Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: The purpose is to adjust the maximum fees health care providers are allowed to charge for searching and duplicating health care records. The adjustment is legislatively required to occur every two years, and must be based on the change in the consumer price index (CPI) for the Seattle-Tacoma area. The current rates reflect the change over time from the original (1993) rates in RCW 70.02.010(38).

Reasons Supporting Proposal: The proposed rule sets reasonable fees that providers are allowed to charge for cost recovery for searching and duplicating health care records. The CPI for the Seattle-Tacoma area changed from 254.886 in 2016 to 271.089 in 2018, which is a 6.3 percent increase.

Statute Being Implemented: RCW 70.02.010(38).

This rule proposal, or portions of the proposal, is exempt from requirements of the Regulatory Fairness Act because the proposal:

Is exempt under RCW 19.85.025(3) as the rules set or adjust fees under the authority of RCW 19.02.075 or that set or adjust fees or rates pursuant to legislative standards, including fees set or adjusted under the authority of RCW 19.80.045.

WAC 220-410-050 Game management units (GMUs) boundary descriptions—Region five, the purpose of this proposal is to correct any errors in the boundary descriptions for game management unit 506.

WAC 220-410-060 Game management units (GMUs) boundary descriptions—Region six, the purpose of this proposal is to correct any errors in the boundary descriptions for game management unit 673.

WAC 220-412-050 Landowner raffle hunts, the purpose of this proposal is to alter the adjustment of annual report submission date requirements from December 31 to May 1, to coincide with WAC 220-412-100. This also allows enrolled landowners to submit all required reports at the same time.

WAC 220-412-070 Big game and wild turkey auction, raffle, and special incentive permits, this proposal adds game management units (GMUs) 186 and portions of GMU 181 (south of the line made by starting at Montgomery Ridge Road and Highway 129, to the Sherry Grade Road, to the Couse Creek Road, to the Snake River) to the legal hunt area for the Rocky Mountain Bighorn Sheep Raffle Permit.

WAC 220-412-090 Multiple season big game permits, the purpose of this proposal is to clarify language.

WAC 220-412-100 Landowner hunting permits, the purpose of this proposal is to further develop the standard operating procedure for the landowner hunting permit (LHP) program. The LHP WAC has been adjusted to reflect the new proposed requirements for the LHP program, as outlined in the standard operating procedure. The revised standard operating procedure anticipates better management, monitoring, and an improved experience for the general public, while recreating on properties enrolled in the LHP.

WAC 220-413-180 Special closures and firearm restriction areas, the proposed administrative changes remove the

WAC 220-413-200 Reducing the spread of hoof disease—Unlawful transport of elk hooves, the purpose of this proposal is to abolish the rule.

WAC 220-415-020 2018-2020 Deer general seasons and definitions, the purpose of this proposal is to retain general season deer hunting opportunities for 2020. It also aims to balance the hunting opportunities between user groups. The proposal also increases opportunities when deer populations allow and reduces opportunities when declining deer numbers warrant a change.

WAC 220-415-030 2019 Deer special permits, the purpose of this proposal is to retain special permit for deer hunting opportunities for 2020. It also balances hunting opportunities between user groups, increases opportunities when deer populations allow, and reduces opportunities when declining deer numbers warrant a change. Lastly, it adds language that clarifies the bag limit is one deer, except where otherwise permitted by department rule, even if permits are drawn for more than one deer hunt category.

WAC 220-415-040 Elk area descriptions, the purpose of the proposed changes would eliminate Elk Area No. 1011 (Columbia County), Elk Area No. 1012 (Asotin County), and Elk Area No. 1082 (Asotin County).

WAC 220-415-050 2018-2020 Elk general seasons and definitions, the purpose of the proposed change is to retain general season elk hunting opportunities for 2020. It also balances hunting opportunities between user groups, increases opportunities when elk populations allow, and reduces opportunities when declining elk numbers warrant a change.

The department will not develop specific recommendations regarding opportunities to harvest antlerless elk during the early archery general elk seasons in the Colockum (GMUs 328, 329) and Yakima (GMUs 336, 340, 352, 356, 364) elk herd areas until population surveys are completed in February and/or March. If population surveys indicate it is warranted, the department may also consider reducing opportunities for archery hunters to harvest antlerless elk during the late archery general elk seasons, and reducing modern firearm, and muzzleloader special permit opportunities. A general overview of the recommendations that may be considered dependent of herd status are provided below. Recommendations developed in response to surveys indicating a population decline will also depend on the severity of the decline.

