WAC 232-12-073 Master hunter permit program. (1) In order to effectively manage wildlife in areas or at times when a higher proficiency and demonstrated skill level are needed for resource protection or public safety, the department establishes the master hunter permit program.

(2) The master hunter permit program emphasizes safe, ethical, responsible, and lawful hunting practices. Program goals include improving the public's perception of hunting and perpetuating the highest hunting standards. A master hunter permit is required to participate in controlled hunts to eliminate problem animals that damage property or threaten public safety.

(a) The cost of initially applying for a master hunter permit shall be fifty dollars. The cost of renewing a master hunter permit shall be twenty-five dollars.

(b) The department shall determine the program's requirements and curriculum. The director shall establish an advisory group to assist agency staff in developing and managing the program.

(3) Master hunters are held to the highest ethical standards because these hunters are ambassadors for the department and are role models and mentors for the hunting community and for the public at large. Initial master hunter permit applicants must submit to a criminal background check. The department shall deny entry into the master hunter permit program to those applicants who have:

(a) Paid the required fine or been convicted within the last ten years of a chapter 77.15 RCW offense;
(b) Paid the required fine or been convicted within the last ten years of criminal trespass, reckless endangerment, criminal conspiracy, or making a false statement to law enforcement, while hunting, fishing, or engaging in any activity regulated by the department;
(c) Prior felonies prohibiting the possession of firearms, unless firearm possession is reinstated; or
(d) A current hunting or fishing license revocation or a current suspension of hunting or fishing license privileges in Washington or in another state.

(4) Master hunter permit applicants will be required to sign and abide by a hunter code of ethics and pass a comprehensive examination based upon study materials provided by the department. An initial master hunter permit applicant found to have submitted fraudulent information to the department or to have cheated on the master hunter examination will be excluded from the master hunter permit program for life.

(5) Initial master hunter permit applicants who successfully complete the master hunter permit program will receive a master hunter patch and a master hunter permit. The initial master hunter permit is valid for five consecutive years from the date of issuance. The permit may be renewed for additional five-year increments if, during each five-year period of validity, the master hunter fulfills the renewal requirements established by the department.

(6) Master hunters renewing their permit shall authorize the department to conduct a criminal background check each time they renew. The criminal background check will go back five years from the master hunter's anniversary date or back to the date this rule amendment was adopted, whichever period of time is shorter. The department's approval will be determined by compliance with this section.

(7) Persons who successfully complete the master hunter permit program and maintain the requirements developed by the department may participate in special hunts. These master hunters must possess a valid master hunter permit while participating in the hunts.

(8) The department shall suspend a master hunter's permit for life if the master hunter:

(a) Pays the required fine or is convicted of a chapter 77.15 RCW misdemeanor, gross misdemeanor, or felony;
(b) Pays the required fine or is convicted of criminal trespass, reckless endangerment, criminal conspiracy, or making a false statement to law enforcement, while hunting, fishing, or engaging in any activity regulated by the department;
(c) Pays the required fine or is convicted of a felony prohibiting the possession of firearms, unless firearm possession is reinstated;
(d) Has his or her hunting or fishing license revoked, or hunting or fishing license privileges suspended in Washington or in another state;

(e) Submitted fraudulent information to the department.

(9) A master hunter who pays the required fine or is found to have committed an infraction under chapter 77.15 RCW or the department's rules shall have his or her master hunter permit suspended for a period of two years.

(10) If a master hunter is cited, or charged by complaint, for a chapter 77.15 RCW offense; or for trespass, reckless
endangerment, criminal conspiracy, or making a false statement to law enforcement, while hunting, fishing, or engaging in any activity regulated by the department, the department may immediately suspend the person’s master hunter permit until the offense has been adjudicated.

11) The department’s master hunter permit coordinator will maintain open communications with landowners and the community. The department will investigate written accusations about master hunters and determine whether such complaints have merit and warrant enforcement action.

12) Except under subsection (10) of this section, if a master hunter has his or her initial or renewal master hunter permit suspended for less than life, and the person wants to become a master hunter again, he or she must repeat the entire master hunter permit application process once the suspension period is over.

13) Any person who has been denied initial admission into the master hunter permit program, renewal of his or her master hunter permit, or has had his or her master hunter permit suspended, has the right to an administrative hearing to contest the agency action. Such hearing will be held pursuant to chapter 34.05 RCW, the Administrative Procedure Act. Initial master hunter permit applicants who fail to submit the application fee or who submit an incomplete application will have their application returned. Denial of admission on these grounds does not trigger the right to an administrative hearing.

