construction by renovation, modernization, or expansion, by physical alteration.

(k) "Investment project" means an investment in qualified buildings and qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project.

(l) "Manufacturing" has the meaning given in RCW 82.04.120. Manufacturing, for purposes of the distressed area deferral program, also includes computer programming, the production of computer software, and other computer-related services, and the activities performed by research and development laboratories and commercial testing laboratories.

(m) "Operationally complete" means the project is capable of being used for its intended purpose as described in the application.

(n) "Person" has the meaning given in RCW 82.04.030. "Person" does not include the state of Washington or its institutions. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of this chapter. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, or equipment vests in the lessor/owner.

(o) "Qualified buildings" are limited to structures used for manufacturing and research and development activities. "Qualified buildings" include plant offices and warehouses if such facilities are essential or an integral part of a factory, mill, plant, or laboratory. "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building, its use must be essential or integral to the manufacturing or research and development operation. Office space that is used by supervisors and their staff, by technicians, by payroll staff, by the safety officer, and by the training staff are examples of qualifying office space. "Warehouse" means facilities used for the storage of raw materials or finished goods.

(p) "Qualified employment position" means a permanent full-time employee employed in the eligible investment project during the entire tax year. The "entire tax year" means the full-time position is filled for a period of twelve consecutive months. "Full time" means at least 35 hours a week, 455 hours a quarter, or 1,820 hours a year.

(q) "Qualified machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing operation or research and development operation. "Qualified machinery and equipment" includes: Computers, software, data processing equipment, laboratory equipment; manufacturing components such as belts, pulleys, shafts and moving parts; molds, tools and dies; operating structures; and all equipment used to control or operate machinery. It also includes machinery and equipment acquired under the terms of a long- or short-term lease by the recipient. "New" as used in this subsection means either new to the taxing jurisdiction of the state or new to the certificate holder.

(r) "Recipient" means a person receiving a tax deferral under this program.

(s) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun. As used in this subsection, "commercial sales" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(41) **Issuance of deferral certificate.** The department will issue a sales and use tax deferral certificate for state and local sales and use taxes due under chapters 82.08, 82.12, and 82.14 RCW for an eligible investment project. The department will state on the certificate the amount of tax deferral for which the recipient is eligible. Recipients must keep track of how much deferral is taken.

(42) **Eligible investment amount.** Recipients are eligible for a deferral on investment used to create employment positions.

(a) Total qualifying project costs must be examined to determine the number of positions associated with the project. Total qualifying project costs are divided by three hundred thousand, the result being the qualified employment positions. This is the number of positions used as the hiring benchmark at the end of year three. The qualified employment positions are reviewed in the third year, following December 31st of the year the project is operationally complete. If the recipient has failed to create the requisite number of positions, the department will issue an assessment under subsection (50) of this section. Buildings that will be used partly for manufacturing or research and development and partly for other purposes are eligible for a deferral on a proportionate basis. Subsection (43) of this section explains the procedure for apportionment.

(b) Qualified employment positions does not include those persons hired in excess of the ratio of one employee per required dollar of investment for which a deferral is granted. In the event an employee is either voluntarily or involuntarily separated from employment, the employment position will be considered filled if the employer is either training or actively recruiting a replacement employee so long as the position is not actually vacant for any period in excess of thirty consecutive days.

(43) **Apportionment of costs between qualifying and nonqualifying investments.** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of existing buildings directly used in manufacturing, research and development, or commercial testing laboratories.

(a) Where a building(s) is used partly for manufacturing or research and development, or commercial testing and partly for purposes, which do not qualify for deferral under this rule, the deferral will be determined by apportionment of the total project costs. The applicable tax deferral will be determined by apportionment according to the ratio of the square footage of that portion of the building(s) directly used for manufacturing or research and development purposes bears to the square footage of the total building(s).

Apportionment formula:

$$\frac{\text{Eligible square feet of building(s)}}{\text{Total square feet of building(s)}} = \text{Percent Eligible}$$

Percent Eligible x Total Project Costs = Eligible Costs.

"Total Project Costs" means cost of multipurpose buildings and other improvement costs associated with the deferral project. Machinery and equipment are not included in this calculation. Common areas, such as hallways and bathrooms, are not included in the square feet figure for either the numerator or the denominator. The cost of the common areas is multiplied by the percent eligible to determine the portion of the common area that is eligible for deferral.

Eligible Tax Deferred = Eligible Cost x Tax Rate.

(b) Qualified machinery and equipment is not subject to apportionment.

(44) **Leased equipment.** The amount of tax deferral allowable for leased equipment is the amount of the consideration paid by the recipient to the lessor over the initial term of the lease, excluding any period of extension or option to renew, up to the last date for repayment of the deferred taxes. After that date the recipient must pay the appropriate sales taxes to the lessor for the remaining term of the lease.

(45) **Application procedure and review process.** An application for sales and use tax deferral under this program must be made prior to the initiation of construction and the acquisition of equipment or machinery. Persons who apply after construction is initiated or finished or after acquisition of machinery and equipment are not eligible for the program.

(a) Application forms will be supplied to the applicant by the department upon request. The completed application may be sent by fax to 360-586-2163 or mailed to the following address:

State of Washington
Department of Revenue
Special Programs
P.O. Box 47477
Olympia, WA 98504-7477

(b) The department will verify the information contained in the application and either approve or disapprove the application within sixty days. If approved, the department will issue a tax deferral certificate. If disapproved, the department will notify the applicant as to the reason(s) for disapproval. The U.S. Post Office postmark or fax date will be used as the date of application.

(c) The applicant may seek administrative review of the department's refusal to issue a certificate pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements, within thirty days from the date of notice of the department's refusal, or within any extension of such time granted by the department. The filing of a petition for review with the department starts a review of departmental action.

(46) **Unemployment criteria.** For purposes of making application for tax deferral and of approving such applications, the statewide and county unemployment statistics last published by the department will be used to determine eligible areas. The department will update the list of eligible areas by county, on an annual basis.

(47) **Use of the certificate.** A tax deferral certificate issued under this program is for the use of the recipient for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings or qualified machinery and equipment as defined in this Part IV. Thus, sales and use taxes cannot be deferred on items that do not become part of the qualified buildings, machinery, or equipment.

The tax deferral certificate is to be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102, Resale certificates. The certificate holder must provide a copy of the tax deferral certificate to the seller at the time goods or services are purchased. The seller will be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller must retain a copy of the certificate as part of its permanent records for a period of at least five years. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller is liable for business and occupation tax on all tax deferral sales. The deferral certificate is to defer the taxes of the recipient. For example, the deferral is not to be used to defer the taxes of the persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

(48) **Project operationally complete.** An applicant must provide the department with the estimated cost of the investment project at the time the application is made. Following approval of the application and issuance of a tax deferral certificate, a certificate holder must notify the department, in writing, when the value of the investment project reaches the estimated cost as stated on the tax deferral certificate.

(a) If a certificate holder has reached its level of estimated costs and the project is not operationally complete, the certificate holder may request an amended certificate stating a revised amount upon which the deferral of sales and use taxes is requested. Requests must be mailed or faxed to the department.

(b) The certificate holder must notify the department in writing when the construction project is operationally complete. The department will certify the date on which the project was operationally complete. The recipient of the deferral must maintain the manufacturing or research and development activity for eight years from this date.

(c) The recipient will be notified in writing of the total amount of deferred taxes, the date(s) upon which the deferred taxes must be paid, and any reports required to be submitted in the subsequent years. If the department disallows all or any portion of the amount of sales and use taxes requested for deferral, the recipient may seek administrative review of the department's action pursuant to the provisions of WAC 458-20-100, within thirty days from the date of the notice of disallowance.

(49) **Reporting and monitoring procedure.** Requirement to submit annual reports. Each recipient of a sales and use tax deferral must submit a report to the department on December 31st of each year during the repayment period until the tax deferral is repaid. The report must be made to the department in a form and manner prescribed by the department. The report must contain information regarding the actual employment related to the project and any other infor-

mation required by the department. If the recipient fails to submit a report or submits an inadequate or falsified report, the department may declare the amount of deferred taxes outstanding to be immediately assessed and payable. An inadequate or falsified report is one that contains material omissions or contains knowingly false statements and information.

(50) **Repayment of deferred taxes.** The recipient must begin paying the deferred taxes in the third year after the date certified by the department as the date on which the construction project has been operationally completed.

(a) The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years, with amounts of payment scheduled as follows:

	Repayment Year	Percentage of Deferred Tax Repaid
1	(Year certified operationally complete)	0%
2		0%
3		0%
4		10%
5		15%
6		20%
7		25%
8		30%

(b) The department may authorize an accelerated repayment schedule upon request of the recipient. Interest will not be charged on any taxes deferred under this part during the period of deferral, although other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for any delinquent payments during the repayment period pursuant to chapter 82.32 RCW.

(c) Taxes deferred on the sale or use of labor directly applied in the construction of an investment project for which deferral has been granted need not be repaid, provided eligibility for the granted tax deferral has been perfected by meeting all of the eligibility requirements, based upon the recipient's annual December 31 reports and any other information available to the department. The recipient must establish, by clear and convincing evidence, the value of all construction and installation labor for which repayment of sales tax is sought to be excused. Such evidence must include, but is not limited to: A written, signed, and dated itemized billing from construction/installation contractors or independent third party labor providers which states the value of labor charged separately from the value of materials. This information must be maintained in the recipient's permanent records for the department's review and verification. In the absence of such itemized billings in its permanent records, no recipient may be excused from repayment of sales tax on the value of labor in an amount exceeding thirty percent of its gross construction or installation contract charges. The value of labor for which an excuse from repayment of sales or use tax may be received will not exceed the value which is subject to such taxes under the general provisions of chapters 82.08 and 82.12 RCW.

(d) **Failure of investment project to satisfy general conditions.** If, on the basis of the recipient's annual report or other information, including that submitted by the department of employment security, the department finds that an investment project is not eligible for tax deferral for reasons other than failure to create the required number of qualified employment positions, the department will declare the amount of deferred taxes outstanding to be immediately due. For example, a reason for disqualification would be the facility is not used for a manufacturing or research and development operation.

(e) **Failure of investment project to satisfy required employment positions.** If, on the basis of the recipient's annual report or other information, the department finds that an investment project has been operationally complete for three years and has failed to create the required number of qualified employment positions, the department will assess interest but not penalties, on the deferred taxes for the project. The department will assess interest at the rate provided for delinquent excise taxes under RCW 82.32.050, retroactively to the date of the date of deferral. No penalties will be assessed.

(f) The department of employment security makes and certifies to the department all determinations of employment and wages required under this subsection, per request.

(g) Any action taken by the department to assess interest or disqualify a recipient for tax deferral will be subject to administrative review pursuant to the provisions of WAC 458-20-100, appeals, small claims and settlements. The filing of a petition for review with the department starts a review of departmental action.

(51) **Debt not extinguished because of insolvency or sale.** Insolvency or other failure of the recipient does not extinguish the debt for deferred taxes nor will the sale, exchange, or other disposition of the recipient's business extinguish the debt for the deferred taxes. Transfer of ownership does not terminate the deferral. The deferral is transferred, subject to the successor meeting the eligibility requirements of this chapter, for the remaining periods of the deferral. Any person who becomes a successor (see WAC 458-20-216) to such investment project will be liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(52) **Disclosure of information.** Applications and reports received by the department under chapter 82.60 RCW are not confidential and are subject to disclosure. (RCW 82.60.100.)

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 06-17-007, § 458-20-24001A, filed 8/3/06, effective 9/3/06; 04-01-127, § 458-20-24001A, filed 12/18/03, effective 1/18/04. Statutory Authority: RCW 82.32.300. 01-12-041, § 458-20-24001A, filed 5/30/01, effective 6/30/01.]

WAC 458-20-24002 Sales and use tax deferral—New manufacturing and research/development facilities. (1) Introduction. Chapter 82.61 RCW, as amended, establishes a sales and use tax deferral program for certain manufacturing or research and development investment projects. The deferral will be granted only to persons not currently engaged in manufacturing or research and development activities in the state of Washington on June 14, 1985, the effective date of the deferral program. Applications for the tax deferral may be accepted up through June 30, 1994; a holder of a tax deferral certificate must initiate construction of the investment project within one hundred eighty days of receiving approval from the department and issuance of the tax deferral certificate. In general, the deferral applies to the construction of new buildings and the acquisition of related machinery and equipment.

(2) In addition to the tax deferral benefits of this program, the department of employment security administers economic incentives and funding programs which encourage "first source contract" hiring of unemployed persons and state public assistance recipients. The employment security department should be contacted directly for information concerning such nontax-related programs.

(3) Definition of terms. Unless the context clearly requires otherwise, the definitions in this section apply throughout this rule.

(4) "Applicant" means a person applying for a tax deferral under this section.

(5) "Person" has the meaning given in RCW 82.04.030. It means any individual, receiver, administrator, executor, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, municipal corporation, political subdivision of the state of Washington, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise and the United States or any instrumentality thereof. For purposes of this section the relationship of landlord and tenant between separate persons, at arms length, shall not be considered as any of the types of relationships which are identified above as "persons".

(6) "Eligible investment project" means construction of new buildings and the acquisition of new related machinery and equipment when the buildings, machinery, and equipment are to be used for either manufacturing or research and development activities, which construction is commenced prior to December 31, 1994. (See subsection (37) of this section for special provisions relating to aluminum plants.)

(7) "Manufacturing" means all activities of a commercial or industrial nature wherein labor or skill is applied, by hand or machinery, to materials so that as a result thereof a new, different, or useful substance or article of tangible personal property is produced for sale or commercial or industrial use and includes the production or fabrication of specially made or custom-made articles.

(8) "Research and development" means the development, refinement, testing, marketing, and commercialization of a product, service, or process before commercial sales have begun.

(9) "Buildings" means only those new structures used for either manufacturing or research and development activities, including plant offices and warehouses or other facilities for the storage of raw materials or finished goods if such facilities are an essential or integral part of a factory, mill, plant, or laboratory used for manufacturing or research and development purposes. If a building is used partly for manufacturing or research and development purposes and partly for other purposes, the applicable tax deferral shall be determined by apportionment of the costs of construction under this section.

(10) "Machinery and equipment" means all new industrial and research fixtures, equipment, and support facilities that are an integral and necessary part of a manufacturing or research and development operation.

(11) "Qualified machinery and equipment" includes computers; software; data processing equipment; laboratory equipment; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; operating structures; and all equipment used to control or operate the machinery. For purposes of this definition, new machinery and equipment means either new to the taxing jurisdiction of the state or new to the certificate holder. Used machinery and equipment are eligible for deferral if the certificate holder either brings the machinery and equipment into Washington for the first time or makes a retail purchase of the machinery and equipment in Washington.

(12) "Acquisition of equipment and machinery" shall have the meaning given to the term "sale" in RCW 82.04.040. It means any transfer of the ownership of, title to, or possession of, tangible personal property for a valuable consideration. A sale takes place when the goods sold are actually or constructively delivered to the buyer in this state.

(13) "Recipient" means a person receiving a tax deferral under this section.

(14) "Certificate holder" means an applicant to whom a tax deferral certificate has been issued.

(15) "Operationally complete" means that the eligible investment project is constructed or improved to the point of being fully and functionally useable for the intended purpose as described in the application.

(16) "Initiation of construction" means that date upon which on-site construction commences.

(17) "Plant complex" shall mean land, machinery, and buildings adapted to commercial, industrial, or research and development use as a single functional or operational unit for the designing, assembling, processing or manufacturing of finished or partially finished products from raw materials or fabricated parts.

(18) "Investment project" means an investment in qualified buildings and qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction of the project. A person who does not build its own building, but leases from a third party, is eligible for sales and use tax deferral provided that an investment in qualified machinery and equipment is made by such person and a new structure used to house the manufacturing activities is constructed. The lessor/owner of the structure is not eligible for deferral unless the underlying ownership of the buildings, machinery, and equipment vests in the same persons. An eligible investment project does not include any project which or person who have previously been the recipient of a tax deferral under Washington law.

(19) Application procedures. An application for sales and use tax deferral under this program must be made prior to either the initiation of construction or the acquisition of equipment or machinery, as defined above, whichever occurs first. Application forms will be supplied to the applicant by the department upon request. The completed application is to be sent in duplicate to the following address:

State of Washington
Department of Revenue
Audit Procedures & Review
Olympia, WA 98504
Mail Stop AX-02

(20) The application shall contain information regarding the location of the investment project, estimated or actual costs, time schedules for completion and operation, and other information required by the department, including information relating to employment at the investment project.

(21) The department will examine and verify the information contained in the application and either approve or disapprove the application within sixty days. If approved, a tax deferral certificate will be issued effective as of the date the application was received by the department. If disapproved, the department shall notify the applicant as to the reason(s) for disapproval. The applicant may seek administrative review of the department's refusal to issue a certificate pursuant to the provisions of WAC 458-20-100 within twenty days from the date of notice of the department's refusal, or within any extension of such time granted by the department. A certificate holder shall initiate construction of the investment project within one hundred eighty days of receiving approval from the department and issuance of the tax deferral certificate.

(22) A tax deferral certificate shall only be issued to persons who, on June 14, 1985, are not engaged in manufacturing or research and development activities within this state. For purposes of this section, a person shall not be considered to be engaged in manufacturing or research and development activities where the only activities performed by such person in this state are sales, installation, repair, or promotional activities in respect to products manufactured outside this state. Any person who has succeeded by merger, consolidation, incorporation, or any other form or change of identity to the business of a person engaged in manufacturing or research and development activities in this state on June 14, 1985 and any person who is a subsidiary of a person engaged in manufacturing or research and development activities in this state on June 14, 1985 shall also be ineligible to receive a tax deferral certificate.

(23) No application for deferral of taxes shall be accepted after June 30, 1994. For purposes of this regulation, the time of receipt of an application shall be determined by the date shown by the post office cancellation mark stamped upon the envelope containing the application if transmitted by the United States Postal Service, the date stamped on the envelope if transmitted by another carrier, or the date of receipt if hand delivered to an office of the department.

(24) Use of the certificate. A tax deferral certificate issued under this program shall be for the use of the recipient thereof for deferral of sales and use taxes due on each eligible investment project. Deferral is limited only to investment in qualified buildings, machinery, and equipment as defined in this section. Thus, sales and use taxes cannot be deferred on items which do not become part of the qualified buildings, machinery, and equipment.

(25) The tax deferral certificate shall be used in a manner similar to that of a resale certificate as set forth in WAC 458-20-102. The certificate holder shall provide its vendors with a copy of the tax deferral certificate at the time goods or services are purchased. The seller or vendor shall be relieved of the responsibility for collection of the sales or use tax upon presentation of the certificate. The seller or vendor shall retain a copy of the certificate as part of its permanent records. A blanket certificate may be provided by the certificate holder and accepted by the seller covering all such purchases relative to the eligible project. The seller or vendor is liable for reporting business and occupation tax on all deferral sales.

(26) Audit procedures. The certificate holder shall notify the department in writing when the construction project is operationally complete. Upon receipt of such notification or other information, the department shall conduct a final audit of the investment project. The certificate holder shall open its books and records to the department and make available the final cost figures for the investment project. The department may request reasonable supporting documentation and other proof to justify the final cost of the project.

(27) Upon completion of the audit the department shall certify the amount of sales and use taxes subject to deferral and the date on which the project was operationally complete. The recipient shall be notified in writing of the total amount of deferred taxes, the date(s) upon which the deferred taxes shall be paid, and any reports required to be submitted in the subsequent years. If the department disallows all or any portion of the amount of sale and use taxes requested for deferral, the recipient may seek administrative review of the department's action pursuant to the provisions of WAC 458-20-100, within twenty days from the date of the notice of disallowance.

(28) The deferral is allowable only in respect to investment in the construction of a new plant complex used in manufacturing or research and development activities, as defined above. Where a plant complex is used partly for manufacturing or research and development purposes and partly for purposes which do not qualify for deferral under this section and it is not possible to identify the nonqualifying items through separate accounting, the applicable tax deferral shall be determined by apportionment according to the ratio which the construction cost per square foot of that portion of the plant complex directly used for manufacturing purposes bears to the construction cost per square foot of the total plant complex.

(29) The amount of tax deferral allowable for leased equipment shall be calculated upon that amount of the consideration paid by the lessee/recipient to the lessor:

(a) Over the initial term of the lease, excluding any period of extension or option to renew, where the lease term ends on or before the last date for repayment of the deferred taxes; or

(b) Over that portion of the lease term to the last date for repayment of deferred taxes as provided hereinafter, where the lease term, excluding any period of extension or option to renew extends beyond such repayment date.

(30) After that date the lessee/recipient shall pay the appropriate sales tax to the lessor for the remaining term of the lease.

(31) No taxes may be deferred under this section prior to June 14, 1985. No applications for deferral of taxes will be accepted after June 30, 1994, nor will sales or use tax deferral certificates be issued after August 29, 1994. A certificate holder must commence construction of the investment project within one hundred eighty days of receiving approval from the department and issuance of the tax deferral certificate but no later than December 31, 1994.

(32) Reporting and monitoring procedure. An applicant must provide the department with the estimated cost of the investment project at the time the application is made. The applicant shall also provide information relative to the number of jobs contemplated to be created by the project.

(33) The department and the department of trade and economic development shall jointly make two reports to the legislature about the effect of this deferral law on new manufacturing and research and development activities and projects in Washington. The report shall contain information concerning the number of deferral certificates granted, the amount of state and local sales and use taxes deferred, the number of jobs created, and other information useful in measuring such effects. The departments shall submit their joint reports to the legislature by January 1, 1986 and by January 1 of each year through 1995.

(34) Any recipient of a sales and use tax deferral may be asked to submit reports to the department or department of trade and economic development during any period of time the recipient is receiving benefits under this deferral law. The report shall be made to the department in a form and manner prescribed by the department. The recipient may be asked to report information regarding the actual average employment related to the project, the actual wages of the employees related to the project, and any other information required by the department. If the recipient fails to submit a report, the department may not impose any penalties or sanctions against the recipient.

(35) Payment procedures. The recipient of sales and use tax deferral under this program shall begin paying the deferred taxes in the third year after the date certified by the department as the date on which the construction project was operationally complete. The first payment will be due on December 31st of the third calendar year after such certified date, with subsequent annual payments due on December 31st of the following four years, with amounts of payment scheduled as follows:

Repayment Year	Percentage of Deferred Tax Repaid
1	10%
2	15%
3	20%
4	25%
5	30%

(36) The department may authorize an accelerated repayment schedule upon request of the recipient. Interest shall not be charged on any taxes deferred under this program during the period of deferral, although other penalties and interest applicable to delinquent excise taxes may be assessed and imposed for any delinquent payments during the repayment period pursuant to chapter 82.32 RCW. The debt for deferred taxes shall not be extinguished by insolvency or other failure of the recipient nor shall the debt for the deferred taxes be extinguished by the sale, exchange, or other disposition of the recipient's business. Any person who becomes a successor (see WAC 458-20-216) to such investment project shall be liable for the full amount of any unpaid, deferred taxes under the same terms and conditions as the original recipient.

(37) Special provisions affecting aluminum production facilities. Effective May 19, 1987, the law makes special provisions for sales and use tax deferrals for new or used equipment, machinery and operating property, and labor and services in connection with the startup or continued operation of aluminum smelter facilities which were in operation before 1975, but which have ceased operations (or are in imminent danger of ceasing operations). Also, such special provisions may apply to modernization projects involving the construction, acquisition, or upgrading of new or used equipment and machinery to increase the operating efficiency of aluminum smelters or aluminum rolling mills and facilities. Such special provisions entail consultation with collective bargaining units for existing employees as well as the concurrence by such bargaining units with the deferral requested. Persons who operate such facilities should contact the department of revenue to determine if the sales and use tax deferrals are available in any specific case.

(38) Disclosure of information. The law provides that information contained in applications, reports, and other information received by the department in connection with this tax deferral program shall not be confidential and shall be subject to disclosure.

[Statutory Authority: RCW 82.32.300. 88-17-047 (Order 88-5), § 458-20-24002, filed 8/16/88; 87-19-007 (Order ET 87-5), § 458-20-24002, filed 9/8/87; 86-14-019 (Order ET 86-13), § 458-20-24002, filed 6/24/86; 85-21-013 (Order ET 85-5), § 458-20-24002, filed 10/7/85.]

WAC 458-20-24003 Tax incentives for high technology businesses. (1) **Introduction.** This section explains the tax incentives, contained in chapter 82.63 RCW and RCW 82.04.4452, which apply to businesses engaged in research and development or pilot scale manufacturing in Washington in five high technology areas: Advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology. Eligibility for high technology or research and development tax incentives offered by the federal government or any other jurisdiction does not establish eligibility for Washington's programs.

This section contains examples that identify a number of facts and then state a conclusion. The examples should be used only as a general guide. The tax results in all situations must be determined after a review of all facts and circumstances. Assume all the examples below occur on or after June 10, 2004, unless otherwise indicated.

(2) **Organization of the section.** The information provided in this section is divided into three parts.

(a) Part I provides information on the sales and use tax deferral program under chapter 82.63 RCW.

(b) Part II provides information on the sales and use tax exemption available for persons engaged in certain construction activities for the federal government under RCW 82.04.190(6).

(c) Part III provides information on the business and occupation tax credit on research and developing spending under RCW 82.04.4452.

PART I
SALES AND USE TAX DEFERRAL PROGRAM

(3) **Who is eligible for the sales and use tax deferral program?** A person engaged in qualified research and

development or pilot scale manufacturing in Washington in the five high technologies areas is eligible for this deferral program for its eligible investment project.

(a) **What does the term "person" mean for purposes of this deferral program?** "Person" has the meaning given in RCW 82.04.030. Effective June 10, 2004, "person" also includes state universities as defined in RCW 28B.10.016. "Person" can be either a lessee or a lessor, who can apply separately for individual investment projects at the same site, if they comply with the other requirements of chapter 82.63 RCW.

(i) Effective June 10, 2004, the lessor or owner of the qualified building is not eligible for a deferral unless:

(A) The underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person; or

(B) All of the following conditions are met:

(I) The lessor by written contract agrees to pass the economic benefit of the deferral to the lessee;

(II) The lessee that receives the economic benefit of the deferral agrees in writing with the department to complete the annual survey required under RCW 82.63.020(2);

(III) The lessee must receive an economic benefit from the lessor no less than the amount of tax deferred by the lessor; and

(IV) Upon request, the lessor must provide the department with written documentation to support the eligibility of the deferral, including any type of payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee.

For example, economic benefit of the deferral is passed through to the lessee when evidenced by written documentation that the amounts paid to the lessor for construction of tenant improvements are reduced by the amount of the sales tax deferred, or that the lessee receives more tenant improvements through a credit for tenant improvements or other mechanism in the lease equal to the amount of the sales tax deferred.

(ii) Prior to June 10, 2004, the lessor or owner of the qualified building is not eligible for a deferral unless the underlying ownership of the buildings, machinery, and equipment vests exclusively in the same person, or unless the lessor by written contract agrees to pass the economic benefit of the deferral to the lessee in the form of reduced rent payments.

(iii) The lessor of the qualified building who receives a letter of intent from a qualifying lessee may be eligible for deferral, assuming that all other requirements of chapter 82.63 RCW are met. At the time of application, the lessor must provide to the department a letter of intent by the lessee to lease the qualified building and any other information to prove that the lessee will engage in qualified research and development or pilot scale manufacturing once the building construction is complete. After the investment project is certified as operationally complete, the lessee must actually occupy the building as a lessee and engage in qualified research and development or pilot scale manufacturing. Otherwise, deferred taxes will be immediately due to the lessor, and interest will be assessed retroactively from the date of deferral.

(b) **What is "qualified research and development" for purposes of this section?** "Qualified research and development" means research and development performed within this state in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

(c) **What is "research and development" for purposes of this section?** "Research and development" means activities performed to discover technological information, and technical and nonroutine activities concerned with translating technological information into new or improved products, processes, techniques, formulas, inventions, or software.

The term includes exploration of a new use for an existing drug, device, or biological product if the new use requires separate licensing by the Federal Food and Drug Administration under chapter 21 CFR, as amended.

The term does not include adaptation or duplication of existing products where the products are not substantially improved by application of the technology, nor does the term include surveys and studies, social science and humanities research, market research or testing, quality control, sale promotion and service, computer software developed for internal use, and research in areas such as improved style, taste, and seasonal design.

(i) A person need not both discover technological information and translate technological information into new or improved products, processes, techniques, formulas, inventions, or software in order to engage in research and development. A person may perform either activity alone and be engaged in research and development.

(ii) To discover technological information means to gain knowledge of technological information through purposeful investigation. The knowledge sought must be of something not previously known or, if known, only known by persons who have not made the knowledge available to the public.

(iii) Technological information is information related to the application of science, especially with respect to industrial and commercial objectives. Industrial and commercial objectives include both sale and internal use (other than internal use software). The translation of technological information into new or improved products, processes, techniques, formulas, inventions, or software does not require the use of newly discovered technological information to qualify as research and development.

(iv) The translation of technological information requires both technical and nonroutine activities.

(A) An activity is technical if it involves the application of scientific, engineering, or computer science methods or principles.

(B) An activity is nonroutine if it:

(I) Is undertaken to achieve a new or improved function, performance, reliability, or quality; and

(II) Is performed by engineers, scientists, or other similarly qualified professionals or technicians; and

(III) Involves a process of experimentation designed to evaluate alternatives where the capability or the method of achieving the new or improved function, performance, reliability, or quality, or the appropriate design of the desired improvement, is uncertain at the beginning of the taxpayer's research activities. A process of experimentation must seek to resolve specific uncertainties that are essential to attaining the desired improvement.

(v) A product is substantially improved when it functions fundamentally differently because of the application of technological information. This fundamental difference must be objectively measured. Examples of objective measures include increased value, faster operation, greater reliability, and more efficient performance. It is not necessary for the improvement to be successful for the research to qualify.

(vi) Computer software development may qualify as research and development involving both technical and nonroutine activities concerned with translating technological information into new or improved software, when it includes the following processes: Software concept, software design, software design implementation, conceptual freeze, alpha testing, beta testing, international product localization process, and other processes designed to eliminate uncertainties prior to the release of the software to the market for sale. Research and development ceases when the software is released to the market for sale.

Postrelease software development may meet the definition of research and development under RCW 82.63.010(16), but only if it involves both technical and nonroutine activities concerned with translating technological information into improved software. All facts and circumstances are considered in determining whether postrelease software development meets the definition of research and development.

(vii) Computer software is developed for internal use if it is to be used only by the person by whom it is developed. If it is to be available for sale, lease, or license, it is not developed for internal use, even though it may have some internal applications. If it is to be available for use by persons, other than the person by whom it is developed, who access or download it remotely, such as through the internet, it is not usually deemed to be developed for internal use. However, remotely accessed software is deemed to be developed for internal use if its purpose is to assist users in obtaining goods, services, or information provided by or through the person by whom the software is developed. For example, software is developed for internal use if it enables or makes easier the ordering of goods from or through the person by whom the software is developed. On the other hand, a search engine used to search the world wide web is an example of software that is not developed for internal use because the search engine itself is the service sought.

(viii) Research and development is complete when the product, process, technique, formula, invention, or software can be reliably reproduced for sale or commercial use. However, the improvement of an existing product, process, technique, formula, invention, or software may qualify as research and development.

(d) **What is "pilot scale manufacturing" for purposes of this section?** "Pilot scale manufacturing" means design, construction, and testing of preproduction prototypes and models in the fields of biotechnology, advanced computing, electronic device technology, advanced materials, and environmental technology other than for commercial sale. "Commercial sale" excludes sales of prototypes or sales for market testing if the total gross receipts from such sales of the product, service, or process do not exceed one million dollars.

(e) **What are the five high technology areas?** The five high technology areas are as follows:

(i) **Advanced computing.** "Advanced computing" means technologies used in the designing and developing of computing hardware and software, including innovations in designing the full spectrum of hardware from hand-held calculators to super computers, and peripheral equipment.

(ii) **Advanced materials.** "Advanced materials" means materials with engineered properties created through the development of specialized processing and synthesis technology, including ceramics, high value-added metals, electronic materials, composites, polymers, and biomaterials.

(iii) **Biotechnology.** "Biotechnology" means the application of technologies, such as recombinant DNA techniques, biochemistry, molecular and cellular biology, genetics, including genomics, gene expression and genetic engineering, cell fusion techniques, and new bioprocesses, using living organisms, or parts of organisms, to produce or modify products, to improve plants or animals, to develop microorganisms for specific uses, to identify targets for small molecule pharmaceutical development, or to transform biological systems into useful processes and products or to develop microorganisms for specific uses.

(iv) **Electronic device technology.** "Electronic device technology" means technologies involving microelectronics; semiconductors; electronic equipment and instrumentation; radio frequency, microwave, and millimeter electronics; optical and optic-electrical devices; and data and digital communications and imaging devices.

(v) **Environmental technology.** "Environmental technology" means assessment and prevention of threats or damage to human health or the environment, environmental cleanup, and the development of alternative energy sources.

(A) The assessment and prevention of threats or damage to human health or the environment concerns assessing and preventing potential or actual releases of pollutants into the environment that are damaging to human health or the environment. It also concerns assessing and preventing other physical alterations of the environment that are damaging to human health or the environment.

For example, a research project related to salmon habitat restoration involving assessment and prevention of threats or damages to the environment may qualify as environmental technology, if such project is concerned with assessing and preventing potential or actual releases of water pollutants and reducing human-made degradation of the environment.

(I) Pollutants include waste materials or by-products from manufacturing or other activities.

(II) Environmental technology includes technology to reduce emissions of harmful pollutants. Reducing emissions of harmful pollutants can be demonstrated by showing the technology is developed to meet governmental emission standards. Environmental technology also includes technology to increase fuel economy, only if the taxpayer can demonstrate that a significant purpose of the project is to increase fuel economy and that such increased fuel economy does in fact significantly reduce harmful emissions. If the project is intended to increase fuel economy only minimally or reduce emissions only minimally, the project does not qualify as environmental technology. A qualifying research project must focus on the individual components that increase fuel economy of the product, not the testing of the entire product when everything is combined, unless the taxpayer can separate out and identify the specific costs associated with such testing.

(III) Environmental technology does not include technology for preventive health measures for, or medical treatment of, human beings.

(IV) Environmental technology does not include technology aimed to reduce impact of natural disasters such as floods and earthquakes.

(V) Environmental technology does not include technology for improving safety of a product.

(B) Environmental cleanup is corrective or remedial action to protect human health or the environment from releases of pollutants into the environment.

(C) Alternative energy sources are those other than traditional energy sources such as fossil fuels, nuclear power, and hydroelectricity. However, when traditional energy sources are used in conjunction with the development of alternative energy sources, all the development will be considered the development of alternative energy sources.

(4) **What is eligible for the sales and use tax deferral program?** This deferral program applies to an eligible investment project for sales and use taxes imposed on the construction, expansion, or renovation of qualified buildings and acquisition of qualified machinery and equipment.

(a) **What is an "eligible investment project" for purposes of this section?** "Eligible investment project" means an investment project which either initiates a new operation, or expands or diversifies a current operation by expanding, renovating, or equipping an existing facility.

(b) **What is an "investment project" for purposes of this section?** "Investment project" means an investment in qualified buildings or qualified machinery and equipment, including labor and services rendered in the planning, installation, and construction or improvement of the project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify.

(c) **What is "qualified buildings" for purposes of this section?** "Qualified buildings" means construction of new structures, and expansion or renovation of existing structures for the purpose of increasing floor space or production capacity, used for pilot scale manufacturing or qualified research and development.

(i) "Qualified buildings" is limited to structures used for pilot scale manufacturing or qualified research and development. "Qualified buildings" includes plant offices and other facilities that are an essential or an integral part of a structure used for pilot scale manufacturing or qualified research and development.

(A) "Office" means space used by professional, clerical, or administrative staff. For plant office space to be a qualified building, its use must be essential or integral to pilot scale manufacturing or qualified research and development. An office may be located in a separate building from the building used for pilot scale manufacturing or qualified research and development, but the office must be located at the same site as the qualified building in order to qualify. Each individual office may only qualify or disqualify in its entirety.

(B) A site is one or more immediately adjacent parcels of real property. Adjacent parcels of real property separated only by a public road comprise a single site.

(ii) "Qualified buildings" does not include construction of landscaping or most other work outside the building itself, even though the landscaping or other work outside the building may be required by the city or county government in order for the city or county to issue a permit for the construction of a building.

However, "qualified buildings" includes construction of specialized sewerage pipes connected to a qualified building that are specifically designed and used exclusively for pilot scale manufacturing or qualified research and development.

Also, "qualified buildings" includes construction of parking lots connected to or adjacent to the building if the parking lots are for the use of workers performing pilot scale manufacturing or qualified research and development in the building. Parking lots may be apportioned based upon its qualifying use.

(d) **When is apportionment of qualified buildings appropriate?** The deferral is allowable only in respect to investment in the construction of a new building or the expansion or renovation of an existing building used in pilot scale manufacturing or qualified research and development. Where a building(s) is used partly for pilot scale manufacturing or qualified research and development and partly for purposes that do not qualify for deferral under this section, apportionment is necessary.

(e) **What is the apportionment method?** The applicable tax deferral will be determined as follows:

(i) Tax on the cost of construction of areas devoted solely to pilot scale manufacturing or qualified research and development may be deferred.

(ii) Tax on the cost of construction of areas not used at all for pilot scale manufacturing or qualified research and development may not be deferred.

(iii) Tax on the cost of construction of areas used in common for pilot scale manufacturing or qualified research and development and for other purposes, such as hallways, bathrooms, and conference rooms, may be deferred by apportioning the costs of construction on a square footage basis. The apportioned costs of construction eligible for deferral are established by using the ratio, expressed as a percentage, of the square feet of the construction, expansion, or renovation devoted to pilot scale manufacturing or qualified research and development, excluding areas used in common to the total square feet of the construction, expansion, or renovation, excluding areas used in common. That percentage is applied to the cost of construction of the common areas to determine the costs of construction eligible for tax deferral. Expressed as a formula, apportionment of the cost of the common areas is determined by:

$$\frac{\text{Square feet devoted to research and development or pilot scale manufacturing, excluding square feet of common areas}}{\text{Total square feet, excluding square feet of common areas}} = \text{Percentage of total cost of construction of common areas eligible for deferral}$$

(iv) The apportionment method described in (e)(i), (ii), and (iii) of this subsection must be used unless the applicant or recipient can demonstrate that another method better represents a reasonable apportionment of costs, considering all the facts and circumstances. An example is to use the number of employees in a qualified building that is engaged in pilot scale manufacturing or qualified research and development as the basis for apportionment, if this method is not easily manipulated to reflect a desired outcome, and it otherwise represents a reasonable apportionment of costs under all the facts and circumstances.

(v) Example. A building to be constructed will be partially devoted to research and development and partially devoted to marketing, a nonqualifying purpose. The total area of the building is 100,000 square feet. Sixty thousand square feet are used only for research and development, 20,000 square feet are used only for marketing, and the remaining 20,000 square feet are used in common by research and development employees and marketing employees. Tax on the cost of constructing the 60,000 square feet used only for research and development may be deferred. Tax on the cost of constructing the 20,000 square feet used only for marketing may not be deferred. Tax on 75% of the cost of constructing the common areas may be deferred. (Sixty thousand square feet devoted solely to research and development divided by 80,000 square feet devoted solely to research and development and marketing results in a ratio expressed as 75%.)

(f) **What is "qualified machinery and equipment" for purposes of this section?** "Qualified machinery and equipment" means fixtures, equipment, and support facilities that are an integral and necessary part of a pilot scale manufacturing or qualified research and development operation. "Qualified machinery and equipment" includes: Computers; software; data processing equipment; laboratory equipment, instrumentation, and other devices used in a process of experimentation to develop a new or improved pilot model, plant process, product, formula, invention, or similar property; manufacturing components such as belts, pulleys, shafts, and moving parts; molds, tools, and dies; vats, tanks, and fermenters; operating structures; and all other equipment used to control, monitor, or operate the machinery. For purposes of this section, qualified machinery and equipment must be either new to the taxing jurisdiction of the state or new to the certificate holder, except that used machinery and equipment may be treated as qualified machinery and equipment if the certificate holder either brings the machinery and equipment into Washington or makes a retail purchase of the machinery and equipment in Washington or elsewhere.

(i) **What are "integral" and "necessary"?** Machinery and equipment is an integral and necessary part of pilot scale manufacturing or qualified research and development if the pilot scale manufacturing or qualified research and development cannot be accomplished without it. For example, a laboratory table is integral and necessary to qualified research and development. Likewise, telephones, computer hardware (e.g., cables, scanners, printers, etc.), and computer software (e.g., Word, Excel, Windows, Adobe, etc.) used in a typical workstation for an R&D personnel are integral and necessary to qualified research and development. Decorative artwork, on the other hand, is not integral and necessary to qualified research and development.

(ii) **Must qualified machinery and equipment be used exclusively for qualifying purposes in order to qualify?** Qualified machinery and equipment must be used exclusively for pilot scale manufacturing or qualified research and development to qualify for the deferral. Operating system software shared by accounting personnel, for example, is not used exclusively for qualified research and development. However, *de minimis* nonqualifying use will not cause the loss of the deferral. An example of *de minimis* use is the occasional use of a computer for personal e-mail.

(iii) **Is qualified machinery and equipment subject to apportionment?** Unlike buildings, if machinery and equipment is used for both qualifying and nonqualifying purposes, the costs cannot be apportioned. Sales or use tax cannot be deferred on the purchase or use of machinery and equipment used for both qualifying and nonqualifying purposes.

(iv) **To what extent is leased equipment eligible for the deferral?** In cases of leases of qualifying machinery and equipment, deferral of tax is allowed on payments made during the initial term of the lease, but not for extensions or renewals of the lease. Deferral of tax is not allowed for lease payments for any period after the seventh calendar year following the calendar year for which the project is certified as operationally complete.

(5) **What are the application and review processes?** Applicants must apply for deferral to the department of revenue before the initiation of construction of, or acquisition of equipment or machinery for the investment project. When an application for sales and use tax deferral is timely submitted, costs incurred before the application date are allowable, if they otherwise qualify.

(a) **What is "initiation of construction" for purposes of this section?**

(i) **On or after June 10, 2004.**

(A) Initiation of construction means the date that a building permit is issued under the building code adopted under RCW 19.27.031 for:

(I) Construction of the qualified building, if the underlying ownership of the building vests exclusively with the person receiving the economic benefit of the deferral;

(II) Construction of the qualified building, if a lessor passes the economic benefits of the deferral to a lessee as provided in RCW 82.63.010(7); or

(III) Tenant improvements for a qualified building, if a lessor passes the economic benefits of the deferral to a lessee as provided in RCW 82.63.010(7).

(B) Initiation of construction does not include soil testing, site clearing and grading, site preparation, or any other related activities that are initiated before the issuance of a building permit for the construction of the foundation of the building.

(C) If the investment project is a phased project, initiation of construction must apply separately to each building. For purposes of this section, a "phased project" means construction of multiple buildings in different phases over the life of a project. A taxpayer may file a separate application for each qualified building, or the taxpayer may file one application for all qualified buildings. If a taxpayer files one application for all qualified buildings, initiation of construction must apply separately to each building.

(ii) **Prior to June 10, 2004.** Construction is initiated when workers start on-site building tasks. The initiation of construction does not include land clearing or site preparation prior to excavation of the building site. Also, the initiation of construction does not include design or planning activities.

(b) **What is "acquisition of machinery and equipment" for purposes of this section?** "Acquisition of machinery and equipment" means the machinery and equipment is under the dominion and control of the recipient or its agent.

(c) **Lessor and lessee examples.**

(i) Prior to the initiation of construction, Owner/Lessor A enters into an agreement with Lessee B, a company engaged in qualified research and development. Under the agreement, A will build a building to house B's research and development activities, will apply for a tax deferral on construction of the building, will lease the building to B, and will pass on the entire value of the deferral to B. B agrees in writing with the department to complete annual surveys. A applies for the deferral before the date the building permit is issued. A is entitled to a deferral on building construction costs.

(ii) After construction has begun, Lessee C asks that certain tenant improvements be added to the building. Lessor D and Lessee C each agree to pay a portion of the cost of the improvements. D agrees with C in a written agreement that D will pass on the entire value of D's portion of the tax deferral to C, and C agrees in writing with the department to complete annual surveys. C and D each apply for a deferral on the costs of the tenant improvements they are legally responsible for before the date the building permit is issued for such tenant improvements. Both applications will be approved. While construction of the building was initiated before the applications were submitted, tenant improvements on a building under construction are deemed to be the expansion or renovation of an existing structure. Also, lessees are entitled to the deferral only if they are legally responsible and actually pay contractors for the improvements, rather than merely reimbursing lessors for the costs.

(iii) After construction has begun but before machinery or equipment has been acquired, Lessee E applies for a deferral on machinery and equipment. The application will be approved, and E is required to complete annual surveys. Even though it is too late to apply for a deferral of tax on building costs, it is not too late to apply for a deferral for the machinery and equipment.

(d) **How may a taxpayer obtain an application form?** Application forms may be obtained at department of revenue district offices, by downloading from the department's web site (dor.wa.gov), by telephoning the telephone information center (800-647-7706), or by contacting the department's special programs division at:

Department of Revenue
Special Programs Division
Post Office Box 47477
Olympia, WA 98504-7477
fax 360-586-2163

Applicants must mail or fax applications to the special programs division at the address or fax number given above. Applications received by the department in connection with the deferral program are not confidential and are subject to public disclosure.

For purposes of this section, "applicant" means a person applying for a tax deferral under chapter 82.63 RCW, and "department" means the department of revenue.

(e) **What should an application form include?** The application form should include information regarding the location of the investment project, the applicant's average employment in Washington for the prior year, estimated or actual new employment related to the project, estimated or actual wages of employees related to the project, estimated or actual costs, and time schedules for completion and operation. The application form may also include other information relevant to the project and the applicant's eligibility for deferral.

(f) **What is the date of application?** The date of application is the earlier of the postmark date or the date of receipt by the department.

(g) **When will the department notify approval or disapproval of the deferral application?** The department must rule on an application within sixty days. If an application is denied, the department must explain in writing the basis for the denial. An applicant may appeal a denial within thirty days under WAC 458-20-100 (Appeals).

(6) **What happens after the department approves the deferral application?** If an application is approved, the department must issue the applicant a sales and use tax deferral certificate.

The certificate provides for deferral of state and local sales and use taxes on the eligible investment project. The certificate will state the amount of tax deferral for which the recipient is eligible. It will also state the date by which the project will be operationally complete. The deferral is limited to investment in qualified buildings or qualified machinery and equipment. The deferral does not apply to the taxes of persons with whom the recipient does business, persons the recipient hires, or employees of the recipient.

For purposes of this section, "recipient" means a person receiving a tax deferral under chapter 82.63 RCW.

(7) **How should a tax deferral certificate be used?** A successful applicant, hereafter referred to as a recipient, must present a copy of the certificate to sellers of goods or retail services provided in connection with the eligible investment project in order to avoid paying sales or use tax. Sellers who accept these certificates in good faith are relieved of the responsibility to collect sales or use tax on transactions covered by the certificates. Sellers must retain copies of certificates as documentation for why sales or use tax was not collected on a transaction.

The certificate cannot be used to defer tax on repairs to, or replacement parts for, qualified machinery and equipment.

(8) **May an applicant apply for new deferral at the site of an existing deferral project?**

(a) The department must not issue a certificate for an investment project that has already received a deferral under chapter 82.60, 82.61, or 82.63 RCW. For example, replacement machinery and equipment that replaces qualified machinery and equipment is not eligible for the deferral. Also, if renovation is made from an existing building that has already received a deferral under chapter 82.60, 82.61, or 82.63 RCW for the construction of the building, the renovation is not eligible for the deferral.

(b) If expansion is made from an existing building that has already received a deferral under chapter 82.60, 82.61, or 82.63 RCW for the construction of the building, the expanded portion of the building may be eligible for the deferral. Acquisition of machinery and equipment to be used for the expanded portion of the qualified building may also be eligible.

(c) An investment project for qualified research and development that has already received a deferral may also receive an additional deferral certificate for adapting the investment project for use in pilot scale manufacturing.

(d) A certificate may be amended or a certificate issued for a new investment project at an existing facility.

(9) **May an applicant or recipient amend an application or certificate?** Applicants and recipients may make written requests to the special programs division to amend an application or certificate.

(a) Grounds for requesting amendment include, but are not limited to:

(i) The project will exceed the costs originally stated;

(ii) The project will take more time to complete than originally stated;

(iii) The original application is no longer accurate because of changes in the project; and

(iv) Transfer of ownership of the project.

(b) The department must rule on the request within sixty days. If the request is denied, the department must explain in writing the basis for the denial. An applicant or recipient may appeal a denial within thirty days under WAC 458-20-100 (Appeals).

(10) **What should a recipient of a tax deferral do when its investment project is operationally complete?**

(a) When the building, machinery, or equipment is ready for use, the recipient must notify the special programs division in writing that the eligible investment project is operationally complete. The department must, after appropriate investigation: Certify that the project is operationally complete; not certify the project; or certify only a portion of the project. The certification will include the year in which the project is operationally complete.

(b) If all or any portion of the project is not certified, the recipient must repay all or a proportional part of the deferred taxes. The department will notify the recipient of the amount due, including interest, and the due date.

(c) The department must explain in writing the basis for not certifying all or any portion of a project. The decision of the department to not certify all or a portion of a project may be appealed under WAC 458-20-100 (Appeals) within thirty days.

(11) **Is a recipient of a tax deferral required to submit annual surveys?** Each recipient of a tax deferral granted under chapter 82.63 RCW must complete an annual survey. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.63.010(7), the lessee must agree to complete the annual survey and the applicant is not required to complete the annual survey. See WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(12) **Is a recipient of tax deferral required to repay deferred taxes?**

(a) **When is repayment required?** Deferred taxes must be repaid if an investment project is used for purposes other than qualified research and development or pilot scale manufacturing during the calendar year for which the department certifies the investment project as operationally complete or at any time during any of the succeeding seven calendar years. Taxes are immediately due according to the following schedule:

Year in which nonqualifying use occurs	% of deferred taxes due
1	100%
2	87.5%
3	75%
4	62.5%
5	50%
6	37.5%
7	25%
8	12.5%

Interest on the taxes, but not penalties, must be paid retroactively to the date of deferral. For purposes of this section, the date of deferral is the date tax-deferred items are purchased.

(b) **When is repayment not required?**

(i) Deferred taxes need not be repaid if the investment project is used only for qualified research and development or pilot scale manufacturing during the calendar year for which the department certifies the investment project as operationally complete and during the succeeding seven calendar years.

(ii) Deferred taxes need not be repaid on particular items if the purchase or use of the item would have qualified for the machinery and equipment sales and use tax exemptions provided by RCW 82.08.02565 and 82.12.02565 (discussed in WAC 458-20-13601) at the time of purchase or first use.

(iii) Deferred taxes need not be repaid if qualified machinery and equipment on which the taxes were deferred is destroyed, becomes inoperable and cannot be reasonably repaired, wears out, or becomes obsolete and is no longer practical for use in the project. The use of machinery and equipment which becomes obsolete for purposes of the project and is used outside the project is subject to use tax at the time of such use.

(13) **When will the tax deferral program expire?** The authority of the department to issue deferral certificates expires January 1, 2015.

(14) **Is debt extinguishable because of insolvency or sale?** The debt for deferred taxes will not be extinguished by the insolvency or other failure of the recipient.

(15) **Does transfer of ownership terminate tax deferral?** Transfer of ownership does not terminate the deferral. The deferral may be transferred to the new owner if the new owner meets all eligibility requirements for the remaining periods of the deferral. The new owner must apply for an amendment to the deferral certificate. If the deferral is transferred, the new owner is liable for repayment of deferred taxes under the same terms as the original owner. If the new owner is a successor to the previous owner under the terms of WAC 458-20-216 (Successors, quitting business) and the deferral is not transferred, the new owner's liability for

deferred taxes is limited to those that are due for payment at the time ownership is transferred.

PART II
SALES AND USE TAX EXEMPTION FOR PERSONS ENGAGED IN CERTAIN CONSTRUCTION ACTIVITIES FOR THE FEDERAL GOVERNMENT

(16) **Persons engaged in construction activities for the federal government.** Effective June 10, 2004, persons engaged in the business of constructing, repairing, decorating, or improving new or existing buildings or other structures under, upon, or above real property of or for the United States, or any instrumentality thereof, are not liable for sales and use tax on tangible personal property incorporated into, installed in, or attached to such building or other structure, if the investment project would qualify for sales and use tax deferral under chapter 82.63 RCW if undertaken by a private entity. RCW 82.04.190(6).

PART III
BUSINESS AND OCCUPATION TAX CREDIT FOR RESEARCH AND DEVELOPMENT SPENDING

(17) **Who is eligible for the business and occupation tax credit?** RCW 82.04.4452 provides for a business and occupation tax credit for persons engaging in research and development in Washington in five areas of high technology: Advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

A person is eligible for the credit if its research and development spending in the calendar year for which credit is claimed exceeds 0.92 percent of the person's taxable amount for the same calendar year.

(a) **What does the term "person" mean for purposes of this credit?** "Person" has the meaning given in RCW 82.04.030.

(b) **What is "research and development spending" for purposes of this section?** "Research and development spending" means qualified research and development expenditures plus eighty percent of amounts paid to a person other than a public educational or research institution to conduct qualified research and development.

(c) **What is "taxable amount" for purposes of this section?** "Taxable amount" means the taxable amount subject to business and occupation tax required to be reported on the person's combined excise tax returns for the year for which the credit is claimed, less any taxable amount for which a multiple activities tax credit is allowed under RCW 82.04.440. See WAC 458-20-19301 (Multiple activities tax credits) for information on the multiple activities tax credit.

(d) **What are "qualified research and development expenditures" for purposes of this section?** "Qualified research and development expenditures" means operating expenses, including wages, compensation of a proprietor or a partner in a partnership, benefits, supplies, and computer expenses, directly incurred in qualified research and development by a person claiming the business and occupation tax credit provided by RCW 82.04.4452. The term does not include amounts paid to a person other than a public educational or research institution to conduct qualified research and development. Nor does the term include capital costs and overhead, such as expenses for land, structures, or depreciable property.

(i) In order for an operating expense to be a qualified research and development expenditure, it must be directly incurred in qualified research and development. If an employee performs qualified research and development activities and also performs other activities, only the wages and benefits proportionate to the time spent on qualified research and development activities are qualified research and development expenditures under this section. The wages of employees who supervise or are supervised by persons performing qualified research and development are qualified research and development expenditures to the extent the work of those supervising or being supervised involves qualified research and development.

(ii) The compensation of a proprietor or a partner is determined in one of two ways:

(A) If there is net income for federal income tax purposes, the amount reported subject to self-employment tax is the compensation.

(B) If there is no net income for federal income tax purposes, reasonable cash withdrawals or cash advances are the compensation.

(iii) Depreciable property is any property with a useful life of at least a year. Expenses for depreciable property will not constitute qualified research and development expenditures even if such property may be fully deductible for federal income tax purposes in the year of acquisition.

(iv) Computer expenses do not include the purchase, lease, rental, maintenance, repair or upgrade of computer hardware or software. They do include internet subscriber fees, run time on a mainframe computer, and outside processing.

(v) Training expenses for employees are qualified research and development expenditures if the training is directly related to the research and development being performed. Training expenses include registration fees, materials, and travel expenses. Although the research and development must occur in Washington, training may take place outside of Washington.

(vi) Qualified research and development expenditures include the cost of clinical trials for drugs and certification by Underwriters Laboratories.

(vii) Qualified research and development expenditures do not include legal expenses, patent fees, or any other expense not incurred directly for qualified research and development.

(viii) Stock options granted as compensation to employees performing qualified research and development are qualified research and development expenditures to the extent they are reported on the W-2 forms of the employees and are taken as a deduction for federal income tax purposes by the employer.

(ix) Preemployment expenses related to employees who perform qualified research and development are qualified research and development expenditures. These expenses include recruiting and relocation expenses and employee placement fees.

(e) **What does it mean to "conduct" qualified research and development for purposes of this section?** A person is conducting qualified research and development when:

(i) The person is in charge of a project or a phase of the project; and

(ii) The activities performed by that person in the project or the phase of the project constitute qualified research and development.

(iii) Examples.

(A) Company C is conducting qualified research and development. It enters into a contract with Company D requiring D to provide workers to perform activities under the direction of C. D is not entitled to the credit because D is not conducting qualified research and development. Its employees work under the direction of C. C is entitled to the credit if all other requirements of the credit are met.

(B) Company F enters into a contract with Company G requiring G to perform qualified research and development on a phase of its project. The phase of the project constitutes qualified research and development. F is not entitled to the credit because F is not conducting qualified research and development on that phase of the project. G, however, is entitled to the credit if all other requirements of the credit are met.

(f) **What is "qualified research and development" for purposes of this section?** "Qualified research and development" means research and development performed within this state in the fields of advanced computing, advanced materials, biotechnology, electronic device technology, and environmental technology.

(g) **What is "research and development" for purposes of this section?** See subsection (3)(c) of this section for more information on the definition of research and development.

(i) Example. A company that engages in environmental cleanup contracted to clean up a site. It had never faced exactly the same situation before, but guaranteed at the outset that it could do the job. It used a variety of existing technologies to accomplish the task in a combination it had never used before. The company was not engaged in qualified research and development in performing this contract. While the company applied existing technologies in a unique manner, there was no uncertainty to attain the desired or necessary specifications, and therefore the outcome of the project was certain.

(ii) Example. Same facts as (g)(i) of this subsection, except that the company performed research on a technology that had been applied in other contexts but never in the context where the company was attempting to use it, and it was uncertain at the outset whether the technology could achieve the desired outcome in the new context. If the company failed, it would have to apply an existing technology that is much more costly in its cleanup effort. The company was engaged in qualified research and development with respect to the research performed in developing the technology.

(iii) Example. Company A is engaged in research and development in biotechnology and needs to perform standard blood tests as part of its development of a drug. It contracts with a lab, B, to perform the tests. The costs of the tests are qualified research and development expenditures for A, the company engaged in the research and development. Although the tests themselves are routine, they are only a part of what A is doing in the course of developing the drug. B, the lab contracted to perform the testing, is not engaged in research and development with respect to the drug being developed. B is neither discovering technological information nor translating technological information into new or improved products, processes, techniques, formulas, inventions, or software. B is not entitled to a credit on account of the compensation it receives for conducting the tests.

(h) **What are the five high technology areas?** See subsection (3)(e) of this section for more information.

(18) **How is the business and occupation tax credit calculated?**

(a) **On or after July 1, 2004.** The amount of the credit is calculated as follows:

(i) A person must first determine the greater of:

> The person's qualified research and development expenditures;
>
> or
>
> Eighty percent of amounts received by a person other than a public educational or research institution as compensation for conducting qualified research and development.

(ii) Then the person subtracts, from the amount determined under (a)(i) of this subsection, 0.92 percent of its taxable amount. If 0.92 percent of the taxable amount exceeds the amount determined under (a)(i) of this subsection, the person is not eligible for the credit.

(iii) The credit is calculated by multiplying the amount determined under (a)(ii) of this subsection by the following:

(A) For the periods of July 1, 2004, to December 31, 2006, the person's average tax rate for the calendar year for which the credit is claimed;

(B) For the periods of January 1, 2007, to December 31, 2007, the greater of the person's average tax rate for the calendar year or 0.75 percent;

(C) For the periods of January 1, 2008, to December 31, 2008, the greater of the person's average tax rate for the calendar year or 1.0 percent;

(D) For the periods of January 1, 2009, to December 31, 2009, the greater of the person's average tax rate for the calendar year or 1.25 percent; and

(E) For the periods after December 31, 2009, 1.50 percent.

(iv) For the purposes of this section, "average tax rate" means a person's total business and occupation tax liability for the calendar year for which the credit is claimed, divided by the person's total taxable amount for the calendar year for which the credit is claimed.

(v) For purposes of calculating the credit, if a person's reporting period is less than annual, the person may use an estimated average tax rate for the calendar year for which the credit is claimed, by using the person's average tax rate for each reporting period. When the person files its last return for the calendar year, the person must make an adjustment to the total credit claimed for the calendar year using the person's actual average tax rate for the calendar year.

(vi) Examples.

(A) A business engaging in qualified research and development has a taxable amount of $10,000,000 in a year. It pays $80,000 in that year in wages and benefits to employees directly engaged in qualified research and development. The business has no other qualified research and development expenditures. Its qualified research and development expenditures of $80,000 are less than $92,000 (0.92 percent of its taxable amount of $10,000,000). If a business's qualified research and development expenditures (or eighty percent of amounts received for the conduct of qualified research and development) are less than 0.92 percent of its taxable amount, it is not eligible for the credit.

(B) A business engaging in qualified research and development has a taxable amount of $10,000,000 in 2005. Seven million dollars of this amount is taxable at the rate of 0.015 under the B&O tax classification for services and $3,000,000 is taxable at the rate of 0.00484 under the B&O tax classification for royalties. The business pays $119,520 in B&O tax for this reporting period. It pays $200,000 in that year to employees directly engaged in qualified research and development. The business has no other qualified research and development expenditures.

In order to determine the amount of its credit, the business subtracts $92,000 (0.92 percent of its taxable amount of $10,000,000) from $200,000, its qualified research and development expenditures. The resulting amount of $108,000 multiplied by the business's average tax rate equals the amount of the credit.

The business's average tax rate in 2005 is determined by dividing its B&O tax of $119,520 by its taxable amount of $10,000,000. The result, 0.01195, is multiplied by $108,000 to determine the amount of the credit. The credit is $1,291 ($1,290.60 rounded to the nearest whole dollar).

(b) **From July 1, 1998 to June 30, 2004.** The amount of the credit is equal to the greater of:

> The person's qualified research and development expenditures;
>
> or
>
> Eighty percent of amounts received by a person other than a public educational or research institution as compensation for conducting qualified research and development

multiplied by 0.00484 in the case of a nonprofit corporation or association; and
multiplied by 0.015 in the case of all other persons.

(c) **Prior to July 1, 1998.** The amount of the credit is equal to the greater of:

> The person's qualified research and development expenditures;
>
> or
>
> Eighty percent of amounts received by a person other than a public educational or research institution as compensation for conducting qualified research and development

multiplied by 0.00515 in the case of a nonprofit corporation or association; and
multiplied by 0.025 in the case of all other persons.

(d) The credit for any calendar year may not exceed the lesser of two million dollars or the amount of business and occupation tax otherwise due for the calendar year.

(e) Credits may not be carried forward or carried back to other calendar years.

(19) **Is the person claiming the business and occupation tax credit required to submit annual surveys?** Each person claiming the credit granted under RCW 82.04.4452 must complete an annual survey. See WAC 458-20-268 (Annual surveys for certain tax adjustments) for more information on the requirements to file annual surveys.

(20) **Is the business and occupation tax credit assignable?** A person entitled to the credit because of qualified research and development conducted under contract for another person may assign all or a portion of the credit to the person who contracted for the performance of the qualified research and development.

(a) Both the assignor and the assignee must be eligible for the credit for the assignment to be valid.

(b) The total of the credit claimed and the credit assigned by a person assigning credit may not exceed the lesser of two million dollars or the amount of business and occupation tax otherwise due from the assignor in any calendar year.

(c) The total of the credit claimed, including credit received by assignment, may not exceed the lesser of two million dollars or the amount of business and occupation tax otherwise due from the assignee in any calendar year.

(21) **What happens if a person has claimed the business and occupation tax credit earlier but is later found ineligible?** If a person has claimed the credit earlier but is later found ineligible for the credit, then the department will declare the taxes against which the credit was claimed to be immediately due and payable. Interest on the taxes, but not penalties, must be paid retroactively to the date the credit was claimed.

(22) **When will the business and occupation tax credit program expire?** The business and occupation tax credit program for high technology businesses expires January 1, 2015.

(23) **Do staffing companies qualify for the business and occupation tax credit program?** A staffing company may be eligible for the credit if its research and development spending in the calendar year for which credit is claimed exceeds 0.92 percent of the person's taxable amount for the same calendar year.

(a) **Qualifications of the credit.** In order to qualify for the credit, a staffing company must meet the following criteria:

(i) It must conduct qualified research and development through its employees;

(ii) Its employees must perform qualified research and development activities in a project or a phase of the project, without considering any activity performed:

(A) By the person contracting with the staffing company for such performance; or

(B) By any other person;

(iii) It must complete an annual survey by March 31st following any year in which the credit was taken; and

(iv) It must document any claim of the B&O tax credit.

(b) Examples.

(i) Company M, a staffing company, furnishes three employees to Company N for assisting a research project in electronic device technology. N has a manager and five employees working on the same project. The work of M's employees and N's employees combined as a whole constitutes qualified research and development. M's employees do not perform sufficient activities themselves to be considered performing qualified research and development. M does not qualify for the credit.

(ii) Company V, a staffing company, furnishes three employees to Company W for performing a phase of a research project in advanced materials. W has a manager and five employees working on other phases of the same project. V's employees are in charge of a phase of the project that results in discovery of technological information. The work of V's employees alone constitutes qualified research and development. V qualifies for the credit if all other requirements of the credit are met.

(iii) Same as (b)(ii) of this subsection, except that the phase of the research project involves development of computer software for W's internal use. The work of V's employees alone constitutes qualified research and development. V qualifies for the credit if all other requirements of the credit are met.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 06-18-059, § 458-20-24003, filed 8/31/06, effective 10/1/06. Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.63.010. 03-12-053, § 458-20-24003, filed 5/30/03, effective 6/30/03.]

WAC 458-20-241 Radio and television broadcasting. For the purpose of this rule:

"Broadcast" or "broadcasting" includes both radio and television commercial broadcasting stations unless it clearly appears from the context to refer only to radio or television.

"Local advertising" means all broadcast advertising other than national, network, or regional advertising as herein defined.

"National advertising" means broadcast advertising paid for by sponsors which supply goods or services on a national or international basis.

"Network advertising" means broadcast advertising originated by national or regional broadcast networks from outside the state of Washington, the broadcast advertising being supplied by national or regional network broadcasting companies.

"Regional advertising" means broadcast advertising paid for by sponsors which supply goods or services on a regional basis over two or more states.

Business and Occupation Tax

Radio and television broadcasting. Taxable on gross income from the sale of radio or television advertising, and any other gross income from broadcasting, excluding sales to other broadcasters of the right to broadcast material on processed film, sound recorded magnetic tape, and other transcriptions (see service and other activities).

Deductions from gross income from advertising:

(1) **Agency fees.** It is a general trade practice in the broadcasting industry to make allowances to advertising agencies in the form of the deduction or exclusion of a certain percentage of the gross charge made for advertising ordered by the agency for the advertiser. This allowance will be deductible as a discount in the computation of the broadcaster's tax liability in the event that the allowance is shown as a discount or price reduction in the billing or that the billing is on a net basis, i.e., less the discount.

(2) **Gross receipts from national, network, and regional advertising.** The taxpayer may deduct either actual gross receipts from national, network, and regional advertising as herein defined, as included in the gross amount reported under radio and television broadcasting, or may take a "standard deduction" as provided by RCW 82.04.280, as amended by chapter 149, Laws of 1967 ex. sess., which will be a percentage arrived at annually for all broadcast stations in the state of Washington which use the standard deduction method. This percentage will be determined by dividing the total broadcast advertising receipts in the nation from network, national, and regional advertising by the total broadcast advertising receipts in the nation.

This standard deduction will be based on the most current figures published at the beginning of the calendar year and shall be used throughout that calendar year notwithstanding the publishing of the following year's figures within that calendar year. Previously the Federal Communications Commission published the figures used to compute the standard deduction. The Federal Communications Commission no longer publishes these figures and henceforth it will be the responsibility of the industry to annually provide these figures to the department of revenue. The figures used will be subject to verification by the department.

Example of computation:

The standard deduction for persons engaged in radio and television broadcasting was 64% for the calendar year 1970. The deduction was computed as follows:

1.	Total radio advertising receipts 1968	$1,076,300,000
2.	Total television advertising receipts 1968	2,087,600,000
3.	Total broadcast advertising receipts	3,163,900,000
4.	Total national, network, regional advertising receipts, radio, 1968	379,200,000
5.	Total national, network, regional advertising receipts, television, 1968	1,635,100,000
6.	Total broadcast advertising receipts from national, network, and regional advertising	2,014,300,000
7.	Standard deduction for 1970 will be the quotient of line 6 divided by line 3 or	64%

(3) **Interstate business, allocation.** It is recognized that radio and television broadcasting is an interstate business and that under the Constitution of the United States a tax is prohibited upon so much of the revenue of a radio or television broadcasting station as is derived from the service of broadcasting to persons in other states or foreign countries. Accordingly, revenues from local advertising shall be allocated to remove from the tax base the gross income from advertising which is intended to reach potential customers of the advertiser who are located outside the state of Washington.

It will be presumed that the entire gross income of radio and television stations located within the state of Washington from local advertising as herein defined is subject to tax unless and until the taxpayer submits proof to the department of revenue that some portion of such income is exempt according to the principles set forth herein and until a specific allocation formula has been approved by the department.

Method of allocation. When the total daytime listening area of a radio or television station extends beyond the boundaries of the state of Washington, the allowable deduction is that portion of revenue represented by the out-of-state audience computed as a ratio to the station's total audience as measured by the 100 microvolt signal strength and delivery by wire, if any. The out-of-state audience may therefore be determined by delivery "over the air" and by community antenna television systems. However, community antenna television audiences may not be claimed by a station in the same area in which it claims an audience served over the air, thus eliminating a claim for double exemption.

The most current United States and Canadian census figures will be used to determine the in-state and out-of-state audience.

An engineer holding at least a first class operator's license from the Federal Communications Commission must compute the 100 microvolt contour for the station claiming the exemption. The 100 microvolt contour will be applicable to all broadcasting stations, whether standard (AM), frequency modulation (FM), or television (TV), and the applicable contour will be the daytime ground-wave contour. The computation must be submitted to the department of revenue in map form, showing the scale used in miles, with the contour drawn on the map and the counties or cities within the contour indicated. The map must be certified as being correct by the personal signature of the engineer making the computation. The type of license held by the engineer should be indicated. The map must have attached to it the population covered both within and without the state according to the applicable United States and Canadian census.

In the event that cable antenna television subscribers are claimed as part of the out-of-state audience, the name of the systems, the location, and the number of subscribers must also be attached to the map. The number of subscribers will be multiplied by a factor of 3, representing the average size household family.

The foregoing exhibits must be forwarded to the Department of Revenue, Olympia, Washington 98504, and must be approved by the department before any deduction is allowable.

Service and other activities. Taxable on gross income from personal or professional services, including gross income from producing and making custom commercials or special programs, fees for providing writers, directors, artists and technicians, charges for the granting of a license to use facilities (as distinct from the leasing or renting of tangible personal property, see WAC 458-20-211), and charges to other broadcasters for the mere right to broadcast material on processed film, sound recorded magnetic tape, and other transcriptions when the material is returned to the original broadcaster.

Retailing or wholesaling. Taxable on gross proceeds of sales of tangible personal property, including gross proceeds from sales of films and tape produced for general distribution and from sales of copies of commercials, programs, films, etc., even though the original was not subjected to sales tax. The sale of custom-made programs, commercials, films, etc., is not taxable under this classification. (See subheading **Service and other activities** above.)

Manufacturing. Taxable on the cost to produce special programs, such as public affairs, religious, travelogues, and other general programming, which are vended to other broadcasters under a lease or contract granting a mere license to use. This tax does not apply to a recording made for the broadcaster's own use, including news, delayed programs, commercials and promotions, special and syndicated programming, and "entire day" programming.

Retail sales tax. Sales to broadcasters of equipment, supplies and materials for use and not for resale are subject to the retail sales tax. This includes sales of raw or unprocessed film or magnetic tape and other transcription material as well as processed film, recorded magnetic tape or other transcriptions unless vended under a lease or contract granting a mere license to use.

If the tapes, films, etc., upon which the sales tax has been paid are later sold by the broadcaster in the regular course of business, the provisions of WAC 458-20-102 concerning purchases for dual purposes will apply.

Sales to broadcasters of the right to broadcast the material on processed film, sound recorded magnetic tape, and other transcriptions under a right or license granted by lease or contract are not retail sales and the retail sales tax is not applicable.

The broadcaster must collect retail sales tax on sales of packaged films, programs, etc., produced for general distribution, including training and industrial films, and also on sales of copies of films, commercials, programs, etc., even though the original was not subjected to sales tax.

Use tax. Acquisition or exercise of the right to broadcast processed film, recorded magnetic tape or other transcriptions under a right or license granted by lease or contract is not the use of tangible personable property by the broadcaster and the use tax is not applicable.

Broadcasters of radio and television programs are subject to use tax on the value of articles manufactured or produced by them for their own use (excluding custom produced commercials or special programs which includes, but is not necessarily limited to, recordings of news, delayed programs, commercials and promotions, special and syndicated programming, and "entire day" programming) and on the use of tangible personal property purchased or acquired under conditions whereby the retail sales tax has not been paid. The broadcaster is liable for use tax on the value (cost of production) of processed film, sound recorded magnetic tape, and other transcriptions when the broadcaster vends merely the right to broadcast such material under a right or license granted by lease or contract.

Effective September 1, 1982.

[Statutory Authority: RCW 82.32.300. 83-08-026 (Order ET 83-1), § 458-20-241, filed 3/30/83; Order ET 70-3, § 458-20-241 (Rule 241), filed 5/29/70, effective 7/1/70.]

WAC 458-20-242A Pollution control exemption and/or credits for single purpose facilities added to existing production plants to meet pollution control requirements and which are separately identifiable equipment principally for pollution control. Rule 242 deals with pollution control facilities and is published in two parts:

Part A. Single purpose facilities added to existing production plants as separately identifiable equipment principally for pollution control and which are not designed for production of products other than recovered products which but for the facility would be released as pollutants.

Part B. Dual purpose facilities which consist of new plant equipment which achieves pollution control in the process of production of the plant's products rather than through the add on of a pollution device to existing plant equipment at some point in processing or upon completion of processing.

Definition of Terms

For purposes of this rule:

(1) "Facility" shall mean an "air pollution control facility" or a "water pollution control facility" as herein defined:

(a) "Air pollution control facility" includes any treatment works, control devices and disposal systems, machinery, equipment, structures, property or any part or accessories thereof, installed or acquired for the primary purpose of reducing, controlling or disposing of industrial waste which if released to the outdoor atmosphere could cause air pollution. "Air pollution control facility" shall not mean any motor vehicle air pollution control devices used to control the emission of air contaminants from any motor vehicle.

(b) "Water pollution control facility" includes any treatment works, control device or disposal system, machinery, equipment, structures, property or any accessories thereof installed or acquired for the primary purpose of reducing, controlling or disposing of sewage and industrial waste, which if released to a water course could cause water pollution; provided, that the word "facility" shall not be construed to include any control device, machinery, equipment, structure, disposal system or other property installed or constructed for a municipal corporation or for the primary purpose of connecting any commercial establishment with the waste collecting facilities of public or privately owned utilities.

(c) For purposes of this exemption or credit, the terms "commercial establishment" and "other commercial establishment" do not include contractors or their suppliers who install pollution control equipment in facilities of and for another person.

(2) For the purpose of tax credit or exemption, "cost" shall be limited to capital expenditures directly related to the acquisition and installation of the control facility as described in the application. For the purposes of this definition, capital expenditures may include engineering, architecture, legal fees, overhead and other costs which may be directly attributed to the control facility.

(3) "Net commercial value of recovered products" shall mean the value of recovered products less the costs incurred in processing, including overhead costs, and costs attributable to their sale, or other disposition for value. The term shall not include a deduction for the cost or the depreciation of the facility.

(4) "Certificate" shall mean a pollution control tax exemption and credit certificate for which application has been timely made.

(5) "Appropriate control agency" shall mean the state department of ecology; or the operating local or regional air pollution control agency within whose jurisdiction a facility is or will be located.

(6) For the purposes of this rule "depreciation" shall be determined by the straight line method. That is, the cost of the facility, less the salvage or residual value, divided by months of useful life yields the amount by which the facility is depreciated monthly. In computing depreciation for purposes of obtaining a certificate, depreciation shall be computed through the last full month prior to the month in which the application for certificate is filed.

(7) "Department" shall mean the Washington state department of revenue.

Filing Application and Issuance of Certificates

An application for a certificate will be made available by the department to cover the following conditions:

(1) Existing facilities, to provide the basis for a tax credit and for sales tax paid.

(2) Proposed facilities

(a) To provide the basis for a tax exemption on the purchase of material and equipment;

(b) To provide the basis for a tax credit.

The application must show the cost of the facility, specifically stating costs of materials and equipment incorporated into it. When the certificate is for the purposes referred to in "2" above, estimated costs must be shown. The certificate issued on an application based on estimated costs will not permit the holder to claim the credit referred to in "2b" above until an application showing actual costs has been filed and a supplement to the certificate issued.

Applications showing actual costs must also show the total depreciation which is applicable to the facility to the date of the application, the net commercial value of all materials recovered or captured by the facility during the entire period of operation prior to the date of application, and the amount of federal tax credit taken on federal tax returns filed prior to the date of application.

If, subsequent to the issuance of a certificate for a facility, a determination is made to modify or replace such facility, the certificate holder may file an application for a new or a supplemental certificate covering the modification or replacement following the same procedures provided for making application for original certificate. After the issuance by the department of any new certificate or supplement, all subsequent tax exemption and credits for the modified replacement facility shall be based thereon.

The application will be submitted to the department which will forward it to the appropriate control agency within ten days of its receipt from the applicant. The determination that a facility is designed and operated or is intended to be operated primarily for the control, capture and removal of pollutants from the air, or for the control and reduction of water pollution, and that the facility is suitable and reasonably adequate, and meets the intent and purposes of chapter 70.94 RCW (air pollution) or chapter 90.48 RCW (water pollution) will be made by the appropriate control agency. The control agency will notify the department of its findings within thirty days of the date the application was received for approval. The department will make the final determination of cost.

In making a determination, the appropriate control agency will afford to the applicant an opportunity for a hearing. If the local or regional air pollution control agency fails to act or if the applicant feels aggrieved by the action of the local board, the applicant may appeal to the department of ecology pursuant to rules and regulations established by that department.

Upon notification of the action taken by the control agency the department will issue a certificate or notice of denial within thirty days of the receipt of the application from the control agency. The department will send a certificate or supplement, when issued, by certified mail. Notice of refusal to issue a certificate will likewise be sent by certified mail.

Time limitations. Application must be made no later than December 31, 1969, except that with respect solely to a facility required to be installed in an industrial, manufacturing, waste disposal, utility, or other commercial establishment which is in operation or under construction as of July 30, 1967, such application will be deemed timely if made within one year after the effective date of specific requirements for such facility promulgated by the appropriate control agency; whether or not the determination is made before or after the limitation date of December 31, 1969. The "effective date of specific requirements" refers to the compliance order's date for completion of engineering.

Revocation of certificate. The department may revoke an issued certificate upon subsequent discovery that it was improperly issued for reason of illegality, fraud, mistake, or the ineligibility of the applicant.

Utilization of Exemption and Credit

Sales tax exemption. The original acquisition of a facility, or the modification (meaning a substantial improvement resulting from added capacity in the removal of pollutants from the air or water) of an existing facility by the holder of a certificate shall be exempt from sales tax imposed by chapter 82.08 RCW and use tax subsequent to the effective date of the certificate. For applications filed subsequent to January 1, 1975 certificate holders shall receive credit for sales and use tax paid on acquisition of the facility prior to receiving certification. This exemption does not extend to servicing, maintenance, repairs or replacement parts after a facility is complete and placed in service.

Subsequent to July 30, 1967, a certificate holder may elect to pay sales or use tax on the acquisition and installation of a control facility and, subsequently, take a credit against future liability under business and occupation, use, or public utility tax to the extent of the foregoing exemption, except that a person so electing may not take any further manufacturing tax credit as provided in RCW 82.04.435 on the same facility.

Business and Occupation, Use, or Public Utility Tax Credit. With respect to a facility which has been placed in operation and for which a certificate has been issued, a tax credit not exceeding 2 percent of the cost of a new facility or of the depreciated cost of an existing facility may be taken for each year the certificate is in force. Such credit may be claimed against business and occupation, use, or public utility tax liability; however, it shall not exceed 50 percent of the tax liability for any reporting period for which it is claimed nor shall the cumulative amount of credit allowed for any facility exceed 50 percent of the cost of the facility.

Credits to be reduced. Credits claimed will be reduced by the net commercial value of materials captured or recovered by the pollution control facility. The value of such material shall first reduce the credit available in the current reporting period and then be applied against the cumulative credit balance which has been established but which may not be currently available to the certificate holder. Applicants and certificate holders shall provide the department with information required to establish the net commercial value of recovered or captured material and will be required to make books and records available to the department to verify the correctness of information furnished. The cumulative credit will also be reduced by the amount of federal investment tax credit or other federal tax credits allowed to the certificate holder which are applicable to the facility. The federal tax credits shall be taken as an offset against a pollution control tax credit claimed in the first reporting period following the date of filing the tax return on which the federal tax credit was taken, and thereafter as an offset against a credit hereunder as it becomes available to the certificate holder. The applicant shall advise the department of adjustments to the federal tax credits, either increase or decrease, resulting from either an audit by the internal revenue service, or otherwise. Adjustments to the credit allowable under this rule will be made by the department accordingly.

The department will issue instructions and forms to the certificate holder covering the accounting for the credit for which the certificate holder is eligible. Where a certificate holder is also eligible for manufacturing tax credit, the department may issue special instructions covering the separate accounting for the tax credits.

Credit will be allowable only in any period in which a certificate is in force.

[Statutory Authority: RCW 82.32.300. 83-08-026 (Order ET 83-1), § 458-20-242A, filed 3/30/83; Order ET 77-1, § 458-20-242A, filed 12/8/77 (formerly codified WAC 458-20-242); Order ET 70-3, § 458-20-242 (Rule 242), filed 5/29/70, effective 7/1/70.]

WAC 458-20-242B Pollution control exemption and/or credits for dual purpose facilities which are constructed to meet pollution control requirements and which achieve pollution control in the process of production of the plant's products. Rule 242 deals with pollution control facilities and is published in two parts:

Part A.	Single purpose facilities added to existing production plants as separately identifiable equipment principally for pollution control and which are not designed for production of products other than recovered products which but for the facility would be released as pollutants.
Part B.	Dual purpose facilities which consist of new plant equipment which achieves pollution control in the process of production of the plant's products rather than through the add on of a pollution device to existing plant equipment at some point in processing or upon completion of processing.

This rule sets out instructions for determining pollution control tax exemption and/or credit for a dual purpose pollution control facility.

A dual purpose pollution control facility is defined as a single, integrated facility which is installed to meet standards for air or water pollution, or both, and which is also necessary to the manufacture of products. It refers to a facility in which the portion of the total facility to be identified as for the purpose of pollution control is so integrated into the total facility that physical separation into identifiable component parts—that is, that which is for manufacturing and that which is for pollution control—is not possible. If these criteria are met, the following net cost approach shall be used to determine tax exemption and/or credit.

The application for certification shall be filed with the department of revenue in accordance with chapter 82.34 RCW and WAC 458-20-242A. Upon approval by the appropriate control agency, subject to the qualification that the facility described in the application is a dual purpose facility and that all requirements outlined in chapter 82.34 RCW are met, an exemption/credit certificate shall be issued. To determine the net cost attributable to the pollution control element of the dual function facility, the computations described in the following steps are required.

(1) Obtain cost estimates (for facilities under construction) and final cost figures (for completed facilities) directly related to the new dual function facility. (Actual allowable credits will be based on final costs of completed facilities.) Add to this final cost the amount of unrecovered depreciation on existing equipment replaced, if any. Subtract from this the salvage value of the replaced equipment, if and. Sales and use tax paid shall not be included as part of the facility cost.

(2) Determine the percentage that actual production capacity per unit of time of the existing plant equipment (before installation of the control facility) is of the actual capacity per unit of time of the new dual purpose facility. If the percentage so obtained is equal to or greater than 100 percent, use the figure obtained in step (1) for calculations commencing at step (3).

If the percentage so obtained is less than 100 percent, multiply that percentage times the figure derived in step (1) above. This figure represents the gross cost of constructing the new facility which meets pollution control requirements and obtains productive capacity of the existing plant. Productive capacity shall include all production of commercial or industrial value other than recovered or captured materials deductible from credits under provisions of RCW 82.34.060.

(3) All computations used to adjust the gross cost (as determined in step (2) above) shall be expressed in terms of current dollars at the start up date as defined in this step (3). To this end, a discount rate suitable for determining the present value of future income or expenditures is required. The basis of the discount rate will be the average cost of borrowed capital based on Aa Industrial Bonds as reported in Moody's Bond Record and the cost of equity capital as established by the price earnings ratio for the particular industry class as reported in the value line. This will be the average of amounts so reported for the 12 months preceding and 12 months succeeding the start up date. This date is the first date the new dual purpose facility is both in operation and in compliance with the requirements of the appropriate pollution control agency.

The discount rate to be applied will be a combination of these rates. The two rates shall be weighted 50/50. The same discount rate shall be used for all adjustments to the gross cost.

(4) The next step in the procedure is to calculate the present value of future capital that will not be spent at some specific future date due to the expenditure now of the amount determined in (2) above. This "specific future date" is the date determined by the department as the date of projected replacement of the existing plant absent the need to meet pollution control requirements. This will be the amount of expenditure calculated in (2) above multiplied by the discount factor (as determined by use of the discount rate as calculated in (3) above) which will equal the present worth of that amount of money received or expended on the date representing the end of the useful life of the existing plant by the new installation (the date of "projected replacement"). This calculated amount shall be reduced by the present value, if any, of the undepreciated balance that would remain after the end of the depreciation period for the new facility if construction had been delayed to the date used as the end of the useful life of the facility replaced. This net calculation is then subtracted from the amount computed as the "gross cost" in (2).

(5) From the amount determined in (4) deduct the present value, after deduction of a percentage equal to the maximum corporate federal income tax rate as of the start up date, of operating savings expected to accrue to the date of projected replacement used in (4) applying the discount factor for annual savings based on the discount rate calculated in (3). Operating savings shall not include the net commercial value of materials captured or recovered by virtue of the new installation deductible under RCW 82.34.060 (2)(b).

(6) The next step is to deduct from the balance as computed in (5) the present net value of federal income tax savings to be derived from depreciation of the gross cost of the dual purpose facility due to its construction sooner than at the date of projected replacement using straight line depreciation over the useful life of the facility. The determination of net present value of federal income tax reductions due to depreciation allowances will consist of three steps.

(a) Calculate the present value of depreciation allowances from date of completion of the new facility using straight line depreciation to the projected replacement date.

(b) Deduct from (a) the present value of depreciation that would have been allowable after the date of full depreciation of the new dual purpose facility if construction of the new facility had been delayed until the projected replacement date of the existing facility.

(c) Multiply the result of (a) minus (b) by the maximum corporate federal income tax rate as of the start up date.

The net amount of federal tax benefits arrived at in (c) shall then be deducted from the balance determined in step (5).

(7) The remaining amount from that calculated in (2) after adjustments provided for in steps (3) through (6) is the "net cost" of pollution control equipment to be used as the base for calculation of credits.

Calculation of credits

(A) Determine 2 percent of the amount computed in step 7. this is the gross annual credit.

(B) Multiply the amount shown in step (7) by 50 percent to determine maximum total credit allowable.

(C) The gross credit allowable per year must first be reduced by the net commercial value of captured or recovered materials. Captured or recovered materials means materials which, but for compliance with pollution control requirements, would be discharged into the air or water and which discharge is required to be reduced or eliminated by requirements of the appropriate pollution control agency. The result is the *net* credit allowable per year.

The formula for "C" is the value of materials captured or recovered from the new plant less the value of materials which would have been captured or recovered over a comparable period of time from the existing plant, but for compliance with pollution control requirements, multiplied by the percentage derived by dividing net cost (step 7) by total cost (step 1).

If the net commercial value of recovered materials exceeds the gross credit allowable per year, the excess must be carried forward for purposes of reducing credits for future years. The amount of the net commercial value of recovered materials reduces both the annual and total credit allowable.

(D) Determine the total amount of Federal Investment Tax Credit or other federal tax credit actually received. Then multiply this tax credit by the percentage which the net cost portion (step 7) is to the total cost of the facility (step 1) to arrive at the portion of the tax credit applicable to the pollution control element of the dual purpose facility.

(E) Deduct the amount determined in step (D) from the amount determined in step (C) until total federal tax credits are totally offset. This is to be an annual calculation.

(F) If the annual amount of net credit to be taken after computation through step (E) exceeds 50 percent of the firm's tax liability under chapters 82.04, 82.12, and 82.16 RCW, it must be reduced to 50 percent of such tax liability.

Adopted December 8, 1977.

[Order ET 77-1, § 458-20-242B (Rule 242 Part B), filed 12/8/77.]

WAC 458-20-243 Litter tax. (1) **Introduction.** Chapter 82.19 RCW imposes a litter tax on manufacturers, wholesalers, and retailers of certain products. Litter tax is imposed independently of the business and occupation (B&O) tax and retail sales and use taxes. RCW 82.19.010. This section provides detailed information about litter tax, including the measure of the tax, the products to which the tax applies, and specific exemptions from the tax.

(2) **Tax measure.** For manufacturers, the measure of the tax is the value of products listed in subsection (4) of this section, including by-products manufactured in this state. For wholesalers and retailers, the measure of the tax is the gross proceeds of sales within this state of the products listed in subsection (4) of this section. In the case of publishers of newspapers and magazines, the measure of the tax is the gross proceeds of sales, and does not include advertising income.

Litter tax is imposed on subsequent sales of the same goods from the manufacturer to the wholesaler, from the wholesaler to the retailer, and from the retailer to the consumer, if the goods are listed in subsection (4) of this section, and the sales are not specifically exempt by law.

(a) **Value of products and gross proceeds of sales.** For purposes of the litter tax, "value of products" and "gross proceeds of sales" have the same meanings as defined in RCW 82.04.450 and 82.04.070, respectively. See also WAC 458-20-112 for more information regarding "value of products."

(b) **Grocery stores and drugstores.** Where it is impractical to separate products that are and are not subject to litter tax, an alternative method is allowed. Persons operating drugstores may report and pay litter tax measured by fifty percent of total sales in lieu of separately accounting for sales of nondrug drugstore sundry products. (See subsection (4)(n) of this section for information about what constitutes nondrug drugstore sundry products.) Persons operating grocery stores may report and pay the litter tax measured by ninety-five percent of total sales in lieu of separately accounting for grocery and nongrocery products sold. (See subsection (4)(b) of this section for information about what constitutes grocery products.)

(3) **When do I report and pay litter tax?** The frequency of reporting and paying litter tax coincides with the reporting periods of taxpayers for their B&O tax. For example, a wholesaler who reports B&O tax monthly would also report any litter tax liability on the monthly return. For more information on tax reporting frequency, see WAC 458-20-22801 Tax reporting frequency—Forms.

(4) **What products are subject to litter tax?** Litter tax applies to the manufacture or sale of products in the product categories in this subsection, unless a specific exemption applies. Litter tax applies whether these products are sold packaged, unpackaged, or in recyclable containers. See subsection (5) of this section for the litter tax exemptions available for the manufacture or sale of products in these categories.

(a) **Food for human or pet consumption.** Food for human or pet consumption is any substance, except drugs, where the chief general use is for human or pet nourishment, regardless of whether the substance is sold in a consumable form. Food for human or pet consumption includes candy, chewing gum, condiments, packaged or unpackaged meat, bulk foods, shellfish, and ingredients used in processing food for human or pet consumption such as industrial chocolate, grain, barley, or hops. This category includes sales of meals, snacks, lunches, or other food and beverages at restaurants, drive-ins, snack bars, taverns, or by concessionaires.

(b) **Groceries.** Groceries are all products sold by persons in a place of business selling food for off-premises consumption, but excluding drugs, building materials, clothing, furniture, and appliances.

(c) **Cigarettes and tobacco products.** Cigarettes and tobacco products include all of the products subject to the excise taxes imposed by chapters 82.24 and 82.26 RCW.

(d) **Soft drinks and carbonated waters.** Soft drinks are nonalcoholic beverages that contain natural or artificial sweeteners. Soft drinks do not include beverages that contain milk or milk products, soy, rice or similar milk substitutes, or greater than fifty percent of vegetable or fruit juice by volume. Carbonated waters are nonalcoholic beverages, containing carbon dioxide, that do not contain natural or artificial sweeteners.

(e) **Beer and other malt beverages.** Beer and other malt beverages are all beverages defined as beer or malt liquor by Title 66 RCW or rules of the Washington state liquor control board.

(f) **Wine.** Wine includes all alcoholic beverages defined as wine in Title 66 RCW or rules of the Washington state liquor control board.

(g) **Newspapers and magazines.** Newspapers and magazines are all daily and periodical publications, including real estate guides, vehicle trader publications, free community newspapers, and the like.

(h) **Household paper and paper products.** Household paper and paper products are materials or substances made into sheets or leaves from natural organic or synthetic fibrous material for home or other personal use. Household paper and paper products include products or articles made from such sheets or leaves for home or other personal use, such as toilet tissue, paper cups, plates, napkins, cards, wrapping paper, stationery, personal banking checks or deposit slips, computer printer or copier paper, and the like.

(i) **Glass containers.** Glass containers are articles made wholly or in substantial part of processed silicates that can be, or are, used to hold other things within themselves. Glass containers include only those containers that are sold with, and that contain, another product or products otherwise subject to litter tax, or containers that are produced so that they can later contain and be sold with another product or products otherwise subject to litter tax. Glass containers do not include containers that are produced to be sold at retail as empty reusable containers, such as drinking glasses, vases, and the like.

(j) **Metal containers.** Metal containers are articles made wholly or in substantial part of materials such as iron, steel, tin, aluminum, copper, zinc, lead, silver and any alloys thereof and that can be, or are, used to hold other things within themselves. Metal containers include only those containers that are sold with, and that contain, another product or products otherwise subject to litter tax, or containers that are produced so that they can later contain and be sold with another product or products otherwise subject to litter tax. Metal containers do not include containers that are produced to be sold at retail as empty reusable containers, such as pots and pans, or metal containers made for transporting other products.

(k) **Plastic or fiber containers made of synthetic material.** Plastic or fiber containers made of synthetic material will be referred to as plastic or fiber containers for purposes of this subsection (4)(k). Plastic or fiber containers are articles that can be, or are, used to hold other things within themselves and that are made of synthetically produced ethylene derivatives, resins, waxes, adhesives, or polymers or by synthesis of fiber materials with adhesives, polymers, waxes, resins, or other materials. Plastic or fiber containers include containers made of paper, pasteboard, or cardboard in which the container materials consist of fibrous substances synthesized with other materials. Synthetic material is material that is produced by synthesis, which is the process of making or building up by a composition or union of simpler parts or elements as distinguished from the process of extraction or refinement. Plastic or fiber containers include only those containers that are sold with, and that contain, another product or products otherwise subject to litter tax, or containers that are produced so that they can later contain and be sold with another product or products otherwise subject to litter tax. Plastic or fiber containers do not include containers that are produced to be sold at retail as empty reusable containers.

(l) **Cleaning agents.** Cleaning agents are all soaps, detergents, solvents, or other cleansing substances used for cleaning buildings, places, persons, animals, or other things. Cleaning agents include packaged products and products sold in bulk form, as well as products sold in recyclable containers.

(m) **Toiletries.** Toiletries are all substances such as soap, powder, shampoo, cologne, perfume, cosmetics, toothpaste, and the like, used in connection with personal dressing or grooming.

(n) **Nondrug drugstore sundry products.** Nondrug drugstore sundry products are all products sold by persons in the business of selling drugs, except: Drugs, building materials, clothing, furniture, and appliances. For purposes of this section, "drug" has the same meaning as defined in RCW 82.08.0281.

(5) **Exemptions.** This subsection provides information about products listed under subsection (4) of this section that are exempt from litter tax as provided by RCW 82.19.050:

(a) **Products for use and consumption out-of-state.** The manufacture or sale of products for use and consumption outside the state;

(b) **Agricultural products exempt from B&O tax.** The value of products or gross proceeds of the sales by farmers exempt from tax under RCW 82.04.330;

(c) **Certain wholesale sales by qualified grocery distribution cooperatives.** The sale of products for resale by a qualified grocery distribution cooperative to customer-owners of the grocery distribution cooperative. For the purposes of this section, "qualified grocery distribution cooperative" and "customer-owner" have the meanings given in RCW 82.04.298;

(d) **Food or beverages sold for indoor consumption.** The sale of food or beverages by retailers that are sold solely for immediate consumption indoors at the seller's place of business or at a deck or patio at the seller's place of business, or indoors at an eating area that is contiguous to the seller's place of business; or

(e) **Certain retail sales by caterers.** Effective July 24, 2005, the sale of prepared food or beverages by caterers where the food or beverages are to be served for immediate consumption in or on individual nonsingle use containers at premises occupied or controlled by the customer. For the purposes of this section, "prepared food" has the same meaning as provided in RCW 82.08.0293. "Nonsingle use container" and "caterer" have the meanings given in RCW 82.19.050.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and chapter 82.19 RCW. 06-17-187, § 458-20-243, filed 8/23/06, effective 9/23/06. Statutory Authority: RCW 82.32.300. 83-08-026 (Order ET 83-1), § 458-20-243, filed 3/30/83; Order ET 71-2, § 458-20-243, filed 10/27/71.]

WAC 458-20-244 Food and food ingredients. (1) **Introduction.**

(a) **What is the purpose of this section?** This section, WAC 458-20-244, provides guidelines for determining if food or food ingredients qualify for the retail sales tax and use tax exemptions under RCW 82.08.0293 and 82.12.0293 (collectively referred to in this section as the "exemptions").

There is no corresponding business and occupation (B&O) tax exemption. Even if a sale of food or food ingredients is exempt from retail sales tax or use tax under the exemptions, gross proceeds from sales of food or food ingredients remain subject to the retailing B&O tax.

(b) **How has the law changed since the prior version of this section was published?** In 2003 and 2004, the legislature amended RCW 82.08.0293 and 82.12.0293 to comply with the national Streamlined Sales and Use Tax Agreement. These amendments alter the definitions used to determine whether a particular food or food ingredient qualifies for the exemptions.

(c) **What other sections might apply?** The following sections may contain additional relevant information:

• WAC 458-20-119 (Sales of meals);

• WAC 458-20-124 (Restaurants, cocktail bars, taverns and similar businesses);

• WAC 458-20-12401 (Special stadium sales and use tax);

• WAC 458-20-166 (Hotels, motels, boarding houses, rooming houses, resorts, summer camps, trailer camps, etc.);

• WAC 458-20-167 (Education institutions, school districts, student organizations, and private schools);

• WAC 458-20-168 (Hospitals, medical care facilities, and adult family homes); and

• WAC 458-20-169 (Nonprofit organizations).

(2) **What qualifies for the exemptions?**

(a) **In general.** The exemptions apply to food and food ingredients. "Food and food ingredients" means substances, whether in liquid, concentrated, solid, frozen, dried, or dehydrated form, that are sold for ingestion or chewing by humans and are consumed for their taste or nutritional value.

(b) **Items not used solely for ingestion or chewing.** Items that are commonly ingested or chewed by humans for their taste or nutritional value but which may also be used for other purposes are generally treated as food or food ingredients. For example, pumpkins are presumed to be a food or food ingredient unless the pumpkin is sold painted or is otherwise clearly for decorative purposes rather than consumption. This is true even though the purchaser may use an undecorated pumpkin for carving and display rather than for eating.

(3) **What does not qualify for the exemptions?** The exemptions do not apply to the following items, which are not considered "food or food ingredients" or which are otherwise specifically excluded from the exemptions:

(a) **Items sold for medical or hygiene purposes.** Items commonly used for medical or hygiene purposes, such as cough drops, breath sprays, toothpaste, etc., are not ingested for taste or nutrition and are not considered a food or food ingredient. In contrast, breath mints are commonly ingested for taste and are considered a food or food ingredient.

(b) **Bulk sales of ice.** Ice sold in bags, containers, or units of greater than ten pounds and blocks of ice of any weight are not considered a food or food ingredient. Ice sold in cubed, shaved, or crushed form in packages or quantities of ten pounds or less is considered a food or food ingredient. Refer to WAC 458-20-120 (Sales of ice) for additional guidance on the sale of ice.

(c) **Alcoholic beverages.** Alcoholic beverages are excluded from the definition of food and food ingredients. "Alcoholic beverages" means beverages that are suitable for human consumption and contain one-half of one percent or more of alcohol by volume.

(d) **Tobacco.** Tobacco is excluded from the definition of food and food ingredients. "Tobacco" includes cigarettes, cigars, chewing or pipe tobacco, or any other items that contain tobacco.

(e) **Soft drinks.** Soft drinks are excluded from the exemptions. "Soft drinks" means any nonalcoholic beverage that contains natural or artificial sweeteners, except beverages that contain:

• Milk or milk products;

• Soy, rice, or similar milk substitutes; or

• More than fifty percent by volume of vegetable or fruit juice.

For example, sweetened sports beverages are considered "soft drinks," but a sweetened soy beverage is a food or food ingredient.

Beverage mixes that are not sold in liquid form are not soft drinks even though they are intended to be made into a beverage by the customer. Examples include powdered fruit drinks, powdered tea or coffee drinks, and frozen concentrates. These items are a food or food ingredient and are not subject to retail sales tax.

(f) **Dietary supplements.** Dietary supplements are excluded from the exemptions. "Dietary supplement" means any product intended to supplement the diet, other than tobacco, which meets all of the following requirements:

• Contains a vitamin; mineral; herb or other botanical; amino acid; a substance for use by humans to increase total dietary intake; or a concentrate, metabolite, constituent, extract; or combination of any of them;

• Is intended for ingestion in tablet, capsule, powder, soft gel, gelcap, or liquid form, or if not intended for ingestion in such a form, is not represented as conventional food and is not represented for use as a sole item of a meal or of the diet; and

• Is required to be labeled with a Food and Drug Administration "supplement facts" box. If a product is otherwise considered a food or food ingredient and labeled with both a "supplement facts" box and "nutrition facts" box, the product is treated as a food or food ingredient.

Nutrition products formulated to provide balanced nutrition as a sole source of a meal or of the diet are considered a food or food ingredient and not a dietary supplement. Refer to RCW 82.08.925 for information on the sales tax exemption applicable to dietary supplements dispensed under a prescription.

(g) **Prepared food.** Prepared food is excluded from the exemptions. Prepared food generally means heated foods, combined foods, or foods sold with utensils provided by the seller, as described in more detail in subsection (4) of this section. "Prepared food" does not include food sold by a seller whose proper primary North American industry classification system (NAICS) classification is manufacturing in sector 311, except subsector 3118 (bakeries), unless the food is sold with utensils provided by the seller (see subsection (4)(c) of this section).

(4) **What is "prepared food"?** Food or food ingredients are "prepared foods" if any one of the following are true:

(a) **Heated foods.** Food or food ingredients are "prepared foods" if sold in a heated state or are heated by the seller, except bakery items. "Bakery items" include bread, rolls, buns, biscuits, bagels, croissants, pastries, donuts, Danish, cakes, tortes, pies, tarts, muffins, bars, cookies, and tortillas. Food is sold in a heated state or is heated by the seller when the seller provides the food to the customer at a temperature that is higher than the air temperature of the seller's establishment. Food is not sold in a heated state or heated by the seller if the customer, rather than the seller, heats the food in a microwave provided by the seller.

(b) **Combined foods.** Food or food ingredients are "prepared foods" if the item sold consists of two or more foods or food ingredients mixed or combined by the seller for sale as a single item, unless the food or food ingredients are any of the following:

• Bakery items (defined in (a) of this subsection);

• Items that the seller only cuts, repackages, or pasteurizes;

• Items that contain eggs, fish, meat, or poultry, in a raw or undercooked state requiring cooking as recommended by the federal Food and Drug Administration in chapter 3, part 401.11 of *The Food Code*, published by the Food and Drug Administration, as amended or renumbered as of January 1, 2003, so as to prevent foodborne illness; or

• Items sold in an unheated state as a single item at a price that varies based on weight or volume.

(c) **Food sold with utensils provided by the seller.** Food or food ingredients are "prepared foods" if sold with utensils provided by the seller. Utensils include plates, knives, forks, spoons, glasses, cups, napkins, and straws. A plate does not include a container or packaging used to transport the food.

(i) **Utensils are customarily provided by the seller.** A food or food ingredient is "sold with utensils provided by the seller" if the seller's customary practice for that item is to physically deliver or hand a utensil to the customer with the food or food ingredient as part of the sales transaction. If the food or food ingredient is prepackaged with a utensil, the seller is considered to have physically delivered a utensil to the customer unless the food and utensil are prepackaged together by a food manufacturer classified under sector 311 of the NAICS. Examples of utensils provided by such manufacturers include juice boxes that are packaged with drinking straws, and yogurt or ice cream cups that are packaged with wooden or plastic spoons.

(ii) **Utensils are necessary to receive the food.** Individual food or food ingredient items are "sold with utensils provided by the seller" if a plate, glass, cup, or bowl is necessary to receive the food or food ingredient and the seller makes those utensils available to its customers. For example, items obtained from a self-serve salad bar are sold with utensils provided by the seller, because the customer must use a bowl or plate provided by the seller in order to receive the items.

(iii) **More than seventy-five percent prepared food sales with utensils available.** All food and food ingredients sold at an establishment, including foods prepackaged with a utensil by a manufacturer classified under sector 311 of the NAICS, are "sold with utensils provided by the seller" if the seller makes utensils available to its customers and the seller's gross sales of prepared food under (a), (b), and (c)(ii) of this subsection equal more than seventy-five percent of the seller's gross sales of all food and food ingredients, including prepared food, soft drinks, and dietary supplements.

(A) **Exception for four or more servings.** Even if a seller has more than seventy-five percent prepared food sales, four servings or more of food or food ingredients packaged for sale as a single item and sold for a single price are not "sold with utensils provided by the seller" unless the seller's customary practice for the package is to physically hand or otherwise deliver a utensil to the customer as part of the sales transaction. Whenever available, the number of servings included in a package of food or food ingredients is to be determined based on the manufacturer's product label. If no label is available, the seller must reasonably determine the number of servings.

(B) **Determining total sales of prepared foods.** The seller must determine a single prepared food sales percentage annually for all the seller's establishments in the state based on the prior year of sales. The seller may elect to determine its prepared food sales percentage based either on the prior calendar year or on the prior fiscal year. A seller may not change its elected method for determining its prepared food percentage without the written consent of the department of revenue. The seller must determine its annual prepared food sales percentage as soon as possible after accounting records are available, but in no event later than ninety days after the beginning of the seller's calendar or fiscal year. A seller may make a good faith estimate of its first annual prepared food sales percentage if the seller's records for the prior year are not sufficient to allow the seller to calculate the prepared food sales percentage. The seller must adjust its good faith estimate prospectively if its relative sales of prepared foods in the first ninety days of operation materially depart from the seller's estimate.

(d) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

(i) **Example 1.** Fast Cafe sells hot and cold coffee and mixed coffee and mixed milk beverages, cold soft drinks, bottled water, milk and juice in single-serving containers, sandwiches, whole fruits, cold pasta salad, cookies and other pastries. Fast Cafe prepares the pasta salad on-site. It orders the pastries from a local bakery, including specialty cakes which it sells both as whole cakes and by the slice. It purchases its sandwiches from a local caterer. The sandwiches are delivered by the caterer prewrapped in plastic with condiments and a plastic knife. Fast Cafe makes straws, napkins and cup lids available for all customers by placing them on a self-service stand. In its first full year of operation, Fast Cafe's annual gross sales of all food and food ingredients, including prepared food, soft drinks, and dietary supplements is $100,000. Of this gross sales total, $80,000 is from the sale of hot coffee and hot and cold mixed coffee and milk beverages, all sold in disposable paper or plastic cups with the Fast Cafe logo.

Because more than seventy-five percent of Fast Cafe's total sales of food and food ingredients, including prepared food, soft drinks, and dietary supplements are sales of food or food ingredients that are heated or combined by the seller or sold with a utensil (cups) necessary to receive the food, Fast Cafe has more than seventy-five percent prepared food sales. Because Fast Cafe makes utensils available for its customers, all food and food ingredients sold by Fast Cafe are considered "prepared food," including the cold milk beverages, cookies and pastries, pasta salad, sandwiches and whole fruits. The only exception is the sale of whole specialty cakes. Because a whole cake contains four or more servings, it is not subject to retail sales tax unless Fast Cafe customarily hands a utensil to the customer as part of the sale transaction.

(ii) **Example 2.** Assume the same facts as in Example 1, but that only $60,000 of Fast Cafe's Year 1 gross sales were sales of hot coffee and hot and cold mixed coffee and milk beverages. The remainder of its sales were sales of sandwiches, whole fruits, cookies and other pastries. Under these facts, Fast Cafe does not have more than seventy-five percent prepared food sales. Thus, the items sold by Fast Cafe are taxed as follows:

• Hot coffee and milk beverages are heated by the seller and are also sold by Fast Cafe with a utensil (a paper cup) necessary to receive the food. The hot coffee and milk beverages are "prepared food" for either reason and are subject to retail sales tax.

• Cold mixed milk beverages are a combination of two or more foods or food ingredients and are also sold by Fast Cafe with a utensil (a paper or plastic cup) necessary to receive the food. The cold milk beverages are "prepared food" for either reason and are subject to retail sales tax.

• Cold soft drinks are not exempt and are subject to retail sales tax.

• Sandwiches prepared by the caterer are subject to retail sales tax. Even though the caterer, rather than the seller, combines the ingredients and includes a utensil, Fast Cafe is considered to have provided the utensil because the caterer is not a food manufacturer classified under sector 311 of the NAICS.

• Pasta salad is combined by the seller and is subject to retail sales tax. Note that if the pasta salad was sold by the pound, rather than by servings, it would not be subject to retail sales tax.

• Bottled water, milk and juice in single serving containers, whole fruit, cookies, pastries, slices of cake, and whole cakes are not subject to retail sales tax unless the seller's customary practice is to hand a utensil to the customer as part of the sales transaction. None of these items are heated by the seller, combined by the seller, or require a plate, glass, cup, or bowl in order to receive the item. Even if Fast Cafe heats the pastries for its customers, the pastries are not subject to retail sales tax.

(iii) **Example 3.** A pizza restaurant sells whole hot pizzas, hot pizza by the slice, and unheated ready-to-bake pizzas. The whole hot pizzas and hot pizza sold by the slice, including delivered pizzas, are "prepared food" because these items are sold in a heated state. If the unheated ready-to-bake pizzas are prepared by the seller, they are "prepared food" because the seller has mixed or combined two or more food ingredients. This is true even though some ingredients in the unheated pizzas are raw or uncooked, because those ingredients do not require cooking to prevent foodborne illness. If the unheated ready-to-bake pizzas are prepared by a manufacturer other than the seller, they will be taxable as "prepared food" only if sold with utensils provided by the seller.

(5) **How are combined sales of taxable and exempt items taxed?**

(a) **Combined sales.** Where two or more distinct and identifiable items of tangible personal property, at least one of which is a food or food ingredient, are sold for one nonitemized price that does not vary based on the selection by the purchaser of items included in the transaction:

• The entire transaction is taxable if the seller's purchase price or sales price of the taxable items is greater than fifty percent of the combined purchase price or sales price; and

• The entire transaction is exempt from retail sales tax if the seller's purchase price or sales price of the taxable items is fifty percent or less of the combined purchase price or sales price.

The seller may make the determination based on either purchase price or sales price, but may not use a combination of the purchase price and sales price.

(b) **Examples.**

(i) A combination wine and cheese picnic basket contains four items packaged together: A bottle of wine, a wine opener, single-serving cheeses, and the picnic basket holding these items. The seller's purchase price for the wine, wine-opener, and picnic basket totals ten dollars. The seller's purchase price for the cheeses is two dollars. The seller must collect retail sales taxes on the entire package, because the seller's purchase price for the taxable items (ten dollars) is greater than fifty percent of the combined purchase price (twelve dollars).

(ii) A retailer sells a decorative jar containing individually wrapped candies for the selling price of twelve dollars. The retailer sells the decorative jar by itself for the price of five dollars. The retailer's selling price for the candy alone is seven dollars. The retailer is not required to collect retail sales taxes on the decorative jar filled with candies, because the retailer's selling price for the tax exempt candies is greater than its selling price for the taxable jar.

(c) **Incidental packaging.** "Distinct and identifiable items" does not include packaging which is immaterial or incidental to the sale of another item or items. For example, a decorative bag sold filled with candy is not the sale of "distinct and identifiable" items where the bag is merely ornamental packaging immaterial in the sale of the candy.

(d) **Free items.** "Distinct and identifiable items" does not include items provided free of charge. An item is only provided free of charge if the seller's sales price does not vary depending on whether the item is included in the sale.

(6) **What are the seller's accounting requirements?** All sales of food and food ingredients at an establishment will be treated as taxable unless the seller separately accounts for sales of exempt and nonexempt food and food ingredients. It is sufficient separation for accounting purposes if cash registers or the like are programmed to identify items that are not tax exempt and to calculate and assess the proper sales tax accordingly.

(7) **Are there any other retail sales tax exemptions that apply?**

(a) **Meals served by not-for-profit organizations.** The exemptions apply to meals sold under a state-administered nutrition program for the aged as provided for in the Older Americans Act (Public Law 95-478 Title III) and RCW 74.38.040, and meals sold to or for senior citizens, disabled persons, or low-income persons by a not-for-profit organization organized under chapter 24.03 or 24.12 RCW. The exemptions apply even if the meals would otherwise be considered prepared food.

(b) **Foods exempt under the Federal Food Stamp Act.** Under RCW 82.08.0297, eligible foods under the Food Stamp Act of 1977 purchased with food coupons are exempt from the retail sales tax. This is a separate and broader exemption than the retail sales exemption for food and food ingredients under RCW 82.08.0293. For example, soft drinks and garden seeds are "eligible foods" but are not a "food or food ingredients." If such items are purchased with food coupons, they are exempt from the retail sales tax under RCW 82.08.0297, even though the items do not qualify for the exemption under RCW 82.08.0293.

(i) **Definition of food coupons.** The term "food coupons," as used in this subsection means any coupon, stamp, type of certificate, authorization card, cash or check issued in lieu of a coupon, or access device, including an electronic benefit transfer card or personal identification number issued pursuant to the provisions of the Food Stamp Act of 1977. See 7 CFR § 271.2, as amended or renumbered as of January 1, 2003.

(ii) **Use of food coupons combined with other means of payment.** When both food coupons and other means of payment are used in the same sales transaction, for purposes of collecting retail sales taxes, the other means of payment shall be applied first to items which are food and food ingredients exempt under RCW 82.08.0293. The intent is to apply the coupons and other means of payment in such a way as to provide the greatest possible exemption from retail sales tax.

(iii) **Example.** A customer purchases the following at a grocery store: Meat for three dollars, cereal for three dollars, canned soft drinks for five dollars, and soap for two dollars for a total of thirteen dollars. The customer pays with seven dollars in coupons and six dollars in cash. The cash is applied first to the soap because the soap is neither exempt under RCW 82.08.0293 nor an eligible food under the Food Stamp Act. The remaining cash (four dollars) is applied first to the meat and the cereal. The food stamps are applied to the balance of the meat and cereal (two dollars) and to the soft drinks (five dollars). Retail sales tax is due only on the soap.

(8) **Vending machine sales.** The exemptions do not apply to sales of food and food ingredients dispensed from vending machines. There are special requirements for reporting sales tax collected on vending machine sales, discussed in (a) of this subsection. "Honor box" sales (sales of snacks or other items from open display trays) are not considered vending machine sales.

(a) **Calculating and reporting retail sales tax collected on vending machine sales.** Vending machine owners do not need to state the retail sales tax amount separately from the selling price. See RCW 82.08.050(5) and 82.08.0293. Instead, vending machine owners must determine the amount of retail sales tax collected on the sale of food or food ingredients by using one of the following methods:

(i) **Food or food ingredients dispensed in a heated state.** For food or food ingredients dispensed from vending machines in a heated state (e.g., hot coffee, soups, tea, and hot chocolate), a vending machine owner must calculate the amount of retail sales tax that has been collected ("tax in gross") based on the gross vending machine proceeds. The "tax in gross" is a deduction against the gross amount of both retailing B&O and retail sales. The formula is:

$$\text{gross machine proceeds} - \left(\frac{\text{gross machine proceeds}}{1 + \text{sales tax rate}}\right) = \text{tax in gross}$$

(ii) **All other food or food ingredients.** For all other food and food ingredients dispensed from vending machines, a vending machine owner must calculate the amount of retail sales tax that has been collected ("tax in gross") based on fifty-seven percent of the gross vending machine proceeds. The "tax in gross" is a deduction against the gross amount of both retailing B&O and retail sales. The formula is:

$$(\text{gross machine proceeds} \times .57) \times \text{sales tax rate} = \text{tax in gross}$$

The remaining 43% of the gross vending machine proceeds, less the "tax in gross" amount, is reported as an exempt food sales deduction against retail sales proceeds only calculated as follows:

$$(\text{gross machine proceeds} \times .43) - \text{tax in gross} = \text{exempt food deduction}$$

(b) **Example.** Jane owns a vending machine business with machines in Spokane and Seattle. In each location, she has a vending machine selling candy and water and a second vending machine selling hot cocoa and coffee drinks. Her annual sales for the vending machines and the combined retail sales tax rates for Seattle and Spokane are as follows:

	Coffee Machine (cocoa & coffee)	Candy Machine (candy & water)	Combined Retail Sales Tax Rate
Seattle	$2,500	$10,000	.088
Spokane	$3,000	$6,000	.086

To determine the amount of retail sales tax she collected on the sale of cocoa and coffee (food dispensed in a heated state), Jane calculates the "tax in gross" amount as follows:

$$\text{gross machine proceeds} - \left(\frac{\text{gross machine proceeds}}{1 + \text{sales tax rate}}\right) = \text{tax in gross}$$

$2,500	-	($2,500/1.088)	=	$202.21	(Seattle coffee machine)
$3,000	-	($3,000/1.086)	=	$237.57	(Spokane coffee machine)
				$439.78	

Thus, for both retailing B&O and retail sales, Jane must report her total gross coffee machine proceeds of $5,500 with a "tax in gross" deduction of $439.78.

To determine the amount of retail sales tax she collected on the sale of candy and water, Jane calculates the "tax in gross" amount as follows:

(gross machine proceeds x .57) x sales tax rate = tax in gross

$10,000 x .57 x .088	=	$501.60	(Seattle candy machine)
$6,000 x .57 x .086	=	$294.12	(Spokane candy machine)
		$795.72	

Thus, for both retailing B&O and retail sales, Jane must report her total gross candy machine proceeds of $16,000 with a "tax in gross" deduction of $795.72.

Jane must also report an exempt food sales deduction representing the remaining 43% of the gross candy machine proceeds.

(43% x gross machine proceeds) - tax in gross = exempt food deduction
(.43 x $16,000) - $795.72 = $6,084.28

Jane reports the exempt food sales deduction only against the gross amount of her retail sales. The deduction does not apply to retailing B&O.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 07-24-038, § 458-20-244, filed 11/30/07, effective 12/31/07; 07-11-066, § 458-20-244, filed 5/14/07, effective 6/14/07; 03-24-031, § 458-20-244, filed 11/25/03, effective 1/1/04. Statutory Authority: RCW 82.01.060(2) and 82.32.300. 78-05-041 (Order ET 78-1), § 458-20-244 (Rule 244), filed 4/21/78, effective 7/1/78.]

WAC 458-20-245 Telephone business, telephone service. Under the provisions of various sections of chapter 3, Laws of 1983 2nd ex. sess., the retail sales tax is extended to "telephone service." The effective date is July 1, 1983 and the tax applies to all sales of "telephone service" billed on or after that date, whether or not such service was rendered before that date.

Persons engaged in the "telephone business" or rendering "telephone service" are taxable under the retailing of wholesaling classification of the business and occupation tax, whichever is applicable, on total gross revenues, as described herein. Such persons who are taxable under retailing must also collect retail sales tax from consumers, subject to certain exemptions explained more fully herein.

Definitions

As used herein: The term "telephone service" includes competitive telephone service and network telephone service.

The term "telephone business" means the business of providing network telephone service and includes cooperative or farmers line telephone companies or associations operating an exchange.

The term "competitive telephone service" means the providing by any person of telecommunications equipment or apparatus, or service related to that equipment or apparatus such as installation, repair, or maintenance services, if the equipment or apparatus is of a type which can be provided by persons that are not subject to regulation as telephone companies under Title 80 RCW.

The term "network telephone service" means the providing by any person of access to a local telephone network, switching service, toll service, or coin telephone services, or the providing of telephonic, video, data, or similar communication or transmission for hire, over a local telephone network, toll line or channel, cable, microwave, or similar communication or transmission system. "Network telephone service" includes interstate service, including toll service, originating from or received on telecommunications equipment or apparatus in this state if the charge for the service is billed to a person in this state. "Network telephone service" does not include the providing of competitive telephone service, the providing of cable television service, nor the providing of broadcast services by radio or television stations.

The term "residential customer" means an individual subscribing to a residential class of telephone service.

The term "toll service" means the charge for services outside the local telephone network except customer access line charges for access to a toll calling network.

The term "telephone company" means a person engaged in the telephone business or rendering telephone service.

Business and Occupation Tax

Retailing and wholesaling. Persons making retail sales of telephone service to consumers are taxable upon the gross proceeds of sales under the retailing classification. Persons making sales of telephone services for resale in the regular course of business are taxable upon the gross proceeds of sales under the wholesaling classification. The tax shall apply to the gross income from all sales of competitive telephone service and network telephone service, as described more fully below.

For purposes of applying the business and occupation tax to telephone service, a sale takes place in Washington when a call originates from or is received on any telephone or other telecommunications equipment, instrument, or apparatus in Washington and the cost for the telephone service is charged to that equipment, instrument, or apparatus, regardless of where the actual billing invoice is sent.

The business and occupation tax shall apply to the gross proceeds of sales of competitive telephone service to customers. The tax shall be measured by total gross billings to such customers. The business and occupation tax shall also apply to the gross proceeds of sales of network telephone service, other than interstate and intrastate toll service, measured by total gross billings to customers. The tax as applied to interstate and intrastate service, including toll service, shall be determined under the apportionment guidelines set forth in the following paragraph.

With respect to interstate and intrastate toll service, the business and occupation tax shall apply to the income received from the interstate or intrastate division of revenue pool. The income subject to tax shall include amounts received for expenses incurred in furnishing the interstate or intrastate services plus any amounts received as return. Persons who are not members of the interstate or intrastate division of revenue pool but who receive shared interstate or intrastate revenues through a member of the division of revenue pool, are liable for business and occupation tax on the income received.

Persons engaged in the telephone business or rendering telephone service shall report on the combined excise tax return their total gross income received from billings to customers under column 2 of the appropriate classification line on the return (wholesaling or retailing). An adjustment may be made under column 3 of the excise tax return for revenues received from providing interstate and intrastate toll service, as described in the previous paragraph. On the reverse side of the return it should be explained that such adjustment was the result of income received from the interstate or intrastate division of revenue pool. The reported gross income under column 2 shall be the same under the retailing business and occupation tax and retail sales tax classifications, with appropriate adjustments and deductions noted under column 3.

Service. Persons engaged in the telephone business or rendering telephone service are taxable under the service and other activities classification on their income from services which are not included within the definition of the terms "sale at retail" in RCW 82.04.050 or "competitive telephone service" and "network telephone service," as defined herein. Included under this classification are, among others, gross income from the sale of advertising in telephone directories, gross income from charges made for processing NSF checks, and any other miscellaneous income.

Retail Sales Tax

The retail sales tax applies to all sales of competitive telephone service provided to both residential and business (nonresidential) customers. The retail sales tax also applies to all sales of network telephone service provided to business (nonresidential) customers.

The retail sales tax applies upon sales to a telephone company of all tangible personal property used as a consumer in providing telephone service. A consumer is liable for retail sales tax on all telephone service, as described herein, in situations where the tax was not paid to a telephone company as a result of a billing or other invoice rendered by that company.

The retail sales tax must be collected and accounted for in every case where retailing business and occupation tax is due as outlined herein, except for the following. The retail sales tax shall not apply to sales of network telephone service, other than toll service, provided to residential customers nor to sales of network telephone service paid for by inserting coins in coin-operated telephones.

The retail sales tax does not apply to sales of network telephone service, other than toll service, provided to residential customers.

The retail sales tax does not apply to sales of network telephone service which is paid for by inserting coins in coin-operated telephones. However, the retail sales tax does apply if the network telephone service is provided through a coin-operated telephone, the service originates from or is received on equipment in this state, and the charge for the service is billed to a telephone or other telecommunications equipment, instrument, or apparatus which is located in Washington.

The sales tax does not apply to network telephone service which is merely billed to a telephone or other telecommunications equipment, instrument, or apparatus whose situs is in Washington if the service neither originated from nor was received on equipment in this state.

Use Tax

The use tax applies to telephone or other telecommunications equipment, instrument, or apparatus purchased at retail and upon which the sales tax has not been paid. (See WAC 458-20-178.) A telephone company is liable for use tax on all tangible personal property purchased at retail and upon which the sales tax has not been paid. A telephone company is not liable for use tax on its own use as a consumer of its own network telephone service.

Special Situations

Persons making sales of telephone service for resale in the regular course of business must follow the provisions of WAC 458-20-102 concerning resale certificates.

The local retail sales tax applies to sales of telephone services as described herein. (See WAC 458-20-145.)

Persons engaged in telephone business or rendering telephone service are not taxable under the public utility tax, except with respect to gross income from engaging in telegraph or any other public service business as defined in WAC 458-20-179.