Colockum Elk Herd: (GMUs 249, 251, 328, 329, 330, 334, 335):

Herd Status	General Overview of Recommendation
Decline	Significantly reduce or eliminate general season opportunities to harvest antlerless elk during archery seasons, except for those associated with addressing damage issues, and in areas where the department does not manage for large numbers of elk (e.g., GMUs 334, 335). Also, reduce opportunities to harvest antlerless elk during modern firearm and muzzleloader permit seasons.

Herd Status	General Overview of Recommendation
Stable	Significantly reduce or eliminate general season opportunities to harvest antlerless elk during archery seasons, except for those associated with addressing damage issues and in areas where the department does not manage for large numbers of elk (e.g., GMUs 334, 335). Replace some of the lost opportunities with a limited number of permits to harvest antlerless elk. Retain opportunities to harvest antlerless elk during modern firearm and muzzle-loader permit seasons.
Increase	Retain current general and special permit seasons.

Yakima Elk Herd: (GMUs 336, 340, 342, 346, 352, 356, 360, 364, 368, 371, 372):

Herd Status	General Overview of Recommendation
Decline	Significantly reduce or eliminate general season opportunities to harvest antlerless elk, except for those associated with addressing damage issues and in areas where the department does not manage for large numbers of elk (e.g., GMUs 371 and 372). Replace some of the lost opportunities with a limited number of permits to harvest antlerless elk. If warranted, also reduce opportunities during modern firearm and muzzleloader permit seasons.
Stable	Significantly reduce or eliminate general season opportunities to harvest antlerless elk, except for those associated with addressing damage issues and in areas where the department does not manage for large numbers of elk (e.g., GMUs 371 and 372). Replace some of the lost opportunities with a limited number of permits to harvest antlerless elk. Retain current opportunities during modern firearm and muzzleloader permit seasons.
Increase	Retain current general and special permit seasons.

WAC 220-415-060 2019 Elk special permits, the purpose of this proposal is to retain elk special permit hunting opportunities for 2020. It also balances elk hunting opportunities between user groups, increases elk hunting opportunities when elk populations allow, and reduces opportunities when declining elk numbers warrant a change. Lastly, it adds language that clarifies the bag limit is one elk, except where otherwise allowed by department rule, even if permits are drawn for more than one elk hunt category.

WAC 220-415-070 2019 Moose seasons, permit quotas, and areas, this proposal adds language that clarifies the bag limit is one moose, except where otherwise allowed by department rule, even if permits are drawn for more than one moose hunt category. It also adjusts moose hunt permit limits to reflect population changes and recent harvest.

WAC 220-415-100 2018-2019 and 2019-2020 Cougar, the proposed changes are designed to give the commission four options to choose from relating to recreational cougar harvest guidelines. The nonstatus quo options are intended to extend seasons in areas where harvest has been historically high, and where cougar human conflict is also high. The intended result of the longer season is to shift a proportion of the cougar removal, currently carried out by agency personnel, to hunters:

- The first option is status quo with one caveat, the density we used to set the guideline is the median of five research projects that were conducted in Washington. The median is a better measure because it is not affected by outliers in the data. In the past we used the mean.

- The second option also uses a median density that is calculated using only adult cougars that are twenty-four months or older. This option reduces the guideline slightly, but subadult cougars harvested under this option would not count toward the guideline for season closure.
- The third option adjusts the guideline upward for units that exceeded the guideline by December 31 at least once in the past five years. The new guideline is based on the highest harvest in the past five years. In this option there is the assumption that density is higher in these areas. In two PMUs [GMUs], the guidelines in this option were adjusted, so they did not exceed an assumed density 4.15 cougars per one hundred square kilometers. This was intended to keep the density within an acceptable range based on research conducted in the western United States. This guideline includes adults and subadults.
- The fourth option is like option three, but only uses a density based on adult cougars and only counts adult cougars towards the guideline.

WAC 220-415-120 2019 Bighorn sheep seasons and permit quotas, this proposal adds language that clarifies the bag limit is one bighorn sheep, except where otherwise permitted by department rule, even if permits are drawn for more than one bighorn sheep category. It also adjusts bighorn sheep hunt permit limits to reflect population changes and recent harvest. Lastly, this proposal creates separate permit opportunities for adult ewes and juvenile rams in the Selah Butte, Mount Baldy, and Umtanum hunt areas (collectively referred to as the Yakima Canyon herd).

