

WSR 09-02-001
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 08-314—Filed December 24, 2008, 12:11 p.m., effective December 29, 2008]

Effective Date of Rule: December 29, 2008.

Purpose: Amend personal use fishing rules.

Citation of Existing Rules Affected by this Order:
 Amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Whitehorse Hatchery has not been able to collect returning hatchery winter steelhead broodstock, and is in jeopardy of failing to meet egg take goals. This fishing closure will help increase the number of hatchery winter steelhead returning to the Whitehorse facility. There is insufficient time to adopt permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: December 24, 2008.

Sara G. LaBorde
 for Philip Anderson
 Director

NEW SECTION

WAC 232-28-61900X Exceptions to statewide rules—North Fork Stillaguamish River. Notwithstanding the provisions of WAC 232-28-619, effective December 29, 2008, until further notice, it is unlawful to fish in those waters of the North Fork Stillaguamish River, downstream from the Whitehorse Bridge approximately 4 river miles to the French Creek confluence.

WSR 09-02-020
EMERGENCY RULES
FOREST PRACTICES BOARD

[Filed December 29, 2008, 3:45 p.m., effective January 1, 2009]

Effective Date of Rule: January 1, 2009.

Purpose: The current moratorium on decertifying northern spotted owl site centers ends on December 31, 2008. The forest practices board adopted an emergency rule to establish a temporary process (from January 1, 2009, to December 31, 2009) in which a three-person spotted owl conservation advisory group will evaluate requests for site center decertification.

Citation of Existing Rules Affected by this Order:
 Amending WAC 222-16-010 and 222-16-080(6).

Statutory Authority for Adoption: RCW 76.09.040.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The board approved a specific process to evaluate northern spotted owl site center decertification requests while it determines an appropriate long-term strategy for northern spotted owl conservation. The board is also starting permanent rule making to enact this process.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 0, Amended 2, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 2, Repealed 0.

Date Adopted: December 16, 2009.

Victoria Christiansen
 Chair

AMENDATORY SECTION (Amending WSR 08-17-092, filed 8/19/08, effective 9/19/08)

WAC 222-16-010 *General definitions. Unless otherwise required by context, as used in these rules:

"Act" means the Forest Practices Act, chapter 76.09 RCW.

"Affected Indian tribe" means any federally recognized Indian tribe that requests in writing from the department information on forest practices applications and notification filed on specified areas.

"Alluvial fan" see "sensitive sites" definition.

"Appeals board" means the forest practices appeals board established in the act.

"Aquatic resources" means water quality, fish, the Columbia torrent salamander (*Rhyacotriton kezeri*), the Cascade torrent salamander (*Rhyacotriton cascadae*), the Olympic torrent salamander (*Rhyacotriton olympian*), the Dunn's salamander (*Plethodon dunni*), the Van Dyke's salamander (*Plethodon vandyke*), the tailed frog (*Ascaphus truei*) and their respective habitats.

"Area of resource sensitivity" means areas identified in accordance with WAC 222-22-050 (2)(d) or 222-22-060(2).

"Bankfull depth" means the average vertical distance between the channel bed and the estimated water surface elevation required to completely fill the channel to a point above which water would enter the flood plain or intersect a terrace or hillslope. In cases where multiple channels exist, the bankfull depth is the average depth of all channels along the cross-section. (See board manual section 2.)

"Bankfull width" means:

(a) For streams - the measurement of the lateral extent of the water surface elevation perpendicular to the channel at bankfull depth. In cases where multiple channels exist, bankfull width is the sum of the individual channel widths along the cross-section (see board manual section 2).

(b) For lakes, ponds, and impoundments - line of mean high water.

(c) For tidal water - line of mean high tide.

(d) For periodically inundated areas of associated wetlands - line of periodic inundation, which will be found by examining the edge of inundation to ascertain where the presence and action of waters are so common and usual, and so long continued in all ordinary years, as to mark upon the soil a character distinct from that of the abutting upland.

"Basal area" means the area in square feet of the cross section of a tree bole measured at 4 1/2 feet above the ground.

"Bedrock hollows" (colluvium-filled bedrock hollows, or hollows; also referred to as zero-order basins, swales, or bedrock depressions) means landforms that are commonly spoon-shaped areas of convergent topography within unchannelled valleys on hillslopes. (See board manual section 16 for identification criteria.)

"Board" means the forest practices board established by the act.

"Bog" means wetlands which have the following characteristics: Hydric organic soils (peat and/or muck) typically 16 inches or more in depth (except over bedrock or hardpan); and vegetation such as sphagnum moss, Labrador tea, bog laurel, bog rosemary, sundews, and sedges; bogs may have an overstory of spruce, western hemlock, lodgepole pine, western red cedar, western white pine, Oregon crabapple, or quaking aspen, and may be associated with open water. This includes nutrient-poor fens. (See board manual section 8.)

"Borrow pit" means an excavation site outside the limits of construction to provide material necessary to that construction, such as fill material for the embankments.

"Bull trout habitat overlay" means those portions of Eastern Washington streams containing bull trout habitat as identified on the department of fish and wildlife's bull trout map. Prior to the development of a bull trout field protocol

and the habitat-based predictive model, the "bull trout habitat overlay" map may be modified to allow for locally-based corrections using current data, field knowledge, and best professional judgment. A landowner may meet with the departments of natural resources, fish and wildlife and, in consultation with affected tribes and federal biologists, determine whether certain stream reaches have habitat conditions that are unsuitable for supporting bull trout. If such a determination is mutually agreed upon, documentation submitted to the department will result in the applicable stream reaches no longer being included within the definition of bull trout habitat overlay. Conversely, if suitable bull trout habitat is discovered outside the current mapped range, those waters will be included within the definition of "bull trout habitat overlay" by a similar process.

Bull Trout Overlay Map

"Channel migration zone (CMZ)" means the area where the active channel of a stream is prone to move and this results in a potential near-term loss of riparian function and associated habitat adjacent to the stream, except as modified by a permanent levee or dike. For this purpose, near-term means the time scale required to grow a mature forest. (See board manual section 2 for descriptions and illustrations of CMZs and delineation guidelines.)

"Chemicals" means substances applied to forest lands or timber including pesticides, fertilizers, and other forest chemicals.

"Clearcut" means a harvest method in which the entire stand of trees is removed in one timber harvesting operation. Except as provided in WAC 222-30-110, an area remains clearcut until:

It meets the minimum stocking requirements under WAC 222-34-010(2) or 222-34-020(2); and

The largest trees qualifying for the minimum stocking levels have survived on the area for five growing seasons or, if not, they have reached an average height of four feet.

"Columbia River Gorge National Scenic Area or CRGNSA" means the area established pursuant to the Columbia River Gorge National Scenic Area Act, 16 U.S.C. §544b(a).

"CRGNSA special management area" means the areas designated in the Columbia River Gorge National Scenic Area Act, 16 U.S.C. §544b(b) or revised pursuant to 16 U.S.C. §544b(c). For purposes of this rule, the special management area shall not include any parcels excluded by 16 U.S.C. §544f(o).

"CRGNSA special management area guidelines" means the guidelines and land use designations for forest practices developed pursuant to 16 U.S.C. §544f contained in the CRGNSA management plan developed pursuant to 15 U.S.C. §544d.

"Commercial tree species" means any species which is capable of producing a merchantable stand of timber on the particular site, or which is being grown as part of a Christmas tree or ornamental tree-growing operation.

"Completion of harvest" means the latest of:

Completion of removal of timber from the portions of forest lands harvested in the smallest logical unit that will not be disturbed by continued logging or an approved slash disposal plan for adjacent areas; or

Scheduled completion of any slash disposal operations where the department and the applicant agree within 6 months of completion of yarding that slash disposal is necessary or desirable to facilitate reforestation and agree to a time schedule for such slash disposal; or

Scheduled completion of any site preparation or rehabilitation of adjoining lands approved at the time of approval of the application or receipt of a notification: Provided, That delay of reforestation under this paragraph is permitted only to the extent reforestation would prevent or unreasonably hinder such site preparation or rehabilitation of adjoining lands.

"Constructed wetlands" means those wetlands voluntarily developed by the landowner. Constructed wetlands do not include wetlands created, restored, or enhanced as part of a mitigation procedure or wetlands inadvertently created as a result of current or past practices including, but not limited to: Road construction, landing construction, railroad construction, or surface mining.

"Contamination" means introducing into the atmosphere, soil, or water, sufficient quantities of substances as may be injurious to public health, safety or welfare, or to domestic, commercial, industrial, agriculture or recreational uses, or to livestock, wildlife, fish or other aquatic life.

"Convergent headwalls" (or headwalls) means tear-drop-shaped landforms, broad at the ridgetop and terminating where headwaters converge into a single channel; they are broadly concave both longitudinally and across the slope, but may contain sharp ridges separating the headwater channels. (See board manual section 16 for identification criteria.)

"Conversion activities" means activities associated with conversions of forest land to land uses other than commercial timber operation. These activities may be occurring

during or after timber harvest on forest land. They may include but are not limited to the following:

- Preparation for, or installation of, utilities on the forest practices activity site. The development or maintenance of existing rights of way providing utilities exclusively for other ownerships shall not be considered conversions of forest land (see WAC 222-20-010(5)).

- Any of, or any combination of, the following activities in preparation for nonforestry use of the land: Grading, filling, or stump removal.

- Preparation for, or construction of, any structure requiring local government approval.

- Construction of, or improvement of, roads to a standard greater than needed to conduct forest practices activities.

- Clearing for, or expansion of, rock pits for nonforest practices uses or developing surface mines.

"Conversion option harvest plan" means a voluntary plan developed by the landowner and approved by the local governmental entity indicating the limits of harvest areas, road locations, and open space.

"Conversion to a use other than commercial timber operation" means a bona fide conversion to an active use which is incompatible with timber growing.

"Cooperative habitat enhancement agreement (CHEA)" see WAC 222-16-105.

"Critical habitat (federal)" means the habitat of any threatened or endangered species designated as critical habitat by the United States Secretary of the Interior or Commerce under Sections 3 (5)(A) and 4 (a)(3) of the Federal Endangered Species Act.

"Critical nesting season" means for marbled murrelets - April 1 to August 31.

"Critical habitat (state)" means those habitats designated by the board in accordance with WAC 222-16-080.

"Cultural resources" means archaeological and historic sites and artifacts, and traditional religious, ceremonial and social uses and activities of affected Indian tribes.

"Cumulative effects" means the changes to the environment caused by the interaction of natural ecosystem processes with the effects of two or more forest practices.

"Daily peak activity" means for marbled murrelets - one hour before official sunrise to two hours after official sunrise and one hour before official sunset to one hour after official sunset.

"Debris" means woody vegetative residue less than 3 cubic feet in size resulting from forest practices activities which would reasonably be expected to cause significant damage to a public resource.

"Deep-seated landslides" means landslides in which most of the area of the slide plane or zone lies below the maximum rooting depth of forest trees, to depths of tens to hundreds of feet. (See board manual section 16 for identification criteria.)

"Demographic support" means providing sufficient suitable spotted owl habitat within the SOSEA to maintain the viability of northern spotted owl sites identified as necessary to meet the SOSEA goals.

"Department" means the department of natural resources.

"**Desired future condition (DFC)**" is a reference point on a pathway and not an endpoint for stands. DFC means the stand conditions of a mature riparian forest at 140 years of age, the midpoint between 80 and 200 years. Where basal area is the only stand attribute used to describe 140-year old stands, these are referred to as the "Target Basal Area."