All retail telephone services including sales of equipment are taxable at the same state retail sales tax rate of 6.5 percent, regardless that such sales may be made in a border county. (See WAC 458-20-237.)

[Statutory Authority: RCW 82.32.300. 83-17-099 (Order ET 83-6), § 458-20-245, filed 8/23/83.]

WAC 458-20-246 Sales to or through a direct seller's representative. (1) **Introduction.** RCW 82.04.423 provides an exemption from the business and occupation (B&O) tax on wholesale and retail sales by a person who does not own or lease real property in the state, is not incorporated in the state, does not maintain inventory in this state, and makes sales in this state exclusively to or through a "direct seller's representative." This rule explains the statutory elements that must be satisfied in order to be eligible to take this exemption.

(2) **Background.** The statutory language describing the direct seller's representative is substantially the same language as contained in the federal Tax Equity and Fiscal Responsibility Act (TEFRA) of 1982, PL 97-248. See 26 USC 3508. The federal law designates types of statutory nonemployees for social security tax purposes. The purpose of the direct seller provision in the federal tax law is to provide that a direct seller's representative is not an employee of the direct seller, thereby relieving the direct seller of a tax duty. Under the federal law, the direct seller is a business that sells its products using a representative who either purchases from the direct seller and resells the product or sells for or solicits sales on behalf of the direct seller. Retail sales are limited to those occurring in the home or in a temporary retail establishment, such as a vendor booth at a fair.

The 1983 Washington state legislature used the same criteria to delineate, for state tax purposes, the necessary relationship between a direct seller and a direct seller's representative.

(3) **The direct seller's exemption.** The exemption provided by RCW 82.04.423 is limited to the B&O tax on wholesaling or retailing imposed in chapter 82.04 RCW (Business and occupation tax). A direct seller is subject to other Washington state tax obligations, including, but not limited to, the sales tax under chapter 82.08 RCW, the use tax under chapter 82.12 RCW, and the litter tax imposed by chapter 82.19 RCW.

(4) **Who may take the exemption.** The B&O tax exemption may be taken by a person (the direct seller) selling a consumer product using the services of a representative who sells or solicits the sale of the product as outlined in statute. There are ten elements in the statute that must be present in order for a person to qualify for the exemption for Washington sales. The person must satisfy each element to be eligible for the exemption. The taxpayer must retain sufficient records and documentation to substantiate that each of the ten required elements has been satisfied. RCW 82.32.070.

(a) The four statutory elements describing the direct seller. RCW 82.04.423 provides that a direct seller:

(i) Cannot own or lease real property within this state. For example, if the direct seller's representative is selling vitamins door to door for the direct seller, but the direct seller owns or leases a coffee roasting factory in the state, the direct seller is not eligible for this exemption; and

(ii) Cannot regularly maintain a stock of tangible personal property in this state for sale in the ordinary course of business. This provision does not, however, prohibit the direct seller from holding title to the consumer product in the state. For instance, the direct seller owns the consumer products sold by the direct seller's representative when the representative is making retail sales for the direct seller. However, the personal property must not be a stock of goods in the state that is for sale in the ordinary course of business. The phrase "sale in the ordinary course of business" means sales that are arm's length and that are routine and reasonably expected to occur from time to time; and

(iii) Is not a corporation incorporated under the laws of this state; and

(iv) Makes sales in this state exclusively to or through a direct seller's representative. This provision of the statute describes how sales by the direct seller may be made. To be eligible for the exemption, all sales by the direct seller in this state must be made to or through a direct seller's representative. The direct seller may not claim any B&O tax exemption under RCW 82.04.423 if it has made sales in this state using means other than a direct seller's representative. This requirement does not, however, limit the methods the direct seller's representative may use to sell these products. For example, the representative can use the mail or the internet, if all other conditions of the exemption are met. The direct seller's use of mail order or internet, separate from the representative's use, may or may not be found to be "sales in this state" depending on the facts of the situation. If the direct seller's use of methods other than to or through a direct seller's representative constitutes "sales in this state," the exemption is lost. Additionally, a direct seller does not become ineligible for the exemption due to action by the direct seller's representative that is in violation of the statute, such as selling a product to a permanent retail establishment, if the department finds by a review of the facts that the ineligible sales are irregular, prohibited by the direct seller, and rare.

If a seller uses a direct seller's representative to sell "consumer products" in Washington, and also has a branch office, local outlet, or other local place of business, or is represented by any other type of selling employee, selling agent, or selling representative, no portion of the sales are exempt from B&O tax under RCW 82.04.423. For example, a person who uses representatives to sell consumer products door to door and who also sells consumer products through retail outlets is not eligible for the exemption. The phrase "sales exclusively to … a direct seller's representative" describes wholesale sales made by the direct seller to a representative. The phrase "sales exclusively … through a direct seller's representative" describes retail sales made by the direct seller to the consumer. The B&O tax exemption provided by RCW 82.04.423 is limited to these types of wholesale and retail sales.

(b) The six statutory elements describing the direct seller's representative. RCW 82.04.423 provides the following elements that relate to the direct seller's representative:

(i) How the sale is made. A direct seller's representative is "a person who buys consumer products on a buy-sell basis or a deposit-commission basis for resale, by the buyer or any other person, in the home or otherwise than in a permanent retail establishment, or who sells, or solicits the sale of, consumer products in the home or otherwise than in a permanent retail establishment." The direct seller sells the product using the services of a representative in one of two ways, which are described by two clauses in the statute. The first clause ("a person who buys … for resale" from the direct seller) describes a wholesale sale by the direct seller. The second clause (a person who "sells or solicits the sale" for the direct seller) describes a retail sale by the direct seller.

(A) A transaction is on a "buy-sell basis" if the direct seller's representative performing the selling or soliciting services is entitled to retain part or all of the difference between the price at which the direct seller's representative purchases the product and the price at which the direct seller's representative sells the product. The part retained is remuneration from the direct seller for the selling or soliciting services performed by the representative. A transaction is on a "deposit-commission basis" if the direct seller's representative performing the selling or soliciting services is entitled to retain part or all of a purchase deposit paid in connection with the transaction. The part retained is remuneration from the direct seller for the selling or soliciting services performed by the representative.

(B) The location where the retail sale of the consumer product may take place is specifically delineated by the terms of the statute. The direct seller may take the exemption only if the retail sale of the consumer product takes place either in the home or otherwise than in a permanent retail establishment. The resale of the products sold by the direct seller at wholesale is restricted by the statute through the following language: "For resale, by the buyer or any other person, in the home or otherwise than in a permanent retail establishment." This restrictive phrase requires the product be sold at retail either in the home or in a nonpermanent retail establishment. Regardless of to whom the representative sells, the retail sale of the product must take place either in the buyer's home or in a location that is not a permanent retail establishment. Examples of permanent retail establishments are grocery stores, hardware stores, newsstands, restaurants, department stores, and drug stores. Also considered as permanent retail establishments are amusement parks and sports arenas, as well as vendor areas and vendor carts in these facilities if the vendors are operating under an agreement to do business on a regular basis. Persons selling at temporary venues, such as a county fair or a trade show, are not considered to be selling at a permanent retail establishment.

(ii) What product the direct seller must be selling. The direct seller must be selling a consumer product, the sale of which meets the definition of "sale at retail," used for personal, family, household, or other nonbusiness purposes. "Consumer product" includes, but is not limited to, cosmetics, cleaners and soaps, nutritional supplements and vitamins, food products, clothing, and household goods, purchased for use or consumption. The term does not include commercial equipment, industrial use products, and the like, including component parts. However, if a consumer product also has a business use, it remains a "consumer product," notwithstanding that the same type of product might be distributed by other unrelated persons to be used for commercial, industrial, or manufacturing purposes. For example, desktop computers are used extensively in the home as well as in businesses, yet they are a consumer product when sold for nonbusiness purposes.

(iii) How the person is paid. The statute requires that "substantially all of the remuneration paid to such person, whether or not paid in cash, for the performance of services described in this subsection is directly related to sales or other output, including the performance of services, rather than the number of hours worked." The remuneration must be for the performance of sales and solicitation services and it must be based on measurable output. Remuneration based on hours does not qualify. A fixed salary or fixed compensation, without regard to the amount of services rendered, does not qualify.

Remuneration need not be in cash, and it may be the consumer product itself or other property, such as a car.

(iv) How the contract is memorialized. The services by the person must be performed pursuant to a written contract between the representative and the direct seller. The requirement that the contract be in writing is a specific statutory condition of RCW 82.04.423.

(v) What the contract must contain. The sale and solicitation services must be the subject of the contract. The contract must provide that the representative will not be treated as an employee of the direct seller for federal tax purposes.

(vi) The status of the representative. A person satisfying the requirements of the statute should also be a statutory nonemployee under federal law, since the requirements of RCW 82.04.423 and 26 U.S.C. 3508 are the same. The direct seller must maintain proof the representative is a statutory nonemployee.

(5) **Tax liability of the direct seller's representative.** The statute provides no tax exemption with regard to the "direct seller's representative." The direct seller's representative is subject to the service and other activities B&O tax on commission compensation earned for services described in RCW 82.04.423. Likewise, a direct seller's representative who buys consumer products for resale and does in fact resell the products is subject to either the wholesaling or retailing B&O tax upon the gross proceeds of these sales. Retail sales tax must be collected and remitted to the department on retail sales unless specifically exempt by law. For example, certain food products are statutorily exempt from retail sales tax (see WAC 458-20-244).

(a) Subject to the agreement of the representatives, the direct seller may elect to remit the B&O taxes of the representatives and collect and remit retail sales tax as agents of the representatives through an agreement with the department. The direct seller's representative should obtain a tax registration endorsement with the department unless otherwise exempt under RCW 82.32.045. (See also WAC 458-20-101 on tax registration.)

(b) Every person who engages in this state in the business of acting as a direct seller's representative for unregistered principals, and who receives compensation by reason of sales of consumer products of such principals for use in this state, is required to collect the use tax from purchasers, and remit the same to the department of revenue, in the manner and to the extent set forth in WAC 458-20-221. (Collection of use tax by retailers and selling agents.)

(6) **The retail sales and/or use tax reporting responsibilities of the direct seller.** A direct seller is required to collect and remit the tax imposed by chapter 82.08 RCW (Retail sales tax) or 82.12 RCW (Use tax) if the seller regularly solicits or makes retail sales of "consumer products" in this state through a "direct seller's representative" even though the sales are exempt from B&O tax pursuant to RCW 82.04.423.

[Statutory Authority: RCW 82.32.300. 99-24-007, § 458-20-246, filed 11/19/99, effective 12/31/99; 84-24-028 (Order 84-3), § 458-20-246, filed 11/30/84.]

WAC 458-20-247 Trade-ins, selling price, sellers' tax measures. (1) **Introduction.** The value of "trade-in property of like kind" is excluded from the definitions of "selling price" in RCW 82.08.010 and the definition of "value of the article used" in RCW 82.12.010. This rule explains how and when the retail sales or use tax exclusions apply and the recordkeeping requirements needed to document the transactions. The retail sales and use tax exemptions provided for core deposits and credits by RCW 82.08.036 and 82.12.038 are discussed in WAC 458-20-250.

Unless otherwise stated, "tax," "taxable," and "nontaxable," as used in this rule, refer to retail sales or use tax only. The terms "trade-in," "traded in," and "property traded in" have their ordinary and common meaning. The terms refer to property applied, in whole or in part, toward the selling price of property of like kind. Readers are advised that the fact that sales and purchase transactions might be characterized as a "like kind" under Section 1031 of the Internal Revenue Code does not control for the purpose of the trade-in exclusion in RCW 82.08.010 and 82.12.010.

(2) **General nature of the trade-in exclusion.** RCW 82.08.010 and 82.12.010 define the terms "selling price" and "value of the article used," in pertinent part, to mean the consideration, whether money, credits, rights, or other property except trade-in property of like kind, expressed in terms of money paid or delivered by a buyer to a seller. As a result, the buyer of tangible personal property is entitled to reduce the measure of retail sales or use tax if (a) the buyer delivers the trade-in property to the seller, (b) the trade-in property is delivered as consideration for the purchase, and (c) the property traded in is "property of a like kind."

(a) The trade-in exclusion applies to all trade-in property of like kind delivered by a buyer to a seller as consideration for a purchase. Thus, if a buyer trades in two motor vehicles when purchasing one motor vehicle, the buyer is entitled to a reduction in the measure of tax based on the value of both trade-in vehicles.

(b) The trade-in exclusion is limited to retail sales and use taxes. There is no comparable exclusion for business and occupation (B&O) tax. (See definition of "gross proceeds of sales" in RCW 82.04.070 and of "value proceeding or accruing" in RCW 82.04.090.) Sales tax need not have been paid on the item being traded in to be eligible for the trade-in exclusion.

(3) **Buyer to deliver trade-in property to seller.** The buyer must deliver trade-in property to the "seller."

(a) RCW 82.08.010 defines "seller" as "every person . . . making sales at retail or retail sales to a buyer or consumer, whether as agent, broker, or principal." There is no requirement that the seller be the owner of the property being sold to the buyer. RCW 82.08.010 anticipates and includes situations where a "seller" is selling property that he or she does not actually own, such as in consignment sales transactions.

For example, Broker enters into a consignment sale contract with Susan Smith to sell her Boat A. John Doe contacts Broker expressing interest in purchasing Boat A, provided his Boat B is accepted as a trade-in on the purchase. John Doe executes a purchase agreement with Broker which specifically identifies both Boat A being purchased and the trade-in. Broker accepts delivery and ownership of Boat B and places Boat B into Broker's own inventory. In turn Broker arranges delivery of the craft purchased to John. The buyer (John) has delivered the trade-in property (Boat B) to the seller (Broker). There is no requirement that Broker purchase Boat A from Susan (thereby becoming the owner) prior to selling Boat A to John and accepting Boat B as trade-in property because, as a broker, Broker is a seller under RCW 82.08.010.

(b) The trade-in exclusion does not apply to transactions where a seller transfers tangible personal property in or out of its own inventory in exchange for other property it also owns.

(4) **Trade-in as consideration.** Property traded in must be consideration delivered by the buyer to the seller. The sales documents must identify the tangible personal property being purchased and the trade-in property being delivered to the seller. This does not require simultaneous transfers of the property being traded in and the property being purchased, but it does require that the delivery of the trade-in and the purchase be components of a single transaction. Sales documents, executed not later than the date the trade-in property is delivered to the seller, must identify the property purchased and the trade-in property as more fully explained in subsection (7) below.

The following examples identify a number of facts and then state conclusions with respect to the trade-in exclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all the facts and circumstances.

(a) Jane Doe offers to purchase Sailboat A from Dealer, if Dealer accepts her Sailboat B as a trade-in on the purchase. Dealer declines to accept ownership of Jane's Sailboat B, but instead offers to sell Sailboat B on a consignment basis with the net proceeds to be applied toward the purchase if Sailboat B is sold within three months. Jane accepts and Sailboat B is sold within the three-month period, and the net proceeds are applied to Jane's purchase of Sailboat A.

Jane is not entitled to the trade-in exclusion. An agreement to sell property on consignment does not constitute consideration "paid or delivered by a buyer to a seller," even if the subsequent proceeds are applied to the purchase price.

(b) Sally Jones decides to upgrade from her existing motor home to a new, larger motor home. The salesperson at a local RV dealership explains that while the dealership does not currently have on hand a motor home meeting Sally's needs, it can order one for her from the manufacturer. The salesperson also explains that if Sally trades in her motor home at the time she enters into the purchase contract, the dealership will accept the motor home as a down payment toward the purchase of the new motor home. Sally signs the purchase contract, the dealership orders the new motor home, and Sally delivers her motor home to the RV dealers (who accept ownership thereof). Sally's new motor home is delivered to her eight months later.

Sally is entitled to the trade-in exclusion because the motor home was delivered to the RV dealership as consideration paid toward her purchase of the new motor home.

(c) Mr. B and Coastal Brokers enter into a consignment sales agreement. Under the terms of this agreement, Coastal Brokers will sell Mr. B's sailboat on a consignment basis and at the time of sale place the proceeds due Mr. B into a trust account for use toward a possible purchase of a yacht by Mr. B. Mr. B's sailboat is sold and the proceeds due to Mr. B placed in the trust account. Mr. B subsequently purchases a yacht from Coastal Brokers, and the trust account proceeds are applied to the purchase price of the yacht.

Mr. B is not entitled to the trade-in exclusion. The delivery of Mr. B's sailboat to Coastal Brokers and Mr. B's purchase of the yacht are not components of a single transaction. In addition, Mr. B's delivery of his sailboat for consignment sale by Coastal Brokers does not constitute consideration "paid or delivered by a buyer to a seller," even if proceeds from the sale are applied to the purchase of the yacht.

(d) John Smith agrees to purchase Travel Trailer A from Dealer if Dealer accepts John's Travel Trailer B as a trade-in on the purchase. Dealer accepts ownership of Travel Trailer B at an agreed-upon value, on the condition that John pay Dealer a monthly fee to reimburse Dealer for financing costs associated with Travel Trailer B. This fee is to be paid for a period of four months or until Dealer sells Travel Trailer B, whichever is shorter. John has no further responsibility with respect to Travel Trailer B after this period.

John is entitled to the trade-in exclusion because he delivered Travel Trailer B to Dealer as consideration paid toward Travel Trailer A. The fees John paid to reimburse Dealer for financing costs associated with the trade-in property do not change the nature of the transaction, though for the purposes of the trade-in exclusion they do reduce the originally agreed-upon value of the trade-in property.

(5) **Property of like kind.** The term "property of like kind" means articles of tangible property of the same generic classification. It refers to the class and kind of property, not to its grade or quality. The term includes all property within a general classification rather than within a specific category in the classification. Thus, as examples, it means furniture for furniture, motor vehicles for motor vehicles, licensed recreational land vehicles for licensed recreational land vehicles, appliances for appliances, auto parts for auto parts, and audio/video equipment for audio/video equipment. These general classifications are determined by the nature of the property and its function or use. It may be that some kinds of property fit within more than one general classification. For example, a motor home is both a motor vehicle and a licensed recreational land vehicle. Thus, for purposes of the trade-in exclusion, a motor home may be taken as a trade-in on a travel trailer, truck, camper, or a truck with camper attached, and vice versa. Similarly, a travel trailer may be taken as trade-in on a motor home even though a travel trailer is not a motor vehicle; both are licensed recreational land vehicles. Conversely, a utility trailer may not be taken as trade-in on a travel trailer because a utility trailer is neither a motor vehicle nor a licensed recreational land vehicle. Likewise a car may not be taken as trade-in on a camper and vice versa.

It is not required that a car be traded in exclusively on another car in order to get the trade-in reduction of the tax measure. It could, as well, be traded in as part payment for a truck, motorcycle, motor home, or any other qualifying motor vehicle. Similarly, a sofa for a recliner chair, a pistol for a rifle, a sailboat for a motorboat, or a gold chain for a wrist watch are the kinds of generic trade-in transfers which would qualify. The exclusion of the value of property traded in, however, does not include such things as a motorcycle for a boat, a diamond ring for a television set, a battery for lumber, computer hardware for computer software, or farm machinery (including tractors and self-propelled combines) for a car.

(6) **Value of property traded in.** The seller and buyer establish the value of property traded in. The parties may not overstate the value of the trade-in property in order to artificially lower the amount of retail sales or use tax due. Absent proof of a higher value, the property traded in must be determined by the fair market value of similar property of like quality, quantity, and age, sold or traded under comparable conditions.

(7) **Trade-in value exceeds selling price.** If the trade-in value exceeds the selling price of the item sold, the selling price of the item being purchased should be used as the trade-in value. For example, a Washington resident purchases a car with a value of $5,000 and trades in a car with a fair market value of $7,000. The net due to the purchaser is $2,000. When the seller completes the excise tax return, he or she should report a trade-in value of $5,000 and not $7,000 because the trade-in value is capped at selling price of the item being purchased.

(8) **Recordkeeping.** RCW 82.32.070 requires every person liable for any tax to keep and preserve records from which tax liability can be determined. To substantiate a claim for the trade-in exclusion, the sales agreement and/or invoice must identify both the property being purchased and the trade-in property. Such identification includes the model number, serial number, year of manufacture, and other information as appropriate. The sales agreement and/or invoice must also specify the selling price and the value of the trade-in property.

A copy of the sales agreement or invoice must be retained as a part of the seller's sales records. The following is an example of an invoice providing the necessary information regarding a sales transaction with trade-in:

Sold: 2000 Mountain Home 8.5 ft. Camper Model MH-20DT, Serial No. 200010	$9,075
Less "trade-in" - 1983 Meadowlark 8 ft. Camper Model No. ML883, Serial No. 0001	$2,000

(9) **Encumbered property traded in.** A buyer is entitled to full value for trade-in property, which is otherwise encumbered by a security interest or the subject of a conditional sale, or retail installment sales contract.

(10) **Casual or isolated sales.** The retail sales tax applies to all casual or isolated retail sales made by any person who is required to be registered and reporting tax to the state. The trade-in exclusion applies in the case of a casual or isolated sale, provided the statutory requirements are satisfied. The recordkeeping requirements explained in subsection (7) apply to casual or isolated sales.

Persons who are not engaged in business activity, e.g., private persons, are not required to be registered and are not required to collect sales tax on their casual or isolated sales. RCW 82.08.0251 and WAC 458-20-106 (Casual or isolated sales—Business reorganizations). The use of property acquired through casual sales is subject to use tax. See RCW 82.12.0251 and WAC 458-20-178.

(11) **Trade-ins as sales.** RCW 82.04.040 defines the term "sale" in pertinent part to mean "any transfer of the ownership of, title to, or possession of property for a valuable consideration." When property is traded in, ownership in that property is transferred. As a result, under the law a buyer

delivering trade-in property to a seller is making a sale of the trade-in property.

(a) If the buyer is not in the business of selling the type of property being traded in the buyer incurs no B&O tax liability. (See WAC 458-20-106 on casual or isolated sales.)

(b) On occasions where the buyer is in the business of selling the type of property being traded in, the buyer incurs a B&O tax liability.

For example, Leasing purchases a new car from Dealer. This car will be part of Leasing's inventory of cars that it rents to customers. Leasing delivers a used car out of its inventory to Dealer as a part of the consideration paid for the new car. The trade-in of the used car by Leasing is considered a wholesale sale to Dealer. This is not a casual or isolated sale because Leasing is in the business of selling cars in the form of rentals.

(c) In most cases, a buyer delivers trade-in property to a seller who is in the business of reselling trade-in property (e.g., a buyer trading in an automobile to a new car dealer). The buyer in these cases has no responsibility to collect retail sales tax.

(12) **Retail services.** The exclusion of the value of property traded in from the selling price tax measure applies only to sales involving tangible personal property traded in for tangible property sold. It does not apply to any transactions involving services that have been statutorily included as "sales at retail" (see RCW 82.04.050). For example, a construction contractor may not accept part payment in tangible property to thereby reduce the sales tax measure of the construction contract selling price. Similarly, a seller of tangible personal property may not accept retail services as part payment to thereby reduce the selling price tax measure. Such transfers neither qualify as trade-in transfers of tangible property nor "in-kind" transfers.

(13) **Trade-in for rental property.** Under RCW 82.04.050, rentals or leases of tangible personal property are "retail sales." The "selling price" is also the measure of tax for such rentals and leases. Where tangible property is traded in as part payment for the rental or lease of property of like kind (e.g., a used computer against the rental of a new one), the sales tax will apply to all payments after the value of the property traded in has been depleted or consumed and the lessor of the property actually begins making charges for the lease or rental of tangible property. Refer to WAC 458-20-211 (Leases or rentals of tangible personal property, bailments) for more information regarding the tax-reporting responsibilities with respect to lease or rental transactions.

A lessee must first purchase leased property before trading it in toward the purchase/lease of other property to be entitled to the trade-in exclusion. A buyer cannot satisfy the statutory requirement that the trade-in property be delivered to the seller as a part of the consideration for the purchased property if the buyer does not have ownership of and the right to sell the property being traded in. For example, Jane Doe leases Auto A from Leasing Company. Jane decides to lease a newer Auto B from Leasing Company. Jane exercises her option to purchase Auto A, and then delivers Auto A as a trade-in towards the lease of Auto B. Jane is entitled to the trade-in exclusion. By delivering her ownership of Auto A to Leasing Company, Jane has satisfied the statutory requirement that she as the buyer deliver trade-in property to the seller as a part of the consideration paid for Auto B.

(14) **Real property transfers.** Because the trade-in exclusion is limited to tangible personal property, the trade-in exclusion does not apply to sales of real property or transactions where real property is traded in for tangible personal property.

(15) **Use tax.** RCW 82.12.010 defines the measure of the use tax as the "value of the article used." As explained in subsection (2) of this rule, the statutory definition excludes "trade-in property of like-kind." Therefore, the measure of the use tax for tangible property upon which no retail sales tax has been paid (e.g., if it were purchased in another state) is the same as the measure of the retail sales tax. In such cases the value of the property traded in should be excluded from the use tax measure.

The consumer-user, or any seller who has a duty to collect this state's use tax, must retain the sales records reflecting property "traded in," as explained in subsection (7) of this rule.

[Statutory Authority: RCW 82.32.300. 01-08-003, § 458-20-247, filed 3/21/01, effective 4/21/01; 86-04-024 (Order 86-2), § 458-20-247, filed 1/28/86; 85-02-006 (Order ET 84-6), § 458-20-247, filed 12/21/84.]

WAC 458-20-248 Sales of precious metal bullion and monetized bullion. Effective July 1, 1985, amounts derived from sales of precious metal bullion and monetized bullion as defined herein, are not subject to business and occupation tax under either the wholesaling or retailing classification or to retail sales tax. Statutory law expressly excludes such sales from the definitions of the terms, "wholesale sale," "sale at wholesale," "retail sale," and "sale at retail."

The term, "precious metal bullion" is statutorily defined to mean any precious metal which has been put through a process of smelting or refining, including, but not limited to, gold, silver, platinum, rhodium, and palladium, and which is in such state or condition that its value depends upon its contents and not upon its form.

The term, "monetized bullion" means coin or other forms of money manufactured from gold, silver, or other metals and heretofore, now, or hereafter used as a medium of exchange under the laws of this state, the United States, or any foreign nation, but does not include coins or money sold to be manufactured into jewelry or works of art.

Thus, sales of processed or refined precious metal valued solely upon the content thereof, whatever its form, are not subject to tax in this state. This includes processed nuggets, bars, sticks, dust, and other processed forms of precious metal. For example, sales of gold or silver in raw, refined forms to dentists, laboratories, jewelers, and other persons, for their own consumption or for resale are not taxable. However, sales of precious metal which has been manufactured or further processed into any form which determines or adds to the value thereof are fully taxable. For example, sales of jewelry items, medallions, artworks, and other items, the value of which is dependent upon more than the mere content of precious metal therein, are subject to wholesaling or retailing business and occupation tax, whichever is applicable, and retail sales tax as appropriate.

Sales of metal money, in coined or other form, which is recognized as a medium of exchange in the financial market-place, are not taxable. However, sales of coin or money, whether or not recognized as a medium of exchange, to jewelers or other persons for the purpose of manufacturing jewelry or artworks therefrom are fully taxable. For example, sales of coins for necklaces or to be used as buttons or in paintings or painting frames, etc., are taxable.

It is presumed that all sales of coin and metal money are entitled to tax exemption: Provided, That in order to be exempt of tax persons who knowingly sell such things to buyers who are regularly engaged in the business of manufacturing jewelry or works of art must take a written, signed, and dated statement from such buyers that the coins or metal money are not being purchased for use in manufacturing jewelry or works of art. Artistic or cultural organizations which purchase such things are exempt of retail sales tax as provided in WAC 458-20-249.

The tax exclusions explained herein apply equally to sales of precious metal bullion or monetized bullion transferred through documents of ownership, certificates, confirmation slips, or other indicia of ownership.

Taxable Commissions

Amounts received as commissions upon sales of precious metals by dealers, brokers, and other selling and/or buying agents who sell or buy precious metal bullion or monetized bullion for the accounts of customers are subject to the service and other activities classification of business and occupation tax. The amount of any shared commission or fee paid to other dealers or commissioned agents associated in such transactions are deductible from the measure of this tax. However, no deduction is allowed for any of the dealer's or commissioned agent's own costs of doing business, including salaries or commissions paid to their own salespersons or other employees. Similarly, persons who receive any part of shared commissions derived from having been associated in transactions for the purchase or sale of precious metal or monetized bullion for the account of others, are themselves subject to service business tax measured by such amounts received.

Use Tax

The use tax does not apply upon the use of precious metal bullion or monetized bullion in this state under such circumstances that the sale of such bullion to the user would not be taxable if made in this state as explained earlier herein. In all other cases the use tax applies upon the first use by a consumer of precious metals in this state if retail sales tax has not been paid. See WAC 458-20-178.

[Statutory Authority: RCW 82.32.300. 86-09-016 (Order ET 86-6), § 458-20-248, filed 4/9/86.]

WAC 458-20-249 Artistic or cultural organizations. For purposes of business and occupation tax deduction and certain retail sales tax and use tax exemptions, RCW 82.04.-4328 expressly defines the term "artistic or cultural organizations" in pertinent part as follows:

". . . the term "artistic or cultural organization" means an organization which is organized and operated exclusively for the purpose of providing artistic or cultural exhibitions, presentations, or performances or cultural or art education programs, . . . for viewing or attendance by the general public. The organization must be a not-for-profit corporation under chapter 24.03 RCW and managed by a governing board of not less than eight individuals none of whom is a paid employee of the organization or by a corporation sole under chapter 24.12 RCW. In addition, to qualify for deduction or exemption from taxation . . . the corporation shall satisfy the following conditions:

(a) No part of its income may be paid directly or indirectly to its members, stockholders, officers, directors, or trustees except in the form of services rendered by the corporation in accordance with its purposes and bylaws;

(b) Salary or compensation paid to its officers and executives must be only for actual services rendered, and at levels comparable to the salary or compensation of like positions within the state;

(c) Assets of the corporation must be irrevocably dedicated to the activities for which the exemption is granted and, on the liquidation, dissolution, or abandonment by the corporation, may not inure directly or indirectly to the benefit of any member or individual except a nonprofit organization, association, or corporation which also would be entitled to the exemption;

(d) The corporation must be duly licensed or certified when licensing or certification is required by law or regulation;

(e) The amounts received that qualify for exemption must be used for the activities for which the exemption is granted;

(f) Services must be available regardless of race, color, national origin, or ancestry; and

(g) The director of revenue shall have access to its books in order to determine whether the corporation is exempt from taxes.

(2) The term "artistic or cultural exhibitions, presentations, or performances or cultural or art education programs" includes and is limited to:

(a) An exhibition or presentation of works of art or objects of cultural or historical significance, such as those commonly displayed in art or history museums;

(b) A musical or dramatic performance or series of performances; or

(c) An educational seminar or program, or series of such programs, offered by the organization to the general public on an artistic, cultural, or historical subject."

Effective July 1, 1985, artistic or cultural organizations, as defined herein, are not subject to business and occupation tax upon amounts derived from conducting any business activities whatever. Formerly, a business and occupation tax deduction was available only for amounts received by such organizations from the United States and its instrumentalities or the state and local government entities (RCW 82.04.4322); certain manufacturing activities (RCW 82.04.4324); and tuition fees for artistic or cultural education programs (RCW 82.04.4326). Under current law, however, the deduction is unrestricted and applies to all activities conducted by such qualifying organizations.

Retail Sales Tax

Artistic or cultural organizations which make any charges for goods or services which are included in the definition of "retail sale" under RCW 82.04.050, must collect and report the retail sales tax thereon. No sales tax exemption is available for sales by such organizations.

Such organizations are exempt of paying retail sales tax upon their purchases of certain "objects" for the purpose of exhibition or presentation to the general public if the objects are:

(1) Objects of art;

(2) Objects of cultural value;

(3) Objects to be used in the creation of a work of art, other than tools; or

(4) Objects to be used in displaying art objects or presenting artistic or cultural exhibitions or performances. (RCW 82.08.031)

The term "objects" is deemed to mean items of tangible personal property. It does not include professional or commercial services rendered by third parties. Where, however, certain services are performed which are merely incidental to sales of tangible personal property, e.g., designing playbills or altering stage curtains which are then sold to qualifying organizations, the total charge therefore will be exempt.

Charges for materials, equipment, and services related to repair, maintenance, or replacement of buildings or structures are not exempt. Thus, e.g., theater seats, aisle carpeting, air conditioning systems, painting of interior or exterior of buildings, and the like are not tax exempt "objects."

Under Washington law exempt sales include rentals of exempt objects.

Examples of objects which may be purchased by qualifying artistic or cultural organizations without payment of retail sales tax are:

a) Tickets, programs, signs, posters, fliers, and playbills printed for particular displays or performances; scenery, costumes, stage, props, scrims, and materials for their construction;

b) Stage lights, filters, control panels, color medium, stage drapes, sets, set paint, gallery exhibition materials, risers, display platforms, and materials for their construction;

c) Sheet music, recordings, musical instruments and musical supplies for the staging of displays and performances;

d) Movie projectors, films, sound systems, video and sound equipment and supplies and computer hardware and standard, prewritten software directly used exclusively in the staging of performances or actual display of art objects.

Examples of objects which may be purchased by qualifying artistic or cultural organizations, upon which the retail sales tax must be paid are:

a) Supplies and equipment for clerical support, including bulk tickets for general use, stationery, typewriters, copy machines, and general office supplies;

b) Theater seats, lobby furniture, carpeting, vending machines, and general supplies for audience or patrons' convenience and use;

c) Shipping and packing materials, crates, boxes, dunnage, labels, tags, and container-related items for transfer or storage of exempt objects;

d) Sewing machines and other durable equipment used to prepare, repair, and maintain exempt objects (such items are deemed to be "tools," rather than exempt objects);

e) Theater or building lighting and utility fixtures and systems, and computer hardware and software not directly and exclusively used in staging performances or actually displaying art objects.

Qualified artistic and cultural organizations may obtain the tax exemptions by providing their suppliers with a written statement in essentially the following form:

I, (buyer's name), hereby confirm that the items purchased on (date of purchase), without payment of retail sales tax, from (seller's name) are all objects of art or cultural value or to be used in the creation of such objects or in displaying art objects or presenting artistic or cultural exhibitions or performances.

(signature of authorized purchaser)
for: (name of organization)
(registration no. of organization)

Vendors who accept such certifications in good faith will be excused from the responsibility of collecting and remitting sales tax on such sales.

Use Tax

Under RCW 82.12.031, the use tax does not apply to the use of any objects for the purposes explained earlier in this rule, and upon which the retail sales tax would be exempt if the objects were purchased in this state. The use tax applies upon all other items of tangible personal property used by artistic or cultural organizations upon which retail sales tax has not been paid.

[Statutory Authority: RCW 82.32.300. 86-07-006 (Order ET 86-4), § 458-20-249, filed 3/6/86.]

WAC 458-20-250 Solid waste collection tax. (1) **Introduction.** This section explains how the solid waste collection tax imposed under chapter 82.18 RCW applies; who is required to collect the tax; and the B&O, sales, and use tax obligations of persons providing solid waste collection services. The tax imposed under chapter 82.18 RCW was previously known as the "refuse collection tax." For the purposes of this section, the tax is referred to by its statutory name, the "solid waste collection tax."

(2)(a) **What is "solid waste"?** "Solid waste" or "waste" means garbage, trash, rubbish, or other material discarded as worthless or not economically viable for further use. The term does not include hazardous or toxic waste nor does it include material collected primarily for recycling or salvage.

(b) **Who is the taxpayer for purposes of the solid waste collection tax?** "Taxpayer" means that person upon whom the solid waste collection tax is imposed, that is, the private or commercial consumer.

(c) **Who is required to collect the solid waste collection tax?** Every person who receives waste for transfer, storage, or disposal including, but not limited to, all collection services, public or private dumps, transfer stations, and similar operations, must collect the solid waste collection tax from the private or commercial consumer.

(d) **What is the measure of the tax?** The solid waste collection tax applies to the consideration charged for solid waste collection services.

"Consideration charged for the services" is the total amount billed as compensation for solid waste collection services, without any deduction for any costs of doing business or any other expense whatsoever, paid or accrued. The term does not include:

(i) Any amount included in the charges for materials collected primarily for recycling;

(ii) The solid waste collection tax itself, whether separately itemized or not:

(iii) Any utility taxes or consumer taxes, imposed by the state or any political subdivision thereof or any municipal corporation, directly upon the consumer and separately itemized on the taxpayer's billing; or

(iv) Late charges or penalties which may be imposed for nontimely payment.

(3) **Reporting and collection obligations.** The person who collects the charges for solid waste collection services from the taxpayer is responsible for collecting the solid waste collection tax and remitting it to the state.

(a) **Failure to collect tax.** If any person charged with collecting the tax fails to bill the taxpayer for it, or to notify the taxpayer in writing that the tax is due, then that person shall be personally liable for the tax. Thus, unlike the retail sales tax, the solid waste collection tax may be included within the gross fee or charge billed to taxpayers and need not be separately itemized on such billings, but only if such taxpayers are notified in writing that the tax has been imposed and is being collected. Nothing prevents any solid waste collection business from separately itemizing the tax on customer billings, at its option.

(b) **Failure to remit collected tax.** If any person collects the tax and fails to pay it to the department in the manner provided in this section, for any reason whatsoever, the person shall be personally liable for the tax.

(4) **Due date.** The solid waste collection tax is due from the taxpayer within twenty-five days from the date the taxpayer is billed for the solid waste collection services. The solid waste collection tax must be separately reported upon lines provided on the excise tax return.

The tax is due to be remitted to the department by the person collecting it at the end of the tax reporting period in which the tax is received by that person.

(5) **Partial payments.** If a taxpayer makes only a partial payment of the amount billed for the services and tax, the amount paid must first be used to remit the solid waste collection tax to the department. The tax has first priority over all other claims against the amount paid by the taxpayer.

(6) **Sales to the federal government, Indians and Indian tribes.** The federal government, its agencies and instrumentalities, and all solid waste collection service contracts with such federal entities are not subject to the solid waste collection tax. Similarly, Indians and Indian tribes may be exempt from the tax. Refer to WAC 458-20-190 and 458-20-192 for more information about tax reporting and recordkeeping obligations relating to sales to the federal government and Indians or Indian tribes.

(7) **Transactions with multiple collection businesses.** To prevent pyramiding or multiple taxation of single transactions, the solid waste collection tax does not apply to any person other than the ultimate consumer of the solid waste service.

(a) **Exemption certificate.** Persons engaged in the solid waste collection business by operating facilities for the transfer, storage, or disposal of waste, including public and private dumps, and who provide such services directly to taxpayers for a charge, are liable for the collection of the solid waste collection tax on such charges. However, persons who collect the solid waste collection tax and who, themselves, utilize the further services of others for the transfer, storage, or disposal of the waste collected are not required to again pay the tax to such other service providers. In order to be exempt from such tax payment a solid waste collection business must provide other solid waste service providers with a solid waste collector's exemption certificate in the following form:

We hereby certify that we are engaged in the solid waste collection business and are registered with the state department of revenue to collect and report the solid waste collection tax imposed under chapter 82.18 RCW. We certify further that the solid waste collection tax due with respect to the solid waste collection business being performed under this certificate has been or will be collected and paid and that we are exempt from further payment of such tax on charges for any solid waste collection services being procured by us.

Business Name . . . . Authorized Signature . . . . .
Business Address . . . . Date . . . .
Revenue Registration No. . . . .
U.T.C. Certificate of Public Necessity No. . . . .
If not regulated by U.T.C., please check here . . . .

(b) **Blanket exemption certificates.** Blanket certificates may be provided in advance by solid waste collectors or other persons who collect the customer charges for solid waste collection and who are liable for collecting and remitting the solid waste collection tax. Blanket certificates are valid for as long as the buyer and seller have a recurring business relationship. A "recurring business relationship" means at least one sale transaction within a period of twelve consecutive months. RCW 82.08.050 (7)(c).

(c) **Examples.** Examples of taxable and tax exempt transactions are:

(i) A private person or commercial customer hauls its own waste to a dump site for disposal and pays a fee - the fee is subject to the solid waste collection tax.

(ii) A solid waste collection company picks up and hauls residential or commercial waste to a dump for disposal - this company bills the customer for the tax and need not pay the tax upon any further charge made by the dump site operator, by providing an exemption certificate.

(iii) A city provides solid waste collection services to its residents through an independent hauler under a negotiated contract, and uses a county operated land fill. The city bills the residents on their utility bills. The tax applies to the solid waste portion of the utility bill adjusted as provided in this section. These taxes do not apply to any charge paid by the city to the hauling company, nor to any charge made by the county to the city for dumping services. The city must provide the hauler and the county with an exemption certificate.

(8) **Business and occupation tax.** A solid waste collection business is subject to service and other activities B&O tax on the gross income from solid waste collection activities. There is no deduction for any cost of doing business or any amounts paid over to other solid waste collection businesses.

Late charges or penalties are subject to the service and other activities B&O tax.

Solid waste collection is an "enterprise activity," when funded over fifty percent by user fees. Amounts derived from this activity by a local governmental entity are subject to service and other activities B&O tax. See RCW 82.04.419, 82.04.4291, and WAC 458-20-189.

(9) **Sales of containers.** Solid waste collection businesses which provide waste receptacles, containers, dumpsters, and the like to their customers for a charge, separate from any charge for collection of the waste, are engaged in the business of renting tangible personal property taxable separate and apart from the solid waste collection business. Charges for such rentals, however designated, are subject to retailing B&O and retail sales taxes when they are billed separately or are line itemized on customer billings.

(10) **Sales and use tax obligations for the use of property.** Solid waste collection businesses are themselves the consumers of all tangible personal property purchased for their own use in conducting such business, other than items for resale or renting to customers, e.g., rented receptacles. Retail sales tax must be paid to materials suppliers and providers of such tangible consumables. (See RCW 82.04.050.) If the seller does not collect retail sales tax, the solid waste collection business must remit the retail sales tax (commonly referred to as "deferred sales tax") or use tax directly to the department unless specifically exempt by law. Deferred sales or use tax should be reported on the buyer's excise tax return. However, the excise tax return does not have a separate line for reporting deferred sales tax. Consequently, deferred sales tax liability should be reported on the use tax line of the buyer's excise tax return. For detailed information regarding the use tax, refer to WAC 458-20-178 (Use tax).

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and chapter 82.18 RCW. 08-14-025, § 458-20-250, filed 6/20/08, effective 7/21/08. Statutory Authority: RCW 82.32.330, 82.01.060(2), and 34.05.230. 06-12-017, § 458-20-250, filed 5/26/06, effective 6/26/06. Statutory Authority: RCW 82.32.300. 89-16-090 (Order 89-11), § 458-20-250, filed 8/2/89, effective 9/2/89; 86-15-064 (Order ET 86-14), § 458-20-250, filed 7/22/86.]

WAC 458-20-251 Sewerage collection and other related activities. (1) **Introduction.** RCW 82.16.020 levies a public utility tax upon persons engaging in the business of sewerage collection. This rule provides guidance on the assessment of the public utility tax upon sewerage collection businesses, including the distinction between sewerage collection and other related business activities. It also describes how to determine the taxable gross receipts of a sewerage collection business that also engages in other related business activities. Additionally, the rule addresses a sewerage collection business's business and occupation (B&O), retail sales, and use tax reporting responsibilities. Municipalities and other governmental entities engaging in sewerage collection business activities should also refer to WAC 458-20-189 for guidance on the taxation of public service businesses and enterprise activities.

(2) **What is a sewerage collection business?** A sewerage collection business is the activity of accepting sewage to be deposited into and carried off by a system of lateral sewers, drains, and pipes to a common point, or points, for transfer to treatment or disposal, but does not include the actual transfer, treatment, or disposal of sewage. A sewerage collection business includes only that portion of a sewer system where "collection" occurs. Sewerage collection ends when the sewage exits the lateral sewers in a sewer system. Collection does not include the further transfer of sewage through a system of intercepting sewers or the final treatment or disposal of sewage.

(a) **What is the difference between sewage and sewerage?** Sewage is the waste matter carried off by sewer drains and pipes. Sewerage refers to the physical facilities (e.g., pipes, lift stations, and treatment and disposal facilities) through which sewage flows.

(b) **What is the difference between lateral and intercepting sewers?**

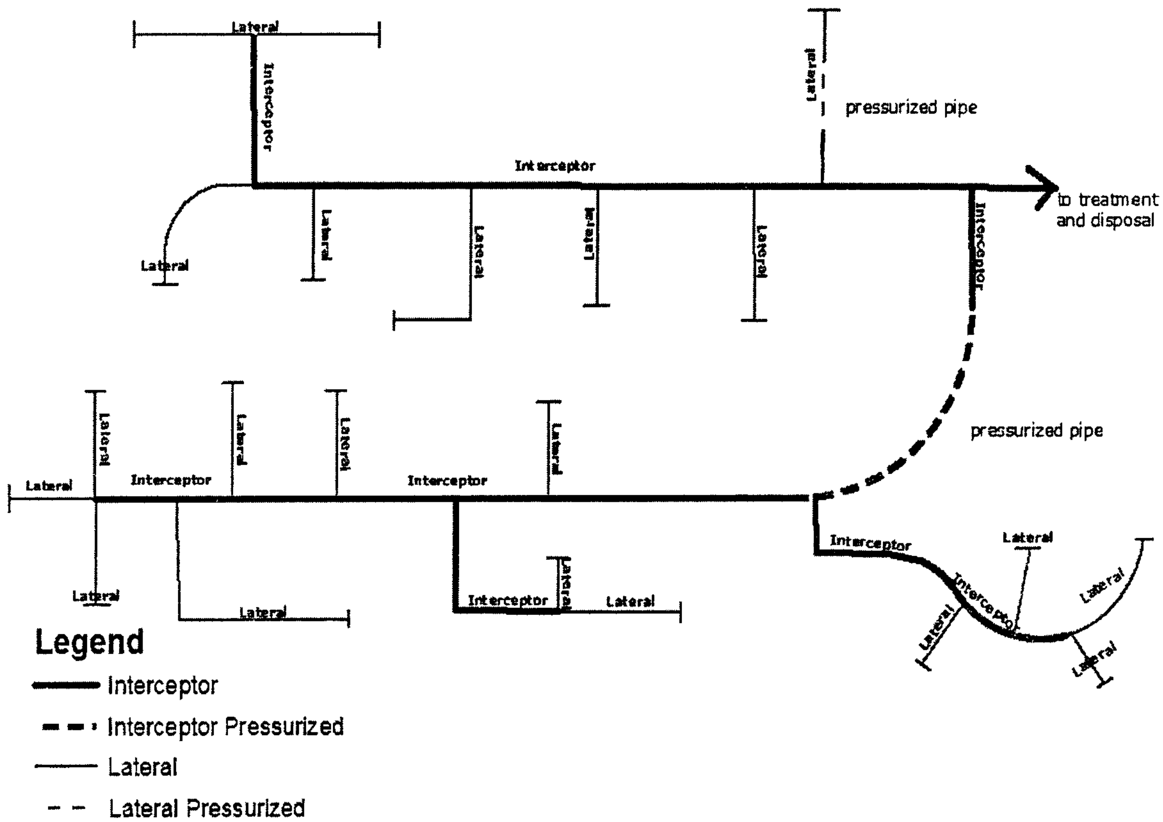
(i) A lateral sewer is a branch sewer running laterally down a street, alley, or easement that collects sewage directly from abutting properties and delivers it into an intercepting sewer.

(A) The sewage from abutting properties is collected through sewer pipes running from the abutting properties to the lateral sewer in the street, alley, or easement. If a sewerage collection business is responsible for maintaining any portion of such a sewer pipe, that portion is considered to be part of the lateral sewer.

(B) A lateral sewer may include force mains or lift stations if such equipment is installed as part of a lateral sewer line.

(ii) An intercepting sewer is a main sewer that receives flow from laterals and delivers the sewage to another main sewer or to a point for treatment or disposal.

The following diagram illustrates how sewer pipes in a sewerage system are categorized as lateral or intercepting sewers. The diagram does not attempt to represent any publicly maintained portions of sewer pipes that run from abutting properties to the lateral sewer in the street, alley, or easement.



(c) **How are drainage utility charges accounted for?** Certain real estate development projects (due to paving and other factors) may adversely affect rainwater runoff within areas served by a stormwater sewer system. Often, the stormwater system is administered by the same entity that operates a sewerage collection business. In this circumstance, some sewerage utilities impose a drainage utility charge on the development to reflect the impact on the utility's stormwater sewer system caused by the increased runoff. Other sewerage utilities charge all sewerage customers an additional drainage utility charge to reflect stormwater runoff. Although the same entity may be providing both stormwater and sanitary sewer collection services to the customer and many of the same facilities may be used, a drainage utility charge is not related to the collection of sewage for treatment and disposal. Therefore, a sewerage collection business does not include this activity. Utility drainage charges are, however, subject to B&O taxation under the service and other activities classification, as discussed in subsection (4) below.

(3) **How is the public utility tax determined?** Persons engaged in the sewerage collection business are subject to the public utility tax under the sewer collection classification measured by the gross receipts of the collection business. (See RCW 82.16.020.) Gross receipts of the sewerage collection business include only that portion of income from customer billings that is allocable to the collection of sewage by a sewerage collection business. Gross receipts do not include any charges of any kind attributable to sewerage services other than collection.

There are two methods to determine the gross receipts of the collection business.

(a) **Itemization of customer billings.** If customer billings are itemized to show the actual charge for sewage collection, income realized from those billings is the gross receipts tax measure. If the itemized charges for sewage collection are less than the actual cost of providing the collection service, however, the sewerage collection business must use the cost-of-doing-business formula in subsection (3)(b) below.

(b) **Cost-of-doing-business formula.** If collection services are provided jointly with other related sewer services provided by the sewerage collection business or any other person, and the actual charge for sewerage collection is not itemized separately on customer billings or is less than the actual cost of providing the collection service, a simple cost-of-doing-business formula is used to derive the gross receipts public utility tax measure.

(i) **Formula.** The costs of providing sewerage collection services are divided by all business costs incurred in rendering all sewer services, including sewerage collection. The resulting percentage is multiplied by gross income from customer billings (all sewerage related charges). The result is the gross receipts public utility tax measure from engaging in the sewerage collection business. The standard cost accounting records of the sewerage collection business must be used for this purpose.

The formula is:

$$\frac{\text{Sewerage collection costs (Annualized)}}{\text{Total sewer service costs (Annualized)}} = \underline{\qquad}\ \%\ \text{x gross billing income} = \text{Public Utility Tax Measure}$$

In determining sewage collection costs for a sewerage collection business that also engages in related business activities involving the interception, transfer, storage, treatment, and/or disposal of sewage, only lateral sewers are considered collection sewers. Intercepting sewers are not collection sewers and may not be allocated to collection activities. All costs of operation of the sewer services business must be included in the denominator, including, but not limited to, direct operating costs and direct and indirect overhead costs. When circumstances warrant, the department may allow certain equipment—such as force mains or pump stations—to be converted into an equivalent length of pipe for purposes of allocating costs accurately.

(ii) **Annual year-end adjustment.** For the purpose of annualizing its costs, the sewerage collection business may use the previous calendar year costs or its budget allocations for the current tax year. In either case, however, it must make an end-of-year adjustment to its reporting based upon actual costs incurred during the current year.

(c) **Late charges/penalties excluded.** Revenue from late charges or other penalties for untimely payment by sewerage collection customers must be excluded when calculating gross receipts under subsection (3)(a) and (b) above. Receipts from these sources are subject to B&O taxation under the service and other activities classification as provided in subsection (4) below. (See WAC 458-20-179, Public utility tax, for further explanation of the taxation of late charge penalties.)

(d) **Preutility service activities excluded.** Services provided to a customer prior to receipt of sewerage collection services are subject to B&O taxation under the service and other activities classification as provided in subsection (4) below. For example, many sewerage collection businesses assess connection charges to a new customer before providing sewerage collection services to that customer. Such a connection charge may be variable (calculated as a charge per linear foot of road frontage for example) or a flat fee. A sewerage collection business may assess other charges for specific services provided to new customers, such as installing or inspecting the installation of service connections. In each case, the revenue from such fees is taxable under the service and other activities classification as long as the service for which the fee is assessed is performed before the sewerage collection business provides collection services to that customer. (See WAC 458-20-179, Public utility tax, for further explanation of the taxation of preutility service activities.)

(e) **Treatment or disposal costs deduction.** RCW 82.16.050(11) provides that in computing the public utility tax, a sewerage collection business may deduct from its reported gross income amounts paid by the business to a person taxable under chapter 82.04 RCW for the treatment or disposal of sewage. The deduction provided by RCW 82.16.050(11) may be taken on the combined excise tax return only when the receipts related to treatment or disposal are included in the gross amounts reported under the sewer collection classification.

(4) **How are related business activities taxed?** Persons engaged in the sewerage collection business may also be engaged in related business activities involving the interception, transfer, storage, treatment, and/or disposal of sewage. These activities are generally subject to the service and other activities B&O tax. The measure of tax is the gross income or gross proceeds derived from those other services. The measure of tax does not include any amount subject to the sewerage collection public utility tax classification. The amount of gross income or gross proceeds subject to the service and other activities B&O tax must be determined consistent with the method used to determine the gross receipts subject to the sewage collection public utility tax (see subsection (3) above).

(5) **What if a governmental sewerage collection business pays a separate governmental entity for sewage interception, treatment or disposal?** RCW 82.04.432 provides a deduction from the B&O tax measure for amounts paid by municipal sewerage utilities and other public corporations to any other municipal corporation or governmental agency for sewage interception, treatment, or disposal. Thus, in such cases the service and other activities B&O tax on sewer services does not have a pyramiding effect. In addition, RCW 82.04.4291 provides a B&O tax deduction for amounts derived by a political subdivision of the state of Washington from another political subdivision of the state of Washington as compensation for services subject to the service and other activities B&O tax. Income received from the state of Washington or its agencies and departments, however, is not deductible under RCW 82.04.4291. Thus, the local government entity that receives compensation from another local government entity for providing sewage interception, treatment, or disposal for that other government entity may also deduct the income from its own measure of service and other activities B&O tax, provided this amount has been included in the gross amount reported on the combined excise tax return. In such a case, neither entity pays tax on the amounts represented by the payments made for sewage interception, treatment, or disposal.

For example, Washington Municipality A operates a sewerage collection business. Rather than invest in its own treatment facilities, it contracts with Washington Municipality B to provide sewage transfer, treatment, and disposal services to Municipality A. When determining its tax liability, Municipality A must break down its sewage service charges (as provided in subsection (3) above) into a sewerage collection portion and that portion representing other sewage services (interception, transfer, treatment, and disposal). Municipality A pays public utility tax on its gross receipts from the sewerage collection business. Municipality A also pays service and other activities B&O tax on income derived from that portion of sewage transfer that it undertakes to move the waste to Municipality B for further transfer, treatment, and disposal by Municipality B. However, Municipality A may deduct from its gross income subject to service and other activities B&O tax the amount of any payments made to Municipality B for sewage transfer, treatment, or disposal services provided by Municipality B. In addition, pursuant to RCW 82.04.4291, Municipality B may deduct from its gross income subject to service and other activities B&O tax the amount of the payments received from Municipality A.

(6) **Local improvement district assessments.** Local improvement district (LID) and utility local improvement district (ULID) assessments, including interest and penalties on assessments, are not considered part of taxable income for either public utility tax or B&O tax purposes because they are exercises of the jurisdiction's taxing authority. These assessments may be composed of a share of the costs of capital facilities, installation labor, connection fees, and other expenses. A deduction may be taken for these amounts if they are included in the LID or ULID assessments.

(7) **Property purchased and used by a sewerage collection business.** Persons engaged in the sewerage collection business and/or engaged in providing other related sewer services are themselves the consumers of all tangible personal property purchased for their own use in conducting those activities. Retail sales tax (commonly referred to as "deferred sales tax") or use tax must be remitted directly to the department upon all tangible personal property used by a sewerage collection business or sewer service provider as a consumer, if the retail sales tax has not been collected by the seller. (See RCW 82.12.020.)

(8) **Sale of sludge.** With proper treatment, it is possible for the sludge remaining after the initial treatment of raw sewage to be used as fertilizer. If a sewerage collection business sells sludge, manufacturing B&O tax is due on the value of the products and retailing or wholesaling B&O tax is due on the gross proceeds of the sale. A multiple activities tax credit (MATC) applies as provided in RCW 82.04.440 and WAC 458-20-19301. If the sludge is sold to a consumer, retail sales tax is due on the proceeds of that sale, unless otherwise exempt by law.

If the necessary requirements are met, the business may claim a manufacturing machinery and equipment (M&E) exemption for machinery and equipment used directly in manufacturing the sludge (rendering it suitable for use as a fertilizer). This exemption is not available for machinery or equipment used merely to treat sewage for disposal.

For more information on the M&E exemption, see RCW 82.08.02565, 82.12.02565, and WAC 458-20-13601.

WAC 458-20-252 Hazardous substance tax and petroleum product tax. PART 1 - HAZARDOUS SUBSTANCE TAX

(1) Introduction. Under the provisions of chapter 82.22 RCW a hazardous substance tax was imposed, effective January 1, 1988, upon the wholesale value of certain substances and products, with specific credits and exemptions provided. This law is significantly changed, effective on March 1, 1989, because of Initiative 97 (I-97) which was passed by the voters in the November 8, 1988 general election. The tax, which is reimposed by I-97, is an excise tax upon the privilege of possessing hazardous substances or products in this state. It is imposed in addition to all other taxes of an excise or property tax nature and is not in lieu of any other such taxes.

(a) I-97, which will be referred to as chapter 2, Laws of 1989, defines certain specific substances as being hazardous and includes other substances by reference to federal legislation governing such things. It also provides authority to the director of the state department of ecology to designate any substances or products as hazardous which could present a threat to human health or the environment. The department of ecology, by duly published rule, defines and enumerates hazardous substances and products and otherwise administers the provisions of the law relating to hazardous and toxic or dangerous materials, waste, disposal, cleanup, remedial actions, and monitoring. (See chapter 173-__ of the WAC.)

(b) Sections 8 through 12 of I-97 consist of the tax provisions relating to hazardous substances and products which are administered exclusively under this section. The tax provisions relate exclusively to the possession of hazardous substances and products. The tax provisions do not relate to waste, releases or spills of any materials, cleanup, compensation, or liability for such things, nor does tax liability under the law depend upon such factors. The incidence or privilege which incurs tax liability is simply the possession of the hazardous substance or product, whether or not such possession actually causes any hazardous or dangerous circumstance.

(c) The hazardous substance tax is imposed upon any possession of a hazardous substance or product in this state by any person who is not expressly exempt of the tax. However, it is the intent of the law that the economic burden of the tax should fall upon the first such possession in this state. Therefore, the law provides that if the tax has not been paid upon any hazardous substance or product the department may collect the tax from any person who has had possession. The amount of tax paid then constitutes a debt owed by the first person having had taxable possession to the person who pays the tax.

(2) Definitions. For purposes of this part the following terms will apply.

(a) "Tax" means the hazardous substance tax imposed under section 10 of I-97.

(b) "Hazardous substance" means anything designated as such by the provisions of chapter 173 WAC, administered by the state department of ecology, as adopted and thereafter amended. In addition, the law defines this term to include:

(i) Any substance that, on March 1, 1989, is a hazardous substance under section 101(14) of the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), as amended by Public Law 99-499. These substances consist of chemicals and elements in their purest form. A CERCLA substance which contains water is still considered pure. Combinations of CERCLA substances as ingredients together with nonhazardous substances will not be taxable unless the end product is specifically designated as a hazardous substance by the department of ecology.

(ii) Petroleum products (further defined below);

(iii) Pesticide products required to be registered under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA); and

(iv) Anything else enumerated as a hazardous substance in chapter 173-__ WAC by the department of ecology.

(c) "Product(s)" means any item(s) containing a combination of ingredients, some of which are hazardous substances and some of which are not hazardous substances.

(d) "Petroleum product" means any plant condensate, lubricating oil, crankcase motor oil, gasoline, aviation fuel, kerosene, diesel motor fuel, benzol, fuel oil, residual fuel, asphalt base, liquefied or liquefiable gases, such as butane, ethane and propane, and every other product derived from the refining of crude oil, but the term does not include crude oil.

(i) The term "derived from the refining of crude oil" as used herein, means produced because of and during petroleum processing. "Petroleum processing" includes all activities of a commercial or industrial nature wherein labor or skill is applied, by hand or machinery, to crude oil or any byproduct of crude oil so that as a result thereof a fuel or lubricant is produced for sale or commercial or industrial use. "Fuel" includes all combustible gases and liquids suitable for the generation of energy. The term "derived from the refining of crude oil" does not mean petroleum products which are manufactured from refined oil derivatives, such as petroleum jellies, cleaning solvents, asphalt paving, etc. Such further manufactured products become hazardous substances only when expressly so designated by the director of ecology.

(e) "Possession" means control of a hazardous substance located within this state and includes both actual and constructive possession.

(i) "Control" means the power to sell or use a hazardous substance or to authorize the sale or use by another.

(ii) "Actual possession" occurs when the person with control has physical possession.

(iii) "Constructive possession" occurs when the person with control does not have physical possession.

(f) "Previously taxed hazardous substance" means a hazardous substance upon which the tax has been paid and which has not been remanufactured or reprocessed in any manner.

(i) Remanufacturing or reprocessing does not include the mere repackaging or recycling for beneficial reuse. Rather, these terms embrace activities of a commercial or industrial nature involving the application of skill or labor by hand or machinery so that as a result, a new or different substance or product is produced.

(ii) "Recycling for beneficial reuse" means the recapturing of any used substance or product, for the sole purpose of extending the useful life of the original substance or product in its previously taxed form, without adding any new, different, or additional ingredient or component.

(iii) Example: Used motor oil drained from a crankcase, filtered, and containerized for reuse is not remanufactured or reprocessed. If the tax was paid on possession of the oil before use, the used oil is a previously taxed substance.

(iv) Possessions of used hazardous substances by persons who merely operate recycling centers or collection stations and who do not reprocess or remanufacture the used substances are not taxable possessions.

(g) "Wholesale value" is the tax measure or base. It means the fair market value determined by the wholesale selling price.

In cases where no sale has occurred, wholesale value means the fair market wholesale value, determined as nearly as possible according to the wholesale selling price at the place of use of similar substances of like quality and character. In such cases the wholesale value shall be the "value of the products" as determined under the alternate methods set forth in WAC 458-20-112.

(h) "Selling price" means consideration of any kind expressed in terms of money paid or delivered by a buyer to a seller, without any deductions for any costs whatsoever. Bona fide discounts actually granted to a buyer result in reductions in the selling price rather than deductions.

(i) "State," for purposes of the credit provisions of the hazardous substance tax, means:

(i) The state of Washington,

(ii) States of the United States or any political subdivisions of such other states,

(iii) The District of Columbia,

(iv) Territories and possessions of the United States,

(v) Any foreign country or political subdivision thereof.

(j) "Person" means any natural or artificial person, including a business organization of any kind, and has the further meaning defined in RCW 82.04.030.

(i) The term "natural person," for purposes of the tax exemption provided by section 11(2) of I-97 regarding substances used for personal or domestic purposes, means human beings in a private, as opposed to a business sense.

(k) Except as otherwise expressly defined in this section, the definitions of terms provided in chapters 82.04, 82.08, and 82.12 RCW apply equally for this section. Other terms not expressly defined in these chapters or this section are to be given their common and ordinary meanings.

(3) Tax rate and measure. The tax is imposed upon the privilege of possessing hazardous substances in this state. The tax rate is seven tenths of one percent (.007). The tax measure or base is the wholesale value of the substance, as defined herein.

(4) Exemptions. The following are expressly exempt from the tax:

(a) Any successive possessions of any previously taxed hazardous substances are tax exempt.

(i) Any person who possesses a hazardous substance which has been acquired from any other person who is registered with the department of revenue and doing business in this state may take a written statement certifying that the tax has been previously paid. Such certifications must be taken in good faith and must be in the form provided in the last part of this section. Blanket certifications may be taken, as appropriate, which must be renewed at intervals not to exceed four years. These certifications may be used for any single hazardous substance or any broad classification of hazardous substances, e.g., "all chemicals."

(ii) In the absence of taking such certifications, the person who possesses any hazardous substance must retain proofs that it purchased or otherwise acquired the substance from a previous possessor in this state. It is not necessary for subsequent possessors to obtain certificates of previously taxed hazardous substances in order to perfect their tax exemption. Documentation which establishes any evidence of previous tax payment by another person will suffice. This includes invoices or billings from in state suppliers which reflect their payment of the tax or simple bills of lading or delivery documents revealing an in state source of the hazardous substances.

(iii) This exemption for taxes previously paid is available for any person in successive possession of a taxed hazardous substance even though the previous payment may have been satisfied by the use of credits or offsets available to the previous person in possession.

(iv) Example. Company A brings a substance into this state upon which it has paid a similar hazardous substance tax in another state. Company A takes a credit against its Washington tax liability in the amount of the other state's tax paid. It then sells the substance to Company B, and provides Company B with a certificate of previously taxed substance. Company B's possession is tax exempt even though Company A has not directly paid Washington's tax but has used a credit against its Washington liability.

(b) Any possession of a hazardous substance by a natural person for use of a personal or domestic nature rather than a business nature is tax exempt.

(i) This exemption extends to relatives, as well as other natural persons who reside with the person possessing the substance, and also to regular employees of that person who use the substance for the benefit of that person.

(ii) This exemption does not extend to possessions by any independent contractors hired by natural persons, which contractors themselves provide the hazardous substance.

(iii) Examples: Possessions of spray materials by an employee-gardener or soaps and cleaning solvents by an employee-domestic servant, when such substances are provided by the natural person for whose domestic benefit such things are used, are tax exempt. Also, possessions of fuel by private persons for use in privately owned vehicles are tax exempt.

(c) Any possession of any hazardous substance, other than pesticides or petroleum products, possessed by a retailer for making sales to consumers, in an amount which is determined to be "minimal" by the department of ecology. That department has determined that the term "minimal" means less than $1,000.00 worth of such hazardous substances measured by their wholesale value, possessed during any calendar month.

(d) Possessions of alumina or natural gas are tax exempt.

(e) Persons or activities which the state is prohibited from taxing under the United States Constitution are tax exempt.

(i) This exemption extends to the U.S. government, its agencies and instrumentalities, and to any possession the taxation of which has been expressly reserved or preempted under the laws of the United States.

(ii) The tax will not apply with respect to any possession of any hazardous substance purchased, extracted, produced or manufactured outside this state which is shipped or delivered into this state until the interstate transportation of such substance has finally ended in this state. Thus, out-of-state sellers or producers need not pay the tax on substances shipped directly to customers in this state. The customers must pay the tax upon their first possession unless otherwise expressly exempt.

(iii) Out-of-state sellers or producers will be subject to tax upon substances shipped or delivered to warehouses or other in state facilities owned, leased, or otherwise controlled by them.

(iv) However, the tax will not apply with respect to possessions of substances which are only temporarily stored or possessed in this state in connection with through, interstate movement of the substances from points of origin to points of destination both of which are outside of this state.

(f) The former exemption for petroleum products for export sale or use outside this state as fuel was effectively repealed by I-97. There are no exemptions under the law for any possessions of hazardous substances in this state simply because such substances may later be sold or used outside this state.

(g) Though I-97 contains an exemption for persons possessing any hazardous substance where such possession first occurred before March 1, 1989, this exemption applies only to the tax imposed under I-97. It does not apply retroactively to excuse the hazardous substance tax which was imposed under chapter 82.22 RCW in effect from January 1, 1988 until March 1, 1989. However:

(i) **Transitional rule:** Persons who possess stocks or inventories of petroleum products as of March 1, 1989, which are destined for sale or use outside this state as fuel are not subject to tax upon such possessions of preexisting inventories. For periods before March 1, 1989 the former exemption of RCW 82.22.040(3) for export petroleum products applies. For periods on and after March 1, 1989 the exemption for prepossessed hazardous substances explained in subsection (g) above will apply. Records appropriate to establish that such petroleum products were destined for out-of-state sale or use as fuel must be retained by any possessor claiming exemption under this transitional rule.

(5) Credits. There are three distinct kinds of tax credits against liability which are available under the law.

(a) A credit may be taken by any manufacturer or processor of a hazardous substance produced from ingredients or components which are themselves hazardous substances, and upon which the hazardous substance tax has been paid by the same person or is due for payment by the same person.

(i) Example. A manufacturer possesses hazardous chemicals which it combines to produce an acid which is also designated as a hazardous substance or product. When it reports the tax upon the wholesale value of the acid it may use a credit to offset the tax by the amount of tax it has already paid or reported upon the hazardous chemical ingredients or components. In this manner the intent of the law to tax hazardous substances only once is fulfilled.

(ii) Under circumstances where the hazardous ingredient and the hazardous end product are both possessed by the same person during the same tax reporting period, the tax on the respective substances must be computed and the former must be offset against the latter so that the tax return reflects the tax liability after the credit adjustment.

(iii) This credit may be taken only by manufacturers who have the first possession in this state of both the hazardous ingredients and the hazardous end product.

(b) A credit may be taken in the amount of the hazardous substance tax upon the value of fuel which is carried from this state in the fuel tank of any airplane, ship, truck, or other vehicle.

(i) The credit may be claimed only for the amount of tax reported or actually due to be paid on the fuel, not the amount representing the value of the fuel.

(ii) The purpose of this credit is to exclude from taxation any possessions of fuel which remains in the fuel tanks of any carrier vehicles powered by such fuel when they leave this state, regardless of where or from whom such fuel-in-tanks was acquired.

(iii) The nature of this credit is such that it generally has application only for interstate and foreign private or common carriers who carry fuel into this state and/or purchase fuel in this state. The intent is that the tax will apply only to so much of such fuel as is actually consumed by such carriers within this state.

(iv) In order to equitably and efficiently administer this tax credit, any fuel which is brought into this state in carrier vehicle fuel tanks must be accounted for separately from fuel which is purchased in this state for use in such fuel tanks. Formulas approved by the department for reporting the amount of fuel consumed in this state for purposes of this tax or other excise tax purposes will satisfy the separate accounting required under this subsection.

(v) Fuel-in-tanks brought into this state must be fully reported for tax and then the credit must be taken in the amount of such fuel which is taken back out of this state. This is to be done on the same periodic excise tax return so that the net effect is that the tax is actually paid only upon the portion of fuel consumed here.

(vi) The credit for fuel-in-tanks purchased in this state must be accounted for by using a fuel-in-tanks credit certificate in substantially the following form:

Certificate of Credit for Fuel Carried from this State in Fuel Tanks

I hereby certify that the petroleum products specified herein, purchased by or transferred to the undersigned, from (name of seller or transferor), are entitled to the credit for fuel which is carried from this state in the fuel tank of any airplane, ship, truck, or other vehicle operated by a private or common carrier in interstate or foreign commerce. I will become liable for and pay the taxes due upon all or any part of such fuel which is not so carried from this state. This certification is given with full knowledge of, and subject to the legally prescribed penalties for fraud and tax evasion.

Registration No.	.... (if applicable)
Type of Business	....
Firm Name	....
Business Address	....
Registered Name	.... (if different)
Tax Reporting Agent	.... (if applicable)
Authorized Signature	....
Title	....
Identity of Fuel	.... (kind and amount by volume)
	Date: ....

(vii) This certificate may be executed and provided to any possessor of fuel in this state, throughout the chain of distribution, with respect to fuel which ultimately will be sold and delivered into any carrier's fuel tanks in this state. Thus, refiners or manufacturers will take such certificates directly from carriers or from their wholesale purchasers who will sell to such carriers. Similarly, fuel dealers and distributors will take such certificates from carriers to whom they sell such fuel. These certificates must be retained as a permanent part of such seller's business records.

(viii) Persons who execute and provide these credit certificates to their fuel suppliers must retain suitable purchase and sales records as may be necessary to determine the amount of tax for which such persons may be liable.

(ix) Blanket certificates may be used to cover recurrent purchases of fuel by the same purchaser. Such blanket certificates must be renewed every two years.

(c) A credit may be taken against the tax owed in this state in the amount of any other state's hazardous substance tax which has been paid by the same person measured by the wholesale value of the same hazardous substance.

(i) In order for this credit to apply, the other state's tax must be significantly similar to Washington's tax in all its various respects. The taxable incident must be possessing the substance; the tax purpose must be that the substance is hazardous; and the tax measure must be stated in terms of the wholesale value of the substance, without deductions for costs of doing business, such that the other state's tax does not constitute an income tax or added value tax.

(ii) This credit may be taken for the amount of any other state's qualifying tax which has actually been paid before Washington state's tax is incurred because the substance was previously possessed by the same person in another taxing jurisdiction.

(iii) The amount of credit is limited to the amount of tax paid in this state upon possession of the same hazardous substance in this state. Also, the credit may not be applied against any tax paid or owed in this state other than the hazardous substance tax imposed by section 10 of I-97.

(iv) Exchange agreements under which hazardous substances or products possessed in this state are exchanged through any accounts crediting system with like substances possessed in other states do not qualify for this credit. The substance taxed in another state, and for which this credit is sought, must be actually, physically possessed in this state.

(v) Persons claiming this credit must maintain records necessary to verify that the credit taking qualifications have been met. See WAC 458-20-19301, part (9) for record keeping requirements. The department of revenue will publish an excise tax bulletin listing other states' taxes which qualify for this credit.

(6) Newly defined hazardous substances. The director of ecology may identify and designate things as being hazardous substances after March 1, 1989. Also, things designated as hazardous substances may be deleted from this definition. Such actions are done by the adoption and subsequent periodic amendments to rules of the department of ecology under the Washington Administrative Code.

(a) The law allows the addition or deletion of substances as hazardous by rule amendments, no more often than twice in any calendar year.

(b) When such definitions are changed, they do not take effect for tax purposes until the first day of the following month which is at least thirty days after the effective date of rule action by the department of ecology.

(i) Example. The department of ecology adopts or amends the rule by adding a new substance and the effective date of the amendment is June 15. Possession of the substance does not become taxable until August 1.

(ii) The tax is owed by any person who has possession of the newly designated hazardous substance upon the tax effective date as explained herein. It is immaterial that the person in possession on that date was not the first person in possession of the substance in this state before it was designated as hazardous.

(7) Recurrent tax liability. It is the intent of the law that all hazardous substances possessed in this state should incur this tax liability only once unless they are expressly exempt. This is true of hazardous ingredients of products as well as the manufactured end product itself, if designated as a hazardous substance. The *exemption* for previously taxed hazardous substances does not apply to "products" which have been manufactured or remanufactured simply because an ingredient or ingredients of that product may have already been taxed when possessed by the manufacturer. Instead of an exemption, manufacturers in possession of both the hazardous ingredient(s) and end product(s) should use the *credit* provision explained at part (5)(a) of this section.

(a) However, the term "product" is defined to mean only an item or items which contain a combination of both hazardous substance(s) and nonhazardous substance(s). The term does not include combinations of only hazardous substances. Thus, possessions of substances produced by combining other hazardous substances upon all of which the tax has previously been paid will not again be taxable.

(b) When any hazardous substance(s) is first produced during and because of any physical combination or chemical reaction which occurs in a manufacturing or processing activity, the intermediate possession of such substance(s) within the manufacturing or processing plant is not considered a taxable possession if the substance(s) becomes a component or ingredient of the product being manufactured or processed or is otherwise consumed during the manufacturing or processing activity.

(i) However, when any intermediate hazardous substance is first produced during a manufacturing or processing activity and is withdrawn for sale or transfer outside of the manufacturing or processing plant, a taxable first possession occurs.

(c) Concentrations or dilutions for shipment or storage. The mere addition or withdrawal of water or other nonhazardous substances to or from hazardous substances designated under CERCLA or FIFRA for the sole purpose of transportation, storage, or the later manufacturing use of such substances does not result in any new hazardous product.

(8) How and when to pay tax. The tax must be reported on a special line of the combined excise tax return designated "hazardous substances." It is due for payment together with the timely filing of the return upon which it is reported, covering the tax reporting period during which the hazardous substance(s) is first possessed within this state. Any person who is not expressly exempt of the tax and who possesses any hazardous substance in this state, without having proof that the tax has previously been paid on that substance, must report and pay the tax.

(a) It may be that the person who purchases a hazardous substance will not have billing information from which to determine the wholesale value of the substance when the tax return for the period of possession is due. In such cases the tax is due for payment no later than the next regular reporting due date following the reporting period in which the substance(s) is first possessed.

(b) The taxable incident or event is the possession of the substance. Tax is due for payment by the purchaser of any hazardous substance whether or not the purchase price has been paid in part or in full.

(c) Special provision for manufacturers, refiners, and processors. Manufacturers, refiners, and processors who possess hazardous substances are required to report the tax and take any available exemptions and credits only at the time that such hazardous substances are withdrawn from storage for purposes of their sale, transfer, remanufacture, or consumption.

(9) How and when to claim credits. Credits should be claimed and offset against tax liability reported on the same excise tax return when possible. The tax return form provides a line for reporting tax on hazardous substances and a line for taking credits as an offset against the tax reported. It is not required that any documents or other evidences of entitlement to credits be submitted with the report. Such proofs must be retained in permanent records for the purpose of verification of credits taken.

(10) Special provision for consumer/first possessors. Under circumstances where the consumer is the first person in possession of any nonexempt hazardous substance (e.g., substances imported by the consumer), or where the consumer is the person who must pay the tax upon substances previously possessed in this state (fuel purchased for export in fuel tanks) the consumer's tax measure will be eighty percent of its retail purchase price. This provision is intended to achieve a tax measure equivalent to the wholesale value.

(11) Hazardous substances or products on consignment. Consignees who possess hazardous substances or products in this state with the power to sell such things, in their own name or on behalf of a disclosed or undisclosed consignor are liable for payment of the tax. The exemption for previously taxed substances is available for such consignees only if the consignors have paid the tax and the consignee has retained the certification or other proof of previous tax payment referred to in part (4)(i) and (ii) of this section. Possession of consigned hazardous substances by a consignee does not constitute constructive possession by the consignor.

(12) Hazardous substances untraceable to source. Various circumstances may arise whereby a person will possess hazardous substances in this state, some of which have been previously taxed in this or other states and some of which may not. In such cases formulary tax reporting may be used, only upon a special ruling by the department of revenue.

(a) Example. Fungible petroleum products from sources both within and outside this state are commingled in common storage facilities. Formulary reporting is appropriate based upon volume percentages reflecting the ratio of in-state production to out-of-state production or other form of acquisition.

(13) Administrative provisions. The provisions of chapter 82.32 RCW regarding due dates, reporting periods, tax return requirements, interest and penalties, tax audits and limitations, disputes and appeals, and all such general administrative provisions apply equally to the hazardous substance tax. Special requested rulings covering unique circumstances generally will be issued within sixty days from the date upon which complete information is provided to the department of revenue.

(14) Certification of previously taxed hazardous substance. Certification that the hazardous substance tax has already been paid by a person previously in possession of the substance(s) may be taken in substantially the following form:

I hereby certify that this purchase - all purchases of . . . .
(omit one)
. . . . by . . . . ,
(identify substance(s) purchased) (name of purchaser)
who possesses registration no. . . . . ,
(buyer's number, if registered)

consists of the purchase of hazardous substance(s) or product(s) upon which the hazardous substance tax has been paid in full by a person previously in possession of the substance(s) or product(s) in this state. This certificate is given with full knowledge of, and subject to the legally prescribed penalties for fraud and tax evasion, and with the full knowledge and agreement that the undersigned hereby assumes any liability for hazardous substance tax which has not been previously paid because of possession of the hazardous substance(s) or product(s) identified herein.

. . . . The registered seller named below personally paid the tax upon possession of the hazardous substances.
. . . . A person in possession of the hazardous substances prior to the possession of the registered seller named below paid the tax.
(Check the appropriate line.)
Name of registered seller . . . . Registration No. . . . .
Firm name . . . . Address . . . .
Type of business . . . .
Authorized signature . . . . Title . . . .
Date . . . .

PART II - PETROLEUM PRODUCTS TAX

(1) Under the provisions of chapter 383, Laws of 1989, (hereinafter referred to as the law), a petroleum product tax was imposed, effective July 1, 1989, upon the wholesale value of petroleum products in this state with specific credits and exemptions provided. The tax is an excise tax upon the privilege of first possessing petroleum products in this state. It is imposed in addition to all other taxes of an excise or property tax nature, including the hazardous substance tax explained earlier in this section, and is not in lieu of any other such taxes.

(a) Sections 14-18 of the law consist of the tax provisions relating to possession of petroleum products which are administered exclusively under this section. The application of the petroleum product tax with the exceptions noted below, is the same as the hazardous substance tax applications explained in subsection (1)(c) of part 1 of this section.

(b) The petroleum product tax is imposed upon any possession of petroleum products in this state by any person who is not expressly exempt of the tax. However, it is the intent of the law that the economic burden of the tax should fall only upon the first such possession in this state just like the hazardous substance tax.

(2) Definitions. For purposes of this part the following terms will apply.

(a) "Tax" means the petroleum product tax imposed under section 16 of the law.

(b) "Petroleum product" means any plant condensate, lubricating oil, gasoline, aviation fuel, kerosene, diesel motor fuel, benzol, fuel oil, residual fuel oil, asphalt base, liquefied or liquefiable gases, such as butane, ethane and propane, and every other product derived from the refining of crude oil, but the term does not include crude oil.

(c) "Possession" means control of a petroleum product located within this state and includes both actual and constructive possession.

(i) "Control" means the power to sell or use a petroleum product or to authorize the sale or use by another.

(ii) "Actual possession" occurs when the person with control has physical possession.

(iii) "Constructive possession" occurs when the person with control does not have physical possession.

(d) "Previously taxed petroleum products" means petroleum products upon which the petroleum product tax has been paid and which have not been remanufactured or reprocessed in any manner (other than mere repackaging or recycling for beneficial reuse) since the tax was paid.

(e) "Wholesale value" is the tax measure or base. It means the fair market value determined by the wholesale selling price at the place of use of similar products of like quality and character. "Wholesale value" shall be determined in precisely the manner for the petroleum product tax as it is for the hazardous substance tax in part 1, subsection (2)(g) of this section.

(f) "Selling price." See 2(h) of part 1 of this section.

(g) "State," for purposes of the credit provisions of the petroleum product tax, means:

(i) A state of the United States other than Washington, or any political subdivision of such other state,

(ii) The District of Columbia,

(iii) Any foreign country or political subdivision thereof, and

(iv) Territories and possessions of the United States.

(3) Tax rate and measure. The tax is imposed upon the privilege of possession of petroleum products in this state. The tax rate is fifty one-hundredths of one percent (.005). The tax measure or base is the wholesale value of the petroleum products, as defined herein. The tax will apply for first possessions of petroleum products in all periods after its effective date unless the department notifies taxpayers in writing of the department's determination that the pollution liability reinsurance program trust account contains a sufficient balance to cause a moratorium on the tax application. The department will again notify taxpayers in writing if and when the account balance requires reapplication of the tax.

(4) Exemptions. The following are expressly exempt from the tax:

(a) Any successive possessions of any previously taxed petroleum products are exempt in precisely the manner as the same exemption for the hazardous substance tax. (See part 1, subsection (4)(a) of this section.) If the tax is paid by any person other than the first person having taxable possession of a petroleum product, the amount of tax paid shall constitute a debt owed by the first person having taxable possession to the person who paid the tax.

(b) Any possession of a petroleum product by a natural person for use of a personal or domestic nature rather than a business nature is exempt in precisely the manner as the same exemption for the hazardous substance tax. (See part 1, subsection (4)(b) of this section.)

(c) Any possessions of the following substances are tax exempt:

(i) Natural gas, or petroleum coke;

(ii) Liquid fuel or fuel gas used in processing petroleum;

(iii) Petroleum products that are exported for use or sale outside this state as fuel.

(iv) The exemption for possessions of petroleum products for export sale or use as fuel may be taken by any person within the chain of distribution of such products in this state. To perfect its entitlement to this exemption the person possessing such product(s) must take from its buyer or transferee of the product(s) a written certification in substantially the following form:

Certificate of Tax Exempt Export Petroleum Products

I hereby certify that the petroleum products specified herein, purchased by or transferred to the undersigned, from (seller or transferor), are for export for use or sale outside Washington state as fuel. I will become liable for and pay any petroleum product tax due upon all or any part of such products which are not so exported outside Washington state. This certificate is given with full knowledge of, and subject to the legally prescribed penalties for fraud and tax evasion.

Registration No. . . . .
Type of Business . . . .
(If applicable) Firm Name . . . .
Registered Name (If different) . . . .
Authorized Signature . . . .
Title . . . .
Identity of Petroleum Product . . . .
(Kind and amount by volume)
Date: . . . .

(v) Each successive possessor of such petroleum products must, in turn, take a certification in this form from any other person to whom such petroleum products are sold or transferred in this state. Failure to take and keep such certifications as part of its permanent records will incur petroleum product tax liability by such sellers or transferrers of petroleum products.

(vi) Persons in possession of such petroleum products who themselves export or cause the exportation of such products to persons outside this state for further sale or use as fuel must keep the proofs of actual exportation required by WAC 458-20-193, parts A or C. Carriers who will purchase fuel in this state to be taken out-of-state in the fuel tanks of any ship, airplane, truck, or other carrier vehicle will provide their fuel suppliers with this certification. Then such carriers will directly report and pay the tax only upon the portion of such fuel actually consumed by them in this state. (With respect to fuel brought into this state in fuel tanks and partially consumed here, see the credit provisions of part 1, subsection (5)(b) of this section.

(vii) Blanket export exemption certificates may never be accepted in connection with petroleum products exchanged under exchange agreements.

(d) Any possession of petroleum products packaged for sale to ultimate consumers. This exemption is limited to petroleum products which are prepared and packaged for sale at usual and ordinary retail outlets. Examples are containerized motor oil, lubricants, and aerosol solvents.

(5) Credits. There are two distinct kinds of tax credits against liability which are available under the law.

(a) A credit may be taken in the amount of the petroleum product tax upon the value of fuel which is carried from this state in the fuel tank of any airplane, ship, truck, or other vehicle. The credit is applied in precisely the same manner as the hazardous substance tax in part 1, subsection (5)(b) of this section.

The same form of certification as used for the fuel-in-tanks hazardous substance tax credit in subsection (5)(b)(vi) of part 1 of this section may be used.

(b) A credit may be taken against the tax owed in this state in the amount of any other state's petroleum product tax which has been paid by the same person measured by the wholesale value of the same petroleum product tax.

(i) In order for this credit to apply, the other state's tax must be significantly similar to Washington's tax in all its various respects. The taxable incident must be on the act or privilege of possessing petroleum products and the tax must be of a kind that is not generally imposed on other activities or privileges; the tax purpose must be to fund pollution liability insurance; and the tax measure must be stated in terms of the wholesale value of the petroleum products, without deductions for costs of doing business, such that the other state's tax does not constitute an income tax or added value tax.

(ii) The credit is applied in precisely the same manner as the state credit for hazardous substance tax in part 1, subsection (5)(c) of this section. The amount of the credit shall not exceed the petroleum product tax liability with respect to that petroleum product.

(6) The general administrative and tax reporting provisions for the hazardous substance tax contained in part 1 (8) through (14) of this section apply as well for the petroleum products tax of this part in precisely the same manner except the references to "hazardous substance(s)" or "substance(s)" should be replaced with the words, "petroleum products."

[Statutory Authority: RCW 82.32.300. 89-16-091 (Order 89-12), § 458-20-252, filed 8/2/89, effective 9/2/89; 89-10-051 (Order 89-1), § 458-20-252, filed 5/2/89; 88-06-028 (Order 88-2), § 458-20-252, filed 2/26/88.]

WAC 458-20-254 Recordkeeping. (1) **Introduction.** This section defines the requirements for the maintenance and retention of books, records, and other sources of information. It also addresses these requirements where all or a part of the taxpayer's books and records are received, created, maintained, or generated through various computer, electronic, and/or imaging processes and systems.

The general requirements imposed on taxpayers are to retain and make available those records necessary to verify that the correct tax liability has been reported and paid by the taxpayer with respect to the taxes administered by the department of revenue ("department"). The records provided to the department are confidential and privileged. Such records may not be disclosed by the department, except as provided by RCW 82.32.330.

(2) **Definitions.** For purposes of this section, the following definitions will apply:

(a) "Data base management system" means a software system that controls, relates, retrieves, and provides accessibility to data stored in a data base.

(b) "Electronic data interchange" or "EDI technology" means the computer-to-computer exchange of business transactions in a standardized structured electronic format.

(c) "Hard copy" means any documents, records, reports or other data printed on paper.

(d) "Machine-sensible record" means a collection of related information in any electronic format (e.g., data base management systems, EDI technology, automated data process systems, etc.). Machine-sensible records do not include hard-copy records that are created or recorded on paper or stored in or by an imaging system such as microfilm, microfiche, or storage-only imaging systems.

(e) "Records" means all books, data, documents, reports, or other information, including those received, created, maintained, or generated through various computer, electronic, and/or imaging processes and systems.

(f) "Storage-only imaging system" means a system of computer hardware and software that provides for the storage, retention and retrieval of documents originally created on paper. It does not include any system, or part of a system, that manipulates or processes any information or data contained on the document in any manner other than to reproduce the document in hard copy or as an optical image.

(3) **Recordkeeping requirements—General.**

(a) Every taxpayer liable for a tax or fee imposed by the laws of the state of Washington for which the department of revenue has primary or secondary administrative responsibility, e.g., Title 82 RCW, chapter 67.28 RCW (hotel/motel tax), chapter 70.95 RCW (fee on tires), and chapter 84.33 RCW (forest excise tax), must keep complete and adequate records from which the department may determine any tax liability for such taxpayer.

(b) It is the duty of each taxpayer to prepare and preserve all records in a systematic manner conforming to accepted accounting methods and procedures. Such records are to be kept, preserved, and presented upon request of the department or its authorized representatives which will demonstrate:

(i) The amounts of gross receipts and sales from all sources, however derived, including barter or exchange transactions, whether or not such receipts or sales are taxable. These amounts must be supported by original source documents or records including but not limited to all purchase invoices, sales invoices, contracts, and such other records as may be necessary to substantiate gross receipts and sales.

(ii) The amounts of all deductions, exemptions, or credits claimed through supporting records or documentation required by statute or administrative rule, or other supporting records or documentation necessary to substantiate the deduction, exemption, or credit.

(iii) The payment of retail sales tax or use tax on capital assets, supplies, articles manufactured for your own use, and other items used by the taxpayer as a consumer.

(iv) The amounts of any refunds claimed. These amounts must be supported by records as may be necessary to substantiate the refunds claimed. Refer to WAC 458-20-229 for information on the refund process.

(c) The records kept, preserved, and presented must include the normal records maintained by an ordinary prudent business person. Such records may include general ledgers, sales journals, cash receipts journals, bank statements, check registers, and purchase journals, together with all bills, invoices, cash register tapes, and other records or documents of original entry supporting the books of account entries. The records must include all federal and state tax returns and reports and all schedules, work papers, instructions, and other data used in the preparation of the tax reports or returns.

(d) If a taxpayer retains records in both machine-sensible and hard-copy formats, the taxpayer must make the records available to the department in machine-sensible format upon request of the department. However, the taxpayer is not prohibited from demonstrating tax compliance with traditional hard-copy documents or reproductions thereof, although this does not eliminate the requirement that they provide access to machine-sensible records, if requested.

(e) Machine-sensible records used to establish tax compliance must contain sufficient transaction-level detail information so that the details underlying the machine-sensible records can be identified and made available to the department upon request.

(f) At the time of an examination, the retained records must be capable of being retrieved and converted to a readable record format, as required in subsection (6) of this section.

(g) Taxpayers are not required to construct machine-sensible records other than those created in the ordinary course of business. A taxpayer who does not create the electronic equivalent of a traditional paper document in the ordinary course of business is not required to construct such a record for tax purposes.

(4) **Record retention period.** All records must be open for inspection and examination at any time by the department, upon reasonable notice, and must be kept and preserved for a period of five years. RCW 82.32.070

(5) **Failure to maintain or disclose records.** Any taxpayer who fails to comply with the requirements of RCW 82.32.070 or this section is forever barred from questioning, in any court action or proceedings, the correctness of any assessment of taxes made by the department based upon any period for which such books, records, and invoices have not been so kept, preserved, or disclosed. RCW 82.32.070

(6) **Electronic records.**

(a) **Electronic data interchange requirements.**

(i) Where a taxpayer uses electronic data interchange (EDI) processes and technology, the level of record detail, in combination with other records related to the transactions, must be equivalent to that contained in an acceptable paper record. For example, the retained records should contain such information as vendor name, invoice date, product description, quantity purchased, price, amount of tax, indication of tax status, shipping detail, etc. Codes may be used to identify some or all of the data elements, provided that the taxpayer provides a method which allows the department to interpret the coded information.

(ii) The taxpayer may capture the information at any level within the accounting system and need not retain the original EDI transaction records provided the audit trail, authenticity, and integrity of the retained records can be established. For example, a taxpayer using electronic data interchange technology receives electronic invoices from its suppliers. The taxpayer decides to retain the invoice data from completed and verified EDI transactions in its accounts payable system rather than to retain the EDI transactions themselves. Since neither the EDI transaction nor the accounts payable system captures information from the invoice pertaining to product description and vendor name (i.e., they contain only codes for that information), the taxpayer must also retain other records, such as its vendor master file and product code description lists and make them available to the department. In this example, the taxpayer need not retain its EDI transaction for tax purposes if the vendor master file contains the required information.

(b) **Electronic data processing systems requirements.** The requirements for an electronic data processing accounting system should be similar to that of a manual accounting system, in that an adequately designed accounting system should incorporate methods and records that will satisfy the requirements of this section.

(c) **Internal controls.**

(i) Upon the request of the department, the taxpayer must provide a description of the business process that created the retained records. Such description must include the relationship between the records and the tax documents prepared by the taxpayer and the measures employed to ensure the integrity of the records.

(ii) The taxpayer must be capable of demonstrating:

(A) The functions being performed as they relate to the flow of data through the system;

(B) The internal controls used to ensure accurate and reliable processing; and

(C) The internal controls used to prevent unauthorized addition, alteration, or deletion of retained records.

(iii) The following specific documentation is required for machine-sensible records retained pursuant to this section:

(A) Record formats or layouts;

(B) Field definitions (including the meaning of all codes used to represent information);

(C) File descriptions (e.g., data set name); and

(D) Detailed charts of accounts and account descriptions.

(7) **Access to machine-sensible records.**

(a) The manner in which the department is provided access to machine-sensible records may be satisfied through a variety of means that shall take into account a taxpayer's facts and circumstances through consultation with the taxpayer.

(b) Such access will be provided in one or more of the following manners:

(i) The taxpayer may arrange to provide the department with the hardware, software and personnel resources to access the machine-sensible records.

(ii) The taxpayer may arrange for a third party to provide the hardware, software and personnel resources necessary to access the machine-sensible records.

(iii) The taxpayer may convert the machine-sensible records to a standard record format specified by the department, including copies of files, on a magnetic medium that is agreed to by the department.

(iv) The taxpayer and the department may agree on other means of providing access to the machine-sensible records.

(8) **Storage-only imaging systems.**

(a) For purposes of storage and retention, taxpayers may convert hard-copy documents received or produced in the normal course of business and required to be retained under this section to microfilm, microfiche or other storage-only imaging systems and may discard the original hard-copy documents, provided the conditions of this section are met. Documents which may be stored on these media include, but are not limited to, general books of account, journals, voucher registers, general and subsidiary ledgers, and supporting records of details, such as sales invoices, purchase invoices, exemption certificates, and credit memoranda.

(b) Microfilm, microfiche and other storage-only imaging systems must meet the following requirements:

(i) Documentation establishing the procedures for converting the hard-copy documents to microfilm, microfiche or other storage-only imaging system must be maintained and made available upon request. Such documentation must, at a minimum, contain a sufficient description to allow an original document to be followed through the conversion system as well as internal procedures established for inspection and quality assurance.

(ii) Procedures must be established for the effective identification, processing, storage, and preservation of the stored documents and for making them available for a period of five years.

(iii) Upon request by the department, a taxpayer must provide facilities and equipment for reading, locating, and reproducing any documents maintained on microfilm, microfiche or other storage-only imaging system.

(iv) When displayed on such equipment or reproduced on paper, the documents must exhibit a high degree of legibility and readability. For this purpose, legibility is defined as the quality of a letter or numeral that enables the observer to identify it positively and quickly to the exclusion of all other letters or numerals. Readability is defined as the quality of a group of letters or numerals being recognizable as words or complete numbers.

(v) All data stored on microfilm, microfiche or other storage-only imaging systems must be maintained and arranged in a manner that permits the location of any particular record.

(vi) There must be no substantial evidence that the microfilm, microfiche, or other storage-only imaging system lacks authenticity or integrity.

(9) **Effect on hard-copy recordkeeping requirements.**

(a) The provisions of this section do not relieve taxpayers of the responsibility to retain hard-copy records that are created or received in the ordinary course of business as required by existing law and regulations, except as otherwise provided in this section. Hard-copy records may be retained on a recordkeeping medium as provided in subsection (8) of this section.

(b) If hard-copy records are not produced or received in the ordinary course of transacting business (e.g., when the taxpayer uses electronic data interchange technology), such hard-copy records need not be created.

(c) Hard-copy records generated at the time of a transaction using a credit or debit card must be retained unless all the details necessary to determine correct tax liability relating to the transaction are subsequently received and retained by the taxpayer in accordance with this section.

(d) Computer printouts that are created for validation, control, or other temporary purposes need not be retained.

(e) Nothing in this section prevents the department from requesting hard-copy printouts in lieu of retained machine-sensible records at the time of examination.

(10) **Out-of-state businesses.** An out-of-state business which does not keep the necessary records within this state may either produce within this state such records as are required for examination by the department or permit the examination of the records by the department or its authorized representatives at the place where the records are kept. RCW 82.32.070.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 07-04-100, § 458-20-254, filed 2/6/07, effective 3/9/07. Statutory Authority: RCW 82.32.300. 89-11-040 (Order 89-6), § 458-20-254, filed 5/16/89.]

WAC 458-20-255 Carbonated beverage syrup tax. (1) **Introduction.** This section explains the carbonated beverage syrup tax (syrup tax) as imposed by chapter 82.64 RCW. The syrup tax is an excise tax on the number of gallons of carbonated beverage syrup sold in this state, for use in producing carbonated beverages that are sold at wholesale or retail in this state. The syrup tax is in addition to all other taxes.

Except as otherwise provided in this rule, the provisions of chapters 82.04, 82.08, 82.12 and 82.32 RCW regarding definitions, due dates, reporting periods, tax return requirements, interest and penalties, tax audits and limitations, disputes and appeals, and all general administrative provisions apply to the syrup tax.

This rule provides examples that identify a number of facts and then state a conclusion regarding the applicability of the syrup tax. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all facts and circumstances.

(2) **What is carbonated beverage syrup?** Carbonated beverage syrup (syrup) is a concentrated liquid that is added to carbonated water to produce a carbonated beverage. "Syrup" includes concentrated liquid marketed by manufacturers to which purchasers add water, carbon dioxide, or carbonated water to produce a carbonated beverage. "Carbonated beverage" includes any nonalcoholic liquid intended for human consumption that contains any amount of carbon dioxide. Examples include soft drinks, mineral waters, seltzers, and fruit juices, if carbonated, and frozen carbonated beverages known as FCBs. "Carbonated beverage" does not include products such as bromides or carbonated liquids commonly sold as pharmaceuticals.

(3) **When is syrup tax imposed and how is it determined?** Syrup tax is imposed on the wholesale or retail sales of syrup within this state. The syrup tax is determined by the number of gallons of syrup sold. Fractional amounts are taxed proportionally.

(a) **When should syrup tax be reported and paid?** The frequency of reporting and paying the syrup tax coincides with the reporting periods of taxpayers for their business and occupation (B&O) tax. For example, a wholesaler who reports B&O tax monthly would also report any syrup tax liability on the monthly excise tax return.

(b) **What if I sell both previously taxed and nontaxed syrups?** Persons selling syrups in this state, some of which have been previously taxed in this or other states and some of which have not, may contact the department of revenue (department) for authorization to use formulary tax reporting. Prior to reporting in this manner, the person must receive a special ruling from the department that allows formulary reporting. A ruling may be obtained by writing the department at:

Taxpayer Information and Education
Department of Revenue
P.O. Box 47478
Olympia, WA 98504-7478

Persons selling previously taxed syrups should refer to subsections (5)(a) and (6) of this section for information about an exemption or credit that may be applicable to such sales.

(4) **Who is responsible for paying the syrup tax?** This subsection explains who is responsible for payment of the syrup tax for both wholesale and retail sales of syrup in this state.

(a) **Wholesale sales.** A wholesaler making a wholesale sale of syrup in this state must collect the tax from the buyer and report and pay the tax to the department. If, however, the wholesaler is prohibited from collecting the tax under the Constitution of this state or the Constitution or laws of the United States, the wholesaler is liable for the tax. A wholesaler who fails or refuses to collect the syrup tax with intent to violate the provisions of chapter 82.64 RCW, or to gain some advantage directly or indirectly is guilty of a misdemeanor. The buyer is responsible for paying the syrup tax to the wholesaler. The syrup tax required to be collected by the wholesaler is a debt from the buyer to the wholesaler, until the tax is paid by the buyer to the wholesaler. Except as provided in subsection (5)(b)(ii) of this section, the buyer is not obligated to pay or report the syrup tax to the department.

(b) **Retail sales.** A retailer making a retail sale in this state of syrup purchased from a wholesaler who has not collected the tax must report and pay the tax to the department. Except as provided in subsection (5)(b)(ii) of this section, the buyer is not obligated to pay or report the syrup tax to the department.

(5) **Exemptions:** This subsection provides information on exemptions from the syrup tax.

(a) **Previously taxed syrup.** Any successive sale of previously taxed syrup is exempt. See RCW 82.64.030(1). "Previously taxed syrup" is syrup on which tax has been paid under chapter 82.64 RCW.

(i) All persons selling or otherwise transferring possession of taxed syrup, except retailers, must separately itemize the amount of the syrup tax on the invoice, bill of lading, or other instrument of sale. Beer and wine wholesalers selling syrup on which the syrup tax has been paid and who are prohibited under RCW 66.28.010 from having a direct or indirect financial interest in any retail business may, instead of a separate itemization of the amount of the syrup tax, provide a statement on the instrument of sale that the syrup tax has been paid. For purposes of the payment and the itemization of the syrup tax, the tax computed on standard units of a product (e.g., cases, liters, gallons) may be stated in an amount rounded to the nearest cent. In competitive bid documents, unless the syrup tax is separately itemized in the bid documents, the syrup tax will not be considered as included in the bid price. In either case, the syrup tax must be separately itemized on the instrument of sale except when the separate itemization is prohibited by law.

(ii) Any person prohibited by federal or state law, ruling, or requirement from itemizing the syrup tax on an invoice, bill of lading, or other document of delivery must retain the documentation necessary for verification of the payment of the syrup tax.

(iii) A subsequent sale of syrup sold or delivered upon an invoice, bill of lading, or other document of sale that contains a separate itemization of the syrup tax is exempt from the tax. However, a subsequent sale of syrup sold or delivered to the subsequent seller upon an invoice, bill of lading, or other document of sale that does not contain a separate itemization of the syrup tax is conclusively presumed to be previously untaxed syrup, and the seller must report and pay the syrup tax unless the sale is otherwise exempt.

(iv) The exemption for syrup tax previously paid is available for any person selling previously taxed syrup even though the previous payment may have been satisfied by the use of credits or offsets available to the prior seller.

(v) Example. Company A sells to Company B a syrup on which Company A paid a similar syrup tax in another state. Company A takes a credit against its Washington tax liability in the amount of the other state's tax paid (see subsection (6) of this section). It provides Company B with an invoice containing a separate itemization of the syrup tax. Company B's subsequent sale is tax exempt even though Company A has not directly paid Washington's tax but has used a credit against its Washington liability.

(b) **Syrup transferred out-of-state.** Any syrup that is transferred to a point outside the state for use outside the state is exempt. See RCW 82.64.030(2). The exemption for the sale of exported syrup may be taken by any seller within the chain of distribution.

(i) **Required documentation.** The prior approval of the department is not required to claim an exemption from the syrup tax for exported syrup. The seller, at the time of sale, must retain in its records an exemption certificate completed by the buyer to document the exempt nature of the sale. This requirement may be satisfied by using the department's "Certificate of Tax Exempt Export Carbonated Beverage Syrup," or another certificate with substantially the same information. A blank exemption certificate can be obtained through the following means:

(A) From the department's internet web site at http://dor.wa.gov;

(B) By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options); or

(C) By writing to: Taxpayer Services, Washington State Department of Revenue, P.O. Box 47478, Olympia, Washington 98504-7478.

(ii) The exemption certificate may be used so long as some portion of the syrup is exported. Sellers are under no obligation to verify the amount of syrup to be exported by their buyers providing such certificates. Buyers providing exemption certificates for exported syrup agree to become liable for tax and any associated penalties and interest on syrup that is not exported.

(iii) Example. Company A sells a previously untaxed syrup to Company C. Company C provides the seller with a completed exemption certificate as explained in (b)(i) of this subsection. Company C sells the syrup to Company D, who provides Company C with an exemption certificate. Company D decides to not export a portion of the purchased syrup. Companies A and C can both accept exemption certificates. Company D is responsible for paying syrup tax on the syrup not exported.

(iv) Persons who make sales of syrup to persons outside this state must keep the proofs required by WAC 458-20-193 (Inbound and outbound interstate sales of tangible personal property) to substantiate the out-of-state sales.

(c) **Taxation prohibited under the United States Constitution.** Persons or activities that the state is prohibited from taxing under the United States Constitution are exempt. See RCW 82.64.050(1).

(d) **Wholesale sales of trademarked syrup to bottlers.** Any wholesale sale of a trademarked syrup by any person to a person commonly known as a bottler who is appointed by the owner of the trademark to manufacture, distribute, and sell the trademarked syrup within a specific geographic territory is exempt. See RCW 82.64.030(3).

(6) **Syrup tax credits.**

(a) **B&O tax credit for syrup tax paid.** Chapter 245, Laws of 2006 (SSB 6533) provided a B&O tax credit effective July 1, 2006. The credit is available to any buyer of syrup using the syrup in making carbonated beverages that are then sold, provided that the syrup tax, imposed by RCW 82.64.020, has been paid. The tax credit is a percentage of the syrup tax paid.

(i) **How much is the credit?** For syrup purchased July 1, 2006, through June 30, 2007, the B&O tax credit for the buyer is equivalent to twenty-five percent of the syrup tax paid. From July 1, 2007, through June 30, 2008, the allowable credit is fifty percent. From July 1, 2008, through June 30, 2009, the credit is seventy-five percent. As of July 1, 2009, the buyer is entitled to a B&O tax credit of one hundred percent of the syrup tax paid.

(ii) **When can the credit be taken?** The B&O tax credit can be claimed against taxes due for the tax reporting period in which the taxpayer purchased the syrup. The credit cannot exceed the amount of B&O tax due, nor can credit be refunded. Unused credit may be carried over and used for future reporting periods for a maximum of one year. The year starts at the end of the reporting period in which the syrup was purchased and credit was earned. See (b)(ii)(B)(iii) of this subsection for record documentation and retention.

(b) **Credit for syrup tax paid to another state.** Credit is allowed against the taxes imposed by chapter 82.64 RCW for any syrup tax paid to another state with respect to the same syrup. The amount of the credit cannot exceed the tax liability arising under chapter 82.64 RCW. The amount of credit is limited to the amount of tax paid in this state upon the wholesale sale of the same syrup in this state. In addition, the credit may not be applied against any tax paid or owed in this state other than the syrup tax imposed by chapter 82.64 RCW.

(i) **What is a state?** For purposes of the syrup tax credit, "state" is any state of the United States other than Washington, or any political subdivision of another state; the District of Columbia; and any foreign country or political subdivision of a foreign country.

(ii) **What is a syrup tax?** For purposes of the syrup tax credit, "syrup tax" means a tax that is:

(A) Imposed on the sale at wholesale of syrup and is not generally imposed on other activities or privileges; and

(B) Measured by the volume of the syrup.

(iii) **How and when to claim the credit.** Any tax credit available to the taxpayer should be claimed and offset against tax liability reported on the same excise tax return when possible. The excise tax return provides a line for reporting syrup tax, and the credit must be taken in the credit section under the credit classification "other credits." A statement showing the computation of the credit must be provided. It is not required that any other documents or other evidence of entitlement to credits be submitted with the return. Such proofs must be retained in permanent records for the purpose of verification of credits taken.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and chapter 82.64 RCW. 08-14-019, § 458-20-255, filed 6/20/08, effective 7/21/08; 06-23-067, § 458-20-255, filed 11/9/06, effective 12/10/06; 05-02-009, § 458-20-255, filed 12/27/04, effective 1/27/05. Statutory Authority: RCW 82.32.300. 98-20-085, § 458-20-255, filed 10/6/98, effective 11/6/98; 91-20-058, § 458-20-255, filed 9/24/91, effective 10/25/91; 89-17-001 (Order 89-13), § 458-20-255, filed 8/3/89, effective 9/3/89.]

WAC 458-20-256 Trade shows, conventions and seminars. (1) When a trade show, convention or educational seminar is sponsored and held by a nonprofit trade or nonprofit professional organization for a group other than the general public, the sponsoring organization may deduct from its business and occupation tax measure all "attendance" or "space" charges it collects for such an event, per RCW 82.04.4282. Nonqualifying organizations, and qualifying organizations sponsoring nonqualifying events, must include "attendance" and "space" charges in their tax measure for purposes of computing service and other activity business and occupation tax thereon.

(2) Nonprofit organizations are taxed in the same fashion as profit-making individuals or groups, with but few tax exemptions. This section implements one of those exemptions. See also WAC 458-20-114 and 458-20-169.

(3) For purposes of this section, the following definitions shall apply:

(a) The term "nonprofit" means exempt from tax under Section 501 of the Internal Revenue Code. The tax exempt status must be in effect when the trade show, convention, or seminar is conducted.

(b) A "trade organization" is an entity whose members are engaged "in trade", i.e., in one or more lawful commercial trades, businesses, crafts, industries, or distinct productive enterprises.

(c) A "professional organization" is an entity whose members are engaged in a particular lawful vocation, occupation or field of activity of a specialized nature.

(d) A "trade show" is a gathering of persons in trade for the purpose of exhibiting, demonstrating, and explaining services, products and/or equipment.

(e) A "convention" is a gathering of persons in trade or a profession for the purposes of providing, publishing and exchanging information, ideas and attitudes and conducting the business of the organization.

(f) A "seminar" is a gathering of persons in trade or a profession for the purpose of research, study, and/or exchange of specialized information, ideas and attitudes in regard to that trade or profession.

(g) "Not open to the general public" means that attendance is limited to members of the sponsoring organization and to specific invited guests of the sponsoring organization.

(4) As of July 23, 1989, for purposes of computing taxable receipts subject to business and occupation tax, a qualifying "nonprofit" organization may deduct all amounts the organization collects as charges for

(a) Admissions, and

(b) Licenses to occupy space in order to display exhibits, equipment and/or goods, at an organization-sponsored trade show, convention or seminar not open to the general public.

(5) No statutory deduction is available for the following:

(a) Outright sales of tangible personal property or services for which a specific charge separate from the charge for attending or occupying space is made. It is only those charges which are paid for the express privilege of attending or exhibiting at such an event which are deductible; and

(b) Admission or space charges for purely social, recreational, entertainment or other nontrade or nonprofessional gatherings regardless of the nonprofit tax status of the sponsoring organization.

(6) Examples:

(a) The local building trade council (council) organizes and sponsors a trade show held for specialty and general housing contractors. Council has on file a letter of tax exemption under Section 501 of the Internal Revenue Code. Council collects $100.00, prepaid, from each exhibitor for licenses to display and exhibit construction equipment, tools and related wares at preassigned booths, and $5.00, paid at the door, from each contractor who attends the event. Because the sponsoring organization qualifies as a nonprofit trade organization, the event qualifies as a trade show sponsored by the organization, and it is not open to the general public, all of the amounts collected constitute deductible receipts of admission and/or space charges.

(b) The metropolitan business group (metro), a recognized tax-exempt organization under IRC Section 501, organizes and sponsors a convention for all of its businesses members. Following completion of regular metro business matters (election of officers, etc.), there are speeches by accountants, attorneys, bankers, financial consultants, city planners, and other persons able to give legal and business advice and information to those attending. Metro charges a $25.00 per person entry fee. Included with the program is a hosted luncheon at which the mayor gives an explanation of local governmental regulations. The entry charges are fully deductible by Metro from its business and occupation tax measure. The sponsoring organization is "nonprofit" and a "trade organization" because its members are generically "in trade" even though not all are members of just one trade. The event constitutes a convention for persons "in trade" (generic, not specific) and the event is not open to the public. Finally, the moneys collected all constitute admission charges, no special charge for the meal having been made.

(c) The eastside whiffle ball association (association), a corporation recognized in writing to be tax exempt under Section 501 of the Internal Revenue Code, holds a "skills" clinic for all interested persons. The association charges $3.00 to all attending, which is just sufficient to cover the cost of materials and the use of a facility. Following the event, a special barbecue is held for $4.00 extra per participant. Souvenirs imprinted with the association name are also available for extra charge. The $3.00 admission charges, the $4.00 dinner charges, and the souvenir charges must all be included in the association's B&O tax measure for the following reasons, each one of which disallows the deduction:

(i) The association is not a trade or professional organization,

(ii) The event is not a trade show, convention or seminar, and

(iii) The event is open to the public. Separate dinner and souvenir charges are nondeductible in any event because they constitute itemized charges for goods and services.

(d) A local concerned citizen group (group), which has never applied for federal tax exempt status, organizes and sponsors a health care seminar held in the local school auditorium for district health care professionals, nurses, sport trainers, parents, and concerned students. To cover the cost of hiring competent medical experts to speak at the seminar, the group charges $5.00 per person. The event is sponsored by the group for a worthwhile public purpose and the entry fees are in fact admission charges. For the following reasons, each one of which disallows the deduction, the group will have to include all door charges in its tax measure: (i) The sponsoring organization is not properly recognized to be nonprofit (no federal tax recognition) or to be a trade or professional organization, and (ii) the event is open to the public at large.

[Statutory Authority: RCW 82.32.300. 90-04-058, § 458-20-256, filed 2/2/90, effective 3/5/90.]

WAC 458-20-257 Warranties and maintenance agreements. (1) **Definitions.** For the purposes of this section, the following terms will apply:

(a) Warranties. Warranties, sometimes referred to as guarantees, are agreements which call for the replacement or repair of tangible personal property with no additional charge for parts or labor, or both, based upon the happening of some unforeseen occurrence, e.g., the property needs repair within the warranty period.

(b) Warrantor. The warrantor is the person obligated, as specified in the warranty agreement, to perform labor and/or provide materials to the owner of the personal property to which the warranty agreement relates.

(c) Maintenance agreements. Maintenance agreements sometimes referred to as service contracts, are agreements which require the specific performance of repairing, cleaning, altering, or improving of tangible personal property on a regular or irregular basis to ensure its continued satisfactory operation.

(2) **B&O tax.**

(a) Manufacturer's warranties included in the retail selling price of the article being sold.

(i) When a manufacturer's warranty is included in the retail selling price of the property sold and no additional charge is made, the value of the warranty is a part of the selling price. The value of the warranty is included in the "gross proceeds of sale" of the article sold and reported under the appropriate classification, e.g. retailing, wholesaling, etc.

(ii) When a repair is made by the manufacturer-warrantor under the warranty, the value of the labor and or parts provided are not subject to B&O tax.

(iii) When a person other than the manufacturer-warrantor makes a repair for the manufacturer-warrantor, the person making the repair is making a wholesale sale of the repair service to the manufacturer-warrantor. The person doing the repair is B&O taxable under the wholesaling classification on the value of the parts and labor provided.

(b) Nonmanufacturer's warranties and manufacturer's warranties not included in the retail selling price of the article being sold.

(i) When a warranty is sold for a charge separate from the charge of the product, e.g., a warranty extending the manufacturer's warranty, the charge is reported in the service and other activities classification of the B&O tax.

(ii) When a repair is made by the warrantor under a separately stated warranty, the value of the labor and or parts provided are not subject to B&O tax.

(iii) When a person other than the warrantor makes a repair for the warrantor, the person making the repair is making a retail sale of the repair service to the warrantor. The person making the repair is B&O taxable under the retailing classification.

(c) Maintenance agreements.

(i) Maintenance agreements (service contracts) require the periodic specific performance of inspecting, cleaning, physical servicing, altering, and/or improving of tangible personal property. Charges for maintenance agreements are retail sales, subject to retailing B&O tax and retail sales tax under all circumstances.

(d) Amounts received as a commission or other consideration for selling a warranty or maintenance agreement of a third-party warrantor or provider are generally subject to B&O tax under the service and other activities classification. However, if the seller of the warranty is licensed under chapter 48.17 RCW with respect to this selling activity, the commission is subject to B&O tax under the insurance agent classification.

(e) In the event a warrantor purchases an insurance policy to cover the warranty, amounts received by the warrantor under the insurance policy are insurance claim reimbursements not subject to B&O tax.

(3) **Retail sales tax.**

(a) Manufacturer's warranties included in the retail selling price of the article being sold.

(i) When a manufacturer's warranty is included in the retail selling price of the property sold and no additional or separate charge is made, the value of the warranty is a part of the selling price and retail sales tax applies to the entire selling price of the article being sold.

(ii) When a repair is made by the manufacturer-warrantor under the warranty, the repair performed is not a retail sale and no retail sales tax is collected.

(iii) When a person other than the manufacturer-warrantor makes a repair for the manufacturer-warrantor, the person making the repair is making a wholesale sale of the repair service to the manufacturer-warrantor. No retail sales tax is collected from the manufacturer-warrantor.

(b) Nonmanufacturer's warranties and manufacturer's warranties not included in the retail selling price of the article being sold.

(i) When a warranty is sold for a charge separate from the charge of the product, e.g., a warranty extending the manufacturer's warranty, the sale is not a retail sale and no retail sales tax is collected on the amount charged.

(ii) When a repair is made by the warrantor under its own separately stated warranty, the value of the labor and/or parts provided is not a retail sale and no retail sales tax is collected.

(iii) When a person other than the warrantor makes a repair for the warrantor, the person making the repair is making a retail sale of the repair service to the warrantor. Retail sales tax is collected from the warrantor measured by the labor and materials provided.

(c) Maintenance agreements are sales at retail and subject to retail sales tax under all circumstances.

(i) Parties subcontracting to the party selling the maintenance agreement are making sales at wholesale, and are required to take from their customer (maintenance seller) a resale certificate as provided in WAC 458-20-102.

(4) USE TAX.

(a) Manufacturer's warranties included in the retail selling price of the article being sold.

(i) When a manufacturer-warrantor makes repairs required under its warranty, the value of the parts used in making the repairs is not subject to use tax.

(ii) Where a third party makes repairs for a manufacturer-warrantor, the transaction is a wholesale sale and the parts used in the repair are not subject to use tax.

(b) Nonmanufacturer's warranties and manufacturer's warranties not included in the retail selling price of the article being sold.

(i) When a repair is made by the warrantor under a separately stated warranty, the warrantor is the consumer of the parts and the parts are subject to use tax measured by the warrantor's cost.

(ii) When a person other than the warrantor makes a repair for the warrantor, the person making the repair is making a retail sale to the warrantor. Retail sales tax, not use tax, is collected.

(c) Maintenance agreements.

(i) Persons performing services under the requirements of maintenance agreements sold by them, are not subject to use tax or retail sales tax on materials which become a part of the required repairs or services.

(5) **Additional service - deductible.** In the event services are provided in addition to any warranty or maintenance agreement, such services are separately taxable as retail sales, subject to retail sales tax and retailing B&O tax. This includes so-called "deductible" amounts not covered by a warranty or maintenance agreement.

(6) **Mixed agreements.** If an agreement contains warranty provisions but also requires the actual specific performance of inspection, cleaning, servicing, altering, or improving the property on a regular or irregular basis, without regard to the operating condition of the property, such agreements are fully taxable as maintenance agreements, not warranties.

(7) **Examples:**

(a) An automobile dealer sells a vehicle to a customer for selling price of $15,000 cash and the selling price includes a manufacturer's limited warranty for 5 years or 50,000 miles. The owner of the vehicle has $600 ($200 parts and $400 labor) warranty work, paying no deductible, performed by the dealer who is not the manufacturer-warrantor. The tax liability of the dealer is as follows:

(i) Retail sales tax is collected on the $15,000 selling price.

(ii) The $15,000 selling price is reported under the retailing B&O tax classification. The $600 repair is reported under the wholesaling B&O tax classification.

(iii) The $200 of parts used in the repair are not subject to use tax.

(b) The automobile dealer in example (a) also sells its own extended warranty to the customer for $200. The dealer insures itself with an insurance carrier and under the policy, claims are paid on the retail value of the repairs. In addition to the repairs in example (a), the customer has the dealer complete $500 of repairs under the dealer's extended warranty. The customer paid the $100 deductible and the dealer received $400 from his insurance carrier. In completing the repair, the dealer installed parts from its inventory which had a cost to the dealer of $150 and subcontracted part of the repair to an electrical shop which charged the dealer $200. The tax liability to the dealer and the subcontractor are as follows:

(i) The dealer reports the $200 sale of the warranty under the service and other activities classification of B&O tax. No retail sales tax is collected on the sale.

(ii) The $100 deductible received by the dealer is a retail sale subject to retail sales tax and retailing B&O tax.

(iii) The $400 received by the dealer from the insurance company is a nontaxable insurance claim reimbursement.

(iv) The dealer is the consumer of the parts removed from its inventory and used in the repair. The $150 dealer cost of the parts taken from inventory is subject to use tax.

(v) The subcontractor is making a retail sale to the dealer subject to retail sales tax and retailing B&O.

[Statutory Authority: RCW 82.32.300. 90-10-081, § 458-20-257, filed 5/2/90, effective 6/2/90.]

WAC 458-20-258 Travel agents and tour operators. (1) **Introduction**. This section describes the business and occupation (B&O) taxation of travel agents and tour operators. Travel agents are taxed at the special travel agent rate under RCW 82.04.260(10). Tour operators are generally taxed under the service or other business classification under RCW 82.04.290. However, the business activities of tour operators may sometimes include activities like those of a travel agent. This section recognizes the overlap of activities and taxes them consistently.

(2) **Definitions:**

(a) "Commission" means the fee or percentage of the charge or their equivalent, received in the ordinary course of business as compensation for arranging the service. The customer or receiver of the service, not the person receiving the commission, is always responsible for payment of the charge.

(b) "Pass-through expense" means a charge to a tour operator business where the tour operator is acting as an agent of the customer and the customer, not the tour operator, is liable for the charge. The tour operator cannot be primarily or secondarily liable for the charge other than as agent for the customer. See: WAC 458-20-111 Advances and reimbursements.

(c) "Tour operator business" means a business activity of providing directly or through third party providers, transportation, lodging, meals, and other associated services where the tour operator purchases or itself provides any or all of the services offered, and is itself liable for the services purchased.

(d) "Travel agent business" means the business activity of arranging transportation, lodging, meals, or other similar services which are purchased by the customer and where the travel agent or agency merely receives a commission for arranging the service.

(3) **Travel agents.**

(a) The gross income of a travel agent or a travel agent business is the gross commissions received without any deduction for the cost of materials used, labor costs, interest, discount, delivery cost, taxes, losses, or any other expense. It is taxed at the special travel agent rate.

(b) Gross receipts, other than commissions, from other business activities of a travel agent, including activities as a tour operator, are taxed in the appropriate B&O classification, service, retailing, etc., as the case may be.

(4) **Tour operators.**

(a) The gross income of a tour operator or a tour operator business is the gross commissions received when the activity is that of a travel agent business.

(i) When a tour operator receives commissions from a third party service provider for all or a part of the tour or tour package, the gross income of the business for that travel agent activity is the commissions received.

(b) However, if the activity is that of a tour operator business, receipts are B&O taxable in the service classification without any deduction for the cost of materials used, labor costs, interest, discount, delivery cost, taxes, losses, or any other expense; **except,** receipts attributable to pass-through expenses are not included as part of the gross income of the business.

(5) **Examples:**

(a) A travel agent issues an airplane ticket to a customer. The cost of the ticket is $250 which is paid by the customer. The travel agent receives $25 from the airline for providing the service.

(i) The gross income of the business for the travel agent is the $25 commission received.

(ii) The gross income of the business is taxed at the special travel agent rate.

(b) A tour operator offers a tour costing $1,500 per person. The tour cost consists of $800 airfare, $500 lodging and meals, and $200 bus transportation. The tour operator has an arrangement with each of the service providers to receive a 10% commission for each service of the tour, which in this case is $150 ($80 + $50 + $20). The tour operator issues tickets, etc, only when paid by the customer and is not liable for any services reserved but not provided.

(i) The tour operator is engaged in a travel agent activity and the gross income of the business is commissions received, $150.

(ii) The gross income of the business, $150, is taxed at the special travel agent rate.

(c) The same facts as in example (b) except that the tour operator has a policy of requiring 10% or $150 as a down payment with the remaining $1,350 payable 20 days prior to departure with 95% refundable up to 10 days prior to departure and nothing refunded after 10 days prior to departure. The customer cancels 15 days prior to departure and is refunded $1,425 with the tour operator retaining $75.

(i) The gross income of the tour operator business is the $75 retained. No amount is attributable to pass-through expense since the tour operator was not obligated to the service provider in the event of cancellation and the tour operator was not acting as the agent of the customer.

(ii) The gross income of the business, $75, is taxed in the service B&O tax classification.

