NEW SECTION

WAC 308-104-350 Significant decisions in driver license cases. (1) The department will use the process outlined in this section to nominate, select, and index significant decisions in the following types of adjudicative proceedings related to a sanction of the driving privilege:

(a) The implied consent law (RCW 46.20.308);

(b) The financial responsibility law (chapter 46.29 RCW);

(c) The habitual traffic offender law (chapter 46.65 RCW);

(d) The Uniform Commercial Driver's License Act (chapter 46.25 RCW);

(e) Any formal hearing affecting the driving privilege conducted pursuant to the provisions of RCW 46.20.329 through 46.20.333.

(2) For the purposes of this section, a significant decision is a final order or a portion of a final order in an adjudicative proceeding that is of substantial importance to the department in carrying out its duties. Generally, an order is of substantial importance only if it analyzes and applies a statute or rule under the department's authority, demonstrates the department's reasoning as to a frequently recurring legal issue, provides a legal analysis or interpretation not found in existing case law, or applies settled law to unusual facts.

(3) Any person may nominate a final adjudicative order to be evaluated for indexing by completing an Order Index Nomination Request Form. The form can be obtained from the department's web site at www.dol.wa.gov and returned to the Hearings and Interviews Unit, P.O. Box 9031, Olympia, WA 98507-9031, along with a copy of the nominated order.

(4) The director or director's designee shall make a final decision as to whether to select the nominated order as a significant decision based on the criteria in subsection (2) of this section, and that decision is not appealable.

(5) A decision that has been selected by the director as significant shall be maintained in a separate index. The index shall at a minimum contain a description of the type of document, name of parties, brief description of the legal subjects and pertinent legal citation. A copy of the index and a copy of the significant decision will be made available on the department's web site at www.dol.wa.gov. The general public records index maintained under WAC 308-10-067 will contain a reference to the specific location and identification of significant decision index and copies of the significant decisions.

(6) The department shall periodically update and review the index to verify that the indexed documents continue to meet the criteria in subsection (2) of this section. The department may, at any time, delete a document from an index. Under RCW 42.56.070(6), a significant decision may not be cited in a proceeding if it has not been indexed.

AMENDATORY SECTION (Amending WSR 16-04-048, filed 1/27/16, effective 2/27/16)

WAC 415-02-178 May I purchase an annuity? (1) Am I eligible to purchase an annuity? You are eligible to purchase an annuity at the time of retirement from your defined benefit ~~((for either service or disability))~~ plan if you are a member of TRS (RCW 41.32.067), WSPRS (RCW 43.43.315), LEOFF Plan 1 (RCW 41.26.105), or LEOFF Plan 2 (RCW 41.26.463). This annuity provides a lifetime increase to your monthly benefit. (For purchasing an annuity

from your Plan 3 defined contribution account, refer to WAC 415-111-320.)

(2) Can I purchase an annuity if I take a lump sum payment? ~~((No.))~~ You may not purchase an annuity if you elect a lump sum payment instead of a monthly benefit.

(3) Are there limits to the annuity amount I may purchase? There is no maximum limit on the purchase amount. If you are a LEOFF ~~((Plan 2 member))~~ or WSPRS member the minimum purchase amount ((you may purchase)) is \$25,000. There is no minimum required for TRS members.

(4) When can I apply to purchase an annuity? You must submit your request to purchase an annuity to the department at the time you apply for retirement.

(5) How much will my monthly benefit increase if I purchase an annuity? The increase in your monthly benefit will be calculated using the following formula:

$$\text{Purchase Annuity Amount} \times \text{Annuity Factor} = \text{Increase to Monthly Benefit}$$

The annuity factor is determined by your age on the later of your retirement date or the date your retirement application is submitted to the department.

Example: John is a member of LEOFF Plan 2. He applies for retirement and requests to purchase an annuity for \$45,000. For illustration purposes in this example only, we will use .0051025 as the corresponding annuity factor (factors change periodically). John's monthly benefit will increase by \$229.61 per month, calculated as follows:

$$\text{Purchase Annuity Amount} \times \text{Annuity Factor} = \text{Increase to Monthly Benefit}$$

$$\$45,000 \times .0051025 = \$229.61$$

(6) How and when do I pay for the annuity? The department will generate a bill to you for the cost of the annuity after we receive your request to purchase.

