

WAC 388-101D-0435 Physical intervention systems. Service providers who are using physical interventions with clients must have a physical intervention techniques system that includes at least the following:

- (1) Discussion of the need for positive behavior support;
- (2) Communication styles that help the client to calm down and resolve problems;
- (3) Techniques to prevent escalation of behavior before it reaches the stage of physical assault;
- (4) Techniques for staff to use in response to clients and their own fear, anger, aggression, or other negative feelings;
- (5) Cautions that physical intervention technique(s) may not be changed except as needed for individual disabilities, medical, health, and safety issues. A health care professional and a program trainer must approve all modifications;
- (6) Evaluation of the safety of the physical environment;
- (7) Issues of respect and dignity of the client;
- (8) Use of the least restrictive physical interventions depending upon the situation;
- (9) Identification of division of developmental disabilities approved and prohibited physical intervention techniques;
- (10) The need to release clients from physical restraint as soon as possible;
- (11) Instruction on how to support physical interventions as an observer, recognizing signs of:
 - (a) Distress by the client; and
 - (b) Fatigue by the staff; and
- (12) Discussion of the importance of complete and accurate documentation.
