<u>AMENDATORY SECTION</u> (Amending Order 03-08, filed 8/4/04, effective 9/4/04)

- WAC 173-175-390 Payment of construction permit fees. (1) The amount of the construction permit fee will be determined by the department based upon procedures contained in WAC 173-175-360 and 173-175-370 and information contained in the construction plans.
- (a) An initial payment, which may represent all or a portion of the construction permit fee shall be paid in conjunction with the submittal of the construction permit application described in WAC 173-175-120. The amount of the initial payment shall be:
- (i) Ten dollars for the removal of a dam with safety deficiencies as described in WAC 173-175-370(3); or
- (ii) One thousand ((four)) eight hundred ninety dollars for construction of a new dam or modification of an existing dam or project through June 30, 2012, and one thousand nine hundred seventy-seven dollars thereafter.
- (b) The balance of the fee amount (less the initial payment above) is to be paid following notification by the department of the balance due.
  - (c) All fees collected are nonrefundable.
- (2) No fee shall be required for the review of conceptual plans which describe proposed repairs or improvements to existing dams to correct safety deficiencies. The normal con-

- struction permit process will apply at the time plans and specifications are submitted to the department.
- (3) No additional fees shall be required for plan and specification changes and resubmittals required by the department as part of the review process.
- (4) No additional fees shall be required for review of construction change orders.

<u>AMENDATORY SECTION</u> (Amending Order 05-11, filed 8/31/05, effective 10/1/05)

- WAC 173-175-765 Periodic inspection fee schedule. (1) The inspection fee amounts are based on the downstream hazard classification of the dam, as determined by the department((, and incorporate the fiscal growth factor calculated under chapter 43.135 RCW)). The inspection fees for each five-year inspection are prorated on an annual basis.
- (((a) Equation 1 below is used to calculate the annual inspection fees.

Annual Inspection =  $(COST_{FGF}) : (Cycle)$  Equation 1

#### Where:

- (i) Cycle number of years between inspections, with five years being the minimum.
- (ii) FGF = an annual fiscal growth factor expressed as a percentage, as determined under chapter 43.135 RCW.
- (iii) COST<sub>FGF</sub> = cost of inspection in dollars including a fiscal growth factor. The cost is obtained by multiplying the inspection cost in the preceding year by the current year's fiscal growth factor as follows:

 $COST_{FGF}$  = Previous year's cost x [1 + (FGF)] Equation 2

- (b) For implementation of the fiscal growth factor, the base year for dam inspection fees will be fiscal year 2004, ending June 30, 2004. In the base year, the FGF will be zero.
- (e))) The cost for ((an)) <u>a periodic</u> inspection by the department ((in the base year)) <u>starting July 1, 2012</u>, will be as follows:
- (((i) \$3440.00)) (a) For dams with high downstream hazard classifications the fee is six thousand forty dollars, with a prorated annual fee of ((\$688.00)) one thousand two hundred eighty dollars for a five-year inspection cycle.
- (((ii) \$2500.00)) (b) For dams with significant downstream hazard classifications the fee is four thousand four hundred five dollars, with a prorated annual fee of ((\$500.00)) eight hundred eighty-one dollars if a five-year inspection cycle is implemented, or ((\$250.00)) four hundred forty dollars and fifty cents if a ten-year inspection cycle is implemented.
  - (2) Exceptions to periodic inspection fee schedule.
- (a) For any hydraulic works less than ten years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, there shall be no fee charged; or
- (b) For any hydraulic works more than ten years old, but less than twenty years old, that the department examined and approved the construction plans and specifications as to its safety when required under RCW 90.03.350, the fee charged shall equal the fee for a significant hazard dam.

