Document Title: Provider Notice #13-119.

Subject: Revised patient eligibility verification instructions now available in medicaid provider guides (MPGs).

The medicaid program of the health care authority (HCA) is adding a new section to its MPGs to help you verify that a patient has Washington apple health coverage for a specific date of service and whether the client's benefit package covers that applicable service. Verifying a patient's eligibility will help prevent delivering a service the agency will not pay for.

The agency is also including information to help you assist patients who do not have Washington apple health coverage to apply for the expanded coverage under the Patient Protection and Affordable Care Act beginning January 1, 2014.

The new section in the MPGs is: *How can I verify a patient's eligibility?*

Document Title: Public notice.  
Subject: Establishment of new 1915(c) waiver, enhanced residential services waiver.  
Effective Date: June 1, 2014.

Document Description: HCS intends to submit a waiver application to the federal Centers for Medicaid and Medicare

Services (CMS) to establish a new waiver called enhanced residential services. The goal of this new waiver is to provide residential supports to adults who are eligible for nursing facility level of care and are relocating from a psychiatric hospital. These adults have a need for enhanced residential services that provide behavioral supports, personal care assistance, and supervision related to mental health disorders, chemical dependency disorders, traumatic brain injuries and/or cognitive/developmental impairments. The waiver will provide a home and community based licensed facility option for receipt of services rather than a nursing facility or other more restrictive setting such as a psychiatric hospital.

Effective Date: January 1, 2014.

Description: The health care authority intends to submit SPA 14-0015 to the Centers for Medicare and Medicaid Services (CMS) to comply with certain provisions in the Affordable Care Act. The SPA will update the language regarding the calculation of medicare rates for calendar year (CY) 2014 in the previously approved SPA 13-23. Increased medicaid payment rates will be not less than medicare payment rates in calendar years 2013 and 2014 for eligible physicians specializing in family medicine, general internal medicine, and pediatric medicine when they furnish evaluation and management and vaccine administration services to eligible medicaid clients. The anticipated fiscal impact of this update has not changed from SPA 13-23: \$18,813,096 for CY 2014.

**NOTICE**

Title or Subject: Apple Health Managed Care 1915(b) waiver renewal.

Effective Date: July 1, 2014.

Description: Renewal of Washington state's 1915(b) waiver.

The health care authority (the agency) intends to submit an amendment to the current 1915(b) waiver that allows the agency to mandatorily enroll categorically needy SSI blind and disabled adults and children into the apple health (formerly healthy options) managed care program. This waiver will extend the current waiver from July 1, 2014 - June 30, 2016. The waiver expands the population with access to guaranteed health care services to include SSI-eligible blind and disabled enrollees, in addition to the families and children traditionally served by Washington's managed care program.

The apple health managed care (AHMC) program offers many benefits, including guaranteed access to primary care, care coordination and care management services, and access to health home services for those who qualify. For beneficiaries who do not have access to health care services, AHMC can provide an avenue to improved health outcomes, especially for beneficiaries with multiple chronic health conditions.

The agency intends to submit this waiver renewal to the Centers for Medicare and Medicaid Services on or before March 31, 2014.

**NOTICE**

Title or Subject: Primary care case management.

Effective Date: January 1, 2014.

Description: Medicaid State Plan Amendment (SPA) 14-0003.

Beginning January 1, 2014, the state of Washington began implementation of the Affordable Care Act (ACA), in part, by:

- Expanding medicaid eligibility to individuals with a modified adjusted gross income up to one hundred thirty-eight percent of federal poverty level (FPL).
- Enrolling newly eligible beneficiaries in apple health managed care.
- Allowing enrollment of newly eligible American Indian/Alaska Native (AI/AN) beneficiaries in primary care case management (PCCM).

The health care authority (the agency) has already amended the medicaid state plan governing managed care to allow for this expansion. SPA 14-0003 will allow for enrollment of newly eligible AI/AN beneficiaries in the PCCM program. PCCM is provided by fourteen tribal clinics and two urban Indian centers.

PCCM is a case management program that provides coordination of care and referrals to specialty services for AI/AN beneficiaries. PCCM providers are paid a per member, per month fee to ensure case management and continuity of care for their patients. This program can be very beneficial to AI/AN who have chronic health conditions and who would see improved health outcomes from having their health care needs better coordinated.

The agency intends to submit this SPA on or before March 31, 2014.
