"Residential facility" means a licensed adult family home under department contract; a licensed enhanced services facility under department contract; or licensed assisted living facility under department contract to provide assisted living, adult residential care, or enhanced adult residential care.

"Self-performance for ADLs" means a code based on what you actually did for yourself and how much help you received with ADLs, with the exception of bathing, in the last seven days before your assessment, not what you might be capable of doing. For codes of supervision, limited assistance, and extensive assistance, self-performance for ADLs is based on your level of performance that occurred three or more times in the seven-day period. Scoring of self-performance for ADL codes of supervision, limited assistance, and extensive assistance, does not include physical assistance that occurred less than three times in the seven-day look back period, or set-up help for any self-performance ADL code.

(1) Based on information provided during your assessment, the CARE tool assigns a self-performance code to each ADL. When you received the same type of help (such as oversight, nonweight bearing, or weight bearing help) with an ADL at least three times, CARE assigns the self-performance code associated with the most dependent type of help you received at least three times. Your self-performance level code is:

(a) Independent, if you received:

(i) No help, including oversight, encouragement, or cueing, or;

(ii) Help including oversight, encouragement, or cueing only once or twice in the seven-day period;

(b) Supervision, if you received oversight (monitoring or standby), encouragement, or cueing three or more times;

(c) Limited assistance, if you were highly involved in the ADL and received assistance that involved physical, nonweight bearing con-

tact between you and your caregiver, or guided maneuvering of limbs three or more times;

(d) Extensive assistance, if you performed part of the ADL, but on three or more occasions, you needed weight bearing help or you did not participate in a subtask of the ADL, but did participate in other subtasks of the ADL;

(e) Total dependence, if you did not participate at all in the completion of the ADL. Every time the ADL was completed during the entire seven-day period, you received complete assistance of all subtasks completed during the entire seven-day period by others; or

(f) Did not occur, if you or others did not perform the ADL over the last seven days before your assessment. This means the activity did not happen. For example, for "walk in room" to have a code of "did not occur" it means in the last seven days before your assessment, you did not walk even one time. The ADL may not have occurred because:

(i) You were not able (such as, you were not able to walk because you are paralyzed);

(ii) No provider was available to assist; or

(iii) You declined help with the task.

(2) When your self-performance code is not independent, extensive assistance, total dependence, or did not occur, and you received help with the ADL at least three times, but not three times of the same type of help, the CARE tool determines a self-performance code by:

(a) Selecting the three times where you received the most help; and

(b) Assigning a self-performance code based on the least dependent type of help of those three times.

(3) CARE assigns a self-performance code of:

(a) Supervision, if oversight, encouragement, or cueing was the least dependent type of help you received of the three times; or

(b) Limited assistance, if nonweight bearing help or guided maneuvering of your limbs was the least dependent type of help you received out of the three times.

(c) For example, if you received oversight help twice, nonweight bearing help twice, and weight bearing help twice, CARE:

(i) Selects two times of weight bearing help and one time of nonweight bearing help because these were the three times where you received the most help; and

(ii) Assigns a self-performance code of limited assistance because nonweight bearing help was the least dependent type of help you received out of the three times where you received the most help.

"Self-administration of medication" means your ability to manage your prescribed and over the counter medications. Your level of ability is coded for the highest level of need and scored as:

(1) Independent, if you remember to take medications as prescribed and manage your medications without assistance.

(2) Assistance required, if you need assistance from a nonlicensed provider to facilitate your self-administration of a prescribed, over the counter, or herbal medication, as defined in chapter 246-980 WAC. Assistance required includes reminding or coaching you, handing you the medication container, opening the container, using an enabler to assist you in getting the medication into your mouth, alteration of a medication for self-administration, and placing the medication in your hand. This does not include assistance with intravenous or injectable medications. You must be aware that you are taking medications.

(3) Self-directed medication assistance/administration, if you are an adult with a functional disability who is capable of and who chooses to self-direct your medication assistance/administration as prescribed by your medical professional.

(4) Must be administered, if you must have prescription or over the counter medications placed in your mouth or applied or instilled to your skin or mucus membrane. Administration must either be performed by a licensed professional or delegated by a registered nurse to a qualified caregiver (per chapter 246-840 WAC). Administration may also be performed by a family member or unpaid caregiver in in-home settings or in residential settings if facility licensing regulations allow. Intravenous or injectable medications may never be delegated except for insulin injections.

"Self-performance for bathing" means what you actually did in the last seven days before your assessment, not what you might be capable of doing or how well you performed the ADL of bathing. Self-performance for bathing is based on your level of performance that occurred on at least one or more occasions in the seven-day period. Scoring of self-performance for bathing does not include physical assistance that did not occur in the seven-day look back period, or set-up help. Your self-performance level is scored as:

(1) Independent, if you received no help or oversight to complete the ADL of bathing.

(2) Supervision, if in order to bathe you received oversight (monitoring or standby), encouragement, or cueing.

(3) Physical help transfer only, if in order to bathe you had help to transfer only.

(4) Physical help, if in order to bathe you had hands on assistance with bathing, but you did not receive full caregiver performance of the ADL of bathing.

(5) Total dependence, if in order to bathe you received full caregiver performance of the ADL of bathing every time. Total dependence means complete physical nonparticipation by you in all aspects of bathing; or the ADL:

(6) Did not occur, if you or others did not perform the ADL of bathing over the last seven days before your assessment. The ADL of bathing may not have occurred because:

(a) You were not able (for example, you may be paralyzed);

(b) No provider was available to assist; or

(c) You declined because you chose not to perform the ADL.

"Self-performance for IADLs" means what you actually did in the last 30 days before the assessment, not what you might be capable of doing or how well you performed the IADL. Scoring is based on the level of performance that occurred at least one time in the 30-day period. Your self-performance is scored as:

(1) Independent, if you received no help, set-up help, or supervision;

(2) Assistance, if you received any type of help with the activity, including setup, cueing, or monitoring, or the activity was fully performed by others in the last 30 days;

(3) Total assistance, if you are a child and needed the IADL fully performed by others and you are functioning outside of typical developmental milestones; or

(4) IADL did not occur, if you or others did not perform the IADL in the last 30 days before the assessment.

"Service summary" is CARE information which includes: Contacts (such as, emergency contacts), services the client is eligible for,

number of hours or residential rates, personal care tasks, the list of formal and informal providers and what tasks they will provide, a preferred schedule if identified by the client, identified referrals, and dates and agreement to the outlined services.

"SSI-related" is defined under WAC 182-512-0050.

"Status" means the level of assistance:

(1) That will be provided by informal supports; or
(2) That will be provided to a child primarily due to his or her age.

(3) The department determines the status of each ADL or IADL and codes the status as follows:

(a) Met, which means the ADL or IADL will be fully provided by an informal support;

(b) Unmet, which means an informal support will not be available to provide assistance with the identified ADL or IADL;

(c) Partially met, which means an informal support will be available to provide some assistance, but not all, with the identified ADL or IADL;

(d) Age appropriate or child under (age), means proficiency in the identified task is not expected of a child that age and a child that age would require assistance with the task with or without a functional disability. The department presumes children have a responsible adult(s) in their life to provide assistance with personal care tasks. Refer to the developmental milestones table in WAC 388-106-0130; or

(e) Client declines, which means you will not want assistance with the task.

"Supplemental security income (SSI)" means the federal program as described under WAC 182-500-0100.

"Support provided" means the highest level of support provided (to you) by others in the last seven days before the assessment, even if that level of support occurred only once. The department determines support provided as follows:

(1) No set-up or physical help provided by others;

(2) Set-up help only provided, which is the type of help characterized by providing you with articles, devices, or preparation necessary for greater independence in performance of the ADL. (For example, set-up help includes but is not limited to giving or holding out an item or cutting up prepared food);

(3) One-person physical assist provided;

(4) Two- or more person physical assist provided; or

(5) ADL did not occur during entire seven-day period.