Permanent [6]

- (3) **Inspection fee for impoundments with multiple dams.** For reservoirs or impoundments with a main dam and one or more saddle dams, a single annual inspection fee will be charged for the facility. The dam with the highest downstream hazard rating will be used for fee computation.
- (4) **Inspection fee for multicell impoundments.** For multicell impoundments, such as wastewater lagoons, where two or more cells are located side-by-side or share a common embankment, a single annual inspection fee will be charged for the facility. The cell with the highest downstream hazard classification will be used for fee computation.
- (5) **Inspection fee for nonroutine inspections.** For nonroutine inspections as described in WAC 173-175-725, no fees will be charged to the dam owner.
- (6) **Inspection fee for inspections at public request.** For inspections done at public request, as described in WAC 173-175-735, no fees will be charged to the dam owner.

AMENDATORY SECTION (Amending Order 03-08, filed 8/4/04, effective 9/4/04)

WAC 173-175-785 Periodic inspection fee payments.

(1) The applicable inspection fee shall be paid by check or money order payable to the department of ecology and mailed to the following address:

Department of Ecology

((Dam Safety Inspection Fee Program)) Cashiering Unit P.O. Box ((5128)) 47611

((<del>Lacey</del>)) <u>Olympia</u>, Washington ((<del>98509-5128</del>)) <u>98504-</u>7611.

- (2) In the event a check is returned due to insufficient funds, the department shall consider the inspection fee to be unpaid.
- (3) **Delinquent accounts.** Dam owners are considered delinquent in the payment of fees if the fees are not received by the first invoice billing due date. Delinquent accounts will be processed in the following manner:
- (a) Municipal and government entities shall be notified by certified mail that they have one hundred eighty days to bring the delinquent account up-to-date. Regulatory orders may be issued to enforce a restriction of reservoir filling until all delinquent fees are paid on accounts that remain delinquent after ninety days.
- (b) Nonmunicipal or nongovernment dam owners shall be notified by the department by certified mail that they have one hundred eighty days to bring the delinquent account upto-date. Accounts that remain delinquent after one hundred eighty days may be turned over for collection. In addition, a surcharge totaling twenty percent of the delinquent amount owed will also be added. The surcharge is to recover the costs for collection.   - (d) Financial experience;

- (a) The consumer has been reasonably informed of various features of the annuity, such as the potential surrender period and surrender charge, potential tax penalty if the consumer sells, exchanges, surrenders or annuitizes the annuity, mortality and expense fees, investment advisory fees, potential charges for and features of riders, limitations on interest returns, insurance and investment components, and market risk;
- (b) The consumer would benefit from certain features of the annuity, such as tax deferred growth, annuitization, or death or living benefit;
- (c) The particular annuity as a whole, the underlying subaccounts to which funds are allocated at the time of purchase or exchange of the annuity, and riders and similar product enhancements, if any, are suitable (and in the case of an exchange or replacement, the transaction as a whole is suitable) for the particular consumer based on his or her suitability information; and
- (d) In the case of an exchange or replacement of an annuity, the exchange or replacement is suitable including taking into consideration whether:

Permanent [8]

an insurance producer, or an insurer where no producer is involved, shall make reasonable efforts to obtain the consumer's suitability information.

- (4) An insurer shall not issue an annuity recommended to a consumer unless there is a reasonable basis to believe the annuity is suitable based on the consumer's suitability information.
- (5) An insurer's issuance of an annuity subject to subsection (2) of this section must be reasonable under all the circumstances actually known to the insurer at the time the annuity is issued.
- (6) An insurance producer or, where no insurance producer is involved, the responsible insurer representative must at the time of sale:
- (a) Make a record of any recommendation subject to this section;
- (b) Obtain a customer signed statement documenting a customer's refusal to provide suitability information, if any; and

- (a) Maintain reasonable procedures to inform its insurance producers of the requirements of this regulation and shall incorporate the requirements of this regulation into relevant insurance producer training manuals;
- (b) Establish standards for insurance producer product training and must maintain reasonable procedures to require its insurance producers to comply with the requirements of WAC 284-17-265;

