

**WAC 16-171-150 Hemp extract facility inspection rating system—
Inspection score.** (1) A hemp extract facility is evaluated at the completion of an inspection conducted by the department as follows:

(a) A hemp extract facility will be debited the point value assigned to the inspection item listed in WAC 16-171-140 for each violation found during an inspection.

(b) The maximum point value possible is 100.

(c) The sum of the points debited for an inspection are subtracted from the maximum point value of 100. The remaining sum is the facility's score for that inspection.

(d) When the department identifies a critical violation during inspection of a hemp extract facility a failing score of "critical" will be listed unless the violation is satisfactorily corrected during the inspection.

(2) A hemp extract facility is considered in substantial compliance with the inspection criteria if:

(a) No critical violations are found, or if critical violations are found, they are corrected prior to completion of the inspection; or

(b) The facility's inspection score is 90 points or above.