"Task" means a component of an activity of daily living. Several tasks may be associated to a single activity of daily living.

"Turning and repositioning program" is a consistent and organized method in which your caregiver must position and realign your body to prevent or treat skin breakdown. This program is needed because you are physically unable to reposition yourself while sitting or lying down.

"You/your" means the client.

COMPREHENSIVE ASSESSMENT REPORTING EVALUATION (CARE) ASSESSMENT

WAC 388-106-0050 What is an assessment? (1) An assessment is an in-person interview in your home, current residence, or another location that is convenient to you that is conducted by the department, to inventory and evaluate your ability to care for yourself. The department will assess you at least every twelve months, or more often when there are significant changes necessitating revisions to your CARE plan, or at your request. If your assessment did not take place in the residence where you receive services, the department must visit that residence to evaluate your living situation and environment, for you to continue to receive services.

(2) Between assessments, the department may modify your current assessment without an in-person interview in your home or place of residence. The reasons that the department may modify your current assessment without conducting an in-person interview in your home or place of residence include but are not limited to the following:

(a) Errors made by department staff in coding the information from your in-person interview;

(b) New information requested by department staff at the time of your assessment and received after completion of the in-person interview (e.g. medical diagnosis);

(c) Changes in the level of informal support available to you; or

(d) Clarification of the coding selected.

(3) When the department modifies your current assessment, it will notify you using a Planned Action Notice of the modification regardless of whether the modification results in a change to your benefits. You will also receive a new service summary and assessment details, if requested.

(4) An assessment interview does not need to be in-person under the following circumstances:

(a) You agree to the interview being conducted remotely, and have adequate support to participate in the assessment if you need it; or

(b) An in-person interview is not required by the applicable federal regulation or the requirement is waived by the centers for medicare and medicaid services.

CARE CLASSIFICATION

WAC 388-106-0080 How is the amount of long-term care services I can receive in my own home or in a residential facility determined?

The amount of long-term care services you can receive in your own home or in a residential facility is determined through a classification system. Seventeen classifications apply to clients served in residential and in-home settings. The department has assigned each classification a residential facility daily rate or a base number of hours you can receive in your own home.

WAC 388-106-0100 How does the CARE tool measure mood and behaviors? (1) When you do not meet the criteria for the clinically complex classification group, or the criteria for exceptional care, or for in-home only have a cognitive performance scale score of five or

six, then the mood and behavior criteria listed in subsections (3) and (4) below determines your classification group. If you are eligible for more than one "B" group classification based on the two methodologies, CARE will place you in the highest group for which you qualify.

(2) For each behavior that was assessed and documented in the CARE tool, the department will determine a status as "current behavior" or "past behavior" as defined in WAC 388-106-0010.

(3) CARE places you in the mood and behavior classification group only if you have one or more of the behavior/moods that also meets the listed status, frequency, and alterability as identified in the following chart:

Behavior/Mood	AND Status, Frequency & Alterability
Assaultive (not during personal care)	Current behavior
Combative during personal care	Current behavior
Combative during personal care	Past behavior, addressed with current interventions
Many incidences of uncontrollable crying tearfulness	Current behavior, frequency 4 or more days per week
Delusions	Past behavior, addressed with current interventions

(4) CARE places you in the mood and behavior classification group if you have a behavior point score greater than 1, your CPS score (as defined in WAC 388-106-0090) is greater than 2, and your ADL score (as defined in WAC 388-106-0105) is greater than 1.

Status	Intervention	Frequency	Weight
Past	No intervention	N/A	0
Past	With intervention	N/A	0.25
Current	N/A	1-3 days per wk	0.5
Current	N/A	4-6 days per wk	0.75
Current	N/A	Daily	1

Each current behavior (as shown in the table below) has a value from .5 to 6 depending on the severity and alterability. Each status combination (shown in the table above) has a weight from 0 to 1. Behavior points are determined by multiplying the value of each current behavior (from the list below) by the weight of the status combination (above). Behavior points for past behaviors will be determined by multiplying the easily altered value of the behavior from the table below by the appropriate weight from the table above (0 or .25).

The list of behaviors below is divided into categories. Each category has a point limit of how many points can be counted toward the total behavior point score as detailed below. The total behavior point score is determined by totaling the weight-adjusted values for each category below.

WAC 388-106-0105 How does the CARE tool measure activities of daily living (ADLs)? (1) CARE determines an ADL score ranging from zero to twenty-eight for each of the following ADLs.

- (a) Personal hygiene;
- (b) Bed mobility;
- (c) Transfers;
- (d) Eating;
- (e) Toilet use;
- (f) Dressing;
- (g) Locomotion in room;
- (h) Locomotion outside room; and
- (i) Walk in room.

(2) The department through the CARE tool determines the ADL score by using the definitions in WAC 388-106-0010 under "Self-performance for ADLs." The CARE tool assigns the following points to the level of self performance for each of the ADLs listed in subsection (1) of this section. For the locomotion in room, locomotion outside of room and walk in room, the department uses the highest score of the three in determining the total ADL score.

ADL Scoring Chart	
If Self Performance is:	Score Equals
Independent	0
Supervision	1
Limited assistance	2
Extensive assistance	3
Total dependence	4
Did not occur/no provider	4
Did not occur/client not able	4
Did not occur/client declined	0

(3) Although assessed by CARE, the department does not score bathing and medication management to determine classification groups.

WAC 388-106-0115 How does CARE use criteria to place me in a classification group for residential facilities? The CARE tool uses the criteria of cognitive performance as determined under WAC 388-106-0090, clinical complexity as determined under WAC 388-106-0095, mood/behaviors as determined under WAC 388-106-0100, ADLs as determined under WAC 388-106-0105 and exceptional care under WAC 388-106-0110 to place you into one of the following seventeen residential classification groups:

CARE classification is determined first by meeting criteria to be placed into a group, then you are further classified based on ADL score or behavior point score into a classification subgroup following a classification path of highest possible group to lowest qualifying group.

(1) If you meet the criteria for exceptional care, then CARE will place you in Group E. CARE then further classifies you into:

(a) Group E High if you have an ADL score of 26-28; or

(b) Group E Medium if you have an ADL score of 22-25.

(2) If you meet the criteria for clinical complexity and have a cognitive performance score of 4-6 then you are classified in Group D regardless of your mood and behavior qualification or behavior points. CARE then further classifies you into:

(a) Group D High if you have an ADL score of 25-28; or

(b) Group D Medium-High if you have an ADL score of 18-24; or

(c) Group D Medium if you have an ADL score of 13-17; or

(d) Group D Low if you have an ADL score of 2-12.

(3) If you meet the criteria for clinical complexity and have a CPS score of less than 4, then you are classified in Group C regardless of your mood and behavior qualification or behavior points. CARE then further classifies you into:

(a) Group C High if you have an ADL score of 25-28; or

(b) Group C Medium-High if you have an ADL score of 18-24; or

(c) Group C Medium if you have an ADL score of 9-17; or

(d) Group C Low if you have an ADL score of 2-8.

(4) If you meet the criteria for mood and behavior qualification and do not meet the classification for C, D, or E groups, then you are classified into Group B. CARE further classifies you into:

(a) Group B High if you have an ADL score of 15-28; or

(b) Group B Medium if you have an ADL score of 5-14; or

(c) Group B Low if you have an ADL score of 0-4.

(5) If you meet the criteria for behavior points and have a CPS score of greater than 2 and your ADL score is greater than 1, and do not meet the classification for C, D, or E groups, then you are classified in Group B. CARE further classifies you into:

(a) Group B High if you have a behavior point score 12 or greater; or

(b) Group B Medium-High if you have a behavior point score greater than 6; or

(c) Group B Medium if you have a behavior point score greater than 4; or

(d) Group B Low if you have a behavior point score greater than 1.

