STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

The Register is arranged in the following eight sections:

- (a) **PREPROPOSAL**-includes the Preproposal Statement of Inquiry that will be used to solicit public comments on a general area of proposed rule making before the agency files a formal notice.
- (b) **PROPOSED**-includes the full text of formal proposals, continuances, supplemental notices, and withdrawals.
- (c) **EXPEDITED RULE MAKING**-includes the full text of the rule being proposed using the expedited rule-making process. Expedited rule makings are not consistently filed and may not appear in every issue of the register.
- (d) **PERMANENT**-includes the full text of permanently adopted rules.
- (e) **EMERGENCY**-includes the full text of emergency rules and rescissions.
- (f) **MISCELLANEOUS**-includes notice of public meetings of state agencies, rules coordinator notifications, summaries of attorney general opinions, executive orders and emergency declarations of the governor, rules of the state Supreme Court, and other miscellaneous documents filed with the code reviser's office under RCW 34.08.020 and 42.30.075.
- (g) **TABLE**-includes a cumulative table of the WAC sections that are affected in the current year.
- (h) **INDEX**-includes a cumulative index of Register Issues 01 through 24.

Documents are arranged within each section of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. Each filing is listed under the agency name and then describes the subject matter, type of filing and the WSR number. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence with a section's material.

2. PRINTING STYLE—INDICATION OF NEW OR DELETED MATERIAL

RCW 34.05.395 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined material is new material;
 - (ii) ~~deleted material is ((lined out between double parentheses))~~;
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

3. MISCELLANEOUS MATERIAL NOT FILED UNDER THE ADMINISTRATIVE PROCEDURE ACT

Material contained in the Register other than rule-making actions taken under the APA (chapter 34.05 RCW) does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

4. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules normally take effect thirty-one days after the rules and the agency order adopting them are filed with the code reviser's office. This effective date may be delayed or advanced and such an effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser's office unless a later date is provided by the agency. They remain effective for a maximum of one hundred twenty days from the date of filing.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

5. EDITORIAL CORRECTIONS

Material inserted by the code reviser's office for purposes of clarification or correction or to show the source or history of a document is enclosed in [brackets].

⁴ A minimum of forty-five days is required between the distribution date of the Register giving notice of the expedited adoption and the agency adoption date. No hearing is required, but the public may file written objections. See RCW 34.05.230 and 1.12.040.

REGULATORY FAIRNESS ACT

The Regulatory Fairness Act, chapter 19.85 RCW, was enacted in 1982 to minimize the impact of state regulations on small business. Amended in 1994, the act requires a small business economic impact analysis of proposed rules that impose more than a minor cost on twenty percent of the businesses in all industries, or ten percent of the businesses in any one industry. The Regulatory Fairness Act defines industry as businesses within a four digit SIC classification, and for the purpose of this act, small business is defined by RCW 19.85.020 as "any business entity, including a sole proprietorship, corporation, partnership, or other legal entity, that is owned and operated independently from all other businesses, that has the purpose of making a profit, and that has fifty or fewer employees."

Small Business Economic Impact Statements (SBEIS)

A small business economic impact statement (SBEIS) must be prepared by state agencies when a proposed rule meets the above criteria. Chapter 19.85 RCW requires the Washington State Business Assistance Center (BAC) to develop guidelines for agencies to use in determining whether the impact of a rule is more than minor and to provide technical assistance to agencies in developing a SBEIS. All permanent rules adopted under the Administrative Procedure Act, chapter 34.05 RCW, must be reviewed to determine if the requirements of the Regulatory Fairness Act apply; if an SBEIS is required it must be completed before permanent rules are filed with the Office of the Code Reviser.

Mitigation

In addition to completing the economic impact analysis for proposed rules, state agencies must take reasonable, legal, and feasible steps to reduce or mitigate the impact of rules on small businesses when there is a disproportionate impact on small versus large business. State agencies are encouraged to reduce the economic impact of rules on small businesses when possible and when such steps are in keeping with the stated intent of the statute(s) being implemented by proposed rules. Since 1994, small business economic impact statements must contain a list of the mitigation steps taken, or reasonable justification for not taking steps to reduce the impact of rules on small businesses.

When is an SBEIS Required?

When:

The proposed rule has more than a minor (as defined by the BAC) economic impact on businesses in more than twenty percent of all industries or more than ten percent of any one industry.

When is an SBEIS Not Required?

When:

The rule is proposed only to comply or conform with a federal law or regulation, and the state has no discretion in how the rule is implemented;

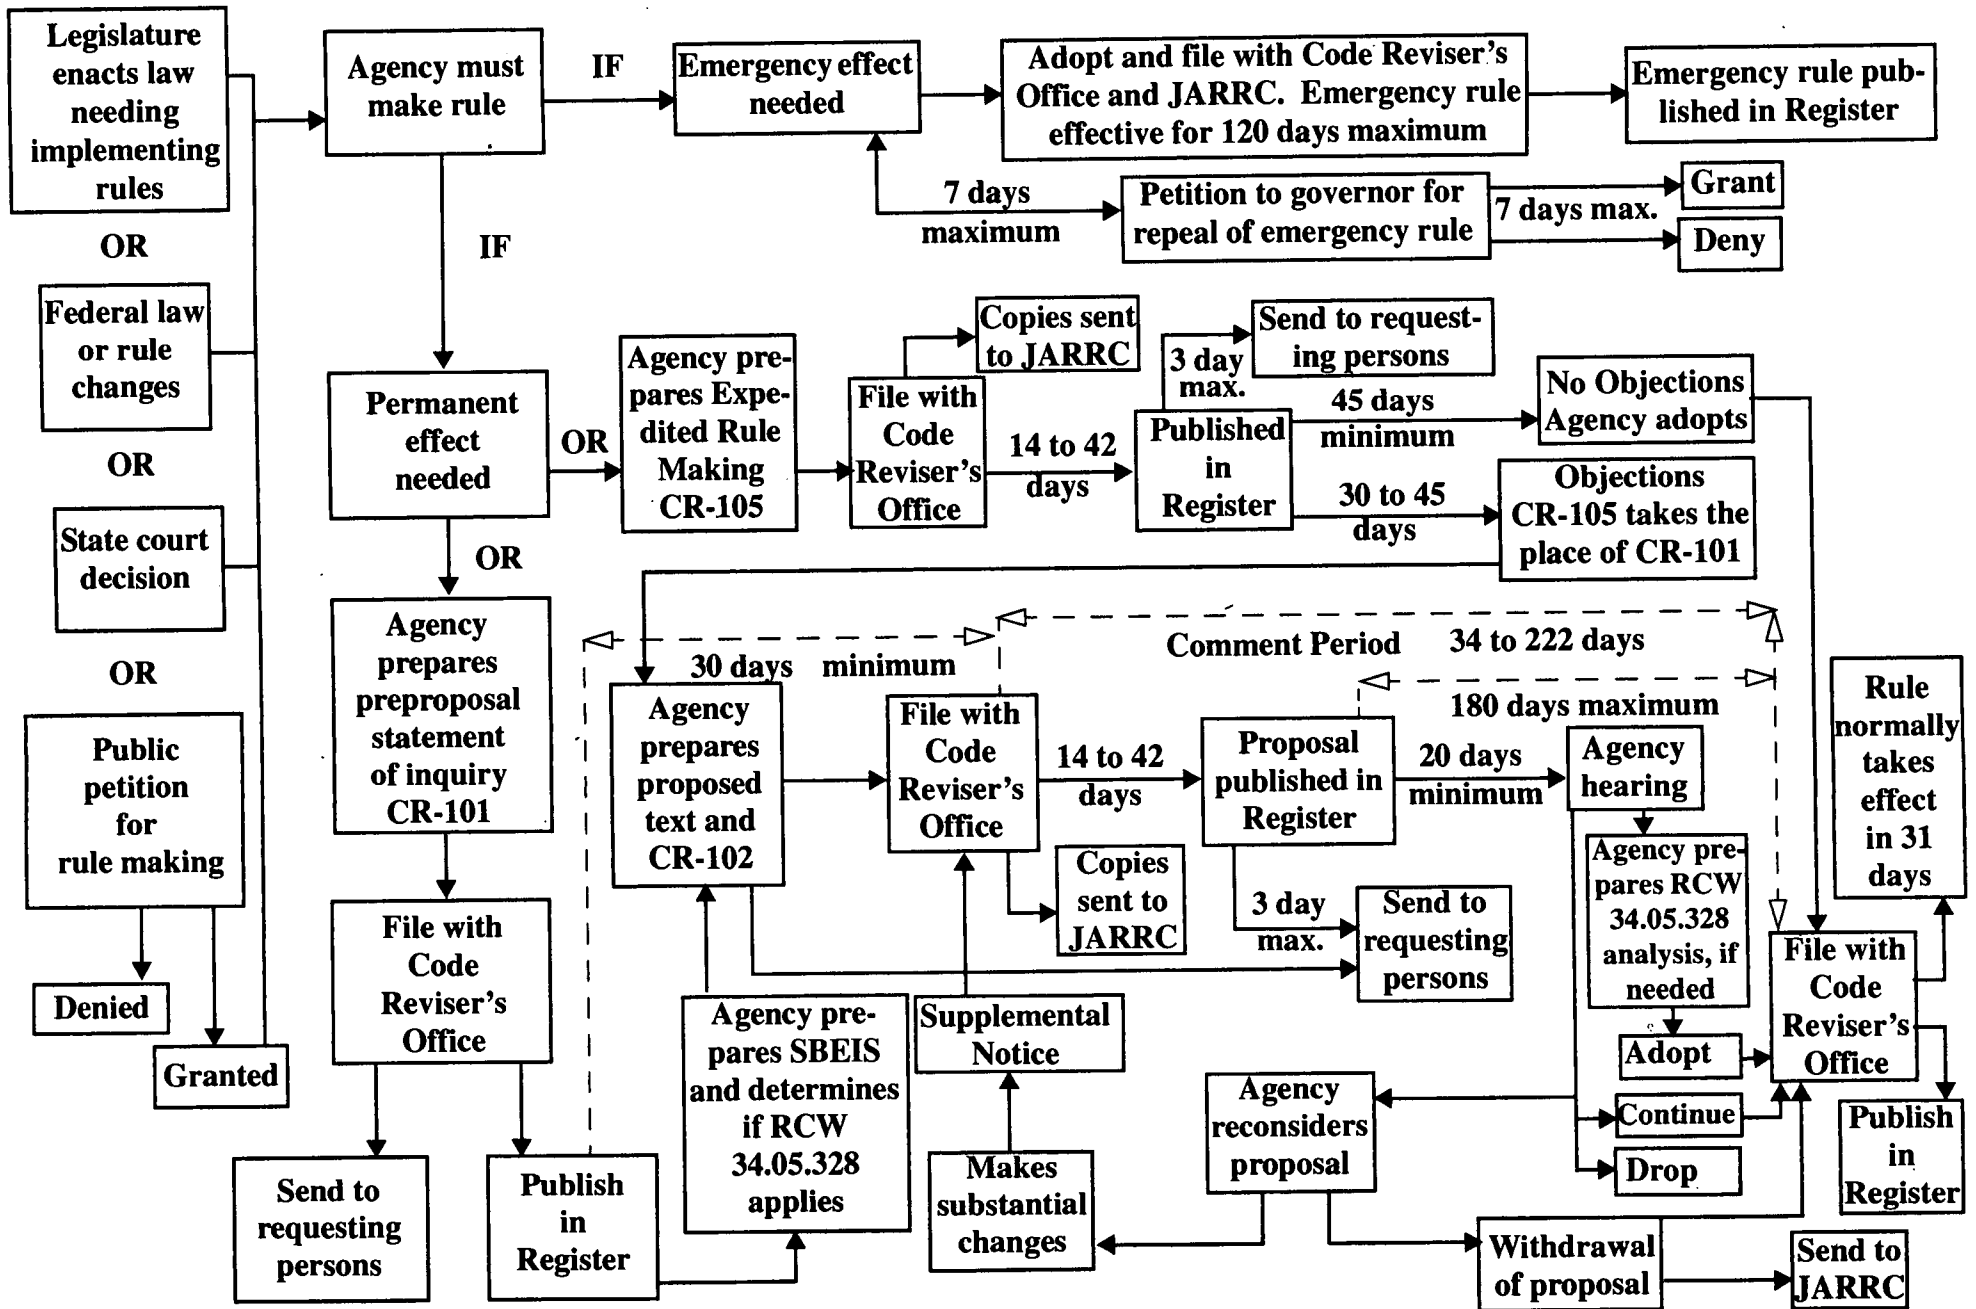

There is less than minor economic impact on business;

The rule REDUCES costs to business (although an SBEIS may be a useful tool for demonstrating this reduced impact);

The rule is adopted as an emergency rule, although an SBEIS may be required when an emergency rule is proposed for adoption as a permanent rule; or

The rule is pure restatement of state statute.

Subject of Possible Rule Making: Chapter 388-835 WAC, ICF/MR program and reimbursement system, and other rules as appropriate. The Division of Developmental Disabilities is adopting rules to implement the 2003-2005 state operating budget bill (section 205, chapter 25, Laws of 2003 1st sp.s.). In budget detail documents, the state legislature directed that: "The department shall consolidate vacancies across all residential habilitation centers (RHCs) in order to downsize Fircrest School."

Statutes Authorizing the Agency to Adopt Rules on this Subject: Chapter 71A.20 RCW, RCW 71A.12.080, 71A.20-140.

Other Authority: Section 205, chapter 25, Laws of 2003 1st sp.s.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Rules are needed to establish procedures to transfer residents of the Fircrest School to other facilities or care settings.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: Centers for Medicare and Medicaid.

Process for Developing New Rule: At a later date, the department will file a proposed rule and proposed rule-making notice for publication in the state register, invite public comments and hold a public hearing. The proposal will be sent to everyone on the mailing list to receive rule-making notices on this subject, and to anyone who requests the proposal. If you want to be added to the mailing list, or want information about the development of this rule, please contact the person listed below.

Subject of Possible Rule Making: Change in the formula used to calculate the fees paid by political subdivisions of the

state to the Office of Minority and Women's Business Enterprises (OMWBE). This rule will not apply to nongovernmental parties.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 39.19.220.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The current rule does not equitably distribute the costs among the subdivisions either by category or size. Further, political subdivisions that increase opportunities and contracts with businesses certified by OMWBE are charged more than those who do not. The new formula will be designed to ensure an equitable distribution of the costs based on the relative benefit accruing to each political subdivision as anticipated by the statute.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.

Process for Developing New Rule: Negotiated rule making.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by sending written comments and questions to Cathy V. Canorro, Rules Coordinator, Office of Minority and Women's Business Enterprises, P.O. Box 41160, Olympia, WA 98504-1160, phone 1-866-208-1064 (statewide toll free), e-mail ccanorro@omwbe.wa.gov, fax (360) 586-7079.

Subject of Possible Rule Making: Establish plant tagging requirements for horticultural plants.

Statutes Authorizing the Agency to Adopt Rules on this Subject: Chapters 15.13 and 34.05 RCW.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Chapter 15.13 RCW requires the department to establish rules for the marking or tagging of horticultural plants. The ability to identify horticultural

plants is critical when enforcing plant related quarantines, especially noxious weed quarantines. A tagging rule would benefit consumers of such plants by providing an accurate identity of purchased plants. This proposal would also allow consumers to identify native plants collected in their natural environment.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: None.

Process for Developing New Rule: Washington State Department of Agriculture representatives discuss proposed rule change with affected stakeholders and then publish the rule proposal.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Mary A. Martin Toohey, Assistant Director, Plant Protection Division, Washington State Department of Agriculture, P.O. Box 42560, Olympia, WA, 98504-2560, phone (360) 902-1907, fax (360) 902-2094; or Tom Wessels, Plant Services Program Manager, Plant Protection Division, Washington State Department of Agriculture, P.O. WSR 04-02-070**PREPROPOSAL STATEMENT OF INQUIRY
DEPARTMENT OF REVENUE**

[Filed January 7, 2004, 10:53 a.m.]

Subject of Possible Rule Making: WAC 458-20-252 Hazardous substance tax and 458-20-265 Petroleum products tax.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 83.32.300 and 82.01.060(2).

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: WAC 458-20-252 currently explains the provisions of chapter 82.21 RCW, Hazardous substance tax—Model Toxics Control Act, and chapter 82.23A RCW, Petroleum products—Underground storage tank program funding. It describes what products are subject to tax, who is subject to the tax, how the value of the products

is determined, how credits and exemptions are applied, and the method of payment.

The department is considering revising and updating the information in this rule to recognize current business practices and to incorporate the provisions of chapter 105, Laws of 2002. It is also considering removing the discussion of the petroleum products tax (chapter 82.23A RCW) from Rule 252 and setting forth the information in a new rule, WAC 458-20-265. These changes will provide more complete and accurate information to taxpayers and department personnel.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: Chapter 82.21 RCW provides the Department of Revenue with the authority to administer and collect the hazardous substance and petroleum products taxes. The Department of Ecology (DOE) regulates the clean up of sites contaminated by hazardous substances and administers the Model Toxics Control Act. The petroleum products tax is deposited into the pollution liability insurance program trust account administered by the Pollution Liability Insurance Agency (PLIA). The department anticipates consulting with DOE and PLIA during the rule-making process with respect to these rules.

