

WAC 222-08-151 Reporting procedures. The department shall:

- (1) Survey and identify all silviculturally related nonpoint sources of pollution and related control programs in the state;
- (2) Prepare an analysis of the above activities and programs; and
- (3) Report and recommend to the forest practices board and to the governor additional rules, procedures and/or methods necessary for the control of such sources to the extent feasible.

[Statutory Authority: RCW 76.09.040. WSR 08-24-011, § 222-08-151, filed 11/21/08, effective 12/22/08.]