"**Diameter at breast height (dbh)**" means the diameter of a tree at 4 1/2 feet above the ground measured from the uphill side.

"**Dispersal habitat**" see WAC 222-16-085(2).

"**Dispersal support**" means providing sufficient dispersal habitat for the interchange of northern spotted owls within or across the SOSEA, as necessary to meet SOSEA goals. Dispersal support is provided by a landscape consisting of stands of dispersal habitat interspersed with areas of higher quality habitat, such as suitable spotted owl habitat

found within RMZs, WMZs or other required and voluntary leave areas.

"**Drainage structure**" means a construction technique or feature that is built to relieve surface runoff and/or intercepted ground water from roadside ditches to prevent excessive buildup in water volume and velocity. A drainage structure is not intended to carry any typed water. Drainage structures include structures such as: Cross drains, relief culverts, ditch diversions, water bars, or other such structures demonstrated to be equally effective.

"**Eastern Washington**" means the geographic area in Washington east of the crest of the Cascade Mountains from the international border to the top of Mt. Adams, then east of the ridge line dividing the White Salmon River drainage from the Lewis River drainage and east of the ridge line dividing the Little White Salmon River drainage from the Wind River drainage to the Washington-Oregon state line.

Eastern Washington Definition Map

"**Eastern Washington timber habitat types**" means elevation ranges associated with tree species assigned for the purpose of riparian management according to the following:

Timber Habitat Types	Elevation Ranges
ponderosa pine	0 - 2500 feet
mixed conifer	2501 - 5000 feet
high elevation	above 5000 feet

"**Edge**" of any water means the outer edge of the water's bankfull width or, where applicable, the outer edge of the associated channel migration zone.

"**End hauling**" means the removal and transportation of excavated material, pit or quarry overburden, or landing or

road cut material from the excavation site to a deposit site not adjacent to the point of removal.

"**Equipment limitation zone**" means a 30-foot wide zone measured horizontally from the outer edge of the bankfull width of a Type Np or Ns Water. It applies to all perennial and seasonal nonfish bearing streams.

"**Erodible soils**" means those soils that, when exposed or displaced by a forest practices operation, would be readily moved by water.

"**Even-aged harvest methods**" means the following harvest methods:

- Clearcuts;
- Seed tree harvests in which twenty or fewer trees per acre remain after harvest;

Shelterwood regeneration harvests in which twenty or fewer trees per acre remain after harvest;

Group or strip shelterwood harvests creating openings wider than two tree heights, based on dominant trees;

Shelterwood removal harvests which leave fewer than one hundred fifty trees per acre which are at least five years old or four feet in average height;

Partial cutting in which fewer than fifty trees per acre remain after harvest;

Overstory removal when more than five thousand board feet per acre is removed and fewer than fifty trees per acre at least ten feet in height remain after harvest; and

Other harvesting methods designed to manage for multiple age classes in which six or fewer trees per acre remain after harvest.

Except as provided above for shelterwood removal harvests and overstory removal, trees counted as remaining after harvest shall be at least ten inches in diameter at breast height and have at least the top one-third of the stem supporting green, live crowns. Except as provided in WAC 222-30-110, an area remains harvested by even-aged methods until it meets the minimum stocking requirements under WAC 222-34-010(2) or 222-34-020(2) and the largest trees qualifying for the minimum stocking levels have survived on the area for five growing seasons or, if not, they have reached an average height of four feet.

"Fen" means wetlands which have the following characteristics: Peat soils 16 inches or more in depth (except over bedrock); and vegetation such as certain sedges, hardstem bulrush and cattails; fens may have an overstory of spruce and may be associated with open water.

"Fertilizers" means any substance or any combination or mixture of substances used principally as a source of plant food or soil amendment.

"Fill" means the placement of earth material or aggregate for road or landing construction or other similar activities.

"Fish" means for purposes of these rules, species of the vertebrate taxonomic groups of *Cephalospidomorphi* and *Osteichthyes*.

"Fish habitat" means habitat, which is used by fish at any life stage at any time of the year including potential habitat likely to be used by fish, which could be recovered by restoration or management and includes off-channel habitat.

"Fish passage barrier" means any artificial in-stream structure that impedes the free passage of fish.

"Flood level - 100 year" means a calculated flood event flow based on an engineering computation of flood magnitude that has a 1 percent chance of occurring in any given year. For purposes of field interpretation, landowners may use the following methods:

Flow information from gauging stations;

Field estimate of water level based on guidance for "Determining the 100-Year Flood Level" in the forest practices board manual section 2.

The 100-year flood level shall not include those lands that can reasonably be expected to be protected from flood waters by flood control devices maintained by or under license from the federal government, the state, or a political subdivision of the state.

"Forest land" means all land which is capable of supporting a merchantable stand of timber and is not being actively used for a use which is incompatible with timber growing. Forest land does not include agricultural land that is or was enrolled in the conservation reserve enhancement program by contract if such agricultural land was historically used for agricultural purposes and the landowner intends to continue to use the land for agricultural purposes in the future. For small forest landowner road maintenance and abandonment planning only, the term "forest land" excludes the following:

(a) Residential home sites. A residential home site may be up to five acres in size, and must have an existing structure in use as a residence;

(b) Cropfields, orchards, vineyards, pastures, feedlots, fish pens, and the land on which appurtenances necessary to the production, preparation, or sale of crops, fruit, dairy products, fish, and livestock exist.

"Forest landowner" means any person in actual control of forest land, whether such control is based either on legal or equitable title, or on any other interest entitling the holder to sell or otherwise dispose of any or all of the timber on such land in any manner. However, any lessee or other person in possession of forest land without legal or equitable title to such land shall be excluded from the definition of "forest landowner" unless such lessee or other person has the right to sell or otherwise dispose of any or all of the timber located on such forest land. The following definitions apply only to road maintenance and abandonment planning:

(1) **"Large forest landowner"** is a forest landowner who is not a small forest landowner.

(2) **"Small forest landowner"** is a forest landowner who at the time of submitting a forest practices application or notification meets all of the following conditions:

- Has an average annual timber harvest level of two million board feet or less from their own forest lands in Washington state;

- Did not exceed this annual average harvest level in the three year period before submitting a forest practices application or notification;

- Certifies to the department that they will not exceed this annual harvest level in the ten years after submitting the forest practices application or notification.

However, the department will agree that an applicant is a small forest landowner if the landowner can demonstrate that the harvest levels were exceeded in order to raise funds to pay estate taxes or to meet equally compelling and unexpected obligations such as court-ordered judgments and extraordinary medical expenses.

"Forest practice" means any activity conducted on or directly pertaining to forest land and relating to growing, harvesting, or processing timber, including but not limited to:

Road and trail construction;

Harvesting, final and intermediate;

Precommercial thinning;

Reforestation;

Fertilization;

Prevention and suppression of diseases and insects;

Salvage of trees; and

Brush control.

"Forest practice" shall not include: Forest species seed orchard operations and intensive forest nursery operations; or preparatory work such as tree marking, surveying and road flagging; or removal or harvest of incidental vegetation from forest lands such as berries, ferns, greenery, mistletoe, herbs, mushrooms, and other products which cannot normally be expected to result in damage to forest soils, timber or public resources.

"Forest road" means ways, lanes, roads, or driveways on forest land used since 1974 for forest practices. "Forest road" does not include skid trails, highways, or local government roads except where the local governmental entity is a forest landowner. For road maintenance and abandonment planning purposes only, "forest road" does not include forest roads used exclusively for residential access located on a small forest landowner's forest land.

"Forest trees" does not include hardwood trees cultivated by agricultural methods in growing cycles shorter than 15 years if the trees were planted on land that was not in forest use immediately before the trees were planted and before the land was prepared for planting the trees. "Forest trees" includes Christmas trees but does not include Christmas trees that are cultivated by agricultural methods, as that term is defined in RCW 84.33.035.

"Full bench road" means a road constructed on a side hill without using any of the material removed from the hillside as a part of the road. This construction technique is usually used on steep or unstable slopes.

"Green recruitment trees" means those trees left after harvest for the purpose of becoming future wildlife reserve trees under WAC 222-30-020(11).

"Ground water recharge areas for glacial deep-seated slides" means the area upgradient that can contribute water to the landslide, assuming that there is an impermeable perching layer in or under a deep-seated landslide in glacial deposits. (See board manual section 16 for identification criteria.)

"Headwater spring" means a permanent spring at the head of a perennial channel. Where a headwater spring can be found, it will coincide with the uppermost extent of Type Np Water.

"Herbicide" means any substance or mixture of substances intended to prevent, destroy, repel, or mitigate any tree, bush, weed or algae and other aquatic weeds.

"Horizontal distance" means the distance between two points measured at a zero percent slope.

"Hyporheic" means an area adjacent to and below channels where interstitial water is exchanged with channel water and water movement is mainly in the downstream direction.

"Identified watershed processes" means the following components of natural ecological processes that may in some instances be altered by forest practices in a watershed:

- Mass wasting;
- Surface and road erosion;
- Seasonal flows including hydrologic peak and low flows and annual yields (volume and timing);
- Large organic debris;
- Shading; and
- Stream bank and bed stability.

"Inner gorges" means canyons created by a combination of the downcutting action of a stream and mass movement on the slope walls; they commonly show evidence of recent movement, such as obvious landslides, vertical tracks of disturbance vegetation, or areas that are concave in contour and/or profile. (See board manual section 16 for identification criteria.)

"Insecticide" means any substance or mixture of substances intended to prevent, destroy, repel, or mitigate any insect, other arthropods or mollusk pests.

"Interdisciplinary team" (ID Team) means a group of varying size comprised of individuals having specialized expertise, assembled by the department to respond to technical questions associated with a proposed forest practices activity.

"Islands" means any island surrounded by salt water in Kitsap, Mason, Jefferson, Pierce, King, Snohomish, Skagit, Whatcom, Island, or San Juan counties.

"Limits of construction" means the area occupied by the completed roadway or landing, including the cut bank, fill slope, and the area cleared for the purpose of constructing the roadway or landing.

"Load bearing portion" means that part of the road, landing, etc., which is supportive soil, earth, rock or other material directly below the working surface and only the associated earth structure necessary for support.

"Local governmental entity" means the governments of counties and the governments of cities and towns as defined in chapter 35.01 RCW.

"Low impact harvest" means use of any logging equipment, methods, or systems that minimize compaction or disturbance of soils and vegetation during the yarding process. The department shall determine such equipment, methods or systems in consultation with the department of ecology.

"Marbled murrelet detection area" means an area of land associated with a visual or audible detection of a marbled murrelet, made by a qualified surveyor which is documented and recorded in the department of fish and wildlife data base. The marbled murrelet detection area shall be comprised of the section of land in which the marbled murrelet detection was made and the eight sections of land immediately adjacent to that section.

"Marbled murrelet nesting platform" means any horizontal tree structure such as a limb, an area where a limb branches, a surface created by multiple leaders, a deformity, or a debris/moss platform or stick nest equal to or greater than 7 inches in diameter including associated moss if present, that is 50 feet or more above the ground in trees 32 inches dbh and greater (generally over 90 years of age) and is capable of supporting nesting by marbled murrelets.

"Median home range circle" means a circle, with a specified radius, centered on a spotted owl site center. The radius for the median home range circle in the Hoh-Clearwa-

ter/Coastal Link SOSEA is 2.7 miles; for all other SOSEAs the radius is 1.8 miles.

