

WAC 296-855-400 Exposure control.

Summary:

Your responsibility:

To protect employees from exposure to ethylene oxide (EtO) by using feasible exposure controls and appropriate respirators.

IMPORTANT:

These sections apply when employee exposure monitoring results are above either of the following permissible exposure limits (PELs):

1. The eight-hour time-weighted average (TWA₈) of one part per million (ppm); or
2. The fifteen-minute short-term exposure limit (STEL) of five ppm.

You must meet the requirements...	in this section:
Exposure control plan	WAC 296-855-40010
Exposure controls	WAC 296-855-40030
Respirators	WAC 296-855-40040