WAC 220-415-130 2019 Mountain goat seasons and permit quotas, this proposal adds language that clarifies the bag limit is one mountain goat, except where otherwise permitted by department rule, even if permits are drawn for more than one goat hunt category. It also adjusts mountain goat hunt permit limits to reflect population changes and recent harvest.

WAC 220-416-010 2018-2019, 2019-2020, 2020-2021 Small game and other wildlife seasons and regulations, the purpose of this proposal is to increase the number of hunter education incentive turkey permits from two to four.

WAC 220-416-040 Hunting predatory birds, removes the depredation part of the rule because it already exists in WAC 220-440-060.

WAC 220-416-060 2019-2020 Migratory gamebird seasons and regulations, the proposal amends the rule to specify legal season dates, and bag limits for the 2020-2021 season.

Changes include:

- Adjusting season dates relative to 2020-2021 calendar dates.
- Maintain one-pintail per day bag-limit and associated possession limit per the USFWS Northern Pintail Harvest Strategy.
- Lowering scaup bag-limit to two-scaup per day and associated possession limits, while keeping an eighty-six day season length by the optimal regulatory alternative described in the adaptive harvest management protocol.
- Shifting seven-days from the beginning of the first season segment to the end of the third season segment for

white geese in Goose Management Area 4 (Columbia Basin).

WAC 220-440-060 Killing wildlife causing private property damage, the proposed amendment to the rule intends to make our rule consistent with federal rules that pertain to crows and magpies.

Reasons Supporting Proposal: WAC 220-410-050 Game management units (GMUs) boundary descriptions—Region five the proposed change will make the boundaries more discernable for hunters.

WAC 220-410-060 Game management units (GMUs) boundary descriptions—Region six, the proposed change will make the boundaries more discernable for hunters.

WAC 220-412-050 Landowner raffle hunts, this proposal simplifies the requirements for landowners that operate raffle drawings. It also aligns annual report submission dates with WAC 220-412-100.

WAC 220-412-070 Big game and wild turkey auction, raffle, and special incentive permits, bighorn sheep populations have increased in these areas, which warrants an expansion of the hunt area.

WAC 220-412-090 Multiple season big game permits, the proposal clarifies the language and reduces hunter confusion regarding this rule.

WAC 220-412-100 Landowner hunting permits, over the past year, the department has held public meetings and active stakeholder/landowner meetings to assess the current views of the program. These comments have been taken into consideration as well as input from Washington department of fish and wildlife (WDFW) staff which has resulted in the development of the new standard operating procedure for the LHP program. The proposed changes reflect the comments received from the public, WDFW staff and landowners. Historically, there haven't been many changes to the LHP program. However, due to the lack of consistency and the expansive variation in management styles across the state, this program has proven to be difficult to manage at a program level. These reasons were the main driving factor behind taking the appropriate steps to revise and make changes to the program.

WAC 220-413-180 Special closures and firearm restriction areas, the "wooden towers" referenced in the Columbia River restricted hunting area boundary description were torn down recently. As such, they could no longer be used as a discernable landmark to describe the boundary. Correcting the spelling of Newberry Hill Road will eliminate confusion for hunters.

WAC 220-413-200 Reducing the spread of hoof disease—Unlawful transport of elk hooves, this rule, originally adopted in 2014, attempted to reduce the risk of inadvertently spreading the causative agents of treponeme associated hoof disease (TAHD) in elk. Since that time, however, TAHD has been confirmed throughout western Washington, east of the Cascade Mountains near the town of Trout Lake, and in the Blue Mountains of southeast Washington. The continued expansion of this disease appears to indicate this rule was ineffective at preventing disease expansion. Other reasons for supporting this rule are:

1. For surveillance purposes, we want to encourage elk hunters in eastern Washington to submit suspicious hooves.

2. The current rule is not being enforced, but rather used by enforcement officers as an educational opportunity.

3. We have no scientific findings that support the implementation of this rule.

4. The department is working on developing management strategies that will be proposed during the next three year season cycle, which would incentivize elk hunters in western Washington to target limping elk but would also require them to submit their hooves to the department for inspection.

5. Neighboring states (Idaho and Oregon), where TAHD has been detected, do not have a similar rule.

Although the department is proposing to abolish this rule, we would still encourage hunters to leave hooves from the elk they harvest on site.