(d) A tour operator offers a package tour for the Superbowl costing $800 per person. The tour operator purchases noncancellable rooms in a hotel for $300 per room for 2 nights, and game tickets which cost $100 each. The package includes airfare which costs $200 per person for which the tour operator receives the normal commission of $20. As an extra feature, the tour operator offers to provide, for an extra cost, special event tickets, if available, at his cost of $50 each. The tour operator is B&O taxable as follows:

(i) The gross income of the tour operator business is $600 ($800 less $200 airfare). Because the tour operator purchased the rooms and the game tickets in its own name and is liable for the rooms or tickets if not resold, the tour operator is not operating as a travel agent business and is B&O taxable in the service classification. If the tour operator receives a commission on the rooms sold to itself, the activity remains taxable as a tour operator business under the service classification and the commission received is treated as a cost discount, not included in the gross income of the business.

(ii) The $50 received for the special event ticket is attributable to a pass-through expense and is not included in the gross income of the tour operator business. The special event ticket receipt is attributable to a pass-through expense because the tour operator is acting as an agent for the customer.

(iii) The $20 received as commission from the sale of the airfare is a travel agent business activity and is included as gross income of a travel agent and taxed at the special travel agent rate.

[Statutory Authority: RCW 82.32.300. 90-17-003, § 458-20-258, filed 8/2/90, effective 9/2/90.]

WAC 458-20-260 Oil spill response and administration tax. (1) **Introduction.** This rule explains the provisions of chapter 82.23B RCW which imposes an oil spill response tax and an oil spill administration tax. The taxes are imposed upon the privilege of receiving crude oil or petroleum products at a marine terminal in this state from a waterborne vessel or barge operating on the navigable waters of this state.

(2) **Definitions.** For purposes of this rule, the following terms will apply.

(a) "Tax" means the oil spill response and oil spill administration taxes imposed by chapter 82.23B RCW.

(b) "Barrel" means a unit of measurement of volume equal to forty-two United States gallons of crude oil or petroleum product.

(c) "Crude oil" means any naturally occurring liquid hydrocarbon at atmospheric temperature and pressure coming from the earth, including condensate and natural gasoline.

(d) "Department" means the department of revenue.

(e) "Marine terminal" means a facility of any kind, other than a waterborne vessel, that is used for transferring crude oil or petroleum products to or from a waterborne vessel or barge.

(f) "Navigable waters" means those waters of the state and their adjoining shorelines, that are subject to the ebb and flow of the tide, including the Columbia and Snake rivers.

(g) "Person" has the meaning provided in RCW 82.04.030.

(h) "Petroleum product" means any liquid hydrocarbons at atmospheric temperature and pressure that are the product of the fractionation, distillation, or other refining or processing of crude oil, and that are used as, useable as, or may be refined as fuel or fuel blendstock, including but not limited to, gasoline, diesel fuel, aviation fuel, bunker fuel, and fuels containing a blend of alcohol and petroleum.

(i) "Taxpayer" means the person owning crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal in this state from a waterborne vessel or barge and who is liable for the tax.

(j) "Waterborne vessel or barge" means any ship, barge, or other watercraft capable of travelling on the navigable waters of this state and capable of transporting any crude oil or petroleum product in quantities of ten thousand gallons or more for purposes other than providing fuel for its motor or engine.

(k) "Previously taxed product" means any crude oil or petroleum product which has been received in this state in a manner subject to the tax and upon which the tax has been paid.

(3) **Imposition, base, and reporting of tax.** The tax is imposed on the privilege of receiving crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state. The tax is levied upon the owner of the crude oil or petroleum products immediately after receipt of the same into the storage tanks of a marine terminal from a waterborne vessel or barge.

(a) The tax is due for payment together with the timely filing of the return upon which it is reported, on or before the twenty-fifth day of the month following the month in which the taxable receipt occurs. In case any receipt commences on the last day of any month and extends past midnight, the receipt at the election of the marine terminal may be deemed to have occurred during the following month or may be deemed to have been completed at midnight and commenced at the instant after midnight.

(b) The number of barrels received must be computed as the net barrels received by the marine terminal operator. Net barrels must be computed by using an industry standard adjustment to gross barrels received to account for variations in temperature and content of water or other nonpetroleum substances.

(4) **Tax collection by the marine terminal operator.** Unless the taxpayer has been issued a direct payment certificate as provided in subsection (5) of this rule, the operator of any marine terminal located in this state where crude oil or petroleum products are received and placed into storage tanks is responsible for the collection of the tax from the taxpayer.

(a) Failure to collect the tax from the taxpayer and remit it to the department will cause the marine terminal operator to become personally liable for the tax, unless the marine terminal operator has billed the taxpayer for the tax or notified the taxpayer in writing of the imposition of the tax.

(i) The tax has been billed to a taxpayer when an invoice, statement of account, or notice of imposition of the tax is mailed or delivered to the taxpayer by the terminal operator within the operator's normal billing cycle and separately states the dates of receipt, rate of tax, number of barrels received and placed into storage tanks, and the amount of the tax required to be collected.

(ii) A taxpayer has been notified of the imposition of the tax when, within twenty days from the date of receipt, a notice is mailed or delivered to the taxpayer, or to an agent of the taxpayer authorized to accept notices of this type other than the marine terminal operator. This notice must separately state the dates of receipt, rate of tax, number of barrels received into storage tanks, and the amount of the tax required to be collected.

(iii) Marine terminal operators must maintain a record of the names and addresses of taxpayers billed for the tax, or in cases where taxpayers are sent written notification of the imposition of the tax, the names and addresses of the persons to whom notice is sent. Such records must indicate those persons billed or notified from whom the tax has been collected. Upon request, the records shall be made available for inspection by the department.

(b) The tax collected must be held in trust by the terminal operator until paid to the department. The tax is due from the marine terminal operator, along with reports and returns on forms prescribed by the department, within twenty-five days after the end of the month in which the tax is collected.

(c) A terminal operator who relies in good faith upon a direct payment certificate (see subsection (5) of this rule) issued to a taxpayer is relieved from any liability for the collection of the tax from the taxpayer. A marine terminal operator is likewise relieved from liability for collection of the tax from a taxpayer if the marine terminal operator relies in good faith upon a current roster of certificate holders published by the department which bears the name of a taxpayer.

(5) **Direct payment to the department.** Any taxpayer may apply to the department in writing for permission to pay the tax directly to the department. Upon approval of the department, any taxpayer making application for direct payment will be issued a direct payment certificate entitling the taxpayer to pay the tax directly to the department.

(a) In order to qualify for direct payment, the taxpayer must meet the following requirements:

(i) The taxpayer must be registered with the department.

(ii) The taxpayer must file a bond with the department in an amount equal to two months estimated liability for the tax, but in no event less than ten thousand dollars. The bond must be executed by the taxpayer as principal, and by a corporation approved by the department and authorized to engage in business as a surety company in this state, as surety. Two months estimated tax liability shall be the total number of barrels received and placed into the storage tanks of a marine terminal in this state by the taxpayer during the two months in the immediately preceding twelve-month period with the highest number of barrels received multiplied by the total tax rate. If the department determines that the result of the foregoing calculation does not represent a fair estimate of the actual tax liability which the taxpayer is expected to incur, it may set the bond requirement at such higher amount as the department determines in its judgment will secure the payment of the tax. The bond requirement may be waived upon proof satisfactory to the department that the taxpayer has sufficient assets located in this state to insure payment of the tax.

(iii) The taxpayer must be current in all of its tax obligations to the state having filed all returns as required by Title 82 RCW.

(b) The department may, from time to time, review the amount of any bond filed by a taxpayer possessing a direct payment certificate and may, upon twenty days written notice to the taxpayer, require such higher bond as the department determines to be necessary to secure the payment of the tax. The filing of a substitute bond in such higher amount is a condition to the continuation of the right to make direct payment under this section.

(c) A direct payment certificate issued under this section may be revoked by the department if the taxpayer fails to maintain a current registration, fails to file a substitute bond within twenty days from a written request, or becomes delinquent in the payment of the tax.

(d) The department maintains a current roster of all taxpayers who have a direct payment certificate. Copies of the roster are made available on a monthly basis to any interested person requesting to be placed on the roster subscription list. Requests to be placed on the subscription list should be mailed to the Department of Revenue, Taxpayer Services, attn: Public Records, P.O. Box 47478, Olympia, WA 98504-7478.

(e) Applications for a direct payment certificate shall be in writing and shall include the name and address of the applicant, the applicant's registration number if currently registered, and the name and phone number of a contact person. The application shall also contain a statement that if the application is approved, the taxpayer consents to the public disclosure that the taxpayer has been granted a direct payment certificate, or if the certificate is later revoked, the taxpayer consents to the public disclosure of the fact of revocation. Applications should be mailed to the Department of Revenue, Taxpayer Account Administration, P.O. Box 47476, Olympia, WA 98504-7476.

(6) **Exemption - previously taxed crude oil or petroleum products.** The tax applies only to the first receipt of crude oil or petroleum products at a marine terminal in this state. RCW 82.23B.030 provides an exemption for the subsequent receipt at a marine terminal in this state of previously taxed crude oil or petroleum products. This exemption applies even though the previously taxed crude oil or petroleum products are refined or processed prior to subsequent transportation and receipt.

(7) **Presumption.** Any receipt of crude oil or petroleum products at a marine terminal within this state from a waterborne vessel or barge operating on the navigable waters of this state is presumed to be subject to the tax.

(a) A person may rebut this presumption by documenting that the crude oil or petroleum products received were previously subject to the tax. The proof may be in the form of information on the invoice or a written certification from the seller at the time of shipment or exchange. The written certification must be in substantially the form below stating that all or a specific, stated portion of the crude oil or petroleum products were previously subject to the tax or, in the alternative, stating the amount of tax remitted or to be remitted to the state respective to the crude oil or petroleum products being sold.

Certification of Previous Payment of the Oil Spill Tax

I hereby certify that all or a portion of the crude oil or petroleum products specified herein were previously subject to the oil spill tax and that such tax was paid by the undersigned.

Identify product: ______________________________

Amount of product in this shipment: ______________________________

Percentage of product on which the tax has been paid: ______________________________

OR

Amount of tax remitted or to be remitted to the state on product: ______________________________

Name of recipient: ______________________________

____________________________ ______________

Authorized Signature of Seller Date

____________________________Firm Name ______________

UBI Number

(b) Example. Crude oil is received at a marine terminal in this state and the tax is remitted. The crude oil is then commingled with crude oil from a source not involving a receipt at a marine terminal such as a receipt from a pipeline or a tank car. The commingled crude oil is refined into two petroleum products such as jet kerosene and unleaded gasoline. The petroleum products are then placed on separate waterborne vessels or barges and are shipped to a second marine terminal in this state. The receipt of petroleum products at the second marine terminal is presumed to be subject to the tax. The presumption may be rebutted by proof of what portion of each product of the shipment was previously subject to tax. Proof may be made by means of information on the invoice or a written certification that substantially conforms with the requirements set forth in subsection (7)(a) of this rule.

(c) Example. Petroleum product is received at a marine terminal in this state and the tax is remitted. Substances that were not previously subject to the tax are added to the petroleum product resulting in an increase of the volume of the petroleum product. The petroleum product is then placed on a waterborne vessel or barge and received at a second marine terminal in this state. Upon receipt at the second marine terminal the tax is due on the incremental increase in volume of the petroleum product caused by the addition of the substances.

(8) **Export credit.** A credit is allowed against the tax for any crude oil or petroleum products exported from or sold for export from the state.

(a) An export credit may be taken by any person who exports or sells for export any previously taxed product. When the person taking the export credit is not the person who remitted the tax, the proof of payment of tax may be made by information on an invoice or written certification that substantially conforms to the requirements set forth in subsection (7)(a) of this rule.

(b) A person exports product when he or she actually transports the product beyond the borders of this state for purposes of sale, or delivers the product to a common carrier for delivery and subsequent sale or use at a point outside this state. Documentation of export is described in (d) of this subsection.

(c) A person sells product for export when as a necessary incident to a contract of sale the seller agrees to, and does deliver previously taxed product:

(i) To the buyer at a destination outside this state;

(ii) To a carrier consigned to and for transportation to a destination outside this state;

(iii) To the buyer alongside or aboard a vessel or other vehicle of transportation under circumstances where it is clear that the process of exportation of the product has begun; or

(iv) Into a pipeline for transportation to a destination outside this state.

In all circumstances there must be a certainty of export evidenced by some overt step taken in the export process. A sale for export will not necessarily be deemed to have occurred if the product is merely in storage awaiting shipment, even though there is reasonable certainty that the product will be exported. The intention to export, as evidenced for example, by financial and contractual relationships does not indicate certainty of export if the product has not commenced its journey outside this state. The product must actually enter the export stream. Sales of petroleum products by delivery into the fuel tank of a vessel or other vehicle in quantities greater than one hundred gallons will be considered placed into the export stream, provided the vessel or vehicle is immediately destined for a point outside this state and the seller obtains and keeps the documentary evidence provided in (d) of this subsection.

(d) A person who takes the credit for export must show that the previously taxed product was exported or sold for export. An export or a sale for export may be shown by obtaining and keeping any of the following documentary evidence:

(i) A bona fide bill of lading in which the seller is the shipper/consignor and by which the carrier agrees to transport the product to the buyer at a destination outside this state; or

(ii) A written certification in substantially the following form:

Certificate of Export

I hereby certify that the crude oil or petroleum products specified herein, purchased by or transferred to the undersigned from (seller or transferor), have been received into the export stream and are for export for sale or use outside Washington state. I will become liable for any tax credit granted (seller or transferor) pertaining to any crude oil or petroleum products which are not so exported outside Washington state. This certificate is given with full knowledge of, and subject to the legally prescribed penalties for fraud.

Registration No. . . . . . . Type of Business . . . . . .
(If applicable)
Firm Name . . . . . . Registered Name . . . .
(If different)
Authorized Signature . . . .
Title . . . .
Identity of Product . . . .
(Kind and amount by volume)
Date . . . . ; or

(iii) Documents consisting of:

(A) Purchase orders or contracts of sale which show that the seller is required to place the product into the export stream, e.g., "f.a.s. vessel"; and

(B) Local delivery receipts, tripsheets, waybills, warehouse releases, etc., reflecting how and when the product was delivered into the export stream; and

(C) When available, records showing that the products were packaged, numbered or otherwise handled in a way which is exclusively attributable to products sold for export.

(e) Only the export or sale for export of crude oil or petroleum products will qualify for the export credit. Crude oil or petroleum products will not be eligible for the export credit if, prior to export, they are subject to further processing or used as ingredients in other compounds unless the resulting products are themselves crude oil or petroleum products.

(f) Crude oil or petroleum products delivered to purchasers in other states pursuant to location exchange agreements will not qualify for the export credit unless the crude oil or petroleum products were previously subject to the tax and credit has not yet been taken. A location exchange agreement is any arrangement where crude oil or petroleum products located in this state are exchanged through an accounts crediting system, or any other method, for like substances located in other states. Any person acquiring previously taxed product in this state for which no credit has been taken may claim a credit on any such product subsequently exported or sold for export, provided all of the requirements set forth in subsections (8) and (9) of this rule have been met.

(g) Persons claiming this credit must maintain records necessary to verify that the credit taking qualifications have been met. For this purpose any person claiming a credit who maintains those records required by WAC 458-20-19301 (Multiple activities tax credit), subsection (9), will be considered to have satisfied the requirements of this subsection.

(9) **Amount of credit.** The amount of the credit will be equal to the tax previously paid on the crude oil or petroleum product exported or sold for export and for which credit has not already been taken. In no event will a credit be allowed in

excess of the tax paid on the product exported or sold for export.

(a) In the case of a person claiming credit who is not the taxpayer, the credit will be equal to that portion of the tax billed on an invoice or shown on a written certification that substantially conforms with the requirements set forth in subsection (7)(a) of this rule which relates to the particular product exported or sold for export.

In order to determine the amount of tax reflected on an invoice which relates to a particular product exported or sold for export, it may be necessary to convert the tax paid from a rate per barrel to a rate per gallon or some other unit of measurement. This conversion is computed by taking the total amount of tax paid on an invoice for a particular product and dividing that figure by the total quantity of the product expressed in terms of the unit of measurement used for export. The credit is then computed by multiplying the converted rate times the quantity of product exported or sold for export.

(b) When the product exported is previously taxed product commingled with untaxed product a person claiming the export credit may compute the amount of previously taxed product using one of the following methods:

(i) First-in, first-out method. Under this method the export credit is computed by treating existing inventory as sold before later acquired inventory.

(ii) Average of tax paid method. Under this method the export credit is determined by calculating the average rate of tax paid on all inventory. This method requires computing the tax by making adjustments in the rate of tax paid on all product on hand as it is removed from or added to storage.

(iii) Any other method approved by the department.

(c) The use of one of the methods set forth in this subsection (9) to account for tax paid on commingled crude oil or petroleum products constitutes an election to continue using the method selected. Once selected, no change in accounting method is permitted without the prior consent of the department.

(d) Examples. The following are examples of the way in which the credit is to be computed:

(i) A petroleum products distributor purchases 100 barrels each of premium unleaded gasoline and regular unleaded gasoline. The invoice from the refiner separately states that the invoice includes $5.00 of tax for each of the two types of products. The distributor pays the invoiced amount and later sells 2,000 gallons of the premium unleaded and 4,000 gallons of the regular unleaded to a retailer located outside Washington. In order to compute the amount of credit on the export sales the distributor must convert the tax paid from barrels to gallons. Since there are 42 US gallons in a barrel and 200 barrels purchased, the number of gallons equals 8400 (42 × 200). The per gallon tax paid on both products is equal to .119 cents per gallon ($10.00 ÷ 8400). The distributor would be eligible for credit equal to $2.38 for the premium unleaded (2,000 × $.00119) and $4.76 for the regular unleaded (4,000 × $.00119).

(ii) Example. A petroleum products distributor purchases 100 barrels of unleaded gasoline on which the tax has been remitted for a portion. The invoice for the unleaded separately states that the total price includes $4.00 of tax. This previously taxed product is commingled with 30 barrels of gasoline received through a pipeline, that is, product that is not subject to tax. The distributor sells 2,940 gallons of commingled product to a retailer for sale outside Washington. The tax paid on the previously taxed product is equal to .095 cents per gallon ($4.00 ÷ 4200). Since the exported product has been blended with product that has not been taxed, only 76.9% of the exported product is eligible for credit (100 ÷ 130). The credit is $2.15 (2,940 × .769 × $.00095).

(iii) Example. A petroleum distributor purchases 100 barrels of gasoline and receives from the seller an invoice that states that the tax has been paid on 90% of the shipped product. The distributor exports the 100 barrels. The petroleum distributor may claim an export credit of $4.50. (90% of 100 barrels equals 90 barrels times the tax rate of $.05 equals $4.50.)

(iv) Example. A petroleum distributor purchases 100 barrels of unleaded gasoline from refinery A and later purchases 100 barrels from refinery B. The distributor stores all of its unleaded gasoline in a single storage tank. The invoice from refinery A separately states the amount of tax on the gasoline as $5.00 and the refinery B invoice states the tax as $4.00. The distributor pays the two invoiced amounts and sells 2,100 gallons of the commingled unleaded to a retailer located outside Washington. The distributor then purchases 100 more barrels of unleaded gasoline from distributor C. Distributor C's invoice separately states the tax as $3.00. Following payment of the invoice, the distributor exports an additional 2,100 gallons of unleaded. The distributor could choose to calculate the tax using one of the methods of accounting described in (b) of this subsection.

(A) Under the first-in, first-out method the distributor would treat all 4,200 gallons sold as if it was the unleaded gasoline purchased from refinery A. Under this method, the credit would be equal to .119 cents per gallon ($5.00 ÷ 4,200) or $5.00 total ($.00119 × 4,200).

(B) Under the average of tax paid method the distributor would recompute the tax paid on average for the entire commingled amount making adjustments as gasoline is sold or gasoline is added. Prior to the addition of the purchases from refinery B or distributor C, the rate would be .119 cents per gallon ($5.00 ÷ 4,200). Following the addition of the 100 barrels from refinery B the tank contains 8,400 gallons. The rate of tax would now be .107 cents per gallon (($5.00 + $4.00) ÷ 8,400). Out of this amount 2,100 gallons is exported in the first sale. The credit for this sale would be equal to $2.25 ($.00107 × 2,100).

(10) **Credit for use of petroleum products.** Effective March 26, 1992, any person having paid the tax imposed by this chapter may claim a refund or credit for the following:

(a) The use of petroleum products as a consumer for a purpose other than as a fuel. For this purpose, the term consumer shall be defined as provided in RCW 82.04.190; or

(b) The use of petroleum products as a component or ingredient in the manufacture of an item which is not a fuel.

(c) The amount of refund or credit claimed may not exceed the amount of tax paid by the person making such claim on the petroleum products so consumed or used.

[Statutory Authority: RCW 82.23B.050 and 82.32.300. 02-16-016, § 458-20-260, filed 7/26/02, effective 8/26/02; 92-24-049, § 458-20-260, filed

11/30/92, effective 12/31/92. Statutory Authority: RCW 82.23B.050. 92-10-006, § 458-20-260, filed 4/24/92, effective 5/25/92.]

WAC 458-20-261 Commute trip reduction incentives. (1) **Introduction.** This rule explains the various commute trip reduction incentives that are available. First, RCW 82.04.355 and 82.16.047 provide exemptions from business and occupation (B&O) tax and public utility tax on amounts received from providing commuter ride sharing and ride sharing for persons with special transportation needs. RCW 82.08.0287 and 82.12.0282 provide sales and use tax exemptions for sales or use of passenger motor vehicles as ride-sharing vehicles. Finally, chapter 82.70 RCW provides commute trip reduction incentives in the form of B&O tax or public utility tax credit, effective July 1, 2003, in connection with ride sharing, public transportation, car sharing, and nonmotorized commuting.

(2) **B&O tax and public utility tax exemptions on providing commuter ride sharing or ride sharing for persons with special transportation needs.** Amounts received in the course of commuter ride sharing or ride sharing for persons with special transportation needs are exempt from the business and occupation tax and from the public utility tax. RCW 82.04.355 and 82.16.047.

(a) **What is "commuter ride sharing"?** "Commuter ride sharing" means a car pool or van pool arrangement, whereby one or more fixed groups:

(i) Not exceeding fifteen persons each, including the drivers; and

(ii) Either:

(A) Not fewer than five persons, including the drivers; or

(B) Not fewer than four persons, including the drivers, where at least two of those persons are confined to wheelchairs when riding;

Are transported in a passenger motor vehicle with a gross vehicle weight not exceeding ten thousand pounds, excluding any special rider equipment. The transportation must be between their places of residence or near such places of residence, and their places of employment or educational or other institutions. Each group must be in a single daily round trip where the drivers are also on the way to or from their places of employment or educational or other institutions.

(b) **What is "ride sharing for persons with special transportation needs"?** "Ride sharing for persons with special transportation needs" means an arrangement, whereby a group of persons with special transportation needs, and their attendants, is transported by a public social service agency or a private, nonprofit transportation provider, in a passenger motor vehicle as defined by the department of licensing to include small buses, cutaways, and modified vans not more than twenty-eight feet long. The driver need not be a person with special transportation needs.

(i) **What is a "private, nonprofit transportation provider"?** A "private, nonprofit transportation provider" is any private, nonprofit corporation providing transportation services for compensation solely to persons with special transportation needs.

(ii) **What is "persons with special transportation needs"?** "Persons with special transportation needs" are those persons, including their personal attendants, who because of physical or mental disability, income status, or age, are unable to transport themselves or to purchase appropriate transportation.

(3) **Retail sales tax and use tax exemptions on sales or use of passenger motor vehicles as ride-sharing vehicles.** RCW 82.08.0287 and 82.12.0282 provide retail sales tax and use tax exemptions for sales and use of passenger motor vehicles as ride-sharing vehicles.

(a) **What are the requirements?** The requirements are that the passenger motor vehicles must be used:

(i) For commuter ride sharing or ride sharing for persons with special transportation needs; and

(ii) As ride-sharing vehicles for thirty-six consecutive months beginning from the date of purchase (retail sales tax exemption) and the date of first use (use tax exemption). If the vehicle is used as a ride-sharing vehicle for less than thirty-six consecutive months, the registered owner must pay the retail sales tax or use tax.

(b) **Additional requirements in certain cases.** Vehicles with five or six passengers, including the driver, used for commuter ride sharing must be operated within a county, or a city or town within that county, which has a commute trip reduction plan under chapter 70.94 RCW in order to be exempt from retail sales tax or use tax. In addition, for the exemptions to apply, at least one of the following conditions must apply:

(i) The vehicle must be operated by a public transportation agency for the general public;

(ii) The vehicle must be used by a major employer, as defined in RCW 70.94.524, as an element of its commute trip reduction program for their employees; or

(iii) The vehicle must be owned and operated by individual employees and must be registered either with the employer as part of its commute trip reduction program or with a public transportation agency serving the area where the employees live or work.

Individual-employee owned and operated motor vehicles require certification that the vehicle is registered with a major employer or a public transportation agency. Major employers who own and operate motor vehicles for their employees must certify that the commute ride-sharing arrangement conforms to a car pool/van pool element contained within their commute trip reduction program.

(4) **B&O tax or public utility tax credit for ride sharing, public transportation, car sharing, or nonmotorized commuting.** Effective July 1, 2003, RCW 82.70.020 provides a credit against B&O tax or public utility tax liability for ride sharing in vehicles carrying two or more persons, for using public transportation, for using car sharing, or for using nonmotorized commuting.

(a) **Who is eligible for this credit?**

(i) Employers in Washington are eligible for this credit, for amounts paid to or on behalf of their own or other employees, as financial incentives to such employees for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting.

(ii) Property managers who manage worksites in Washington are eligible for this credit, for amounts paid to or on behalf of persons employed at those worksites, as financial incentives to such persons for ride sharing, for using public transportation, for using car sharing, or for using nonmotorized commuting.

(b) **What is "ride sharing"?** "Ride sharing" means a car pool or van pool arrangement, whereby a group of at least two but not exceeding fifteen persons, including the driver, is transported in a passenger motor vehicle with a gross vehicle weight not exceeding ten thousand pounds, excluding any special rider equipment. The transportation must be between their places of residence or near such places of residence, and their places of employment or educational or other institutions. The driver must also be on the way to or from his or her place of employment or educational or other institution. "Ride sharing" includes ride sharing on Washington state ferries.

(c) **What is "public transportation"?** "Public transportation" means the transportation of packages, passengers, and their incidental baggage, by means other than by charter bus or sight-seeing bus, together with the necessary passenger terminals and parking facilities or other properties necessary for passenger and vehicular access to and from such people moving systems. "Public transportation" includes passenger services of the Washington state ferries.

(d) **What is "car sharing"?** "Car sharing" means a membership program intended to offer an alternative to car ownership under which persons or entities that become members are permitted to use vehicles from a fleet on an hourly basis.

(e) **What is "nonmotorized commuting"?** "Nonmotorized commuting" means commuting to and from the workplace by an employee, by walking or running or by riding a bicycle or other device not powered by a motor. "Nonmotorized commuting" does not include teleworking, which is a program where work functions normally performed at a traditional workplace are instead performed by an employee at his or her home, at least one day a week for the purpose of reducing the number of trips to the employee's workplace.

(f) **What is the credit amount?** The amount of the credit is equal to the amount paid to or on behalf of each employee multiplied by fifty percent, but may not exceed sixty dollars per employee per fiscal year.

(g) **What is a "fiscal year"?** A "fiscal year" begins at July 1st of one year and ends on June 30th of the following year.

(h) **When will the credit expire?** The credit program is scheduled to expire July 1, 2013.

(i) **What are the limitations of the credit?**

(i) **For periods after June 30, 2005:**

(A) The credit may not exceed the amount of B&O tax or public utility tax that would otherwise be due for the same fiscal year.

(B) A person may not receive credit for amounts paid to or on behalf of the same employee under both B&O tax and public utility tax.

(C) A person may not take a credit for amounts claimed for credit by other persons.

(D) Total credit received by a person against both B&O tax and public utility tax may not exceed two hundred thousand dollars for a fiscal year. This limitation does not apply to credits deferred from prior fiscal years as described in (i)(i)(G) and (H) of this subsection.

(E) Total credit granted to all persons under both B&O tax and public utility tax may not exceed two million seven hundred fifty thousand dollars for a fiscal year, including any credits carried forward from prior fiscal years as described in (i)(i)(G) of this subsection.

(F) No credit or portion of a credit denied, because of exceeding the limitations in (i)(i)(D) or (E) of this subsection, may be used against tax liability for other fiscal years, subject to (i)(i)(G) and (H) of this subsection.

(G) A person, with B&O tax and public utility tax liability equal to or in excess of the credit for a fiscal year, may use all or part of the credit deferred prior to July 1, 2005, for a period of not more than three fiscal years after the fiscal year in which the credit accrued. No credit deferred under this (i)(i)(G) may be used after June 30, 2008. The person must submit an application, as provided in (j)(i)(A) of this subsection, in the fiscal year tax credit will be applied, and the credit must be approved by the department before use. This application is subject to eligibility under (i)(i)(E) of this subsection for the fiscal year tax credit will be applied. If a deferred credit is subject to proportional reduction under (j)(i)(D) of this subsection, the amount of deferred credit reduced may be carried forward as long as the period of deferral does not exceed three years after the year the credit was earned.

(H) For deferred credit approved by the department after June 30, 2005, the approved credit may be carried forward to subsequent years until used. The limitation described in (i)(i)(E) of this subsection does not apply to such deferred credit approved after June 30, 2005.

(I) No person is eligible for the tax credit, including the deferred tax credit authorized under (i)(i)(G) and (H) of this subsection, after June 30, 2013.

(J) No person is eligible for tax credit if the additional revenues for the multimodal transportation account created under RCW 46.68.035(1), 82.08.020(3), 82.12.045(7), 46.16.233(2), and 46.16.690 (created by the Engrossed Substitute House Bill No. 2231, chapter 361, Laws of 2003) are terminated.

(ii) **For periods prior to July 1, 2005:**

(A) The credit may not exceed the amount of B&O tax or public utility tax that would otherwise be due for the same fiscal year.

(B) A person may not receive credit for amounts paid to or on behalf of the same employee under both B&O tax and public utility tax.

(C) A person may not take a credit for amounts claimed for credit by other persons.

(D) Total credit received by a person against both B&O tax and public utility tax may not exceed two hundred thousand dollars for a fiscal year. This limitation does not apply to credits deferred from prior fiscal years as described in (i)(ii)(G) of this subsection.

(E) Total credit granted to all persons under both B&O tax and public utility tax may not exceed two million two hundred fifty thousand dollars for a fiscal year, including any credits carried forward from prior fiscal years as described in (i)(ii)(G) of this subsection.

(F) No credit or portion of a credit denied, because of exceeding the limitations in (i)(ii)(D) or (E) of this subsection, may be used against tax liability for other fiscal years, subject to (i)(ii)(G) of this subsection.

(G) A person, with B&O tax and public utility tax liability equal to or in excess of the credit for a fiscal year, may defer all or part of the credit for a period of not more than three fiscal years after the fiscal year in which the credit accrued. Such person deferring tax credit must submit an application in the fiscal year tax credit will be applied. This application is subject to eligibility under (i)(ii)(E) of this subsection for the fiscal year tax credit will be applied.

(H) No person is eligible for the tax credit, including the deferred tax credit authorized under (i)(ii)(G) of this subsection, after June 30, 2013.

(I) No person is eligible for tax credit if the additional revenues for the multimodal transportation account created under RCW 46.68.035(1), 82.08.020(3), 82.12.045(7), 46.16.233(2), and 46.16.690 (created by the Engrossed Substitute House Bill No. 2231, chapter 361, Laws of 2003) are terminated.

(j) **What are the credit procedures?**

(i) **For periods after June 30, 2005:**

(A) Persons applying for the credit must complete an application. The application must be received by the department between January 1 and January 31, following the calendar year in which the applicants made incentive payments. The application must be made to the department in a form and manner prescribed by the department.

(B) An application due by January 31, 2006, must not include incentive payments made from January 1, 2005, to June 30, 2005.

(C) The department must rule on an application within sixty days of the January 31 deadline. In addition, the department must disapprove an application not received by the January 31 deadline. Once the application is approved and tax credit is granted, the department is not allowed to increase the credit.

(D) If the total amount of credit applied for by all applicants in a fiscal year exceeds the limitation as provided in (i)(i)(E) of this subsection, the amount of credit allowed for all applicants is proportionally reduced so as not to exceed the limit. The amount reduced may not be carried forward and claimed in subsequent fiscal years, except as provided in (i)(i)(G) of this subsection.

(ii) **For periods prior to July 1, 2005:**

(A) Persons apply for the credit, by completing a commute trip reduction reporting schedule and filing it with the excise tax return covering the period for which the credit is claimed. The commute trip reduction reporting schedule is available upon request from the department of revenue.

(B) Credit must be claimed by the due date of the last tax return for the fiscal year in which the payment to or on behalf of employees was made.

(I) Credit not previously claimed may not be claimed for the first time on supplemental or amended tax returns filed after the due date of the last tax return for the fiscal year in which the payment to or on behalf of employees was made.

(II) If the department of revenue has granted an extension of the due date for the last tax return for the fiscal year in which the payment to or on behalf of employees was made, the credit must be claimed by the extended due date.

(C) Once the statewide limitation of two million two hundred fifty thousand dollars is reached in a fiscal year, no further credit will be available for that fiscal year. Credit is permitted by the department of revenue on a first-come-first-serve basis. Credit claimed after the statewide limitation is reached may be deferred to the next three fiscal years before the credit expires.

(k) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

(i) An employer pays one hundred eighty dollars for a yearly bus pass for one employee. For another employee, the employer buys a bicycle helmet and bicycle lock for a total of fifty dollars. These are the total expenditures during a fiscal year of amounts paid to or on behalf of employees in support of ride sharing, using public transportation, using car sharing, and using nonmotorized commuting. The employer may claim a credit of sixty dollars for the amount spent for the employee using the bus pass. Fifty percent of one hundred eighty dollars is ninety dollars, but the credit is limited to sixty dollars per employee. The employer may claim a credit of twenty-five dollars (fifty percent of fifty dollars) for the amount spent for the employee who bicycles to work. Even though fifty percent of two hundred thirty dollars, the amount spent on both employees, works out to be less than sixty dollars per employee, the credit is computed by looking at actual spending for each employee and not by averaging the spending for both employees.

(ii) An employer provides parking spaces for the exclusive use of ride-sharing vehicles. Amounts spent for signs, painting, or other costs related to the parking spaces do not qualify for the credit. This is because the credit is for financial incentives paid to or on behalf of employees. While the parking spaces support the use of ride-sharing vehicles, they are not financial incentives and do not involve amounts paid to or on behalf of employees.

(iii) As part of its commute trip reduction program, an employer pays the cab fare for an employee who has an emergency and must leave the workplace but has no vehicle available because he or she commutes by ride-sharing vehicle. The cab fare qualifies for the credit, if it does not cause the sixty-dollar limitation to be exceeded, because it is an amount paid on behalf of a specific employee.

(iv) An employer pays the property manager for a yearly bus pass for one employee who works at the worksite managed by the property manager. The property manager in turn pays the amount received from the employer to a public transportation agency to purchase the bus pass. Either the employer or the property manager, but not both, may take the credit for this expenditure.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 06-01-026, § 458-20-261, filed 12/13/05, effective 1/13/06. Statutory Authority: RCW 82.32.-300, 82.04.4453 and 82.16.048. 00-11-097, § 458-20-261, filed 5/17/00, effective 6/17/00; 99-08-035, § 458-20-261, filed 3/31/99, effective 5/1/99.]

WAC 458-20-262 Retail sales and use tax exemptions for agricultural employee housing. (1) **Introduction.** RCW 82.08.02745 and 82.12.02685 provide a retail sales and use tax exemption for agricultural employee housing. This section also explains the exemptions, who is entitled to the exemption and how to obtain an exemption certificate.

(2) **Definitions.** The following definitions apply throughout this section.

(a) "Agricultural employee" means any person who renders personal services to, or under the direction of, an agricultural employer in connection with the employer's agricultural activity (RCW 19.30.010).

(b) "Agricultural employer" means any person engaged in agricultural activity, including the growing, producing, or harvesting of farm or nursery products, or engaged in the forestation or reforestation of lands, which includes but is not limited to the planting, transplanting, tubing, precommercial thinning, and thinning of trees and seedlings, the clearing, piling and disposal of brush and slash, the harvest of Christmas trees, and other related activities (RCW 19.30.010).

(c) "Agricultural employee housing" means all facilities provided by an agricultural employer, housing authority, local government, state or federal agency, nonprofit community or neighborhood-based organization that is exempt from income tax under section 501(c) of the Internal Revenue Code of 1986 (26 U.S.C. sec. 501(c)), or for-profit provider of housing for housing agricultural employees on a year-round or seasonal basis, including bathing, food handling, hand washing, laundry, and toilet facilities, single-family and multifamily dwelling units and dormitories, and includes labor camps. The term also includes but is not limited to mobile homes, travel trailers, mobile bunkhouses, modular homes, fabricated components of a house, and tents. Agricultural employee housing does not include housing regularly provided on a commercial basis to the general public. Agricultural employee housing does not include housing provided by a housing authority unless at least eighty percent of the occupants are agricultural employees whose adjusted income is less than fifty percent of median family income, adjusted for household size, for the county where the housing is provided.

(d) "Person" means any individual, receiver, administrator, executor, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, municipal corporation, political subdivision of the state of Washington, corporation, limited liability company, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise and the United States or any instrumentality thereof (RCW 82.04.030).

(e) "Agricultural land" has the same meaning as "agricultural and farm land" in RCW 84.34.020(2).

(3) **Retail sales and use tax exemptions for agricultural employee housing.** RCW 82.08.02745 and 82.12.02685, respectively, provide retail sales tax and use tax exemptions for the purchase, construction, and use of agricultural employee housing. Both exemptions require that agricultural employee housing provided to year-round employees of the agricultural employer must be built to the current building code for single-family or multifamily dwellings according to the state building code, chapter 19.27 RCW. Neither of these exemptions apply to housing built for the occupancy of an employer, family members of an employer, or persons owning stock or shares in a farm partnership or corporation business.

(a) The retail sales tax does not apply to charges for labor and services rendered by any person in respect to the constructing, repairing, decorating, or improving of new or existing buildings or other structures used as agricultural employee housing. Also exempt are sales of tangible personal property that becomes an ingredient or component of the buildings or other structures, including but not limited to septic tanks, pump houses, cisterns, and driveways. Examples of ingredients or components include but are not limited to cement, lumber, nails, paint and wallpaper.

(i) Appliances and furniture, including but not limited to stoves, refrigerators, bed frames, lamps and television sets, bolted or strapped directly to the building or structure are considered components of the building or structure. Additionally, appliances and furniture bolted or strapped to another item that is bolted or strapped directly to the building or structure (e.g., a television set bolted to a refrigerator that is strapped to the structure) are considered components of the building or structure.

(ii) Items that are not bolted or strapped directly to the building or structure, or to another item similarly bolted or strapped, do not qualify for this exemption. These items include but are not limited to kitchen utensils, mattresses, bedding, portable heating units, and throw rugs. Stoves, refrigerators, bed frames, lamps and television sets that are not bolted or strapped as discussed in (a)(i) of this subsection, also do not qualify as components of the building or structure.

(iii) Purchases of labor and transportation charges necessary to move and set up mobile homes, mobile bunkhouses, and other property and component parts as agricultural employee housing are exempt of retail sales tax.

(iv) As a condition for exemption, the seller must take from the buyer an exemption certificate completed by the buyer to document the exempt nature of the sale. This requirement may be satisfied by using the department of revenue's "Farmers' Retail Sales Tax Exemption Certificate" which can be obtained through the following means:

(A) From the department's internet site at http://dor.wa.gov;

(B) By calling taxpayer services at 1-800-647-7706; or

(C) By writing to:

Taxpayer Services
Washington State Department of Revenue
P.O. Box 47478
Olympia, WA 98504-7478

The seller may accept a legible fax or duplicate copy of an original exemption certificate. In all cases, the exemption certificate must be retained by the seller for a period of at least five years. An exemption certificate may be provided for a single purchase or for multiple purchases over a period of time. If the certificate is provided for multiple purchases over a period of time, the certificate is valid for as long as the buyer and seller have a recurring business relationship. A "recurring business relationship" means at least one sale transaction within a period of twelve consecutive months. RCW 82.08.050 (7)(c). Failure to comply with the provisions in this section may result in a denial of the exemption and the agricultural employer may be subject to use tax plus penalties and interest.

(b) The use tax exemption is available for the use of tangible personal property that becomes an ingredient or component of buildings or other structures used as agricultural employee housing during the course of constructing, repairing, decorating, or improving the buildings or other structures by any person. Again, appliances and furniture that are bolted or strapped to the actual building or structure are considered components of the building or structure.

(i) The exemption for materials incorporated into buildings or other structures used as agricultural employee housing also applies to persons/consumers constructing these buildings or structures for the federal government or county housing authorities. (See also WAC 458-20-17001 on government contracting.)

(ii) An agricultural employer claiming the exemption who retitles a used mobile home or titles a new mobile home acquired from an out-of-state seller must provide a completed exemption certificate to the department of licensing or its agent to substantiate the exempt nature of the home.

(4) **Requirement to remit payment of tax if agricultural housing fails to continue to satisfy the conditions of exemption.** The agricultural employee housing must be used for at least five consecutive years from the date the housing is approved for occupancy to retain the retail sales and use tax exemption. If this condition is not satisfied, the full amount of tax otherwise due shall be immediately due and payable together with interest, but not penalties, from the date the housing is approved for occupancy until the date of payment.

If at any time agricultural employee housing that is not located on agricultural land ceases to be used as agricultural employee housing, the full amount of tax otherwise due shall be immediately due and payable with interest, but not penalties, from the date the housing ceased to be used as agricultural employee housing.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), 82.08.02745 and 82.12.02685. 08-14-017, § 458-20-262, filed 6/20/08, effective 7/21/08. Statutory Authority: RCW 82.32.300 and 82.08.02745. 98-24-069, § 458-20-262, filed 11/30/98, effective 12/31/98.]

WAC 458-20-263 Fuel cell, wind, landfill gas, and solar energy electric generating facilities sales and use tax exemption. (1) **Introduction.** This rule explains the retail sales and use tax exemptions provided by RCW 82.08.02567 and 82.12.02567 for the sale and/or use of machinery and equipment used directly in generating electricity using fuel cells, wind, landfill gas, or solar energy as the principal source of power. These exemptions expire June 30, 2009.

(2) **Retail sales and use tax exemptions.** The following exemptions apply for retail sales and use taxes.

(a) For periods before July 1, 2001, the retail sales tax does not apply to the purchase or lease of machinery and equipment used directly in generating electricity using wind, landfill gas, or solar energy as the principal power source, but only if the purchaser develops with such machinery and equipment a facility capable of generating at least two hundred kilowatts of electricity.

For this period, RCW 82.12.02567 provided a corresponding use tax exemption for the use of machinery and equipment for these purposes.

(b) Effective July 1, 2001, the retail sales tax does not apply to the purchase or lease of machinery and equipment used directly in generating electricity using fuel cells, wind, landfill gas, or solar energy as the principal power source, but only if the purchaser develops with such machinery and equipment a facility capable of generating at least two hundred watts of electricity. See RCW 82.08.02567.

For this period, RCW 82.12.02567 provides a corresponding use tax exemption for the use of machinery and equipment for these purposes, except that no use tax exemption existed with regard to fuel cells until June 10, 2004. Between July 1, 2001, and June 10, 2004, although the purchase of machinery and equipment used directly in generating electricity using fuel cells is exempt from sales tax, the purchaser owes use tax upon the first use in this state of the machinery and equipment.

(3) **What is "machinery and equipment"?** "Machinery and equipment" means industrial fixtures, devices, and support facilities that are integral and necessary to the generation of electricity using fuel cells, wind, landfill gas, or solar energy as the principal source of power.

A "support facility" is a part of a building, or a structure or improvement, used to contain or steady an industrial fixture or device. A support facility must be specially designed and necessary for the proper functioning of the industrial fixture or device and must perform a function beyond being a building or a structure or an improvement. It must have a function relative to an industrial fixture or a device. To determine if some portion of a building is a support facility, the parts of the building are examined. For example, a highly specialized structure, like a vibration reduction slab under generators in a landfill gas generating facility, is a support facility. Without the slab, the generators would not function properly. The ceiling and walls of the building housing the generator are not support facilities if they only serve to define the space and do not have a function relative to an industrial fixture or a device.

"Machinery and equipment" does not include:

(a) The utility grid system;

(b) Hand-powered tools;

(c) Property with a useful life of less than one year;

(d) Repair parts required to restore machinery and equipment to normal working order;

(e) Replacement parts that do not increase productivity, improve efficiency, or extend the useful life of the machinery and equipment;

(f) Buildings; or

(g) Building fixtures that:

(i) Are permanently affixed to and become a physical part of a building; but

(ii) Are not integral and necessary to the generation of electricity.

(4) **When is machinery and equipment "used directly" in generating electricity?** Machinery and equipment is used directly to generate electricity when it is used to:

(a) Capture the energy of fuel cells, the wind, landfill gas, or solar energy;

(b) Convert that energy to electricity; or

(c) Store, transform, or transmit that electricity for entry into or operation in parallel with electric transmission and distribution systems.

(5) **Examples of qualifying machinery and equipment.** This subsection provides examples of machinery and equipment that is used directly in generating electricity and qualifies for the retail sales tax exemption provided by RCW

82.08.02567 and the use tax exemption provided by RCW 82.12.02567. This list is illustrative only and is not intended to provide an exhaustive list of possible qualifying machinery and equipment.

(a) Where solar energy is the principal source of power: Solar modules; power conditioning equipment; batteries; transformers; power poles; power lines; and connectors to the utility grid system or point of use.

(b) Where wind is the principal source of power: Turbines; blades; generators; towers and tower pads; substations; guy wires and ground stays; power conditioning equipment; anemometers; recording meters; transmitters; power poles; power lines; and connectors to the utility grid system or point of use.

(c) Where landfill gas is the principal source of power: Turbines; blades; blowers; burners; heat exchangers; generators; towers and tower pads; substations; guy wires and ground stays; pipe; valves; power conditioning equipment; pressure control equipment; recording meters; transmitters; power poles; power lines; and connectors to the utility grid system or point of use.

(d) Where fuel cells are the principal source of power: Fuel cell assemblies; fuel storage and delivery systems; power inverters; transmitters; transformers; power poles; power lines; and connectors to the utility grid system or point of use.

(6) **Installation charges.** Retail sales and use taxes do not apply to installation charges for qualifying machinery and equipment. This includes charges for labor and services rendered to install the machinery and equipment. However, there is no exemption for charges for labor and services rendered in respect to constructing buildings or access roads that may be necessary to install or use qualifying machinery and equipment. Nor is there an exemption for tangible personal property, such as a crane or forklift, used by the buyer to install qualifying machinery and equipment.

(7) **Required documentation.** The prior approval of the department of revenue is not required to claim the retail sales tax exemption. The seller, at the time of sale, must retain in its records an exemption certificate completed by the buyer to document the exempt nature of the sale. This requirement may be satisfied by using the department's "buyer's retail sales tax exemption certificate," or another certificate with substantially the same information as it relates to the exemption provided by RCW 82.08.02567.

A blank exemption certificate can be obtained through the following means:

(a) From the department's internet web site at http://dor.wa.gov;

(b) By facsimile by calling Fast Fax at 360-705-6705 or 800-647-7706 (using menu options); or

(c) By writing to: Taxpayer Services, Washington State Department of Revenue, P.O. Box 47478, Olympia, Washington 98504-7478.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 05-02-036, § 458-20-263, filed 12/30/04, effective 1/30/05. Statutory Authority: RCW 82.32.300. 99-11-106, § 458-20-263, filed 5/19/99, effective 6/19/99. Statutory Authority: RCW 82.32.300 and 82.08.02567. 97-03-027, § 458-20-263, filed 1/8/97, effective 2/8/97.]

WAC 458-20-264 National Uniform Tobacco Settlement. (1) **Introduction.** In 1998 the state of Washington entered into an agreement with cigarette manufacturers called the Master Settlement Agreement. Subsequent to entering into that agreement, the Legislature enacted chapter 393, Laws of 1999, codified as chapter 70.157 RCW. The statute requires the department of revenue (department) to promulgate regulations to ascertain the amount of excise tax paid by certain tobacco product manufacturers on "cigarettes" as that term is defined in RCW 70.157.010 and as set forth below. The department will do that by determining the number of cigarettes sold in Washington that were manufactured by nonparticipating tobacco product manufacturers. This rule explains the information to be reported to the department by retailers of tobacco products purchased from a person who is not required to file in Washington the report required by this rule, tobacco products distributors, and cigarette wholesalers. These reporting requirements are in addition to any other tax-reporting requirements.

(2) **Definitions.** For the purposes of WAC 458-20-264 the following definitions apply unless the context requires otherwise.

(a) "Affiliate" means a person who directly or indirectly owns or controls, is owned or controlled by, or is under common ownership or control with, another person. Solely for purposes of this definition, the terms "owns," "is owned" and "ownership" mean ownership of an equity interest, or the equivalent thereof, of ten percent or more, and the term "person" means an individual, partnership, committee, association, corporation or any other organization or group of persons.

(b) "Cigarette" means any product that contains nicotine, is intended to be burned or heated under ordinary conditions of use, and consists of or contains:

(i) Any roll of tobacco wrapped in paper or in any substance not containing tobacco; or

(ii) Tobacco, in any form, that is functional in the product, which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette; or

(iii) Any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the filler, or its packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette described in clause (i) of this definition.

The term "cigarette" includes "roll-your-own" tobacco (i.e., any tobacco which, because of its appearance, type, packaging, or labeling is suitable for use and likely to be offered to, or purchased by, consumers as tobacco for making cigarettes). For purposes of this definition of "cigarette," 0.09 ounces of "roll-your-own" tobacco shall constitute one individual "cigarette."

(c) "Cigarette wholesaler" means any person who is licensed pursuant to chapter 82.24 RCW.

(d) "Master Settlement Agreement" means the settlement agreement (and related documents) entered into on November 23, 1998, by the state and leading United States tobacco product manufacturers.

(e) "Nonparticipating manufacturer" means any manufacturer of cigarettes or "roll-your-own" tobacco who is not a signatory to the Master Settlement Agreement. A manufacturer ceases to be a nonparticipating manufacturer upon entering into the Master Settlement Agreement.

(f) "Tobacco products distributor" means any person who meets the definitions found in RCW 82.26.010(3).

(g) "Tobacco product manufacturer" means an entity that after May 18, 1999, directly (and not exclusively through any affiliate):

(i) Manufactures cigarettes anywhere that such manufacturer intends to be sold in the United States, including cigarettes intended to be sold in the United States through an importer (except where such importer is an original participating manufacturer (as that term is defined in the Master Settlement Agreement) that will be responsible for the payments under the Master Settlement Agreement with respect to such cigarettes as a result of the provisions of subsections II(mm) of the Master Settlement Agreement and that pays the taxes specified in subsection II(z) of the Master Settlement Agreement, and provided that the manufacturer of such cigarettes does not market or advertise such cigarettes in the United States);

(ii) Is the first purchaser anywhere for resale in the United States of cigarettes manufactured anywhere that the manufacturer does not intend to be sold in the United States; or

(iii) Becomes a successor of an entity described in paragraph (i) or (ii) of this definition.

The term "tobacco product manufacturer" does not include an affiliate of a tobacco product manufacturer unless such affiliate itself falls within any of (i) through (iii) above.

(h) "Units sold" means the number of individual cigarettes sold and each 0.09 ounces of "roll-your-own" tobacco sold in the state by the applicable tobacco product manufacturer (whether directly or through a distributor, retailer or similar intermediary or intermediaries) during the year in question, as measured by excise taxes collected by the state on packs bearing the excise tax stamp of the state or "roll-your-own" tobacco containers.

(3) **Report required.** Every person who sells at retail tobacco products purchased from a person who is not required to file in Washington the report required by this subsection, every tobacco products distributor, and every cigarette wholesaler must file a report in a form and manner requested by the department. The report must be filed within the twenty-five days after the end of the month in which the sales were made. Mail the report to Department of Revenue, Special Programs Division, P.O. Box 47477, Olympia, WA 98504-7477.

The report must include the information listed below with respect to units sold that were manufactured by a non-participating tobacco product manufacturer.

(a) The number of units sold;

(b) The brand of the unit;

(c) The name and address of the person from whom each unit was purchased;

(d) The name and address of the manufacturer of the unit, if known; and

(e) The name and address of the importer of the unit, if known, and whether that importer is the exclusive importer of the unit, if known.

Example: A retailer may need to file the report required in subsection (3) when purchasing roll-your-own tobacco over the internet or through a catalog from a vendor located outside of Washington, from an enrolled member of an Indian tribe located on a reservation in Washington, or in person from a vendor located in another state.

(4) **Recordkeeping requirement.** Every person who sells at retail tobacco products purchased from a person who is not required to file in Washington the report required by the rule, every tobacco products distributor, and every cigarette wholesaler, must maintain complete and accurate records to support the data supplied pursuant to paragraph (3) of this section.

(5) **Confidentiality.** The data filed pursuant to this rule is confidential taxpayer information and subject to the protection provided in RCW 82.32.330.

[Statutory Authority: RCW 70.157.010 and 82.32.300. 00-23-117, § 458-20-264, filed 11/22/00, effective 12/23/00.]

WAC 458-20-267 Annual reports for certain tax adjustments. (1) **Introduction.** In order to take certain tax exemptions, credits, and rates ("tax adjustments"), taxpayers must file an annual report with the department of revenue (the "department") detailing employment, wages, and employer-provided health and retirement benefits per job at the manufacturing site. This section explains the reporting requirements for tax adjustments provided to the aerospace manufacturing, aluminum manufacturing, electrolytic processing, and solar electric manufacturing industries. This section explains who is required to file annual reports, how to file reports, and what information must be included in the reports.

This section contains a number of examples. These examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The results of other situations must be determined after a review of all of the facts and circumstances.

(2) **Who is required to file the report?** A recipient of the benefit of the following tax adjustments must complete and file an annual report with the department:

(a) **Tax adjustments for the aerospace manufacturing industry:**

(i) The B&O tax rate provided by RCW 82.04.260(11) for manufacturers and processors for hire of commercial airplanes and component parts;

(ii) The B&O tax credit provided by RCW 82.04.4461 for qualified preproduction development expenditures for manufacturers and processors for hire of commercial airplanes and component parts;

(iii) The retail sales and use tax exemption provided by RCW 82.08.980 and 82.12.980 for constructing new buildings used for manufacturing superefficient airplanes;

(iv) The leasehold excise tax exemption provided by RCW 82.29A.137 for facilities used for manufacturing superefficient airplanes;

(v) The property tax exemption provided by RCW 84.36.655 for property used for manufacturing superefficient airplanes; and

(vi) The B&O tax credit for property taxes and leasehold excise taxes provided by RCW 82.04.4463 for manufacturers and processors for hire of commercial airplanes and component parts.

(b) **Tax adjustments for the aluminum smelter industry:**

(i) The B&O tax rate provided by RCW 82.04.2909 for aluminum smelters;

(ii) The B&O tax credit for property taxes provided by RCW 82.04.4481 for aluminum smelter property;

(iii) The retail sales and use tax exemption provided by RCW 82.08.805 and 82.12.805 for property used at aluminum smelters; and

(iv) The use tax exemption provided by RCW 82.12.022 (5) for the use of natural gas;

(c) **Tax adjustment for the electrolytic processing industry.** The public utility tax exemption provided by RCW 82.16.0421 for sales of electricity to electrolytic processing businesses.

(d) **Tax adjustment for the solar electric manufacturing industry.** The B&O tax rate for manufacturers of solar energy systems using photovoltaic modules, or silicon components of such systems provided by RCW 82.04.294.

(3) **How to file annual reports.**

(a) **Forms and formats.** A person must use forms or the on-line filing format developed by the department to complete the annual report unless a person obtains prior approval from the department to file the annual report in an alternative format. The department has developed a form that taxpayers may use to complete the report. Report forms may be obtained by downloading from the department's web site (www.dor.wa.gov). A report form may also be obtained at department district offices, by telephoning the telephone information center (800-647-7706), or by contacting the department's special programs division at:

Department of Revenue
Special Programs Division
Post Office Box 47477
Olympia, WA 98504-7477
Fax: 360-586-2163

(b) **First report.** The first report filed under this subsection must also include employment, wage, and benefit information for the twelve-month period immediately before first use of a tax adjustment. In order to meet this requirement, a person must complete a report for the calendar year immediately preceding the first use of a tax adjustment.

(c) **Due date.** The report must be filed by March 31st following any calendar year in which any tax adjustment is taken against taxes due.

(d) **Examples.**

(i) An aerospace firm begins taking the B&O tax rate provided by RCW 82.04.260(11) for manufacturers and processors for hire of commercial airplanes and component parts on October 1, 2005. By March 31, 2006, the aerospace firm must provide two annual reports, one covering calendar year 2004 and another covering calendar year 2005. If the aerospace firm continues to take the B&O tax rate provided by RCW 82.04.260(11) during calendar year 2006, a single annual report is due on March 31, 2007, covering calendar year 2006.

(ii) An aluminum smelter begins taking the B&O tax rate provided by RCW 82.04.2909 for aluminum smelters on July 1, 2004. By March 31, 2005, the aluminum smelter must provide two annual reports, one covering calendar year 2003 and another covering calendar year 2004. If the aluminum smelter continues to take the B&O tax rate provided by RCW 82.04.2909 during calendar year 2005, a single annual report is due on March 31, 2006, covering calendar year 2005.

(4) **What manufacturing site(s) are included in the annual report?**

(a) There must be a separate annual report filed for each manufacturing site at which activities are conducted that qualifies for a tax adjustment.

(b) **What is a "manufacturing site"?** For purposes of the annual report, a "manufacturing site" is one or more immediately adjacent parcels of real property located in Washington state on which manufacturing occurs that support activities qualifying for a tax adjustment. Adjacent parcels of real property separated only by a public road comprise a single site. A manufacturing site may include real property that supports nonqualifying activities such as administration offices, test facilities, warehouses, design facilities, and shipping and receiving facilities.

(i) **Which manufacturing site is included in the annual report for the aerospace manufacturing industry tax adjustments?** The location(s) where a person is manufacturing commercial airplanes or components of such airplanes within this state is the manufacturing site(s) included in the annual report. A "commercial airplane" has its ordinary meaning, which is an airplane certified by the Federal Aviation Administration ("FAA") for transporting persons or property, and any military derivative of such an airplane. A "component" means a part or system certified by the FAA for installation or assembly into a commercial airplane.

(ii) **Which manufacturing site is included in the annual report for the aluminum industry tax adjustments?** The location(s) where a person who is an aluminum smelter engaging in the business of manufacturing aluminum within this state is the manufacturing site(s) included in the annual report. An "aluminum smelter" means the manufacturing facility of any direct service industrial customer that processes alumina into aluminum. A "direct service industrial customer" means a person who is an industrial customer that contracts for the purchase of power from the Bonneville Power Administration for direct consumption as of May 8, 2001. "Direct service industrial customer" includes a person who is a subsidiary that is more than 50% owned by a direct service industrial customer and who receives power from the Bonneville Power Administration pursuant to the parent's contract for power.

(iii) **Which manufacturing site is included in the annual report for the electrolytic processing industry tax adjustments?** The location(s) where a person is engaged in a chlor-alkali electrolytic processing business or a sodium chlorate electrolytic processing business for the electrolytic process within this state is the manufacturing site(s) included in the annual report. A "chlor-alkali electrolytic processing business" means a person who is engaged in a business that uses more than ten average megawatts of electricity per month in a chlor-alkali electrolytic process to split the electrochemical bonds of sodium chloride and water to make chlorine and sodium hydroxide. A "sodium chlorate electrolytic processing business" means a person who is engaged in a business that uses more than ten average megawatts of electricity per month in a sodium chlorate electrolytic process to split the electrochemical bonds of sodium chloride and water to make sodium chlorate and hydrogen. A "chlor-alkali electrolytic processing business" and "sodium chlorate electrolytic processing business" do not include direct service industrial customers or their subsidiaries that contract for the purchase of power from the Bonneville Power Administration as of June 10, 2004.

(iv) **Which manufacturing site is included in the annual report for the solar electric manufacturing industry tax adjustments?** The location(s) where a person who is manufacturing solar energy systems using photovoltaic modules, or silicon components of such systems, within this state is the manufacturing site(s) included in the annual report. A "solar energy system" means any device or combination of devices or elements that rely upon direct sunlight as an energy source for use in the generation of electricity. A "photovoltaic cell" means a device that converts light directly into electricity without moving parts. A "module" means the smallest nondivisible self-contained physical structure housing interconnected photovoltaic cells and providing a single direct current electrical output. A "silicon component" is an ingredient or component part comprised of fifty percent or more solar grade silicon that is used in a solar energy system using photovoltaic modules.

(c) **Are there alternative methods for reporting separately for each manufacturing site?** For purposes of completing the annual report, the department may agree to allow a person whose manufacturing sites are within close geographic proximity to consolidate its manufacturing sites onto a single annual report provided that the jobs located at the manufacturing sites have equivalent employment positions, wages, and employer-provided health and retirement benefits. A person may request written approval to consolidate manufacturing sites by contacting the department's special programs division at:

Department of Revenue
Special Programs Division
Post Office Box 47477
Olympia, WA 98504-7477
Fax: 360-586-2163

(d) **Examples.**

(i) ABC Airplanes, a company manufacturing FAA certified airplane landing gear, conducts activities at three locations in Washington state. ABC Airplanes is reporting tax under the B&O tax rate provided by RCW 82.04.260(11) for manufacturers and processors for hire of commercial airplanes and component parts. In Seattle, WA, ABC Airplanes maintains its corporate headquarters and administrative offices. In Spokane, WA, ABC Airplanes manufactures the brake systems for the landing gear. In Vancouver, WA, ABC Airplanes assembles the landing gear using the components manufactured in Spokane, WA. ABC Airplanes must file separate annual reports for employment positions at its manufacturing sites in Spokane and Vancouver because these are the Washington state locations in which manufacturing occurs that supports activities qualifying for a tax adjustment.

(ii) Acme Engines, a company manufacturing engine parts, conducts manufacturing in five locations in Washington state. Acme Engines is reporting tax under the B&O tax rate provided by RCW 82.04.260(11) for manufacturers and processors for hire of commercial airplanes and component parts. It manufactures FAA certified engine parts at its Puyallup, WA location. Acme Engines' four other locations manufacture non-FAA certified engine parts. Acme Engines must file an annual report for employment positions at its manufacturing site in Puyallup because it is the only location in Washington state in which manufacturing occurs that supports activities qualifying for a tax adjustment.

(iii) Tacoma Rivets, located in Tacoma, WA, manufactures rivets used in manufacturing airplanes. Half of the rivets Tacoma Rivets manufactures are FAA certified to be used on commercial airplanes. The remaining rivets Tacoma Rivets manufactures are not FAA certified and are used on military airplanes. Tacoma Rivets is reporting tax on its sales of FAA certified rivets under the B&O tax rate provided by RCW 82.04.260(11) for manufacturers and processors for hire of commercial airplanes and component parts. Tacoma Rivets must file an annual report for employment positions at its manufacturing site in Tacoma because it is the location in Washington state in which manufacturing occurs that supports activities qualifying for a tax adjustment.

(iv) Dynamic Aerospace Composites is a company that only manufactures FAA certified airplane fuselage materials. Dynamic Aerospace Composites conducts activities at three separate locations within Kent, WA. Dynamic Aerospace Composites is reporting tax under the B&O tax rate provided by RCW 82.04.260(11) for manufacturers and processors for hire of commercial airplanes and component parts. Dynamic Aerospace Composites must file separate annual reports for each of its three manufacturing sites. Dynamic Aerospace Composites can make a request to the department to consolidate its employment positions into a single annual report if the jobs located at the three manufacturing sites have equivalent employment, wages, and employer-provided health and retirement benefits.

(v) Worldwide Aerospace, an aerospace company, manufactures wing systems for commercial airplanes in twenty locations around the world, but none located in Washington state. Worldwide Aerospace manufactures wing surfaces in San Diego, CA. Worldwide Aerospace sells the wing systems to an airplane manufacturer located in Moses Lake, WA and is reporting tax on these sales under the B&O tax rate provided by RCW 82.04.260(11) for sales, at retail or wholesale, of commercial airplanes, or components of such airplanes, manufactured by that person. Because Worldwide Aerospace has no manufacturing sites in Washington state, it is not required to complete the annual report.

(5) **What jobs are included in the annual report?**

(a) The annual report covers all full-time, part-time, and temporary jobs at the manufacturing site as of December 31st of the calendar year for which an applicable tax adjustment is claimed. Jobs that support nonqualifying activities or support both nonqualifying and qualifying activities for a tax adjustment are included in the report if the job is located at the manufacturing site.

(b) **Examples.**

(i) XYZ Aluminum, an aluminum smelter company, manufactures aluminum in Tacoma, WA. The company is reporting tax under the B&O tax rate provided by RCW 82.04.2909 for aluminum smelters. Its management and human resources divisions are located in an administrative office across the street from its Tacoma, WA aluminum smelter. XYZ Aluminum's annual report for its Tacoma, WA location will include the employment positions in its administrative offices because those jobs are located at the Tacoma, WA manufacturing site.

(ii) AAA Tire Company manufactures tires at one manufacturing site located in Centralia, WA. The company is reporting tax under the B&O tax rate provided by RCW 82.04.260(11) for manufacturers and processors for hire of commercial airplanes and component parts. FAA certified tires comprise only 20% of the products it manufactures and are manufactured in a separate building at the manufacturing site. AAA Tire Company must report all jobs at the manufacturing site, including the jobs engaged in the nonqualifying activities of manufacturing non-FAA certified tires.

(6) **How is employment detailed in the annual report?** The annual report is organized by employee occupational groups, consistent with the United States Department of Labor's Standard Occupation Codes (SOC) System. The SOC System is a universal occupational classification system used by government agencies and private industries to produce comparable occupational data. The SOC classifies occupations at four levels of aggregation:

(a) Major group;

(b) Minor group;

(c) Broad occupation; and

(d) Detailed occupation.

All occupations are clustered into one of twenty-three major groups. The annual report uses the SOC major groups to detail the levels of employment, wages, and employer-provided health and retirement benefits at the manufacturing site. A detailed description of the SOC System is available by contacting the department's special programs division or by consulting the United States Department of Labor, Bureau of Labor Statistics online at www.bls.gov/soc. The annual report does not require names of employees.

(7) **What is total employment at the manufacturing site?** The annual report must state the total number of employees for each SOC major group that are currently employed on December 31st of the calendar year for which an applicable tax adjustment is taken. Total employment includes employees who are on authorized leaves of absences such as sick leave, vacation, disability leave, jury duty, military leave, regardless of whether those employees are receiving wages. Leaves of absences do not include separations of employment such as layoffs or reductions in force. Vacant positions are not included in total employment.

(8) **What are full-time, part-time and temporary employment positions?** An employer must provide information on the number of employees, as a percentage of total employment in the SOC major group, that are employed in full-time, part-time or temporary employment positions on December 31st of the calendar year for which an applicable tax adjustment is claimed. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(a) **Full-time and part-time employment positions.** In order for a position to be treated as full time or part time, the employer must intend for the position to be filled for at least fifty-two consecutive weeks or twelve consecutive months. A full-time position is a position that satisfies any one of the following minimum thresholds:

(i) Works thirty-five hours per week for fifty-two consecutive weeks;

(ii) Works four hundred fifty-five hours, excluding overtime, each quarter for four consecutive quarters; or

(iii) Works one thousand eight hundred twenty hours, excluding overtime, during a period of twelve consecutive months.

A part-time position is a position in which the employee works less than the hours required for a full-time position. In some instances, an employee may not be required to work the hours required for full-time employment because of paid rest and meal breaks, health and safety laws, disability laws, shift differentials, or collective bargaining agreements, but receives wages equivalent to a full-time job. If, in the absence of these factors, the employee would be required to work the number of hours for a full-time position to receive full-time wages, the position should be reported as a full-time employment position.

(b) **Temporary positions.** A temporary position is a position that is intended to be filled for period of less than twelve consecutive months. Positions in seasonal employment are temporary positions. Temporary positions include workers furnished by staffing companies regardless of the duration of the placement with the person required to file the annual report.

(c) **Examples.** Assume these facts for the following examples. National Airplane Inc. manufactures FAA certified navigation systems at a manufacturing site located in Tacoma, WA. National Airplane Inc. is claiming all the tax adjustments available for manufacturers and processors for hire of commercial airplanes and component parts. National Airplane Inc. employs one hundred people. Seventy-five of the employees work directly in the manufacturing operation and are classified as SOC Production Occupations. Five employees work in the engineering and design division and are classified as SOC Architect and Engineering Occupations. Five employees are sales representatives and are classified as SOC Sales and Related Occupations. Five employees are service technicians and are classified as SOC Installation, Maintenance, and Repair Occupations. Five employees are administrative assistants and are classified as SOC Office and Administrative Support. Five executives are classified as SOC Management Occupations.

(i) Through a college work-study program, National Airplane Inc. employs six interns from September through June in its engineering department. The interns work twenty hours a week. The six interns are reported as temporary employees, and not as part-time employees, because the intern positions are intended to be filled for a period of less than twelve consecutive months. Assuming the five employees classified as SOC Architect and Engineering Occupations are full-time employees, National Airplane Inc. will report a total of eleven employment positions in SOC Architect and Engineering Occupations with 45% in full-time employment positions and 55% in temporary employment positions.

(ii) National Airplane Inc. manufactures navigation systems in two shifts of production. The first shift works eight hours from 8:00 am to 5:00 pm Monday thru Friday. The second shift works six hours from 6:00 pm to midnight Monday thru Friday. The second shift works fewer hours per week (thirty hours) than the first shift (forty hours) as a pay differential for working in the evening. If a second shift employee transferred to the first shift, the employee would be required to work forty hours with no overall increase in wages. The second shift employees should be reported as full-time employment positions, rather than part-time employment positions.

(iii) On December 1st, ten National Airplane Inc. full-time employees classified as SOC Production Occupations take family and medical leave for twelve weeks. National Airplane Inc. hires five people to perform the work of the employees on leave. Because the ten employees classified as SOC Production Occupations are on authorized leave, National Airplane Inc. will include those employees in the annual report as full-time employment positions. The five people hired to replace the absent employees classified as SOC Production Occupations will be included in the report as temporary employees. National Airplane Inc. will report a total of eighty employment positions in SOC Production Occupations with 93.8% in full-time employment positions and 6.2% in temporary employment positions.

(iv) On December 1st, one full-time employee classified as SOC Sales and Related Occupations resigns from her position. National Airplane Inc. contracts with Jane Smith d/b/a Creative Enterprises, Inc. to finish an advertising project assigned to the employee who resigned. Because Jane Smith is an independent contractor, National Airplane Inc. will not include her employment in the annual report. Because the resignation has resulted in a vacant position, the total number of employment positions National Airplane Inc. will report in SOC Sales and Related Occupations is reduced to four employment positions.

(v) All National Airplane Inc. employees classified as SOC Office and Administrative Support Occupations work forty hours a week, fifty-two weeks a year. On November 1st, one employee must limit the number of hours worked to thirty hours each week to accommodate a disability. The employee receives wages based on the actual hours worked each week. Because the employee works less than thirty-five hours a week and is not paid a wage equivalent to a full-time position, the employee's position is a part-time employment position. National Airplane Inc. will report a total of five employment positions in SOC Office and Administrative Support Occupations with 80% in full-time employment positions and 20% in part-time employment positions.

(9) **What are wages?** For the purposes of the annual report, "wages" means the base compensation paid to an individual for personal services rendered to an employer, whether denominated as wages, salary, commission, or otherwise. Compensation in the form of overtime, tips, bonuses, benefits (insurance, paid leave, meals, etc.), stock options, and severance pay are not "wages." For employees that earn an annual salary, hourly wages are determined by dividing annual salary by 2080. If an employee is paid by commission, hourly wages are determined by dividing the total amount of commissions paid during the calendar year by 2080.

(10) **How are wages detailed for the annual report?**

(a) An employer must provide information on the number of employees, as a percentage of the total employment in the SOC major group, paid a wage within the following five hourly wage bands:

Up to $10.00 an hour;

$10.01 an hour to $15.00 an hour;

$15.01 an hour to $20.00 an hour;

$20.01 an hour to $30.00 an hour; and

$30.01 an hour or more.

Percentages should be rounded to the nearest 1/10th of 1% (XX.X%). For purposes of the annual report, wages are measured on December 31st of the calendar year for which an applicable tax adjustment is claimed.

(b) **Examples.** Assume these facts for the following examples. Washington Airplane Inc. manufactures FAA certified navigation systems at a manufacturing site located in Tacoma, WA. Washington Airplane Inc. is claiming all the tax adjustments available for manufacturers and processors for hire of commercial airplanes and component parts. Washington Airplane Inc. employs five hundred people at the manufacturing site. Four hundred employees engage in activities that are classified as SOC Production Occupations. Fifty employees engage in activities that are classified as SOC Architect and Engineer Occupations. Twenty-five employees are engaged in activities classified as SOC Management Occupations. Twenty employees are engaged in activities classified as SOC Office and Administrative Support Occupations. Five employees are engaged in activities classified as SOC Sales and Related Occupations.

(i) One hundred employees classified as SOC Production Occupations are paid $12.00 an hour. Two hundred employees classified as SOC Production Occupations are paid $17.00 an hour. One hundred employees classified as SOC Production Occupations are paid $25.00 an hour. For SOC Production Occupations, Washington Airplane Inc. will report 25% of employment positions are paid $10.01 an hour to $15.00 an hour; 50% are paid $15.01 an hour to $20.00 an hour; and 25% are paid $20.01 an hour to $30.00 an hour.

(ii) Ten employees classified as SOC Architect and Engineering Occupations are paid an annual salary of $42,000; another ten employees are paid $50,000 annually; and the remaining employees are all paid over $70,000 annually. In order to report wages, the annual salaries must be converted to hourly amounts by dividing the annual salary by 2080 hours. For SOC Architect and Engineering Occupations, Washington Airplane Inc. will report 40% of employment positions are paid $20.01 an hour to $30.00 an hour and 60% are paid $30.00 an hour or more.

(iii) All the employees classified as SOC Sales and Related Occupations are sales representatives that are paid on commission. They receive $10.00 commission for each navigation system sold. Three sales representatives sell 2,500 navigation systems during the calendar year. Two sales representatives sell 3,500 navigation systems during the calendar year and receive a $10,000 bonus for exceeding company's sales goals. In order to report wages, the employee's commissions must be converted to hourly amounts by dividing the total commissions by 2080 hours. Washington Airplane Inc. will report that 60% of employment positions classified as SOC Sales and Related Occupations are paid $10.01 an hour to $15.00 an hour. Because bonuses are not included in wages, Washington Airplane Inc. will report 40% of employment positions classified as SOC Sales and Related Occupations are paid $15.01 an hour to $20.00 an hour.

(iv) Ten of the employees classified as SOC Office and Administrative Support Occupations earn $9.50 an hour. The remaining ten employees classified as SOC Office and Administrative Support Occupations earn wages between $10.01 an hour to $15.00 an hour. On December 1st, Washington Airplane Inc. announces that effective December 15th, all employees classified as SOC Office and Administrative Support Occupations will earn wages of at least $10.50 an hour, but no more than $15.00 an hour. Because wages are measured on December 31st, Washington Airplane Inc. will report 100% of employment positions classified as SOC Office and Administrative Support Occupations Sales and Related Occupations are paid $10.01 an hour to $15.00 an hour.

(11) **Reporting workers furnished by staffing companies.** For temporary positions filled by workers that are furnished by staffing companies, the person filling out the annual report must provide the following information:

(a) Total number of staffing company employees furnished by staffing companies;

(b) Top three occupational codes of all staffing company employees; and

(c) Average duration of all staffing company employees.

(12) **What are employer-provided health benefits?** For purposes of the annual report, "health benefits" means compensation, not paid as wages, in the form of a health plan offered by an employer to its employees. A health plan that is equally available to employees and the general public is not an "employer-provided" health benefit.

(a) "Dental care services" means services offered or provided by health care facilities and health care providers relating to the prevention, cure, or treatment of illness, injury, or disease of human teeth, alveolar process, gums, or jaw.

(b) "Dental care plan" means a health plan for the purpose of providing for its employees or their beneficiaries' dental care services.

(c) "Health plan" means any plan, fund, or program established, maintained, or funded by an employer for the purpose of providing for its employees or their beneficiaries, through the purchase of insurance or otherwise, medical care and dental care services. Health plans include any "employee welfare benefit plan" as defined by the Employee Retirement Income Security Act (ERISA), any "health plan" or "health benefit plan" as defined in RCW 48.43.005, any self-funded multiple employer welfare arrangement as defined in RCW 48.125.010, any "qualified health insurance" as defined in Section 35 of the Internal Revenue Code, an "Archer MSA" as defined in Section 220 of the Internal Revenue Code, a "health savings plan" as defined in Section 223 of the Internal Revenue Code, any "health plan" qualifying under Section 213 of the Internal Revenue Code, governmental plans, and church plans.

(d) "Medical care services" means services offered or provided by health care facilities and health care providers relating to the prevention, cure, or treatment of illness, injury, or disease.

(e) "Medical care plan" means a health plan for the purpose of providing for its employees or their beneficiaries' medical care services.

(13) **How are employer-provided health benefits detailed in the annual report?** The annual report is organized by SOC major group and by type of health plan offered to or with enrolled employees on December 31st of the calendar year for which an applicable tax adjustment is claimed.

(a) **Detail by SOC major group.** For each SOC major group, report the number of employees, as a percentage of total employment in the SOC major group, eligible to participate in an employer-provided medical care plan. An employee is "eligible" if the employee can currently participate in a medical care plan provided by the employer. Waiting periods, tenure requirements, minimum work hour requirements, preexisting conditions, and other limitations may prevent an employee from being eligible for coverage in an employer's medical care plan. If an employer provides multiple medical care plans, an employee is "eligible" if the employee can currently participate in one of the medical care plans. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(b) **Examples.**

(i) On December 31st, Acme Engines has one hundred employees classified as SOC Production Occupations. It offers these employees two medical care plans. Plan A is available to all employees at the time of hire. Plan B is available to employees after working ninety days. For SOC Production Occupations, Acme Engines will report 100% of its employees are eligible for employer-provided medical benefits because all of its employees are eligible for at least one medical care plan offered by Acme Engines.

(ii) Apex Aluminum has fifty employees classified as SOC Transportation and Material Moving Occupations, all of whom have worked for Apex Aluminum for over five years. Apex Aluminum offers one medical care plan to its employees. Employees must work for Apex Aluminum for six months to participate in the medical care plan. On October 1st, Apex Aluminum hires ten new employees classified as SOC Transportation and Material Moving Occupations. For SOC Transportation and Material Moving Occupations, Apex Aluminum will report 83.3% of its employees are eligible for employer-provided medical benefits.

(c) **Detail by type of health plan.** The report also requires detailed information about the types of health plans the employer provides. If an employer has more than one type of health plan, it must report each health plan separately. If a person offers more than one of the same type of health plan as described in (c)(i) of this subsection, the person may consolidate the detail required in (c) through (e) of this subsection by using ranges to describe the information. The details include:

(i) A description of the type of plan in general terms such as self-insured, fee for service, preferred provider organization, health maintenance organization, health savings account, or other general description. The report does not require a person to disclose the name(s) of their health insurance carrier(s).

(ii) The number of employees eligible to participate in the health plan, as a percentage of total employment at the manufacturing site. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(iii) The number of employees enrolled in the health plan, as a percentage of employees eligible to participate in the health plan at the manufacturing site. An employee is "enrolled" if the employee is currently covered by or participating in an employer-provided health plan. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(iv) The average percentage of premium paid by employees enrolled in the health plan. "Premium" means the cost incurred by the employer to provide a health plan or the continuance of a health plan, such as amounts paid to health carriers or costs incurred by employers to self-insure. Employers are generally legally responsible for payment of the entire cost of the premium for enrolled employees, but may require enrolled employees to share in the cost of the premium to obtain coverage. State the amount of premium, as a percentage, employees must pay to maintain enrollment under the health plan. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(v) If necessary, the average monthly contribution to enrolled employees. In some instances, employers may make contributions to an employee health plan, but may not be aware of the percentage of premium cost borne by the employee. For example, employers may contribute to a health plan sponsored by an employee organization, or may sponsor a medical savings account or health savings account. In those instances where the employee's contribution to the health plan is unknown, an employer must report its average monthly contribution to the health plan by dividing the employer's total monthly costs for the health plan by the total number of employees enrolled in the health plan.

(vi) Whether legal spouses and unmarried dependant children can obtain coverage under the health plan and if there is an additional premium for such coverage.

(vii) Whether part-time employees are eligible to participate in the health plan.

(d) **Medical care plans.** In addition to the detailed information required for each health plan, report the amount of enrolled employee point of service cost-sharing for hospital services, prescription drug benefits, and primary care physician services for each medical care plan. If differences exist within a medical care plan, the lowest cost option to the enrolled employee must be stated in the report. For example, if employee point of service cost-sharing is less if an enrolled employee uses a network of preferred providers, report the amount of point of service cost-sharing using a preferred provider. Employee point of service cost-sharing is generally stated as a percentage of cost, a specific dollar amount, or both.

(i) "Employee point of service cost-sharing" means amounts paid to health carriers directly providing medical care services, health care providers, or health care facilities by enrolled employees in the form of copayments, co-insurance, or deductibles. Copayments and co-insurance mean an amount specified in a medical care plan which is an obligation of enrolled employees for a specific medical care service which is not fully prepaid. A deductible means the amount an enrolled employee is responsible to pay before the medical care plan begins to pay the costs associated with treatment.

(ii) "Hospital services" means covered in-patient medical care services performed in a hospital licensed under chapter 70.41 RCW.

(iii) "Prescription drug benefit" means coverage to purchase a thirty-day or less supply of generic prescription drugs from a retail pharmacy.

(iv) "Primary care provider services" means nonemergency medical care services provided in an office setting by the employee's primary care provider.

(e) **Dental care plans.** In addition to the health plan information required for each dental care plan, the annual maximum benefit for each dental care plan must be stated in the report. Most dental care plans have an annual dollar maximum benefit. This is the maximum dollar amount a dental care plan will pay toward the cost of dental care services within a specific benefit period, generally one year. The enrolled employee is personally responsible for paying costs above the annual maximum.

(f) **Examples.**

(i) Assume the following facts for the following examples. Mosaic Aerospace employs one hundred employees and offers two medical care plans as health benefits to employees at the time of hire. Plan A is a managed care plan (HMO). Plan B is a fee for service medical care plan.

(A) Forty Mosaic Aerospace employees are enrolled in Plan A. It costs Mosaic Aerospace $750 a month for each employee covered by Plan A. Enrolled employees must pay $150 each month to participate in Plan A. If an enrolled employee uses its network of physicians, Plan A will cover 100% of the cost of primary care provider services with employees paying a $10.00 copayment per visit. If an enrolled employee uses its network of hospitals, Plan A will cover 100% of the cost of hospital services with employees paying a $200 deductible. If an enrolled employee does not use a network provider, Plan A will cover only 50% of the cost of any service with a $500 employee deductible. An enrolled employee must use a network of retail pharmacies to receive any prescription drug benefit. Plan A will cover the cost of prescription drugs with enrolled employees paying a $10.00 copayment. If an enrolled employee uses the mail-order pharmacy option offered by Plan A, copayment for prescription drug benefits is not required.

Mosaic Aerospace will report Plan A separately as a managed care plan. One hundred percent of its employees are eligible to participate in Plan A. The percentage of eligible employees enrolled in Plan A is 40%. The percentage of premium paid by an employee is 20%. Mosaic Aerospace will also report that employees have a $10.00 copayment for primary care provider services and a $200 deductible for hospital services because this is the lowest cost option within Plan A. Mosaic Aerospace will report that employees have a $10.00 copayment for prescription drug benefit. Mosaic Aerospace cannot report that employees do not have a prescription drug benefit copayment because "prescription drug benefit" is defined as coverage to purchase a thirty-day or less supply of generic prescription drugs from a retail pharmacy, not a mail-order pharmacy.

(B) Fifty Mosaic Aerospace employees are enrolled in Plan B. It costs Mosaic Aerospace $1,000 a month for each employee covered by Plan B. Enrolled employees must pay $300 a month to participate in Plan B. Plan B covers 100% of the cost of primary care provider services and 100% of the cost of prescription drugs with employees paying a $200 annual deductible for each covered service. Plan B covers 80% of the cost of hospital services with employees paying a $250 annual deductible.

Mosaic Aerospace will report Plan B separately as a fee for service medical care plan. One hundred percent of its employees are eligible to participate in Plan B. The percentage of eligible employees enrolled in Plan B is 50%. The percentage of premium paid by an employee is 30%. Mosaic Aerospace will also report that employees have a $200 annual deductible for both primary care provider services and prescription drug benefits. Hospital services have a $250 annual deductible and 20% co-insurance obligation.

(C) On December 1st, Mosaic Aerospace acquires General Aircraft Inc., a company claiming all the tax adjustments available for manufacturers and processors for hire of commercial airplanes and component parts. General Aircraft Inc. had fifty employees, all of whom were retained by Mosaic Aerospace. At General Aircraft Inc., employees were offered one managed care plan (HMO) as a benefit. The former General Aircraft Inc. employees will retain their current managed care plan until the following June when employees would be offered Mosaic Aerospace benefits. On December 31st, Mosaic Aerospace is offering employees two managed care plans. Mosaic Aerospace may report each managed care plan separately or may consolidate the detail required in (c) through (e) of this subsection for this type of medical care plan by using ranges to report the information.

(ii) Aero Turbines employs one hundred employees. It offers employees health savings accounts as a benefit to employees who have worked for the company for six months. Aero Turbines established the employee health savings accounts with a local bank and makes available to employees a high deductible medical care plan to be used in conjunction with the account. Aero Turbines deposits $500 a month into each employee's health savings account. Employees deposit a portion of their pretax earnings into a health savings account to cover the cost of primary care provider services, prescription drug purchases, and the high deductible medical care plan for hospital services. The high deductible medical care plan has an annual deductible of $2,000 and covers 75% of the cost of hospital services. Sixty-six employees open health savings accounts. Four employees have not worked for Aero Turbines for six months.

Aero Turbines will report the medical care plan as a health savings account. Ninety-six percent of employees are eligible to participate in health savings accounts. The percentage of eligible employees enrolled in health savings accounts is 68.8%. Because the amount of employee deposits into their health savings accounts will vary, Aero Turbines will report the average monthly contribution of $500 rather than the percentage of premium paid by enrolled employees. Because employees are responsible for covering their primary care provider services and prescription drugs costs, Aero Turbines will report that this health plan does not include these services. Because the high deductible medical care plan covers the costs of hospital services, Aero Turbines will report that the medical care plan has an annual deductible of $2,000 and employees have 25% co-insurance obligation.

(14) **What are employer-provided retirement benefits?** For purposes of the annual report, "retirement benefits" mean compensation, not paid as wages, in the form of a retirement plan offered by an employer to its employees. A "retirement plan" means any plan, account, deposit, annuity, or benefit, other than a life insurance policy, that provides for retirement income or deferred income to employees for periods extending to the termination of employment or beyond. Retirement plans include pensions, annuities, stock bonus plans, employee stock ownership plans, profit sharing plans, self-employed retirement plans, individual retirement accounts, individual retirement annuities, and retirement bonds, as well as any other plan or program, without regard to its source of funding, and without regard to whether the retirement plan is a qualified plan meeting the guidelines established in the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code. A retirement plan that is equally available to employees and the general public is not an "employer-provided" retirement benefit.

(15) **How are employer-provided retirement benefits detailed in the annual report?** The annual report is organized by SOC major group and by type of retirement plans offered to employees or with enrolled employees on December 31st of the calendar year for which an applicable tax adjustment is claimed. Inactive or terminated retirement plans are excluded from the annual report. An inactive retirement plan is a plan that is not offered to new employees, but has enrolled employees, and neither enrolled employees nor the employer are making contributions to the retirement plan.

(a) **Detail by SOC major group.** For each SOC major group, report the number of employees, as a percentage of total employment in the SOC major group, eligible to participate in an employer-provided retirement plan. An employee is "eligible" if the employee can currently participate in a retirement plan provided by the employer. Waiting periods, tenure requirements, minimum work hour requirements, and other limitations may prevent an employee from being eligible for coverage in an employer's retirement plan. If an employer provides multiple retirement plans, an employee is "eligible" if the employee can currently participate in one of the retirement plans. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(b) **Examples.**

(i) Lincoln Airplane has one hundred employees classified as SOC Production Occupations. Fifty employees were enrolled in defined benefit pension at the time of hire. All employees are eligible to participate in a 401(k) Plan. For SOC Production Occupations, Lincoln Airplane will report 100% of its employees are eligible for employer-provided retirement benefits because all of its employees are eligible for at least one retirement plan offered by Lincoln Airplane.

(ii) Fly-Rite Airplanes has fifty employees classified in SOC Computer and Mathematical Occupations. Fly-Rite Airplane offers a SIMPLE IRA to its employees after working for the company one year. Forty-five employees classified in SOC Computer and Mathematical Occupations have worked for the company more than one year. For SOC Computer and Mathematical Occupations, Fly-Rite Airplanes will report 90% of its employees are eligible for retirement benefits.

(c) **Detail by retirement plan.** The report also requires detailed information about the types of retirement plans an employer offers employees. If an employer offers multiple retirement plans, it must report each type of retirement plan separately. If an employer offers more than one of the same type of retirement plan, but with different levels of employer contributions, it may consolidate the detail required in (i) through (iv) of this subsection by using ranges to describe the information. The report includes:

(i) The type of plan in general terms such as 401(k) Plan, SEP IRA, SIMPLE IRA, cash balance pension, or defined benefit plan.

(ii) The number of employees eligible to participate in the retirement plan, as a percentage of total employment at the manufacturing site. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(iii) The number of employees enrolled in the retirement plan, as a percentage of employees eligible to participate in the retirement plan at the manufacturing site. An employee is "enrolled" if the employee currently participates in an employer-provided retirement plan, regardless of whether the employee has a vested benefit. Percentages should be rounded to the nearest 1/10th of 1% (XX.X%).

(iv) The maximum benefit the employer will contribute into the retirement plan for enrolled employees. The maximum benefit an employer will contribute is generally stated as a percentage of salary, specific dollar amount, or both. This information is not required for a defined benefit plan meeting the qualification requirements of Employee Retirement Income Security Act (ERISA) that provides benefits according to a flat benefit, career-average, or final pay formula.

(d) **Examples.**

(i) General Airspace is a manufacturer of airplane components located in Centralia, WA. General Airspace employs one hundred employees. Fifty employees are eligible for and enrolled in a defined benefit pension with a flat benefit at the time of retirement. Twenty-five employees are eligible for and enrolled in a cash balance pension with General Airspace contributing 7% of an employee's annual compensation with a maximum annual contribution of $10,000. All General Airspace employees can participate in a 401(k) Plan. Sixty-five employees are participating in the 401(k) Plan. General Airspace does not make any contributions into the 401(k) Plan. Five employees are former employees of United Skyways, a company General Airspace acquired. United Skyways employees were enrolled in a cash balance pension at the time of hire. When General Airspace acquired United Skyways, it did not terminate or liquidate the United Skyways cash balance plan. Rather, General Airspace maintains cash balance plan only for former United Skyways employees, allowing only interest to accrue to the plan.

(A) General Airspace will report that it offers three retirement plans - A defined benefit pension, a cash-balance pension, and a 401(k) Plan. General Airspace will not report the inactive cash balance pension it maintains for former United Skyways employees.

(B) For the defined benefit pension, General Airspace will report 50% of its total employment positions are eligible to participate. Of the employment positions eligible to participate, 100% are enrolled.

(C) For the cash-balance pension, General Airspace will report 25% of its total employment positions are eligible to participate. Of the employment positions eligible to participate, 100% are enrolled. General Airspace will report a maximum contribution of $10,000 or 7% of an employee's annual compensation.

(D) For the 401(k) Plan, General Airspace will report 100% of its total employment positions are eligible to participate in the retirement plan. Of the employment positions eligible to participate, 65% are enrolled. General Airspace will report that it does not make any contributions into the 401(k) Plan.

(ii) Washington Alloys is an aluminum smelter located in Grandview, WA. Washington Alloys employs two hundred employees. Washington Alloys offers a 401(k) Plan to its employees after one year of hire. One hundred seventy-five employees have worked for Washington Alloys for one year or more. Of that amount, seventy-five have worked more than five years. Washington Alloys will match employee contributions up to a maximum 3% of annual compensation. If an employee has worked for Washington Alloys for more than five years, Washington Alloys will contribute 5% of annual compensation regardless of the employee's contribution. One hundred employees receive a 3% matching contribution from Washington Alloys. Fifty employees receive a contribution of 5% of annual compensation.

(A) Washington Alloys can report each 401(k) Plan separately - A 401(k) Plan with a maximum employer contribution of 3% of annual compensation and a 401(k) Plan with a maximum employer contribution to 5% of annual compensation. Alternatively, Washington Alloys can report that it offers a 401(k) Plan with a maximum employer contribution ranging from 3% to 5% of annual compensation.

(B)(I) If Washington Alloys reports each 401(k) Plan separately, for the 401(k) Plan with a maximum employer contribution of 3% of annual compensation, Washington Alloys will report 50% of its total employment positions are eligible to participate. Of the employment positions eligible to participate, 100% are enrolled.

For the 401(k) Plan with a maximum employer contribution of 5% of annual compensation, Washington Alloys will report 37.5% of its total employment positions are eligible to participate. Of the employment positions eligible to participate, 66.6% are enrolled.

(II) If Washington Alloys consolidates its detailed information about its 401(k) Plans, it will report that 87.5% of its total employment positions are eligible to participate in 401(k) Plans. Of the employment positions eligible to participate in the 401(k) Plans, 85.7% are enrolled.

(16) **Additional reporting for aluminum smelters and electrolytic processing businesses.** Annual reports must include data for actual levels of employment for each quarter of the calendar year covered by the report. In addition, the report must identify the number of jobs affected by any employment reductions that have been publicly announced within sixty days of the date the report is submitted to the department. For an aluminum smelter, the annual report must indicate the quantity of aluminum smelted at the plant during the time period covered by the report. For an electrolytic processing business, the annual report must indicate the quantity of product produced at the plant during the time period covered by the report.

(17) **Are annual reports confidential?** Annual reports are not subject to the confidentiality provisions of RCW 82.32.330 and may be disclosed to the public upon request.

(18) **What are the consequences for failing to file a complete annual report?**

(a) If a person fails to submit a complete annual report by March 31st, the department will declare the amount of taxes against which the tax adjustment was taken during the previous calendar year to be immediately due and payable. Interest, but not penalties, will be assessed retroactively to the date the tax adjustment was taken and accrues until taxes for which the tax adjustment was taken are repaid. Interest will be assessed at the rate provided for delinquent excise taxes as provided under chapter 82.32 RCW.

(b) **Complete annual report.** An annual report is complete if:

(i) The annual report is filed on the form required by this section; and

(ii) The person makes a good faith effort to substantially respond to all report questions required by this section.

The answer "varied," "various," or "please contact for information" is not a good faith response to a question.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 06-20-004, § 458-20-267, filed 9/21/06, effective 10/22/06.]

WAC 458-20-268 Annual surveys for certain tax adjustments. (1) **Introduction.** In order to take certain tax credits, deferrals, and exemptions ("tax adjustments"), taxpayers must file an annual survey with the department of revenue (the "department") containing information about their business activities and employment. This section explains the survey requirements for the various tax adjustments. This section also explains who is required to file an annual survey, how to file a survey, and what information must be included in the survey.

Refer to WAC 458-20-267 (Annual reports for certain tax adjustments) for more information on the annual report requirements for certain tax incentive programs.

This section provides examples that identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

(2) **Who is required to file the annual survey?** The following persons must file an annual survey:

(a) A person claiming the B&O tax credit provided by RCW 82.04.4452 for engaging in qualified research and development. A separate annual survey must be filed for each tax reporting account. If the person has assigned its entire B&O tax credit provided by RCW 82.04.4452 to another person, the assignor is not required to file an annual survey. In such an instance, the assignee of the B&O tax credit is required to file an annual survey. If the person has assigned a portion of its B&O tax credit to another person, both the assignor and the assignee are required to file an annual survey. Refer to WAC 458-20-24003 (Tax incentives for high technology businesses) for more specific information about this tax adjustment.

(b) An applicant for deferral of taxes under chapter 82.60 RCW for sales and use taxes on an eligible investment project in rural counties. Refer to WAC 458-20-24001 (Sales and use tax deferral—Manufacturing and research/development activities in rural counties—Applications filed after March 31, 2004) for more specific information about this tax adjustment.

(c) An applicant for deferral of taxes under chapter 82.63 RCW for sales and use taxes on an eligible investment project in high technology. Refer to WAC 458-20-24003 (Tax incentives for high technology businesses) for more specific information about this tax adjustment.

(d) An applicant for deferral of taxes under chapter 82.75 RCW for sales and use taxes on an eligible investment project in biotechnology products.

(e) A lessee of an eligible investment project under chapters 82.60, 82.63, and 82.75 RCW (as defined in RCW 82.60.020 (4)(b)(ii), 82.63.010 (7)(b), or 82.75.010 (5)(b)(ii)) who receives the economic benefit of the deferral and agrees in writing with the department to complete the annual survey. A lessor, by written contract, must agree to pass the economic benefit of the deferral to its lessee. The economic benefit of the deferral to the lessee must be no less than the amount of tax deferred by the lessor as evidenced by written documentation of any type, whether by payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee. An applicant who is a lessor of an eligible investment project that received a deferral of taxes under chapters 82.60, 82.63, and 82.75 RCW and who meets these requirements is not required to complete and file an annual survey.

(f) A person claiming the B&O tax exemption provided by RCW 82.04.4268 for dairy products, RCW 82.04.4269 for seafood products, and RCW 82.04.4266 for fruits and vegetables.

The first survey filed under this subsection must also include employment, wage, and benefit information for the twelve-month period immediately before first use of the B&O tax exemption. In order to meet this requirement, a person must complete a survey for the calendar year immediately preceding the first use of the B&O tax exemption.

(g) An applicant for deferral of taxes under chapter 82.74 RCW for sales and use taxes on an eligible investment project for dairy product manufacturing, seafood product manufacturing, or fresh fruit and vegetable processing. This tax adjustment is effective July 1, 2007.

(h) A lessee of an eligible investment project under chapters 82.74 RCW (as defined in RCW 82.74.010 (4)(b)) who receives the economic benefit of the deferral and agrees in writing with the department to complete the annual survey. A lessor, by written contract, must agree to pass the economic benefit of the deferral to its lessee. The economic benefit of the deferral to the lessee must be no less than the amount of tax deferred by the lessor as evidenced by written documentation of any type, whether by payment, credit, or other financial arrangement between the lessor or owner of the qualified building and the lessee. An applicant who is a lessor of an eligible investment project that received a deferral of taxes under chapter 82.74 RCW and who meets these requirements is not required to complete and file an annual survey. This tax adjustment is effective July 1, 2007.

(i) A person claiming the B&O tax credit provided by RCW 82.04.4487 for persons engaged in qualified preproduction development in the field of aeronautics. A separate annual survey must be filed for each tax reporting account. If the person has assigned its entire B&O tax credit provided by

RCW 82.04.4487 to another person, the assignor is not required to file an annual survey. In such an instance, the assignee of the B&O tax credit is required to file an annual survey. If the person has assigned a portion of its B&O tax credit to another person, both the assignor and the assignee are required to file an annual survey.

(j) A person claiming the B&O tax rate provided by RCW 82.04.250(3) for FAR part 145 certificated repair stations.

(k) A person claiming the B&O tax credit provided by RCW 82.04.449 for customized employment training.

The first survey filed under this subsection must also include employment, wage, and benefit information for the twelve-month period immediately before first use of the B&O tax credit. In order to meet this requirement, a person must complete a survey for the calendar year immediately preceding the first use of the B&O tax credit.

(l) A person claiming the B&O tax rate provided by RCW 82.04.260(12) for timber products.

The first survey filed under this subsection must also include employment, wage, and benefit information for the twelve-month period immediately before first use of the B&O tax rate. In order to meet this requirement, a person must complete a survey for the calendar year immediately preceding the first use of the B&O tax rate.

(3) **How to file annual surveys.**

(a) **Required form.** The department has developed a survey form that must be used to complete the annual survey unless a person obtains prior written approval from the department to file the annual survey in an alternative format.

(b) **Electronic filing.** A survey is filed electronically when the department receives the survey in an electronic format. The department may waive the electronic filing requirement for good cause shown. Any person not statutorily required to electronically file the survey has the option of filing the annual survey electronically.

Persons that claim the following tax adjustments must file the survey electronically with the department:

(i) B&O tax credit for qualified research and development under RCW 82.04.4452 (subsection (2)(a) of this section);

(ii) B&O tax exemptions for dairy products, seafood products or fruits and vegetables under RCW 82.04.4268, 82.04.4269, and 82.04.4266 (subsection (2)(f) of this section);

(iii) Sales and use tax deferral for dairy product manufacturing, seafood product manufacturing, or fresh fruit and vegetable processing under chapter 82.74 RCW (subsection (2)(g) and (h) of this section);

(iv) B&O tax credit for qualified preproduction development in the field of aeronautics under RCW 82.04.4487 (subsection (2)(i) of this section);

(v) B&O tax rate for FAR part 145 certificated repair stations under RCW 82.04.250(3) (subsection (2)(j) of this section); and

(vi) B&O tax rate for timber products under RCW 82.04.260(12) (subsection (2)(l) of this section).

(c) **How to obtain the form.** The form may be filed electronically online or obtained by downloading it from the department's web site (www.dor.wa.gov). It may also be obtained from the department's district offices, by telephoning the telephone information center (800-647-7706), or by contacting the department's special programs division at:

Department of Revenue
Special Programs Division
Post Office Box 47477
Olympia, WA 98504-7477
Fax: 360-586-2163

(d) **Due date.** For persons claiming any B&O tax credit, tax exemption, or tax rate listed under this section, the survey must be filed or postmarked by March 31st following any calendar year in which the tax credit, tax exemption, or tax rate is claimed.

For applicants of any sales tax deferrals listed under this section, the survey must be filed or postmarked by March 31st of the year following the calendar year in which an eligible investment project is certified by the department as being operationally complete and each of the seven succeeding calendar years.

(e) **Examples.**

(i) Advanced Computing, Inc. qualifies for the B&O tax credit provided by RCW 82.04.4452 and applied it against taxes due in calendar year 2006. Advanced Computing, Inc. must electronically file an annual survey with the department by March 31, 2007.

(ii) In 1999, Biotechnology, Inc. applied for and received a sales and use tax deferral under chapter 82.63 RCW for an eligible investment project in qualified research and development. The investment project was certified by the department as being operationally complete in 2001. Biotechnology, Inc. must file its annual survey with the department for the 2005 calendar year by March 31, 2006. A survey is due from Biotechnology, Inc. by March 31st each following year, with its last survey due March 31, 2008.

(iii) Advanced Materials, Inc. has been conducting manufacturing activities in a building leased from Property Management Services since 2002. Property Management Services is a recipient of a deferral under chapter 82.60 RCW, and the building was certified by the department as operationally complete in 2002. In order to pass on the entire economic benefit of the deferral, Property Management Services charges Advanced Materials, Inc. $5,000 less in rent each year. Prior to the 2004 calendar year, Advanced Materials, Inc. is not required under chapter 82.60 RCW to file an annual survey. Advanced Materials, Inc., however, must file its annual survey with the department for the 2004 calendar year by March 31, 2005, assuming all the requirements of RCW 82.60.020 (4)(b)(ii) are met. A survey is due from Advanced Materials, Inc. by March 31st each following year, with its last survey due by March 31, 2009.

(iv) Fruit Canning, Inc. claims the B&O tax exemption provided in RCW 82.04.4266 for the gross proceeds of sales derived from the canning of fruit for the first time in 2006. Fruit Canning, Inc. must file two annual surveys with the department by March 31, 2007, one covering calendar year 2005 and one covering calendar year 2006. If Fruit Canning, Inc. claims the B&O tax exemption during subsequent years, it must file an annual survey for each of those years by March 31 of each following year.

(4) **What information does the annual survey require?** The annual survey requests information about the following:

(a) Amount of tax deferred, the amount of B&O tax exempted, the amount of B&O tax credit taken, or the amount of B&O tax reduced under the preferential rate;

(b) The number of new products or research projects by general classification;

(c) The number of trademarks, patents, and copyrights associated with activities at the investment project.

(d) The following information for employment positions in Washington:

(i) The total number of employment positions;

(ii) Full-time, part-time, and temporary employment positions as a percent of total employment. Refer to subsection (7) of this section for information about full-time, part-time, and temporary employment positions;

(iii) The number of employment positions according to the wage bands of less than $30,000; $30,000 or greater, but less than $60,000; and $60,000 or greater. A wage band containing fewer than three individuals may be combined with the next lowest wage band; and

(iv) The number of employment positions that have employer-provided medical, dental, and retirement benefits, by each of the wage bands; and

(e) Additional information the department requests that is necessary to measure the results of the tax adjustments.

(i) The department is required to report to the state legislature summary descriptive statistics by category and the effectiveness of the tax adjustments, such as job creation, company growth, and such other factors as the department selects or as the statutes identify. The department has included questions related to measuring these effects.

(ii) In addition, the department has included questions related to:

(A) The person's use of the sales and use tax exemption for machinery and equipment used in manufacturing provided in RCW 82.08.02565 and 82.12.02565; and

(B) The Unified Business Identifier used with the Washington state employment security department and all employment security department reference numbers used on quarterly tax reports that cover the employment positions reported in the annual survey.

(5) **What is total employment in the annual survey?**

(a) The annual survey requires information on all full-time, part-time, and temporary employment positions located in Washington state on December 31st of the calendar year covered by the report. Total employment includes persons who are on leaves of absence such as sick leave, vacation, disability leave, jury duty, military leave, and workers compensation leave, regardless of whether those persons are receiving wages. Total employment does not include separation from employment such as layoffs or reductions in force. Vacant positions are not included in total employment.

(b) **Examples.** Assume these facts for the following examples. National Construction Equipment (NCE) manufactures bulldozers, cranes, and other earth-moving equipment in Ridgefield, WA and Kennewick, WA. NCE received a deferral of taxes under chapter 82.60 RCW for sales and use taxes on its new manufacturing site in Kennewick, WA.

(i) NCE employs two hundred workers in Ridgefield manufacturing construction cranes. NCE employs two hundred fifty workers in Kennewick manufacturing bulldozers and other earth-moving equipment. Although NCE's facility in Ridgefield does not qualify for any tax adjustments, NCE's annual survey must report a total of four hundred fifty employment positions. The annual survey includes all Washington state employment positions, which includes employment positions engaged in activities that do not qualify for tax adjustments.

(ii) On November 20th, NCE lays off seventy-five workers. NCE notifies ten of the laid off workers on December 20th that they will be rehired and begin work on January 2nd. The seventy-five employment positions are excluded from NCE's annual survey, because a separation of employment has occurred. Although NCE intends to rehire ten employees, those employment positions are vacant on December 31st.

(iii) On December 31st, NCE has one hundred employees on vacation leave, five employees on sick leave, two employees on military leave, one employee who is scheduled to retire as of January 1st, and three vacant employment positions. The employment positions of employees on vacation, sick leave, and military leave must be included in NCE's annual survey. The one employee scheduled to retire must be included in the annual survey because the employment position is filled on December 31st. The three vacant positions are not included in the annual survey.

(iv) In June, NCE hires two employees from a local college to intern in its engineering department. When the academic year begins in September, one employee ends the internship. The other employee's internship continues until the following June. NCE must report one employment position on the annual survey, representing the one intern employed on December 31st.

(6) **When is an employment position located in Washington state?** The annual survey seeks information about Washington employment positions only. An employment position is located in Washington state if:

(a) The service of the employee is performed entirely within the state;

(b) The service of the employee is performed both within and without the state, but the service performed without the state is incidental to the employee's service within the state;

(c) The service of the employee is performed both within and without the state, and the employee's base of operations is within the state;

(d) The service of the employee is performed both within and without the state, but the service is directed or controlled in this state; or

(e) The service of the employee is performed both within and without the state and the service is not directed or controlled in this state, but the employee's individual residence is in this state.

(f) **Examples.** Assume these facts for the following examples. Acme Computer, Inc. develops computer software and claims the B&O tax credit provided by RCW 82.04.4452 for its research and development spending. Acme Computer, headquartered in California, has employees working at four locations in Washington state. Acme Computer also has offices in Oregon and Texas.

(i) Ed is a software engineer in Acme Computer's Vancouver office. Ed occasionally works at Acme Computer's Portland, Oregon office when other software engineers are on leave. Ed's position must be included in the number of total employment in Washington state that Acme Computer reports on the annual survey. Ed performs services both within and without the state, but the services performed without the state are incidental to the employee services within Washington state.

(ii) John is an Acme Computer salesperson. John travels throughout Washington, Oregon, and Idaho promoting sales of new Acme Computer products. John's activities are directed by his manager in Acme Computer's Spokane office. John's position must be included in the number of total employment in Washington state that Acme Computer reports on the annual survey. John performs services both within and without the state, but the services are directed or controlled in Washington state.

(iii) Jane, vice-president for product development, works in Acme Computer's Portland, Oregon office. Jane regularly travels to Seattle to review the progress of research and development projects conducted in Washington state. Jane's position must not be included in the number of total employment in Washington state that Acme Computer reports on the annual survey. Although Jane regularly performs services within Washington state, her activities are directed or controlled in Oregon.

(iv) Roberta, a service technician, travels throughout the United States servicing Acme Computer products. Her activities are directed from Acme Computer's corporate offices in California, but she works from her home office in Tacoma. Roberta's position must be included in the number of total employment in Washington state that Acme Computer reports on the annual survey. Roberta performs services both within and without the state and the service is not directed or controlled in this state, but her residence is in Washington state.

(7) **What are full-time, part-time and temporary employment positions?** The survey must separately identify the number of full-time, part-time, and temporary employment positions as a percent of total employment.

(a) **Full-time and part-time employment positions.** A position is considered full-time or part-time if the employer intends for the position to be filled for at least fifty-two consecutive weeks or twelve consecutive months, excluding any leaves of absence.

(i) A full-time position is a position that requires the employee to work, excluding overtime hours, thirty-five hours per week for fifty-two consecutive weeks, four hundred fifty-five hours a quarter for four consecutive quarters, or one thousand eight hundred twenty hours during a period of twelve consecutive months.

(ii) A part-time position is a position in which the employee may work less than the hours required for a full-time position.

(iii) In some instances, an employee may not be required to work the hours required for full-time employment because of paid rest and meal breaks, health and safety laws, disability laws, shift differentials, or collective bargaining agreements. If, in the absence of these factors, the employee would be required to work the number of hours for a full-time position to receive their current wage, the position must be reported as a full-time employment position.

(b) **Temporary positions.** There are two types of temporary positions.

(i) **Employees of the person required to complete the survey.** In the case of a temporary employee directly employed by the person required to complete the survey, a temporary position is a position intended to be filled for a period of less than fifty-two consecutive weeks or twelve consecutive months. For example, seasonal employment positions are temporary positions. These temporary positions must be included in the information required in subsections (5), (8), and (9) of this section.

(ii) **Workers furnished by staffing companies.** A temporary position also includes a position filled by a worker furnished by a staffing company, regardless of the duration of the placement. These temporary positions must be included in the information required in subsections (5), (8), and (9) of this section. In addition, the person filling out the annual survey must provide the following additional information:

(A) Total number of staffing company employees furnished by staffing companies;

(B) Top three occupational codes of all staffing company employees; and

(C) Average duration of all staffing company employees.

(c) **Examples.** Assume these facts for the following examples. Worldwide Materials, Inc. is a developer of materials used in manufacturing electronic devices at a facility located in Everett, WA. Worldwide Materials claims the B&O tax credit provided by RCW 82.04.4452 for its research and development spending. Worldwide Materials has one hundred employees.

(i) On December 31st, Worldwide Materials has five employees on workers' compensation leave. At the time of the work-related injuries, the employees worked forty hours a week and were expected to work for fifty-two consecutive weeks. Worldwide Materials must report these employees as being employed in a full-time position. Although the five employees are not currently working, they are on workers' compensation leave and Worldwide Materials had intended for the full-time positions to be filled for at least fifty-two consecutive weeks.

(ii) In September, Worldwide Materials hires two employees on a full-time basis for a two-year project to design composite materials to be used in a new airplane model. Because the position is intended to be filled for a period exceeding twelve consecutive months, Worldwide Materials must report these positions as two full-time positions.

(iii) Worldwide Materials has two employees who clean laboratories during the evenings. The employees regularly work 5:00 p.m. to 11:00 p.m., Monday through Friday, fifty-two weeks a year. Because the employees work less than thirty-five hours a week, the employment positions are reported as part-time positions.

(iv) On November 1st, a Worldwide Materials engineer begins twelve weeks of family and medical leave. The engineer was expected to work forty hours a week for fifty-two consecutive weeks. While the engineer is on leave, Worldwide Materials hires a staffing company to furnish a worker to complete the engineer's projects. Worldwide Materials must report the engineer as a full-time position on the annual report. Worldwide Materials must also report the worker furnished by the staffing company as a temporary employment position and include the information as required in (b) of this subsection.

(v) Worldwide Materials allows three of its research employees to work on specific projects with a flexible schedule. These employees are not required to work a set amount of hours each week, but are expected to work twelve consecutive months. The three research employees are paid a comparable wage as other research employees who are required to work a set schedule of forty hours a week. Although the three research employees may work fewer hours, they are receiving comparable wages as other research employees working forty hours a week. Worldwide Materials must report these positions as full-time employment positions, because each position is equivalent to a full-time employment position.

(vi) Worldwide Materials has a large order to fulfill and hires ten employees for the months of June and July. Five of the employees leave at the end of July. Worldwide Materials decides to have the remaining five employees work on an on-call basis for the remainder of the year. As of December 31st, three of the employees are working for Worldwide Materials on an on-call basis. Worldwide Materials must report three temporary employment positions on the annual survey and include these positions in the information required in subsections (5), (8), and (9) of this section.

(8) **What are wages?** For the purposes of the annual survey, "wages" means compensation paid to an individual for personal services, whether denominated as wages, salary, commission, or otherwise as reported on the W-2 forms of employees. Stock options granted as compensation to employees are wages to the extent they are reported on the W-2 forms of the employees and are taken as a deduction for federal income tax purposes by the employer. The compensation of a proprietor or a partner is determined in one of two ways:

(a) If there is net income for federal income tax purposes, the amount reported subject to self-employment tax is the compensation.

(b) If there is no net income for federal income tax purposes, reasonable cash withdrawals or cash advances is the compensation.

(9) **What are employer-provided benefits?** The annual survey requires persons to report the number of employees that have employer-provided medical, dental, and retirement benefits, by each of the wage bands. An employee has employer-provided medical, dental, and retirement benefits if the employee is currently eligible to participate or receive the benefit. A benefit is "employer-provided" if the medical, dental, and retirement benefit is dependent on the employer's establishment or administration of the benefit. A benefit that is equally available to employees and the general public is not an "employer-provided" benefit.

(a) **What are medical benefits?** "Medical benefits" means compensation, not paid as wages, in the form of a health plan offered by an employer to its employees. A "health plan" means any plan, fund, or program established, maintained, or funded by an employer for the purpose of providing for its employees or their beneficiaries, through the purchase of insurance or otherwise, medical and/or dental care services.

(i) Health plans include any:

(A) "Employee welfare benefit plan" as defined by the Employee Retirement Income Security Act (ERISA);

(B) "Health plan" or "health benefit plan" as defined in RCW 48.43.005;

(C) Self-funded multiple employer welfare arrangement as defined in RCW 48.125.010;

(D) "Qualified health insurance" as defined in Section 35 of the Internal Revenue Code;

(E) "Archer MSA" as defined in Section 220 of the Internal Revenue Code;

(F) "Health savings plan" as defined in Section 223 of the Internal Revenue Code;

(G) "Health plan" qualifying under Section 213 of the Internal Revenue Code;

(H) Governmental plans; and

(I) Church plans.

(ii) "Health care services" means services offered or provided by health care facilities and health care providers relating to the prevention, cure, or treatment of illness, injury, or disease.

(b) **What are dental benefits?** "Dental benefits" means a dental health plan offered by an employer as a benefit to its employees. "Dental health plan" has the same meaning as "health plan" in (a) of this subsection, but is for the purpose of providing for employees or their beneficiaries, through the purchase of insurance or otherwise, dental care services. "Dental care services" means services offered or provided by health care facilities and health care providers relating to the prevention, cure, or treatment of illness, injury, or disease of human teeth, alveolar process, gums, or jaw.

(c) **What are retirement benefits?** "Retirement benefits" means compensation, not paid as wages, in the form of a retirement plan offered by an employer to its employees. An employer contribution to the retirement plan is not required for a retirement plan to be employer-provided. A "retirement plan" means any plan, account, deposit, annuity, or benefit, other than a life insurance policy, that provides for retirement income or deferred income to employees for periods after employment is terminated. The term includes pensions, annuities, stock bonus plans, employee stock ownership plans, profit sharing plans, self-employed retirement plans, individual retirement accounts, individual retirement annuities, and retirement bonds, as well as any other plan or program, without regard to its source of funding, and without regard to whether the retirement plan is a qualified plan meeting the guidelines established in the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code.

(d) **Examples.** Assume these facts for the following examples. Medical Resource, Inc. is a pharmaceutical manufacturer located in Spokane, WA. Medical Resource, Inc. claims the B&O tax credit provided by RCW 82.04.4452 for its research and development spending. It employs two hundred full-time employees and fifty part-time employees. Medical Resource, Inc. also hires a staffing company to furnish seventy-five workers.

(i) Medical Resource, Inc. offers its employees two different health plans as a medical benefit. Plan A is available at no cost to full-time employees. Employees are not eligible to participate in Plan A until completing thirty days of employment. Plan B costs employees $200 each month. Full-time and part-time employees are eligible for Plan B after six months of employment. One hundred full-time employees are enrolled in Plan A. One hundred full-time and part-time employees are enrolled in Plan B. Forty full-time and part-time employees chose not to enroll in either plan. Ten part-time employees are not yet eligible for either Plan A or Plan B. Medical Resource, Inc. must report two hundred employees as having employer-provided medical benefits, because this is the number of employees enrolled in the health plans it offers.

(ii) Medical Resource, Inc. does not offer medical benefits to the employees of the staffing company. However, twenty-five of these workers have enrolled in a health plan through the staffing company. Medical Resource, Inc. must report these twenty-five employment positions as having employer-provided medical benefits.

(iii) Medical Resource, Inc. does not offer its employees dental insurance, but has arranged with a group of dental providers to provide all employees with a 30% discount on any dental care service. No action, other than Medical Resource, Inc. employment, is required by employees to receive this benefit. Unlike the medical benefit, employees are eligible for the dental benefit as of the first day of employment. This benefit is not provided to the workers furnished by the staffing company. Medical Resource, Inc. must report two hundred and fifty employment positions as having dental benefits, because this is the number of employees enrolled in this dental plan.

(iv) Medical Resource, Inc. offers a 401(k) Plan to its full-time and part-time employees after six months of employment. Medical Resource, Inc. makes matching contributions to an employee's 401(k) Plan after two years of employment. On December 31st, two hundred and twenty-five workers are eligible to participate in the 401(k) Plan. Two hundred workers are enrolled in the 401(k) Plan. One hundred of these workers receive matching contributions. Medical Resource, Inc. must report two hundred employment positions as having employer-provided retirement benefits, because this is the number of employees enrolled in the 401(k) Plan.

(v) Medical Resource, Inc. coordinates with a bank to insert information in employee paycheck envelopes on the bank's Individual Retirement Account (IRA) options offered to bank customers. Employees who open an IRA with the bank can arrange to have their contributions directly deposited from their paychecks into their accounts. Fifty employees open IRAs with the bank. Medical Resource, Inc. cannot report that these fifty employees have employer-provided retirement benefits. IRAs are not an employer-provided benefit because the ability to establish the IRA is not dependent on Medical Resource, Inc.'s participation or sponsorship of the benefit.

(10) **Is the annual survey confidential?** The annual survey is subject to the confidentiality provisions of RCW 82.32.330. However, information on the amount of tax adjustment taken is not subject to the confidentiality provisions of RCW 82.32.330 and may be disclosed to the public upon request. More confidentiality provisions in regards to the annual surveys are as follows:

(a) **Failure to timely file a complete annual survey subject to disclosure.** If the following taxpayers fail to timely file a complete annual survey for claiming the tax adjustment, then the fact that such taxpayers fail to timely file a complete annual survey is not confidential:

(i) Persons receiving deferral of taxes under chapter 82.75 RCW on an eligible investment project in biotechnology products (RCW 82.32.645(6));

(ii) Persons claiming the B&O tax exemption provided by RCW 82.04.4266 for fruits and vegetables, RCW 82.04.4268 for dairy products, and RCW 82.04.4269 for seafood products (RCW 82.32.610(5)); and

(iii) Persons claiming the B&O tax credit provided by RCW 82.04.449 for customized employment training (RCW 82.32.650(5)).

(b) **Amount reported in annual survey is different from the amount claimed or allowed.** If the following taxpayers report a tax adjustment amount on the annual survey that is different than the amount actually claimed on the taxpayers' tax returns or otherwise allowed by the department, then the amount actually claimed or allowed may be disclosed:

(i) Persons claiming the high technology B&O tax credit provided by RCW 82.04.4452 (RCW 82.04.4452 (6)(d)(i));

(ii) Persons claiming the B&O tax credit provided by RCW 82.04.4487 for engaging in qualified preproduction development in the field of aeronautics (RCW 82.32.635 (2)(c));

(iii) Persons claiming the B&O tax rate provided by RCW 82.04.250(3) for FAR part 145 certificated repair stations (RCW 82.32.640 (2)(c)); and

(iv) Persons claiming the B&O tax rate provided by RCW 82.04.260(12) for timber products (RCW 82.32.630 (2)(d)).

(c) **Tax adjustment is less than ten thousand dollars.** If the tax adjustment of the following taxpayers is less than ten thousand dollars during the period covered by the annual survey, then such taxpayers may request the department to treat the tax adjustment as confidential under RCW 82.32.330. The request must be made for each survey in writing, dated and signed by the owner, corporate officer, partner, guardian, executor, receiver, administrator, or trustee of the business, and filed with the department's special programs division at the address provided above in subsection (3) of this section.

(i) Persons claiming the high technology B&O tax credit provided by RCW 82.04.4452 (RCW 82.04.4452 (6)(d)(ii));

(ii) Persons claiming the B&O tax credit provided by RCW 82.04.4487 for engaging in qualified preproduction development in the field of aeronautics (RCW 82.32.635 (2)(d));

(iii) Persons claiming the B&O tax rate provided by RCW 82.04.250(3) for FAR part 145 certificated repair stations (RCW 82.32.640 (2)(d)); and

(iv) Persons claiming the B&O tax rate provided by RCW 82.04.260(12) for timber products (RCW 82.32.630 (2)(e)).

(11) **What are the consequences for failing to timely file a complete annual survey?**

(a) **What is a "complete annual survey"?** An annual survey is complete if:

(i) The annual survey is filed on the form required by this section or in an electronic format as required by law; and

(ii) The person makes a good faith effort to substantially respond to all survey questions required by this section.

Responses such as "varied," "various," or "please contact for information" are not good faith responses to a question.

(b) **High technology business and occupation (B&O) tax credit.** If a person claiming the B&O tax credit provided by RCW 82.04.4452 for persons engaged in qualified research and development fails to timely file a complete annual survey by the date due, the person is not eligible to take or assign the credit in the year the person failed to timely complete the annual survey. See RCW 82.04.4452. For example, if a person claims the credit in 2006 but fails to file a complete annual survey by March 31, 2007, then the person is not eligible to take or assign the credit in 2007. If a person claims the B&O tax credit during this period of ineligibility, the department will declare the amount of taxes for which the credit was claimed during the period of ineligibility to be immediately due and payable with interest and penalties, as provided in chapter 82.32 RCW.

If a person fails to file the survey by the due date as the result of circumstances beyond the control of the taxpayer, the person may request a thirty-day extension of the due date. See WAC 458-20-228 for more information on circumstances beyond the control of the taxpayer. The request must be made in writing before the due date to the address provided in subsection (3)(c) of this section.

(c) **Tax deferrals for investment projects in rural counties.** If a recipient of the deferral fails to timely file a complete annual survey required under RCW 82.60.070 by the date due, 12.5% of the total deferred tax is immediately due. See RCW 82.60.070. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.60.020 (4), the lessee is responsible for payment to the extent the lessee has received the economic benefit. No penalties or interest will be assessed on the deferred sales/use tax; however, all other penalties and interest applicable to excise tax assessment may be assessed and imposed. For example, if a person fails to file a complete annual survey by March 31, 2007, then 12.5% of the total deferred tax is immediately due, with applicable penalties and interest beginning to accrue on the due date.

(d) **Tax deferrals for investment projects for high technology businesses.** If a recipient of the deferral fails to timely file a complete annual survey required under RCW 82.63.020 by the date due, 12.5% of the total deferred tax is immediately due with interest, but not penalties, as provided in chapter 82.32 RCW. See RCW 82.63.045. Interest is computed retroactively to the date the tax deferral was claimed and accrues until the liability is paid in full. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.63.010(7), the lessee is responsible for payment to the extent the lessee has received the economic benefit.