"Merchantable stand of timber" means a stand of trees that will yield logs and/or fiber:

Suitable in size and quality for the production of lumber, plywood, pulp or other forest products;

Of sufficient value at least to cover all the costs of harvest and transportation to available markets.

"Multiyear permit" means a permit to conduct forest practices which is effective for longer than two years but no longer than five years.

"Northern spotted owl site center" means((

~~(1) Until December 31, 2008, the location of northern spotted owls:~~

~~(a) Recorded by the department of fish and wildlife as status 1, 2 or 3 as of November 1, 2005; or~~

~~(b) Newly discovered, and recorded by the department of fish and wildlife as status 1, 2 or 3 after November 1, 2005.~~

(2) After December 31, 2008,)) the location of status 1, 2 or 3 northern spotted owls based on the following definitions:

Status 1: Pair or reproductive - a male and female heard and/or observed in close proximity to each other on the same visit, a female detected on a nest, or one or both adults observed with young.

Status 2: Two birds, pair status unknown - the presence or response of two birds of opposite sex where pair status cannot be determined and where at least one member meets the resident territorial single requirements.

Status 3: Resident territorial single - the presence or response of a single owl within the same general area on three or more occasions within a breeding season with no response by an owl of the opposite sex after a complete survey; or three or more responses over several years (i.e., two responses in year one and one response in year two, for the same general area).

In determining the existence, location, and status of northern spotted owl site centers, the department shall consult with the department of fish and wildlife and use only those sites documented in substantial compliance with guidelines or protocols and quality control methods established by and available from the department of fish and wildlife.

"Notice to comply" means a notice issued by the department pursuant to RCW 76.09.090 of the act and may require initiation and/or completion of action necessary to prevent, correct and/or compensate for material damage to public resources which resulted from forest practices.

"Occupied marbled murrelet site" means:

(1) A contiguous area of suitable marbled murrelet habitat where at least one of the following marbled murrelet behaviors or conditions occur:

(a) A nest is located; or

(b) Downy chicks or eggs or egg shells are found; or

(c) Marbled murrelets are detected flying below, through, into or out of the forest canopy; or

(d) Birds calling from a stationary location within the area; or

(e) Birds circling above a timber stand within one tree height of the top of the canopy; or

(2) A contiguous forested area, which does not meet the definition of suitable marbled murrelet habitat, in which any of the behaviors or conditions listed above has been documented by the department of fish and wildlife and which is distinguishable from the adjacent forest based on vegetative characteristics important to nesting marbled murrelets.

(3) For sites defined in (1) and (2) above, the sites will be presumed to be occupied based upon observation of circling described in (1)(e), unless a two-year survey following the 2003 Pacific Seabird Group (PSG) protocol has been completed and an additional third-year of survey following a method listed below is completed and none of the behaviors or conditions listed in (1)(a) through (d) of this definition are observed. The landowner may choose one of the following methods for the third-year survey:

(a) Conduct a third-year survey with a minimum of nine visits conducted in compliance with 2003 PSG protocol. If one or more marbled murrelets are detected during any of these nine visits, three additional visits conducted in compliance with the protocol of the first nine visits shall be added to the third-year survey. Department of fish and wildlife shall be consulted prior to initiating third-year surveys; or

(b) Conduct a third-year survey designed in consultation with the department of fish and wildlife to meet site specific conditions.

(4) For sites defined in (1) above, the outer perimeter of the occupied site shall be presumed to be the closer, measured from the point where the observed behaviors or conditions listed in (1) above occurred, of the following:

(a) 1.5 miles from the point where the observed behaviors or conditions listed in (1) above occurred; or

(b) The beginning of any gap greater than 300 feet wide lacking one or more of the vegetative characteristics listed under "suitable marbled murrelet habitat"; or

(c) The beginning of any narrow area of "suitable marbled murrelet habitat" less than 300 feet in width and more than 300 feet in length.

(5) For sites defined under (2) above, the outer perimeter of the occupied site shall be presumed to be the closer, measured from the point where the observed behaviors or conditions listed in (1) above occurred, of the following:

(a) 1.5 miles from the point where the observed behaviors or conditions listed in (1) above occurred; or

(b) The beginning of any gap greater than 300 feet wide lacking one or more of the distinguishing vegetative characteristics important to murrelets; or

(c) The beginning of any narrow area of suitable marbled murrelet habitat, comparable to the area where the observed behaviors or conditions listed in (1) above occurred, less than 300 feet in width and more than 300 feet in length.

(6) In determining the existence, location and status of occupied marbled murrelet sites, the department shall consult with the department of fish and wildlife and use only those sites documented in substantial compliance with guidelines or protocols and quality control methods established by and available from the department of fish and wildlife.

"Old forest habitat" see WAC 222-16-085 (1)(a).

"Operator" means any person engaging in forest practices except an employee with wages as his/her sole compensation.

"Ordinary high-water mark" means the mark on the shores of all waters, which will be found by examining the beds and banks and ascertaining where the presence and action of waters are so common and usual, and so long continued in all ordinary years, as to mark upon the soil a character distinct from that of the abutting upland, in respect to vegetation: Provided, That in any area where the ordinary high-water mark cannot be found, the ordinary high-water mark adjoining saltwater shall be the line of mean high tide and the ordinary high-water mark adjoining freshwater shall be the line of mean high-water.

"Other forest chemicals" means fire retardants when used to control burning (other than water), nontoxic repellents, oil, dust-control agents (other than water), salt, and other chemicals used in forest management, except pesticides and fertilizers, that may present hazards to the environment.

"Park" means any park included on the parks register maintained by the department pursuant to WAC 222-20-100(2). Developed park recreation area means any park area developed for high density outdoor recreation use.

"Partial cutting" means the removal of a portion of the merchantable volume in a stand of timber so as to leave an uneven-aged stand of well-distributed residual, healthy trees that will reasonably utilize the productivity of the soil. Partial cutting does not include seedtree or shelterwood or other types of regeneration cutting.

"Pesticide" means any insecticide, herbicide, fungicide, or rodenticide, but does not include nontoxic repellents or other forest chemicals.

"Plantable area" is an area capable of supporting a commercial stand of timber excluding lands devoted to permanent roads, utility rights of way, that portion of riparian management zones where scarification is not permitted, and any other area devoted to a use incompatible with commercial timber growing.

"Power equipment" means all machinery operated with fuel burning or electrical motors, including heavy machinery, chain saws, portable generators, pumps, and powered backpack devices.

"Preferred tree species" means the following species listed in descending order of priority for each timber habitat type:

Ponderosa pine habitat type	Mixed conifer habitat type
all hardwoods	all hardwoods
ponderosa pine	western larch
western larch	ponderosa pine
Douglas-fir	western red cedar
western red cedar	western white pine
	Douglas-fir
	lodgepole pine

"Public resources" means water, fish, and wildlife and in addition means capital improvements of the state or its political subdivisions.

"Qualified surveyor" means an individual who has successfully completed the marbled murrelet field training course offered by the department of fish and wildlife or its equivalent.

"Rehabilitation" means the act of renewing, or making usable and reforesting forest land which was poorly stocked or previously nonstocked with commercial species.

"Resource characteristics" means the following specific measurable characteristics of fish, water, and capital improvements of the state or its political subdivisions:

For fish and water:

Physical fish habitat, including temperature and turbidity;

Turbidity in hatchery water supplies; and

Turbidity and volume for areas of water supply.

For capital improvements of the state or its political subdivisions:

Physical or structural integrity.

If the methodology is developed and added to the manual to analyze the cumulative effects of forest practices on other characteristics of fish, water, and capital improvements of the state or its subdivisions, the board shall amend this list to include these characteristics.

"Riparian function" includes bank stability, the recruitment of woody debris, leaf litter fall, nutrients, sediment filtering, shade, and other riparian features that are important to both riparian forest and aquatic system conditions.

"Riparian management zone (RMZ)" means:

(1) **For Western Washington**

(a) The area protected on each side of a Type S or F Water measured horizontally from the outer edge of the bankfull width or the outer edge of the CMZ, whichever is greater (see table below); and

Site Class	Western Washington Total RMZ Width
I	200'
II	170'
III	140'
IV	110'
V	90'

(b) The area protected on each side of Type Np Waters, measured horizontally from the outer edge of the bankfull width. (See WAC 222-30-021(2).)

(2) **For Eastern Washington**

(a) The area protected on each side of a Type S or F Water measured horizontally from the outer edge of the bankfull width or the outer edge of the CMZ, whichever is greater (see table below); and

Site Class	Eastern Washington Total RMZ Width
I	130'
II	110'

Site Class	Eastern Washington Total RMZ Width
III	90' or 100**
IV	75' or 100**
V	75' or 100**

* Dependent upon stream size. (See WAC 222-30-022.)

(b) The area protected on each side of Type Np Waters, measured horizontally from the outer edge of the bankfull width. (See WAC 222-30-022(2).)

(3) **For exempt 20 acre parcels**, a specified area alongside Type S and F Waters where specific measures are taken to protect water quality and fish and wildlife habitat.

"RMZ core zone" means:

(1) **For Western Washington**, the 50 foot buffer of a Type S or F Water, measured horizontally from the outer edge of the bankfull width or the outer edge of the channel migration zone, whichever is greater. (See WAC 222-30-021.)

(2) **For Eastern Washington**, the thirty foot buffer of a Type S or F Water, measured horizontally from the outer edge of the bankfull width or the outer edge of the channel migration zone, whichever is greater. (See WAC 222-30-022.)

"RMZ inner zone" means:

(1) **For Western Washington**, the area measured horizontally from the outer boundary of the core zone of a Type S or F Water to the outer limit of the inner zone. The outer limit of the inner zone is determined based on the width of the affected water, site class and the management option chosen for timber harvest within the inner zone. (See WAC 222-30-021.)

(2) **For Eastern Washington**, the area measured horizontally from the outer boundary of the core zone 45 feet (for streams less than 15 feet wide) or 70 feet (for streams more than 15 feet wide) from the outer boundary of the core zone. (See WAC 222-30-022.)

"RMZ outer zone" means the area measured horizontally between the outer boundary of the inner zone and the RMZ width as specified in the riparian management zone definition above. RMZ width is measured from the outer edge of the bankfull width or the outer edge of the channel migration zone, whichever is greater. (See WAC 222-30-021 and 222-30-022.)

"Road construction" means either of the following:

- (a) Establishing any new forest road;
- (b) Road work located outside an existing forest road prism, except for road maintenance.

"Road maintenance" means either of the following:

- (a) All road work located within an existing forest road prism;
- (b) Road work located outside an existing forest road prism specifically related to maintaining water control, road safety, or visibility, such as:
 - Maintaining, replacing, and installing drainage structures;
 - Controlling road-side vegetation;
 - Abandoning forest roads according to the process outlined in WAC 222-24-052(3).

"Rodenticide" means any substance or mixture of substances intended to prevent, destroy, repel, or mitigate rodents or any other vertebrate animal which the director of the state department of agriculture may declare by regulation to be a pest.

"Salvage" means the removal of snags, down logs, windthrow, or dead and dying material.

"Scarification" means loosening the topsoil and/or disrupting the forest floor in preparation for regeneration.

"Sensitive sites" are areas near or adjacent to Type Np Water and have one or more of the following:

(1) **Headwall seep** is a seep located at the toe of a cliff or other steep topographical feature and at the head of a Type Np Water which connects to the stream channel network via overland flow, and is characterized by loose substrate and/or fractured bedrock with perennial water at or near the surface throughout the year.