WAC 220-415-020 2018-2020 Deer general seasons and definitions, this proposal provides recreational deer hunting opportunities and protects deer from overharvest. The proposal would also maintain sustainable general deer hunting season opportunities for 2020. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

WAC 220-415-030 2019 Deer special permits, this proposal provides recreational deer hunting opportunities and protects deer from overharvest. The proposal would also maintain sustainable deer special permit hunting season opportunities for 2020. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

Situations have occurred in the past that involved hunters who successfully drew a permit in more than one hunt category for the same species. Because the current language does not specify a bag limit, some hunters interpret this to mean they can shoot one deer per permit or one deer in addition to their general season harvest, which is incorrect. Amending this rule as proposed, would clarify the rule and avoid confusion in the future.

WAC 220-415-040 Elk area descriptions, all three elk areas were created to address issues related to elk causing damage to agricultural crops. Damage issues in all three areas have declined following the substantial declines in elk numbers. As such, these elk areas are no longer needed and there is not an anticipated need in the foreseeable future.

WAC 220-415-050 2018-2020 Elk general seasons and definitions, overall, the proposal provides recreational elk hunting opportunities, helps address elk agricultural damage problems, and provides elk population control when needed. The department is postponing the development of specific recommendations for the Colockum and Yakima elk herds. These two herds have experienced substantial declines since 2015, with late-winter surveys in 2019 showing the Yakima herd was approximately thirteen percent below objective and the Colockum herd approximately eight percent below. Declines have been the result of increased antlerless harvest, severe drought and winter conditions, and depressed recruitment of calves. Moreover, preliminary counts of elk on feed sites for the Yakima elk herd in January 2020, show calf recruitment rates are likely to be lower than normal for the fourth consecutive year. The department is concerned about

the status of both herds and plans to develop recommendations that are likely to promote population growth.

WAC 220-415-060 2019 Elk special permits, this proposal provides recreational elk hunting opportunities and protects elk from overharvest. The proposal would maintain sustainable elk special permit hunting opportunities for 2020. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

Situations have occurred in the past that involved hunters who successfully drew a permit in more than one hunt category for the same species. Because the current language does not specify a bag limit, some hunters interpret this to mean they can shoot one elk per permit or one elk in addition to their general season harvest, which is incorrect. Amending this rule as proposed, would clarify the rule and avoid confusion in the future.

WAC 220-415-070 2019 Moose seasons, permit quotas, and areas, situations have occurred in the past that involved hunters who successfully drew a permit in more than one hunt category for the same species. Because the current language shows the bag limit is one moose, some hunters interpret this to mean one moose per permit, which is incorrect. Amending this rule as proposed, would clarify the rule and avoid confusion in the future.

Permits for 'Any Antlered Bull Moose' in Spokane West A were increased because surveys showed a good bull to cow ratio. Permits for 'Antlerless Only' were reduced in Mt Spokane South B, Mt Spokane North B, and Mica Peak because surveys showed calf recruitment rates and the overall number of moose biologists observed were lower than normal.

WAC 220-415-100 2018-2019 and 2019-2020 Cougar, the proposal gives the commission biologically sustainable options for the cougar hunting seasons.

WAC 220-415-120 2019 Bighorn sheep seasons and permit quotas, situations have occurred in the past that involved hunters who successfully drew a permit in more than one hunt category for the same species. Because the current language indicates the bag limit is one bighorn ram, except in designated adult ewe hunts the limit is one bighorn adult ewe, some hunters interpret this to mean one sheep per permit, which is incorrect. Amending this rule as proposed, would clarify the rule and avoid confusion in the future.

The department is proposing to develop unique permit opportunities for adult ewes and juvenile rams for the Yakima Canyon herd. This proposal is in association with our efforts to reduce the size of the herd and eliminate *Mycoplasma ovipneumoniae* (M. Ovi.) from this herd. The department first implemented these permits during the 2019 season with special restriction identified as an Adult Ewe or Juvenile Ram, but most resulting harvest consisted of rams, including rams that were not juveniles. As such, very few ewes were harvested as intended, which calls for the proposed change.

WAC 220-415-130 2019 Mountain goat seasons and permit quotas, situations have occurred in the past that involved hunters who successfully drew a permit in more than one hunt category for the same species. Because the current language shows the bag limit is one adult goat of either sex with horns four inches or longer, some hunters interpret this to mean one adult goat per permit, which is incorrect.

Amending this rule as proposed, would clarify the rule and avoid confusion in the future.

WAC 220-416-010 2018-2019, 2019-2020, 2020-2021 Small game and other wildlife seasons and regulations, this change increases the incentive for hunter education instructors without harm to turkey populations.