Process for Developing New Rule: Modified negotiated rule making.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication. Written comments may be submitted by mail, fax, or at the public meeting. Oral comments will be accepted at the public meeting. A preliminary draft of the proposed changes is available via a link at http://www.dor.wa.gov/Content/Rules_Laws/laws_main.asp. Written comments on and/or requests for paper copies of the rule may be directed to Anne Solwick, Legislation and Policy, P.O. Box 47467, Olympia, WA 98504-7467, phone (360) 570-6129, fax (360) 664-0693, e-mail annes@dor.wa.gov.

Location and Date of Public Meeting: Capital Plaza Building, 4th Floor Large Conference Room, 1025 Union Avenue S.E., Olympia, WA 98501, on February 9, 2004, at 9:30 a.m. Assistance for persons with disabilities: Contact Sandy Davis no later than ten days before the hearing date, TDY 1-800-451-7985 or (360) 725-7499.

LIQUOR CONTROL BOARD**

[Filed January 7, 2004, 11:48 a.m.]

Subject of Possible Rule Making: Chapter 314-17 WAC, Mandatory alcohol server training.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 66.08.030, 66.20.300, 66.20.310, 66.20.320, 66.20.330, 66.20.340, 66.20.350.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish:

- Require standardized exam. RCW 66.20.320 indicates that a Mandatory Alcohol Server Training (MAST) trainer's curriculum includes an exam. Having a standard exam would ensure that alcohol servers have adequate knowledge of important laws, rules, and techniques to prevent service of alcohol to minors and intoxicated persons.
- Prohibit the certification of trainers or providers who have been suspended in Washington or another state in the last five years. This requirement will help ensure that MAST trainers and providers are presenting effective training that meets the requirements outlined in law and rule.
- Prohibit stand alone videotape training. Due to the importance of this training, the participants of the course should have a trainer available to answer questions and concerns prior to a server taking the examination.
- Require prospective trainers to attend the Liquor Control Board's ID/over service training as a condition of certification. Currently no formal training is required for anyone to become a MAST trainer. This requirement will ensure those teaching the classes are familiar with relevant liquor laws and rules.
- Technical changes for clarification and to correct references to other WACs.

Process for Developing New Rule: Input from retail licensees, local governments, and other interested parties will be obtained through series of notices and at least one public hearing.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Teresa Berntsen, Rules Coordinator, P.O. Box 43080, Olympia, WA 98504-3080, (360) 664-1648, fax (360) 704-4921, e-mail teb@liq.wa.gov.

Statutory Authority for Adoption: RCW 67.16.020.

Summary: Repeal of WAC 260-28-140 Employment of persons under sixteen.

Reasons Supporting Proposal: This rule is not necessary. Current labor and industries rules better address the hiring of minors.

Name of Agency Personnel Responsible for Drafting: Robert Lopez, 6326 Martin Way, Suite 209, Olympia, WA 98516, (360) 459-6462; Implementation and Enforcement: Robert Leichner, 6326 Martin Way, Suite 209, Olympia, WA 98516, (360) 459-6462.

WSR 04-02-041**PROPOSED RULES****OFFICE OF MINORITY AND
WOMEN'S BUSINESS ENTERPRISES**

[Filed January 5, 2004, 11:23 a.m.]

Original Notice.

Preproposal statement of inquiry was filed as WSR 03-23-123.

Title of Rule: WAC 326-20-092, 326-20-094, 326-20-095, 326-20-096 and 326-20-098, small business concern requirements.

Purpose: Change procedures for implementation of chapter 39.19 RCW related to the change of size standards and industry code designations by converting from the standard industrial classification (SIC) codes to the North American industry classification system (NAICS) codes.

Statutory Authority for Adoption: RCW 39.19.210.

Statute Being Implemented: Chapter 39.19 RCW.

Summary: The Office of Minority and Women's Business Enterprises (OMWBE) has the authority to change size standards and industry code designations. Currently OMWBE uses an old code system no longer used by the federal government. Since OMWBE's certification authority also includes the federal DBE certification program, which includes utilizing the current federal government size standards and industry code designations, OMWBE must maintain two separate size standards and industry code designations for firms certified in both the state and federal programs.

Reasons Supporting Proposal: Using a single size standard and industry code designation system will streamline the certification process for businesses, state agencies and political subdivisions, and OMWBE staff, reducing processing time size standard confusion between the programs.

Name of Agency Personnel Responsible for Drafting: Vicky Schiantarelli, 406 South Water, P.O. Box 44160, Olympia, WA 98504-1160, (360) 704-1197; Implementation and Enforcement: Carolyn Crowson, 406 South Water, P.O. Box 44160, Olympia, WA 98504-1160, (360) 753-9679.

Name of Proponent: Office of Minority and Women's Business Enterprises, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: Currently, the office uses two different code systems with different size standards: (1) Standard industrial classification (SIC) codes for the state certification program (using 1997 size standards) and (2) North American industrial classification system (NAICS) codes for the federal DBE certification program (using 2002 size standards). SIC codes have not been revised since 1987. Some industries do not have assigned numbers because they did not come into existence until after 1987. OMWBE has had to create or adapt number(s) for industries that did not exist prior to 1987. The two systems are not similar enough to allow for easy conversion between the systems. SIC codes are lower than NAICS codes (e.g., specialty contractors = \$7.0M for SICs and \$11.5M for NAICS; A/E = \$2.5M for SICs and \$4.0M for NAICS). Therefore, confusion exists for staff, businesses, agencies

and political subdivisions about which size applies to which program.

The proposed change to adopt NAICS codes to determine size and small business concerns will accomplish the following:

- More modern and universal coding system for state certification program that is currently used by the federal and other state governments.
- A single system to be used for both the state and federal DBE certification programs, reducing confusion and conversion charts.
- Streamlining process and reducing application processing time for businesses and staff concerning small business concerns.
- Increasing the net number of certified firms because more businesses will qualify as small business concerns.
- Current federal DBE size standards already used as the working model.
- Staff already trained using the federal DBE model.

Proposal Changes the Following Existing Rules: The analysis to determine a small business concern will remain the same. The change will be come [coming] from changing the actual chart of size standards used to determine what consists the size limit: Changing from SIC codes to NAICS codes for the federal DBE program.

No small business economic impact statement has been prepared under chapter 19.85 RCW. There is no negative impact to small businesses by increasing the size standards for small business concerns for the state certification program.

RCW 34.05.328 does not apply to this rule adoption. RCW 34.05.328 (5)(b)(ii), rules relating only to internal governmental operations that are not subject to violation by a nongovernmental party; RCW 34.05.328 (5)(f), rules that set or adjust fees or rates pursuant to legislative standards; and RCW 34.05.328 (5)(g)(ii), a filing or related process requirement for applying to an agency for a license or permit.

Hearing Location: Seattle, U.S. Small Business Administration, 1200 Sixth Avenue, 17th Floor, Executive Conference Room, on February 11, 2004, at 10:00 a.m. - 1:00 p.m.; at Olympia, OMWBE, 406 South Water Street, Main Conference Room, on February 13, 2004, at 1:30 p.m. - 4:30 p.m.; at Olympia, OMWBE, 406 South Water Street, Main Conference Room, on February 17, 2004, at 5:30 p.m. - 8:30 p.m.; at Vancouver, Washington State Department of Transportation, Southwest Region, Room 124, 11018 N.E. 51st Circle, on February 23, 2004, at 3:00 p.m. - 6:00 p.m.; at Tacoma, Tacoma Housing Authority, 902 South "L" Street, on February 24, 2004, at 5:30 p.m. - 8:30 p.m.; and at Spokane, Business Information Center, U.S. Small Business Administration, 801 West Riverside, on March 2, 2004, at 1:30 p.m. - 4:30 p.m.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-092 Small business concern requirement. (1) In addition to meeting the ownership and control requirements of chapter 39.19 RCW and these regulations, a business must qualify as a small business concern to be eligible for certification or recertification.

(a) Except as otherwise provided in WAC 326-20-096 (for certain federal projects), a small business concern is a business which is independently owned and operated, is not dominant in its field of operations, and which does not exceed the size limitations as set forth in the current table of ~~((Standard Industrial Classification (SIC)))~~ North American Industrial Classification System (NAICS) codes and corresponding industry size standards as ((adopted by the United States Small Business Administration in Title 13 Code of Federal Regulations, Part 121, on file in the office)) set forth in 49 CFR Part 26 and amendments or inflationary adjustments thereof.

(b) The number of employees or amount of annual receipts listed as the size standard for each ~~((SIC))~~ NAICS code indicates the maximum allowed for a business (including its affiliates) to qualify as a small business concern.

(c) The office's determination of whether a business qualifies as a small business concern shall be, whenever possible, based on criteria that is consistent with the small business requirements defined under section 3 of the Small Business Act, 15 U.S.C. 632, and its implementing regulations, taking into consideration statewide markets.

(2) A business which exceeds the small business size limits after certification by the office shall be subject to ~~((decertification))~~ graduation.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-094 Assignment of ~~((standard industrial classification (SIC)))~~ North American Industrial Classification System (NAICS) code. (1) The office will determine which ~~((SIC))~~ NAICS code an applicant falls under based on information submitted by the business. The office will prepare conversion tables showing the department of general administration's commodity code designations, the codes developed by the Construction Specifications Institute, and the corresponding ((SIC)) NAICS codes listed in the directory of certified businesses as described in WAC 326-20-190.

(2) In the event the business plans to expand the areas in which it operates, it must notify the office in writing at least thirty calendar days before the effective date of such expansion.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-095 Determination of firm size. (1) At the time of application for certification and recertification, a business must demonstrate to the office that it is a small business concern. The office may verify that the business continues to be a small business concern, once certified, at any time. In verifying the ~~((applicant's))~~ business's size, the office will review ~~((the))~~ such financial documentation of the business as may be made available to the office; e.g., annual financial statements, federal income tax returns, state and/or local excise tax reports, and other relevant information.

(2) Affiliates. Except as otherwise provided in this chapter, businesses are affiliates of each other when either directly or indirectly:

(a) One controls or has power to control the other; or

(b) A third party or parties controls or has the power to control both; or

(c) Such an "identity of interest" exists between or among them that affiliation may be presumed.

(3) Annual receipts. Where the maximum size standard is set by reference to "annual receipts," a business that exceeds the annual receipts in that standard is not eligible for certification. Annual receipts includes all revenue in whatever form received or accrued from whatever source, including from the sales of products or services, interest, dividends, rents, royalties, fees, or commissions, reduced by returns and allowances. However, the term "receipts" excludes proceeds from sales of capital assets and investments, proceeds from transactions between a concern and its domestic and foreign affiliates, proceeds from payments of notes receivable and accounts receivable, and amounts collected as an agent for another, such as gross bookings on which a commission is earned (in which case only the commission earned would constitute revenue) or such as taxes collected for remittance to a taxing authority.

(4) Period of measurement.

(a) The size of a business that has completed three or more fiscal years will be determined by averaging the annual receipts of the business for each of the most recent three years.

(b) The size of a business that has completed less than three fiscal years will be determined by computing the average of the annual receipts from the time the business was formed as follows: Total revenues compiled over the period divided by the number of weeks, including fractions of a week, multiplied by fifty-two.

(d) Method of determining annual receipts. Revenue may be taken from the regular books of account of the concern. If the office so elects or the firm has not kept regular books of account or the Internal Revenue Service has found such records to be inadequate and has reconstructed income of the concern, then revenue as shown on the Federal Income Tax return of the concern may be used in determining annual

receipts along with other information the office deems relevant.

(4) Number of employees. Where the size standard is "number of employees" size eligibility requires that the concern may not exceed the number of employees in that standard.

(a) "Number of employees" means that average employment of the concern, including the employees of its domestic and foreign affiliates, based upon employment during each of the pay periods for the preceding completed twelve calendar months.

(b) In computing average employment, part-time and temporary employees are counted as full-time employees for each applicable pay period.

(c) If a concern has not been in business for twelve months, "number of employees" means the average employment of the concern, including its affiliates, during each of the pay periods during which it has been in business.

Reviser's note: The typographical errors in the above section occurred in the copy filed by the agency and appear in the Register pursuant to the requirements of RCW 34.08.040.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-096 Size standard. (1) No business, regardless of its primary ((SIC)) NAICS code, is eligible for certification if it exceeds the largest annual revenue limit contained in ((13 Code of Federal Regulations, Part 121, on file in the office)) 49 CFR Part 26 and any amendments or inflationary adjustments thereof.

Original Notice.

Preproposal statement of inquiry was filed as WSR 03-23-124.

Title of Rule: WAC 326-20-125 Processing fee.

Purpose: Change procedures for implementation of chapter 39.19 RCW related to the changing processing fees for new applications, recertification applications, and annual updates to be based upon legal organization structures of businesses and type of application.

Statutory Authority for Adoption: RCW 39.19.210.

Statute Being Implemented: Chapter 39.19 RCW.

Summary: The Office of Minority and Women's Business Enterprises (OMWBE) has the authority to increase fees in excess of the fiscal growth factor to offset the decrease in the office's revolving fund charges to state agencies. The current fee is a flat fee and makes no distinction about the type of application: New, recertification, or annual update. The current fee makes no distinction about the type and complexity of legal organizational structures of businesses and the amount of time it takes to make a determination of eligibility.

Reasons Supporting Proposal: OMWBE has the authority to increase fees in excess of the fiscal growth factor to offset the decrease in the office's revolving fund charges to state agencies. The proposed changes in processing fees will reflect the complexity of legal organizational structure, the level of review of a business, and the amount of time spent to determine eligibility by the office.

Name of Agency Personnel Responsible for Drafting: Vicky Schiantarelli, 406 South Water, P.O. Box 44160, Olympia, WA 98504-1160, (360) 704-1197; Implementation and Enforcement: Carolyn Crowson, 406 South Water, P.O. Box 44160, Olympia, WA 98504-1160, (360) 753-9679.

Current fees make no distinction about the type of application: New, recertifica-

PROPOSED

tion, or annual update. Current fees make no distinction about the type and complexity of legal organizational structures of businesses and the amount of time it takes to make a determination of eligibility. The proposed changes in processing fees will reflect the complexity of legal organizational structure, the level of review of a business, and the amount of time spent to determine eligibility by the office.

Proposal Changes the Following Existing Rules: Fees will increase, based upon legal organizational structures of the businesses applying and maintaining certification. The current fee is \$20. The proposed fees for state or state and federal certification for both new applications and recertification will be as follows:

Sole Proprietorship	Partnership	Corporation/ LLC/Other	Annual Updates
\$50	\$75	\$100	\$20

The proposed fees for federal certification only will be as follows:

	All Legal Organizational Structures
New applications and recertification	\$25
	\$20

No small business economic impact statement has been prepared under chapter 19.85 RCW. Certification is voluntary. Although the fees will be higher than before the rule change, the fee schedule is based upon the complexity of the applicant's legal organizational structure so that there will not be a disproportionately higher burden. There is no negative impact to small businesses in general.

PROPOSED RULES
OFFICE OF MINORITY AND
WOMEN'S BUSINESS ENTERPRISES
 [Filed January 5, 2004, 11:24 a.m.]

Original Notice.

Preproposal statement of inquiry was filed as WSR 03-23-122.

PROPOSED

Title of Rule: Addition of socially and economically disadvantaged business enterprises (SEDBE) to the state certification program.

Purpose: Add procedures for implementation of chapter 39.19 RCW related to the addition of SEDBE to the state certification program as requested by the 56th Legislature in Joint Memorial 8015. The addition allows the Office of Minority and Women's Business Enterprises (OMWBE) to include businesses that are owned and controlled by persons with disabilities to be certified without fiscal impact.

Statutory Authority for Adoption: RCW 39.19.210.

Statute Being Implemented: Chapter 39.19 RCW.

Summary: The OMWBE has the authority to include socially and economically disadvantaged individuals to the state certification program under chapter 39.19 RCW. Socially and economically disadvantaged includes persons with disabilities on a case-by-case basis. OMWBE does not currently have the authority to add persons with disabilities as a separate category without a statutory amendment and/or fiscal impact statement requesting additional funds and FTEs to make determinations of disability and complete a disparity study.

Reasons Supporting Proposal: By unanimous vote during 2000 regular session of the 56th Legislature, Joint Memorial 8015 of the house and senate passed, requesting the addition of socially and economically disadvantaged individuals be added to the state certification program.

Name of Agency Personnel Responsible for Drafting: Vicky Schiantarelli, 406 South Water, P.O. Box 44160, Olympia, WA 98504-1160, (360) 704-1197; **Implementation and Enforcement:** Carolyn Crowson, 406 South Water, P.O. Box 44160, Olympia, WA 98504-1160, (360) 753-9679.

Name of Proponent: Office of Minority and Women's Business Enterprises, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The legislature's targeted group to include in the state certification program is persons with disabilities. Currently, no information for this group of business owners is relatively available through the various state and federal agencies responsible to collect information about various small businesses. Therefore, in order for OMWBE to comply with the 56th Legislature's request to find a way to include businesses that are owned and controlled by persons with disabilities without creating a fiscal impact of dollars and FTEs, OMWBE proposed and the legislature supported in Joint Memorial 8015 to adopt the federal DBE designation of socially and economically disadvantaged, which includes persons with disabilities.

