WAC 246-808-020 Accreditation and approval of chiropractic colleges—Policy. (1) In determining a chiropractic college's eligibility for accreditation and approval in the state of Washington, the commission may utilize recognized national or international chiropractic accrediting bodies that meet the criteria in WAC 246-808-040 (3)(d), (e), and (f), unless the chiropractic college applies directly to the commission for accreditation and approval under RCW 18.25.025, and meets all criteria of WAC 246-808-040.

(1) Application and determination.

(a) To apply for accreditation and approval by the commission, a chiropractic college shall send a written request to the commission requesting an application form. The applicant shall complete the application form and submit it to the commission, along with any accompanying documents, and recent photographs of the chiropractic college or the buildings in which the chiropractic college is located.

(b) Within one hundred twenty days after the receipt of the completed application, the commission shall consider the application, determine whether or not the chiropractic college fulfills the requirements in WAC 246-808-040, and notify the applicant of the commission's determination. If the commission determines that the chiropractic college cannot be accredited and approved, the notice shall include the reasons for denial. The commission may withhold making a determination for a reasonable period of time for any justifiable cause upon giving notice to the applicant.

(2) Additional information. The commission may request additional information from the applicant including answers to specific inquiries. The commission may grant or deny the accreditation and approval contingent upon the applicants' response to such inquiries.

(3) Inspection. The commission, at its discretion, may make a physical inspection of the applicant's chiropractic college a condition for accreditation and approval.

(4) Duration. An accredited and approved chiropractic college shall continue to be accredited and approved for as long as it fulfills the requirements of this chapter.

(a) A chiropractic college shall report to the commission any changes to its accreditation status, financial solvency, ownership status, administration, or curriculum.

(5) Enforcement. The commission will provide the chiropractic college with a written statement of deficiencies describing the specific areas of noncompliance. The commission and the chiropractic college may agree on a mutually acceptable timetable and procedures for correction of the deficiencies or the commission may set the timetable. Should the chiropractic college not make the required corrections, or should further deficiencies develop during the probation, the commission may revoke the approval of the chiropractic college. The commission need not place a chiropractic college on probation before pursuing suspension or revocation of the approval.

(6) Appeal. A chiropractic college whose approval is suspended or revoked may request an adjudicative proceeding under chapter 246-11 WAC to contest the decision. A request for an adjudicative proceeding must be filed with the commission within thirty calendar days of service of the commission's notice of decision.

The early remediation program may include education, training, and monitoring to improve the quality of care and reduce the risk of patient harm.

WAC 246-808-060 and 246-808-070 establish the early remediation program and its eligibility criteria and procedures.

The commission intends to use the early remediation program only in cases in which there is no evidence of patient harm as a direct result of the licensee's practice-related deficiencies. The commission may resolve allegations of practice deficiencies through early remediation during an investigation.

(4) The commission shall use the following process to implement the early remediation program:

(a) After a preliminary investigation identifies the practice deficiencies, the commission shall apply criteria in subsections (1) and (2) of this section to determine eligibility for the early remediation program;

(c) The commission shall evaluate whether the practice deficiencies have been corrected and are unlikely to recur;

WAC 246-808-560 Documentation of care. A doctor of chiropractic must keep complete and accurate documentation on all patients and patient encounters. This documentation is necessary to protect the health, well-being and safety of the patient.

(1) The patient record must detail the patient's clinical history, the rationale for the examination, diagnostic or analytical procedures, and treatment services provided. The diagnosis or clinical impression must be contained in the patient record, not merely recorded on billing forms or statements. Subjective health status updates, whether or not symptoms are present, must be documented for every patient encounter.

(2) Documentation for the initial record must include at a minimum:

- (a) The patient's history;
- (b) Subjective presentation;
- (c) Examination findings or objective findings relating to the patient's presenting condition;
- (d) Any diagnostic testing performed;
- (e) A diagnosis or impression;
- (f) Any treatment or care provided; and

Reexamination documentation must include the subjective presentation and objective findings. This documentation shall also reflect changes in the patient's care and progress and in the treatment plan.

(4) Documentation between examinations must be recorded for every patient encounter. Documentation must sufficiently record all the services provided, as well as any changes in the patient's presentation or condition. The region(s) of all treatment and, if applicable,

the specific level(s) of chiropractic adjustments must be recorded in the patient encounter documentation.

(5) Patient records must be legible, permanent, and recorded in a timely manner. Documentation that is not recorded on the date of service must designate both the date of service and the date of the chart note entry. Corrections or additions to the patient's records must be corrected by a single line drawn through the text and initialed so the original entry remains legible. In the case of computer-organized documentation, unintended entries may be identified and corrected, but must not be deleted from the record. Errors in spelling and grammar may be corrected and deleted.

(6) Correspondence relating to any referrals concerning the diagnosis or treatment of the patient must be retained in the patient record.

(1) The following definitions apply throughout this section unless the context clearly requires otherwise.

(a) "Patient" means a person who is receiving health care or treatment, or has received health care or treatment without a termination of the health care provider-patient relationship. The determination of when a person is a patient is made on a case-by-case basis with consideration given to a number of factors, including the nature, extent, and context of the professional relationship between the health care provider and the person. The fact that a person is not ac-

tively receiving treatment or professional services is not the sole determining factor.

(b) "Health care provider" means a person licensed or registered to practice under chapter 18.25 RCW.