WAC 220-416-040 Hunting predatory birds, reduces redundancy and simplifies the rule.

WAC 220-416-060 2019-2020 Migratory gamebird seasons and regulations, migratory waterfowl and other gamebird (coot, dove, band-tailed pigeon, and snipe) seasons and regulations are developed based on cooperative management programs among states of the Pacific Flyway and the United States Fish and Wildlife Service, considering population status and other biological parameters. The rule establishes waterfowl seasons and regulations to provide recreational opportunity, control waterfowl damage, and conserve the migratory waterfowl resources of Washington.

WAC 220-440-060 Killing wildlife causing private property damage, this proposal makes our rule consistent with federal rule.

AMENDATORY SECTION (Amending WSR 19-10-011, filed 4/19/19, effective 5/20/19)

**WAC 220-412-100 Landowner hunting permits. (1)**

A landowner may enter into a contract with the department and establish boundaries and other requirements for hunter access consistent with commission policy.

(2) It is unlawful ~~((for hunters))~~ to participate in ~~((landowner permit hunts unless the hunters possess both an access permit from the landowner and a hunting permit from the department for the species covered under the landowner's contract))~~ landowner hunter permit (LHP) without a landowner LHP permit from the landowner or a public LHP permit from the department for the species covered under the landowner's contract and possess an unfilled tag for said species. A violation of this section is punishable under RCW 77.15.410.

**(3) Acceptance Guidelines**

(a) LHP contracts must provide one or both of the hunting opportunities listed below for the public via landowner permits and public permits:

- Hunting opportunity that otherwise would not exist.
- Hunting opportunity that helps resolve chronic crop damage problems that have been documented by WDFW.

(b) WDFW will deny LHP applications that do not provide substantial public access benefit beyond the allotted WDFW public permit opportunity.

• For the purposes of this program, "substantial public benefit" will be defined as access for the general public to the property outside of the designated LHP permit season, for any of the following activities: General season or special permit hunting access for deer, elk, bear, cougar, sheep, goat, moose, upland game birds, turkey, waterfowl, dove or other nonhunting activities such as wildlife viewing or fishing. At a minimum, the LHP property must allow access for at least two types of recreational opportunity outside of the designated LHP permit seasons for deer and elk. Each LHP agree-

ment must demonstrate a substantial public benefit to the citizens of the state and the wildlife resources of the area. For further information regarding public benefit, please refer to the standard operating procedure.

(c) Lands in a single LHP must have a minimum hunt-able acreage of 1,000 acres.

- Lands that are contiguous can span GMU boundaries.
- Lands that are not contiguous have to reside within the same GMU.

(d) Only 2 LHP contracts will be active at the same time in each WDFW district (Appendix B). If an LHP crosses district boundaries, the LHP will be considered to be in the district containing the majority of the land and/or hunting opportunity.

(e) WDFW will prioritize LHP applications that score the highest using the scoring matrix (Criteria - Appendix D in the standard operating procedure). In addition to LHP hunts, "no-fee" general public access opportunity is required (e.g., general deer, elk, turkey, upland hunting, or other opportunities as stated in (b) of this subsection). Special accommodations for hunters with disabilities, youth, seniors, and designated master hunters are also strongly encouraged, as well as "no-fee" access for special permit holders (e.g., elk, bear, moose and bighorn sheep).

(f) To ensure predictability for landowners, hunters, and WDFW, all landowners who enter into an LHP contract in April are required to abide by the conditions of the LHP contract for the term of the contract. Any changes in property ownership, total acreage or management practices on the land(s) enrolled in the LHP will require an amendment to the contract. WDFW reserves the right to alter conditions to the contract if an amendment is required. It is the responsibility of the landowner to inform the proper WDFW regional staff of any changes. Not providing accurate information may result in the termination of the contract.

(g) Landowners may only be involved in one LHP statewide.

#### **(4) Program Guidelines**

(a) Policy C-6002 divides hunting on LHP cooperator lands into public and landowner permit opportunities. Public opportunity is defined as permits that are drawn through the WDFW permit drawing system or are drawn through a public raffle. Landowner opportunity is defined as those permits allocated to and distributed by the LHP cooperator(s).

(b) No LHP permits for elk will be issued in those GMUs where branch-antlered bull elk hunting is by quality or bull elk special permits only.

(c) No LHP permits for deer will be issued in those GMUs where antlered deer hunting is by quality or buck deer special permits only.

