

WAC 388-828-9245 How does DDD determine your employment acuity scale score for employment support? DDD determines your employment acuity score for employment support by multiplying your DDD employment support score in WAC 388-828-9250 by 0.21781.

Example: A DDD employment support score of 2 is multiplied by 0.21781 resulting in an employment acuity scale score for employment support of 0.43562.
