The WSRC is a group of fifteen governor-appointed volunteers created under Title 1, Section 105 of the Rehabilitation Act and by Executive Order 04-04. Our members are systems advocates for the division of vocational rehabilitation (DVR). Our purpose is to increase the likelihood that people with disabilities receive timely, equitable, effective services from DVR that help them to find jobs. We are responsible for seeking input from current or former DVR customers. We are inviting you to join us to share ideas that may improve the process for future DVR customers. **You are not required to attend. This is not a regular DVR appointment with your counselor.** During this gathering we will take comment for ninety minutes. The last half hour will be for mingling and following up with DVR staff about individual case concerns.

Here are some examples of the issue-oriented information we are seeking:

- What worked well for you in your experience with DVR?
- What do you think DVR can do better or differently?
- What were some of the ways DVR staff treated you with courtesy and respect?
- Did you have a say in picking the kind of job you want?
- How did your experience with DVR help you gain skills, training, or other qualifications to go to work?
- If you have a job, are you working as much as you want to?, and
- If you have a job, do you have more money than you had before working with DVR?

To request reasonable accommodation or a spoken language interpreter, please contact JoAnne Lang at langjk@dshs.wa.gov or 1-866-252-2939.

DEPARTMENT OF ECOLOGY

[Filed September 18, 2012, 3:18 p.m.]

PUBLIC NOTICE

Announcing the Proposal of a Japanese Eelgrass Management on Commercial Clam Beds in Willapa Bay General Permit

The department of ecology (ecology) is proposing to issue a general permit for the application of the aquatic herbicide imazamox to manage Japanese eelgrass on commercial clam beds in Willapa Bay. Based on comments from ecology's earlier proposal to issue a permit for all commercial shellfish beds, ecology plans to narrow the scope of this proposed permit to include only commercial clam beds (excluding geoduck culture) in Willapa Bay in Pacific County.

These management activities may result in the discharge of chemicals to the surface waters of the state of Washington

in Willapa Bay. We are also issuing a scoping notice for an environmental impact statement (EIS) to cover this activity. Find the EIS scoping notice and more information at www.ecy.wa.gov/programs/wq/pesticides/eelgrass.html. Ecology is requesting comments from the public about whether or not it is appropriate for ecology to develop a permit for this activity. This comment period for this revised permit proposal is from **October 3, through November 2, 2012, at 5 p.m.** Ecology prefers to have comments submitted by e-mail, but accepts all comments.

E-mail your comments to Kathy Hamel at Eelgrass-Comments@ecy.wa.gov.

Please direct comments to Kathy Hamel, Washington State Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600, phone (360) 407-6562, e-mail Kathy.Hamel@ecy.wa.gov.

Purpose of the General Permit: The Japanese eelgrass management on commercial clam beds general permit (permit) in Willapa Bay will regulate the use of the herbicide imazamox and marker dyes applied to manage Japanese eelgrass on commercial clam beds where imazamox may enter the surface waters of the state of Washington.

Under the Washington State Water Pollution Control Act, a permit is required for the discharge of pollutants which may alter the biological or chemical characteristics of a water body. The proposed permit addresses these legal requirements and regulates the discharge of pollutants to protect surface water quality in Washington state.

Ecology issues general permits in place of a series of individual permits when the permitted activities are similar. Agencies that receive coverage under the general permit must comply with the terms and conditions of the permit.

The attorney general's office seeks public input on the following opinion request(s):

Opinion Docket No. 12-09-01

Request by Eileen Cody, Representative, District 34

1. Under RCW 19.68.010, can a clinical laboratory licensed by the State lawfully make a monetary donation to a physician to cover 85% of the software cost of that physician's electronic health record (EHR) when the physician's office that is the recipient of the EHR donation either continues a referral arrangement with the laboratory, or subsequently initiates an arrangement for the referral or specimens to the donating laboratory for analysis?

2. If such donations are in fact permissible under RCW 19.68.010, will a subsequent initiation or increase in specimen referrals between the physician recipient of the donation, who orders clinical laboratory services, and the donating laboratory be a violation, or a potential violation of the code and thus subject to investigation by the Medical Quality Assurance Commission?