(e) **Business and occupation (B&O) tax exemption for fruit and vegetable, dairy product, and seafood product businesses.** If a person fails to timely file a complete annual survey for the B&O tax exemption under RCW 82.04.4266, 82.04.4268, or 82.04.4269 by the due date, the amount of taxes exempted for the previous calendar year is immediately due and payable. See RCW 82.32.610. Interest, but not penalties, applies to the amounts due under this subsection. The amount due must be calculated using a rate of 0.138%. Interest is computed retroactively to the date the tax exemption was claimed and accrues until the liability is paid in full.

If a person fails to file the survey by the due date as the result of circumstances beyond the control of the taxpayer, the person may request a thirty-day extension of the due date. See WAC 458-20-228 for more information on circumstances beyond the control of the taxpayer. The request must be made in writing before the due date to the address provided in subsection (3)(c) of this section.

(f) **Tax deferrals for investment projects for fruit and vegetable, dairy product, and seafood product businesses.** If a recipient of the deferral fails to file a complete annual survey required under RCW 82.74.040 by the date due, 12.5% of the total deferred tax is immediately due with interest, but not penalties, as provided in chapter 82.32 RCW. See RCW 82.74.040. Interest begins to accrue on the due date and accrues until the liability is paid in full. If the economic benefits of the deferral are passed to a lessee as provided in RCW 82.74.010(4), the lessee must be responsible for payment to the extent the lessee has received the economic benefit.

If a person fails to file the survey by the due date as the result of circumstances beyond the control of the taxpayer, the person may request a thirty-day extension of the due date. See WAC 458-20-228 for more information on circumstances beyond the control of the taxpayer. The request must be made in writing before the due date to the address provided in subsection (3)(c) of this section.

(g) **Tax deferrals for investment projects for biotechnology products.** If a recipient of the deferral fails to file a complete annual survey required under RCW 82.32.645 by the due date, 12.5% of the total deferred tax is immediately due with interest, but not penalties, as provided in chapter 82.32 RCW. See RCW 82.32.645. Interest begins to accrue on the due date and accrues until the liability is paid in full.

(h) **Business and occupation (B&O) tax credit for qualified preproduction development in the field of aeronautics under RCW 82.04.4487.** If a person fails to timely file a complete annual survey for the B&O tax credit under RCW 82.04.4487 by the due date, the amount of tax credit claimed for the previous calendar year is immediately due and payable. See RCW 82.32.635. Interest, but not penalties, applies to the amounts due under this subsection. Interest is computed retroactively to the date the tax credit was claimed and accrues until the liability is paid in full.

If a person fails to file the survey by the due date as the result of circumstances beyond the control of the taxpayer, the person may request a thirty-day extension of the due date. See WAC 458-20-228 for more information on circumstances beyond the control of the taxpayer. The request must be made in writing before the due date to the address provided in subsection (3)(c) of this section.

A person is not required to file a complete annual survey under this subsection if the person is required to and timely files the annual report under RCW 82.32.545.

(i) **Reduced business and occupation (B&O) tax rate for FAR part 145 certificated repair stations.** If a person fails to timely file a complete annual survey for the reduced B&O tax rate under RCW 82.04.250(3) by the due date, the amount of tax reduced for the previous calendar year is immediately due and payable. See RCW 82.32.640. Interest, but not penalties, applies to the amounts due under this subsection. Interest is computed retroactively to the date the reduced taxes were due and accrues until the liability is paid in full.

If a person fails to file the survey by due date as the result of circumstances beyond the control of the taxpayer, the person may request a thirty-day extension of the due date. See WAC 458-20-228 for more information on circumstances beyond the control of the taxpayer. The request must be made in writing before the due date to the address provided in subsection (3)(c) of this section.

(j) **Business and occupation (B&O) tax credit for customized employment training.** If a person fails to timely file a complete annual survey for the B&O tax credit under RCW 82.04.449 by the due date, the amount of tax credit claimed for the previous calendar year is immediately due and payable. See RCW 82.32.650. Interest, but not penalties, applies to the amounts due under this subsection. Interest is computed retroactively to the date the tax credit was claimed and accrues until the liability is paid in full.

If a person fails to file the survey by the due date as the result of circumstances beyond the control of the taxpayer, the person may request a thirty-day extension of the due date. See WAC 458-20-228 for more information on circumstances beyond the control of the taxpayer. The request must be made in writing before the due date to the address provided in subsection (3)(c) of this section.

(k) **Reduced business and occupation (B&O) tax credit for timber products.** If a person fails to timely file a complete annual survey for the reduced B&O tax rate under RCW 82.04.260(12) by the due date, the amount of tax reduced for the previous calendar year is immediately due and payable. See RCW 82.32.630. Interest, but not penalties, applies to the amounts due under this subsection. Interest is computed retroactively to the date the reduced taxes were due and accrues until the liability is paid in full.

If a person fails to file the survey by the due date as the result of circumstances beyond the control of the taxpayer, the person may request a thirty-day extension of the due date. See WAC 458-20-228 for more information on circumstances beyond the control of the taxpayer. The request must be made in writing before the due date to the address provided in subsection (3)(c) of this section.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 07-02-074, § 458-20-268, filed 12/29/06, effective 1/29/07.]

WAC 458-20-270 Telephone program excise tax rates. RCW 82.72.020 requires the department of revenue (department) to collect certain telephone program excise taxes. Those taxes include the tax on switched access lines imposed by RCW 43.20A.725 (telephone relay service—TRS) and 80.36.430 (Washington telephone assistance program—WTAP). Pursuant to those statutes, the department must annually determine the rate of each respective tax according to the statutory formulas.

The monthly telephone program excise tax rates per switched access line are as follows:

Period	TRS Rate	WTAP Rate
7/1/2005 - 6/30/2006	10 cents	14 cents
7/1/2006 - 6/30/2007	9 cents	14 cents
7/1/2007 - 6/30/2008	12 cents	14 cents
7/1/2008 - 6/30/2009	12 cents	13 cents

[Statutory Authority: RCW 82.32.300, 82.01.060(2), 43.20A.725, and 80.36.430. 08-16-054, § 458-20-270, filed 7/30/08, effective 8/30/08; 07-17-110, § 458-20-270, filed 8/17/07, effective 9/17/07; 06-16-137, § 458-20-270, filed 8/2/06, effective 9/2/06; 05-18-017, § 458-20-270, filed 8/26/05, effective 9/26/05.]

WAC 458-20-272 Tire fee—Core deposits or credits. (1) **Introduction.** This section describes the tire fee imposed under RCW 70.95.510 and the business and occupation (B&O), sales, and use tax consequences related to battery core charges and core deposits or credits, including the exemptions described in RCW 82.08.036 and 82.12.038.

(2) **Tire fee.**

(a) **What is the tire fee?** Beginning July 1, 2005, sellers must collect a one-dollar fee on every retail sale of each new replacement vehicle tire. If new tires are leased, the fee must be collected once at the beginning of the lease. The tire fee is effective until June 30, 2010.

(b) **How do I report the tire fee?** A seller must report on the excise tax return the number of new replacement vehicle tires sold. Tire sellers may retain ten percent of the fee and must remit the remainder to the department of revenue (department). As a result, the amount that must be reported and paid to the department is the number of new replacement vehicle tires sold during the tax reporting period multiplied by ninety cents.

(c) **What if the seller fails to collect the fee or does not pay the fee on time?** The seller is personally liable for payment of the fee, whether or not the fee is collected from the buyer. Any seller who appropriates or converts the fee collected to his or her own use or to any use other than the payment of the fee by the due date, minus the ten percent retained, is guilty of a gross misdemeanor. Interest and penalties apply to late payments. Refer to WAC 458-20-228 (Returns, remittances, penalties, extensions, interest, stay of collection) for more information.

(d) **What happens if a buyer fails to pay the fee?** The tire fee, until paid by the buyer to the seller or the department, is considered a debt from the buyer to the seller. Any buyer who refuses to pay the fee is guilty of a misdemeanor.

(e) **Is sales tax imposed on the tire fee?** No. The measure of the sales tax does not include the tire fee. See RCW 82.08.036.

(f) **Is the ten percent amount retained by the seller taxed?** Yes. The seller must report the retained amount as gross income under the service and other activities tax classification on the excise tax return.

(g) **What tires are subject to the tire fee?** All new replacement vehicle tires are subject to the tire fee. Refer to RCW 70.95.030 for the definition of "vehicle."

(i) Examples of vehicles for which new replacement tires are subject to the fee include:

(A) Automobiles;

(B) Trucks;

(C) Recreational vehicles;

(D) Trailers;

(E) All-terrain vehicles (ATVs);

(F) Agricultural vehicles, such as tractors or combines;

(G) Industrial vehicles, such as forklifts;

(H) Construction vehicles, such as loaders or graders; and

(I) Golf carts.

(ii) Bicycles, wheelbarrows, and hand trucks are examples of devices to which the new replacement tire fee does not apply.

(iii) The tire fee does not apply to the sale of retreaded vehicle tires. Nor does it apply to tires provided free of charge under the terms of a recall or warranty.

(h) **May I refund the fee if a tire is returned?** If a customer returns the purchased new tire and the entire selling price is refunded to the customer, the one-dollar tire fee is likewise refundable. The refunded amount may be claimed on the excise tax return in the same manner as refunded sales tax. If the seller does not refund the full sales price to the customer, the one-dollar fee is not refundable. Refer to WAC 458-20-108 (Returned goods, allowances, cash discounts) for more information.

(i) **Does the tire fee apply on sales to the federal government or Indians and Indian tribes?** The tire fee is not imposed on sales to the federal government and need not be collected by the seller. The tire fee does not apply to sales of tires delivered to enrolled members or tribes in "Indian country." Refer to WAC 458-20-190 and 458-20-192 for more information.

(j) **If the sale is exempt from sales tax, is the tire fee due?** Statutory exemptions from sales tax do not apply to the tire fee. The tire fee is due on every retail sale of a new replacement tire whether or not sales tax is due.

(3) **Core deposits or credits - Battery core charges.**

(a) **Definitions.** For purposes of this section, the following definitions apply:

(i) "Core deposits or credits" means the amount representing the value of returnable products such as batteries, starters, brakes, and other products with returnable value added for purposes of recycling or remanufacturing.

(ii) "Battery core charge" refers to a core deposit, not less than five dollars, which must by law be retained by the seller when a retail purchaser has no used battery to exchange or trade in. A buyer may return within thirty days of the purchase with a used battery of equivalent size and claim the core charge amount. See RCW 70.95.630 and 70.95.640.

(b) **How is tax calculated when the buyer receives a core deposit or credit?** Retail sales and use taxes do not apply to consideration received in the form of core deposits or credits when a purchaser exchanges or trades in a core for recycling or remanufacturing. Therefore, the measure of the sales or use tax may be reduced by the amount of the core deposit or credit. See RCW 82.08.036 and 82.12.038. The core deposit and credit exemptions apply only to the retail sales and use taxes. There is no equivalent exemption or deduction for B&O tax purposes. Therefore, the amount reported under the appropriate B&O tax classification must include the value of core deposits or credits.

(c) **Examples.** This subsection provides examples that identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The tax results of other situations must be determined after a review of all of the facts and circumstances.

(i) **Example 1.** A customer purchases at retail a new replacement battery and reconditioned starter, providing the seller with a battery core and a starter core in exchange. The selling price of the new battery, including the battery core charge, is $60.00. The customer is allowed a $5.00 credit because a battery core is exchanged, meaning the cost of the battery to the customer, excluding sales tax, is $55.00. The selling price of the starter is $50.00. The seller allows a $3.00 credit for the starter core, meaning the cost to the customer, excluding sales tax, is $47.00. Retailing B&O tax is due upon the total value of cash plus core value, in this case $110.00, or $60.00 plus $50.00. However, the $8.00 of core deposits or credits may be deducted from the measure of the retail sales tax under RCW 82.08.036. Thus, retail sales tax is due on $102.00, or $55.00 plus $47.00.

(ii) **Example 2.** The seller delivers the starter and battery cores accepted in the exchange to wholesalers. A starter wholesaler issues a refund and a battery wholesaler issues a credit memorandum to be applied against future wholesale battery purchases. The return of the used products by the auto parts store for recycling or remanufacturing and subsequent receipt of a refund or credit for the core deposit or credit is not considered taxable consideration for purposes of the B&O tax.

[Statutory Authority: RCW 82.32.330, 82.01.060(2), and 34.05.230. 06-12-017, § 458-20-272, filed 5/26/06, effective 6/26/06.]

WAC 458-20-273 Renewable energy system cost recovery. The customer investment cost recovery incentive payment ("incentive payment") covers the purchase and use of renewable energy systems that produce electricity, such as: Solar energy systems, wind generators, and certain types of anaerobic digesters that process manure from cattle into biogas and dried manure using microorganisms in a closed oxygen-free container. Any individual, business, or local government that purchases and uses such a system may apply for an incentive payment from the light and power business that serves their property. Your light and power business may make payment to you in the form of a credit offsetting the amount you owe on your power bill. The light and power business then gets a credit on its public utility tax for the amount it pays to customers as incentive payments. The department of revenue is not regulating light and power businesses; it is only administering a tax credit program relating to the public utility tax. Therefore, the department will only audit light and power businesses to determine whether their claimed credit amount equals the amount of the total of customers' incentive payments, whether they proportionally reduced the payments to each customer by an equal percentage if the limit of total allowed payments is reached, and whether the customer payments are based on measured production of the renewable energy systems. A light and power or gas distribution business will not qualify for an incentive payment. This program applies to measured customers' renewable energy system kilowatt-hours generated between July 1, 2005, and June 30, 2014.

The purpose of the law creating this incentive payment program is to develop a market for renewable energy systems and to promote the manufacture of these systems in Washington state. To facilitate this purpose, these regulations are written to facilitate prospective customers of renewable energy systems in the purchase and use of their systems, in conjunction with the incentive payment program.

(1) **What is my first step as a possible customer of a renewable energy system?** First, contact the light and power business serving your property to confirm it is participating in this incentive payment program. Participation by light and power businesses is discretionary. Further, ask your light and power business for a copy of its procedural requirements and application for participating in this incentive payment program. Only your light and power business has the authority to determine whether your incentive payment will be authorized or denied.

(2) **How do I certify my renewable energy system?** After contacting your light and power business, you must apply for a system certification to the department of revenue. The department of revenue will consult with the climate and rural energy development center at Washington State University's energy extension regarding your certification request. The certification form can be downloaded from the department of revenue's web site located at: dor.wa.gov, or may be obtained by calling the department at: 1-800-647-7706. The certification form requires certain verifiable information, including the following:

(a) Your name, address, and the address of the renewable energy system;

(b) Your department of revenue tax registration number, which will automatically be assigned to individuals when they submit their application and is a business' present UBI number (do not use your Social Security number or your federal employer's identification number);

(c) Your statement that your renewable energy system generating electricity is located on your own real property and that your property is also served by a participating light and power business;

(d) Your statement that the electricity you produce on your own renewable energy system does not include electricity generated by a light and power business or a gas distribution business;

(e) You must also state that your renewable energy electric generation system uses:

• Any solar inverter or modules manufactured in Washington state;

• A wind generator powered by blades manufactured in Washington state;

• A solar inverter manufactured in Washington state;

• A solar module manufactured in Washington state;

• Solar or wind equipment manufactured outside Washington state; or

• An anaerobic digester which processes manure from cattle into biogas and dried manure using microorganisms in a closed oxygen-free container.

(f) You must also state that your own generated electricity can be transformed or transmitted for entry into or operation in parallel with electric transmission and distribution systems;

(g) The date that your local jurisdiction issued its final electrical permit on your renewable energy system;

(h) Your statement that you understand that this information is provided to the department of revenue in determining whether the light and power business correctly calculates its credit allowed for customer incentive payments and that your statements are true, complete, and correct to the best of your knowledge and belief under penalty of perjury; and

(i) If you have just purchased a property with a certified renewable energy system, you must reapply for certification as the new owner.

(3) **How long will it take before I receive notification of whether the department of revenue, in consultation with the climate and rural energy development center at Washington State University's energy extension, has approved the request for my system's certification?** The department of revenue will notify you in writing within thirty days whether your request for system certification qualifies for the incentive payment program. Certification is merely an administrative and preliminary step, however, and ultimately it is the application procedure with the light and power business that serves your property which will determine whether your incentive payment is authorized or denied.

(4) **After the department of revenue approves my system's certification, how do I apply for my incentive payment?** The next step is to apply for your incentive payment from the light and power business that serves the property you own, on which the renewable energy system is located. You must annually apply by August 1st of each calendar year. The department of revenue will create an application form for use by customers when applying for the incentive payment with their light and power business. However, individual light and power businesses may create their own forms or use the department's form in conjunction with their additional addendums. Further, your light and power business has the authority to verify and make separate determinations on the matters covered in your earlier certification with the department of revenue. If your light and power business finds the certification process made an error in determining whether your renewable energy system's generated electricity can be transformed or transmitted for entry into or operation in parallel with electricity transmission and distribution systems, then the determination by the light and power business shall be controlling and it has the authority to decertify your system.

There is a special transition rule for the first annual period from July 1, 2005, through June 30, 2006. For only the first year of the incentive program, recognizing that each utility will establish its own procedures and requirements for metering the output of customers' renewable energy systems, the department will accept kWh production readings taken from the inverter or from an owner installed production meter. The owner must report the reading of the meter from July 1, 2005 (or make a good-faith estimation if no reading exists) and the reading on June 30, 2006. Your June 30, 2006 reading may be relied upon by your light and power business as the first reading for the subsequent year July 1, 2006, through June 30, 2007. Further, if your light and power business decides to replace your production meter during the subsequent year July 1, 2006, through June 30, 2007, it may rely on the last reading on your prior meter before it's replaced. You must also report the array size in DC watts. This

information will be used to validate reported watt hours for the first year. Your participating light and power business is not required to perform independent reading or monitoring of your system's electric generation during the first year. Further, for the first year only, the light and power business serving your property shall have one hundred twenty days to notify you whether your incentive payment is authorized or denied and shall process your annual payment, if any, by January 31, 2007. You must file your request for system certification with the department of revenue no later than September 30, 2006. Each light and power business will decide its own deadline for submission of your annual application for incentive payment during this first year.

Some of the verifiable information you must provide includes:

• Your name, address, and the address of the renewable energy system;

• Your department of revenue tax registration number, which will automatically be assigned to individuals when they submit their certification request described above and is a business' present UBI number (do not use your Social Security number or your federal employer's identification number);

• The date of the letter from the department of revenue certifying that your renewable energy system is eligible for incentive payments;

• Your statement that your system has been operable throughout the year and that your light and power business will be allowed reasonable access to read your electric production meter for your system in order to calculate the kilowatt-hours generated by your renewable energy system during the prior fiscal year beginning July 1st and ending on June 30th; and

• Your statement that you understand that this information is provided to the department of revenue in determining whether the light and power business correctly calculates its credit allowed for customer incentive payments and that your statements are true, complete, and correct to the best of your knowledge and belief under penalty of perjury.

The light and power business serving your property has the authority to request other information it believes is necessary in making its determinations under the incentive payment program.

(5) **What are the possible procedures you and your light and power business may follow in setting up your incentive payments?** Recommended procedures you should follow when requesting your light and power businesses to set up your incentive payments and the possible procedures your light and power business may follow are as follows:

• First, since participation under this incentive program is voluntary for light and power businesses, contact the light and power business serving your property and ask whether it is participating and what application procedures you must follow.

• If your light and power business is participating in the incentive program, then you submit an application to your light and power business.

• You submit to your light and power business proof that your renewable energy system is certified by the department of revenue for the incentive payment program.

• You submit to the light and power business a copy of the approved certification and letter from the department of revenue. You should submit this information to the light and power business before August 1st in order to receive payment for any production that occurred prior to July 1st.

• If your light and power business approves your application, then it will require a signed agreement that it will provide to you.

• You or your licensed electrical contractor or certified electrician obtain an electrical permit and install the system. (A licensed electrical contractor or certified electrician must install the system, unless you perform the work yourself on your home with the help of an uncompensated volunteer who assists you. See WAC 296-46B-925(13) for guidance on the proper installation of your system.)

• Once installation is complete your renewable energy system must pass a final electrical inspection from the local code official.

• Your local light and power business will send a utility serviceman to inspect your system and may install an electric production meter if one meeting its qualifications is not already installed.

• Your production meter is read by the light and power business at least annually and it processes your annual incentive payment.

• Your light and power business notifies you within sixty days whether your incentive payment is authorized or denied.

• Your light and power business calculates annual production payments based on the meter reading or readings made prior to the accounting date of July 1st.

• Your incentive payment check (or credit to your account) is sent to you by your light and power business on or before December 15th.

(6) **What is the formal agreement between me and my light and power business?** The formal agreement between you and the light and power business serving your property governs the relationship between you and your light and power business. This document may:

• Contain the necessary safety requirements and interconnection standards;

• Allow the light and power business the contractual right to review your substantiation documents for four years, upon five working days' notice;

• Allow the light and power business the contractual right to assess against you, with interest, for any overpayment of incentive payments made to you;

• Delineate any extra metering costs for an electric production meter to be installed on your property;

• Contain a statement allowing the department of revenue to send proof of your system's certification electronically to your light and power business, which will include your department of revenue taxpayer's identification number; and

• Contain other information required by the light and power business to effectuate and properly process your incentive payment.

(7) **How long will it take before I receive notification as to whether the light and power business that serves my property has approved my incentive payment?** The light and power business that serves your property has sixty days to notify you in writing as to whether your request for an incentive payment is authorized or denied.

(8) **How is my incentive payment calculated?** Your incentive payment is calculated using a formula. First the incentive payment may be paid at fifteen cents per "economic development kilowatt-hour." An economic development kilowatt-hour is the actual kilowatt-hour measurement of your generated electricity multiplied by the appropriate economic development factor. The economic development factors, which you multiply to the base rate of fifteen cents per actual kilowatt hours that your renewable energy system produces, are:

• Two and four tenths (2.4) if your system generates electricity using only solar modules manufactured in Washington;

• One and two tenths (1.2) if your solar or wind system uses an inverter manufactured in Washington;

• One (1.0) if your wind system uses only blades manufactured in Washington, or if your system is an anaerobic digester, or if your solar system is other than described above; and

• Eight tenths (0.8) if your system is a wind generator with blades not manufactured in Washington.

The following table describes the application of the economic development factors. The actual incentive payment you receive must be computed using your renewable energy system's actual measured electric kilowatt-hours generated.

Annual Investment Cost Recovery Incentive Payment Calculation Table

Customer-generated power Applicable rates	Base rate (0.15) multiplied by applicable factor equals incentive payment rate	Kilowatt-hours generated	Incentive payment amount equals incentive payment rate multiplied by kilowatt-hours generated
Solar modules manufactured in Washington state **Factor: 2.4** (two and four-tenths)	$0.36		
Solar or wind generating equipment with an inverter manufactured in Washington state **Factor: 1.2** (one and two-tenths)	$0.18		
Anaerobic digester or other solar equipment or wind generator equipped with blades manufactured in Washington state **Factor: 1.0** (one)	$0.15		
All other electricity produced by wind **Factor: 0.8** (eight-tenths)	$0.12		

(9) **Are the factors for systems cumulative?** The factors are cumulative. For example, if your system is solar and has both solar modules and an inverter manufactured in Washington state, you would compute your economic development hours by using the factor three and six tenths (3.6) (computed 2.4 plus 1.2). Therefore you would multiply the fifteen cent base rate per actual kilowatt-hour generated by your system by three and six tenths (3.6) to get your incentive payment rate.

(10) **What is the definition of the phrase: Manufactured in Washington state?** The department of revenue defines manufacturing in WAC 458-20-136. Of particular interest is WAC 458-20-136(7), which defines when assembly constitutes manufacturing. The department of revenue, in consultation with the climate and rural energy development center at Washington State University's energy extension, will apply this rule on manufacturing when analyzing your request for certification. Further, the climate and rural development center at Washington State University's energy extension may establish guidelines and standards for technologies that are identified as Washington manufactured and therefore most beneficial to the state's environment.

For systems installed after the date these rules are adopted, your manufacturer must supply you with a statement delineating your system's level of manufacture in the state of Washington. This manufacturer's statement must be specific as to what processes were carried out in Washington state to qualify the system for one or more of the multiplying factors discussed in subsection (8) of this section. The manufacturer's statement must be under penalty of perjury and specifically state that the manufacturer understands that the department of revenue will use the statement in deciding whether customer incentive payments and corresponding tax credits are allowed under the renewable energy system cost recovery incentive payment program. You must retain this documentation for five years after the receipt of your last incentive payment from your light and power business.

(11) **What are the limitations on the incentive payments?** No individual, business, or local governmental entity is eligible for incentive payments in excess of two thousand dollars per year. However, as an example, if a customer installs a system on his or her home and then further installs two other separate systems on two separate business properties with different UBI numbers, then the customer is

allowed the full two thousand dollar annual limit of the incentive payments for each property owned by an individual and each of the two separate businesses. In this example there are three qualifying systems on three separate properties owned by three separate entities allowing the full two thousand dollar limit on all three properties. If, however, the two business properties belong to only one business operating under one UBI number, then there are only allowed incentive payments up to the two thousand dollar annual limit for his or her home and for the one business. This is true even if the business operates from more than one location with qualifying renewable energy systems at each location because the two thousand dollar annual limit is allowed once to each individual and each business. Thus, in this case the individual and his or her one business are each only allowed one full two thousand dollar annual limit on their qualifying properties.

The issuing of incentive payments by participating light and power businesses is limited by the greater of:

(a) Twenty-five one hundredths of one percent (0.25%) of the light and power business' prior year's taxable sales under Washington state's law; or

(b) Twenty-five thousand dollars ($25,000.00).

Based on this public utility tax credit limitation, your and all other qualifying customers' incentive payments may be proportionally reduced.

The light and power business must measure the actual kilowatt-hours of your renewable energy system's generated electricity using an electric production meter. If your renewable energy system is a hybrid system of combined solar and wind, it will be classified as a solely wind system for purposes of the incentive payment program, unless the solar and wind productions are separately metered. Systems that are interconnected to gas, diesel, ethanol, natural gas or other similarly fueled generators do not qualify for the incentive payment program. If a customer has an older system not manufactured in Washington and a separate new system manufactured in Washington on the same property, both systems will be classified as not made in Washington, unless the old and new systems' production are separately metered.

(12) **Does the light and power business serving my property have to participate in the incentive payment program?** No, each light and power business will have the discretion to decide whether to be part of the incentive payment program.

(13) **If I install a qualified renewable energy system on the apartment building where I am a tenant, can I submit for incentive payments?** No, you must own the property which is served by your renewable energy system. Even if your renewable energy system meets all requirements, except that it is installed on a building where you have a leasehold interest, it will not qualify for incentive payments.

(14) **May an individual, business, or local governmental entity involved in the light and power business or in the gas distribution business apply for incentive payments?** No, the law excludes both light and power businesses and gas distribution businesses from participating in the incentive payment program.

(15) **Must I retain all my records, which substantiate my claim of eligibility for incentive payments?** Yes, you and all other customers applying for and receiving incentive payments must retain the records substantiating your right to receive the incentive payments and the correct amount for five years. The light and power business that made the payment or the department of revenue may examine the records upon five working days' notice. If the records show that you received an overpayment, the light and power business may assess you for the amount of the overpayment. Conversely, if an underpayment has occurred, the light and power business may authorize a further payment to cover the prior deficiency. Interest will be added to overpayments of incentive payments to you and other customers. The amount of interest you would owe on an overpayment is calculated in the same manner that the department of revenue assesses interest upon delinquent taxes under RCW 82.32.050.

(16) **Is there also a public utility tax credit associated with the incentive payments?** Yes, the tax credit is for the benefit of the participating light and power business. Your light and power company is allowed a credit on its Washington state public utility taxes equal to the actual amount paid out as incentive payments to its customers under this law. The maximum amount of this credit is limited (see subsection (11) of this section).

(17) **Does the department of revenue consider the incentive payment I receive taxable income?** No, the department of revenue characterized the payment you receive, paid by your light and power company, as a subsidy or rebate for the purchase or installation of an energy conservation measure. Therefore, the department does not characterize the incentive payment as income under Washington state's law.

(18) **How is my incentive payment from the light and power business handled if the incentive is paid in the form of a credit against my power bill?** If your light and power business chooses this method, your incentive payment will be shown on your customer billing statement as a credit offsetting the amount you owe to the light and power business. The incentive payment is not a discount. Thus, the light and power business will only be allowed to claim a public utility tax credit for the incentive payments actually made, and is not also allowed a discount deduction.

(19) **Is the federal government eligible to participate in the incentive payment program?** No, only individuals, businesses, and local governments whose properties and renewable energy systems are located in the state of Washington are eligible to participate in the incentive payment program.

(20) **Are individuals, businesses and local governments that are not interconnected to the electric transmission and distribution system and who are not customers of a light and power business eligible for the incentive payment program?** No, only qualifying renewable energy systems located on interconnected properties belonging to customers of a light and power business are eligible for participation in the incentive payment program. The term property means within the established boundaries of the lot served by the light and power business. However, the renewable energy system generating the electricity does not itself have to be interconnected to the electric transmission and distribution system as long as it is located on a property served by a light and power business.

For example, if a customer of a light and power business living in a home connected to the power grid builds a studio addition served by a renewable energy system that is not connected to the power grid, that customer is eligible for the incentive payment program.

Another example, if a customer of a light and power business owning a manufacturing facility connected to the power grid builds an unattached vehicle garage on the same lot that the factory is located and the garage is not interconnected, the renewable energy system supplying electricity to this garage is eligible for the incentive payment program.

If the facts are the same as above, but the manufacturing facility's owner buys a new lot across the street and the only improvement on this separate lot is the unattached vehicle garage that is not connected to the power grid, then the renewable energy system attached to the garage would not be eligible for the incentive payment program.

(21) **Does the law require that light and power businesses serving eighty percent of the total customer load in the state adopt uniform standards for interconnection to the electric distribution system and if so, how does that affect me as a customer?** Yes, the law does require that light and power businesses serving eighty percent of the total customer load in the state adopt uniform standards for interconnection to the electric distribution system. However, the renewable energy tax credit implementation advisory committee, consisting of the department of revenue, department of community, trade, and economic development, utilities and transportation commission, and the climate and rural energy development center at Washington State University's energy extension, has made a determination that for purposes of this incentive payment program, that the customer load requirement has been met. This decision, once made, is binding for the incentive payment program until its expiration, including any possible extensions. Thus, this requirement has no effect on any customer, when deciding whether to participate in this incentive payment program.

[Statutory Authority: RCW 82.32.300 and 82.01.060. 06-16-097, § 458-20-273, filed 7/31/06, effective 8/31/06.]

WAC 458-20-274 Staffing services. (1) **Introduction.** This rule explains the application of business and occupation (B&O) tax, public utility tax (PUT); and the retail sales tax collection responsibilities of staffing businesses providing staffing services.

(2) **To whom does this rule apply?** This rule applies to any person engaged in the business activity of providing staffing services. This section does not apply to persons providing professional employer services. Persons providing professional employer services should refer to RCW 82.04.540 for information on their tax-reporting responsibilities.

(3) **What is the definition of a staffing business and staffing services?** A "staffing business" is a person engaged in the business activity of providing staffing services. "Staffing services" means services consisting of a person:

• Recruiting and hiring its own employees;

• Finding other organizations that need the services of those employees;

• Assigning those employees on a temporary basis to perform work at or services for the other organizations to support or supplement the other organizations' work forces, or to provide assistance in special work situations such as, but not limited to, employee absences, skill shortages, seasonal workloads, or to perform special assignments or projects, all under the direction and supervision of the customer; and

• Customarily attempting to reassign the employees to other organizations when they finish each assignment.

(4) **Generally, what kinds of business activities are workers assigned by a staffing business?** Business activities may include, but are not limited to, services rendered with respect to:

• Construction (both custom and speculative);

• Customer software design and implementation;

• Manufacturing and light industrial activities;

• Professional services including medical and clerical; and

• Other skilled and unskilled labor.

(5) **Is the gross income received by a staffing business subject to Washington tax?** Yes, the gross income received by a staffing business is subject to B&O and/or PUT tax.

(6) **Is the tax paid by a staffing business or is the tax collected from the client to whom the workers are assigned?**

• B&O tax and/or PUT are paid by the staffing business.

• When the activity of the assigned worker is a retail sale, retail sales tax must be collected from the client unless a specific exemption or exclusion, such as the activity being a sale for resale, applies. The collected tax is paid by the staffing business to the department.

(7) **May a staffing business deduct payroll and other business expenses from gross income?**

• Chapters 82.04 and 82.16 RCW provide limited deductions from the B&O tax and PUT.

• The requirements of each specific deduction or exemption must be met to qualify for the deduction or exemption.

• Generally, amounts paid to the worker, amounts deducted for payroll taxes, or any other expenses paid or accrued may not be deducted by a staffing business.

• But income received for work performed outside the state may be deducted from gross income for B&O tax purposes. Similarly, an interstate haul is deducted from the PUT.

• Bad debts on which tax has been paid and which may be written off for federal tax purposes may be deducted from the gross income of both B&O and PUT.

• Exemptions, deductions and special tax rates that may apply to the client do not automatically also apply to the staffing business.

• **Example 1.**

– Under the Revenue Act, certain nonprofit hospitals may qualify for a B&O tax deduction for income received through medicare.

– Also, nonprofit and public hospitals are taxable under a special B&O tax classification.

– However, because the staffing business does not meet the criteria for the B&O tax deduction for income received through medicare or, for the B&O tax special nonprofit hospital classification, the income received by a staffing business from assigning physicians, nurses, or other health care workers to the hospital is taxable under the service and other activities classification.

• **Example 2.**

– Similarly, the Revenue Act exempts from B&O tax income received by licensed adult family homes.

– However, the gross income received by a staffing business from assigning a health care worker to the adult family home is taxable under the service and other activities B&O tax classification.

(8) **What if an activity is not subject to sales tax because it is a sale for resale?**

• When a service that would otherwise be a retail sale is performed for a person that resells that service, such as construction work performed for a general contractor, sales tax is not collected when the staffing business receives a completed resale certificate from the client reselling the service.

• When a resale certificate is received, the staffing business must report such charges for the worker under the wholesaling B&O tax classification. (See WAC 458-20-102 for more information about resale certificates.)

(9) **What is the tax rate?**

• The B&O tax rate and/or the PUT rate is determined by the classification of the activity engaged in by the assigned worker.

• The retail sales tax rate is determined, generally, by the location of where the retail sale is performed. See WAC 458-20-145.

(10) **If the B&O tax rate is determined by the B&O tax classification, who determines or identifies the correct classification?**

• It is the responsibility of the staffing business to determine or identify the applicable B&O tax classification for the activity performed by the assigned worker.

• This determination should be made prior to dispatching the worker to the customer.

• It is important for the staffing business to know whether retail sales tax should be collected from the customer, or if a resale certificate exemption certificate or other documentation should be received from the customer as evidence of a sales tax exemption.

(11) **Is the proper B&O tax classification as reported by the staffing business always the same classification as reported by the client customer to whom the worker is assigned?**

• Regardless of the nature of the customer's business, the staffing business looks to the activity engaged in by the worker assigned.

• The staffing business should not assume that the income it receives through the activities of its workers is taxable under the same classification that the customer reports.

• It is the activity of each worker, not the reporting classification of the customer that determines the tax classification.

• **Example:**

– A person operating an insurance agency is taxable under the insurance agents B&O tax classification.

– If the staffing business assigns a receptionist for the insurance agency, the gross income received for the receptionist's services is subject to B&O tax under the service and other activities classification. The service classification applies because the receptionist is not providing services under the authority of an insurance agent's license.

– However, if the staffing business assigns a worker licensed as an insurance agent to an insurance agency, and the licensed insurance agent performs services under the authority of his/her license, the related income is taxable under the insurance agents B&O tax classification.

(12) **What are the major B&O tax classifications?** The major B&O tax classifications include:

• Retailing.
• Wholesaling.
• Manufacturing.
• Processing for hire.
• Service and other activities.
• Stevedoring.
• Travel agent activities.

(13) **Where can I get a description of the activities included in the major B&O tax classification? Where can I get a complete list of the B&O tax classifications and more information?**

• The department's *Staffing Industry Guide* provides detailed information on the staffing industry and includes a description of the activities included in the major B&O tax classifications. The *Staffing Industry Guide* is located on the department's web site http://dor.wa.gov/

• A complete list of the B&O tax classifications and more information about the B&O and PUT can be found on the department's web site http://dor.wa.gov/

(14) **What is the public utility tax (PUT)? What are the major classifications of PUT?**

• The public utility tax is a tax on gross receipts, similar to the B&O tax.

• It applies to most utility services, such as water, power, and gas distribution, and sewerage collection.

• It also applies to providing transportation of persons or property for hire within five miles of the city limits (urban transportation classification) and beyond (motor transportation classification).

– These classifications apply whether or not the person performing the work owns the vehicle with which the activity is being performed.

– Examples include taxi cab service, limousine service, and hauling goods belonging to others (hauling for hire).

(15) **How is income reported when the assigned worker is engaging in more than one activity?**

• An assigned worker provided by a staffing business to a client may engage in several different activities while on the same job.

• The different activities may be taxable under separate B&O tax and/or PUT classifications.

• If the staffing business separates the amounts it charges the client by activities, the separated charges are reported.

• If the staffing business does not separate its charge to the client the charge is reported under the classification of the predominant activity.

• "Predominant activity" for two worker activities is when more than fifty percent of the worker's time is spent working in one tax classified activity.

• "Predominant activity" for more than two worker activities is the activity the worker spends the greatest amount of time doing.

• When two or more workers, engaged in different activities, are assigned to one client, the charge for each worker is reported based on the predominant activity of each individual worker.

• **Example 1:**

– A staffing business assigns a housekeeper whose primary job is to clean an apartment (subject to the service and other activities B&O tax classification).

– The job also calls for the housekeeper to prepare one meal per day (subject to retailing B&O tax and retail sales tax).

– The majority (over half) of the time spent is associated with the housekeeping service (apartment cleaning - subject to the service and other activities B&O tax classification).

– No segregated charge is made for the preparation of the meal.

– In this case, the predominant activity is cleaning the apartment.

– Therefore, the gross income received by staffing business from the charge to the client is reportable under the service and other activities B&O tax classification. Retail sales tax will not apply.

• **Example 2:**

– A staffing business assigns a construction worker to a client that is a developer/property owner performing construction-related services (subject to retailing B&O tax and retail sales tax).

– The assigned worker has a commercial driver's license and is only occasionally required to drive the client's truck within the city to pick up a load of gravel (an activity subject to the urban transportation PUT classification).

– The worker also spends about one hour per day helping in the office.

– The predominant activity is the retailing activity of performing construction work because the greatest amount of time is spent performing retailing construction work.

– The staffing business has not segregated charge for the other lesser activities.

– In this case, the staffing business reports the gross amount charged to the client under the retailing B&O tax classification. Additionally, the staffing business must also collect from the client retail sales tax measured by the gross charge to the client.

• **Example 3:**

– Same facts as Example 2, except the staffing business also provides a receptionist to the client (developer/property owner).

– As demonstrated in Example 2, the staffing business is subject to the retailing B&O tax on the gross amount charged to the client for work done by the construction worker; and retail sales tax must be collected on this charge.

– However, the staffing business is subject to service and other activities B&O tax on the gross amount charged to the client for the receptionist's work. The service and other activities B&O tax classification is the proper classification notwithstanding the client reports under the retailing classification.

(16) **Is the staffing business required to keep documentation of the activities their assigned workers performed?**

• The staffing business must keep documentation showing what services their assigned workers performed.

• All available information should be recorded concurrently with the assignment of the worker and the charge for the service.

• It is important that the client's labor and skill requirements are detailed up front as much as possible prior to dispatch.

• This is particularly important for purposes of billing retail sales tax.

• Documentation may be in the form of a copy of a client order or other documented request by a client for a worker.

• The documentation must state the specific work to be performed, and/or the worker skills requested by the client.

• If the client's request comes in by telephone, the staffing business should ask exactly what type of services are required and write them down on an order form, or as a memo to the client's file.

• Also, the worker can provide a written explanation of the services actually performed.

• Documentation to support the B&O tax classification must be sufficiently detailed to support the classification reported.

• The classification of primary interest to the client is retailing. Only under retailing is the staffing company, as seller of the service, required to collect retail sales tax from the client.

• Any other classification which does not directly impact the client may be of less interest to the client. Nevertheless, because the rates may vary between classifications, it is in the person providing staffing service's best interest to gather enough information to classify all services correctly.

• If, subsequent to filing a return, it is later determined that income has been incorrectly classified, amended returns should be submitted to the department to make the appropriate adjustment.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 07-17-132, § 458-20-274, filed 8/20/07, effective 9/20/07.]

WAC 458-20-277 Certified service providers—Compensation. (1) **Introduction.** This section explains compensation paid to certified service providers (CSPs) as defined in Substitute Senate Bill No. 5089 (SSB 5089), chapter 6, Laws of 2007 and RCW 82.58.080. The section also lists rights and responsibilities applicable to these CSPs when collecting and remitting retail sales and use taxes in Washington. On March 22, 2007, Washington enacted SSB 5089, a legislative package that brings Washington's sales and use tax laws into conformity with the streamlined sales and use tax agreement (SSUTA). For more information concerning the SSUTA, visit http://www.streamlinedsalestax.org. The web sites referenced in this section are not maintained by Washington or the department of revenue (department). These referenced web sites may contain recommendations that require a change to Washington law prior to becoming effective in Washington.

(2) **CSP compensation for volunteer sellers.**

(a) **What is a CSP?** A CSP is an agent of the seller certified under the SSUTA to perform all of a seller's retail sales and use tax functions, other than the seller's obligation to remit retail sales and use tax on its own purchases. For more information concerning CSP certification or a list of current CSPs, visit the SSUTA web site located at: http://www.streamlinedsalestax.org.

(b) **What is a volunteer seller?** A volunteer seller is any seller that has selected a CSP, as agent, to perform all of that seller's retail sales and use tax functions, other than the obligation to remit retail sales and use tax on the seller's own purchases and who has voluntarily registered through the SSUTA central registration system (CRS) in accordance with the terms of the CSP contract (CSP contract). The CSP contract is the agreement executed between each CSP and the streamlined sales tax governing board under which CSPs perform services in SSUTA associate and member states.

(c) **What are member states and associate member states?** Member states are those states that have petitioned and been granted full membership under the SSUTA. Associate member states are those states that have petitioned and been designated associate member status under the SSUTA. Washington became an associate member state on July 1, 2007. Washington has been granted full membership status as of July 1, 2008. For a list of the current member and associate member states, visit the SSUTA web site at: http://www.streamlinedsalestax.org.

(d) **What are monetary allowances?** As a condition of becoming an associate member and member state, Washington has agreed to permit CSPs to act as agents for sellers in collecting and remitting sales and use taxes in Washington. Washington has agreed to provide monetary allowances to CSPs acting as agents for volunteer sellers. A CSP will obtain these monetary allowances by retaining a portion of the Washington retail sales and use tax they collect. However, monetary allowances will not reduce the retail sales and use taxes collected for and remitted to local taxing jurisdictions. The calculation of these monetary allowances is discussed in subsection (3) of this section.

(e) **What is a certified automated system (CAS)?** A certified automated system is software certified by Washington under the SSUTA: To calculate the sales and use tax imposed by each taxing jurisdiction on a transaction; to determine the amount of tax to remit; and to maintain a record of the transaction.

(3) **How are monetary allowances calculated?** The formula for determining monetary allowances is set forth in the CSP contract. This monetary allowance is the CSP's sole form of compensation with respect to volunteer sellers during the term of the CSP contract and is the same with respect to all CSPs.

This monetary allowance is calculated by using the following formula: (The combined volume of taxes due to all member and associate member states from a volunteer seller in such capacity) multiplied by (the applicable base rate). Simply stated, the formula is (combined collected taxes) x (base rate). Affiliated volunteer sellers will be treated as a single volunteer seller if they are related persons under 267(b) or 707(b) of the United States Internal Revenue Code. The base rate resets annually. Table A below sets forth the schedule for "combined collected taxes" and the applicable "base rate":

Table A

Combined Collected Taxes:			Base Rate:
$0.00	-	$250,000	8%
$250,000.01	-	$1,000,000	7%
$1,000,000.01	-	$2,500,000	6%
$2,500,000.01	-	$5,000,000	5%
$5,000,000.01	-	$10,000,000	4%
$10,000,000.01	-	$25,000,000	3%
Over $25,000,000.01			2%

(a) **Can volunteer sellers lose volunteer seller status?** Volunteer seller status ceases when the seller conducts activities in Washington that would require the seller to legally register in Washington as described in the CSP contract.

(b) **Seller statements.** Each volunteer seller must periodically send written statements (statement) to the CSP verifying that the seller continues to qualify as a volunteer seller in Washington. The volunteer seller must send the first statement twenty-four consecutive months from the date on which the CSP began remitting sales and use taxes for the volunteer seller in Washington. Subsequently, volunteer sellers will send a statement every twelve consecutive months thereafter. A CSP may request a statement verifying a seller's volunteer seller status at any time. The CSP must notify the department when a seller loses volunteer seller status and this notification must be sent no later than ten business days after receipt of a seller's statement indicating the seller is no longer a volunteer seller. Notice to the department must be provided consistent with the notice provisions contained in the CSP contract. Entitlement to monetary allowances will be terminated after a seller sends a statement that the seller is no longer a volunteer seller.

(c) **When will monetary allowances terminate?** A CSP is entitled to retain monetary allowances granted prior to receiving a statement indicating that the seller has lost volunteer seller status. However, entitlement to monetary allowances will end on the first day of the month following receipt of such statement. Regardless, a CSP will be entitled to monetary allowances for services performed under this section with respect to a volunteer seller for a period of twenty-four months (beginning on the date the CSP commenced remitting sales and use taxes for the volunteer seller in Washington and ending twenty-four consecutive months later).

(4) **CSP rights and responsibilities.**

(a) **Responsibility for retail sales and use taxes.** A CSP is liable to the member states and associate member states for the retail sales and use taxes on the sales transactions that it processes.

If the CSP does not remit the collected retail sales and use taxes when due, those taxes are delinquent. Washington may send a notice of delinquency to a CSP for these delinquent taxes. The CSP must then remit the delinquent taxes within ten business days of that notification. If the CSP does not remit the delinquent taxes within those ten business days, the CSP is not entitled to monetary allowances with respect to the delinquent taxes and is liable for the payment of the taxes along with penalties and interest. However, if the taxes are delinquent because a seller has not remitted part or all of the delinquent taxes to the CSP, the CSP will be given relief if it properly notifies the department. In order to obtain this relief, the CSP must notify the department of the seller's failure to remit the retail sales and use taxes to the CSP within ten business days of the date on which those delinquent taxes should have been remitted to the department. Notice by the CSP under this subsection must be provided consistent with the notice provisions contained in the CSP contract.

(b) **CSP liability relief.** A CSP is not liable for charging or collecting the incorrect amount of sales or use tax where that error results from reliance on incorrect data provided in the department's taxability matrix, or from tax rates, boundaries, and taxing jurisdiction assignments listed in Washington's rates and boundaries data bases. To obtain a copy of the taxability matrix, visit the SSUTA web site located at: http://www.streamlinedsalestax.org. Additionally, CSPs will be held harmless and not liable for sales and use taxes, interest, and penalties on those taxes not collected due to reliance on Washington's certification of the CSP's CAS. Pursuant to RCW 82.58.080, sellers that contract with a CSP are not liable to Washington for sales or use tax due on transactions processed by the certified service provider unless the seller misrepresents the type of items it sells or commits fraud.

(c) **Seller's contract with the CSP.** A CSP must provide the department with a copy of its agreement with contracting sellers if requested.

(d) **Credits or refunds with respect to bad debt.** A CSP may, on the behalf of a seller, claim credits or refunds for sales taxes paid on bad debts. Bad debts have the same meaning provided in 26 U.S.C. Section 166, as amended in 2003. Bad debts do not include expenses incurred in collecting bad debts; repossessed property; and amounts due on property in the possession of the seller until the full purchase price has been paid. See section 103, SSB 5089 and WAC 458-20-196 for more information regarding bad debts.

(e) **Retention of personally identifiable consumer information.** With limited exceptions, CSPs must perform their services without retaining personally identifiable consumer information. A CSP may retain personally identifiable consumer information only as long as it is needed to ensure the validity of tax exemptions or to show the intended use of the goods or services purchased. See section 601, SSB 5089 for more information regarding personally identifiable consumer information.

(f) **Filing of tax returns and remittance of retail sales and use taxes.** CSP will file retail sales and use excise tax returns using Washington's electronic filing system (E-file). CSPs will remit retail sales and use taxes due with respect to these returns using ACH Debit, ACH Credit, or the Fedwire Funds Transfer System.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.32.715. 08-01-017, § 458-20-277, filed 12/7/07, effective 1/7/08.]

WAC 458-20-27701 Model 2 volunteer sellers—Compensation. (1) **Introduction.** As a requirement of membership in the Streamlined Sales and Use Tax Agreement (SSUTA), Washington has agreed to provide compensation to model 2 volunteer sellers collecting and remitting retail sales and use taxes in Washington. For more information concerning the SSUTA, visit http://www.streamlinedsalestax.org. This section explains who qualifies as a model 2 volunteer seller and the compensation available to such sellers as authorized under RCW 82.32.715.

The web site referenced in this section is not maintained by Washington or the department of revenue (department). This referenced web site may contain recommendations that require a change to Washington law before becoming effective in Washington. The web site is current as of the date of adoption of this section, but may change in future periods by action of the owner of the web site without notice.

(2) **Model 2 volunteer sellers.** This subsection discusses the qualifications for status as a model 2 seller and a model 2 volunteer seller. Only those model 2 sellers qualifying as model 2 volunteer sellers are eligible to receive compensation for remitting sales and use taxes to Washington under subsection (3) of this section. A taxpayer that qualifies as a model 2 volunteer seller under this subsection will be referred to as a "qualified seller."

(a) **What is a model 2 seller?** You will qualify as a model 2 seller if you meet all of the following conditions:

(i) You use a certified automated system to perform part of your sales and use tax functions. (See (f) of this subsection for a definition of certified automated system); and

(ii) You retain the responsibility for remitting your sales and use taxes to Washington.

(b) **What is a model 2 volunteer seller?** If you are a model 2 seller under (a) of this subsection, you will be a model 2 volunteer seller if you are registered through the SSUTA central registration system (CRS) as a model 2 seller and you meet the following additional conditions:

(i) You have represented that you do not have a legal requirement to register and do not in fact have a legal requirement to register in Washington at the time you register with the CRS, regardless of any previous registration you may have made in Washington; or

(ii) You register with Washington through the CRS after November 12, 2002, and you meet all of the following requirements immediately before the date of your registration with Washington through the CRS (and you do not cease to meet these requirements thereafter pursuant to subsection (3)(d) of this section):

(A) You have no fixed place of business in Washington for more than thirty days;

(B) You have less than fifty thousand dollars of property in Washington;

(C) You have less than fifty thousand dollars of payroll in Washington; and

(D) You have less than twenty-five percent of your total property or payroll in Washington.

If you have registered in Washington because you had a legal requirement to register resulting from an administrative, legislative, or judicial action before October 1, 2005, you cannot be a model 2 volunteer seller under this subsection.

(c) **If I am a qualified seller, do I still need to register with the department for Washington state tax purposes under RCW 82.32.030(1)?** Your status as a qualified seller does not impact your requirement to register with the department. If you meet the conditions for registration with the department under RCW 82.32.030, you must register with the department.

(d) **What is property for purposes of (b) of this subsection and how is it valued?** Property refers to the "average value" of the real property and tangible personal property that you own and rent. You will value owned property at its original cost basis. Rented property will be valued at eight times the net annual rental rate of that property. The net annual rental rate is the annual rental rate paid by you less any annual rental rates you receive from subrentals.

You must determine the "average value" of this property by averaging the value of property at the beginning of the twelve-month period immediately before the date you register with Washington with the value of property at the end of the twelve-month period immediately before you register with Washington.

(e) **What is payroll for purposes of (b) of this subsection?** Payroll is the total amount paid by you for compensation during the twelve-month period immediately proceeding the date you register with Washington. Compensation means wages, salaries, commissions, and any other form of payment to employees or similar persons that meet the definition of gross income under section 61 of the Internal Revenue Code in effect on the effective date of this section.

Compensation is deemed to be payroll in Washington if:

(i) The employee's service is performed entirely within Washington;

(ii) The employee's service is performed both within and outside Washington, and the performance of services outside Washington is merely incidental to the services performed within Washington;

(iii) The employee performs some services within Washington, and the base of operations or the place from which the services are directed or controlled is within Washington; or

(iv) The employee performs some services within Washington, and the base of operations or place from which the services are directed or controlled is not within any state (where some part of the services are performed), but the employee's residence is within Washington.

(f) **What is a certified automated system for purposes of this section?** A certified automated system is software certified by Washington under the SSUTA: To calculate the sales and use tax imposed by each taxing jurisdiction on a transaction; to determine the amount of tax to remit; and to maintain a record of the transaction.

(3) **Qualified seller compensation.** This subsection explains compensation available to qualified sellers.

(a) **What type of compensation is available to qualified sellers?** If you are a qualified seller, you are eligible to receive monetary allowances from Washington under this subsection and this is in addition to any existing discount afforded by each member state. For a list of SSUTA member and associate member states visit http://www.streamlinedsalestax.org. You obtain these monetary allowances from Washington by retaining a portion of the Washington state retail sales and use taxes you collect and report to Washington. You are not entitled to monetary allowances unless you are a qualified seller and have filed and paid a timely return.

(b) **How long are qualified sellers permitted to receive monetary allowances?** If you install a certified automated system on or after July 1, 2007, you are eligible to receive monetary allowances under this subsection for a period up to twenty-four months from the date that you install your certified automated system.

(c) **How do qualified sellers calculate their monetary allowances?** You will calculate your monetary allowance under the following formula:

(Applicable rate) multiplied by (Washington retail sales and use taxes you collect and report).

The applicable rate for this formula is one and one-half percent. Your total monetary allowance for the first twelve months of the twenty-four month period described in (b) of this subsection cannot exceed ten thousand dollars. Your total monetary allowance for the second twelve months of the twenty-four month period described in (b) of this subsection cannot exceed ten thousand dollars. For purposes of determining when each ten thousand dollar limit is reached, affiliated qualified sellers must be treated as a single qualified seller if they would qualify as "related persons" under sections 267(b) or 707(b) of the Internal Revenue Code in effect on the effective date of this section.

You may not retain monetary allowances under this subsection based on any sales taxes determined or calculated without the use of a certified automated system. Moreover, you may not retain monetary allowances under this subsection based on any sales taxes determined or calculated with a certified automated system that you have failed to update or modify in accordance with your agreement with your certified automated system provider. It is your duty to make sure all updates and modifications to your certified automated system are properly implemented.

(d) **Can a qualified seller continue to receive monetary allowances if it ceases to be a qualified seller?** No. If you cease to be a qualified seller, you are not entitled to monetary allowances. If you cease to be a qualified seller during any part of a calendar month, you will not be entitled to monetary allowances for that entire month. You will cease to be a qualified seller if you conduct activities in Washington that would require you to register in Washington and as a result of these activities fail to meet one or more of the requirements of subsection (2)(b)(ii)(A) through (D) of this section. The meanings given to property and payroll in subsection (2)(d) and (e) of this section apply for purposes of this subsection (3)(d). However, you must determine the "average value" of property and the amount of payroll under this subsection (3)(d) as follows:

(i) You must determine the "average value" of property by averaging the values at the beginning and end of your last fiscal year that terminates at least thirty days before the date the determination is made.

(ii) You must determine payroll, by calculating the total amount of compensation paid to employees during your last fiscal year that terminates at least thirty days before the date the determination is made.

(e) **Are monetary allowances funded from both Washington state and local retail sales and use taxes?** No, monetary allowances will only be funded from the Washington state portion of the retail sales and use taxes that you collect and must remit.

(4) **Do qualified sellers have any liability protections when operating in Washington?** You are not liable for charging or collecting the incorrect amount of sales or use tax when that error results from reliance on incorrect data provided in the department's taxability matrix. To obtain a copy of the taxability matrix, visit the SSUTA web site located at: http://www.streamlinedsalestax.org.

Additionally, you will be held harmless and not liable for sales and use taxes, including interest and penalties on those taxes, not collected due to reliance on Washington's certification of the certified automated system you use. However, you will not be held harmless for the incorrect classification of an item or transaction into a product based exemption certified by the department unless that item or transaction is listed within a product definition approved by the SSUTA's governing board or the department. See also RCW 82.32.745.

(5) **Filing returns and remitting taxes.** Qualified sellers must electronically file retail sales and use excise tax returns and must remit retail sales and use taxes due with respect to these returns using ACH Debit, ACH Credit, or the Fed Wire Funds Transfer System.

[Statutory Authority: RCW 82.32.300, 82.32.715, and 82.01.060(2). 08-22-048, § 458-20-27701, filed 10/31/08, effective 12/1/08.]

WAC 458-20-27702 Taxpayer relief—Sourcing compliance—One thousand dollar credit and certified service provider compensation for small businesses. (1) **Introduction.** RCW 82.32.760 provides sourcing compliance relief to certain eligible taxpayers impacted by RCW 82.14.490 and 82.32.730. RCW 82.14.490 and 82.32.730 govern where the local retail sales taxes attributable to the sale of tangible personal property, retail services, extended warranties, and the lease of tangible personal property are sourced. "Sourced" and "sourcing" refer to the location (as in a local taxing district, jurisdiction, or authority) where a sale or lease is deemed to occur and is subject to tax. Effective July 1, 2008, RCW 82.14.490 and 82.32.730 will change the way in which many sellers collect Washington's local retail sales taxes, resulting in some added transitional costs to these sellers. This section gives information about the relief provided in RCW 82.32.760 related to these new sourcing provisions.

In subsection (3)(c) of this section, the department of revenue (department) provides an example that identifies facts and then states a conclusion. This example should be used only as a general guide. The tax results of other situations must be determined separately after a review of all of the facts and circumstances.

(2) **Commonly used terms.**

(a) **What is a certified service provider (CSP)?** A CSP is an agent of the seller certified under the Streamlined Sales and Use Tax Agreement (SSUTA) to perform all of that seller's retail sales and use tax functions, other than the seller's obligation to remit retail sales and use taxes on its own purchases. For a list of current CSPs visit the SSUTA web site located at: http://www.streamlinedsalestax.org. This web site is not maintained by the state of Washington or the department. The web site is current as of the date of adoption of this section, but may change in future periods by action of the owner of the web site without notice.

(b) **Who is an eligible taxpayer?** You will be an eligible taxpayer if you meet all of the following conditions:

(i) You are registered with the department and are engaged in making sales of tangible personal property delivered to physical locations away from your place of business on June 30, 2008; and

(ii) You meet all of the following requirements for the 2008 calendar year:

(A) You have a physical presence in Washington;

(B) You have annual gross income of the business in an amount less than five hundred thousand dollars;

(C) You have at least five percent of your annual gross income from sales subject to sales tax in Washington derived from sales of tangible personal property delivered to physical locations away from your place of business; and

(D) You have at least one percent of your annual gross income from sales subject to sales tax in Washington derived from deliveries of tangible personal property to destinations in local Washington jurisdictions other than the one to which you reported the most local sales tax.

"Gross income of the business" for the purpose of applying (b) of this subsection means gross income of the business as defined under chapter 82.04 RCW that is subject to tax in Washington. The requirements under (b)(ii) of this subsection apply only to the 2008 calendar year. This means for instance that an eligible taxpayer may earn over five hundred thousand dollars in gross income of the business for the calendar years 2009 and 2010 respectively and not lose eligibility under this section.

(c) **What are eligible costs?** Eligible costs represent those goods and services purchased and labor costs incurred for the purpose of complying with local sales and use tax sourcing rules under RCW 82.14.490 and 82.32.730. Examples of eligible costs include but are not limited to the purchase of new software or modification of existing software used to implement the new local sourcing rules; the hiring of professionals such as accountants, consultants, or attorneys to implement the new local sourcing rules; the costs for the purchase or modification of equipment used to implement the new local sourcing rules (including but not limited to cash registers and similar items); and payroll expenses associated with the implementation of the new local sourcing rules. These costs must be actually incurred between July 1, 2007, and June 30, 2009, to be eligible.

(3) **What relief does Washington provide?** If you are an eligible taxpayer, you are entitled either to take up to a one thousand dollar credit for your eligible costs, or you may use the services of a CSP subsidized by Washington for a period of up to two years. You may choose either the credit or the CSP services option, but not both. You will not need to apply in order to take advantage of these options, but you must keep records sufficient to allow the department to determine eligibility.

(a) **How does the one thousand dollar credit option work?** You may take a tax credit of up to one thousand dollars for your eligible costs (see subsection (2)(c) of this section). You must take this credit against Washington state retail sales taxes imposed by RCW 82.08.020(1) that you collect or your business and occupation taxes imposed under chapter 82.04 RCW. The credit may not be taken against the local sales taxes you collect. The amount of your credit is equal to the sum of your eligible costs. You may take the credit only for costs actually incurred from July 1, 2007, through June 30, 2009.

You must first make a claim for the credit during those tax reporting periods that fall between July 1, 2008, and June 30, 2009. Thus, you must make a claim for the credit within the applicable deadline associated with the filing of your returns for that one-year period. However, this does not affect your ability to take unused credit after June 30, 2009, for costs actually incurred before that date until your credit is used. You may not obtain a refund instead of the credit.

(b) **How does the CSP services option work?** You may use the services of a CSP for up to a two-year period starting

July 1, 2008, and ending June 30, 2010. Washington will compensate your CSP for its services in collecting and remitting sales and use taxes for Washington on your behalf. Washington will not compensate the CSP unless it is performing for you the full services contractually required of a CSP under the CSP description provided in subsection (2)(a) of this section. If the CSP is providing a lesser level of service, Washington will not compensate the CSP for any of that service. However, you may be able to claim the credit of up to one thousand dollars for what the CSP charges you in such instances.

Washington will not compensate a CSP for services provided to you prior to July 1, 2008, or after June 30, 2010. If you use a CSP under this section, you will generally not be liable to Washington for sales or use taxes due on transactions processed and paid to the state of Washington by your CSP unless you misrepresent the type of items you sell or you commit fraud. CSP compensation will not be funded from any portion of the local retail taxes that are collected and reported. These local retail sales taxes must be remitted to the department in full. This option is not available to model 1 volunteer sellers using the services of a CSP as described in WAC 458-20-277.

(c) **CSPs: Filing returns, remitting taxes, and compensation.**

(i) **How do CSPs file tax returns and remit retail sales taxes under this section?** CSPs must file retail sales and use excise tax returns for eligible taxpayers electronically. CSPs must pay retail sales and use taxes due with respect to these returns using ACH Debit, ACH Credit, or the Fedwire Funds Transfer System.

(ii) **How do CSPs determine their compensation under this section?** A CSP computes its compensation by multiplying the amount of Washington state and local retail sales and use taxes collected and reported by the CSP on behalf of an eligible taxpayer (taxes due) for each applicable calendar year by the established CSP compensation rate.

The compensation rates established for CSPs are provided in Table A below. The applicable calendar years during which a CSP may compute compensation are as follows: Calendar year 2008 (computed from July 1, 2008, through December 31, 2008), calendar year 2009 (computed from January 1, 2009, through December 31, 2009), and calendar 2010 (computed from January 1, 2010, through June 30, 2010).

(iii) **What are the CSP compensation rates?** The CSP compensation rates are contained in Table A below.

Table A

Taxes Due	Compensation Rate:
$0.00 - $5,000.00	4%
$5,000.01 - $20,000.00	3.7%
$20,000.01 - $50,000.00	3.3%
$50,000.01 - $100,000.00	3%
$100,000.01 - $200,000.00	2.7%
$200,000.01 - $500,000.00	2.3%
Over $500,000.01	2%

• The compensation rate in Table A is graduated. For example, the highest rate (4%) applies to the first five thousand dollars of taxes due, and the next highest rate (3.7%) applies to the next fifteen thousand dollars of taxes due.

• The compensation rate in Table A resets each calendar year. For example, the highest rate (4%) applies to the first five thousand dollars of taxes due for each applicable calendar year that the CSP provides CSP services to an eligible taxpayer, with the next highest rate (3.7%) applying to the next fifteen thousand dollars of taxes due for the applicable calendar year.

(iv) **Example - Determining CSP compensation.** Widgets is an eligible taxpayer that does not claim the $1,000 credit described in (a) of this subsection. Widgets retains a CSP, Easysoft, to perform all of its retail sales and use tax functions other than the obligation to remit retail sales and use taxes on its own purchases. Easysoft files Widgets' Washington state excise tax returns and remits the related taxes due electronically.

(A) **First year - Calendar year 2008.** From July 1, 2008, through December 31, 2008, Easysoft collects and reports $5,000 in taxes due for Widgets. Easysoft may retain $200 of the taxes due as compensation, which is computed as follows:

• 4% of the first $5,000 of taxes due = $200

(B) **Second year - Calendar year 2009.** From January 1, 2009, through December 31, 2009, Easysoft collects and reports $200,000 in taxes due for Widgets. Easysoft may retain $5,945 of the taxes due as compensation ($200 + $555 + $990 + $1,500 +$2,700), which is computed as follows:

• 4% of the first $5,000 of taxes due = $200
• 3.7% of the next $15,000 of taxes due = $555
• 3.3% of the next $30,000 of taxes due = $990
• 3% of the next $50,000 in taxes due = $1,500
• 2.7% of the next $100,000 in taxes due = $2,700

(C) **Third year - Calendar year 2010.** From January 1, 2010, through June 30, 2010, Easysoft collects and reports $120,000 in taxes due for Widgets for this period. Easysoft may retain $3,785 of the taxes due as compensation ($200 + $555 + $990 + $1,500 + $540), which is computed as follows:

• 4% of the first $5,000 of taxes due = $200
• 3.7% of the next $15,000 of taxes due = $555
• 3.3% of the next $30,000 of taxes due = $990
• 3% of the next $50,000 in taxes due = $1,500
• 2.7% of the next $20,000 in taxes due = $540

(d) **Taxpayer liability.**

(i) **What happens if I incorrectly claim the one thousand dollar credit option under (a) of this subsection?** If you take a credit under (a) of this subsection and are not an eligible taxpayer, you are immediately liable to the department for the amount of the credit erroneously claimed. If any amounts due under this subsection are not paid by the due date of any notice informing you of such liability, the department shall apply interest, but not penalties, to amounts remaining due.

(ii) **What happens if I incorrectly claim the CSP services option under (b) of this subsection?** If you use a CSP and the CSP retains compensation under (b) of this subsection and you are not an eligible taxpayer, you are immediately liable to the department for the compensation retained by the CSP. If any amounts due under this subsection are not paid by the due date of any notice informing you of such liability, the department shall apply interest, but not penalties, to amounts remaining due.

[Statutory Authority: RCW 82.32.300, 82.32.760, and 82.01.060(2). 08-14-083, § 458-20-27702, filed 6/26/08, effective 7/27/08.]

WAC 458-20-279 Clean alternative fuel vehicles and high gas mileage vehicles. (1) **Introduction.** For the period January 1, 2009, through December 31, 2010, RCW 82.08.-809 and 82.12.809 provide a retail sales and use tax exemption for new passenger cars, light duty trucks, and medium duty passenger vehicles that are exclusively powered by a clean alternative fuel. For the same period, RCW 82.08.813 and 82.12.813 provide a retail sales and use tax exemption for new passenger cars, light duty trucks, and medium duty passenger vehicles that utilize hybrid technology and have a United States environmental protection agency estimated highway gasoline mileage rating of at least forty miles per gallon. This section provides additional information about the requirements for the exemptions provided by RCW 82.08809, 82.08.813, 82.12.809, and 82.12.813 ("the exemptions").

(2) **Definitions.** The following definitions apply throughout this section:

(a) "Clean alternative fuel" means natural gas, propane, hydrogen, or electricity, when used as a fuel in a motor vehicle that meets the California motor vehicle emission standards in Title 13 of the California code of regulations, effective January 1, 2005, and the rules of the Washington state department of ecology. See RCW 82.08.809(3) and 82.12.-809(2).

(b) "Gross vehicle weight rating" is the value specified by the manufacturer as the maximum design loaded weight of a single vehicle. See WAC 173-423-040(4).

(c) "Hybrid technology" means propulsion units powered by both electricity and gasoline. See RCW 82.08.813(3) and 82.12.813(2).

(d) "Light duty truck" is any vehicle certified to the standards in Title 13, CCR, section 1961 (a)(1) rated at eight thousand five hundred pounds gross vehicle weight or less, and any other motor vehicle rated at six thousand pounds gross vehicle weight or less, which is designed primarily for the purposes of transportation of property or is a derivative of such vehicle, or is available with special features enabling off-street or off-highway operation and use. See WAC 173-423-040(8).

(e) "Medium duty passenger vehicle" is any medium duty vehicle with a gross vehicle weight rating of less than ten thousand pounds that is designed primarily for the transportation of persons. The medium duty passenger vehicle definition does not include any vehicle which:

(i) Is an "incomplete truck," i.e., is a truck that does not have the primary load carrying device or container attached; or

(ii) Has a seating capacity of more than twelve persons; or

(iii) Is designed for more than nine persons in seating rearward of the driver's seat; or

(iv) Is equipped with an open cargo area of seventy-two inches in interior length or more. A covered box not readily accessible from the passenger compartment will be considered an open cargo area for the purpose of this definition. See WAC 173-423-040(9).

(f) "Medium duty vehicle" is a vehicle with a gross vehicle weight rating of eight thousand five hundred one to fourteen thousand pounds. See WAC 173-423-100(2).

(g) "Model year" is the manufacturer's annual production period which includes January 1 of a calendar year. If the manufacturer has no annual production period, "model year" is the calendar year. In the case of any vehicle manufactured in two or more stages, the time of manufacture shall be the date of completion of the chassis. See WAC 173-423-040 (10).

(h) "New motor vehicle" is any motor vehicle that:

(i) Is self-propelled;

(ii) Is required to be registered and titled under Title 46 RCW;

(iii) Has not been previously titled to a retail purchaser or lessee; and

(iv) Is not a vehicle which has been sold, bargained, exchanged, given away, or title transferred from the person who first took title to it from the manufacturer or first importer, dealer, or agent of the manufacturer or importer, and so used as to have become what is commonly known as "secondhand" within the ordinary meaning thereof. See RCW 46.70.011 and 46.04.660.

The model year of the vehicle is not determinative of whether it meets the definition of "new motor vehicle."

(i) "Passenger car" means every motor vehicle except motorcycles and motor-driven cycles designed primarily for transportation of persons and having a design capacity of twelve persons or less. See WAC 173-423-040(13) and RCW 46.04.382.

(3) **New passenger cars, light duty trucks, and medium duty passenger vehicles.** In order to qualify for the exemptions, the vehicle must meet the definition of "passenger car," "light duty truck," or "medium duty passenger vehicle" in addition to meeting the definition of "new motor vehicle."

Purchases of previously owned clean alternative fuel or high gas mileage vehicles. The exemptions do not apply to purchases of used vehicles, even if they are exclusively powered by clean alternative fuel or utilize hybrid technology and have a United States environmental protection agency estimated highway gasoline mileage rating of at least forty miles per gallon. The exemptions only apply to new clean alternative fuel or new high gas mileage vehicles purchased between January 1, 2009, and December 31, 2010.

(a) **Example 1.** Mike purchases a *used* 2007 model year hybrid vehicle from a dealer or private party in 2009. The purchase would not qualify for the exemptions. The exemptions only apply to new vehicles.

(b) **Example 2.** Nicole purchases a *new* 2008 model year hybrid vehicle in 2009 from a dealer. This purchase would be exempt (assuming it meets the other requirements). A new vehicle could be any model year as long as it has not been previously titled to a retail purchaser or lessee.

(4) **Conversions.** For purposes of this section, a conversion refers to the alteration of an otherwise nonqualifying

vehicle exclusively powered by gasoline or diesel into a qualifying vehicle that either:

(a) Is exclusively powered by clean alternative fuel; or

(b) Utilizes hybrid technology and has a United States environmental protection agency estimated highway gasoline mileage rating of at least forty miles per gallon.

(i) **Purchases of converted vehicles.** The purchase of a new vehicle that is converted prior to or as part of the retail sale to the purchaser and that otherwise satisfies the requirements of the exemptions will qualify for the exemptions. If the conversion is performed after the retail sale, the purchase of the vehicle will not qualify for the exemptions.

(ii) **Purchases of the service of converting vehicles.** While the purchase of a new vehicle converted by the seller prior to or as part of the retail sale to the purchaser qualifies for the exemptions as described in subsection (4)(a) of this section, the purchase of the service of converting a vehicle does not qualify for the exemptions. However, if the seller hires a third party to convert the vehicle, it can give the third party a resale certificate.

(A) **Example 1.** Tom wants to purchase a new nonqualifying vehicle from Dealer but have it converted as a part of the purchase transaction. Dealer hires John's Shop to convert the vehicle for Tom, and Tom purchases the converted vehicle from Dealer. Tom's purchase of the converted vehicle qualifies for the exemptions.

(B) **Example 2.** Tom purchases a new nonqualifying vehicle from Dealer. Tom then hires John's Shop to convert the vehicle. The purchase of the nonqualifying vehicle does not qualify for the exemptions, even if Dealer delivers the vehicle directly to John's Shop on Tom's behalf for conversion.

(5) **Use tax.** The use of a qualifying vehicle by the original title holder is exempt from use tax if the vehicle is purchased between January 1, 2009, and December 31, 2010.

(a) **Example 1.** Will, a Washington resident, purchases a new qualifying vehicle in Oregon from Dealer on February 1, 2009, and returns to Washington in the vehicle on February 2, 2009. Will's use of the vehicle in Washington is exempt from use tax.

(b) **Example 2.** Oliver, an Oregon resident, purchases a new qualifying vehicle from Dealer in Oregon on April 1, 2009. Oliver moves to Washington on May 15, 2009. Oliver's use of the vehicle in Washington is exempt from use tax. Note: In the absence of the exemptions discussed in this section, Oliver's purchase would be subject to use tax since his first use of the vehicle in Washington occurred within 90 days of his acquisition and use of the vehicle in another state. See RCW 82.12.0251.

(6) **Extended warranties and maintenance agreements.** The sale of an extended warranty or maintenance agreement is subject to retail sales tax even though the vehicle itself may qualify for the exemptions. See WAC 458-20-257.

(7) **Replacement parts and/or repair services.** The sale of replacement parts or repair services is subject to retail sales tax even though the vehicle itself may have qualified for the exemptions. Only the purchase and use of a qualifying vehicle is exempt from retail sales and use tax.

(8) **Accessories.** A qualifying vehicle includes all accessories installed or sold as part of the sale of the vehicle.

(a) **Example 1.** A dealership installs a ski rack and applies pinstriping on an otherwise qualifying vehicle on January 5, 2009, before a customer purchases the vehicle. Any separate, itemized charges for the accessories listed on the vehicle sales invoice are exempt from retail sales tax.

(b) **Example 2.** On January 5, 2009, a customer purchases an otherwise qualifying vehicle, and as a condition of the purchase requires that the seller install stereo speakers and apply paint sealant. The seller does not have the accessories in stock, but the customer takes delivery of the vehicle. The customer then brings the vehicle back to the seller, and the accessories are installed and applied on January 12, 2009. Any separate, itemized charges for the accessories listed on the vehicle sales invoice are exempt from retail sales tax.

(9) **Leases.** A vehicle is exempt from retail sales and use taxes on a lease if the other requirements are met. If the vehicle is new, registered, and titled in the lessee's name between January 1, 2009, and December 31, 2010, the retail sales tax exemption will apply only to amounts due between January 1, 2009, and December 31, 2010. See also WAC 458-20-103 and 458-20-235.

(a) **Example 1.** Alex leases a new hybrid vehicle that he registers and titles on December 8, 2008. None of his lease payments will qualify for the exemptions because the vehicle was registered and titled prior to January 1, 2009.

(b) **Example 2.** Beth leases a new hybrid vehicle that she registers and titles on December 8, 2010. Assuming that the other requirements of the exemptions are met, any amounts due under the lease before January 1, 2011, are exempt from retail sales tax.

(10) **Payments made prior to January 1, 2009.** Any payment made toward the purchase of an otherwise qualifying vehicle prior to the effective date of the exemptions, January 1, 2009, qualifies for the exemptions if the vehicle sold is titled and registered on or after January 1, 2009, and the purchaser takes possession of the vehicle on or after January 1, 2009. See WAC 458-20-103, 458-20-197, and 458-20-235.

Example. Greg makes a down payment toward the purchase of a new qualifying vehicle on November 7, 2008, but does not actually take possession of the vehicle at the dealership lot until January 2, 2009. The vehicle is titled and registered on January 9, 2009. The purchase of the vehicle is exempt from retail sales tax.

(11) **Payments made prior to January 1, 2011.** Any payment made toward the purchase of an otherwise qualifying vehicle prior to the expiration date of the exemptions, January 1, 2011, does not qualify for the exemptions if the vehicle sold is titled or registered on or after January 1, 2011, or if the purchaser takes possession of the vehicle on or after January 1, 2011. See WAC 458-20-103, 458-20-197, and 458-20-235.

Example. Craig makes a down payment toward the purchase of a new qualifying vehicle on November 7, 2010, but does not actually take possession of the vehicle at the dealership lot until January 2, 2011. The vehicle is titled and registered on January 11, 2011. The purchase of the vehicle is subject to retail sales tax.

[Statutory Authority: RCW 82.32.300 and 82.01.060(2). 09-02-051, § 458-20-279, filed 12/31/08, effective 1/31/09.]

Chapter 458-28 WAC

TAXATION OF FINANCIAL BUSINESSES BY CITIES OR TOWNS

WAC 458-28-010 Scope of rule. Chapter 134, Laws of 1972 ex. sess., authorizes cities and towns to impose a license fee or tax on financial institutions. Financial institutions having business locations in cities and towns which levy a tax upon gross income or gross receipts for the privilege of engaging in business shall divide their gross income for purposes of computing income earned in the cities, towns or unincorporated areas in which such places of business are located in accordance with these rules.

[Order ET 72-1, § 458-28-010, filed 9/29/72.]

WAC 458-28-020 Gross income defined. "Gross income of the business" means the value proceeding or accruing by reason of the transaction of the business engaged in and includes gross proceeds of sales, compensation for the rendition of services, gains realized from trading in stocks, bonds, or other evidences of indebtedness, interest, discount, rents, royalties, fees, commissions, dividends, and other emoluments however designated, all without any deduction on account of the cost of tangible property sold, the cost of materials used, labor costs, interest, discount, delivery costs, taxes, or any other expense whatsoever paid or accrued and without any deduction on account of losses.

Other examples of gross income are receipts from carrying charges, service charges, credit cards, safety deposit box rentals, bookkeeping or data processing, overdraft fees, flooring fees, and penalty fees.

[Order ET 72-1, § 458-28-020, filed 9/29/72.]

WAC 458-28-030 Deductions. In arriving at income taxable to a city or town from activities of a place of business located therein, financial institutions may deduct from gross income:

(1) Dividends received by a parent from a subsidiary corporation.

(2) Interest received on investments or loans primarily secured by first mortgages or trust deeds on nontransient residential properties.

(3) Interest received on obligations of the state of Washington, its political subdivisions, and municipal corporations. A deduction may also be taken for interest received on direct obligations of the federal government, but not for interest attributable to loans or other financial obligations on which the federal government is merely a guarantor or insurer.

(4) Gross proceeds from the sale or rental of real estate.

[Order ET 72-1, § 458-28-030, filed 9/29/72.]

WAC 458-28-040 Branch locations, division of income. Financial institutions having more than one place of business shall divide total taxable gross income so as to attribute taxable income to each location in the ratio of total interest earned (whether taxable or not) on loans originated at each location during the period covered by the tax return. The location at which a loan is originated is the place of business of the financial institution at which the customer deals with the financial institution to obtain the loan. Financial institutions having time or demand deposits may compute the ratio of total deposits at each location as a basis for approximating gross income of each location, provided the financial institution can demonstrate that the taxable income so computed will not differ by more than $10,000 in any one calendar year as to any one business location from the amount computed using the ratio of interest earned on loans originated at each location.

[Order ET 72-1, § 458-28-040, filed 9/29/72.]

Chapter 458-29A WAC

LEASEHOLD EXCISE TAX

WAC 458-29A-100 Leasehold excise tax—Overview and definitions. (1) **Introduction.** Chapter 82.29A RCW establishes an excise tax on the act or privilege of occupying or using publicly owned real or personal property through a leasehold interest. The intent of the law is to ensure that lessees of property owned by public entities bear their fair share of the cost of governmental services when the property is rented to someone who would be subject to property taxes if the lessee were the owner of the property. The tax is an excise tax triggered by the private use and possession of the public property. RCW 82.29A.030.

(2) **Definitions.** For the purposes of chapter 458-29A WAC, the following definitions apply unless the context requires otherwise.

(a) "Department" means the department of revenue.

(b) "Concession" means the right to operate a business in an area of public property.

(c) "Contract rent" means that portion of the payment made by a lessee (including a sublessee) to a public lessor (or to a third party for the benefit of that lessor) for a leasehold interest in land and improvements or tangible personal property.

(d) "Franchise" means a right granted by a public entity to a person to do certain things that the person could not otherwise do. A franchise is distinguishable from a leasehold interest even when its exercise and value is inherently dependent upon the use and possession of publicly owned property.

(e) "Improvement" means a modification to real property, resulting in an actual change in the nature of the property or an increase in the value of the property. It is distinguishable from routine repair and maintenance, which are activities resulting from normal wear and tear associated with the use of property, and which do not result in a change in the nature or value of the property itself. For example, replacing worn boards in a stairway is repair and maintenance; removing the stairway and replacing it with an elevator or a ramp is an improvement.

(f) "Leasehold interest" means an interest granting the right to possession and use of publicly owned real or personal property as a result of any form of agreement, written or oral, without regard to whether the agreement is labeled a lease, license, or permit.

(i) Regardless of what term is used to label an agreement providing for the use and possession of public property by a private party, it is necessary to look to the actual substantive arrangement between the parties in order to determine whether a leasehold interest has been created.

(ii) Both possession and use are required to create a leasehold interest, and the lessee must have some identifiable dominion and control over a defined area to satisfy the possession element. The defined area does not have to be specified in the agreement but can be determined by the practice of the parties. This requirement distinguishes a taxable leasehold interest from a mere franchise, license, or permit.

For example, Sam sells hot dogs from his own trailer at varying sites within a county fairgrounds during events. Sam is not assigned a particular place to set up his trailer nor does he store his trailer on the fairground between events. Sam's right to sell and his use of the property is considered a franchise and not a leasehold interest. The necessary element of possession, involving a greater degree of dominion and control over a more defined area, is lacking.

(iii) The use or occupancy of public property where the purpose of such use or occupancy is to render services to the public owner does not create a leasehold interest. The lessee's possession and use of the property is in furtherance of the public owner's purposes, and it is the public owner who benefits from the governmental services rendered in respect to the property.

For example, Contractor A operates a snack bar at a publicly owned facility where food and beverages are sold to members of the public, and derives a profit from the proceeds of the snack bar sales. Contractor B operates a cafeteria where food is provided at no charge to persons with appropriate I.D., and is reimbursed on a cost-plus basis. Contractor A is engaged in a business enterprise the same as any other restaurateur. Contractor A is using the public property for a private purpose, and has a taxable leasehold interest on the premises. Contractor B is merely providing a service to government personnel that the government agency would otherwise provide. Contractor B is using public property for a public purpose, and does not have a taxable leasehold interest.

(iv) "Leasehold interest" includes the use and occupancy by a private party of property that is owned in fee simple, held in trust, or controlled by a public corporation, commission, or authority created under RCW 35.21.730 or 35.21.660 if:

(A) The property is within a special review district established by ordinance after January 1, 1976; or

(B) The property is listed on, or is within a district listed on, any federal or state register of historical sites in existence after January 1, 1987.

(v) "Leasehold interest" does not include:

(A) Road or utility easements;

(B) Rights of access, occupancy, or use granted solely for the purpose of removing materials or products purchased from a public owner or the lessee of a public owner, including permits to graze livestock, cut brush, pick wild mushrooms, or mine ore; and

(C) Any right to use personal property (excluding land or buildings) owned by the United States (as a trustee or otherwise), or by a foreign government, when the right to use the property is granted by a contract solely to manufacture or produce articles for sale to the United States or the foreign government.

(g) "Lessee" means a private person or entity with a leasehold interest in public property who would be subject to property tax if the person or entity owned the property in fee.

(h) "Lessor" or "public lessor" means an entity exempted from property tax obligations pursuant to Article 7, section 1 of the state Constitution that grants a leasehold interest in public property to a private person or entity.

(i) "License" means permission to enter on land for some purpose, without conferring any rights to the land upon the person granted the permission. For example, a permit to enter federal lands to launch rafts into the water for the purpose of conducting whitewater river rafting tours is a license, not a leasehold interest.

(j) "Management agreement" means a written agency agreement between a public property owner and a private person or entity for the use and possession of public property under the following circumstances:

(i) The public property owner retains all liability for payment of business operating costs and business related damages (other than costs and damages attributable to the activities of the private party);

(ii) The public property owner has title and ownership of all receipts from sales of services or products relating to the management agreement (whether such amounts are collected by the private party on behalf of the public owner or whether the public owner permits the private party to retain a portion of the receipts as payment for services rendered by the private party), and the full discretion of whether to eliminate, reduce or expand the business activity conducted on the property; and

(iii) The public property owner has full control of the prices to be charged for the goods or services provided in the course of use of the property.

If each of these criteria is met, the arrangement between the parties is considered a "true" management agreement which does not, by itself, create a taxable leasehold interest in the property.

(k) "Permit" means a written document creating a license to enter land for a specific purpose.

(l) "Product lease" means a lease of public property which will be used to produce agricultural or marine products (aquaculture) wherein the lease or agreement requires that:

(i) The leasehold payment be made by delivering a stated percentage of the agricultural or marine products to the credit of the lessor; or

(ii) The lessor be paid a stated percentage of the proceeds from the sale of the agricultural or marine products.

(m) "Public property" means all property owned by an entity exempted from property tax obligations pursuant to Article 7, section 1 of the state Constitution (and, in some instances, property held in trust by the United States).

(n) "Renegotiated" means a change in the leasehold agreement, other than one specifically required by the terms of the agreement itself, which alters:

(i) The agreed time of possession and use of the property;

(ii) The restrictions on the manner in which the property may be used; or

(iii) The rate of cash rental or other consideration paid by the lessee to or for the benefit of the lessor.

The term also includes the continued possession of the property by the lessee beyond the original date when, according to the terms of the agreement, the lessee had the right to vacate the premises without incurring further liability to the lessor.

(o) "Taxable rent" means the amount of rent upon which the measure of leasehold excise tax is based. It is either the contract rent or an amount established by the department in accordance with the procedures set forth in RCW 82.29A.020 (2). (See also WAC 458-29A-200.)

(p) "Utility easement" means the right to use publicly owned land for the purpose of providing access or installation of publicly regulated utilities.

[Statutory Authority: RCW 82.29A.140. 99-20-053, § 458-29A-100, filed 10/1/99, effective 11/1/99.]

WAC 458-29A-200 Leasehold excise tax—Taxable rent and contract rent. (1) **Introduction.** Ordinarily, the amount of taxable rent is the amount of contract rent paid by a lessee for a taxable leasehold interest. The law does authorize the department to establish a taxable rent different from the contract rent in certain cases. This rule explains the exclusions of certain moneys and other property received by or on behalf of a lessor from the measure of contract rent. It also explains the conditions under which the department is authorized to establish a taxable rent different from the contract rent.

(2) **Contract rent exclusions.** Even when a leasehold interest is present, not all payments made to a lessor constitute taxable contract rent. For example, payments made to or on behalf of the lessor for actual utility charges, janitorial services, security services, repairs and maintenance, and for special assessments such as storm water impact fees attributable to the lessee's space or prorated among multiple lessees, are not included in the measure of contract rent, if the actual charges are separately stated and billed to the lessee(s). "Utility charges" means charges for services provided by a public service business subject to the public utility tax under chapter 82.16 RCW, and, for the purpose of this section only, also includes water, sewer, and garbage services and cable television services.

In some circumstances a private lessee that is occupying or using public property may collect fees from third parties and remit them to the public lessor. In those situations where:

(a) The fee structure, rate, or amount collected by the private party is established by or subject to the review and approval of the public lessor or other public entity; and

(b) The amounts received by the private entity from third parties are remitted entirely to the public lessor or credited to the account of the public lessor, those amounts are not considered part of the contract rent under this chapter, provided that nothing in this section shall preclude or prevent the imposition of tax, as appropriate, under any other chapter of Title 82 RCW on any amounts retained by or paid to the private entity as consideration for services provided to the public property owner.

Notwithstanding the provisions of this subsection, if such deductions are determined by the department to reduce the amount of contract rent to a level below market value, the department may establish a taxable rent in accordance with section (6) below.

For example, Dan leases retail space in a building owned by the Port of Whistler. He pays $800 per month for the space, which includes building security services. Additionally, he is assessed monthly for his pro rata share of actual janitorial and utility services provided by the Port. The Port determines Dan's share of these charges in the following manner: The average annual amount actually paid by the Port for utilities in the prior year is divided by 12. Dan's space within the building is approximately ten percent of the total space in the building, so the averaged monthly charge is multiplied by .10 (Dan's pro rata share based upon the amount of space he leases), and that amount is added to Dan's monthly statement as a line item charge for utilities, separate from the lease payment. The charges for janitorial services are treated in the same manner. In this case, Dan's payment for utilities and janitorial services are not included in the measure of contract rent. His payments for security services are included in the measure of contract rent, and subject to the leasehold excise tax, because they are not calculated and charged separately from the lease payments.

Contract rent also does not include:

(a) Expenditures made by the lessee for which the lease agreement requires the lessor to reimburse the lessee;

(b) Expenditures made by the lessee for improvements and protection if the lease or agreement requires the improved property to be open to the general public (e.g., a public boat launch) and prohibits the lessee from enjoying any profit directly from the lease;

(c) Expenditures made by the lessee to replace or repair the facilities due to fire or other catastrophic event including, but not necessarily limited to, payments:

(i) For insurance to reimburse losses;

(ii) To a public or private entity to protect the property from damage or loss; or

(iii) To a public or private entity for alterations or additions made necessary by an action of government which occurred after the date the lease agreement was executed.

(d) Improvements added to public property if the improvements are taxed as any person's personal property.

(3) **Combined payments.** When the payment for a leasehold interest is made in combination with payment for concession, franchise or other rights granted by the public lessor, only that part of the payment which represents consideration for the leasehold interest is considered part of the contract rent. For example, if the payment made by the lessee to the public lessor exceeds the fair market rental value for comparable property with similar use, the excess is generally attributable to payment for a concession or other right.

(4) **Lease payments based on a percentage of sales.** The measure of contract rent subject to the leasehold excise tax may be based upon a lease which provides that the rent shall be a percentage of business proceeds. The manner in

which the rent is calculated does not, in itself, determine the character of the underlying right or interest for which the payment is made.

(5) **Expenditures for improvements.** Expenditures by the lessee for nonexcludable improvements (see WAC 458-29A-200(2)) with a useful life of more than one year will be treated as prepaid contract rent if the expenditures were intended by the parties to be included as part of the contract rent. Such intention may be demonstrated by a contract provision granting ownership or possession and use to the public owner of the underlying property and/or by the conduct of the parties. These expenditures should be prorated over the useful life of the improvement, or over the remaining term of the lease or agreement if the useful life of the improvement exceeds that term. If the lessee vacates prior to the end of the lease without the agreement of the lessor, thereby defaulting on the lease, no additional LET is due for the term remaining pursuant to the contract between the lessor and that lessee.

(6) **Department's authority to establish taxable rent.** RCW 82.29A.020(2) authorizes the department to establish a "taxable rent" that is different from contract rent in some situations.

(a) If the department determines that a lessee has a leasehold interest in publicly owned property and that such leasehold interest has not been established through competitive bidding, or negotiated in accordance with statutory requirements regarding the rent payable, or negotiated under circumstances, established by public record, clearly showing that the contract rent was the maximum attainable by the lessor, the department may establish a taxable rent computation for use in determining the tax payable under authority granted under chapter 82.29A RCW. The department shall base its computation on the following criteria:

(i) Consideration shall be given to rent being paid to other lessors by lessees of similar property for similar purposes over similar periods of time; or

(ii) Consideration shall be given to what would be considered a fair rate of return on the market value of the property leased less reasonable deductions for any restrictions on use, special operating requirements or provisions for concurrent use by the lessor, another person or the general public.

(b) If the department establishes taxable rent pursuant to RCW 82.29A.020(2), and the contract rent was established in accordance with the procedures set forth in that section, but the lease is ten or more years old and has not been renegotiated, the taxable rent for leasehold excise tax purposes shall be prospective only. However, if upon examination the department determines that the contract rent was not set in accordance with the statutory provisions of RCW 82.29A.-020(2) and the rent is below fair market rate, the department may (and in most instances, will) apply the taxable rental rate retroactively for purposes of determining the leasehold excise tax, subject to the provisions of RCW 82.32.050(3).

(c) The department will not establish taxable rent if one of the following four situations apply:

(i) The leasehold interest has been established or renegotiated through competitive bidding;

(ii) The rent was set or renegotiated according to statutory requirements;

(iii) Public records demonstrate that the rent was the maximum attainable; or

(iv) A lease properly established or renegotiated in compliance with (6)(c)(i), (ii), or (iii) has been in effect for ten years or less without renegotiation.

(d) Where the contract rent has been established in accordance with one of the first three criteria set forth above, and the lease agreement has not been in effect for ten years or more, or has been properly renegotiated within the past ten years, the taxable rent is deemed to be the stated contract rent.

(e) If land on the Hanford reservation is subleased to a private or public entity by the state of Washington, "taxable rent" means only the annual cash rental payment made by the sublessee to the state and specifically referred to as rent in the sublease agreement.

[Statutory Authority: RCW 82.29A.140. 99-20-053, § 458-29A-200, filed 10/1/99, effective 11/1/99.]

WAC 458-29A-400 Leasehold excise tax—Exemptions. (1) **Introduction.** This rule explains the exemptions from leasehold excise tax provided by RCW 82.29A.130, 82.29A.132, 82.29A.134, and 82.29A.136. To be exempt from the leasehold excise tax, the property subject to the leasehold interest must be used exclusively for the purposes for which the exemption is granted.

(2) **Operating properties of a public utility.** All leasehold interests that are part of the operating properties of a public utility are exempt from leasehold excise tax if the leasehold interest is assessed and taxed as part of the operating property of a public utility under chapter 84.12 RCW.

For example, tracks leased to a railroad company at the Port of Seaside are exempt from leasehold excise tax because the railroad is a public utility assessed and taxed under chapter 84.12 RCW and the tracks are part of the railroad's operating properties.

(3) **Student housing at public and nonprofit schools and colleges.** All leasehold interests in facilities owned or used by a school, college, or university which leasehold provides housing to students are exempt from leasehold excise tax if the student housing is exempt from property tax under RCW 84.36.010 and 84.36.050.

For example, the leasehold interest associated with a building used as a dormitory for Public University students is exempt from the leasehold excise tax.

(4) **Subsidized housing.** All leasehold interests of subsidized housing are exempt from leasehold excise tax if the property is owned in fee simple by the United States, the state of Washington or any of its political subdivisions, and residents of the housing are subject to specific income qualification requirements.

For example, a leasehold interest in an apartment house that is subsidized by the United States Department of Housing and Urban Development is exempt from leasehold excise tax if the property is owned by the state of Washington and residents are subject to income qualification requirements.

(5) **Nonprofit fair associations.** All leasehold interests used for fair purposes of a nonprofit fair association are exempt from leasehold excise tax if the fair association sponsors or conducts a fair or fairs supported by revenues collected under RCW 67.16.100 and allocated by the director of the department of agriculture. The property must be owned in fee simple by the United States, the state of Washington or any of its political subdivisions. However, if a nonprofit asso-

ciation subleases exempt property to a third party, the sublease is a taxable leasehold interest.

For example, a leasehold interest held by the Local Nonprofit Fair Association is considered exempt from leasehold excise tax. However, if buildings on the fairgrounds are rented to private parties for storage during the winter, these rentals may be subject to the leasehold excise tax.

(6) **Public employee housing.** All leasehold interests in public property used as a residence by an employee of the public owner are exempt from leasehold excise tax if the employee is required to live on the public property as a condition of his or her employment. The "condition of employment" requirement is met only when the employee is required to accept the lodging in order to enable the employee to properly perform the duties of his or her employment. However, the "condition of employment" requirement can be met even if the employer does not compel an employee to reside in a publicly owned residence.

The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(a) A park ranger employed by the National Park Service, an agency of the United States government, resides in a house furnished by the agency at a national park. The ranger is required to be on call twenty-four hours a day to respond to requests for assistance from park visitors staying at an adjacent overnight campground. The use of the house is exempt from leasehold excise tax because the lodging enables the ranger to properly perform her duties.

(b) An employee of the Washington department of fish and wildlife resides in a house furnished by the agency at a fish hatchery although, under the terms of a collective bargaining agreement, the agency may not compel the employee to live in the residence as a condition of employment. In exchange for receiving use of the housing provided by the agency, the employee is required to perform additional duties, including regularly monitoring certain equipment at the hatchery during nights and on weekends and escorting public visitors on tours of the hatchery on weekends. The use of the house is exempt from leasehold excise tax because the lodging enables the employee to properly perform the duties of his employment. The use is exempt even though the employee would continue to be employed by the agency if the additional duties were not performed and even though state employees of an equal job classification are not required to perform the additional duties.

(c) A professor employed by State University is given the choice of residing in university-owned campus housing free of charge or of residing elsewhere and receiving a cash allowance in addition to her regular salary. If she elects to reside in the campus housing free of charge, the value of the lodging furnished to the professor would be subject to leasehold excise tax because her residence on campus is not required for her to perform properly the duties of her employment.

(7) **Interests held by enrolled Indians.** Leasehold interests held by enrolled Indians are exempt from leasehold excise tax if the lands are owned or held by any Indian or Indian tribe, and the fee ownership of the land is vested in or held in trust by the United States, unless the leasehold interests are subleased to a lessee which would not qualify under chapter 82.29A RCW, RCW 84.36.451 and 84.40.175 and the tax on the lessee is not preempted due to the balancing test (see WAC 458-20-192).

Any leasehold interest held by an enrolled Indian or a tribe, where the leasehold is located within the boundaries of an Indian reservation, on trust land, on Indian country, or is associated with the treaty fishery or some other treaty right, is not subject to leasehold excise tax. For example, if an enrolled member of the Puyallup Tribe leases port land at which the member keeps his or her boat, and the boat is used in a treaty fishery, the leasehold interest is exempt from the leasehold tax. For more information on excise tax issues related to enrolled Indians, see WAC 458-20-192 (Indians—Indian country).

(8) **Leases on Indian lands to non-Indians.** Leasehold interests held by non-Indians (not otherwise exempt from tax due to the application of the balancing test described in WAC 458-20-192) in any real property of any Indian or Indian tribe, band, or community that is held in trust by the United States or subject to a restriction against alienation imposed by the United States are exempt from leasehold excise tax if the amount of contract rent paid is greater than or equal to ninety percent of fair market rental value. In determining whether the contract rent of such lands meets the required level of ninety percent of market value, the department will use the same criteria used to establish taxable rent under RCW 82.29A.020 (2)(b) and WAC 458-29A-200.

For example, Harry leases land held in trust by the United States for the Yakama Nation for the sum of $900 per month. The fair market value for similar lands used for similar purposes is $975 per month. The lease is exempt from the leasehold excise tax because Harry pays at least ninety percent of the fair market value for the qualified lands. For more information on the preemption analysis and other tax issues related to Indians, see WAC 458-20-192.

(9) **Annual taxable rent is less than two hundred fifty dollars.** Leasehold interests for which the taxable rent is less than $250 per year are exempt from leasehold excise tax. For the purposes of this exemption, if the same lessee has a leasehold interest in two or more contiguous parcels of property owned by the same public lessor, the taxable rent for each contiguous parcel will be combined and the combined taxable rent will determine whether the threshold established by this exemption has been met. To be considered contiguous, the parcels must be in closer proximity than merely within the boundaries of one piece of property. When determining the annual leasehold rent, the department will rely upon the actual substantive agreement between the parties. Rent payable pursuant to successive leases between the same parties for the same property within a twelve-month period will be combined to determine annual rent; however, a single lease for a period of less than one year will not be projected on an annual basis.

The following examples identify a number of facts and then state a conclusion. These examples should be used only as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(a) The yacht club rents property from the Port of Bay City for its clubhouse and moorage. It also rents a parking stall for its commodore. The parking stall is separated from the clubhouse only by a common walkway. The parking stall lease is a part of the clubhouse lease because it is contiguous to the clubhouse, separated only by a necessary walkway.

(b) Ace Flying Club rents hangars, tie downs, and ramps from the Port of Desert City. It has separate leases for several parcels. The hangars are separated from the tie down space by a row of other hangars, each of which is leased to a different party. Common ramps and roadways also separate the club's hangars from its tie-downs. The hangars, because they are adjacent to one another, create a single leasehold interest. The tie downs are a separate taxable leasehold interest because they are not contiguous with the hangars used by Ace Flying Club.

(c) Grace leases a lot from the City of Flora, from which she sells crafts at different times throughout the year. She pays $50 per month for the lot, and has a separate lease for each season during which she sells. She has one lease from May through September, and a separate lease for the time between Thanksgiving and Christmas, which might run thirty to forty days, depending on the year. The leases will be combined for the purposes of determining the leasehold excise tax. They relate to the same piece of property, for the same activity by the same lessee, and occur within the same year.

(d) Elizabeth owns a Christmas tree farm. Every year she rents a small lot from the Port of Capital City, adjacent to its airport, to sell Christmas trees. She pays $125 to the port to rent the lot for 6 weeks. It is the only time during the year that she rents the lot. Her lease is exempt from the leasehold excise tax, because it does not exceed $250 per year in taxable rent.

(10) **Leases for a continuous period of less than thirty days.** Leasehold interests that provide use and possession of public property for a continuous period of less than thirty days are exempt from leasehold excise tax. In determining the duration of the lease, the department will rely upon the actual agreement and/or practice between the parties. If a single lessee is given successive leases or lease renewals of the same property, the arrangement is considered a continuous use and possession of the property by the same lessee. A leasehold interest does not give use and possession for a period of less than thirty days based solely on the fact that the public lessor has reserved the right to use the property or to allow third parties to use the property on an occasional, temporary basis.

(11) **Month-to-month leases in residential units to be demolished or removed.** Leasehold interests in properties rented for residential purposes on a month-to-month basis pending destruction or removal for construction of a public highway or public building are exempt from the leasehold excise tax. Thus, if the state or other public entity has acquired private property for purposes of building or expanding a highway, or for the construction of public buildings at an airport, the capitol campus, or some other public facility, and the public entity rents the property for residential purposes on a month-to-month basis pending destruction or removal for construction, these leases do not create taxable leasehold interests. This exemption does not require evidence of imminent removal of the residential units; the term "pending" merely means "while awaiting." The exemption is based upon the purpose for which the public entity holds the units.

For example, State University has obtained capital development funding for the construction of new campus buildings, and has purchased a block of residential property adjacent to campus for the sole purpose of expansion. Jim leases these houses from State University pursuant to a month-to-month rental agreement and rents them to students. Construction of the new buildings is not scheduled to begin for two years. Jim is not subject to the leasehold excise tax, because State University is holding the residential properties for the sole purpose of expanding its facilities, and Jim is leasing them pending their certain, if not imminent, destruction.

(12) **Public works contracts.** Leasehold interests in publicly owned real or personal property held by a contractor solely for the purpose of a public improvements contract or work to be executed under the public works statutes of Washington state or the United States are exempt from leasehold excise tax. To receive this exemption, the contracting parties must be the public owner of the property and the contractor that performs the work under the public works statutes.

For example, during construction of a second deck on the Nisqually Bridge pursuant to a public works contract between the state of Washington and Tinker Construction, any leasehold interest in real or personal property created for Tinker solely for the purpose of performing the work necessary under the terms of the contract is exempt from leasehold excise tax.

(13) **Correctional industries in state adult correctional facilities.** Leasehold interests for the use and possession of state adult correctional facilities for the operation of correctional industries under RCW 72.09.100 are exempt from leasehold excise tax.

For example, a profit or nonprofit organization operating and managing a business within a state prison under an agreement between it and the department of corrections is exempt from leasehold excise tax for its use and possession of state property.

(14) **Camp facilities for disabled persons.** Leasehold interests in a camp facility are exempt from leasehold excise tax if the property is used to provide organized and supervised recreational activities for disabled persons of all ages, and for public recreational purposes, by a nonprofit organization, association, or corporation which would be exempt from property tax under RCW 84.36.030(1) if it owned the property.

For example, a county park with camping facilities leased to a nonprofit charitable organization is exempt from leasehold excise tax if the nonprofit allows the property to be used by the general public for recreational activities throughout the year, and to be used as a camp for disabled persons for two weeks during the summer.

(15) **Public or entertainment areas of certain baseball stadiums.** Leasehold interests in public or entertainment areas of a baseball stadium with natural turf and a retractable roof or canopy, located in a county with a population of over one million people, with a seating capacity of over forty thousand, and constructed on or after January 1, 1995, are exempt from leasehold excise tax.

"Public or entertainment areas" for the purposes of this exemption include ticket sales areas, ramps and stairs, lobbies and concourses, parking areas, concession areas, restaurants, hospitality and stadium club areas, kitchens or other work areas primarily servicing other public areas, public rest rooms, press and media areas, control booths, broadcast and production areas, retail sales areas, museum and exhibit areas, scoreboards or other public displays, storage areas, loading, staging, and servicing areas, seating areas and suites, the playing field, and any other areas to which the public has access or that are used for the production of the entertainment event or other public usage, and any other personal property used for such purposes. "Public or entertainment areas" does not include locker rooms or private offices used exclusively by the lessee.

(16) **Public or entertainment areas of certain football stadiums and exhibition centers.** Leasehold interests in the public or entertainment areas of an open-air stadium suitable for national football league football and for Olympic and world cup soccer, with adjacent exhibition facilities, parking facilities, and other ancillary facilities constructed on or after January 1, 1998, are exempt from leasehold excise tax. For the purpose of this exemption, the term "public and entertainment areas" has the same meaning as set forth in subsection (15) above.

(17) **Public facilities districts.** All leasehold interests in public facilities districts, as provided in chapter 36.100 or 35.57 RCW are exempt from leasehold excise tax.

(18) **State route 16 corridor transportation systems.** All leasehold interests in the state route number 16 corridor transportation systems and facilities constructed and operated under chapter 47.46 RCW are exempt from leasehold excise tax. RCW 82.29A.132.

(19) **Sales/leasebacks by regional transit authorities.** All leasehold interests in property of a regional transit authority or public corporation created under RCW 81.112.320 under an agreement under RCW 81.112.300 are exempt from leasehold excise tax. This exemption is effective July 28, 2000. RCW 82.29A.134.

(20) **Interests consisting of three thousand or more residential and recreational lots.** All leasehold interests consisting of three thousand or more residential and recreational lots that are or may be subleased for residential and recreational purposes are exempt from leasehold excise tax. Any combination of residential and recreational lots totaling at least three thousand satisfies the requirement of this exemption. This exemption is effective January 1, 2002. RCW 82.29A.136.

(21) **Municipally owned historic sites.** All leasehold interests in property that is:

(a) Owned by a municipal corporation;

(b) Listed on any federal or state register of historical sites; and

(c) Wholly contained within a designated national historic reserve under 16 U.S.C. Sec. 461.

(22) **Amphitheaters.** All leasehold interests in the public or entertainment areas of an amphitheater if a private entity is responsible for one hundred percent of the cost of constructing the amphitheater which is not reimbursed by the public owner, both the public owner and the private lessee sponsor events at the facility on a regular basis, the lessee is responsible under the lease or agreement to operate and maintain the facility, and the amphitheater has a seating capacity of over seventeen thousand reserved and general admission seats and is in a county with a population of over three hundred fifty thousand, but less than four hundred twenty-five thousand. For the purposes of this subsection, "public or entertainment areas" include box offices or other ticket sales areas, entrance gates, ramps and stairs, lobbies and concourses, parking areas, concession areas, restaurants, hospitality areas, kitchens or other work areas primarily servicing other public or entertainment areas, public rest room areas, press and media areas, control booths, broadcast and production areas, retail sales areas, museum and exhibit areas, scoreboards or other public displays, storage areas, loading, staging, and servicing areas, seating areas including lawn seating areas and suites, stages, and any other areas to which the public has access or which are used for the production of the entertainment event or other public usage, and any other personal property used for these purposes. "Public or entertainment areas" does not include office areas used predominately by the lessee.

[Statutory Authority: RCW 82.29A.140. 05-23-092, § 458-29A-400, filed 11/16/05, effective 12/17/05; 02-18-036, § 458-29A-400, filed 8/26/02, effective 9/26/02; 99-20-053, § 458-29A-400, filed 10/1/99, effective 11/1/99.]

WAC 458-29A-500 Leasehold excise tax—Liability. (1) **Introduction.** The event triggering a leasehold excise tax liability is the use by a private person or entity of publicly owned, tax-exempt property.

Where a lessee is also a tax-exempt government entity, the tax will apply against a private sublessee, even though no contractual arrangement exists between the sublessee and the public lessor.

(2) **Lessor's responsibility to collect and remit tax.** The public lessor is responsible for collecting and remitting the leasehold excise tax from its private lessees. If the public lessor collects the leasehold excise tax but fails to remit it to the department, the public lessor is liable for the tax.

(a) Where the public lessor has attempted to collect the tax, but has received neither contract rent nor leasehold excise tax from the lessee, the department will proceed directly against the lessee for payment of the tax and the lessee shall be solely liable for the tax, provided, the lessor notifies the department in writing when the lessor is unable to collect rent and/or taxes, and the amount of the leasehold excise tax arrearage is $1000 or greater. If the lessor fails to notify the department, the department may, in its discretion, look to the public lessor for payment of the tax.

(b) If, upon examining all of the facts and circumstances, the department determines that the public lessor in good faith believed the lessee to be exempt from all or part of the leasehold excise tax, the department will look to the public lessor for assistance in collection of the tax due, but will not hold the public lessor personally liable for payment of such tax. To satisfy the requirement of "good faith" the public lessor must have acted with reasonable diligence and prudence to determine whether the leasehold excise tax was due from the lessee.

(3) The following examples, while not exhaustive, illustrate some of the circumstances in which a public lessor may or may not be held liable for the leasehold excise tax. These examples should be used only as a general guide. The status

of each situation must be determined after a review of all of the facts and circumstances.

(a) Doug has been newly hired in the accounting department at City Port and is assigned the responsibility for its rental accounts. He is unaware of the leasehold excise tax laws and fails to bill new tenants for the leasehold excise tax. In this situation, City Port does not avoid possible liability for the tax. Accounting errors and lack of knowledge regarding City Port's responsibility to collect and remit the leasehold excise tax do not qualify as reasonable diligence and prudence.

(b) Sybil rents an apartment in a building owned by State University but she is not a student of the University and the building is not used for student housing. She pays $900 per month in rent. The terms of the lease require her to give at least thirty days' notice of intent to vacate. In the month of March, she fails to pay her rent, and State University serves her with a notice to pay or quit the premises. On April 1, she sends a check to State University for $20l6 (two months' rent, plus leasehold excise tax). The bank does not honor the check, and Sybil abandons the premises in mid-April without notice. When State University discovers that she has left, it timely notifies the department of the unpaid rent and leasehold excise tax. State University has acted with reasonable prudence and diligence and will not be held liable for the unpaid leasehold excise tax. In serving Sybil with a notice to pay or quit when she first defaulted, State University attempted to mitigate the amount of rent and taxes which were unpaid, and it complied with all other requirements regarding its duty to report the arrearages to the department.

(c) Sonata City owns several houses on property which may be used in the future for office buildings, a fire station, or perhaps a park, depending on its future needs. The city leases the houses on six-month terms, mainly to students who attend the local college. Over the past four years that the city has rented the properties, it has not collected leasehold excise tax from the tenants, because city officials believed the property to be exempt since they planned someday to use the property for a public purpose. Following an audit, it is determined that there is no definite plan for destruction of the houses nor any funds allocated for construction of public buildings on the site. Further, the houses were not rented on a month-to-month basis. Therefore, leasehold excise tax is due. Most of the prior tenants have left the area, and there is no convenient way for the city to collect the unpaid leasehold tax. Sonata City is liable for the tax because although its managers did not believe the tax was due, the lack of knowledge regarding the city's responsibility to collect and remit the leasehold excise tax does not qualify as reasonable diligence and prudence. Sonata City had a duty to make a good faith effort to determine its obligations under the applicable leasehold excise tax statutes and rules.

[Statutory Authority: RCW 82.29A.140. 99-20-053, § 458-29A-500, filed 10/1/99, effective 11/1/99.]

WAC 458-29A-600 Leasehold excise tax—Collection and administration. (1) **Introduction.** Leasehold excise tax is levied by the state under RCW 82.29A.030 and by counties and/or cities under RCW 82.29A.040. The administrative procedures contained in chapters 82.02 and 82.32 RCW apply to the administration and collection of the leasehold excise tax.

(2) **Tax imposed.** The rates at which leasehold excise tax is levied are contained in RCW 82.29A.030 and 82.29A.040. The department publishes documents containing the applicable rates, credits, and formulas. These documents are updated as necessary and are available upon request.

(3) **Separate listing requirement.** The amount of leasehold excise tax due must be listed separately from the amount of contract rent on any statement or other document provided to the lessee by the lessor. If the leasehold excise tax is not stated separately from the contract rent, it is assumed that the leasehold excise tax is not included in the amount stated as due.

(4) **Credits allowed against leasehold excise tax.** Because the leasehold excise tax is intended only to equalize treatment between private property owners and lessees of public entities, the amount of leasehold excise tax should not exceed the amount of property tax that would be due if the leased property was privately owned. Therefore, in calculating the taxes imposed under RCW 82.29A.030 and 82.29A.-040, RCW 82.29A.120 authorizes the following credits:

(a) **Leasehold interests created after April 1, 1986, or situations where the department has established taxable rent.** Where a leasehold interest other than a product lease was created after April 1, 1986, or where the department has established taxable rent in accordance with RCW 82.29A.020 (2)(b), and the amount of leasehold excise tax due is greater than the amount of property tax that would be due if the property was privately owned by the lessee, without regard to any property tax exemption under RCW 84.36.381, a credit equal to the difference between the leasehold excise tax and the comparable property tax will be allowed.

If the property is subleased, the credit must be passed on to the sublessee. Lessees and sublessees of residential property who would qualify for either a partial or total exemption from property tax under RCW 84.36.381 if they owned the property in fee are eligible for a corresponding reduction in the amount of leasehold excise tax due. The leasehold excise tax for the qualifying lessees or sublessees is reduced by the same percentage as the percentage reduction in property that would result from the property tax exemption under RCW 84.36.381.

(b) **Product leases.** A credit of thirty-three percent of the total leasehold excise tax due is allowed for product leases.

(5) **When payment is due.** The leasehold excise taxes are due on the same date that the contract rent is due to the lessor. If the contract rent is paid to someone other than the lessor, the leasehold tax is due at the time the payment is made to that other person or entity. Any prepaid contract rent will be deemed to have been paid in the year due and not in the year in which it was actually paid if the prepayment is for more than one year's rent. If contract rent is prepaid, the leasehold tax payment may be prorated over the number of years for which the contract rent is prepaid. The prorated portion of the tax will be due in two installments per year, with no less than one-half due on or before May 31 and the second half due no later than November 30 of each year.

(6) **Collection and distribution of tax by the department.** The department collects and distributes the leasehold

excise taxes authorized by RCW 82.29A.030 and 82.29A.-040.

(a) **Taxes levied by the state.** All money received by the department from leasehold taxes levied under RCW 82.29A.-030 is transmitted to the state treasurer for deposit in the general fund.

(b) **Taxes levied by counties and cities.** Prior to the effective date of the ordinance imposing a leasehold excise tax, the county or city imposing the tax must contract with the department for administration and collection services. The department may deduct a percentage, not to exceed two percent, of the taxes collected as reimbursement for administration and collection expenses. The department deposits the balance of the taxes collected in the local leasehold excise tax account with the state treasury, and the state treasurer bimonthly distributes those moneys to the counties and cities.

County treasurers must proportionately distribute the moneys they receive in the same manner they distribute moneys collected from property tax levies in accordance with RCW 84.56.230, provided that no moneys are to be distributed to the state or any city, and the pro rata calculation for proportionate distribution cannot include any levy rates by the state or any city.

(7) **Leasehold interests in federally owned land or federal trust land.** Lessees with a leasehold interest in federally owned lands or federal trust lands must report and remit the leasehold tax due directly to the department on an annual reporting basis.

[Statutory Authority: RCW 82.29A.140. 99-20-053, § 458-29A-600, filed 10/1/99, effective 11/1/99.]

Chapter 458-30 WAC
OPEN SPACE TAXATION ACT RULES

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

Reviser's note: The former codification of Order 71-2, filed 3/26/71 and amended by Order 71-3, filed 4/29/71, showing related histories, was published in the Washington Administrative Code in Supp. #8 (4/1/71) and Supp. #9 (9/1/71). The sections showing captions and histories thereto are as follows:

Sections
458-30-005 Definitions. [Order 71-3, § 458-30-005, filed 4/29/71; Order 71-2, § 458-30-005, filed 3/26/71.]

Order PT 73-9, filed 10/30/73 adopts amended sections which are, in some respects, unrelated to former codification and adopts as new sections formerly codified rules which have been published in the Washington Administrative Code under another section number. Prior histories have been codified as part of a history where a similar subject has been amended. Please consult the above list, as filed by Order PT 73-9, for clarification.

458-30-005 Definitions. [Order PT 73-9, § 458-30-005, filed 10/30/73; Order 71-3, § 458-30-005, filed 4/29/71; Order 71-2, § 458-30-005, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-010 Classified lands. [Order PT 73-9, § 458-30-010, filed 10/30/73; Order 71-2, § 458-30-010, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-015 Agreement. [Order PT 73-9, § 458-30-015, filed 10/30/73; Order 71-2, § 458-30-015, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-020 Application. [Order PT 73-9, § 458-30-020, filed 10/30/73; Order 71-2, § 458-30-020, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-025 Application fee. [Order PT 73-9, § 458-30-025, filed 10/30/73; Order 71-2, § 458-30-025, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-030 Withdrawal—Change of use. [Order PT 73-9, § 458-30-030, filed 10/30/73; Order 71-2, § 458-30-030, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-035 Additional tax. [Order PT 73-9, § 458-30-035, filed 10/30/73.] Repealed by 78-07-027 (Order PT 78-3), filed 6/16/78. Statutory Authority: RCW 84.34.141.

458-30-040 Breach—Change of use. [Order PT 73-9, § 458-30-040, filed 10/30/73.] Repealed by 78-07-027 (Order PT 78-3), filed 6/16/78. Statutory Authority: RCW 84.34.141.

458-30-045 Removal of a portion. [Order PT 73-9, § 458-30-045, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.-010(2), 84.34.141 chapter 84.34 RCW.

458-30-050 Removal of classification. [Order PT 73-9, § 458-30-050, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-055 Notification upon removal. [Order PT 73-9, § 458-30-055, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-056 Additional tax. [Statutory Authority: RCW 84.34.141. 78-07-027 (Order PT 78-3), § 458-30-056, filed 6/16/78.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.-010(2), 84.34.141 and chapter 84.34 RCW.

458-30-057 Penalty. [Statutory Authority: RCW 84.34.141. 78-07-027 (Order PT 78-3), § 458-30-057, filed 6/16/78.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-060 Additional tax—Date due. [Order PT 73-9, § 458-30-060, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-065 Conditions where additional tax not imposed. [Order PT 73-9, § 458-30-065, filed 10/30/73.] Repealed by 78-07-027 (Order PT 78-3), filed 6/16/78. Statutory Authority: RCW 84.34.141.

458-30-070 Agreement may be abrogated by legislature. [Order PT 73-9, § 458-30-070, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-075 Assessor. [Order PT 73-9, § 458-30-075, filed 10/30/73; Order 71-2, § 458-30-075, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-080 Assessor to act on agricultural classification. [Order PT 73-9, § 458-30-080, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-085 Assessor to determine value. [Order PT 73-9, § 458-30-085, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-090 Assessor may require reports—Failure to comply. [Order PT 73-9, § 458-30-090, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-095 Assessor to note classification on assessment and tax roll. [Order PT 73-9, § 458-30-095, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-100 Assessor to record agreement and other notices. [Order PT 73-9, § 458-30-100, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-105 Notice of withdrawal to be filed with assessor—Assessor to withdraw. [Order PT 73-9, § 458-30-105, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.-010(2), 84.34.141 and chapter 84.34 RCW.

458-30-110 Assessor to notify owner of value change. [Order PT 73-9, § 458-30-110, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-115 Granting authority. [Order PT 73-9, § 458-30-115, filed 10/30/73; Order 71-2, § 458-30-040, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-120 Granting authority's action on application. [Statutory Authority: RCW 84.34.141. 78-07-027 (Order PT 78-3), § 458-30-120, filed 6/16/78; Order PT 73-9, § 458-30-120, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-125 Owner applicant. [Order PT 73-9, § 458-30-125, filed 10/30/73; Order 71-2, § 458-30-045, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-130 Treasurer. [Order PT 73-9, § 458-30-130, filed 10/30/73; Order 71-2, § 458-30-050, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-135 Advisory committee. [Order PT 73-9, § 458-30-135, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.-010(2), 84.34.141 and chapter 84.34 RCW.

458-30-140 Basis for assessment. [Order PT 73-9, § 458-30-140, filed 10/30/73; Order 71-3, § 458-30-055, filed 4/29/71; Order 71-2, § 458-30-055, filed 3/26/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-145 Valuation procedures. [Statutory Authority: RCW 84.34.141. 86-09-088 (Order PT 86-1), § 458-30-145, filed 4/23/86; 78-07-027 (Order PT 78-3), § 458-30-145, filed 6/16/78; Order PT 73-9, § 458-30-145, filed 10/30/73. Prior: Order 71-3, § 458-30-060, filed 4/29/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-146 Valuation cycle. [Statutory Authority: RCW 84.34.141. 78-07-027 (Order PT 78-3), § 458-30-146, filed 6/16/78.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.-010(2), 84.34.141 and chapter 84.34 RCW.

458-30-150 Change of timber land classification to chapter 84.33 RCW. [Order PT 73-9, § 458-30-150, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-155 Reclassification of farm and agricultural land under 1973 amendatory act. [Order PT 73-9, § 458-30-155, filed 10/30/73.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.-010(2), 84.34.141 and chapter 84.34 RCW.

458-30-160 Training. [Order PT 73-9, § 458-30-160, filed 10/30/73; Order 71-3, § 458-30-065, filed 4/29/71. [See reviser's note following chapter digest.] Repealed by 88-23-062 (Order PT 88-12), filed 11/15/88. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW.

458-30-235 Granting authority response. [Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-235, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-235, filed 11/15/88.] Repealed by 95-21-002, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360.

458-30-255 Determination of value—Assessor's duties. [Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-255, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-255, filed 11/15/88.] Repealed by 01-15-015, filed 7/9/01, effective 8/9/01. Statutory Authority: RCW 84.34.141.

458-30-261 Five year average grain prices. [Statutory Authority: Chapter 84.34 RCW and RCW 84.08.010(2). 89-05-008 (Order PT 89-1), § 458-30-261, filed 2/8/89.] Repealed by 90-02-080 (Order PT 90-1), filed 1/2/90, effective 2/2/90. Statutory Authority: RCW 84.08.010(2) and 84.34.141.

458-30-290 Additional tax—Withdrawal. [Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-290, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-290, filed 11/15/88.] Repealed by 95-21-002, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360.

458-30-315 County financial authority—Duties. [Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-315, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-315, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-315, filed 11/15/88.] Repealed by 01-24-030, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.34.141.

458-30-335 Rating system—Procedure to establish. [Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-335, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-335, filed 11/15/88.] Repealed by 06-18-011, filed 8/24/06, effective 9/24/06. Statutory Authority: RCW 84.34.141.

458-30-340 Rating system—Adoption—Notice to owner—Loss of classification. [Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-340, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-340, filed 11/15/88.] Repealed by 06-18-011, filed 8/24/06, effective 9/24/06. Statutory Authority: RCW 84.34.141.

458-30-350 Reclassification of lands classified under chapter 84.34 RCW prior to 1973. [Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-350, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-350, filed 11/15/88.] Repealed by 01-24-030, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.34.141.

458-30-360 Correction of erroneous classification or reclassification. [Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-360, filed 10/4/95, effective 11/4/95.] Repealed by 99-17-042, filed 8/12/99, effective 9/12/99. Statutory Authority: RCW 84.34.141.

458-30-580 Rate of inflation—When published—Calculation. [Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-580, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-580, filed 11/15/88. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-580, filed 3/10/87.] Repealed by 00-24-107, filed 12/6/00, effective 1/1/01. Statutory Authority: RCW 84.34.360 and 84.34.310.

WAC 458-30-200 Definitions. (1) **Introduction.** This rule provides definitions for the terms used in conjunction with land classified under the Open Space Taxation Act, codified as chapter 84.34 RCW. The terms listed in this rule are intended to act in concert with each other as appropriate.

(2) **Definitions.** For purposes of land classified under chapter 84.34 RCW, the following definitions apply:

(a) "Additional tax" means the additional property taxes that will be collected when classification is withdrawn or removed from land classified under chapter 84.34 RCW.

