

**WAC 16-170-130 Hand dips and hand sanitizing stations. (1)**

"Hand dips" or "hand sanitizing stations" are recommended but not required in the poultry slaughter site. Sanitizing hands using hand dips or hand sanitizing stations is not a substitute for adequate handwashing methods. However, if hand dips are used, they must be properly positioned and maintained.

(2) "Properly maintained" means sanitizing solutions are:

(a) Checked and recharged to a strength equal to 100 PPM chlorine or 25 PPM iodine; and

(b) Changed every four hours while in use.