(2) **Side-slope seep** is a seep within 100 feet of a Type Np Water located on side-slopes which are greater than 20 percent, connected to the stream channel network via overland flow, and characterized by loose substrate and fractured bedrock, excluding muck with perennial water at or near the surface throughout the year. Water delivery to the Type Np channel is visible by someone standing in or near the stream.

(3) **Type Np intersection** is the intersection of two or more Type Np Waters.

(4) **Headwater spring** means a permanent spring at the head of a perennial channel. Where a headwater spring can be found, it will coincide with the uppermost extent of Type Np Water.

(5) **Alluvial fan** means a depositional land form consisting of cone-shaped deposit of water-borne, often coarse-sized sediments.

(a) The upstream end of the fan (cone apex) is typically characterized by a distinct increase in channel width where a stream emerges from a narrow valley;

(b) The downstream edge of the fan is defined as the sediment confluence with a higher order channel; and

(c) The lateral margins of a fan are characterized by distinct local changes in sediment elevation and often show disturbed vegetation.

Alluvial fan does not include features that were formed under climatic or geologic conditions which are not currently present or that are no longer dynamic.

"Shorelines of the state" shall have the same meaning as in RCW 90.58.030 (Shoreline Management Act).

"Side casting" means the act of moving excavated material to the side and depositing such material within the limits of construction or dumping over the side and outside the limits of construction.

"Site class" means a grouping of site indices that are used to determine the 50-year or 100-year site class. In order to determine site class, the landowner will obtain the site class index from the state soil survey, place it in the correct index range shown in the two tables provided in this definition, and select the corresponding site class. The site class will then drive the RMZ width. (See WAC 222-30-021 and 222-30-022.)

(1) For Western Washington

Site class	50-year site index range (state soil survey)
I	137+
II	119-136
III	97-118
IV	76-96
V	<75

(2) For Eastern Washington

Site class	100-year site index range (state soil survey)	50-year site index range (state soil survey)
I	120+	86+
II	101-120	72-85
III	81-100	58-71
IV	61-80	44-57
V	≤60	<44

(3) For purposes of this definition, the site index at any location will be the site index reported by the *Washington State Department of Natural Resources State Soil Survey*, (soil survey) and detailed in the associated forest soil summary sheets. If the soil survey does not report a site index for the location or indicates noncommercial or marginal forest land, or the major species table indicates red alder, the following apply:

(a) If the site index in the soil survey is for red alder, and the whole RMZ width is within that site index, then use site class V. If the red alder site index is only for a portion of the RMZ width, or there is on-site evidence that the site has historically supported conifer, then use the site class for conifer in the most physiographically similar adjacent soil polygon.

(b) In Western Washington, if no site index is reported in the soil survey, use the site class for conifer in the most physiographically similar adjacent soil polygon.

(c) In Eastern Washington, if no site index is reported in the soil survey, assume site class III, unless site specific information indicates otherwise.

(d) If the site index is noncommercial or marginally commercial, then use site class V.

See also section 7 of the board manual.

"Site preparation" means those activities associated with the removal of slash in preparing a site for planting and shall include scarification and/or slash burning.

"Skid trail" means a route used by tracked or wheeled skidders to move logs to a landing or road.

"Slash" means pieces of woody material containing more than 3 cubic feet resulting from forest practices activities.

"Small forest landowner long-term application" means a proposal from a small forest landowner to conduct forest practices activities for terms of three to fifteen years. Small forest landowners as defined in WAC 222-21-010(13) are eligible to submit long-term applications.

"SOSEA goals" means the goals specified for a spotted owl special emphasis area as identified on the SOSEA maps

(see WAC 222-16-086). SOSEA goals provide for demographic and/or dispersal support as necessary to complement the northern spotted owl protection strategies on federal land within or adjacent to the SOSEA.

"Spoil" means excess material removed as overburden or generated during road or landing construction which is not used within limits of construction.

"Spotted owl conservation advisory group" means a three-person advisory group designated by the board as follows: One person shall be a representative of Washington's forest products industry, one person shall be a representative of a Washington-based conservation organization actively involved with spotted owl conservation, and one person shall be a representative of the department's forest practices program. Members of the group shall have a detailed working knowledge of spotted owl habitat relationships and factors affecting northern spotted owl conservation.

"Spotted owl dispersal habitat" see WAC 222-16-085(2).

"Spotted owl special emphasis areas (SOSEA)" means the geographic areas as mapped in WAC 222-16-086. Detailed maps of the SOSEAs indicating the boundaries and goals are available from the department at its regional offices.

"Stop work order" means the "stop work order" defined in RCW 76.09.080 of the act and may be issued by the department to stop violations of the forest practices chapter or to prevent damage and/or to correct and/or compensate for damages to public resources resulting from forest practices.

"Stream-adjacent parallel roads" means roads (including associated right of way clearing) in a riparian management zone on a property that have an alignment that is parallel to the general alignment of the stream, including roads used by others under easements or cooperative road agreements. Also included are stream crossings where the alignment of the road continues to parallel the stream for more than 250 feet on either side of the stream. Not included are federal, state, county or municipal roads that are not subject to forest practices rules, or roads of another adjacent landowner.

"Sub-mature habitat" see WAC 222-16-085 (1)(b).

"Suitable marbled murrelet habitat" means a contiguous forested area containing trees capable of providing nesting opportunities:

(1) With all of the following indicators unless the department, in consultation with the department of fish and wildlife, has determined that the habitat is not likely to be occupied by marbled murrelets:

(a) Within 50 miles of marine waters;

(b) At least forty percent of the dominant and codominant trees are Douglas-fir, western hemlock, western red cedar or sitka spruce;

(c) Two or more nesting platforms per acre;

(d) At least 7 acres in size, including the contiguous forested area within 300 feet of nesting platforms, with similar forest stand characteristics (age, species composition, forest structure) to the forested area in which the nesting platforms occur.

"Suitable spotted owl habitat" see WAC 222-16-085(1).

"Temporary road" means a forest road that is constructed and intended for use during the life of an approved forest practices application/notification. All temporary roads must be abandoned in accordance to WAC 222-24-052(3).

"Threaten public safety" means to increase the risk to the public at large from snow avalanches, identified in consultation with the department of transportation or a local government, or landslides or debris torrents caused or triggered by forest practices.

"Threatened or endangered species" means all species of wildlife listed as "threatened" or "endangered" by the United States Secretary of the Interior or Commerce, and all species of wildlife designated as "threatened" or "endangered" by the Washington fish and wildlife commission.

"Timber" means forest trees, standing or down, of a commercial species, including Christmas trees. However, timber does not include Christmas trees that are cultivated by agricultural methods, as that term is defined in RCW 84.33-.035.

"Unconfined avulsing stream" means generally fifth order or larger waters that experience abrupt shifts in channel location, creating a complex flood plain characterized by extensive gravel bars, disturbance species of vegetation of variable age, numerous side channels, wall-based channels, oxbow lakes, and wetland complexes. Many of these streams have dikes and levees that may temporarily or permanently restrict channel movement.

"Validation," as used in WAC 222-20-016, means the department's agreement that a small forest landowner has correctly identified and classified resources, and satisfactorily completed a roads assessment for the geographic area described in Step 1 of a long-term application.

"Water bar" means a diversion ditch and/or hump in a trail or road for the purpose of carrying surface water runoff into the vegetation duff, ditch, or other dispersion area so that it does not gain the volume and velocity which causes soil movement and erosion.

"Watershed administrative unit (WAU)" means an area shown on the map specified in WAC 222-22-020(1).

"Watershed analysis" means, for a given WAU, the assessment completed under WAC 222-22-050 or 222-22-060 together with the prescriptions selected under WAC 222-22-070 and shall include assessments completed under WAC 222-22-050 where there are no areas of resource sensitivity.

"Weed" is any plant which tends to overgrow or choke out more desirable vegetation.

"Western Washington" means the geographic area of Washington west of the Cascade crest and the drainages defined in Eastern Washington.

"Wetland" means those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions, such as swamps, bogs, fens, and similar areas. This includes wetlands created, restored, or enhanced as part of a mitigation procedure. This does not include constructed wetlands or the following surface waters of the state intentionally constructed from wetland sites: Irrigation and drainage ditches, grass lined swales, canals, agri-

cultural detention facilities, farm ponds, and landscape amenities.

"Wetland functions" include the protection of water quality and quantity, providing fish and wildlife habitat, and the production of timber.

"Wetland management zone" means a specified area adjacent to Type A and B Wetlands where specific measures are taken to protect the wetland functions.

"Wildlife" means all species of the animal kingdom whose members exist in Washington in a wild state. The term "wildlife" includes, but is not limited to, any mammal, bird, reptile, amphibian, fish, or invertebrate, at any stage of development. The term "wildlife" does not include feral domestic mammals or the family Muridae of the order Rodentia (old world rats and mice).

"Wildlife reserve trees" means those defective, dead, damaged, or dying trees which provide or have the potential to provide habitat for those wildlife species dependent on standing trees. Wildlife reserve trees are categorized as follows:

Type 1 wildlife reserve trees are defective or deformed live trees that have observably sound tops, limbs, trunks, and roots. They may have part of the top broken out or have evidence of other severe defects that include: "Cat face," animal chewing, old logging wounds, weather injury, insect attack, or lightning strike. Unless approved by the landowner, only green trees with visible cavities, nests, or obvious severe defects capable of supporting cavity dependent species shall be considered as Type 1 wildlife reserve trees. These trees must be stable and pose the least hazard for workers.

Type 2 wildlife reserve trees are dead Type 1 trees with sound tops, limbs, trunks, and roots.

Type 3 wildlife reserve trees are live or dead trees with unstable tops or upper portions. Unless approved by the landowner, only green trees with visible cavities, nests, or obvious severe defects capable of supporting cavity dependent species shall be considered as Type 3 wildlife reserve trees. Although the roots and main portion of the trunk are sound, these reserve trees pose high hazard because of the defect in live or dead wood higher up in the tree.

Type 4 wildlife reserve trees are live or dead trees with unstable trunks or roots, with or without bark. This includes "soft snags" as well as live trees with unstable roots caused by root rot or fire. These trees are unstable and pose a high hazard to workers.

"Windthrow" means a natural process by which trees are uprooted or sustain severe trunk damage by the wind.

"Yarding corridor" means a narrow, linear path through a riparian management zone to allow suspended cables necessary to support cable logging methods or suspended or partially suspended logs to be transported through these areas by cable logging methods.

"Young forest marginal habitat" see WAC 222-16-085 (1)(b).

AMENDATORY SECTION (Amending WSR 05-12-119, filed 5/31/05, effective 7/1/05)

WAC 222-16-080 Critical habitats (state) of threatened and endangered species. (1) Critical habitats (state) of

threatened or endangered species and specific forest practices designated as Class IV-Special are as follows:

(a) Bald eagle (*Haliaeetus leucocephalus*) - harvesting, road construction, aerial application of pesticides, or site preparation within 0.5 mile of a known active nest site, documented by the department of fish and wildlife, between the dates of January 1 and August 15 or 0.25 mile at other times of the year; and within 0.25 mile of a communal roosting site. Communal roosting sites shall not include refuse or garbage dumping sites.

(b) Gray wolf (*Canis lupus*) - harvesting, road construction, or site preparation within 1 mile of a known active den site, documented by the department of fish and wildlife, between the dates of March 15 and July 30 or 0.25 mile from the den site at other times of the year.

