#### Rule Development Agenda January - June 2008

The forest practices board's (FPB) mandate is to adopt rules to protect the state's public resources while maintaining a viable forest products industry. The following rule proposals are under development or are anticipated during this time period.

1. **Desired Future Condition.** The board initiated rule making to amend chapter 222-30 WAC related to desired future condition performance targets in riparian management zones.

2. **Historic Sites.** The board will consider initiating rule making to amend WAC 222-16-050 relating to Class IV-Special classifications to include historic sites as a SEPA trigger.

3. **Conversion Activity.** The board will consider initiating rule making to amend chapter 222-16 WAC to implement changes contained in SSSB [2SSB] 5883 passed by the 2007 legislature.

4. **Northern Spotted Owl.** The board approved an emergency rule to extend the moratorium to February 25, 2008, on decertifying northern spotted owl site centers. The board will consider permanent rule adoption at its February meeting which would sunset the moratorium on December 31, 2008.

5. **Urban/Forest Land Interface.** The board may consider rule making to amend rules that clarify the boundary between urban and forest lands.

6. **Upland Wildlife.** The board, with the department of fish and wildlife, continues to conduct a comprehensive review of the forest practices rules and science for upland wildlife protection and development of cooperative management planning processes. This review and planning process, along with new species listings, and the designation of critical habitat, may result in a rule proposal.

**INTERPRETIVE STATEMENT**  
**DEPARTMENT OF REVENUE**  
[Filed January 31, 2008, 3:07 p.m.]

**ISSUANCE OF INTERPRETIVE STATEMENT**

The department of revenue has issued Excise Tax Advisory 2014.08.193 Sales to Nonresidents of Jurisdictions Imposing a Sales Tax of Less than Three Percent (ETA 2014).

RCW 82.08.0273 provides a retail sales tax exemption for sales of tangible personal property to certain nonresidents of Washington. ETA 2014 identifies the states, possessions, and provinces of Canada whose residents are eligible for this

exemption. It provides examples of sales that are and are not eligible. This advisory also explains the seller's responsibility to examine proof of nonresidency and document the tax-exempt nature of a sale.

The advisory has been revised to remove Puerto Rico from the list of states, possessions, and provinces of Canada whose residents are eligible for this exemption. Puerto Rico now imposes a retail sales tax of three percent or more (the statutory threshold). Language has been added to explain that documentation maintained by the seller to substantiate a tax exempt sale must include the buyer's name.

PUBLIC NOTICE

**Announcing permit issuance of the General Permit for Aquatic Weed Control in Irrigation Systems.**

On February 20, 2008, the department of ecology is issuing a general permit to cover pesticide use in irrigation systems.

The permit is called the "Irrigation System Aquatic Weed Control National Pollutant Discharge Elimination System (NPDES) and State Waste Discharge General Permit."

**Purpose of the Permit:** The permit covers the discharge of pesticides used in irrigation systems in Washington state. Pesticides are used to control plant and algae growth. Under the Washington State Water Pollution Control Act, a permit is required to discharge pollutants that alter the biological or chemical characteristics of a water body. The permit addresses these legal requirements and regulates the discharge of pollutants to protect water quality in Washington.

Ecology issues a general permit in place of a series of individual permits for similar permitted activities. Individual activities that receive coverage under the general permit must comply with the terms and conditions of the permit.

The permit covers irrigation districts and other irrigation water suppliers who apply for coverage under the permit. The permit is statewide. The permit will be effective on March 21, 2008.

**Changes from the Draft to the Final General Permit:**

Ecology made numerous changes to improve clarity and readability of the permit. Ecology made the following significant changes to the permit based on public comments:

- Changed March 2008 dates to April 2008 to allow permittees more time to comply with requirements.
- Added wording to make it clear that effluent limits applied at the point of compliance.

- Clarified the twenty-four hour averaging in the copper compliance schedule.
- Clarified the sample timing requirements.
- Added a clause explaining how to treat overlapping treatments when taking samples.
- Added detail to the travel time requirements.
- Added detail to the annual treatment report requirements.

**Applying for a Permit:** Irrigation districts that completed a permit application in October 2006 through January 2007 will be covered under the permit. The following entities applied for permit coverage:

1. Cascade Irrigation District
2. Columbia Irrigation District
3. East Columbia Basin Irrigation District
4. Ellensburg Water Company
5. Kennewick Irrigation District
6. Kittitas Reclamation District
7. Naches-Selah Irrigation District

12. Sunnyside Valley Irrigation District
13. Union Gap Irrigation District
14. Wenatchee Reclamation District
15. Westside Irrigating Company
16. Yakima-Tieton Irrigation District.

**Bulletin/Technical Assistance Advisory Retire**

The office of the insurance commissioner (OIC) issues bulletins and technical assistance advisories to explain state laws and regulations and offer guidance on compliance issues. The OIC has conducted a review of all of its bulletins and technical assistance advisories as a component of its ongoing regulatory improvement process. Many of these bulletins and technical assistance advisories were issued at the request of regulated entities to explain the implementation of recently enacted laws or to address recurring questions. While they were a useful communication tool at the time, it is now appropriate to retire the following forty-seven bulletins and technical assistance advisories as they have served their purpose. This action does not indicate any change in the position of the OIC regarding the matters discussed in the retired bulletins and technical assistance advisories.