Adding this group designation accomplishes the following:

- No requirement of a fiscal note concerning cost impacts.
- No need for a disparity study.
- No increases in FTEs.
- Current federal DBE regulations used as the working model.
- Staff already trained using the DBE model.
- Increases the number of certified firms.

Proposal Changes the Following Existing Rules: An additional category of certification will be added to include persons with disabilities in the state certification program. OMWBE currently certifies socially and economically disadvantaged business enterprises for the United States Department of Transportation DBE program. OMWBE will essentially adopt the federal rules concerning socially and economically disadvantaged for the state certification program.

No small business economic impact statement has been prepared under chapter 19.85 RCW. There is no negative impact to small businesses by including socially and economically disadvantaged business enterprises to the state certification program.

RCW 34.05.328 does not apply to this rule adoption. RCW 34.05.328 (5)(b)(ii), rules relating only to internal governmental operations that are not subject to violation by a nongovernmental party; RCW 34.05.328 (5)(f), rules that set or adjust fees or rates pursuant to legislative standards; and RCW 34.05.328 (5)(g)(ii), a filing or related process requirement for applying to an agency for a license or permit.

Hearing Location: Seattle, U.S. Small Business Administration, 1200 Sixth Avenue, 17th Floor, Executive Conference Room, on February 11, 2004, at 10:00 a.m. - 1:00 p.m.; at Olympia, OMWBE, 406 South Water Street, Main Conference Room, on February 13, 2004, at 1:30 p.m. - 4:30 p.m.; at Olympia, OMWBE, 406 South Water Street, Main Conference Room, on February 17, 2004, at 5:30 p.m. - 8:30 p.m.; at Vancouver, Washington State Department of Transportation, Southwest Region, Room 124, 11018 N.E. 51st Circle, on February 23, 2004, at 3:00 p.m. - 6:00 p.m.; at Tacoma, Tacoma Housing Authority, 902 South "L" Street, on February 24, 2004, at 5:30 p.m. - 8:30 p.m.; and at Spokane, Business Information Center, U.S. Small Business Administration, 801 West Riverside, on March 2, 2004, at 1:30 p.m. - 4:30 p.m.

The first hour of each session is a "public information session." The OMWBE rule-making team will give a brief overview of the proposed rule and the public may ask questions of OMWBE rule-making team about the proposed rule during the "public information session." (1) The office is located at 406 South Water Street, Olympia, Washington 98504.

(2) The office consists of a director, ~~((deputy director,))~~ confidential secretary, support staff, and three divisions; certification, ~~((monitoring))~~ agency support and business development, and information services.

(3) The office provides the following services: Certification of businesses, monitoring agency/educational institution compliance with chapter 39.19 RCW and this title, publication of a list of certified businesses, identification of barriers

to participation by minority (~~and~~), women, and socially and economically disadvantaged-owned businesses in the contracting and procurement processes of state agencies and educational institutions, and development of a plan which ensures opportunities for qualified minority (~~and~~), women, and socially and economically disadvantaged-owned businesses to participate.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-010 In general. (1) Any business which meets the definition of a minority business enterprise, a women's business enterprise, a minority woman's business enterprise, or a combination minority and women's business enterprise, or socially and economically disadvantaged business enterprise, or corporate-sponsored dealership as set forth in this title, is eligible to be certified by the state of Washington.

(2) It is not the intent of the program to encourage the participation of businesses owned and controlled by minorities, and/or women, and/or socially and economically disadvantaged individuals, who have not encountered practices which prohibited or limited their access to contract opportunities, markets, financing, and other resources, based on their race, ethnic origin, or sex, or disability.

(3) Notwithstanding the provisions in subsection (1) of this section, to be eligible for certification, any business applying for certification shall have obtained all licenses necessary to lawfully conduct business in the state of Washington.

NEW SECTION

WAC 326-20-045 Proof of socially and economically disadvantaged status. The following guidance is adapted, with minor modifications, from the United States Small Business Administration's regulations concerning social and economic disadvantage determinations (see 13 CFR 124.103(c) and 124.104) and 49 CFR Part 26. Each nonpresumptive socially and economically disadvantaged owner of a business applying for certification shall submit with the application form the statement of personal net worth and social and economic disadvantage forms with documents which show that the owner is a socially and economically disadvantaged individual. The final determination will be in the sole discretion of the office.

NEW SECTION

WAC 326-20-046 Proof of social disadvantage. (1) Evidence of individual social disadvantage must include the following elements:

(a) At least one objective distinguishing feature that has contributed to social disadvantage, such as race, ethnic origin, gender, disability, long-term residence in an environment isolated from the mainstream of American society, or other similar causes not common to individuals who are not socially disadvantaged;

(b) Personal experiences of substantial and chronic social disadvantage in American society, not in other countries; and

(c) Negative impact on entry into or advancement in the business world because of the disadvantage. The office will consider any relevant evidence in assessing this element. In every case, however, the office will consider education, employment and business history, where applicable, to see if the totality of circumstances shows disadvantage in entering into or advancing in the business world.

(i) Education. The office will consider such factors as denial of equal access to institutions of higher education and vocational training, exclusion from social and professional association with students or teachers, denial of educational honors rightfully earned, and social patterns or pressures which discouraged the individual from pursuing a professional or business education.

(ii) Employment. The office will consider such factors as unequal treatment in hiring, promotions and other aspects of professional advancement, pay and fringe benefits, and other terms and conditions of employment; retaliatory or discriminatory behavior by an employer or labor union; and social patterns or pressures which have channeled the individual into nonprofessional or nonbusiness fields.

(iii) Business history. The office will consider such factors as unequal access to credit or capital, acquisition of credit or capital under commercially unfavorable circumstances, unequal treatment in opportunities for government contracts or other work, unequal treatment by potential customers and business associates, and exclusion from business or professional organizations.

(2) With respect to subsection (1) of this section, the office notes that people with disabilities have disproportionately low incomes and high rates of unemployment. Many physical and attitudinal barriers remain to their full participation in education, employment, and business opportunities available to the general public. The Americans with Disabilities Act (ADA) was passed in recognition of the discrimination faced by people with disabilities. It is plausible that many individuals with disabilities—especially persons with severe disabilities (e.g., significant mobility, vision, or hearing impairments)—may be socially and economically disadvantaged.

(3) Under the laws concerning social and economic disadvantage, people with disabilities are not a group presumed to be disadvantaged. Nevertheless, the office shall look carefully at individual showings of disadvantage by individuals with disabilities, making a case-by-case judgment about whether such an individual meets the criteria of this section. Subject to Title II of the ADA, the office must also ensure its SEDBE programs are accessible to individuals with disabilities. For example, physical barriers or the lack of application and information materials in accessible formats cannot be permitted to thwart the access of potential applicants to the certification process or other services made available to SEDBEs and applicants.

NEW SECTION**WAC 326-20-047 Proof of economic disadvantage.**

Evidence of individual social disadvantage must include the following elements:

(1) Submission of narrative and financial information.

(a) Each individual claiming economic disadvantage must describe the conditions, which are the basis for the claim in a narrative statement, and must submit personal financial information.

(b) When married, an individual claiming economic disadvantage also must submit separate financial information for his or her spouse, unless the individual and the spouse are legally separated.

(2) Factors to be considered. In considering diminished capital and credit opportunities, the office will examine factors relating to the personal financial condition of any individual claiming disadvantaged status, including personal income for the past two years (including bonuses and the value of company stock given in lieu of cash), personal net worth, and the fair market value of all assets, whether encumbered or not. The office will also consider the financial condition of the applicant compared to the financial profiles of small businesses in the same primary industry classification, or, if not available, in similar lines of business, which are not owned and controlled by socially and economically disadvantaged individuals in evaluating the individual's access to credit and capital. The financial profiles that the office will compare include total assets, net sales, pretax profit, sales/working capital ratio, and net worth.

(3) Transfers within two years.

(a) Except as set forth in (b) of this subsection, the office will attribute to an individual claiming disadvantaged status any assets which that individual has transferred to an immediate family member, or to a trust, a beneficiary of which is an immediate family member, for less than fair market value, within two years prior to a concern's application for participation in the program, unless the individual claiming disadvantaged status can demonstrate that the transfer is to or on behalf of an immediate family member for that individual's education, medical expenses, or some other form of essential support.

(b) The office will not attribute to an individual claiming disadvantaged status any assets transferred by that individual to an immediate family member that are consistent with the customary recognition of special occasions, such as birthdays, graduations, anniversaries, and retirements.

(c) In determining an individual's access to capital and credit, the office may consider any assets that the individual transferred within such two-year period described by (a) of this subsection that are not considered in evaluating the individual's assets and net worth (e.g., transfers to charities).

NEW SECTION**WAC 326-20-048 Presumption of disadvantage. (1)**

The office presumes that citizens of the United States or lawfully admitted permanent residents who are women, African Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, Subcontinent Asian Americans, or other minorities found to be disadvantaged by the program, are

socially and economically disadvantaged individuals. Applicants are required to submit a signed, notarized certification that each disadvantaged owner is, in fact, socially and economically disadvantaged.

(2)(a) The office requires each individual nonpresumptive socially and economically disadvantaged owner of a firm applying to participate as a SEDBE whose ownership and control are relied upon for SEDBE certification to submit a signed, notarized statement of personal net worth, with appropriate supporting documentation.

(b) In determining net worth, the office excludes an individual's ownership interest in the applicant firm and the individual's equity in his or her primary residence (except any portion of such equity that is attributable to excessive withdrawals from the applicant firm). A contingent liability does not reduce an individual's net worth.

(i) Rebuttal of disadvantage. If the statement of personal net worth that an individual submits under this section shows that the individual's personal net worth exceeds seven hundred fifty thousand dollars, the individual's economic disadvantage is rebutted. The office is not required to have a proceeding under this section in order to rebut the presumption of economic disadvantage in this case.

(ii) When an individual's social and/or economic disadvantage has been rebutted, his or her ownership and control of the firm in question cannot be used for purposes of SEDBE eligibility under this section unless and until he or she makes an individual showing of social and/or economic disadvantage. If the basis for rebutting a determination that the individual's personal net worth exceeds seven hundred fifty thousand dollars, the individual is no longer eligible for participation in the program and cannot regain eligibility by making an individual showing of disadvantage.

(3) Individual determinations of social and economic disadvantage. Firms owned and controlled by individuals who are not presumed to be socially and economically disadvantaged may apply for SEDBE certification. The office makes a case-by-case determination of whether each individual whose ownership and control are relied upon for SEDBE certification is socially and economically disadvantaged. In such a proceeding, the applicant firm has the burden of demonstrating to the office, by a preponderance of the evidence, that the individuals who own and control it are socially and economically disadvantaged. An individual whose personal net worth exceeds seven hundred fifty thousand dollars shall not be deemed to be economically disadvantaged. In making these determinations, the office uses the guidance found in 49 CFR Part 26, Appendix E. The office requires that applicants provide sufficient information to permit determinations under the guidance of 49 CFR Part 26, Appendix E.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-050 Proof of ownership of business. (1)

All minority ((~~or~~)), women, or socially and economically disadvantaged owners shall submit to the office proof of their ownership of the requisite percentage of the business at the time the application is submitted. Such proof shall consist of stock certificates, a notarized affidavit of stock ownership

from the corporate treasurer, a partnership agreement, ~~((and~~~~ed))~~ canceled check used to purchase ownership, or other recognized proof of ownership. The ownership shall be real, substantial, and continuing, shall go beyond the pro forma ownership of the business reflected in the ownership documents, and shall be based on the owner's capital contribution. The minority, and/or women, and/or socially and economically disadvantaged owner(s) shall enjoy the customary incidents of ownership and shall share in the risks and profits commensurate with their ownership interests, as demonstrated by an examination of the substance and the form of the arrangements.

(2) In cases of sole proprietorships or other cases where documentary proof of ownership is not available, the minority ~~((or)), women, or socially and economically disadvantaged~~ owners shall so advise the office, which may undertake further investigation. The office may also require documents showing how and when the minority ~~((or)), women, or socially and economically disadvantaged~~ owners' interest in the business was acquired.

(3) The office may, for any reason, require any minority ~~((or)), women, or socially and economically disadvantaged~~ owners to provide additional proof of, or information concerning, ownership. The office may request additional information regarding separate ownership of a business including, but not limited to, a separate property agreement.

(4) Ownership of a corporate-sponsored dealership shall be evaluated by using the following standards:

(a) The minority ~~((or)), women, or socially and economically disadvantaged~~ owner(s) have entered into a written agreement, contract, or arrangement with a national or regional corporation and has been granted a license to offer, sell, or distribute goods or services at wholesale or retail, leasing, or otherwise use the name, service mark, trademark, or related characteristics of the sponsoring corporation.

(b) The capital investment for the dealership or business is jointly contributed by the minority ~~((or)), women, or socially and economically disadvantaged~~ owner(s) and the sponsoring corporation.

(c) The original investment contributed by the minority ~~((or)), women, or socially and economically disadvantaged~~ owner(s) may be less than fifty-one percent, but must constitute at least twenty-five percent of the capitalization investment (total required equity capital) in the dealership corporation.

(d) A specified time limit of not more than ten years must be established, binding between the minority ~~((or)), women, or socially and economically disadvantaged~~ owner(s) and the sponsoring corporation, within which the buy-out of the corporate sponsor's interest shall be complete.

(e) The sponsoring corporation must have specifically developed a national or regional corporate sponsored dealership program which includes such features as capitalization assistance from the sponsoring corporation, on-going business operations training, technical assistance to the dealership owner, and a corporate sponsored minority ~~((and)), women((s)), and socially and economically disadvantaged individual's~~ business program.

(f) The minority ~~((or)), women, or socially and economically disadvantaged~~ owner(s) must demonstrate that the rela-

tionship between the corporate sponsor and the minority ~~((or)), women((s)), or socially and economically disadvantaged individual's~~ business was not formed for the primary purpose of achieving certification under chapter 39.19 RCW, or any similar provision of any ordinance, regulation, rule, or law.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-070 Counting ownership held in trust. In determining whether the fifty-one percent ownership requirement is met, no stock or ownership held in trust shall be counted, except in the following cases:

(1) Where both the trustee and the beneficiary are minorities, or both are women, or both are socially and economically disadvantaged individuals, and the trustee meets the control requirement; or

(2) Where the stock or ownership is held in an irrevocable trust for the benefit of a minority ~~((or)), a woman, or a socially and economically disadvantaged individual~~, and the minority ~~((or)), woman, or socially and economically disadvantaged~~ beneficiary meets the control requirement.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-080 Factors considered in determining control. (1) The minority ~~((or)), woman, or socially and economically disadvantaged~~ owner(s) must possess and exercise managerial and operational control over the day-to-day affairs of the business.

(a) Managerial control. The minority ~~((or)), woman, or socially and economically disadvantaged~~ owner(s) has the demonstrable ability to make independent and unilateral business decisions needed to guide the future and direction of the firm.

(b) Operational control. The minority ~~((or)), woman, or socially and economically disadvantaged~~ owner(s) has the demonstrable ability to independently make basic decisions pertaining to the daily operations of the business.

(2) Whether a minority ~~((or)), woman, or socially and economically disadvantaged~~ owner meets the control requirement is determined on an application-by-application basis. Office management, clerical, or other experience unrelated to the firm's field of operations, is insufficient to establish that the business is legitimately owned and controlled.

(3) Factors which may be considered in determining whether the minority ~~((or)), woman, or socially and economically disadvantaged~~ owner meets the control requirement include, but are not limited to, the following:

(a) Authority and restrictions as indicated in the articles of incorporation, bylaws, partnership agreements and/or other business agreements and documents;

(b) The financial interest and/or participation in any other business by any owner or key personnel;

(c) Past and current employment history of minority and women owners involved in the business;

(d) Members of the board of directors and corporate officers;

(e) Experience, training, and expertise of any owners and key personnel;

(f) Recent changes in ownership and/or control of the business;

(g) Financial obligation to and capital contributions from owners and nonowners of the business; and

(h) Documentation indicating who has ultimate authority to make policy and management decisions and to legally obligate the business.

(4) If persons who are not minorities ((~~or~~)), women, or socially and economically disadvantaged are disproportionately responsible for the operation of the business, then the business is not eligible for certification.

(5) The requirements of this section shall not apply, if the business qualifies as a corporate-sponsored dealership under the provisions of WAC 326-20-050(4). Control of a corporate-sponsored dealership will be evaluated using the following standards:

(a) If the sponsoring corporation retains majority voting rights and control of the board of directors, then the minority ((~~or~~)), women, or socially and economically disadvantaged owner(s) must annually apply at least fifty percent of the net profit and bonuses toward the buy-out of the corporate sponsors' interest within the buy-out time limit established with the corporation.

(b) The minority ((~~or~~)), women, or socially and economically disadvantaged owner(s) must show active participation in the decision-making process on the board of directors of the dealership.

(c) The minority ((~~or~~)), women, or socially and economically disadvantaged owner(s) must have and exercise managerial and operational control over the day-to-day management of the dealership, with responsibility for sales, service volume, and profits.

(d) The minority ((~~or~~)), women, or socially and economically disadvantaged owner(s) must have prior business or management experience relating to the business being entered into as an owner.

