

WAC 296-806-20026 Protect employees lubricating moving machinery. (1) You must protect employees who lubricate moving machinery by:

(a) Providing tools, such as oil cans or grease guns, that have spouts or necks that are long enough to keep the employees' hands out of hazardous areas.

(b) Requiring employees to wear closely fitted clothing.

Note: Things such as clothing, hair, and jewelry can get caught in machinery and be a hazard on the job.

(2) You must make sure drip cups and pans are securely fastened to the machinery.