(b) "Affidavit" means the real estate excise tax affidavit required by chapter 82.45 RCW and chapter 458-61 WAC. The affidavit will be prescribed by the department and furnished to county treasurers. This form is used by landowners to report sales or transfers of classified land. The owner or transferor and the purchaser or transferee, or agents of each, must sign the affidavit under penalty of perjury.

(c) "Agreement" means an agreement executed between an owner and the granting authority regarding the classification of land as either open space or timber land under chapter 84.34 RCW.

(d) "Applicant" means the owner who submits an application for classification of land under chapter 84.34 RCW.

(e) "Application" means an application for classification of land under chapter 84.34 RCW.

(f) "Approval" means a determination by the granting authority that land qualifies for classification under chapter 84.34 RCW.

(g) "Appurtenance" refers to something used with, and related to or dependent upon another thing; that is, something that belongs to something else, an adjunct. The thing appurtenant is strictly necessary and essential to the proper use and enjoyment of the land, as well as useful or necessary for carrying out the purposes for which the land was classified under chapter 84.34 RCW.

(i) In terms of farm and agricultural land, an appurtenance is something used for a particular sort of farm and is widely and routinely used in the operation of the commercial agricultural enterprise.

(ii) For example, an appurtenance may be an outhouse, barn, or tool shed attached to or adjoining a dwelling or it may be equipment used for a particular purpose or task, such as tools, instruments, or machinery.

(h) "Aquaculture" means the growing and harvesting of marine or fresh water flora or fauna in a soil or water medium for commercial agricultural activities.

(i) "Assessor" means the county assessor or any agency or person who is authorized to act on behalf of the assessor.

(j) "Assessment year" means the year in which the property is listed and valued by the assessor and precedes the year in which the taxes on the property are due and payable.

(k) "Change in use" means a direct action taken by an owner that actually changes the use of, or has started changing the use of, classified land to a use that is not in compliance with the conditions of the agreement executed between the owner and the granting authority or to a use that is otherwise not in compliance with the provisions of chapter 84.34 RCW (see WAC 458-30-295).

(l) "Classified land" means a parcel(s) of land that has been approved by the appropriate granting authority for taxation under chapter 84.34 RCW.

(m) "Commercial agricultural purposes" means the use of land on a continuous and regular basis, prior to and subsequent to application for classification, that demonstrates that the owner or lessee is engaged in and intends to obtain through lawful means, a monetary profit from cash income received by engaging in the following commercial agricultural activities:

(i) Raising, harvesting, and selling lawful crops;

(ii) Feeding, breeding, managing, and selling of livestock, poultry, fur-bearing animals, or honey bees, or any products thereof;

(iii) Dairying or selling of dairy products;

(iv) Animal husbandry;

(v) Aquaculture;

(vi) Horticulture;

(vii) Participating in a government-funded crop reduction or acreage set-aside program; or

(viii) Cultivating Christmas trees or short-rotation hardwoods on land that has been prepared by intensive cultivation and tilling, such as by plowing or turning over the soil, and on which all unwanted plant growth is controlled continuously for the exclusive purpose of growing such trees.

An owner must engage in commercial agricultural activities on the land to demonstrate a commercial agricultural purpose.

(n) "Contiguous" means land that adjoins other land owned by the same owner or held under the same ownership. Land that is an integral part of a farming operation is considered contiguous even though the land may be separated by a public road, railroad, right of way, or waterway.

(o) "County financial authority" and "financial authority" mean the treasurer or any agency or person charged with the responsibility of billing and collecting property taxes.

(p) "County legislative authority" means the county commission, council, or other legislative body.

(q) "County recording authority" means the auditor or any agency or person charged with the recording of documents.

(r) "Current" and "currently" means as of the date on which property is to be listed and valued by the assessor.

(s) "Current use value" means the taxable value of a parcel of land placed on the assessment rolls following its classification under chapter 84.34 RCW.

(t) "Department" means the department of revenue.

(u) "Farm woodlot" means an area of land within a parcel(s) of classified farm and agricultural land that is used in a manner compatible with commercial agricultural activities including, but not limited to, the growing and cutting of trees for the use of the owner or the sheltering of livestock.

(v) "Granting authority" means the appropriate agency or official that acts on an application for classification under chapter 84.34 RCW. The granting authority for:

(i) Open space classification under RCW 84.34.020(1) and 84.34.037 is the county legislative authority. However, for applications within an incorporated area of a county, the granting authority is made up of three members of the county legislative body and three members of the city legislative body in the county in which the land is located;

(ii) Farm and agricultural classification under RCW 84.34.020(2) and 84.34.035 is the assessor or the assessor's designee; and

(iii) Timber land classification under RCW 84.34.020(3) and 84.34.041 is the county legislative authority. However, for applications within an incorporated area of a county, the granting authority is made up of three members of the county legislative body and three members of the city legislative body in the county in which the land is located.

(w) "Gross income" means cash income derived from commercial agricultural activities, including payments received from the United States Department of Agriculture for participating in a crop reduction or acreage set-aside program when such payments are based on the productive capacity of the land. The term shall not include the following:

(i) The value of any products produced on the land and consumed by the owner or lessee;

(ii) Cash income derived from leases for the use of the land for noncommercial agricultural activities; or

(iii) Payments for soil conservation programs.

(x) "Incidental use" means a use of land classified as farm and agricultural land that is compatible with commercial agricultural activities if it does not exceed twenty percent of the classified land. An incidental use may include, but is not limited to, wetland preservation, a gravel pit, a farm woodlot, or a produce stand.

(y) "Integral" means that which is central to or inherent in the use or operation of classified farm and agricultural land for commercial agricultural activities.

(z) "Interest" means the amount of applicable interest upon additional tax.

(aa) "Net cash rental" means the earning or productive capacity of farm and agricultural land less the production costs customarily or typically paid by an owner or landlord. See WAC 458-30-260 for a more detailed explanation.

(bb) "Notice of continuance" means the notice signed when land classified under chapter 84.34 RCW is sold or transferred if the new owner of the land intends to continue the classified use of the land and elects to have the land remain classified under chapter 84.34 RCW. This notice is part of the real estate excise tax affidavit or may be a separate document prepared by the department and attached to this affidavit.

(cc) "Owner" means:

(i) Any person(s) having a fee interest in a parcel of land; or

(ii) The contract vendee when the land is subject to a real estate contract.

(dd) "Parcel of land" means a property identified as such on the assessment roll. For purposes of chapter 84.34 RCW and this WAC chapter, a parcel shall not include any land area not owned by the applicant including, but not limited to, a public road, right of way, railroad, or waterway.

(ee) "Penalty" means the amount due when land is removed from classification under chapter 84.34 RCW. The amount of the penalty is equal to twenty percent of the additional tax and interest calculated in accordance with RCW 84.34.080 or 84.34.108.

(ff) "Planning authority" means the local government agency empowered by the appropriate legislative authority to develop policies and proposals relating to land use.

(gg) "Primary use" means the existing use of a parcel or parcels of land so prevalent that when the characteristic use of the land is evaluated a conflicting or nonrelated use appears to be very limited or excluded.

(hh) "Qualification of land" means the approval of an application for classification of land by a granting authority in accordance with chapter 84.34 RCW.

(ii) "Rating system" means a public benefit rating system adopted for classified open space land according to RCW 84.34.055.

(jj) "Reclassification" means the process by which land classified under chapter 84.34 or 84.33 RCW is changed from one classification to a different classification established by chapter 84.34 RCW or into forest land as described in chapter 84.33 RCW. For example, land classified as farm and agricultural land under RCW 84.34.020(2) may be reclassified as open space land under RCW 84.34.020(1).

(kk) "Removal" or "removed" means land classified under chapter 84.34 RCW is removed from classification by the assessor either because the owner requests removal, the new owner fails to sign the notice of classification continuance, or the land is no longer being used for the purpose for which classification was granted.

(ll) "Sale of ownership" means the conveyance of the ownership of a parcel of land in exchange for valuable consideration.

(mm) "Tax year" means the year when property tax is due and payable.

(nn) "Timber management plan" means the plan filed with the county legislative authority or the assessor when classified timber land is sold or transferred. It is synonymous with a "forest management plan" and details an owner's plan regarding the management of classified timber land including, but not limited to, the planting, growing and/or harvesting of timber. The elements of such a plan are set forth in WAC 458-30-232.

(oo) "Transfer" means the conveyance of the ownership of a parcel of land without an exchange of valuable consideration and may include situations where classified land is donated to an owner, corporation, partnership, or limited liability corporation.

(pp) "True and fair value" is the value of a parcel of land placed on the assessment rolls at its highest and best use without regard to its current use. The term also refers to market value, that is, the amount of money a buyer of property willing, but not obligated to buy would pay a seller of property willing but not obligated to sell, taking into consideration all uses to which the property is adapted and might reasonably be applied.

(qq) "Withdrawal" or "withdrawn" means action taken by the owner of land classified under chapter 84.34 RCW by filing a notice of request to withdraw the land from classification under the current use program in compliance with RCW 84.34.070. Once land has been classified under chapter 84.34 RCW, it must remain so classified for at least ten years from the date of classification. At any time after eight years of the initial ten-year classification period have elapsed, the owner may file a notice of request to withdraw all or a portion of the land from classification with the assessor of the county in which the land is located. Land is withdrawn from classification as a result of a voluntary act by the owner.

[Statutory Authority: RCW 84.34.141, 84.34.020, and 84.34.030. 02-20-041, § 458-30-200, filed 9/24/02, effective 10/25/02. Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-200, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-200, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-200, filed 11/15/88.]

WAC 458-30-205 Department of revenue—Duties. (1) **Introduction.** This section explains the duties assigned to the department of revenue in order to implement and administer chapter 84.34 RCW.

(2) **General authority.** The department shall maintain general administrative authority to assure that chapter 84.34 RCW is effectively and equitably applied throughout the state. Accordingly, the department, upon request, shall provide all reasonable assistance to the granting authorities relating to the administration of chapter 84.34 RCW.

(3) **Forms.** The department shall design all application and other administrative forms necessary under chapter 84.34 RCW, except those forms necessary for the rating system. Forms relating to the rating system shall be designed by the granting authority. Granting authorities shall provide all forms to applicants who seek classification under chapter 84.34 RCW.

(4) **Training.** The department shall provide the guidelines and necessary training to assessors and county boards of equalization so that they may administer chapter 84.34 RCW. Members of the advisory committee and members of any granting authority may attend the training sessions provided by the department.

(5) **Wheat and barley prices.** The department shall annually issue by December 31, by whatever means it deems suitable, a five-year average of wheat and barley prices for use by the assessor in the following assessment year.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-205, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-205, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-205, filed 11/15/88.]

WAC 458-30-210 Classification of land under chapter 84.34 RCW. (1) **Introduction.** Under chapter 84.34 RCW, land may be placed into one of three classifications on the basis of its current use. This rule explains and describes each classification of land as defined in RCW 84.34.020.

(2) **Definitions.** For purposes of this rule, the following definitions apply:

(a) "Farm employee or farm and agricultural employee" means an individual who is employed on farm and agricultural land on a full time basis or a seasonal or migratory worker who works on farm and agricultural land only during the planting, growing, and/or harvesting seasons. The term also includes an individual who is employed at least twenty-five hours per week on farm and agricultural land. It does not include a person who is employed full time by a business activity that is not conducted on classified farm and agricultural land and who only works occasional weekends or during the harvest season on classified farm and agricultural land.

(b) "Integral" means that which is central to or inherent in the use or operation of classified farm and agricultural land for commercial agricultural activities. For purposes of this rule, the residence of the farm operator or owner and/or housing for farm employees must be the place(s) from which the farmer conducts his/her commercial agricultural business.

(3) **Open space land.** Land classified as "open space land" means one of the following:

(a) Any parcel(s) of land so designated by an official comprehensive land use plan adopted by any city or county and zoned accordingly.

(b) Any parcel(s) of land, whereby preservation in its present use would either:

(i) Conserve and enhance natural or scenic resources;

(ii) Protect streams or water supply;

(iii) Promote conservation of soils, wetlands, beaches, or tidal marshes;

(iv) Enhance the value to the public of abutting or neighboring parks, forests, wildlife preserves, natural reservations or sanctuaries, or other open spaces;

(v) Enhance public recreation opportunities;

(vi) Preserve historic sites;

(vii) Preserve visual quality along a highway, road, or street corridor, or scenic vistas;

(viii) Retain in its natural state, tracts of land of not less than one acre in size situated in an urban area and open to public use on such conditions as may be reasonably required by the granting authority; or

(ix) Any parcel(s) of farm and agricultural conservation land. Farm and agricultural conservation land means either:

(A) Land previously classified as farm and agricultural land that no longer meets the criteria of farm and agricultural land and is reclassified as "open space land"; or

(B) Traditional farmland that is not classified under chapter 84.33 or 84.34 RCW, has not been irrevocably devoted to a use inconsistent with agricultural uses, and has a high potential for returning to commercial agriculture.

(4) **Farm and agricultural land.** Land classified as "farm and agricultural land" means one of the following:

(a) Any parcel of land twenty or more acres in size or multiple parcels of land that are contiguous and total twenty or more acres in size when the land is:

(i) Primarily used to produce livestock or agricultural products for commercial purposes;

(ii) Enrolled in the federal conservation reserve program or its successor administered by the United States Department of Agriculture; or

(iii) Primarily used in similar commercial agricultural activities as may be established by rule.

(b) Any parcel of land or contiguous parcels of land at least five acres, but less than twenty acres, in size that is primarily used for commercial agricultural purposes, and produces a gross income each year equal to:

(i) One hundred dollars or more in cash per acre per year for three of the five calendar years preceding the date of application for classification when the application was made prior to January 1, 1993; or

(ii) Two hundred dollars or more in cash per acre per year for three of the five calendar years preceding the date of application for classification when the application is made on or after January 1, 1993.

(c) Any parcel of land or contiguous parcels of land less than five acres in size that is primarily used for commercial agricultural purposes, and produces a gross income each year equal to:

(i) One thousand dollars or more in cash per year for three of the five calendar years preceding the date of application for classification when the application was made prior to January 1, 1993; and

(ii) One thousand five hundred dollars or more in cash per year for three of the five calendar years preceding the date of application for classification when the application is made on or after January 1, 1993.

(d) Any parcel of land that is twenty or more acres in size or multiple parcels of land that are contiguous and total twenty or more acres in size on which housing for farm and agricultural employees and the principal residence of the farm operator or the owner of land classified under RCW 84.34.020 (2)(a) is situated if:

(i) The housing or residence is on or contiguous to the classified parcel; and

(ii) The use of the housing or the residence is integral to the use of the classified parcel for agricultural purposes. (See WAC 458-30-317.)

(e) Farm and agricultural land also includes:

(i) Land on which appurtenances necessary for the production, preparation, or sale of commercial agricultural products are situated when the appurtenances are used in conjunction with the land(s) producing agricultural products, such as a machinery maintenance shed or a shipping facility located on farm and agricultural land that produces the products to be shipped;

(ii) Land incidentally used for an activity or enterprise that is compatible with commercial agricultural purposes as long as the incidental use does not exceed twenty percent of the classified land. An incidental use of classified farm and agricultural land may include, but is not limited to, wetland preservation, a gravel pit, a farm woodlot, or a produce stand; and

(iii) Any noncontiguous parcel of land from one to five acres in size that constitutes an integral part of the commercial agricultural operations of a parcel classified as farm and agricultural land under RCW 84.34.020(2).

(5) **Timber land.** Land classified as "timber land" means any parcel of land five or more acres in size or multiple parcels of land that are contiguous and total five or more acres in size that is primarily used for the commercial growth and harvesting of forest crops.

(a) Timber land refers only to the land.

(b) Timber land does not include:

(i) Land listed on the assessment roll as designated forest land according to chapter 84.33 RCW; or

(ii) Land on which nonforest crops or any improvements to the land are located.

[Statutory Authority: RCW 84.34.141, 84.34.020, and 84.34.030. 02-20-041, § 458-30-210, filed 9/24/02, effective 10/25/02. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-210, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-210, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-210, filed 11/15/88.]

WAC 458-30-215 Application process. (1) **Introduction.** This section explains the general application procedures of classification of land under chapter 84.34 RCW including where to obtain an application and the information that must accompany an application for classification or reclassification.

(2) **Availability of forms.** The assessor and the county legislative authority shall make available application forms for classification or reclassification and shall supply them upon request.

(a) The assessor and the county legislative authority shall provide the appropriate forms, informational materials (including, but not limited to, copies of chapter 84.34 RCW and chapter 458-30 WAC), and reasonable assistance to an owner who submits an application for classification or reclassification of land under chapter 84.34 RCW.

(b) If the county legislative authority adopts a public benefit rating system for the open space classification, it shall prepare the appropriate forms, provide informational materials, and provide assistance to applicants.

(3) **The applicant.** The applicant shall be the owner of the land described on the application.

(4) **If land is purchased or transferred while application is pending.** In the event a parcel is conveyed while approval of a timely filed application is pending, the purchaser or transferee shall, upon written request to the granting authority, be given the same consideration as the original applicant; in all aspects of the application process the purchaser or transferee shall assume the original applicant's rights and responsibilities in the application process. However, except for the application fee, the granting authority shall require the purchaser or transferee to satisfy all requirements that otherwise would have been required in accordance with the original application.

(5) **Application due date.** Application for classification of land according to chapter 84.34 RCW shall be made from January 1 through December 31 for classification or reclassification and the assessment of the land in its classified status will begin on January 1 in the year following application.

(a) In other words, application must be made during the calendar year preceding the assessment year in which the classification or reclassification is to begin and the taxes on the land based on its classified use and status are payable the year following the assessment year.

(b) Example. An owner submits an application for classification on April 1, 1993. If it qualifies for classification, the land will be assessed based on its current use status for assessment year 1994 and the owner will pay taxes based on this assessment in 1995.

(6) **Information to accompany application.** The application for classification or reclassification shall require only such information as is reasonably necessary to properly classify an area of land under the provisions of chapter 84.34 RCW, including a signed statement as to the truth of the information. It shall also include a statement that the applicant is aware of the potential tax liability involved when the land ceases to qualify as open space, farm and agricultural, or timber land. Additionally, the applicant shall provide a legal description of the parcel of land that is acceptable to the assessor and the granting authority, who shall determine the appropriate classification according to the provisions of chapter 84.34 RCW.

(7) **Land in multiple counties.** If the land described in the application for classification or reclassification is in more than one county, the owner shall file a separate application with the granting authority of each county.

(8) **Waiting period imposed after application is denied.** If an application for classification or reclassification is denied, a reapplication covering the same parcel of land, or a portion thereof, may not be submitted to the granting authority until three hundred sixty-five days have elapsed from the date the initial application was received.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-215, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-215, filed 11/15/88.]

WAC 458-30-220 Application fee. (1) **Introduction.** This section explains the processing fee that may be established by the city or county legislative authority and that may be required when an application for classification or reclassification is submitted. It also explains the manner in which the amount of this fee is determined and the distribution of this fee upon receipt.

(2) **Processing fee.** The city or county legislative authority may, at their discretion, require a processing fee to accompany each application. This fee shall be in an amount that reasonably covers the processing costs of the application.

(a) If any agreement is to be recorded, the cost of such recording shall come from the fee.

(b) The fee shall be made payable to the county financial authority, who shall forward a portion of the fee to any city in which the parcel of land is located in proportion to the land area included in the city to the total land area of the parcel.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-220, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-220, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-220, filed 11/15/88.]

WAC 458-30-225 Application for farm and agricultural classification. (1) **Introduction.** This section explains the application process for an applicant who seeks to have land classified or reclassified as farm and agricultural land under RCW 84.34.020(2).

(2) **Where to submit - granting authority.** An application for classification or reclassification as farm and agricultural land shall be made to the assessor of the county in which the land is located. The assessor shall be the granting authority.

(3) **Duties of assessor.**

(a) The assessor shall act on each application with due regard to all relevant evidence and may approve or deny the application in whole or in part. If any part of the application is denied, the applicant may withdraw the entire application.

(b) Except as provided by chapter 84.34 RCW and chapter 458-30 WAC, the assessor cannot impose conditions or restrictions regarding the approval of an application for classification or reclassification as farm and agricultural land.

(c) The assessor shall consider the relevant zoning ordinances and regulations. If a zoning ordinance prohibits the farm and agricultural activity for which classification or reclassification is being sought, the assessor shall deny the application.

(d) Upon receipt of an application for classification or reclassification, the assessor may require the applicant(s) to provide data regarding the current use of the land, including the productivity of typical crops, sales receipts, federal income tax returns including schedules documenting farm income, other related income and expense data, and any other information relevant to the application. Failure to provide the requested information shall be cause to deny an application. Generally, prospective use of the land may not be relevant evidence in acting upon an application.

(e) After an application has been approved and the classification or reclassification has been granted, the assessor may review the classification at any time.

(f) The assessor shall retain a copy of all applications submitted.

(g) The assessor may consider the land area used as a homesite in determining the eligibility of a parcel of land for farm and agricultural classification. If the homesite does not qualify for classification as farm and agricultural land in accordance with RCW 84.34.020 (2)(d) and WAC 458-30-210 (4)(d), the land shall be taxed at its true and fair value.

(4) **Approval.** If no written determination is provided to the applicant prior to May 1 of the year following receipt of the application, the application shall be considered approved.

(5) **Denial.** The assessor may approve or deny an application for classification in whole or in part.

(a) The assessor shall notify the applicant in writing of the extent to which the application is approved or denied.

(b) An applicant who receives a notice that his or her application has been denied may appeal this decision to the board of equalization in the county where the land is located. The appeal shall be filed within thirty calendar days of the date the notice of denial was mailed and shall be in the form specified in RCW 84.40.038.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-225, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-225, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-225, filed 11/15/88.]

WAC 458-30-230 Application for open space classification. (1) **Introduction.** This section explains the application process for an applicant who seeks to have land classified or reclassified as open space land under RCW 84.34.020 (1).

(2) **Where to submit.** An application for classification or reclassification of land as open space shall be made to the county legislative authority of the county in which the land is located.

(3) **Granting authority.** The identity of the entity that will act as the granting authority shall be determined by the location of the land the applicant seeks to classify or reclassify as open space land. The granting authority shall be determined as follows:

(a) If the parcel(s) of land is located in an unincorporated area of the county, the county legislative authority shall be the granting authority.

(b) If the parcel(s) of land is located in an incorporated area of the county, a copy of the application for classification or reclassification shall be forwarded to the city legislative authority in which the land is located. The granting authority shall be composed of three members of the county legislative authority and three members of the city legislative authority.

(4) **Application process.** An application for classification or reclassification of a parcel(s) of land as open space land shall be processed as follows:

(a) Comprehensive land use plan. The granting authority shall determine whether or not the land is located in an area designated as "open space" by an official comprehensive land use plan adopted by a city or county and zoned accordingly.

(i) If the land is in an area subject to a comprehensive plan, the application for classification or reclassification shall be treated in the same manner as a proposed amendment to that plan.

(ii) If the land is in an area not subject to a comprehensive plan, a public hearing on the application shall be conducted. A notice of this hearing shall be announced once by publication in a newspaper of general circulation in the region, city, or county at least ten days before the hearing. The owner who submitted the application for classification or reclassification that is the subject of the public hearing shall be notified in writing of the date, time, and location of this hearing.

(b) Factors to consider. In determining whether an application for classification or reclassification as open space land should be approved, the granting authority:

(i) May take particular notice of the benefits to the general welfare of preserving the current use of the parcel(s) of land described in the application; and

(ii) Shall consider the following:

(A) The revenue loss or tax shift that will result from granting the application;

(B) Whether granting the application for classification or reclassification of land under RCW 84.34.020 (1)(b) will:

(I) Conserve or enhance natural, cultural, or scenic resources;

(II) Protect streams, stream corridors, wetlands, natural shorelines, and aquifers;

(III) Protect soil resources, unique or critical wildlife, and native plant habitat;

(IV) Promote conservation principles by example or by offering educational opportunities;

(V) Enhance the value to the public of abutting or neighboring parks, forests, wildlife preserves, nature reservations or sanctuaries, or other open spaces;

(VI) Enhance recreation opportunities;

(VII) Preserve historic and archaeological sites;

(VIII) Preserve visual quality along highway, road, and street corridors or scenic vistas; or

(IX) Affect any other factors relevant in weighing benefits to the general welfare of preserving the current use of the land; and

(C) Whether granting the application for classification or reclassification of land as farm and agricultural conservation land (RCW 84.34.020 (1)(c)) will:

(I) Either preserve land previously classified as farm and agricultural land under RCW 84.34.020(2) or preserve traditional farmland not classified under chapter 84.33 or 84.34 RCW;

(II) Preserve land with a potential for returning to commercial agriculture; and

(III) Affect any other factors relevant in weighing general benefits of preserving the current use of the property.

(iii) In addition to the foregoing concerns, the granting authority shall consider:

(A) The existence of any mining claim or mining lease on the land, and if such a claim or lease will seriously interfere with the considerations stated in (b)(i) and (ii) of this subsection. If the granting authority determines serious interference will occur, it may deny the application in whole or in part. If a mining claim or mining lease is obtained after the land is classified or reclassified, the same determination must be made in deciding whether serious interference will occur; and

(B) The zoning of the parcel(s) of land at the time the application for classification or reclassification is filed.

(5) **Approval or denial of application.** The granting authority shall either approve or disapprove the application within six months of the date the completed application was received by the county legislative authority.

(a) The granting authority may approve the application for classification or reclassification in whole or in part. If any part of the application is denied, the applicant may withdraw the entire application.

(b) In approving the application in whole or in part, the granting authority may also require that certain conditions be met including, but not limited to, the granting of easements. As a condition of granting an application for open space classification, the granting authority may not require public access on land classified under RCW 84.34.020 (1)(b)(iii) to promote the conservation of wetlands.

(c) If approved, valuation of the land at its current use value shall begin on January 1 of the year following the year the application was filed. However, any application approved on or after July 1 of any year shall cause the land to be listed on the assessment roll at its current use value on January 1 of the following assessment year.

(d) When the application for classification or reclassification as open space has been approved, the granting authority shall prepare an agreement. See WAC 458-30-240 for a detailed description of this agreement.

(e) The granting or denial of an application for classification or reclassification as open space land is a legislative determination and shall be reviewable only for arbitrary and capricious actions.

(6) **Public benefit rating system.** When an application for classification or reclassification under RCW 84.34.020 (1)(b) and (c) is submitted regarding land that is subject to a public benefit rating system adopted under RCW 84.34.055, the county legislative authority shall rate the parcel(s) of land in accordance with the public benefit rating system to determine whether the application should be approved or denied.

Land that was classified under RCW 84.34.020 (1)(b) or (c) prior to the adoption of a public benefit rating system does not have to requalify for classification under the criteria of the public benefit rating system. The land shall not be removed from classification by an assessor. This land may be rated according to the public benefit rating system as appropriate. (See WAC 458-30-330, 458-30-335, and 458-30-340 for more information about the public benefit rating system.)

(7) **Record retention.** The granting authority shall keep a record of each application, agreement, and records relating to each agreement.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-230, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-230, filed 11/15/88.]

WAC 458-30-232 Application for timber land classification. Introduction. This rule explains the application process used by an applicant who seeks to have land classified or reclassified as timber land under RCW 84.34.020(3).

Definition. For purposes of this rule, the following definitions apply:

(1) **"Stand of timber"** means a stand of trees that will yield log and/or fiber:

(a) Suitable in size and quality for the production of lumber, plywood, pulp, or other forest products; and

(b) Of sufficient value to cover at least all the costs of harvest and transportation to available markets.

(2) **"Timber management plan"** means a plan prepared by a professional forester, or by another person who has adequate knowledge of timber management practices, concerning the use of the land to grow and harvest timber. Such a plan includes the following elements:

(a) A legal description of the land;

(b) A statement that the timber land is held in contiguous ownership of at least five acres and is primarily devoted to and used to grow and harvest timber;

(c) A brief description of the timber on the timber land or, if the timber has been recently harvested, the owner's plan to restock the land with timber;

(d) A statement about whether the timber land is also used to graze livestock;

(e) A statement about whether the land has been used in compliance with the restocking, forest management, fire protection, insect and disease control, and forest debris provisions of Title 76 RCW; and

(f) If the land has been recently harvested or supports a growth of brush and noncommercial type timber, a description of the owner's plan to restock the timber land within three years.

(3) **Where to submit.** An application for classification or reclassification of land as timber land under RCW 84.34.-020(3) is submitted to the county legislative authority of the county in which the land is located.

(4) **Granting authority.** The identity of the entity that will act as the granting authority will be determined by the location of the land the applicant seeks to classify or reclassify as timber land. The granting authority will be determined as follows:

(a) If the parcel(s) of land is located in an unincorporated area of county, the county legislative authority is the granting authority.

(b) If the parcel(s) of land is located in an incorporated area, a copy of the application for classification is forwarded to the city legislative authority in which the land is located. The granting authority is composed of three members of the county legislative body and three members of the city legislative authority.

(5) **Application process.**

(a) Consider all relevant evidence. The granting authority will act upon the application with due regard to all relevant evidence.

(b) Information that must accompany application. An application for classification or reclassification of a parcel(s) of land as timber land is made on forms prepared by the department. An application must include the following information and be accompanied by a timber management plan as defined in subsection (2) of this rule:

(i) A legal description of or the parcel number(s) of all land the applicant desires to be classified as timber land;

(ii) The date or dates the land was acquired;

(iii) A brief description of the timber on the land or, if the timber has been harvested, the owner's plan for restocking;

(iv) If the timber or forest management plan for the land has existed for more than one year, the application must indicate the nature and extent to which the plan has been implemented or changed;

(v) Whether the land is used for grazing;

(vi) Whether the land has been subdivided or a plat has been filed with respect for the land;

(vii) Whether the land and the applicant have complied with the restocking, forest management, fire protection, insect and disease control, weed control, and forest debris provisions of Title 76 RCW or applicable rules under Title 76 RCW;

(viii) Whether the land is subject to forest fire protection assessments under RCW 76.04.610;

(ix) Whether the land is subject to a lease, option, or other right that permits the land to be used for a purpose other than growing and harvesting timber;

(x) A summary of the applicant's past experience and activities in growing and harvesting timber;

(xi) A summary of the applicant's current and continuing activities in growing and harvesting of timber; and

(xii) A statement that the applicant is aware of the potential tax liability involved if the land ceases to be classified as timber land.

(c) Solitary factors that will result in automatic denial. An application may be denied for any of the following reasons without regard to any other factor:

(i) The land does not contain a stand of timber as defined in subsection (1) of this rule, as well as in chapter 76.09 RCW, and WAC 222-16-010. This reason alone is not sufficient to deny the application if:

(A) The land has been recently harvested or supports a growth of brush or noncommercial type timber and the application includes a plan for restocking within three years or a longer period necessitated because seed or seedlings are unavailable; or

(B) Only isolated areas within the land do not meet minimum standards due to rock outcroppings, swamps, unproductive soil, or other natural conditions.

(ii) The applicant, with respect to the land for which classification or reclassification is sought, has failed to comply with a final administrative or judicial order regarding a violation of the restocking, forest management, fire protection, insect and disease control, weed control, and forest debris provisions of Title 76 RCW or applicable rules under Title 76 RCW.

(iii) The land abuts a body of salt water and lies between the line of ordinary high tide and a line paralleling the ordinary high tide line and two hundred feet horizontally landward from the high tide line.

(6) **Public hearing required.** An application for classification of land as timber land will be approved or denied after a public hearing on the application is held. A notice of this hearing is to be announced once by publication in a newspaper of general circulation in the region, city, or county at least ten days before the hearing. The owner who submitted the application for classification or reclassification is to be notified in writing of the date, time, and location of the public hearing.

(7) **Timber management plan required.** A timber management plan must be filed with the county legislative authority either:

(a) When an application for classification is submitted; or

(b) Within sixty days of the date an application for reclassification under chapter 84.34 RCW or from designated forest land under chapter 84.33 RCW is received. The application for reclassification will be accepted, but may not be processed until the timber management plan is received. If this plan is not received within sixty days of the date the application for reclassification is received, the application will be denied.

(c) If circumstances require it, the assessor may allow an extension of time for submitting a timber management plan when an application for classification or reclassification is received. The applicant will be notified of this extension in writing. When the assessor extends the filing deadline for a timber management plan, the county legislative authority should delay processing the application until this plan is received. If this plan is not received by the date set by the assessor, the application for classification or reclassification will be automatically denied.

(8) **Approval or denial of application.** The granting authority will either approve or disapprove the application for classification or reclassification within six months of the date it is received by the county legislative authority.

(a) The granting authority may approve the application for classification or reclassification in whole or in part. If any part of the application is denied, the applicant may withdraw the entire application.

(b) In approving the application in whole or in part, the granting authority may also require that certain conditions be met. The granting authority may not require the granting of easements for land classified as timber land.

(c) The granting or denial of an application for classification as open space land or reclassification is a legislative determination and is reviewable only for arbitrary and capricious actions.

[Statutory Authority: RCW 84.34.141, 84.34.020, and 84.34.030. 02-20-041, § 458-30-232, filed 9/24/02, effective 10/25/02. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-232, filed 10/4/95, effective 11/4/95.]

WAC 458-30-240 Agreement relating to open space and timber land classifications. (1) **Introduction.** This section explains the contents of and the procedures relating to the agreement that is executed when an application for classification or reclassification as open space land under RCW 84.34.037 or timber land under RCW 84.34.041 has been approved by the granting authority.

(2) **Preparation and contents.** When an application for classification or reclassification as open space or timber land has been approved by the granting authority, the granting authority shall prepare an agreement. For purposes of this section, the date of approval shall be the date on which the granting authority approves the application for classification or reclassification.

(a) The agreement shall state all conditions attached to the approval of the application. The conditions of approval and any requirements of the classification detailed in the agreement shall be binding upon any heir, successor, or assignee of the parties of the original agreement.

(b) The agreement shall apply to the parcel(s) of land described in the agreement.

(c) The agreement may include, but is not limited to, a description of the ways the classified land may be used to retain its classified status, the actions that will cause removal of the land from classification, and the consequences of a change in the classified use of the land.

(3) **Submit agreement to owner for signature.**

(a) Within five calendar days after the approval of the application for classification or reclassification, in whole or in part, the granting authority shall deliver by certified mail, return receipt requested, the agreement to the owner for signature.

(b) The owner may accept or reject the agreement.

(c) If accepted, the agreement shall be signed and returned to the granting authority within thirty calendar days after receipt.

(d) If the agreement is not signed and returned to the granting authority within thirty days of the date the unsigned agreement was mailed to the owner, the granting authority shall conclusively presume the agreement has been rejected unless the owner can show proof that he or she was prevented from returning the agreement by events beyond his or her control.

(e) To be properly executed, the agreement shall be signed by the owner and shall become effective on the date the granting authority receives the signed agreement from the owner of the classified parcel(s) of land.

(4) **Executed agreement to be sent to assessor.** The granting authority shall, within ten days after receiving the signed agreement, send one copy to the assessor of the county in which the land is located.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-240, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-240, filed 11/15/88.]

WAC 458-30-242 Application for open space/farm and agricultural conservation land classification. (1) **Introduction.** The 1992 legislative changes to chapter 84.34 RCW created a subclassification of farm and agricultural conservation land within the open space classification. This section explains the criteria and procedures related to farm and agricultural conservation land.

(2) **Open space application criteria and process must be followed.** Farm and agricultural conservation land is not a separate classification within chapter 84.34 RCW. This type of land is merely a subclassification within the open space classification.

(a) To obtain the open space/farm and agricultural conservation land classification, the applicant must follow and comply with the procedures and requirements related to the open space classification. The process of applying for open space classification is set forth in RCW 84.34.037 and WAC 458-30-230.

(b) In addition to the information normally required to accompany an application for open space classification, an applicant seeking open space/farm and agricultural conservation land classification shall submit a statement about the previous use, the current use, and the intended future use of the land. If the land is traditional farmland that has never been classified under chapter 84.33 or 84.34 RCW, this information should be included in the applicant's signed statement.

(3) **Specific requirements for classification as open space/farm and agricultural conservation land.** To be classified as farm and agricultural conservation land, the land shall be:

(a) Previously classified as farm and agricultural land under RCW 84.34.020(2), that no longer meets the criteria for classification under RCW 84.34.020(2), and that shall be reclassified as open space land under RCW 84.34.020(1); or

(b) Traditional farmland that is not classified under chapter 84.33 or 84.34 RCW, that has not been irrevocably dedicated to a use inconsistent with agricultural uses, and that has a high potential for returning to commercial agricultural purposes.

(4) **Examples.**

(a) Farmer Jones and his wife own nineteen acres of classified farm and agricultural land. Farmer Jones dies and his wife inherits the classified land. Mrs. Jones realizes that she cannot actively farm the land and produce the annual amount of income required by RCW 84.34.020 (2)(b). She decides to have the land reclassified as farm and agricultural conservation land within the open space classification. The land may be reclassified as open space/farm and agricultural conservation land under subsection (3)(a) of this section if she submits an application for reclassification as open space/farm and agricultural conservation land and the application for reclassification is approved by the granting authority.

(b) Farmer McDowell has a fifty acre parcel of land on which he raises pigs and goats. He inherited this land from his father who farmed it before him. Also, the land has never been classified under chapter 84.34 RCW nor has it ever been designated forest land under chapter 84.33 RCW. As the result of an accident, Farmer McDowell breaks his back and cannot actively farm the land for an extended period of time. This land may be classified as open space/farm and agricultural conservation land under subsection (3)(b) of this section if Farmer McDowell submits an application for classification as open space/farm and agricultural conservation land, the application for classification is approved, the land is not irrevocably dedicated to a use inconsistent with agricultural uses, and the land has a high potential for returning to commercial agriculture.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-242, filed 10/4/95, effective 11/4/95.]

WAC 458-30-245 Recording of documents. (1) **Introduction.** This section details the documents relating to lands classified under chapter 84.34 RCW that must be filed with the county assessor and the county recording authority in accordance with RCW 84.34.050.

(2) **Notice to assessor.** When the granting authority has classified land under chapter 84.34 RCW, the granting authority shall file a notice to this effect with the assessor within ten working days of making the determination. As to any land classified under chapter 84.34 RCW, the assessor shall annually make a notation on the county's assessment list and tax roll of the assessed value of this land for the use for which it is classified and the assessed value of this land if it were not so classified.

(3) **Agreement relating to open space land or timber land classification.** Within ten working days of receipt of an agreement regarding land classified as open space or timber land from a granting authority, the assessor shall submit the executed agreement to the county recording authority for recording in the place and manner provided for the public recording of tax liens on real property. The county recording authority shall return the agreement to the assessor following recording.

(4) **Notice of approval relating to farm and agricultural land classification.** Within ten working days of the approval of an application for farm and agricultural land classification or reclassification, the assessor shall send a notice of approval to the county recording authority for recording in the place and manner provided for the public recording of tax liens on real property.

(5) **Notice of withdrawal or removal.** When land is to be withdrawn or removed from classification under chapter 84.34 RCW, the assessor shall forward a notice of withdrawal or removal to the county recording authority. The county recording authority shall record all notices of withdrawal or removal. The owner shall pay all recording fees for the notices.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-245, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-245, filed 11/15/88.]

WAC 458-30-250 Approval or denial and appeal. (1) **Introduction.** This section describes the procedure an applicant must follow if his or her application for classification or reclassification under chapter 84.34 RCW is denied, in whole or in part, and he or she wishes to appeal the determination.

(2) **General requirement.** The granting authority shall immediately notify the assessor and the applicant of the approval or denial of an application for classification or reclassification. An application for classification or classification as open space, timber, or farm and agricultural land should be approved or denied no later than six months after the receipt of this application. However, if an application for classification or reclassification as farm and agricultural land is not denied, in whole or in part, by the first day of May of the year after the application was submitted, the application shall be deemed approved. For example, an application for classification as farm and agricultural land shall be considered approved if it was delivered to the assessor on August 30, 1993, and was not denied prior to May 1, 1994.

(3) **Written denials with reasons required.** All denials of an application for classification or reclassification shall be in writing and shall include the reasons for denial.

(4) **Owner's right to appeal.** The owner shall have the right to appeal any denial of an application for classification or reclassification.

(a) If an application for classification or reclassification as farm and agricultural land is denied by the granting authority, in whole or in part, the applicant may appeal to the board of equalization of the county in which the land is located within thirty calendar days of date the denial was mailed.

(b) If an application for classification or reclassification as either open space or timber land is denied by the granting authority, in whole or in part, the applicant may appeal only to the superior court of the county in which the land is located and the application was made.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-250, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-250, filed 11/15/88.]

WAC 458-30-260 Valuation procedures for farm and agricultural land. (1) **Introduction.** This section outlines the methods an assessor may use to determine the value of land classified as farm and agricultural land under chapter 84.34 RCW. The valuation procedures are outlined in RCW 84.34.065. The method used to value the principal residence of the farm operator or owner and the housing of farm and agricultural employees on classified farm and agricultural land is described in WAC 458-30-317.

(2) **Definitions.** For purposes of this section, the following definitions apply:

(a) "Landlord" means the person(s) or business enterprise that leases or rents classified farm and agricultural land to another person(s) or business entity.

(b) "Net cash rental" means the average rental paid on an annual basis, in cash, for the land being appraised and other farm and agricultural land of similar quality and similarly situated that is available for lease for a period of at least three years to any reliable person without unreasonable restrictions on its use for the production of agricultural crops.

(c) "Rate of interest" means the rate of interest charged by the farm credit administration and other large financial institutions regularly making loans secured by farm and agricultural lands through mortgages or similar legal instruments averaged over the immediate past five years.

(3) **General considerations.** The assessor shall use all available information to determine the productive or earning capacity of classified farm and agricultural land including, but not limited to, farm production information, actual crop production within an area averaged over not less than five years, and other relevant data. The assessor may also use reliable statistical sources. Additionally, a soil capability analysis may be considered in determining the productive or earning capacity of classified land.

(4) **Determination of current use value.** The value of classified farm and agricultural land shall be determined by the productive or earning capacity of comparable land from crops typically grown in the area averaged over not less than five years, capitalized at indicative rates. The assessor shall

use the capitalization of income method to value this type of classified land.

(a) The earning or productive capacity of comparable land is the "net cash rental," capitalized at a "rate of interest" charged on long-term loans secured by a mortgage on farm or agricultural land plus a component for property taxes. The rate of interest and the property tax component for each county are set forth in WAC 458-30-262.

(b) The value of classified farm and agricultural land shall be the net cash rental of the land divided by the capitalization rate.

(5) **Net cash rental.** The net cash rental to be capitalized shall be determined as follows:

(a) Based on leases. Leases of farm and agricultural land paid on an annual basis, in cash, shall be used in determining the net cash rental. The cash value of these leases shall include government subsidies if the subsidies are based on the earning or productive capacity of the land. Only leases of land that is available for rent for a period of at least three years to any reliable person without unreasonable restrictions on its use to produce agricultural crops may be used in this determination. Lease payments shall be averaged as follows:

(i) Each annual lease or rental payment for the land being valued and for other farm and agricultural land within the area of similar quality and upon which typical crops in the area are grown shall be averaged for at least the preceding five crop years; and

(ii) The typical cash rental for each year shall be averaged for at least the preceding five crop years.

(A) Costs of crop production customarily paid by the landlord may be deducted from the typical cash rental. All costs and expenses shall be averaged for at least the preceding five crop years.

(B) If the land is irrigated by a sprinkler system, the amount of rent attributable, if any, to the irrigation equipment shall be deducted from the gross cash rent to determine the net cash rental of the land only. However, the value of irrigation equipment will be placed on the assessment roll at its true and fair value.

(b) Earning or productive capacity of land. If only an insufficient number of leases are available, the earning or productive capacity of farm and agricultural land shall be calculated by determining the cash value of typical crops grown on land of similar quality and similarly situated within the area then subtracting the standard production costs of the crops. The cash value minus the production costs of typical crops are to be averaged over at least five crop years. Cash value shall include, but is not limited to, government subsidies if the subsidies are based on the earning or productive capacity of the land. Any acreage kept out of production because of government subsidies shall be included in the total acreage valued by the capitalization of the income method.

(c) When the land being valued is not being used for commercial agricultural purposes or when the available information is insufficient to determine the earning or productive capacity of the land, the assessor shall compute a reasonable amount based on the land's estimated productive capacity to be capitalized as income.

(6) **Capitalization rate.** The capitalization rate that is used to value classified farm and agricultural land is the sum of the following:

(a) An interest rate determined by the department on or before January 1st each year. This rate shall be the rate of interest charged on long-term loans secured by mortgages or similar legal instruments averaged over the immediate past five years; plus

(b) A component for property taxes determined by dividing the total taxes levied within the county for the year preceding the assessment by the total assessed value of all property within the county and multiplying the quotient by one hundred.

(7) **Appeal of interest rate determination.** The department shall annually determine a rate of interest and property tax component that shall be announced in a rule. (WAC 458-30-262.) This rule will be published in the *Washington State Register* before January 1st each year so that it may be used in that assessment year. The department's determination of the interest rate may be appealed to the state board of tax appeals within thirty calendar days after the date of publication by:

(a) Any owner of a parcel(s) of land classified as farm and agricultural; or

(b) The assessor of any county containing parcels of land that are classified as farm and agricultural under chapter 84.34 RCW.

(8) **Valuation of principal residence or housing for employees.** Land classified as farm and agricultural land because it is the site of the principal residence of the operator or owner of the land and the housing for farm and agricultural employees will be valued in accordance with RCW 84.34.065 and WAC 458-30-317. If the residence or housing for employees does not meet all the requirements for classification, the land may not be classified as farm and agricultural land and it must be valued at its true and fair value in accordance with WAC 458-12-301.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-260, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2) and 84.34.141. 90-02-080 (Order PT 90-1), § 458-30-260, filed 1/2/90, effective 2/2/90. Statutory Authority: RCW 84.08.010 (2) and 84.34.065. 89-05-009 (Order PT 89-2), § 458-30-260, filed 2/8/89. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-260, filed 11/15/88.]

WAC 458-30-262 Agricultural land valuation—Interest rate—Property tax component. For assessment year 2009, the interest rate and the property tax component that are to be used to value classified farm and agricultural lands are as follows:

(1) The interest rate is 7.69 percent; and

(2) The property tax component for each county is:

COUNTY	PERCENT	COUNTY	PERCENT
Adams	1.29	Lewis	0.96
Asotin	1.25	Lincoln	1.18

WAC 458-30-265 Valuation cycle. (1) **Introduction.** This section explains the timing of revaluations of land classified under the provisions of chapter 84.34 RCW.

(2) **Revaluation cycle.** In determining the true and fair value and the current use value of classified lands, the assessor shall follow a revaluation cycle that adheres to the requirements contained in WAC 458-12-335 through 458-12-339. The cycle used shall be the same as that used for other real property in the county and shall be in an orderly manner, pursuant to a regular plan, and in a manner that is not arbitrary, capricious, or intentionally discriminatory.

(3) **Notice required.** The assessor shall notify the owner of classified lands of any change in the true and fair value and/or current use value in the same manner as prescribed in RCW 84.40.045.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-265, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-265, filed 11/15/88.]

WAC 458-30-267 Valuation procedures for open space and timber land. (1) **Introduction.** This section outlines the procedures set forth in RCW 84.34.060 about how to value land(s) classified as open space or timber land under the provisions of chapter 84.34 RCW.

(2) **Open space land.**

(a) In valuing land classified as open space, the assessor shall consider only the way in which the land and improvements are currently used; the assessor shall not consider potential uses of the land.

(b) The assessed value of open space land shall not be less than the minimum value per acre of classified farm and agricultural land.

(c) If open space land is located within a county where the county legislative authority has adopted an open space plan and a public benefit rating system in accordance with RCW 84.34.055, the assessed value of this open space land may be based on the public benefit rating system. The open space plan shall contain criteria for determining eligibility of lands, the process for establishing a public benefit rating system, and an assessed valuation schedule. An assessed valuation schedule shall be developed by the assessor and shall be a percentage of true and fair value based on the public benefit rating system.

(3) **Timber land.** The assessor shall value classified timber land according to the provisions of chapter 84.33 RCW.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-267, filed 10/4/95, effective 11/4/95.]

WAC 458-30-270 Data relevant to continuing eligibility—Assessor may require owner to submit. (1) **Introduction.** This section explains the types of data or information the assessor may require a person seeking continued classification or reclassification to submit so that land may retain its eligibility or be reclassified under chapter 84.34 RCW.

(2) **General authorization.** The assessor may require an owner of land classified under chapter 84.34 RCW to submit data relevant to the use of the land, productivity of typical crops, and other information pertinent to continued classification or reclassification and appraisal of the land. The assessor may request any relevant information that will assist him or her in determining whether the land is eligible for continued classification or reclassification. Relevant data or information includes, but is not limited to:

(a) Receipts from sales of agricultural products produced on classified land;

(b) Federal income tax returns including schedules documenting farm income, production costs, and other operating expenses;

(c) Rental or lease agreements and receipts;

(d) Government payments and subsidies;

(e) Crop and livestock production data; or

(f) Other income and expense information related to the land for which continued classification or reclassification is sought.

(3) **Request for information - procedure.** The assessor shall send the request for information by first class mail. The person seeking continued classification or reclassification must submit the requested information or data, in writing, no later than sixty calendar days following the date the request was mailed.

(a) If no response is received within sixty days, the assessor's office shall send the owner a second request for information by certified mail, return receipt requested. This second request shall include a statement that failure to submit the requested information or data within thirty calendar days of the date of mailing may cause the land to be removed from classification.

(b) If the owner of classified land does not respond to a request for information, the assessor may remove the land from classification.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-270, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-270, filed 11/15/88.]

WAC 458-30-275 Continuing classification upon sale or transfer of ownership of classified land—Actions of landowner and county officials to be taken prior to recording a conveyance of classified land. (1) **Introduction.** If land classified under chapter 84.34 RCW is sold or transferred and the new owner wants to retain the classified status of the land, certain procedures must be followed before the conveyance may be recorded or filed. This rule explains the necessary procedures and required forms.

(2) **General requirements - new owner elects to have the land remain classified.** The county recording authority shall not accept an instrument conveying ownership of land classified under chapter 84.34 RCW unless certain conditions are satisfied. When land classified under chapter 84.34 RCW is sold or transferred and the new owner elects to have the land retain its classified status, prior to recording or filing the conveyance, the new owner or the new owner's agent must:

(a) Sign the notice of continuance that is part of the real estate excise tax (REET) affidavit or sign a separate notice of continuance. (Subsection (9) of this rule contains an explanation about REET.) Both the REET affidavit and the notice of continuance are forms prepared by the department of revenue and supplied to the counties. Both forms are available from the department by sending a written request to:

Department of Revenue
Taxpayer Services
P.O. Box 47478
Olympia, WA 98504-7478.

A copy of the notice of continuance may be obtained from the county assessor or it may be downloaded from the internet at http://dor.wa.gov/index.asp under property tax, "forms." A copy of the REET affidavit may be obtained from the county treasurer. If the classified land is owned by multiple owners, all owners or their agent(s) must sign the notice of continuance on the affidavit or the separate notice of continuance; and

(b) Provide the assessor with a signed statement that explains how the new owner intends to use the classified land and any other information the assessor deems necessary to determine whether the land will continue to be eligible for classification under chapter 84.34 RCW. (See RCW 84.34.121 and WAC 458-30-270.)

(3) **Required duties of the assessor before a conveyance of classified land may be filed or recorded.** The new owner must supply the assessor with the information outlined in subsection (2) of this rule if the new owner elects to have the land remain classified under chapter 84.34 RCW.

(a) After receiving all required documentation, the assessor is allowed up to fifteen calendar days to determine whether the land should retain its classified status or whether the land should be removed from classification as of the date of conveyance.

(b) To make this determination, the assessor may, but is not required to, consult with the county legislative authority if the land is classified as either open space or timber land or a combination of the county and city legislative bodies if the classified open space land is within an incorporated part of the county. Both the assessor and the granting authority may require the new owner to submit additional information about the use of the classified land after the sale or transfer is complete. This information will be used to determine whether the land should remain classified under chapter 84.34 RCW.

(4) **When may a county recording authority accept an instrument conveying ownership of classified land?** A county recording authority shall not accept an instrument of conveyance regarding the sale or transfer of land classified under chapter 84.34 RCW for filing or recording until the new owner signs a notice of continuance and the assessor determines that the land will or will not continue to qualify for classification. If the assessor decides that the land must be removed from classification, the assessor will note that the land does not qualify for continuance on the REET affidavit and begin the removal procedures set forth in WAC 458-30-295.

(a) If the new owner signs the notice of continuance and the assessor agrees that the land should remain classified, the assessor checks the box on the REET affidavit that the land qualifies for continued classified current use status. The completed affidavit is then presented to the county recording authority so that it may record or file the conveyance. A completed REET affidavit includes a stamp, placed on it by the treasurer, indicating that any REET or additional tax, interest, and penalty owed as a result of the sale or transfer has been paid. (See subsection (9) of this rule for a more detailed explanation of the real estate excise tax.)

(b) If the assessor decides that the land must be removed or the owner submits a written request to remove the land from classification, the assessor will check the appropriate box on the REET affidavit that the land does not qualify for continuance, sign the REET affidavit, and begin the removal procedures set forth in WAC 458-30-295.

(5) **Land removed from classification with no back taxes imposed.** If the removal results solely from one of the circumstances or actions listed in RCW 84.34.108(6), no additional tax, interest, or penalty is imposed. The assessor will:

(a) Follow the procedures set forth in WAC 458-30-295 and 458-30-300 for removing land from classification;

(b) Notify the treasurer and the seller or transferor that no additional tax, interest, or penalty will be imposed; and

(c) If the land is acquired for conservation purposes by any of the entities listed in RCW 84.34.108 (6)(f), inform the new owner that a lien equal to the amount of additional tax, interest, and penalty has been placed on the land, even though the additional tax, interest, and penalty will not be collected at this time. This lien becomes due and payable if and when the land ceases to be used for one of the purposes outlined in RCW 64.04.130 or 84.34.210.

(6) **Sales or transfers of timber land.** When a parcel(s) of classified timber land is sold or transferred, the new owner must submit a timber management plan to the assessor and comply with the general requirements listed in subsection (2) of this rule to retain the land's classified status. The assessor sends a copy of the timber management plan to the granting authority of the county in which the classified land is located. WAC 458-30-232 contains a list of the types of additional information an assessor may require the new owner to submit

to enable the assessor to determine whether the land will be used to grow and harvest timber for commercial purposes. Generally, the new owner is required to submit a timber management plan at the time of sale or transfer. If circumstances require it, the assessor may allow an extension of time for submitting this plan when a notice of continuance is received. The applicant will be notified of this extension in writing. When the assessor extends the filing deadline for a timber management plan, the county legislative authority should delay processing the application until this plan is received. If the timber management plan is not received by the date set by the assessor, the notice of continuance will be automatically denied.

(7) **Sales or transfers of farm and agricultural land.** When a parcel(s) of classified farm and agricultural land is sold or transferred, the new owner must comply with the general requirements listed in subsection (2) of this rule. The size of the classified land dictates whether any additional requirements must also be satisfied. After all required information is submitted, the assessor determines whether the land qualifies for continued classification.

(a) If the classified land sold or transferred is twenty acres or more, the new owner must satisfy the general requirements listed in subsection (2) of this rule.

(b) If the sale or transfer involves less than twenty contiguous acres, the new owner will be required to comply with the general requirements of subsection (2) of this rule and the seller or buyer may be asked to provide gross income data relating to the productivity of the farm or agricultural operation for three of the past five years. This income data is used to determine whether the land meets the income production requirements listed in RCW 84.34.020 (2)(b) and (c) for classification. However, if the income data is unavailable but the new owner is willing to sign the notice of continuance and accept the responsibility for any additional tax and interest owed for prior years that will be due if the land is later found to be ineligible for continued classification, the classified status of the land will continue until the assessor determines that the use of the land has changed or has not produced the requisite minimum income.

(i) RCW 84.34.020 (2)(b) and (c) set forth the minimum income production requirements for classified farm and agricultural land of less than twenty acres. Any sale or transfer of classified land is subject to these income limits. However, the income production requirements will not be examined when classified land is being transferred to a surviving spouse, but such land is subject to the same production requirements that were applicable before the spouse's death. For example, a sixteen acre parcel of classified farm and agricultural land, which was classified in 1998, is still required to produce a minimum of two hundred dollars per acre per year even though the assessor is not required to review the income production data at the time of sale or transfer.

(ii) Sale or transfer of land classified prior to January 1, 1993. As of January 1, 1993, the legislature imposed higher income production requirements on classified farm and agricultural land of less than twenty acres. When land classified prior to January 1, 1993, is sold or transferred to a new owner, the higher minimum income requirements set forth in RCW 84.34.020 (2)(b)(ii) and (c)(ii) will be deferred for a period of three years. The new owner is required to produce either two hundred dollars per acre per year if the parcel is five acres or more or fifteen hundred dollars per year if the parcel is less than five acres at least once during the three calendar years immediately following the sale or transfer. For example, if classification was granted in 1978 to a fifteen acre parcel that produced a gross income of one hundred thirty dollars per acre per year until it was sold on April 15, 1999, the minimum income requirements will be deferred until 2002. By the end of 2002, the new owner must show that the parcel produced two hundred dollars per acre at least one year during the three-year period between 2000 and 2002. If the land produced a gross income of two hundred dollars per acre, the land remains classified as farm and agricultural land. If the land failed to produce this amount at least once during this three-year period, the land will be removed from classification and the owner will be required to pay additional tax, interest, and penalty.

(iii) Sale or transfer of land classified after January 1, 1993. The higher minimum income production requirements of RCW 84.34.020 (2)(b)(ii) and (c)(ii) apply to all land classified after January 1, 1993. When such land is sold or transferred, the assessor may ask the seller or buyer to provide gross income data relating to the productivity of the farm or agricultural operation for three of the past five years. This information will be used to determine whether the land should retain its status as classified farm and agricultural land. For example, a ten acre parcel that was classified as farm and agricultural land on May 1, 1995, is sold on February 23, 2001. The assessor asks the seller of the classified land to provide information about the income the land produced during the five calendar years preceding the sale (i.e., 1995 through 2000). To retain the farm and agricultural classification, the land must have produced a minimum income of two hundred dollars per acre per year at least three of the five calendar years preceding the date of sale. However, if the income data is unavailable but the new owner is willing to sign the notice of continuance and accept the responsibility for any additional tax and interest owed for prior years that will be due if the land is later found to be ineligible for continued classification, the classified status of the land will continue until the assessor determines that the use of the land has changed or has not produced the requisite minimum income.

(c) Segregation of land. If the sale or transfer of classified land involves a segregation, the owner of the newly created parcel(s) and the owner of the parcel from which the land was segregated must comply with the requirements for classification, including the production of minimum income, to enable the assessor to continue the classified status of the land.

(8) **New owner's acknowledgement.** The new owner, by signing the notice of continuance, acknowledges that future use of the land must conform to the provisions of chapter 84.34 RCW.

(9) **Real estate excise tax (REET).** An excise tax is generally imposed in accordance with chapter 82.45 RCW whenever real property is sold or transferred. The amount of this tax is based upon the selling price of the real property. Real estate excise tax is due at the time of sale. This tax is paid to and collected by the treasurer of the county in which the real property is located. (See RCW 82.45.010 for a listing

of transactions that are not considered a sale or transfer upon which REET is imposed.)

[Statutory Authority: RCW 84.34.141, 84.34.020, and 84.34.030. 02-20-041, § 458-30-275, filed 9/24/02, effective 10/25/02. Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-275, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-275, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-275, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-275, filed 11/15/88.]

WAC 458-30-280 Notice to withdraw from classification. (1) **Introduction.** When an owner of classified land wishes to withdraw all or part of this land from the current use program, the owner must submit a request to withdraw classification to the assessor. This section explains when an owner may request a withdrawal from classification under the provisions of chapter 84.34 RCW and what the assessor must do upon receipt of this request.

(2) **Definition.** For purposes of this section, the following definition applies: "Withdrawal" or "withdrawn" occurs when the owner of land classified under the provisions on chapter 84.34 RCW has filed a notice of request to withdraw all or a portion of the land from classification. In order to qualify for withdrawal, the parcel(s) of land must have been classified for a minimum of ten years and the owner must have filed a notice of request to withdraw with the assessor at least two years prior to the assessment year when the parcel will be valued at the assessed value as determined in accordance with the county's approved revaluation cycle. Land is withdrawn from classified status by a voluntary act of the owner.

(3) **Requirements - ten years and notice of request for withdrawal.** Except as otherwise provided, land classified under the provisions of chapter 84.34 RCW shall remain classified and shall not be applied to any other use for at least ten assessment years from the effective date of classification.

(a) During the ninth or later assessment year of classification, the owner may file with the assessor a notice of request for withdrawal. The request for withdrawal may involve all or part of the land.

(b) Upon receiving the request for withdrawal, the assessor shall, within seven working days, transmit one copy of the request to the granting authority that approved the original application for classification.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-280, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-280, filed 11/15/88.]

WAC 458-30-285 Withdrawal from classification. (1) **Introduction.** RCW 84.34.070(1) states that once land has been classified under chapter 84.34 RCW, it must remain so classified for a minimum of ten years from the date of classification. The land will remain classified until and unless the owner submits to the assessor a notice of request for withdrawal of all or a portion of the land from classification. After a request to withdraw classification is received, the assessor is required to make a series of determinations. This rule explains the procedures the assessor must follow upon receipt of a request for withdrawal.

(2) **Withdrawal process.** Land classified under chapter 84.34 RCW must be applied to the classified use and remain in its classified status for at least ten years from the date of classification. During the ninth or later year of classification, the owner may request to have all or a portion of the land withdrawn from the current use program. The owner must submit a written request to withdraw classification to the assessor of the county in which the land is located. The land will be withdrawn from classification two assessment years after the request to withdraw is received.

(a) A parcel of land may be withdrawn from classification in whole or in part. See RCW 84.34.070(1).

(b) The additional tax and interest imposed by RCW 84.34.108 are due when land is withdrawn from classification if the land has been classified under chapter 84.34 RCW for a minimum of ten assessment years. If a request to withdraw classification is received by the assessor's office and an intervening act causes the current use classification to be removed before the two assessment years have elapsed, the penalty described in RCW 84.34.108 (4)(c) is also due. However, if the removal is a result of one of the circumstances listed in RCW 84.34.108(6) no additional tax, interest, or penalty will be imposed. (See WAC 458-30-300.)

(c) Within seven days of receiving a notice to withdraw classification, the assessor forwards a copy of this notice to the legislative body that approved the initial application for classification.

(d) A request to withdraw classification may be revoked by the owner at any time before the land is actually withdrawn from classification.

(3) **Procedure for partial withdrawal.** RCW 84.34.-070 allows an owner to withdraw all or only a portion of the land from classification as long as the owner submits a notice of request for withdrawal two assessment years in advance of the effective date of the withdrawal. If only a portion of the classified land is to be withdrawn from classification, the remaining parcel must satisfy the same requirements the entire parcel was required to meet when the land was originally granted classification unless different criteria are required by statute. For example, if the owner of a thirty acre parcel of classified farm and agricultural land wishes to withdraw fifteen acres, the remaining fifteen acres must meet the income production requirements listed in RCW 84.34.020 (2)(b)(i) or (ii) to remain classified even though the thirty acre parcel was not required to meet any minimum income production requirements under RCW 84.34.020 (2)(a).

(a) The assessor may ask the owner of the parcel that will remain classified to submit information relevant to its continuing eligibility under chapter 84.34 RCW. See WAC 458-30-270 for more details for the types of information that may be requested.

(b) If the parcel is classified farm and agricultural land, the assessor will verify that the remaining portion meets the requirements of RCW 84.34.020(2).

(c) If the parcel is classified open space or timber land, the assessor will consult with the granting authority before determining whether the remaining portion meets the requirements of RCW 84.34.020 (1) or (3). The granting authority may ask the owner to submit any data that it considers necessary to assist it in making this determination.

(d) The assessor may segregate the portion of land from which classification is being withdrawn for valuation and taxation purposes.

(4) **Date of withdrawal and notice to owner.** RCW 84.34.070(1) requires the assessor to withdraw land from classification when two assessment years have elapsed following receipt of the owner's request to withdraw.In other words, land is withdrawn from classification as of January 1st of the third assessment year after the request to withdraw classification is received by the assessor's office.

(a) Method for counting assessment years. The year in which the request to withdraw is received counts as the first assessment year; the second assessment year begins on January 1 of the year immediately following the year in which the request is received; and the third assessment year begins on January 1 of the following year. (For example, if a request to withdraw classification is received on November 1, 1999, the first assessment year is 1999, the second assessment year is 2000, and the third assessment year is 2001. The land is withdrawn from classification as of January 1, 2001.)

(b) Notice to owner. No later than thirty days after withdrawing the land from classification, the assessor must notify the owner in writing that classification has been withdrawn.

(c) Valuation of land withdrawn from classification. When land has been withdrawn from classification, it shall be placed on the assessment roll at its true and fair value determined in accordance with the county's approved revaluation plan.

(d) Example. An application for classification as open space land was submitted in April 1990 and approved effective assessment year 1991. In 1999, the owner submits a notice of request to withdraw all the land from classification. The assessor withdraws the land from classification as of January 1, 2001, which is the third assessment year after the request to withdraw was received. This land is placed on the assessment roll at its true and fair value as of January 1, 2001, in accordance with the county's approved revaluation plan.

[Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-285, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.-070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-285, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-285, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-285, filed 11/15/88.]

WAC 458-30-295 Removal of classification. (1) **Introduction.** This rule discusses the circumstances that may cause land to be removed from classification and the actions an assessor takes to remove the land, in whole or in part, from classification under chapter 84.34 RCW.

(2) **General requirement - removal process.** If land classified under chapter 84.34 RCW is applied to a use other than the one for which classification is granted, the owner must notify the assessor of the change in use within sixty days of the change. If the new use of the land does not qualify for classification under chapter 84.34 RCW, the land must be removed from classification and, in most cases, additional tax, interest, and a penalty are imposed. Land may be totally or partially removed from classification depending on the reason(s) for the removal. See WAC 458-30-300 for details about the additional tax, interest, and penalty imposed when land is removed.

(3) **Circumstances that cause removal of land from classification.** When any of the following actions occur, the assessor shall remove all or a portion of the land from classification:

(a) Receipt of a written notice from the owner directing the assessor to remove the land from classification;

(b) Sale or transfer of the land to an owner that makes the land exempt from property taxes, except a transfer resulting from a default in loan payments made to or secured by a governmental agency that intends to or is required by law or regulation to resell the land for the same use as before;

(c) Any change in use that occurs after a request to withdraw classification is made under RCW 84.34.070 and before the actual withdrawal of the classification occurs;

(d) Sale or transfer of classified land to a new owner who is required to pay property tax and who does not sign the notice of classification continuance, except a transfer to an owner who is an heir or devisee of a deceased owner;

(e) Failure of an owner to respond to a request from the assessor for data regarding the use of the land, productivity of typical crops, and similar information pertinent to continued classification and assessment of the land (see RCW 84.34.-121 and WAC 458-30-270);

(f) The assessor denies an owner's request for reclassification and the land no longer meets the criteria under which it was originally classified; or

(g) The assessor determines, based on field inspections, analysis of income and expense data, or any other reasonable evidence, that the land no longer meets the criteria for classification under chapter 84.34 RCW.

(i) Example 1. During an on-site inspection, the assessor discovers that classified farm and agricultural land has been paved over and is used as a parking lot for school buses.

(ii) Example 2. Based on information released at a public meeting of the county planning commission, the assessor learns that an owner of classified timber land has harvested all timber from the land, the land has been platted, public services such as roads, sewers, and domestic water supply have been made available to the platted land, and houses have been built on the land. This information has led the assessor to conclude that the use of the land has changed or that the land no longer meets the criteria for classification as timber land.

(4) **Procedure when an assessor discovers a change in use.** If the assessor determines that the land is not being used for a classified use, the assessor must notify the owner in writing regarding this determination and may not remove the land from classification until the owner has had an opportunity to respond to the assessor's determination.

(a) The owner must respond, in writing, to the assessor's inquiry about the use of the classified land no later than thirty calendar days following the postmark date the assessor's inquiry was mailed to the owner.

(b) If the parcel in question is classified open space land or timber land, the assessor may ask, but is not required to ask, the granting authority to provide reasonable assistance in determining whether the classified land continues to meet the criteria for classification. The granting authority shall provide this assistance within thirty days of receiving the assessor's request for assistance (see RCW 84.34.108(1)).

(c) Unless the owner demonstrates to the assessor that the classified use of the land has not changed, the assessor will remove the land from classification and impose additional tax, interest, and penalty from the date of the change in use (see RCW 84.34.080 and 84.34.108).

(5) **Procedure for partial removal.** If the use of only a portion of the classified land has changed and it no longer qualifies for classification under chapter 84.34 RCW, the assessor will remove the nonqualifying portion of the classified land. The remaining parcel must satisfy the same requirements the entire parcel was required to meet when the land was originally granted classification unless different criteria are required by statute because of the reduced size of the land that remains classified.

(a) The assessor may ask the owner of the parcel that will remain classified to submit information relevant to its continuing eligibility under chapter 84.34 RCW. See WAC 458-30-270 for more details.

(b) If the parcel is classified farm and agricultural land, the assessor will verify that the remaining portion meets the requirements of RCW 84.34.020(2).

(c) If the parcel is classified open space or timber land, the assessor will consult with the granting authority before determining whether the remaining portion meets the requirements of RCW 84.34.020 (1) or (3). The granting authority and assessor may ask the owner to submit pertinent data for this determination.

(d) The assessor may segregate the portion of land from which classification is being removed for valuation and taxation purposes.

(6) **Transactions that do not cause land to be removed from classification.** Land cannot be removed from classification solely because of:

(a) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120; or

(b) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040.

(7) **Notice to owner.** Within thirty days of the removal of land from classification, the assessor must notify the owner in writing of the reason(s) for removal.

(8) **Right of appeal.** The seller, transferor, or owner of classified land may appeal the removal from classification to the board of equalization of the county in which the land is located. The appeal must be filed within thirty calendar days (or up to sixty days if such a time limit has been adopted by the county legislative authority) of the date the notice of removal was mailed by the assessor or given to the owner, or on or before July 1st of the year of removal, whichever is later (RCW 84.40.038).

(9) **Assessor's duty after removal.** Unless the removal is reversed on appeal, the assessor places the land on the assessment roll at its true and fair value determined in accordance with the county's approved revaluation plan. The value on the date of removal is the true and fair value as of January 1st of the year of removal. The assessment roll lists both the assessed value of the land before and after the removal of classification. Taxes for the current tax year are prorated according to the portion of the year to which each assessed value applies.

(10) **Possible segregation after removal.** If only a portion of the land is being removed from classification, the assessor must segregate the affected portion for valuation and tax purposes.

(11) **Additional tax, interest, and penalty are due when land is removed.** The additional tax, interest, and penalty imposed by RCW 84.34.080 and 84.34.108 are due when land is removed from classification unless the removal is the result of one of the exempt circumstances or transactions listed in RCW 84.34.108(6). (See WAC 458-30-300.)

[Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-295, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.-070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-295, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-295, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-295, filed 11/15/88.]

WAC 458-30-300 Additional tax—Withdrawal or removal from classification. (1) **Introduction.** This rule outlines the withdrawal and removal procedures, events that trigger removal, and how to calculate the additional property tax ("additional tax"), interest, and penalty that may be imposed because land is withdrawn or removed from classification. When land is withdrawn or removed additional tax and interest are due. A twenty percent penalty is also due when land is removed from classification (see RCW 84.34.-108 and 84.34.070(2)).

(2) Duties of assessor and treasurer. As soon as possible after determining that the land no longer qualifies for classification under chapter 84.34 RCW or the use of the land has changed, the assessor must notify the owner in writing regarding this determination and of his or her intent to remove the land from classification. The assessor may not remove the land from classification until the owner has had an opportunity to be heard on the issue of removal.

(a) The owner has thirty calendar days following the postmark date on the assessor's notice of intent to remove to respond, in writing, to the assessor about the removal of the land from classification. After giving the owner an opportunity to be heard and unless sufficient information or evidence is presented as to why the land should not be removed from classified status, the land will be removed from classification as of the date the land no longer qualified for classification or the use of the land changed.

(b) Within thirty days of removing land from classification, the assessor notifies the owner, in writing, about the reasons for the removal. The owner, seller, or transferor may appeal the removal to the county board of equalization.

(c) Unless the removal is reversed on appeal, the assessor revalues the affected land with reference to its true and fair value on the date of removal from classification. The assessment roll will list the assessed value of the land before and after the removal from classification. Taxes will be allocated to the part of the year to which each assessed value applies; that is, current use and true and fair value.

(d) The assessor computes the amount of additional tax, interest, and penalty, unless the removal is the result of one of the circumstances listed in subsection (5) of this rule.

(e) The assessor notifies the treasurer of the amount of additional tax, interest, and penalty due.

(f) The treasurer mails or gives the owner written notice about the amount of the additional tax, interest, and, if required, penalty due and the date on which the total amount must be paid.

(g) The total amount is due and payable to the treasurer thirty days after the owner is notified of the amount of additional tax, interest, and penalty due.

(3) Amount of additional tax, interest, and penalty. The amount of additional tax, interest, and penalty will be determined as follows:

(a) The amount of additional tax is equal to the difference between the property tax paid on the land because of its classified status and the property tax that would have been paid on the land based on its true and fair value for the seven tax years preceding the withdrawal or removal. And in the case of a removal, the taxes owed for the balance of the current tax year;

(b) The amount of interest, calculated at the same statutory rate charged on delinquent property taxes specified in RCW 84.56.020, is based upon the amount of additional tax determined under (a) of this subsection, starting from the date the additional tax could have been paid without interest until the date the tax is paid; and

(c) A penalty amounting to twenty percent of the additional tax and interest; that is, twenty percent of the total amount computed in (a) and (b) of this subsection. A penalty is not imposed when:

(i) The land has been classified for at least ten years at the time it is withdrawn from classification and the owner submitted a request to withdraw classification to the assessor at least two assessment years prior to the date the land is withdrawn from classification; or

(ii) The use of the land has changed and the change in use was the result of one of the circumstances listed in RCW 84.34.108(6). See subsection (5) of this rule for a detailed list of these circumstances.

(4) **Failure to sign notice of continuance.** Land will be removed from current use classification if a new owner fails to sign the notice of continuance when the classified land is sold or transferred. Additional tax, interest, and penalty will be imposed in accordance with RCW 84.34.108(4) because of this removal. A notice of continuance is not required when classified land is transferred to a new owner who is the heir or devisee of a deceased owner and the new owner wishes to continue classified use (see RCW 84.34.108 (1)(c)). If the heir or devisee elects not to continue classified use, the land will be removed from classification and additional tax, interest, and penalty are due.

(5) **Exceptions.** No additional tax, interest, or penalty will be imposed if the withdrawal or removal from classification was the result of one or more of the following circumstances:

(a) Transfer to a governmental entity in exchange for other land located within the state of Washington;

(b) A taking through the exercise of the power of eminent domain or the sale or transfer to an entity having the power of eminent domain in anticipation of the exercise of this power. This entity must have declared its intent to exercise the power of eminent domain in writing or by some other official action;

(c) A natural disaster such as a flood, windstorm, earthquake, or other such calamity rather than an act of the landowner changing the use of the property;

(d) Official action by an agency of the state of Washington or by the county or city in which the land is located disallowing the current use of classified land. For the purposes of this rule, "official action" includes: City ordinances, zoning restrictions, Growth Management Act, Shoreline Management Act, and Environmental Policy Act;

(e) Transfer of land to a church when the land would qualify for a property tax exemption under RCW 84.36.020. Only the land that would qualify for exemption under RCW 84.36.020 is included within this exception. Additional tax, interest, and, if appropriate, the penalty will be assessed upon the remainder of the land withdrawn or removed from classification;

(f) Acquisition of property interests by public agencies or private organizations qualified under RCW 84.34.210 or 64.04.130 for the conservation purposes specified therein. See subsection (6) of this rule for a listing of these agencies, organizations, and purposes. However, when the property interests are no longer used for one of the purposes enumerated in RCW 84.34.210 or 64.04.130, additional tax, interest, and penalty will be imposed on the owner of the property at that time;

(g) Removal of land granted classification as farm and agricultural land under RCW 84.34.020 (2)(d) because the principal residence of the farm operator or owner and/or housing for farm and agricultural employees was situated on it. This exception applies only to the land upon which the housing is located even if this portion of the agricultural enterprise has not been allocated a separate parcel number for assessment and tax purposes;

(h) Removal of classification after a statutory exemption is enacted that would exempt the land from property tax and the landowner submits a written request to the assessor to remove the land from classification. This exception applies only to newly enacted exemptions that would cause classified land to go from taxable to exempt status. For example, in 1999 the legislature created a new property tax exemption for property used for agricultural research and education programs. Subsequently, the owner of such land requests removal of the land from classification, no additional tax, interest or penalty are imposed because of this new property tax exemption authorized by RCW 84.36.570.

(i) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120;

(j) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040;

(k) The sale or transfer of land within two years of the death of an owner who held at least a fifty percent interest in the land if:

(i) The individual(s) or entity(ies) who received the land from the deceased owner is selling or transferring the land; and

(ii) The land has been continuously assessed and valued as classified or designated forest land under chapter 84.33 RCW or classified under chapter 84.34 RCW since 1993. The date of death shown on the death certificate begins the two-year period for sale or transfer; or

(l) The result of one of the following changes in classification because of the owner's request:

(i) Reclassification from farm and agricultural land under RCW 84.34.020(2) to: Timber land under RCW 84.34.020(3), open space land under RCW 84.34.020(1), or forest land under chapter 84.33 RCW;

(ii) Reclassification from timber land under RCW 84.34.020(3) to: Farm and agricultural land under RCW 84.34.020(2), open space land under RCW 84.34.020(1), or forest land under chapter 84.33 RCW;

(iii) Reclassification from open space/farm and agricultural conservation land under RCW 84.34.020 (1)(c) to farm and agricultural land under RCW 84.34.020(2) if the land was previously classified as farm and agricultural land; or

(iv) Reclassification from forest land under chapter 84.33 RCW to open space land under RCW 84.34.020(1).

(6) **Land acquired by agencies or organizations qualified under RCW 84.34.210 or 64.04.130.** If the purpose for acquiring classified land is to protect, preserve, maintain, improve, restore, limit the future use of, or conserve the land for public use or enjoyment and the classified land is acquired by any of the following entities, no additional tax, interest, or penalty will be imposed as long as the property is used for one of these purposes:

(a) State agency;

(b) Federal agency;

(c) County;

(d) City;

(e) Town;

(f) Metropolitan park district (see RCW 35.61.010);

(g) Metropolitan municipal corporation (see RCW 35.58.020);

(h) Nonprofit historic preservation corporation as defined in RCW 64.04.130; or

(i) Nonprofit nature conservancy corporation or association as defined in RCW 84.34.250.

(7) **Removal of classification from land that was previously classified or designated forest land under chapter 84.33 RCW.** Land that was previously classified or designated as forest land under chapter 84.33 RCW may be reclassified under chapter 84.34 RCW at the request of the land owner. If such land is subsequently removed from the current use program before the land has been classified under chapter 84.34 RCW for at least ten assessment years, a combination of compensating tax imposed under chapter 84.33 RCW and additional tax, interest, and penalty imposed under chapter 84.34 RCW is due. RCW 84.33.145 explains the way in which these taxes are to be calculated.

[Statutory Authority: RCW 84.33.140, 84.34.055, 84.34.108, 84.34.141, and 84.08.070. 07-21-097, § 458-30-300, filed 10/18/07, effective 11/18/07. Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-300, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.-070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-300, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-300, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-300, filed 11/15/88.]

WAC 458-30-305 Due date of additional tax, interest, and penalty upon withdrawal or removal. (1) **Introduction.** This rule specifies the date upon which the additional tax, interest, and, if appropriate, penalty are due when land is withdrawn or removed from classification under chapter 84.34 RCW. This rule also explains the consequences of failure to timely pay these charges.

(2) **General rule - payable within thirty days of removal or withdrawal.** No later than thirty days after the date the treasurer mails or gives the owner written notice that the land will be removed from classification with the amount of additional tax, interest, and penalty due, the total amount owing must be paid, except in the case of a sale or transfer. The notice must list the amount of additional tax, interest, and penalty owed, as well as the date on which the total amount must be paid.

(3) **Exception to general rule - payable on date of sale or transfer.** If classified land is to be removed because of a sale or transfer, additional tax, interest, and penalty, if owed, must be paid at the time of sale or transfer.

(4) **Failure to timely pay - delinquency.** Any additional tax, interest, or penalty that is unpaid on its due date is delinquent. Interest is charged on the total amount due at the same rate that is applied by law to delinquent property taxes (see RCW 84.56.020). Interest accrues from the date of the delinquency until the date the total amount is paid in full.

(5) **Additional tax, interest, and penalty constitute a lien.** When land is withdrawn or removed from classification, the amount of additional tax, interest, and penalty becomes a lien on the land that attaches on the date of withdrawal or removal.

(a) This lien has priority to and must be fully paid and satisfied before any recognizance, mortgage, judgment, debt, obligation, or responsibility to or with which the land may become charged or liable.

(b) The lien may be foreclosed at the same time and in the same manner as liens for delinquent real property taxes are foreclosed under RCW 84.64.050.

[Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-305, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.-070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-305, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-305, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-305, filed 11/15/88.]

WAC 458-30-310 County recording authority—County financial authority—Duties. (1) **Introduction.** This rule explains the conditions under which documents conveying ownership of land classified under chapter 84.34 RCW will be accepted by the county recording authority. It also describes the duties of the treasurer in the withdrawal and removal processes.

(2) **County recording authority—Limited documents may be accepted.** The county recording authority, usually the auditor, will not record any instrument of conveyance involving land classified under chapter 84.34 RCW unless:

(a) Any required additional tax, interest, and penalty has been paid to the treasurer and the treasurer has affixed a stamp on the REET affidavit showing this payment;

(b) The notice of continuance on or attached to the REET affidavit is signed by the new owner or transferee, the assessor agrees that the land should remain classified, and the assessor checks the box on the REET affidavit that the land qualifies for continued classified current use status; or

(c) The land is to be removed from classification because of one of the exceptions listed in RCW 84.34.108(6) and is exempt from additional tax, interest, and penalty.

(3) **Treasurer's duties.** The treasurer has a number of responsibilities relative to land classified under chapter 84.34 RCW and to land that is to be withdrawn or removed from classification.

(a) Withdrawal. Upon receipt of a request for withdrawal from classification, the assessor prepares a statement listing the amount of additional tax and interest due as a result of the withdrawal, the date on which this sum must be paid, and the effective date of the withdrawal. The assessor sends a copy of this statement to the treasurer's office. The treasurer's office collects the total amount of additional tax and interest listed on the date specified.

(b) Removal. As soon as possible after determining that land must be removed from classification, the assessor prepares a notice of removal of classification and statement containing additional tax, interest, and penalty calculations. This notice and statement lists the reason(s) for removing the land from classification and the assessor's calculations of the total amount of additional tax, interest, and penalty due. The assessor sends or gives a copy of this notice and statement to the treasurer's office and to the taxpayer. The treasurer's office collects the total amount due on the date specified.

(c) Collection and distribution. The additional tax, interest, and, if any, penalty imposed under RCW 84.34.080 or 84.34.108 must be paid in full to the treasurer's office thirty days after the date the statement was mailed to the owner. When classified land is sold or transferred and real estate excise tax must be paid, the treasurer will affix a stamp on the REET affidavit as proof that the REET and additional tax, interest, and if any, penalty have been paid so the conveyance may be recorded. The additional tax collected is distributed to taxing districts in the same manner as current taxes applicable to the land are distributed. The treasurer distributes the interest and penalty collected to the county's current expense fund.

(d) The treasurer treats any additional tax, interest, and penalty not paid on the due date as delinquent property taxes.

[Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-310, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-310, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-310, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-310, filed 11/15/88.]

WAC 458-30-317 Principal residence of farm operator or housing for farm and agricultural employees. (1) **Introduction.** Under RCW 84.34.020 (2)(d) the land on which the principal residence of the farm operator or owner of farm and agricultural land is situated and the housing for farm and agricultural employees is situated may be classified as farm and agricultural land.

This section explains the criteria that must be met to include this type of residence or employee housing within the farm and agricultural land classification and the procedure used to value a classified residence or housing.

(2) **Definitions.** For purposes of this section, the following definitions apply:

(a) "Farm employee or farm and agricultural employee" means an individual who is employed on farm and agricultural land on a full-time basis or a seasonal or migratory worker who works on farm and agricultural land only during the planting, growing, and/or harvesting seasons.

(i) For purposes of this section, "full-time basis" refers to an individual who is employed at least twenty-five hours per week on farm and agricultural land.

(ii) The term does not include a person who is employed full time by a business activity that is not conducted on classified farm and agricultural land and who only works occasional weekends or during the harvest season on classified farm and agricultural land.

For example, housing occupied by a person who works full time at a foundry and who works on a farm only two weeks per year helping with the wheat harvest should not be granted classification.

(b) "Integral" means that which is central to or inherent in the use or operation of classified farm and agricultural land for commercial agricultural purposes. For purposes of this section, the residence of the farm operator or owner and/or housing for farm employees must be the place(s) from which the farmer conducts his commercial agricultural business.

(c) "True and fair value" means the value of a parcel of land placed on the assessment rolls at its highest and best use without regard to its current use value. The term also refers to market value; that is, the amount of money a buyer willing but not obligated to buy would pay to a seller willing but not obligated to sell for the real property.

(3) **Requirements for classification.** The land on which the principal residence of a farm operator or the owner of land is situated and the housing for farm or agricultural employees is situated may be classified as farm and agricultural land if it meets the following conditions:

(a) The land on which the residence or housing stands is twenty or more acres or multiple parcels that are contiguous and total twenty or more acres; and

(i) Primarily used to produce livestock or agricultural products for commercial purposes; or

(ii) Enrolled in the federal Conservation Reserve Program or its successor administered by the United States Department of Agriculture; and

(b) The use of the residence or housing is integral to the use of the classified land for commercial agricultural purposes.

(4) **Examples.**

(a) On a parcel of land twenty acres or more, there are two dwellings: One is the principal residence of the farm operator or owner of classified farm and agricultural land and the second is inhabited by the owner's son who is employed full time at a foundry in town and works on the farm only during harvest time. The land on which the principal residence is situated may be classified as farm and agricultural land if the use of the dwelling is integral to the use of the classified land. The land on which the second home is situated may not be included within the farm and agricultural land classification because it is not inhabited by a farm employee as defined in subsection (2) of this section.

(b) On a parcel of land twenty acres or more, there are two dwellings: One is the principal residence of the farm operator or owner of farm and agricultural land and the second is inhabited by seasonal farm workers who work on the farm only during harvest time. The land on which both dwellings are situated may be classified as farm and agricultural land if the use of the dwellings are integral to the use of the classified land.

(c) On a parcel of classified land that is twenty acres, there is one dwelling. This dwelling is occupied by the owner of the classified land but the owner does not run the farm. The farm is leased to a cooperative that conducts the commercial agricultural activities of the farm from central administrative headquarters that are not located on the classified land. The land on which this dwelling stands may not be classified as farm and agricultural land because the use of the dwelling is not integral to the commercial agricultural purposes of the farm.

(5) **Valuation.**

(a) The land. The land on which the principal residence of a farm operator or owner of farm and agricultural land or the housing for farm and agricultural employees is situated shall be valued in the following manner:

(i) The prior's year average value of classified farm and agricultural land in the county; plus

(ii) The value of land improvements used to serve the residence or housing, such as sewer, water, and power.

(iii) If the use of the residence or housing for employees is not integral to the farming operation, the land on which the residence or housing stands shall be valued at its true and fair value in accordance with WAC 458-12-301.

(b) The principal residence or housing for employees. The building(s) used by the farm operator or owner as his or her principal residence and building(s) used to provide shelter to farm and agricultural employees shall be valued at its true and fair value in accordance with WAC 458-12-301.

(c) Excluded structures. The land on which storeyards, barns, machine sheds, and similar type structures are located shall not be considered as part of the principal residence of the farm operator or owner nor housing for farm and agricultural employees. However, the land upon which these structures stand may be classified as farm and agricultural land generally.

(6) **Withdrawal or removal.** Additional tax, interest, and penalty, if owed, are not imposed if farm and agricultural land classified under RCW 84.34.020 (2)(d) is withdrawn or removed from classification.

(7) **Effect of 1992 legislation on county revaluation cycle.** Land on which the farm owner's or operator's residence is located and land on which the housing for farm and agricultural employees is located shall be revalued in accordance with the 1992 legislative changes, described in subsection (5) of this section, only in the assessment year when the land is being revalued in accordance with the county's revaluation cycle.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-317, filed 10/4/95, effective 11/4/95.]

WAC 458-30-320 Assessment and tax rolls. (1) **Introduction.** This section explains the manner in which land classified under chapter 84.34 RCW is to be listed on the assessment and tax rolls.

(2) **Listing of current use land.** When land has been classified under chapter 84.34 RCW, the assessor shall annually enter on the assessment and tax rolls, the current use value and the true and fair value of that land. The assessor shall provide notice of these values to the county financial authority who shall list these values in the place and manner provided for public recording of tax liens on real property.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-320, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-320, filed 11/15/88.]

WAC 458-30-325 Transfers between classifications—Application for reclassification. (1) **Introduction.** This rule discusses the process used when land is reclassified into a different classification under chapter 84.34 or 84.33 RCW.

(2) **General information - when reclassification is required.** In 1992, the legislature created an opportunity for owners of classified land to change the classification under which their land is classified under chapter 84.34 RCW or designated under chapter 84.33 RCW. The name given to this process is "reclassification." It is now possible to switch between the different classifications of chapter 84.34 RCW and forest land under chapter 84.33 RCW. The following circumstances may cause an owner of classified land to seek reclassification:

(a) The classified land is no longer being used for the purpose for which it was granted classification;

(b) The owner or new owner of classified land has decided to change the use of classified land;

(c) The classified land no longer meets the requirements of the classification under which it was originally classified; for example, farm and agricultural land that no longer produces the minimum income required by RCW 84.34.020 (2)(b) and (c) must either be reclassified or removed from the current use program;

(d) The new owner is an heir or devisee of a deceased owner who held classified land and the new owner either does not choose to meet or cannot meet the requirements of the classification under which the land was originally classified; or

(e) The assessor has determined the classified land is no longer eligible under the existing classification and the land must either be reclassified or removed from the current use program.

(3) **Reclassification process if land is subject to removal.** Within thirty days of receiving notice from the assessor that classified land is to be removed from the current use program, the owner must submit an application for reclassification into another classification under chapter 84.34 or 84.33 RCW if the owner elects to have the land remain classified. The removal notice must include a statement informing the owner of the classified land about the reclassification option. If an application for reclassification is submitted within thirty days, the land is not removed from classification until the application for reclassification is approved or denied.

(4) **Reclassification process if an owner seeks change of classification.** An owner of classified land may seek to have the land reclassified under a different current use classification under chapter 84.34 RCW or may seek designation as forest land under chapter 84.33 RCW.

(a) If an owner elects to have land reclassified, the owner must submit an application for reclassification to the assessor of the county in which the land is located. This application form will be prepared by the department and supplied to assessors or it may be obtained on the internet at http://dor.wa.gov/index.asp under property tax, "forms."

(b) Within seven days of receiving this request, the assessor must forward a copy of the application for reclassification to the appropriate granting authority (see the definition of "granting authority" in WAC 458-30-200 for more details). The assessor retains a copy of all applications for reclassification.

(c) When an application for reclassification is submitted, the classified status of the land is not changed until the application is approved or denied.

(5) **Application procedure.** An application for reclassification is processed in the same manner as an initial application for classification, which may include payment of an application fee if the county requires one. All classification requirements of RCW 84.34.035 for farm and agricultural land, RCW 84.34.037 for open space land, RCW 84.34.041 for timber land, and chapter 84.33 RCW for forest land must be satisfied in order to reclassify land. (These requirements are also described in WAC 458-30-225, 458-30-230, 458-30-232, 458-30-242, and chapter 458-40 WAC.)

(a) The granting authority must process an application for reclassification in the same manner as it processes an initial application for classification under chapter 84.34 RCW or for designation as forest land under chapter 84.33 RCW.

(b) A timber management plan must be filed with the county legislative authority within sixty days of the date the application for reclassification under this chapter or from designated forest land under chapter 84.33 RCW is received. The application for reclassification will be accepted, but may not be processed until this plan is received.

(i) If this plan is not received within sixty days of the date the application for reclassification is received, the application will be denied.

(ii) If circumstances require it, the assessor may allow an extension of time for submitting a timber management plan when an application for reclassification is received. The applicant will be notified of this extension in writing. When the assessor extends the filing deadline for this plan, the county legislative authority should delay processing the application until the plan is received. If the timber management plan is not received by the date set by the assessor, the application for reclassification will be automatically denied.

(c) An application for reclassification may be approved or denied, in whole or in part.

(i) The granting authority must notify the applicant in writing of the extent to which the application for reclassification is approved or denied.

(ii) The applicant has the same appeal rights in relation to a denial of an application for reclassification as the applicant has in regard to an initial application for classification.

(iii) If an application for reclassification is denied, the assessor removes the land from classification and calculates additional tax, interest, and penalty in accordance with RCW 84.34.108.

(6) **Reclassifications exempt from additional tax.** No additional tax, interest, or penalty are due when reclassification is a result of any of the following transfers between classifications:

(a) Reclassification from farm and agricultural land under RCW 84.34.020(2) to: Timber land under RCW 84.34.020(3), open space land under RCW 84.34.020(1), or forest land under chapter 84.33 RCW;

(b) Reclassification from timber land under RCW 84.34.020(3) to: Farm and agricultural land under RCW 84.34.020(2), open space land under RCW 84.34.020(1), or forest land under chapter 84.33 RCW;

(c) Reclassification from open space/farm and agricultural conservation land under RCW 84.34.020 (1)(c) to farm and agricultural land under RCW 84.34.020(2) if the land was previously classified as farm and agricultural land; or

(d) Reclassification from forest land under chapter 84.33 RCW to open space land under RCW 84.34.020(1).

(7) **Income production requirements of land to be reclassified.** The income production requirements relating to the following reclassifications may be deferred for a period of up to five years from the effective date of reclassification when:

(a) Land classified as open space/farm and agricultural conservation land under RCW 84.34.020 (1)(c) or timber land under RCW 84.34.020(3) is reclassified as farm and agricultural land under RCW 84.34.020 (2)(b) or (c); or

(b) Land designated as forest land under chapter 84.33 RCW is reclassified as farm and agricultural land under RCW 84.34.020 (2)(b) or (c).

(8) **Valuation of reclassified land.** The value of reclassified land will be based on the new classification as of January 1 of the assessment year following approval of the request for reclassification. For example, if an application for reclassification from farm and agricultural land to open space/farm and agricultural conservation land is submitted on February 15, 1999, and approved effective June 1, 1999, the land will be valued and assessed as open space/farm and agricultural conservation land on January 1, 2000, and the owner is required to pay taxes on this new assessed value in 2001.

[Statutory Authority: RCW 84.34.141, 84.34.020, and 84.34.030. 02-20-041, § 458-30-325, filed 9/24/02, effective 10/25/02. Statutory Authority: RCW 84.34.141. 01-24-030, § 458-30-325, filed 11/27/01, effective 12/28/01. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-325, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-325, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-325, filed 11/15/88.]

WAC 458-30-330 Open space plan and public benefit rating system—Authorization and procedure to establish—Adoption—Notice to owner—Valuation. (1) **Introduction.** RCW 84.34.055 enables a county legislative authority to establish an open space plan, public benefit rating system, and valuation schedule for land classified as open space. This section explains the factors that must be considered when such a plan and rating system are established, includes a nonexclusive list of recognized sources used in determining open space priorities, and outlines the actions required after and effects of the approval of an open space plan and public benefit rating system.

(2) **General authorization.** The county legislative authority may direct the county planning commission to set

open space priorities and to adopt, following a public hearing, an open space plan and a public benefit rating system (rating system) for the county. As used in this section, "planning commission" means the county office, commission, or department that is responsible for making planning decisions at the county level. The open space plan must include, but is not limited to, the following:

(a) Criteria to determine the eligibility of land;

(b) A process to establish a rating system; and

(c) An assessed valuation schedule developed by the assessor. This schedule is a percentage reduction of true and fair value based on the rating system.

(3) **A public hearing is required.** At least one public hearing must be held before an open space plan, a public benefit rating system, or an assessed valuation schedule may be approved by the county legislative authority.

(4) **What criteria are used to determine eligibility?** Within the rating system the county legislative authority must include the criteria and elements contained in RCW 84.34.020 (1)(a). This authority, which approves or denies applications for the classification and reclassification of land as open space, must consider the criteria when it makes its determination.

(a) The rating system must provide a method to rank or rate classified open space land.

(b) The legislative authority must give priority consideration to lands used for buffers planted with or primarily containing native vegetation no later than July 1, 2006, unless buffers of this nature already receive priority consideration in an existing open space plan, rating system, and assessed valuation schedule.

(c) "Priority consideration" as used in this section, may include, but is not limited to, establishing classification eligibility, maintenance criteria, or a rating system for buffers with native vegetation.

(5) **How is an open space plan and rating system developed?** The county planning commission must take all reasonable steps to determine open space priorities or use recognized sources for this purpose, or both.

(a) Recognized sources of open space priorities include, but are not limited to:

(i) The natural heritage data base;

(ii) The state office of historic preservation;

(iii) The recreation and conservation office inventory of dry accretion beach and shoreline features;

(iv) The state, national, county, and/or state registers of historic places;

(v) The shoreline master program; or

(vi) Studies conducted by the parks and recreation commission and by the departments of fisheries, natural resources, and wildlife.

(b) Particular features and sites may be verified by an outside expert in the field and approved by the appropriate state or local agency. This verification is to be sent to the county legislative authority for final approval for inclusion in the open space plan.

(6) **How is an owner of classified open space land notified about the adoption of an open space plan, rating system, and valuation schedule? Can an owner choose not to participate and request removal from the current use program?** Once the county legislative authority adopts an open space plan, rating system, and assessed valuation schedule, the planning commission or other designated agent of the legislative authority must assign a recommended number of priority rating points to all land classified as open space using the adopted rating system. The planning commission or agent will forward this recommendation to the county legislative authority for approval. After the number of priority rating points are assigned and approved, this information will be sent to the assessor. The assessor will determine the new assessed value of the classified open space land based on the number of priority rating points assigned and the adopted assessed valuation schedule. Thereafter, the assessor must notify all owners of such land of the new assessed value of their land in the manner provided in RCW 84.40.045.

(a) Within thirty days of receipt of this notice of the new assessed value, the owner may request that the parcel(s) of land be removed from the open space classification without payment of additional tax, interest, or penalty.

(b) If previously classified open space land does not qualify for classification under the newly adopted open space plan and rating system, the assessor is not to remove the land from the open space classification. This land will retain its status as classified open space land. The assessor will determine the value of this land using the new priority rating system and valuation schedule.

(7) **How does a rating system affect assessed value of classified open space land?** The assessed value of properties classified as open space is determined by a formula using a priority rating system typically consisting of "points." A county generally establishes a list of priority resources based on the definition of open space in RCW 84.34.020(1); these are also known as "open space priorities." Each priority resource is assigned a specific point or number of points. The more priority points the land is entitled to, the larger the reduction in true and fair value.

(a) A parcel of classified open space land may contain a number of priority resources. In such cases, the open space plan and rating system may allow the parcel to receive multiple priority points based on the number of priority resources. This would entitle the parcel to a larger reduction in assessed value.

(b) The priority rating system takes into consideration established priority resources, public access, and/or conservation or historic easements.

(c) **Example.** Let's assume a wetland was designated as a priority resource in the adopted open space plan. A wetland entitles the land to receive three priority points. Each point may represent a ten percent reduction in assessed value (one point equals a ten percent reduction, two points equals a twenty percent reduction, and so on). A parcel with a priority rating of three points would be entitled to a thirty percent reduction in assessed value.

[Statutory Authority: RCW 84.33.140, 84.34.055, 84.34.108, 84.34.141, and 84.08.070. 07-21-097, § 458-30-330, filed 10/18/07, effective 11/18/07. Statutory Authority: RCW 84.34.141. 06-18-011, § 458-30-330, filed 8/24/06, effective 9/24/06. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-330, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-330, filed 11/15/88.]

WAC 458-30-345 Advisory committee. (1) **Introduction.** This section explains how the advisory committee mandated by RCW 84.34.145 is formed, the type of advice this committee may give the assessor, and the consequences of not forming this committee.

(2) **Formation.** The county legislative authority shall appoint a five-member advisory committee representing the active farming community to advise the assessor in implementing assessment guidelines as established by the department for open space, farm and agricultural, and timber land classified under the provisions of chapter 84.34 RCW, unless the county legislative authority finds insufficient interest by the farming community in the formation of such a committee.

(a) The committee shall elect officers and adopt operating procedures.

(b) All meetings and records shall be open to the public according to chapters 42.30 and 42.17 RCW.

(c) Upon appointment, each member of the advisory committee shall serve a one-year term.

(d) Members may be removed from the advisory committee by majority vote of the county legislative authority.

(3) **Type of advice.** The advisory committee shall not give advice regarding the valuation or assessment of specific parcels of land. However, it may supply the assessor with advice on typical crops, land quality, and net cash rental assessments to assist the assessor in determining appropriate values.

(4) **Failure to appoint advisory committee.** Failure of the county legislative authority to appoint an advisory committee shall not invalidate the listing of property on the assessment or the tax rolls.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-345, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-345, filed 12/5/90, effective 1/5/91. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-345, filed 11/15/88.]

WAC 458-30-355 Agreement may be abrogated by legislature. (1) **Introduction.** This section explains that the agreement to tax according to current use is a noncontractual agreement that may be annulled or cancelled at any time by the legislature.

(2) **No contractual obligation.** The agreement to tax land according to its current use is not a contract between the owner and any other party. This agreement can be abrogated, annulled, or cancelled at any time by the legislature in which event no additional tax, interest, and/or penalty shall be imposed. In other words, if the changes made to the Open Space Taxation Act or chapter 84.34 RCW by the legislature cause classified land to be removed from classification, the owner of the land shall not be required to pay the additional tax, interest, or penalty that is generally imposed when land is removed from classification.

(a) Example 1. The legislature eliminates the timber land classification from chapter 84.34 RCW. All land classified as timber land shall be removed from classification and no additional tax, interest, or penalty will be imposed because the legislature caused the removal of the land when it eliminated the timber land classification from the Open Space Taxation Act.

(b) Example 2. The legislature amends RCW 84.34.020 (2) so that only parcels of twenty acres or more may be granted classified status as farm and agricultural land. All parcels of classified farm and agricultural land that are less than twenty acres in size may be removed from classification and no owner of such land may be required to pay any additional tax, interest, or penalty because the legislature's action caused the removal of the land.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-355, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-355, filed 11/15/88.]

WAC 458-30-500 Definitions of terms used in WAC 458-30-500 through 458-30-590. (1) **Introduction.** This rule sets forth the definitions to be used in administering and understanding the statutes and rules relating to special benefit assessments on classified farm and agricultural and timber land.

(2) **Definitions.** For the purposes of WAC 458-30-500 through 458-30-590, unless otherwise required by the context, the following definitions apply:

(a) "Average rate of inflation" means the annual rate of inflation adopted each year by the department of revenue in accordance with WAC 458-30-580 averaged over the period of time provided in WAC 458-30-550 and 458-30-570.

(b) "Connection charge" or "charge for connection" means the charge required to be paid to the district for connection to the service as opposed to the assessment based upon the benefits derived.

(c) "District" means any local improvement district, utility local improvement district, local utility district, road improvement district, or any similar unit created by a local government for the purpose of levying special benefit assessments against property specially benefited by improvements relating to the districts.

(d) "Farm and agricultural land" means land classified under the provisions of RCW 84.34.020(2); in other words, one of the following:

(i) Any parcel of land twenty or more acres in size or multiple parcels of land that are contiguous and total twenty or more acres in size when the land is:

(A) Primarily used to produce livestock or agricultural products for commercial purposes;

(B) Enrolled in the federal Conservation Reserve Program or its successor administered by the United States Department of Agriculture; or

(C) Primarily used in similar commercial agricultural activities as may be established by rule.

(ii) Any parcel of land or contiguous parcels of land at least five acres, but less than twenty acres, in size that is primarily used for commercial agricultural purposes, and produces a gross income each year equal to:

(A) One hundred dollars or more in cash per acre per year for three of the five calendar years preceding the date of application for classification when the application was made prior to January 1, 1993; or

(B) Two hundred dollars or more in cash per acre per year for three of the five calendar years preceding the date of application for classification when the application is made on or after January 1, 1993.

(iii) Any parcel of land or contiguous parcels of land less than five acres in size that is primarily used for commercial agricultural purposes, and produces a gross income each year equal to:

(A) One thousand dollars or more in cash per year for three of the five calendar years preceding the date of application for classification when the application was made prior to January 1, 1993; and

(B) One thousand five hundred dollars or more in cash per year for three of the five calendar years preceding the date of application for classification when the application is made on or after January 1, 1993.

(iv) Any parcel of land that is twenty or more acres in size or multiple parcels of land that are contiguous and total twenty or more acres in size on which housing for farm and agricultural employees and the principal residence of the farm operator or the owner of land classified under RCW 84.34.020 (2)(a) is situated if:

(A) The housing or residence is on or contiguous to the classified parcel; and

(B) The use of the housing or the residence is integral to the use of the classified parcel for agricultural purposes.

(e) "Final assessment roll" means a final special benefit assessment roll approved or confirmed by local government for the purpose of levying special benefit assessments against property specially benefited by a sanitary and/or storm sewerage system, domestic water supply and/or distribution system, or road construction and/or improvement.

(f) "Local government" means any city, town, county, water-sewer district, public utility district, port district, irrigation district, flood control district, or any other municipal corporation, quasi-municipal corporation, or other political subdivision authorized to levy special benefit assessments for sanitary and/or storm sewerage systems, domestic water supply and/or distribution systems, or road construction and/or improvement purposes.

(g) "Owner" means:

(i) Any person(s) having the fee interest in land; or

(ii) The contract vendee when the land is subject to a real estate contract.

(h) "Removal" or "removed" means land classified under chapter 84.34 RCW is removed from classification by the assessor because the owner requests removal, the new owner fails to sign notice of classification continuance, or the land is no longer being used for the purpose for which classification was granted.

(i) "Special benefits assessments" means special assessments levied or capable of being levied in any local improvement district or otherwise levied or capable of being levied by a local government to pay for all or part of the costs of a local improvement and that may be levied only for the special benefits to be realized by property because of the local improvement.

(j) "Timber land" means land classified under the provisions of RCW 84.34.020(3); in other words, any parcel of land five or more acres in size or multiple parcels of land that are contiguous and total five or more acres in size that is primarily used to commercially grow and harvest forest crops. "Timber land" refers only to the land.

(k) "Withdrawal" or "withdrawn" means action taken by the owner of land classified under chapter 84.34 RCW by filing a notice of request to withdraw the land from classification under the current use program in compliance with RCW 84.34.070. Once land has been classified under chapter 84.34 RCW, it must remain so classified for at least ten years from the date of classification. At any time after eight years of the initial ten-year classification period have elapsed, the owner may file a notice of request to withdraw all or a portion of the land from classification with the assessor of the county in which the land is located. Land is withdrawn from classification as a result of a voluntary act by the owner.

[Statutory Authority: RCW 84.34.141, 84.34.020, and 84.34.030. 02-20-041, § 458-30-500, filed 9/24/02, effective 10/25/02. Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-500, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-500, filed 3/10/87.]

WAC 458-30-510 Creation of district—Protest—Adoption of final assessment roll. (1) **Introduction.** RCW 84.34.320 requires local government officials to take certain steps upon "creation" of a district and upon adoption or confirmation of a final assessment roll. This section defines when a district shall be deemed to have been "created" and when a final assessment shall be deemed "adopted" or "confirmed."

(2) **Exemption from special benefit assessments.** Any farm and agricultural or timber land classified in accordance with the provisions of chapter 84.34 RCW shall be exempt from special benefit assessments or charges in lieu of assessment for such purposes as long as the classified land remains in classification if the legislative authority of a local government adopts a resolution, ordinance, or legislative act:

(a) To create a local improvement district in which the classified land is included or would have been included but for the classification designation; or

(b) To approve or confirm a final specific benefit assessment roll that would have included the classified land but for the classification designation relating to a:

(i) Sanitary and/or storm sewerage system;

(ii) Domestic water supply and/or distribution system; or

(iii) Road construction and/or improvement.

(3) **When a district is deemed to be created.**

(a) For districts outside of cities, a district shall be considered created upon its actual adoption at the required public hearing.

(b) For districts within cities, creation shall occur thirty days after passage of the ordinance ordering the improvement, thereby allowing the protest period set forth in RCW 35.43.180.

(4) **Protest the formation of a district.**

(a) For districts within cities, a protest may be filed with the city or town council within thirty days of the date the ordinance ordering the improvement is passed. Creation of a district can be prevented by the property owners within the district whose combined payments for said improvement(s) are equal to, or in excess of, sixty percent of the cost of the improvement.

(b) For all other districts, their creation can be prevented by the property owners within those districts whose combined property ownership is equal to, or greater than, forty percent of the area to be included in the district.

(5) **Final assessment roll.** For those districts that have an annual assessment roll hearing on capital assessments, the final assessment roll will be considered as "adopted" upon confirmation of the roll at the hearing in the first year.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-510, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-510, filed 11/15/88. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-510, filed 3/10/87.]

WAC 458-30-520 Notification of district—Certification by assessor—Estimate by district. (1) **Introduction.** This section explains the procedures that follow the creation of a district.

(2) **Notice to assessor and legislative authority.** Upon creation of a district, the local government shall immediately notify the assessor and legislative authority of the county where the district is located of its creation.

(3) **Assessor duties.** Upon receipt of notification that a district has been created, the assessor shall certify in writing to the district whether or not classified farm and agricultural or timber land is within its boundaries.

(a) If there is any classified farm and agricultural or timber land within the district boundaries, the assessor shall certify what land is within its boundaries by providing parcel numbers and legal descriptions of the property.

(b) If any owner of land within the created district has timely filed, as of January 1st, an application for current use classification or reclassification as farm and agricultural or timber land and no action has been taken, the assessor will report the status of the pending application(s) to the district. The assessor shall take immediate action to render a decision for the approval or denial of this application. The assessor shall also inform the district that any decision regarding classification or reclassification is appealable under RCW 84.34.035 and that the classification or reclassification as farm and agricultural or timber land would become effective as of the initial filing date, January 1.

(c) If the legislature extends the filing date for applying for classification or reclassification as farm and agricultural or timber land beyond December 31, those applications approved will receive their status as of January 1 of the filing year.

(4) **District duties.** The district, upon receipt of the assessor's certification required by subsection (3) of this section, shall notify the assessor and the legislative authority of the extent to which classified lands may be subject to a partial assessment for connection to the service provided by the improvement(s). Said estimate will be based upon WAC 458-30-560.

(5) **If land is removed from classification.** The assessor shall notify the district when any farm and agricultural or timber land is removed from current use classification.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-520, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-520, filed 11/15/88. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-520, filed 3/10/87.]

WAC 458-30-525 Notification of final assessment roll. (1) **Introduction.** This section explains the procedures outlined in RCW 84.34.320 that follow the adoption or confirmation of a final special benefit assessment roll.

(2) **Notice to assessor, legislative authority, and treasurer required.** When a local government approves or confirms a final assessment roll, it shall file a notice of this action with the assessor, legislative authority, and treasurer of the county in which classified farm and agricultural or timber land is located. This notice shall describe:

(a) The action taken;

(b) The type of improvement involved;

(c) The land exempted from special benefit assessments; and

(d) The amount of special benefit assessments that would be levied against the land if the land was not exempt.

(3) **Effect of notice.** If local government has filed a notice signifying the adoption of a final assessment roll with the assessor and treasurer of the county in which land exempt from special benefits is located, the notice shall serve as constructive notice to a purchaser or encumbrancer of the affected land and to any person who subsequently executes or records a conveyance or encumbrance that the land is subject to special benefits assessment when the farm and agricultural or timber land is removed or withdrawn from its current use classification.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-525, filed 10/4/95, effective 11/4/95.]

WAC 458-30-530 Notification of owner regarding creation of district. (1) **Introduction.** This section explains the assessor's duty to notify an owner of classified farm and agricultural or timber land when a local improvement district is created.

(2) **Assessor to notify owner.** The assessor, upon receiving notice that a district was created, shall notify the owner of the farm and agricultural or timber lands as shown on the current assessment rolls of this fact. This notification shall be made on forms approved by the department of revenue and shall contain the following:

(a) Notice of the creation of the local improvement district;

(b) Notice of the exemption of classified farm and agricultural or timber land from special benefit assessments;

(c) Notice that the farm and agricultural or timber land will become subject to the special benefit assessments if the owner waives the exemption by filing a notarized document with the governing body of the local government creating the district before the final special benefit assessment roll is confirmed;

(d) Notice of potential liability if the exemption is not waived and the land is subsequently withdrawn or removed from the farm and agricultural or timber land classification;

(e) The portion of the land measured as the benefited "residence" as provided in WAC 458-30-560 will be assessed for benefits received;

(f) That connection to the system shall result in a connection charge; and

(g) That connection to the system subsequent to the creation of the district and the initial final assessment will result in being liable for the amounts as calculated in WAC 458-30-570.

(3) **Owner's right to appeal.** The property owner shall have the same right of appeal that is guaranteed to any other property owner within the district.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-530, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-530, filed 11/15/88. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-530, filed 3/10/87.]

WAC 458-30-540 Waiver of exemption. (1) **Introduction.** This section explains the owner's right to waive the exemption relating to special benefit assessments as set forth in RCW 84.34.320.

(2) **Owner may waive exemption.** The owner of land exempted from special benefit assessments may waive this exemption by filing a notarized statement to that effect with the legislative authority of the local government creating the district after receiving notice from local government concerning the assessment roll hearing. This statement must be filed before the local government confirms the final special benefit assessment roll.

(3) **Copy of waiver to assessor.** A copy of this waiver shall be filed by the local government with the assessor and the county legislative authority, but the failure to file this document shall not affect the waiver.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-540, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-540, filed 11/15/88. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-540, filed 3/10/87.]

WAC 458-30-550 Exemption—Removal or withdrawal. (1) **Introduction.** This section explains the process that must be followed when classified land subject to a special benefit assessment is withdrawn or removed from the farm and agricultural classification.

(2) **General treatment of land.** After the creation of a district or the adoption and confirmation of a final assessment roll, an owner of classified farm and agricultural or timber land who wishes it to be exempt from special benefit assessments is not required to take any further action. The land will retain its classified status; it will not be connected to the improvement(s) or be listed on the final assessment roll.

(3) **Subsequent withdrawal or removal.** If the owner initially chose to remain exempt, but subsequently is removed or withdrawn from the farm and agricultural or timber land classification, the owner shall become liable to pay for the special benefit assessment in the following manner:

(a) If the bonds used to fund the improvement have not been completely retired when the land is withdrawn or removed from classification, the liability will be:

(i) The amount of the special benefit assessment listed in the notice provided for in RCW 84.34.320 and;

(ii) Interest on that amount, compounded annually at a rate equal to the average rate of inflation from the time the initial notice is filed by the governmental entity creating the district to the time the land is withdrawn or removed from exempt status; or

(b) If the bonds used to fund the improvement in the district have been completely retired when the land is withdrawn or removed from classification, immediate payment shall be due for:

(i) The amount of the special benefit assessment listed in the notice provided for in RCW 84.34.320;

(ii) Interest on that amount compounded annually at a rate equal to the average rate of inflation from the time the initial notice is filed to the time the bonds used to fund the improvement were retired, and;

(iii) Interest on the total amount of (i) and (ii) at a simple per annum rate equal to the average rate of inflation from the time the bonds used to fund the improvement were retired to the time the land is withdrawn or removed from exempt status.

(4) **Withdrawal or removal of land with partial assessment.** If land is withdrawn or removed from classification and a partial special benefit assessment has been paid because the classified land was connected to a domestic water system, sewerage facility, or road improvement, the amount of partial assessment paid shall be credited against the total amount due for special benefit assessments.

(5) **Due date of special benefit assessment upon withdrawal or removal.** When land is to be withdrawn or removed from farm and agricultural or timber land classification and an amount of special benefit assessments is due, the amount of special benefit assessments shall be due on the date the land is withdrawn or removed from its classification. This amount shall be a lien on the land prior and superior to any other lien whatsoever except for general taxes and shall be enforceable in the same manner as special benefit assessments are collected by local government.

(6) **Notice of withdrawal or removal to local government and land owner.** When farm and agricultural or timber land is withdrawn or removed from classification, the assessor of the county in which the land is located shall send a written notice of the withdrawal or removal to the local government, or its successor, that filed the original notice regarding creation of a district with the assessor. After receiving this notice, the local government shall mail a written statement setting forth the amount of special benefit assessments due to the owner of the farm and agricultural or timber land withdrawn or removed from classification. This amount shall be delinquent if it is not paid within one hundred eighty days of the date the statement is mailed and is subject to the same interest, penalties, lien, priority, and enforcement procedures that are applicable to delinquent assessments on the final assessment roll from which the land was exempted, except the rate of interest charged shall not exceed the rate provided in RCW 84.34.330.

(7) **Partial withdrawal or removal of land exempt from special benefit assessments.** If a portion of classified farm and agricultural or timber land exempt from special benefit assessments is withdrawn or removed from classification, the previously exempt benefit assessments shall be due only on the portion of the land being withdrawn or removed.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-550, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-550, filed 11/15/88. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-550, filed 3/10/87.]

WAC 458-30-560 Partial special benefit assessment—Computation. (1) **Introduction.** When classified farm and agricultural or timber land is connected to a domestic water system, sewerage facilities, or road improvements, a partial special benefit assessment will be made. This section explains the manner in which this partial assessment is calculated.

(2) **General obligation.** A portion of the exempt classified farm and agricultural land shall be subject to special benefit assessment if it is actually connected to the domestic water system or sewerage facilities, or for access to a road improvement.

(3) **Amount of partial assessment.** The amount of special benefit assessment shall be calculated by the method used in the district to assess nonexempt property. If a district uses more than one method to calculate the assessment, it shall use the one that results in the least cost to the property owner, regardless of the owner's property holdings and/or exempt status. The district shall provide the owner of the property with a written estimate of the partial assessment as determined from the following methods:

(a) For assessments relating to sanitary and/or storm sewerage service or domestic water service one of the following methods shall be used:

(i) Square foot method: If the special benefit assessment is determined on a square footage basis, the assessable portion of the exempt land shall be determined as follows:

(A) Calculate the square footage of the residential area, i.e., the "main dwelling."

(B) This area shall include all those facilities normally found on a residential lot such as a garage or carport, driveway, front and back yards, etc. Also included in the area shall be any buildings or facilities directly benefited by an actual connection to the improvement. (For example: A dairy barn connected to a sewer or water system.)

(ii) Front foot method: If the special benefit assessment is determined on a front footage basis, the assessable portion of the exempt land shall be determined by one of the following:

(A) Calculate the square footage for the residential area in the same manner as the square foot method. The square foot measurement of the entire "residence," shall then be converted into the area of a square. The calculated square will be used as the unit to be charged for the special benefit assessment. One side of the square will be used as front footage; or

(B) Determine the mean (average) front footage of all nonexempt properties within the district, and use it to assess the portion of otherwise exempt property for the special benefit assessment, i.e., add all of the nonexempt front footage relevant to the improvement and divide by the number of nonexempt properties within the district.

(iii) Zone-termini method: If the special benefit assessment is determined on a zone-termini basis, the assessable portion of the exempt land shall be determined by one of the following:

(A) Convert the square foot area of the residence to a square as in the front foot method. Use this square as the zone for assessing the portion of otherwise exempt property for the special benefit assessment; or

(B) Calculate the mean (average) width and depth (length) of all nonexempt properties within the district, using these averages to create a rectangular unit as the zone for assessing the portion of otherwise exempt property for the special benefit assessment. To perform this calculation:

(I) Add all nonexempt front footage relevant to the improvement and divide by the number of nonexempt properties within the district to determine the mean width of the zone; and

(II) Add the depths (lengths) of all nonexempt properties within the district and divide by the number of nonexempt properties within the district to determine the mean depth of the zone.

(iv) Equivalent residential unit method (ERU): The ERU method shall be used in the same manner as it is used on all other properties within the district. The value to be determined is based on the amount of benefit derived or, when appropriate, the degree of contribution to the service, such as drainage or sewer. This amount shall be measured for all uses of property. (For example, if a dairy barn uses a greater amount of water or contributes a greater amount of sewerage than the normal residential unit, it shall be classified as more than one ERU and shall be charged a proportionately greater amount.)

(v) Combined methods: In districts making assessments using a combination of two or more methods (e.g., an assessment based on a front footage charge plus a square foot charge), the procedures for determining the assessable portion of previously exempt property shall be the same as those described above.

(b) For assessments relating to road construction and/or improvements. If the property is provided access to a constructed or improved road, the assessment will be based upon the percentage of current use value to true and fair value as evidenced by the last property tax assessment roll as equalized by the county board of equalization to what the assessment would have been if the owner had waived the exemption. (For example, if the current use value is forty-five percent of its true and fair value, then the assessable portion is forty-five percent of the amount the assessment would have been if the owner had waived the exemption.)

WAC 458-30-570 Connection subsequent to final assessment roll—Interest—Connection charge. (1) **Introduction.** If classified farm and agricultural or timber land is connected to water and/or sewer systems or road improvements after the final assessment roll has been approved, the owner of this land will be liable for the special benefit assessments relating to the improvements. This section explains how the assessments are calculated and the costs associated with the services.

(2) **Connection to local improvements after final assessment roll.** The owner of property exempted from special benefit assessments under the current use farm and agricultural or timber land classification who connects to the sanitary and/or sewerage systems, domestic water supply and/or distribution systems, or road construction and/or improvements provided by the district after the final assessment roll

has been approved will be liable for the special benefit assessments as determined by WAC 458-30-560 including interest. In addition, the annual payment required for each year following the connection shall be due and payable.

(3) **Cost of connection.** In addition to the charges imposed in subsection (2) of this section, the owner will also be liable for the cost of connection.

[Statutory Authority: RCW 84.08.110, 84.08.070, 84.34.141 and 84.34.360. 95-21-002, § 458-30-570, filed 10/4/95, effective 11/4/95. Statutory Authority: RCW 84.08.010(2), 84.34.141 and chapter 84.34 RCW. 88-23-062 (Order PT 88-12), § 458-30-570, filed 11/15/88. Statutory Authority: RCW 84.34.360. 87-07-009 (Order PT 87-3), § 458-30-570, filed 3/10/87.]

WAC 458-30-590 Rate of inflation—Publication—Interest rate—Calculation. (1) **Introduction.** This section sets forth the rates of inflation discussed in WAC 458-30-550. It also explains the department of revenue's obligation to annually publish a rate of inflation and the manner in which this rate is determined.

(2) **General duty of department—Basis for inflation rate.** Each year the department determines and publishes a rule establishing an annual rate of inflation. This rate of inflation is used in computing the interest that is assessed when farm and agricultural or timber land, which are exempt from special benefit assessments, is withdrawn or removed from current use classification.

(a) The rate of inflation is based upon the implicit price deflator for personal consumption expenditures calculated by the United States Department of Commerce. This rate is used to calculate the rate of interest collected on exempt special benefit assessments.

(b) The rate is published by December 31st of each year and applies to all withdrawals or removals from farm and agricultural or timber land classification that occur the following year.

(3) **Assessment of rate of interest.** An owner of classified farm and agricultural or timber land is liable for interest on the exempt special benefit assessment. Interest accrues from the date the local improvement district is created until the land is withdrawn or removed from classification. Interest accrues and is assessed in accordance with WAC 458-30-550.

(a) Interest is assessed only for the time (years and months) the land remains classified under RCW 84.34.020 (2) or (3).

(b) If the classified land is exempt from the special benefit assessment for more than one year, the annual inflation rates are used to calculate an average rate of interest. This average is determined by adding the inflation rate for each year the classified land was exempt from the special benefit assessment after the local improvement district was created. The sum of the inflation rates is then divided by the number of years involved to determine the applicable rate of interest.

(c) Example. A local improvement district for a domestic water supply system was created in January 1990 and the owner used the statutory exemption provided in RCW 84.34.-320. On July 1, 1997, the land was removed from the farm and agricultural classification. An average interest rate was calculated using the inflation rates for 1990 through 1997. The owner was then notified of the amount of previously exempt special benefit assessment, plus the average interest rate.

(4) **Rates of inflation.** The rates of inflation used to calculate the interest as required by WAC 458-30-550 are as follows:

YEAR	PERCENT	YEAR	PERCENT
1976	5.6	1977	6.5
1978	7.6	1979	11.3
1980	13.5	1981	10.3
1982	6.2	1983	3.2
1984	4.3	1985	3.5
1986	1.9	1987	3.7
1988	4.1	1989	4.8
1990	5.4	1991	4.2
1992	3.3	1993	2.7
1994	2.2	1995	2.3
1996	2.2	1997	2.1
1998	0.85	1999	1.42
2000	2.61	2001	1.89
2002	1.16	2003	1.84
2004	2.39	2005	2.54
2006	3.42	2007	2.08
2008	4.527		

[Statutory Authority: RCW 84.34.360. 08-24-115, § 458-30-590, filed 12/3/08, effective 1/3/09; 08-04-050, § 458-30-590, filed 1/31/08, effective 3/2/08. Statutory Authority: RCW 84.34.360. 94-11-098, § 458-30-590, filed 5/17/94, effective 6/17/94; 92-22-061, § 458-30-590, filed 10/29/92, effective 11/29/92. Statutory Authority: RCW 84.08.010 and 84.08.070. 90-24-087, § 458-30-590, filed 12/5/90, effective 1/5/91. Statutory Authority: Chapter 84.34 RCW and RCW 84.34.360. 89-05-010 (Order PT 89-3), § 458-30-590, filed 2/8/89. Statutory Authority: RCW 84.34.360. 88-07-004 (Order PT 88-4), § 458-30-590, filed 3/3/88; 87-07-009 (Order PT 87-3), § 458-30-590, filed 3/10/87.]