(a) For all TRS members, payment may be made by making a one-time ~~((cash, check, or electronic fund transfer))~~ personal payment; or you may roll over funds from another tax-deferred retirement account.

(b) For LEOFF ~~((Plan 2))~~ and WSPRS members, the annuity must be purchased by rolling over funds from an "eligible retirement plan" which is a tax qualified plan offered by a governmental employer (like the state of Washington's deferred compensation program).

(c) Payment must be made in full by ninety days after the later of your retirement date or bill issue date. Your annuity will begin once your payment is received and your retirement is processed. The effective date for the start of this benefit is the later of your retirement date or the payment in full date plus one day.

(7) ~~((Are there benefit options that allow me to choose a survivor to receive a continuing payment after my death? Yes.))~~ What are the survivor options for my annuity? The survivor option you designate for your ~~((monthly benefit must))~~ retirement benefit will also be used for your ~~((purchase of))~~ annuity purchase, with the exception of WSPRS Plan 1 Option A and LEOFF Plan 1.

~~((Depending upon the rules for your retirement system and plan and the benefit option you choose at retirement,~~

your survivor's monthly benefit will be a percentage of the gross monthly benefit you were receiving.) If you are a WSPRS Plan 1 member who chose Option A or you are a LEOFF Plan 1 member, your annuity will be paid for your lifetime only. Under these two survivor options, even though the retirement benefit may be paid over two lifetimes, there is no actuarial reduction. No actuarial reduction can be applied to the annuity, therefore the annuity can only be treated as if a single life option was chosen.

If you choose a benefit option with a survivor feature and your survivor dies before you, your monthly ~~((benefit))~~ annuity payment will increase to the amount it would have been had you not selected a survivor option.

(8) Will I receive a cost of living adjustment (COLA) on the portion of my benefit that is based on the purchased annuity?

(a) If you are eligible for an annual COLA adjustment on your monthly benefit, you will receive the same COLA percentage on this annuity.

(b) If you retire from TRS Plan 1 you must elect the optional auto COLA in order to receive a COLA on the annuity amount.

(9) If I purchase an annuity and then return to work, how will the annuity portion of my benefit be affected? You will continue to receive the annuity portion of your monthly benefit payment even if you return to work, or return to membership.

(10) If I retire then return to membership and rereire, may I purchase another annuity? Yes. You may purchase another annuity when you rereire provided you are rereiring from an eligible plan that allows an annuity purchase.

(11) May I purchase an annuity from more than one retirement plan?

(a) If you are a dual member under chapter 415-113 WAC, Portability of public employment benefits, and you combine service credit to retire as a dual member, you may purchase an annuity from each dual member plan that allows an annuity purchase.

(b) If you are not a dual member and retire separately from more than one plan you may purchase an annuity from each eligible plan that allows an annuity purchase.

(12) ~~((How are the funds I paid to purchase the annuity treated upon my death (and the death of my survivor beneficiary, if applicable)?~~

~~(a) Plans 1 and 2. The amount paid to purchase the annuity is credited to your individual account as part of your accumulated contributions. Distribution of accumulated contributions after your death (and the death of your survivor beneficiary, if any) is governed by the statutes and rules applicable to your plan. See:~~

- ~~(i) WAC 415-112-504(9) for TRS Plan 1;~~
- ~~(ii) WAC 415-112-505(7) for TRS Plan 2;~~
- ~~(iii) WAC 415-104-215(7) for LEOFF Plan 2;~~
- ~~(iv) WAC 415-103-215 for WSPRS Plan 1;~~
- ~~(v) WAC 415-103-225(7) for WSPRS Plan 2.~~

~~(b) TRS Plan 3. NEW SECTION

WAC 260-84-125 Multiple medication violations. (1)

A trainer who receives a penalty for a medication violation based upon a horse testing positive for a class 1-5 medication, as provided in WAC 260-70-685 shall be assigned points based upon the substances penalty class designation for the substance.