Such review procedures may apply a screening system for the purpose of identifying selected transactions for additional review and may be accomplished electronically or through other means including, but not limited to, physical review. Such an electronic or other system may be designed to require additional review only of those transactions identified for additional review by the selection criteria;
- (e) Maintain reasonable procedures to detect recommendations that are not suitable. This may include, but is not limited to, confirmation of consumer suitability information, systematic customer surveys, interviews, confirmation letters and programs of internal monitoring. Nothing in this subsection (8)(e) prevents an insurer from complying with this subsection (8)(e) by applying sampling procedures, or by confirming suitability information after issuance or delivery of the annuity; and
- (f) Annually provide a report to senior management, including to the senior manager responsible for audit functions, which details the review, with appropriate testing, reasonably designed to determine the effectiveness of the super-

vision system, the exceptions found, and corrective action taken or recommended, if any.

- (8)(a) Nothing in this subsection restricts an insurer from contracting for performance of a function (including maintenance of procedures) required under RCW 48.23.015(4). An insurer is responsible for taking appropriate corrective action and may be subject to sanctions and penalties pursuant to RCW 48.23.015(6) regardless of whether the insurer contracts for performance of a function and regardless of the insurer's compliance with (b) of this subsection.

AMENDATORY SECTION (Amending WSR 00-07-069, filed 3/13/00, effective 4/13/00)

- WAC 284-74-340 General calculation requirements for basic reserves and premium deficiency reserves. (1) At the election of the company for any one or more specified plans of life insurance, the minimum valuation standard of mortality under RCW 48.74.030(1) for basic reserves may be calculated using the 1980 CSO mortality table with select mortality factors (or any other valuation mortality table adopted by the NAIC after the operative date of this regulation and promulgated by regulation by the commissioner for this purpose). If select mortality factors are elected, they may be:
- (a) The ten-year select mortality factors incorporated into the 1980 amendments to the NAIC standard valuation law;
  - (b) The select mortality factors in WAC 284-74-380; or
- (c) Any other table of select mortality factors adopted by the NAIC after the operative date of this regulation and promulgated by regulation by the commissioner for the purpose of calculating basic reserves.
- (2) Deficiency reserves, if any, are calculated under RCW 48.74.070 for each policy as the excess, if greater than zero, of the quantity A over the basic reserve. The quantity A is obtained by recalculating the basic reserve for the policy using the minimum valuation standards of mortality under RCW 48.74.030(1) and rate of interest under RCW 48.74.030 (3), and replacing the net premium by the actual gross premium in each contract year the actual gross premiums shall be the maximum gross premiums guaranteed on the valuation date.

The quantity A and the corresponding net premiums used in the determination of quantity A shall be based upon the minimum valuation standard of mortality under subsection (1) of this section for basic reserves: Provided, That at the election of the company for any one or more specified plans of life insurance, the quantity A and the corresponding net premiums used in the determination of the quantity A may be based upon the 1980 CSO mortality table with select mortality factors (or any other valuation mortality table adopted by the NAIC after the operative date of this regulation and promulgated by regulation by the commissioner). If select mortality factors are elected, they may be:

- (a) The ten-year select mortality factors incorporated into the 1980 amendments to the NAIC standard valuation law;
  - (b) The select mortality factors in WAC 284-74-380;
- (c) Subject to the conditions in subsection (3) of this section, X percent of the select mortality factors in WAC 284-74-380; or
- (d) Any other table of select mortality factors adopted by the NAIC after the operative date of this regulation and promulgated by regulation by the commissioner for the purpose of calculating deficiency reserves.