(e) The minority ((~~or~~)), women, or socially and economically disadvantaged owner(s) must be president of any corporation formed by the business.

AMENDATORY SECTION (Amending WSR 92-11-007, filed 5/11/92, effective 6/11/92)

WAC 326-20-110 Application process. (1) The office will develop and make available an application form for certification under chapter 39.19 RCW, and WAC 326-20-010. The application form may be modified at any time. The form will solicit enough information to determine whether the applicant is eligible for certification for state-funded projects and may include supplemental questions necessary to determine whether the applicant is eligible for certification for a specific federally-funded project. As part of its investigation, the office may require minority ((~~and~~)), women, and socially and economically disadvantaged owners to provide information in addition to that requested on the application forms.

(2) Where additional information is required from the applicant business to complete the investigation, the office may request the information in writing and may impose a

time limit of not more than twenty days in which the applicant must respond. The letter shall include notice to the applicant that, if the applicant fails to provide the information within the time requested, the file will be closed administratively. If all the requested information is not received by the office within the twenty days, the office may administratively close the file. The applicant will be notified in writing that the file has been administratively closed.

(3) Upon timely receipt of a written request for extension of the time to respond to the request for additional information, an extension of time to respond may be granted by the director. A showing of extenuating circumstances may be required, and granting of such request for extension is in the sole discretion of the director.

(4) Administrative closure means that the file is placed in inactive status, and further processing of the application is suspended. An applicant may petition the office for reopening or reactivation of the application file, by written request to the director. Requests to reopen will be granted in the sole discretion of the director. The applicant will be notified in writing of the director's decision to grant or deny the request to reactivate the file. If the request is denied, the applicant may submit a new application: Provided, That an applicant may not file more than one additional application within a year from the date of the closure. If the file is administratively reopened and processing resumed, the application will be processed as if it had been received on the date the request to reopen the file is granted by the director.

AMENDATORY SECTION (Amending Order 410, filed 2/22/02, effective 7/1/02)

WAC 230-30-072 Inventory control for punch boards and pull-tabs—Retention requirements—Audit adjustments. Each punch board and pull-tab series purchased or otherwise obtained by an operator shall be controlled and accounted for. Each operator shall closely monitor punch board and pull-tab series purchased to assure that Washington state identification and inspection service stamp numbers are correctly entered in all records and each device purchased is properly recorded. The following control procedures apply:

Delivery of new games.

(1) The delivery/receipt of punch boards and pull-tab series shall be recorded as follows:

Invoice record.

(a) All purchases of punch boards or pull-tab series shall be recorded on a standard distributor's invoice, which will be used by the operator as a record to account for the punch board or pull-tab series between the time it is purchased and removed from play. Each invoice shall include space for the operator to attach the records entry label from the device and the date the device was placed out for play: Provided, That in lieu of the distributor's invoice recording system, licensees utilizing a computerized recordkeeping system may use a

separate inventory record to account for purchases and uses of punch boards and pull-tabs as long as all necessary information is recorded. For these records, a computer generated facsimile of the stamp number may be imprinted on the inventory record in lieu of a records entry label.

Operator to review data and check ID stamps.

(b) At the time a punch board or pull-tab series is delivered, each operator will assure that all required data is correctly recorded by the distributor by comparing the actual Washington state identification and inspection services stamp number attached to each punch board and pull-tab series to the number recorded on the purchase invoice;

Invoice/inventory record - placing new games into play.

(2) At the time a punch board or pull-tab series is placed into play or permanently removed from play, each operator shall record in the allotted space on the distributor's invoice or the inventory record the following:

- (a) Date placed into play; and
- (b) Washington state identification and inspection services stamp number by attaching a records entry label.

Retention requirements.

(3) Each punch board or pull-tab series which is removed from play, together with the prize flare, all unplayed tabs, and all winning punches or tabs, shall be retained by the operator and made available for inspection, on the licensed premises, by commission agents and/or local law enforcement and taxing agencies. If devices are stored off premises, they must be produced for inspection upon demand. The minimum retention time for devices removed from play shall be:

Charitable.

(a) **Charitable or nonprofit licensees** - at least four months following the last day of the month in which the device was removed from play;

Commercial.

(b) **Commercial stimulant licensees** - at least two months following the last day of the month in which the device was removed from play: Provided, That the flare and all winning punches or pull-tabs in excess of twenty dollars shall be retained for at least ninety days following the day the device was removed from play: Provided further, That any commercial stimulant licensee who fails to comply with all recordkeeping requirements of this title or who misstates gross gambling receipts by more than one percent during any calendar quarter shall be required, after written notification by the director, to retain all devices for at least four months following the last day of the month in which it was removed from play. Any licensee so restricted may petition the director to remove the increased retention requirement imposed after a minimum of one year. Any such petition shall include documentation of the steps taken to correct recordkeeping deficiencies. For purposes of computing gross gambling receipts for determining compliance with the recording accuracy requirement, the procedures in subsection (6) of this section apply; and

Specially authorized games.

(c) **Specially authorized pull-tab series** may have retention requirements in addition to those set forth in subsections (a) and (b) of this section.

Storage requirements.

(4) Each punch board or pull-tab series which is not placed out for play must be retained on the licensed premises and made available for inspection by the commission and/or local law enforcement and taxing agencies: Provided, That devices may be stored off premises if they are produced for inspection upon demand;

Returning a game to the distributor or manufacturer.

(5) Each punch board or pull-tab series which has been placed out for play and is subsequently returned to a distributor or manufacturer is exempt from the retention requirements in subsection (3) of this section. The operator must retain a copy of the quality control report for the retention period normally applicable and must record each game on its monthly record required by WAC 230-08-010. If a device is returned to a distributor for any reason, including commission required recall, the operator shall record the date, invoice or credit memo number, and "returned" on the original purchase invoice or inventory record on the corresponding entry for the device;

Adjusting gross gambling receipts.

(6) For purposes of compliance with the requirements of this section and license class compliance, gross gambling receipts from the operation of punch boards and pull-tabs shall be adjusted for commission staff audit findings by using the following procedures:

(a) **Unrecorded devices** - gross gambling receipts shall be increased to account for any unrecorded devices purchased by an operator by adding the maximum amount that could be generated from the device, as determined by multiplying the total number of chances available by the price of a single chance. The adjustment shall be made to the records for the month in which the device was purchased; and

(b) **Recording errors** - gross gambling receipts shall be increased or decreased by an adjustment factor that is based upon the results of an audit of a sample of at least five devices randomly selected by the commission staff. The adjustment factor shall be determined by dividing the audited amount for the sample group of devices by the recorded amount for the same devices. The resulting product of this equation shall be applied to the total recorded gross gambling receipts for the calendar quarter from which the sample was taken and to the immediately preceding three quarters.

Summary: To clarify and change WCCC rules and add new rules. The rules will have an impact on the following areas: Consumer eligibility, qualified providers clients must use to remain eligible, rates, copayments, client responsibilities, and reapplication procedures.

Reasons Supporting Proposal: The proposed rules will help the department address budget issues and the health and safety of children.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Lisa Lind, Division of Child Care and Early Learning, (360) 413-3032.

Name of Proponent: Department of Social and Health Services, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: See Purpose, Summary, and Reasons Supporting Proposal above.

The changes in chapter 388-290 WAC will clarify for consumers what income and activities they need to meet in order to become eligible for WCCC. The changes also address family compositions more completely in relation to the second parent activity and eligibility.

Other changes relate to an increase in consumer copayments, removal of some payments for WCCC services, detailed explanation of payments for children with special needs care, and in-home/relative care requirements. These changes should assist in budget issues and assist in determining correct payment and qualified providers' clients must use to remain eligible for WCCC.

Some WAC were separated into two or more new WAC for clarity, such as "rights and responsibilities for consumers" was separated from one to two sections. New WAC are added to assist workers and consumers understand the pro-

cess more fully, such as, what do consumers verify and what happens when a denial letter is sent.

Proposal Changes the Following Existing Rules: Changes were made in consumer eligibility (activities and income), copayments, payments for WCCC services in-home/relative eligibility, consumer rights and responsibilities, overpayments and the definition of family size.

No small business economic impact statement has been prepared under chapter 19.85 RCW. This rule does not impose more than minor costs to small business.

RCW 34.05.328 does not apply to this rule adoption. Proposed WAC 388-290-0005 through 388-290-0125, 388-290-255, 388-290-270 and 388-290-271 relate to client financial eligibility for WCCC services, and are exempt from preparing a cost benefit analysis under RCW 34.05.328 (5)(b)(vii), which states in part: "This section does not apply to... rules of the department of social and health services relating to client medical and financial eligibility."

Proposed WAC 388-290-0130 through 388-290-0247 and 388-290-273 do not meet the definition of significant legislative rules. Proposed rules clarify existing background check requirements for WCCC providers, clarify existing provider documentation requirements for receiving WCCC payment rates, and make other changes to clarify the language of the rules.

Proposed WAC 388-290-260 and 388-290-265 concerning hearing procedures are "procedural rules" under RCW 34.05.328 (5)(c)(i), and do not meet the definition of significant legislative rules.

AMENDATORY SECTION (Amending WSR 00-15-018, filed 7/10/00, effective 9/1/00)

WAC 388-448-0001 (~~Establishing~~) **What are the incapacity requirements for general assistance (~~unemployable~~)?** For the purposes of this chapter, "we" and "us" refer to the department of social and health services. "You" means the applicant or recipient. (~~In order~~) "GA" means the general assistance program. For you to receive general assistance (~~unemployable (GAU)~~) (GA) program benefits, we must (~~first~~) determine (~~if~~) you are incapacitated.

"Incapacitated" means that you cannot be gainfully employed as a result of a physical or mental impairment that is expected to continue for at least ninety days from the date you apply.

"Physical impairment" means a diagnosable physical illness. "Mental impairment" means a diagnosable mental disorder. We exclude any diagnosis of or related to alcohol or drug abuse or addiction.

(1) We determine you are incapacitated if you are:

(a) Eligible for payments based on Social Security Administration (SSA) disability criteria;

(b) Eligible for services from the division of developmental disabilities (DDD);

(c) Diagnosed as (~~mentally-retarded~~) having mental retardation based on a full scale score of seventy or lower on the Wechsler adult intelligence scale (WAIS);

(d) At least (~~sixty-five~~) sixty-four years old and seven months;

(e) Eligible for long-term care services from aging and (~~adult~~) disability services administration; or

(f) Approved (~~by~~) through the progressive evaluation process (PEP).

(2) We consider you to be incapacitated for ninety days (~~following your release from:~~

(a) ~~An inpatient psychiatric treatment facility if:~~

(i) ~~You directly participate in outpatient mental health treatment; and~~

(ii) ~~The release from in-patient treatment was not against medical advice)~~ after:

(a) You are released from inpatient treatment for a mental impairment if:

(i) The release from inpatient treatment was not against medical advice; and

(ii) There is no break in your participation between inpatient and outpatient treatment of your mental impairment.

(b) You are released from a medical institution where you received long-term care services from the aging and (~~adult~~) disability services administration.

(c) The Social Security Administration stops your Supplemental Security Income payments because you are not a citizen.

AMENDATORY SECTION (Amending WSR 00-16-113, filed 8/2/00, effective 9/1/00)

WAC 388-448-0010 How do we decide if you are incapacitated(=)? When you apply for ~~((general assistance unemployable-(GAU)))~~ GA program benefits, you must provide medical evidence to us to show that you are unable to work. ~~((If we say that you are "incapacitated," it means that you are incapable of gainful employment as a result of a physical or mental impairment that is expected to continue for ninety days or more from the date of application.~~

~~(1))~~ If you are gainfully employed at the time of your application for ~~((GAU))~~ GA, we deny incapacity. ~~((("Perform") "Gainful employment" means you ((can perform)) are performing, in a regular and predictable manner, an activity usually done for pay or profit.~~

(1) We do not consider work to be gainful employment when you are working:

(a) ~~((Working))~~ Under special conditions~~((,-like))~~ that go beyond the employer providing reasonable accommodation, such as in a sheltered workshop we have approved; or

(b) ~~((Working))~~ Occasionally or part-time ~~((if your medical condition))~~ because your impairment limits the hours you ~~((can))~~ are able to work compared to unimpaired workers in the same job as verified by your employer.

(2) We decide if you are ~~((able to perform gainful employment))~~ incapacitated when:

(a) ~~((We receive an application for))~~ You apply for GA benefits. We may waive this decision if ~~((medical documentation requirements are waived under))~~ we use the criteria in WAC 388-448-0001 except the PEP to determine you are incapacitated;

(b) You become employed; ~~((or))~~

(c) You obtain work skills by completing a training program; or

(d) We get new information that indicates you may be employable.

(3) Unless ~~((medical documentation requirements are waived under))~~ you meet the other incapacity criteria in WAC 388-448-0001, we ~~((determine if incapacity exists using the progressive evaluation process-(PEP). When we receive your medical evidence, we use the PEP to decide if there is a medical impairment that prevents you from being gainfully employed. The PEP is a sequence of seven steps))~~ decide incapacity by applying the progressive evaluation process (PEP) to the medical evidence that you provide that meets WAC 388-448-0030. The PEP is the sequence of seven steps described in WAC 388-448-0035 through 388-448-0110.

(4) You are not eligible for ~~((GAU))~~ GA benefits if you are incapacitated only because of alcoholism or drug addiction. If you have a physical or mental impairment and you are impaired by alcohol or drug addiction, we decide if you are eligible for general assistance. If you qualify for both ~~((GAU))~~ GA and the ADATSA Shelter program, you may choose either program.

(5) In determining incapacity, we consider only your ability to perform basic work-related activities. "Basic work-related activities" are activities that anyone would be required to perform in a work setting. They consist of: Sitting, standing, walking, lifting, carrying, handling, seeing, hearing, communicating, and understanding and following instructions.

Medical evidence provides us with the details of your impairment and how it affects your ability to be gainfully employed. AMENDATORY SECTION (Amending WSR 00-22-064, filed 10/27/00, effective 12/1/00)

WAC 388-436-0002 If my family has an emergency, can I get help from DSHS to get or keep our housing or utilities? DSHS has a program called additional requirements for emergent needs (AREN). If your family has an emergency and you need ~~((a one-time cash payment))~~ assistance to get or keep safe housing or utilities, you may be eli-

PROPOSED

gible. The special AREN payment is in addition to the regular monthly cash grant your family may already get.

(1) To get AREN, you must:

(a) Be eligible for temporary assistance for needy families (TANF), state family assistance (SFA), or refugee cash assistance (RCA);

(b) Have an emergency housing or utility need; and

(c) Have a good reason that you do not have enough money to pay your housing or utility costs.

(2) To get AREN, you must be eligible for TANF, SFA, or RCA. This means you must:

(a) Get benefits through TANF, SFA, or RCA. For RCA you must also be pregnant or have an eligible child; or

(b) Apply for TANF, SFA, and RCA, and meet all eligibility criteria including:

(i) The maximum earned income limit under WAC 388-478-0035;

(ii) The requirement that your unearned income not exceed the grant payment standard;

(iii) The requirement that your countable income as defined under WAC 388-450-0162 must be below the payment standard in WAC 388-478-0020 when you have both earned income and unearned income;

(iv) The resource limits under chapter 388-470 WAC;

(v) The program summary rules for either TANF (WAC 388-400-0005); SFA (WAC 388-400-0010); or RCA (WAC 388-400-0030); and

(vi) The requirement that you must be pregnant or have an eligible child.

(3) If you do not get or do not want to get TANF, SFA or RCA, you cannot get AREN to help with ~~((one-time))~~ housing or utility costs. We will look to see if you are eligible for diversion cash assistance (DCA) under WAC 388-432-0005.

(4) To get AREN, you must have an emergency housing or utility need. You may get AREN to help pay to:

(a) Prevent eviction or foreclosure;

(b) Get housing if you are homeless or need to leave your home because of domestic violence;

(c) Hook up or prevent a shut off of utilities related to your health and safety. We consider the following utilities to be needed for health and safety:

(i) Electricity or fuel for heating, lighting, or cooking;

(ii) Water;

(iii) Sewer; and

(iv) Basic local telephone service if it is necessary for your basic health and safety. If you receive TANF or SFA, the Washington telephone assistance program (WTAP) may be used to help you pay for basic local telephone service.

(d) Repair damage or defect to your home when it causes a risk to your health or safety:

(i) If you own the home, we may approve AREN for the least expensive method of ending the risk to your health or safety;

(ii) If you do not own the home, you must ask the landlord in writing to fix the damage according to the Residential Landlord-Tenant Act at chapter 59.18 RCW. If the landlord refuses to fix the damage or defect, we may pay for the repair or pay to move you to a different place whichever cost is lower.

(e) If you receive TANF or SFA, WorkFirst support services under WAC 388-310-0800 may be used to help you relocate to new housing to get a job, keep a job, or participate in WorkFirst activities. Nonhousing expenses~~((;))~~ that are not covered under AREN~~((;))~~ may be paid under WorkFirst support services. This includes expenses such as car repair, diapers, or clothing.