(6) If you are not clinically complex and you do not qualify under either mood and behavior criteria, then you are classified in Group A. CARE further classifies you into:

- (a) Group A High if you have an ADL score of 10-28; or
- (b) Group A Medium if you have an ADL score of 5-9; or

WAC 388-106-0120 What is the payment rate that the department will pay the provider if I receive personal care services in a residential facility? The department publishes rates and/or adopts rules to establish how much the department pays toward the cost of your care in a residential facility.

(1) For CFC, COPEs, MPC, medical care services, RCL, and new freedom programs, the department assigns payment rates to the CARE classification group. Under these programs, payment for care in a residential facility corresponds to the payment rate assigned to the classification group in which the CARE tool has placed you.

(2) The enhanced services facility rate is determined by legislative action and appropriation.

(3) The rate for adult family homes with a specialized behavior support contract is based on the CARE classification group and an add-on amount, which is negotiated through the collective bargaining process.

WAC 388-106-0125 How does CARE use criteria to place me in a classification group for in-home care? CARE uses the criteria of cognitive performance score as determined under WAC 388-106-0090, clinical complexity as determined under WAC 388-106-0095, mood/behavior and behavior point score as determined under WAC 388-106-0100, ADLs as determined under WAC 388-106-0105, and exceptional care as determined under WAC 388-106-0110 to place you into one of the following seventeen in-home groups. CARE classification is determined first by meeting criteria to be placed into a group, then you are further classified based on ADL score or behavior point score into a classification sub-group following a classification path of highest possible base hours to lowest qualifying base hours. Each classification group is assigned a number of base hours as described below based upon the level of funding provided by the legislature for personal care services, and based upon the relative level of functional disability of persons in each classification group as compared to persons in other classification groups.

(1) If you meet the criteria for exceptional care, then CARE will place you in **Group E**. CARE then further classifies you into:

- (a) **Group E High** with 393 base hours if you have an ADL score of 26-28; or
- (b) **Group E Medium** with 327 base hours if you have an ADL score of 22-25.
- (2) If you meet the criteria for clinical complexity and have cognitive performance score of 4-6 or you have cognitive performance score of 5-6, then you are classified in **Group D** regardless of your mood and behavior qualification or behavior points. CARE then further classifies you into:
- (a) **Group D High** with 260 base hours if you have an ADL score of 25-28; or
- (b) **Group D Medium-High** with 215 base hours if you have an ADL score of 18-24; or
- (c) **Group D Medium** with 168 base hours if you have an ADL score of 13-17; or
- (d) **Group D Low** with 120 base hours if you have an ADL score of 2-12.
- (3) If you meet the criteria for clinical complexity and have a CPS score of less than 4, then you are classified in **Group C** regardless of your mood and behavior qualification or behavior points. CARE then further classifies you into:
- (a) **Group C High** with 176 base hours if you have an ADL score of 25-28; or
- (b) **Group C Medium-High** with 158 base hours if you have an ADL score of 18-24; or
- (c) **Group C Medium** with 115 base hours if you have an ADL score of 9-17; or
- (d) **Group C Low** with 73 base hours if you have an ADL score of 2-8.
- (4) If you meet the criteria for mood and behavior qualification and do not meet the classification for C, D, or E groups, then you are classified into **Group B**. CARE further classifies you into:
- (a) **Group B High** with 129 base hours if you have an ADL score of 15-28; or
- (b) **Group B Medium** with 69 base hours if you have an ADL score of 5-14; or
- (c) **Group B Low** with 39 base hours if you have an ADL score of 0-4; or
- (5) If you meet the criteria for behavior points and have a CPS score of greater than 2 and your ADL score is greater than 1, and do not meet the classification for C, D, or E groups, then you are classified in **Group B**. CARE further classifies you into:
- (a) **Group B High** with 129 base hours if you have a behavior point score 12 or greater; or

- (c) **Group B Medium** with 69 base hours if you have a behavior point score greater than 4; or
- (d) **Group B Low** with 39 base hours if you have a behavior point score greater than 1.
- (6) If you are not clinically complex and your CPS score is less than 5 and you do not qualify under either mood and behavior criteria, then you are classified in **Group A**. CARE further classifies you into:
- (a) **Group A High** with 59 base hours if you have an ADL score of 10-28; or
- (b) **Group A Medium** with 47 base hours if you have an ADL score of 5-9; or

(c) **Group A Low** with 22 base hours if you have an ADL score of 0-4.

WAC 388-106-0130 How does the department determine the number of hours I may receive for in-home care? (1) The department assigns a base number of hours to each classification group as described in WAC 388-106-0125.

(2) The department will adjust base hours to account for informal supports and age appropriate functioning (as those terms are defined in WAC 388-106-0010), and other paid services that meet some of an individual's need for personal care services:

(a) The CARE tool determines the adjustment for informal supports and age appropriate functioning. A numeric value is assigned to the status and assistance available coding for ADLs and IADLs based on the table below. The base hours assigned to each classification group are adjusted by the numeric value in subsection (b) of this section.

(b) To determine the amount adjusted for informal support or age appropriate functioning, the numeric values are totaled and divided by the number of qualifying ADLs and IADLs needs. The result is value A. Value A is then subtracted from one. This is value B. Value B is divided by three. This is value C. Value A and Value C are summed. This is value D. Value D is multiplied by the "base hours" assigned to your classification group and the result is the number of adjusted in-home hours. Values are rounded to the nearest hundredths (for example, .862 is rounded to .86).

(3) Effective July 1, 2012, after adjustments are made to your base hours, as described in subsection (2) of this section, the department may add on hours based on off-site laundry, living more than 45 minutes from essential services, and wood supply, as follows:

(4) In the case of New Freedom consumer directed services (NFCDS), the department determines the monthly budget available as described in WAC 388-106-1445.

(5) The result of adjustments under subsections (2) and (3) of this section is the maximum number of hours that can be used to develop your plan of care. The department must take into account cost effectiveness, client health and safety, and program limits in determining how hours can be used to address your identified needs. In the case of New Freedom consumer directed services (NFCDS), a New Freedom spending plan (NFSP) is developed in place of a plan of care.

(6) If you are eligible, your hours may be used to authorize the following services:

(a) Personal care services from a home care agency provider, an individual provider, or both.

(b) Home delivered meals (a half hour from the available hours for each meal authorized) per WAC 388-106-0805.

(c) A private duty nurse (PDN) if you are eligible per WAC 388-106-1010 or 182-551-3000 (one hour from the available hours for each hour of PDN authorized).

(d) The purchase of New Freedom consumer directed services (NFCDS).

(7) If you are a child applying for personal care services:

(a) The department presumes that children have legally responsible parents or other responsible adults who provide informal support for the child's ADLs, IADLs, and other needs. The department will not provide services or supports that are within the range of activities

that a legally responsible parent or other responsible adult would ordinarily perform on behalf of a child of the same age who does not have a disability or chronic illness.

(b) The department will complete a CARE assessment and use the developmental milestones tables in this section when assessing your ability to perform personal care tasks.

(c) Your status will be coded as age appropriate for ADLs when your self-performance is at a level expected for persons in your assessed age range, as indicated by the developmental milestones table in subpart (e) of this section, unless the circumstances in subpart (d) of this section apply.

(d) The department will code status as other than age appropriate for an ADL, despite your self-performance falling within the developmental age range for the ADL on the developmental milestones table in subpart (e) of this section, if the department determines during your assessment that your level of functioning is related to your disability and not primarily due to your age and the frequency or the duration of assistance required for a personal care task is not typical for a person of your age.