14) "Conviction," as used in this section, is defined in RCW 77.15.050.

15) It is unlawful for any person to hunt in a hunt restricted to master hunters if such person has not successfully been admitted into the master hunter permit program and maintained the requirements set forth in this section, or if the person’s master hunter permit has been suspended. Master hunters need a valid master hunter permit and a valid hunting license and tag to hunt in master hunter restricted hunts. "To hunt," as used in this section, is defined as "an effort to kill, injure, capture, or harass a wild animal or wild bird," pursuant to RCW 77.08.010(53). Master hunters who have been issued a disabled hunter permit by the department may only hunt with a designated hunter companion who has been admitted into the master hunter permit program and maintained the requirements under this section. Violations of this subsection shall be enforced under RCW 77.15.400 for wild birds, RCW 77.15.410 for big game, and RCW 77.15.430 for wild animals other than big game.

16) Only Washington residents, as defined in RCW 77.08.010(39), may apply for an initial master hunter permit.

**WAC 232-12-168 Fishing contests.** (1) Contest defined: By definition, a fishing contest exists when 6 or more licensed persons fish competitively and determine winners, regardless of prize value.

(2) Application:

(a) Fishing contest permit applications should be submitted to the department by July 1 of each year for contests that are to take place the following calendar year. After July 1, applications must be submitted not less than 30 days prior to the date for which the contest is proposed.

(b) Applications must include the permit fee required by RCW 77.65.480. The fee will be returned if the permit is denied. No more than seven permits will be issued to any one permittee during a calendar year. The fee is $24 per permit.

(c) For purposes of application for a fishing contest permit, "permittee" means a "person" as defined in RCW 77.08.-010. All applications from a permittee must be in a single name.

(3) Approval:

(a) Fishing contests which adversely affect fish or wildlife resources or other recreational opportunity may be denied.

(b) Contests will not be allowed on sea-run cutthroat trout, wild steelhead, Dolly Varden or bull trout.

(c) During fishing contests, where anglers target tiger muskies, no retention of caught fish is allowed. Tiger muskies may be caught, measured for length, photographed and all fish must be immediately released alive.

(4) Prize value: Total prize value per contest will not exceed $5,000 when trout, steelhead, char, whitefish, grayling, tiger muskie, or kokanee are included as target species; provided that contests wherein other species not listed above are targeted, or where bass or walleye are the targeted species and at least 90 percent of bass or walleye are released alive and in good condition after the contest, may qualify for no limitation on amount of prize.

(5) Legal requirements, all contests:

(a) Fishing contest permits must be in the possession of the contest sponsor or official at the contest site.

(b) Contests are restricted to the species and waters approved on the permit. Only those species listed as a target of the contest may be retained by contest participants during bass or walleye contests where all contestants fish at the same time and place.

(c) Sponsors must report contest information requested by the department within 30 days after the contest has ended. Subsequent contest permits will not be issued for one year after the date of the contest for which the report was not returned if this requirement is not fulfilled.

(d) Contest participants may not restrict public access at boat launches.

(e) Contests for bass and walleye where participants expect to fish at the same time from boats on lakes or reservoirs will not last longer than four consecutive days and have the following limits per water:

* No more than four weekend days per month nor more than two weekends per month may be scheduled on any water when contestants fish at the same time, and are allowed to fish from boats.

[2010 WAC Supp—page 5]
(f) It is unlawful for the fishing contest permittee or any of the contest participants to fail to comply with the conditions of the fishing contest permit, or of general fishing rules not specifically exempted by this permit. Failure of the permittee or any of the contestants to comply with all provisions of the contest permit or of other fishing regulations during a contest may lead to revocation of the permit and result in denial of fishing contest permits to the permittee and related organizations or individuals sponsoring contests for two years.

(6) Special regulations, bass and walleye contests:

(a) In any contest targeting either bass or walleye, all live bass or walleye must be released alive into the water from which they were caught after being weighed and/or measured. At the end of each day's competition, if the mortality of target fish caught that day exceeds 10%, the contest will be suspended. Suspended contests may be continued (within assigned permit dates) only if the cause of the high mortality can be positively identified, and the cause of the mortality (high waves, equipment deficiency, etc.) ceases or is corrected by contest officials.

