PREPROPOSAL STATEMENT OF INQUIRY
DEPARTMENT OF AGRICULTURE
[Filed March 7, 2022, 9:34 a.m.]

Subject of Possible Rule Making: Chapter 16-306 WAC, Hemp program. In response to changes in federal law that occurred when the United States Department of Agriculture (USDA) published its final rule for the domestic production of hemp (final rule) in January of 2021, the department is considering the following amendments:

- Updating various sections of this chapter to align with the USDA's final rule; and
- Updating multiple sections throughout the chapter in order to add clarity and transparency to the existing language.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 15.140.030.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Subsequent to the passage of the 2018 Farm Bill, the USDA provided the interim final rule (IFR) on the Establishment of a Domestic Hemp Production Program (84 F.R. 58522), on October 31, 2019. The WSDA hemp program created a plan in alignment with the IFR, and submitted that plan to the USDA, while finalizing state rules for the hemp program. As the legalization of hemp is a recent development, the federal government provided a comment period on the IFR so that states and those subject to the regulatory requirements of the IFR during the 2020 production cycle could provide feedback about how the IFR was being operationalized in their jurisdictions.

The IFR presented several challenges to the department and its stakeholders, as the 15-day window for inspection and sampling prior to harvest made it challenging for the hemp program to schedule inspections throughout the state. A lack of options for remediation meant that farmers with noncompliant hemp plants had to destroy their crops, despite processes available to reduce the THC concentration of their plant materials. Finally, the IFR did not provide options or opportunities for farmers producing nonflowering hemp plants, including microgreens, seedlings, and clones to receive certification within the program. The USDA addressed these challenges by incorporating less restrictive components in the final rule, which was published on January 19, 2021, and effective on March 22, 2021.

Since September 21, 2021, the hemp producers have been able to comply with these federal standards under the WSDA's Policy Statement CI-21-0002 (WSR 21-20-061). These amendments will incorporate those changes into the hemp program rule in chapter 16-306 WAC. Additionally, updating other sections throughout the chapter will provide clarity and transparency to hemp licensees in regard to testing, the appeals process, and enforcement.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: USDA, Washington state liquor and cannabis board, and the Washington state department of health. The department will provide notice to these agencies of our rule-making process via email.

Process for Developing New Rule: The department will discuss any proposed amendments with affected stakeholders and individual businesses that may be affected. Affected stakeholders will also have an opportunity to submit written comments on the proposed rule during the

public comment period, and will be able to present oral testimony at the public hearing.

Interested parties can participate in the decision to adopt the new rule and formulation of the proposed rule before publication by contacting Trecia Ehrlich, Hemp Program Manager, 1111 Washington Street S.E., P.O. Box 42560, Olympia, WA 98504-2560, phone 360-584-3711, fax 360-902-2085, TTY 800-833-6388, email tehrlich@agr.wa.gov, website www.agr.wa.gov.

SOCIAL AND HEALTH SERVICES
(Aging and Long-Term Support Administration)
[Filed March 17, 2022, 12:07 p.m.]

Subject of Possible Rule Making: The department was granted rule-making authority in ESHB 1120 in 2021, chapter 203, Laws of 2021, and is therefore pursuing regular rule making, as a follow-up to implementation of emergency rules, to reinstate the fingerprinting requirement for providers that was temporarily suspended by the governor's proclamation due to the public health emergency. The proposal also amends other rules in chapter 388-06 WAC to ensure they are consistent with one another and do not conflict with current background check rules in chapter 388-113 WAC.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 43.20A.710, 43.43.837, 74.08.090, 74.09.520, 74.39A.056; ESHB 1120, section 19, chapter 203, Laws of 2021.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: Regular rule making, following an emergency WAC that was filed prior to the end of the proclamation to reduce future capacity issues for providers who need to complete fingerprinting, allows for public review and feedback from interested parties.

The department filed an emergency rule as WSR 22-06-074 on March 1 with an effective date of May 1.

Other Federal and State Agencies that Regulate this Subject and the Process Coordinating the Rule with These Agencies: Department of social and health services, developmental disabilities administration and residential care services division.

UTILITIES AND TRANSPORTATION
COMMISSION

[Filed March 18, 2022, 11:41 a.m.]

Subject of Possible Rule Making: This rule making concerns potential changes to current customer notice, credit, and collection rules applicable to the provision of electric and natural gas utility service, including the possibility of permanently eliminating late fees, disconnection fees, and reconnection fees. Topics for consideration include those found in chapters 480-90 and 480-100 WAC, including electric and natural gas service applications, responsibilities, connections, disconnections, reconnections, refusals, interruptions, deposits, fees, payment arrangements and programs, customer information, billing requirements, billing payments, customer notice, credit, collections, and other related topics.

Statutes Authorizing the Agency to Adopt Rules on this Subject: RCW 80.01.040, 80.04.160; and chapter 80.28 RCW.

Reasons Why Rules on this Subject may be Needed and What They Might Accomplish: RCW 80.01.040 and 80.04.160 task the commission with regulating the provision of natural gas and electric service. The commission enacted rules regarding the provision of electric and natural gas service in chapters 480-90 and 480-100 WAC.

The COVID-19 pandemic has presented numerous challenges, especially for customers struggling to pay bills during a global crisis. Utility companies, in support of and in compliance with the governor's moratorium on utility disconnections, changed fee, disconnection, and reconnection practices by suspending them through September 30, 2021.

On October 20, 2020, the commission in Docket U-200281, *In the Matter of Response to the COVID-19 Pandemic*, issued Order 01, Extending suspension of disconnection of energy services for nonpayment and adopting related requirements. In that order, the commission determined that it should open a proceeding, when reasonably practicable, "to consider potential long-term changes and improvements to customer notice, credit, and collection rules, including permanent elimination of late fees, disconnection and reconnection fees, and deposits" Having seen the impact of changed practices on electric and natural gas customers and the utilities that serve them, the commission finds it in the public interest to consider if longer term changes should be incorporated into chapters 480-90 and 480-100 WAC. Topics for consideration include those found in chapters 480-90 and 480-100 WAC, including electric and natural gas service applications, responsibilities, connections, disconnections, reconnections, refusals, interruptions, deposits, fees, payment arrangements and programs, customer information, billing requirements, billing payments, customer notice, credit, collections, and other related topics.

Process for Developing New Rule: The utilities and transportation commission (UTC) uses a collaborative rule-making process that includes stakeholder workshops, formal comments, and draft rules.
