

WAC 388-828-1580 Why does DDA require an assessment? DDA requires an assessment because:

(1) DDA assesses clients with a common, standardized assessment process that measures the support needs of individuals with developmental disabilities.

(2) The DDA assessment algorithms are designed to:

(a) Determine acuity scores and acuity levels for a variety of client needs; and

(b) Provide a valid measure of each client's support needs relative to the support needs of other clients who have received the DDA assessment.
