

WAC 220-356-180 Spawn on kelp license (SOK license) contract conditions. (1) Spawn on kelp license (SOK license) contracts shall protect the environment, prevent waste, ensure compliance with applicable laws and regulations, and ensure faithful performance of lease terms and conditions.

(2) SOK licensees shall not sell any spawn on kelp to anyone who is not a wholesale fish buyer, except that the licensee may be a wholesale fish buyer, and, after completing a state of Washington fish receiving ticket, may sell the spawn on kelp to someone who is not a wholesale fish buyer.

(3) SOK licenses are transferable only in the case of hardship and then only to any person holding a herring fishery license except the SOK license is not transferable to a person currently holding a SOK license. The transfer shall be made on a form provided by the department, and the transferee shall be subject to the same terms and conditions of the original SOK license. For purposes of this section, hardship means death or disablement of the licensee or loss of the licensee's vessel through no fault of the licensee.

(4) Every SOK licensee may surrender the SOK license and shall be relieved of any obligation under the license except as otherwise provided. The licensee must notify the department in writing of intention to surrender the license. If operations under the license have been conducted, the licensee shall correct any adverse environmental effects caused by the operations, including but not limited to, release of any entrapped herring, removal of any herring enclosure, and placement of any herring spawn upon habitat suitable for hatch and release of herring fry. If the license is surrendered, the department will retain the amount of the bid.

(5) The SOK license shall provide for revocation for noncompliance with the terms of the license. Grounds for revocation for noncompliance shall include, but not be limited to, failure to provide catch records as required, failure to provide required data on fishing and harvesting related activities, and failure to notify the department of anticipated times of fishing and harvesting. The SOK licensee shall be notified, in writing, of noncompliance, the necessary corrective measures and the amount of time allowed to take corrective action. The licensee's remedying of the noncompliance within the specified time shall result in no revocation of the license. The licensee may appeal any cancellation under chapter 34.05 RCW.

(6) The SOK license contract shall allow the SOK licensee to conduct operations reasonably necessary for the production of spawn on kelp. Nothing in this section shall relieve the licensee of any responsibility under applicable laws or regulations.
