WAC 463-66-100 Transfer of a site certification agreement. No site certification agreement, any portion of a site certification agreement, nor any legal or equitable interest in such an agreement issued under this chapter shall be transferred, assigned, or in any manner disposed of (including abandonment), either voluntarily or involuntarily,
directly or indirectly, through transfer of control of the cer-
tification agreement or the site certification agreement owner
or project sponsor without express council approval of such
action. In the event a site certification agreement is to be
acquired via a merger, leveraged buy-out, or other change in
corporate or partnership ownership, the successor in interest
must file a formal petition under the terms of this section to
continue operation or other activities at the certificated site.

(1) A certification holder seeking to transfer or otherwise
dispose of a site certification agreement must file a formal
application with the council including information about the
new owner required by WAC 463-60-015 and 463-60-075
that demonstrate the transferee's organizational, financial,
managerial, and technical capability to comply with the terms
and conditions of the original site certification agreement
including council approved plans for termination of the plant
and site restoration. The council may place conditions on the
transfer of the certification agreement including provisions
that reserve liability for the site in the original certification
holder.

(2) If the certification holder is seeking an alternative
disposition of a certificated site, the certification holder must
petition the council for an amendment to its site certification
agreement pursuant to the provisions of this chapter and gain
council approval of its alternative disposition plan. In submit-
ting a request for an alternative disposition of a certificated
site, the certification holder must describe the operational and
environmental effects of the alternative use of the site on the
certified facility. If the proposed alternative use of the site is
inconsistent with the terms and conditions of the original site
certification agreement the council may reject the application
for alternative use of the site.

(3) The council shall require any person who submits an
application to acquire a site certification agreement under
provisions of this section to file a written consent from the
current certification holder, or a certified copy of an order or
judgment of a court of competent jurisdiction, attesting to the
person's right, subject to the provisions of chapter 80.50
RCW et seq, and the rules of this chapter, to possession of the
energy facility involved.

(4) After mailing a notice of the pending application for
transfer of the site certification agreement to all persons on its
mailing list, the council shall hold an informational hearing
on the application. Following the hearing the council may
approve an application for transfer of the site certification
agreement if the council determines that:

(a) The applicant satisfies the provisions of WAC 463-
60-015 and 463-60-075;

(b) The applicant is entitled to possession of the energy
facility described in the certification agreement; and

(c) The applicant agrees to abide by all of the terms and
conditions of the site certification agreement to be transferred
and has demonstrated it has the organizational, financial,
managerial, and technical capability and is willing and able to
comply with the terms and conditions of the certification
agreement being transferred.

(5) The council shall issue a formal order either approv-
ing or denying the application for transfer of the site certifica-
tion agreement. If the council denies the request, it shall state
the reasons for its denial.
