

**WAC 110-301-0210 Immunizations and exempt children.** (1) Before attending a school-age program, a child must be vaccinated against or show proof of acquired immunity for the vaccine-preventable disease, pursuant to chapter 246-105 WAC. A school-age provider may accept children without proof of vaccinations or immunity as otherwise indicated in this section.

(2) Pursuant to WAC 246-105-050, a school-age provider must receive for each enrolled child:

(a) A current and complete DOH-approved certificate of immunization status (CIS) form or an alternative in lieu of CIS pursuant to WAC 246-105-050(3);

(b) A department approved certificate of exemption (COE) form, if applicable; or

(c) A current immunization record from the Washington state immunization information system (WA IIS).

(3) To accept a child who is not current with their immunizations, a school-age provider must give written notice to that child's parent or guardian stating the child may be accepted if the immunizations are completed consistent with chapter 246-105 WAC and:

(a) Prior to enrollment the parent or guardian provides written proof the child is scheduled to be immunized; or

(b) The parent or guardian provides a signed and dated statement detailing when the child's immunizations will be brought up to date.

(4) A school-age provider must maintain and update each child's records relating to immunizations or exemptions, or plans to bring immunizations current. These records must be available in the licensed space or easily accessible for review by department licensors, health specialists, and health consultants.

(5) A school-age provider may accept homeless or foster children into care without the records listed in this section if the child's parent or guardian, caseworker, or health care provider offers written proof that they are in the process of obtaining the child's immunization records.

(6) A school-age provider must exclude a child from care according to the criteria listed in WAC 246-105-080.

(7) If an outbreak of a vaccine-preventable disease occurs within a school-age program, a school-age provider must notify the parents or guardians of children exempt from immunization for that disease and children without vaccination documents. A provider may exclude the child from the school-age program premises for the duration of the outbreak of that vaccine-preventable disease.

(8) A school-age provider may have a written policy stating children exempted from immunization by their parent or guardian will not be accepted into care unless that exemption is due to an illness protected by the ADA or WLAD or by a completed and signed COE.
