

WAC 16-71-100 Strangles. (1) Strangles (also known as equine distemper) is a contagious, upper respiratory tract infection of equines caused by a bacterium, *Streptococcus equi var equi*. Strangles is enzootic in domesticated horses worldwide.

(2) Horses that test positive to *Streptococcus equi* will be dealt with by the state veterinarian on a case-by-case basis.

[Statutory Authority: Chapters 16.36 and 34.05 RCW. WSR 10-13-056, § 16-71-100, filed 6/10/10, effective 7/11/10.]