Class	Points if Threshold is Established by WHRC	Points if No Threshold is Established by WHRC
Class A	N/A	6
Class B	2	4
Class C	1/2, with incremental increases of 1/2 point for each additional violation within 365 days	1, with incremental increases of 1/2 point for each additional violation within 365 days
Class D	0	0

If the stewards or commission determine that the violation is due to environmental contamination, they may assign fewer or no points against a trainer based on specific facts of the case.

(a) The points assigned to a medication violation shall be included in the steward's or commission ruling. The ruling will contain the penalty imposed for the original violation as defined in chapters 260-70 and 260-84 WAC.

(b) If an appeal is filed after the original ruling is issued, a second ruling will be issued citing the appeal and stating

that no points shall be applied until the licensee has exhausted their rights of appeal.

(c) If the trainer's point total exceeds the limit for a secondary suspension, a conference will be held to assess the suspension. Once all appeals period have expired or all appeals are exhausted or waived, the second conference will be held at which time the points, based on the WHRC guidelines shall immediately become part of the trainer's record and shall then subject the trainer to the enhanced penalties imposed by the stewards or commission.

(d) A trainer's cumulative points, based on the commission guidelines, for violations in all jurisdictions shall be used in determining the enhanced penalty for medication violations and whether enhanced penalties shall be imposed. Points will be reported to Association of Racing Commissioners International and become part of the trainer's official record.

(e) Multiple positive tests for the same medication incurred by a trainer prior to delivery of official notice of the violations by the commission may be treated as a single violation.

(f) The official ARCI record of the trainer's past violations shall be prima facie evidence of a trainer's past violations.

(2) In addition to the penalty imposed for the original violation, the following enhanced penalty shall be imposed upon a trainer based on the cumulative points as determined by the stewards or commission.

Points	Suspension in Days
5 to 5.5	15 to 30 days
6 to 8.5	30 to 60 days
9 to 10.5	90 to 180 days
11 or more	180 to 360 days

(a) Enhanced penalties for multiple medication violations are not a substitute for the original penalty and are intended to be an additional penalty when the licensee:

(i) Has more than one violation for the relevant time period; and

(ii) Exceeds the permissible number of points.

(b) The suspension periods as provided above shall run consecutive to any suspension imposed for the original offense. The stewards or commission ruling shall distinguish the penalty for the original offense and enhanced penalty based on the trainer's cumulative points.

(c) Points shall expire as follows:

Penalty Classification	Expunged Time
Class A	3 years
Class B	2 years
Class C	1 year

In the case of a medication violation that results in a suspension, any points assessed expire on the anniversary date when the suspension is completed.

Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: To update and add recommended thresholds by the Association of Racing Commissioners International to move toward uniformity from jurisdiction to jurisdiction.

Reasons Supporting Proposal: Uniformity would be beneficial to the industry from the standpoint that trainers would not be required to be educated on medication practices each time the [they] move to a new jurisdiction. ~~((The official urine or blood test sample may not contain more than one of the above substances, including their metabolites or analogs, and may not exceed the concentrations established in this rule.))~~ Where a permitted medication has thresholds in both urine and serum or plasma, as set forth in this section, it is not a defense to a violation that the permitted medication does not exceed both thresholds.

(2) Environmental substances.

(a) Certain substances can be considered "environmental" in that they are endogenous to the horse or that they can arise from plants traditionally grazed or harvested as equine feed or are present in equine feed because of contamination or exposure during the cultivation, processing, treatment, storage, or transportation phases. Certain drugs are recognized as substances of human use and could therefore be found in a horse. The following substances are permissible in test samples up to the stated concentrations:

Arsenic - 0.3 ~~((mc/ml))~~ mcg/ml urine
 Caffeine - 100 ng/ml serum or plasma

Theobromine - 2 ((~~mcg/ml~~) mcg/ml) urine

Tramadol - 50 ng/ml urine

(b) If a preponderance of evidence presented shows that a positive test is the result of environmental substance or inadvertent exposure due to human drug use, that evidence should be considered as a mitigating factor in any disciplinary action taken against the trainer.

(3) Androgenic-anabolic steroids.

(a) The following androgenic-anabolic steroids are permissible in test samples up to the stated concentrations:

Boldenone (Equipose) - 15 ng/ml urine in intact males(~~- No level is permitted~~) - 1 ng/ml in urine for geldings, fillies or mares.