(f) For IADLs, the department presumes that children typically have legally responsible parents or other responsible adults to assist with IADLs. Status will be coded as "child under (age)" the age indicated by the developmental milestones table for IADLs in subpart (h) of this section unless the circumstances in subpart (g) of this section apply. (For example, a 16-year-old child coded as supervision in self-performance for wood supply would be coded "child under 18.")

(g) If the department determines during your assessment that the frequency or the duration of assistance required is not typical for a person of your age due to your disability or your level of functioning, the department will code status as other than described in subpart (h) of this section for an IADL.

(h)

Developmental Milestones for Instrumental Activities of Daily Living

(i) The department presumes that children have legally responsible parents or other responsible adults who provide support for comprehension, decision-making, memory, and continence issues. These items will be coded as indicated by the additional developmental milestones table in subpart (k) of this section unless the circumstances in subpart (j) of this section apply.

(j) If the department determines during your assessment that due to your disability, the support you are provided for comprehension, decision making, memory, and continence issues is substantially greater than is typical for a person of your age, the department will code status as other than described in subpart (k) of this section.

(8) If you are a child applying for personal care services and your status for ADLs and IADLs is not coded per the developmental age range indicated on the milestones tables under subsection (7) of this section, the department will assess for any informal supports available to assist you with each ADL and IADL. The department will presume that children have legally responsible parents or other responsible adults who provide informal support to them.

(a) The department will code status for an ADL or IADL as met if your assessment shows that your need for assistance with a personal care task is fully met by informal supports.

(b) Informal supports for school-age children include supports actually available through a school district, regardless of whether you take advantage of those available supports.

(c) When you are living with your legally responsible parent(s), the department will presume that you have informal supports available to assist you with your ADLs and IADLs over three-fourths but not all the time. Legally responsible parents include natural parents, step-parents, and adoptive parents. Generally, a legally responsible parent will not be considered unavailable to meet your personal care needs simply due to other obligations such as work or additional children because such obligations do not decrease the parent's legal responsibility to care for you regardless of your disabilities. However, the department will consider factors that cannot reasonably be avoided, and which prevent a legally responsible parent from providing for your personal care needs when determining the amount of informal support available to you. You may rebut the department's presumption by pro-

viding specific information during your assessment to indicate why you do not have informal supports available at least three-fourths of time to assist you with a particular ADL or IADL.

WAC 388-106-0135 What is the maximum number of hours of personal care services that I can receive for in-home services? (1) If you are age 21 or older, the maximum number of hours that you may receive is the base hours assigned to your classification group and adjusted per WAC 388-106-0130, unless additional hours are authorized through an exception to rule per WAC 388-440-0001. For chore program clients, the maximum personal care hours per month the department will authorize is one hundred sixteen (116).

(2) If you are under age twenty-one:

(a) The maximum number of hours that you may receive will be the base hours assigned to your classification group and adjusted per WAC 388-106-0130, unless additional hours are authorized under parts (2)(b) or (3) below.

(b) Additional hours may be authorized at the department's discretion through an exception to rule per WAC 388-440-0001. You may request additional hours of personal care services through an exception to rule by contacting your case manager and explaining why you do not believe the authorized hours provide adequate assistance with your personal care tasks. The case manager will document your request and forward the request for review per WAC 388-440-0001. You will be notified in writing of the decision.

(3) If you are under age twenty-one, the department will authorize additional hours of personal care services beyond those authorized under section (2) according to the limitation extension process described below. If the evidence shows that additional personal care assistance is necessary to correct, improve, or prevent further deterioration of your condition, the department will authorize additional hours in the amount required to fully complete your ADLs or IADLs.

(a) You may request a limitation extension in writing within 90 days after you have received the department's written decision under subsection (2)(b); or if 30 days have passed since you requested an exception to rule under subsection (2)(b) and you have not yet received a written decision from DSHS.

(b) You may submit any evidence to show that additional hours of personal care are necessary. The following evidence should be provided:

(i) An explanation of the hours necessary to complete your ADLs and IADLs;

(ii) Documentation of the supports available to you over the course of a week; and,

(iii) An explanation of why informal supports are unavailable to provide the additional assistance you are requesting. When you are living with your legally responsible parent, the considerations described in WAC 388-106-0130 (8)(d) apply to the determination of availability of informal supports.

(c) If requested by the department, you must also provide additional documentation of your situation. If requested documents are not reasonably available to you without cost and/or if you need assistance from the department to obtain the requested documents, you must provide written permission to the department to obtain the documents on your behalf. Documents that the department may ask for include the following:

(i) Your most recent individualized educational plan (IEP), if you are still in school.

(ii) Treatment plans for clinically recommended treatments relevant to your personal care services, such as active range of motion, passive range of motion, bowel program, etc.

(iii) Documents indicating residential time with your noncustodial parent or the availability of a noncustodial parent to provide assistance, such as parenting plans or child support orders. If those documents do not accurately reflect the supports currently available to you, you may also submit information or documents describing the support actually provided by your noncustodial parent.

(d) The department may also require a further review of your functional ability to perform specific ADLs and IADLs, to be conducted at the department's expense. The review must be completed under WAC 182-551-2110 by a qualified occupational therapist. If a qualified occupational therapist is not available to complete the review, the department will designate another qualified healthcare professional to complete the review.

(e) Upon receiving your request for a limitation extension and any additional supporting information you choose to submit under subsection (3)(b), the department will make a decision according to the timeline below.

(i) The department will make a decision under subsection (3) within 30 days unless additional information is required under subsections (3)(c) and/or (3)(d).

(ii) If additional information is required under subsections (3)(c) and/or (3)(d), the department will notify you of what additional information is required within 30 days of the date the department received your request and supporting information, if any. The department will then make a determination under subsection (3) within 15 days of either of the following, whichever comes first:

(A) The date that the department receives all of the requested information, including a report of any review of your functional ability conducted under subsection (3)(d); or,

(B) The date that you notify the department that you will not be providing any additional information.

(f) Additional hours will not be approved to substitute for the duties of legally responsible adults, replace child care or school, replace recommended equipment available through medicaid, or provide supervision other than task-specific supervision necessary for you to perform an ADL or IADL.

WAC 388-106-0136 What if I disagree with the result of the limitation extension decision regarding personal care? (1) In addition to your right to contest the result of your CARE assessment under WAC 388-106-1305, if you are under the age of twenty-one you have the right to an administrative hearing to contest the number of personal care hours authorized pursuant to WAC 388-106-0135(3).

(2) The department will notify you in writing of your right to an administrative hearing under subsection (1) and will provide you with information about how to request a hearing.

WAC 388-106-1105 How do I apply for SCSA-funded services? To receive SCSA-funded services, you or your representative must:

- (1) Complete and submit a department application form, providing complete and accurate information; and
- (2) Promptly submit a written report of any changes in income or resources. For the definition of income and resources, refer to chapter 182-509 WAC.

[Statutory Authority: RCW 74.08.090 and 74.09.520. WSR 15-03-038, § 388-106-1105, filed 1/12/15, effective 2/12/15; WSR 05-11-082, § 388-106-1105, filed 5/17/05, effective 6/17/05.]

WAC 388-106-1110 Am I eligible for SCSA-funded services at no cost? To be eligible for SCSA-funded services at no cost, you must:

- (1) Be age:
 - (a) Sixty-five or older; or
 - (b) Sixty or older, and:

 - (ii) Working twenty hours a week or less;
- (2) Have a physical, mental, or other type of impairment, which without services would prevent you from remaining in your home;
- (3) Have income at or below forty percent of the state median income (SMI), based on family size; and
- (4) Have nonexempt resources (including cash, marketable securities, and real or personal property) not exceeding ten thousand dollars for a single person or fifteen thousand for a family of two, increased by one thousand dollars for each additional family member of the household. Household means a person living alone or a group of people living together.
- (5) If you have income over forty percent of SMI, you may be eligible for services on a sliding fee basis.

