

WAC 16-230-160 Desiccants and defoliants—Ground equipment—Drop-let spectrum requirements for the entire area under order. The following requirements apply to the entire area under order as listed in WAC 16-230-150:

(1) Ground applications of use restricted desiccants and defoliants shall conform to the manufacturer's specified combination of nozzle type/size and pressure in pounds per square inch (psi) at the nozzle that produces a spray droplet size that falls within the medium (or larger) range as defined by the ASABE standards.

(2) The Washington state department of agriculture may issue a permit upon receipt of a written request to apply use restricted desiccants and defoliants within the area as described in WAC 16-230-150 with nozzles, nozzle type, drift control additives, and/or arrangements other than those allowed herein. The director will consider safety factors and the possible exposure to susceptible crops in the areas of proposed application before a permit will be issued.

(3) Diesel and other fuel oils are prohibited in all tank mixes with desiccants and defoliants.