- (3) If X percent of the select mortality factors in WAC 284-74-380 is elected under subsection (2)(c) of this section, then that election is subject to the following conditions:
- (a) X may vary by policy year, policy form, underwriting classification, issue age, or any other policy factor expected to affect mortality experience;
  - (b) ((X shall not be less than twenty percent;
  - (e) X shall not decrease in any successive policy years;
- (d))) Using the valuation interest rate for basic reserves, subparagraph (i) is greater than or equal to subparagraph (ii);
- (i) The actuarial present value of future death benefits, calculated using the mortality rates resulting from the application of X;
- (ii) The actuarial present value of future death benefits, calculated using anticipated mortality experience without recognition of mortality improvement beyond the valuation date;
- (((e))) (c) The mortality rates resulting from the application of X are at least as great as anticipated mortality experience, without recognition of mortality improvement beyond the valuation date, in each of the first five years after the valuation date:
- ((<del>(f)</del>)) (<u>d</u>) The appointed actuary shall increase X at any valuation date where it is necessary to continue to meet all the requirements of this subsection (3);
- $((\frac{e}{g}))$  (e) The appointed actuary may decrease X at any valuation date ((as long as X does not decrease in any successive policy years and)) as long as it continues to meet all the requirements of this subsection (3); ((and))
- (((h))) (f) The appointed actuary shall specifically take into account the adverse effect on expected mortality and lapsation of any anticipated or actual increase in gross premiums((-)): and
- $((\frac{1}{2}))$  (g) If X is less than one hundred percent at any duration for any policy, the following requirements shall be met:
- (i) The appointed actuary shall annually prepare an actuarial opinion and memorandum in conformance with the requirements of WAC 284-07-380 through 284-07-400; ((and))
- (ii) The appointed actuary shall disclose in the regulatory asset adequacy issues summary the impact of insufficiency of assets to support the payment of benefits and expenses and the establishment of statutory reserves during one or more interim periods; and
- (iii) The appointed actuary shall annually opine for all policies subject to this regulation as to whether the mortality rates resulting from the application of X meet the requirements of this subsection (3). This opinion shall be included with or attached to the company's annual statement, and shall disclose the lowest X factor used for any policy on the valuation date. This opinion shall be supported by an actuarial report, subject to appropriate actuarial standards of practice promulgated by the Actuarial Standards Board of the American Academy of Actuaries. The X factors shall reflect anticipated future mortality, without recognition of mortality improvement beyond the valuation date, taking into account relevant emerging experience.
- (4) This subsection applies to both basic reserves and deficiency reserves. Any set of select mortality factors may

Permanent [10]

be used only for the first segment. However, if the first segment is less than ten years, the appropriate ten-year select mortality factors incorporated into the 1980 amendments to the NAIC standard valuation law may be used thereafter through the tenth policy year from the date of issue.

- (5) In determining basic reserves or deficiency reserves, guaranteed maximum gross premiums without policy fees may be used where the calculation involves the guaranteed maximum gross premium but only if the policy fee is specified in the policy and is a level dollar amount for the entire premium paying period of the policy. In determining deficiency reserves, policy fees may be included in guaranteed maximum gross premiums, even if not included in the actual calculation of basic reserves.
- (6) Reserves for policies under which the insurer has changed its guarantees after issue with respect to gross premiums, benefits, charges, or credits, with the new guarantees effective for more than one year after the date of the change, shall be the greatest of the following:
  - (a) Reserves calculated ignoring the change;
- (b) Reserves assuming the guarantee was made at issue; and
- (c) Reserves assuming that the policy was issued on the date of the guarantee.
- (7) The commissioner may require that the company document the extent of the adequacy of reserves for specified blocks, including, but not limited to, policies issued prior to the operative date of this regulation. This documentation may include a demonstration of the extent to which aggregation with other nonspecified blocks of business is relied upon in the formation of the appointed actuary opinion pursuant to and consistent with the requirements of WAC 284-07-380 and 284-07-400.

# WSR 12-06-066 PERMANENT RULES DEPARTMENT OF LABOR AND INDUSTRIES

[Filed March 6, 2012, 9:20 a.m., effective April 6, 2012]

Effective Date of Rule: Thirty-one days after filing.

Purpose: RCW 51.36.010, as amended by SSB 5801, chapter 6, Laws of 2011, directs the department of labor and industries (L&I) to establish a statewide medical provider network to treat injured and ill workers. SSB 5801 states that "Once the provider network is established in the worker's geographic area, an injured worker may receive care from a nonnetwork provider only for an initial office or emergency room visit." This amended rule language clarifies "initial visit." The amended rule language informs health care providers and workers as to what services may be provided by a nonnetwork provider and when care must be transferred to a network provider.

