**AGENDA**

**INTERAGENCY COMMITTEE  
FOR OUTDOOR RECREATION  
SALMON RECOVERY  
FUNDING BOARD**

[Filed January 6, 2006, 4:38 p.m.]

**SEMIANNUAL RULE DEVELOPMENT AGENDA**

**Interagency Committee for Outdoor Recreation (IAC)  
Salmon Recovery Funding Board (SRFB)**

To comply with RCW 34.05.314, IAC-SRFB has prepared the following agenda for rules under development. As required, filing will be made with the code reviser for publication in the State Register by January and 31 and July 31 each year. Within three days of publication, IAC-SRFB will provide copies to each person so requesting, the director of the office of financial management, the rules review committee, and other state agencies that may reasonably be expected to have an interest in this subject.

Contact Greg Lovelady, Rules Coordinator, (360) 902-3008, [GregL@IAC.WA.GOV](mailto:GregL@IAC.WA.GOV).

Subject of possible rule making	Reasons why rules on this subject may be needed and what might be accomplished
Matching resources, mitigation funds: WAC 286-13-040(3), 286-13-045, 286-26-110, 286-27-075, 286-30-050, 286-35-060, 286-40-030	Mitigation funds involve money from cash payments intended to alleviate the results of actions expected to harm the social or natural environmental. The interagency committee for outdoor recreation and the salmon recovery funding board propose to develop WACs that are jointly consistent, including when mitigation funds may be used as a match and when funds from one of these boards are used to match funds from the other.

Subject of possible rule making	Reasons why rules on this subject may be needed and what might be accomplished
Matching resources: WAC 286-13-040(3), 286-13-045, 286-26-110, 286-27-075, 286-30-050, 286-35-060, 286-40-030	In programs where a project sponsors required to provide matching funds, IAC does not allow the matched dollars to originate from another IAC administered grant program (WAC 286-13-050(2)). This policy will be reconsidered giving thought to such factors as using matching funds: To demonstrate sponsor commitment [to] a project; so that more projects may be funded; in compliance with other requirements (for example, some programs may allow their funds to match IAC funds only under certain conditions).
Farmlands preservation, Washington wildlife and recreation program: Chapter 286-27 WAC.	This program was assigned to IAC in 2005 (chapter 303, Laws of 2005) and WACs concerning project conversions, planning requirements, deeds of right, and possibly other subjects need to be considered.
Riparian habitat, Washington wildlife and recreation program: Chapter 286-27 WAC.	This program was assigned to IAC in 2005 (chapter 303, Laws of 2005). WACs concerning project conversions, planning requirements, deeds of right and possibly other subjects need to be considered.
Restoration-enhancement of state lands, Washington wildlife and recreation program: Chapter 286-27 WAC.	This program, in the habitat conservation account of the Washington wildlife and recreation program (WWRP), was assigned to IAC in 2005 (chapter 303, Laws of 2005). WACs concerning project conversions, planning requirements, deeds of right, and possibly other subjects need to be considered.
Development-renovation of state lands, Washington wildlife and recreation program: Chapter 286-27 WAC.	This program, in the outdoor recreation account of the Washington wildlife and recreation program (WWRP), was assigned to IAC in 2005 (chapter 303, Laws of 2005). WACs concerning project conversions, planning requirements, deeds of right, and possibly other subjects need to be considered.

[Filed January 10, 2006, 10:22 a.m.]

**NOTICE OF REQUEST FOR ATTORNEY GENERAL'S OPINION**  
**WASHINGTON ATTORNEY GENERAL**

The Washington attorney general issues formal published opinions in response to requests by the heads of state

agencies, state legislators, and county prosecuting attorneys. When it appears that individuals outside the attorney general's office have information or expertise that will assist in the preparation of a particular opinion, a summary of that opinion request will be published in the state register. If you are interested in commenting on a request listed in this volume of the register, you should notify the attorney general's office of your interest by February 8, 2006. This is not the due date by which comments must be received. However, if you do not notify the attorney general's office of your interest in commenting on an opinion request by this date, the opinion may be issued before your comments have been received. You may notify the attorney general's office of your intention to comment by calling (360) 664-3027, or by writing to the Solicitor General, Office of the Attorney General, P.O. Box 40100, Olympia, WA 98504-0100. When you notify the office of your intention to comment, you will be provided with a copy of the opinion request in which you are interested; information about the attorney general's opinion process; information on how to submit your comments; and a due date by which your comments must be received to ensure that they are fully considered.

The attorney general's office seeks public input on the following opinion request(s).

**05-12-05 Request by Randall L. Gaylord  
San Juan County Prosecutor**

**1. Do the restrictions on the gifting of funds in article VIII, § 7 of the Washington Constitution prohibit San Juan County from using any real estate excise tax funds that may be collected pursuant to RCW 82.46-.075 to make grants to aid persons or households with income in excess of 80% of the area median income?**

**2. **AGENDA**  
**FOREST PRACTICES BOARD**

[Filed January 13, 2006, 11:07 a.m.]

**Rule Development Agenda**  
**January-June 2006**

The forest practices board's mandate is to adopt rules to protect the state's public resources while maintaining a viable forest products industry. The following rule proposals are under development or are anticipated during this time period.

**1. Road Maintenance and Abandonment Plans:** The board will consider permanent rule adoption on May 10, 2006. The board will consider public comments received during November and December, the final environmental impact statement and economic analysis prior to adopting the permanent rule proposal. The rules implement changes to the small forest landowner road maintenance and abandonment planning requirements contained in 2SHB 1095 passed by the 2003 legislature.

**2. Upland Wildlife:** The board, with the department of fish and wildlife, continues to conduct a comprehensive review of the forest practices rules and science for upland wildlife protection and development of cooperative management planning processes. This review and planning process, along with new species listing and the designation of critical habitat may result in a rule proposal.

**3. Northern Spotted Owl:** The board adopted an emergency rule on November 9, 2005, that amends WAC 222-10-041(4) and 222-16-010, Northern spotted owl site center. This rule will remain in effect until a permanent rule is adopted. The board will consider initiating permanent rule making on February 8, 2006, with the purpose of strengthening the conservation of spotted owl habitat on forest lands.

**4. Perennial Initiation Point:** The board may consider initiating permanent rule making at the May 10, 2006, meeting. The board is considering eliminating the default basin sizes in the rules. Under the adaptive management process, a scientific study, *Type N Stream Demarcation Study, Phase I: Pilot Results*, was completed by the board's cooperative monitoring, evaluation, and research committee. It indicates that the default basin sizes available for use in determining stream perennial initiation points are incorrect.

**5. Long Term Permit:** The board is researching the ability for landowners to submit long-term plans. This may result in a rule proposal.

**6. Notice to Comply:** The board is researching ways, other than the "Notice to Comply" form, to approve changes to forest practices applications once the application has been approved. This may result in a rule proposal.

**7. Desired Future Condition:** The forest practices board is considering amending chapter 222-30 WAC, Timber harvesting, related to riparian desired future condition performance targets. Under the adaptive management process, a scientific study, *Validation of the Western Washington Riparian Desired Future Condition (DFC) Performance Targets in the Washington State Forest Practices Rules with Data From Mature, Unmanaged, Conifer-Dominated Riparian Stands*, has been completed by the board's cooperative monitoring, evaluation, and research committee. The study's

findings show that basal area per acre of mature, unmanaged conifer-dominated riparian stands is significantly different from the values used in the rule.