WAC 458-30-700 Designated forest land—Removal—Change in status—Compensating tax. (1) **Introduction.** This rule describes what events trigger the removal of land from designated forest land status under chapter 84.33 RCW, the procedures followed for removal, and the resulting compensating tax.

(2) **Events triggering the removal of designated forest land status.** The assessor must remove forest land from its designated forest land status when:

(a) The owner submits a written request to remove the owner's land from designated forest land status;

(b) The owner sells or transfers the land to an individual or entity exempt from property tax because of that individual's or entity's ownership;

(c) The assessor determines that the land is no longer primarily devoted to and used for growing and harvesting timber;

(d) The owner has failed to comply with a final administrative or judicial order made because of the violation of the restocking, forest management, fire protection, insect and disease control and forest debris provisions of Title 76 RCW or the rules that implement Title 76 RCW;

(e) Restocking has not occurred to the extent or within the time specified in the application for designation of the land; or

(f) The owner sells or transfers forest land to a new owner who has not signed a notice of continuance, except when the new owner is the heir or devisee of a deceased owner. RCW 84.33.140(5).

(3) **How to retain designated forest land status when the land is sold or transferred.** When designated forest land is sold or transferred, the new owner may retain designated forest land status by filing a signed notice of continuance with the deed. The notice of continuance may be signed as part of the real estate excise tax (REET) affidavit or as a separate form if the county has decided it will require owners to submit both the REET affidavit and an attached separate notice of continuance. If multiple owners own the land, all owners or their agent(s) must sign the notice of continuance. A notice of continuance is not required for a new owner to retain designated forest land status when the new owner inherits the property.

(a) The owner may obtain the notice of continuance form and a real estate excise tax (REET) affidavit from the county. The county assessor's office has the notice of continuance form and the county treasurer's office has the REET affidavit.

The notice of continuance may also be obtained on the internet at http://dor.wa.gov under property tax, "forms."

(b) After the new owner signs the notice of continuance as part of the REET affidavit and, if required, the separate notice, the REET affidavit and notice must be submitted to the assessor for approval. The assessor may also require the owner to submit a timber management plan before approving the notice of continuance.

(i) The assessor signs the REET affidavit and indicates whether the land will or will not qualify to continue as designated forest land.

(ii) An assessor signs the REET affidavit and approves the land for continued classification if:

(A) The owner provides a complete and accurate notice of continuance signed by the new owner demonstrating that the forest land will continue to qualify as designated forest land; and

(B) At the assessor's option, the new owner provides a timber management plan for the property.

(iii) The assessor is allowed up to fifteen days to confirm that the information upon the notice is complete and accurate. The assessor may use this time to confirm that the timber management plan provides:

(A) The correct legal description for the forest land;

(B) The new owner's statement that the forest land is owned by the same person, consists of twenty or more contiguous acres, and is primarily devoted to and used to grow and harvest timber;

(C) A statement about whether the land is used to graze livestock;

(D) A brief description of the timber stands located on the land;

(E) A statement about whether the land has been used in compliance with the restocking, forest management, fire protection, insect and disease control, and forest debris provisions of Title 76 RCW; and

(F) If the land has been recently harvested or supports a growth of brush and noncommercial type timber, a description of the owner's plan to restock the forest land within three years.

A timber management plan may contain, but is not required to contain, any other information that the harvester needs for its own business purposes (i.e., a statement of goals for managing the land or identifying resource protection areas on the land (like riparian buffer areas along a stream or an unstable slope) that limit harvesting activities).

(iv) If the assessor determines that the notice of continuance or the timber management plan is not accurate or complete, the owner may resubmit the corrected information to the assessor.

(v) If the assessor determines that the land does not qualify to continue as designated forest land, the assessor removes the land upon the date of the conveyance and provides the owner with a notice of removal containing reason(s) for the removal and the amount of compensating taxes owed.

(c) Once the assessor signs the notice of continuance as part of the REET affidavit and the separate notice of continuance, if required, the notice(s) are then submitted to the treasurer. Before the treasurer can stamp the REET affidavit as approved for recording, the treasurer collects any REET due because of the transfer, and collects all compensating tax if the land does not qualify for continuance as designated forest land because it was denied continuance by the assessor. The county recording clerk must not accept any deeds or other transfer documents unless the treasurer has stamped the REET affidavit.

(d) A notice of continuance is not required when the transfer of the forest land is to a new owner who is an heir or devisee, however, the new owner must continue to meet the requirements of designated forest land to avoid removal from designation. The treasurer determines that a transfer is by inheritance because the claim for the inheritance exemption is filled out on the REET affidavit with supporting documentation. The treasurer should notify the assessor when forest land has been transferred by inheritance without a notice of continuance.

(4) **Assessor decisions and procedures.** Before removing the land from its designated forest land status, the assessor follows certain procedures and takes into account circumstances that may delay or prevent removal.

(a) The assessor must determine:

(i) The actual area of land to be removed from forest land status;

(ii) Whether the land has been exempted from an unretired special benefit assessment;

(iii) The true and fair value of the area being removed as of January 1st of the year of removal from designation;

(iv) Forest land value for the area to be removed;

(v) The last levy rate that applied for that area; and

(vi) The amount of time the land has been designated and classified as forest land, including the number of days up to the date of removal for the current year of removal.

(b) The assessor may require the owner to provide a legal description of the land area intended for removal when the landowner requests removal of owner's land from designated forest land status.

(c) The remaining land outside of the affected removal area continues to be designated as forest land if the owner retains twenty or more contiguous acres primarily devoted to and used for growing and harvesting timber. If the remaining land fails to meet the forest land definition because there are less than twenty contiguous acres primarily devoted to and used for growing and harvesting timber, the owner may request reclassification as timber land under the open space program in chapter 84.34 RCW.

(d) The assessor must provide the owner with a written notice and an opportunity to be heard by the assessor, or the assessor's deputy, when the assessor intends to remove the land because it is no longer primarily devoted to and used for growing and harvesting timber. RCW 84.33.140 (5)(d). Each county assessor may set his or her own procedure for giving a landowner this notice and opportunity to be heard so long as it is done in a reasonable and consistent manner that ensures due process for each owner.

(e) An assessor may not remove forest land merely because an owner subdivides the land into separate parcels, if contiguous parcels of the subdivided land still add up to at least twenty contiguous acres, remain in the same ownership, and continue to be primarily devoted to and used for growing and harvesting timber. An assessor may ask an owner of designated forest land if the use of the land has changed when the owner subdivides a tract of designated forest land into separate parcels.

(f) If the assessor determines the land is no longer primarily devoted to and used for growing and harvesting timber, but there is a pending acquisition by an entity that would qualify for exemption from compensating tax under subsection (6)(e) of this rule, the assessor must not remove the land from its designated forest land status. RCW 84.33.140 (5)(d)(i). In order to prevent removal, the government entity or other qualified recipient must provide written proof to the assessor of its intent to acquire the land or documentation that demonstrates the transaction will qualify for an exemption from compensating tax under subsection (6)(e) of this rule. The entity acquiring the land must provide this written proof within sixty days of a request by the assessor. Thereafter, once a year, the governmental entity or other recipient must provide the assessor of the county in which the land is located written evidence of its intent to acquire the land. This written evidence must be provided on or before December 31st of each year or at an earlier date if the assessor makes a written request for such information. RCW 84.33.140 (5)(d)(i). Upon the assessor's written request, the information must be provided within sixty days from the date the assessor mails or hands the request to the owner or the postmark date of the request, if later.

(g) The assessor must not remove forest land from its designation if a governmental restriction is imposed on the land that prohibits, in whole or in part, the harvesting of timber.

(i) If only a portion of the forest land is impacted by the governmental restriction, the assessor cannot use the restriction as a basis to remove the remainder of the land from its designated forest land status.

(ii) A governmental restriction includes:

(A) Any law, regulation, rule, ordinance, program, or other action adopted or taken by a federal, state, county, city, or other governmental entity; or

(B) The land's zoning or its presence within an urban growth area designated under RCW 36.70A.110.

(5) **Removal proceedings.** After determining that a triggering event causing removal has occurred, the assessor must provide timely written notice(s) to the taxpayer. RCW 84.33.140 (5)(d) (written notice and opportunity to be heard), RCW 84.33.140(9) (notice of removal). Upon receiving the notice of removal, the landowner may appeal the removal or apply for reclassification of the land to the open space program under chapter 84.34 RCW. If the owner chooses to appeal the removal, the appeal must be filed within thirty days of the postmark date for the notice or by July 1st of the year of removal, whichever is later. If the owner chooses to apply for reclassification, they must do so within thirty days of the postmark date of the notice.

(a) **When does the land get removed from the designated forest land status?** If the removal is a result of a sale or transfer, the assessor removes the land on the date of sale or transfer provided in the legal conveyance. If the removal is based upon a determination made about the land by the assessor or at the request of the owner, the assessor removes the land on the date shown on the notice of removal mailed to the owner.

(b) **Notice of removal.** The assessor uses the notice of removal to notify the owner that the land has been removed from designated forest land status. Within thirty days of removing land from designated forest land status, the assessor must mail a notice of removal to the owner with the reasons for the removal. The owner, seller, or transferor may appeal the removal to the county board of equalization.

(i) If the property is being removed because the assessor has determined the land is no longer primarily devoted to and used for growing and harvesting timber, the assessor provides two notices. First, the assessor must notify the taxpayer of his or her intent to remove the property and give the owner an opportunity to be heard. The assessor may require the owner to provide pertinent information about the land and its use in the response to the assessor's first notice. When the assessor determines that the property still does not qualify as designated forest land after the first notice is sent, the assessor mails the owner the second notice, the notice of removal, but only after:

(A) The owner declines the opportunity to be heard;

(B) The owner fails to timely respond to the first notice; or

(C) The assessor has received and considered the owner's timely response to the notice of intent to remove and nevertheless concludes that the property is no longer primarily devoted to growing and harvesting timber.

(ii) If the removal is based upon an owner's request for removal, upon receipt of a request for removal from an owner, the assessor sends the notice of removal to the owner showing the compensating tax and recording fee due.

(iii) The notice provides the reason(s) for removing the land from designation and the date of the removal. RCW 84.33.140(9). The notice includes the compensating tax calculated in rule section (6) and the necessary recording fees to be paid. It also includes the due date for payment, along with the landowner's rights to appeal the removal or the true and fair value at the time of removal, and the owner's right to apply for the land to be reclassified under chapter 84.34 RCW. The county must use the notice of removal form prepared by the department.

(iv) The assessor must also provide written notice of the removal to any local government filing a notice regarding a special benefit assessment under RCW 84.33.210 within a reasonable time after the assessor's decision to remove the land. The assessor may provide a simple statement with the legal description of the land, the name of the landowner, and the date of removal, if he or she includes a copy of the notice sent to the landowner. RCW 84.33.230.

(c) **What happens when an owner chooses to appeal the removal?** Unless the removal is reversed upon appeal, the assessor continues the process to remove the property from designated forest land status. The assessor may choose to delay collection of the compensating tax and recording fee until the appeal is decided. However, if the assessor postpones the collection of the compensating tax and recording fee, the assessor must notify the treasurer to temporarily delay collection. The assessor must also notify the owner that if the determination to remove is upheld, then interest will be due from the date the compensating tax and recording fee were due.

(i) If the removal is reversed upon appeal, the assessor shall reinstate the land as designated forest land, discharge any lien placed against the land, revise any assessments made against the property during the interim, refund the recording fee paid, and refund or cancel any compensating taxes and interest paid or owing.

(ii) If the removal is upheld upon an appeal in which the assessor has delayed collection, the compensating tax and recording fee are due immediately with interest accrued from the date the tax and fee were originally due. Upon receiving notice of the decision upholding the removal, the assessor must immediately notify the treasurer to collect any unpaid compensating taxes, fees, and interest on the land.

(d) **What happens when an owner applies to have the land reclassified under chapter 84.34 RCW?** If an application for reclassification is submitted by the owner within thirty days after the notice of removal has been mailed, the forest land is not removed from classification until the application for reclassification under chapter 84.34 RCW is denied or later removed from classification under RCW 84.34.108. RCW 84.33.145(1).

(i) The assessor processes an application for reclassification in the same manner as it processes an initial application for classification under chapter 84.34 RCW.

(ii) A timber management plan must be filed with the county legislative authority within sixty days of the date the application for reclassification under this chapter or from designated forestland under chapter 84.33 RCW is received. The application for reclassification will be accepted, but may not be processed until this plan is received.

(A) If this plan is not received within sixty days of the date the application for reclassification is received, the application will be denied.

(B) If circumstances require it, the assessor may allow an extension of time for submitting a timber management plan when an application for reclassification is received. The applicant will be notified of this extension in writing. When the assessor extends the filing deadline for this plan, the county legislative authority may delay processing the application until the plan is received. If the timber management plan is not received by the date set by the assessor, the application for reclassification will be automatically denied.

(iii) When the owner sells or transfers land (or a portion of the land) while an application for reclassification is pending, an assessor may accept a notice of continuation, and allow the owner to revise the application for reclassification to reflect the name of the new owner of the property.

(iv) If the application for reclassification under chapter 84.34 RCW is approved, the assessor shall transfer the property to its new classification.

(v) If the application for reclassification under chapter 84.34 RCW is denied, the assessor must record the removal notice and inform the treasurer's office to immediately begin collection of the compensating tax and the recording fee.

(6) **Compensating tax.** Compensating tax is imposed when land is removed from its forest land status. This tax recaptures taxes that would have been paid on the land if it had been assessed and taxed at its true and fair value instead of the forest land value.

(a) **Calculating the compensating tax.** The assessor uses the current year's levy rate, the forest land value, and the true and fair value for the area to be removed from forest land status to calculate the compensating tax. The compensating tax consists of two parts: The recapture of taxes for previous years that the land was classified or designated as forest land, up to a maximum of nine years; and the recapture of taxes for the portion of the current year up to the date of removal in the year the land is removed from designation. RCW 84.33.140(11).

(i) The compensating tax for the previous years is calculated by determining the difference between the amount of taxes assessed at the forest land value for the removal area and the amount of taxes that would have been paid if the land had been valued at its true and fair value in the year of removal. That difference is multiplied by the number of years the land was classified or designated as forest land up to a maximum of nine years.

(ii) The compensating tax for the portion of the year of removal from January 1st to the date of removal is calculated by determining the difference between the amount of taxes assessed at the forest land value and the taxes that would have been paid if the land had been valued at its true and fair value for the portion of the year up to the removal date.

(b) Formulas for calculating taxes after removal:

(i) Calculation of prior year's compensating tax:

True and Fair Value of Land (Jan 1st of year removed)	Less	Forest Land Value at time of removal	Multiplied by	Last levy Rate Extended Against Land	Multiplied by	Years (not to exceed 9)	Equals	Compensating Tax
$————	–	$————	x	$————	x		=	$————

(ii) Calculation of current year's taxes to date of removal:

	______	÷	365			=	______
	No. of days designated as forest land		No. of days in year				Proration factor (To items (A) and (B))
(A)	$______	x	______	x	______	=	$___
	Market value		Levy rate		Proration factor		
(B)	$______	x	______	x	______	=	$___
	Forest land value		Levy rate		Proration factor		
(C)	**Amount of compensating tax for current year ((A) minus (B))**					=	**$___**

(c) The assessor notifies the treasurer of the amount of compensating tax and the due date for the tax by providing the treasurer a copy of the removal notice. Compensating tax is due and payable to the county treasurer thirty days after the assessor mails to the owner the notice of removal informing the owner of the reasons for removal and the amount of compensating tax due. RCW 84.33.140(11). However, when property is sold or transferred, any compensating tax owed must be paid to the county treasurer before recording the conveyance. The county recording authority will not accept any instrument transferring the land, unless the compensating tax was paid or was not owed.

(d) **What happens if the compensating tax is not paid on the due date?** If the compensating tax is not paid by the due date, the tax is considered delinquent. Interest, set at the statutory rate for delinquent property taxes specified in RCW 84.56.020, will accrue against the amount of the outstanding taxes from the due date until the entire amount owing is paid. Unpaid compensating tax and interest becomes a lien on the land. RCW 84.60.020.

(i) This lien attaches at the time the forest land is removed from designation.

(ii) The lien has priority over any recognizance, mortgage, judgment, debt, obligation, or responsibility against the land.

(iii) This lien must be fully paid before any other recognizance, mortgage, judgment, debt, obligation, or responsibility may be charged against the land.

(iv) The lien can be foreclosed upon expiration of the same period after delinquency and in the same manner as liens for delinquent real property taxes are foreclosed under RCW 84.64.050. RCW 84.33.140(12).

(e) **Compensating tax is not imposed on land removed from the forest land designation if the removal resulted solely from any of the following:**

(i) A transfer to a government entity in exchange for other forest land within Washington state;

(ii) A transfer under either the power of eminent domain or upon the threat of eminent domain by an entity with the power of eminent domain that intends to exercise this power. The entity must threaten to exercise eminent domain in writing or demonstrate this threat by some other official action;

(iii) A donation of fee title, development rights, or the right to harvest timber in order to protect, preserve, maintain, improve, restore, limit the future use, or conserve the property for public use or enjoyment (see RCW 84.34.210 and 64.04.130). Provided, this donation is made to a:

(A) State agency;

(B) Federal agency;

(C) County;

(D) City;

(E) Town;

(F) Metropolitan park district (see RCW 35.61.010);

(G) Metropolitan municipal corporation (see RCW 35.58.020);

(H) Nonprofit historic preservation corporation as defined in RCW 64.04.130; or

(I) Nonprofit nature conservancy corporation or association as defined in RCW 84.34.250.

However, when the land is no longer being used for one of the purposes listed above, compensating tax will be imposed on the owner of the land at that time;

(iv) The sale or transfer of fee title to a government entity (see the governmental entities listed above in clause (iii) of this rule section) or a nonprofit nature conservancy corporation as defined in RCW 64.04.130 exclusively for the protection and conservation of lands recommended for state natural area preserve purposes by the natural heritage advisory council under its established natural heritage plan as defined in chapter 79.70 RCW (natural area preserves). However, if the land is no longer used to protect and conserve the area for state natural area preserve purposes, or fails to comply with the terms of a natural heritage plan, compensating tax will be imposed on the owner of the land at that time;

(v) A sale or transfer of fee title to the state's parks and recreations commission for park and recreation purposes;

(vi) An official action of an agency of the state of Washington or the county or city in which the land is located disallowing the current use of the land. "Official action" includes city ordinances, zoning restrictions, the Growth Management Act, the Shoreline Management Act, and the Environmental Policy Act;

(vii) The creation, sale, or transfer of forestry riparian easements under RCW 76.13.120;

(viii) The creation, sale, or transfer of a fee interest or a conservation easement for the riparian open space program under RCW 76.09.040;

(ix) In a county with a population of more than one million (i.e., King County), a transfer of a property interest to a government entity, or to a nonprofit historic preservation corporation or nonprofit nature conservancy corporation (as these corporations are defined in RCW 64.04.130) and the property interest being transferred is to:

(A) Protect or enhance public resources; or

(B) Preserve, maintain, improve, restore, limit the future use of, or otherwise to conserve for public use or enjoyment. When the land is no longer being used for any of these purposes, the owner of the land at the time will be required to pay compensating tax. RCW 84.33.140 (12) and (13); or

(x) The sale or transfer of forest land within two years after the death of an owner who held at least a fifty percent interest in the land if:

(A) The individual(s) or entity(s) who received the land from the deceased owner is selling or transferring the land; and

(B) The land has been continuously assessed and valued as classified or designated forest land under chapter 84.33 RCW or classified under chapter 84.34 RCW since 1993. The date of death shown on the death certificate begins the two-year period for sale or transfer.

(7) **When will the land be assessed at its true and fair value and the taxes become payable?** The land will be assessed at its true and fair value on the date it is removed from forest land status. The assessor revalues the land removed from forest land status with reference to its true and fair value on January 1st in the year of removal. RCW 84.33.140(10). The property tax for the remainder of the year following the date of removal is based on land's true and fair value.

(a) To calculate the increase the assessor must determine the number of days remaining in the year from the date of removal. The increase in property tax is due on the same due date as all other property taxes are due for the year (generally, April 30th and October 1st of the current year. See RCW 84.56.020).

(b) Formula for calculating the increase in property taxes for the remainder of the year in which the land is being removed:

(i)	______ No. of days from date of removal to the end of the year	÷	365 ______ No. of days in year	=	______ Proration factor for true and fair land value		
(ii)	$______ Market value	x	______ Levy rate	x	______ Proration factor	=	$___
(iii)	$______ Forest land value	x	______ Levy rate	x	______ Proration factor	=	$___
(iv)	**Total amount of increased taxes for current year ((ii) minus (iii))**					=	**$___**

(c) If the taxes for the year of removal have not yet been billed, the tax should be recalculated based on the true and fair value of the land removed for the portion of the year following the date of removal.

(d) An owner may appeal the true and fair value of the land used to calculate the increase in the remaining current year's taxes or the compensating taxes within thirty days of the notice (or up to sixty days if such time limit has been adopted by the county legislative authority) or on or before July 1st, whichever is later. RCW 84.40.038.

(8) **What happens when forest land reclassified under chapter 84.34 RCW is later removed from that classification before ten years have passed?** If reclassified forest land is later removed, a combination of compensating tax and additional tax will be imposed unless the basis for removal is one of the circumstances listed as exempt from additional tax under RCW 84.34.108(6).

(a) The amount of compensating tax is equal to the difference, if any, between the amount of property tax last levied on the land as forest land and an amount equal to the new true and fair value of the land when removed from classification under RCW 84.34.108 multiplied by the dollar rate of the last property tax levy extended against the land, multiplied by

(b) A number equal to:

(i) The number of years the land was classified or designated as forest land under chapter 84.33 RCW, if the total number of years the land was classified or designated under chapter 84.33 RCW and classified under chapter 84.34 RCW is less than ten; or

(ii) Ten minus the number of years the land was classified under chapter 84.34 RCW, if the total number of years the land was classified or designated under chapter 84.33 RCW and under chapter 84.34 RCW is at least ten.

Chapter 458-40 WAC

TAXATION OF FOREST LAND AND TIMBER

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

458-40-010	Definitions. [Order 71-4, § 458-40-010, filed 10/8/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.
458-40-020	Forest land grading rules. [Order 71-4, § 458-40-020, filed 10/8/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.
458-40-025	Forest land values. [Order 72-6, § 458-40-025, filed 6/28/72; Order PT 72-2, § 458-40-025, filed 2/18/72.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.
458-40-026	Forest land values—1973. [Order PT 72-14, § 458-40-026, filed 11/29/72.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.
458-40-027	Forest land values—1974. [Order PT 73-9, § 458-40-027, filed 11/30/73.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-028 Forest land values—1975. [Order FT 74-1, § 458-40-028, filed 11/22/74.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-029 Forest land values—1976. [Order FT 75-6, § 458-40-029, filed 12/1/75.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-030 Forest land designation. [Order FT 75-3, § 458-40-030, filed 6/5/75; Order 71-4, § 458-40-030, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-040 Definitions. [Order FT 75-3, § 458-40-040, filed 6/5/75; Order 71-4, § 458-40-040, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-050 Forest land application. [Order FT 75-3, § 458-40-050, filed 6/5/75; Order 71-4, § 458-40-050, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-060 Forest management plan. [Order FT 75-3, § 458-40-060, filed 6/5/75; Order 71-4, § 458-40-060, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-070 Notification by assessor of denial of application, appeals. [Order FT 75-3, § 458-40-070, filed 6/5/75; Order 71-4, § 458-40-070, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-080 Notification by assessor of removal of designated forest land, appeals. [Order FT 75-3, § 458-40-100 (codified as WAC 458-40-080), filed 6/5/75; Order 71-4, § 458-40-080, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-090 Notation on assessment and tax rolls of designated forest land. [Order FT 75-3, § 458-40-080 (codified as WAC 458-40-090), filed 6/5/75; Order 71-4, § 458-40-090, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-100 Removal from designation. [Order FT 75-3, § 458-40-090 (codified as WAC 458-40-100), filed 6/5/75; Order 71-4, § 458-40-100, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-10001 Compensating tax liability and rate. [Order FT 75-3, § 458-40-110 (codified as WAC 458-40-10001), filed 6/5/75.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-110 Definitions. [Order 71-4, § 458-40-110, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-120 Timber roll—Preparation and use. [Order 71-4, § 458-40-120, filed 12/17/71 and 1/13/72.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-121 Timber roll—Correction affecting timber factor. [Order 73-5, § 458-40-121, filed 8/13/73.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-130 Reconstruction of 1970 timber value. [Order 71-4, § 458-40-130, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-140 Timber—Assessed valuation. [Order 71-4, § 458-40-140, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-150 Determining millage. [Order 71-4, § 458-40-150, filed 12/17/71.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-160 Stumpage value areas. [Order 72-13, § 458-40-160, stumpage value area map, filed 11/28/72.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-161 Stumpage value areas. [Order PT 73-8, § 458-40-161, filed 11/1/73.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-162 Stumpage value areas. [Order FT 74-2, § 458-40-162, filed 11/27/74.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-163 Stumpage value areas. [Order FT 76-2, § 458-40-163, filed 7/1/76; Order FT 75-7, § 458-40-163, filed 12/1/75.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-164 Stumpage value areas. [Order FT 76-2, § 458-40-164, filed 7/1/76.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-165 Hauling distance zones. [Order 72-13, § 458-40-165, filed 11/28/72.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-166 Hauling distance zones. [Order PT 73-8, § 458-40-166, filed 11/1/73.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-167 Hauling distance zones. [Order FT 74-2, § 458-40-167, filed 11/27/74.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-168 Hauling distance zones. [Order FT 76-2, § 458-40-168, filed 7/1/76; Order FT 75-7, § 458-40-168, filed 12/1/75.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-169 Hauling distance zones. [Order FT 76-2, § 458-40-169, filed 7/1/76.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-170 Stumpage values. [Order 72-13, § 458-40-170 and Stumpage Tables, filed 11/28/72.] Decodified.

458-40-171 Stumpage values. [Order PT 74-3, § 458-40-171, filed 3/21/74; Order PT 73-8, § 458-40-171, filed 11/1/73.] Decodified.

458-40-172 Stumpage values. [Order 75-5, § 458-40-172, filed 8/8/75; Emergency Order FT 75-4, § 458-40-172, filed 7/1/75; Order FT 74-2, § 458-40-172, filed 11/27/74.] Decodified.

458-40-173 Stumpage values. [Order FT 76-2, § 458-40-173, filed 7/1/76; Order FT 75-7, § 458-40-173, filed 12/1/75.] Decodified.

458-40-174 Stumpage values. [Order FT 76-2, § 458-40-174, filed 7/1/76.] Decodified.

458-40-175 Adjustments. [Order 72-13, § 458-40-175 and Adjustment Tables, filed 11/28/72.] Decodified.

458-40-176 Adjustments. [Order PT 73-8, § 458-40-176, filed 11/1/73.] Decodified.

458-40-177 Adjustments. [Order 75-2, § 458-40-177, filed 5/12/75; Order FT 74-2, § 458-40-177, filed 11/27/74.] Decodified.

458-40-178 Adjustments. [Order FT 76-2, § 458-40-178, filed 7/1/76; Order FT 75-7, § 458-40-178, filed 12/1/75.] Decodified.

458-40-179 Adjustments. [Order FT 76-2, § 458-40-179, filed 7/1/76.] Decodified.

458-40-180 Quality classes. [Order 72-13, § 458-40-180 and Quality Class Tables, filed 11/28/72.] Decodified.

458-40-181 Quality classes. [Order PT 74-3, § 458-40-181, filed 3/21/74; Order PT 73-8, § 458-40-181, filed 11/7/73 and 11/1/73.] Decodified.

458-40-182 Quality classes. [Order FT 74-2, § 458-40-182, filed 11/27/74.] Decodified.

458-40-183 Quality classes. [Order FT 76-2, § 458-40-183, filed 7/1/76; Order FT 75-7, § 458-40-183, filed 12/1/75.] Decodified.

458-40-184 Quality classes. [Order FT 76-2, § 458-40-184, filed 7/1/76.] Decodified.

458-40-185 Stumpage index definition. [Order FT 75-1, § 458-40-185, filed 2/21/75.] Repealed by Order FT 76-2, filed 7/1/76.

458-40-18600 General. [Statutory Authority: Chapter 84.33 RCW. 85-02-026 (Order FT-84-7), § 458-40-18600, filed 12/28/84. Statutory Authority: RCW 82.01.060 and 1984 c 204. 84-14-049 (Order FT-84-4), § 458-40-18600, filed 6/29/84. Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18600, filed 6/30/83, effective 6/30/83. Statutory Authority: RCW 82.01.060, 84.33.-071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18600, filed 12/30/82. Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18600, filed 6/30/82; 82-02-035 (Order FT-81-4), § 458-40-18600, filed 12/31/81; 81-14-047 (Order FT 81-2), § 458-40-18600, filed 6/30/81; 81-02-

007 (Order FT 80-6), § 458-40-18600, filed 12/30/80; 80-08-042 and 80-08-041 (Emergency Order FT 80-1 and Permanent Order FT 80-2), § 458-40-18600, filed 6/30/80, effective 6/30/80; 80-01-091 (Order FT 79-40), § 458-40-18600, filed 12/31/79; Order 76-5, § 458-40-18600, filed 12/31/76.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18601 Definitions. [Order 76-5, § 458-40-18601, filed 12/31/76.] Decodified.

458-40-18602 Stumpage value areas—Map for 1/1/77 through 6/30/77. [Order 76-5, § 458-40-18602, filed 12/31/76.] Decodified.

458-40-18603 Hauling distance zones—Maps for 1/1/77 through 6/30/77. [Order 76-5, § 458-40-18603, filed 12/31/76.] Decodified.

458-40-18604 Timber quality code numbers—Tables for 1/1/77 through 6/30/77. [Order 76-5, § 458-40-18604, filed 12/31/76.] Decodified.

458-40-18605 Stumpage values—Tables for 1/1/77 through 6/30/77. [Order 76-5, § 458-40-18605, filed 12/31/76.] Decodified.

458-40-18606 Harvest adjustments—Tables for 1/1/77 through 6/30/77. [Order 76-5, § 458-40-18606, filed 12/31/76.] Decodified.

458-40-18607 Definitions for 7/1/77 through 12/31/77. [Order 77-2, § 458-40-18607, filed 6/29/77.] Decodified.

458-40-18608 Stumpage value areas—Map for 7/1/77 through 12/31/77. [Order 77-2, § 458-40-18608, filed 6/29/77.] Decodified.

458-40-18609 Hauling distance zones—Maps for 7/1/77 through 12/31/77. [Order 77-2, § 458-40-18609, filed 6/29/77.] Decodified.

458-40-18610 Timber quality code numbers—Tables for 7/1/77 through 12/31/77. [Order 77-2, § 458-40-18610, filed 6/29/77.] Decodified.

458-40-18611 Stumpage values—Tables for 7/1/77 through 12/31/77. [Order 77-2, § 458-40-18611, filed 6/29/77.] Decodified.

458-40-18612 Harvest adjustments—Tables for 7/1/77 through 12/31/77. [Order 77-2, § 458-40-18612, filed 6/29/77.] Decodified.

458-40-18613 Definitions for 1/1/78 through 6/30/78. [Order FT 77-5, § 458-40-18613, filed 12/30/77.] Decodified.

458-40-18614 Stumpage value areas—Map for 1/1/78 through 6/30/78. [Order FT 77-5, § 458-40-18614, filed 12/30/77.] Decodified.

458-40-18615 Hauling distance zones—Maps for 1/1/78 through 6/30/78. [Order FT 77-5, § 458-40-18615, filed 12/30/77.] Decodified.

458-40-18616 Timber quality code numbers—Tables for 1/1/78 through 6/30/78. [Order FT 77-5, § 458-40-18616, filed 12/30/77.] Decodified.

458-40-18617 Stumpage values—Tables for 1/1/78 through 6/30/78. [Order FT 77-5, § 458-40-18617, filed 12/30/77.] Decodified.

458-40-18618 Harvester adjustments—Tables for 1/1/78 through 6/30/78. [Order FT 77-5, § 458-40-18618, filed 12/30/77.] Decodified.

458-40-18619 Definitions for 7/1/78 through 12/31/78. [Statutory Authority: RCW 82.04.291. 78-07-065 (Order FT 78-2), § 458-40-18619, filed 6/30/78.] Decodified.

458-40-18620 Stumpage value areas—Map for 7/1/78 through 12/31/78. [Statutory Authority: RCW 82.04.291. 78-07-065 (Order FT 78-2), § 458-40-18620, filed 6/30/78.] Decodified.

458-40-18621 Hauling distance zones—Maps for 7/1/78 through 12/31/78. [Statutory Authority: RCW 82.04.291. 78-07-065 (Order FT 78-2), § 458-40-18621, filed 6/30/78.] Decodified.

458-40-18622 Timber quality code numbers—Tables for 7/1/78 through 12/31/78. [Statutory Authority: RCW 82.04.-291. 78-07-065 (Order FT 78-2), § 458-40-18622, filed 6/30/78.] Decodified.

458-40-18623 Stumpage values—Tables for 7/1/78 through 12/31/78. [Statutory Authority: 1979 c 6 § 1. 79-08-014 (Order FT 79-37), § 458-40-18623, filed 7/10/79. Statutory Authority: RCW 82.04.291. 78-07-065 (Order FT 78-2), § 458-40-18623, filed 6/30/78.] Decodified.

458-40-18624 Harvestable adjustments—Tables for 7/1/78 through 12/31/78. [Statutory Authority: RCW 82.04.291. 78-07-065 (Order FT 78-2), § 458-40-18624, filed 6/30/78.] Decodified.

458-40-18625 Definitions for 1/1/79 through 6/30/79. [Statutory Authority: RCW 82.04.291. 79-01-065 (Order FT 78-7), § 458-40-18625, filed 12/29/78.] Decodified.

458-40-18626 Stumpage value areas—Map for 1/1/79 through 6/30/79. [Statutory Authority: RCW 82.04.291. 79-01-065 (Order FT 78-7), § 458-40-18626, filed 12/29/78.] Decodified.

458-40-18627 Hauling distance zones—Maps for 1/1/79 through 6/30/79. [Statutory Authority: RCW 82.04.291. 79-01-065 (Order FT 78-7), § 458-40-18627, filed 12/29/78.] Decodified.

458-40-18628 Timber quality code numbers—Tables for 1/1/79 through 6/30/79. [Statutory Authority: RCW 82.04.291. 79-01-065 (Order FT 78-7), § 458-40-18628, filed 12/29/78.] Decodified.

458-40-18629 Stumpage values—Tables for 1/1/79 through 6/30/79. [Statutory Authority: RCW 82.04.291. 79-01-065 (Order FT 78-7), § 458-40-18629, filed 12/29/78.] Decodified.

458-40-18630 Harvester adjustments—Tables for 1/1/79 through 6/30/79. [Statutory Authority: RCW 82.04.291. 79-01-065 (Order FT 78-7), § 458-40-18630, filed 12/29/78.] Decodified.

458-40-18631 Definitions for 7/1/79 through 12/31/79. [Statutory Authority: RCW 82.01.060 and 1979 c 6 § 1. 79-07-083 and 79-07-084 (Emergency Order FT 79-34 and Permanent Order FT 79-35), § 458-40-18631, filed 6/29/79, effective 6/29/79.] Decodified.

458-40-18632 Stumpage value areas—Map for 7/1/79 through 12/31/79. [Statutory Authority: RCW 82.01.060 and 1979 c 6 § 1. 79-07-083 and 79-07-084 (Emergency Order FT 79-34 and Permanent Order FT 79-35), § 458-40-18632, filed 6/29/79, effective 6/29/79.] Decodified.

458-40-18633 Hauling distance zones—Maps for 7/1/79 through 12/31/79. [Statutory Authority: RCW 82.01.060 and 1979 c 6 § 1. 79-07-083 and 79-07-084 (Emergency Order FT 79-34 and Permanent Order FT 79-35), § 458-40-18633, filed 6/29/79, effective 6/29/79.] Decodified.

458-40-18634 Timber quality code numbers—Tables for 7/1/79 through 12/31/79. [Statutory Authority: RCW 82.01.-060 and 1979 c 6 § 1. 79-07-083 and 79-07-084 (Emergency Order FT 79-34 and Permanent Order FT 79-35), § 458-40-18634, filed 6/29/79, effective 6/29/79.] Decodified.

458-40-18635 Stumpage values—Tables for 7/1/79 through 12/31/79. [Statutory Authority: RCW 82.01.060 and 1979 c 6 § 1. 79-07-083 and 79-07-084 (Emergency Order FT 79-34 and Permanent Order FT 79-35), § 458-40-18635, filed 6/29/79, effective 6/29/79.] Decodified.

458-40-18636 Harvester adjustments—Tables for 7/1/79 through 12/31/79. [Statutory Authority: RCW 82.01.060 and 1979 c 6 § 1. 79-07-083 and 79-07-084 (Emergency Order FT 79-34 and Permanent Order FT 79-35), § 458-40-18636, filed 6/29/79, effective 6/29/79.] Decodified.

458-40-18637 Definitions for 1/1/80 through 6/30/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-01-091 (Order FT 79-40), § 458-40-18637, filed 12/31/79.] Decodified.

458-40-18638 Stumpage value areas—Map for 1/1/80 through 6/30/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-01-091 (Order FT 79-40), § 458-40-18638, filed 12/31/79.] Decodified.

458-40-18639 Hauling distance zones—Maps for 1/1/80 through 6/30/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-01-091 (Order FT 79-40), § 458-40-18639, filed 12/31/79.] Decodified.

458-40-18640 Timber quality code numbers—Tables for 1/1/80 through 6/30/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-01-091 (Order FT 79-40), § 458-40-18640, filed 12/31/79.] Decodified.

458-40-18641 Stumpage values—Tables for 1/1/80 through 6/30/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-01-091 (Order FT 79-40), § 458-40-18641, filed 12/31/79.] Decodified.

458-40-18642 Harvestable adjustments—Tables for 1/1/80 through 6/30/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-01-091 (Order FT 79-40), § 458-40-18642, filed 12/31/79.] Decodified.

458-40-18643 Definitions for 7/1/80 through 12/31/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-08-042 and 80-08-041 (Emergency Order FT 80-1 and Permanent Order FT 80-2), § 458-40-18643, filed 6/30/80, effective 6/30/80.] Decodified.

458-40-18644 Stumpage value areas—Map for 7/1/80 through 12/31/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-08-042 and 80-08-041 (Emergency Order FT 80-1 and Permanent Order FT 80-2), § 458-40-18644, filed 6/30/80, effective 6/30/80.] Decodified.

458-40-18645 Hauling distance zones—Maps for 7/1/80 through 12/31/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-08-042 and 80-08-041 (Emergency Order FT 80-1 and Permanent Order FT 80-2), § 458-40-18645, filed 6/30/80, effective 6/30/80.] Decodified.

458-40-18646 Timber quality code numbers—Tables for 7/1/80 through 12/31/80. [Statutory Authority: RCW 82.01.-060 and 84.33.071. 80-08-042 and 80-08-041 (Emergency Order FT 80-1 and Permanent Order FT 80-2), § 458-40-18646, filed 6/30/80, effective 6/30/80.] Decodified.

458-40-18647 Stumpage values—Tables for 7/1/80 through 12/31/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-08-042 and 80-08-041 (Emergency Order FT 80-1 and Permanent Order FT 80-2), § 458-40-18647, filed 6/30/80, effective 6/30/80.] Decodified.

458-40-18648 Harvester adjustments—Tables for 7/1/80 through 12/31/80. [Statutory Authority: RCW 82.01.060 and 84.33.071. 80-08-042 and 80-08-041 (Emergency Order FT 80-1 and Permanent Order FT 80-2), § 458-40-18648, filed 6/30/80, effective 6/30/80.] Decodified.

458-40-18649 Definitions for 1/1/81 through 6/30/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-02-007 (Order FT 80-6), § 458-40-18649, filed 12/30/80.] Decodified.

458-40-18650 Stumpage value areas—Map for 1/1/81 through 6/30/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-02-007 (Order FT 80-6), § 458-40-18650, filed 12/30/80.] Decodified.

458-40-18651 Hauling distance zones—Maps for 1/1/81 through 6/30/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-02-007 (Order FT 80-6), § 458-40-18651, filed 12/30/80.] Decodified.

458-40-18652 Timber quality code numbers—Tables for 1/1/81 through 6/30/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-02-007 (Order FT 80-6), § 458-40-18652, filed 12/30/80.] Decodified.

458-40-18653 Stumpage values—Tables for 1/1/81 through 6/30/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-02-007 (Order FT 80-6), § 458-40-18653, filed 12/30/80.] Decodified.

458-40-18654 Harvester adjustments—Tables for 1/1/81 through 6/30/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-02-007 (Order FT 80-6), § 458-40-18654, filed 12/30/80.] Decodified.

458-40-18655 Definitions for 7/1/81 through 12/31/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-14-047 (Order FT 81-2), § 458-40-18655, filed 6/30/81.] Decodified.

458-40-18656 Stumpage value areas—Map for 7/1/81 through 12/31/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-14-047 (Order FT 81-2), § 458-40-18656, filed 6/30/81.] Decodified.

458-40-18657 Hauling distance zones—Maps for 7/1/81 through 12/31/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-14-047 (Order FT 81-2), § 458-40-18657, filed 6/30/81.] Decodified.

458-40-18658 Timber quality code numbers—Tables for 7/1/81 through 12/31/81. [Statutory Authority: RCW 82.01.-060 and 84.33.071. 81-14-047 (Order FT 81-2), § 458-40-18658, filed 6/30/81.] Decodified.

458-40-18659 Stumpage values—Tables for 7/1/81 through 12/31/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-14-047 (Order FT 81-2), § 458-40-18659, filed 6/30/81.] Decodified.

458-40-18660 Harvester adjustments—Tables for 7/1/81 through 12/31/81. [Statutory Authority: RCW 82.01.060 and 84.33.071. 81-14-047 (Order FT 81-2), § 458-40-18660, filed 6/30/81.] Decodified.

458-40-18661 Definitions for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18661, filed 12/31/81.] Decodified.

458-40-18662 Stumpage value areas—Map for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18662, filed 12/31/81.] Decodified.

458-40-18663 Hauling distance zones—Maps for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18663, filed 12/31/81.] Decodified.

458-40-18664 Timber quality code numbers—Tables for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18664, filed 12/31/81.] Decodified.

458-40-18665 Stumpage values—Tables for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18665, filed 12/31/81.] Decodified.

458-40-18666 Harvester adjustments—Tables for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18666, filed 12/31/81.] Decodified.

458-40-18667 Small harvester option for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18667, filed 12/31/81.] Decodified.

458-40-18668 Definitions for small harvester option for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18668, filed 12/31/81.] Decodified.

458-40-18669 Taxable stumpage value for 1/1/82 through 6/30/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-02-035 (Order FT-81-4), § 458-40-18669, filed 12/31/81.] Decodified.

458-40-18670 Definitions for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060, 84.33.030 and 84.33.071 as amended by 1982 2nd ex.s. c 4. 82-19-011 (Order FT-82-5), § 458-40-18670, filed 9/7/82. Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18670, filed 6/30/82.] Decodified.

458-40-18671 Stumpage value areas—Map for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18671, filed 6/30/82.] Decodified.

458-40-18672 Hauling distance zones—Maps for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18672, filed 6/30/82.] Decodified.

458-40-18673 Timber quality code numbers—Tables for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.-060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18673, filed 6/30/82.] Decodified.

458-40-18674 Stumpage values—Tables for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18674, filed 6/30/82.] Decodified.

458-40-18675 Harvester adjustments—Tables for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18675, filed 6/30/82.] Decodified.

458-40-18676 Small harvester option for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18676, filed 6/30/82.] Decodified.

458-40-18677 Definitions for small harvester option for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060, 84.33.030 and 84.33.071 as amended by 1982 2nd ex.s. c 4. 82-19-011 (Order FT-82-5), § 458-40-18677, filed 9/7/82. Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18677, filed 6/30/82.] Decodified.

458-40-18678 Taxable stumpage value for 7/1/82 through 12/31/82. [Statutory Authority: RCW 82.01.060 and 84.33.071. 82-14-037 (Order FT-82-3), § 458-40-18678, filed 6/30/82.] Decodified.

458-40-18679 Definitions for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18679, filed 12/30/82.] Decodified.

458-40-18680 Stumpage value areas—Map for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18680, filed 12/30/82.] Decodified.

458-40-18681 Hauling distance zones—Maps for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18681, filed 12/30/82.] Decodified.

458-40-18682 Timber quality code numbers—Tables for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18682, filed 12/30/82.] Decodified.

458-40-18683 Stumpage values—Tables for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18683, filed 12/30/82.] Decodified.

458-40-18684 Harvestable adjustments—Tables for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18684, filed 12/30/82.] Decodified.

458-40-18685 Small harvester option for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.-071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18685, filed 12/30/82.] Decodified.

458-40-18686 Definitions for small harvester option for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18686, filed 12/30/82.] Decodified.

458-40-18687 Taxable stumpage value for January 1 through June 30, 1983. [Statutory Authority: RCW 82.01.060, 84.33.-071, 84.33.073 and 84.33.074. 83-02-033 (Order FT-82-7), § 458-40-18687, filed 12/30/82.] Decodified.

458-40-18688 Definitions for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18688, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18689 Stumpage value areas—Map for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18689, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18690 Hauling distance zones—Maps for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.-071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18690, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18691 Timber quality code numbers—Tables for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18691, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18692 Stumpage values—Tables for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18692, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18693 Harvester adjustments—Tables for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.-071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18693, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18694 Small harvester option for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18694, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18695 Definitions for small harvester option for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.-071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18695, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18696 Taxable stumpage value for July 1 through December 31, 1983. [Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-18696, filed 6/30/83, effective 6/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18700 Definitions. [Statutory Authority: Chapter 84.33 RCW. 86-14-064 (Order FT-86-2), § 458-40-18700, filed 6/30/86; 86-02-045 (Order FT-85-5), § 458-40-18700, filed 12/31/85; 85-02-026 (Order FT-84-7), § 458-40-18700, filed 12/28/84. Statutory Authority: RCW 82.01.060 and 1984 c 204. 84-14-049 (Order FT-84-4), § 458-40-18700, filed 6/29/84. Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18700, filed 12/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18701 Small harvester option. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18701, filed 12/30/83.] Repealed by 84-14-049 (Order FT-84-4), filed 6/29/84. Statutory Authority: RCW 82.01.060 and 1984 c 204.

458-40-18702 Definitions for small harvester option. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18702, filed 12/30/83.] Repealed by 84-14-049 (Order FT-84-4), filed 6/29/84. Statutory Authority: RCW 82.01.060 and 1984 c 204.

458-40-18703 Taxable stumpage value for small harvester option. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18703, filed 12/30/83.] Repealed by 84-14-049 (Order FT-84-4), filed 6/29/84. Statutory Authority: RCW 82.01.060 and 1984 c 204.

458-40-18704 Stumpage value areas and hauling distance zone—Map. [Statutory Authority: Chapter 84.33 RCW. 86-14-064 (Order FT-86-2), § 458-40-18704, filed 6/30/86; 85-02-026 (Order FT-84-7), § 458-40-18704, filed 12/28/84. Statutory Authority: RCW 82.01.060 and 1984 c 204. 84-14-049 (Order FT-84-4), § 458-40-18704, filed 6/29/84. Statutory Authority: RCW 82.01.060, 84.33.-071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18704, filed 12/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18705 Hauling distance zones—Maps. [Statutory Authority: RCW 82.01.060 and 1984 c 204. 84-14-049 (Order FT-84-4), § 458-40-18705, filed 6/29/84. Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.-074. 84-02-041 (Order FT-83-7), § 458-40-18705, filed 12/30/83.] Repealed by 85-02-026 (Order FT-84-7), filed 12/28/84. Statutory Authority: Chapter 84.33 RCW.

458-40-18706 Timber quality code numbers—Tables. [Statutory Authority: Chapter 84.33 RCW. 86-14-064 (Order FT-86-2), § 458-40-18706, filed 6/30/86; 86-02-045 (Order FT-85-5), § 458-40-18706, filed 12/31/85; 85-02-026 (Order FT-84-7), § 458-40-18706, filed 12/28/84. Statutory Authority: RCW 82.01.060 and 1984 c 204. 84-14-049 (Order FT-84-4), § 458-40-18706, filed 6/29/84. Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18706, filed 12/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18711 Stumpage values—Tables for January 1 through June 30, 1984. [Statutory Authority: RCW 82.01.060 and 84.33.071. 84-08-020 (Order FT-84-1), § 458-40-18711, filed 3/28/84. Statutory Authority: RCW 82.01.-060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18711, filed 12/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18712 Harvester adjustments—Tables for January 1 through June 30, 1984. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-18712, filed 12/30/83.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18713 Stumpage values—Tables for July 1 through December 31, 1984. [Statutory Authority: RCW 82.01.060 and 1984 c 204. 84-14-049 (Order FT-84-4), § 458-40-18713, filed 6/29/84.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18714 Harvester adjustments—Tables for July 1 through December 31, 1984. [Statutory Authority: RCW 82.01.-060 and 1984 c 204. 84-14-049 (Order FT-84-4), § 458-40-18714, filed 6/29/84.] Repealed by 87-02-023 (Order

86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18715 Stumpage values—Tables for January 1 through June 30, 1985. [Statutory Authority: Chapter 84.33 RCW. 85-02-026 (Order FT-84-7), § 458-40-18715, filed 12/28/84.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18716 Harvester adjustments—Tables for January 1 through June 30, 1985. [Statutory Authority: Chapter 84.33 RCW. 85-02-026 (Order FT-84-7), § 458-40-18716, filed 12/28/84.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18717 Stumpage values—Tables for July 1 through December 31, 1985. [Statutory Authority: Chapter 84.33 RCW. 85-14-048 (Order FT-85-2), § 458-40-18717, filed 6/28/85.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18718 Harvester adjustments—Tables for July 1 through December 31, 1985. [Statutory Authority: Chapter 84.33 RCW. 85-14-048 (Order FT-85-2), § 458-40-18718, filed 6/28/85.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18719 Stumpage values—Tables for January 1 through June 30, 1986. [Statutory Authority: Chapter 84.33 RCW. 86-02-045 (Order FT-85-5), § 458-40-18719, filed 12/31/85.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18720 Harvester adjustments—Tables for January 1 through June 30, 1986. [Statutory Authority: Chapter 84.33 RCW. 86-02-045 (Order FT-85-5), § 458-40-18720, filed 12/31/85.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18721 Stumpage values—Tables for July 1 through December 31, 1986. [Statutory Authority: Chapter 84.33 RCW. 86-14-064 (Order FT-86-2), § 458-40-18721, filed 6/30/86.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-18722 Harvester adjustments—Tables for July 1 through December 31, 1986. [Statutory Authority: Chapter 84.33 RCW. 86-14-064 (Order FT-86-2), § 458-40-18722, filed 6/30/86.] Repealed by 87-02-023 (Order 86-4), filed 12/31/86. Statutory Authority: Chapter 84.33 RCW.

458-40-19000 Timber pole volume table for west of Cascade summit. [Statutory Authority: RCW 82.01.060, 84.33.071, 84.33.073 and 84.33.074. 84-02-041 (Order FT-83-7), § 458-40-19000, filed 12/30/83. Statutory Authority: RCW 84.33.071. 83-14-039 and 83-14-040 (Emergency Order FT-83-4 and Permanent Order FT-83-3), § 458-40-19000, filed 6/30/83, effective 6/30/83. Statutory Authority: RCW 82.32.300 and 84.33.096.

458-40-535 Property tax, forest land—Operability classes. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-535, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.

458-40-600 Timber excise tax—Statement of purpose. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-600, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.

458-40-615 Timber excise tax—Stumpage values—Reporting of private stumpage sales to the department. [Statutory Authority: RCW 82.32.300 and 84.33.096. 95-14-086, § 458-40-615, filed 6/30/95, effective 7/1/95; 92-18-030, § 458-40-615, filed 8/26/92, effective 9/26/92.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.

458-40-620 Timber excise tax—Tax liability—Harvester as taxpayer, harvester defined. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-620, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.

458-40-622 Timber excise tax—Tax liability—Government entity as harvester. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-622, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.

458-40-624	Timber excise tax—Tax liability—Reclassified reforestation lands. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-624, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-630	Timber excise tax—Stumpage value—General definition. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-630, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-632	Timber excise tax—Taxable stumpage value—Private timber. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-632, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-634	Timber excise tax—Taxable stumpage value—Small harvester option. [Statutory Authority: RCW 82.32.330, 84.33.096 and 84.33.120. 96-02-056, § 458-40-634, filed 12/29/95, effective 1/29/96. Statutory Authority: RCW 82.33.096. 93-14-090, § 458-40-634, filed 7/1/93, effective 8/1/93. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-634, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-636	Timber excise tax—Taxable stumpage value—Public timber. [Statutory Authority: RCW 84.33.096 and 82.32.300. 90-14-033, § 458-40-636, filed 6/29/90, effective 7/30/90. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-636, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-682	Timber excise tax—Volume harvested—Sample scaling. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-682, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-684	Timber excise tax—Volume harvested—Conversions to Scribner Decimal C Scale for Western Washington. [Statutory Authority: RCW 82.32.300 and 84.33.096. 95-14-086, § 458-40-684, filed 6/30/95, effective 7/1/95. Statutory Authority: RCW 84.33.091, 84.32.300 [82.32.300] and 84.33.096. 92-14-083, § 458-40-684, filed 6/29/92, effective 7/1/92. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-684, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-686	Timber excise tax—Volume harvested—Conversions to Scribner Decimal C Scale for Eastern Washington. [Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-686, filed 12/31/86.] Repealed by 00-24-068, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.300 and 84.33.096.
458-40-690	Timber excise tax—Credit for property tax. [Statutory Authority: RCW 82.32.300 and 84.33.096. 00-24-068, § 458-40-690, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.330, 84.33.096 and 84.33.091. 97-02-069, § 458-40-690, filed 12/31/96, effective 1/1/97. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-690, filed 12/31/86.] Repealed by 06-16-094, filed 7/31/06, effective 8/31/06. Statutory Authority: RCW 82.32.330, 82.01.060(1), and 84.33.096.

WAC 458-40-530 Property tax, forest land—Land grades—Operability classes. (1) **Introduction.** RCW 84.33.120 requires that the department of revenue annually adjust and certify forest land values to be used by county assessors in preparing assessment rolls. These values are based upon land grades and operability classes. The assessors use maps that provide the land grades and operability classes for forest land in Washington.

This rule explains how the land grades and operability classes provided in the maps used by the assessors were established. The forest land values are annually updated in WAC 458-40-540. For the purposes of this rule and WAC 458-40-540, the term "forest land" is synonymous with timberland and means all land in any contiguous ownership of twenty or more acres which is primarily devoted to and used for growing and harvesting timber and means land only.

(2) **Land grades.** The land grades are established based upon timber species and site index. "Site index (plural site indices)" is the productive quality of forest land, determined by the total height reached by the dominant and codominant trees on a particular site at a given age.

WASHINGTON STATE PRIVATE FOREST LAND GRADES

SPECIES	SITE INDEX	LAND GRADE	
WESTSIDE			
Douglas Fir	136 ft. and over	1	
	118-135 ft.	2	
	99-117 ft.	3	
	84-98 ft.	4	
	under 84 ft.	5	
Western Hemlock	136 ft. and over	1	
	116-135 ft.	2	
	98-115 ft.	3	
	83-97 ft.	4	
	68-82 ft.	5	
	under 68 ft.	6	
Red Alder	117 ft. and over	6	
	under 117 ft.	7	
	Marginal forest productivity	7 or 8	*2
	Noncommercial	8	
EASTSIDE			
Douglas Fir & Ponderosa Pine	140 ft. and over	3	*1
	120-139 ft.	4	*1
	96-119 ft.	5	*1
	70-95 ft.	6	*1
	under 70 ft.	7	*1
	Marginal forest productivity	7 or 8	*2
	Noncommercial	8	

*1 These are the site indices for one hundred percent stocked stands. Stands with lower stocking levels would require higher site indices to occur in the same land grade.

*2 Marginal forest productivity is land grade 7 operability class 3, in the following townships. All marginal forest productivity in other townships is land grade 8.

WESTERN WASHINGTON

Whatcom County - all townships east of Range 6 East, inclusive.

Skagit County - all townships east of Range 7 East, inclusive.

Snohomish County - all townships east of Range 8 East, inclusive.

King County - all townships east of Range 9 East, inclusive.

Pierce County - T15N, R7E; T16N, R7E; T17N, R7E; T18N, R7E; T19N, R9E; T19N, R10E; T19N, R11E.

EASTERN WASHINGTON

Chelan County - all townships west of Range 17 East, inclusive.

Kittitas County - all townships west of Range 15 East, inclusive.

Yakima County - all townships west of Range 14 East, inclusive.

(3) **Operability classes.** Operability classes are established according to intrinsic characteristics of soils and geomorphic features. The criteria for each class apply statewide.

(a) **Class 1-Favorable.** Stable soils that slope less than thirty percent. Forest operations do not significantly impact soil productivity and soil erosion. Forest operations, such as roading and logging, are carried out with minimal limitations.

(b) **Class 2-Average.** Stable soils that slope less than thirty percent, but on which significant soil erosion, compaction, and displacement may occur as a result of forest operations.

(c) **Class 3-Difficult.** Soils with one or both of the following characteristics:

(i) Stable soils that slope between thirty and sixty-five percent; and

(ii) Soils that slope between zero and sixty-five percent, but display evidence that rapid mass movement may occur as a direct result of forest operations.

(d) **Class 4-Extreme.** All soils that slope more than sixty-five percent.

(e) **Variations.** Unique conditions found in any one geographic area may impact forest operations to a greater degree than the above classes permit. With documented evidence, the department of revenue may place the soil in a more severe class.

[Statutory Authority: RCW 82.32.300 and 84.33.096. 00-24-068, § 458-40-530, filed 12/1/00, effective 1/1/01. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-530, filed 12/31/86.]

WAC 458-40-540 Forest land values—2009. The forest land values, per acre, for each grade of forest land for the 2009 assessment year are determined to be as follows:

LAND GRADE	OPERABILITY CLASS	2009 VALUES ROUNDED
1	1	$209
	2	207
	3	194
	4	140
2	1	175

WAC 458-40-610 Timber excise tax—Definitions. (1) **Introduction.** The purpose of WAC 458-40-610 through 458-40-690 is to prescribe the policies and procedures for the taxation of timber harvested from public and private forest lands as required by RCW 84.33.010 through 84.33.096.

Unless the context clearly requires otherwise, the definitions in this rule apply to WAC 458-40-610 through 458-40-690. In addition to the definitions found in this rule, definitions of technical forestry terms may be found in *The Dictionary of Forestry*, 1998, edited by John A. Helms, and published by the Society of American Foresters.

(2) **Codominant trees.** Trees whose crowns form the general level of the main canopy and receive full light from above, but comparatively little light from the sides.

(3) **Competitive sales.** The offering for sale of timber which is advertised to the general public for sale at public auction under terms wherein all qualified potential buyers have an equal opportunity to bid on the sale, and the sale is awarded to the highest qualified bidder. The term "competitive sales" includes making available to the general public permits for the removal of forest products.

(4) **Cord measurement.** A measure of wood with dimensions of 4 feet by 4 feet by 8 feet (128 cubic feet).

(5) **Damaged timber.** Timber where the stumpage values have been materially reduced from the values shown in the applicable stumpage value tables due to damage resulting

from fire, blow down, ice storm, flood, or other sudden unforeseen causes.

(6) **Dominant trees.** Trees whose crowns are higher than the general level of the main canopy and which receive full light from the sides as well as from above.

(7) **Firewood.** Commercially traded firewood is considered scaled utility log grade as defined in subsection (13) of this section.

(8) **Harvest unit.** An area of timber harvest, defined and mapped by the harvester before harvest, having the same stumpage value area, hauling distance zone, harvest adjustments, harvester, and harvest identification. The harvest identification may be a department of natural resources forest practice application number, public agency harvesting permit number, public sale contract number, or other unique identifier assigned to the timber harvest area prior to harvest operations. A harvest unit may include more than one section, but harvest unit may not overlap a county boundary.

(9) **Harvester.** Every person who from the person's own land or from the land of another under a right or license granted by lease or contract, either directly or by contracting with others for the necessary labor or mechanical services, fells, cuts, or takes timber for sale or for commercial or industrial use. The term "harvester" does not include persons performing under contract the necessary labor or mechanical services for a harvester. In cases where the identity of the harvester is in doubt, the department of revenue will consider the owner of the land from which the timber was harvested to be the harvester and the one liable for paying the tax.

The definition above applies except when the United States or any instrumentality thereof, the state, including its departments and institutions and political subdivisions, or any municipal corporation therein so fells, cuts, or takes timber for sale or for commercial or industrial use. When a governmental entity described above fells, cuts, or takes timber, the harvester is the first person, other than another governmental entity as described above, acquiring title to or a possessory interest in such timber.

(10) **Harvesting and marketing costs.** Only those costs directly and exclusively associated with harvesting merchantable timber from the land and delivering it to the buyer. The term includes the costs of piling logging residue on site, and costs to abate extreme fire hazard when required by the department of natural resources. Harvesting and marketing costs do not include the costs of other consideration (for example, reforestation, permanent road construction), treatment to timber or land that is not a necessary part of a commercial harvest (for example, precommercial thinning, brush clearing, land grading, stump removal), costs associated with maintaining the option of land conversion (for example, county fees, attorney fees, specialized site assessment or evaluation fees), or any other costs not directly and exclusively associated with the harvesting and marketing of merchantable timber. The actual harvesting and marketing costs must be used in all instances where documented records are available. When the taxpayer is unable to provide documented proof of such costs, or when harvesting and marketing costs can not be separated from other costs, the deduction for harvesting and marketing costs is thirty-five percent of the gross receipts from the sale of the logs.

(11) **Hauling distance zone.** An area with specified boundaries as shown on the statewide stumpage value area and hauling distance zone maps contained in WAC 458-40-640, having similar accessibility to timber markets.

(12) **Legal description.** A description of an area of land using government lots and standard general land office subdivision procedures. If the boundary of the area is irregular, the physical boundary must be described by metes and bounds or by other means that will clearly identify the property.

(13) **Log grade.** Those grades listed in the "*Official Log Scaling and Grading Rules*" developed and authored by the Northwest Log Rules Advisory Group (Advisory Group). "Utility grade" means logs that do not meet the minimum requirements of peeler or sawmill grades as defined in the "*Official Log Scaling and Grading Rules*" published by the Advisory Group but are suitable for the production of firm useable chips to an amount of not less than fifty percent of the gross scale; and meeting the following minimum requirements:

(a) Minimum gross diameter—two inches.

(b) Minimum gross length—twelve feet.

(c) Minimum volume—ten board feet net scale.

(d) Minimum recovery requirements—one hundred percent of adjusted gross scale in firm useable chips.

(14) **Lump sum sale.** Also known as a cash sale or an installment sale, it is a sale of timber where all the volume offered is sold to the highest bidder.

(15) **MBF.** One thousand board feet measured in Scribner Decimal C Log Scale Rule.

(16) **Noncompetitive sales.** Sales of timber in which the purchaser has a preferential right to purchase the timber or a right of first refusal.

(17) **Other consideration.** Value given in lieu of cash as payment for stumpage, such as improvements to the land that are of a permanent nature. Some examples of permanent improvements are as follows: Construction of permanent roads; installation of permanent bridges; stockpiling of rock intended to be used for construction or reconstruction of permanent roads; installation of gates, cattle guards, or fencing; and clearing and reforestation of property.

(18) **Permanent road.** A road built as part of the harvesting operation which is to have a useful life subsequent to the completion of the harvest.

(19) **Private timber.** All timber harvested from privately owned lands.

(20) **Public timber.** Timber harvested from federal, state, county, municipal, or other government owned lands.

(21) **Remote island.** An area of land which is totally surrounded by water at normal high tide and which has no bridge or causeway connecting it to the mainland.

(22) **Scale sale.** A sale of timber in which the amount paid for timber in cash and/or other consideration is the arithmetic product of the actual volume harvested and the unit price at the time of harvest.

(23) **Small harvester.** A harvester who harvests timber from privately or publicly owned forest land in an amount not exceeding two million board feet in a calendar year.

(24) **Species.** A grouping of timber based on biological or physical characteristics. In addition to the designations of species or subclassifications defined in Agriculture Handbook No. 451 Checklist of United States Trees (native and

naturalized) found in the state of Washington, the following are considered separate species for the purpose of harvest classification used in the stumpage value tables:

(a) **Other conifer.** All conifers not separately designated in the stumpage value tables. See WAC 458-40-660.

(b) **Other hardwood.** All hardwoods not separately designated in the stumpage value tables. See WAC 458-40-660.

(c) **Special forest products.** The following are considered to be separate species of special forest products: Christmas trees (various species), posts (various species), western redcedar flatsawn and shingle blocks, western redcedar shake blocks and boards.

(d) **Chipwood.** All timber processed to produce chips or chip products delivered to an approved chipwood destination that has been approved in accordance with the provisions of WAC 458-40-670 or otherwise reportable in accordance with the provisions of WAC 458-40-670.

(e) **Small logs.** All conifer logs harvested in stumpage value areas 6 or 7 generally measuring seven inches or less in scaling diameter, purchased by weight measure at designated small log destinations that have been approved in accordance with the provisions of WAC 458-40-670. Log diameter and length is measured in accordance with the Eastside Log Scaling Rules developed and authored by the Northwest Log Rules Advisory Group, with length not to exceed twenty feet.

(f) **Sawlog.** For purposes of timber harvest in stumpage value areas 6 and 7, a sawlog is a log having a net scale of not less than 33 1/3% of gross scale, nor less than ten board feet and meeting the following minimum characteristics: Gross scaling diameter of five inches and a gross scaling length of eight feet.

(g) **Piles.** All logs sold for use or processing as piles that meet the specifications described in the most recently published edition of the *Standard Specification for Round Timber Piles* (*Designation*: *D 25*) of the American Society for Testing and Materials.

(h) **Poles.** All logs sold for use or processing as poles that meet the specifications described in the most recently published edition of the *National Standard for Wood Poles—Specifications and Dimensions* (*ANSI 05.1*) of the American National Standards Institute.

(25) **Stumpage.** Timber, having commercial value, as it exists before logging.

(26) **Stumpage value.** The true and fair market value of stumpage for purposes of immediate harvest.

(27) **Stumpage value area (SVA).** An area with specified boundaries which contains timber having similar growing, harvesting and marketing conditions.

(28) **Taxable stumpage value.** The value of timber as defined in RCW 84.33.035(7), and this chapter. Except as provided below for small harvesters and public timber, the taxable stumpage value is the appropriate value for the species of timber harvested as set forth in the stumpage value tables adopted under this chapter.

(a) **Small harvester option.** Small harvesters may elect to calculate the excise tax in the manner provided by RCW 84.33.073 and 84.33.074. The taxable stumpage value must be determined by one of the following methods as appropriate:

(i) **Sale of logs.** Timber which has been severed from the stump, bucked into various lengths and sold in the form of logs has a taxable stumpage value equal to the actual gross receipts for the logs, less any costs associated with harvesting and marketing the timber.

(ii) **Sale of stumpage.** When standing timber is sold and harvested within twenty-four months of the date of sale, its taxable stumpage value is the actual purchase price in cash and/or other consideration for the stumpage for the most recent sale prior to harvest. If a person purchases stumpage, harvests the timber more than twenty-four months after purchase of the stumpage, and chooses to report under the small harvester option, the taxable stumpage value is the actual gross receipts for the logs, less any costs associated with harvesting and marketing the timber. See WAC 458-40-626 for timing of tax liability.

(b) **Public timber.** The taxable stumpage value for public timber sales is determined as follows:

(i) **Competitive sales.** The taxable stumpage value is the actual purchase price in cash and/or other consideration. The value of other consideration is the fair market value of the other consideration; provided that if the other consideration is permanent roads, the value is the appraised value as appraised by the seller. If the seller does not provide an appraised value for roads, the value is the actual costs incurred by the purchaser for constructing or improving the roads. Other consideration includes additional services required from the stumpage purchaser for the benefit of the seller when these services are not necessary for the harvesting or marketing of the timber. For example, under a single stumpage sale's contract, when the seller requires road abandonment (as defined in WAC 222-24-052(3)) of constructed or reconstructed roads which are necessary for harvesting and marketing the timber, the construction and abandonment costs are not taxable. Abandonment activity on roads that exist prior to a stumpage sale is not necessary for harvesting and marketing the purchased timber and those costs are taxable.

(ii) **Noncompetitive sales.** The taxable stumpage value is determined using the department of revenue's stumpage value tables as set forth in this chapter. Qualified harvesters may use the small harvester option.

(iii) **Sale of logs.** The taxable stumpage value for public timber sold in the form of logs is the actual purchase price for the logs in cash and/or other consideration less appropriate deductions for harvesting and marketing costs. Refer above for a definition of "harvesting and marketing costs."

(iv) **Defaulted sales and uncompleted contracts.** In the event of default on a public timber sale contract, wherein the taxpayer has made partial payment for the timber but has not removed any timber, no tax is due. If part of the sale is logged and the purchaser fails to complete the harvesting, taxes are due on the amount the purchaser has been billed by the seller for the volume removed to date. See WAC 458-40-628 for timing of tax liability.

(29) **Thinning.** Timber removed from a harvest unit located in stumpage value area 1, 2, 3, 4, 5, or 10:

(a) When the total volume removed is less than forty percent of the total merchantable volume of the harvest unit prior to harvest; and

(b) The harvester leaves a minimum of one hundred undamaged, evenly spaced, dominant or codominant trees per acre of a commercial species or combination thereof.

Statutory Authority: RCW 84.33.096 and 82.32.300. 90-14-033, § 458-40-610, filed 6/29/90, effective 7/30/90. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-610, filed 12/31/86.]

WAC 458-40-626 Timber excise tax—Tax liability—Private timber, tax due when timber harvested. (1) **Introduction.** For purposes of determining the proper calendar quarter in which the harvester is to pay tax on timber harvested from private land the tax is due and payable on the last day of the month following the end of the calendar quarter in which the timber was harvested.

(2) **Personal use of harvested timber by landowner.** A landowner harvesting timber for commercial or industrial use is subject to the timber excise tax upon the value of harvested timber. See RCW 84.33.041, 84.33.035 and 84.33.073. A landowner cutting timber for that landowner's own personal use is not subject to the timber excise tax.

A landowner selling, bartering, or trading timber is making commercial use of that timber. A landowner providing that individual's own business with timber is making commercial or industrial use of that timber. For example, a logging contractor using timber by-products for hog fuel has made industrial use of that timber. An individual engaged in the construction industry using lumber from that landowner's timber to build a structure meant for sale by that individual or that individual's business has also made industrial use of the timber. On the other hand, a landowner makes personal use of timber when that individual uses the timber, a portion of the cut timber, or a by-product from the timber as:

(a) Firewood in that individual's stove or fireplace;

(b) Lumber for that individual's personal residence, garage or storage structure;

(c) Lumber for a fence around that individual's personal residence or private property not used for commercial purposes; or

(d) Sawdust or shavings for that individual's garden or yard.

[Statutory Authority: RCW 82.32.300 and 84.33.096. 00-24-068, § 458-40-626, filed 12/1/00, effective 1/1/01. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-626, filed 12/31/86.]

WAC 458-40-628 Timber excise tax—Tax liability—Public timber, lump sum and scale sales. For purposes of determining the proper quarter in which the harvester is to pay taxes on timber harvested from public land, the taxes due under RCW 84.33.041 are due and payable as follows:

(1) **Lump-sum sale.** The tax is due and payable on the last day of the month following the quarter in which the purchaser is billed by the seller for the timber: Provided, That if payments are made to the seller before any harvest, road construction or other work has begun on the timber sale contract, payment of taxes may be postponed until the quarter in which harvest or other contract work begins. In the quarter that harvest commences, taxes are due and payable on all billings accrued by the buyer in all prior quarters as well as the current quarter.

(2) **Scale sale.** The tax is due and payable on the last day of the month following the calendar quarter in which the purchaser is billed by the seller for the timber: Provided, That if payments are made to the seller before any harvest, road construction or other work has begun on the timber sale contract, payment of taxes may be postponed until the quarter in which harvest or other contract work begins. In the quarter that harvest commences, taxes are due and payable on all billings accrued by the buyer in all prior quarters as well as the current quarter. Indexing or escalation amounts must be included in the quarter in which they apply.

(3) **Other considerations.** Tax due on considerations other than cash is due and payable the first quarter of harvest, or the first quarter the costs are incurred, but not later than the last quarter of harvest: Provided, That if effective road credits (United States Forest Service Sales) are used as payment for stumpage, the tax is due in the quarter in which the road credits are applied as payment.

[Statutory Authority: RCW 82.32.300 and 84.33.096. 00-24-068, § 458-40-628, filed 12/1/00, effective 1/1/01; 90-02-049, § 458-40-628, filed 12/29/89, effective 1/29/90. Statutory Authority: Chapter 84.33 RCW. 87-02-023 (Order 86-4), § 458-40-628, filed 12/31/86.]

WAC 458-40-640 Timber excise tax—Stumpage value area (map). The stumpage value area and hauling distance zone map contained in this rule must be used to determine the proper stumpage value table and haul zone to be used in calculating the taxable stumpage value of timber harvested from private land.

WAC 458-40-640 Stumpage value area and hauling zone—Map

Harvesters may obtain a larger scale map by writing to the Washington State Department of Revenue, Special Programs Division, Forest Tax Section, Post Office Box 47472, Olympia, Washington 98504-7472; or by calling 1-800-548-8829.

WAC 458-40-650 Timber excise tax—Timber quality codes defined. The timber quality code numbers for each species of timber shown in the stumpage value tables contained in this chapter are defined as follows:

TABLE 1—Timber Quality Code Table
Stumpage Value Areas 1, 2, 3, 4, 5, and 10

Species	Quality Code Number	Log grade specifications[1]
Douglas-fir	1	Over 50% No. 2 Sawmill and better log grade, and 15% and over Special Mill, No. 1 Sawmill, and better log grade.
Douglas-fir	2	Over 50% No. 2 Sawmill and better log grade, and less than 15% Special Mill, No. 1 Sawmill, and better log grade.
Douglas-fir	3	25-50% inclusive No. 2 Sawmill and better log grade.
Douglas-fir	4	Less than 25% No. 2 Sawmill and better log grade.
Western Redcedar and Alaska-Cedar	1	All log grades.
Western Hemlock, True Firs, Other Conifer, and Spruce	1	Over 50% No. 2 Sawmill and better log grade, and 5% and over Special Mill, No. 1 Sawmill and better log grade.
Western Hemlock, True Firs, Other Conifer, and Spruce	2	Over 50% No. 2 Sawmill and better log grade, and less than 5% Special Mill, No. 1 Sawmill and better log grade.
Western Hemlock, True Firs, Other Conifer, and Spruce	3	25-50% inclusive No. 2 Sawmill and better log grade.
Western Hemlock, True Firs, Other Conifer, and Spruce	4	Less than 25% No. 2 Sawmill and better log grade.
Ponderosa Pine	1	Less than 10 logs 16 feet long per thousand board feet Scribner scale.
Ponderosa Pine	2	10 or more logs 16 feet long per thousand board feet Scribner scale.
Lodgepole Pine	1	All log grades.
Red Alder	1	40% and over No. 3 Sawmill and better log grades.
Red Alder	2	Less than 40% No. 3 Sawmill and better log grades.
Black Cottonwood and other hardwoods	1	All log grades.
Chipwood	1	All logs that comply with the definition of chipwood in WAC 458-40-610.
Piles	1	All logs that comply with the definition of piles in WAC 458-40-610.
Poles	1	All logs that comply with the definition of poles in WAC 458-40-610.

[1] For information on approved log scaling and grading methods see WAC 458-40-680.

TABLE 2—Timber Quality Code Table
Stumpage Value Areas 6 and 7

Species	Quality Code Number	Log grade specifications
Ponderosa Pine	1	Less than 10 logs 16 feet long per thousand board feet Scribner scale.
Ponderosa Pine	2	10 or more logs 16 feet long per thousand board feet Scribner scale.
All conifers other than Ponderosa Pine	1	All log sizes.
Hardwoods	1	Sawlogs only.
Small logs	1	All conifer logs that comply with the definition of small logs in WAC 458-40-610.
Chipwood	1	All logs that comply with the definition of chipwood in WAC 458-40-610.
Piles	1	All logs that comply with the definition of piles in WAC 458-40-610.
Poles	1	All logs that comply with the definition of poles in WAC 458-40-610.

(1) Log scale conversions Western and Eastern Washington. See conversion methods WAC 458-40-680.
(2) Includes Western Larch.
(3) Includes Alaska-Cedar.
(4) Includes all Hemlock, Spruce and true Fir species, or any other conifer not listed in this table.
(5) Stumpage value per ton.
(6) Stumpage value per cord.
(7) Stumpage value per 8 lineal feet or portion thereof.
(8) Stumpage value per lineal foot.

(3) **Harvest value adjustments.** The stumpage values in subsection (2) of this rule for the designated stumpage value areas are adjusted for various logging and harvest conditions, subject to the following:

(a) No harvest adjustment is allowed for special forest products, chipwood, or small logs.

(b) Conifer and hardwood stumpage value rates cannot be adjusted below one dollar per MBF.

(c) Except for the timber yarded by helicopter, a single logging condition adjustment applies to the entire harvest unit. The taxpayer must use the logging condition adjustment class that applies to a majority (more than 50%) of the acreage in that harvest unit. If the harvest unit is reported over more than one quarter, all quarterly returns for that harvest unit must report the same logging condition adjustment. The helicopter adjustment applies only to the timber volume from the harvest unit that is yarded from stump to landing by helicopter.

(d) The volume per acre adjustment is a single adjustment class for all quarterly returns reporting a harvest unit. A harvest unit is established by the harvester prior to harvesting. The volume per acre is determined by taking the volume logged from the unit excluding the volume reported as chipwood or small logs and dividing by the total acres logged. Total acres logged does not include leave tree areas (RMZ, UMZ, forested wetlands, etc.,) over 2 acres in size.

(e) A domestic market adjustment applies to timber which meet the following criteria:

(i) **Public timber—**Harvest of timber not sold by a competitive bidding process that is prohibited under the authority of state or federal law from foreign export may be eligible for the domestic market adjustment. The adjustment may be applied only to those species of timber that must be processed domestically. According to type of sale, the adjustment may be applied to the following species:

Federal Timber Sales: All species except Alaska-cedar. (Stat. Ref. - 36 C.F.R. 223.10)

State, and Other Nonfederal, Public Timber Sales: Western Redcedar only. (Stat. Ref. - 50 U.S.C. appendix 2406.1)

(ii) **Private timber—**Harvest of private timber that is legally restricted from foreign export, under the authority of The Forest Resources Conservation and Shortage Relief Act (Public Law 101-382), (16 U.S.C. Sec. 620 et seq.); the Export Administration Act of 1979 (50 U.S.C. App. 2406(i)); a Cooperative Sustained Yield Unit Agreement made pursuant to the act of March 29, 1944 (16 U.S.C. Sec. 583-583i); or Washington Administrative Code (WAC 240-15-015(2)) is also eligible for the Domestic Market Adjustment.

The following harvest adjustment tables apply from January 1 through June 30, 2009:

TABLE 9—Harvest Adjustment Table
Stumpage Value Areas 1, 2, 3, 4, 5, and 10
January 1 through June 30, 2009

Type of Adjustment	Definition	Dollar Adjustment Per Thousand Board Feet Net Scribner Scale
I. Volume per acre		
Class 1	Harvest of 30 thousand board feet or more per acre.	$0.00
Class 2	Harvest of 10 thousand board feet to but not including 30 thousand board feet per acre.	- $15.00
Class 3	Harvest of less than 10 thousand board feet per acre.	- $35.00
II. Logging conditions		
Class 1	Ground based logging a majority of the unit using tracked or wheeled vehicles or draft animals.	$0.00
Class 2	Cable logging a majority of the unit using an overhead system of winch driven cables.	- $50.00
Class 3	Applies to logs yarded from stump to landing by helicopter. This does not apply to special forest products.	- $145.00
III. Remote island adjustment:		
	For timber harvested from a remote island	- $50.00
IV. Thinning		
Class 1	A limited removal of timber described in WAC 458-40-610 (28)	- $100.00

TABLE 10—Harvest Adjustment Table
Stumpage Value Areas 6 and 7
January 1 through June 30, 2009

Type of Adjustment	Definition	Dollar Adjustment Per Thousand Board Feet Net Scribner Scale
I. Volume per acre		
Class 1	Harvest of more than 8 thousand board feet per acre.	$0.00
Class 2	Harvest of 8 thousand board feet per acre and less.	- $8.00
II. Logging conditions		
Class 1	The majority of the harvest unit has less than 40% slope. No significant rock outcrops or swamp barriers.	$0.00
Class 2	The majority of the harvest unit has slopes between 40% and 60%. Some rock outcrops or swamp barriers.	- $50.00
Class 3	The majority of the harvest unit has rough, broken ground with slopes over 60%. Numerous rock outcrops and bluffs.	- $75.00
Class 4	Applies to logs yarded from stump to landing by helicopter. This does not apply to special forest products.	- $145.00
Note:	A Class 2 adjustment may be used for slopes less than 40% when cable logging is required by a duly promulgated forest practice regulation. Written documentation of this requirement must be provided by the taxpayer to the department of revenue.	
III. Remote island adjustment:		
	For timber harvested from a remote island	- $50.00

TABLE 11—Domestic Market Adjustment

Class	Area Adjustment Applies	Dollar Adjustment Per Thousand Board Feet Net Scribner Scale
Class 1:	SVA's 1 through 6, and 10	$0.00
Class 2:	SVA 7	$0.00

Note: The adjustment will not be allowed on special forest products.

(4) **Damaged timber.** Timber harvesters planning to remove timber from areas having damaged timber may apply to the department of revenue for an adjustment in stumpage values. The application must contain a map with the legal descriptions of the area, an accurate estimate of the volume of damaged timber to be removed, a description of the damage sustained by the timber with an evaluation of the extent to which the stumpage values have been materially reduced from the values shown in the applicable tables, and a list of estimated additional costs to be incurred resulting from the removal of the damaged timber. The application must be received and approved by the department of revenue before the harvest commences. Upon receipt of an application, the department of revenue will determine the amount of adjustment to be applied against the stumpage values. Timber that has been damaged due to sudden and unforeseen causes may qualify.

(a) Sudden and unforeseen causes of damage that qualify for consideration of an adjustment include:

(i) Causes listed in RCW 84.33.091; fire, blow down, ice storm, flood.

(ii) Others not listed; volcanic activity, earthquake.

(b) Causes that do not qualify for adjustment include:

(i) Animal damage, root rot, mistletoe, prior logging, insect damage, normal decay from fungi, and pathogen caused diseases; and

(ii) Any damage that can be accounted for in the accepted normal scaling rules through volume or grade reductions.

(c) The department of revenue will not grant adjustments for applications involving timber that has already been harvested but will consider any remaining undisturbed damaged timber scheduled for removal if it is properly identified.

(d) The department of revenue will notify the harvester in writing of approval or denial. Instructions will be included for taking any adjustment amounts approved.

(5) **Forest-derived biomass.** Forest-derived biomass consists of tree limbs, tops, needles, leaves, and other woody debris that are residues from such activities as timber harvesting, forest thinning, fire suppression, or forest health. Forest-derived biomass does not include scalable timber products or firewood (defined in WAC 458-40-650). Forest-derived biomass has a $0/ton stumpage value.

WAC 458-40-670 Timber excise tax—Chipwood and small log destinations. (1) **Introduction.** This rule describes the procedure by which businesses that process chipwood, chipwood products, and/or small logs can become approved chipwood or small log destinations.

(2) **Chipwood destinations.** Businesses that process logs to produce chips or chip products may be designated as approved "chipwood destinations." Logs delivered to the log yards approved as "chipwood destinations" for the purpose of being chipped may be reported as chipwood and have the volume measured by weight.

(a) The department of revenue will maintain a current list of approved chipwood destinations. This list will be updated as necessary and will be formally reviewed by the department of revenue at least twice a year. A list of approved chipwood destinations is available from the forest tax section of the department of revenue.

(b) A log processor in the business of processing logs to produce chips or chip products that has not been designated as an approved destination may file an application to be listed as an approved chipwood destination. The application should be submitted to the Department of Revenue, Forest Tax Section, P. O. Box 47472, Olympia, Washington 98504-7472. To qualify as an approved destination, not less than ninety percent of the weight volume of logs delivered to and purchased by the log processor for chipping at a specified log yard or location must be processed to produce chips or chip products.

(c) Any applicant seeking administrative review of the department of revenue's decision made under (b) of this subsection may appeal the decision in accordance with WAC 458-20-100 (Appeals, small claims and settlements).

(3) **Logs chipped in the woods.** Logs chipped in the woods may also be reported as chipwood. Volume must be measured in net weight of green chips.

(4) **Other chipwood processing locations.** Logs processed at locations other than those listed on the approved list of chipwood destinations maintained by the department of revenue and other than as provided in subsection (3) of this rule may be reported as chipwood volume when scaled as utility grade logs, based on log scaling or upon approved sample log scaling methods.

If a harvester reports chipwood volume that was delivered to a location that is not listed as an approved chipwood destination and there has been no log scaling or approved sample log scaling, the chipwood volume so reported will be converted by the department of revenue to the appropriate sawlog volume in accordance with WAC 458-40-680 for purposes of timber excise taxation.

(5) **Small log destinations.** Businesses that process small logs as defined in WAC 458-40-610 may be designated as approved "small log destinations."

(a) The department of revenue will maintain a current list of approved small log destinations. This list will be updated as necessary and will be formally reviewed by the department of revenue at least twice a year. A list of approved small log destinations is available from the forest tax section of the department of revenue.

(b) A log processor in the business of processing small logs that has not been designated as an approved destination may file an application to be listed as an approved small log destination. The application should be submitted to the Department of Revenue, Forest Tax Section, P. O. Box 47472, Olympia, Washington 98504-7472.

(c) Any applicant seeking administrative review of the department of revenue's decision made under (b) of this subsection may appeal the decision in accordance with WAC 458-20-100 (Appeals, small claims and settlements).

[Statutory Authority: RCW 82.32.300 and 84.33.096. 00-24-068, § 458-40-670, filed 12/1/00, effective 1/1/01. Statutory Authority: RCW 82.32.330, 84.33.096 and 84.33.200. 95-18-027, § 458-40-670, filed 8/25/95, effective 9/25/95. Statutory Authority: RCW 84.33.091, 84.32.300 [82.32.300] and

WAC 458-40-680 Timber excise tax—Volume harvested—Approved scaling and grading methods—Sample scaling—Conversions. (1) **Introduction.** The acceptable log scaling and grading standard for stumpage value areas 1, 2, 3, 4, 5, and 10 is the Scribner Decimal C log rule as described in the most current edition of the "Official Log Scaling and Grading Rules" developed and authored by the Northwest Log Rules Advisory Group. The acceptable log scaling standard for stumpage value areas 6 and 7 is the Scribner Decimal C log rule described in the most current edition of the "Eastside Log Scaling Handbook" as published by the Northwest Log Rules Advisory Group, except that timber harvested in stumpage value areas 6 and 7 must be scaled using the current regional taper rules at the point of origin.

(2) **Special services scaling.** Special services scaling as described in the "Official Log Scaling and Grading Rules" developed and authored by the Northwest Log Rules Advisory Group may not be used for tax reporting purposes without prior written approval of the department of revenue.

(3) **Sample scaling.** Sample scaling may not be used for tax reporting purposes without prior written approval of the department of revenue. To be approved, sample scaling must be in accordance with the following guidelines:

(a) Sample selection, scaling, and grading must be conducted on a continuous basis as the unit is harvested.

(b) The sample must be taken in such a manner to assure random, unbiased sample selection in accordance with accepted statistical tests of sampling.

(c) The sample used to determine total volume, species, and quality of timber harvested for a given reporting period must have been taken during that period.

(d) Sample frequency must be large enough to meet board foot variation accuracy limits of plus or minus two and five-tenths percent standard error at the ninety-five percent confidence level.

(e) Harvesters, or a purchaser with an approved sample scaling method, must maintain sufficient supporting documentation to allow the department of revenue to verify source data, and test statistical reliability of sample scale systems.

(f) Exceptions: Sampling designs and accuracy standards other than those described herein may only be used with the prior written approval of the department of revenue.

(4) **Conversions to Scribner Decimal C Scale.** The following definitions, tables, and conversion factors must be used in determining taxable volume for timber harvested that was not originally scaled by the Scribner Decimal C Log Rule. Conversion methods other than those listed are not to be used for tax reporting purposes without prior written approval of the department of revenue. Harvesters who wish to use a method of conversion other than those listed below must obtain written approval from the department of revenue before harvesting. Purchasers may obtain written approval of a sample scaling method from the department of revenue. The department will maintain a list of purchasers with an approved sample scaling method. A harvester may obtain this list and a summary of the approved method for specific purchasers from the department of revenue. If a harvester has not obtained approval of a sample scaling method before harvesting, the harvester may use a purchaser's approved sample scaling method. If the harvester, or purchaser, fails to use an approved sample scaling method or other method of conversion approved by these rules to set the purchase price, the department will establish its own method, as the circumstances require, to determine a reasonable estimate of the volume of timber sold.

(a) **Weight measurement.** If the sole unit of measure used to set the purchase price for logs from harvest units that meet the definition of the lowest quality code for each species was weight, and the harvester does not use an approved method of sample scaling to determine volume for the stumpage value tables, the following tables must be used for converting to Scribner Decimal C. If weight is the sole measure used for a harvest unit with quality codes other than the lowest, the department will establish its own method, as the circumstances require, to determine a reasonable estimate of the volume of timber sold. Harvesters must keep records to substantiate the species and quality codes reported. For tax reporting purposes, a ton equals 2,000 pounds.

(Stumpage Value Areas 1, 2, 3, 4, 5, & 10) BOARD FOOT WEIGHT SCALE FACTORS (TONS/MBF)				
Species	Quality code			
	1	2	3	4
Douglas-fir[1]	NA	NA	NA	7.50
Western Hemlock[2]	NA	NA	NA	8.25
Western Redcedar[3]	7.0			
Red Alder[4]	NA	7.8		
Chipwood	9.0			

1 Includes Douglas-fir, Western Larch, and Sitka Spruce.

2 Includes Western Hemlock, Mountain Hemlock, Pacific Silver Fir, Noble Fir, Grand Fir, Subalpine Fir, and other conifers not separately designated. Pacific Silver Fir, Noble Fir, Grand Fir, and Subalpine Fir are all commonly referred to as "White Fir."

3 Includes Alaska-cedar.

4 Maple, Black Cottonwood and other hardwoods.

(Stumpage Value Areas 6 & 7) BOARD FOOT WEIGHT SCALE FACTORS (TONS/MBF)		
Species	Quality code	
	1	2
Ponderosa Pine	NA	6.50
Douglas-fir[1]	5.50	
Lodgepole Pine	6.0	
Western Hemlock[2]	5.50	
Englemann Spruce	4.50	
Western Redcedar[3]	4.50	

Species	Quality code	
	1	2
Chipwood	9.0	
Small Logs	6.50	

[1] Includes Western Larch.

[2] Includes Western Hemlock, Mountain Hemlock, Pacific Silver Fir, Noble Fir, Grand Fir, Subalpine Fir, and other conifers not separately designated. Pacific Silver Fir, Noble Fir, Grand Fir, and Subalpine Fir are all commonly referred to as "White Fir."

[3] Includes Alaska-cedar.

(b) **Cord measurement.** For the purposes of converting cords into Scribner volume:

(i) In stumpage value areas 1, 2, 3, 4, 5, and 10 logs with an average scaling diameter of 8 inches and larger must be converted to Scribner volume using 400 board feet per cord. Logs having an average scaling diameter of less than 8 inches must be converted to Scribner volume using 330 board feet per cord.

(ii) In stumpage value areas 6 and 7 logs with an average scaling diameter of 8 inches and larger must be converted to Scribner volume using 470 board feet per cord. Logs having an average scaling diameter of less than 8 inches must be converted to Scribner volume using 390 board feet per cord.

(iii) A cord of Western Redcedar shake or shingle blocks must be converted to Scribner volume using 600 board feet per cord.

(iv) Firewood must be converted at a rate of 3 tons per cord.

(c) **Cants or lumber from portable mills.** To convert from lumber tally to Scribner volume:

(i) In stumpage value areas 1, 2, 3, 4, 5, and 10 multiply the lumber tally for the individual species by 75%, and round to the nearest one thousand board feet (MBF); or

(ii) In stumpage value areas 6 and 7 multiply the lumber tally for the individual species by 88%, and round to the nearest one thousand board feet (MBF).

(d) **Log scale conversion.** Timber harvested in stumpage value areas 1, 2, 3, 4, 5, and 10 and which has been scaled by methods and procedures published in the "Eastside Log Scaling Handbook" must have the volumes reported reduced by eighteen percent. Timber harvested in stumpage value areas 6 and 7 and which has been scaled by methods and procedures published in the "Official Log Scaling and Grading Rules" developed and authored by the Northwest log rules advisory group, must have the volumes reported increased by eighteen percent.

(e) **Timber pole and piling volume tables.** Harvesters of poles must use the following tables to determine the Scribner board foot volume for each pole length and class:

Total Scribner Board Foot Volume Stumpage Value Areas 1, 2, 3, 4, 5, and 10																	
	Pole Class[1]															Piling Class[2]	
Length	H6	H5	H4	H3	H2	H1	1	2	3	4	5	6	7	9	10	A	B

Chapter 458-50 WAC

INTERCOUNTY UTILITIES AND TRANSPORTATION COMPANIES—ASSESSMENT AND TAXATION

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

458-50-010 Assessment of public utilities—Purpose—Definitions. [Order PT 75-2, § 458-50-010, filed 3/19/75.] Repealed by 99-08-006, filed 3/25/99, effective 4/25/99. Statutory Authority: RCW 84.12.240.

458-50-050 Access to books, records, and property. [Order PT 75-2, § 458-50-050, filed 3/19/75.] Repealed by 99-08-006, filed 3/25/99, effective 4/25/99. Statutory Authority: RCW 84.12.240.

WAC 458-50-020 Annual reports—Duty to file. Each company doing an inter-county or interstate business in this state shall make and file an annual report with the department. At the time of making such report, each company shall if directed by the department also file with the department:

(1) Annual reports of the board of directors or other officers to the stockholders of the company.

(2) Duplicate copies of the annual reports made to the federal regulatory agency or agencies exercising jurisdiction over the company.

(3) Duplicate copies of the annual reports made to the Washington state utilities and transportation commission or other Washington state regulatory agency exercising jurisdiction over the company.

(4) Duplicate copies of such other annual or special reports as the department may, from time to time, direct each company to make.

[Order PT 75-2, § 458-50-020, filed 3/19/75.]

WAC 458-50-030 Annual reports—Contents. Annual reports shall be made on forms furnished by the department, and shall contain such information as is required to enable the department to determine the true and fair value of a company's operating property in the state, and the apportionment thereof to the several counties and taxing districts. The report shall be signed by the president, treasurer or other responsible official of the company.

(1) In determining what types of information shall be required to be included in the annual report, the department may take into account, among other factors, the necessity and worth of such information in valuing, allocating or apportioning operating property; whether such information is of the type customarily maintained by the industry for internal accounting or regulatory agency purposes; and the cost and difficulty of obtaining or maintaining such information. The department's determination shall be final, and no company

shall be excused from providing such information except upon a clear showing that undue hardship would result.

(2) On or before December 1st of the year preceding the calendar year to be covered by the annual report, the department shall notify the companies of the types of information required to be included in the annual report for such forthcoming year: Provided, That the foregoing requirement shall not be applicable for calendar year 1975.

[Order PT 75-2, § 458-50-030, filed 3/19/75.]

WAC 458-50-040 Annual reports—Time of filing—Extension of time. Annual reports shall be filed with the department on or before the fifteenth day of March. The department may grant a reasonable extension of time, not to exceed sixty days, upon written application of the company filed with the department on or before the fifteenth day of March, and showing good cause why such an extension is required. In the event any other report required to be filed with the department, e.g., annual stockholders report or regulatory agency report, is not available at the time the annual report is filed, the company shall so notify the department and thereafter file such report as soon as it becomes available.

[Statutory Authority: RCW 84.12.390. 06-05-034, § 458-50-040, filed 2/8/06, effective 3/11/06; Order PT 75-2, § 458-50-040, filed 3/19/75.]

WAC 458-50-060 Failure to make report—Default valuation—Penalty—Estoppel. (1) If any company, or any of its officers or agents shall refuse or neglect to make any report required by law or by the department, or shall refuse to permit an inspection and examination of its records, books, accounts, papers or property requested by the department, or shall refuse or neglect to appear before the department in obedience to a subpoena, the department shall proceed, in such manner as it may deem best, to obtain facts and information upon which to base its valuation, assessment, and apportionment of such company.

(2) Willful failure to file with the department any report required by the department within the time fixed by law, including any extension granted by the department, shall constitute refusal or neglect to make a report, and the department may proceed in accordance with subsection (1) to value, assess, and apportion the property of such company as if no report had been made.

(3) **Penalty.** When the department has ascertained the value of the property of such company in accordance with subsections (1) or (2), it shall add to the value so ascertained twenty-five percent as a penalty.

(4) Where the department has proceeded in accordance with subsections (1) or (2), such company shall be estopped to question or impeach the valuation, assessment, or apportionment made by the department in any administrative or judicial proceeding thereafter.

[Order PT 75-2, § 458-50-060, filed 3/19/75.]

WAC 458-50-070 Annual assessment—Procedure. (1) **In general.** Annually between the fifteenth day of March and the first day of July the department shall proceed to list and value the operating property of each company subject to assessment by the department. The department shall prepare a report summarizing the information, factors and methods used in determining the tentative value of each such company (hereafter called "report of tentative value"). The department shall prepare an assessment roll upon which shall be placed after the name of each company a general description of the operating property of the company described in accordance with RCW 84.12.200(12), following which shall be entered the actual cash value as tentatively determined by the department.

(2) **Notice of tentative value.** On or before the thirtieth day of June, the department shall notify each company by mail of the tentative valuation entered upon such assessment roll. At the time of making such notification, the department shall also transmit to the company the report of tentative value prepared by the department. Upon written request of a county assessor the department shall also transmit the report of tentative value to such assessor.

(3) **Hearings.**

(a) *In general.* Each company may petition the department for a hearing relating to the value of its operating property as tentatively determined by the department and to the value of other taxable properties in the counties in which its operating property is situated. Such petition shall be made in writing and filed with the department within the first ten working days of July. The department shall appoint a time within ten working days following the hearing request time period for the conduct of such hearing, which may be held in such places throughout the state as the department may deem proper or necessary. Notice of the time and place of any or all hearings shall be given to any person upon request.

(b) The hearing shall be conducted by the director or by any employee or agent of the department designated by the director. A record of the proceedings shall be kept and shall be considered a public record. The hearing shall be recorded with a recording device and the recordings shall become a part of the record of the proceedings and considered a part of the public record. All records and documents presented at the hearing shall become a part of the record of the proceeding and shall be considered a part of the public record, except as provided in (c) of this subsection.

(c) The hearing shall be open to the public, except (i) when the company proposes to offer in evidence information relating to its assessment if disclosure of such information to other persons would violate the company's right to privacy or would result in an unfair competitive disadvantage to such company; or (ii) when the department proposes to offer in evidence information which has been obtained pursuant to RCW 84.12.240 if the disclosure of such information to other persons would violate the company's right to privacy or would result in an unfair competitive disadvantage to such company. The hearing at this point shall be closed to the public unless the company consents to the proceeding remaining open to the public.

(d) Testimony recorded, and all records and documents of a confidential nature introduced, during the period when the hearing is closed to the public shall become a part of the record, but shall not be disclosed except upon order of a court of competent jurisdiction or upon consent of the company.

(e) Records of the proceedings shall be maintained for a period of seven years following the close of the hearing.

(4) **Determination of final value.** On or before the twentieth day of August, the department shall make a final

determination of the true and correct actual cash value of each company's operating property appearing on the assessment roll. The department may raise or lower the value from that amount tentatively set pursuant to this section: Provided, That failure of a company to request a hearing shall not preclude the department from setting a final value higher or lower than that amount tentatively set pursuant to this section: Provided further, That where a company has not requested a hearing, the department shall not adopt a final value higher than that tentatively set except after giving five days written notice to the company. The department shall notify each company by mail of the final true and correct actual cash value as determined by the department.

[Statutory Authority: RCW 84.12.390. 06-05-034, § 458-50-070, filed 2/8/06, effective 3/11/06. Statutory Authority: RCW 84.12.340 and 84.12.390. 88-15-016 (Order PT 88-10), § 458-50-070, filed 7/11/88; Order PT 75-2, § 458-50-070, filed 3/19/75.]

WAC 458-50-080 True cash value—Criteria. (1) The true cash value of the operating property of public utilities is its "market value," i.e., the amount of money a buyer willing but not obligated to buy would pay for such operating property from a seller willing but not obligated to sell. In arriving at a determination of such value the department may consider only those factors which can within reason be said to affect the price in negotiations between a willing purchaser and a willing seller, and the department shall consider all such factors to the extent that reliable information is available to support a judgment as to the probable effect of such factors on price.

(2) In determining the true cash value of such operating property the department shall proceed in accordance with generally accepted principles applicable to the valuation of public utilities. The department may consider the cost approach, the income approach and the stock and debt approach to value. Any one of the three approaches to value, or all of them, or a combination of approaches may finally be used in making the final determination of true cash value, depending upon the circumstances.

(A) **The cost approach.** The cost approach determines the value of individual items of property. The types of cost include:

(i) Historical - cost when first put in service

(ii) Original - cost to present owner

(iii) Reproduction - cost today to produce in kind

(iv) Replacement - cost today to replace present property with a functional equivalent.

The department shall make adequate and reasonable allowances for depreciation, including functional and economic obsolescence where such factors are indicated, but in no event shall property be depreciated below salvage or scrap value.

(B) **Income approach.** The income approach determines the ability of operating property to earn a probable money income over some span of future years, discounted to a present value by means of an appropriate capitalization rate.

(i) **Future income stream.** The income to capitalize is the probable future average annual operating income to be derived from operating properties that exist on the assessment date. In making this estimate of probable future average annual operating income, the department may take into account past earnings, present earnings, the growth or shrinking of the property complex, demand for services provided by the company, and all other factors which can within reason be said to indicate the probable future income stream.

(ii) **Capitalization rate.** The capitalization rate may be derived by the comparative method, summation method, band of investment method, or other generally accepted method. Any one of these methods, or any combination thereof, may be used by the department in deriving the appropriate capitalization rate to be applied to probable future average annual operating income.

(C) **Stock and debt approach.** The stock and debt approach determines the value of a company's assets by appraising the value of the liabilities of the company, such as current liabilities, long term debt, reserves, deferred credits, and stockholder's equity. This approach is applicably [applicable] only where a "unitary" or "enterprise" value is sought. Appropriate deductions shall be made for nonoperating property of the enterprise where necessary.

[Order PT 75-2, § 458-50-080, filed 3/19/75.]

WAC 458-50-085 Computer software—Definitions—Valuation—Centrally assessed utilities. (1) This rule implements the provisions of chapter 29, Laws of 1991, ex. sess, regarding the property taxation of computer software for centrally assessed utilities.

(2) **Computer software.** Computer software is a set of directions or instructions that exist in the form of machine-readable or human-readable code, is recorded on physical or electronic medium and directs the operation of a computer system or other machinery and/or equipment. Computer software includes the associated documentation which describes the code and/or its use, operation, and maintenance and typically is delivered with the code to the user. Computer software does not include data bases, but does include the computer programs and code which are used to generate data bases. Computer software can be canned, custom, or a mixture of both.

(a) A data base is text, data, or other information that may be accessed or managed with the aid of computer software but that does not itself have the capacity to direct the operation of a computer system or other machinery and equipment; and, therefore does not constitute computer software.

(3) **Custom software.** Custom software is computer software that is specially designed for a single person's or a small group of persons' specific needs. Custom software includes modifications to canned software and can be developed in-house by the user, by outside developers, or by both.

(4) "Person" means any individual, receiver, administrator, executor, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, municipal corporation, political subdivision of the state of Washington, corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise and the United States or any instrumentality thereof.

(5) A "small group of persons" shall consist of less than four persons. A group of four or more persons shall be presumed not to be a small group of persons for the purposes of

this section unless each of the persons are affiliated through common control and ownership.

(a) "Persons affiliated through common control and ownership" means

(i) Corporations qualifying as controlled group of corporations in 26 USC § 1563; or

(ii) Partnerships or other persons in which at least 80% of the ownership in the persons claimed to be affiliated is the same.

(6) **Canned software.** Canned software, also referred to as prewritten, "shrink-wrapped" or standard software, is computer software that is designed for and distributed "as is" for multiple persons who can use it without modifying its code and which is not otherwise considered custom software.

(a) Computer software that is a combination of prewritten or standard components and components specially modified to meet the needs of a user is a mixture of canned and custom software. The standard or prewritten components are canned software and the modifications are custom software.

(b) Canned software that is "bundled" with or sold with computer hardware retains its identity as canned software and shall be valued as such. "Bundled" software is canned software that is sold with hardware and does not have a separately stated price, and can include operating systems such as DOS, UNIX, OS-2, or System 6.0 as well as other programs.

(c) An upgrade is canned software provided by the software developer, author, distributor, inventor, licensor or sublicensor to improve, enhance or correct the workings of previously purchased canned software.

(7) **Embedded software.** Embedded software is computer software that resides permanently on some internal memory device in a computer system or other machinery and equipment, that is not removable in the ordinary course of operation, and that is of a type necessary for the routine operation of the computer system or other machinery and equipment.

(a) Embedded software can be either canned or custom software which:

(i) Is an integral part of the computer system or machinery or other equipment in which it resides;

(ii) Is designed specifically to be included in or with the computer system or machinery or other equipment; and

(iii) In its absence, the computer system or machinery or other equipment is inoperable.

(b) "Not removable in the ordinary course of operation" means that the software is not readily accessible and is not intended to be removed without

(i) Terminating the computer system, machinery, or equipment's operation; or

(ii) Removal of a computer chip, circuit board, or other mechanical device, or similar item.

(c) "Necessary for the routine operation" means that the software is required for the machinery, equipment, or computer to be able to perform its intended function. In the case of machinery or other equipment, such embedded software does not have to be a physical part of the actual machinery or other equipment, but may be part of a separate control or management panel or cabinet.

(8) **Retained rights.** Retained rights are any and all rights, including intellectual property rights such as those rights arising from copyright, patent, and/or trade secret laws, that are owned or held under contract or license by a computer software developer, author, inventor, publisher or distributor, licensor or sublicensor.

(9) **Golden or master copy.** A golden or master copy of computer software is a copy of computer software from which a computer software developer, author, inventor, publisher or distributor makes copies for sale or license.

(10) **Acquisition cost.**

(a) The acquisition cost of computer software shall include the total consideration paid for the software, including money, credits, rights, or other property expressed in terms of money, actually paid or accrued. The term also includes freight and installation charges but does not include charges for modifying software, retail sales tax or training. No deduction from the acquisition cost of computer software shall be allowed for any retained rights held by the developer, author, inventor, publisher, or distributor.

(b) In cases where the acquisition cost of computer software cannot be specifically identified, it will be valued at the usual retail selling price of the same or substantially similar computer software.

(c) In cases where canned software is specially modified for the user, the canned component of the computer software retains its identity as canned software; and the modifications are considered custom software and not taxable.

(11) **Valuation of canned software.**

(a) In the first year in which it will be subject to assessment, canned software shall be listed and valued at one hundred percent of acquisition cost as defined in section (10)(a), above, regardless of whether the software has been expensed or capitalized on the accounting records of the business.

(b) In the second year in which it will be subject to assessment, canned software shall be listed at one hundred percent of acquisition cost and valued at fifty percent of its acquisition cost.

(c) After the second year in which canned software has been subject to assessment, it shall be valued at zero.

(d) Upgrades to canned software shall be listed and valued at the acquisition cost of the upgrade package under subsections (11)(a) and (b), above, and not at the value of what the complete software package would cost as a new item.

(12) **Valuation of customized canned software.** In the case where a person purchases canned software and subsequently has that canned software customized or modified in-house, by outside developers, or both, only the canned portion of such computer software shall be taxable and it shall be valued as described in subsection (11).

(13) **Valuation of embedded software.** Because embedded software is part of the computer system, machinery, or other equipment, it has no separate acquisition cost and shall not be separately valued apart from the computer system, machinery, or other equipment in which it is housed.

(14) **Taxable person.** Canned software is taxable to the person having the right to use the software, including a licensee.

(15) **Situs.** Canned and custom software with situs in Washington means software physically located in Washington or installed in or on machinery, equipment, or computer systems physically located in Washington on the assessment date.

(16) **Reporting.** Each utility/taxpayer defined in chapters 84.12 and 84.16 RCW shall report to the department, using the Annual Report tax form provided by the department, the following information regarding its software with situs in Washington in use on the assessment date:

(a) The acquisition cost of expensed canned computer software which was purchased:

(i) In the year preceding the assessment date; and

(ii) In the second year prior to the assessment date; and

(iii) In the years prior to the second year preceding the assessment date.

(b) The historic cost less depreciation of capitalized canned computer software which was purchased:

(i) In the year preceding the assessment date;

(ii) In the second year prior to the assessment date;

(iii) In the years prior to the second year preceding the assessment date;

(c) The acquisition cost of expensed custom computer software which was purchased:

(i) In the year preceding the assessment date;

(ii) In the second year prior to the assessment date;

(iii) In the years prior to the second year preceding the assessment date;

(d) The historic cost less depreciation of capitalized custom computer software.

(17) **Calculation of computer software value.** The following formulas shall be used for determining the percent taxable calculation of computer software used by centrally assessed utilities.

(a) For the purpose of determining the numerator of the percent taxable calculation, the historic cost less depreciation of all taxable Washington property shall be computed by adjusting the historic cost less depreciation of property capitalized in the company's records as follows:

(i) Add the acquisition cost of expensed canned software acquired in the year preceding the assessment date; and

(ii) Add 50% of the acquisition cost of expensed canned software acquired in the second year preceding the assessment date; and

(iii) Subtract 50% of the historic cost less depreciation of capitalized canned software acquired in the second year preceding the assessment date; and

(iv) Subtract the historic cost less depreciation of capitalized canned software acquired in years prior to the second year preceding the assessment date; and

(v) Subtract the historic cost less depreciation of capitalized custom software.

(b) For the purpose of determining the denominator of the percent taxable calculation, the historic cost less depreciation of all Washington property shall be computed by adding the acquisition cost of expensed canned and custom software in use on the assessment date to the historic cost less depreciation of Washington property capitalized in the company's records.

(c) The historic cost less depreciation of all taxable Washington property (calculated as set forth in subsection (a) above) shall be divided by the historic cost less depreciation of all Washington property (calculated as set forth in subsection (b) above) to arrive at the percent taxable calculation.

(d) The portion of the unit value allocated to Washington state shall be multiplied by the percent taxable calculated as set forth in subsection (c) above to determine the Washington taxable property value.

(18) **Exemptions.**

(a) All custom software, except embedded software, shall be exempt from property taxation;

(b) Retained rights of the computer software developer, author, inventor, publisher, distributor, licensor or sublicensor are exempt from property taxation;

(c) Modifications to canned software shall be exempt from property taxation as custom software; however, the underlying canned software shall retain its identity as canned software and shall be valued as prescribed in subsection (11) of this rule;

(d) Master or golden copies of computer software are exempt from property taxation;

(e) The taxpayer is responsible for maintaining and providing records sufficient to support any claim of exemption for either canned or custom software.

[Statutory Authority: RCW 84.08.010 and 1991 c 29. 92-01-132, § 458-50-085, filed 12/19/91, effective 1/19/92.]

WAC 458-50-090 Methods of valuation. The department shall use either the summation method or "unitary" or "enterprise" method in valuing the operating property of companies. As a general rule, the unitary or enterprise method is preferred where valuing a thoroughly integrated group of properties such that removal or destruction of any one property would jeopardize and/or immobilize the entire operation of the company. The summation method is preferred where adequate information is not available to derive reliable indicators of unitary or enterprise value, and the nature of the operating property is such that it may be segregated into component parts and the value of the parts readily determined. Notwithstanding the provisions of WAC 458-50-080, the department may, in using the summation method, employ the comparable sales or "market" approach to value to the exclusion of any other approach.

[Order PT 75-2, § 458-50-090, filed 3/19/75.]

WAC 458-50-100 Apportionment of operating property to the various counties and taxing districts. In general. The department shall apportion the value of all public utility companies to the various counties in such a manner as will reasonably reflect the true cash value of the operating property located within each county and taxing district. Since it is impossible to determine with mathematical precision the precise value of each item of property located within each county and taxing district, the department shall apportion the value of operating property on the following basis:

(1) **Railroad companies -** The ratio that mileage of track, as classified by the department, situated within each county and taxing district bears to the total mileage of track within the state as of January 1 of the assessment year. In the event there exists operating property of railroad companies in counties or taxing districts not having track mileage, the department shall situs such property and apportion value directly on the basis of cost as determined in accordance with the cost approach set forth in WAC 458-50-080(A).

(2) **Pipeline companies -** The ratio that inch-equivalent of miles of pipeline situated within each county or taxing dis-

trict bears to the total inch-equivalent of miles of pipeline within the state as of January 1 of the assessment year. In the event there exists operating property of pipeline companies in counties or taxing districts not having pipeline mileage, the department shall situs such property and apportion value to such county or taxing district directly on the basis of cost as determined in accordance with the cost approach set forth in WAC 458-50-080(A).

(3) **Telegraph companies -** The ratio that the cost (historical or original) of operating property situated within each county and taxing district bears to the cost (historical or original) of all operating property within the state as of January 1 of the assessment year.

(4) **Telephone companies -** The ratio that the cost (historical or original) of operating property situated within each county or taxing district bears to the total cost (historical or original) of all operating property within the state as of January 1 of the assessment year.

(5) **Electric light and power companies -** The ratio that cost (historical or original) of operating property situated within each county and taxing district bears to the total cost (historical or original) of all operating property within the state as of January 1 of the assessment year.

(6) **Gas companies -** The ratio that cost (historical or original) of operating property situated within each county and taxing district bears to the total cost (historical or original) of all operating property within the state as of January 1 of the assessment year: Provided, The value of pipeline shall be allocated on the basis of the ratio that inch-equivalent of miles of pipeline situated within each county or taxing district bears to the total inch-equivalent of miles of pipeline within the state as of January 1 of the assessment year.

(7) **Airplane companies -** The ratio that cost (historical or original) of operating property situated within each county and taxing district bears to the total cost (historical or original) of operating property within the state as of January 1 of the assessment year: Provided, That the value of aircraft shall be apportioned on the basis of the ratio that landings and take-offs of such aircraft within each county and taxing district bears to the total landings and take-offs within the state during the previous calendar year.

[Statutory Authority: RCW 84.12.390. 06-05-034, § 458-50-100, filed 2/8/06, effective 3/11/06; 88-02-009 (Order PT 87-9), § 458-50-100, filed 12/28/87; Order PT 75-2, § 458-50-100, filed 3/19/75.]

WAC 458-50-110 Apportionment reports. (1) On or before April 15 of each year the department shall furnish taxing district maps and report forms (hereinafter referred to as "apportionment reports") to each railroad, pipeline, telegraph, telephone, electric light and power, and gas company.

(2) Each company furnished an apportionment report shall complete and submit such report to the department on or before June 1 of the assessment year. Since all apportionment reports must be in the department's hands by June 1 in order to permit adequate opportunity to properly apportion operating property in accordance with WAC 458-50-100, an extension of time for filing such reports will be granted only upon a showing of undue hardship.

[Order PT 75-2, § 458-50-110, filed 3/19/75.]

WAC 458-50-120 Notification of real estate transfers. Each company shall notify the department of any transfer of title, use or occupancy of operating property consisting of real property, whether such transfer is to or from such company. Such notification shall contain the legal description of the property, date of transfer, and name and address of transferor and transferee. For purposes of this rule, it shall be sufficient to transmit a copy of the deed, real estate contract, or lease (as the case may be) to the department. Such notification shall be made within ninety days of the effective date of such transfer.

[Order PT 75-2, § 458-50-120, filed 3/19/75.]

WAC 458-50-130 Taxing district boundary changes—Estoppel. (1) In accordance with RCW 84.09.030 and WAC 458-12-140, the county assessor is required on or before March 1 to transmit certain documents and maps setting forth taxing district boundary changes to the department of revenue, property tax division.

(2) The department shall prepare taxing district maps based upon information submitted to it on or before March 1. Such maps shall be used to fix taxing district boundaries for purposes of apportioning the operating property of each company among the various counties and taxing districts. Any county or taxing district not having submitted the documents and maps as required by WAC 458-12-140 shall be estopped from questioning the validity of any apportionment of value to it as determined by the department to the extent that such challenge is based upon taxing district boundaries different than as shown on the department's maps.

[Order PT 75-2, § 458-50-130, filed 3/19/75.]

WAC 458-50-150 Intangible personal property exemption—Introduction. (1) **Goal of these rules relative to exemption of intangible personal property.** Although the Washington Constitution allows for property taxation of all property subject to ownership, "whether tangible or intangible," the legislature has exempted some intangible property from property taxation for many years. In 1997, the legislature expanded the property tax exemption for intangible personal property and provided examples of exempt property. The following rules are intended to provide additional clarification of the statute and provide guidelines to be used by assessing officials in determining the taxable value of property. The goal is to ensure, in as fair and equitable a manner as possible, that all taxable property is assessed and all nontaxable property is not assessed.

(2) **Application of these rules.** These rules primarily implement RCW 84.36.070, which establishes a property tax exemption for intangible personal property, but also apply to chapters 84.12 and 84.16 RCW, the statutory chapters dealing with the assessment of public utility, and private car company property, respectively, by the state, and to chapter 84.40 RCW, which deals with assessment of property by the county assessor.

[Statutory Authority: RCW 84.08.010, 84.08.070, and 84.36.865. 06-24-043, § 458-50-150, filed 11/30/06, effective 12/31/06.]

WAC 458-50-160 Exempt intangible property distinguished from other intangibles. (1) **Distinction between property, and characteristics or attributes of property.** The statute (RCW 84.36.070) draws a distinction between intangible personal property and the characteristics or attributes of property, both real and personal. Intangible personal property is exempt from property taxation. However, some characteristics or attributes of property, even though intangible, may be considered in establishing the taxable value of tangible property.

(2) **What intangible personal property is exempt?** The listings of examples of intangible personal property contained in RCW 84.36.070(2) must be consulted, but those listings can be summarized as follows:

(a) Financial intangible property, such as moneys, credits, and publicly issued bonds and warrants, and the bonds, stocks, or shares of private corporations;

(b) Private personal service contracts and athletic or sports franchises, or sports agreements that do not pertain to the use or possession or any interest in tangible personal or real property; and

(c) Miscellaneous types of intangible personal property, such as trademarks, trade names, brand names, patents, copyrights, trade secrets, franchise agreements, licenses, permits, core deposits of financial institutions, noncompete agreements, customer lists, patient lists, favorable contracts, favorable financing agreements, reputation, exceptional management, prestige, good name, integrity of a business, and other similar types of intangible personal property.

(3) **Identifying exempt intangible personal property.** Intangible property is only exempt if it is personal property capable of being individually owned, used, transferred, or held separately from other property. The market value of separate items of intangible personal property should not be identified or characterized solely using residual accounting methods, or other indirect techniques, such as isolating "excess earnings," from a total business valuation. Market value of exempt intangible personal property should be verifiable, to the extent possible, in an openly traded market where the value of comparable intangible properties can be observed and considered. Intangible assets that are separately identified and valued in reports filed with any state or federal regulatory agency, may be considered when identifying and valuing intangible personal property of the types listed in subsection (2)(c) of this section.

(4) **What intangible characteristics, attributes or other factors affect value and may be considered?** Nonproperty intangible characteristics or attributes are elements or components of value associated with a real or tangible asset. These characteristics or attributes are "intangible" but they are not "property" and therefore are not tax exempt intangible personal property. They are contingent and dependent upon other property and cannot be owned, used, transferred, or held separately from other property. To the extent that these characteristics, attributes, or other factors contribute to, or affect, the value of property, they must be appropriately considered when determining taxable value. They include the following types:

(a) Zoning, location, view, geographic features, easements, covenants, proximity to raw materials, condition of surrounding property, proximity to markets, or the availability of a skilled work force;

(b) Grants of licenses, permits, and franchises by a government agency that affect the use of the property being valued; and

(c) Other characteristics of property, such as scarcity, uniqueness, adaptability, or utility as an integrated unit.

[Statutory Authority: RCW 84.08.010, 84.08.070, and 84.36.865. 06-24-043, § 458-50-160, filed 11/30/06, effective 12/31/06.]

WAC 458-50-170 Valuation principles. (1) **What is meant by "true and fair value"?** One hundred percent of true and fair value is the standard used by assessing officials for valuing both taxable property and exempt property. True and fair value is the same as market value or fair market value. It is the amount of money a buyer of property willing but not obligated to buy would pay a seller of property willing but not obligated to sell, taking into consideration all uses to which the property is adapted and might in reason be applied. This term incorporates all the rights and benefits, present and future, associated with the ownership of property.

(2) **Approaches to value.** All three traditional and generally accepted approaches to value may be used by assessing officials. These approaches are cost, including the actual cost new or historical cost less depreciation, the cost of reproduction new less any depreciation, the cost of replacement new less any depreciation; income, including the past, present, and prospective gross and net earnings of the whole system as a unit; and comparable sales (commonly called "market"), including, but not limited to, a technique known as the stock and debt method that considers the par value, actual value and market value of the company's outstanding stocks and bonds during one or more preceding years.

(3) **Generally accepted appraisal practices.** "Generally accepted appraisal practices" are the appropriate application in the valuation of real, and tangible and intangible personal property, of accepted standards of professional appraisal practice as described in the Uniform Standards of Professional Appraisal Practice issued by the Appraisal Standards Board of the Appraisal Foundation or the accepted standards of other nationally recognized professional appraisal organizations.

[Statutory Authority: RCW 84.08.010, 84.08.070, and 84.36.865. 06-24-043, § 458-50-170, filed 11/30/06, effective 12/31/06.]

WAC 458-50-180 Appraisal practices relating to valuing intangible personal property. (1) **Unit valuation.** Unit valuation is a method of determining the market value of a company, business, or property as a whole without reference to individual parts or components. For example, a railroad company may have many miles of track, or a pipeline company may have many miles of pipe, but if the track or the pipe is not connected in a useful and interdependent way to the rest of the company's system as a whole, the track or the pipe have considerably less value. However, when all the interdependent assets of a company are working together and functioning synergistically as a unit, the value of the company as a whole is independent of the value of the component parts. Similarly, the roof or the walls of a house may have value independently of the structure as a whole, but the market value of the house, for purposes of taxation, is determined as a unit. Market value is the value of the unit as a whole, not a summation of fractional appraisals of the component parts. The unit value may have enhanced taxable value above, taxable value equal to, or taxable value lower than what the sum of the value of the component parts may indicate. The department is specifically authorized to take into consideration, among other things, "the value of the whole system as a unit," when valuing companies with operating property in more than one county or more than one state. (RCW 84.12.300; *see also* RCW 84.16.050.)

(2) **Situs, allocation, and apportionment.** Property taxes may only be levied upon property having situs in this state, in other words, upon property located in this state. The process of dividing up the unit value of a company among the states where it has a presence is called allocation. The process of dividing up the allocated state value among the taxing jurisdictions within a state is called apportionment. Once the taxable value, meaning the total value of a company's operating property in this state less the exempt value, has been determined, the taxable value is apportioned as required by law.

(3) **Valuation of exempt intangible personal property.** Assessing officials may use one of two methods, as appropriate, to determine the value of intangible personal property that is exempted from a company's unit value. The first method is the method by which the true and fair value of the exempt intangible personal property is deducted from the true and fair value of the operating property at the system level to arrive at taxable value at the system or entity level. The second method is the method by which the true and fair value of exempt intangible personal property is excluded from the value of the operating property at the system level by using a valuation model that approximates the value of the nonexempt assets only. These two methods are explained in more detail as follows.

(a) The first method is a two-step process that involves valuing the entire company operation, the unit, as the first step, using any or a combination of the three traditional approaches to value. Then the exempt property is separately identified, valued, and deducted from the unit value. In valuing the exempt property, assessing officials use generally accepted appraisal practices, including sales of similar intangible personal property, capitalization rates obtained through those sales, or by identifying cash flows attributable to each intangible personal property asset. When using this method, the value resulting from deducting the exempt value of intangible personal property from the entire company value, is the taxable value at the system or entity level. From that value, the proper value must then be allocated to this state and apportioned to the local taxing jurisdictions by law.

(b) The second method involves an appraisal process using an appraisal model that intrinsically approximates the exclusion of exempt intangible value. This process assumes the existence of intangible personal property in the overall value of the company being valued, but does not specifically identify or value individual intangible personal property assets. Although the model may not actually exclude the value of exempt intangible personal property, it simulates the effect of exempting intangible personal property by producing a lower assessed value equivalent to the exclusion of exempt intangible property.

