**Semi-Annual Rule-Making Agenda
January - June 2023**

The forest practices board's (board) mandate is to adopt rules to protect the state's public resources while maintaining a viable forest products industry. The following rule proposals are under development or are anticipated during this time period. There may be additional rule-making activity not on the agenda as conditions warrant.

1. **Water Typing System.** The board has been engaged in rule development to establish a permanent water typing system. Elements to include in the rule are ongoing. The board may initiate rule making in late 2023.

2. **Type Np Water Buffer.** The board may initiate rule making in late 2023 on Type Np Water (nonfish perennial) riparian management zone buffers in chapter 222-30 WAC.

3. **Marbled Murrelet.** Based on recommendations of the Wildlife Working Group, the board may consider rule making to amend critical habitat rules for marbled murrelet in chapter 222-16 WAC.

4. **Water Typing Lidar Map-based Model.** The board confirmed a lidar map-based model as a goal for the permanent water typing system rule. The board may engage in rule making when there is sufficient statewide lidar coverage.

Community First Choice Tribal Adult Family Homes.

Effective Date: July 1, 2023.

Description: State law, RCW 70.128.122, recognizes that adult family homes (AFHs) located within the boundaries of federally recognized tribal lands may be licensed by an Indian tribe. DEPARTMENT OF ECOLOGY

PUBLIC NOTICE

Announcing the Draft Irrigation System Aquatic Weed Control General Permit and Fact Sheet for Review and Comment

The Washington state department of ecology (ecology) proposes to reissue the **irrigation system aquatic weed control** national pollutant discharge elimination system and state waste discharge general permit (permit). The current permit was last issued in **May 2012** and expired in **June 2017**. The revised draft permit and fact sheet, which explains the legal and technical basis for the permit, are available with any associated documents for review and public comment from **January 18 through March 6, 2023, at 11:59 p.m.** Ecology will host informational workshops and public hearings on the draft permit.

Purpose of the Permit: The permit provides coverage for the conditional use of pesticides, marker dyes, and other chemicals to manage and eradicate aquatic plants and algae in irrigation canals that flow into surface waters of the state of Washington. Under federal and state water quality laws (Federal Clean Water Act and State Water Pollution Control Act), a permit is required for the discharge of these wastewaters. Irrigation districts, reclamation districts, water companies, and similar entities that discharge wastewater either directly or indirectly to waters of the state must obtain permit authorization for their discharge.

Applying for Coverage under the Permit: Facilities that have already applied for coverage by December 17, 2016, and are covered under the existing permit, are covered under the new permit. New or unpermitted facilities may obtain coverage under the permit by submitting a complete permit application to ecology and satisfying all applicable public notice and State Environmental Policy Act (SEPA) requirements (WAC 173-226-200). Access to the application is available online at <https://ecology.wa.gov/Regulations-Permits/Permits-certifications/Aquatic-pesticide-permits/Irrigation-system-aquatic-weed-control>.

Copies of the Draft Permit and Fact Sheet: The draft permit and fact sheet are available online at <https://ecology.wa.gov/Regulations-Permits/Permits-certifications/Aquatic-pesticide-permits/Irrigation-system-aquatic-weed-control> by end of day on January 18, 2023. You may also request copies from Jackie Lince at 360-407-6600 or by email at jackie.lince@ecy.wa.gov.

Submitting Written Comments: Ecology will accept written comments on the draft permit from **January 18 through March 6, 2023, by 11:59 p.m.** Ecology prefers online comment submission via the eComment form (link below) on the permit web page. Written comments by mail must be postmarked by March 6, 2023. Comments should reference specific permit text when possible.

Public Workshop(s) and Hearing(s): The purpose of the workshop is to explain the general permit and to answer questions prior to the formal public hearing. The purpose of the hearing is to provide an opportunity for people to give formal oral testimony and written comments on the proposed draft permit. Oral testimony will receive the same consideration as written comments.

The public hearing will begin immediately following the public workshop and will conclude when public testimony is complete.

The **irrigation system aquatic weed control general permit** workshops and hearings will occur on February 21, 2023, at **10:00 a.m.**, webinar*.