(c) Grizzly bear (*Ursus arctos*) - harvesting, road construction, aerial application of pesticides, or site preparation within 1 mile of a known active den site, documented by the department of fish and wildlife, between the dates of October 1 and May 30 or 0.25 mile at other times of the year.

(d) Mountain (woodland) caribou (*Rangifera tarandus*) - harvesting, road construction, aerial application of pesticides, or site preparation within 0.25 mile of a known active breeding area, documented by the department of fish and wildlife.

(e) Oregon silverspot butterfly (*Speyeria zerene hippolyta*) - harvesting, road construction, aerial or ground application of pesticides, or site preparation within 0.25 mile of an individual occurrence, documented by the department of fish and wildlife.

(f) Peregrine falcon (*Falco peregrinus*) - harvesting, road construction, aerial application of pesticides, or site preparation within 0.5 mile of a known active nest site, documented by the department of fish and wildlife, between the dates of March 1 and July 30; or harvesting, road construction, or aerial application of pesticides within 0.25 mile of the nest site at other times of the year.

(g) Sandhill crane (*Grus canadensis*) - harvesting, road construction, aerial application of pesticides, or site preparation within 0.25 mile of a known active nesting area, documented by the department of fish and wildlife.

(h) Northern spotted owl (*Strix occidentalis caurina*)

(i) **Within a SOSEA boundary** (see maps in WAC 222-16-086), except as indicated in (h)(ii) of this subsection, harvesting, road construction, or aerial application of pesticides on suitable spotted owl habitat within a median home range circle that is centered within the SOSEA or on adjacent federal lands.

(ii) **Within the Entiat SOSEA**, harvesting, road construction, or aerial application of pesticides within the areas indicated for demographic support (see WAC 222-16-086(2)) on suitable spotted owl habitat located within a median home range circle that is centered within the demographic support area.

(iii) **Outside of a SOSEA**, harvesting, road construction, or aerial application of pesticides, between March 1 and August 31 on the seventy acres of highest quality suitable spotted owl habitat surrounding a northern spotted owl site center located outside a SOSEA. The highest quality suitable habitat shall be determined by the department in cooperation with the department of fish and wildlife. Consideration shall

be given to habitat quality, proximity to the activity center and contiguity.

(iv) **Small parcel northern spotted owl exemption.** Forest practices proposed on the lands owned or controlled by a landowner whose forest land ownership within the SOSEA is less than or equal to 500 acres and where the forest practice is not within 0.7 mile of a northern spotted owl site center shall not be considered to be on lands designated as critical habitat (state) for northern spotted owls.

(i) Western pond turtle (*Clemmys marmorata*) - harvesting, road construction, aerial application of pesticides, or site preparation within 0.25 mile of a known individual occurrence, documented by the department of wildlife.

(j) Marbled murrelet (*Brachyramphus marmoratus*)

(i) Harvesting, other than removal of down trees outside of the critical nesting season, or road construction within an occupied marbled murrelet site.

(ii) Harvesting, other than removal of down trees outside of the critical nesting season, or road construction within suitable marbled murrelet habitat within a marbled murrelet detection area.

(iii) Harvesting, other than removal of down trees outside of the critical nesting season, or road construction within suitable marbled murrelet habitat containing 7 platforms per acre outside a marbled murrelet detection area.

(iv) Harvesting, other than removal of down trees outside of the critical nesting season, or road construction outside a marbled murrelet detection area within a marbled murrelet special landscape and within suitable marbled murrelet habitat with 5 or more platforms per acre.

(v) Harvesting within a 300 foot managed buffer zone adjacent to an occupied marbled murrelet site that results in less than a residual stand stem density of 75 trees per acre greater than 6 inches in dbh; provided that 25 of which shall be greater than 12 inches dbh including 5 trees greater than 20 inches in dbh, where they exist. The primary consideration for the design of managed buffer zone widths and leave tree retention patterns shall be to mediate edge effects. The width of the buffer zone may be reduced in some areas to a minimum of 200 feet and extended to a maximum of 400 feet as long as the average of 300 feet is maintained.

(vi) Except that the following shall not be critical habitat (state):

(A) Where a landowner owns less than 500 acres of forest land within 50 miles of saltwater and the land does not contain an occupied marbled murrelet site; or

(B) Where a protocol survey (see WAC 222-12-090(14)) has been conducted and no murrelets were detected. The landowner is then relieved from further survey requirements. However, if an occupied marbled murrelet site is established, this exemption is void.

(2) The following critical habitats (federal) designated by the United States Secretary of the Interior or Commerce, or specific forest practices within those habitats, have been determined to have the potential for a substantial impact on the environment and therefore are designated as critical habitats (state) of threatened or endangered species.

(3) For the purpose of identifying forest practices which have the potential for a substantial impact on the environment with regard to threatened or endangered species newly listed

by the Washington fish and wildlife commission and/or the United States Secretary of the Interior or Commerce, the department shall after consultation with the department of fish and wildlife, prepare and submit to the board a proposed list of critical habitats (state) of threatened or endangered species. This list shall be submitted to the board within 30 days of the listing of the species. The department shall, at a minimum, consider potential impacts of forest practices on habitats essential to meeting the life requisites for each species listed as threatened or endangered. Those critical habitats (state) adopted by the board shall be added to the list in subsection (1) of this section. See WAC 222-16-050 (1)(b).

(4) For the purpose of identifying any areas and/or forest practices within critical habitats (federal) designated by the United States Secretary of the Interior or Commerce which have the potential for a substantial impact on the environment, the department shall, after consultation with the department of fish and wildlife, submit to the board a proposed list of any forest practices and/or areas proposed for inclusion in Class IV - Special forest practices. The department shall submit the list to the board within 30 days of the date the United States Secretary of the Interior or Commerce publishes a final rule designating critical habitat (federal) in the Federal Register. Those critical habitats included by the board in Class IV - Special shall be added to the list in subsection (2) of this section. See WAC 222-16-050 (1)(b).

(5)(a) Except for bald eagles under subsection (1)(a) of this section, the critical habitats (state) of threatened and endangered species and specific forest practices designated in subsections (1) and (2) of this section are intended to be interim. These interim designations shall expire for a given species on the earliest of:

(i) The effective date of a regulatory system for wildlife protection referred to in (b) of this subsection or of substantive rules on the species.

(ii) The delisting of a threatened or endangered species by the Washington fish and wildlife commission and by the United States Secretary of Interior or Commerce.

(b) The board shall examine current wildlife protection and department authority to protect wildlife and develop and recommend a regulatory system, including baseline rules for wildlife protection. To the extent possible, this system shall:

(i) Use the best science and management advice available;

(ii) Use a landscape approach to wildlife protection;

(iii) Be designed to avoid the potential for substantial impact to the environment;

(iv) Protect known populations of threatened and endangered species of wildlife from negative effects of forest practices consistent with RCW 76.09.010; and

(v) Consider and be consistent with recovery plans adopted by the department of fish and wildlife pursuant to RCW 77.12.020(6) or habitat conservation plans or 16 U.S.C. 1533(d) rule changes of the Endangered Species Act.

(6) Regardless of any other provision in this section, forest practices applications shall not be classified as Class IV-Special based on critical habitat (state) (WAC 222-16-080 WAC 222-16-050 (1)(b)) for a species, if the forest practices are consistent with one or more of the following:

(a) Documents addressing the needs of the affected species provided such documents have received environmental review with an opportunity for public comment under the National Environmental Policy Act, 42 U.S.C. section 4321 et seq.:

(i) A habitat conservation plan and incidental take permit; or an incidental take statement covering such species approved by the Secretary of the Interior or Commerce pursuant to 16 U.S.C. § 1536(b) or 1539(a); or

(ii) An "unlisted species agreement" covering such species approved by the U.S. Fish and Wildlife Service or National Marine Fisheries Service; or

(iii) Other conservation agreement entered into with a federal agency pursuant to its statutory authority for fish and wildlife protection that addresses the needs of the affected species; or

(iv) A rule adopted by the U.S. Fish and Wildlife Service or the National Marine Fisheries Service for the conservation of an affected species pursuant to 16 U.S.C. section 1533(d); or

(b) Documents addressing the needs of the affected species so long as they have been reviewed under the State Environmental Policy Act;

(i) A landscape management plan; or

(ii) Another cooperative or conservation agreement entered into with a state resource agency pursuant to its statutory authority for fish and wildlife protection;

(c) A special wildlife management plan (SWMP) developed by the landowner and approved by the department in consultation with the department of fish and wildlife;

(d) A bald eagle management plan approved under WAC 232-12-292;

(e) A landowner option plan (LOP) for northern spotted owls developed pursuant to WAC 222-16-100(1);

(f) A cooperative habitat enhancement agreement (CHEA) developed pursuant to WAC 222-16-105; or

(g) A take avoidance plan issued by the U.S. Fish and Wildlife Service or the National Marine Fisheries Service prior to March 20, 2000;

(h) From January 1, 2009, through December 31, 2009, surveys demonstrating the absence of northern spotted owls at a northern spotted owl site center have been reviewed and approved by the department of fish and wildlife and all three of the following criteria have been met:

(i) The site has been evaluated by the spotted owl conservation advisory group; and

(ii) As part of the spotted owl conservation advisory group's evaluation, the department's representative has consulted with the department of fish and wildlife; and

(iii) The spotted owl conservation advisory group has reached consensus that the site need not be maintained while the board completes its evaluation of rules affecting the northern spotted owl. The spotted owl conservation advisory group shall communicate its findings to the department in writing within sixty days of the department of fish and wildlife's approval of surveys demonstrating the absence of northern spotted owls.

In those situations where one of the options above has been used, forest practices applications may still be classified as Class IV-Special based upon the presence of one or more

of the factors listed in WAC 222-16-050(1), other than critical habitat (state) for the species covered by the existing plan.

(7) The department, in consultation with the department of fish and wildlife, shall review each SOSEA to determine whether the goals for that SOSEA are being met through approved plans, permits, statements, letters, or agreements referred to in subsection (6) of this section. Based on the consultation, the department shall recommend to the board the suspension, deletion, modification or reestablishment of the applicable SOSEA from the rules. The department shall conduct a review for a particular SOSEA upon approval of a landowner option plan, a petition from a landowner in the SOSEA, or under its own initiative.

(8) The department, in consultation with the department of fish and wildlife, shall report annually to the board on the status of the northern spotted owl to determine whether circumstances exist that substantially interfere with meeting the goals of the SOSEAs.

Reviser's note: The typographical error in the above section occurred in the copy filed by the agency and appears in the Register pursuant to the requirements of RCW 34.08.040.

WSR 09-02-022
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 08-316—Filed December 30, 2008, 9:10 a.m., effective December 31, 2008, 7:00 p.m.]

Effective Date of Rule: December 31, 2008, 7:00 p.m.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-52-04600A; and amending WAC 220-52-046.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This closure complies with state/treaty management agreements for allocation and to reduce fishing mortality in areas that do not meet the hard-shell criteria. There is insufficient time to adopt permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: December 30, 2008.

Phil Anderson
Director

NEW SECTION

WAC 220-52-04600B Puget Sound crab fishery—Seasons and areas. Notwithstanding the provisions of WAC 220-52-046:

1) Effective 7:00 p.m. on December 31, 2008, until further notice, it will be unlawful to fish for Dungeness Crab for commercial purposes in those waters of Marine Fish-Shellfish Management and Catch Reporting Area 26A within the area east of a line from the spiral staircase at Howarth Park due north to the south end of Gedney Island, and that portion of 24B east of a line from the north end of Gedney Island to Camano Head and south of a line drawn from Camano Head to Hermosa Point (north end of Tulalip Bay).

