WAC 136-15-010 Purpose and authority. RCW 36.81.121 requires the preparation and annual updating of a six-year comprehensive transportation program. The program shall be adopted by the county legislative authority at any time before adoption of the annual budget and shall include all anticipated road and bridge construction projects, capital ferry expenditures, paths and trails projects and any other specified capital outlays for the following six-year period. The purpose of this chapter is to implement these statutory requirements with assurance that the program is based on a realistic assessment of available funding during the program period.

WAC 136-15-020 Contents of six-year program. Each adopted program shall designate the six-year time period included, the name of the county, the county number as assigned by the state office of financial management, the date(s) of the public hearing held to provide public input to the program, the date of the adoption by the legislative authority and the adopting resolution number. The adopted program for submittal to the county road administration board shall consist of two parts:

- (1) A road fund revenue and expenditure analysis for the six-year time period; and
- (2) A program listing of specific projects.

[Statutory Authority: Chapter 36.79 RCW. WSR 99-01-021, § 136-15-020, filed 12/7/98, effective 1/7/99. Statutory Authority: RCW 36.78.070 and 36.79.060. WSR 96-17-013, § 136-15-020, filed 8/12/96, effective 9/12/96. Statutory Authority: Chapter 36.78 RCW. WSR 88-16-017 (Order 68), § 136-15-020, filed 7/25/88.]

WAC 136-15-030 Road fund revenue and expenditure analysis. The road fund revenue and expenditure analysis shall include the county's best estimates of future road fund revenues and expenditures over each year of the six-year program period.

The anticipated revenues should include a line item for motor vehicle fuel tax, the road levy after diversion, federal transportation program grants (by program), TIB funds, RATA funds, RID funds, public works trust fund loans, state forest funds, federal forest funds, and other miscellaneous revenues.

The anticipated road fund expenditures should include line items for administration, maintenance, facilities, transfers and loan repayments, reimbursable work and miscellaneous expenditures and shall show by subtraction the amount available for construction during each year of the program period.

WAC 136-15-040 Program listings of specific projects. This listing shall include projects having an estimated cost approximately equal to the anticipated revenues for projects during the program period, clearly identifying those projects (1) for which funding is reasonably assured; (2) for which funds are not specifically assured but are within expected levels of existing programs for the applicable year; and (3), if desired, those which are unfunded within currently anticipated resources. Because of the possibility of unforeseen future circumstances at the time of approval of the six-year program, the above construction funding classification for any project shall not be considered final, but only an indication of the relative certainty of the various proposed projects.

It is recommended that provision be made in the program for one or more generic projects each year for improvements such as miscellaneous safety projects, new culvert and small bridge construction and other minor improvements.

WAC 136-15-045 RAP projects in the six-year program. Each county's six-year transportation program shall include all projects for which the county is seeking RATA funds during the succeeding biennium. The six-year transportation program may include a general subprogram item of which RAP projects, although not specifically listed, may be a part. A county may only include a proposed RAP project within a subprogram item if:

(1) The project(s) is not rehabilitation or reconstruction in scope;

(2) The specific listing of projects used for support of the general subprogram item was made available to the public at the time of six-year program adoption;

(3) The county provides the county road administration board with the specific project listing in writing, citing the subprogram that includes the specific project.

(1) A priority array as required by WAC 136-14-050;

(2) An engineer's bridge condition report as required by WAC 136-20-060; and

(3) The multiyear financing plan of the transportation element of the county's comprehensive plan if required by chapter 36.70A RCW.

Within thirty days of adoption, the county legislative authority shall submit the six-year program to the county road administration board.

WAC 136-15-055 Modification of program. The adopted six-year program may not be revised except by a majority vote of the members of the legislative authority who are present when the vote is taken. Such revisions shall be by resolution of the legislative authority and only after a public hearing thereon. A copy of such adopting resolution shall be forwarded to the county road administration board as part of the annual certification for that calendar year.