WAC 388-106-1115 What income and resources are exempt when determining eligibility? The following income and resources, regardless of value, are exempt when determining whether you are eligible for SCSA-funded services:

- (1) Your home, and the lot it is upon;
- (2) Garden produce, livestock, and poultry used for home consumption;
- (3) Program benefits which are exempt from consideration in determining eligibility for needs based programs (e.g., uniform relocation assistance, Older Americans Act funds, foster grandparents' stipends or similar moneys);
- (4) Used and useful household furnishings, personal clothing, and automobiles;
- (5) Personal property of great sentimental value;
- (6) Personal property used by the individual to earn income or for rehabilitation;

WAC 388-106-1120 What if I am not eligible to receive SCSA-funded services at no cost? (1) Even if your income is above the forty percent SMI limit to receive SCSA-funded services at no cost, you may receive SCSA-subsidized services. The department uses a sliding fee schedule to determine what percentage the department pays for the cost of your services. You pay the remaining amount, but not more than the usual rate paid for services, as negotiated by the AAA or the department. The formula for determining the department's share of the cost of the services is:

$$\frac{100\% \text{ State Median Income (SMI)} - \text{Household Income} \times 100}{100} = 100\% - 40\% \text{ SMI}$$

(2) Service providers must be responsible for collecting fees owed by eligible persons and reporting to area agencies all fees paid or owed by eligible persons.

(3) Some services are provided at no charge regardless of income or need requirements. These services include, but are not limited to, nutritional services, health screening, services under the long-term care ombudsman program, and access services. Note: Well adult clinic services may be provided in lieu of health screening services if such clinics use the fee schedule established by this section.

WAC 388-106-1210 Who is eligible to receive respite care services through the family caregiver support program? (1) To be eligible to receive respite care services, the caregivers must:

(a) Have primary responsibility for the care or supervision of an adult with a functional disability who is not receiving a state or medicaid funded, long-term care service (e.g., COPES, personal care services, DD waiver); and

(b) Provide a minimum of an average of forty hours per week of care, and/or supervision, or live with an adult who needs continuous care or supervision; and

(b) Has a caregiver who is assessed in the TCARE® system and meets the criteria in WAC 388-106-1210(1); and

(4) Hospitals.

(5) Licensed residential care facilities such as boarding homes, adult family homes, and assisted living facilities.

(6) Providers such as volunteer services, and senior companions.

[Statutory Authority: RCW 74.08.090 and 74.09.520. WSR 12-13-040, § 388-106-1215, filed 6/13/12, effective 7/14/12; WSR 05-11-082, § 388-106-1215, filed 5/17/05, effective 6/17/05.]

WAC 388-106-1220 How are respite care providers reimbursed for their services through the family caregiver support program? The department reimburses:

(1) Respite care providers for the number of hours or days of services authorized and provided. If the provider already has a medic-aid rate established for providing a similar service, that rate is to be reimbursed by the local area agency on aging. If there is no established rate for the service, one can be negotiated between the local area agency on aging and the respite care service provider.

(2) Medicaid-certified licensed residential facilities providing respite services at the medicaid rate approved for that facility. Medicaid contracted providers must not charge more than the medicaid rate for any services covered from the date of eligibility, unless authorized by the department (see RCW 18.51.070). Participants must pay for services not included in the medicaid rate.

(3) Private nursing homes at their published daily rate.

[Statutory Authority: RCW 74.08.090 and 74.09.520. WSR 12-13-040, § 388-106-1220, filed 6/13/12, effective 7/14/12; WSR 05-11-082, § 388-106-1220, filed 5/17/05, effective 6/17/05.]

WAC 388-106-1225 Are participants required to pay for the cost of their respite care services through the family caregiver support program? (1) There is no charge to the care receiver whose income is at or below forty percent of the state median income, based on family size.

(2) If the care receiver's gross income is above forty percent of the state median income, he or she is required to pay for part or all of the cost of the respite care services. The department will determine what amount the participant must contribute based on the state median income and family size.

(3) If the care receiver's gross income is one hundred percent or more of the state median income, the participant must pay the full cost of the respite care services.

(4) If the care receiver is experiencing extreme financial hardship (e.g., high medical expenses) and cannot pay for their share of the cost of the respite care services, the area agency on aging may grant an exception to policy and then must document this in the client's records.

(4) If the care receiver is experiencing extreme financial hardship (e.g., high medical expenses) and cannot pay for their share of the cost of the respite care services, the area agency on aging may grant an exception to policy and then must document this in the client's records.

WAC 388-106-1230 What determines emergent and nonemergent respite care services through the family caregiver support program? (1)

The department and the area agency on aging (AAA) must first consider requests for emergency respite care. An example of an emergency is when the caregiver becomes ill or injured to the extent that the caregiver's ability to care for the care receiver is impaired. AAA policies will determine how best to serve caregivers in crisis depending on available local FCSP funding. A caregiver must be screened in TCARE® within thirty days following the crisis if ongoing services exceeding five hundred dollars are requested.

(2) In nonemergency situations, respite care is allocated based upon the results of the TCARE® assessment and available local FCSP funds. If sufficient funds are not available when an eligible caregiver requests services, AAA may establish wait lists to prioritize clients receiving services as funding becomes available.

WAC 388-106-1445 How is the amount of the individual budget determined? The department will calculate your individual budget amount after you are assigned a number of monthly hours resulting from completion of the comprehensive assessment reporting and evaluation tool, CARE. The calculation will be based on the average wage, including a mileage allowance, as determined by the collective bargaining agreement for individual provider personal care multiplied by the number of units generated by the assessment, multiplied by a factor of .93, plus an amount equal to the average per participant expenditures for non-personal care supports purchased in the COPES waiver.

WAC 388-106-1450 Is the individual budget intended to fully meet all of my needs? The program provides funds in an amount proportionate to the amount of resources you would receive through COPES, and gives you flexibility to self-direct the purchase of goods and services to address your long-term care needs. The degree to which the budget meets your needs depends on the supports you identify and prioritize in your spending plan. Depending on your decisions, after your budget is exhausted, some of your needs may be unmet, or you may find other resources to address them.

WAC 388-106-1455 What happens to individual budget funds when I don't use them? (1) The balance of individual budget funds that were not allocated for purchase of personal care may be used to purchase other goods and services in accordance with the approved New Freedom spending plan or saved for future purchase as described in (2) below.

(2) Up to \$3,500 may be held in savings for future purchases documented in the New Freedom spending plan.

(3) Reserves in excess of \$3,500 may only be maintained for exceptional, planned purchases with preapproval from the department.

(4) Unused funds will revert back to the department under the following circumstances:

WAC 388-106-1458 How do I create and use my spending plan? (1) You create your spending plan in collaboration with your care consultant using the CARE tool.

(2) The spending plan must be approved by both you and the care consultant.

(3) You, as the participant, must identify how many personal care service units you intend to purchase prior to the month you plan to use them (service month).

(4) The value of those units is deducted from your new freedom budget.

(5) The rest of the funds can be used for other covered goods and services or saved.

(6) Once a service month begins, the number of personal care units may not be altered during that month.

(7) The maximum number of personal care units that can be purchased from the monthly budget is calculated from the individual budget as described in WAC 388-106-1445, divided by the individual provider average wage including mileage.

(8) Prior to the service month, you may elect to use savings funds to buy additional personal care.

(9) You may choose to have your personal care provided by an individual provider (IP) or a home care agency.

(10) Each unit will be deducted from your new freedom budget at the average IP wage rate including mileage.

(11) The balance of your individual new freedom budget will be available in your NFSP to save or purchase other goods and services up to the limit described in WAC 388-106-1455(2).