2) Effective 7:00 p.m. January 4, 2009, until further notice, it will be unlawful to fish for Dungeness Crab for commercial purposes in those waters of Crab Management Region 1 (Marine Fish-Shellfish Management and Catch Reporting Areas 20A, 20B, 21A, 21B, 22A, and 22B).

REPEALER

The following section of the Washington Administrative Code is repealed effective 7:00 p.m. December 31, 2008:

WAC 220-52-04600A Crab fishery—Seasons and areas. (08-308)

WSR 09-02-032
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 08-319—Filed December 30, 2008, 5:06 p.m., effective December 30, 2008, 5:06 p.m.]

Effective Date of Rule: Immediately.

Purpose: Amend wildlife rules.

Citation of Existing Rules Affected by this Order: Amending WAC 232-12-315.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Weather conditions have forced deer and elk to lower elevations, where harassment by dogs has been observed. In order to protect deer and elk, it is necessary to allow officers to take dogs into custody, and if

necessary, destroy dogs. There is insufficient time to promulgate permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: December 30, 2008.

Phil Anderson
Director

NEW SECTION

WAC 232-12-31500T Emergency for custody or destruction of dogs harassing deer and elk. Effective immediately until further notice, an emergency is declared in the following Washington State counties, making it permissible for Fish and Wildlife Officers to take into custody or destroy, if necessary, any dog that is pursuing, harassing, attacking or killing deer or elk.

- (1) Chelan County
- (2) Douglas County
- (3) Ferry County
- (4) Kitittas County
- (5) Lincoln County
- (6) Okanogan County
- (7) Pend Oreille County
- (8) Spokane County
- (9) Stevens County
- (10) Yakima County

**WSR 09-02-038
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 08-317—Filed December 31, 2008, 9:44 a.m., effective December 31, 2008, 9:44 a.m.]

Effective Date of Rule: Immediately.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-52-07300B; and amending WAC 220-52-073.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Harvestable amounts of red and green sea urchins exist in the areas described. Prohibiting all diving from licensed sea urchin harvest vessels within Sea Urchin District 3 when those vessels have red sea urchin on board discourages the taking of red urchins from the district (currently closed to red urchin harvest) and reporting the catch to the adjacent harvest district. Prohibiting transport of urchins from Districts 1 and 2 to other districts will prevent spoiling of product, promote accurate catch accounting, and provide for an orderly fishery. Prohibition of all diving from licensed sea urchin harvest vessels prior to scheduled sea urchin openings discourages fishing on closed days and hiding the unlawful catch underwater until the legal opening. There is insufficient time to adopt permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: December 31, 2008.

Loreva M. Preuss
for Philip Anderson
Acting Director

NEW SECTION

WAC 220-52-07300C Sea urchins Notwithstanding the provisions of WAC 220-52-073, effective immediately until further notice, it is unlawful to take or possess sea urchins taken for commercial purposes except as provided for in this section:

(1) Green sea urchins: Sea Urchin Districts 1 and 2 are open only on January 4 and 5, 2009. The maximum daily landing of green sea urchins allowed in Sea Urchin Districts 1 and 2 is 1,000 pounds per valid, designated sea urchin harvest vessel. Sea Urchin Districts 3, 4, 6 and 7 are open only on Monday through Thursday of each week.

(2) Red sea urchins: Sea Urchin Districts 1 and 2 are open only on Monday through Friday of each week. Sea Urchin District 4 is only open on Monday through Thursday of each week.

(3) It is unlawful to dive for any purpose from a commercially licensed sea urchin fishing vessel in Sea Urchin District 3 when the vessel has red sea urchins on-board.

(4) Red and green sea urchins harvested in Sea Urchin Districts 1 and 2 must be landed within Sea Urchin Districts 1 and 2.

(5) It is unlawful to dive for any purpose from a commercially licensed sea urchin fishing vessel on January 3, 2009, and thenceforth on Saturday and Sunday of each week, except by written permission from the Director.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-52-07300B Sea urchins. (08-309)

WSR 09-02-039
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 08-321—Filed December 31, 2008, 9:54 a.m., effective January 5, 2009]

Effective Date of Rule: January 5, 2008 [2009].

Purpose: Amend personal use fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 232-28-61900Y; and amending WAC 232-28-619.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Marblemount Hatchery has not been able to collect returning hatchery winter steelhead broodstock, and is in jeopardy of failing to meet egg-take goals. This fishing closure will help increase the number of hatchery winter steelhead returning to the Marblemount facility. There is insufficient time to adopt permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: December 31, 2008.

Loreva M. Preuss
for Philip Anderson
Acting Director

NEW SECTION

WAC 232-28-61900Y Exceptions to statewide rules—Cascade River. Notwithstanding the provisions of WAC 232-28-619, effective January 5 through January 31, 2009, it is unlawful to fish in waters of the Cascade River that extend from the Rockport-Cascade Road downstream to the mouth.

REPEALER

The following section of the Washington Administrative Code is repealed effective February 1, 2009:

WAC 232-28-61900Y Exceptions to statewide rules—Cascade River.

WSR 09-02-042
EMERGENCY RULES
DEPARTMENT OF REVENUE

[Filed December 31, 2008, 10:51 a.m., effective December 31, 2008, 10:51 a.m.]

Effective Date of Rule: Immediately.

Other Findings Required by Other Provisions of Law as Precondition to Adoption or Effectiveness of Rule: As required by RCW 34.05.350, the department finds that the immediate amendment of WAC 458-30-200 is necessary for the preservation of the public health, safety, or general welfare, and observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Purpose: The department has amended WAC 458-30-200 on an emergency basis to clarify that:

(1) It is not necessary to breed animals to qualify for the "farm and agricultural land" classification; and

(2) The sale of forage through the grazing of livestock, including equines, constitutes the sale of an agricultural product for purposes of chapter 84.34 RCW.

Citation of Existing Rules Affected by this Order: Amending WAC 458-30-200 Definitions.

Statutory Authority for Adoption: RCW 84.08.010, 84.08.070, 84.34.141, 84.34.020, and chapter 84.34 RCW.

Other Authority: RCW 34.05.350.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Since November 14, 2008, at the request of the department of revenue, assessors and treasurers have delayed the involuntary removal of property from the "farm and agricultural land" classification to allow the

department time to amend WAC 458-30-200 to address (1) the exclusion of land used for raising calves or piglets that are purchased rather than bred onsite and (2) the inconsistent classification of horse boarding operations among counties. Immediate amendment of WAC 458-30-200 is necessary to assure that counties may timely complete their classification, assessment, collection and enforcement procedures, while assuring equal treatment for similarly situated taxpayers and the preservation of farmland intended to be preserved under Washington's Open Space Taxation Act.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 1, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 0, Amended 0, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 1, Repealed 0.

Date Adopted: December 31, 2008.

Alan R. Lynn
Rules Coordinator

AMENDATORY SECTION (Amending WSR 02-20-041, filed 9/24/02, effective 10/25/02)

WAC 458-30-200 Definitions. (1) **Introduction.** This ~~((rule))~~ section provides definitions for the terms used in conjunction with land classified under the Open Space Taxation Act, codified as chapter 84.34 RCW. The terms listed in this ~~((rule))~~ section are intended to act in concert with each other as appropriate.

(2) **Definitions.** For purposes of land classified under chapter 84.34 RCW, the following definitions apply:

(a) "Additional tax" means the additional property taxes that will be collected when classification is withdrawn or removed from land classified under chapter 84.34 RCW.

(b) "Affidavit" means the real estate excise tax affidavit required by chapter 82.45 RCW and chapter 458-61 WAC. The affidavit will be prescribed by the department and furnished to county treasurers. This form is used by landowners to report sales or transfers of classified land. The owner or transferor and the purchaser or transferee, or agents of each, must sign the affidavit under penalty of perjury.

(c) "Agreement" means an agreement executed between an owner and the granting authority regarding the classification of land as either open space or timber land under chapter 84.34 RCW.

(d) "Agricultural product" means livestock and plants useful to humans that are produced for commercial purposes and includes any agricultural, horticultural, or aquacultural produce or crop, or forage removed through the grazing of livestock, including equines; the raising of livestock, poultry,

bees, or fur-bearing animals; or the production of milk, eggs, wool, fur, meat, honey, or other substances obtained therefrom. When used in relation to livestock or fur-bearing animals used for food or fiber, "raising" means breeding or increasing the value, size, or weight of the animal. On parcels of land less than twenty acres, the value of forage removed through the grazing of livestock is reported by the land owner to each county assessor in accordance with WAC 458-30-225 (3)(d) and 458-30-270.

~~((e))~~ (e) "Applicant" means the owner who submits an application for classification of land under chapter 84.34 RCW.

~~((f))~~ (f) "Application" means an application for classification of land under chapter 84.34 RCW.

~~((g))~~ (g) "Approval" means a determination by the granting authority that land qualifies for classification under chapter 84.34 RCW.

~~((h))~~ (h) "Appurtenance" refers to something used with, and related to or dependent upon another thing; that is, something that belongs to something else, an adjunct. The thing appurtenant is strictly necessary and essential to the proper use and enjoyment of the land, as well as useful or necessary for carrying out the purposes for which the land was classified under chapter 84.34 RCW.

(i) In terms of farm and agricultural land, an appurtenance is something used for a particular sort of farm and is widely and routinely used in the operation of the commercial agricultural enterprise.

(ii) For example, an appurtenance may be an outhouse, barn, or tool shed attached to or adjoining a dwelling or it may be equipment used for a particular purpose or task, such as tools, instruments, or machinery.

~~((i))~~ (i) "Aquaculture" means the growing and harvesting of marine or fresh water flora or fauna in a soil or water medium for commercial agricultural activities.

~~((j))~~ (j) "Assessor" means the county assessor or any agency or person who is authorized to act on behalf of the assessor.

~~((k))~~ (k) "Assessment year" means the year in which the property is listed and valued by the assessor and precedes the year in which the taxes on the property are due and payable.

~~((l))~~ (l) "Change in use" means a direct action taken by an owner that actually changes the use of, or has started changing the use of, classified land to a use that is not in compliance with the conditions of the agreement executed between the owner and the granting authority or to a use that is otherwise not in compliance with the provisions of chapter 84.34 RCW (see WAC 458-30-295).

~~((m))~~ (m) "Classified land" means a parcel(s) of land that has been approved by the appropriate granting authority for taxation under chapter 84.34 RCW.