(b) During bass and walleye contests only, participants may continue to fish while holding up to five fish in possession, as long as one fish is released immediately upon catching a fish which would make the angler in excess of five fish if kept. The fish released may come either from the one just caught, or from the livewell, but at no time may the angler have more than five fish in the livewell.

(c) During bass contests, contestants may not use live bait.

(d) During bass and walleye contests participants may retain up to five bass and walleye of any size to be weighed in. A tournament angler may not be in possession of more than five bass or walleye from the water being fished, except as authorized under (6)(e) below.

(e) The contest director or director designee may exceed possession limits for bass or walleye for the purpose of transporting fish from a weigh-in site to an open-water area. During transportation, the transport boat must not leave the water the fish were caught from and a copy of the contest permit must be on board during actual fish transport.

(f) Boat identification: All boats used for fishing in bass and walleye contests must be clearly identified according to criteria established by the department.

(7) Aquatic invasive species decontamination. Prior to launching into any Washington state body of water:

(a) All contest participants are required to sign an aquatic invasive species decontamination statement that their boats and/or boat trailers have or have not been in physical contact with any waters outside of Washington state for thirty days immediately preceding the contest and, if the boat and/or trailer has been in contact with such waters, the participant must complete an aquatic invasive species decontamination report indicating that the following actions have been taken:

(i) A physical inspection has been made of the hull, motor, trailer, livewell and bilge by the contest director or designee, according to criteria established by the department; and

(ii) Any aquatic invasive species, if found, have been disposed of in a garbage container; and

(iii) The hull, motor, trailer, livewell, and bilge have been decontaminated according to criteria established by the department.

(b) The aquatic invasive species decontamination statement and decontamination report shall be submitted to the department as part of the fishing contest report.

(ii) A person who has a permanent disability and is physically incapable of holding and safely operating a firearm or other legal hunting device.

This definition includes, but is not limited to, persons with a permanent upper or lower extremity impairment who have lost the use of one or both upper or lower extremities, or who have a severe limitation in the use of one or both upper or lower extremities, or who have a diagnosed permanent disease or disorder which substantially impairs or severely interferes with mobility or the use of one or both upper or lower extremities for holding and safely operating a firearm or other legal hunting device; or

(2) The designated hunter companion must accompany the hunter with a disability when stalking or shooting game on behalf of the hunter with a disability. The hunter with a disability or the designated hunter companion must immediately cut, notch, or date any required tag. The tag must be affixed to the carcass of the game bird or animal as soon as is reasonably possible after killing the game.

(3) The designated hunter companion does not need to accompany the hunter with a disability while tracking an animal wounded by either hunter, or while tagging or retrieving a downed animal on behalf of the hunter with a disability.

A disabled hunter vehicle identification placard must be displayed.

(9) Special use permits.

(a) The director may develop conditions and criteria for administering and issuing special use permits.

**WAC 232-28-285 2009-2010 Pilot cougar hunting seasons with the aid of dogs.** As used in this section and in the context of pilot cougar hunting seasons, the following definitions apply:

"Accompany" means the dog handler and permit hunter must be in the physical presence of each other at the time dogs are released from a leash or unrestrained or starting a cougar track.

"Pursue" or "pursuit" means dogs are:
- Not on a leash or restrained; or
- Starting a cougar track; or

[2010 WAC Supp—page 17]
In the act of tracking a cougar; or
- At a treed cougar.

Transporting dogs in a motorized vehicle or walking a dog on a leash is not pursuit.

"Dog handler" means a person that owns or hunts with dogs that are capable of detecting, tracking and treeing a cougar.

"Quota" means the targeted harvest goal. The actual harvest level may exceed the quota.

"Kill permit" allows a hunter to pursue or kill cougar.

"Pursuit permit" allows a hunter to pursue cougar.

1. The pilot cougar-hunting season will allow use of dogs to hunt cougar. The hunts will consist of pursuit-or-kill seasons and pursuit-only seasons.

2. Pursuit-or-kill seasons:

- Cougar may be pursued or killed with the aid of dogs from December 19, 2009, until the female zone quota has been killed, the total zone quota has been killed, or March 31, 2010, whichever occurs first; EXCEPT GMUs 101, 105, and 204 where cougar may be pursued or killed from January 1, 2010, until the female zone quota has been killed, the total zone quota has been killed, or March 31, 2010, whichever occurs first.