(4) **Unit value at the county level.** When a business operates in more than one location within a county, but is physically, economically, and functionally integrated, it may also be valued by the assessor as a unit. However, properties that share a name, for example, but are independently operated, such as bank branches, retail outlets, radio stations, or hotels or motels that are part of a chain, should generally be valued as stand-alone enterprises, and not as physically, economically, and functionally integrated units. An assessor should consider the unit being assessed to be the same unit a typical purchaser would consider in an openly traded market. If the property being assessed would typically be purchased as a stand-alone and independent operation without reference to a larger entity, then that is how it should be assessed. If the property being assessed would typically be included in the purchase of a larger entity, then the assessor should consider the influence on value that being included within the larger unit would have on the property being assessed.

[Statutory Authority: RCW 84.08.010, 84.08.070, and 84.36.865. 06-24-043, § 458-50-180, filed 11/30/06, effective 12/31/06.]

WAC 458-50-190 Valuation of particular assets. (1) **Computer software.** Computer software is generally exempt from property taxation. The exemption is specifically dealt with in RCW 84.36.600 (exemption), RCW 84.04.150 (definitions), and WAC 458-12-251. Computer software and embedded software is valued in accordance with RCW 84.40.037. RCW 84.36.070 and these rules (WAC 458-50-150 through 458-50-190) do not apply to computer software, and nothing in that statute or these rules may be construed to amend or modify that existing statute and the rule dealing with the property tax treatment of computer software.

(2) In valuing low income or other housing which qualifies for federal income tax credits, those tax credits are exempt from property taxation to the extent that they are transferable separate and apart from any interest in the housing property.

[Statutory Authority: RCW 84.08.010, 84.08.070, and 84.36.865. 06-24-043, § 458-50-190, filed 11/30/06, effective 12/31/06.]

Chapter 458-53 WAC

PROPERTY TAX ANNUAL RATIO STUDY

WAC

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

458-53-040	Land Use Code—Ratio study. [Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-040, filed 10/11/79.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-051	Ratio determination by land use class. [Statutory Authority: RCW 84.48.075. 86-21-004 (Order PT 86-6), § 458-53-051, filed 10/2/86; 83-16-050 (Order PT 83-2), § 458-53-051, filed 8/1/83.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-060	Stratification—Personal property. [Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-060, filed 10/11/79. Formerly WAC 458-52-050.] Repealed by 84-14-039 (Order PT 84-2), filed 6/29/84. Statutory Authority: RCW 84.48.075.
458-53-090	Department generated sales studies. [Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-090, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075. 84-14-039 (Order PT 84-2), § 458-53-090, filed 6/29/84; 83-16-050 (Order PT 83-2), § 458-53-090, filed 8/1/83; 79-11-029 (Order PT 79-3), § 458-53-090, filed 10/11/79.] Repealed by 02-14-031, filed 6/24/02, effective 7/25/02. Statutory Authority: RCW 84.08.010, 84.08.070, and 84.48.075.
458-53-110	Property values used in the ratio study. [Statutory Authority: RCW 84.48.075 and 84.08.010(2). 89-09-021 (Order PT 89-5), § 458-53-110, filed 4/12/89. Statutory Authority: RCW 84.48.075. 87-12-029 (Order PT 87-5), § 458-53-110, filed 5/29/87; 86-21-004 (Order PT 86-6), § 458-53-110, filed 10/2/86; 84-14-039 (Order PT 84-2), § 458-53-110, filed 6/29/84; 81-22-036 (Order PT 81-15), § 458-53-110, filed 10/30/81; 79-11-029 (Order PT 79-3), § 458-53-110, filed 10/11/79.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-120	Review procedures for county studies. [Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-120, filed 10/11/79.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-141	Personal property audit selection. [Statutory Authority: RCW 84.48.075. 87-12-029 (Order PT 87-5), § 458-53-141, filed 5/29/87; 84-14-039 (Order PT 84-2), § 458-53-141, filed 6/29/84; 81-22-036 (Order PT 81-15), § 458-53-141, filed 10/30/81.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-142	Personal property audit studies—Date of valuation. [Statutory Authority: RCW 84.08.010 and 84.08.070. 91-01-008, § 458-53-142, filed 12/6/90, effective 1/6/91. Statutory Authority: RCW 84.48.075. 82-24-031 (Order PT 82-9), § 458-53-142, filed 11/23/82.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-150	Indicated real property ratio—Computation. [Statutory Authority: RCW 84.08.010 and 84.08.070. 91-01-008, § 458-53-150, filed 12/6/90, effective 1/6/91. Statutory Authority: RCW 84.48.075 and 84.08.010(2). 89-09-021 (Order PT 89-5), § 458-53-150, filed 4/12/89. Statutory Authority: RCW 84.48.075. 86-21-004 (Order PT 86-6), § 458-53-150, filed 10/2/86; 84-14-039 (Order PT 84-2), § 458-53-150, filed 6/29/84; 82-08-061 (Order PT 82-3), § 458-53-150, filed 4/6/82; 81-04-056 (Order PT 81-5), § 458-53-150, filed 2/4/81; 79-11-029 (Order PT 79-3), § 458-53-150, filed 10/11/79. Formerly WAC 458-52-090.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-163	Mobile homes—Use in study. [Statutory Authority: RCW 84.48.075 and 84.08.010(2). 89-09-021 (Order PT 89-5), § 458-53-163, filed 4/12/89. Statutory Authority: RCW 84.48.075. 87-12-029 (Order PT 87-5), § 458-53-163, filed 5/29/87; 84-14-039 (Order PT 84-2), § 458-53-163, filed 6/29/84.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-165	Property not properly valued—Use in study. [Statutory Authority: RCW 84.48.075. 84-14-039 (Order PT 84-2), § 458-53-165, filed 6/29/84; 83-16-050 (Order PT 83-2), § 458-53-165, filed 8/1/83.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-170	Final indicated ratio—Computation. [Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-170, filed 10/11/79. Formerly WAC 458-52-110.] Repealed by 84-14-039 (Order PT 84-2), filed 6/29/84. Statutory Authority: RCW 84.48.075.
458-53-180	Use of indicated ratios. [Statutory Authority: RCW 84.48.075. 84-14-039 (Order PT 84-2), § 458-53-180, filed 6/29/84; 79-11-029 (Order PT 79-3), § 458-53-180, filed 10/11/79. Formerly WAC 458-52-120.] Repealed by 96-05-002, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075.
458-53-190	County assessor's review. [Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-190, filed 10/11/79. Formerly WAC 458-52-130.] Repealed by 84-14-039 (Order PT 84-2), filed 6/29/84. Statutory Authority: RCW 84.48.075.

WAC 458-53-010 Declaration of purpose. This chapter is promulgated by the department of revenue in compliance with RCW 84.48.075 to describe procedures for determination of indicated ratios of real and personal property for each county, so as to accomplish the equalization of property values required by RCW 84.12.350, 84.16.110, 84.48.080 and 84.52.065. The procedures in this chapter describing the department's annual ratio study are designed to ensure uniformity and equity in property taxation throughout the state to the maximum extent possible.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-010, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-010, filed 10/11/79. Formerly WAC 458-52-010.]

WAC 458-53-020 Definitions. Unless the context clearly requires otherwise, the following definitions apply throughout this chapter:

(1) "Account" means a listing of personal property as shown on the county assessment record.

(2) "Advisory value" means a valuation determination by the department, made at the request of a county assessor.

(3) "Appraisal" means the determination of the market value of real property, or for real property classified under chapter 84.34 RCW, the determination of the current use value.

(4) "Assessed value" means the value of real or personal property determined by an assessor.

(5) "Audit" means the determination of the market value of personal property.

(6) "Average assessed value" is the total assessed value of a sample group of real or personal property divided by the number of properties in the sample group.

(7) "Average personal property market value" is the total value of a sample group as determined from personal property audits divided by the number of audits in the sample group.

(8) "Average real property market value" is the total sales price, less one percent, of a sample group of real property divided by the number of properties in the sample group, or the total appraised value of a sample group of real property divided by the number of appraisals in the same group.

(9) "Department" means the department of revenue.

(10) "Land Use Code" means the identification of each real property parcel by numerical digits as representations of

the major use of the property. The Land Use Code is derived from the Standard Land Use Coding Manual as prepared by the Federal Bureau of Public Roads and includes use classifications specified by state law.

(11) "Market value" means the amount of money a buyer of property willing but not obligated to buy would pay a seller of property willing but not obligated to sell, taking into consideration all uses to which the property is adapted and might in reason be applied. True and fair value is the same as market value or fair market value.

(12) "Personal property" means all taxable personal property required by law to be reported by a taxpayer.

(13) "Ratio" is the percentage relationship of the assessed value of real or personal property to the market value of real or personal property.

(14) "Ratio study" is the department's annual comparison of the relationship between the county assessed values of real and personal property with the market value of that property as determined by the department's analysis of sales, appraisals, and/or audits or the comparison of the relationship between the county assessed values of real property classified under chapter 84.34 RCW (current use) with the current use value of that property as determined by the department.

(15) "Real property" means all parcels of taxable real property as shown on the county assessment record.

(16) "Sales study" is the comparison of the assessed value of real property with the selling price of the same property.

(17) "Strata" refer to classes of property grouped by assessed value and/or use categories.

(18) "Stratification" means the grouping of the real or personal property assessment records into specific assessed value and/or use categories for ratio sampling and calculation purposes.

(19) "Stratum" refers to a grouping of property with a given range of assessed values and/or having the same use category.

(20) "Valid sale(s)" means a sale of real property that occurs between August 1 preceding January of the current assessment year and March 31 of the current assessment year, and the transfer document is a warranty deed or real estate contract, and the sale is not a type listed in WAC 458-53-080(2).

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-020, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075 and 84.08.010(2). 89-09-021 (Order PT 89-5), § 458-53-020, filed 4/12/89. Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-020, filed 10/11/79. Formerly WAC 458-52-020.]

WAC 458-53-030 Stratification of assessment rolls—Real property. (1) **Introduction.** This rule explains the stratification process for real property. The stratification process is the grouping of real property within each county into homogeneous classifications based upon certain criteria in order to obtain representative samples. Stratification is used in determining the number of appraisals to be included in the ratio study and also for ratio calculation. The county's most current certified assessment rolls are used for stratification. Counties must stratify rolls using a land use code stratification system as prescribed by the department. (See RCW 36.21.100.)

(2) **Stratification—Parcel count and total value—Exclusions.** The stratification of the real property assessment rolls must include a parcel count and a total value of the taxable real property parcels in each stratum, excluding the following:

(a) Designated forest lands.(See chapter 84.33 RCW);

(b) Timberland classified under chapter 84.34 RCW. (See RCW 84.34.060);

(c) Current use properties in those counties where a separate study is conducted pursuant to WAC 458-53-095(3);

(d) State assessed properties; and

(e) State-owned game lands as defined in RCW 77.12.-203(2).

(3) **Stratification—By county.** For the real property ratio study, the assessment roll must be stratified for individual counties according to land use categories and substratified by value classes as determined by the department. Stratification will be reviewed at least every other year by the department to determine if changes need to be made to improve sampling criteria. After the strata have been determined, the department will notify the counties of the strata limits, and each county must provide the department with the following, taken from the county's assessment rolls:

(a) A representative number of samples, as determined by the department, in each stratum, together with:

(i) The name and address of the taxpayer for each sample;

(ii) The land use code for each sample;

(iii) The assessed value for each sample; and

(iv) The actual number of samples;

(b) The total number of real property parcels in each stratum; and

(c) The total assessed value in each stratum.

(4) **Counties to provide information timely.** The stratification information described in subsection (3) of this rule must be provided by the counties to the department in a timely manner to enable the department to certify the preliminary ratios in accordance with WAC 458-53-200(1). Failure to provide the information in a timely manner will result in the department using its best estimate of stratum values to calculate the real property ratio.

(5) **Standard two-digit land use code.** The following two-digit land use code will be used as the standard to identify the actual use of the land. Counties may elect to use a more detailed land use code system using additional digits, however, no county land use code system may use fewer than the standard two digits.

RESIDENTIAL	
11	Household, single family units
12	Household, 2-4 units
13	Household, multiunits (5 or more)
14	Residential condominiums
15	Mobile home parks or courts
16	Hotels/motels
17	Institutional lodging
18	All other residential not elsewhere coded
19	Vacation and cabin
MANUFACTURING	
21	Food and kindred products
22	Textile mill products

23 Apparel and other finished products made from fabrics, leather, and similar materials
24 Lumber and wood products (except furniture)
25 Furniture and fixtures
26 Paper and allied products
27 Printing and publishing
28 Chemicals
29 Petroleum refining and related industries
30 Rubber and miscellaneous plastic products
31 Leather and leather products
32 Stone, clay and glass products
33 Primary metal industries
34 Fabricated metal products
35 Professional scientific, and controlling instruments; photographic and optical goods; watches and clocks-manufacturing
36 Not presently assigned
37 Not presently assigned
38 Not presently assigned
39 Miscellaneous manufacturing

TRANSPORTATION, COMMUNICATION, AND UTILITIES

41 Railroad/transit transportation
42 Motor vehicle transportation
43 Aircraft transportation
44 Marine craft transportation
45 Highway and street right of way
46 Automobile parking
47 Communication
48 Utilities
49 Other transportation, communication, and utilities not classified elsewhere

TRADE

50 Condominiums - other than residential condominiums
51 Wholesale trade
52 Retail trade - building materials, hardware, and farm equipment
53 Retail trade - general merchandise
54 Retail trade - food
55 Retail trade - automotive, marine craft, aircraft, and accessories
56 Retail trade - apparel and accessories
57 Retail trade - furniture, home furnishings and equipment
58 Retail trade - eating and drinking
59 Other retail trade

SERVICES

61 Finance, insurance, and real estate services
62 Personal services
63 Business services
64 Repair services
65 Professional services
66 Contract construction services
67 Governmental services
68 Educational services
69 Miscellaneous services

CULTURAL, ENTERTAINMENT AND RECREATIONAL

71 Cultural activities and nature exhibitions
72 Public assembly
73 Amusements
74 Recreational activities
75 Resorts and group camps
76 Parks
77 Not presently assigned
78 Not presently assigned
79 Other cultural, entertainment, and recreational

RESOURCE PRODUCTION AND EXTRACTION

81 Agriculture (not classified under current use law)
82 Agriculture related activities
83 Agriculture classified under current use chapter 84.34 RCW
84 Fishing activities and related services
85 Mining activities and related services
86 Not presently assigned
87 Not presently assigned
88 Designated forest land under chapter 84.33 RCW
89 Other resource production

UNDEVELOPED LAND AND WATER AREAS

91 Undeveloped land
92 Noncommercial forest
93 Water areas
94 Open space land classified under chapter 84.34 RCW
95 Timberland classified under chapter 84.34 RCW
96 Not presently assigned
97 Not presently assigned

WAC 458-53-050 Land use stratification, sales summary and abstract report. Stratification of the assessment rolls, the annual sales summary, and the abstract report to the department for real property will be based on the following abstract categories:

	Abstract Category	Land Use Code
1.	Single family residence	11, 14, 18, 19
2.	Multiple family residence	12, 13
3.	Manufacturing	21 through 39
4.	Commercial	15, 16, 17, 41-49, 50-59, 61-69, 71-79
5.	Agricultural	81
6.	Agricultural (current use law)	83
7.	Forest lands (chapter 84.33 RCW)	88
8.	Open space (current use law)	94
9.	Timberland (current use law)	95
10.	Other	82, 84, 85, 89, 91,92, 93, 96-99

[Statutory Authority: RCW 84.08.010, 84.08.070, and 84.48.075. 02-14-031, § 458-53-050, filed 6/24/02, effective 7/25/02; 96-05-002, § 458-53-050, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075. 79-11-029 (Order PT 79-3), § 458-53-050, filed 10/11/79. Formerly WAC 458-52-040.]

WAC 458-53-070 Real property sales studies. (1) **Sales study data.** The basis of the real property ratio study is data obtained from real estate excise tax affidavits from each county. The department will supplement the sales study with appraisals when it is determined that the sales are insufficient to represent the level of assessment. The appraisals will be selected according to criteria set forth in WAC 458-53-130.

(2) **Time period for data used.** The sales study will only use sales occurring in the eight-month period between August 1 preceding January of the current assessment year and March 31 of the current assessment year.

(3) **Deduction from sale price.** One percent will be deducted from the sale price shown on all valid real estate excise tax affidavits as an adjustment for values transferred that are not assessable as real property.

(4) **Sales not included in the study—Assessment rolls using other than market value—New construction.** Individual sales that show a sale price to assessed value ratio of under twenty-five percent, or over one hundred seventy-five percent shall be excluded from consideration in the study. However, if the number of individual sales meeting either one of these criteria exceeds five percent of the total number of valid sales for a county, then these sales shall be considered in the study.

(a) The exclusion of valid sales in accordance with this subsection shall not apply in situations where other than market value of a particular type of property is being listed on the assessment rolls of the county, as disclosed in any examination by the department. If other than market value is being listed on the assessment rolls for a particular type of real or personal property and, after notification by the department, is not corrected, the department shall adjust the ratio of that type of property, which adjustment shall be used in determining the county's indicated personal or real property ratio. When a particular type of property is found to be at other than market value, that type of property shall be separated from the other properties in the computation of the ratio. The department shall compile the total assessed value and total market value for that type of property, and it shall be included in the ratio as provided in WAC 458-53-135(3) and 458-53-160(3).

(b) The exclusion of valid sales in accordance with this subsection shall not apply to sales of property on which there is new construction value that has not yet been placed on the county assessment roll.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-070, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075 and 84.08.010(2). 89-09-021 (Order PT 89-5), § 458-53-070, filed 4/12/89. Statutory Authority: RCW 84.48.075. 83-16-050 (Order PT 83-2), § 458-53-070, filed 8/1/83; 82-08-061 (Order PT 82-3), § 458-53-070, filed 4/6/82; 79-11-029 (Order PT 79-3), § 458-53-070, filed 10/11/79. Formerly WAC 458-52-060.]

WAC 458-53-080 Real property sales sample selection. (1) **Sales included.** Except as provided in subsection (2) of this section, the sales study shall consider all transactions involving a warranty deed or a real estate contract that occurred during the eight-month period described in WAC 458-53-070(2). Sales of mobile homes shall also be included in the real property ratio study when the mobile home meets the definition of real property as defined in RCW 84.04.090. In the case of a county generated sales study (see WAC 458-53-100), the county may use a representative sample of all such transactions with the prior written approval of the department.

(2) **Sales excluded.** Sales or transfers of real property involving instruments other than a warranty deed or real estate contract shall not be considered in the sales study. The following types of sales transactions are examples of sales to be excluded from the sales study, regardless of the type of sale instrument used. Differences from the numerical coding designations set forth in this example may be used by individual counties with prior approval from the department.

NUMERICAL CODE	TYPE OF TRANSACTION
1	Family - a sale between relatives.
2	Transfers within a corporation by its affiliates or subsidiaries.
3	Administrator, guardian or executor of an estate.
4	Receiver or trustee in bankruptcy or equity.
5	Sheriff or bailee.
6	Tax deed.
7	Properties exempt from taxation (nonprofit, government, etc.).
8	Individual sales with assessment-to-sales ratios of less than twenty-five percent or greater than one hundred seventy-five percent except as provided in WAC 458-53-070.
9	Quitclaim deed.
10	Gift deed; love and affection deed.
11	Seller's or purchaser's assignment of contract or deed - transfer of interest.
12	Correction deed.
13	Trade - exchange of property between same parties.
14	Deeds involving partial interest in property, such as one-third or one-half interest. (If transfer involves total interest i.e., one hundred percent of the property, sale is valid.)
15	Forced sales - transfers in lieu of imminent foreclosure, condemnation or liquidation.
16	Easement or right of way.
17	Deed in fulfillment of contract (on a current transaction, a contract with a fulfillment deed is a valid sale).
18	Property physically improved after sale.
19	Timber or forest land.
20	Bare lots platted within the eight-month time period described in WAC 458-53-070(2), with less than twenty percent sold.
21	Plottage - when a larger unit of land is being assembled and an adjoining property is sold at a price significantly different from the price of property of a similar type.
22	$1,000 sale or under.
23	Lease - assignment, option, leasehold.
24	Classified as "current use" under chapter 84.34 RCW as of date of sale.
25	Change of use where rezoning takes place.
26	Current year segregations that have not been appraised.
27	Other - necessary to identify reason.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-080, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW

84.48.075. 84-14-039 (Order PT 84-2), § 458-53-080, filed 6/29/84; 83-16-050 (Order PT 83-2), § 458-53-080, filed 8/1/83; 79-11-029 (Order PT 79-3), § 458-53-080, filed 10/11/79.]

WAC 458-53-095 Property values used in the ratio study. The following property values shall be included in the ratio study:

(1) **Assessed values.** Values determined by county assessors according to the provisions of chapters 84.40 RCW (Listing of property) and 84.41 RCW (Revaluation of property).

(2) **Forest land values.** Values of forest land classified or designated under chapter 84.33 RCW and values of timberland classified under chapter 84.34 RCW.

(3) **Current use values.** Values of land (except timber land) and improvements classified under chapter 84.34 RCW (current use assessment). Values of land (except timber land) and improvements classified under chapter 84.34 RCW shall be included as a separate class for counties when those values equal or exceed fifteen percent of the total assessed value of locally assessed real property in the county.

(4) **Advisory values.** Advisory values supplied to the assessor by the department, but only if the property falls within the sales study provided for in WAC 458-53-070 or 458-53-100 or is selected in the appraisal or audit study in accordance with WAC 458-53-130 and 458-53-140.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-095, filed 2/8/96, effective 3/10/96.]

WAC 458-53-100 County generated sales studies. (1) **Sales data provided by county.** When sales data is provided to the department by counties in accordance with these rules and subject to audit by the department, the data shall be used by the department to determine the indicated real property ratio. The data provided shall be in the form of two reports, a report consisting of data from valid sales, and a report listing those sales deemed to be invalid.

(2) **Report of valid sales.** The county generated sales report consisting of data from valid sales shall include the following information for each valid sale:

(a) The real estate excise tax affidavit number.

(b) The parcel number(s), or other file identification number(s).

(c) The date of sale.

(d) The sale price of the transaction.

(e) The sale price of the transaction reduced by one percent.

(f) The land use code for the sale property.

(g) The current assessed value on the county's assessment roll for the sale property.

(h) A ratio determined by dividing the assessed value by the adjusted sale price (the adjusted sale price is the amount determined in (e) of this subsection).

(3) **Summary of valid sales data.** The county generated sales report shall also contain a summary of the sales information arranged according to land use categories and assessed value strata designated by the department for each county. The summaries for each stratum shall include:

(a) The total number of sales;

(b) The total assessed value of all sale property;

(c) The total adjusted sale price for all sales;

(d) The total average assessed value; and

(e) The total average adjusted sale price.

(4) **Report of invalid sales.** The county generated sales report consisting of data from invalid sales shall include the following information for each invalid sale:

(a) The real estate excise tax affidavit number.

(b) The parcel number(s), or other file identification number(s).

(c) The date of sale.

(d) The sale price of the transaction.

(e) The sale price of the transaction reduced by one percent.

(f) The land use code for the sale property.

(g) The current assessed value on the county's assessment roll for the sale property.

(h) A ratio determined by dividing the assessed value by the adjusted sale price (the adjusted sale price is the amount determined in (e) of this subsection).

(i) The appropriate numerical code (see WAC 458-53-080) or the matching description of the reason for determining that the sale was invalid. If numerical code number 27 is used, the reason for determining that the sale was invalid shall be described.

(5) **Sales report—When submitted.** The county generated sales report shall be submitted as soon as possible following the close of the assessment rolls on May 31st and, for sales of property involving new construction, as soon as possible following August 31st.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-100, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075 and 84.08.010(2). 89-09-021 (Order PT 89-5), § 458-53-100, filed 4/12/89. Statutory Authority: RCW 84.48.075. 84-14-039 (Order PT 84-2), § 458-53-100, filed 6/29/84; 83-16-050 (Order PT 83-2), § 458-53-100, filed 8/1/83; 82-08-061 (Order PT 82-3), § 458-53-100, filed 4/6/82; 79-11-029 (Order PT 79-3), § 458-53-100, filed 10/11/79.]

WAC 458-53-105 Review procedures for county studies. (1) **Department to monitor compliance.** The department shall review a sales assessment study produced by a county in order to monitor compliance with the rules in this chapter.

(2) **Elements to be verified.** Elements of the county sales study that may be verified include, but are not limited to:

(a) Property identification;

(b) Land use code classification;

(c) Properties reported on real estate excise tax affidavits that were transferred using a warranty deed or real estate contract;

(d) Sales month identification;

(e) Deletion practices and identification;

(f) Computation procedures, including whether the sales value used was one hundred percent or whether the sales value was reduced by one percent;

(g) Sales and assessment values; and

(h) Revaluation assessment practices.

(3) **Findings to be discussed with assessor.** Ratio study review findings will be discussed with the individual county assessor and/or the assessor's staff upon completion of the department's review. Any errors in data or procedure discovered shall be corrected for the current and future year's studies.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-105, filed 2/8/96, effective 3/10/96.]

WAC 458-53-130 Real property appraisal studies. (1) **Review of prior year's sales.** In order to determine which strata do not have sufficient sales to produce a sales sample representative of the level of assessment, the department shall review a county's prior year's sales studies. This review will determine the number of appraisals necessary to be added to the sales sample.

(2) **Selection of properties for appraisal.** The properties to be appraised by the department shall be selected on a statistically accepted random basis such as stated numerical sequence or random number tables.

(3) **Department appraisals.** Appraisals conducted by the department shall include a physical appraisal of the subject property in order to assure that the most accurate estimate of market value is determined, and shall not be conducted on the basis of mass appraisal techniques. The value determined will be the value as of January 1 of the assessment year, or for appraisals involving new construction, the value as of July 31.

(4) **Review with county.** The department shall review completed appraisals with the assessor and/or the assessor's staff. After the review is complete, the appraisals shall be included with the sales data for computation of the real property ratio.

(5) **Allocation of real and personal property values.** Allocation of value between real and personal property of the total value of appraised property for purposes of the ratio study will be determined using each assessor's method of classifying real and personal property.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-130, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075. 86-21-004 (Order PT 86-6), § 458-53-130, filed 10/2/86; 84-14-039 (Order PT 84-2), § 458-53-130, filed 6/29/84; 79-11-029 (Order PT 79-3), § 458-53-130, filed 10/11/79. Formerly WAC 458-52-070.]

WAC 458-53-135 Indicated real property ratio—Computation. (1) **Determination of ratio for assessed value strata.** For each real property stratum, average assessed value and average market value shall be determined from the results of selected sales and appraisal studies. The average assessed value of the samples for each stratum divided by the average market value of the samples determines the ratio for each assessed value stratum.

(2) **Determination of indicated market value.** The actual total assessed value for each stratum divided by the ratio for each assessed value stratum, as determined by using the calculation set forth in subsection (1) of this section, determines the indicated market value of each stratum for the county.

(3) **Addition of county assessed values for current use and forest land—Assessor's certification of values.** The county assessed values of current use land and improvements (chapter 84.34 RCW) and forest land (chapter 84.33 RCW) as indicated on the current certification provided by the assessor to the county board of equalization are added to the actual total assessed value for the county. Ratios for current use land and improvements and for forest land are applied to the county assessed values to determine indicated market values.

(a) A copy of the assessor's certification to the board of equalization shall be filed with the department by July 15th, or when the rolls for the current assessment year are completed, whichever is later. The certification form shall be properly completed with all required information.

(b) If a copy of the assessor's certification is not received from an assessor prior to September 1, the assessor's abstract of assessed values for the current year may be used, when available. If not available, the assessed values from the abstract of the previous year may be used.

(4) **Determination of county indicated ratio.** The sum total of the county assessed values is divided by the sum of the indicated market values to determine the county indicated real property ratio.

(5) **Example.** The following illustration, using simulated values and ratios, indicates simplified ratio study computation procedures for real property.

STEP 1
STRATUM AVERAGE VALUE & RATIO COMPUTATIONS

Type of Land Use	Stratum	Number of Samples	Average Assessed Value of Samples	Average Market Value of Samples	Stratum Ratio
SINGLE FAMILY RESIDENCE	0 - 75,000	400	$ 35,000	$ 45,000	77.8
	75,000 - 150,000	400	100,000	125,000	80.0
	150,000 -+	100	195,000	230,000	84.8
MULTIFAMILY RESIDENCE	0 - 125,000	40	50,000	60,000	83.3
	125,000 -+	15	225,000	265,000	84.9
COMMERCIAL/ MANUFACTURING	0 - 500,000	40	140,000	165,000	84.8
	500,000 -+	25	2,000,000	2,350,000	85.1
AGRICULTURAL	0 - 125,000	35	60,000	65,000	92.3
	125,000 -+	35	300,000	330,000	90.9
OTHER	0 - 100,000	75	30,000	36,000	84.0
	100,000 -+	40	250,000	290,000	86.2

STEP 2
APPLICATION OF STRATUM RATIOS TO ACTUAL COUNTY ASSESSED VALUES

Type of Land Use	Stratum	(1) Actual County Real Property Assessed Value	(2) Ratio	(3) County Market Value Related to Actual Assessed Value Col. 1 ÷ Col. 2
SINGLE FAMILY RESIDENCE	0 - 74,999	$500,000,000	77.8	$642,673,522
	75,000 - 149,999	250,000,000	80.0	312,500,000
	150,000 -+	250,000,000	84.8	294,811,321
MULTIFAMILY RESIDENCE	0 - 124,999	85,000,000	83.3	102,040,816
	125,000 -+	65,000,000	84.9	76,560,660
COMMERCIAL/ MANUFACTURING	0 - 499,999	245,000,000	84.8	288,915,094
	500,000 -+	200,000,000	85.1	235,017,626
AGRICULTURAL	0 - 124,999	110,000,000	92.3	119,176,598
	125,000 -+	95,000,000	90.9	104,510,451
OTHER	0 - 99,999	90,000,000	84.0	107,142,857
	100,000 -+	75,000,000	86.2	87,006,961
CURRENT USE LAND (CHAPTER 84.34 RCW)		125,500,000	95.2	131,827,731
CURRENT USE IMP (CHAPTER 84.34 RCW)		50,000,000	84.0	59,523,810
FORESTLAND (CHAPTER 84.33 RCW) AND TIMBERLAND (CHAPTER 84.34 RCW)		2,950,000	100.0	2,950,000
		$2,143,450,000		$2,564,657,447 = 83.6

(6) **Department may consider general trends in property values.** The department may consider the relationship between the market value trends of real property and the assessed value increases or decreases made by the assessor during the year in each county as checks of the validity of the results of the sales and appraisal studies. The assistant director of the property tax division of the department may authorize modification of the results of the sales and appraisal study in any county where there is a demonstrable showing by an assessor to the assistant director that the sales and appraisal study is inconclusive or does not result in a reasonable and factual determination of the relationship of assessed values to market value such that a significant variation results from the previous year not deemed by the assistant director to conform with general trends in property values.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-135, filed 2/8/96, effective 3/10/96.]

WAC 458-53-140 Personal property ratio study. (1) **Introduction.** This rule provides information about the personal property ratio study, including the basis for a county's personal property ratio, the determination of strata for each county, and the effect of the discovery of omitted property on the ratio study.

(2) **Basis for personal property ratio.** The basis for a county's personal property ratio will be valuation data with respect to personal property from the three years preceding the current assessment year.

(3) **Stratification of rolls.** Determination of strata for each county will be made by the department to ensure the selection of a representative audit sample and will be reviewed periodically. After the strata have been determined, the department will notify the counties of the strata limits and each county must provide the department with the following, taken from the county's assessment rolls:

(a) A representative number of samples, as determined by the department, in each stratum, together with:

(i) The name and address of the taxpayer for each sample;

(ii) The assessed value for each sample; and

(iii) The actual number of samples;

(b) The total number of personal property accounts in each stratum; and

(c) The total assessed value in each stratum.

(4) **Omitted property.** If the department discovers omitted property in a county, the results of the department's audit will be included in the ratio study.

[Statutory Authority: RCW 84.08.010, 84.08.070, and 84.48.075. 02-14-031, § 458-53-140, filed 6/24/02, effective 7/25/02; 96-05-002, § 458-53-140, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075. 84-14-039 (Order PT 84-2), § 458-53-140, filed 6/29/84; 79-11-029 (Order PT 79-3), § 458-53-140, filed 10/11/79. Formerly WAC 458-52-080.]

WAC 458-53-160 Indicated personal property ratio—Computation. (1) **Determination of ratio for assessed value strata.** For each personal property assessed value stratum, excluding properties identified in WAC 458-53-070 (4)(a), an average assessed value, and an average market value shall be determined from the results of selected audit studies. The average assessed value for each stratum divided by the average market value determines the ratio for each assessed value stratum.

(2) **Determination of indicated market value.** The actual total assessed value of the county for each stratum divided by the ratio for each assessed value stratum, as determined by using the calculation set forth in subsection (1) of

this section, determines the indicated market value of each stratum for the county.

(3) **Additional categories.**

(a) The actual county total assessed values of properties identified in WAC 458-53-070 (4)(a) are added as a separate category to the total county assessed value. A ratio determined for these properties is applied against the total assessed value for the category to determine the indicated total market value for the category.

(b) If ten percent or more of the total personal property assessed value of a county consists of publicly owned timber sold by competitive bid to private purchasers, the assessed value of the timber is added as a separate category to the total county assessed value. A ratio determined for this property is applied against the total assessed value for this category to determine the indicated total market value for this category.

(4) **Determination of county indicated ratio.** The sum of the actual total county assessed values is divided by the sum of the indicated market values to determine the county indicated personal property ratio.

(5) **Example.** The following illustration, using simulated values and ratios, indicates the ratio computation procedures for personal property.

STEP 1 - STRATUM AVERAGE VALUE AND RATIO COMPUTATIONS

	(1)	(2)	(3)	(4)
Stratum	Number of Samples	Average Assessed Value of Samples	Average Market Value of Samples	Stratum Ratio (Col. 2 ÷ Col. 3)
$ 0 - 74,999	25	$ 17,000	$ 22,000	.773
75,000 - 249,999	15	124,000	235,000	.528
Over - 250,000	10	850,000	960,000	.885

STEP 2 - APPLICATION OF STRATUM RATIOS TO ACTUAL COUNTY ASSESSED VALUES

	(1)	(2)	(3)
Stratum	Actual County Personal Property Assessed Values	Ratio	County Market Value Related to Actual Assessed Value (Col. 1 ÷ Col. 2)
$ 0 - 74,999	$21,500,000	.773	$ 27,813,713
75,000 - 249,999	23,000,000	.528	43,560,606
Over - 250,000	50,000,000	.885	56,497,175
WAC 458-53-070 (4)(a) Properties	0		0
Totals	$94,500,000		÷ $127,871,499 = 73.9
County Indicated Personal Property Ratio			73.9%

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-160, filed 2/8/96, effective 3/10/96; 94-05-064, § 458-53-160, filed 2/11/94, effective 3/14/94. Statutory Authority: RCW 84.48.075. 87-12-029 (Order PT 87-5), § 458-53-160, filed 5/29/87; 86-21-004 (Order PT 86-6), § 458-53-160, filed 10/2/86; 84-14-039 (Order PT 84-2), § 458-53-160, filed 6/29/84; 79-11-029 (Order PT 79-3), § 458-53-160, filed 10/11/79. Formerly WAC 458-52-100.]

WAC 458-53-200 Certification of county preliminary and indicated ratios—Review. (1) **Preliminary ratio certified to assessor.** The department shall annually determine the real property and personal property preliminary ratios for each county and shall certify these ratios to the county assessor on or before the first Monday in September.

(2) **Request for review.** Upon request of the assessor, a landowner, or an owner of an intercounty public utility or private car company, the department shall review the county's preliminary ratio with the requesting party and may make any changes indicated by such review. This review shall take place between the first and third Mondays of September. If the department does not certify the preliminary ratios as required by subsection (1) of this section, the review period shall extend for two weeks from the date of certification.

(3) **Certification of indicated ratios.** Prior to equalization of assessments pursuant to RCW 84.48.080 and after the third Monday of September, the department shall certify to each county assessor the indicated real and personal property ratios for that county.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-200, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075. 84-14-039 (Order PT 84-2), § 458-53-200, filed 6/29/84; 79-11-029 (Order PT 79-3), § 458-53-200, filed 10/11/79. Formerly WAC 458-52-140.]

WAC 458-53-210 Appeals. If an assessor, landowner, or owner of an intercounty utility or private car company has reviewed the ratio study as provided in WAC 458-53-200, that person or company may appeal the department's indicated ratio determination, as certified for that county, to the state board of tax appeals pursuant to RCW 82.03.130(5). The appeal to the state board of tax appeals must be filed not later than fifteen days after the date of mailing of the certification.

[Statutory Authority: RCW 84.08.010, 84.08.070 and 84.48.075. 96-05-002, § 458-53-210, filed 2/8/96, effective 3/10/96. Statutory Authority: RCW 84.48.075. 84-14-039 (Order PT 84-2), § 458-53-210, filed 6/29/84; 79-11-029 (Order PT 79-3), § 458-53-210, filed 10/11/79. Formerly WAC 458-52-150.]

Chapter 458-57 WAC

STATE OF WASHINGTON ESTATE AND TRANSFER TAX REFORM ACT RULES

DISPOSITION OF SECTIONS FORMERLY CODIFIED IN THIS CHAPTER

458-57-010	Scope of rules. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-010, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100. Later promulgation, see WAC 458-57-510.
458-57-020	Nature of inheritance tax. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-020, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100. Later promulgation, see WAC 458-57-520.
458-57-030	Property subject to inheritance tax. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-030, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100. Later promulgation, see WAC 458-57-530.
458-57-040	Jurisdiction—Domicile of decedent. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-040, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.
458-57-050	Status and character of assets. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-050, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.
458-57-060	Valuation. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-060, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.
458-57-070	Valuation—Real estate. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-070, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.
458-57-080	Valuation—Gold and silver bullion. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-080, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.
458-57-090	Valuation—Securities. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-090, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.
458-57-100	Closely held securities—Partnerships—Sole proprietorships. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-100, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-340 Federal credit for death taxes. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-340, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-350 Payment of tax. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-350, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-360 Payment of tax from residue—Tax on tax. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-360, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-370 Deferral of tax—Power of appointment—Minimum and maximum tax—Secured tax. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-370, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-380 Interest—Penalties. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-380, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-390 Interest on unpaid tax. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-390, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-400 Refunds. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-400, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-410 Escheat estates—Heirs—How located and proof. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-410, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100. Later promulgation, see WAC 458-57-640.

458-57-420 Preliminary statement. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-420, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-430 Inventory and appraisement—Inventory of assets. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-430, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-440 Inheritance tax returns—Duty to keep records and render statements—Filing of returns—Contents of returns. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-440, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-450 Payment of inheritance tax—Extension of time—Basis for—Reasonable cause—Undue hardship. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-450, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-460 Inheritance tax—Extension of time for payment—Failure to pay on time. [Statutory Authority: RCW 82.01.-060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-460, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-470 Inheritance tax—Extension of time for payment—Security. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-470, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-480 Closely held businesses—What constitutes. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-480, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-490 Qualified or special use—Application of statutory and regulatory provisions. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-490, filed

2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-500 Miscellaneous provisions. [Statutory Authority: RCW 82.01.060, 83.36.005, and chapters 83.01 through 83.52 RCW. 80-03-048 (Order IT 80-1), § 458-57-500, filed 2/21/80.] Repealed by 83-17-033 (Order IT 83-2), filed 8/11/83. Statutory Authority: RCW 83.100.100.

458-57-510 Scope of rules. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-510, filed 8/11/83. Formerly WAC 458-57-010.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-520 Nature of estate tax. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-520, filed 8/11/83. Formerly WAC 458-57-020.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-530 Property subject to estate tax. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-530, filed 8/11/83. Formerly WAC 458-57-030.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-540 Residents—Tax imposed. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-540, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-550 Valuation. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-550, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-560 Imposition of tax. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-560, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-570 Tax returns to be filed. [Statutory Authority: RCW 83.100.100. 86-12-024 (Order 86-1), § 458-57-570, filed 5/28/86; 83-17-033 (Order IT 83-2), § 458-57-570, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-575 Waiver or cancellation of penalties. [Statutory Authority: RCW 82.32.300 and 83.100.070. 99-03-010, § 458-57-575, filed 1/8/99, effective 2/8/99.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-580 Formula. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-580, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-590 Property "located in" Washington. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-590, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-600 Reciprocity exemption. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-600, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-610 Releases. [Statutory Authority: RCW 83.100.100. 86-12-024 (Order 86-1), § 458-57-610, filed 5/28/86; 83-17-033 (Order IT 83-2), § 458-57-610, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-620 Amended returns—Final determination. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-620, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-630 Administration—Rules. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-630, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-640 Escheat estates—Heirs—How located and proof. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-640, filed 8/11/83. Formerly WAC 458-57-410.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-650 Interest and penalties. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-650, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

458-57-660 Refunds. [Statutory Authority: RCW 83.100.100. 83-17-033 (Order IT 83-2), § 458-57-660, filed 8/11/83.] Repealed by 99-15-095, filed 7/21/99, effective 8/21/99. Statutory Authority: RCW 83.100.200.

WAC 458-57-005 Nature of estate tax, definitions. (1) **Introduction.** This rule describes the nature of Washington state's estate tax as it is imposed by chapter 83.100 RCW (Estate and Transfer Tax Act) for deaths occurring on or before May 16, 2005. The estate tax rules for deaths occurring on or after May 17, 2005, can be found in WAC 458-57-105 through 458-57-165. It also defines terms that will be used throughout chapter 458-57 WAC (Washington Estate and Transfer Tax Reform Act Rules).

(2) **Nature of Washington's estate tax.** The estate tax is neither a property tax nor an inheritance tax. It is a tax imposed on the transfer of the entire taxable estate and not upon any particular legacy, devise, or distributive share.

(a) The state of Washington operates under RCW 83.100.020, which references the Internal Revenue Code (IRC) as it existed **January 1, 2005.** The Washington State Estate and Transfer Tax Return and the instructions for completing the return can be found on the department's web site at http://www.dor.wa.gov/ under the heading titled forms. The return and instructions can also be obtained by calling the estate tax section at 360-570-3265 (option 2).

(b) The estate tax does not apply to completed absolute lifetime transfers. Section 2035(d) of the Internal Revenue Code generally exempts such transfers. To the extent permitted by this provision, lifetime transfers are not subject to Washington estate tax. The state of Washington does not have a gift tax.

(3) **Definitions.** The following terms and definitions are applicable throughout chapter 458-57 WAC:

(a) "Decedent" means a deceased individual;

(b) "Department" means the department of revenue, the director of that department, or any employee of the department exercising authority lawfully delegated to him by the director;

(c) "Escheat" of an estate means that whenever any person dies, whether a resident of this state or not, leaving property in an estate subject to the jurisdiction of this state and without being survived by any person entitled to that same property under the laws of this state, such estate property shall be designated escheat property and shall be subject to the provisions of RCW 11.08.140 through 11.08.300;

(d) "Federal credit" means the maximum amount of the credit for state taxes allowed by section 2011 of the Internal Revenue Code. This credit is calculated using an "adjusted taxable estate" figure, which is simply the taxable estate, less sixty thousand dollars. However, when the term "federal credit" is used in reference to a generation-skipping transfer (GST), it means the maximum amount of the credit for state taxes allowed by section 2604 of the Internal Revenue Code;

(e) "Federal return" means any tax return required by chapter 11 (Estate tax) or chapter 13 (Tax on generation-skipping transfers) of the Internal Revenue Code;

(f) "Federal tax" means tax under chapter 11 (Estate tax) of the Internal Revenue Code. However, when used in reference to a GST, "federal tax" means the tax under chapter 13

(Tax on generation skipping transfers) of the Internal Revenue Code;

(g) "Generation-skipping transfer" or "GST" means a "generation-skipping transfer" as defined and used in section 2611 of the Internal Revenue Code;

(h) "Gross estate" means "gross estate" as defined and used in section 2031 of the Internal Revenue Code;

(i) "Internal Revenue Code" or "IRC" means the United States Internal Revenue Code of 1986, as amended or renumbered on January 1, 2005;

(j) "Nonresident" means a decedent who was domiciled outside Washington at the time of death;

(k) "Person" means any individual, estate, trust, receiver, cooperative association, club, corporation, company, firm, partnership, joint venture, syndicate, or other entity and, to the extent permitted by law, any federal, state, or other governmental unit or subdivision or agency, department, or instrumentality thereof;

(l) "Person required to file the federal return" means any person required to file a return required by chapter 11 or 13 of the Internal Revenue Code, such as the personal representative of an estate, a transferor, trustee, or beneficiary of a generation-skipping transfer, or a qualified heir with respect to qualified real property, as defined and used in section 2032A(c) of the Internal Revenue Code;

(m) "Person responsible," means the person responsible for filing the federal and state returns and is the same person described in subsection (l) of this section;

(n) "Property," when used in reference to an estate tax transfer, means property included in the gross estate. However, when used in reference to a generation-skipping transfer, "property" means all real and personal property subject to the federal tax;

(o) "Resident" means a decedent who was domiciled in Washington at time of death;

(p) "State return" means the Washington Estate Tax Return required by RCW 83.100.050;

(q) "Transfer" means "transfer" as used in section 2001 of the Internal Revenue Code, or a disposition or cessation of qualified use as defined and used in section 2032A of the Internal Revenue Code; and

(r) "Trust" means "trust" under Washington law and any arrangement described in section 2652 of the Internal Revenue Code.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-005, filed 3/9/06, effective 4/9/06. Statutory Authority: RCW 83.100.200. 02-18-078, § 458-57-005, filed 8/30/02, effective 9/30/02; 99-15-095, § 458-57-005, filed 7/21/99, effective 8/21/99.]

WAC 458-57-015 Valuation of property, property subject to estate tax, how to calculate the tax. (1) **Introduction.** This rule applies to deaths occurring on or before May 16, 2005, and is intended to help taxpayers determine and pay the correct amount of estate tax with their state return. The estate tax rules for deaths occurring on or after May 17, 2005, can be found in WAC 458-57-105 through 458-57-165. It explains the necessary steps for determining the tax, and provides examples of how the federal estate tax unified credit relates to the amount that must be reported on the state return. (If a nonresident decedent has property located within Washington at the time of death refer to WAC 458-57-025 to determine the amount of tax payable to Washington.)

(2) **Valuation.** The value of every item of property in a decedent's gross estate is its fair market value. However, the personal representative may elect to use the alternate valuation method under section 2032 of the Internal Revenue Code (IRC), and in that case the value is the fair market value at that date, including the adjustments prescribed in that section of the IRC.

The valuation of certain farm property and closely held business property, properly made for federal estate tax purposes pursuant to an election authorized by section 2032A of the IRC, is binding for state estate tax purposes.

(3) **Property subject to estate tax.** The estate tax is imposed on transfers of the taxable estate, as defined in section 2051 of the IRC.

(a) The first step in determining the value of the decedent's taxable estate is to determine the total value of the gross estate. The value of the gross estate includes the value of all the decedent's tangible and intangible property at the time of death. In addition, the gross estate may include property in which the decedent did not have an interest at the time of death. A decedent's gross estate for federal estate tax purposes may therefore be different from the same decedent's estate for local probate purposes. Sections 2031 through 2046 of the IRC provide a detailed explanation of how to determine the value of the gross estate. The following are examples of items that may be included in a decedent's gross estate and not in the probate estate:

(i) Certain property transferred by the decedent during the decedent's lifetime without adequate consideration;

(ii) Property held jointly by the decedent and others;

(iii) Property over which the decedent had a general power of appointment;

(iv) Proceeds of certain policies of insurance on the decedent's life annuities; and

(v) Dower and curtesy of a surviving spouse or a statutory estate in lieu thereof.

(b) The value of the taxable estate is determined by subtracting the authorized exemption and deductions from the value of the gross estate. Under various conditions and limitations, deductions are allowable for expenses, indebtedness, taxes, losses, charitable transfers, and transfers to a surviving spouse. Sections 2051 through 2056A of the IRC provide a detailed explanation of how to determine the value of the taxable estate.

(4) **Imposition of Washington's estate tax.** A tax in an amount equal to the federal credit is imposed by RCW 83.100.030 upon the taxable estate of every decedent. Washington's estate tax is due in every case in which the gross estate tax exceeds the unified credit as specified in section 2010 of the IRC, and there is credit available to be taken, with the exception that all applicable federal estate tax credits are to be applied to the estate's tax liability before the state estate tax liability is computed.

(a) The following tables are taken from the IRC. They show the maximum amount of federal credit available for state death taxes. The amount of federal credit computed multiplied by the appropriate fraction is the amount of Washington estate tax due.

Calculate the credit for state death taxes

(i) Step one - calculate the adjusted taxable estate:

Worksheet

Adjusted Taxable Estate

1. Taxable estate (from federal form 706, Part 2, Line 3) $. . . . .
2. Adjustment $60,000
3. Adjusted taxable estate. Subtract line 2 from line 1. Use this amount to compute maximum credit for state death taxes in Table (B).

(ii) Step two - apply Table B to the adjusted taxable estate to calculate the credit for state death taxes:

(A)—Taxable estate, equal to or more than…	**(B)**—and, Taxable estate, less than…	**(C)**—Base credit on amount in column (A)	**(D)**—Rate of credit on excess over amount in column (A) **(AS A PERCENT)**
$ 0	$ 40,000	$ 0	0.0
$ 40,000	$ 90,000	$ 0	0.8
$ 90,000	$ 140,000	$ 400	1.6
$ 140,000	$ 240,000	$ 1,200	2.4
$ 240,000	$ 440,000	$ 3,600	3.2
$ 440,000	$ 640,000	$ 10,000	4.0
$ 640,000	$ 840,000	$ 18,000	4.8
$ 840,000	$ 1,040,000	$ 27,600	5.6
$ 1,040,000	$ 1,540,000	$ 38,800	6.4
$ 1,540,000	$ 2,040,000	$ 70,800	7.2
$ 2,040,000	$ 2,540,000	$ 106,800	8.0
$ 2,540,000	$ 3,040,000	$ 146,800	8.8
$ 3,040,000	$ 3,540,000	$ 190,800	9.6
$ 3,540,000	$ 4,040,000	$ 238,800	10.4
$ 4,040,000	$ 5,040,000	$ 290,800	11.2
$ 5,040,000	$ 6,040,000	$ 402,800	12.0
$ 6,040,000	$ 7,040,000	$ 522,800	12.8
$ 7,040,000	$ 8,040,000	$ 650,800	13.6
$ 8,040,000	$ 9,040,000	$ 786,800	14.4
$ 9,040,000	$ 10,040,000	$ 930,800	15.2
$ 10,040,000	. . . .	$ 1,082,800	16.0

(iii) Step three - multiply the credit for state death taxes by the percentage for the year of the decedent's death:

Year	Percentage
2002	75%
2003	50%
2004	25%
2005	0%

(b) **Examples.** The following are examples of how the estate tax is applied. These examples should be used only as a general guide. The tax status of other situations must be determined after a review of all of the facts and circumstances.

(i) A married woman dies in the year 2002, leaving her husband and children surviving. Her taxable estate, computed after allowance of the marital deduction, is $1,100,000. The adjusted taxable estate is $1,040,000 ($1,100,000 - $60,000). The Washington state estate tax due is $29,100 ($38,800 multiplied by .75).

(ii) A married man dies with all of his property passing to his wife, outright under a community property agreement. His marital deduction under section 2056 of the IRC reduces his federal taxable estate below the applicable exclusion amount. Because his taxable estate is below the applicable exclusion amount, while no Washington estate tax is due a return must be filed.

(iii) The federal taxable estate of a decedent is $100,000 (before gifts are added, which place the estate into a taxable category). The adjusted taxable estate is $40,000 for state estate tax purposes ($100,000 - $60,000). No Washington estate tax is due because section 2011 of the IRC provides for no credit unless the adjusted taxable estate exceeds $40,000. *Gifts can push an estate into a taxable category.

(iv) A widow dies in 2003, leaving a taxable estate of $1,030,000. The amount of tax payable to the state of Washington is computed as follows: Taxable estate of $1,030,000 less $60,000 equals an adjusted taxable estate of $970,000. The state death tax credit (IRC section 2011) on the first $840,000 is $27,600. The state death tax credit for the $130,000 increment ($970,000 - $840,000) is $7,280 (5.6% of $130,000). The total Washington estate tax liability is $17,440 ($27,600 + $7,280) x .50 however, the state estate tax cannot exceed the adjusted gross estate tax (line 14) which in this case would be $12,300. Therefore, the state estate tax would be $12,300 because it is the lower of the two. This occurs in a small window over the applicable exemption threshold amount.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-015, filed 3/9/06, effective 4/9/06. Statutory Authority: RCW 83.100.200. 02-18-078, § 458-57-015, filed 8/30/02, effective 9/30/02; 99-15-095, § 458-57-015, filed 7/21/99, effective 8/21/99.]

WAC 458-57-017 Property subject to generation-skipping transfer tax, how to calculate the tax, allocation of generation-skipping transfer exemption. (1) **Introduction.** The generation-skipping transfer tax was repealed effective May 17, 2005. If the taxable termination or distribution is the result of a death that occurred on or after May 17, 2005, there is no Washington generation-skipping transfer tax. This repeal does not affect generation-skipping transfer taxable terminations or distributions that result from a death that occurred on or before May 16, 2005. This rule applies only to taxable terminations or distributions that occur as the result of a death that occurred on or before May 16, 2005.

(2) This rule is intended to help taxpayers determine and pay the correct amount of generation-skipping transfer (GST) tax with their state return. It explains what property is subject to the tax, the calculation of the tax, and the allocation of the generation-skipping transfer exemption.

(3) **Property subject to generation-skipping transfer tax.** If real or tangible personal property subject to federal GST tax, as defined and used in section 2611 of the IRC, is located in this state or if the trust has its principal place of administration in this state at the time of the generation-skipping transfer, a tax in an amount equal to the federal credit provided by section 2604 of the IRC is imposed on every generation-skipping transfer.

(4) **Calculation of the tax.** The allowable Washington credit equals the federal GST tax on the transfer multiplied by 5% (.05). If state GST tax credit was paid to another state(s), the taxpayer must attach evidence of the credit paid to the Washington return. The Washington State Estate and Transfer Tax Return and the instructions for calculating the GST tax can be found on the department's web site at http://www.

dor.wa.gov/ under the heading titled forms. The return and instructions can also be obtained by calling the estate tax section at 360-570-3265, option 2.

(5) **Allocation of generation-skipping transfer exemption.** The allocation(s) of the GST exemption for Washington purposes will be the same as the allocation(s) made for federal GST exemption purposes up to the amount allowed by section 2631 of the IRC.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-017, filed 3/9/06, effective 4/9/06. Statutory Authority: RCW 83.100.200. 02-18-078, § 458-57-017, filed 8/30/02, effective 9/30/02.]

WAC 458-57-025 Determining the tax liability of nonresidents. (1) **Introduction.** This rule applies to deaths occurring on or before May 16, 2005, and discusses how property of nonresident decedents is taxed if that property is located within Washington at the time of death. The estate tax rules for deaths occurring on or after May 17, 2005, can be found in WAC 458-57-105 through 458-57-165.

(2) **Nonresident decedents and Washington's estate tax.** If any decedent has tangible personal property and/or real property located in Washington state at the time of death, that property is subject to Washington's estate tax.

(a) **The reciprocity exemption.** A nonresident decedent's estate is exempt from Washington's estate tax if the nonresident's state of domicile exempts the property of Washington residents from estate, inheritance, or other death taxes normally imposed by the domicile state. The nonresident decedent must have been a citizen and resident of the United States at the time of death. Also, at the time of death the laws of the domicile state must have made specific reference to this state, or must have contained a reciprocal provision under which nonresidents of the domicile state were exempted from applicable death taxes with respect to property or transfers otherwise subject to the jurisdiction of that state.

In those instances where application of this provision results in loss of available federal credit which would otherwise be allowed for federal tax purposes, Washington will absorb that proportional share which is applicable to property within the jurisdiction of this state. Application of this provision will not act to increase the total tax obligation of the estate.

(b) **Property of a nonresident's estate which is located in Washington.** A nonresident decedent's estate may have either real property or tangible personal property located in Washington at the time of death.

(i) All real property physically situated in this state, with the exception of federal trust lands, and all interests in such property, are deemed "located in" Washington. Such interests include, but are not limited to:

(A) Leasehold interests;

(B) Mineral interests;

(C) The vendee's (but not the vendor's) interest in an executory contract for the purchase of real property;

(D) Trusts (beneficial interest in trusts of realty); and

(E) Decedent's interest in jointly owned property (e.g., tenants in common, joint with right of survivorship).

(ii) Tangible personal property of a nonresident decedent shall be deemed located in Washington only if:

(A) At the time of death the property is situated in Washington; and

(B) It is present for a purpose other than transiting the state.

(iii) For example, consider a nonresident decedent who was a construction contractor doing business as a sole proprietor. The decedent was constructing a large building in Washington. At the time of death, any of the decedent's equipment that was located at the job site in Washington, such as tools, earthmovers, bulldozers, trucks, etc., would be deemed located in Washington for estate tax purposes. Also, the decedent had negotiated and signed a purchase contract for speculative property in another part of Washington. For estate tax purposes, that real property should also be considered a part of the decedents' estate located in Washington.

(c) **Formula to calculate Washington's estate tax for nonresident decedents.** The amount of tax payable to Washington for a nonresident decedent equals the amount of federal credit multiplied by a fraction, the numerator of which is the value of the property located in Washington, and the denominator of which is the value of the decedent's gross estate. Restated: Federal Credit x (Gross Value of Property in Washington/Decedent's Gross Estate) = Amount of Washington Estate Tax Due. This formula uses the gross value determined for estate tax purposes of any property located in Washington. No reduction will be allowed for any mortgages, liens, or other encumbrances or debts associated with such property except to the extent allowable in computing the gross estate for estate tax purposes.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-025, filed 3/9/06, effective 4/9/06. Statutory Authority: RCW 83.100.200. 02-18-078, § 458-57-025, filed 8/30/02, effective 9/30/02; 99-15-095, § 458-57-025, filed 7/21/99, effective 8/21/99.]

WAC 458-57-035 Washington estate tax return to be filed—Penalty for late filing—Interest on late payments—Waiver or cancellation of penalty—Application of payment. (1) **Introduction.** This rule applies to deaths occurring on or before May 16, 2005, and discusses the due date for filing of Washington's estate tax return and payment of the tax due. It explains that a penalty is imposed on the taxes due with the state return when the return is not filed on or before the due date, and that interest is imposed when the tax due is not paid by the due date. The rule also discusses the limited circumstances under which the law allows the department of revenue to cancel or waive the penalty, and the procedure for requesting that cancellation or waiver. The Washington State Estate and Transfer Tax Return and the instructions for completing return can be found on the department's web site at http://www.dor.wa.gov/ under the heading titled forms. The return and instructions can also be obtained by calling the estate tax section at 360-570-3265, option 2. The estate tax rules for deaths occurring on or after May 17, 2005, can be found in WAC 458-57-105 through 458-57-165.

(2) **Filing the state return—Payment of the tax due.** The Washington estate tax return (state return) referred to in RCW 83.100.050 and a copy of the federal estate tax return (federal return) and all supporting documentation is due nine months from the date of the decedent's death. The tax due with the state return must be paid on or before the due date.

(a) Section 6075 of the Internal Revenue Code (IRC) requires that the federal return be filed within nine months after the date of the decedent's death. In the case of any estate for which a federal return must be filed under the current IRC, a state return must be filed with the Washington state department of revenue (department) on or before the date on which the federal return is required to be filed. (This may include a federally granted extension of time for filing. See (b) of this subsection.)

(b) Section 6081 of the IRC permits the granting of a reasonable extension of time for filing the federal return, generally not to exceed six months from the original due date. If a federal extension of the time to file is granted, the personal representative is required to file a true copy of that extension with the department on or before the original due date, or within thirty days of the issuance of the federal extension, whichever is later. RCW 83.100.050(2). If the personal representative fails to do so, the department may require the personal representative to file the state return on the date that the federal return would have been due had the federal extension not been granted.

(c) When the personal representative obtains an extension of time for payment of the federal tax, or elects to pay that tax in installments, the personal representative may choose to pay the state estate tax over the same time period and in the same manner as the federal tax. The personal representative is required to file a true copy of that extension with the department on or before the original due date, or within thirty days of the issuance of the federal extension, whichever is later. RCW 83.100.060(2). If the personal representative fails to do so, the department may require the personal representative to pay the state tax on the date that the federal tax would have been due had the federal extension not been granted.

(d) The department shall issue a release when Washington's estate tax has been paid. Upon issuance of a release, all property subject to the tax shall be free of any claim for the tax by the state. RCW 83.100.080.

(3) **The late filing penalty.** If the state return is not filed by the due date, or any extension of the state return's due date, the person required to file the return may be subject to a late filing penalty.

(a) **When does the penalty apply?** This penalty applies if the person required to file the return has not timely filed the state return with the department prior to being notified by the department, in writing, of the necessity to file the state return. The late payment penalty is equal to five percent of the tax due for each month during which the state return has not been filed, not to exceed the lesser of twenty-five percent of the tax or one thousand five hundred dollars. RCW 83.100.070.

(b) **How is the penalty computed?** The penalty is the equivalent of five percent for each month, but is accrued on a daily basis for those periods less than a month. For any portion of a month, it is calculated by taking the five percent monthly rate and dividing it by the number of days from the beginning of the month through the date the return is filed, including the filing date.

For example, assume a state return is due on February 3rd but is not filed until April 20th of the same year. The state return is delinquent starting with February 4th. The amount of tax due with the state return is $10,000.

(i) The penalty should be computed as follows:

Feb 4-Feb 28	$10,000 tax at 5% per month	$446.43
Mar 1-Mar 31	$10,000 tax at 5% per month	$500.00
Apr 1-Apr 20	$10,000 tax at .1667% x 17 days	$333.34
Total delinquent penalty due on April 20th filing date		$1,297.77

(ii) In this example, the first month (February) is a partial month. February has twenty-eight days, the five percent monthly rate is divided by twenty-eight days to arrive at a daily rate of .0017857 (or .17857 percent). The daily rate is then multiplied by the twenty-five days of penalty accrual to arrive at the total percentage of penalty due for that portion of a month (.0017857 x 25 days = .044643 or 4.4643 percent). The second calendar month (March) is complete and incurs the full five percent penalty. The last portion of a month is a total of seventeen days, including both April 4th and April 20th. Since April has thirty days total, the five percent monthly rate is divided by the thirty days in April to arrive at a daily rate of .001667 (or .1667 percent). The daily rate is then multiplied by the twenty days of penalty accrual to arrive at the total percentage of penalty due for that portion of a month (.001667 x 20 days = .03334 or 3.334 percent).

(4) **Interest is imposed on late payment.** The department is required by law to impose interest on the tax due with the state return if payment of the tax is not made on or before the due date. RCW 83.100.070. Interest applies to the delinquent tax only, and is calculated from the due date until the date of payment. Interest imposed for periods after December 31, 1996, will be computed at the annual variable interest rate described in RCW 82.32.050(2). Interest imposed for periods prior to January 1, 1997, will be computed at the rate of twelve percent per annum.

(5) **Waiver or cancellation of penalties.** RCW 83.100.070(3) authorizes the department to waive or cancel the penalty for late filing of the state return under limited circumstances.

(a) **Claiming the waiver.** A request for a waiver or cancellation of penalties should contain all pertinent facts and be accompanied by such proof as may be available. The request must be made in the form of a letter and submitted to the department's special programs division. The person responsible bears the burden of establishing that the circumstances were beyond the responsible person's control and directly caused the late filing. The department will cancel or waive the late filing penalty imposed on the state return when the delinquent filing is the result of circumstances beyond the control of the person responsible for filing of the state return. The person responsible for filing the state return is the same person who is responsible for filing the federal return.

(b) **Circumstances eligible for waiver.** In order to qualify for a waiver of penalty the circumstances beyond the control of the person responsible for filing the state return must directly cause the late filing of the return. These circumstances are generally immediate, unexpected, or in the nature of an emergency. Such circumstances result in the person responsible not having reasonable time or opportunity to obtain an extension of their due date (see subsection (2)(b) of this section) or to otherwise timely file the state return. Circumstances beyond the control of the responsible person include, but are not necessarily limited to, the following:

(i) The delinquency was caused by the death or serious illness of the person responsible for filing the state return or a member of the responsible person's immediate family. In order to qualify for penalty waiver, the death or serious illness must directly prevent the person responsible from having reasonable time or opportunity to arrange for timely filing of the state return. Generally, the death or serious illness must have occurred within sixty days prior to the due date, provided that a valid state return is filed within sixty days of the due date.

(ii) The delinquency was caused by an unexpected and unavoidable absence of the person responsible. Generally, this absence must be within sixty days prior to the due date, provided that a valid state return is filed within sixty days of the due date. "Unavoidable absence of the person responsible" does not include absences because of business trips, vacations, personnel turnover, or personnel terminations.

(iii) The delinquency was caused by the destruction by fire or other casualty of estate records necessary for completion of the state return.

(iv) An estate tax return was timely filed, but was filed incorrectly with another state due to an issue of the decedent's domicile.

(v) A Washington estate tax return was properly prepared and timely filed, but was sent to the location for filing of the federal estate tax return.

(6) **Waiver or cancellation of interest.** Title 83 RCW (Estate Taxation) does not provide any circumstances that allow for waiver of the interest, even though penalty may be waived under limited circumstances (see subsection (5) of this section).

(7) **Application of payment towards liability.** The department will apply taxpayer payments first to interest, next to penalties, and then to the tax, without regard to any direction of the taxpayer.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-035, filed 3/9/06, effective 4/9/06. Statutory Authority: RCW 83.100.-200. 02-18-078, § 458-57-035, filed 8/30/02, effective 9/30/02; 00-19-012, § 458-57-035, filed 9/7/00, effective 10/8/00; 99-15-095, § 458-57-035, filed 7/21/99, effective 8/21/99.]

WAC 458-57-045 Administration of the tax—Releases, amended returns, and refunds. (1) **Introduction.** This rule applies to deaths occurring on or before May 16, 2005. This rule contains information on releases issued by the department for state estate taxes paid. It explains how and when an amended state return should be filed. Information on escheat estates and absentee distributees (missing heirs) can be found at RCW 458-57-165. The estate tax rules for deaths occurring on or after May 17, 2005, can be found in WAC 458-57-105 through 458-57-165.

(2) **Releases.** When the state estate taxes have been paid in full, the department will issue a release to the personal representative upon request. The request will include a completed state return and a copy of the completed federal return, if one was filed. The final determination of the amount of taxes due from the estates that have filed federal returns is contingent on receipt of a copy of the final closing letter issued by the Internal Revenue Service (IRS). The department may require additional information to substantiate information provided by those estates that are not required to file federal returns. The release issued by the department will not bind or estop the department in the event of a misrepresentation of facts.

(3) **Amended returns.** An amended state return must be filed with the department within five days after any amended federal return is filed with the IRS and must be accompanied by a copy of the amended federal return.

(a) Any time that the amount of federal tax due is adjusted or when there is a final determination of the federal tax due the person responsible must give written notification to the department. This notification must include copies of any final examination report, any compromise agreement, the state tax closing letter, and any other available evidence of the final determination.

(b) If any amendment, adjustment or final determination results in additional state estate tax due, interest will be calculated on the additional tax due at the annual variable interest rate described in RCW 82.32.050(2).

(4) **Refunds.** Only the personal representative or the personal representative's retained counsel may make a claim for a refund of overpaid tax. If the application for refund, with supporting documents, is filed within four months after an adjustment or final determination of tax liability, the department shall pay interest until the date the refund is mailed. If the application for refund, with supporting documents, is filed after four months after the adjustment or final determination, the department shall pay interest only until the end of the four-month period. Any refund issued by the department will include interest at the existing statutory rate defined in RCW 82.32.050(2), computed from the date the overpayment was received by the department until the date it is mailed to the estate's representative. RCW 83.100.130(2).

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-045, filed 3/9/06, effective 4/9/06. Statutory Authority: RCW 83.100.-200. 02-18-078, § 458-57-045, filed 8/30/02, effective 9/30/02; 00-19-012, § 458-57-045, filed 9/7/00, effective 10/8/00; 99-15-095, § 458-57-045, filed 7/21/99, effective 8/21/99.]

WAC 458-57-105 Nature of estate tax, definitions. (1) **Introduction.** This rule applies to deaths occurring on or after May 17, 2005, and describes the nature of Washington state's estate tax as it is imposed by chapter 83.100 RCW (Estate and Transfer Tax Act). It also defines terms that will be used throughout chapter 458-57 WAC (Washington Estate and Transfer Tax Reform Act rules). The estate tax rule on the nature of estate tax and definitions for deaths occurring on or before May 16, 2005, can be found in WAC 458-57-005.

(2) **Nature of Washington's estate tax.** The estate tax is neither a property tax nor an inheritance tax. It is a tax imposed on the transfer of the entire taxable estate and not upon any particular legacy, devise, or distributive share.

(a) **Relationship of Washington's estate tax to the federal estate tax.** The department administers the estate tax under the legislative enactment of chapter 83.100 RCW, which references the Internal Revenue Code (IRC) as it existed January 1, 2005. Federal estate tax law changes enacted after January 1, 2005, do not apply to the reporting requirements of Washington's estate tax. The department will follow federal Treasury Regulations section 20 (Estate tax regulations), in existence on January 1, 2005, to the extent they do not conflict with the provisions of chapter 83.100

RCW or 458-57 WAC. For deaths occurring January 1, 2009, and after, Washington has different estate tax reporting and filing requirements than the federal government. There will be estates that must file an estate tax return with the state of Washington, even though they are not required to file with the federal government. The Washington state estate and transfer tax return and the instructions for completing the return can be found on the department's web site at http://www.dor.wa.gov/ under the heading titled forms. The return and instructions can also be requested by calling the department's estate tax section at 360-570-3265, option 2.

(b) **Lifetime transfers.** Washington estate tax taxes lifetime transfers only to the extent included in the federal gross estate. The state of Washington does not have a gift tax.

(3) **Definitions.** The following terms and definitions are applicable throughout chapter 458-57 WAC:

(a) "Absentee distributee" means any person who is the beneficiary of a will or trust who has not been located;

(b) "Decedent" means a deceased individual;

(c) "Department" means the department of revenue, the director of that department, or any employee of the department exercising authority lawfully delegated to him by the director;

(d) "Escheat" of an estate means that whenever any person dies, whether a resident of this state or not, leaving property in an estate subject to the jurisdiction of this state and without being survived by any person entitled to that same property under the laws of this state, such estate property shall be designated escheat property and shall be subject to the provisions of RCW 11.08.140 through 11.08.300;

(e) "Federal return" means any tax return required by chapter 11 (Estate tax) of the Internal Revenue Code;

(f) "Federal tax" means tax under chapter 11 (Estate tax) of the Internal Revenue Code;

(g) "Federal taxable estate" means the taxable estate as determined under chapter 11 of the Internal Revenue Code without regard to:

(i) The termination of the federal estate tax under section 2210 of the IRC or any other provision of law; and

(ii) The deduction for state estate, inheritance, legacy, or succession taxes allowable under section 2058 of the IRC.

(h) "Gross estate" means "gross estate" as defined and used in section 2031 of the Internal Revenue Code;

(i) "Internal Revenue Code" or "IRC" means, for purposes of this chapter, the United States Internal Revenue Code of 1986, as amended or renumbered on January 1, 2005;

(j) "Person" means any individual, estate, trust, receiver, cooperative association, club, corporation, company, firm, partnership, joint venture, syndicate, or other entity and, to the extent permitted by law, any federal, state, or other governmental unit or subdivision or agency, department, or instrumentality thereof;

(k) "Person required to file the federal return" means any person required to file a return required by chapter 11 of the Internal Revenue Code, such as the personal representative (executor) of an estate;

(l) "Property," when used in reference to an estate tax transfer, means property included in the gross estate;

(m) "Resident" means a decedent who was domiciled in Washington at time of death;

(n) "State return" means the Washington estate tax return required by RCW 83.100.050;

(o) "Taxpayer" means a person upon whom tax is imposed under this chapter, including an estate or a person liable for tax under RCW 83.100.120;

(p) "Transfer" means "transfer" as used in section 2001 of the Internal Revenue Code. However, "transfer" does not include a qualified heir disposing of an interest in property qualifying for a deduction under RCW 83.100.046;

(q) "Washington taxable estate" means the "federal taxable estate":

(i) Less one million five hundred thousand dollars for decedents dying before January 1, 2006, or two million dollars for decedents dying on or after January 1, 2006;

(ii) Less the amount of any deduction allowed under RCW 83.100.046 as a farm deduction;

(iii) Less the amount of the Washington qualified terminable interest property (QTIP) election made under RCW 83.100.047;

(iv) Plus any amount deducted from the federal estate pursuant to IRC § 2056 (b)(7) (the federal QTIP election);

(v) Plus the value of any trust (or portion of a trust) of which the decedent was income beneficiary and for which a Washington QTIP election was previously made pursuant to RCW 83.100.047; and

(vi) Less any amount included in the federal taxable estate pursuant to IRC § 2044 (inclusion of amounts for which a federal QTIP election was previously made).

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-105, filed 3/9/06, effective 4/9/06.]

WAC 458-57-115 Valuation of property, property subject to estate tax, and how to calculate the tax. (1) **Introduction.** This rule applies to deaths occurring on or after May 17, 2005, and is intended to help taxpayers prepare their return and pay the correct amount of Washington state estate tax. It explains the necessary steps for determining the tax and provides examples of how the tax is calculated. The estate tax rule on valuation of property etc., for deaths occurring on or before May 16, 2005, can be found in WAC 458-57-015.

(2) **Determining the property subject to Washington's estate tax.**

(a) **General valuation information.** The value of every item of property in a decedent's gross estate is its date of death fair market value. However, the personal representative may elect to use the alternate valuation method under section 2032 of the Internal Revenue Code (IRC), and in that case the value is the fair market value at that date, including the adjustments prescribed in that section of the IRC. The valuation of certain farm property and closely held business property, properly made for federal estate tax purposes pursuant to an election authorized by section 2032A of the 2005 IRC, is binding on the estate for state estate tax purposes.

(b) **How is the gross estate determined?** The first step in determining the value of a decedent's Washington taxable estate is to determine the total value of the gross estate. The value of the gross estate includes the value of all the decedent's tangible and intangible property at the time of death. In addition, the gross estate may include property in which the decedent did not have an interest at the time of death. A decedent's gross estate for federal estate tax purposes may therefore be different from the same decedent's estate for local probate purposes. Sections 2031 through 2046 of the IRC provide a detailed explanation of how to determine the value of the gross estate.

(c) **Deductions from the gross estate.** The value of the federal taxable estate is determined by subtracting the authorized exemption and deductions from the value of the gross estate. Under various conditions and limitations, deductions are allowable for expenses, indebtedness, taxes, losses, charitable transfers, and transfers to a surviving spouse. While sections 2051 through 2056A of the IRC provide a detailed explanation of how to determine the value of the taxable estate the following areas are of special note:

(i) **Funeral expenses.**

(A) Washington is a community property state and under *Estate of Julius C. Lang v. Commissioner*, 97 Fed. 2d 867 (9th Cir. 1938) affirming the reasoning of *Wittwer v. Pemberton*, 188 Wash. 72, 76, 61 P.2d 993 (1936) funeral expenses reported for a married decedent must be halved. Administrative expenses are not a community debt and are reported at 100%.

(B) **Example.** John, a married man, died in 2005 with an estate valued at $2.5 million. On Schedule J of the federal estate tax return listed following as expenses:

SCHEDULE J - Funeral Expenses and Expenses Incurred in Administering Property Subject to Claims			
Item Number	Description	Expense Amount	Total Amount
1	**A. Funeral expenses:** Burial and services	$4,000	
	(1/2 community debt)	($2,000)	
	Total funeral expenses.		$2,000
	B. Administration expenses:		
	1. Executors' commissions - amount estimated/agreed upon paid. (Strike out the words that do not apply.).		$10,000
	2. Attorney fees - amount estimated/agreed upon/paid. (Strike out the words that do not apply.).		$5,000

The funeral expenses, as a community debt, were properly reported at 50% and the other administration expenses were properly reported at 100%.

(ii) **Mortgages and liens on real property.** Real property listed on Schedule A should be reported at its fair market value without deduction of mortgages or liens on the property. Mortgages and liens are reported and deducted using Schedule K.

(iii) **Washington qualified terminable interest property (QTIP) election.**

(A) A personal representative may choose to make a larger or smaller percentage or fractional QTIP election on the Washington return than taken on the federal return in order to reduce Washington estate liability while making full use of the federal unified credit.

(B) Section 2056 (b)(7) of the IRC states that a QTIP election is irrevocable once made. Section 2044 states that the value of any property for which a deduction was allowed under section 2056 (b)(7) must be included in the gross estate of the recipient. Similarly, a QTIP election made on the Washington return is irrevocable, and a surviving spouse who receives property for which a Washington QTIP election was made must include the value of the remaining property in his or her gross estate for Washington estate tax purposes. If the value of property for which a federal QTIP election was made is different, this value is not includible in the surviving spouse's gross estate for Washington estate tax purposes; instead, the value of property for which a Washington QTIP election was made is includible.

(C) The Washington QTIP election must adequately identify the assets, by schedule and item number, included as part of the election, either on the return or, if those assets have not been determined when the estate tax return is filed, on a statement to that effect, prepared when the assets are definitively identified. Identification of the assets is necessary when reviewing the surviving spouse's return, if a return is required to be filed. This statement may be filed with the department at that time or when the surviving spouse's estate tax return is filed.

(D) **Example.** A decedent dies in 2009 with a gross estate of $5 million. The decedent established a QTIP trust for the benefit of her surviving spouse in an amount to result in no federal estate tax. The federal unified credit is $3.5 million for the year 2009. In 2009 the Washington statutory deduction is $2 million. To pay no Washington estate tax the personal representative of the estate has the option of electing a larger percentage or fractional QTIP election resulting in the maximization of the individual federal unified credit and paying no tax for Washington purposes.

The federal estate tax return reflected the QTIP election with a percentage value to pay no federal estate tax. On the Washington return the personal representative elected QTIP treatment on a percentage basis in an amount so no Washington estate tax is due. Upon the surviving spouse's death the assets remaining in the Washington QTIP trust must be included in the surviving spouse's gross estate.

(iv) **Washington qualified domestic trust (QDOT) election.**

(A) A deduction is allowed for property passing to a surviving spouse who is not a U.S. citizen in a qualified domestic trust (a "QDOT"). An executor may elect to treat a trust as a QDOT on the Washington estate tax return even though no QDOT election is made with respect to the trust on the federal return; and also may forgo making an election on the Washington estate tax return to treat a trust as a QDOT even though a QDOT election is made with respect to the trust on the federal return. An election to treat a trust as a QDOT may not be made with respect to a specific portion of an entire trust that otherwise would qualify for the marital deduction, but if the trust is actually severed pursuant to authority granted in the governing instrument or under local law prior to the due date for the election, a QDOT election may be made for any one or more of the severed trusts.

(B) A QDOT election may be made on the Washington estate tax return with respect to property passing to the surviving spouse in a QDOT, and also with respect to property passing to the surviving spouse if the requirements of IRC section 2056 (d)(2)(B) are satisfied. Unless specifically stated otherwise herein, all provisions of sections 2056(d) and 2056A of the IRC, and the federal regulations promulgated thereunder, are applicable to a Washington QDOT election. Section 2056A(d) of the IRC states that a QDOT election is irrevocable once made. Similarly, a QDOT election made on the Washington estate tax return is irrevocable. For purposes of this subsection, a QDOT means, with respect to any decedent, a trust described in IRC section 2056A(a), provided, however, that if an election is made to treat a trust as a QDOT on the Washington estate tax return but no QDOT election is made with respect to the trust on the federal return:

(I) The trust must have at least one trustee that is an individual citizen of the United States resident in Washington state, or a corporation formed under the laws of the state of Washington, or a bank as defined in IRC section 581 that is authorized to transact business in, and is transacting business in, the state of Washington (the trustee required under this subsection is referred to herein as the "Washington Trustee");

(II) The Washington Trustee must have the right to withhold from any distribution from the trust (other than a distribution of income) the Washington QDOT tax imposed on such distribution;

(III) The trust must be maintained and administered under the laws of the state of Washington; and

(IV) The trust must meet the additional requirements intended to ensure the collection of the Washington QDOT tax set forth in (c)(iv)(D) of this subsection.

(C) The QDOT election must adequately identify the assets, by schedule and item number, included as part of the election, either on the return, or, if those assets have not been determined when the estate tax return is filed, or a statement to that effect, prepared when the assets are definitively identified. This statement may be filed with the department at that time or when the first taxable event with respect to the trust is reported to the department.

(D) In order to qualify as a QDOT, the following requirements regarding collection of the Washington QDOT tax must be satisfied.

(I) If a QDOT election is made to treat a trust as a QDOT on both the federal and Washington estate tax returns, the Washington QDOT election will be valid so long as the trust satisfies the statutory requirements of Treas. Reg. Section 20.2056A-2(d).

(II) If an election is made to treat a trust as a QDOT only on the Washington estate tax return, the following rules apply:

If the fair market value of the trust assets exceeds $2 million as of the date of the decedent's death, or, if applicable, the alternate valuation date, the trust must comply with Treas. Reg. Section 20.2056A-2 (d)(1)(i), except that: If the bank trustee alternative is used, the bank must be a bank that is authorized to transact business in, and is transacting business in, the state of Washington, or a bond or an irrevocable letter of credit meeting the requirements of Treas. Reg. Section 20.2056A-2 (d)(1)(i)(B) or (C) must be furnished to the department.

If the fair market value of the trust assets is $2 million or less as of the date of the decedent's death, or, if applicable, the alternate valuation date, the trust must comply with Treas. Reg. Section 20.2056A-2 (d)(1)(ii), except that not more than 35 percent of the fair market value of the trust may be comprised of real estate located outside of the state of Washington.

A taxpayer may request approval of an alternate plan or arrangement to assure the collection of the Washington QDOT tax. If such plan or arrangement is approved by the department, such plan or arrangement will be deemed to meet the requirements of this (c)(iv)(D).

(E) The Washington estate tax will be imposed on:

(I) Any distribution before the date of the death of the surviving spouse from a QDOT (except those distributions excepted by IRC section 2056A (b)(3)); and

(II) The value of the property remaining in the QDOT on the date of the death of the surviving spouse (or the spouse's deemed date of death under IRC section 2056A (b)(4)). The tax is computed using Table W. The tax is due on the date specified in IRC section 2056A (b)(5). The tax shall be reported to the department in a form containing the information that would be required to be included on federal Form 706-QDT with respect to the taxable event, and any other information requested by the department, and the computation of the Washington tax shall be made on a supplemental statement. If Form 706-QDT is required to be filed with the Internal Revenue Service with respect to a taxable event, a copy of such form shall be provided to the department. Neither the residence of the surviving spouse or other QDOT beneficiary nor the situs of the QDOT assets are relevant to the application of the Washington tax. In other words, if Washington state estate tax would have been imposed on property passing to a QDOT at the decedent's date of death but for the deduction allowed by this subsection (c)(iv)(E)(II), the Washington tax will apply to the QDOT at the time of a taxable event as set forth in this subsection (c)(iv)(E)(II) regardless of, for example, whether the distribution is made to a beneficiary who is not a resident of Washington, or whether the surviving spouse was a nonresident of Washington at the date of the surviving spouse's death.

(F) If the surviving spouse of the decedent becomes a citizen of the United States and complies with the requirements of section 2056A (b)(12) of the IRC, then the Washington tax will not apply to: Any distribution before the date of the death of the surviving spouse from a QDOT; or the value of the property remaining in the QDOT on the date of the death of the surviving spouse (or the spouse's deemed date of death under IRC section 2056A (b)(4)).

(d) **Washington taxable estate.** The estate tax is imposed on the "Washington taxable estate." The "Washington taxable estate" means the "federal taxable estate":

(i) Less one million five hundred thousand dollars for decedents dying before January 1, 2006, or two million dollars for decedents dying on or after January 1, 2006;

(ii) Less the amount of any deduction allowed under RCW 83.100.046 as a farm deduction;

(iii) Less the amount of the Washington qualified terminable interest property (QTIP) election made under RCW 83.100.047;

(iv) Plus any amount deducted from the federal estate pursuant to IRC § 2056 (b)(7) (the federal QTIP election);

(v) Plus the value of any trust (or portion of a trust) of which the decedent was income beneficiary and for which a Washington QTIP election was previously made pursuant to RCW 83.100.047; and

(vi) Less any amount included in the federal taxable estate pursuant to IRC § 2044 (inclusion of amounts for which a federal QTIP election was previously made).

(e) **Federal taxable estate.** The "federal taxable estate" means the taxable estate as determined under chapter 11 of the IRC without regard to:

(i) The termination of the federal estate tax under section 2210 of the IRC or any other provision of law; and

(ii) The deduction for state estate, inheritance, legacy, or succession taxes allowable under section 2058 of the IRC.

(3) **Calculation of Washington's estate tax.**

(a) The tax is calculated by applying Table W to the Washington taxable estate. See (d) of this subsection for the definition of "Washington taxable estate."

Table W

Washington Taxable Estate is at Least	But Less Than	The Amount of Tax Equals Initial Tax Amount	Plus Tax Rate %	Of Washington Taxable Estate Value Greater Than
$0	$1,000,000	$0	10.00%	$0
$1,000,000	$2,000,000	$100,000	14.00%	$1,000,000
$2000,000	$3,000,000	$240,000	15.00%	$2,000,000
$3,000,000	$4,000,000	$390,000	16.00%	$3,000,000
$4,000,000	$6,000,000	$550,000	17.00%	$4,000,000
$6,000,000	$7,000,000	$890,000	18.00%	$6,000,000
$7,000,000	$9,000,000	$1,070,000	18.50%	$7,000,000
$9,000,000		$1,440,000	19.00%	$9,000,000

(b) **Examples.**

(i) A widow dies on September 25, 2005, leaving a gross estate of $2.1 million. The estate had $100,000 in expenses deductible for federal estate tax purposes. Examples of allowable expenses include funeral expenses, indebtedness, property taxes, and charitable transfers. The Washington taxable estate equals $500,000.

Gross estate	$2,100,000
Less allowable expenses deduction	- $100,000
Less $1,500,000 statutory deduction	- $1,500,000
Washington taxable estate	$500,000

Based on Table W, the estate tax equals $50,000 ($500,000 x 10% Washington estate tax rate).

(ii) John dies on October 13, 2005, with an estate valued at $3 million. John left $1.5 million to his spouse, Jane, using the unlimited marital deduction. There is no Washington estate tax due on John's estate.

Gross estate	$3,000,000
Less unlimited marital deduction	- $1,500,000
Less $1,500,000 statutory deduction	- $1,500,000
Washington taxable estate	$0

Although Washington estate tax is not due, the estate is still required to file a Washington estate tax return along with a photocopy of the filed and signed federal return and all supporting documentation.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-115, filed 3/9/06, effective 4/9/06.]

WAC 458-57-125 Apportionment of tax when there are out-of-state assets. (1) **Introduction.** This rule applies to deaths occurring on or after May 17, 2005, and discusses how to apportion the estate tax when there is out-of-state property included in the gross estate. The estate tax rule on apportionment of estate tax for deaths occurring on or before May 16, 2005, can be found in WAC 458-57-025.

(2) **Calculation of apportioned tax.** Apportionment is allowed for estate property located outside of Washington. The amount of tax is determined using Table W (see WAC 458-57-115) multiplied by a fraction. The numerator of the fraction is the value of the property located in Washington. The denominator of the fraction is the value of the decedent's gross estate. Property qualifying for the farm deduction is excluded from the numerator and denominator of the fraction. See WAC 458-57-155 (Farm deduction) for additional information on the farm deduction.

(3) **Example.** A widow dies in 2006 leaving a gross estate of $3.1 million. The estate had $100,000 in expenses deductible for federal estate tax purposes. The decedent also owned a home in Arizona valued at $300,000.

Gross estate	$3,100,000
Less allowable expenses deduction	- $100,000
Less $2,000,000 statutory deduction	- $2,000,000
Washington taxable estate	$1,000,000

Based on the tax table, the estate tax equals $100,000 ($1,000,000 x 10% Washington estate tax rate). Because the decedent owned an out-of-state asset, the tax due to Washington is prorated by multiplying the amount of tax owed by a fraction. The numerator of the fraction is the value of the property located in Washington divided by the denominator that equals the value of the decedent's gross estate. The fraction is then multiplied by the amount of tax.

($2,800,000 ($3,100,000 - $300,000) / $3,100,000) x $100,000 = $90,323

The estate does not have to pay estate tax to the state of Arizona in order to reduce the tax owed to Washington. The estate tax due to Washington is $90,323.

(4) **When is property located in Washington?** A decedent's estate may have either real property or tangible personal property located in Washington at the time of death.

(a) All real property physically situated in this state, with the exception of federal trust lands, and all interests in such property, are deemed "located in" Washington. Such interests include, but are not limited to:

(i) Leasehold interests;

(ii) Mineral interests;

(iii) The vendee's (but not the vendor's) interest in an executory contract for the purchase of real property;

(iv) Trusts (beneficial interest in trusts of realty); and

(v) Decedent's interest in jointly owned property (e.g., tenants in common, joint with right of survivorship).

(b) Tangible personal property of a nonresident decedent shall be deemed located in Washington only if:

(i) At the time of death the property is situated in Washington; and

(ii) It is present for a purpose other than transiting the state.

(c) **Example.** A nonresident decedent was a construction contractor doing business as a sole proprietor. The decedent was constructing a large building in Washington. At the time of death, any of the decedent's equipment that was located at the job site in Washington, such as tools, earthmovers, bulldozers, trucks, etc., would be deemed located in Washington for estate tax purposes. Also, the decedent had negotiated and signed a purchase contract for speculative property in another part of Washington. For estate tax purposes, that real property should also be considered a part of the decedent's estate located in Washington.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-125, filed 3/9/06, effective 4/9/06.]

WAC 458-57-135 Washington estate tax return to be filed—Penalty for late filing—Interest on late payments—Waiver or cancellation of penalty—Application of payment. (1) **Introduction.** This rule applies to deaths occurring on or after May 17, 2005, and discusses the due date for filing of Washington's estate tax return and payment of the tax due. It explains that a penalty is imposed on the taxes due with the state return when the return is not filed on or before the due date, and that interest is imposed when the tax due is not paid by the due date. The rule also discusses the limited circumstances under which the law allows the department of revenue to cancel or waive the penalty, and the procedure for requesting that cancellation or waiver. The estate tax rule on the estate tax return etc., for deaths occurring on or before May 16, 2005, can be found in WAC 458-57-035.

(2) **Estate tax return.** The Washington state estate and transfer tax return and the instructions for completing return can be found on the department's web site at http://www.dor.wa.gov/ under the heading titled forms. The return and instructions can also be obtained by calling the estate tax section at 360-570-3265, option 2.

(3) **Filing the state return—Payment of the tax due.**

(a) The Washington estate tax return (state return) referred to in RCW 83.100.050 is due nine months after the date of the decedent's death. The following is the list of documents that must accompany the state return:

(i) A copy of the filed Federal Form 706 United States Estate (and Generation-skipping Transfer), 706NA, or 706QDT Tax Return(s), signed by the person required to file;

(ii) All supporting documentation for completed federal return schedules;

(iii) If applicable, a copy of an approved Form 4768 Application for Extension of Time to File a Return and/or Pay U.S. Estate (and Generation-skipping Transfer) Taxes;

(iv) Copy(ies) of any Washington schedules that differ from the federal form schedules, along with supporting documentation;

(v) Photocopy of death certificate;

(vi) Photocopy of letters of administration, if any;

(vii) Copy of the will and trust(s), if any;

(viii) Copy of other state estate or inheritance return(s) and proof of payment(s), if any; and

(ix) Payment, if tax is due.

The tax due with the state return must be paid on or before the due date.

(b) In any case where a federal return must be filed under the current Internal Revenue Code (IRC) or in the year 2009 and thereafter, if the gross estate of a decedent exceeds two million dollars, a state return must be filed with the Washington state department of revenue (department) on or before the date that the federal return is required or would have been required to be filed. (This may include a federally granted extension of time for filing. See subsection (2)(b).) Section 6075 of the IRC requires that the federal return be filed within nine months after the date of the decedent's death.

(c) **Extensions to file or extensions for payment of tax.**

(i) Section 6081 of the IRC permits the granting of a reasonable extension of time for filing the federal return, generally not to exceed six months from the original due date. If a federal extension of the time to file is granted, the personal representative is required to file a true copy of that extension or installment approval with the department on or before the original due date, or within thirty days of the issuance of the federal extension or installment approval, whichever is later. RCW 83.100.050(2). If the personal representative fails to do so, the department may require the personal representative to file the state return on the date that the federal return would have been due had the federal extension not been granted.

(ii) When the personal representative obtains an extension of time for payment of the federal tax, or elects to pay that tax in installments, the personal representative may choose to pay the state estate tax over the same time period and in the same manner as the federal tax. The personal representative is required to file a true copy of that extension with the department on or before the original due date, or within thirty days of the issuance of the federal extension, whichever is later. RCW 83.100.060(2). If the personal representative fails to do so, the department may require the personal representative to pay the state tax on the date that the federal tax would have been due had the federal extension not been granted.

(iii) **Extensions to file for estates that are not required to file a federal estate tax return.** For those estates that are not required to file a federal return, the personal representative may request a one-time automatic six-month extension to file. The request must be in writing and acknowledge that interest will begin to accrue from the original due date of the state return. The written request for the extension must be made prior to the date the state return is due.

(iv) **Extension to pay tax owed for estates that are not required to file a federal estate tax return.** For those estates that are not required to file a federal return, the personal representative may request an extension of time for paying the tax owed when payment of the tax would cause an undue hardship upon the estate or for a payment plan for closely held businesses. The granting of an extension of time to pay the tax owed or for a payment plan for closely held business will not operate to prevent the running of interest. RCW 83.100.070.

Hardship extensions to pay.

In any case in which the department finds that payment, on the due date prescribed, or any part of a deficiency would impose undue hardship upon the estate, the department may extend the time for payment for a period or periods not to exceed one year for any one period and for all periods not to exceed four years from the original due date of payment.

The extension will not be granted upon a general statement of hardship. The term "undue hardship" means more than an inconvenience to the estate. It must appear that a substantial financial loss, for example, due to the sale of property at a sacrifice price, will result to the estate from making payment of the tax owed at the date payment is due. If a market exists, a sale of property at the current market price is not ordinarily considered as resulting in an undue hardship. No extension will be granted if the deficiency is due to negligence or intentional disregard of rules and regulations or to fraud with intent to evade the tax.

An application for such an extension must be in writing and must contain, or be supported by, information in a written statement declaring that it is made under penalties of perjury showing the undue hardship that would result to the estate if the extension were refused. The application, with the supporting information, must be filed with the department. When received, it will be examined, and, if possible, within thirty days will be denied, granted, or tentatively granted subject to certain conditions of which the personal representative will be notified. The department will not consider an application for such an extension unless it is applied for on or before the due date for payment. If the personal representative desires to obtain an additional extension, it must be applied for on or before the date of the expiration of the previous extension.

The amount of tax owed for which an extension is granted, along with interest as determined by RCW 83.100.-070, shall be paid on or before the expiration of the period of extension without the necessity of notice and demand from the department.

(v) **Payment plans for closely held businesses.** The department will abide by the provisions of section 6166 of the 2005 IRC for the granting of payment plans for closely held businesses.

(4) **The late filing penalty.** If the state return is not filed by the due date, or any extension of the state return's due date, the person required to file the return may be subject to a late filing penalty.

(a) **When does the penalty apply?** Penalty applies if the person required to file the return has not timely filed the state return with the department prior to being notified by the department, in writing, of the necessity to file the state return. The late payment penalty is equal to five percent of the tax due for each month during which the state return has not been filed, not to exceed the lesser of twenty-five percent of the tax or one thousand five hundred dollars. RCW 83.100.070.

(b) **How is the penalty computed?** The penalty is the equivalent of five percent for each month, but is accrued on a daily basis for those periods less than a month. For any portion of a month, it is calculated by taking the five percent monthly rate and dividing it by the number of days from the beginning of the month through the date the return is filed, including the filing date.

For example, a state return is due on February 3rd but is not filed until April 20th of the same year. The state return is delinquent starting with February 4th. The amount of tax due with the state return is $10,000.

(i) The penalty is computed as follows:

Feb 4-Feb 28	$10,000 tax at 5% per month	$446.43
Mar 1-Mar 31	$10,000 tax at 5% per month	$500.00
Apr 1-Apr 20	$10,000 tax at .1667% x 20 days	$333.34
Total delinquent penalty due on April 20th filing date		$1,297.77

(ii) In this example, the first month (February) is a partial month. February has twenty-eight days, the five percent monthly rate is divided by twenty-eight days to arrive at a daily rate of .0017857 (or .17857 percent). The daily rate is then multiplied by the twenty-five days of penalty accrual to arrive at the total percentage of penalty due for that portion of a month (.0017857 x 25 days = .044643 or 4.4643 percent). The second calendar month (March) is complete and incurs the full five percent penalty. The last portion of a month is a total of seventeen days, including both April 4th and April 20th. Since April has thirty days total, the five percent monthly rate is divided by the thirty days in April to arrive at a daily rate of .001667 (or .1667 percent). The daily rate is then multiplied by the twenty days of penalty accrual to arrive at the total percentage of penalty due for that portion of a month (.001667 x 20 days =.03334 or 3.334 percent).

(5) **Interest is imposed on late payment.** The department is required by law to impose interest on the tax due with the state return if payment of the tax is not made on or before the due date. RCW 83.100.070. Interest applies to the delinquent tax only, and is calculated from the due date until the date of payment. Interest imposed for periods after December 31, 1996, will be computed at the annual variable interest rate described in RCW 82.32.050(2). Interest imposed for periods prior to January 1, 1997, will be computed at the rate of twelve percent per annum.

(6) **Waiver or cancellation of penalties.** RCW 83.100.-070(3) authorizes the department to waive or cancel the pen-

alty for late filing of the state return under limited circumstances.

(a) **Claiming the waiver.** A request for a waiver or cancellation of penalties should contain all pertinent facts and be accompanied by such proof as may be available. The request must be made in the form of a letter and submitted to the department's special programs division. The person responsible bears the burden of establishing that the circumstances were beyond their control and directly caused the late filing. The department will cancel or waive the late filing penalty imposed on the state return when the delinquent filing is the result of circumstances beyond the control of the person responsible for filing of the state return. The person responsible for filing the state return is the same person who is responsible for filing the federal return.

(b) **Circumstances eligible for waiver.** In order to qualify for a waiver of penalty the circumstances beyond the control of the person responsible for filing the state return must directly cause the late filing of the return. These circumstances are generally immediate, unexpected, or in the nature of an emergency. Such circumstances result in the person not having reasonable time or opportunity to obtain an extension of their due date (see subsection (2)(b)) or to otherwise timely file the state return. Circumstances beyond the control include, but are not necessarily limited to, the following:

(i) The delinquency was caused by the death or serious illness of the person responsible for filing the state return or a member of the immediate family. In order to qualify for penalty waiver, the death or serious illness must directly prevent them from having reasonable time or opportunity to arrange for timely filing of the state return. Generally, the death or serious illness must have occurred within sixty days prior to the due date, provided that a valid state return is filed within sixty days of the due date.

(ii) The delinquency was caused by an unexpected and unavoidable absence of the person responsible. Generally, this absence must be within sixty days prior to the due date, provided that a valid state return is filed within sixty days of the due date. "Unavoidable absence of the person responsible" does not include absences because of business trips, vacations, personnel turnover, or personnel terminations.

(iii) The delinquency was caused by the destruction by fire or other casualty of estate records necessary for completion of the state return.

(iv) An estate tax return was timely filed, but was filed incorrectly with another state due to an issue of the decedent's domicile.

(v) A Washington estate tax return was properly prepared and timely filed, but was sent to the location for filing of the federal estate tax return.

(7) **Waiver or cancellation of interest.** Title 83 RCW (Estate taxation) does not provide any circumstances that allow for waiver of the interest, even though penalty may be waived under limited circumstances (see subsection (6) of this section).

(8) **Application of payment towards liability.** The department will apply taxpayer payments first to interest, next to penalties, and then to the tax, without regard to any direction of the taxpayer.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-135, filed 3/9/06, effective 4/9/06.]

WAC 458-57-145 Administration of the tax—Releases, amended returns, refunds, and statute of limitations. (1) **Introduction.** This rule applies to deaths occurring on or after May 17, 2005, and contains information on releases issued by the department for state estate taxes paid. It explains how and when an amended state return should be filed and information on refunds and statute of limitations. The estate tax rule on releases, amended returns etc., for deaths occurring on or before May 16, 2005, can be found in WAC 458-57-045.

(2) **Releases.** When the state estate taxes have been paid in full, the department will issue a release to the personal representative. The final determination of the amount of taxes due from the estates that have filed federal returns is contingent upon receipt of a copy of the final closing letter issued by the Internal Revenue Service (IRS). The department may require additional information to substantiate information provided by those estates that are not required to file federal returns. The release issued by the department will not bind or estop the department in the event of a misrepresentation of facts.

(3) **Amended returns.** An amended state return must be filed with the department within five days of amending a federal return with the IRS and must be accompanied by a copy of the amended federal return. For those estates that are not required to file a federal return, an amended estate tax return must be received within three years from the date the original estate tax return was filed or within two years of paying the tax, whichever is later.

(a) Any time that the amount of federal tax due is adjusted or when there is a final determination of the federal tax due, the person responsible for filing must give written notification to the department. This notification must include copies of any final examination report, any compromise agreement, the state tax closing letter, and any other available evidence of the final determination.

(b) If any amendment, adjustment or final determination results in additional state estate tax due, interest will be calculated on the additional tax due at the annual variable interest rate described in RCW 82.32.050.

(4) **Refunds.** Only the personal representative or the personal representative's retained counsel may make a claim for a refund of overpaid tax. If the application for refund, with supporting documents, is filed within four months after an adjustment or final determination of tax liability, the department shall pay interest until the date the refund is mailed. If the application for refund, with supporting documents, is filed after four months after the adjustment or final determination, the department shall pay interest only until the end of the four-month period. Any refund issued by the department will include interest at the existing statutory rate defined in RCW 82.32.050, computed from the date the overpayment was received by the department until the date it is mailed to the estate's representative. RCW 83.100.130.

(5) **Statute of limitations.**

(a) No assessment or correction of an assessment for additional taxes, penalties, or interest due may be made by the department more than four years after the close of the calendar year in which a Washington return is due under this chapter, including any extension of time for filing, except upon a showing of fraud or of misrepresentation of a material fact by the taxpayer.

(b) For persons liable for tax under RCW 83.100.120, the period for assessment or correction of an assessment extend an additional three years beyond the period described in (a) of this subsection.

(c) A taxpayer may extend the periods of limitation under (a) or (b) of this subsection by executing a written waiver. The execution of the waiver shall also extend the period for making a refund as provided in RCW 83.100.130.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-145, filed 3/9/06, effective 4/9/06.]

WAC 458-57-155 Farm deduction. (1) **Introduction.** This rule applies to deaths occurring on or after May 17, 2005, and is intended to help taxpayers determine if the estate is eligible for the farm deduction and to correctly calculate the deduction.

(2) **Definitions.** The following terms and definitions are applicable throughout chapter 458-57 WAC:

(a) "Active management" means the making of the management decisions of a farm, other than the daily operating decisions;

(b) "Farm" includes stock, dairy, poultry, fruit, furbearing animal, and truck farms; plantation; ranches; nurseries; ranges; greenhouses or other similar structures used primarily for the raising of agricultural or horticultural commodities; and orchards and woodlands;

(c) "Farming purposes" means:

(i) Cultivating the soil or raising or harvesting any agricultural or horticultural commodity, including the raising, shearing, feeding, caring for, training, and management of animals on a farm;

(ii) Handling, drying, packing, grading, or storing on a farm any agricultural or horticultural commodity in its unmanufactured state, but only if the owner, tenant, or operator of the farm regularly produces more than one-half of the commodity so treated; and

(iii)(A) The planting, cultivating, caring for, or cutting of trees; or

(B) The preparation, other than milling, of trees for market.

(d) "Member of the family" means, with respect to any individual, only:

(i) An ancestor of the individual;

(ii) Spouse of the individual;

(iii) A lineal descendant of the individual; of the individual's spouse, or a parent of the individual; or

(iv) The spouse of any lineal descendant described in (d)(iii) of this subsection.

A legally adopted child of an individual shall be treated as the child of such individual by blood.

(e) "Qualified heir" means, with respect to any property, a member of the decedent's family who acquired property, or to whom property passed, from the decedent.

(f)(i) "Qualified real property" means real property which was acquired from or passed from the decedent to a qualified heir of the decedent and which, on the date of the decedent's death, was being used for a qualified use by the decedent or a member of the decedent's family, but only if:

(A) Fifty percent or more of the adjusted value of the gross estate consists of the adjusted value of real or personal property which:

(I) On the date of the decedent's death, was being used for a qualified use by the decedent or a member of the decedent's family; and

(II) Was acquired from or passed from the decedent to a qualified heir of the decedent;

(B) Twenty-five percent or more of the adjusted value of the gross estate consists of the adjusted value of real property which meets the requirements of (f)(i)(A)(II) and (C) of this subsection; and

(C) During the eight-year period ending on the date of the decedent's death there have been periods aggregating five years or more during which:

(I) The real property was owned by the decedent or a member of the decedent's family and used for a qualified use by the decedent or a member of the decedent's family; and

(II) There was material participation by the decedent or a member of the decedent's family in the operation of the farm. For the purposes of this subsection (f)(i)(C)(II), material participation shall be determined in a manner similar to the manner used for purposes of section 1402 (a)(1) of the Internal Revenue Code (IRC).

(ii) For the purposes of this subsection, the term "adjusted value" means:

(A) In the case of the gross estate, the value of the gross estate, determined without regard to any special valuation under section 2032A of the IRC, reduced by any amounts allowable as a deduction under section 2053 (a)(4) of the IRC; or

(B) In the case of any real or personal property, the value of the property for purposes of chapter 11 of the IRC, determined without regard to any special valuation under section 2032A of the IRC, reduced by an amount allowable as a deduction in respect of such property under section 2053 (a)(4) of the IRC.

(g) "Qualified use" means the property is used as a farm for farming purposes. In the case of real property which meets the requirements of (f)(i)(C) of this subsection, residential buildings and related improvements on the real property occupied on a regular basis by the owner or lessee for the purpose of operating or maintaining the real property, and roads, buildings, and other structures and improvements functionally related to the qualified use shall be treated as real property devoted to the qualified use. For tangible personal property eligible for a deduction under subsection (1)(b) of this section, "qualified use" means the property is used primarily for farming purposes on a farm.

(h) "Qualified woodland" means any real property which:

(i) Is used in timber operations; and

(ii) Is an identifiable area of land such as an acre or other area for which records are normally maintained in conducting timber operations.

(i) "Timber operations" means:

(i) The planting, cultivating, caring for, or cutting of trees; or

(ii) The preparation, other than milling, of trees for market.

(3) **Farm deduction—Qualification criteria.**

(a) A deduction from the Washington taxable estate is available for the value of qualified real property and the value of any tangible personal property used by the decedent or a member of the decedent's family for a qualified use. In certain circumstances an estate of a tenant farmer may deduct the value of agricultural personal property. See subsection (7) of this section. If the estate is eligible for the federal special valuation of farmland it would also be eligible for the state deduction. The estate does not have to elect special valuation treatment for federal purposes in order to take the state deduction. Unlike the federal special valuation for farmland there is no requirement that the heir to the land and equipment continue farming.

(b) There are several criteria that must be met before the deduction can be taken:

(i) Decedent at the time of his or her death was a citizen or resident of the United States;

(ii) Fifty percent or more of the estate's adjusted value must be in agricultural real and personal property;

(iii) On the date of the decedent's death the real and personal property must have been used for a qualified use (farming) by the decedent or a member of the decedent's family;

(iv) The real and personal property must pass from the decedent to a qualified heir; and

(v) Twenty-five percent or more of the estate consists of agricultural real property (land) that was actively managed by the decedent or the decedent's family.

(4) **What does "acquired from the decedent" mean?** Property shall be considered to have been acquired from or to have passed from the decedent if:

(a) The property is so considered under section 1014(b) of the IRC;

(b) The property is acquired by any person from the estate; or

(c) The property is acquired by any person from a trust, to the extent the property is includible in the gross estate of the decedent.

(5) **Treatment of qualified real property held as a community property.** If the decedent and the decedent's surviving spouse at any time held qualified real property as community property, the interest of the surviving spouse in the property shall be taken into account under this section.

(6) **Value of trees growing on woodlands.** In the case of qualified woodland, the value of trees growing on the woodland may be deducted if otherwise qualified under this section.

(7) **Tenant farmers.** If the following criteria are met, the estate of a tenant farmer may deduct from the Washington taxable estate the value of the agricultural personal property:

(a) Decedent at the time of his or her death was a citizen or resident of the United States;

(b) Fifty percent or more of the estate adjusted value must be in agricultural personal property;

(c) On the date of the decedent's death the personal property must have been used for a qualified use (farming) by the decedent or a member of the decedent's family; and

(d) The personal property must pass from the decedent to a qualified heir.

(8) **Examples.**

(a) The decedent died May 18, 2005, with an adjusted gross estate valued at $4 million. The decedent was a dry land wheat farmer and owned 2000 acres of land valued at $2 million ($1,000 per acre) and $500,000 in farm equipment. The decedent was a U.S. citizen, owned and worked the acreage for the last twenty years, and left the farm to his son, a qualified heir. The value of the farm acreage and equipment exceeds the required 50% or more of the adjusted gross estate ($2,000,000 + $500,000 > $4,000,000 x 50%). The value of the 2000 acres and the farm equipment can be deducted from the decedent's federal taxable estate. In this example estate tax is not due. The calculations are shown below:

Federal taxable estate	$4,000,000
Less $2,500,000 farm deduction	- $2,500,000
Less $1,500,000 statutory exemption	- $1,500,000
Washington taxable estate	$0

Although Washington estate tax is not due, the estate is still required to file a Washington estate tax return along with a photocopy of the filed and signed federal return and all supporting documentation.

(b) The decedent died August 28, 2005, with an adjusted gross estate valued at $5 million. The decedent was a hay farmer and owned 600 acres of land valued at $1.8 million ($3,000 per acre) and $500,000 in farm equipment. The decedent was a U.S. citizen, owned and worked the acreage for the last twenty years, and left the farm to his son, a qualified heir. The value of the farm acreage and equipment did not meet the required 50% or more of the adjusted gross estate, therefore, the estate cannot deduct the value of the farm and farm equipment ($1,800,000 + $500,000 < $5,000,000 x 50%). Here are the calculations:

Federal taxable estate	$4,000,000
Less $1,500,000 statutory exemption	- $1,500,000
Washington taxable estate	$3,500,000

Based on the tax table, the estate owes $470,000 in Washington estate tax.

(c) The decedent died May 23, 2005, with an adjusted gross estate valued at $1.6 million. The decedent was a tenant hay farmer that owned $400,000 of hay in storage that had been harvested but not sold and $800,000 in farm equipment. The decedent was a U.S. citizen, used the farm equipment in a qualified use for the last six years, and left the equipment to his son-in-law, a qualified heir. The value of the farm equipment met the required 50% or more of the adjusted gross estate so it can be deducted from the decedent's federal taxable estate ($800,000 = $1,600,000 x 50%). In this example no estate tax is due. The calculations are shown below:

Federal taxable estate	$1,600,000
Less $800,000 farm deduction	- $800,000
Less $1,500,000 statutory exemption	- $1,500,000
Washington taxable estate	$0

Although Washington estate tax is not due, the estate is still required to file a Washington estate tax return along with a photocopy of the filed and signed federal return and all supporting documentation.

(d) The decedent died April 7, 2006, with an adjusted gross estate valued at $2.5 million. The decedent owned 100 acres of timberland valued at $100,000 ($1,000 per acre), timber valued at $800,000 ($80,000 per acre), 200 acres of pasture land valued at $500,000 ($2,500 per acre) and $50,000 in farm equipment. The decedent was a U.S. citizen, owned and worked the acreage for the last ten years, and left the timber and farm land to his daughter, a qualified heir. The value of the timberland and farm acreage and equipment exceeded the required 50% or more of the adjusted gross estate therefore the estate can deduct the value of the timber and farm land and farm equipment ($100,000 + $800,000 + $500,000 + $50,000 > $2,500,000 x 50%). The calculations are shown below:

Federal taxable estate	$2,500,000
Less $1,450,000 farm deduction	- $1,450,000
Less $2,000,000 statutory exemption	- $2,000,000
Washington taxable estate	$0

Although Washington estate tax is not due, the estate is still required to file a Washington estate tax return along with a photocopy of the filed and signed federal return and all supporting documentation.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-155, filed 3/9/06, effective 4/9/06.]

WAC 458-57-165 Escheat estates and absentee distributee (missing heir) property. (1) **Introduction.** This rule explains the notification requirements to the department and other procedural information for potential escheat estates and the procedures for reporting absentee distributee property.

(2) **Escheat estates.**

(a) Escheat of an estate means that a person dies, whether a resident of this state or not, leaving property subject to the jurisdiction of this state without being survived by any person entitled to the property under RCW 11.04.015 (descent and distribution) and the property reverts to the state.

(b) **Notification to the department of a potential escheat estate.** The department must be promptly notified in writing of the potential escheat on revenue form 85 0030-1 Notice of Escheat Property when a decedent dies without a will and has no known intestate heirs. This form can be found on the department's web site at http://dor.wa.gov/ under the tab titled forms. The form can also be obtained by calling the estate tax section at 360-570-3265, option 2.

(c) **Department may elect to serve as personal representative.**

(i) The department may elect to serve as the personal representative of an escheat estate under RCW 11.28.120. The department will review the submitted notice of escheat property and then elect or decline to serve as personal representative. A copy of this election is mailed to the person reporting the escheat property.

(ii) **Written notice to the department of proceedings.** If the department declines to serve as personal representative, the appointed personal representative must serve the department with written notice at least twenty days prior to any hearing on proceedings involving the valuation or sale of property, on any petition for the allowance of fees, and on all interim reports, final accounts or petitions for the determination of heirship. Failure to comply with the notice provisions of RCW 11.08.170 could result in any orders being voided.

(d) **Oversight of estate when department declines to serve as personal representative—Opposition to nonintervention powers—Review of pleadings and petitions.** The department supervises escheat property during probate. The department has the duty to protect and conserve escheat property for the benefit of the permanent common school fund until the property is forwarded to the state treasurer or the real property is deeded over to the department of natural resources. Because of the duty to protect and conserve escheat property, the department will oppose the granting of nonintervention powers to the personal representative. The department will review all pleadings and petitions to determine the progression of probate and to determine if fees and expenses charged to the estate are appropriate.

(e) **Heirs of escheat estates.** Heirs to an estate may be located after the estate escheats to the state. The personal representative of an escheat estate or a claimed heir must provide the department with all information and documentary evidence available that supports the heir's claim. All supporting documents must be in the English language when submitted to the department. The English translation of any foreign document shall be authenticated as reasonably required by the department.

(i) Under RCW 11.08.240 all claims for escheated property must be made within seven years from the date of issuance of letters testamentary or of administration. The claim is made to the court having original jurisdiction of the estate and a copy served upon the department.

(ii) In all cases where there is a court hearing or the taking of a deposition on the question of a claimed heir, the personal representative shall give the department twenty days written notice of such hearing or matter.

(iii) The personal representative must give the department at least twenty days written notice of the hearing on the final account and petition for distribution.

(iv) The department has no statutory authority to pay interest on escheat refunds.

(3) **Absentee distributee (missing heir).**

(a) Absentee distributee means any person who is a beneficiary of a will or trust who has not been located. If a personal representative cannot locate a beneficiary of a will or trust the personal representative is required to follow the procedures outlined in RCW 11.76.200 through 11.76.230.

(b) **Appointment of agent—Bond.**

(i) When an estate has been or is about to be distributed by decree of the court to any person who has not been located, the personal representative must petition the court to appoint an agent for the purposes of representing the interests of the absentee distributee and to take possession and charge of the property for the benefit of the absentee person.

(ii) The agent shall make, subscribe, and file an oath for the faithful performance of his or her duties, and shall give a bond to the state, to be approved by the court before the agent receives the property.

(iii) The agent shall hold the property for three years. If the absentee distributee is not found or does not come forward to make a claim, the property must be turned over to the county treasurer. Any property not in the form of cash shall be sold under order of the court and all funds after deducting a reasonable sum for expenses and services of the agent. The expenses and the fees of the agent are fixed by the court.

(c) **County treasurer.** The county treasurer is required to issue a triplicate receipt for the funds, one to be filed with the county auditor, one with the probate court, and one with the department. If the funds remain in the county treasury unclaimed for a period of four years and ninety days, the treasurer is required to remit them to the department for deposit in the permanent common school fund.

(d) **Claims made after the time limitation.** After any time limitation prescribed in RCW 11.76.220, 11.76.240 or 11.76.243 the absentee claimant may notify the department of his or her claim and file in the court which had jurisdiction of the original probate a petition claiming the assets of the estate. Upon proof being made to the court and the determination that the claimant is entitled to the property the assets shall be paid to the claimant without interest.

[Statutory Authority: RCW 83.100.047 and 83.100.200. 06-07-051, § 458-57-165, filed 3/9/06, effective 4/9/06.]

Chapter 458-61A WAC
REAL ESTATE EXCISE TAX

WAC

GENERAL INFORMATION AND TAXABILITY OF TRANSFERS

EXEMPTIONS AND EXCLUSIONS

COLLECTION AND ADMINISTRATION

GENERAL INFORMATION AND TAXABILITY OF TRANSFERS

WAC 458-61A-100 Real estate excise tax—Overview. (1) **Introduction.** Chapter 82.45 RCW imposes an excise tax on every sale of real estate in the state of Washington. All sales of real property in this state are subject to the real estate excise tax unless specifically exempted by chapter 82.45 RCW and these rules. The general provisions for the administration of the state's excise taxes contained in chapter 82.32 RCW apply to the real estate excise tax, except as provided in RCW 82.45.150. This chapter provides applicable definitions, describes procedures for payment, collection, and reporting of the tax, explains when penalties and interest are imposed on late payment, describes those transactions exempted from imposition of the tax, and explains the procedures for refunds and appeals.

(2) **Imposition of tax.**

(a) The taxes imposed are due at the time the sale occurs, are the obligation of the seller, and, in most instances, are collected by the county upon presentation of the documents of sale for recording in the public records.

(b) If there is a sale of the controlling interest in an entity that owns real property in this state, the tax is paid to the department at the time the interest is transferred. See WAC 458-61A-101.

(3) **Rate of tax.** The rate of the tax is set forth in RCW 82.45.060. Counties, cities, and towns may impose additional taxes on sales of real property on the same incidences, collection, and reporting methods authorized under chapter 82.45 RCW. See chapter 82.46 RCW.

(4) **Nonprofit organizations.** Transfers to or from an organization exempt from ad valorem property taxes under chapter 84.36 RCW, or from federal income tax, because of the organization's nonprofit or charitable status are nevertheless subject to the real estate excise tax unless specifically exempt under chapter 82.45 RCW or these rules.

(5) **Sales in Indian country.** A sale of real property located in Indian country by an enrolled tribe or tribal member is not subject to real estate excise tax. See WAC 458-20-192 for complete information regarding the taxability of transactions involving Indians and Indian country.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-100, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-101 Taxability of the transfer or acquisition of the controlling interest of an entity with an interest in real property located in this state. (1) **Introduction.** The transfer of a controlling interest in an entity that has an interest in real property in this state is considered a taxable sale of the entity's real property for purposes of the real estate excise tax under chapter 82.45 RCW. This rule explains the application of the tax on those transfers.

(2) **Definitions.** For the purposes of this chapter, the following definitions apply unless the context requires otherwise.

(a) **"Controlling interest"** means:

(i) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

(ii) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in such partnership, association, trust, or other entity.

Examples. The following examples, while not exhaustive, illustrate some of the circumstances in which the transfer of an interest in an entity may or may not be taxable. These examples should be used only as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(A) Able and Baker each own 40% of the voting shares of a corporation, Flyaway, Inc. Charlie, Delta, Echo, and Frank each own 5% voting shares. Charlie acquires Baker's 40% interest, and Delta's and Echo's 5% interests. This is a taxable acquisition because a controlling interest (50% or more) was acquired by Charlie (40% from Baker plus 5% from Delta and 5% from Echo). However, if Charlie, Delta, and Echo were to transfer their shares (totaling 15%) to Able, those transfers would not be taxable. Although Able would own 55% of the corporation, only a 15% interest was transferred and acquired, so the acquisition by Able is not taxable.

(B) Melody LLC consists of a general partner and three limited partners, each possessing a 25% interest. Even though the general partner controls the management and daily operations, a 25% interest is not a controlling interest. If someone were to acquire a 50% or greater interest from any of the existing partners, there would be a taxable acquisition of a controlling interest. If one partner acquires an additional 25% interest from another partner for a total of a 50% interest, no transfer or acquisition of a controlling interest occurs because less than 50% is transferred and acquired.

(C) Anne, Bobby, Chelsea, and David each own 25% of the voting shares of a corporation. The corporation redeems the shares of Bobby, Chelsea, and David. Anne now owns all the outstanding shares of the corporation. A taxable transfer occurred when the corporation redeemed the shares of Bobby, Chelsea, and David.

(D) Andrew owns 75% of the voting shares of a corporation. Andrew transfers all of his stock by 25% portions of the shares in three separate and unrelated transactions to Betsy, Carolyn, and Daniel, who are not acting in concert. A taxable transfer of a controlling interest occurs when Andrew transfers 75% of the voting shares of the corporation, even though no one has subsequently acquired a controlling interest.

(E) Big Corporation has two stockholders, Adrian and Britain. Adrian owns 90 shares of stock (90%) and Britain owns 10 shares of stock (10%). Big Corporation owns 60% of the stock of Little Corporation, which owns real property. Adrian, by virtue of owning 90% of Big Corporation's stock, has a 54% interest in Little Corporation (90% interest in Big multiplied by the 60% interest Big has in Little equals the 54% interest Adrian has in Little). Adrian sells his 90 shares of stock in Big to Britain. Adrian, by selling his 90 shares of Big stock, has transferred a controlling interest (54%) in an entity that owns real property (Little). This transfer is subject to the real estate excise tax.

(F) Assume the same facts as in Example (E) of this subsection, except that Big owns only 50% of Little's stock. Since Adrian has not transferred and Britain has not acquired a controlling interest in Little (90% x 50% = 45%), the real estate excise tax does not apply. If, however, Big had transferred its 50% interest in Little, that would be a transfer of a controlling interest and it would be subject to the real estate excise tax.

(b) The terms **"person"** or **"company"** mean any individual, receiver, administrator, executor, assignee, trustee in bankruptcy, trust, estate, firm, copartnership, joint venture, club, company, joint stock company, business trust, municipal corporation, the state of Washington or any political subdivision thereof, corporation, limited liability company association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit, or otherwise, and the United States or any agency or instrumentality thereof.

(c) **"True and fair value"** means market value, which is the amount of money that a willing, but unobliged, buyer would pay a willing, but unobligated, owner for real property, taking into consideration all reasonable, possible uses of the property.

(d) **"Twelve-month period"** is any period of twelve consecutive months and may span two calendar years.

(e) **"Acting in concert"** occurs:

(i) When one or more persons have a relationship with each other such that one person influences or controls the actions of another through common ownership. For example, if a parent corporation and a wholly owned subsidiary each purchase a 25% interest in an entity, the two corporations have acted in concert and acquired a controlling (i.e., at least 50%) interest in the entity.

(ii) Where buyers are not commonly controlled or owned, but the unity of purpose with which they have negotiated and will complete the acquisition of ownership interests, indicates that they are acting together. For example, three separate individuals who decide together to acquire control of a company jointly through separate purchases of 20% interests in the company act in concert when they acquire the interests.

(3) **In general.** In order for the tax to apply when the controlling interest in an entity that owns real property is transferred, the following must have occurred:

(a) The transfer or acquisition of the controlling interest occurred within a twelve-month period;

(b) The controlling interest was transferred in a single transaction or series of transactions by a single person or acquired by a single person or a group of persons acting in concert;

(c) The entity has an interest in real property located in this state;

(d) The transfer is not otherwise exempt under chapters 82.45 RCW and 458-61A WAC; and

(e) The transfer was made for valuable consideration.

(4) **Measure of the tax.** The measure of the tax is the "selling price." For the purpose of this rule, "selling price" means the true and fair value of the real property owned by the entity at the time the controlling interest is transferred.

(a) If the true and fair value of the property cannot reasonably be determined, one of the following methods may be used to determine the true and fair value:

(i) A fair market value appraisal of the property; or

(ii) An allocation of assets by the seller and the buyer made pursuant to section 1060 of the Internal Revenue Code of 1986, as amended or renumbered as of January 1, 2005.

(b) If the true and fair value of the property to be valued at the time of the sale cannot reasonably be determined by either of the methods in (a) of this subsection, the market value assessment for the property maintained on the county property tax rolls at the time of the sale will be used as the selling price.

(c) **Examples.**

(i) A partnership owns real property and consists of two partners, Amy and Beth. Each has a 50% partnership interest. The true and fair value of the real property owned by the partnership is $100,000. Amy transfers her 50% interest in the partnership to Beth for valuable consideration. The taxable selling price is the true and fair value of the real property owned by the partnership, or $100,000.