Nandrolone (Durabolin) - 1 ng/ml urine in geldings, fillies, and mares, and for nandrolone metabolite (5a-oestrane-3β,17a-diol) - 45 ng/ml urine in intact males.

Testosterone - 20 ng/ml urine in geldings. 55 ng/ml urine in fillies and mares. Samples from intact males will not be tested for the presence of testosterone.

Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: The purpose of this rule-making proposal relates to the statewide all-payer health care claims database (APCD). Specifically, the rules are intended to provide the procedures for ensuring that privacy and security standards are met. These standards may be set by federal or state law, or by the Washington state office of chief information officer. In all events, it is necessary to ensure that the privacy of the data is maintained and that the

Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: WAC 232-28-248, 232-28-273, 232-28-291, 232-28-296, 232-28-337, 232-28-342, 232-28-357, 232-28-359, 232-28-360, 232-28-436, 232-28-622, 232-28-624, 232-12-021, 232-28-283, 232-28-299 and 232-28-358; the proposed changes include corrections to WAC headings or internal references to other WAC that are subject to the recodification of Title 232 WAC. This is part of the department's effort to cleanup and better organize WDFW's administrative code and provides the public and department staff with a more logical and navigable code. It will also consolidate all rules under one WAC title and

should accomplish a streamlined, legally accurate, and legally adequate administrative code.

WAC 232-28-248, the proposed changes to the special closures and firearm restriction areas WAC are administrative changes that clarify road names and GMU names.

WAC 232-28-273, WDFW is proposing (1) reducing any moose permits in the combined GMU 127 and 130 hunting unit ("Hangman") from 7 to 4; (2) reducing antlerless-only moose permits in GMU 127 from 7 to 4; (3) extending season length of the Parker Lake archery (moose area 3) hunt from Sept. 1-26 to Sept. 1-30; (4) extending season length of Parker Lake muzzleloader from Sept. 27-Oct. 5 to Oct. 1-31; and (5) increasing the number of hunter education instructor incentive permits from 2 to 4, but expanding the GMUs open to these permit holders to include GMUs 101, 105, 108, 111, 113, and 121.

WAC 232-28-291, this proposal allows the department to restore points to hunters that draw a damage hunt administered by a WDFW designated hunt coordinator, but do not get called to participate.

WAC 232-28-296, this proposal modifies hunt dates on properties enrolled in WDFW's landowner hunting permit (LHP) program for the 2017 hunting seasons. These sites offer special hunting opportunities to the public through permits issued by WDFW, raffles, or selection by the landowner.

WAC 232-28-337, six elk areas are proposed for removal in Grays Harbor, Mason, Clallam, and Jefferson counties. These elk areas (EA 6012, EA 6062, EA 6066, EA 6068, EA 6072, EA 6073) are no longer needed to mitigate wildlife conflict.

WAC 232-28-342, this proposal changes the wildlife area name South L.T. Murray to Wenas. The wildlife area name Wenas will now be consistent with WDFW publications including web site pages, pamphlet and brochures.

WAC 232-28-357, the purpose of this proposal is to retain general season deer hunting opportunity for 2017. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when deer populations allow, and reduces the opportunity when declining deer numbers warrant a change.

WAC 232-28-359, the purpose of this proposal is to retain special permit deer hunting opportunity for 2017. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when deer populations allow, and reduces the opportunity when declining deer numbers warrant a change.

WAC 232-28-360, the purpose of this proposal is to retain elk special permit hunting opportunity for 2017. The purpose is also to balance the elk hunting opportunity between user groups. The proposal also increases elk hunting opportunity when elk populations allow, and reduces elk hunting opportunity when declining elk numbers warrant a change.

WAC 232-28-436, this proposal amends WAC 232-28-436 2016-2017 Migratory waterfowl seasons and regulations, to specify legal season dates, bag limits, and open areas to hunt waterfowl, coot, snipe, band-tailed pigeon, and mourning dove for the 2017-2018 hunting season. In this proposal goose bag limits are changed from a bag limit of 4 geese (not including brant) to allow harvest of 4 Canada geese, 10

white-fronted geese, and 6 white geese statewide during specified season dates. Dusky Canada goose remains closed to harvest. The proposal opens Whatcom and Clallam counties to limited brant harvest dates.