(5) To get AREN, you must have a good reason for not having enough money to pay for your housing or utility costs. You must prove that you:

(a) Did not have money available that you normally use to pay your rent and utilities due to an emergency situation that reduced your income (such as a long-term illness or injury);

(b) Had to use your money to pay for necessary or emergency expenses. Examples of necessary or emergency expenses include:

(i) Basic health and safety needs for shelter, food and clothing;

(ii) Medical care;

(iii) Dental care needed to get a job or because of pain;

(iv) Emergency child care;

(v) Emergency expenses due to a natural disaster, accident, or injury; and

(vi) Other reasonable and necessary expenses.

(c) Are currently homeless; or

(d) Had your family's cash grant reduced or suspended when we budgeted your expected income for the month, but the income will not be available to pay for the need when the payment is due. You must make attempts to negotiate later payments with your landlord or utility company before you can get AREN.

(6) In addition to having a good reason for not having enough money to pay for your costs, you must also explain how you will afford to pay for the on-going need in the future. We may deny AREN if your expenses exceed your income (if you are living beyond your means). We may approve AREN to help you get into housing you can afford.

(7) If you meet the above requirements, we decide the amount we will pay based on the following criteria.

(a) AREN payments may be made up to a maximum of ~~((fifteen hundred dollars))~~ seven hundred fifty dollars in a consecutive twelve-month period.

(b) ~~((We can make the payment all at once or as separate payments over a thirty day period. The thirty day period starts with the date of the first payment))~~ The number of AREN payments you can receive in a twelve-month period is not limited, as long as the total amount does not exceed seven hundred fifty dollars.

(c) The department may approve an AREN payment above the seven hundred fifty dollar maximum for health and safety reasons.

(d) The amount of AREN is in addition to the amount of your monthly TANF, SFA, or RCA cash grant.

~~((+))~~ (e) We will decide the lowest amount we must pay to end your housing or utility emergency. We will contact your landlord, utility company, or other vendor for information to make this decision. We may take any of the following steps when deciding the lowest amount to pay:

(i) We may ask you to arrange a payment plan with your landlord or utility company. This could include us making a partial payment, and you setting up a plan for you to repay the remaining amount you owe over a period of time.

(ii) We may have you use some of the money you have available in cash, checking, or savings to help pay for the expense. We will look at the money you have available as well as your bills when we decide how much we will pay.

(iii) We may consider income that is excluded or disregarded for cash assistance benefit calculations, such as SSI, as available to meet your emergency housing need.

(iv) We may consider money other individuals such as family or friends voluntarily give you. We will not count loans of money that you must repay to friends or family members.

(v) We may consider money from a nonneedy caretaker relative that lives in the home.

(vi) We may look at what other community resources you currently have to help you with your need.

~~(((8) Starting August 1, 2000, your family can get AREN for your emergency housing or utility needs for one thirty-day period every twelve months:~~

~~(a) The thirty day period starts on the date we issue your first AREN payment and lasts thirty consecutive days.~~

~~(b) The twelve month period starts the month we issued your first AREN payment. The next time you could be eligible for AREN is the first day of the twelfth month after we issued the first AREN payment. For example, if we issued you AREN on January 15th, you could be eligible again on the first of January the next year.~~

~~(e)) (f) The seven hundred fifty dollar limit ((ef one thirty day period)) every twelve months applies to the following people even if they leave the assistance unit:~~

(i) Adults; and

(ii) Minor parents that get AREN when no adults are in the assistance unit.

~~(((d) We do not look at AREN benefits you received before August 1, 2000 when we look to see if you received AREN in the last twelve months:~~

~~(9)) (8) We pay AREN:~~

(a) Directly to the landlord, mortgage company, utility, or other vendor whenever we can.

(b) If we cannot pay AREN directly to the landlord or other vendor, we will issue the AREN as a part of your TANF, SFA, or RCA cash grant. If we issue the AREN as a part of your grant, you must use it for your emergency need.

~~(((10)) (9) We may assign you a protective payee for your monthly grant under WAC ((388-265-1250)) 388-460-0020.~~

WITHDRAWAL OF PROPOSED RULES

DEPARTMENT OF HEALTH

[Filed January 7, 2004, 10:23 a.m.]

This memo serves as notice that the department is withdrawing the CR-105 for chapter 246-50 WAC, Coordinated quality improvement program. The department filed the proposal November 19, 2003, which was published as WSR 03-23-135 in the Washington State Register. The original proposal incorporated most of the language and intent of the original chapter, and improved clarification and updated the language to reflect current statute. Since the filing of WSR 03-23-135, the department received requests for additional amendments, and has recently become aware of potential legislation that may require additional rule making. For these reasons, the department is withdrawing this proposal, and will reexamine the rules after the 2004 legislative session.

Individuals requiring information on this rule should contact Patti Rathbun, Office of Legislation, Policy, and Constituent Relations at (360) 236-4627.

AMENDATORY SECTION (Amending WSR 03-21-028, filed 10/7/03, effective 11/1/03)

WAC 388-418-0005 What type of changes must I report for cash, Basic Food, and medical assistance? For purposes of this section, an "assistance unit" or "AU" is a group of people who live together and whose income or resources we count to decide what benefits the AU gets. Even if someone in your AU is not eligible to get a benefit, we still count that person's income or resources if they are financially responsible for you or someone in your AU, such as a common child. If you are a parent of a child who gets long-term care benefits, you need only report changes in income or resources that are actually contributed to the child. Tables one, two and three below show the types of changes you must report based on the type of assistance you get. Use table one to see if you must report a change for cash or Basic Food. Use table two to see if you must report a change for children's, pregnant women's, or family medical assistance. Use table three to see if you must report a change for SSI-related medical or long-term care medical assistance.

EMERGENCY ACTIONS

NEW SECTION

WAC 148-120-400 Emergency expulsion — Limitations. Notwithstanding any other provision of this chapter, a student may be expelled immediately by the superintendent or a designee of the superintendent in emergency situations: Provided, That the superintendent or designee has good and sufficient reason to believe that the student's presence poses

PERMANENT

an immediate and continuing danger to the student, other students, or school personnel or an immediate and continuing threat of substantial disruption of the educational process. An emergency expulsion shall continue until rescinded by the superintendent or his or her designee, or until modified or reversed pursuant to the hearing provisions set forth in WAC 148-120-410 or the appeal provisions set forth in WAC 148-120-415.

NEW SECTION

WAC 148-120-405 Emergency expulsion — Notice of hearing — Waiver of hearing right. (1) The student and his or her parent(s) or guardian(s) shall be notified of the emergency expulsion of the student and of their opportunity for a hearing either (a) by hand delivering written notice to the student's parent(s) or guardian(s) within twenty-four hours of the expulsion and documenting delivery by obtaining his or her signature acknowledging receipt or the written certification of the person making the delivery, or (b) by certified letter(s) deposited in the United States mail, within twenty-four hours of the expulsion: Provided, That if the emergency expulsion is based upon a failure to comply with the state immunization law (see chapter 180-38 WAC), the notice must be received by the student's parent(s) or guardian(s) prior to the emergency expulsion of the student regardless of the method of delivery. In addition, if the notice is by certified letter, reasonable attempts shall be made to notify the student and his or her parent(s) or guardian(s) by telephone or in person as soon as reasonably possible. Such written and oral notice shall:

(a) Be provided in the predominant language of a student and/or a parent(s) or guardian(s) who predominantly speak a language other than English, to the extent feasible,

(b) Specify the alleged reason(s) for the emergency expulsion,

(c) Set forth the corrective action or punishment taken and proposed,

(d) Set forth the right of the student and/or his or her parent(s) or guardian(s) to a hearing for the purpose of contesting the allegation(s) as soon as reasonably possible, and

(e) Set forth the facts that:

(i) A written (or "oral" if provided for by school policy) request for a hearing must be received by the school employee designated, or by his or her office, on or before the expiration of the tenth school business day after receipt of the notice of opportunity for a hearing, and

(ii) If such a request is not received within the prescribed period of time, then the right to a hearing may be deemed to have been waived and the emergency expulsion may be continued as deemed necessary by the school without any further opportunity for the student or his or her parent(s) or guardian(s) to contest the matter. A schedule of "school business days" potentially applicable to the exercise of such hearing right should be included with the notice.

(2) The student and/or his or her parent(s) or guardian(s) shall reply to the notice of opportunity for a hearing and request a hearing within ten school business days after the date of receipt of the notice. A request for a hearing shall be provided to the school employee specified in the notice of

opportunity for a hearing, or to his or her office. A request for a hearing shall be accepted if in writing and may be accepted orally if expressly provided for and allowed by rule of the school.

(3) If a request for a hearing is not received within the required ten school business day period, the school may deem the student and his or her parent(s) or guardian(s) to have waived the right to a hearing and the emergency expulsion may be continued as deemed necessary by the school district.

NEW SECTION

WAC 148-120-410 Emergency expulsion — Prehearing and hearing process. (1) If a request for a hearing within the required ten school business days is received pursuant to WAC 148-120-405, the school shall immediately schedule and give notice of a hearing to commence as soon as reasonably possible and in no case later than the third school business day after receipt of the request for hearing.

(2) The student and his or her parent(s) or guardian(s) shall have the right to:

(a) Inspect in advance of the hearing any documentary and other physical evidence which the school district intends to introduce at the hearing,

(b) Be represented by legal counsel,

(c) Question and confront witnesses, unless a school witness does not appear and the nonappearance of the witness is excused by the person(s) hearing the case based upon evidence of good reason for doing so submitted by the school. The evidence submitted by the school must at a minimum establish either:

(i) That the school made a reasonable effort to produce the witness and is unable to do so; or,

(ii) That it is not advisable for the student to appear due to an expectation and fear on the part of the responsible school official(s) or the student of retaliation against the student if he or she appears as a witness,

(d) Present his or her explanation of the alleged misconduct, and

(e) Make such relevant showings by way of witnesses and the introduction of documentary and other physical evidence as he or she desires.

(3) The designee(s) of the school assigned to present the school's case and/or the assistant attorney general shall have the right to inspect in advance of the hearing any documentary and other physical evidence that the student and his or her parent(s) or guardian(s) intend to introduce at the hearing.

(4) The person(s) hearing the case shall not be a witness and the guilt or innocence of the student shall be determined solely on the basis of the evidence presented at the hearing.

(5) Either a tape-recorded or verbatim record of the hearing shall be made.

(6) Within one school business day after the date upon which the hearing concludes, a decision as to whether or not the expulsion shall be continued shall be rendered, and the student's legal counsel or, if none, the student and his or her parent(s) or guardian(s) shall be notified thereof by depositing a certified letter in the United States mail. The decision shall set forth the findings of fact, the conclusions (including a conclusion as to whether or not the emergency situation

giving rise to the emergency expulsion continues), and whether or not the emergency expulsion shall be continued or a lesser form of corrective action or punishment is to be imposed.

(7) An emergency expulsion may be continued following the hearing on the basis that the emergency situation continues and/or as corrective action or punishment for the action(s) giving rise to the emergency expulsion in the first instance.

NEW SECTION

WAC 148-120-415 Appeals — Long-term suspension and expulsion. Appeals from decisions rendered pursuant to WAC 148-120-236 and 148-120-410 which impose either a long-term suspension or an expulsion upon a student shall be governed as follows:

(1) Appeals may be heard and decided by a disciplinary appeal council established by the Board. The disciplinary appeal council shall be appointed by the school board of trustees for fixed terms and shall consist of not less than three persons.

(2) If an appeal is not taken to the disciplinary appeal council within the required three school business day period, the suspension or expulsion decided upon may be imposed as of the calendar day following expiration of the three school business day period.

(3) If a timely appeal is taken to the disciplinary appeal council, the suspension or expulsion may be imposed during the appeal period subject to the following conditions and limitations:

(a) A long-term suspension or nonemergency expulsion may be imposed during the appeal period for no more than ten consecutive school days or until the appeal is decided, whichever is the shortest period;

(b) An emergency expulsion may be continued during the appeal period for so long as the student continues to pose an immediate and continuing danger to the student, other students, or school personnel or an immediate and continuing threat of substantial disruption of the educational process of the student's school;

(c) Any days that a student is temporarily suspended or expelled before the appeal is decided shall be applied to the term of the student's suspension or expulsion and shall not limit or extend the term of the student's suspension or expulsion; and

(d) Any student subjected to a temporary suspension who returns to school before the appeal is decided shall be provided the opportunity upon his or her return to make up assignments and tests missed by reason of the suspension if:

(i) Such assignments or tests have a substantial effect upon the student's semester or trimester grade or grades; or

(ii) Failure to complete such assignments or tests would preclude the student from receiving credit for the course or courses.

(4) An appeal from any decision of the disciplinary appeal council to impose or to affirm the imposition of a long-term suspension or an expulsion shall be to the courts. Whether or not the decision of the disciplinary appeal council shall be postponed pending an appeal to superior court shall

be discretionary with the school board or disciplinary appeal council except as ordered otherwise by a court.

Date of Adoption: January 5, 2004.

Purpose: WAC 296-62-300 Hazardous waste operations and treatment, storage and disposal facilities and chapter 296-843 WAC, Hazardous waste operations.

The hazardous waste operations rule was rewritten and reorganized for clarity and ease of use for employers and employees. The rule was also revised to require refresher training for supervisors and medical surveillance for employees who wear respirators for thirty or more days a year because these requirements were found to be not at-least-as-effective as federal requirements.

Citation of Existing Rules Affected by this Order: Amending WAC 296-62-300 Hazardous waste operations and treatment, storage and disposal facilities.

Statutory Authority for Adoption: RCW 49.17.010, 49.17.040, 49.17.050, and 49.17.060.

Adopted under notice filed as WSR 03-14-074 on June 27, 2003.

Changes Other than Editing from Proposed to Adopted Version: WAC 296-843-100 Scope, revised to better clarify when the rule applies to corrective actions at sites involving cleanup operations covered by the Resource Conservation and Recovery Act (RCRA) of 1976.

WAC 296-843-14005 Establish site control, revised Table 1, Site Work Zone Requirements, to clarify intent.

WAC 296-843-300 Definitions, revised the definition of hazardous waste site and uncontrolled hazardous waste site; and added the definition of uncontrolled release.

Additionally, housekeeping, typographical, and formatting changes have been made to enhance clarity. Changes did not increase requirements.

WAC 296-843-18020.

IMPORTANT:

• Containers or drums containing shock-sensitive (explosive) or potentially shock-sensitive wastes require special handling precautions.

• Handle, transport, label, and dispose of drums and containers according to this chapter and other United States Department of Transportation (DOT), WISHA, EPA, and Washington department of ecology regulations for:

- Drums.
- Containers.
- Hazardous substances.
- Contaminated soils.
- Liquids, and other residues.

NEW SECTION

WAC 296-843-18005 Handle drums and containers safely.

Preparation for moving drums and containers:**You must:**

- Assess hazards to employees, such as radioactive waste, before handling drums and containers.
- Consider unlabeled drums and containers to contain hazardous substances and handle them accordingly, until the contents are positively identified, labeled, and assessed for hazards.
- Inspect and make sure drums and containers are sound before moving them.
 - If it is not practical to inspect drums without moving them, move drums and containers to an accessible location and inspect prior to further handling.
- Remove soil or other materials covering drums or containers with caution to prevent rupture.
- Use ground-penetrating systems or other types of detection systems or devices to estimate the location and depth of buried drums or containers.
- Use the sampling plan and procedures included in the site-specific HASP to sample the contents of containers and drums.

Moving drums and containers:**You must:**

- Warn all employees exposed to drum movement operations about the potential hazards associated with the contents of the drums or containers prior to moving them.
- Minimize movement of drums or containers.
- Select, position, and operate tools and material handling equipment to prevent the ignition of flammable vapors.

- Handle tanks and vaults containing hazardous substances with the same precautions as for drums and containers, taking into account the size of tank or vault.

Handling spills and leaks:**You must:**

- Contain and isolate the entire volume of a hazardous substance in a drum or container when a spill occurs.
- Have available and use both of the following in areas where spills, leaks, or ruptures may occur:
 - United States Department of Transportation (DOT) specified salvage drums or containers.
 - Suitable quantities of proper absorbent materials.
- Empty drums and containers, that cannot be moved without rupturing, leaking, or spilling, into a sound container.
 - Use a pump or other device classified for the material being transferred.
- Have fire-extinguishing equipment on-hand to control fires in their initial stage.

Reference: For further information, see the safety and health core rules, WAC 296-800-300, Portable fire extinguishers.

NEW SECTION

WAC 296-843-18010 Handle drums and containers suspected of containing shock-sensitive (explosive) wastes safely.

You must:

- Allow only essential employees in the transfer area.
- Communicate as follows:
 - Signal the beginning and end of shock-sensitive (explosive) waste handling activities with an alarm system that is capable of being perceived above background light and noise.
 - Maintain continuous communications throughout the handling operation:
 - Between the employee-in-charge of the immediate handling area AND the site safety and health supervisor AND the command post.
 - Using portable radios, hand signals, or telephones, as appropriate.
 - Prevent the use of communication equipment or methods that could cause shock-sensitive (explosive) materials to explode.
- Provide material handling equipment with explosive containment devices or shields to protect equipment operators from exploding containers.
- Do not move bulging or swollen drums or containers until the cause for excess pressure is determined and you can move the drum or container safely.
- Consider packaged laboratory wastes or laboratory waste packs shock-sensitive or explosive until the contents have been characterized.
 - Make sure laboratory waste packs are opened only:
 - When necessary.
 - By a person knowledgeable in the inspection, classification, and segregation of the containers within the pack.