3. Pursuit-only seasons:

(a) If a zone quota is killed prior to March 31, 2010, cougar may be pursued with dogs in all or portions of that zone until March 31, 2010. Hunters may only pursue cougars in designated pursuit only areas identified on their kill or pursuit-only permit. Hunters may not kill cougar during pursuit-only seasons.

(b) Hunters selected for the pursuit-or-kill season (accompanied by up to three of their identified handlers) may participate in a pursuit-only season. Permit hunters that harvest a cougar under a kill permit may continue to pursue cougars until March 31. If a zone quota is killed, the department may also issue pursuit-only permit to hunters drawn at random from the unselected pool of applicants. The director will identify the number of pursuit-only hunters selected.

4. Hunt areas and kill quotas:

- Cougar seasons will be based on a quota system, where permit hunters may hunt and kill cougar until the allotted numbers of cougar have been killed from each hunt zone or March 31, 2010, whichever occurs first.

(a) Kill quotas start September 1 and will include all cougar killed during seasons with and without the aid of dogs, including cougar seasons under this section, cougar seasons without the aid of dogs authorized under WAC 232-28-272 and 232-28-287, depredation permits, landowner kill permits, and WDFW depredation authority.

(b) Individual problem cougar will continue to be killed on an as-needed basis utilizing depredation permits, landowner kill permits, and WDFW depredation authority even if these kills result in exceeding a zone quota.

(5) Quota hotline:

Permit hunters participating in a pursuit-or-kill season must call the toll free cougar quota hotline within twenty-four hours prior to each day hunting cougar to determine if the zone quota has been killed and the zone is closed. Hunters who hunt more than one consecutive day must call the quota hotline once daily to determine if the zone quota is killed. Hunters who harvest a cougar with the aid of dogs must notify the department within twenty-four hours of kill (excluding legal state holidays) and provide the hunter's name, date and location of kill, and sex of animal. The raw pelt of a cougar, with proof of sex naturally attached, must be sealed by an authorized department employee within five days of the notification of kill. Any person who takes a cougar must present the cougar skull in such a manner that teeth and biological samples can be extracted to an authorized department employee at the time of sealing.

(6) Kill or pursuit-only permit eligibility:

(a) To apply for a kill or pursuit-only permit under this section, individuals must purchase a cougar permit application and submit the application in compliance with WAC 232-28-291 by a date and time identified by the director.

(b) To be eligible for a permit, the participant must be a Washington resident who at the time of application for a permit possesses a valid big game license with cougar as a species option. The permit holder may use dogs while participating in a cougar hunt under this section.

(c) A permit will not be issued to any person who has been convicted of unlawful use of dogs under RCW 77.15.245 within the five-year period prior to December 1, 2004. Any person issued a permit and who is subsequently convicted of any wildlife offense while participating in a pursuit-or-kill or pursuit-only season, or who violates any condition of the permit, will have the permit revoked and will be ineligible to participate in the remainder of the pilot program.
(7) Permit issuance procedure:
(a) The number of kill permits may be established by the director, but will not exceed two times the total cougar quota for each hunt zone.
(b) The department will issue kill or pursuit-only permits to the persons whose applications are drawn at random. Individuals selected will be notified by telephone or mail. Kill and pursuit-only permits may not be sold or reassigned.
(c) If a female zone quota or total zone quota is not killed in a hunt zone by February 15 (or sooner as identified by the director), then the department may issue kill permits to additional hunters. Hunters will be drawn at random from the unselected pool of applicants.

(8) Qualifications for participation and requirements:
In addition to the provisions applicable to all cougar hunters:
(a) Successful applicants must complete a training program prior to participating in a pursuit-or-kill season or pursuit-only season with the aid of dogs.
(b) Participants must have their permit issued by the department in their possession while hunting cougar.
(c) Individuals selected for a kill permit may kill and possess one cougar per permit and only the permittee may kill the cougar.
(d) Individuals selected for a cougar kill or pursuit-only permit may use dog handlers. However, no more than three handlers may accompany the permittee while hunting or pursuing cougar. Dog handlers may not pursue cougar when the permit hunter is not present at the time the dogs are released from a leash or unrestrained. Dog handlers must have a dog handler identification card, issued by the department, in their possession while participating in a pursuit-or-kill season or pursuit-only season.
(e) Dog handlers must possess a valid Washington hunting license.
(f) It is unlawful to kill or possess spotted cougar kittens or adult cougars accompanied by spotted kittens.
(g) Participants must have a vehicle placard issued by the department. The vehicle placard must be placed in the permittee's and dog handler's vehicles and be visible from outside the vehicles at all times while hunting or pursuing cougar.

