WAC 230-10-030 Bingo card definitions. For purposes of this title:

(1) "Card" means a unique group and configuration of numbers printed on paper, cardboard, or other material used in bingo games. This is also called a "face."

(2) "Card number" means the number the manufacturer assigns to identify a single card or face. The "card number" is also called a "face" or "perm" number.

(3) "Number" means numeral or symbol printed on the card.

(4) "Collate" means the process of cutting or assembling master sheets or precut sheets of cards from one or more sets

of cards into packets or books for marketing purposes. "Collate" is also called "finish" or "finishing."

(5) "Collation" means a group of packets or books of cards assembled from more than one set of cards.

(6) "Cut" means the layout or orientation of cards or sheets of cards divided from a master sheet of cards. A "cut" may be either square, horizontal, or vertical.

(7) "Disposable bingo card" means a nonreusable paper bingo card manufactured by a licensed manufacturer.

(8) "Duplicate cards" means two or more cards that are imprinted with the same numbers.

(9) "On" means the number of cards imprinted on a sheet. (Example: "Three on.")

The same number must not identify another set of cards from the same product line, color, border pattern, and series in less than 999,999 occurrences or twelve months, whichever occurs first. If the product line is used as a determining factor for assignment of a serial number, the difference between various product lines must be readily identifiable by observation.

(14) "Series" of cards means a specific group of cards that a manufacturer assigns consecutive card numbers. The first and last card numbers in a series typically identify the group of cards. (Example: The "1 to 9000 series.")

(15) "Set" of cards means a specific group of cards from the same product line, which are the same color, border pattern, and imprinted with the same serial number. A "set" of cards may include more than one series of cards.

(17) "Skip" means the standard spread or difference between card or sheet numbers at different page levels in packs or packets.

(f) If duplicate cards are in play.

(2) Licensees must inform players in broadcast or published advertisements or other distributed printed information if there are any possible events which might change game schedules, prizes awarded, or cost to play. Advertised bingo prizes and game formats may be changed in case of inclement weather, natural disaster, or other unforeseen emergencies if the licensee informs players before they purchase cards.

(3) If players may still participate in the game after the winner of any one of the prizes offered has been determined, licensees must remove the prize won from any display and list of prizes posted on the premises. WAC 230-10-115 Selling bingo cards. (1) Operators must sell bingo cards before they select the first number for a specific game:

(c) Operators must not allow players to select specific bingo cards after the first number is selected for a specific game.

WAC 230-10-120 Duplicate bingo cards not sold for Class D or above bingo games. (1) Class D or above bingo licensees must not sell duplicate cards in bingo games. Licensees using cards from multiple manufacturers may result in duplicate cards because the majority of cards in the "1 to 9000 series" are duplicate, regardless of the manufacturer.

(2) Licensees must:

(a) Inform players of limits on prizes if duplicate cards win because Braille cards are in play; and

(b) Compute and pay all winners with duplicate cards using the following guidelines:

(i) **If the game provides a bonus for a single winner and all winners have duplicate cards**, then the licensee must pay all winners the bonus; or

(ii) **If the game results in multiple winners and some of the players have duplicate cards**, then the licensee must calculate the split of the prize pool by counting all duplicate card winners as one. All winners will be paid according to the calculated prize split; or

(iii) **If the prize pool contains noncash or merchandise prizes**, then the licensee may use the cost or retail value of the merchandise, whichever is posted in the game schedule, to calculate the amount added to the prize pool to make the split. Manufacturers are not responsible for reimbursement to this noncash or merchandise prize pool; or

(iv) **If the prize is more than one thousand dollars**, then the licensee must increase the total prize pool by no more than fifty percent or five thousand dollars, whichever is less. We authorize this limitation only once within a twelve-month period; and

(2) Licensees may deduct increases to prize pools caused by card manufacturers from prize pay outs when calculating cash flow.

(3) Licensees must document details of circumstances that resulted in duplicate cards being sold and maintain that documentation as a part of the daily bingo record for the session.

(4) Licensees must notify us within forty-eight hours after discovery of a duplicate card sale if:

(a) Manufacturer printing, packaging, or collation errors caused the duplication. Licensees must request reimbursement from the manufacturer responsible for duplicate card errors; or

[Ch. 230-10 WAC p. 6]

(b) The licensee did not pay any winning player with a duplicate card the entire prize amount.

WAC 230-10-145 Determining bingo winners. (1) A bingo game ends when a player achieves a specific pattern on a bingo card or when the bingo operator has called a specific number of bingo balls.

(2) Operators must use a separate drawing process for each game, except for:

(a) Interim or "on-the-way" games, including "instant winner" games in which players win by matching a predetermined number, the number of balls called, or a predetermined pattern within an established number of calls; or

(b) Games in which cards are sold for different prices and players win a different prize depending on the price they paid to play; or

Any player may request to see the actual winning card and the operator must allow the player to do so; or
- (3) If the game is an "instant winner" and pays a prize of no more than fifty dollars, no neutral player needs to verify the card if the operator keeps an audit trail which identifies the winning combination called.