(d) Landowners may sell access associated with landowner LHP permits, but then must waive the right to claims for wildlife damage. Selling access may also affect landowner liability as described in RCW 4.24.200 and 4.24.210. It is the responsibility of the landowner to ensure they are protected against liability claims.

(e) WDFW will draw permits for public hunting opportunity through the licensing permit drawing system or through a public raffle. Public raffles must be conducted according to state laws and regulations including, but not lim-

ited to, WAC 220-412-050 and as outlined in the commission policy C-6002.

(f) Access to LHP property and associated hunting will be free of charge for individuals who draw a public LHP permit. Hunting opportunity (i.e., location, length of time, season of the hunt and hunting area) must be equivalent for public permit holders and landowner permit holders. Landowners not meeting this requirement will have their LHP contract voided. Landowners in an LHP may be required to provide evidence verifying equitability between both the public and landowner permits.

(g) Lands in an LHP contract will be identified on the WDFW website, along with other private and public hunting lands. The cooperator or WDFW may create additional detailed maps to better inform the public. Any additional maps or materials may also be posted on the WDFW website.

(h) LHP boundaries will be posted with WDFW approved signs in accordance with boundary posting requirements section of the standard operating procedure.

(i) LHP properties may not have fences that alter or prevent the natural movement of wildlife.

(j) All LHP permits are only valid within the identified LHP property boundaries. Any wildlife harvested outside the boundaries of the LHP using an LHP permit will be considered a "closed season" violation. LHP permits are not valid on private or public in-holdings that are not included in the LHP contract.

(k) Any cost to implement the program, other than costs typically covered by WDFW (e.g., WDFW staff time and LHP signage), will be the responsibility of the landowner.

(l) Damage prevention permits authorized under WAC 220-440-060 will be issued to LHP cooperators only if WDFW deems it necessary to control damage.

(m) All LHP contracts will be tied to the three-year season setting cycle.

(n) LHP permits will be allocated annually. WDFW regional staff will provide permit recommendations to the private lands section manager by mid-November of each year.

(o) A cooperator who does not comply with their LHP contract may have their contract voided by the department. If their contract is voided, they will not be able to reapply until the next application cycle and forfeit any remaining permits to WDFW. If a contract is voided, the LHP property may be enrolled in another WDFW access program without having to wait until the next LHP application cycle.

(p) WDFW at its discretion may deny any LHP application for biological or social reasons.

(q) LHPs shall not be authorized in areas where other access opportunities may be jeopardized.

(r) Due to the limited availability of habitat funding, LHP properties will not be prioritized for any funding available to the private lands access program for the purposes of habitat enhancement, restoration or other habitat related activities. This does not include federal programs, where WDFW staff provide technical assistance.

Annual reports (Appendix C) will be required for all LHP properties. The annual report form will be mailed to the landowners with their LHP permits each year. Reports are due back to the private lands section manager no later than

May 1st of the following year. Failing to mail/send completed harvest reports may result in a delay in issuing permits the following hunting season. Chronic failure to submit reports will lead to voiding of the LHP contract.

Hunters may only apply for permits consistent with the tag required for the hunt choice; however, Multiple Season Permit holders may apply for archery, muzzleloader, or modern firearm permit hunts. Hunters drawn for a special permit hunt must comply with weapon restrictions, dates, and other conditions listed for the hunt. Hunters drawn for a special permit designated "**Any tag**" under the "**Weapon/Tag**" restriction must use equipment consistent with the requirements of their transport tag and license.

**Bag Limit:** One (1) deer per hunter during the license year except where otherwise permitted by department rule, even if permits are drawn for more than one deer hunt category.

Applicants must have purchased the proper tag for these hunts. The elk tag prefixes required to apply for each hunt are shown in the following table. Hunters drawn for a special permit hunt must comply with weapon restrictions, dates, and other conditions listed for the hunt. Hunters drawn for a special permit designated "**Any tag**" under the "**Weapon/Tag**" restriction must use equipment consistent with the requirements of their transport tag and license.

**Bag Limit:** One (1) elk per hunter during the license year except where otherwise permitted by department rule, even if

permits are drawn for more than one elk hunt category. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two (2) elk per hunter during the license year.

\* Adjusted to stay within realistic density.

(a) In hunt areas with a harvest guideline, the cougar late hunting season may close on or after January 1st in one or more GMUs if cougar harvest meets or exceeds the guideline.

(b) In hunt areas with a harvest guideline, starting January 1st, cougar hunters may hunt cougar from January 1st until the hunt area harvest guideline has been met, and the department has notified licensed cougar hunters by posting the hunt area closure on the department's website and on the toll-free cougar hunting hotline, or April 30th, whichever occurs first.