WAC 232-28-622, WDFW is proposing (1) temporarily eliminating the bighorn sheep ram permit for the Vulcan Mountain herd, (2) adding a second season of bighorn sheep ewe permits at the Cleman Mountain herd (which would add 10 permits during a later season to the 10 offered in 2016), and (3) adjusting the season of the early bighorn sheep ewe season at Cleman Mountain.

WAC 232-28-624, the proposed changes to the deer area descriptions rule will create a new deer area in Klickitat County. The proposed new deer area will expand deer hunting opportunity on newly acquired wildlife area land.

WAC 232-12-021, 232-28-283, 232-28-299 and 232-28-358, the proposed changes include corrections to WAC headings or internal references to other WAC that are subject to the recodification of Title 232 WAC. This is part of the department's effort to cleanup and better organize WDFW's administrative code and provides the public and department staff with a more logical and navigable code. It will also consolidate all rules under one WAC title and should accomplish a streamlined, legally accurate, and legally adequate administrative code.

Reasons Supporting Proposal: WAC 232-28-248, 232-28-273, 232-28-291, 232-28-296, 232-28-337, 232-28-342, 232-28-357, 232-28-359, 232-28-360, 232-28-436, 232-28-622, 232-28-624, 232-12-021, 232-28-283, 232-28-299 and 232-28-358; the changes to WDFW's administrative code are necessary because of the code's large-scale disorganization, outdated and confusing rules, and references to former agencies and repealed RCW. If a reorganization and substantive amalgamation of the rules is not done, the public's confusion will increase over time, the rules could be challenged and invalidated in court, and the agency could face liability due to poorly written rules. This rule making will update WDFW's rules to bring them into compliance with statutory authority and repeal outdated and inapplicable rules.

WAC 232-28-248, special closures and firearm restriction areas allow the fish and wildlife commission to restrict or close hunting activity in certain areas and during certain time periods to optimize safety, discourage trespass on restricted lands, and protect sensitive species.

WAC 232-28-273, feedback from hunters during seasons 2015 and 2016 indicating it has been increasingly difficult to find moose in GMUs 127 and 130. Feedback from hunters has indicated the more time has been needed to successfully hunt in the Parker Lake area, and military officials have suggested these specific season dates. Increasing the hunter education instructor incentive permits will help incentivize instructors to meet program goals and public demand.

WAC 232-28-291, feedback from hunters since the inception of this type of hunt suggests that this is a problem that can be fixed by the proposed changes.

WAC 232-28-296, several years ago, the fish and wildlife commission developed a policy to expand the private lands available to the general public for hunting. One of the programs authorized was the LHP program. This program encourages landowners to provide opportunity to the general

hunter in exchange for customized hunting seasons and the ability to generate funding to offset the cost of providing public access.

WAC 232-28-337, elk areas allow the fish and wildlife commission to adopt hunting seasons that can be conducted at a smaller scale than the GMU. Setting seasons at this scale allows for more strategic wildlife management using hunting as a tool to control populations and mitigate wildlife conflict. When the need for a particular elk area subsides, the fish and wildlife commission adopts amendments to the rule that removes those particular elk areas.

WAC 232-28-342, the wildlife area name South L. T. Murray changed to Wenas in 1997. The name change was due to the different funding sources. The southern portion of the L. T. Murray wildlife area is funded by federal BPA money where as L. T. Murray proper is funded by wildlife state money.

WAC 232-28-357, these proposals provide for recreational deer hunting opportunity and protects deer from overharvest. The proposal would maintain sustainable general deer hunting season opportunities for 2017. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

WAC 232-28-359, these proposals provide for recreational deer hunting opportunity and protects deer from overharvest. The proposal would also maintain sustainable deer special permit hunting season opportunities for 2017. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

WAC 232-28-360, this proposal provides for recreational elk hunting opportunity and protects elk from overharvest. The proposal would maintain sustainable elk special permit hunting opportunity for 2017. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

WAC 232-28-436, migratory game bird seasons and regulations are developed based on cooperative management programs among states of the Pacific Flyway and the United States Fish and Wildlife Service, considering population status and other biological parameters. The rule establishes migratory game bird seasons and regulations to provide recreational opportunity, control waterfowl damage, and conserve the migratory game bird resources of Washington.

