

WAC 415-104-730 Venereal diseases. In general the finding of acute, uncomplicated venereal disease which can be expected to respond to treatment is not a cause for medical rejection of membership.

However, the following conditions are causes for rejection of membership:

(1) **Chronic venereal disease** which has not satisfactorily responded to treatment. The finding of a positive serologic test for syphilis following adequate treatment of syphilis is not in itself considered evidence of chronic venereal disease which has not responded to treatment. See WAC 415-104-715(6);

(2) **Complications and permanent residuals of venereal disease** if progressive, of such nature as to interfere with the satisfactory performance of duty, or if subject to aggravation in the performance of required duties;

(3) **Neurosyphilis**, see WAC 415-104-670 (1)(c).