(12) If you have a change of condition or situation and your new freedom budget increases due to a new assessment or exception to rule, you may purchase additional personal care from an IP or home care agency mid-month at the average IP rate, including mileage during the month your budget changed.

(13) You may assign your predetermined personal care units to a different provider during the month of service.

(14) Under chapter 388-114 WAC, individual providers for one or more department clients who work more than 40 hours in a work week, are entitled to overtime and the responsibility for paying the extra cost as follows:

(a) If the individual provider is contracted with the department and approved to work more than 40 hours per week as described in WAC 388-114-0080, the department will pay the extra cost for overtime up to the number of service hours the individual provider is approved to work and the payment for these extra costs will not be charged to your budget; and

(b) If you assign more overtime hours to your individual provider than the department approved, you must pay the extra costs for the unapproved overtime hours and the additional cost will impact your monthly budget and may reduce the number of service hours you are able to purchase from it.

NURSING FACILITY CERTIFICATE OF NEED

WAC 388-106-1600 What definitions apply to the nursing facility certificate of need? "Activities of daily living", as defined in WAC 388-106-0010, includes tasks such as walking, eating, taking medications, maintaining personal hygiene, moving in bed and toileting.

"Care assessment" is an assessment tool used to determine eligibility for services and level of service need, and identify strengths, preferences and potential referrals to develop an individualized care plan.

"Certificate of need program" is a regulatory process under chapter 70.38 RCW that requires certain health care providers, including nursing homes, to receive approval from the department of health before building certain types of facilities or offering new or expanded services.

"Community residential" refers to licensed community settings such as assisted living facilities and adult family homes where long-term care services are provided to residents.

"Department" means the department of social and health services.

"Department of health" is the state agency that operates the certificate of need review program and determines the need for specific facilities and services, including nursing homes, in a manner that is consistent with the statewide health resources strategy developed under RCW 43.370.030 and chapter 70.38.

"In-home personal care" is care provided by an agency or individual provider to clients living in their own home.

"Minimum data set" or **"MDS"** is a tool that is used to perform the comprehensive assessment of each resident's functional capabilities, which is required for all residents in medicare or medicaid certified nursing homes.

"RUG-III score" is the classification of each nursing facility resident into a specific group based on the individual's medical condition and level of care required.

WAC 388-106-1610 What is the purpose of determining nursing facility comparable home and community-based long-term capacity? The department of health's certificate of need program is required to determine the need for nursing homes under WAC 246-310-210 (6)(b)(ii). The determination of need is based in part upon the availability of home and community-based long-term services in the planning area of the proposed nursing facility. When evaluating the need for additional nursing home beds, the data considered by the department of health must include data provided by the department.

[Statutory Authority: RCW 74.08.090 and 74.09.520. WSR 14-05-061, § 388-106-1610, filed 2/18/14, effective 3/21/14.]

WAC 388-106-1620 What methodology does the department use to determine statewide or county specific nursing home comparable home and community-based long-term services availability? The department uses the following methodology to determine the statewide or county specific nursing home comparable home and community-based long-term services availability.

(1) The department selects a recent, one-year time period from which to use MDS assessment data.

(2) The "typical RUG-III ADL score" is determined as follows. From the MDS data, two activity of daily living (ADL) RUG-III score values are calculated: (1) the mean RUG-III ADL score, rounded to the nearest whole number, and (2) the modal RUG-III ADL score that occurs most commonly in the nursing home population in the selected time period. The "typical RUG-III ADL score" is the lower of the mean and modal values.

(3) Using the most recent month that both payment and assessment data are considered to be complete, persons receiving medicaid paid in-home personal care or community residential services are identified, and the MDS-equivalent ADL score from each home and community-based client's current CARE assessment is constructed.

(4) Using data from the month selected in subsection (3), count the number of in-home personal care clients being served by either the aging and long-term support or developmental disabilities administrations who have an MDS-equivalent score at or above the typical RUG-III ADL nursing home score that was calculated in subsection (2).

(5) Using data from the month selected in subsection (3), calculate the proportion of medicaid-paid community residential clients with an MDS-equivalent score that is at or above the typical RUG-III ADL nursing home score calculated in subsection (2).

(a) When determining county level measures of nursing home comparable home and community based capacity, the statewide average for medicaid paid community residential clients is used.

(6) Calculate the overall statewide licensed capacity of community residential facilities.

(7) The proportion calculated in subsection (5) and the community residential capacity determined in subsection (6) are multiplied to estimate the community residential capacity that is nursing home comparable.

(8) Add the numbers calculated in subsections (4) and (7) to determine the total countable nursing-home-comparable home and community-based long-term capacity to be used in reporting to the department of health the availability of other services in the community as required in RCW 70.38.115.

MAC AND TSOA SERVICES

WAC 388-106-1900 What definitions apply to MAC and TSOA services? The following definitions apply to MAC and TSOA services:

"Care plan" means the plan developed by the department in GetCare that summarizes the services described in WAC 388-106-1915 that you chose to receive.

"Care receiver" means an adult age 55 and over who has been authorized for MAC or TSOA services.

"Caregiver" means a spouse, relative, or friend (age 18 and over) who has primary responsibility for the care or supervision of an adult who meets eligibility criteria and does not receive direct, public, or private payment such as a wage for the caregiving services they provide.

"Caregiver assistance services" are services that take the place of those typically performed by an unpaid caregiver in support of the care receiver's unmet needs for assistance with activities of daily living (ADLs) and instrumental activities of daily living (IADLs).

"Caregiver phases" means the phases a caregiver experiences as the needs of the care receiver change, which in turn changes the responsibilities and tasks of caregiving. The change in responsibilities and tasks impacts the relationship between the caregiver and the care receiver. There are five phases showing the change in relationship roles from primarily family member to primarily caregiver. The five phases are:

(1) Phase one - Acting as a relative/friend almost all of the time;

(2) Phase two - Acting most often as a relative/friend, but sometimes as a caretaker;

(3) Phase three - Acting equally as a relative/friend and as a caregiver;

(4) Phase four - Acting most often as a caregiver, but sometimes you are still a relative/friend; and

(5) Phase five - Acting as a caregiver almost all of the time.

"Family caregiver" means the same as "caregiver."

"GetCare" means a statewide web-based information system that includes a client management component that includes screening and assessment tools for use by area agencies on aging (AAA) and other aging and disability network partners.

"GetCare assessment" is a process during which the department gathers information for an individual without a caregiver in the following areas: Functional needs, diagnoses and conditions, behavior health supports, oral health, and nutritional health to assist the individual with choosing step three services.

"GetCare screening" is a process during which the department gathers information for an individual without a caregiver in order to determine risk scores. The information covers the following areas: Function needs, fall risk, availability of informal help, memory and decision-making issues, and emotional well-being. The risk scores are used to determine if the individual is referred for a full GetCare assessment.

"Health maintenance and therapies" are clinical or therapeutic services that assist the care receiver to remain in their home or the

caregiver to remain in their caregiving role and provide high quality care. Services are provided for the purpose of preventing further deterioration, improving, or maintaining current level of functioning.

"Identity discrepancy" means a negative psychological state that occurs when the activities and responsibilities that a caregiver assumes with regard to the care receiver are inconsistent with the caregiver's expectations or personal norms concerning these activities and responsibilities.

"MAC" means medicaid alternative care, which is a federally funded program authorized under section 1115 of the Social Security Act. It enables an array of person-centered services to be delivered to unpaid caregivers caring for a medicaid eligible person who lives in a private residence (such as their own home or a family member's home) and chooses to receive community-based services.

"Medicaid transformation project" refers to the authority granted to the state by the federal government under section 1115 of the Social Security Act. This is a five year demonstration waiver to support health care systems prepare for and implement health reform and provide new targeted medicaid services to eligible individuals with significant needs. It includes MAC and TSOA programs.

