

**WAC 314-24-150 Wine records—Preservation.** (1) Every domestic winery, wine distributor, wine certificate of approval holder, wine shipper permit holder, and wine importer shall keep wine accounts separate from other accounts, and maintain proper records in a form approved by the board showing all transactions in wine.

(2) Every domestic winery, wine distributor, and wine importer, shall, in the case of sales of wine within the state, keep and preserve all invoices, bills of lading, sales slips, and other evidence of sale, in the office of the domestic winery, wine distributor or wine importer for at least three years after each sale.

(3) Every domestic winery, wine distributor, and wine importer, shall, in the case of wine exported from the state, keep and preserve all bills of lading and other evidence of shipment in the office of the domestic winery, wine distributor, or wine importer for at least three years after each shipment.

(4) Both the shipping and receiving licensees and permittees, as the case may be, shall keep and preserve all invoices, bills of lading, sales slips, and other evidence of sale, transfer or shipment in their respective offices for at least three years after each sale, transfer or shipment.

(5) Licensees and permittees may maintain microfilm records containing reproductions (including microfiche) of any record, document, or report if first approved by the board. Request for approval shall be directed to the financial division of the Washington state liquor control board and must include the following information:

(a) Records proposed to be reproduced.

(b) Reproduction process.

(c) Manner of preserving the reproduction.

(d) Facilities provided for examining or viewing such reproduction.

If the request is approved, the licensee or permittee shall provide for the examining, viewing, and reproduction of such records the same as if they were the original records.

(6) If the licensee or permittee keeps records within an automated data processing (ADP) system, the system must include a method for producing legible records that will provide the same information required of that type of record within this section. The ADP system is acceptable if it complies with the following guidelines:

(a) Provides an audit trail so that details (invoices and vouchers) underlying the summary accounting data may be identified and made available upon request.

(b) Provides the opportunity to trace any transaction back to the original source or forward to a final total. If printouts of transactions are not made when they are processed, the system must have the ability to reconstruct these transactions.

(c) Has available a full description of the ADP portion of the accounting system. This should show the applications being performed, the procedures employed in each application, and the controls used to ensure accurate and reliable processing.

(7) The provisions contained in subsections (5) and (6) of this section do not eliminate the requirement to maintain source documents, but they do allow the source documents to be maintained in some other location.
