

**WAC 110-148-1555 What are the immunization requirements? (1)**

Children placed in your home by the department are required to be immunized according to the Advisory Committee on Immunization Practices of the Centers for Disease Control (ACIP/CDC) as established in the Recommended Immunization Schedule for Persons Aged 0-18 Years, United States, 2012 and as amended each subsequent year, except for rotavirus and human papillomavirus.

(2) If a child who has not received all recommended immunizations is placed in your care, you must take the child to a health care provider as soon as medically possible for catch-up immunizations according to the ACIP/CDC catch-up schedule.

(3) You must contact each child's DSHS worker and your licensor if a serious infection or a communicable disease is a threat to the children in your care. The department may remove a foster child from your home when the threat of a serious infection or communicable disease creates a risk to the health of any child placed in your home.