"Personal assistance services" are supports involving the labor of another person to help the care receiver complete activities of daily living and instrumental activities of daily living that they are unable to perform independently. Services may be provided in the care receiver's home or to access community resources.

"RDAD" means reducing disability in Alzheimer's disease. This program is designed to improve the ability of the person with memory problems to complete activities of daily living while also helping caregivers provide assistance to the person.

"Service provider" means an agency or organization contracted with the department.

"Specialized medical equipment and supplies" are goods and supplies needed by the care receiver that are not covered under the medicaid state plan, medicare, or private insurance.

"TCARE" means tailored caregiver assessment and referral, which is an evidence-based caregiver coordination process designed to assist department assessors who work with family caregivers to support adults living with disabilities. TCARE is designed to tailor services to the unique needs of each caregiver to help reduce stress, depression, and burdens associated with caregiving. TCARE was developed by a research team at the University of Wisconsin-Milwaukee led by Dr. Rhonda Montgomery in collaboration with over 30 organizations serving family caregivers. The TCARE process is licensed for use by Tailored Care Enterprises, Inc.

"TCARE assessment" is a part of the TCARE process during which the department assessors gather responses to all of the TCARE screening questions and additional questions focused on both the caregiver's experience and the care receiver's situation, such as memory issues, behavioral needs, assistance needs with activities of daily living and instrumental activities of daily living, and diagnoses/conditions.

"TCARE screening" is a part of the TCARE process during which the department gathers information from the caregiver to determine scores and ranges for the caregiver's identity discrepancy, burdens, uplifts, and depression. The ranges are used to determine if the caregiver is referred for a full TCARE assessment.

"Training and education" are services and supports to help caregivers gain skills and knowledge to implement services and supports

needed by the care receiver to remain at home and skills needed by the caregiver to remain in their role.

"TSOA" means tailored supports for older adults, which is a federally-funded program approved under section 1115 of the Social Security Act. It enables the delivery of person-centered services to:

(1) Caregivers who care for an eligible person as defined in WAC 388-106-1910; and

(2) Eligible persons as defined in WAC 388-106-1910, without a caregiver.

In order to qualify for a TCARE assessment, the TCARE screening must result in at least three medium scores or one high score for the TCARE measures described in WAC 388-106-1932. TCARE uses an evidence-based algorithm to identify a primary goal based on your caregiver's answers to the TCARE assessment questions. WAC 388-106-1920 What is the maximum amount of step three services I may receive a month? (1) Unless the department authorizes additional funds through an exception to rule under WAC 388-440-0001, beginning January 1, 2019, the maximum amount of step three services you and your caregiver may receive in MAC and TSOA will be published on the ALTSA/HCS rates website at: https://www.dshs.wa.gov/sites/default/files/ALTSA/msd/documents/All_HCS_Rates.pdf.

(2) If you are a care receiver who does not have an available unpaid caregiver, you are receiving TSOA personal assistance services, and the department has not authorized additional funds through an exception to rule under WAC 388-440-0001, beginning January 1, 2019, the maximum amount of step three services you may receive will be published on the ALTSA/HCS rates website at: https://www.dshs.wa.gov/sites/default/files/ALTSA/msd/documents/All_HCS_Rates.pdf.

WAC 388-106-1921 How does the TCARE assessment determine what step three services are recommended to my caregiver? (1) The TCARE assessment process gathers the following information reflecting the current status of both you and your caregiver in order to recommend services for your caregiver:

(a) TCARE screening scores from the five measures described in WAC 388-106-1931;

(b) Caregiver obligations;

(c) Caregiver's phase in the caregiving journey;

(d) Potential risk of out-of-home placement;

(e) Care receiver's need for assistance with activities of daily living and instrumental activities of daily living;

(f) Care receiver's memory status, physical health conditions, and behavioral support needs; and

(g) Caregiver's understanding of the care receiver's level of need and the ability to safely provide care with the assistance of available resources/services.

(2) Based upon the information gathered during the TCARE assessment process described in subsection (1) of this section, one of three primary goals, as defined in WAC 388-106-1925, is established for your caregiver with at least one strategy identified for meeting that goal. One or more of the five strategies described in WAC 388-106-1930, which are linked to recommended services and supports that have the most potential to help your caregiver continue providing care safely while also addressing their needs as a caregiver, may be recommended to reach the established goal.

[Statutory Authority: RCW 74.08.090. WSR 18-08-033, § 388-106-1921, filed 3/27/18, effective 4/27/18.]

WAC 388-106-1925 What are the goals in TCARE? The three primary goals for caregivers identified in TCARE are:

(1) Maintain current identity: The goal appropriate for caregivers who experience modest levels of identity discrepancy and stress and are willing and able to continue in their current role. Suggested support services will help caregivers make small adjustments in their personal norms and the manner in which they undertake their caregiving responsibilities.

(2) Embrace caregiver identity: The goal appropriate for caregivers who are likely to benefit from embracing a stronger identity as a caregiver and releasing, to some degree, their commitment to a familial identity. Suggested support services will encourage the caregiver to accept a greater identity with the caregiver role.

(3) Reduce caregiver identity: The goal appropriate for caregivers who are engaged in a level of caregiving that requires emotional or physical resources beyond their capability. Suggested support services will encourage caregivers to explore ways to reduce workload and stress related to their caregiving role.

[Statutory Authority: RCW 74.08.090. WSR 18-08-033, § 388-106-1925, filed 3/27/18, effective 4/27/18.]

WAC 388-106-1930 What is the purpose of the TCARE assessment? The purpose of the TCARE assessment is to gather critical information about the caregiving context, identity, strengths, problems and concerns. These data are used to identify strategies and goals to address your caregiver's needs. Program limits are established in WAC 388-106-1915.

(1) The five strategies in TCARE are:

(a) Strategy A: Change personal rules for care, which entails encouraging and helping your caregiver to change or adjust their personal rules or norms.

(b) Strategy B: Reduce or minimize work load, which focuses on reducing the amount or intensity of your caregiver's work load and therefore aligns your caregiver's behaviors with their expectations.

(c) Strategy C: Support positive self-appraisal, which focuses on offering positive affirmation and assuring your caregiver that the behaviors that they must engage in as a caregiver are consistent with their norms.

(d) Strategy D: Reduce generalized stress, which focuses on giving your caregiver tools and skills to cope with daily stresses of caregiving.

(e) Strategy E: Improve overall health, which encourages your caregiver to seek appropriate health services.

(2) Each service is mapped to a strategy(s) that may support your caregiver's needs. A service may be mapped to more than one strategy.

(3) Assessors assist you and your caregiver to understand the evidence based strategies and recommended services, choose the services to meet the identified goals, and create an individualized care plan.

[Statutory Authority: RCW 74.08.090. WSR 18-08-033, § 388-106-1930, filed 3/27/18, effective 4/27/18.]

WAC 388-106-1931 What are the TCARE screening measures? The following six TCARE screening measures and response options will be presented to your caregiver in order to receive step two services and to determine whether a TCARE assessment is needed for step three services:

(1) Identity discrepancy: The following are some thoughts and feelings that people sometimes experience when they assist their receiver:

(a) I am not always able to be the person I want to be when I am with my care receiver.

(b) It is difficult for me to accept all the responsibility for my care receiver.

(c) I am not sure that I can accept any more responsibility than I have right now.

(2) Relationship burden: Have your caregiving responsibilities:

(a) Caused conflicts with your care receiver?

(b) Increased the number of unreasonable requests made by your care receiver?

(c) Caused you to feel that your care receiver makes demands over and above what they need?

(3) Objective burden: Have your caregiving responsibilities:

(a) Changed your routine?

(b) Left you with almost no time to relax?

(4) Stress burden: Have your caregiving responsibilities:

(a) Depressed you?