(3) Harvest guideline system:

(a) All cougar killed by licensed hunters during the early and late hunting seasons, and seasons authorized under WAC 220-440-030 shall be counted toward the harvest guideline.

(b) Individual problem cougar will continue to be killed on an as-needed basis utilizing depredation permits, landowner kill permits, and WDFW depredation authority regardless of harvest guidelines.

(c) It is each cougar hunter's responsibility to verify if the cougar late hunting season is open or closed in hunt areas with a harvest guideline. Cougar hunters can verify if the season is open or closed by calling the toll-free cougar hunting hotline or visiting the department's website.

(4) Cougar hunting season requirements and special restrictions.

(a) A valid big game hunting license which includes cougar as a species option is required to hunt cougar.

(b) The statewide bag limit is one (1) cougar per license year; excluding removals authorized under WAC 220-440-030. It is unlawful to kill or possess spotted cougar kittens or adult cougars accompanied by spotted kittens.

(c) The use of dogs to hunt cougar is prohibited; except by a commission authorized permit (WAC 220-440-030).

(d) Any person who takes a cougar must comply with the notification and sealing requirements in WAC 220-400-050.

(e) A special cougar permit is required to hunt cougar in GMU 485.

A "broomed" horn is defined as a sheep horn that has been broken, splintered, frayed or rubbed in the wild, thus shortening its length and disrupting its natural taper.

AMENDATORY SECTION (Amending WSR 17-05-112, filed 2/15/17, effective 3/18/17)

**WAC 220-440-060 Killing wildlife causing private property damage.** The fish and wildlife commission is authorized to classify wildlife as game, and/or as endangered species or protected wildlife, and/or as a predatory bird consistent with RCW 77.08.010 and 77.12.020. The commission is also authorized, pursuant to RCW 77.36.030, to establish the limitations and conditions on killing or trapping wildlife that is causing damage on private property. The department may authorize, pursuant to RCW 77.12.240 the killing of wildlife destroying or injuring property.

The conditions for killing wildlife vary, based primarily on the classification of the wildlife species, the imminent nature of the threat to damage private property, the type of private property damage, and the preventive and nonlethal methods employed by the person prior to the damage event. Additional conditions defined by the department may also be important, depending on individual situations. Killing wildlife to address private property damage is subject to all other state and federal laws including, but not limited to, Titles 77 RCW and 220 WAC.

(1) It is unlawful to kill protected wildlife or endangered species (as defined in RCW 77.08.010) unless authorized by commission rule or with a permit from the department, with the following additional requirements:

(a) Federally listed threatened or endangered species will require federal permits or federal authority, in addition to a state permit.

(b) All migratory birds are federally protected and may require a federal permit or federal authority, in addition to a state permit.

(2) Killing wildlife causing damage to a commercial crop or to livestock.

It is permissible to kill unclassified wildlife, predatory birds, and game animals that are in the act of damaging commercial crops or attacking livestock or other domestic animals, under the following conditions:

(a) Predatory birds other than crows and magpies (defined in RCW 77.08.010) and unclassified wildlife that

are in the act of damaging commercial crops or attacking livestock or other domestic animals may be killed with the express permission of the crop, livestock, domestic animals, or property owner at any time on private property, to protect domestic animals, livestock, or commercial crops.

(b) Subject to and consistent with U.S. Fish and Wildlife Service regulation "Depredation order for blackbirds, cowbirds, crows, grackles, and magpies," published at 50 C.F.R. Sec. 21.43, it is permissible to take crows or magpies to protect livestock or commercial crops.

(c) If an owner has attempted nonlethal damage control techniques and acquires verbal or written approval from the department, they may kill an individual (one) deer or elk during the physical act of damaging commercial crops within a twelve-month period. The owner must notify the department within twenty-four hours of kill. The department will document animals harvested under this subsection and will ensure harvest is consistent with herd management objectives developed cooperatively with comanagers where available.

((e)) (d) Multiple deer or elk may be killed if they are in the act of damaging commercial crops if the owner, owner's immediate family member, agent of the owner, or owner's documented employee is issued damage prevention or kill permits and the owner has a valid, written damage prevention cooperative agreement with the department.

((e)) (e) An owner may kill an individual (one) black bear or cougar during the physical act of attacking livestock or domestic animals with or without an agreement or permit within a twelve-month period. The owner must notify the department within twenty-four hours of kill.