WAC 232-28-622, (1) The Vulcan Mountain bighorn sheep herd may be increasing slowly but remains small, and there are few mature rams in the herd at this time. WDFW comanages this herd with the Colville Confederated Tribes, who have similarly instituted a temporary moratorium on harvest in this herd. WDFW is attempting to bolster this herd via translocations, and we hope to be able to offer a ram permit in future, in cooperation with our tribal partners, but for now, ram harvest is not advisable. (2) The Cleman Mountain bighorn sheep herd currently numbers approximately 275 individuals, whereas WDFW has estimated that a long-term sustainable population is approximately 170-220. WDFW has, and will continue to translocate animals from this herd when opportunity exists, but at present, those opportunities have been insufficient to reduce population size to the desired level. (3) With a proposed increase from 10 to 20 ewe permits, WDFW proposes splitting the ewe season into two sep-

arate time periods, to assure a quality experience and reduce safety concerns. Hunter success in this herd is usually quite high; thus, WDFW believes that the time period allowed for each of these ten hunts is sufficient.

WAC 232-28-624, deer areas allow the fish and wildlife commission to adopt hunting seasons that can be conducted at a smaller scale than the GMU. Setting seasons at this scale allows for more strategic wildlife management, expanding hunting opportunity, using hunting as a tool to control deer populations and mitigating wildlife conflict.

WAC 232-12-021, 232-28-283, 232-28-299 and 232-28-358, the changes to WDFW's administrative code are necessary because of the code's large-scale disorganization, outdated and confusing rules, and references to former agencies and repealed RCW. If a reorganization and substantive amalgamation of the rules is not done, the public's confusion will increase overtime, the rules could be challenged and invalidated in court, and the agency could face liability due to poorly written rules. This rule making will update WDFW's rules to bring them into compliance with statutory authority and repeal outdated and inapplicable rules.

Statute Being Implemented: RCW 77.04.012, 77.04.020, 77.04.055, 77.12.047, 77.12.150, 77.12.240, 77.12.800, 77.32.090, 77.32.155.

No small business economic impact statement has been prepared under chapter 19.85 RCW. These rules apply to recreational hunting and do not affect small business.

A cost-benefit analysis is not required under RCW 34.05.328. This proposal does not involve hydraulics.

AMENDATORY SECTION (Amending WSR 10-10-061, filed 4/30/10, effective 5/31/10)

WAC 232-28-291 Special hunting season permits.

The commission may establish special hunting seasons and may set the conditions for each category and hunt.

1. Deer, elk, cougar, or black bear special hunting season permit applications:

A. To apply for special hunting season permits for all categories of deer, elk, cougar, or black bear, applicants must have a valid Washington big game hunting license and a valid transport tag for the appropriate species. To apply for a particular hunt, each applicant for deer or elk must have the proper transport tag as identified in the special deer or elk permit regulations.

B. Multiple season deer and elk permit applications may be purchased without additional licenses or tags. Persons who are successfully drawn must purchase a multiple season permit for deer or elk and may also apply for archery, muzzleloader, or modern firearm special hunting season permits for the species drawn.

2. Mountain goat, moose, and bighorn sheep special hunting season permit applications:

A. Persons who have previously harvested a mountain goat, bighorn sheep ram, or bull moose in Washington are ineligible for a special hunting season permit for that category. This lifetime harvest restriction does not apply to individuals who harvested a mountain goat before 1999, raffle or

auction hunt authorizations, ewe-only bighorn sheep hunts, or antlerless-only moose hunts.

B. Successful applicants under this section must purchase the appropriate hunting license by the deadline established by the department (a minimum of 15 days). Failure to purchase forfeits the permit to an alternate applicant.

3. Wild turkey special hunting season permit applications

A. To apply for wild turkey special hunting season permits, each applicant must have a valid small game hunting license.

B. Fall wild turkey special hunting season permit holders must have a valid turkey transport tag in possession to hunt turkeys in fall special hunting seasons.