(c) "Key third party" means immediate family members and others who would be reasonably expected to play a significant role in the health care decisions of the patient and includes, but is not limited to, the spouse, domestic partner, sibling, parent, child, guardian, and person authorized to make health care decisions of the patient.

(2) A health care provider shall not engage in sexual misconduct with a current patient or key third party. Sexual misconduct includes, but is not limited to:

(h) Removing patient clothing or gown or draping without consent;

(i) Encouraging the patient to masturbate in the presence of the health care provider or masturbation by the health care provider while the patient is present;

(j) Suggesting or discussing the possibility of a dating, sexual or romantic relationship after the professional relationship ends;

(k) Terminating a professional relationship for the purpose of dating or pursuing a romantic or sexual relationship;

(l) Soliciting a date with a patient or key third party;

(m) Communicating the sexual history, preferences, opinions, or fantasies of the health care provider, patient or key third party;

(n) Making statements regarding the patient or key third party's body, appearance, sexual history, or sexual orientation other than for legitimate health care purposes;

(o) Sexually demeaning behavior including any verbal or physical contact which may reasonably be interpreted as demeaning, humiliating, embarrassing, threatening, or harming a patient or key third party;

(p) Photographing or filming the body or any body part or pose of a patient or key party, other than for legitimate health care purposes;

(q) Showing a patient or key third party sexually explicit photographs, other than for legitimate health care purposes.

(r) Offering to provide goods or services in exchange for sexual favors;

(s) Oral to genital contact; and

(t) Genital to anal contact or oral to anal contact.

(3) A health care provider shall not engage in any of the conduct described in subsection (2) of this section with a former patient or key third party if the health care provider:

(a) Uses or exploits the trust, knowledge, influence, or emotions derived from the professional relationship; or

(b) Uses or exploits privileged information or access to privileged information to meet the health care provider's personal or sexual objectives.

(4) Sexual misconduct also includes sexual contact with any person involving force, intimidation, or lack of consent, sexually harassing or demeaning behavior with current or former patients or key third parties, or a conviction of a sex offense as defined in RCW 9.94A.030.

(5) To determine whether a patient is a current patient or a former patient, the commission will analyze each case individually, and will consider a number of factors including, but not limited to, the following:

(a) Documentation of formal termination of professional relationship;

(b) Transfer of the patient's care to another health care provider;

(c) The length of time that has passed since the last health care services were provided to the patient;

(d) The length of the professional relationship;

(e) The extent to which the patient has confided personal or private information to the health care provider;

(f) The nature of the patient's health problem; and

(g) The degree of emotional dependence and vulnerability of the patient.

(6) These rules do not prohibit:

(a) Providing health care services in case of emergency where the services cannot or will not be provided by another health care provider;

(b) Contact that is necessary for a legitimate health care purpose and that meets the standard of care appropriate to the chiropractic profession; or

(c) Providing health care services for a legitimate health care purpose to a person who is in a preexisting, established personal relationship with the health care provider where there is no evidence of, or potential for, exploiting the patient.

(7) It is not a defense that the patient, former patient, or key third party initiated or consented to the conduct, or that the conduct occurred outside the professional setting.

(8) A violation of any provision of this rule shall constitute grounds for disciplinary action.

SUBSTANCE ABUSE MONITORING

WAC 246-808-801 Purpose. The commission recognizes the need to establish a means of proactively providing early recognition and treatment options for chiropractors whose competency may be impaired due to the abuse of drugs or alcohol. The commission intends that such chiropractors be treated and their treatment monitored so that they can return to or continue to practice their profession in a way which safeguards the public. To accomplish this, the commission shall approve voluntary substance abuse monitoring programs and shall refer chiropractors impaired by substance abuse to approved programs as an alternative to instituting disciplinary proceedings as defined in RCW 18.130.160.

"Aftercare" is that period of time after intensive treatment that provides the chiropractor and the chiropractor's family with group or individual counseling sessions, discussions with other families, ongoing contact and participation in self-help groups and ongoing continued support of treatment program staff.

"Approved substance abuse monitoring program" or **"approved monitoring program"** is a program the commission has determined meets the requirements of the law and the criteria established by the commission in WAC 246-808-820 which enters into a contract with chiropractors who have substance abuse problems regarding the required components of the chiropractor's recovery activity and oversees the chiropractor's compliance with these requirements. Substance abuse monitoring programs do not provide evaluation or treatment to participating chiropractors.

"Approved treatment facility" is a facility approved by the bureau of alcohol and substance abuse, department of social and health services according to RCW 70.96A.020(2) or 69.54.030 to provide intensive alcoholism or drug treatment if located within Washington state. "Contract" is a comprehensive, structured agreement between the recovering chiropractor and the approved monitoring program stipulating the chiropractor's consent to comply with the monitoring program and its required components of the chiropractor's recovery activity.

"Health care professional" is an individual who is licensed, certified, or registered in Washington to engage in the delivery of health care to patients.

"Random drug screens" are laboratory tests to detect the presence of drugs of abuse in body fluids which are performed at irregular intervals not known in advance by the person being tested.

"Substance abuse" means the impairment, as determined by the commission, of a chiropractor's professional services by an addiction to, a dependency on, or the use of alcohol, legend drugs, or controlled substances.

"Support group" is a group of health care professionals meeting regularly to support the recovery of its members. The group provides a confidential setting with a trained and experienced health care professional facilitator in which chiropractors may safely discuss drug diversion, licensure issues, return to work, and other professional issues related to recovery.
