- WAC 110-145-1585 What are the requirements for water, garbage, and sewer? (1) You must maintain adequate sewage and garbage facilities.
- (2) Your facility must be connected to a public sewer system or have an on-site sewage system permitted by the local health department or the Washington state department of health.
- (3) You must have access to a public water supply approved by the local health district or tribal government unless you have a private water supply tested by the local health district or a private water-testing laboratory approved by the Washington state department of health. Testing is required at the time of licensing, relicensing and at any time the department deems necessary.
- (4) Running water may not exceed one hundred twenty degrees Fahrenheit.
- (5) You must provide paper cups, individual drinking cups or glasses, or drinking fountains.
