(2) It is unlawful to set, fish, or pull more than 2 units of gear per person per day, unless otherwise provided in this subsection. A unit of gear is defined as a hand dip net, shellfish pot, ring net or any other instrument used to capture crab, shrimp, or crawfish. A violation of this subsection is punishable under RCW 77.15.160, 77.15.380, or 77.15.370, depending on the circumstances of the violation.

(c) In the Columbia River, it is unlawful to set, fish, or pull more than 3 units of crab gear per person.

(d) In fresh water, it is permissible to use up to 5 units of gear per person to fish for crawfish.

(ii) Only one person's name and address may appear on a marker buoy.

(b) All buoys must consist of durable material. It is unlawful to use bleach, antifreeze or detergent bottles, paint cans, or any other container as a buoy.

(c) Buoys must remain visible on the surface at all times, except during extreme tidal conditions.

(d) The line attaching a buoy to shellfish gear must be weighted sufficiently to prevent the line from floating on the water's surface.

(e) Violation of this subsection is an infraction, punishable under RCW 77.15.160.

(4) It is unlawful to have more than one unit of unattended gear attached to a buoy line and buoy, or to fail to have a separate buoy for each unit of gear. A violation of this subsection is a misdemeanor, punishable under RCW 77.15.382 Unlawful use of shellfish gear for personal-use purposes—Penalty.

(5) It is unlawful for any person to operate a shellfish pot not attached to a buoy bearing that person's name, except that a second person may assist the pot owner in operation of the gear. A violation of this subsection is a misdemeanor, punishable under RCW 77.15.180 Unlawful interference with fishing or hunting gear—Penalty.

(6) It is unlawful to fish for or possess shellfish taken for personal use with shellfish pot gear unless the gear allows for escapement using at least one of the following methods:

(a) Attachment of pot lid hooks or tiedown straps with a single strand or loop of untreated, 100 percent cotton twine, hemp, jute, or sisal no larger than thread size 120 so that the pot lid will open freely if the twine or fiber is broken.

(b) An opening in the pot mesh no less than 3 inches by 5 inches which is laced or sewn closed with untreated, 100 percent cotton twine, hemp, jute, or sisal no larger than thread size 120. The opening must be located within the top half of the pot and be unimpeded by the entry tunnels, bait boxes, or any other structures or materials.

(c) Attachment of pot lid or one pot side serving as a pot lid with no more than 3 single loops of untreated 100 percent cotton, hemp, jute, or sisal no larger than thread size 120 so that the pot lid or side will open freely if the twine or fiber is broken.

(d) Use of gear in violation of this subsection is an infraction, punishable under RCW 77.15.160.

(7) It is unlawful to set shellfish pots in a manner that they are not covered by water at all times. Use of gear in violation of this subsection is an infraction, punishable under RCW 77.15.160.

(d) It is unlawful to use mesh size smaller than 1 1/2 inches for crab pots.

(e) Unless otherwise designated, a violation of this subsection is a violation of RCW 77.15.382. Possession of crab while using gear in violation of the provisions of this section is a rebuttable presumption that the crab were taken with such gear.

have mesh size openings that are a minimum of 1 1/8 inch stretch measure.

(D) One inch mesh is defined as a mesh that a 7/8 inch square peg will pass through each mesh opening; flexible (web) mesh pots must have mesh size openings that are a minimum of 1 3/4 inch stretch measure.

(iv) Entrance tunnels to shrimp pots may be constructed of any size mesh material. All entrance tunnels must open into the pot from the side. The sum of the maximum widths of all entrance tunnel openings must not exceed half of the perimeter of the bottom of the pot.

WAC 220-330-120 Clams, oysters, mussels, scallops, sea urchins, sea cucumbers, squid, octopus—Gear and gear-related unlawful acts. It is unlawful to take, dig for, fish for, or possess clams, oysters, mussels, scallops, sea urchins, sea cucumbers, squid, or octopus for personal use, except using gear outlined in the following subsections:

(1) **Clams** (excluding razor clams and geoducks): By hand or with hand-operated forks, picks, mattocks, rakes and shovels.

(2) **Razor clams:** By hand, shovels or with cylindrical cans, tubes or hinged digging devices. The opening of tubes or cans must be either circular or elliptical with the circular can/tube having a minimum outside diameter of 4 inches and the elliptical can/tube having a minimum dimension of 4 inches long and 3 inches wide outside diameter. The hinged digging device when opened in a cylindrical position, must have a minimum outside diameter of 4 inches at the bottom.

(3) **Geoducks:**

(a) By hand or with nonmechanized hand-operated forks, picks, mattocks, rakes, and shovels and a cylindrical can or tube not exceeding 24 inches in diameter may be used to dig geoduck.

(b) It is unlawful for any person digging clams, other than razor clams, for personal use to fail to fill in holes created during the digging operation. Beach terrain must be returned to its approximate original condition by the clam diggers immediately after harvest.

(4) It is unlawful to return any horse clams or geoducks to the beach or water regardless of size or condition. All such clams taken for personal use must be retained by the digger as part of their daily limit.

(5) **Oysters and scallops:** By hand or with the aid of a hand-held manually operated prying tool. It is unlawful to use a hammer, mallet or other object to strike oysters and rock scallops during the removal process.

(6) **Sea cucumbers:** By hand or hand-operated, nonmechanized instrument which does not penetrate the animal.

(7) **Sea urchins:** By hand or hand-operated, nonmechanized instrument which does not penetrate the shell.

(8) In the field each harvester, including holders of razor clam disability permits, must have their daily limit in a separate container. Violation of this subsection is an infraction, punishable under RCW 77.15.160.

(9) **Squid:** It is unlawful to take, fish for or possess squid taken for personal use with more than one line. A maximum of four squid lures may be used. If gear utilizes conventional hooks, it shall not

exceed a total of nine points. Herring rakes and hand dip net gear may be used to take squid. In the field each person taking squid must use a separate container to hold their catch.

(10) **Octopus:** Octopus may be taken by hand, only except that one octopus per person per day may be retained when caught incidentally using shellfish pot gear during a lawful shellfish pot fishery. Shellfish pots may not be used to capture octopus outside of a lawful shellfish pot fishery. It is unlawful to take octopus using chemical irritants or by any instrument which will penetrate or mutilate the body, except that it is permissible to retain octopus taken while angling with hook and line gear during a lawful hook and line fishery.

(11) A violation of this subsection is punishable under RCW 77.15.160, 77.15.380, or 77.15.370, depending on the circumstances of the violation. Possession of shellfish while using gear in violation of the provisions of this section is a rebuttable presumption that the shellfish were taken with such gear.