The first section is difficult to read and was broken into two sections for clarity and "provider" references will be singular where applicable. To be consistent, "work-related" was changed to "work related" in all references in the final language.

AMENDATORY SECTION (Amending WSR 04-22-085, filed 11/2/04, effective 12/15/04)

WAC 296-14-400 Reopenings for benefits. The director at any time may, upon the workers' application to reopen for aggravation or worsening of condition, provide proper and necessary medical and surgical services as authorized under RCW 51.36.010. This provision will not apply to total permanent disability cases, as provision of medical treatment in those cases is limited by RCW 51.36.010.

The seven-year reopening time limitation shall run from the date the first claim closure becomes final and shall apply to all claims regardless of the date of injury. In order for claim closure to become final on claims where closure occurred on or after July 1, 1981, the closure must include documentation of medical recommendation, advice or examination. Such documentation is not required for closing orders issued prior to July 1, 1981. First closing orders issued

between July 1, 1981, and July 1, 1985, shall for the purposes of this section only, be deemed issued on July 1, 1985.

The director shall, in the exercise of his or her discretion, reopen a claim provided objective evidence of worsening is present and proximately caused by a previously accepted asbestos-related disease.

In order to support a final closure based on medical recommendation or advice the claim file must contain documented information from a doctor, or nurse consultant (departmental) or nurse practitioner. The doctor or nurse practitioner may be in private practice, acting as a member of a consultation group, employed by a firm, corporation, or state agency.

For the purpose of this section, a "doctor" is defined in WAC 296-20-01002.

When a claim has been closed by the department or self-insurer for sixty days or longer, the worker must file a written application to reopen the claim. An informal written request filed without accompanying medical substantiation of worsening of the condition will constitute a request to reopen, but the time for taking action on the request shall not commence until a formal application is filed with the department or self-insurer as the case may be.

A formal application occurs when the worker and doctor complete and file the application for reopening provided by the department. Upon receipt of an informal request without accompanying medical substantiation of worsening of the worker's condition, the department or self-insurer shall promptly provide the necessary application to the worker for completion. For services or provider types where the department has established a provider network, beginning January 1, 2013, medical treatment and documentation for reopening applications must be completed by network providers.

If, within seven years from the date the first closing order became final, a formal application to reopen is filed which shows by "sufficient medical verification of such disability related to the accepted condition(s)" that benefits are payable, the department, or the self-insurer, pursuant to RCW 51.32.210 and 51.32.190, respectively shall mail the first payment within fourteen days of receiving the formal application to reopen. If the application does not contain sufficient medical verification of disability, the fourteen-day period will begin upon receipt of such verification. If the application to reopen is granted, compensation will be paid pursuant to RCW 51.28.040. If the application to reopen is denied, the worker shall repay such compensation pursuant to RCW 51.32.240.

Applications for reopenings filed on or after July 1, 1988, must be acted upon by the department within ninety days of receipt of the application by the department or the self-insurer. The ninety-day limitation shall not apply if the worker files an appeal or request for reconsideration of the department's denial of the reopening application.

The department may, for good cause, extend the period in which the department must act for an additional sixty days. "Good cause" for such an extension may include, but not be limited to, the following:

(1) Inability to schedule a necessary medical examination within the ninety-day time period;

Permanent [18]

- (2) Failure of the worker to appear for a medical examination:
- (3) Lack of clear or convincing evidence to support reopening or denial of the claim without an independent medical examination;
- (4) Examination scheduled timely but cannot be conducted and a report received in sufficient time to render a decision prior to the end of the ninety-day time period.

The department shall make a determination regarding "good cause" in a final order as provided in RCW 51.52.050.

The ninety-day limitation will not apply in instances where the previous closing order has not become final.