(ii) A corporation consists of two shareholders, Chris and Dilbert. The assets of the corporation include real property, tangible personal property, and other intangible assets (goodwill, cash, licenses, etc.). An appraisal of the corporation's assets determines that the values of the assets are as follows: $250,000 for real property; $130,000 for tangible personal property; and $55,000 for miscellaneous intangible assets. Chris transfers his 50% interest to Ellie for valuable consideration. The taxable selling price is the true and fair value of the real property owned by the corporation, or $250,000.

(iii) An LLC owns real property and consists of two members, Frances and George. Each has a 50% LLC interest. Frances transfers her 50% interest to George. In exchange for the transfer, George pays Frances $100,000. The true and fair value of the real property owned by the LLC is unknown. There is no debt on the real property. A fair market value appraisal is not available. The market value assessment for the property maintained on the county property tax rolls is $275,000. The taxable selling price is the market value assessment, or $275,000.

(5) **Persons acting in concert.** The tax applies to acquisitions made by persons acting in concert, as defined in subsection (2)(f) of this section.

(a) Where persons are not commonly controlled or influenced, factors that indicate whether persons are acting in concert include:

(i) A close relation in time of the transfers or acquisitions;

(ii) A small number of purchasers;

(iii) Mutual terms contained in the contracts of sale; and

(iv) Additional agreements to the sales contract that bind the purchasers to a course of action with respect to the transfer or acquisition.

(b) If the acquisitions are completely independent, with each purchaser buying without regard to the identity of the other purchasers, then the persons are not acting in concert, and the acquisitions will be considered separate acquisitions.

(c) **Example.** Able owns 100% of Emerald Corporation, which owns real property. As a group, Baker, Charlie, Delta, and Echo negotiate to acquire all of Able's interest in Emerald. Baker, Charlie, Delta, and Echo each acquire 25% of Able's interest. The contracts of Baker, Charlie, Delta, and Echo are identical and the purchases occur simultaneously. Baker, Charlie, Delta, and Echo also negotiated an agreement binding themselves to a course of action with respect to the acquisition of Emerald and the terms of the shareholders agreement that will govern their relationship as owners of Emerald. Baker, Charlie, Delta, and Echo are acting in concert and their acquisitions from Able are treated as a single acquisition of a controlling interest that is subject to the real estate excise tax.

(6) **Date of sale.**

(a) When the controlling interest is acquired in one transaction, the actual date control is transferred is the date of sale. Examples of when an interest in an entity is transferred include when payment is received by the seller and the shares of stock are delivered to the buyer, or when payment is received by the seller and partnership documents are signed, etc. However, if the parties enter into an agreement to acquire or transfer a controlling interest over time through a series of transactions, the date of sale is deemed the date of the agreement arranging the transactions. The agreement results in the transfer of both a present interest and a beneficial interest in the entity, the sum of which results in a controlling interest, regardless of whether the first of the successive transactions is more than twelve months prior to the final transaction.

(b) **Examples.**

(i) Andrew owns 100% of the voting shares of Topaz Corporation. Andrew signs a binding agreement to transfer 51% of his shares in the corporation to Ted. The agreement states that the transfer will occur as follows: 49% of the shares will be transferred on January 1st, and the remaining 2% of the shares will be transferred on February 1st of the following year. Andrew has contractually agreed to sell 51% of the voting shares in Topaz within a twelve-month period, even though the shares will not actually be transferred to Ted until later. The date of sale is the date of the agreement, and REET is due upon the true and fair value of the property as of the date of the agreement.

(ii) Matt acquires a 10% interest in an entity which owns an apartment building under construction worth $500,000 from Simon on January 30th. On July 30th Matt acquires a 30% interest in the same entity from Mary, but the building is now worth $900,000. On September 30th Matt acquires a 10% interest in the same entity from Ruth, but the building is now worth $1,000,000. These are three separate and completely independent transfers. The final transfer allowed Matt to acquire, within twelve months, a controlling interest in an entity that owns real property. September 30th is the date of sale.

To determine the sellers' proportional tax liability in the example above, the series of transactions is viewed as a whole. Note both the individual and the total interests transferred. Here, Simon and Mary each conveyed 10% interests, while Ruth conveyed a 30% interest, with a total of a 50% interest being conveyed. To determine the liability percentage for each seller, divide the interest each conveyed by the total interest conveyed (Here, Simon and Mary: 10/50 = 20%; Ruth: 30/50 = 60%). This results in tax liability percentages here for Simon and Mary of 20% each and for Ruth, 60%.

To determine the amount of tax owed, the percentage is applied to the value of the property at the time of conveyance. In the example above, the value of the property to which the percentage applies is dependent on the time of each transfer (i.e., Simon's 20% on the $500,000; Mary's 60% on the $900,000; Ruth's 20% on the $1,000,000).

(7) **Tax liability.** When there is a transfer or acquisition of a controlling interest in an entity that has an interest in real property, the seller of the interest is generally liable for the tax.

(a) When the seller has not paid the tax by the due date and neither the buyer nor the seller has notified the department of the sale within thirty days of the sale, the buyer is also liable for the tax.

(b) When the buyer has notified the department of the sale within thirty days of the sale, the buyer will not be held personally liable for any tax due.

(8) **Reporting requirements.** The transfer of a controlling interest in real property must be reported to the department when no instrument is recorded in the official real property records of the county in which the property is located. If the transfer is not taxable due to an exemption, that exemption should be stated on the affidavit.

(a) The sale must be reported by the seller to the department within five days from the date of the sale on the department of revenue affidavit form, DOR Form 84-0001B. The affidavit form must be signed by both the seller and the buyer, or their agent, and must be accompanied by payment of the tax due.

(b) The affidavit form may also be used to disclose the sale, in which case:

(i) It must be signed by the person making the disclosure; and

(ii) It must be accompanied by payment of the tax due only when submitted by a seller reporting a taxable sale.

(c) Any person who intentionally makes a false statement on any return or form required to be filed with the department under this chapter is subject to penalty of perjury.

(d) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which the transfer of an interest in an entity must be reported to the department. These examples should be used only as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(i) Simon and Peter each own 40% of the voting shares of a corporation. Paul, Matthew, Mark, and John each own 5% voting shares. Paul acquires Peter's 40% interest, and Matthew's and Mark's 5% interests. This is a taxable acquisition because a controlling interest (50% or more) was acquired by Paul (40% from Peter plus 5% from Matthew and 5% from Mark). This transaction must be reported.

(ii) Assume same facts as in example (d)(i) of this subsection. Paul's attorney advises him that for his protection, Paul should file an affidavit to disclose the sale. Paul files an affidavit to disclose the sale to the department within thirty days of the date of sale. Peter, Matthew, and Mark go on vacation and the affidavit and required tax payment is not sent to the department. The department notifies Peter, Matthew, and Mark of their tax liability, which now includes interest and penalties. Due to Paul's disclosure, Paul is relieved of any personal liability for the tax, interest, or penalties.

(iii) Assume the same facts as in example (d)(i) of this subsection, except Paul only acquires Peter's 40% interest and Matthew's 5% interest. This is not a taxable acquisition because a controlling interest (50% or more) was not acquired by Paul. This transaction does not need to be reported.

(9) **Due date, interest and penalties.** The tax imposed is due and payable immediately on the date of sale. See WAC 458-61A-306 for interest and penalties that may apply.

(10) **Transfers after tax has been paid.** When there is a transfer or acquisition of a controlling interest in an entity and the real estate excise tax is paid on the transfer, and there is a subsequent acquisition of an additional interest in the same entity within the same twelve-month period by a person acting in concert with the previous buyer(s), the subsequent seller is liable for its proportional portion of the tax. After payment by the subsequent seller of its proportional share, the person(s) who previously paid the tax may apply to the department for a refund of the amount overpaid because of the new proportional amount paid as a result of the subsequent transfer or acquisition.

(11) **Exemptions.** Because transfer and acquisition of a controlling interest in an entity that owns real estate in this state is statutorily defined as a "sale" of the real property owned by the entity, the exemptions of chapter 82.45 RCW and this chapter also apply to the sale of a controlling interest.

Examples.

(a) The merger of a wholly owned subsidiary owning real property located in this state with another subsidiary wholly owned by the same parent is a transfer of a controlling interest. However, this transfer may be exempt from taxation on two grounds. First, it may be exempt because it is a mere change in form or identity (see WAC 458-61A-211). Second, it may be exempt if it qualifies under the nonrecognition of gain or loss provisions of the Internal Revenue Code for entity formation, liquidation and dissolution, and reorganization. (See WAC 458-61A-212.)

(b) Taki owns 100% of a corporation. Taki wants her child, Mieko, and corporate manager, Sage, to be co-owners with her in the corporation. Taki makes a gift of 50% of the voting stock to Mieko and sells 33 1/3% to Sage. Although a controlling interest in the corporation has been transferred to and acquired by Mieko, it is not taxed because a gift is an exempt transfer and not considered for purposes of determining whether a controlling interest has transferred. The sale of the 33 1/3% interest to Sage is not a controlling interest, and is not taxed.

(c) Richard owns 75% of the voting stock of a corporation that owns real estate located in this state. Richard pledges all of his corporate stock to secure a loan with a bank. When Richard defaults on the loan and the bank forecloses on Richard's stock in the corporation, the transfer and acquisition of the controlling interest of the entity is not a taxable transaction because foreclosures of mortgages and other security devices are exempt transfers. (See WAC 458-61A-208.)

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-101, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-102 Definitions. For the purposes of chapter 458-61A WAC, the following definitions apply unless the context requires otherwise:

(1) **"Affidavit"** means the real estate excise tax affidavit provided by the department for use by taxpayers in reporting transfers of real property. Both the seller/grantor and the buyer/grantee, or their agents, sign the affidavit under penalty of perjury. The term also includes the form used to report to the department transfers and acquisitions of a controlling interest in an entity owning real property in this state under WAC 458-61A-101.

(2) **"Consideration"** means money or anything of value, either tangible or intangible, paid or delivered, or contracted to be paid or delivered, including performance of services, in return for the transfer of real property. The term includes the amount of any lien, mortgage, contract indebtedness, or other encumbrance, given to secure the purchase price, or any part thereof, or remaining unpaid on the property at the time of sale. For example, Lee purchases a home for $250,000. He puts down $50,000, and finances the balance of $200,000. The full consideration paid for the house is $250,000.

(a) "Consideration" includes the issue of an ownership interest in any entity in exchange for a transfer of real property to the entity. For example, if Julie transfers title to 20 acres of commercial property to Smith Development, LLC in exchange for a 50% ownership interest in the company, that constitutes consideration for the transfer. In the case of partnerships, consideration includes the increase in the capital account of the partner made as a result of the partner's transfer of real property to the partnership, unless the transfer is otherwise specifically exempt under WAC 458-61A-211 or 458-61A-212.

(b) "Consideration" includes the assumption of an underlying debt on the property by the buyer at the time of transfer. For example, Ben buys a residence, valued at $300,000, from Liza. Liza was purchasing the property on a real estate contract that has an outstanding balance of $175,000. Ben gives Liza $125,000 in cash and he assumes the obligation on the real estate contract, which Liza assigns to him. Real estate excise tax is due on $300,000, which is the total consideration for the sale.

(c) "Consideration" does not include the amount of any outstanding lien or encumbrance in favor of the United States, the state, or a municipal corporation for taxes, special benefits, or improvements. For example, Mel buys residential property for $300,000. The title is encumbered by a lien for unpaid property taxes in the amount of $12,000, and a lien for municipal sidewalk improvements in the amount of $6,000. Although Mel will become liable for those liens in order to take title to the property, they are not considered part of the purchase price for the purpose of calculating real estate excise tax. The real estate excise tax is due only on the purchase price of $300,000.

(3) **"Controlling interest"** means:

(a) In the case of a corporation, either fifty percent or more of the total combined voting power of all classes of stock of the corporation entitled to vote, or fifty percent of the capital, profits, or beneficial interest in the voting stock of the corporation; and

(b) In the case of a partnership, association, trust, or other entity, fifty percent or more of the capital, profits, or beneficial interest in the partnership, association, trust, or other entity.

(4) **"County"** means the county treasurer or its agent.

(5) **"Date of sale"** means the date (normally shown on the instrument of conveyance or sale) that ownership of or title to real property, or control of the controlling interest in an entity that has a beneficial interest in real property, is delivered to the buyer/transferee in exchange for valuable consideration. In the case of a lease with option to purchase, the date of sale is the date when the purchase option is exercised and the property is transferred. "Date of sale," "date of transfer," "conveyance date," and "transaction date" all have the same meaning and may be used interchangeably in this chapter. The real estate excise tax is due on the date of sale.

(6) **"Department"** means the department of revenue.

(7) **"Domestic partner"** means one of two adults who are "state registered domestic partners" as defined in RCW 26.60.020.

(8) **"Floating home"** means a building on a float used in whole or in part for human habitation as a single-family dwelling, which is not designed for self-propulsion by mechanical means or for propulsion by means of wind, and which is on the property tax rolls of the county in which it is located.

(9) **"Governmental entity"** means the United States, any agency or instrumentality of the United States, the state of Washington ("state"), any government agency, commission, college, university, or other department of the state, any political subdivision of the state, counties, any county agency, council, instrumentality, commission, office, or department, any Washington taxing district, municipal corporations of this state, and any office, council, department, or instrumentality of a Washington municipal corporation.

(10) **"Mining property"** is property containing or believed to contain metallic or nonmetallic minerals, and sold or leased under terms that require the buyer or lessee to conduct exploration or mining work thereon, and for no other purpose.

(11) **"Mobile home"** means a mobile home as defined by RCW 46.04.302.

(12) **"Mortgage"** has its ordinary meaning, and includes a "deed of trust" for the purposes of this chapter, unless the context clearly indicates otherwise. The term "underlying debt" may also be used to refer to a mortgage or other security interest.

(13) **"Park model trailer"** means a park model trailer as defined in RCW 46.04.622.

(14) **"Real estate"** or **"real property"** means any interest, estate, or beneficial interest in land or anything affixed to land, including the ownership interest or beneficial interest in any entity that owns land, or anything affixed to land, including standing timber and crops. The term includes condominiums and individual apartments for which the buyer receives a

warranty deed. The term includes used mobile homes, used park model trailers, used floating homes, and improvements constructed upon leased land. The term also includes any part of an irrigation system that is underground or affixed to the land. The term does not include irrigation equipment that is above the ground or that is not affixed to land. See RCW 82.12.020 for the tax treatment of sales of irrigation equipment that is not included in the definition of "real estate."

(15) **"Real estate contract"** or **"contract"** means any written agreement for the sale of real property in which legal title to the property is retained by the seller as security for the payment of the purchase price. The term does not include earnest money agreements or options to purchase real property.

(16) **"Sale"** means:

(a) Any conveyance, grant, assignment, quitclaim, or transfer of the ownership of or title to real property, including standing timber, or any estate or interest therein for a valuable consideration, and any contract for such a conveyance, grant, assignment, quitclaim, or transfer, and any lease with an option to purchase real property, including standing timber, or any estate or interest therein or other contract under which possession of the property is given to the purchaser, or any other person at the purchaser's direction, and title to the property is retained by the vendor as security for the payment of the purchase price. The term includes the grant, relinquishment, or assignment of a life estate in property. The term also includes the grant, assignment, quitclaim, sale, or transfer of improvements constructed upon leased land.

(b) The term "sale" also includes the transfer or acquisition within any twelve-month period of a controlling interest in any entity with an interest in real property located in this state for a valuable consideration. For the purposes of this chapter, all acquisitions of persons acting in concert are aggregated for the purpose of determining whether a transfer or acquisition of a controlling interest has taken place.

(c) The term "sale" also applies to successive sales of the same property. An owner of real property is subject to payment of the real estate excise tax upon the entry of each successive contract for the sale of the same parcel of property. For example, Bob owns a house that he sells to Sam on a real estate contract. Real estate excise tax is paid on the transfer from Bob to Sam. Sam makes several payments, until he becomes unemployed. Since Sam can no longer make payments on the property, he conveys it back to Bob. Bob then makes a subsequent sale of the house to Sally. Real estate excise tax is due on the transfer from Bob to Sally. See WAC 458-61A-209 for the tax implications on the conveyance from Sam back to Bob.

(d) The term "sale" does not include:

(i) Those real property transfers that are excluded from the definition of "sale" and exempted from the real estate excise tax under RCW 82.45.010(3) and this chapter, including transfers without valuable consideration.

(ii) The transfer of lots or graves in an established cemetery. An established cemetery is one that meets the requirements for ad valorem property tax exemption under chapter 84.36 RCW.

(iii) The transfer of an interest in real property merely to secure a debt or the assignment of a security interest, release of a security interest, satisfaction of a mortgage, or reconveyance under the terms of a mortgage or deed of trust.

(iv) A deed given to a purchaser under a real estate contract upon fulfillment of the terms of the contract provided that the proper tax was paid on the original transaction. The fulfillment deed must be stamped by the county treasurer as required by WAC 458-61A-301, and the stamp must show the affidavit number of the sale for which the deed is fulfilling.

(v) A qualified sale of a manufactured/mobile home community, as defined in RCW 59.20.030, that takes place on or after June 12, 2008, but before December 31, 2018.

(e) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a transfer may or may not be taxable. These examples should be used only as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(i) John paid off his home mortgage and wants to get a loan to make improvements and buy a new car. John obtains an equity loan, secured by his home as collateral. This transaction is not subject to the real estate excise tax.

(ii) Bob purchased real property from Sam pursuant to a real estate contract. Real estate excise tax was paid on the purchase price at the time of the sale. Bob has now paid off the property, and Sam is issuing a fulfillment deed to Bob indicating that the real estate contract has been satisfied. The fulfillment deed from Sam to Bob is not subject to the real estate excise tax.

(iii) Diane has made the final payment on her mortgage, and the bank issues a full reconveyance of her property, indicating that the mortgage is paid in full. The reconveyance is not subject to the real estate excise tax.

(iv) Bill is refinancing his mortgage for a lower interest rate. There is a balloon payment on the new loan that will require that he refinance again in five years. Neither transaction is subject to the real estate excise tax.

(17) **"Seller"** means any individual, receiver, assignee, trustee for a deed of trust, trustee in bankruptcy, trust, estate, firm, partnership, joint venture, club, company, joint stock company, limited liability company, business trust, municipal corporation, quasi municipal corporation, association, society, or any group of individuals acting as a unit, whether mutual, cooperative, fraternal, nonprofit or otherwise, but it does not include the United States or the state of Washington. The term "grantor" is used interchangeably with the term "seller" in this chapter and has the same meaning for purposes of the real estate excise tax.

(18) **"Selling price"** means the true and fair value of the property conveyed. There is a rebuttable presumption that the true and fair value is equal to the total consideration paid or contracted to be paid to the seller or to another person for the seller's benefit.

(a) When the price paid does not accurately reflect the true and fair value of the property, one of the following methods may be used to determine the true and fair value:

(i) A fair market appraisal of the property; or

(ii) An allocation of assets by the seller and the buyer made under section 1060 of the Internal Revenue Code of 1986, as amended.

(b) When the true and fair value of the property at the time of sale cannot reasonably be determined by either of the methods in (a) of this subsection, the market value assessment for the property maintained in the county property tax rolls at the time of sale will be used as the selling price. RCW 82.45.030.

(c) When the sale is of a partial interest in real property, the principal balance of any debt remaining unpaid at the time of sale will be multiplied by the percentage of ownership transferred, and that amount added to any other consideration to determine the selling price.

(d) In the case of a lease with option to purchase, the selling price is the true and fair value of the property conveyed at the time the option is exercised.

[Statutory Authority: RCW 82.45.150. 08-24-095, § 458-61A-102, filed 12/2/08, effective 1/2/09. Statutory Authority: RCW 82.32.300, 82.01.-060(2), and 82.45.150. 05-23-093, § 458-61A-102, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-103 Transfers involving an underlying debt. (1) **Introduction.** The real estate excise tax applies to transfers of real property when the grantee relieves the grantor from an underlying debt on the property or makes payments on the grantor's debt. The measure of the tax is the combined amount of the underlying debt on the property and any other consideration.

For example, Yen transfers property to Lee that is subject to an underlying debt. Yen is personally liable for the debt, meaning that if Yen does not make the payments the lender may foreclose on the property and obtain a judgment against Yen if the value of the property is insufficient to pay the debt. Lee agrees to make all future payments on Yen's debt but gives no other consideration for the property. Yen owes real estate excise tax on the amount of the underlying debt. Lee's payments on the underlying debt relieve Yen of her debt obligation. Therefore, Yen receives consideration.

(2) **Transfers where grantor has no personal liability for the underlying debt.** Real estate excise tax does not apply to transfers of real property subject to an underlying debt when the grantor has no personal liability for the debt and receives no other consideration for the transfer.

For example, Yen purchases property with funds obtained from PSP Corporation and secured only by the property. Yen has no personal liability for this debt. If Yen fails to make payments on the debt, PSP may foreclose on the property but it may not obtain a judgment against Yen. Yen transfers the property to Lee subject to the underlying debt. Lee takes the property subject to the underlying debt, and does not give any other consideration for the property. If Lee fails to make payments, PSP may foreclose on the property but it may not obtain a judgment against Lee (who, like Yen before, has no personal liability for the debt). Because Yen is not personally liable for the debt, Lee's payments on the underlying debt to PSP do not relieve Yen of any liability for the debt. The real estate excise tax does not apply to this transfer because there is no consideration.

(3) **Documentation.** In order to avoid the incidence of the tax, the grantor must present and maintain proper documentation to verify the type of debt and to confirm that fact that the grantor is not personally liable for the debt.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-103, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-104 Assignments. (1) **Purchasers.**

(a) The real estate excise tax does not apply to an assignment of a purchaser's interest in an earnest money agreement if neither the earnest money agreement nor its assignment results in a change of title to or ownership of the real property.

(b) The real estate excise tax does apply to transfers when the purchaser of real property under a real estate contract assigns the purchaser's interest in the contract for consideration. The tax is based on all consideration paid or contracted to be paid to the grantor for the assignment, including any unpaid principal balance due on the assigned real estate contract.

(2) **Sellers.** The real estate excise tax does not apply when a seller of real property under a real estate contract assigns any interest in the contract to a third party.

(3) **Documentation.** The real estate excise tax affidavit is not required for exempt assignments; however, the instrument of assignment must be stamped by the county treasurer as required by WAC 458-61A-301. The stamp will cross-reference the number of the affidavit relating to the contract being assigned.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-104, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-105 Mobile and floating home sales. (1) **Mobile homes.** The transfer of a mobile home is subject to either real estate excise tax or sales/use tax, depending on the characteristics of the transfer, regardless of whether the mobile home is classified as real or personal property on the assessment rolls.

(2) **Application of real estate excise tax.** The real estate excise tax applies to the transfer of a mobile home that:

(a) Is affixed to land by a foundation (post or blocks) and has connections for utilities;

(b) Is not required to be removed from the land as a condition of sale; and

(c) Has been subject to retail sales or use tax during a previous sale.

(3) **Sales or use tax.** Mobile home sales are subject to retail sales or use tax in the following instances:

(a) The initial retail sale of the mobile home;

(b) The sale from a dealer's lot of either a new or used mobile home;

(c) If the removal of the mobile from the land is a condition of the sale; or

(d) The mobile home is not affixed to the land by a foundation and does not have connections for utilities.

(4) **Floating homes.** The real estate excise tax applies to the transfer of a floating home that is:

(a) Constructed on a float used in whole or in part for human habitation as a single-family dwelling;

(b) Not designed for self-propulsion by mechanical means or for propulsion by means of wind; and

(c) Listed on the real property tax rolls of the county in which it is located and in respect to which tax has been paid under chapter 82.08 or 82.12 RCW.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-105, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-106 Sales of improvements to land, leases, and leases with option. (1) **Introduction.**

(a) The sale of improvements constructed on real property is subject to the real estate excise tax if the contract of sale does not require that the improvements be removed at the time of sale.

(b) The transfer of a lessee's interest in a leasehold for valuable consideration is taxable to the extent the transfer includes any improvement constructed on leased land. If the selling price of an improvement is not separately stated, or cannot otherwise be reasonably determined, the assessed value of the improvement as entered on the assessment rolls of the county assessor will be used.

(2) **Lease with option to purchase.** The real estate excise tax applies to a lease with option to purchase at the time the purchase option is exercised and the property is transferred. The measure of the tax is the true and fair value of the property conveyed at the time the option is exercised.

(3) **Improvements removed from land.** The real estate excise tax does not apply to the sale of improvements if the terms of the sales contract require that the improvements be removed from the land. In this case the improvements are considered personal property and their use by the purchaser is subject to the use tax under chapter 82.12 RCW.

(4) **Documentation.** Completion of the affidavit is required for all of the above transfers except a transfer described in subsection (3) of this section, in which case the purchaser must file a use tax return with the department.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-106, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-107 Option to purchase. (1) **Introduction.** The real estate excise tax applies to a conveyance of real property upon the exercise of an option to purchase.

(2) **Taxability of sales of options.** The real estate excise tax does not apply to the grant or sale of an option and the real estate excise tax affidavit is not required for that transaction. However, the sale of an option is subject to business and occupation tax under the service and other category and should be reported on the combined excise tax return. RCW 82.04.290.

(3) **Examples.**

(a) Joe acquires an option at a cost of $100,000. The option, if exercised, allows Joe to purchase ten parcels of land for $700,000. As individual parcels, these lots of land are uneconomical to develop. Joe "packages" the land, making it economically feasible to develop by either obtaining sufficient acreage or required studies. Buildup, a real estate development and construction company, purchases Joe's option on the property for $2.3 million and subsequently exercises the option, paying $700,000 for the land. The real estate excise tax does not apply to the sale of the option, however the $2.3 million received for the option is subject to the business and occupation tax under the service and other category. The measure of the real estate excise tax is the $700,000 purchase price paid on the transfer of the land.

(b) Consider the same initial facts as in the example in (a) of this subsection, but instead, Joe exercises the option, and subsequently sells the land to Buildup. The real estate excise tax applies to both the transfer to Joe and the subsequent transfer from Joe to Buildup.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-107, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-108 Contractor. (1) **In general.** If land is deeded to a contractor with an agreement to reconvey the property after construction of an improvement, the real estate excise tax does not apply to either the first conveyance or to the reconveyance if:

(a) The land is deeded for the sole purpose of enabling the contractor to obtain financing for the construction of the improvement on the property conveyed; and

(b) The agreement to reconvey is contained in a written statement made prior to the original conveyance.

(2) **Tax treatment.** When both of the requirements of subsection (1) of this section have been met, the deed to the contractor, although absolute on its face, will be treated as creating a security interest only. However, the sales price of the improvement is subject to retail sales tax under chapter 82.08 RCW and business and occupation tax under chapter 82.04 RCW.

(3) **Documentation.** Real estate excise tax affidavits are required for both the original conveyance and the reconveyance. The affidavit must contain wording to the effect that the purpose of the transfers is for construction and security purposes only. The affidavit for reconveyance must refer to the date and number of the original affidavit.

(4) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples are provided as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(a) Jill owns an unimproved lot. She contracts with Sapphire Construction to build a residence on her lot. The contract provides that the lot will be deeded to Sapphire to obtain financing. The contract also states the property will be deeded back to Jill when the residence is completed. No real estate excise tax is due on the transfer of the vacant lot from Jill to Sapphire. Six months later, the residence is completed. Sapphire Construction transfers the property (land plus improvement) to Jill. No real estate excise tax is due on this transfer. The sales price of the improvement is subject to retail sales tax under chapter 82.08 RCW and business and occupation tax under chapter 82.04 RCW.

(b) Eleanor owns a house on 20 acres. She contracts with Ruby Development to sell 19 of her acres, but keeps ownership of her house and one acre that it sits on. The price is $20,000 per acre. Since the property is not subdivided, she must convey all of her property to Ruby Development, under the condition that the house and the one acre will be deeded back to her when the property is subdivided. Eleanor transfers the 20-acre parcel to Ruby Development. Real estate excise tax is due on the $380,000 contract price (19 acres x $20,000 per acre). After one year, Ruby Development has the property subdivided into 20 one-acre parcels. Ruby Development transfers to Eleanor the house and one acre per the original contract. No real estate excise tax is due on the transfer from Ruby Development to Eleanor.

(c) Next to Eleanor, Bob owns 25 acres. He contracts with Ruby Development to sell his 25 acres for $400,000, with the agreement that two lots will be transferred back to him after the development is completed. Real estate excise tax is due on the $400,000 contract price. The reconveyance of two lots back to Bob is not subject to real estate excise tax.

(5) If a contractor, acting under the terms of a contract, purchases land on behalf of a customer for the purposes of constructing an improvement, the later conveyance of the property to the customer is not subject to the real estate excise tax provided the requirements of WAC 458-61A-214 (Nominee) are met. The sales price of the improvement is subject to retail sales tax under chapter 82.08 RCW and business and occupation tax under chapter 82.04 RCW.

(6) When the owner of a lot contracts to have an improvement built upon the lot and retains title to the land, or when a lessee contracts to have an improvement built upon the lot and retains the leasehold interest, the real estate excise tax does not apply to the purchase of the improvement. The sales price of the improvement is subject to retail sales tax under chapter 82.08 RCW and business and occupation tax under chapter 82.04 RCW.

(7) When a speculative builder owns a lot and builds an improvement upon it, the subsequent sale of land and improvement is subject to the real estate excise tax. When a speculative builder sells a parcel of property with a partially constructed improvement with the understanding that the builder will complete the improvement, the real estate excise tax applies to the percentage of the project complete at the time of transfer. The retail sales tax applies to that portion of the selling price representing the construction to be completed after transfer.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-108, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-109 Trading/exchanging property and boundary line adjustments. (1) **Trading/exchanging property.** The real estate excise tax applies when real property is conveyed in exchange for other real property or any other valuable property. The real estate excise tax is due on the true and fair value for each individual property.

(2) **Boundary line adjustments.**

(a) **Introduction.** A boundary line adjustment is a legal method to make minor changes to existing property lines between two or more contiguous parcels. Real estate excise tax may apply depending upon the specific circumstances of the transaction. Boundary line adjustments include, but are not limited to, the following:

(i) Moving a property line to follow an existing fence line;

(ii) Moving a property line around a structure to meet required setbacks;

(iii) Moving a property line to remedy a boundary line dispute;

(iv) Moving a property line to adjust property size and/or shape for owner convenience; and

(v) Selling a small section of property to an adjacent property owner.

(b) **Boundary line adjustments in settlement of dispute.** Boundary line adjustments made solely to settle a boundary line dispute are not subject to real estate excise tax if no other consideration is present.

(c) **Taxable boundary line adjustments.** In all cases, real estate excise tax applies to boundary line adjustments if there is consideration (other than resolution of the dispute), such as in the case of a sale or trade of property.

(3) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples are provided as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(a) Mr. Jehnsen and Mr. Smith own adjoining parcels of land separated by a fence. During a survey to confirm the property boundary of Mr. Smith's parcel, the parties discover that the true property line actually extends five feet over on Mr. Jehnsen's side of the fence. Mr. Jehnsen does not want to move the fence. He has paved, landscaped and maintained this section of land and if he gave it up he would lose his parking area. After numerous discussions regarding the property line, Mr. Smith agrees to quitclaim the five-foot section of land to Mr. Jehnsen. Real estate excise tax does not apply since there is no consideration other than resolution of the dispute.

(b) Mr. Smith will only agree to transfer the five-foot section of land to Mr. Jehnsen if he is paid $1,000. Mr. Smith owes real estate excise tax on $1,000.

(c) Mr. Smith will cede the five-foot parcel only if Mr. Jehnsen gives him a narrow strip of land in exchange. Mr. Jehnsen agrees to exchange a ten-foot section of his parcel for the five-foot section of Mr. Smith's parcel solely to resolve the boundary line dispute. Real estate excise tax does not apply. It is irrelevant that the property involved in the transfer is not equal since the sole purpose of the transfer is to settle a boundary line dispute.

(d) Mr. Smith and Mr. Jehnsen are unable to resolve their dispute over the five-foot parcel. Mr. Jehnsen agrees to trade his lake front cabin for Mr. Smith's entire parcel. Mr. Jehnsen will owe real estate excise tax on the fair market value of the lake front cabin. Mr. Smith owes real estate excise tax on the fair market value of his parcel.

(e) Mr. Smith wants something in exchange for giving the five-foot parcel to Mr. Jehnsen. Mr. Jehnsen agrees to give Mr. Smith his tractor in exchange for the five-foot section of land. Mr. Smith will owe real estate excise tax on the fair market value of the five-foot section of his parcel and use tax on the value of the tractor (see WAC 458-20-178).

(f) Mr. Robbins owns 18 acres of land adjacent to Ms. Pemberton's 22-acre parcel. Mr. Robbins would like to develop his 18 acres, but he needs two more acres to develop the land. Ms. Pemberton agrees to give Mr. Robbins two acres of land. In exchange Mr. Robbins agrees to pave Ms. Pemberton's driveway as part of the land development. The real estate excise tax is due on the true and fair value of the two acres conveyed to Mr. Robbins. In addition, sales or use tax may be due on the value of the paving.

(4) **Documentation.** In all cases, an affidavit is required to record the new property line.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-109, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-110 Relocation service—Two-deed process. (1) **Introduction.** The real estate excise tax applies to property transfers involving the two-deed process or delivery of a deed, blank as to the grantee, but otherwise complete.

(2) **Delivery to third party.** The subsequent delivery of the deed to a third person named as grantee for consideration is also a taxable sale.

(3) **Examples.** The following examples identify a number of facts and then state a conclusion. These examples are provided as a general guide. The status of each situation must be determined after a review of all of the facts and circumstances.

(a) Bob lists his house with a realtor under an agreement that if the house does not sell within four months, the realtor will purchase the house from Bob at the agreed price. Bob intends to purchase a house listed with that realtor and needs the funds from the sale of his house to use as a payment for the new house. Bob's house does not sell within the four-month period so the realtor purchases Bob's house. Bob executes a blank deed and gives it to the realtor, authorizing the realtor to insert the grantee's name when the realtor eventually resells the house. Real estate excise tax is due on both transfers. Bob owes real estate excise tax on the selling price of the house at the time he transfers the house to the realtor. The realtor owes real estate excise tax on the selling price of the house upon sale to the final buyer.

(b) PSP Corporation contracts with a relocation company to handle the sale of homes for its employees that are relocating. The employee transfers the property to the relocation company. The relocation company delivers the deed to an escrow company who holds the deed until the relocation company finds a buyer. Real estate excise tax is due on both transfers. Tax is due when the employee transfers the deed to the relocation company. Real estate excise tax is due on the second transfer when the relocation company transfers the property to the buyer.

(4) **Transactions involving only a single deed.** In the event the transactions are accomplished by one deed, the county may require documentation confirming the date of sale of each transaction. The documentation may include a copy of the relocation contract, copy of the settlement statement(s), etc. Even though there is only one deed, two taxable transactions have occurred, and real estate excise tax is due on both.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-110, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-111 Easements, development rights, water rights, and air rights. (1) **Easements.** The real estate excise tax applies to the conveyance of an easement for the use of real property in return for valuable consideration. The real estate excise tax affidavit is required only if the transfer is taxable.

(2) **Development rights, water rights, and air rights.**

(a) The real estate excise tax applies to the sale of development rights, water rights, and air rights. The measure of the tax is the total consideration received in exchange for the transfer of the right. The real estate excise tax affidavit must be completed for the transfer of development rights, water rights, and air rights regardless of whether a taxable sale has occurred.

(b) **"Development rights"** means transferable rights to the unused development on a parcel of land measured by the difference between the existing development density on the parcel and the density allowed by applicable zoning laws.

(c) **"Water rights"** means transferable rights to the diversion, extraction or use of water arising by virtue of the ownership of land located contiguous to surface water, a water right claim, or the possession of a water right permit or certificate issued by the department of ecology.

(d) **"Air rights"** means the exclusive undisturbed use and control of a designated air space within the perimeter of a stated land area and within stated elevations.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-111, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-112 Mineral rights and mining claims. (1) **When tax is imposed.** A conditional sale of mining property in which the grantee has the right to terminate the contract at any time, and a lease and option to buy mining property in which the lessee/grantee has the right to terminate the lease and option at any time, is taxable at the time of execution on the amount of the consideration paid to the grantor/lessor for execution of the contract. The tax due on any additional consideration paid by the grantee and received by the grantor is paid to the county upon the first occurrence of the following events:

(a) The time of termination;

(b) The time that all of the consideration due to the grantor has been paid and the transaction is completed except for the delivery of the deed to the grantee; or

(c) The time when the grantee unequivocally exercises an option to purchase the property.

(2) **Lease for royalty.** A mining lease that grants the lessee the right to conduct mining exploration upon or under the surface of real property and to remove minerals from the property in exchange for a royalty is not subject to the real estate excise tax when the lease does not transfer ownership of the minerals to the lessee prior to severance from the real property.

(3) **Patented claims.** Patented mining claims are real property and their sale is subject to the real estate excise tax.

(4) **Unpatented claims.** Unpatented mining claims are intangible personal property and therefore not subject to the real estate excise tax.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-112, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-113 Timber, standing. (1) The real estate excise tax applies to the sale of timber if the ownership of the timber is transferred while the timber is standing. The tax applies to the sale of standing timber whether the sale is accomplished by deed or by contract. See also chapters 84.33 RCW and 458-40 WAC for specific regulations and rules regarding the taxation of timber and forest land.

(2) The grantor's irrevocable agreement to sell timber and pass ownership to it as it is cut is a taxable transaction if the total amount of the sale is specified in the original contract.

(3) A contract to transfer the ownership of timber after it has been cut and removed from land by the grantee is not a taxable transaction.

(4) A contract between a timber owner and a harvester when the harvester provides the service of cutting the timber and transporting it to the mill is not subject to the real estate

excise tax if the timber owner retains ownership of the timber until it is delivered to and purchased by the mill.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-113, filed 11/16/05, effective 12/17/05.]

EXEMPTIONS AND EXCLUSIONS

WAC 458-61A-200 Exemptions and exclusions. Introduction. There are limited exemptions or exclusions from the real estate excise tax provided by law. WAC 458-61A-201 through 458-61A-217 discuss exemptions and the procedures that must be followed to qualify for an exemption.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-200, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-201 Gifts. (1) **Introduction.** Generally, a gift of real property is not a sale, and is not subject to the real estate excise tax. A gift of real property is a transfer for which there is no consideration given in return for granting an interest in the property. If consideration is given in return for the interest granted, then the transfer is not a gift, but a sale, and it is subject to the real estate excise tax to the extent of the consideration received.

(2) **Consideration.** See WAC 458-61A-102 for the definition of "consideration." Consideration may also include:

(a) Monetary payments from the grantee to the grantor; or

(b) Monetary payments from the grantee toward underlying debt (such as a mortgage) on the property that was transferred, whether the payments are made toward existing or refinanced debt.

(3) **Assumption of debt.** If the grantee agrees to assume payment of the grantor's debt on the property in return for the transfer, there is consideration, and the transfer is not exempt from tax. Real estate excise tax is due on the amount of debt assumed, in addition to any other form of payment made by the grantee to the grantor in return for the transfer. However, equity in the property can be gifted.

(4) **Rebuttable presumption regarding refinancing transactions.**

(a) There is a rebuttable presumption that the transfer is a sale and not a gift if the grantee is involved in a refinance of debt on the property within six months of the time of the transfer.

(b) There is a rebuttable presumption that the transfer is a gift and not a sale if the grantee is involved in a refinance of debt on the property more than six months from the time of the transfer.

(5) **Documentation.**

(a) A completed real estate excise tax affidavit is required for transfers by gift. A supplemental statement approved by the department must be completed and attached to the affidavit. The supplemental statement will attest to the existence or absence of underlying debt on the property, whether the grantee has or will in the future make any payments on the debt, and whether a refinance of debt has occurred or is planned to occur. The statement must be signed by both the grantor and the grantee.

(b) The grantor must retain financial records providing proof that grantor is entitled to this exemption in case of audit by the department. Failure to provide records upon request will result in subsequent denial of the exemption.

(6) **Examples.**

(a) **Overview.** The following examples, while not exhaustive, illustrate some of the circumstances in which a grant of an interest in real property may qualify for this exemption. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(b) **Examples—No debt.**

(i) John conveys his residence valued at $200,000 to Sara. John comes off of the title. There is no underlying debt on the property, and Sara gives John no consideration for the transfer. The conveyance from John to Sara qualifies for the gift exemption from real estate excise tax.

(ii) Keith and Jean, as joint owners, convey their residence valued at $200,000 to Jean as her sole property. There is no underlying debt on the property. In exchange for Keith's one-half interest in the property, Jean gives Keith $10,000. Keith has made a gift of $90,000 in equity, and received consideration of $10,000. Real estate excise tax is due on the $10,000.

(c) **Examples—Existing debt.**

(i) Josh conveys his residence valued at $200,000 to Samantha. Josh has $25,000 in equity and an underlying debt of $175,000. Josh continues to make the mortgage payments out of his own funds, and Samantha does not contribute any payments toward the debt. Since Josh continues to make the payments, there is no consideration from Samantha to Josh, and the transfer qualifies for exemption as a gift.

(ii) Josh conveys the residence to Samantha, and after the transfer, Samantha begins to make payments on the debt. Josh does not contribute to the payments on the debt after the title is transferred. Josh has made a gift of his $25,000 equity, but real estate excise tax is due on the $175,000 debt that Samantha is now paying.

(iii) Dan conveys his residence valued at $200,000 to himself and Jill as tenants in common. Dan has $25,000 in equity and an underlying debt of $175,000. Dan and Jill open a new joint bank account, to which they both contribute funds equally. Mortgage payments are made from their joint account. There is a rebuttable presumption that real estate excise tax is due on the conveyance because Jill appears to be contributing toward payments on the debt. In that case, real estate excise tax is due on the consideration given by Jill, (50% of the underlying debt) based upon her contributions to the joint account. The tax will be calculated on a one-half interest in the existing debt ($87,500).

(iv) Dan conveys the residence to himself and Jill. Dan has $25,000 in equity, and a mortgage of $175,000. Dan and Jill open a new joint bank account, which is used to make the mortgage payments, but Dan contributes 100% of the funds to the account. The conveyance is exempt from real estate excise tax, because Jill has not given any consideration in exchange for the transfer.

(v) Bob conveys his residence valued at $200,000 to himself and Jane as tenants in common. Bob has $25,000 equity, and an underlying debt of $175,000. Bob and Jane have contributed varying amounts to an existing joint bank account for many years prior to the conveyance. Mortgage payments have been made from the joint account both before and after the transfer. The conveyance is exempt from real estate excise tax, because Jane's contributions toward the joint account from which the payments are made is not deemed consideration in exchange for the transfer from Bob (because she made contributions for many years before the transfer as well as after the transfer, there is no evidence that her payments were consideration for the transfer).

(vi) Bill and Melanie, as joint owners, convey their residence valued at $200,000 to Melanie, as her sole property. There is an underlying debt of $170,000. Prior to the transfer, both Bill and Melanie had contributed to the monthly payments on the debt. After the transfer, Melanie begins to make 100% of the payments, with Bill contributing nothing toward the debt. Bill's equity ($15,000) is a gift, but Melanie's taking over the payments on the mortgage is consideration received by Bill. Real estate excise tax is due on $85,000 (Bill's fractional interest in the property multiplied by the outstanding debt at the time of transfer: 50% x $170,000).

(vii) Casey and Erin, as joint owners, convey their residence to Erin. There is an underlying debt of $170,000 in both their names. For the three years prior to the transfer, Erin made 100% of the payments on the debt. After the transfer, Erin continues to make 100% of the payments. The transfer is exempt from the real estate excise tax because Erin made all the payments on the property before the transfer as well as after the transfer; there is no evidence that her payments were consideration for the transfer.

(d) **Examples—Refinanced debt.**

(i) Bob conveys his residence to himself and Jane. Within one month of the transfer, Bob and Jane refinance the underlying debt of $175,000 in both their names, but Bob continues to make the payments on the debt. Jane does not contribute any funds toward the payments. The conveyance qualifies for the gift exemption because Jane gave no consideration for the transfer.

(ii) Casey and Erin, as joint owners, convey their residence valued at $200,000 to Erin as sole owner. There is an underlying mortgage on the property of $170,000. Prior to the transfer, Casey and Erin had both contributed to the monthly mortgage payments. Within one month of the transfer, Erin refinances the mortgage in her name only and begins to make payments from her separate account. In this case, there is a rebuttable presumption that this is a disguised sale, since Erin, through her refinance, has assumed sole responsibility for the underlying debt. Real estate excise tax is due on $85,000 (Casey's fractional interest in the property multiplied by the total debt on the property: 50% x $170,000).

(iii) Kyle conveys his residence valued at $200,000 to himself and Amy as tenants in common. Kyle has $25,000 in equity, and an underlying debt of $175,000. Within one month of the transfer, Kyle and Amy refinance the mortgage in both their names, and open a joint bank account to which they contribute funds equally. Payments on the new mortgage are made from the joint account. There is a rebuttable presumption that Amy's contributions to the joint account are consideration for the transfer, since Amy appears to have agreed to pay half of the monthly debt payment, and real estate excise tax may be due. The measure of the tax is one-half of the underlying debt to which Amy is contributing ($87,500).

(iv) Kyle conveys his residence to himself and Amy. Kyle continues to make the payments on the underlying debt of $175,000. Nine months after the transfer, Kyle and Amy refinance the property in both of their names. After the refinance, Kyle and Amy contribute equally to a new joint bank account from which the mortgage payments are now made. Amy's contribution to the mortgage nine months after the transfer is not deemed consideration in exchange for the transfer from Kyle to the two of them as tenants in common. The conveyance will qualify for the gift exemption.

(e) **Example—Refinanced debt—"Cosigner."** Charlie and Sadie, a married couple, own a residence valued at $200,000 with an underlying mortgage of $170,000. Sadie receives the property when they divorce. After a few months, Sadie tries to refinance, but her credit is insufficient to obtain a loan in her name only. Aunt Grace offers to assist her by becoming a "co-borrower" on the loan. As a result, the bank requires that Aunt Grace be added to the title. Following the refinance, Sadie makes 100% of the payments on the new debt, and Aunt Grace gives no consideration for being added to the title. The conveyance adding Aunt Grace to the title is exempt from real estate excise tax. Although the quitclaim deed from Sadie to Aunt Grace may be phrased as a gift, the transfer is exempt as Aunt Grace's presence on the title acts as an exempt security interest to protect Aunt Grace in the event Sadie defaults on her mortgage. See WAC 458-61A-215 for this exemption.

(f) **Example—Rental or commercial property.** Sue owns a rental property valued at $200,000, with an underlying mortgage of $175,000. Sue conveys the property to herself and Zack as tenants in common. Prior to the transfer, the rental income went to a bank account in Sue's name only, and she made the mortgage payments from that account. After the transfer, Zack's name is added to the bank account. The rental income is now deposited in the joint account, and the mortgage payments are made from that account. There is a rebuttable presumption that this is a taxable transaction, because this appears to be a business arrangement. As a business venture, one-half of the rental income now belongs to Zack, and is being contributed toward payment of the mortgage. The real estate excise tax will be due on the one-half interest of the debt contributed by Zack ($87,500).

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-201, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-202 Inheritance or devise. (1) **Introduction.** Transfers of real property by inheritance or devise are not subject to the real estate excise tax. For the purpose of this exemption, it does not matter whether the real property transferred was encumbered by underlying debt at the time it was inherited or devised.

(2) **Nonpro rata distributions.** A nonpro rata distribution is one in which the transfer of real property to the heirs or devisees may not be in proportion to their interests. For example, Aunt Mary wills her entire estate equally to her three nieces. The estate consists of her primary residence, a cottage at the ocean, and significant cash assets, among other things. Rather than take title to the two parcels of real estate in all three names, the estate may be distributed by deeding the primary residence to Meg, the oceanfront property to Beth, and the majority of the cash assets to Jo. Such distribu-

tion by a personal representative of a probated estate or by the trustee of a trust is not subject to the real estate excise tax if the transfer is authorized under the nonintervention powers of a personal representative under RCW 11.68.090 or under the nonpro rata distribution powers of a trustee under RCW 11.98.070(15), if no consideration is given to the personal representative or the trustee for the transfer. For the purpose of this section, consideration does not include the indebtedness balance of any real property that is encumbered by a security lien.

(3) **Subsequent transfers.** A transfer of property from an heir to a third party is subject to the real estate excise tax. Examples:

(a) Steve inherits real property from his mother's estate. He sells the property to his son for $50,000. The transfer of the property from the estate to Steve is exempt from real estate excise tax. The subsequent sale of the property to his son is a taxable event, and tax is due based upon the full sales price of $50,000.

(b) Susan inherits real property from her father's estate. She decides to sell it to a friend on a real estate contract for $100,000. Tax is due on the $100,000.

(c) Sheri and her two sisters inherit their father's home, valued at $180,000, in equal portions. Sheri wants sole ownership of the home but there are not "in-kind" assets of sufficient value to be distributed by the personal representative to her two sisters in a nonpro rata distribution. In order to take title directly from the personal representative, Sheri pays each of her sisters $60,000, and they quitclaim their right to the property under the will. Tax is due on the total of $120,000 paid for the property.

(4) **Community property or right of survivorship.** The transfer of real property to a surviving spouse in accordance with a community property agreement or a survivorship clause is not subject to real estate excise tax.

(5) **Joint tenants.** The transfer of real property upon the death of a joint tenant to the remaining joint tenants under right of survivorship is not subject to the real estate excise tax.

(6) **Life estates and remainder interests.** The conveyance of a life estate to the grantor with a remainder interest to another party is not a taxable transfer if no consideration passes. For example, Nate and Libby convey their property to their son, Rex, retaining a life estate for themselves. The transaction is not subject to real estate excise tax because Rex pays no consideration. Upon the deaths of Nate and Libby, the title will vest in Rex and no real estate excise tax is due. However, if Nate and Libby convey their property to Rex, retaining a life estate for themselves, and Rex pays any consideration for his future interest, the transaction is taxable. Tax is due on the total consideration paid.

(7) **Documentation.** In order to claim this exemption, the following documentation must be provided:

(a) **Community property agreement.** If the property is being transferred under the terms of a community property agreement, copies of the recorded agreement and certified copy of the death certificate;

(b) **Trusts.** If property is being transferred under the terms of a testamentary trust without probate, a certified copy of the death certificate, and a copy of the trust agreement showing the authority of the grantor;

(c) **Probate.** In the case of a probated will, a certified copy of the letters testamentary, or in the case of intestate administration, a certified copy of the letters of administration, showing that the grantor is the court appointed executor/executrix or administrator;

(d) **Joint tenants and remainder interests.** A certified copy of the death certificate is recorded to perfect title;

(e) **Court order.** If the property is being transferred pursuant to a court order, a certified copy of the court order requiring the transfer of property, and confirming that the grantor is required to do so under the terms of the order.

(f) **Other.** If the community property interest of the decedent is being transferred to a surviving spouse or surviving domestic partner absent the documentation set forth in (a) through (e) of this subsection, a certified copy of the death certificate and a signed affidavit from the surviving spouse or surviving domestic partner affirming that he or she is the sole and rightful heir of the property.

[Statutory Authority: RCW 82.45.150. 08-24-095, § 458-61A-202, filed 12/2/08, effective 1/2/09. Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-202, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-203 Community property, dissolution of marriage or domestic partnership, legal separation, decree of invalidity. (1) **Community property.** Transfers from one spouse or domestic partner to the other that establish or separate community property are not subject to the real estate excise tax.

(2) **Court decree.** The real estate excise tax does not apply to any transfer, conveyance, or assignment of property or interest in property from one spouse or domestic partner to the other in fulfillment of a settlement agreement incident to a decree of dissolution, declaration of invalidity, or legal separation.

(3) **Transfers to third parties.** A sale of real property by either one or both spouses or domestic partners to a third party is subject to the real estate excise tax, regardless of whether the sale is pursuant to the terms of a decree of dissolution, declaration of invalidity, or legal separation.

(4) **Former spouses or domestic partners.** Transfers of real property between ex-spouses or former domestic partners that are independent of any settlement agreement incident to their decree of dissolution or decree of invalidity are subject to the real estate excise tax, unless otherwise exempt under this chapter.

[Statutory Authority: RCW 82.45.150. 08-24-095, § 458-61A-203, filed 12/2/08, effective 1/2/09. Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-203, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-204 Tenants in common and joint tenants. (1) **Introduction.** The real estate excise tax does not apply to the transfer of real property that results in the creation of a tenancy in common or joint tenancy with or without right of survivorship if no consideration passes otherwise. See WAC 458-61A-201, Gifts.

(2) **Partition.** The partition of real property by tenants in common or joint tenants, by agreement or as the result of a court decree, is not subject to real estate excise tax. A partition results when tenants in common agree that certain ten-

ants will be assigned certain particular tracts within the property that they own together. Transfers to partition real property are not subject to the real estate excise tax provided that the transfer is without additional consideration passing.

(3) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a grant of an interest in real property may qualify for this exemption. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(a) Betsy, Haley, and Kalli own five riverfront parcels as tenants in common. One parcel is worth twice as much as any of the others, which are all equivalent in value. The property is partitioned. Betsy receives the especially valuable parcel; Haley and Kalli receive two parcels each. No real estate excise tax is due, since the partition of the property is by agreement and no additional consideration passed between the parties.

(b) David and Corwin are business partners; they own two parcels of real estate as tenants in common. One parcel is valued at $200,000 and has an underlying debt of $175,000. The other parcel is valued at $25,000 and has no underlying debt. Pursuant to a proceeding to liquidate their partnership, the court orders partition of the real property. David receives the more valuable parcel and assumes full responsibility for the debt. Corwin receives the less valuable parcel. No real estate excise tax is due, because the partition of the property is pursuant to a court order.

(4) The transfer of property upon the death of a joint tenant to the remaining joint tenants under a right of survivorship is not subject to the real estate excise tax. Transfers of real property by inheritance are not subject to the real estate excise tax. WAC 458-61A-202, Inheritances or devise, is cited on the real estate excise tax affidavit to claim an exemption from the real estate excise tax for such transfers.

(5) The sale of an interest in real property from one or more joint tenants or tenants in common to remaining tenants or to a third party is a taxable transaction. The taxable amount of the sale is the total of the following:

(a) Any consideration given; and

(b) Any consideration promised to be given, including the amount of any debt remaining unpaid on the property at the time of sale multiplied by that fraction of interest in the real property being sold.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-204, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-205 Government transfers. (1) **Introduction.** Transfers of real property from a government entity are not subject to the real estate excise tax. Transfers of real property to a government entity are subject to real estate excise tax unless specifically exempted under this chapter. A completed real estate excise tax affidavit is required for transfers both to and from a government entity.

(2) **Government seller.** A governmental entity selling real property is exempt from the real estate excise tax.

(3) **Government purchaser.** Generally, a seller that is not a governmental entity must pay real estate excise tax on voluntary sales of real property to a governmental entity unless the transfer is otherwise exempt under this chapter. See WAC 458-61A-206 regarding transfers pursuant to condemnation proceedings or under threat of the exercise of eminent domain.

(4) **Transfers for a public purpose.** Transfers to a governmental entity for a public use in connection with the development of real property by a developer when the transfer is required for plat approval are not subject to the real estate excise tax. For example, a developer who deeds property to the city for streets and utilities is not subject to real estate excise tax on the transfer.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-205, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-206 Condemnation proceedings. (1) **Introduction.** Transfers of real property to a governmental entity under an imminent threat of the exercise of eminent domain, a court judgment or settlement with a government entity based upon a claim of inverse condemnation, or as a result of the actual exercise of eminent domain, are not subject to the real estate excise tax.

(2) **Transfer must be to a governmental entity.** To qualify for this exemption, the threat of condemnation or the exercise of eminent domain must be made by a governmental entity with the actual power to exercise eminent domain.

(3) **Threat to exercise eminent domain must be imminent.** To qualify for this exemption, the governmental entity must have either filed condemnation proceedings against the seller/grantee; or:

(a) The governmental entity must have notified the seller in writing of its intent to exercise its power of eminent domain prior to the sale; and

(b) The governmental entity must have the present ability and authority to use its power of eminent domain against the subject property at the time of sale; and

(c) The governmental entity must have specific statutory authority authorizing its power of eminent domain for property under the conditions presented.

(4) **Inverse condemnation.** Inverse condemnation occurs when the government constructively takes real property even though formal eminent domain proceedings are not actually taken against the subject property. The seller must have a judgment against the governmental entity, or a court approved settlement, based upon inverse condemnation to claim the exemption.

(5) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a sale to a governmental entity may or may not be exempt on the basis of condemnation or threat of eminent domain. The status of each situation must be determined after a review of all the facts and circumstances.

(a) The Jazz Port school district wants to purchase property for a new school. An election has been held to authorize the use of public funds for the purchase, and the general area for the site has been chosen. In order to proceed, the district will need to obtain a five-acre parcel owned by the Fairwood family. The district has been granted authority to obtain property by the use of eminent domain if required. The district has notified the Fairwoods in writing of its intention to exercise its powers of eminent domain if necessary to obtain the land. The Fairwoods, rather than allowing the matter to proceed to court, agree to sell the parcel to the Jazz Port district. The school district will use the parcel for construction of the new school. The conveyance from the Fairwoods to Jazz Port school district is exempt from real estate excise tax because the transfer was made under the imminent threat of the exercise of eminent domain.

(b) The Sonata City Parks Department has the authority to obtain land for possible future development of parks. The department would like to obtain waterfront property for preservation and future development. They approach Frankie and Chaz Friendly with an offer to purchase the Friendlys' 20-acre waterfront parcel. The Parks Department does not have a current appropriation for actual construction of a park on the site, and the City Council has not specifically authorized an exercise of eminent domain to obtain the subject property. The conveyance from the Friendlys to the city is subject to the real estate excise tax, because the transfer was not made under the imminent threat of the exercise of eminent domain.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-206, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-207 Bankruptcy. (1) **Introduction.** The real estate excise tax does not apply to the conveyance of real property by a trustee in bankruptcy or debtor in possession made after the plan is confirmed under a chapter 11 or chapter 12 plan. Federal law preempts real estate excise tax on these transfers.

(2) **Documentation requirements.** A copy of the Order of Confirmation or an extract from the Confirmed Bankruptcy Plan, showing the date the bankruptcy plan was confirmed, the court case cause number, and the bankruptcy chapter number must be attached to the real estate excise affidavit provided to the department.

[Statutory Authority: [RCW 82.32.300, 82.45.150, and 82.01.060(2)]. 06-15-021, § 458-61A-207, filed 7/7/06, effective 8/7/06; 05-23-093, § 458-61A-207, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-208 Foreclosure—Deeds in lieu of foreclosure—Sales pursuant to court order. (1) **Introduction.** The real estate excise tax does not apply to any transfer or conveyance made pursuant to an order of sale by a court in any mortgage or lien foreclosure proceeding or upon execution of a judgment. Real estate excise tax affidavits which state claims for this tax exemption must cite the cause number of the foreclosure proceeding on the affidavit and the conveyance document. A copy of the court decision must be attached to the department's affidavit copy by the county treasurer.

(2) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a transfer may or may not qualify for this exemption. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(a) Joan and Sam are friends. They decide to jointly purchase real property worth $100,000 as tenants in common. One year later, they decide to end their co-ownership of the property. Joan and Sam cannot agree on how the property should be divided. They both obtain legal counsel and go to court to resolve the issue. The court orders that Sam will deed his interest in the real property to Joan and Sam will be paid $65,000 for his interest in the property. No real estate excise tax is due on the transfer since the transfer is pursuant to a court ordered sale.

(b) Rather than going to trial, Joan and Sam agree to a settlement during the course of their negotiations. The attorneys draft an agreeable settlement under which Sam will get the property and Joan will be paid $75,000. The settlement agreement is presented to the court and the judge signs off on the agreement. Tax is due on the transfer because this is not a court ordered sale.

(3) **Foreclosure and contract forfeiture.** The real estate excise tax does not apply to the following transfers where no additional consideration passes:

(a) A transfer by deed in lieu of foreclosure to satisfy a mortgage or deed of trust;

(b) A transfer from a contract purchaser to the contract holder in lieu of forfeiture of a contract of sale upon default of the underlying obligation; or

(c) A transfer occurring through the cancellation or forfeiture of a vendee's interest in a contract for the sale of real property, regardless of whether the contract contains a forfeiture clause, such as a declaration of forfeiture made under the provisions of RCW 61.30.070.

(d) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a transfer may or may not qualify for this exemption. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(i) Meg sells real property to Julie on a real estate contract. The contract price is $65,000. Julie makes payments for one year and then loses her job and can't make payments on the contract. Julie feels that she has some equity in the property, but she and Meg disagree on how to resolve the issue. Eventually, they come to an agreement. Meg will pay Julie $1,500; Julie will sign a deed in lieu of forfeiture and transfer the property to Meg. At the time of the deed in lieu of forfeiture, the outstanding balance of the contract was $61,000. Even though the transfer was by a deed in lieu of forfeiture, there is additional consideration passing (the $1,500). The transfer is subject to tax. The taxable selling price is $62,500, which is the total of the outstanding contract balance that was canceled plus the $1,500 paid to Julie.

(ii) Sally sells real property to Frank. Frank obtains a $150,000 loan from Easy Bank. The bank secures the loan with a deed of trust on the real property. Frank is unable to make the payments on the loan. Frank transfers the property back to Easy Bank by deed in lieu of foreclosure to satisfy the deed of trust. No real estate excise tax is due on the transfer.

(iii) Mel sells real property to George. George obtains a $100,000 loan from Zephyr Bank. The bank secures the loan with a deed of trust on the real property. George is unable to make the payments on the loan. George obtains a second loan of $25,000 from Sam. Sam secures his loan with a second deed of trust on the real property. Sam's deed of trust is in junior position to Zephyr Bank's deed of trust. Later, George can't make payments to either the bank or Sam. At this time, George owes the Bank $95,000 and Sam $23,000. George transfers the real property to Sam by deed in lieu of foreclosure to satisfy Sam's junior deed of trust. The debt to Zephyr Bank (the senior position debt) remains unpaid on the property at the time of transfer. The transfer is partially exempt and partially taxable. The deed in lieu of the junior position debt is exempt. The senior position debt to the bank that remains outstanding on the property at the time of the transfer meets the definition of consideration and is subject to tax. Tax would be due on $95,000.

(iv) Joe purchases a manufactured home and has it installed in a mobile home park. Joe signs a contract with the mobile home park owner to pay $300 in monthly rent. If the rent is not paid, the contract states that the park owner has a lien against the manufactured home. Joe is injured and moves in with relatives in another state. Joe does not pay rent for six months. The park owner, takes title to the mobile home under the authority of the rent contract, and puts it up for sale to recover his interest for back rent. The park owner sells the manufactured home to Mimi. No tax is due on the transfer to the park owner, since that transfer was to satisfy a lien on the property. Real estate excise tax is due on the sale to Mimi.

(4) **Deed of trust.** The real estate excise tax does not apply to the foreclosure sale of real property by the trustee under the terms of a deed of trust, whether to the beneficiary listed on that deed or to a third party.

(5) **Assignment of indebtedness.** A transfer from a servicing agent, who has acquired real property under this section, to the actual owner of the indebtedness that was foreclosed upon is not subject to real estate excise tax. A copy of the assignment of the indebtedness or a copy of the trustee's deed identifying the servicing agent as an agent for the actual owner must be attached to the real estate excise tax affidavit provided to the department for exemptions claimed under this subsection.

For example, Gil sells real property to Max. Max obtains a $125,000 loan from Zone Finance. The finance company secures the loan with a deed of trust on real property. Zone Finance sells the loan to Federal National Mortgage Association (Fannie Mae). The finance company becomes the servicing agent for the loan. Max can't make payments on the loan. Due to nonpayment on the debt, the Trustee (under the authority of the Deed of Trust) conducts a Trustee's sale of the real property. The Trustee transfers the property to the Zone Finance via a Trustee's Deed. No real estate excise tax is due on that transfer. Zone Finance Company transfers real property to Fannie Mae, the actual owner of the debt. No real estate excise tax is due on that transfer.

(6) **Sheriff's sale.**

(a) **Introduction.** The real estate excise tax does not apply to a transfer of real property made by a county sheriff pursuant to a court decree. A real estate excise tax affidavit must be filed with the county.

(b) The real estate excise tax applies to a subsequent sale or assignment of the right of redemption and the certificate of purchase that result from the sheriff's sale. The taxable consideration includes any payment given or promised to be given. It also includes the amount of underlying encumbrance, the payment of which is necessary for the exercise of the right of redemption.

(c) **Examples.**

(i) Bill sells property to Sam on a contract. After one year, Sam stops making payments on the contract. Bill obtains a judgment against Sam for nonpayment. At the Sheriff's sale, Bill obtains a certificate of purchase. Sam obtains the right of redemption. Sam is unable to make payment to redeem the right of redemption during the redemption period. When the redemption period is over, Bill turns the certificate of purchase over to the Sheriff. The Sheriff issues a Sheriff's Deed to Bill. No real estate tax is due on the issuance of the Sheriff's deed to Bill.

(ii) Alternatively, at the Sheriff's sale, Bill obtains a certificate of purchase. Sam obtains the right of redemption. To exercise the right of redemption, the holder must remit $50,000 to the Sheriff. Sam sells the right of redemption to Jerry for $10,000. Real estate excise tax is due on $60,000 for the transfer of the right of redemption from Sam to Jerry. Jerry exercises the right of redemption by paying $50,000 to the Sheriff. The Sheriff issues a Sheriff's Deed to Jerry. No real estate tax is due on the issuance of the Sheriff's deed to Jerry.

(7) **Documentation.** In addition to the documentation requirements set forth in subsections (1) and (5) of this section, a copy of the recorded original mortgage, deed of trust, contract of sale, or lien document must be presented with the real estate excise tax affidavit.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-208, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-209 Rescission of sale. (1) **Introduction.** The reconveyance of property due to a rescission of sale is not subject to the real estate excise tax.

(2) **Consideration must be repaid to buyer.** To qualify for exemption under this rule, all consideration paid toward the selling price must be returned by the seller to the buyer at the time of the reconveyance.

(a) A seller may retain interest paid by the buyer without disqualifying the exemption.

(b) The payment of a reasonable reimbursement for site improvements will not disqualify the exemption.

(3) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a reconveyance may or may not be exempt on the basis of a rescission of sale. The status of each situation must be determined after a review of all the facts and circumstances.

(a) Scott sold his property to Mary by real estate contract for $200,000 on January 15, 2004. Real estate excise tax was paid to Lion County. Mary gave Scott a down payment of $10,000 and started making monthly payments of $1,000 per month to Scott beginning March 2004. In September 2004 Mary notified Scott that she lost her job and wanted to rescind the purchase contract. Scott agreed to take the property back and returned the down payment of $10,000, and the monthly principal payments totaling $600 to Mary. The transfer back to Scott from Mary is exempt from real estate excise tax.

(b) Tony purchased Charlie's property by real estate contract for $100,000 in March 2003. Real estate excise tax of $1,780 was paid to Puget County. Tony made a $15,000 down payment and began making $800 monthly contract payments in May 2003. On October 31, 2004, Tony found out that the property had some minor problems and he wanted to rescind the purchase. Charlie agreed to take the property back but would not give back the money Tony had paid to Charlie for the property. Since all consideration paid toward the purchase of the property was not returned by Charlie, the transfer from Tony to Charlie does not qualify for exemption from real estate excise tax under this rule.

(c) Julie contracted to sell property to Amanda for $150,000 in April 2004. Julie paid real estate excise tax to Rainier County before Amanda obtained financing. Amanda made a $20,000 down payment to Julie and applied for a conventional loan to pay the balance of $130,000. Subsequently, Amanda found out she could not qualify for a loan due to her past credit history. Amanda transferred the property back to Julie, and Julie returned the $20,000 down payment to Amanda. The transfer back to Julie is exempt from real estate excise tax. In addition, the initial transfer from Julie to Amanda is exempt because Amanda was unable to qualify for a loan to finalize the purchase of the property.

(4) **Refunds.** See WAC 458-61A-301 for refund procedures with respect to real estate excise tax paid on original transfer when the sale is later rescinded.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-209, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-210 Irrevocable trusts. (1) **Introduction.** The distribution of real property to the beneficiaries of an irrevocable trust is not subject to the real estate excise tax if no valuable consideration is given for the transfer and the distribution is made according to the trust instrument.

(2) **Transfer into trust.** A conveyance of real property to an irrevocable trust is subject to the real estate excise tax if:

(a) The transfer results in a change in the beneficial interest and not a mere change in identity or ownership; and

(b) There is valuable consideration for the transfer.

(3) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a trust conveyance may or may not be exempt from real estate excise tax. The status of each situation must be determined after a review of all the facts and circumstances.

(a) Eric and Annie, husband and wife, transfer real property valued at $500,000 to an irrevocable trust. The property has an underlying debt of $300,000 that is secured by a deed of trust. Under the terms of the trust, the trustee is required to pay all the income annually to the grantors (Eric and Annie), or to the survivor if one of them dies. Upon the death of both Eric and Annie, the property will be divided equally among their children. The conveyance of the property into the trust is not subject to the real estate excise tax, even if the trust pays the indebtedness, because there has been no change in the present beneficial interest, and Eric and Annie did not receive consideration for the transfer.

(b) Jim and Jean, husband and wife, own real property valued at $800,000. Upon Jean's death, her one-half interest in the property is transferred to Jean's testamentary trust under the terms of her will. Jim, as trustee, has sole discretion to accumulate income or to pay income to himself, or to their children, or to their grandchildren, or to each. The transfer to the trust is not subject to real estate excise tax. See WAC 458-61A-202.

(c) Upon Jean's death, Jim's remaining half-interest in the property is valued at $400,000, with an underlying debt of $30,000, for which he is personally liable. Jim transfers his half-interest to Jean's testamentary trust, and the trust pays or is obligated to pay the indebtedness. The conveyance of Jim's one-half interest is subject to real estate excise tax, because the transfer involves both a present change in the beneficial interest (after Jean's death, assets in Jean's trust are legally separate from assets belonging to Jim) and there is valuable consideration in the form of relief of liability for the debt. The real estate excise tax is due on the amount of the consideration ($30,000).

(4) **Revocable trusts.** See WAC 458-61A-211 for the taxability of transfers into a revocable trust.

(5) **Documentation.** When real property is transferred to or from a testamentary trust, or real property is transferred to or from an irrevocable trust, the following must be provided:

(a) A copy of the trust instrument; or

(b) A statement signed by the trustee or the grantor, or the representative of the trustee or grantor containing the following information:

(i) The name, address, and telephone number of the trustee or grantor, and/or representative of the trustee or grantor who is authorized to represent the trustee or grantor before the department of revenue;

(ii) The character of the trust, e.g., testamentary, irrevocable living trust, etc.;

(iii) The nature of the transfer:

(A) If the transfer is to or from a testamentary trust, the nature of and reason for the transfer.

(B) If the transfer is to or from an irrevocable living trust:

(I) The nature and reason for the transfer;

(II) Whether or not the property is encumbered with debt; and

(III) Whether or not the trustee may, at the time of the transfer, distribute income and/or principal to a person(s) other than the grantor(s).

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-210, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-211 Mere change in identity or form—Family corporations and partnerships. (1) **Introduction.** A transfer of real property is exempt from the real estate excise tax if it consists of a mere change in identity or form of ownership of an entity. This exemption is not limited to transfers involving corporations and partnerships, and includes transfers of trusts, estates, associations, limited liability companies and other entities. If the transfer of real property results in the grantor(s) having a different proportional interest in the property after the transfer, real estate excise tax applies.

(2) **Qualified transactions.** A mere change in form or identity where no change in beneficial ownership has occurred includes, but is not limited to:

(a) The transfer by an individual or tenants in common of an interest in real property to a corporation, partnership, or other entity if the entity receiving the ownership interest receives it in the same pro rata shares as the individual or tenants in common held prior to the transfer. (See also WAC 458-61A-212, Transfers where gain is not recognized under the Internal Revenue Code.)

(b) The transfer by a corporation, partnership, or other entity of its interest in real property to its shareholders or partners, who will hold the real property either as individuals or as tenants in common in the same pro rata share as they owned the corporation, partnership, or other entity. To the extent that a distribution of real property is disproportionate to the interest the grantee partner has in the partnership, it will be subject to real estate excise tax.

(c) The transfer by an entity of its interest in real property to its wholly owned subsidiary, the transfer of real property from a wholly owned subsidiary to its parent, or the transfer of real property from one wholly owned subsidiary to another.

(d) The transfer by a corporation, partnership or other entity of its interest in real property to another corporation, partnership, or other entity if the grantee owner(s) receives it in the same pro rata shares as the grantor owner(s) held prior to the transfer.

(e) Corporate mergers and consolidations that are accomplished by transfers of stock or membership, and mergers between corporations and limited partnerships as provided in chapters 25.10 and 24.03 RCW.

(f) A transfer of real property to a newly formed, beneficiary corporation from an incorporator to the newly formed corporation, provided:

(i) The proper real estate excise tax was paid on the original transfer to the incorporator; and

(ii) It was documented on or before the original transfer that the incorporator received title to the property on behalf of that corporation during its formation process.

This tax exemption does not apply to a transaction in which a property owner acquires title in his or her own name and later transfers title to the corporation upon its formation.

(g) A transfer into any revocable trust.

(h) A conveyance from a trustee of a revocable trust to the original grantor or to a beneficiary if no valuable consideration passes, or if the transaction is otherwise exempt under this chapter (for example, a gift or inheritance). A sale of real property by the trustee to a third party, or to a beneficiary for valuable consideration, is subject to the real estate excise tax.

(3) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a grant of an interest in real property may or may not qualify for this exemption. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(a) Andy owns a 100% interest in real property. He transfers his property to his solely owned corporation. The transfer is exempt from real estate excise tax because there has been no change in the beneficial ownership interest in the property.

(b) Elizabeth owns a 100% interest in real property, and is the sole owner of Zippy Corporation. She transfers her property to Zippy. The corporation pays $5,000 to Elizabeth and agrees to make payments on the underlying debt on the property. Despite the fact that there was consideration involved in the transfer, it is still exempt from tax because there was no change in beneficial ownership.

(c) Jim, Kathie, and Tim own real property as joint tenants. They transfer their property to their LLC in the same pro rata ownership. The transfer is exempt from real estate excise tax because there has been no change in beneficial ownership.

(d) Pat, Liz, and Erin own Stage Corporation. They also own Song & Dance Partnership, in the same pro rata ownership percentages as their interests in the corporation. Stage Corporation transfers real property to Song & Dance Partnership. The transfer is exempt from real estate excise tax, because there has been no change in beneficial interest.

(e) Morgan owns real property. Brea owns Sparkle Corporation. Morgan transfers real property to Sparkle in exchange for an interest in the corporation. The transfer is subject to real estate excise tax because there has been a change in the beneficial interest in the real property. The tax applies to the extent that the transfer of real property results in the grantor having a different proportional interest in the property after it is transferred. (Note, however, that Morgan and Brea may be able to structure their transaction in a manner that would qualify for exemption under WAC 458-61A-212.)

(f) Dan owns property as sole owner. Jill owns property as sole owner. Dan and Jill each transfer their property to Rhyming LLC, which they form together. The transfers are taxable because there has been a change in the beneficial ownership interest in the real property. To the extent that the transfer of real property results in the grantor having a different proportional interest in the property after the transfer, it is taxable. (Note, however, that Dan and Jill may qualify for an exemption under WAC 458-61A-212.)

(g) Fred and Steve are equal partners in Jazzy Partnership. They decide to transfer real property from the partnership to themselves as individuals. Based on its true and fair value, the partnership transfers 60% of the real property to Fred and 40% to Steve. This distribution is not in proportion to their ownership interest in Jazzy Partnership, and the transfer is not exempt because there has been a change in the beneficial ownership interest. To the extent that the transfer of property results in the grantor having a different proportional interest in the property after the transfer, it is taxable. (Note, however, that Fred and Steve may qualify for an exemption under WAC 458-61A-212.)

(4) **Disparate treatment of ownership interests.**

(a) Where the ownership of real property is different for financial accounting purposes than for federal tax purposes, the beneficial ownership interest in the real property is deemed the entity which is the owner for financial accounting purposes. Any transfer from the entity that is the owner for federal tax purposes to the owner for financial accounting purposes, or vice versa, is subject to the real estate excise tax.

(b) For example, Giant Company wants to expand its business. It identifies some real property, but is unable to finance the purchase through a normal loan. It contracts with Mega Loans Inc. to enter into a "synthetic lease" for the purchase of the real property. Under the terms of the synthetic lease, Mega Loans will take title to the real property, and Giant Company will lease it from Mega Loans. Real estate excise tax is paid on the purchase of the real property by Mega Loans. The terms of the lease also provide that Giant Company will be the owner for federal tax purposes and Mega Loans will be the owner for financial accounting purposes. Per the lease agreement, after a specified time Mega Loans will transfer title to the real property to Giant Company. The transfer of title from Mega Loans to Giant Company is subject to real estate excise tax.

(5) **Family corporations, partnerships, or other entities.** This exemption applies to transfers to an entity that is wholly owned by the transferor and/or the transferor's spouse or children, regardless of whether the transfer results in a

change in the beneficial ownership interest. However, real estate excise taxes will become due and payable on the original transfer as otherwise provided by law if:

(a) The partnership or corporation thereafter voluntarily transfers the property; or

(b) The transferor, spouse or children voluntarily transfer stock in the corporation, or interest in the partnership capital to other than:

(i) The transferor and/or the transferor's spouse or children;

(ii) A trust having the transferor and/or the transferor's spouse or children as the only beneficiaries at the time of transfer to the trust; or

(iii) A corporation or partnership wholly owned by the original transferor and/or the transferor's spouse or children, within three years of the original transfer to which this exemption applies, and the tax on the subsequent transfer is not paid within sixty days of becoming due.

For example, parents own real property as individuals. They create an LLC that is owned by themselves and their three children. The parents transfer the real property to the LLC. Despite the fact that there was a change in beneficial ownership interest, it is still exempt from tax, because the LLC is owned by the grantor and/or the grantor's spouse or children.

(6) **Transfers when there is not a change in identity or form of ownership of an entity.** This exemption applies to transfers of real property when the grantor and grantee are the same.

For example, John and Megan own real property as tenants in common. They decide that they prefer to hold the property as joint tenants with rights of survivorship. John and Megan, as tenants in common, convey the property to John and Megan as joint tenants with rights of survivorship. The transfer is exempt from real estate excise tax.

[Statutory Authority: RCW 82.32.300, 82.04.150, and 82.01.060(2). 06-20-036, § 458-61A-211, filed 9/25/06, effective 10/26/06. Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-211, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-212 Transfers where gain is not recognized under the Internal Revenue Code. (1) **Introduction.** A transfer that, for federal income tax purposes, does not involve the recognition of gain or loss for entity formation, liquidation or dissolution, and reorganization, is not subject to the real estate excise tax.

(2) **Internal Revenue Code sections.** This exemption includes, but is not limited to, nonrecognition of loss or gain under the following sections of the Internal Revenue Code of 1986:

(a) Section 332 - Corporate liquidations - Complete liquidations of subsidiaries.

(b) Section 337 - Corporate liquidations - Nonrecognition for property distributed to parent in complete liquidation of subsidiary.

(c) Section 351 - Corporate organizations and reorganizations - Transfer to corporation controlled by transferor.

(d) Section 368 (a)(1) - Corporate organizations and reorganization - Definitions relating to corporate reorganizations - Reorganizations - In general.

(e) Section 721 - Partners and partnerships - Nonrecognition of gain or loss on contribution.

(f) Section 731 - Partners and partnerships - Extent of recognition of gain or loss on distribution.

(3) **Extent of exemption.** This exemption applies only to transfers that qualify as nonrecognition of gain or loss transactions under the Internal Revenue Code for entity formation, liquidation or dissolution, and reorganization.

(a) This exemption does not apply to transactions under Internal Revenue Code section 1031 - Exchange of property held for productive use or investment. That section of the Internal Revenue Code does not deal with entity formation, liquidation or dissolution, or reorganization. (See WAC 458-61A-213, IRS "tax deferred" exchanges.)

(b) This exemption does not apply to sales under Internal Revenue Code section 1034 - Rollover of gain on sale of principal residence. That section of the Internal Revenue Code does not deal with entity formation, liquidation or dissolution, or reorganization.

(4) **Treatment when gain is partially recognized in an otherwise exempt transaction.** In the event a transaction qualifies for the exemption under this section as a nonrecognition of gain or loss transaction for entity formation, liquidation or dissolution, or reorganization, but a gain is partially recognized under the Internal Revenue Code provisions, the real estate excise tax applies to the amount of the transaction for which gain is recognized.

(5) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a grant of an interest in real property may or may not qualify for exemption under this rule. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(a) In an otherwise nontaxable Internal Revenue Code section 351 transaction, Nate transfers to ZULU Corporation real property which has a true and fair value of $100,000. Nate receives, in exchange, ZULU stock worth $80,000, cash of $5,000, and a promissory note from ZULU to pay Nate $15,000 monthly, starting at closing, for 36 months at 6% interest. The $5,000 cash received and the $15,000 promissory note constitute "boot" under the provisions of section 351 and gain is recognized to the extent of the "boot." For real estate excise tax purposes, the taxable portion is 20% ($20,000/$100,000) and the real estate excise tax applies to 20% of the true and fair value of the real property transferred, or $20,000.

(b) In an otherwise nontaxable Internal Revenue Code section 351 transaction, Sally transfers real property with a true and fair value of $50,000, and machinery worth $250,000, to ECHO Corporation. In exchange, Sally receives ECHO stock worth $275,000 and cash of $25,000. The cash received constitutes "boot" and gain is recognized. For real estate excise tax purposes, the nonexempt portion of the transaction is 8.3% ($25,000/$300,000). The nonexempt percentage (8.3%) is applied to the true and fair value of the real property ($50,000) to arrive at the amount $4,167. Real estate excise tax is due on $4,167.

(c) Brenda and Julie are partners in LIMA Partnership. In a nontaxable Internal Revenue Code section 721 transaction, Mike transfers real property to LIMA Partnership in exchange for a partnership interest in LIMA Partnership. No consideration, other than the partnership interest in LIMA Partnership, is given to Mike in exchange for Mike's transfer of real property. Because the transfer is exempt under Internal Revenue Code section 721, the real estate excise tax does not apply to Mike's conveyance of real property to LIMA partnership.

(d) Brenda and Julie are also partners in GOLF Partnership. In a nontaxable Internal Revenue Code section 721 transaction, Mike contributes cash to GOLF Partnership in exchange for a 60% partnership interest in GOLF Partnership. The cash is used by the partnership to develop real property owned by the GOLF Partnership. Because the transfer is exempt under Internal Revenue Code section 721, the real estate excise tax does not apply to Mike's acquisition of a partnership interest in GOLF Partnership.

(6) **Rules of construction.** In determining whether a transfer qualifies for exemption under this section, the department will consider the law, regulations, bulletins, technical memoranda, letter rulings, etc., of the Internal Revenue Code and the Internal Revenue Service, as interpreted by the courts. Determinations of taxability under this chapter will be given the same treatment as the final determination of taxability for federal tax purposes.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-212, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-213 IRS "tax deferred" exchange. (1) **Introduction.** This rule describes the application of the real estate excise tax in transfers involving an exchange facilitator. An "exchange facilitator" is a person who acts as an agent on behalf of another person in connection with an exchange of real property under section 1031 of the Internal Revenue Code section 1031 of 1986.

(2) Acquisition of property by an exchange facilitator in connection with a section 1031 tax deferred exchange is subject to the real estate excise tax.

(3) The later transfer of the property by the facilitator in completion of the exchange is subject to real estate excise tax, unless the following requirements are met:

(a) The proper tax was paid on the initial transaction;

(b) A supplemental statement signed by the exchange facilitator, as provided by WAC 458-61A-304, is attached to the real estate excise tax affidavit indicating that the facilitator originally took title to the property for the sole purpose of effecting a section 1031 federal tax deferred exchange; and

(c) The funds used by the exchange facilitator to acquire the property were provided by the grantee and/or received from the proceeds of the sale of real property owned by the grantee.

(4) If the deeds for both transactions to and from the facilitator are being recorded at the same time, the proper tax can be paid on either the first or the second transaction at the discretion of the facilitator.

(5) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a conveyance of real property may or may not qualify for exemption under this rule. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(a) Bob owns commercial real property in Princeton County worth $400,000. Bob wants to exchange his property in Princeton County for other commercial property in Eagle County owned by Sally. Sally agrees to sell her Eagle County property to Bob for $600,000. Bob places his commercial property in Princeton County for sale. John contacts Bob and agrees to purchase the Princeton County property for $450,000. Bob contacts Ted, an exchange facilitator, to arrange for a transfer of his property as a 1031 federal tax deferred exchange. Per Ted's instructions, Bob transfers the Princeton County property to Ted. Ted transfers the Princeton County property to John and receives $450,000. Real estate excise tax is due on the transfer from Bob to Ted. No tax is due on the transfer from Ted to John. The Eagle County property is transferred from Sally to Ted for the $600,000 sales price, $450,000 which was received from the Princeton County sale and $150,000 from a new loan obtained by Bob. Ted transfers the Eagle County property to Bob. Tax is due on the transfer from Sally to Ted. No tax is due on the transfer from Ted to Bob.

(b) Bob is unable to find a buyer for his Princeton County property. Bob contacts Ted, the exchange facilitator, to arrange for a transfer of his property as a 1031 federal tax deferred exchange. Per Ted's instructions, Bob transfers the Princeton County property to Ted. Ted holds the property until Bob can locate a buyer. Real estate excise tax is due on the transfer from Bob to Ted. The Eagle County property is transferred from Sally to Ted for the $600,000 sales price, provided from a $600,000 new loan obtained by Bob. Ted transfers the Eagle County property to Bob. Tax is due on the transfer from Sally to Ted. No tax is due on the transfer from Ted to Bob. One month later, Joan agrees to purchase the Princeton County property. Ted transfers the property to Joan for $350,000. Tax is due on the transfer from Ted to Joan, because the funds used by Ted to acquire the Princeton County property from Bob were not provided by Joan.

(6) **Documentation.** A real estate excise tax affidavit is required for each transfer in a section 1031 exchange including the transfers to and from an exchange facilitator. The affidavit reflecting the claim for tax exemption must show the affidavit number and date of the tax payment, and have attached the supplemental statement as provided by WAC 458-61A-304 and subsection (3)(b) of this section.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-213, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-214 Nominee. (1) **Introduction.** This rule describes the application of the real estate excise tax in transfers involving a nominee. A "nominee" is a person who acts as an agent on behalf of another person in the purchase of real property.

(2) **Initial acquisition.** The initial acquisition of property by a nominee on behalf of a third party is subject to the real estate excise tax.

(3) **Subsequent transfer.** The later transfer of the property by the nominee to the third party purchaser is subject to real estate excise tax, unless each of the following requirements is met:

(a) The proper tax was paid on the initial purchase of the property by the nominee;

(b) The funds used by the nominee to acquire the property were provided by the third party;

(c) The third party legally existed at the time of the initial transaction; and

(d)(i) The subsequent transfer from the nominee to the third party is not for a greater consideration than that of the initial acquisition; or

(ii) In the case where the nominee is a licensed contractor and the subsequent transfer to the third party (customer) reflects the completed construction contract, the retail sales tax is collected on the construction contract and remitted to the department. See also WAC 458-61A-104.

For example, Sara finds a home to buy. However, she is in the military and has learned she is going to be called to duty out of the country. She gives her money for the home purchase to Tom, who finalizes the purchase and obtains the mortgage in his name. Sara pays the down payment, closing costs, and makes all the payments on the mortgage. When Sara returns from duty, Tom will transfer the home back to her, and she will refinance the mortgage into her own name. Tom's transfer to Sara is exempt from real estate excise tax, as Tom was acting as her nominee in the purchase of the home and all funds associated with the purchase of the home have come from Sara.

(4) If the nominee is a licensed contractor transferring to the third-party principal at the completion of a construction contract, proof of the payment to the department of retail sales tax on the construction contract must be attached to the affidavit.

For example, Bill contracted with Phil's Construction to build a home for him on a lot Phil will acquire. Phil buys a lot from Kevin. Real estate excise tax is paid on the sale from Kevin to Phil. Phil's Construction builds the home and collects retail sales tax on the total construction contract, which is then remitted to the department of revenue. Phil's Construction files a real estate excise tax affidavit with the county, together with proof that retail sales tax has been paid. The transfer of the lot and completed home from Phil's Construction to Bill is exempt from real estate excise tax.

(5) **Documentation.** The parties must provide documentation that they have met all the requirements necessary to claim this exemption. Acceptable documentation includes a notarized statement, dated on or before the date of the initial purchase, that the nominee acquired the property on behalf of the third party, or other documentation clearly demonstrating the requirements of subsection (3) of this section have been satisfied. Such documentation may include, but is not limited to, financial documentation evidencing the nominee/third-party relationship existed from the time of the original transfer, and confirming the source of the funds used to purchase the property.

Examples.

(a) Tom is on title to property. Tom wants to transfer the property to Angie and claim the nominee exemption, but they do not have a notarized statement. In lieu of that statement, Angie presents documentation that she provided the funds for the down payment and all closing costs for the initial purchase of the property. Angie also presents documentation that she provided the funds on the first year's payments on the debt after the initial purchase and provided funds for the last year's payments on the debt. This is acceptable documentation that the requirements of subsection (3) of this section have been satisfied.

(b) Dan wants to buy a house and executes an earnest money agreement, contingent on financing. When he applies for a mortgage he is turned down because of insufficient credit. Dan's Uncle Bob agrees to purchase the house in his name and loans Dan the down payment of $10,000. Dan signs a promissory note agreeing to repay Uncle Bob. Dan makes all the mortgage payments on the property. After two years, Dan has sufficient credit to refinance the debt in his own name. Uncle Bob quitclaims title to Dan. This transfer meets the nominee exemption requirements because:

(i) Real estate excise tax was paid on the initial transaction;

(ii) The signed earnest money agreement shows Dan's initial intent to purchase the property in his name;

(iii) Dan has made all the payments on the debt; and

(iv) The signed promissory note is sufficient evidence Uncle Bob did not intend to have a financial interest in the property.

(6) The affidavit reflecting the claim for tax exemption must show the prior affidavit and number and date of the tax payment.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-214, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-215 Clearing or exiting title, and additions to title. (1) **Introduction.** The real estate excise tax does not apply to quitclaim deeds given for the sole purpose of clearing title if no consideration passes otherwise. This rule does not apply to deeds executed for the purpose of adding persons to title, except in cases of persons added to title for co-signing security purposes only.

(2) **Examples.** The following examples, while not exhaustive, illustrate some of the circumstances in which a conveyance of real property may or may not qualify for exemption under this rule. These examples should be used only as a general guide. The taxability of each transaction must be determined after a review of all the facts and circumstances.

(a) An exiting minority partner gives the partnership a quitclaim deed for the purpose of removing any presumptive interest. This transfer is exempt from real estate excise tax under this rule.

(b) An heir to an estate gives the estate a quitclaim deed for the purpose of removing any presumptive interest they have in the estate. This transfer is exempt under this rule.

(c) A developer deeds greenbelts, streets or common areas in a development to the homeowners association upon completion of the development and under the terms and covenants of the development. This transfer is exempt under this rule.

(d) Joseph owns a residence and goes to a bank to refinance. His credit is not good enough to obtain the new loan in his name only, but he can qualify if he obtains a co-signor/co-borrower. Joseph's parents agree to co-sign the loan. The bank requests that the parents also go on title with Joseph, and he quitclaims a half interest to his parents. Although the deed may be phrased as a gift to his parents, the deed acts as a security interest for his parents in the event Joseph defaults. The addition of Joseph's parents to the title is exempt under this rule, provided Joseph makes all the mortgage payments, and Joseph receives no consideration from his parents for the transfer.

(e) The parents described in (d) of this subsection who have been on title with their child are now issuing a quitclaim deed to Joseph to exit title. Joseph has now paid off or refinanced the mortgage in his name only. The parents' intention was to go on title as "co-signors" only, not as co-purchasers of the property, and they have not made any payments toward the repayment of the loan. This transfer is exempt under this rule.

(3) **Documentation.** A narrative that explains the nature of the clearance of, or addition to title must be signed by both grantor and grantee, or agents of either, and attached to the real estate excise tax affidavit. The original narrative will be retained with the original affidavit at the county office and a copy of the narrative will be attached to the department's affidavit copy.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-215, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-216 Mortgage insurers. (1) **Introduction.** The transfer of real property from a mortgage lender to the Veterans Administration or Federal Housing Authority is an exempt transaction.

(2) The transfer of real property from a mortgage lender to another private insurer or guarantor in settlement of an insurance claim is a taxable transaction.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-216, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-217 Rerecord. (1) **Introduction.** The rerecording of documents to correct a legal description, change contract terms, or correct the spelling of the name of a party to the transaction, is not subject to the real estate excise tax.

(2) **Documentation required.** An affidavit is required for the rerecording. The affidavit must refer to the prior affidavit number and the recorded document number for the prior transaction, and must include a complete explanation of why the rerecording is necessary.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-217, filed 11/16/05, effective 12/17/05.]

COLLECTION AND ADMINISTRATION

WAC 458-61A-300 Collection and administration. Introduction. Real estate excise tax is levied by the state under chapter 82.45 RCW and by counties under chapter 82.46 RCW. The general provisions for the administration of the state's excise taxes contained in chapter 82.32 RCW apply to the real estate excise tax, except as provided in RCW 82.45.150. This section describes the applicable procedures for payment, collection, disposition of proceeds, requests for refunds, penalties, record keeping requirements, requests for rulings, and other administrative processes.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-300, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-301 Payment of tax, collection responsibility, audit responsibility, and tax rulings. (1) **Tax imposed.** The taxes imposed are due at the time the sale occurs and are collected by the county when the documents of sale are presented for recording or, in the case of a transfer of a controlling interest (see WAC 458-61A-101), by the department. The tax is imposed upon the seller.

(2) **Payment of tax. Scope of section.** This section applies to sales of real property that are evidenced by conveyance, deed, grant, assignment, quitclaim, or transfer of title to real property. See WAC 458-61A-101 for procedures pertaining to transfers or acquisitions of a controlling interest in an entity owning real property in Washington.

(3) **County as agent for state.** Real estate excise tax is paid to and collected by the agent of the county where the property is located (unless the transaction involves the transfer of a controlling interest, in which case the tax is paid to the department).

(4) **Computation of tax.** The tax is computed by multiplying the combined state and local tax rates in effect at the time of sale by the selling price. A current list of the current state and local real estate excise tax rates is available on the department's web site at dor.wa.gov. This information is also available by contacting the county where the property is located.

(5) **Evidence of payment.** The county agent stamps the instrument of sale or conveyance prior to its recording as evidence that the tax has been paid or that an exemption from the tax was claimed. In the case of a used mobile home, the real estate excise tax affidavit is stamped as evidence of payment or a claimed exemption. The stamp references the affidavit number, date, and payment of or exemption from tax, and identifies the person stamping the instrument or affidavit.

(6) **Compliance with property tax statutes.** The county agent will not stamp the instrument of conveyance or affidavit if:

(a) A continuance of use has been applied for but not approved by the county assessor under chapter 84.33 or 84.34 RCW; or

(b) Compensating or additional tax is due but has not been paid as required by RCW 84.33.086, 84.33.140 (5)(c), 84.34.108 (1)(c), 84.36.812, or 84.26.080.

(7) **Prerequisites to recording.** The county auditor will not file or record the instrument of conveyance until all taxes due under this section have been paid or the transfer is determined to be exempt from tax as indicated by a stamped document.

(8) **Evidence of lien satisfaction.** A receipt issued by the county agent for payment of the tax may be used as evidence of satisfaction of a lien imposed under RCW 82.45.-070.

(9) **Audit authority.** All transactions are subject to audit by the department. The department will audit transactions to confirm the proper amount of tax was paid and that any claim for exemption is valid. Failure to provide documentation to the department as requested may result in denial of any exemptions claimed and the assessment of additional tax.

(10) **Tax assessments.**

(a) If the department discovers an underpayment of tax due, it will notify the taxpayer and assess the additional tax due, together with all applicable interest and penalties. The assessment notice will identify the additional tax due and explain the reason for the assessment.

(b) Persons receiving an assessment must respond within thirty days from the date the assessment was mailed. Failure to respond may result in the assessment of additional penalties and interest and enforcement for collection of the deficient tax under the administrative provisions of chapters 82.32 and 82.45 RCW.

(11) **Tax rulings.** Any person may request a written opinion from the department regarding their real estate excise tax liability pertaining to a proposed transfer of real property or a proposed transfer or acquisition of the controlling interest in an entity with an interest in real property. The request should include sufficient facts about the transaction to enable the department to ascertain the proper tax liability. The department will advise the taxpayer in writing of its opinion. The opinion is binding upon both the taxpayer and the department under the facts presented in accordance with WAC 458-20-100(9), appeals, small claims and settlements. To obtain a written opinion, send your request to:

Department of Revenue
Taxpayer Information & Education
P.O. Box 47478
Olympia, WA 98504-7478

You may also use the "contact" information available online at dor.wa.gov.

(12) **Refunds.**

(a) **Introduction.** Under certain circumstances, taxpayers (or their authorized representatives) may request a refund of real estate excise tax paid. The request must be filed within four years of the date of sale, and must be accompanied by supporting documents.

(b) **Claims for refunds.** Any person having paid the real estate excise tax in error may apply for a refund of the amount overpaid by submitting a completed refund request form.

(c) Forms and documentation. Refund request forms are available from the department or the county. The completed form along with supporting documentation is submitted to the county office where the tax was originally paid. If the tax was originally paid directly to the department, the claim form and supporting documentation are submitted to:

Department of Revenue
Miscellaneous Tax Section
P.O. Box 47477
Olympia, WA 98504-7477

(d) **Circumstances under which refunds are authorized.** The authority to issue a refund under this chapter is limited to the following circumstances:

(i) Real estate excise tax was paid on the conveyance back to the seller in a transaction that is completely rescinded (as defined in WAC 458-61A-209);

(ii) Real estate excise tax was paid on the conveyance back to the seller on a sale rescinded by court order. The county treasurer must attach a copy of the court decision to the department's affidavit copy (see also WAC 458-61A-208, Deeds in lieu of foreclosure);

(iii) Real estate excise tax was paid on the initial conveyance recorded in error by an escrow agent before the closing date, provided that the property is conveyed back to the seller;

(iv) Real estate excise tax was paid on the conveyance back to the seller in accordance with (d)(iii) of this subsection;

(v) Real estate excise tax was paid on the initial conveyance recorded before a purchaser assumes an outstanding loan that represents the only consideration paid for the property, provided:

(A) The purchaser is unable to assume the loan; and

(B) The property is conveyed back to the seller. The refund is allowed because there is a failure of the consideration;

(vi) The conveyance back to the seller in (d)(v) of this subsection;

(vii) Double payment of the tax;

(viii) Overpayment of the tax through error of computation; or

(ix) Real estate excise tax paid when the taxpayer was entitled to claim a valid exemption from the tax but failed to do so at the time of transfer.

(e) **Responsibilities of county.**

(i) **Request for refund made prior to disposition of proceeds.** If the taxpayer submits a valid refund request to the county before the county treasurer has remitted the tax to the state treasurer, the county may void the receipted affidavit copies and issue the refund directly. The county will then submit a copy of the initial affidavit, together with a copy of the refund request, to the department. If, after reviewing the request for refund and supporting documentation, the county is unable to determine the validity of the request, the county will send the request, a copy of the affidavit, and all supporting documentation to the department for determination. If the county denies the request for refund, in whole or in part, the taxpayer may appeal in writing to the department's miscellaneous tax section within thirty days of the county's denial.

(ii) **Request for refund made after disposition of proceeds.** If the taxpayer submits the refund request after the county treasurer has remitted the tax to the state treasurer, the county will verify the information in the request and forward it to the department with a copy of the affidavit and any other supporting documents provided by the taxpayer. The county or the department may request additional documentation to determine whether the taxpayer qualifies for a refund.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-301, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-302 Disposition of proceeds and affidavit batch transmittal. (1) **Introduction.** This rule explains how the counties, the department of revenue, and the state treasurer process the taxes and administrative fees received under this chapter.

(2) **County treasurer.** The county treasurer distributes the proceeds of the real estate excise tax in accordance with the provisions of chapters 82.45 and 82.46 RCW. When no real estate excise tax is due on a transaction, the county will collect an administrative fee for processing the real estate excise tax affidavit. RCW 82.45.180.

(3) **Adjustments.** Requests from county treasurers for adjustments to the funds that have been distributed to the state treasurer must be sent to the department for approval or

denial. The department will forward to the state treasurer those requests that it approves. If the department denies a request for adjustment, the department will return the request to the county treasurer with an explanation for the denial.

(4) **Tax paid directly to the department.** Real estate excise tax for transfers of a controlling interest in an entity owning real property in Washington, and any other tax payment under this chapter made directly to the department, are remitted to the state treasurer. The state treasurer deposits the proceeds of the state portion of the tax in the general fund for the support of the common schools. The state treasurer deposits and distributes the proceeds of any local taxes in accordance with the provisions of chapters 82.45 and 82.46 RCW.

(5) **Affidavit batch transmittal.**

(a) **Due date.** The county will submit copies of all the real estate excise tax affidavits for the entire month, together with a completed affidavit batch transmittal form, to the department by the fifth business day following the close of the month in which the tax was received. The affidavit batch must include all affidavits processed during the month, plus copies of any documents related to refunds made by the county.

(b) **Alternate transmittal method.** An alternate method for submitting affidavits may be used in lieu of the paper method described in this rule with the prior approval of the department. Use of an alternate method (e.g., electronic transmittal) requires a signed memorandum of understanding (MOU) between the county and the department.

(c) **Distribution.** The county will complete the affidavit transmittal form, supplied by the department, and send one copy with the affidavit batch to the department. The county will send a second copy of the affidavit batch transmittal with the monthly cash receipts journal summary to the state treasurer's office as documentation for the remittance of the real estate excise tax deposit.

(d) **Reporting of refunds.** The county must report any refunds made during the month on the adjustment section provided on the batch transmittal form and attach all refund documentation.

(e) **Retention of records.** The county treasurer will retain the approved real estate excise tax affidavits, including any supplemental statements, for a period of not less than four years following the year in which the affidavit is received. See RCW 82.45.150 and 82.32.340.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-302, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-303 Affidavit. (1) **Introduction.** This section explains when a real estate excise tax affidavit is required for the conveyance of an interest in property. See WAC 458-61A-101 for procedures pertaining to transfers and acquisitions of a controlling interest in an entity owning real property in the state of Washington.

(2) **Affidavit required.** In general, an affidavit must be filed when ownership or title to real property transfers as evidenced by conveyance, deed, grant, assignment, quitclaim, including, but not limited to, the following:

(a) Conveyance establishing or separating community property, or in fulfillment of a settlement agreement incident to a dissolution of marriage, legal separation, or declaration of invalidity;

(b) Conveyance resulting from a court order;

(c) Conveyance to secure a debt;

(d) Conveyance of a taxable easement;

(e) A deed in lieu of foreclosure of a mortgage;

(f) A deed in lieu or declaration of forfeiture of a real estate contract;

(g) Conveyance to an heir in the settlement of an estate;

(h) Conveyance to or from the United States, the state of Washington, or any political subdivision or municipal corporation of this state;

(i) Conveyance of development rights, water rights, or air rights;

(j) Conveyance of leasehold improvements;

(k) Boundary line adjustments; or

(l) The affidavit must be filed when rerecording a document to correct a minor error, such as the legal description or spelling of a name.

(3) **Affidavit not required.** The real estate excise tax affidavit is not required nor accepted for the following transactions:

(a) Conveyance of cemetery lots or graves;

(b) Conveyance for assignment or release of security, stated on the face of the instrument:

(i) To secure or assign a debt; or

(ii) To provide or release collateral;

(c) A lease of real property that does not transfer lessee-owned improvements;

(d) A mortgage or deed of trust, satisfaction of mortgage, or reconveyance of a deed of trust;

(e) A seller's assignment of deed and contract;

(f) A fulfillment deed pursuant to a real estate contract;

(g) A community property agreement under RCW 26.16.120;

(h) Purchase of an option; or

(i) An earnest money agreement.

(4) **Examples.**

(a) Lionel Construction has developed a group of new homes. It deeds a street to the homeowners' association upon completion of the development. This is done to clear title, which is an exempt transaction. The affidavit should cite the appropriate exemption rule, describe the exemption as "clearing title for street for homeowners' association," and have attached all department-required documentation.

(b) Webb Corporation transfers its interest in a parcel of real property to its wholly owned subsidiary, Watson Company. This is an exempt transaction because there is no change in beneficial ownership of the property. The affidavit must cite the appropriate exemption rule, describe the exemption as "transfer to wholly owned subsidiary; no change in beneficial ownership," and have attached all documentation required by the department.

(5) **Multiple buyers.** When the transfer of property is to two or more buyers, the affidavit must clearly state the relationship between them as joint tenants, tenants in common, partners, etc., and identify the form and proportion of interest each is acquiring.

(6) **Affidavit must be complete.**

(a) Taxpayers must provide complete and accurate information on the affidavit, as well as all documentation required by the department for claimed tax exemptions. Incomplete affidavits will not be accepted.

(b) An affidavit is incomplete if any required information is omitted or obviously incorrect, such as the use of a nominal selling price. A nominal selling price is an amount stated on the affidavit that is so low in comparison with the fair market value assessment stated on the property tax rolls that it would cause disbelief by a reasonable person. In the case of a nominal selling price, the county assessed value will be used as the selling price, unless there is an independent appraisal showing a greater value.

(7) **Documentation required when claiming an exemption.** Claims of exemption from the real estate excise tax must be specific and include the following:

(a) Current assessed values of parcels involved as of the date of sale; and

(b) Complete reasons for the exemption, including reference to the specific tax exemption in this chapter, citing the specific WAC section and subsection providing the exemption, as well as a brief description of the exemption.

(8) **Completion of affidavit.** The department will provide a real estate excise tax affidavit to be completed by the taxpayer and filed with the agent of the county where the property is located. Affidavits will be furnished by the department to the county agents and accessible to the public in one or more formats to be determined by the department. Alternative forms may be used, as long as they are in a format accepted by the department.

In most instances, the affidavit must be signed by the seller or the seller's agent and the buyer or the buyer's agent, under oath, certifying that all information on the affidavit is complete and correct. However, an affidavit given in connection with the grant of an easement or right of way to a utility company, public utility district or cooperative, or a governmental entity needs to be signed only on behalf of the entity purchasing the utility right of way or easement.

(9) **Duplicate affidavits.** To accommodate the requirement that the affidavit be signed by both the seller and buyer, or agents of each, identical affidavits may be submitted for a single transaction, one bearing the seller's or seller's agent's signature and one bearing the buyer's or buyer's agent's signature. Both affidavits must be complete and have identical information. The county agent will receipt one of the affidavits and attach the other affidavit to the receipted affidavit.

(10) **Retention of records.** The taxpayer must retain all records pertaining to the transaction for a period of at least four years from the date of the conveyance.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-303, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-304 Supplemental statements. (1) The department will provide the county with a uniform multiuse supplemental statement form for use in meeting the requirements of the following sections of this chapter:

(a) WAC 458-61A-306, Interest and penalties—Date of sale;

(b) WAC 458-61A-201, Gifts; and

(c) WAC 458-61A-213, IRS "tax deferred" exchange.

(2) The supplemental statements must be completed and distributed as required by the instructions contained on the form.

(3) Supplemental statements may be unsworn certified statements that meet the requirements set forth in RCW 9A.72.085.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-304, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-305 Trade-in credit. (1) **Introduction.** When a single-family residential property is transferred as either partial or entire consideration for the purchase of another single-family residential property, a credit for the amount of the real estate excise tax paid at the time of the first transfer is allowed toward the amount of the real estate excise tax due upon the later transfer of the same property.

(2) **Refund not available.** The later transfer must be made within nine months of the original transfer for the credit to be allowed. If the tax that would be due on the later transfer is greater than the tax paid for the first transfer, the difference must be paid. However, if the tax paid on the first transfer is greater than that due on the second transfer, no refund of tax paid will be allowed.

(3) The trade-in credit is allowed toward the later sale of the residence "brought in" on trade, not toward the tax liability of the sale of the residence for which it was traded. The affidavit upon which the trade-in credit is claimed must show all of the following:

(a) The transaction date and prior affidavit number where the tax was paid on the original (trade-in) transaction;

(b) The county auditor's recorded document number for the original transaction, if such was recorded; and

(c) The disclosure that both properties involved in the original trade-in transaction are single-family dwellings.

For example, Bob is selling real property in Sun City. Alex wants to buy Bob's property, but he needs to sell his property in Smokey Hollow. Both the Sun City property and the Smokey Hollow property are single-family residential properties. Bob agrees to buy Alex's Smokey Hollow property for $175,500 and Alex agrees to buy Bob's Sun City property for $210,000. Real estate excise tax is paid on the full sales price of both properties. Three months later, Bob sells the Smokey Hollow property to Sally for $180,000. Bob receives a credit on the sale to Sally for the tax paid on the previous sale of the Smokey Hollow property.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-305, filed 11/16/05, effective 12/17/05.]

WAC 458-61A-306 Date of sale, interest, and penalties. (1) **Introduction.** This rule explains how to determine the date of sale and explains the application of interest and penalties when the tax is not paid within one month of the date of sale. See WAC 458-61A-101 for procedures pertaining to transfers and acquisitions of a controlling interest in an entity owning real property in the state of Washington.

(2) **Date of sale.** Real estate excise tax is due and payable to the county on the date of sale, regardless of the date on which the contract of sale or instrument of conveyance is recorded.

(a) **Conditions to be fulfilled prior to completing sale.** When a contract of sale or instrument of conveyance is signed and delivered by the seller to an escrow agent licensed under chapter 18.44 RCW (Escrow Agent Registration Act), a title company, a title insurance company, or an attorney acting as an escrow agent, with instructions to deliver the instrument to the buyer upon the fulfillment of one or more conditions that had prevented the sale from being completed, the date of sale will be presumed to be the date that the instrument is presented for recording, subject to the following:

(i) A statement, signed by the seller's agent, is attached to the affidavit indicating the specific conditions that had to be met in order for the sale to be completed;

(ii) The date shown on the instrument cannot be more than ninety days prior to the date the affidavit is presented to the county treasurer for filing; and

(iii) All documentation required by the department must be provided to the county agent when submitting the affidavit claiming an exemption from interest and penalty pursuant to this rule.

(b) **Sale of mining property.** A conditional sale of mining property in which the buyer has the right to terminate the contract at any time, and a lease and option to buy mining property in which the lessee-buyer has the right to terminate the lease and option at any time, is taxable at the time of execution only on the consideration received by the seller or lessor for execution of such contract. The tax due on any additional consideration received by the seller is paid to the county at:

(i) The time of termination;

(ii) The time that all of the consideration due to the seller has been paid and the transaction is completed except for delivery of the deed to the buyer; or

(iii) The time when the buyer exercises an option to purchase the property.

For further information regarding mineral rights and mining claims, see WAC 458-61A-112.

(c) In all other cases, the date of sale will be presumed to be the date shown on the instrument. A taxpayer alleging a date of sale other than the instrument date has the burden of proving that delivery of title or ownership of the property in exchange for consideration occurred on the date alleged.

(3) **Interest.** Payment of the real estate excise tax is due on the date of sale. If the tax is not paid within one month of the date of sale, interest will be imposed on the total amount of the unpaid tax (both the state and local components) from the date of sale to the date of full payment. RCW 82.45.100 (1) and 82.46.010(5). Interest is calculated on a monthly basis with a full month's interest accruing at the beginning of each month. A list of annual interest rates is available on the department's web site at dor.wa.gov.

(a) Interest is computed in accordance with the provisions of RCW 82.32.050(2). The interest rate is adjusted annually on January 1. The rate applied to any given month or portion of a month is the annual variable interest rate in effect at the beginning of that month, divided by twelve. Any interest imposed for a month or portion of a month that starts in December will be imposed at the interest rate effective in December, even though the interest rate may change on January 1. For example:

(i) Tyler sold real property located in Mayberry to Dustin on April 20, 2004. Tyler does not file a Real Estate Excise Tax Affidavit until August 15, 2004, at which time he pays $1,530 in tax. The interest rate for 2004 is 4%, and interest is due on the transfer from April 20, 2004, through August 15, 2004, the date the tax was paid. Interest would be due as follows:

April 20 to May 20, 2004	$1,530 tax at 0.33% per month	$5.05
May 21 to June 20, 2004	$1,530 tax at 0.33% per month	$5.05
June 21 to July 20, 2004	$1,530 tax at 0.33% per month	$5.05
July 21 to August 15, 2004	$1,530 tax at 0.33% per month	$5.05
Total interest due with August 15, 2004 payment		$20.20

In this example, note that a full month's interest applies from July 21 to August 15, 2004, even though it is less than a full month.

(ii) Tara sells her house in Sun City to Chris on March 5, 2004. Real estate excise tax of $1,780 is due on April 5, 2004, but is not paid until June 16, 2004. Interest applies from March 5, 2004, through June 16, 2004, the date of full payment. Again, a full month's interest applies from June 5 to June 16, 2004, even though it is less than a full month.

March 5 to April 4, 2004	$1,780 tax at 0.33% per month	$5.87
April 5 to May 4, 2004	$1,780 tax at 0.33% per month	$5.87
May 5 to June 4, 2004	$1,780 tax at 0.33% per month	$5.87
June 5 to June 16, 2004	$1,780 tax at 0.33% per month	$5.87
Total additional interest due with June 16, 2004 payment		$23.48

(b) When interest must be calculated in a shorter month that does not have a day corresponding to the original date of sale, interest is computed on the first day of the following calendar month.

For example, Kevin sells land located in unincorporated Sparkle County to Jim and Anita on January 30, 2004. Tax of $3,560 is due on February 28, 2004. Since February has only twenty-eight days (assuming it is not a leap year) and February 28 most closely corresponds to the January 30 date of sale. The tax is not paid until May 10, 2004. The interest is computed as follows:

January 30 to February 28, 2004	$3,560 tax at 0.33% per month	$11.75
March 1 to March 30, 2004	$3,560 tax at 0.33% per month	$11.75
March 31 to April 30, 2004	$3,560 tax at 0.33% per month	$11.75
May 1 to May 10, 2004	$3,560 tax at 0.33% per month	$11.75
Total interest due with May 10, 2004 payment		$47.00

(4) **Delinquent penalty.** If payment of real estate excise tax is not received by the county within one month of the date of sale, a delinquent penalty is imposed on the total amount of the unpaid tax. RCW 82.45.100(2) and 82.46.010(5).

(a) If tax is not paid:

(i) Within one month of the date of sale, a penalty of five percent of the amount of the tax will be added to the tax due;

(ii) Within two months of the date of sale, a penalty of ten percent shall be added to the tax due; and

(iii) Within three months of the date of sale, a penalty of twenty percent will be added to the tax due.

(b) Penalties are assessed against the seller only and will not be included in a lien arising under RCW 82.45.070.

(5) **State assessment penalty.** Any tax determined to be due and assessed by the department will include an assessment penalty of five percent of the tax assessed by the department. RCW 82.32.090(2).

(a) If payment of the tax assessment is not received by the department by the due date specified in the notice, or any extension thereof, a penalty of fifteen percent of the amount of the tax under this subsection will be assessed; and

(b) If payment of the tax assessment is not received on or before the thirtieth day following the due date specified in the notice of tax due, or any extension thereof, a penalty of twenty-five percent of the amount of the tax under this subsection will be assessed; and

(c) This penalty will be no less than five dollars.

(6) **Evasion penalty.**

(a) The department may add a penalty equal to fifty percent of the underpaid excise tax due on transfers where an intent to evade the payment of the excise tax is demonstrated.

(b) An "intent to evade" includes, but is not limited to, knowingly stating a false sales price or knowingly claiming a tax exemption for which the transfer does not qualify.

[Statutory Authority: RCW 82.32.300, 82.01.060(2), and 82.45.150. 05-23-093, § 458-61A-306, filed 11/16/05, effective 12/17/05.]

Chapter 458-276 WAC
ACCESS TO PUBLIC RECORDS

WAC

WAC 458-276-010 Declaration of purpose. This chapter is promulgated by the department of revenue in compliance with RCW 42.17.250 and to set out procedures by which public records of the department will be made available to the public for inspection and copying.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-010, filed 1/23/78.]

WAC 458-276-020 Definitions. (1) Public records. "Public record" includes any writing containing information relating to the conduct of government or the performance of any governmental or proprietary function prepared, owned, used or retained by any state or local agency regardless of physical form or characteristics.

(2) Writing. "Writing" means handwriting, typewriting, printing, photostating, photographing, and every other means of recording any form of communication or representation, including letters, words, pictures, sounds, or symbols, or combination thereof, and all papers, maps, magnetic or paper tapes, photographic films and prints, magnetic or punched cards, discs, drums and other documents.

(3) Department of revenue. The department of revenue is an agency headed by a director appointed by the governor subject to conformation by the state senate. The powers and duties of the director are, inter alia, those prescribed by RCW 82.01.060. The department of revenue will hereinafter be referred to as the "department," and the director will hereinafter be referred to as the "director." Where appropriate, the term department also refers to the staff and employees of the department of revenue.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-020, filed 1/23/78.]

WAC 458-276-030 Description of central and field organization of the department. The department of revenue administers state tax laws, acts as advisor on revenue matters to the governor, the legislature, and other state and local agencies, and supervises and assists in the administration of property tax laws at state and local levels. The central administrative offices of the department and its staff are located at General Administration Building, Fourth Floor, Olympia, Washington 98504. Operating divisions of the department are: Field Operations, Interpretation and Appeals, Research and Information, Office Operations, Inheritance Tax, Property Tax, Administrative Services, and Forest Tax.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-030, filed 1/23/78.]

WAC 458-276-040 Operations and procedures. Each of the major operating divisions of the department is the immediate responsibility of an assistant director of the department who is designated as director of that division.

(1) Field operations. The director of field operations directs employees engaged in field audits, enforcement, audit review and taxpayer assistance through 16 branch offices, 4 regional offices, and several out-of-state auditors.

(2) Interpretation and appeals. The director of interpretation and appeals and his hearing officers conduct tax hearings, publish excise tax bulletins and guidelines, issue formal and informal interpretations, and provide advice to the legislature on excise tax matters. The division administers rules published under the Washington Administrative Code, and makes written determinations on appeals involving disputed tax liability.

(3) Research and information. The director of research directs the preparation of revenue forecasts for state government and develops other statistical analyses used in the preparation of the governor's budget. The division is responsible for the analysis of proposed legislation, and advises both the executive and legislative branches of the fiscal impact of proposed tax measures.

The director of research also is in charge of informational services and the publication of official state and local statistical documents. His staff also provides supportive data, analyses, and advice to the other divisions.

(4) Office operations. The director of office operations supervises employees assigned to taxpayer registration, accounts receivable, taxpayer office audits and investigation, miscellaneous tax processing, and records maintenance.

(5) Inheritance tax. The director of inheritance tax administers the collection of gift and inheritance taxes and supervises escheats and unclaimed property.

(6) Property tax. The director of property taxes oversees the administration of property taxation at the state and local level, including the development of guidelines and regulations affecting the operation of assessors in the 39 counties. The division directly appraises the intercounty operating properties of railroad, power, gas, transportation, communications, and water companies.

Activities include assessment ratio studies used, in part, as a basis for allocating state funds to local taxing districts; tax mapping, coding, and appraisal assistance to the counties; appraisal manuals and tax reporting forms; motor vehicle excise tax valuations; statewide supervision of property tax exemptions and determination of eligibility for property tax exemptions for nonprofit organizations; rules for open space taxation; and supervision of county boards of equalization.

(7) Administrative services. The director of administrative services directs employees engaged in budget and fiscal controls, centralized word processing, office services, systems and procedures, and automated data processing.

(8) Forest tax. The director of forest tax is responsible for developing semi-annual timber stumpage value rates used in determining the tax liability for all timber harvested from private lands, and for the timely collection of the forest excise tax, and computation of the distribution of revenues to the state and local taxing districts. The division also develops forest land values annually to be used by the county assessors for the assessment of all classified and designated forest lands for property tax purposes. Field inspections of harvest sites, timber sales, and forest land sales are also performed by the division for audit, compliance, and valuation purposes.

(9) Director of personnel. The personnel officer coordinates departmental employment, personnel relations and labor relations, and also is in charge of personnel administration, employee development, employee benefits, services and safety, and affirmative action.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-040, filed 1/23/78.]

WAC 458-276-050 Public records available. All public records of the department, as defined in WAC 458-276-020(1) are deemed to be available for public inspection and copying pursuant to these rules, except as otherwise provided by RCW 42.17.310, 42.17.330, WAC 458-276-100, and other applicable laws.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-050, filed 1/23/78.]

WAC 458-276-060 Public records officer. The department's public records are in the charge of the public records officer designated by the director. The person so designated will be located in the central administrative office, research and information division, of the department. The public records officer is responsible for the following: The implementation of the department's rules and regulations regarding release of public records, coordinating the staff of the department in this regard, and generally ensuring compliance by the department with the public records disclosure requirements of chapter 42.17 RCW.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-060, filed 1/23/78.]

WAC 458-276-070 Hours for records inspection and copying. Public records maintained in the central administrative offices will be available for inspection and copying at the administrative office during the customary office hours of the department. For the purposes of this chapter, the customary office hours are 8:00 a.m. to noon and 1:00 p.m. to 5:00 p.m., Monday through Friday, excluding legal holidays. Specific records not available in the central administrative offices will be made available pursuant to the procedures described in WAC 458-276-080(3).

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-070, filed 1/23/78.]

WAC 458-276-080 Requests for public records. (1) Chapter 42.17 RCW requires that agencies prevent unreasonable invasions of privacy, protect public records from damage or disorganization, and prevent excessive interference with essential functions of the agency. Accordingly, whenever the department believes these or other provisions of law would be violated by immediate disclosure of records, requests for inspection or copying by members of the public shall be in writing upon a form prescribed by the department which will be available at its administrative and all branch offices. The form shall be presented either to the public records officer at the central administrative offices of the department or to any tax service representative of the department at the administrative or any branch office of the department during customary office hours. Customary office hours at branch offices may vary from those of the department's administrative offices. If a tax service representative is not available at a branch office the request form may be completed and presented to the person in charge of the office at the time the request is made or mailed to the Public Records Officer, Research and Information Division, Department of Revenue, 414 General Administration Building, Olympia, Washington 98504. The request shall include the following information:

(a) The name of the person requesting the record;

(b) The time of day and calendar date on which the request is made;

(c) The nature of the request;

(d) If the matter requested is referenced within the current index maintained by the records officer, a reference to the requested record as it is described in such current index;

(e) If the requested matter is not identifiable by reference to the department's current index, an appropriate description of the record requested.

(2) In all cases in which a member of the public is making a request, it is the obligation of the public records officer, or staff member to whom the request is made, to assist the

member of the public in appropriately identifying the public record requested.

(3) If the record is not maintained in the central administrative offices of the department, after approval of the request, the public records officer will retrieve the record and advise the person making the request by telephone or mail of the time and place the record will be available, which time will be as reasonably soon after the request is made as possible.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-080, filed 1/23/78.]

WAC 458-276-090 Copying. There is no fee for the inspection of public records. The department will charge a fee of twenty-five cents per page of copy for providing copies of public records and for use of the department's copy equipment. This charge is to reimburse the department for its costs incident to such copying.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-090, filed 1/23/78.]

WAC 458-276-100 Exemptions. (1) The department reserves the right to determine that a public record requested in accordance with the procedures outlined in WAC 458-276-080 is exempt under the provisions of RCW 42.17.310, and other applicable laws.

(2) In addition, pursuant to RCW 42.17.260, the department reserves the right to delete identifying details when it makes available or publishes any public record, in any cases when there is reason to believe that disclosure of such details would be an invasion of privacy protected by chapter 42.17 RCW. The public records officer will fully justify such deletion in writing.

(3) All denials of written requests for public records will be accompanied by a written statement specifying the reason for the denial, including a statement of the specific exemption authorizing the withholding of the record and a brief explanation of how the exemption applies to the record withheld.

(4) The department reserves the right provided by RCW 42.17.330 to move the various superior courts to enjoin the examination of any specific public record when it believes such examination would substantially and irreparably damage any person, or would substantially and irreparably damage vital governmental functions.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-100, filed 1/23/78.]

WAC 458-276-110 Review of denials of public records requests. (1) Any person who objects to the denial of a request for a public record may petition for prompt review of such decision by tendering a written request for review. The written request shall specifically refer to the written statement by the public records officer or other staff member which constituted or accompanied the denial.

(2) Immediately after receiving a written request for review of a decision denying a public record, the public records officer or other staff member denying the request will refer it to the director. The petition will be reviewed promptly and the action of the public records officer approved or disapproved. Such approval or disapproval shall constitute final department action for purposes of judicial review under RCW 42.17.340.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-110, filed 1/23/78.]

WAC 458-276-120 Limitations on disclosure. The department will give due regard in considering requests for public records to RCW 82.32.330, 83.36.020, and other applicable limitations on disclosure.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-120, filed 1/23/78.]

WAC 458-276-130 Records index. The department will maintain and make available for public inspection and copying an appropriate index or indices in accordance with RCW 42.17.260.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-130, filed 1/23/78.]

WAC 458-276-140 Administrative offices. All communications with the department regarding administration or enforcement of chapter 42.17 RCW and these rules, and requests for copies of the department's decisions and other matters, shall be addressed as follows: Public Records Officer, Research and Information Division, Department of Revenue, 414 General Administration Building, Olympia, Washington 98504.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-140, filed 1/23/78.]

WAC 458-276-150 Adoption of form. The department hereby adopts for use by all persons making written request for inspection and/or copying or copies of its records under WAC 458-276-080, the Form S.F. 276 as it exists or may hereafter be revised.

[Statutory Authority: RCW 42.17.250. 78-02-064 (Order GT 78-1), § 458-276-150, filed 1/23/78.]
