

WAC 296-17A-3403 Classification 3403.

3403-00 Aircraft: Manufacturing

Applies to establishments engaged in the manufacture of aircraft. For the purposes of this classification "aircraft manufacturing" means the original manufacture of such aircraft as distinguished from rebuilding, modifying, or converting existing aircraft and applies *only* to the production of units that, when completed, are capable of in-air flight as distinguished from aircraft kits to be assembled by the purchaser that are not capable of air flight when sold. This classification includes aircraft operations incidental to the manufacture, such as test flights.

This classification excludes establishments engaged in the original manufacture of aircraft parts which are to be reported separately in classification 3405 or as otherwise provided for in WAC 296-17A-3405; the manufacture of aircraft kits which is to be reported separately in the classification applicable to the work being performed; modification, repair or conversions made to an existing aircraft which are to be reported separately in classification 6804; and the *assembly of aircraft kits into an airplane* which is to be reported separately in classification 6804.