4. Special hunting season permit applications:

A. Maximum group sizes are determined for each category. If a group application is drawn, all hunters in the group will receive a special hunting season permit and each hunter in the group can take an animal. If the number of permits available in a hunt category is less than the maximum group size, then the maximum group size is equal to the number of permits.

i. Maximum group size for deer categories is 8.

ii. Maximum group size for elk categories is 8.

iii. Maximum group size for bear categories is 2.

iv. Maximum group size for cougar categories is 2.

v. Maximum group size for mountain goat categories is 2.

vi. Maximum group size for bighorn sheep categories is 2.

vii. Maximum group size for fall turkey categories is 4.

viii. Maximum group size for moose categories is 2.

ix. Maximum group size for multiple season deer is 2.

x. Maximum group size for multiple season elk is 2.

B. An applicant may purchase only one application for a special hunting season permit for each category.

C. Permit applications will allow four choices for all categories except the quality category for deer and elk will allow two choices.

D. Permits will be drawn by computer selection using a weighted point selection system.

i. Applicants will receive one point for each application category purchased.

ii. Once drawn for a permit, the applicant's points will be reduced to zero in that category. Applicants who are drawn for a damage hunt administered by a WDFW designated hunt coordinator and not given a chance to participate shall get their points restored. Those that decline to participate for any reason are not eligible for point restoration.

iii. An applicant's accumulated point totals, immediately prior to sales of the 2010 permit applications, will be replicated across all categories for that species. The point replication will only occur in 2010, during the transition from single species categories to multiple categories of the same species. Applicants for any new category added in the future will begin with the point awarded at the time of the initial application purchase.

E. Incomplete, ineligible, or inaccurate applications will not be accepted or entered into the drawing.

F. Permits will be voided if the applicant is found to be ineligible or to have provided an application based on inaccurate information.

G. The purchase of an application will result in one accrued point for the category purchased.

H. If an applicant makes a mistake, applies for the wrong hunt, and is successfully drawn, the special hunting season permit can be returned to the department of fish and wildlife Olympia headquarters before the opening day of the special hunting season. The applicant's points will be restored to the level prior to the permit drawing.

I. Anyone may apply for a special hunting season permit for deer, elk, bear, cougar, and wild turkey.

5. In addition to requirements for special hunting season permit applications, following are application requirements for:

A. Special hunting seasons for persons of disability: Only applicants with a Washington disabled hunter permit are eligible to apply for any special hunting season permits for persons of disability.

B. Special hunting seasons for youth: Only persons who are eligible to lawfully purchase a youth special hunt application are eligible to apply for special hunting season permits for youth.

C. Special hunting seasons for hunters age 65 and older: Only applicants sixty-five years of age or older on or before March 31 of the current license year will be eligible to apply for special hunting season permits for hunters age 65 and older.

D. Special hunting seasons for master hunter program graduates: Only persons who hold a valid certificate from the Washington department of fish and wildlife's master hunter program are eligible to apply for special hunting season permits for master hunters.

6. Citizen reward for reporting violations - bonus points: A person who provides information which contributes substantially to the arrest of another person for illegally hunting or killing big game or an endangered species as defined by Title 77 RCW is eligible to receive ten bonus points toward the special hunting permit drawing for one application category of deer or elk special hunting season permits.

A. Only ten bonus points can be awarded for providing information for each person charged regardless of the number of violations involved.

B. Selection of bonus points is in lieu of application for a cash award.

AMENDATORY SECTION (Amending WSR 16-12-087, filed 5/31/16, effective 7/1/16)

AMENDATORY SECTION (Amending WSR 16-12-087, filed 5/31/16, effective 7/1/16)

WAC 232-28-358 2015-2017 Elk general seasons and definitions. It is unlawful to fail to comply with bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410 Unlawful hunting of big game—Penalty.

Bag Limit: One (1) elk per hunter during the license year, except where otherwise permitted by department rule. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two (2) elk per hunter during the license year.

Hunting Method: Elk hunters must select only one of the hunting methods: Modern firearm, archery, or muzzleloader.

Elk Tag Areas: Elk hunters must choose either Eastern or Western Washington to hunt in and buy the appropriate tag for that area.

Any Bull Elk Seasons: Open only to the taking of elk with visible antlers; bull calves are illegal.

Antler Point: To qualify as an antler point, the point must be at least one inch long, measured on the longest side.