(3) Killing wildlife causing damage or killing wildlife to prevent private property damage.

(a) Predatory birds other than crows and magpies (as defined in RCW 77.08.010((39))), unclassified wildlife, and eastern gray squirrels may be killed by the owner of private property, owner's immediate family, agent of the owner, or the owner's documented employee with the express permission of the private real property owner at any time, to prevent private property damage on private real property.

(b) Subject to and consistent with U.S. Fish and Wildlife Service regulation "Depredation order for blackbirds, cowbirds, crows, grackles, and magpies," published at 50 C.F.R. Sec. 21.43, it is permissible to take crows or magpies to prevent property damage.

(c) Subject to subsection (7) of this section, the following list of wildlife species may be killed by the owner of the property, owner's immediate family member, agent of the owner, owner's documented employee, or licensed hunters/trappers in a lawful manner with the express permission of the private real property owner, when causing damage to private property: Raccoon, fox, bobcat, beaver, muskrat, mink, river otter, weasel, hare, and cottontail rabbits.

((e)) (d) The department may make agreements with landowners to prevent private property damage by wildlife. The agreements may authorize permits to remove animal(s) to abate private property damage.

((e)) (e) Landowners are encouraged to allow general season hunting and trapping on their property to help minimize damage potential and concerns.

(4) Wildlife control operators may assist property owners under the conditions of their certification or permits to remove animals causing damage.

(5) Tribal members may assist property owners under the conditions of valid comanagement agreements between tribes and the department. Tribes must be in compliance with the agreements including, but not limited to, adhering to reporting requirements, possession, and harvest restrictions.

(6) Hunting licenses and/or associated tags are not required to kill wildlife under this section unless the killing is pursuant to subsections (2)(c) and (3)(b) of this section. Hunters and trappers participating in harvesting wildlife under this section must comply with provisions of each permit. Tribal members operating under subsection (5) of this section are required to meet tribal hunting license, tag, and permit requirements.

(7) Except as specifically provided in a permit from the department or a rule of the commission, people taking wildlife under this rule are subject to the laws and rules of the state.

Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: WAC 308-109-010 Definitions, 308-109-020 Motorcycle safety subsidy, and 308-109-030 Improving access to motorcycle ridership and reducing fatalities and serious injuries related to incidents involving motorcycles, establishes new language related to motorcycle safety in chapter 308-109 WAC. These WAC provide definitions, determine how subsidy funds will be allocated, and further explain how the department will fulfill its responsibilities to reducing fatalities and serious injuries related to incidents involving motorcycles, which was mandated in RCW 46.81A.020(5).

Reasons Supporting Proposal: This rule will help the department comply with changes to RCW 46.81A.020,

which were effective on January 1, 2020. Motorcycle safety education business owners were involved in the development of these rules and attended several rule-making workshops before the industry was surveyed about the cost of implementing these rules. Business owners who responded stated that there would be negligible costs associated with implementation and compliance.

Statutory Authority for Adoption: RCW 46.81A.020, 46.01.110.

Statute Being Implemented: RCW 46.81A.020.

Rule is not necessitated by federal law, federal or state court decision.

Name of Agency Personnel Responsible for Drafting, Implementation, and Enforcement: Bryan Jackson, 1125 Washington Street S.E., Olympia, WA 98501, 360-902-3664.

A school district fiscal impact statement is not required under RCW 28A.305.135.

A cost-benefit analysis is required under RCW 34.05.-328. A preliminary cost-benefit analysis may be obtained by contacting Ellis Starrett, 1125 Washington Street S.E., Olympia, WA 98501, phone 360-902-3846, email estarrett@dol.wa.gov.

The proposed rule does not impose more-than-minor costs on businesses. Following is a summary of the agency's analysis showing how costs were calculated. During the rule writing workshops, motorcycle safety education business owners discussed the minimal impact that this model would impose on their businesses and that it would not impose any costs. An email was then sent out to all of the business [businesses] impacted with the foreseen impacts outlined and the draft rule language. They were given over three weeks to respond. Responding businesses reported that the rules would not have an economic impact on their business. There were two responses that conveyed concerns about implementation and procedures. The department of licensing is committed to working collaboratively with the businesses to implement the rules and minimize the amount of labor, material, and resources required to request reimbursement as much as possible.

A copy of the detailed cost calculations may be obtained by contacting Ellis Starrett, 1125 Washington Street S.E., Olympia, WA 98501, phone 360-902-3846, email estarrett@dol.wa.gov.