(b) Caused you to worry?

WAC 388-106-1932 How is the TCARE screening scored to determine if my caregiver is eligible for a TCARE assessment and related step three services?

(1) The TCARE screening measures are scored with a number value of one through six for the measure on identity discrepancy or one through five for the remaining measures based upon the caregiver's responses. Ranges for each measure determine whether the measure score is high, medium, or low. One high or three medium scores from the table in this subsection, except for the uplifts measure, will make a caregiver eligible for a TCARE assessment and step three

services as described in WAC 388-106-1915 (3)(a)(ii). The following table indicates the score ranges for each measure:

	High	Medium	Low
Identity discrepancy	13-18	8-12	3-7
Relationship burden	10-18	6-9	3-5
Objective burden	9-12	5-8	2-4
Stress burden	9-12	6-8	2-5
Uplifts	10-18	6-9	3-5
Depression-CESD	14-16	7-13	4-6

(2) The scale used to score the responses within the identity discrepancy, relationship, objective, stress, and uplift measures are:

- (a) Strongly disagree = one;
- (b) Disagree = two;
- (c) Disagree a little = three;
- (d) Agree a little = four;
- (e) Agree = five; and
- (f) Strongly agree = six.

(3) The scale used to score the responses within the depression measures in WAC 388-106-1931 (5)(a), (b), (c), and (d) are:

- (a) Rarely or none of the time (less than one day in the last week) = one;
- (b) Some or a little of the time (one to two days in the last week) = two;
- (c) Occasionally or a moderate amount of time (three to four days in the last week) = three; and
- (d) All of the time (five to seven days in the last week) = four.

CIVIL TRANSITIONS PROGRAM

WAC 388-106-2000 What definitions apply to the civil transitions program? "Aging and long-term support administration (AL TSA)" is an administration within the department of social and health services that promotes choice, independence, and safety through innovative services and partnerships with tribes, advocates, providers, and care-givers to support seniors, and people with disabilities so they can live with good health, independence, dignity, and control over decisions that affect their lives.

"Behavioral health administration (BHA)" is an administration within the department of social and health services that supports sustainable recovery, independence, and wellness. This is done by funding and supporting effective prevention and intervention services for youth and family, and treatment and recovery support for youth and adults with addiction and mental health conditions (also known as behavioral health). BHA operates three state psychiatric hospitals and the office of forensic mental health services that deliver high quality services to adults and children with complex needs.

"Civil transitions program" is a program implemented according to Engrossed Second Substitute Senate Bill 5440 to provide support services to individuals recently subject to criminal charges and found incompetent to stand trial due to an intellectual or developmental disability, traumatic brain injury, or dementia.

"Competency evaluation" is an assessment of the ability of a defendant to understand and rationally participate in a court process under the United States criminal justice system.

"Conditional services" is a term that describes the services available under the civil transitions program for an individual who does not meet functional eligibility criteria under medicaid personal care level of care under WAC 388-106-0210 or nursing facility level of care under WAC 388-106-0355 or is not financially eligible for Washington apple health, or is not functionally or financially eligible.

"Dementia" is a general term for loss of memory, language, problem-solving, and other thinking abilities that are severe enough to interfere with daily life. The term "dementia" is no longer used to refer to the etiological subgroups for which it is standard, but it is instead included under the newly titled term significant neurocognitive disease. For consistency, the term "dementia" is still used in the DSM-5 and can be applied in situations where patients and doctors are familiar with it. The phrase neurocognitive disorder is commonly used, while dementia is the standard word for illnesses such as the degenerative dementias that typically impact older persons (DSM-5-TR).

Neurocognitive disorder is characterized by the progressive and persistent deterioration of cognitive function. Cognitive deficits are sufficient to interfere with independence, do not occur exclusively in

the context of a delirium, and are not attributable to another mental disorder (e.g. major depressive disorder, schizophrenia).

Specific major neurocognitive diagnosis, primary diagnosis:

- (a) Major neurocognitive disorder due to Alzheimer's disease;
- (b) Major frontotemporal neurocognitive disorder (Pick's);
- (c) Major neurocognitive disorder with Lewy bodies;
- (d) Major vascular neurocognitive disorder (Vascular);
- (e) Major neurocognitive disorder due to traumatic brain injury;
- (f) Substance or medication-induced major neurocognitive disorder (alcohol-related);
- (g) Major neurocognitive disorder due to HIV infection;
- (h) Major neurocognitive disorder due to Prion disease;
- (i) Major neurocognitive disorder due to Parkinson's disease;
- (j) Major neurocognitive disorder due to Huntington's disease.

"Not Competent" means a legal determination has been made by a court that a defendant is unable to stand trial based on being diagnosed with a mental disease or defect which prevents them from understanding court proceedings or being able to rationally assist in their own defense per chapter 10.77 RCW.

"Not Restorable" means a court has found that a person lacks the capacity to have competency restored via inpatient or outpatient treatment.

"Office of forensic mental health services (OFMHS)" is a division of the department of social and health services' behavioral health administration that oversees the state's adult forensic mental health system.

"Washington apple health" means the public health insurance programs for eligible Washington residents defined in WAC 182-500-0120. Washington apple health or apple health is the name used in Washington state for medicaid, the children's health insurance program (CHIP), and state-only funded health care programs.

WAC 388-106-2120 Acceptance into the program. (4) Waitlist priority is determined based on a first-come basis utilizing the date DSHS receives a complete referral packet and DSHS completes an eligibility determination for the person.

(5) In the event that a person is found eligible for a tier 2 slot, but at the time of acceptance only a tier 1 slot is available, DSHS will accept the person into the tier 1 slot while simultaneously placing the person on the waitlist for a tier 2 slot. (6) Once a person is accepted into a program slot, DSHS makes a referral to all program contracted certified professional guardians and conservators for consideration of acceptance of nomination. DSHS has the sole discretion to remove a person from the program if after two months of initial contractor referral, no program contracted certified professional guardian or conservator agrees to accept the case for nomination by the court.

(7) Removal from the guardianship and conservatorship assistance program in no way affects the person's ability to be rereferred and reconsidered for inclusion onto the guardianship and conservatorship assistance program at a future date.

WAC 388-106-2125 Reconsideration of acceptance determination. A referring acute care hospital may request that DSHS reconsider its decision to accept a person onto the guardianship and conservatorship assistance program. An acute care hospital does not have a right to an administrative hearing to contest any department decision made under this chapter.

[Statutory Authority: RCW 43.17.060, 43.20B.030, and 74.08.090. WSR 24-16-044, § 388-106-2125, filed 7/30/24, effective 8/30/24.]

The person does not have a right to a hearing to contest the adequacy of the services, costs covered, or the amounts paid to the contracted guardian or conservator.

[Statutory Authority: RCW 43.17.060, 43.20B.030, and 74.08.090. WSR 24-16-044, § 388-106-2135, filed 7/30/24, effective 8/30/24.]

If DSHS or the guardian or conservator discovers that the person's estate has available and adequate resources to pay for guardianship fees or costs, the payments made under this program on behalf of the client are overpayments to the extent a court determines that the person's estate is able to pay for guardianship fees and costs paid for by the state funded guardianship and conservatorship assistance program.

[Statutory Authority: RCW 43.17.060, 43.20B.030, and 74.08.090. WSR 24-16-044, § 388-106-2140, filed 7/30/24, effective 8/30/24.]

This process is referred to as a "program hold". In the event that a client becomes financially reeligible for LTSS medicaid as outlined in WAC 182-513-1315 (1)-(3) within the designated 90-day hold period, they will be reinstated to their program slot for the remaining portion of the originally approved tier slot term; however, if at the end of the designated 90-day hold period, the client continues to be financially ineligible for the program, DSHS terminates their eligibility for the program.