Branch: A branch is defined as any projection off the main antler beam that is at least one inch long, measured on the longest side, and longer than it is wide.

Spike Bull Antler Restrictions: Bull elk taken in spike-only game management units (GMUs) must have at least one antler with no branches originating more than 4 inches above where the antler attaches to the skull.

Spike-only GMUs: 145-154, 162-186, 249, and 336-368.

True Spike - Bull Antler Restrictions: Neither antler of bull elk taken in GMUs 251, and 328-335 can have branching originating more than 4 inches above where the antlers attach to the skull. Under the true-spike restriction, taking an elk that has two points on one side or antler points within one

inch of the definitions regarding length of point, or point of origination, is an infraction under RCW 77.15.160. All other types of violations of the true-spike restriction are subject to current penalties and assessments under RCW 77.15.410 and 77.15.420.

True-spike GMUs: 251, 328-335.

3-point Antler Restrictions: Legal bull elk must have at least 3 antler points on one side, with at least 2 antler points above the ear. Eye guards are antler points when they are at least one inch long. Antler restrictions apply to all hunters during any open season.

3-point GMUs: All of Western Washington, except for GMUs 448, 454, 564, 652 for archers, 666, 684, and Elk Area 4941.

Permit-only Units: The following GMUs are closed to elk hunting during general elk seasons: 157, 371, 418, 485, 522, 556, 621, 636, and 653.

GMUs Closed to Elk Hunting: 437 (except for Elk Area 4941) and 490.

Areas with Special Restrictions: There are modern firearm restrictions in GMU 334 and portions of GMU 660. GMU

(i) The person responsible for the fire must contact the permitting agency and/or any other designated source for information on the burning conditions for each day;

(ii) A fire may not be ignited, and must be extinguished, if an air pollution episode, impaired air quality condition, or fire danger burn ban that applies to the burning, is declared for the area;

(iii) The fire must not include garbage, dead animals, asphalt, petroleum products, paints, rubber products, plastics, paper (other than what is necessary to start a fire), cardboard, treated wood, construction/demolition debris, metal, or any substance (other than natural vegetation) that normally releases toxic emissions, dense smoke, or obnoxious odors when burned;

(iv) The fire must not include materials hauled from another property;

(v) If any emission from the fire is detrimental to the health, safety, or welfare of any person, if it causes damage to property or business, or if it causes a nuisance, the fire must be extinguished immediately;

(vi) A person capable of extinguishing the fire must attend it at all times, and the fire must be extinguished before leaving it;

(vii) No fires are to be within fifty feet of structures;

(viii) Permission from a landowner, or owner's designated representative, must be obtained before starting an outdoor fire;

(ix) Any burn pile must not be larger than four feet by four feet by three feet;

(x) Only one pile at a time may be burned, and each pile must be extinguished before lighting another;

(xi) If an outdoor container is used for burning, it must be constructed of concrete or masonry with a completely enclosed combustion chamber and equipped with a permanently attached spark arrester constructed of iron, heavy wire mesh, or other noncombustible material with openings not larger than one-half inch; and

(xii) No fire is permitted within five hundred feet of forest slash.

Persons not able to meet these requirements or the requirements in SWCAA 425-050 must apply for and receive a written permit before burning. Failure to comply with all requirements of this subsection voids any applicable permit, and the person responsible for burning may be subject to enforcement action under subsection (6) of this section.

(6) **Field response and enforcement.** Any agency that issues permits, or adopts a general permit for any type of burning in an area, is responsible for field response to outdoor burning complaints and enforcement of all permit conditions and requirements of this rule related to that type of burning in the area, unless another agency has agreed under SWCAA 425-060 (1)(a) to be responsible for certain field response or enforcement activities. Except for enforcing WAC 173-425-050 (3)(a)(iii), the Agency may also perform these activities. The Agency is also responsible for enforcing any requirements that apply to burning that is prohibited or exempt from permits in areas under their jurisdiction, unless another agency agrees to be responsible. Permitting agencies and enforcing agencies may require that corrective action be taken, and may assess penalties to the extent allowed under their general and specific authorities if they discover non-compliance with this chapter. A fire protection authority called to respond to, control, or extinguish an illegal or out-of-control fire may charge, and recover from the person responsible for the fire, the costs of its response and control action.