~~((n))~~ (n) "Commercial agricultural purposes" means the use of land on a continuous and regular basis to produce an agricultural product for sale, prior to and subsequent to application for classification, that demonstrates that the owner or lessee is engaged in and intends to obtain through lawful means, a monetary profit from cash income ~~((received by engaging in the following commercial agricultural activities:~~

(i) Raising, harvesting, and selling lawful crops;

~~(ii) Feeding, breeding, managing, and selling of livestock, poultry, fur-bearing animals, or honey bees, or any products thereof;~~

~~(iii) Dairying or selling of dairy products;~~

~~(iv) Animal husbandry;~~

~~(v) Aquaculture;~~

~~(vi) Horticulture;~~

~~(vii) Participating in a government-funded crop reduction or acreage set-aside program; or~~

~~(viii) Cultivating Christmas trees or short rotation hardwoods on land that has been prepared by intensive cultivation and tilling, such as by plowing or turning over the soil, and on which all unwanted plant growth is controlled continuously for the exclusive purpose of growing such trees)). In addition, commercial agricultural purposes include the following uses of agricultural land:~~

~~(i) Land enrolled in the federal conservation reserve program or its successor administered by the United States department of agriculture;~~

~~(ii) Land used for incidental uses that do not exceed twenty percent of the classified land and that are compatible with agricultural purposes;~~

~~(iii) Land on which employee housing or the principal residence of the farm owner or operator is located, if the housing or residence is on or contiguous to a classified parcel of twenty acres or more, and the use of the housing or the residence is integral to the use of the classified land for agricultural purposes;~~

~~(iv) Cultivating Christmas trees or short rotation hardwoods on land that has been prepared by intensive cultivation and tilling, such as by plowing or turning over the soil, and on which all unwanted plant growth is controlled continuously for the exclusive purpose of growing such trees.~~

An owner or lessee must engage in commercial agricultural activities on the land to demonstrate a commercial agricultural purpose.

~~((n)) (o)~~ "Contiguous" means land that adjoins other land owned by the same owner or held under the same ownership. Land that is an integral part of a farming operation is considered contiguous even though the land may be separated by a public road, railroad, right of way, or waterway.

~~((o)) (p)~~ "County financial authority" and "financial authority" mean the treasurer or any agency or person charged with the responsibility of billing and collecting property taxes.

~~((p)) (q)~~ "County legislative authority" means the county commission, council, or other legislative body.

~~((q)) (r)~~ "County recording authority" means the auditor or any agency or person charged with the recording of documents.

~~((r)) (s)~~ "Current" and "currently" means as of the date on which property is to be listed and valued by the assessor.

~~((s)) (t)~~ "Current use value" means the taxable value of a parcel of land placed on the assessment rolls following its classification under chapter 84.34 RCW.

~~((t)) (u)~~ "Department" means the department of revenue.

~~((u)) (v)~~ "Farm woodlot" means an area of land within a parcel(s) of classified farm and agricultural land that is used in a manner compatible with commercial agricultural activi-

ties including, but not limited to, the growing and cutting of trees for the use of the owner or the sheltering of livestock.

~~((v)) (w)~~ "Granting authority" means the appropriate agency or official that acts on an application for classification under chapter 84.34 RCW. The granting authority for:

(i) Open space classification under RCW 84.34.020(1) and 84.34.037 is the county legislative authority. However, for applications within an incorporated area of a county, the granting authority is made up of three members of the county legislative body and three members of the city legislative body in the county in which the land is located;

(ii) Farm and agricultural classification under RCW 84.34.020(2) and 84.34.035 is the assessor or the assessor's designee; and

(iii) Timber land classification under RCW 84.34.020(3) and 84.34.041 is the county legislative authority. However, for applications within an incorporated area of a county, the granting authority is made up of three members of the county legislative body and three members of the city legislative body in the county in which the land is located.

~~((w)) (x)~~ "Gross income" means cash income derived from commercial agricultural activities, including payments received from the United States Department of Agriculture for participating in a crop reduction or acreage set-aside program when such payments are based on the productive capacity of the land. The term shall not include the following:

(i) The value of any products produced on the land and consumed by the owner or lessee; however, the value of forage removed through the grazing of livestock is included in "gross income," if the grazing produces cash income;

(ii) Cash income derived from leases for the use of the land for noncommercial agricultural activities; or

(iii) Payments for soil conservation programs.

~~((x)) (y)~~ "Incidental use" means a use of land classified as farm and agricultural land that is compatible with commercial agricultural activities if it does not exceed twenty percent of the classified land. An incidental use may include, but is not limited to, wetland preservation, a gravel pit, a farm woodlot, or a produce stand.

~~((y)) (z)~~ "Integral" means that which is central to or inherent in the use or operation of classified farm and agricultural land for commercial agricultural activities.

~~((z)) (aa)~~ "Interest" means the amount of applicable interest upon additional tax.

~~((aa)) (bb)~~ "Net cash rental" means the earning or productive capacity of farm and agricultural land less the production costs customarily or typically paid by an owner or landlord. See WAC 458-30-260 for a more detailed explanation.

~~((bb)) (cc)~~ "Notice of continuance" means the notice signed when land classified under chapter 84.34 RCW is sold or transferred if the new owner of the land intends to continue the classified use of the land and elects to have the land remain classified under chapter 84.34 RCW. This notice is part of the real estate excise tax affidavit or may be a separate document prepared by the department and attached to this affidavit.

~~((cc)) (dd)~~ "Owner" means:

(i) Any person(s) having a fee interest in a parcel of land; or

(ii) The contract vendee when the land is subject to a real estate contract.

~~((dd))~~ (ee) "Parcel of land" means a property identified as such on the assessment roll. For purposes of chapter 84.34 RCW and this WAC chapter, a parcel shall not include any land area not owned by the applicant including, but not limited to, a public road, right of way, railroad, or waterway.

~~((ee))~~ (ff) "Penalty" means the amount due when land is removed from classification under chapter 84.34 RCW. The amount of the penalty is equal to twenty percent of the additional tax and interest calculated in accordance with RCW 84.34.080 or 84.34.108.

~~((ff))~~ (gg) "Planning authority" means the local government agency empowered by the appropriate legislative authority to develop policies and proposals relating to land use.

~~((gg))~~ (hh) "Primary use" means the existing use of a parcel or parcels of land so prevalent that when the characteristic use of the land is evaluated a conflicting or nonrelated use appears to be very limited or excluded.

~~((hh))~~ (ii) "Qualification of land" means the approval of an application for classification of land by a granting authority in accordance with chapter 84.34 RCW.

~~((ii))~~ (jj) "Rating system" means a public benefit rating system adopted for classified open space land according to RCW 84.34.055.

~~((jj))~~ (kk) "Reclassification" means the process by which land classified under chapter 84.34 or 84.33 RCW is changed from one classification to a different classification established by chapter 84.34 RCW or into forest land as described in chapter 84.33 RCW. For example, land classified as farm and agricultural land under RCW 84.34.020(2) may be reclassified as open space land under RCW 84.34.020(1).

~~((kk))~~ (ll) "Removal" or "removed" means land classified under chapter 84.34 RCW is removed from classification by the assessor either because the owner requests removal, the new owner fails to sign the notice of classification continuance, or the land is no longer being used for the purpose for which classification was granted.

~~((ll))~~ (mm) "Sale of ownership" means the conveyance of the ownership of a parcel of land in exchange for valuable consideration.

~~((mm))~~ (nn) "Tax year" means the year when property tax is due and payable.

~~((nn))~~ (oo) "Timber management plan" means the plan filed with the county legislative authority or the assessor when classified timber land is sold or transferred. It is synonymous with a "forest management plan" and details an owner's plan regarding the management of classified timber land including, but not limited to, the planting, growing and/or harvesting of timber. The elements of such a plan are set forth in WAC 458-30-232.

~~((oo))~~ (pp) "Transfer" means the conveyance of the ownership of a parcel of land without an exchange of valuable consideration and may include situations where classified land is donated to an owner, corporation, partnership, or limited liability corporation.

~~((pp))~~ (qq) "True and fair value" is the value of a parcel of land placed on the assessment rolls at its highest and best

use without regard to its current use. The term also refers to market value, that is, the amount of money a buyer of property willing, but not obligated to buy would pay a seller of property willing but not obligated to sell, taking into consideration all uses to which the property is adapted and might reasonably be applied.

~~((qq))~~ (rr) "Withdrawal" or "withdrawn" means action taken by the owner of land classified under chapter 84.34 RCW by filing a notice of request to withdraw the land from classification under the current use program in compliance with RCW 84.34.070. Once land has been classified under chapter 84.34 RCW, it must remain so classified for at least ten years from the date of classification. At any time after eight years of the initial ten-year classification period have elapsed, the owner may file a notice of request to withdraw all or a portion of the land from classification with the assessor of the county in which the land is located. Land is withdrawn from classification as a result of a voluntary act by the owner.

WSR 09-02-048
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 08-320—Filed December 31, 2008, 11:52 a.m., effective January 8, 2009, 12:01 p.m.]

Effective Date of Rule: January 8, 2009, 12:01 p.m.

Purpose: Amend personal use fishing rules.

Citation of Existing Rules Affected by this Order:
Repealing WAC 220-56-36000R; and amending WAC 220-56-360.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Survey results show that adequate clams are available for harvest in Razor Clam Areas 1, 2, and 3 for harvest. The Washington department of health has certified clams from these beaches to be safe for human consumption. There is insufficient time to promulgate permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Mak-

ing: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: December 31, 2008.

Loreva M. Preuss
for Philip Anderson
Acting Director

NEW SECTION

WAC 220-56-36000R Razor clams—Areas and seasons. Notwithstanding the provisions of WAC 220-56-360, it is unlawful to dig for or possess razor clams taken for personal use from any beach in Razor Clam Areas 1, 2, or 3, except as provided for in this section:

1. Effective 12:01 p.m. January 8 through 11:59 p.m. January 11, 2009, razor clam digging is allowed in Razor Clam Area 2 and that portion of Razor Clam Area 3 that is between the Grays Harbor North Jetty and the southern boundary of the Quinault Indian Nation (Grays Harbor County). Digging is allowed from 12:01 p.m. to 11:59 p.m. only.

2. Effective 12:01 p.m. January 9 through 11:59 p.m. January 11, 2009, razor clam digging is allowed in Razor Clam Area 1. Digging is allowed from 12:01 p.m. to 11:59 p.m. only.

3. It is unlawful to dig for razor clams at any time in Long Beach, Twin Harbors Beach or Copalis Beach Clam sanctuaries defined in WAC 220-56-372.

REPEALER

The following section of the Washington Administrative Code is repealed effective 12:01 a.m. January 12, 2009:

WAC 220-56-36000R Razor clams—Areas and seasons.

**WSR 09-02-062
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 09-02—Filed January 5, 2009, 2:14 p.m., effective January 6, 2009]

Effective Date of Rule: January 6, 2009.

Purpose: Amend commercial fishing rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-52-07300C; and amending WAC 220-52-073.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Harvestable amounts of red and green sea urchins exist in the areas described. Prohibiting all diving from licensed sea urchin harvest vessels within Sea Urchin District 3 when those vessels have red sea urchin

on-board discourages the taking of red urchins from the district (currently closed to red urchin harvest) and reporting the catch to the adjacent harvest district. Prohibiting transport of urchins from Districts 1 and 2 to other districts will prevent spoiling of product, promote accurate catch accounting, and provide for an orderly fishery. Prohibition of all diving from licensed sea urchin harvest vessels prior to scheduled sea urchin openings discourages fishing on closed days and hiding the unlawful catch underwater until the legal opening. There is insufficient time to adopt permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: January 5, 2009.

Phil Anderson
Director

NEW SECTION

WAC 220-52-07300D Sea urchins Notwithstanding the provisions of WAC 220-52-073, effective January 6, 2009, it is unlawful to take or possess sea urchins taken for commercial purposes except as provided for in this section:

(1) Green sea urchins: Sea Urchin Districts 1 and 2 are open only on January 6, 2009, only. The maximum daily landing of green sea urchins allowed in Sea Urchin Districts 1 and 2 is 1,200 pounds per valid designated sea urchin harvest vessel. Sea Urchin Districts 3, 4, 6 and 7 are open only on Monday through Friday of each week.

