- WAC 374-45-030 Reporting a release. (1) Any owner or operator of a heating oil tank, or owner of the property where a heating oil tank is located, who has information or suspects that heating oil has been released to the environment at the property and may be a threat to human health or the environment must report such information to the agency within 90 days of discovery.
 - (2) To the extent known, the report to the agency must include:
 - (a) The identification and address of the release;
 - (b) Circumstances of the release and the discovery; and
 - (c) Any remedial actions planned, completed, or underway.
- (3) The following are examples of situations that a person should generally report under this section:
- (a) Discovery of heating oil that has leaked or been dumped on the ground.
 - (b) Contamination in a water supply well.
 - (c) Contaminated seeps, sediment, or surface water.
- (d) Vapors in a building, utility vault, or other structure that appear to be entering the structure from nearby contaminated soil or ground water.
- (e) Free product on the surface of the ground or in the ground water.
- (f) Any contaminated soil or unpermitted disposal of heating oil that would be classified as a hazardous waste under federal or state law.
- (4) There is no requirement to report a release to the agency under this chapter if:
- (a) The circumstances associated with the release have been provided to the agency through a notice of potential claim under chapter 374-70 WAC, a technical assistance program application under chapter 374-80 WAC, or application to the underground storage tank revolving loan and grant program; or
- (b) The release has been reported to department of ecology in accordance with another law or regulation.