NEW SECTION

WAC 296-843-18015 Maintain worker safety in drum and container opening areas.

You must:

- Keep employees who are not involved in opening drums or containers a safe distance from the opening area.
- Use appropriate shielding between the employee and the drums or containers, when excess interior pressure cannot be relieved from a remote location.
- Provide an explosion-resistant barrier that does not interfere with the work to protect employees working near or adjacent to drum or container opening operations from accidental explosions.
- Position controls for drum or container opening equipment, monitoring equipment, and fire suppression equipment behind the explosion-resistant barrier. Prohibit employees from standing on or working from drums or containers.

Reference: The shipment of shock-sensitive (explosive) waste may be prohibited under United States Department of Transportation (DOT) regulations. You and your shipper should refer to title 49 CFR.

NEW SECTION

- (2) Provide staging areas:
 - Each staging area must have adequate entry and exit routes.
 - The number of drum or container staging areas must be kept to the minimum needed to identify and classify materials safely and prepare them for transport.
- (3) Permit bulking of hazardous wastes only after a thorough characterization of the wastes has been completed.

Note: Handle, transport, label, and dispose of drums and containers according to this chapter and other United States Department of Transportation (DOT), WISHA, EPA, and Washington department of ecology regulations for:

NEW SECTION

WAC 296-843-300 Definitions.

Buddy system

A system of organizing employees into work groups so that each employee is assigned to observe another employee in the same work group. The purpose of this system is to provide rapid assistance to employees in the event of an emergency.

Clean-up operation

An operation where hazardous substances are removed, contained, incinerated, neutralized, stabilized, cleared-up, or in any other manner processed or handled with the goal of making the site safer for people or the environment.

Contamination reduction zone

The buffer zone between the exclusion and the clean zone.

Decontamination

The removal of hazardous substances from employees and equipment, to the extent necessary, to avoid foreseeable adverse health effects.

Emergency response or responding to emergencies

An organized response to an anticipated release of a hazardous substance that is, or could become, an uncontrolled release.

Exclusion zone

A controlled area at a site, where contamination occurs, that is a risk to human health or the environment.

Exposure or exposed

Employee contact with a toxic substance, harmful physical agent, or oxygen deficient condition. Exposure can occur through various routes of entry, such as inhalation, ingestion, skin contact, or skin absorption.

Facility

Any building structure, installation, equipment, pipe, or pipeline (including any pipe into a sewer or publicly owned treatment works), well, pit, pond, lagoon, impoundment,

ditch, storage container, motor vehicle, rolling stock, or aircraft;

OR

Any site or area where a hazardous substance has been deposited, stored, disposed of, placed, or otherwise located (not including any boat, ship or barge).

Hazardous substance

Any of the following substances that could adversely affect an exposed employee's health or safety:

- Substances defined under section 101(14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) or "Superfund" Act (found at: <http://www.epa.gov>).

- Biological or other disease-causing agents released that could reasonably be expected to cause death, disease, behavioral abnormalities, cancer, genetic mutation, physiological malfunctions, including malfunctions in reproduction, or physical deformations in a person or their offspring when the person:

- Is directly exposed to the agent in the environment.
- Directly ingests, inhales, or assimilates the agent from the environment.

- Indirectly ingests the agent through a food chain.
- Substances listed by the United States Department of Transportation as hazardous materials under Title 49 (Transportation) in the Code of Federal Regulations (CFR), Part 172, section 101 and appendices (found at: <http://www.nara.gov>, search for "List of CFR subjects").

- Hazardous wastes as defined in this chapter.

Hazardous waste

Any substance designated by the department of ecology as a dangerous or extremely hazardous waste by chapter 173-303 WAC, Dangerous waste regulations.

Hazardous waste site

A hazardous waste site is any facility or location within the scope of this chapter.

Hazardous materials team (HAZMAT team)

A group of employees who are expected to perform responses to releases, or possible releases, of hazardous substances for the purpose of control and stabilization. As a result of their duties, HAZMAT team members may have close contact with hazardous substances.

Health hazard

A chemical, mixture, biological agent, or physical agent that may cause health effects in short- or long-term exposed employees based on statistically significant evidence from at least one study conducted using established scientific principles. Health hazards include:

- Carcinogens.
- Toxic or highly toxic agents.
- Reproductive toxins.
- Irritants.
- Corrosives.
- Sensitizers.
- Hepatotoxins (liver toxins).
- Nephrotoxins (kidney toxins).
- Neurotoxins (nervous system toxins).
- Substances that act on the hematopoietic system (blood or blood-forming system).

- Substances that can damage the lungs, skin, eyes, or mucous membranes.

- Hot or cold conditions.

IDLH or immediately dangerous to life or health

Any atmospheric condition that would:

- Cause an immediate threat to life;

OR

- Cause permanent or delayed adverse health effects;

OR

- Interfere with an employee's ability to escape.

Incidental release

A release that can be safely controlled at the time of the release and does not have the potential to become an uncontrolled release.

An example of a situation that results in an incidental release:

A tanker truck is receiving a load of hazardous liquid when a leak occurs. The driver knows the only hazard from the liquid is minor skin irritation. The employer has trained the driver on procedures and provided equipment to use for a release of this quantity. The driver puts on skin protection and stops the leak. A spill kit is used to contain, absorb, and pick up the spilled material for disposal.

Material safety data sheet (MSDS)

Written, printed, or electronic information (on paper, microfiche, or on-screen) that informs manufacturers, distributors, employers or employees about a hazardous chemical, its hazards and protective measures as required by chapter 296-839 WAC, Content and distribution of material safety data sheets (MSDSs) and label information.

Oxygen deficiency

An atmosphere where the percentage of oxygen by volume is less than 19.5%.

Permissible exposure limit (PEL)

Permissible exposure limits (PELs) are employee exposures to toxic substances or harmful physical agents that must not be exceeded. PELs are specified in applicable WISHA rules.

Published exposure level

Exposure limits published in "*National Institute for Occupational Safety and Health (NIOSH) Recommendations for Occupational Safety and Health*" (DHHS publication #92-100, 1992).

If an exposure limit is not published by NIOSH, then "published exposure level" means the exposure limits published by the American Conference of Governmental Industrial Hygienists (ACGIH) in "*TLVs and BEIs-Threshold Limit Values for Chemical Substances and Physical Agents*" (1999 edition).

Postemergency response

The stage of the emergency response where the immediate threat from the release has been stabilized or eliminated, and cleanup of the site has started. For more information, see the definition for "emergency response."

Site safety and health supervisor (or official)

The individual present at a hazardous waste site who is responsible to the employer and has the authority and knowledge necessary to establish the site-specific health and safety plan and verify compliance with applicable safety and health requirements.

Site work zones

Zones established at a hazardous waste site before clean-up work begins to control work on the site and access to the site. The work zones are: Exclusion zone, contamination reduction zone, and clean zone.

Uncontrolled hazardous waste site

An area where an accumulation of hazardous substances creates a threat to the health and safety of individuals or the environment or both. Examples include: Former municipal, county, or state landfills, locations where illegal or poorly managed waste disposal has taken place, or property of generators or former generators of hazardous substance waste (surface impoundments, landfills, dumps, and tank or drum farms).

Uncontrolled release

A release where significant safety and health risks could be created. Releases of hazardous substances that are either incidental or couldn't create a safety or health hazard (i.e., fire, explosion, or chemical exposure) aren't considered to be uncontrolled releases.

Examples of conditions that could create a significant safety and health risk:

- Large-quantity releases.
- Small releases that could be highly toxic.
- Potentially contaminated individuals arriving at hospitals.
- Airborne exposures that could exceed a WISHA permissible exposure limit or a published exposure limit and employees aren't adequately trained or equipped to control the release.

Example of an uncontrolled release:

A forklift driver knocks over a container of a solvent-based liquid, releasing the contents onto the warehouse floor. The driver has been trained to recognize the vapor is flammable and moderately toxic when inhaled. The driver hasn't been trained or provided appropriate equipment to address this type of spill. In this situation, it isn't safe for the driver to attempt a response. The driver needs to notify someone of the release so an emergency response can be initiated.

Date of Adoption: January 5, 2004.

Purpose: The 2003 legislature transferred the livestock nutrient management program from the Department of Ecology to the Washington State Department of Agriculture (WSDA). By enacting ESSB 5889, the legislature gave WSDA the authority to take immediate corrective action and formal regulatory enforcement action for violations of chapter 90.64 RCW, Dairy nutrient management, and chapter 90.48 RCW, Water pollution control. However, ESSB 5889 left the appeal of any WSDA livestock nutrient management program action under the jurisdiction of the Pollution Control Hearings Board.

This rule-making order adopts amendments to chapter 16-08 WAC, Practice and procedure, to make clear that any

appeal of livestock nutrient management program orders and penalties must be appealed to the Pollution Control Hearings Board under chapter 43.21B RCW, Environmental hearings office—Pollution control hearings board, and chapter 371-08 WAC, Environmental hearings office—Pollution control hearings board. An appellant cannot use the procedural rules in chapter 16-08 WAC. The adopted amendments also clarify that any appeal of livestock nutrient management program orders and penalties must be served on and handled by WSDA rather than the Department of Ecology.

WSR 04-01-144
EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Aging and Disability Services Administration)
[Filed December 19, 2003, 1:47 p.m.]

Date of Adoption: December 19, 2003.

Purpose: The Division of Developmental Disabilities (DDD) will establish a new program for individuals in need of employment/day program services. Under existing rules, employment and day program services were paid as state supplementary payments or through the counties. These emergency rules identify a new program whereby DDD will pay individuals directly with state-only funds and require that these individuals purchase the necessary employment/day program services. These rules are needed to extend emergency rules filed as WSR 03-18-029 on August 25, 2003, while the department completes the regular rule-making process. Proposed rules were filed as WSR 03-21-156, and a public hearing was held on December 9, 2003.

Citation of Existing Rules Affected by this Order: Amending WAC 388-825-020, 388-825-055, 388-825-100, 388-825-120, 388-825-205, 388-825-252, 388-825-254, 388-850-035, and 388-850-045.

Statutory Authority for Adoption: RCW 71A.12.030.

Other Authority: RCW 71A.10.020, 2001-03 Supplemental Budget ESSB 6387 (chapter 371, Laws of 2002).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; and that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: Conditions have changed since the emergency rule was adopted as WSR 03-10-027. On July 18, 2003, the Social Security Administration (SSA) informed the state that its current rules governing the payment of the state supplementary payments (SSP) did not satisfy requirements under section 1616(a) and 1618 of the Social Security Act ("the act"), 42 U.S.C. 1382(e)[a], 42 U.S.C. 1382(g) and regulations at 20 C.F.R. 416.2001 and 20 C.F.R. 416.2095-.2099. Specifically, payment to individuals with developmental disabilities to purchase employment/day program services under existing rules were found by SSA to be vendor payments and disallowed as SSP. Failure to comply with these requirements jeopardizes the department's ability to receive federal financial participation under Title XIX of the act. These rules create a new DDD program for individuals in employment/day programs and removes SSP funding for employment/day programs. The rules are necessary to implement chapter 371, Laws of 2002.

Immediate adoption is necessary to preserve the public health and general welfare for individuals with developmental disabilities who need employment/day program services. Further, immediate adoption is necessary to preserve the public health and general welfare by allowing the state to continue to receive federal financial participation (FFP) for its

Medicaid program under Title XIX of the act. The loss of FFP would effectively terminate medical assistance under Title XIX for low-income families and individuals in the state of Washington. Establishment of a new DDD program for individuals in employment/day programs is necessary to continue support for these individuals.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 03-318—Filed December 26, 2003, 1:36 p.m., effective January 13, 2004, 6:00 a.m.]

Date of Adoption: December 24, 2003.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-33-01000Q; and amending WAC 220-33-010.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Harvestable numbers of sturgeon are available under the harvest guideline of 8,000 fish

for 2004. A meeting was held with representatives of the commercial fishing industry to gather input for shaping the fishery, and season is consistent with those recommendations. The fishery will provide an opportunity for the commercial fishers to harvest a portion of their sturgeon allocation during a time frame when impacts to salmonids is minimal. Regulation is consistent with compact action of December 19, 2003. There is insufficient time to promulgate permanent regulations.

EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 03-319—Filed December 26, 2003, 1:38 p.m., effective December 27, 2003]

Date of Adoption: December 26, 2003.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-52-07300I; and amending WAC 220-52-073.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Harvestable amounts of red and green sea urchins exist in the areas described. Prohibition of all diving within one or two days of scheduled sea urchin openings discourages the practice of fishing on closed days and hiding the unlawful catch underwater until the legal opening. Specifically expressing the boundary between Sea Urchin Districts 3 and 4, in terms of geographic longitudinal position, aids in the enforceability of harvest openings and assures that proper catch allocation occurs for each of the districts harvest quotas. There is insufficient time to promulgate permanent rules.

WSR 04-02-010**EMERGENCY RULES****DEPARTMENT OF****SOCIAL AND HEALTH SERVICES**

(Aging and Disability Services Administration)

[Filed December 29, 2003, 4:48 p.m.]

Date of Adoption: December 24, 2003.

Purpose: The Division of Developmental Disabilities is adopting emergency rules to implement the 2003-2005 state operating budget bill (section 205, chapter 25, Laws of 2003 1st sp.s.), in which the state legislature provided funds for RHC consolidation and downsizing at the Fircrest School. In the budget detail documents, the legislature stated its intent that: "The department shall consolidate vacancies across all residential habilitation centers (RHCs) in order to downsize Fircrest School."

Citation of Existing Rules Affected by this Order: Repealing WAC 388-835-0135; and amending WAC 388-835-0085, 388-835-0090, 388-835-0100, 388-835-0115, and 388-835-0140.

Statutory Authority for Adoption: Chapter 71A.20 RCW, RCW 71A.12.080, 71A.20.140.

Other Authority: Section 205, chapter 25, Laws of 2003 1st sp.s.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; and that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: In the 2003-2005 state operating budget bill (section 205, chapter 25, Laws of 2003 1st sp.s.), the state legislature provided funds for RHC consolidation and downsizing at the Fircrest School. In the budget detail documents, the legislature stated its intent that: "The department shall consolidate vacancies across all residential habilitation centers (RHCs) in order to downsize Fircrest School." The department has determined that the process of downsizing of Fircrest School must begin immediately in order for the department to remain within its budget allocation. Emergency rules are needed to assure the safety and welfare of residents of Fircrest School as the department establishes procedures to transfer residents of the school to other facilities or care settings.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Economic Services Administration)

[Filed December 29, 2003, 4:50 p.m., effective January 1, 2004]

Date of Adoption: December 19, 2003.

Purpose: To amend the rule to add additional categories of supplemental security income (SSI) recipients who can get a state supplementary payment (SSP). This rule replaces an emergency rule filed as WSR 03-21-147 on October 22, 2003.

Citation of Existing Rules Affected by this Order: Amending WAC 388-478-0055.

Statutory Authority for Adoption: RCW 74.04.050, 74.04.055, 74.04.057, 74.08.090.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; and that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: The emergency rule must be effective January 1, 2004, in order to protect eligible SSI client rights to receive a state funded public assistance payment (SSP). The department has filed a preproposal statement of inquiry, WSR 03-18-101, and is taking necessary steps to adopt this emergency rule as permanent. These rules must become effective on January 1, 2004, to permit the department to amend SSP payment rates in order to remain in compliance with federal law, otherwise the state risks losing access to federal Medicaid funds under Title XIX of the Social Security Act. Federal regulations requiring state supplementary payments to SSI recipients is found under 20 C.F.R. 416.2095 through 2099.

WAC 388-478-0055 How much do I get from my ~~((Supplemental Security Income (SSI) and))~~ state supplemental payments (SSP)? (1) ~~((SSI is a federal cash assistance program for needy individuals and couples who meet federal disability guidelines as aged, blind or disabled.))~~ The SSP is a payment from the state for certain SSI eligible people (see WAC 388-474-0012).

~~((If you are eligible for SSI, you may receive a federal cash payment from the federal Social Security Administration, as well as a SSP cash payment from the state.))~~

If you ~~((were))~~ converted to the federal SSI program from state assistance ((to the federal SSI program in January 1974)) in January 1974, because you were aged, blind, or disabled, and have remained continuously eligible for SSI since January 1974, the department calls you a grandfathered client. A change in living situation, cost-of-living adjustment (COLA) or federal payment level (FPL) can affect a grandfathered (MIL) client. A grandfathered (MIL) client gets a federal SSI payment and a SSP payment, which totals the higher of one of the following:

(Medical Assistance Administration)

[Filed December 29, 2003, 4:52 p.m., effective January 1, 2004]

Date of Adoption: December 24, 2003.

Purpose: To update the categorically needy income level (CNIL) SSI-related standards based on a change in federal rules. This rule will now include the SSI standards since these are being removed from WAC 388-478-0055 How much do I get from my supplement security income (SSI) and state supplemental payments (SSP)? Also removing the information regarding essential spouses since there are no longer any in Washington state.

Statutory Authority for Adoption: RCW 74.08.090, 74.09.530.

Other Authority: Section 1924 of the Social Security Act (42 U.S.C. 1396R-5).

