WAC 246-814-010 Purpose. The purpose of this chapter is to implement RCW 18.29.220 and 18.32.226. These laws are intended to improve access to dental care for low-income, rural, and other at-risk children by enhancing the authority of dental hygienists and dental assistants to provide dental sealant and fluoride varnish treatments in school-based programs. The department of health encourages partnerships within geographical regions and among participants in the oral health care community in implementing this law.

[Statutory Authority: RCW 43.70.650. WSR 02-21-128, § 246-814-010, filed 10/23/02, effective 11/23/02.]

WAC 246-814-020 Practices authorized. (1) **Dental hygienists.** Solely for purposes of providing services under this chapter, dental hygienists holding endorsements under this chapter may assess by determining the need for (i.e., the absence of gross carious lesions and sealants) and acceptability of dental sealant and/or fluoride varnish treatment for children in school-based programs and may apply dental sealants and fluoride varnish treatments, without the supervision of a licensed dentist. This determination does not include or involve diagnosing conditions or constitute a dental examination.

(2) **Dental assistants.** A dental assistant is currently defined by the Dental Quality Assurance Commission in WAC 246-817-510 as an unlicensed person working under the *close* supervision of a licensed dentist. Solely for purposes of this chapter, authorized dental assistants may apply dental sealants and fluoride varnish treatments to children in school-based programs under the *general* supervision of a Washington state licensed dentist, as described in this chapter.

(a) *Close supervision* requires the licensed supervising dentist to first determine the need for and acceptability of dental sealant and fluoride varnish treatments, refer the treatment and the dentist must be in the treatment facility when the treatment is provided.

(b) *General supervision* requires the licensed supervising dentist to first determine the need for and acceptability of dental sealant and fluoride varnish treatments, refer the treatment and the dentist does not have to be in the treatment facility when the treatment is provided.

(3) Dental assistants and their supervising dentists, as well as dental hygienists shall coordinate with local public health jurisdictions and local oral health coalitions prior to

providing services under this chapter, consistent with RCW 18.29.220 and 18.32.226.

[Statutory Authority: RCW 43.70.650. WSR 02-21-128, § 246-814-020, filed 10/23/02, effective 11/23/02.]

WAC 246-814-030 Application process and documentation of training required to qualify for endorsement. (1) The department of health has issued endorsements to all dental hygienists holding valid licenses on or before April 19, 2001, the effective date of RCW 18.29.220.