(2) Red sea urchins: Sea Urchin Districts 1, 2 and 4 are open only on Monday through Friday of each week.

(3) It is unlawful to dive for any purpose from a commercially licensed sea urchin fishing vessel in Sea Urchin District 3 when the vessel has red sea urchins on-board.

(4) Red and green sea urchins harvested in Sea Urchin Districts 1 and 2 must be landed within Sea Urchin Districts 1 and 2.

(5) It is unlawful to dive for any purpose from a commercially licensed sea urchin fishing vessel on Saturday and Sunday of each week, except by written permission from the Director.

REPEALER

The following section of the Washington Administrative Code is repealed effective January 6, 2009:

WAC 220-52-07300C Sea urchin. (08-317)

WSR 09-02-065
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE

[Order 09-01—Filed January 6, 2009, 8:59 a.m., effective January 6, 2009, 8:59 a.m.]

Effective Date of Rule: Immediately.

Purpose: Amend commercial rules.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-44-05000Z; and amending WAC 220-44-050.

Statutory Authority for Adoption: RCW 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: These rules were adopted by the Pacific Fisheries Management Council and provide for harvest of available stocks of bottomfish while reserving brood stock for future fisheries. There is insufficient time to promulgate permanent rules.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 0, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 1, Amended 0, Repealed 1.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 0, Repealed 0.

Date Adopted: January 6, 2009.

Phil Anderson
Director

NEW SECTION

WAC 220-44-05000A Coastal bottomfish catch limits. Notwithstanding the provisions of WAC 220-44-050, effective immediately until further notice:

(1) It is unlawful to possess, transport through the waters of the state, or land into any Washington port, bottomfish taken from Marine Fish-Shellfish Management and Catch

Reporting Areas 58B, 59A-1, 59A-2, 60A-1, 60A-2, 61, 62, or 63, in excess of the amounts or less than the minimum sizes, or in violation of any gear, handling or landing requirement, established by the Pacific Fisheries Management Council and published in the Federal Register, Volume 73, Number 248, published on December 24, 2008. Therefore, persons must consult the federal regulations, which are incorporated by reference and made a part of Chapter 220-44 WAC. Where rules refer to the fishery management area, that area is extended to include Washington State waters coterminous with the Exclusive Economic Zone.

(a) Effective immediately until further notice, it is unlawful to possess, transport through the waters of the state, or land into any Washington port, walleye pollock taken with trawl gear from Marine Fish-Shellfish Management and Catch Reporting Areas 58B, 59A-1, 59A-2, 60A-1, 60A-2, 61, 62, or 63, except by trawl vessels participating in the directed Pacific whiting fishery and the directed coastal groundfish fishery.

(b) Effective immediately until further notice, it is unlawful for trawl vessels participating in the directed Pacific whiting and/or the directed coastal groundfish fishery to land incidental catches of walleye pollock greater than forty percent of their total landing by weight, not to exceed 10,000 pounds.

(2) At the time of landing of coastal bottom fish into a Washington port, the fish buyer receiving the fish is required to clearly mark on the fish receiving ticket, in the space reserved for dealer's use, all legally defined trawl gear aboard the vessel at the time of delivery. The three trawl gear types are: midwater trawl, roller trawl, and small foot rope trawl (foot rope less than eight inches in diameter). The notation of the gear type(s) aboard the vessel is required prior to the signing of the fish receiving ticket by the vessel representative.

(3) Vessels engaged in chartered research for the National Marine Fisheries Service (NMFS) may land and sell bottomfish caught during that research without the catch being counted toward any trip or cumulative limit for the participating vessel. Vessels that have been compensated for research work by NMFS with an Exempted Fishing Permit (EFP) to land fish as payment for such research may land and sell fish authorized under the EFP without the catch being counted toward any trip or cumulative limit for the participating vessel. Any bottomfish landed during authorized NMFS research or under the authority of a compensating EFP for past chartered research work must be reported on a separate fish receiving ticket and not included on any fish receiving ticket reporting bottomfish landed as part of any trip or cumulative limit. Bottomfish landed under the authority of NMFS research work or an EFP compensating research with fish must be clearly marked "NMFS Compensation Trip" on the fish receiving ticket in the space reserved for dealer's use. The NMFS scientist in charge must sign the fish receiving ticket in the area reserved for dealer's use if any bottomfish are landed during authorized NMFS research. If the fish are landed under the authority of an EFP as payment for research work, the EFP number must be listed in the dealer's use space.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-44-05000Z Coastal bottomfish catch limits. (08-300)

WSR 09-02-077
EMERGENCY RULES
DEPARTMENT OF

SOCIAL AND HEALTH SERVICES

(Aging and Disability Services Administration)

[Filed January 7, 2009, 8:55 a.m., effective January 7, 2009, 8:55 a.m.]

Effective Date of Rule: Immediately.

Purpose: The division of developmental disabilities is amending WAC 388-831-0010 and 388-831-0030 to include individuals who have a history of violent behavior which demonstrates the likelihood to commit a violent act. This amendment reflects the legislation contained in RCW 71A.12.210. The department is proceeding to adopt these rules on a permanent basis.

Citation of Existing Rules Affected by this Order: Amending WAC 388-831-0010 and 388-831-0030.

Statutory Authority for Adoption: RCW 71A.12.030, 71A.12.210.

Other Authority: Title 71A RCW.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is necessary for the preservation of public health, safety or general welfare by expanding the population who have community protection issues and may be eligible for services. This group of individuals was inadvertently omitted from the permanent rule filed previously.

Number of Sections Adopted in Order to Comply with Federal Statute: New 0, Amended 0, Repealed 0; Federal Rules or Standards: New 0, Amended 0, Repealed 0; or Recently Enacted State Statutes: New 0, Amended 2, Repealed 0.

Number of Sections Adopted at Request of a Nongovernmental Entity: New 0, Amended 0, Repealed 0.

Number of Sections Adopted on the Agency's Own Initiative: New 0, Amended 0, Repealed 0.

Number of Sections Adopted in Order to Clarify, Streamline, or Reform Agency Procedures: New 0, Amended 0, Repealed 0.

Number of Sections Adopted Using Negotiated Rule Making: New 0, Amended 0, Repealed 0; Pilot Rule Making: New 0, Amended 0, Repealed 0; or Other Alternative Rule Making: New 0, Amended 2, Repealed 0.

Date Adopted: December 31, 2008.

Stephanie E. Schiller
 Rules Coordinator

AMENDATORY SECTION (Amending WSR 08-20-118, filed 9/30/08, effective 10/31/08)

WAC 388-831-0010 Definitions. The definitions in this section apply throughout the chapter unless the context clearly requires otherwise.

"Certified community protection program residential services" means access to twenty-four hour supervision, instruction, and support services as identified in the person's individual support plan.

"Community protection program" See WAC 388-831-0020.

"Constitutes a risk to others" means a determination of a person's risk and/or dangerousness based upon a thorough assessment by a qualified professional. Actuarial risk assessment instruments should be used to supplement clinical judgment whenever appropriate.

"Department" means the department of social and health services.

"Developmental disability" means that condition defined in WAC 388-823-0040 and RCW 71A.10.020(3).

"Disclosure" means providing copies of professional assessments, incident reports, legal documents, and other information pertaining to community protection issues to ensure the provider has all relevant information. Polygraph and plethysmograph reports are excluded from disclosure.

"Division" means the division of developmental disabilities (DDD).

"Managed successfully" means that a person supported by a community protection program does not engage in the behavior identified in WAC 388-831-0030 and RCW 71A.12.210.

"Opportunistic behavior" means an act committed on impulse, which is not premeditated. In determining whether an act is opportunistic, the original motive or intent of the offense or crime will be considered.

"Predatory" means acts directed toward strangers, individuals with whom a relationship has been established or promoted for the primary purpose of victimization, or casual acquaintances with whom no substantial personal relationship exists. Predatory behavior may be characterized by planning and/or rehearsing the act, stalking, and/or grooming the victim.

"Program participant" means a person who has agreed to and is receiving services and supports in the community protection program.

"Qualified professional" means a licensed psychologist, psychiatrist, or a certified or affiliate sex offender treatment provider with at least three years prior experience working with individuals with developmental disabilities, and:

- If the person being assessed has demonstrated sexually aggressive or sexually violent behavior, that person must be assessed by a certified sex offender treatment provider, or affiliate sex offender treatment provider working under the supervision of a certified sex offender treatment provider; or

- If the person being assessed has demonstrated violent, dangerous, or aggressive behavior, that person must be assessed by a licensed psychologist or psychiatrist who has received specialized training in the treatment of or has at least three years prior experience treating violent or aggressive behavior.

"Restrictive procedures" or "Restrictions" means procedures that restrict a client's freedom of movement, restrict access to client property, prevent a client from doing something the client wants to do, require a client to do something the client does not want to do, or remove something the client owns or has earned.

"Risk assessment" means the written opinion of a qualified professional stating, at a minimum:

- Whether a person meets the criteria in WAC 388-831-0030 and RCW 71A.12.210; and
- What restrictions are necessary to keep people safe.

"Service provider" means a person or agency contracted with the department or a sub-contractor who delivers services and supports to a community protection program participant.

"Specialized environment" means a place where the program participant has agreed to supervision in a safe, structured manner specifying rules, requirements, restrictions, and expectations for personal responsibility in order to maximize community safety.

"Treatment team" means the program participant and the group of people responsible for the development, implementation, and monitoring of the person's individual supports and services. This group may include, but is not limited to, the case resource manager, therapist, residential provider, employment/day program provider, and the person's legal representative and/or family, provided the person agrees to the family member's involvement.

~~("Violent offense" means any felony defined as a violent offense in RCW 9.94A.030.)~~

"Violent" or "violence" means acts that meet the criteria for crimes listed in RCW 9.94A.030(32), 9.94A.030(45), 9.94A.030(46), 9.94A.030(54), or 9A.48.040, whether or not the person who committed the acts has been charged with or convicted of the crime.

"Waiver" means the community-based program funded under section 1915(c) of Title XIX of the federal social security act and chapter 388-845 WAC.

AMENDATORY SECTION (Amending WSR 08-20-118, filed 9/30/08, effective 10/31/08)

WAC 388-831-0030 Who are individuals with community protection issues? You are considered an individual with community protection issues if:

(1) You have been determined to have a developmental disability as defined in WAC 388-823-0040 and RCW 71A.10.020(3); and

(2) You have been identified by DDD as a person who meets one or more of the following:

(a) You have been charged with or convicted of a crime of sexual violence as defined in chapter 9A.44 or 71.09 RCW;

(b) You have been charged with or convicted of a crime involving sexual acts directed towards strangers or individuals with whom a relationship has been established or promoted for the primary purpose of victimization, or persons of casual acquaintance with whom no substantial personal relationship exists;

(c) You have been charged with or convicted of one or more violent crimes as defined in RCW 9.94A.030(45);

(d) You have not been charged with or convicted of a crime identified in (2)(a), (b), or (c) above, but you have a history of violent, stalking, sexually violent, predatory and/or opportunistic behavior which a qualified professional has determined demonstrates a likelihood to commit a violent, sexually violent and/or predatory act (~~((based on current behaviors that may escalate to violence, as determined by a qualified professional))~~); and

(3) You constitute a current risk to others as determined by a qualified professional.

(4) Charges or crimes that result in acquittal are excluded.