Under RCW 34.05.350 the agency for good cause finds that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: Under Section 1924 of the Social Security Act and as directed by the Federal Centers for Medicaid and Medicare Services, the department must implement these new standards effective January 1, 2004.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Medical Assistance Administration)

[Filed December 29, 2003, 4:54 p.m., effective January 1, 2004]

Date of Adoption: December 24, 2003.

Purpose: To comply with the January 1, 2004, federal increase in the institutional medical program standards for spousal allocations and maintenance. This adoption order also continues the following changes that are currently in effect under emergency adoption order WSR 03-23-115:

- Reduction in the maximum resource allocation for a community spouse from \$90,660 to \$40,000 for clients institutionalized on or after August 1, 2003 (ESHB 2257, 2003 legislature);
- April 1, 2003, federal increase in shelter allocation standard.

The department has proposed to adopt these rules permanently under WSR 03-24-102. A public hearing on the proposed rules is scheduled for January 6, 2004.

Citation of Existing Rules Affected by this Order: Amending WAC 388-513-1350 and 388-513-1380.

Statutory Authority for Adoption: RCW 74.04.050, 74.04.057, 74.08.090, 74.09.500, and 74.09.575, ESHB 2257 (chapter 28, Laws of 2003 1st sp.s.).

Other Authority: Section 1924 of the Social Security Act (42 U.S.C. 1396R-5).

Under RCW 34.05.350 the agency for good cause finds that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: New state law (ESHB 2257 - chapter 28, Laws of 2003 1st sp.s.) required the department to adopt the reduction in the resource allocation for a community spouse as of August 1, 2003. The increase in client standards was required to be effective January 1, 2004 (maximum resource allocation for the community spouse and community spouse monthly maintenance maximum), and April 1, 2003 (standard shelter allocation) to comply with federal requirements.

AMENDATORY SECTION (Amending WSR 01-18-055, filed 8/30/01, effective 9/30/01)

WAC 388-513-1350 Defining the maximum amount of resources allowed and determining resources availability for long-term care (LTC) services. This section describes how the department defines the resource standard and available resources when determining a client's eligibility for LTC services. The department uses the term "resource standard" to describe the maximum amount of resources a client can have and still be resource eligible for program benefits.

(1) The resource standard used to determine eligibility for LTC services equals:

(a) Two thousand dollars for:

(i) A single client; or

(ii) A legally married client with a community spouse, subject to the provisions described in subsections (5) through (8); or

(b) Three thousand dollars for a legally married couple, unless subsection (2) applies.

(2) If the department has already established eligibility for one spouse, then it applies the standard described in subsection (1)(a) to each spouse, unless doing so would make one of the spouses ineligible.

(3) The department applies the following rules when determining available resources for LTC services:

(a) WAC ~~((388-470-0005))~~ 388-475-0300, Resource eligibility and limits;

(b) WAC ~~((388-470-0010))~~ 388-475-0250, How to determine who owns a resource;

(c) ~~((WAC 388-470-0015, Availability of resources;~~

~~(d)))~~ WAC 388-470-0060(6), Resources of an alien's sponsor; and

~~((e)))~~ (d) WAC 388-506-0620, SSI-related medical clients.

(4) For LTC services the department determines a client's nonexcluded resources as follows:

(a) For an SSI-related client, the department reduces available resources by excluding resources described in WAC ~~((388-513-1360))~~ 388-475-0350 through 388-475-0550;

(b) For an SSI-related client who has a community spouse, the department:

(i) Excludes resources described in WAC 388-513-1360; and

(ii) Adds together the available resources of both spouses according to subsection (5)(a) or (b) as appropriate;

(c) For a client not described in subsection (4)(a) or (b), the department applies the resource rules of the program used to relate the client to medical eligibility.

(5) The department determines available resources of a legally married client, when both spouses are institutionalized, by following WAC 388-506-0620 (5) and (6). For legally married clients when only one spouse meets institutional status, the following rules apply. If the client's current period of institutional status began:

(a) Before October 1, 1989, the department adds together one-half the total amount of nonexcluded resources held in the name of:

(i) The institutionalized spouse; or

(ii) Both spouses.

(b) On or after October 1, 1989, the department adds together the total amount of nonexcluded resources held in the name of:

(i) Either spouse; or

(ii) Both spouses.

(6) If subsection (5)(b) applies, the department ~~((allocates the maximum))~~ determines the amount of resources ~~((ordinarily allowed by law))~~ that are allocated to the community spouse before determining nonexcluded resources used to establish eligibility for the institutionalized spouse ~~((The maximum allocation amount is eighty-seven thousand dollars effective January 1, 2001.~~

~~(7)))~~, as follows:

(a) If the client's current period of institutional status began on or after October 1, 1989 and before August 1, 2003, the department allocates the maximum amount of resources ordinarily allowed by law. The maximum allocation amount is ninety-two thousand seven hundred sixty dollars effective January 1, 2004; or

(b) If the client's current period of institutional status began on or after August 1, 2003, the department allocates the greater of:

(i) A spousal share equal to one-half of the couple's combined nonexcluded resources as of the beginning of the current period of institutional status, up to the amount described in subsection (6)(a); or

(ii) The state spousal resource standard of forty thousand dollars.

(7) The amount of the spousal share described in (6)(b)(i) is determined sometime between the date that the current period of institutional status began and the date that eligibility for LTC services is determined. The following rules apply to the determination of the spousal share:

(a) Prior to an application for LTC services, the couple's combined countable resources are evaluated from the date of the current period of institutional status at the request of either member of the couple. The determination of the spousal share is completed when necessary documentation and/or verification is provided; or

(b) The determination of the spousal share is completed as part of the application for LTC services if the client was institutionalized prior to the month of application, and declares the spousal share exceeds the state spousal resource standard. The client will be required to provide verification of the couple's combined countable resources held at the beginning of the current period of institutional status.

(8) The amount of allocated resources described in subsection (6) can be increased, only if:

(a) A court transfers additional resources to the community spouse; or

(b) An administrative law judge establishes in a fair hearing described in chapter 388-02 WAC or by consent order, that the amount is inadequate to provide a minimum monthly maintenance needs amount for the community spouse.

~~((8))~~ (9) The department considers resources of the community spouse unavailable to the institutionalized spouse the month after eligibility for LTC services is established, unless subsection ~~((9))~~ (10)(a), (b), or (c) applies.

~~((9))~~ (10) A redetermination of the couple's resources as described in subsections (4)(b) or (c) is required, if:

(a) The institutionalized spouse has a break of at least thirty consecutive days in a period of institutional status;

(b) The institutionalized spouse's nonexcluded resources exceed the standard described in subsection (1)(a), if subsection (5)(b) applies; or

(c) The institutionalized spouse does not transfer the amount described in subsections (6) or ~~((7))~~ (8) to the community spouse or to another person for the sole benefit of the community spouse as described in WAC 388-513-1365(4) by either:

(i) The first regularly scheduled eligibility review; or

(ii) The reasonable amount of additional time necessary to obtain a court order for the support of the community spouse.

AMENDATORY SECTION (Amending WSR 01-18-055, filed 8/30/01, effective 9/30/01)

WAC 388-513-1380 Determining a client's participation in the cost of care for long-term care (LTC) services. This rule describes how the department allocates income and excess resources when determining participation in the cost of care (in the post-eligibility process). The department applies rules described in WAC 388-513-1315 to define which income and resources must be used in this process.

(1) For a client receiving institutional or hospice services in a medical facility, the department applies all subsections of this rule.

(2) For a client receiving waived services at home or in an alternate living facility, the department applies only those subsections of this rule that are cited in the rules for those programs.

(3) For a client receiving hospice services at home, the department applies rules used for the community options program entry system (COPES).

(4) Excess resources are reduced in an amount equal to incurred medical expenses (for definition see WAC 388-519-0110(10)) that are not subject to third-party payment and for which the client is liable, including:

(a) Health insurance and Medicare premiums, deductions, and co-insurance charges;

(b) Necessary medical care recognized under state law, but not covered under the state's Medicaid plan; and

(c) The amount of excess resources is limited to the following amounts:

(i) For LTC services provided under the categorically needy (CN) program, the amount described in WAC 388-513-1315(3); or

(ii) For LTC services provided under the medically needy (MN) program, the amount described in WAC 388-513-1395(2)(a) or (b).

(5) The department allocates nonexcluded income up to a total of the medically needy income level (MNIL) in the following order:

(a) A personal needs allowance (PNA) of:

(i) One hundred sixty dollars for a client living in a state veterans' home;

(ii) Ninety dollars for a veteran or a veteran's surviving spouse, who receives a VA improved pension and does not live in a state veterans' home; or

(iii) Forty-one dollars and sixty-two cents for all other clients in a medical facility.

(b) Federal, state, or local income taxes (~~incurred during the time period covered by the PNA, whether paid or unpaid~~) owed by the client.

(c) Wages for a client who:

(i) Is related to the supplemental security income (SSI) program as described in WAC 388-503-0510(1); and

(ii) Receives the wages as part of a department-approved training or rehabilitative program designed to prepare the client for a less restrictive placement. When determining this deduction employment expenses are not deducted.

(d) Guardianship fees and administrative costs including any attorney fees paid by the guardian, after June 15, 1998, only as allowed by chapter 388-79 WAC.

(6) The department allocates nonexcluded income after deducting amounts described in subsection (5) in the following order:

(a) Income garnisheed for child support:

(i) For the time period covered by the PNA; and

(ii) Not deducted under another provision in the post-eligibility process.

(b) A monthly maintenance needs allowance for the community spouse not to exceed, effective January 1, ~~((2001))~~ 2004, two thousand ~~((one))~~ three hundred ~~((seventy-five))~~ nineteen dollars, unless a greater amount is allocated as described in subsection (8) of this section. The monthly maintenance needs allowance:

(i) Consists of a combined total of both:

(A) An amount added to the community spouse's gross income to provide a total of one thousand ~~((four))~~ six hundred ~~((fifty-two))~~ ninety-two dollars; and

(B) Excess shelter expenses as specified under subsection (7) of this section; and

(ii) Is allowed only to the extent the client's income is made available to the community spouse.

(c) A monthly maintenance needs amount for each minor or dependent child, dependent parent or dependent sibling of the community or institutionalized spouse who:

(i) Resides with the community spouse, equal to one-third of the amount that one thousand ~~((four))~~ six hundred ~~((fifty-two))~~ ninety-two dollars exceeds the dependent family member's income.

(ii) Does not reside with the community spouse, equal to the MNIL for the number of dependent family members in the home less the income of the dependent family members.

(iii) Child support received from noncustodial parent is the child's income.

(d) Incurred medical expenses described in subsections (4)(a) and (b) not used to reduce excess resources.

(e) Maintenance of the home of a single client or institutionalized couple:

(i) Up to one hundred percent of the one-person federal poverty level per month;

(ii) Limited to a six-month period;

(iii) When a physician has certified that the client is likely to return to the home within the six-month period; and

(iv) When social services staff documents initial need for the income exemption and reviews the client's circumstances after ninety days.

(7) For the purposes of this section, "excess shelter expenses" means the actual expenses under subsection (7)(b) less the standard shelter allocation under subsection (7)(a). For the purposes of this rule:

(a) The standard shelter allocation is four hundred ~~((thirty-six))~~ fifty-five dollars, effective April 1, ~~((2001))~~ 2003; and

(b) Shelter expenses are the actual required maintenance expenses for the community spouse's principal residence for:

(i) Rent;

(ii) Mortgage;

(iii) Taxes and insurance;

(iv) Any maintenance care for a condominium or cooperative; and

(v) The food stamp standard utility allowance for four persons, provided the utilities are not included in the maintenance charges for a condominium or cooperative.

(8) The amount allocated to the community spouse may be greater than the amount in subsection (6)(b) only when:

(a) A court enters an order against the client for the support of the community spouse; or

(b) A hearings officer determines a greater amount is needed because of exceptional circumstances resulting in extreme financial duress.

(9) A client who is admitted to a medical facility for ninety days or less and continues to receive full SSI benefits is not required to use the SSI income in the cost of care for medical services. Income allocations are allowed as described in this section from non-SSI income.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The closure of the Everett flats area of 26A and 24B is due to high percentages of soft crab. Commercial opportunity in the above zones reflects state/tribal agreements to maintain allocation objectives. There is insufficient time to promulgate permanent rules.

The board shall request verification from the participating agencies of the permit applica-

tions certified in the project applicant's affidavit and of the expected date for final decision on the permit applications. Filing of the affidavit shall toll the schedule for hearing by the board until twenty-one days after issuance of the final permit decision on the last permit required for the qualifying project that has been certified in the project applicant's affidavit and verified by a participating agency as applied for, unless the petition filed and served by the petitioner relates to the final permit decision.

NEW SECTION

WAC 199-08-427 Initial hearing, jurisdictional motions and case scheduling.

Initial hearing.

(1) Within seven days after the expiration of the appeal period for the final permit decision on the last permit required for the qualifying project, the petitioner shall note an initial hearing on jurisdictional and other preliminary matters, and, if applicable, on other pretrial matters. This initial hearing shall be set no sooner than thirty-five days and not later than fifty days after the expiration of the appeal period for the final permit.

(2) The parties shall note all motions on jurisdictional and procedural issues for resolution at the initial hearing, except that a motion to allow discovery may be brought sooner.

(3) The defenses of lack of standing, untimely filing or service of the petition, lack of good faith or improper purpose in filing, and failure to join persons needed for just adjudication are waived if not raised by timely motion noted to be heard at the initial hearing, unless the board allows discovery on such issues.

(4) The parties may waive the initial hearing by scheduling with the board a date for the hearing or hearings on the merits and filing a stipulated order that resolves the jurisdictional and procedural issues raised by the petition, including the issues identified in subsections (3) and (5) of this section.

Case schedule order.

(5) The petitioner shall move the board for an order at the initial hearing that sets the date on which the permit decision record or records of the applicable permit agency or agencies, if any, must be submitted, sets a briefing schedule, sets a discovery schedule if discovery is to be allowed, and schedules a hearing or hearings on the merits.

NEW SECTION

(2) The board may grant a stay only if the board finds that:

(a) The party requesting the stay is likely to prevail on the merits;

(b) Without the stay the party requesting it will suffer irreparable harm;

(c) The grant of a stay will not substantially harm other parties to the proceedings; and

(d) The request for the stay is timely in light of the circumstances of the case.

(3) The board may grant the request for a stay upon such terms and conditions, including the filing of security, as are necessary to prevent harm to other parties by the stay.

NEW SECTION

WAC 199-08-429 Discovery. The parties may not conduct pretrial discovery except with the prior permission of the board, which may be sought by motion, subject to any applicable rules adopted by the board and RCW 34.05.446(3), at any time after service of the petition. The party requesting discovery must make a prima facie showing of need. The board shall strictly limit discovery to what is necessary for equitable and timely review of the issues.

NEW SECTION

WAC 199-08-430 Correction or amendment of notice. (1) Within thirty days of receipt by the board, if any petition for review is found to be defective or insufficient, the board may require the party filing the petition for review to correct, clarify or amend the same to conform to the requirements of any relevant statutes and the board's rules. The board may refuse to schedule any conference or hearing thereon until compliance with such requirements, or may issue an appropriate order which may include providing for dismissal of the petition upon failure to comply within a specified time.

(2) Other amendments and supplemental pleadings shall conform to civil rule 15.

NEW SECTION

WAC 199-08-435 Intervention. (1) The presiding officer may grant a petition for intervention by any person at any time, upon determining that the petitioner qualifies as an intervenor pursuant to civil rule 24, that the intervention will serve the interests of justice and that the prompt and orderly conduct of the appeal will not be impaired.

(2) The presiding officer may impose conditions upon the intervenor's participation in the proceedings.

NEW SECTION

WAC 199-08-440 Joinder of parties. The presiding officer shall order the joinder of the permittee, permitting agency or any other interested person or entity in accordance with civil rule 19. NEW SECTION

WAC 199-08-445 Answers to petitions for review. (1) A party need not file an answer to a petition for review filed pursuant to these rules.

NEW SECTION

WAC 199-08-450 Initial hearing and case scheduling. (1) Upon receipt of petitioner's request for an initial hearing, which complies with the requirements of these regulations, the board shall promptly mail to each party a scheduling letter which sets the time and location of the initial hearing.

(2) In those cases where the presiding officer does not order a prehearing conference, the letter setting the initial hearing date and time will be mailed at least thirty-five days before the initial hearing date. The letter may also set the schedule for filing motions and prehearing briefs, and will notify the parties that an interpreter can be made available, upon reasonable notice to the board, for a witness or party who does not speak English or is hearing-impaired. The scheduling letter will control the subsequent proceedings, unless modified for good cause by the presiding officer.

(3) In cases where the presiding officer decides to hold a prehearing conference, the scheduling letter will also notify the parties of the time and location of the prehearing conference. The scheduling letter will be mailed at least seven days before the prehearing conference.

NEW SECTION

WAC 199-08-455 Prehearing conferences. (1) The purpose of a prehearing conference shall be:

(a) To determine the feasibility of a settlement of the appeal or, failing settlement;

(b) To prepare the case for hearing by scheduling prehearing deadlines and by identifying the issues, and if possible, witnesses, exhibits, stipulations, and admissions.

(2) Appearance by a party or by the party's representative at a prehearing conference is mandatory. If a party fails to attend a prehearing conference, that is not justified by good cause, the presiding officer may issue an order of default against the absent party or other appropriate action.