(h) Kill and pursuit-only permit hunters are required to report their hunting activity, whether they harvest a cougar or not, using the toll free cougar quota hotline. Unsuccessful hunters must report their hunting activity by April 10, 2009. A violation of this requirement under this subsection is punishable as an infraction under RCW 77.15.160.

(9) The permit belongs to the state of Washington. The permit holder may be required to return to or turn over to the department the permit when, in the judgment of the department, the permit holder violates any conditions of the permit, violates trespass laws while acting under this permit, or violates any other criminal law or hunting regulation of the state while acting under this permit. If the permit holder is required to return to or turn over to the department the permit, the permit holder may request an appeal of that action in accordance with chapter 34.05 RCW. Appeal request shall be filed in writing and returned within twenty days of the date of action and be addressed to WDFW Legal Services Office, 600 Capitol Way North, Olympia, Washington 98501-1091.

Who may apply: Anyone with a valid Washington big game license, which includes black bear as a species option.

Bag Limit: One (1) elk per hunter during the license year except where otherwise permitted by fish and wildlife commission rule. Any combination of seasons, tags, and permits set by the fish and wildlife commission will not exceed a maximum of two (2) elk per hunter during the license year.

Hunting Method: Elk hunters must select only one of the hunting methods (modern firearm, archery, or muzzleloader).

Elk Tag Areas: Elk hunters must choose either Eastern or Western Washington to hunt in and buy the appropriate tag for that area.

Any Bull Elk Seasons: Open only to the taking of elk with visible antlers (bull calves are illegal).

Antler Point: To qualify as an antler point, the point must be at least one inch long measured on the longest side.

Branch: A branch is defined as any projection off the main antler beam that is at least one inch long, measured on the longest side, and longer than it is wide.

Spike Bull Antler Restrictions: Bull elk taken in spike only GMUs must have at least one antler with no branches originating more than four inches above where the antler attaches to the skull.

True Spike—Bull Antler Restrictions: Bull elk taken in these units must have both antlers with no branching originating more than four inches above where the antlers attach to the skull. Under the true spike restriction, the taking of an elk that has two points on one side or has antler points within one inch of the definitions regarding length of point, or point of origin is an infraction under RCW 7.84.030. All other types of violations of the true spike restriction are subject to current penalties and assessments.

True Spike GMUs: 251, 328-335.

3 Point Antler Restrictions: Legal bull elk must have at least 3 antler points on one side with at least 2 antler points above the ear. Eye guards are antler points when they are at least one inch long. Antler restrictions apply to all hunters during any open season.

3 Point GMUs: All of Western Washington except for GMUs 454, 564, 568, 574, 578, 652 for archers, 666, 684, and Elk Area 4941.

Hunters must purchase an elk hunting license prior to purchase of a permit application. Hunters may only apply for permits consistent with the tag required for the hunt choice; however, Multiple Season Permit holders may apply for Eastern or Western Washington archery, muzzleloader, or modern firearm permit hunts. Applicants must have purchased the proper tag for these hunts. The elk tag prefixes required to apply for each hunt are shown in the following table. Hunters drawn for a special permit hunt must comply with weapon restrictions and dates listed for the hunt.

QUALITY HUNTING PROGRAM IN GOOSE MANAGEMENT AREA 1.

Hunters possessing a snow goose hunting authorization for Goose Management Area 1 can apply for a special quality hunt authorization to access private lands around Fir Island. Hunters must apply for these special authorizations by September 25, 2009, using the department's internet or mail application systems. Private lands enrolled in the program are open only to hunters with quality hunt authorizations. Most program lands are open as Feel Free to Hunt or Register to Hunt. All hunters must hunt over decoys and obey posted signs regarding access restrictions. Quality hunt authorizations are not valid for commercial uses.

On each Saturday during the season, all units in the program will be open only to hunters selected in random drawings for each hunt day. Hunters will be assigned at random to units for each hunt day. On these hunt days, up to 3 individuals possessing snow goose authorizations can hunt with the successful applicant. Successful applicants must check in with the WDFW hunt coordinator at least one week prior to their scheduled hunting day to receive specific hunting unit information.
