Topic of the special meeting: Update on the Skagit/Islands head start program.

WSR 19-07-009**DEPARTMENT OF ECOLOGY**

[Filed March 7, 2019, 1:21 p.m.]

PUBLIC NOTICE**Announcing Extension of Review and Comment:
Fresh Fruit Packing Industry General Permit Modification**

An extension of the commenting period for the following action previously listed in the State Register on March 6, 2019. The commenting period is extended through 5 p.m. on April 22, 2019.

Proposed Modified Permit: The Washington state department of ecology (ecology) proposes to modify the fresh fruit packing industry general permit (FFPGP [FFPIGP]).

At the request of chemical purveyors, ecology proposes to authorize the use of additional products within the fresh fruit packing industry in Washington state. Those products include:

- (2) **One post-harvest fungicide for stone and pome fruits.**
- (3) **Two wastewater treatment coagulants for treating wastewater from the fresh fruit packing industry prior to discharge under the permit.**

State and federal water quality regulations do **not** allow the discharge of pollutants to waters of the state without permit coverage. The chemicals allowed for use in the proposed permit modification are potential pollutants, and therefore require a discharge permit before application. Ecology issues general permits in place of a series of individual permits when the permitted activities:

- Have similar wastewater characteristics among facilities;
- Have uniform discharge conditions to which all facilities would be subject; and
- Because the significant reduction of resources [is] necessary for permit handling.

Purpose of the Permit: In 1994 ecology developed a national pollutant discharge elimination system (NPDES) general permit to regulate the discharge of wastewater from fresh fruit packing facilities.

This permit was developed to meet the requirements of chapters 90.48, 90.52, and 90.54 RCW as amended, and the federal Water Pollution Control Act (Title 33 United States Code, Section 1251 et seq.) as amended. All requirements of 40 Code of Federal Regulations (C.F.R.) 122.41 and 122.42 are incorporated in this general permit by reference.

This general permit establishes treatment/disposal methods, effluent limits, and best management practices for discharges from the fresh fruit packing industry. Compliance with this general permit is anticipated to protect human health and waters of the state.

Types of Facilities or Dischargers and Geographic Area Covered: Every new or existing fresh fruit packing facility within the entire state of Washington which receives, packs, stores, and/or ships either hard or soft fruit is required to apply for coverage under either this general permit or an individual NPDES/state waste discharge permit.

The modified general permit will also be available to every new or existing fresh fruit packing facility within the entire state of Washington. Exiting [Existing] facilities currently holding coverage permits under the FFPIGP **do not** need to reapply for coverage under the modified general permit.

Issuance and Effective Dates of the Current FFPIGP: The current issue of FFPIGP was issued on **July 20, 2016**, and became effective on **September 1, 2016**. The general permit will expire on **August 31, 2021**.

The modified general permit retains the expiration date of **August 31, 2021**.

Documents Available for Review: This notice will be republished in the Washington State Register and in the legal section of the Yakima Herald-Republic and the Wenatchee Daily World on **March 25, 2019, to extend the commenting period through April 22, 2019, at 5 p.m.**

You may download a copy of the draft modified permit and fact sheet addendum at <https://ecology.wa.gov/Regulations-Permits/Permits-certifications/Fresh-fruit-packing-general-permit>; or you may request a copy from Cynthia Huwe, 509-457-7105 or email cynthia.huwe@ecy.wa.gov.

Workshop and Public Hearing: The workshop will explain the proposed modifications to the permit and to answer questions about the proposed modifications prior to the public hearing. The hearing will begin after the public workshop and will conclude when public testimony is complete.

During the hearing, the public may give oral testimony and written comments on the proposed modifications to the permit. Written comments will receive the same consideration as oral testimony. **Only the portions of the permits revised during this permit modification are available for comment.**

Date: April 9, 2019.

Time: 5:00 to 7:00 p.m.

Location: Washington Department of Ecology, Central Regional Office, 1250 West Alder Street, Room Number 102/B, Union Gap, WA 98903.

When and How to Submit Comments: Comments on the proposed modifications to the general permit may be given at the public hearing. Interested persons are also invited

to submit written comments regarding the proposed modifications to the general permit. **All written comments must be submitted by 5:00 p.m. (PST) on April 22, 2019, to:**

- **Online via the e-Comment form:** <http://ws.ecology.commentinput.com/?id=g9KT6>.
- **By mail:** Cynthia Huwe, Washington State Department of Ecology, Central Regional Office, 1250 West Alder Street, Union Gap, WA 98903.

Tentative Determination to Issue: Ecology will receive and consider all public comments, either written or given in public testimony. Ecology will then issue the final modified general permit for the fresh fruit packing industry. Ecology expects to issue the modified general permit between **April 23-25, 2019, with an effective date of July 1, 2019.**

Ecology Contact: Marcia Porter, marcia.porter@ecy.wa.gov or 509-454-7864 or at Washington State Department of Ecology, Central Regional Office, 1250 West Alder Street, Union Gap, WA 98903.

HEALTH CARE AUTHORITY

[Filed March 14, 2019, 1:21 p.m.]

NOTICE

Title or Subject: Medicaid State Plan Amendment (SPA) 19-0009.

Effective Date: July 1, 2019.

Description: The health care authority (HCA) intends to submit medicaid SPA 19-0009 to authorize an alternative payment methodology under Section 1902 (bb)(6) of the act for any outpatient health program or facility operated by a tribe or tribal organization under the Indian Self-Determination and Education Assistance Act (Public Law 93-638) that elects to enroll in Washington medicaid as a Federally Qualified Health Center (Tribal FQHC), in accordance with the guidance provided by the Centers for Medicare and Medicaid Services in the *Frequently Asked Questions (FAQs): Federal Funding for Services "Received Through" an IHS/Tribal*

Facility and Furnished to Medicaid-Eligible American Indians and Alaska Natives, issued January 18, 2017.

HCA estimates that annual aggregate payments to Tribal 638 facilities would be \$1,461,000, increasing payments as follows:

- Outpatient services of a Tribal 638 facility will become eligible for the Indian Health Service (IHS) encounter rate that are currently not eligible because 42 C.F.R. §440.90 prohibits facility rate payment for services outside the four walls of the facility.
- Outpatient services of a Tribal 638 facility will become eligible for the IHS encounter rate that are currently not eligible because the beneficiary is both enrolled in a medicaid managed care plan and not American Indian/Alaska Native.

A copy of SPA 19-0009 is available for review. HCA would appreciate any input or concerns regarding this SPA. To request a copy of the SPA, you may contact the agency in your county listed in the table or the person named below. To submit comments, please contact the person named below (please note that all comments are subject to public review and disclosure, as are the names of those who comment).