NEW SECTION

WAC 199-08-460 Case scheduling and prehearing orders. After an initial hearing or prehearing conference which has not resulted in settlement, the presiding officer shall enter a prehearing order. Normally, this will include a statement of issues, a schedule for filing motions and briefs, and lists of witnesses and exhibits or provide for filing such lists, as well as other matters which may bear on the preparation for hearing. The issues stated in the prehearing order shall control the subsequent course of the proceedings, unless modified for good cause by subsequent order.

NEW SECTION

WAC 199-08-465 Settlement and mediation agreements. (1) Where the parties settle an appeal before hearing, the parties shall prepare a written order of dismissal to which the settlement agreement is attached, and submit that order to the board. If the agreement is in accordance with the law, the board shall enter the order and dispose of the case.

(2) This section also pertains to settlement agreements reached after mediation.

NEW SECTION

WAC 199-08-470 Use of telephone conferences, motion hearings and hearings. Upon the motion of any party or independently, the presiding officer may decide to conduct any conference, motion hearing or hearing by telephone conference call to promote the fair, speedy and economical processing of a matter. If the presiding officer grants the party's request for a telephone conference, the requesting party shall initiate and pay for the conference call.

NEW SECTION

WAC 199-08-475 Motions. (1) An application to the board for an order shall be by motion which, unless made during a hearing, shall be in writing, state with particularity the grounds therefor and set forth the relief sought. Each written motion shall have appended to it the order which the motion seeks.

(2) For motions for continuance or for schedule changes, or other motions that are likely to be uncontested, the moving party shall affirmatively seek the stipulation of all parties and present a stipulated order wherever possible.

(3) If the motion is contested, any party may request that the board hold a motion hearing. At a motion hearing, the board will consider the arguments of the parties but will not take evidence. Unless a motion hearing is requested by one or more parties, or the board independently sets a motion hearing date, the board will normally decide the motion exclusively on the parties' written submissions. The motion, proposed order and other relevant materials shall be filed and served. Where the hearing coordinator specifies that the hearing shall be telephonic, the moving party shall originate the telephonic hearing conference call. The presiding officer will decide whether or not a motion hearing will be held, and notify the parties accordingly.

(4) Unless a scheduling letter or order provides otherwise, the following schedule governs all written motions (including any supporting affidavits, memoranda of law, or other documentation):

(a) All responses to any motion shall be filed and served ten days from the date the motion is received. The moving party shall then have seven days from receipt of the response to file and serve a reply.

(b) In cases where the moving party requests a motion hearing, all dispositive motions shall be filed and served not later than twenty-eight days before the motion hearing.

(c) All dispositive motions shall be filed and served not later than two months before the hearing date, unless the presiding officer by order allows otherwise.

(d) In exigent or exceptional circumstances, a party may at any time request the board to modify the above schedules by requesting a scheduling conference (which may be telephonic) with the presiding officer.

(5) The board will decide a motion on the written record unless the presiding officer orders a motion hearing.

NEW SECTION

WAC 199-08-480 Postponements and continuances of hearings. (1) Postponement or continuance of a hearing is within the discretion of the presiding officer, whether contested or uncontested by the parties. The board may postpone or continue a hearing on its own motion.

(2) The postponement or continuance of a hearing shall be sought by written motion and according to the procedure set forth in WAC 199-08-475.

NEW SECTION

WAC 199-08-485 Dismissal, default or withdrawal of appeal. (1) If a party fails to attend or participate in a hearing or other stage of an adjudicative proceeding, the presiding officer may serve upon all parties a default or other dispositive order which shall include a statement of the grounds for the order. Within seven days after service of a default or dismissal order for failure to attend or participate, the party against whom it was entered may file a written motion requesting that the order be vacated and stating the grounds relied upon.

(2) A petitioner may request to withdraw a petition for review. Requests before the petitioner rests its case-in-chief during the hearing are mandatory and afterwards are permissive.

(4) **Order of presentation of evidence.**

(a) The presiding officer shall determine the proper order of presentation of evidence. As a general rule, the petitioning party shall initially introduce its evidence.

(c) Witnesses may be called out of turn in contravention of this rule by agreement of all parties.

(5) **Opening statements.** Unless the presiding officer rules otherwise, parties shall present an oral opening statement setting out briefly a statement of the basic facts, disputes and issues of the case.

NEW SECTION

WAC 199-08-500 Scope and standard of review. (1) Hearings upon petitions for review shall be quasi-judicial in nature. The scope and standard of review shall be as follows:

(2) For all permit decisions being reviewed that were made by quasi-judicial bodies or permit agency officers who made factual determinations in support of the decisions, after the conduct of proceedings in which the parties had an opportunity consistent with due process to make records on the factual issues, board review of factual issues and the conclusions drawn from the factual issues shall be confined to the records created by the quasi-judicial bodies or permit agency officers, except that:

(3) For decisions described in subsection (2) of this section, the records may be supplemented by additional evidence only if the additional evidence relates to:

(a) Grounds for disqualification of a member of the body or of the officer that made the permit decision, when such grounds were unknown by the petitioner at the time the record was created;

(b) Matters that were improperly excluded from the record after being offered by a party to a permit decision proceeding; or

All relevant evidence is admissible which, in the opinion of the presiding officer, is the best evidence reasonably obtainable, having due regard for its necessity, availability and trustworthiness. In passing upon the admissibility of evidence, the presiding officer shall give consideration to, but shall not be bound to follow, the rules of evidence governing civil proceedings in matters not involving trial by jury in the superior courts of the state of Washington.

(2) The presiding officer shall exclude evidence that is excludable on constitutional or statutory grounds or on the basis of evidentiary privilege recognized in the courts of this state.

Such controversion shall concisely and clearly set forth the sources, authority and other data relied upon to show the existence or nonexistence of the material fact assumed or denied in the decision.

EMERGENCY RULES

EMPLOYMENT SECURITY DEPARTMENT

[Filed January 2, 2004, 9:36 a.m., effective January 4, 2004]

Date of Adoption: December 31, 2003.

Purpose: To implement changes to the unemployment insurance program adopted by 2ESB 6097, passed by the 2003 legislature. The rules clarify issues related to job separations, job search requirements, penalties for failure to meet reporting requirements, the filing by employers of wage and tax reports, penalties for filing late or incomplete reports, penalties to employers for willfully misrepresenting their payroll, benefit charging and conditions for relief of benefit charges.

Citation of Existing Rules Affected by this Order: Repealing WAC 192-12-011, 192-12-012, 192-12-020, 192-12-180, 192-12-184, 192-12-190, 192-12-300, 192-12-310, 192-12-320, 192-12-330, 192-12-340, 192-16-019, 192-16-023, 192-23-014, 192-23-015, 192-23-016, 192-23-017, 192-23-019, 192-23-061, 192-23-096, 192-23-800, 192-23-810, 192-28-105, 192-28-110, 192-28-115 and 192-28-120; and amending WAC 192-04-040, 192-04-050, 192-16-009, 192-16-015, 192-16-016, 192-150-050, 192-150-055, 192-150-060, 192-150-065, 192-150-085, 192-150-090, 192-180-010, 192-180-015, 192-180-020, 192-180-025, 192-180-030, 192-240-035, 192-240-040, 192-300-050, 192-310-010, 192-310-025, 192-310-030, and 192-320-070.

Statutory Authority for Adoption: RCW 50.12.010, 50.12.040, 50.12.042.

Other Authority: RCW 50.20.010.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: 2ESB 6097 was signed by the governor on June 20, 2003. Most of the provisions related to the payment of unemployment insurance benefits, and a number of the provisions related to unemployment insurance taxes, are effective January 4, 2004. The department has conducted several meetings with stakeholders and other interested parties, but has been unable to complete the rule-making process prior to this effective date. Emergency rules are adopted to provide guidance to employers, unemployment insurance claimants, and the general public regarding the department's interpretation of the legislation and how it will be implemented.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
(Economic Services Administration)

[Filed January 5, 2004, 4:27 p.m.]

Date of Adoption: January 5, 2004.

Purpose: To implement a change in RCW 74.04.005 (6)(g) that places the burden of proof for continuing general assistance benefits based on incapacity from the department to the recipient.

Citation of Existing Rules Affected by this Order: Repealing WAC 388-448-0170 and 388-448-0190; and amending WAC 388-448-0160.

Statutory Authority for Adoption: Chapter 10, Laws of 2003 1st sp.s. RCW 74.08.090.

Under RCW 34.05.350 the agency for good cause finds that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: ESSB [ESHB] 2252 (as chapter 10, Laws of 2003 1st sp.s.) took effect on September 9, 2003, which required rules to be in place sooner than is possible under the regular adoption process. There has been extensive department and public review while preparing these rules for permanent adoption. The emergency rule changes need to remain in place while the permanent adoption process is completed.

AMENDATORY SECTION (Amending WSR 00-16-113, filed 8/2/00, effective 9/1/00)

WAC 388-448-0160 (~~Review of your incapacity~~)
When do my general assistance benefits end? (1) ~~(In order to review your incapacity, we must have sufficient written medical information based on an examination within the last sixty days. We may also require information about your progress with required treatment or agency referrals according to WAC 388-448-0130.~~

~~(2) We cannot extend GAU eligibility beyond the current eligibility end date if we do not receive current medical evidence that we decide is enough to show that you continue to be incapacitated.)~~ The maximum period of eligibility for general assistance is twelve months before we must review additional medical evidence. We use medical evidence and the expected length of time before you are capable of gainful employment to decide when your benefits will end.

(2) Your benefits stop at the end of your incapacity period unless you provide additional medical evidence that demonstrates no material improvement in your impairment. No material improvement means that your impairment meets

the progressive evaluation process criteria in WAC 388-448-0010 through 388-448-0110.

(3) Additional medical evidence must meet all of the criteria defined in WAC 388-448-0030.

(4) We use additional medical evidence received after your incapacity period had ended when:

(a) The delay was not due to your failure to cooperate; and

(b) We receive the evidence within thirty days of the end of your incapacity period; and

(c) The evidence meets the progressive evaluation process criteria in WAC 388-448-0010 through 388-448-0110.

(5) You must provide information about your cooperation and progress with treatment or agency referrals we required according to WAC 388-448-0130.

(6) You are not eligible for general assistance when incapacity was previously determined based on:

(a) Faulty or insufficient information; or

(b) We made a procedural error in one of our previous determinations based on a rule in effect at the time.

REPEALER

The following sections of the Washington Administrative Code are repealed:

- WAC 388-448-0170 Termination requirement—How we determine you are no longer incapacitated.
- WAC 388-448-0190 Reinstating your eligibility after termination due to lack of medical evidence.

EMERGENCY RULES
DEPARTMENT OF
SOCIAL AND HEALTH SERVICES
 (Economic Services Administration)
 [Filed January 7, 2004, 11:32 a.m.]

Date of Adoption: January 5, 2004.

Purpose: The Division of Employment and Assistance Programs is amending WAC 388-418-0005 What type of changes must I report for cash, basic food, and medical assistance?, to reflect change reporting requirements for cash and basic food based on federal requirements for the food stamp program. This change is necessary to move basic food requirements under the correct heading under this rule. The rule replaces emergency WAC 388-418-0005 only, filed as WSR 03-22-004.

Citation of Existing Rules Affected by this Order: Amending WAC 388-418-0005.

Statutory Authority for Adoption: RCW 74.04.050, 74.04.055, 74.04.057, 74.04.510.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of

notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest; and that state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this Finding: DSHS is required to operate the basic food program in compliance with requirements of the federal food stamp program. The United States Department of Agriculture, Food and Nutrition Service (FNS) publishes requirements for the food stamp program under the U.S. Code of Federal Regulations. The current version of this rule does not accurately reflect change-reporting requirements under federal law, which could result in incorrect benefit determinations for needy clients.

AMENDATORY SECTION (Amending WSR 03-21-028, filed 10/7/03, effective 11/1/03)

WAC 388-418-0005 What type of changes must I report for cash, Basic Food, and medical assistance? For purposes of this section, an "assistance unit" or "AU" is a group of people who live together and whose income or resources we count to decide what benefits the AU gets. Even if someone in your AU is not eligible to get a benefit, we still count that person's income or resources if they are financially responsible for you or someone in your AU, such as a common child. If you are a parent of a child who gets long-term care benefits, you need only report changes in income or resources that are actually contributed to the child. Tables one, two and three below show the types of changes you must report based on the type of assistance you get. Use table one to see if you must report a change for cash or Basic Food. Use table two to see if you must report a change for children's, pregnant women's, or family medical assistance. Use table three to see if you must report a change for SSI-related medical or long-term care medical assistance.

PUBLIC DISCLOSURE COMMISSION

[Filed December 31, 2003, 9:13 a.m.]

Agenda for Rules Under Development, January - June 2004

Agency Contact: Doug Ellis, Director of Public Outreach, P.O. Box 40908, Olympia, WA 98504-0908, phone (360) 664-2735, toll free 1-877-601-2828, fax (360) 753-1112, e-mail dellis@pdc.wa.gov.

At present, the Public Disclosure Commission has nine rules under development:

1. **Topic:** Amending language to clarify the statutory restriction on personal use of a candidate's campaign fund.

Status: On December 19, 2003, the commission filed the preproposal statement with the code reviser giving notice that it is considering changes to the personal use standard. The current restriction on personal use is based on expenditures of a candidate's campaign fund that are "not directly related to the candidate's election campaign." A public hearing and possible adoption of an amended rule may occur on March 23, 2004. If adopted, the new or amended rule will likely go into effect in May of 2004.

Statutory Authority: RCW 42.17.370(1).

Statute Being Implemented: RCW 42.17.125.

WAC Cite: WAC 390-16-238 Personal use of contributions—Standard.

2. Topic: Political advertising.

Status: On December 19, 2003, the commission filed the preproposal statement with the code reviser giving notice that it is considering possible new and amended rules to clarify sponsor identification requirements under RCW 42.17.510. Possible rules may include: (a) Incorporating provisions of the United States Supreme Court Decision in *MacIntyre v. Ohio Elections Commission*, (b) exemptions with respect to the "top five contributors" for independent expenditure broadcast advertisement and automated telephone calls, and (c) clarification of "written communications" to specifically identify e-mail and web pages. A public hearing on this issue may occur on March 23, 2004. If new or amended requirements are established by rule, they will likely go into effect in May of 2004.

Statutory Authority: RCW 42.17.370(1).

Statute Being Implemented: RCW 42.17.510.

WAC Cite: Chapter 390-18 WAC, Political advertising.

3. Topic: Clarifying the status of last minute in-kind contributions.

Status: On December 19, 2003, the commission filed the preproposal statement with the code reviser giving notice that it is considering an amendment to clarify in-kind contributions received prior to the contribution restrictions under RCW 42.17.105(8) and to clarify the value of survey research and polling when determining "fair market value." A public hearing on this issue may occur on March 23, 2004. If new or amended requirements are established by rule, they will likely go into effect in May of 2004.

Statutory Authority: RCW 42.17.370(1).

Statute Being Implemented: RCW 42.17.105 and 42.17.090.

WAC Cite: WAC 390-16-207 In-kind contributions—Explanation and reporting.

4. Topic: Proposing language to clarify the candidate and political committee reporting requirements of orders placed, debts, and obligations.

Status: On December 19, 2003, the commission filed the preproposal statement with the code reviser giving notice that it is considering an amendment to provide guidance to candidates and political committees on the reporting requirements of RCW 42.17.090 relating to orders placed, debts, and obligations. A public hearing on this issue may occur on March 23, 2004. If new or amended requirements are established by rule, they will likely go into effect in May of 2004.

Statutory Authority: RCW 42.17.370(1).

Statute Being Implemented: RCW 42.17.090.

WAC Cite: WAC 390-16-039 Total contributions and expenditures—Reporting and possible new rule.

5. Topic: Revising the regular meeting schedule.

Status: On December 19, 2003, the commission filed the preproposal statement with the code reviser giving notice that it is considering an amendment to the time and place of regular commission meetings. The commission has traditionally combined the November and December meetings into one meeting in early December. Possible rule amendment would formalize that practice. A public hearing on this issue may occur on March 23, 2004. If amendments are

established by rule, they will likely go into effect in May of 2004.

Statutory Authority: RCW 42.17.370(1).

Statute Being Implemented: RCW 42.30.075.

WAC Cite: WAC 390-12-010 Public Disclosure Commission—Regular meetings.

6. Topic: Amending rule on sample ballots and slate cards.

Status: On December 19, 2003, the commission filed the preproposal statement with the code reviser giving notice that it is considering an amendment to update references to reporting requirements of an out-of-state or federal committee. Possible amendments to this rule would conform to the new statutory language adopted in 2003. If amendments are established by rule, they will likely go into effect in May of 2004.

Statutory Authority: RCW 42.17.370(1).

Statute Being Implemented: RCW 42.17.640(14).

WAC Cite: WAC 390-17-030 Sample ballots and slate cards.

THE WASHINGTON STATE REGISTER, published under RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards that have been filed in the code reviser's office before the closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper issue of the Register.

The code reviser's office has established an annual subscription price of \$195 for a Register subscription, and single copies cost \$8.25. Sales tax of 8.4% applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$211.38 (\$195 for state agencies) payable to the code reviser's office.
