

WAC 136-300-060 Annual county arterial preservation programs.

Each county engineer shall, in conjunction with the county's annual road construction program as required by RCW 36.81.130 and chapter 136-16 WAC, prepare an annual county arterial preservation program. Appropriate forms will be provided by the county road administration board.

The county's annual arterial preservation program shall consist of a list of all proposed county arterial preservation projects and activities as well as total planned expenditure of CAPA and non-CAPA funds for maintenance management and pavement management for the ensuing year. In order to evaluate the relative ability of CAPA funds to meet the county's total arterial pavement preservation needs, the annual county arterial preservation program shall identify those projects for which CAPA funding is available.

The county engineer shall submit the proposed county arterial preservation program to the county road administration board along with the county's annual road program and budget in accordance with chapter 136-16 WAC.
