

WSR 09-04-040
WITHDRAWAL OF
EXPEDITED RULE MAKING
DEPARTMENT OF HEALTH

[Filed January 30, 2009, 9:02 a.m.]

The department of health is withdrawing the CR-105 for WAC 246-869-090, which was filed July 17, 2008, and published as WSR 08-15-087. The original intent of the expedited rule making was to correct a typo to a code of federal regulation cited in the rule.

The program would like to withdraw this CR-105 and reopen it to include an additional technical correction by deleting the word "doctor's" and replacing it with "prescriber's." This change is consistent with RCW 69.41.050, which details prescription labeling requirements to include "the name of the prescriber." For this reason, the CR-105 for WAC 246-935-010 is being withdrawn.

Individuals requiring information on this rule should contact Doreen E. Beebe, program manager for the board of pharmacy, (360) 236-4834.
