

WAC 110-145-1585 What are the requirements for water, garbage, and sewer? (1) You must maintain adequate sewage and garbage facilities.

(2) Your facility must be connected to a public sewer system or have an on-site sewage system permitted by the local health department or the Washington state department of health.

(3) You must have access to a public water supply approved by the local health district or tribal government unless you have a private water supply tested by the local health district or a private water-testing laboratory approved by the Washington state department of health. Testing is required at the time of licensing, relicensing and at any time the department deems necessary.

(4) Running water may not exceed one hundred twenty degrees Fahrenheit.

(5) You must provide paper cups, individual drinking cups or glasses, or drinking fountains.