If the provider is not enrolled in the provider network and the injured worker requires additional treatment, the provider will either:

- (b) Refer the injured worker to a network provider of the worker's choice.
- (6) If the ((practitioner)) provider is not the original attending ((doctor)) provider, he/she should question the injured worker to determine whether a report of accident has been filed for the injury or condition. AMENDATORY SECTION (Amending WSR 93-16-072, filed 8/1/93, effective 9/1/93)

WAC 296-20-065 Transfer of ((doetors)) providers. For services or provider types where the department has

Permanent [20]

established the provider network, the injured worker must select an attending provider from the provider network for all care beyond the initial visit. If the initial office or emergency room visit was completed with a nonnetwork provider and additional treatment is needed, the worker must transfer care to a network provider and promptly inform the department or self-insurer.

All transfers from one ((doetor)) network provider to another must be approved by the department or self-insurer. Normally transfers will be allowed only after the worker has been under the care of the attending ((doetor)) provider for sufficient time for the ((doetor)) provider to: Complete necessary diagnostic studies, establish an appropriate treatment regimen, and evaluate the efficacy of the therapeutic program.

Under RCW 51.36.010 the worker is entitled to free choice of treating ((doctor)) provider. Except as provided under subsections (1) through (7) of this section, no reasonable request for transfer to a network provider will be denied. The worker must be advised when and why a transfer is denied.

When a transfer is approved, the new attending ((doetor)) provider must be provided with a copy of the worker's treatment record by the previous attending ((doetor)) provider. X rays in the possession of the previous attending ((doetor)) provider must be immediately forwarded to the new attending ((doetor)) provider for his or her retention as long as the worker remains under his or her care. Copies of X rays and other records may be provided in lieu of originals.

The department or self-insurer reserves the right to require a worker to select another ((doetor)) <u>provider</u> or specialist for treatment, under the following conditions:

- (1) When more conveniently located ((doetors)) <u>providers</u>, qualified to provide the necessary treatment, are available.
- (2) When the attending ((doetor)) provider fails to cooperate in observance and compliance with the department rules.
- (3) In time loss cases where reasonable progress towards return to work is not shown.
- (4) Cases requiring specialized treatment, which the attending ((doetor)) provider is not qualified to render, or is outside the scope of the attending ((doetor's)) provider's license to practice.
- (5) Where the department or self-insurer finds a transfer of ((doetor)) provider to be appropriate and has requested the worker to transfer in accordance with this rule, the department or self-insurer may select a new attending ((doetor)) provider if the worker unreasonably refuses or delays in selecting another attending ((doetor)) provider.
- (6) In cases where the attending ((doctor)) <u>provider</u> is not qualified to treat each of several accepted conditions. This does not preclude concurrent care where indicated. See WAC 296-20-071.
- (7) No transfer will be approved to a consultant or special examiner without the approval of the attending ((doetor)) provider and the worker.

Transfers will be authorized for the foregoing reasons or where the department or self-insurer in its discretion finds that a transfer is in the best interest of returning the worker to a productive role in society.

When a worker's care is transferred to another ((doetor)) provider each ((doetor)) provider must submit a separate bill to the department or self-insurer for their portion of the care. Payment will be made at rates determined by department policy.

AMENDATORY SECTION (Amending WSR 90-04-057, filed 2/2/90, effective 3/5/90)

The department may develop and implement utilization management criteria which will be used to review inpatient hospital admissions. Reimbursement for hospitalization is limited to proper and necessary care for an accepted condition. Failure to comply with these criteria may result in delayed or reduced reimbursement to the provider as allowed under chapter 51.48 RCW. Ward or semi-private accommodations will be paid, unless the worker's condition requires special care.
- (2) Discharge from the hospital shall be at the earliest date possible consistent with proper health care. <u>If additional treatment is needed, discharge planning must include referral to a network provider.</u> If transfer to a convalescent center or nursing home is indicated, prior arrangements should be made with the department or self-insurer. See WAC 296-20-091 for further information. The department may designate those diagnostic and surgical procedures which will be reimbursed only if performed in an outpatient setting.
