UTILITIES AND TRANSPORTATION
COMMISSION**

[Dockets UE-170002 and UG-170003—Filed July 19, 2018, 3:27 p.m.]

Subject of Possible Rule Making: WAC 480-07-510(6) currently requires electric, natural gas, pipeline and telecommunications companies to file with the commission cost studies in general rate proceedings. The rule defines when a study is required, the prior studies that must be identified, and the description that must be provided. The rule does not address the policy approach underlying, or the presentation style for, such cost studies, which has created a significant amount of divergence in the format and discussion of cost studies between stakeholders. The commission's inquiry will evaluate:

1. Whether and the extent to which cost studies can be standardized.
2. The core principles of cost studies and the methods that they should utilize.
3. The ways to streamline the implementation of rates based on a cost study.
4. The information necessary to ensure an accurate and uniform understanding of the principles on which a cost study should be based.

Statutes Authorizing the Agency to Adopt Rules on this Subject: Chapter 80.28 RCW, RCW 80.01.040, 80.01.160.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The purpose of this rule making is to consider developing an accurate, transparent, and effective method and process for parties to present cost of service studies in general rate proceedings. This may require standardization of the presentation of cost of service studies and information supporting the study to ensure consistency. In addition, this rule making is intended to reduce the administrative burden on the company, intervenors, and the commission by providing guidance on core principles and methods related to cost of service studies while preserving individual stakeholder's ability to present alternative opinions. In proposing rules, the commission seeks to streamline cost of service discussions in general rate cases and ensure uniform understanding of cost studies.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: No other agency has jurisdiction over this process.

Process for Developing New Rule: The utilities and transportation commission utilizes a collaborative rule-making process that includes stakeholder workshops, formal comments, and draft rules.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Mark Johnson, Executive Secretary, Washington Utilities and Transportation Commission, 1300 South Evergreen Park Drive S.W., P.O. Box 47250, Olympia, WA 98504-7250, phone 360-664-1234, email records@utc.wa.gov, web site <https://www.utc.wa.gov/e-filing>.

WSR 18-16-010**PREPROPOSAL STATEMENT OF INQUIRY
NOXIOUS WEED
CONTROL BOARD**

[Filed July 23, 2018, 8:00 a.m.]

Subject of Possible Rule Making: Chapter 16-750 WAC, State noxious weed list and schedule of monetary penalties.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 17.10.010, 17.10.070, 17.10.080.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: The Washington state noxious weed control board (WSNWCBC) maintains the state's official list of noxious weeds. This list is the foundation from which county noxious weed control boards and weed districts conduct noxious weed control efforts. These efforts are designed to minimize the economic loss and adverse effects to Washington's agricultural, natural, and human resources due to the presence and spread of noxious weeds on terrestrial and aquatic areas. Weeds are prioritized to allow coordinated control of weed species statewide, and to establish prevention and early detection programs. The state weed list is divided into three classes of noxious weeds - Class A, B, and C. Class A noxious weeds are nonnative species whose distribution in the state is still limited. Class B noxious weeds are nonnative species whose distribution is limited to portions of the state, and, Class C noxious weeds are widespread in the state or are of special interest to the agricultural industry. Each class of weed requires a different level of control. RCW 17.10.080 mandates that the board adopt, at least yearly, a state noxious weed list. The board is also considering updates to its bylaws.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: No other state agency regulates this subject. Federal agencies are subject to federal noxious weed laws that require them to coordinate with state regulations. Federal agencies in Washington are invited to participate in all stages of noxious weed rule making.

Process for Developing New Rule: WSNWCBC annually solicits proposed changes to the noxious weed list from county weed boards, weed districts, state agencies, federal agencies, interest groups, and the general public. WSNWCBC (which includes representation from the Washington Native Plant Society, county weed boards, the nursery industry and several scientific advisors) meets at least twice to review and research these suggestions. A public hearing is scheduled, and a press release and information regarding the proposed changes are widely distributed to newspapers.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Wendy DesCamp, 1111 Washington Street S.E., phone 360-725-5764, fax 360-902-2094, TTY 800-833-6388 or 711, email noxiousweeds@agr.wa.gov, web site www.nwcb.wa.gov.

PREPROPOSAL STATEMENT OF INQUIRY SUPERINTENDENT OF PUBLIC INSTRUCTION

[Filed August 1, 2018, 11:37 a.m.]

Subject of Possible Rule Making: The office of superintendent of public instruction (OSPI) is considering making changes to WAC 392-121-415 to remove language which reduces state basic education apportionment payments by proceeds from the sale, rental or lease of stone, minerals, timber, forest products, other crops and matter, and improvements from or on tax title real property managed by a county pursuant to chapter 36.35 RCW.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 42.56.070, 42.56.120.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: OSPI is considering the changes to ensure that local revenue does not offset costs of basic education as prescribed in EHB 2242 (2017).
