

WAC 296-307-63230 Arrange for oversight of audiometric testing.

You must:

• Make sure audiometric testing as described by WAC 296-307-636 is supervised and reviewed by one of the following licensed or certified individuals:

- An audiologist
- An otolaryngologist
- Another qualified physician.

• Make sure audiograms are conducted by one of the above individuals or by a technician certified by the Council of Accreditation in Occupational Hearing Conservation (CAOHC) and responsible to a qualified reviewer.
