**DEPARTMENT OF**  
**FISH AND WILDLIFE**

[Order 23-105—Filed July 5, 2023, 12:41 p.m., effective July 7, 2023]

Effective Date of Rule: July 7, 2023.

Purpose: Additional regulations are needed to prevent wildfires on department lands during the current period of high fire danger. The new rules will help reduce the threat of wildfires on department lands and provide protection of human health, safety, and wildlife habitat.

Citation of Rules Affected by this Order: Amending WAC 220-500-030, 220-500-040, 220-500-110, and 220-500-140.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.055, 77.12.047, and 77.12.240.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: An emergency rule is necessary to protect department lands from imminent risk of wildfire damage during a high fire danger period, which is occurring currently, before permanent rules can be adopted. These additional prohibitions are needed immediately to protect humans, wildlife, and property.

**DEPARTMENT OF**

[Order 23-114—Filed July 5, 2023, 4:53 p.m., effective July 6, 2023]

Effective Date of Rule: July 6, 2023.

Purpose: The purpose of this emergency rule is to return a portion of the Klickitat River to permanent rules.

Citation of Rules Affected by this Order: Repealing WAC 220-312-03000D; and amending WAC 220-312-030.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is necessary to return lower Klickitat River salmon rules to permanent rules.

The Klickitat River salmon season was closed earlier this year due to low returns of spring Chinook to the Klickitat Salmon Hatchery. Fishery comanagers have indicated most of the spring Chinook return has passed above Lyle Falls into the upper river, making continued closure of the hatchery Chinook fishery in the lower river unnecessary.

This rule also carries forward emergency rules previously filed in WSR 23-14-083 (Order 23-112), on June 29, 2023, for Klickitat and Lewis rivers.

There is insufficient time to adopt permanent rules.

[Order 23-115—Filed July 6, 2023, 2:57 p.m., effective July 6, 2023, 2:57 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to raise sockeye limits in the Hanford Reach area of the Columbia River.

Citation of Rules Affected by this Order: Repealing WAC 220-312-06000R; and amending WAC 220-312-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is necessary to raise sockeye limits in the Hanford Reach area of the Columbia River.

The *U.S. v. Oregon* technical advisory committee updated the sockeye salmon run from 234,500 preseason to approximately 331,000. At this updated run size, there are additional Sockeye available for harvest in the Columbia River upstream of the Snake River.

This emergency rule also maintains lower Columbia River salmon and steelhead rules, previously filed in WSR 23-14-074 (Order 23-107), filed June 29, 2023.

There is insufficient time to adopt permanent rules.

[Order 23-116—Filed July 6, 2023, 3:01 p.m., effective July 8, 2023]

Effective Date of Rule: July 8, 2023.

Purpose: The purpose of this emergency rule is to raise Chinook limits in Catch Record Card Areas 3 and 4.

Citation of Rules Affected by this Order: Repealing WAC 220-313-07500Q; and amending WAC 220-313-075.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The purpose of this rule is to modify ocean recreational salmon seasons in Marine Areas 3 and 4 to allow daily retention of up to two Chinook salmon. Based on catch to date and projected catch later in the season, sufficient quota remains to allow daily retention of two Chinook per angler without requiring early closure of the fishery in these areas.

This rule maintains previously established recreational seasons in Areas 1 and 2.

These rules for in-state waters are consistent with federal salmon fishing regulations adopted by the National Marine Fisheries Service in response to actions taken by the Pacific Fishery Management Council to set salmon fishery harvest specifications and management measures; this action is intended to achieve regulatory consistency in federal and state waters for the ocean recreational salmon fishery, which operates in both areas.

There is insufficient time for the Washington state department of fish and wildlife to adopt consistent regulations through the permanent rule-making process.

**FISH AND WILDLIFE**

[Order 23-117—Filed July 6, 2023, 5:17 p.m., effective July 6, 2023, 5:17 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this rule making is to provide for treaty Indian fishing opportunity in the Columbia River while protecting salmon listed as threatened or endangered under the Endangered Species Act (ESA). This rule making implements federal court orders governing Washington's relationship with treaty Indian tribes and federal law governing Washington's relationship with Oregon.

Citation of Rules Affected by this Order: Repealing WAC 220-359-02000R; and amending WAC 220-359-020.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.04.130, 77.12.045, and 77.12.047.

Other Authority: *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 *United States v. Oregon* Management Agreement (February 26, 2018) (Doc. No. 2607-1). *Northwest Gillnetters Ass'n v. Sandison*, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington fish and wildlife commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River Compact).

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule closes commercial salmon and steelhead sales for the Columbia River treaty summer season fisheries while still allowing commercial sales of nonsalmonid species. Salmon and steelhead remain open for subsistence purposes. This rule is consistent with actions of the Columbia River Compact on June 7, June 28, and July 6, 2023. Conforms state rules with tribal rules. The general public welfare is protected with the immediate opening of nontreaty buyers purchasing fish from treaty fisheries. This harvest opportunity allows for the tribal use of and public access to the resource as well as the maintenance of sustainable fish populations. There is insufficient time to promulgate permanent regulations.

The Yakama, Warm Springs, Umatilla, and Nez Perce Indian tribes have treaty fishing rights in the Columbia River and inherent sovereign authority to regulate their fisheries. Washington and Oregon also have some authority to regulate fishing by treaty Indians in the Columbia River, authority that the states exercise jointly under the congressionally ratified Columbia River Compact. *Sohappy v. Smith*, 302 F. Supp. 899 (D. Or. 1969). The tribes and the states adopt parallel regulations for treaty Indian fisheries under the supervision of the federal courts. A court order sets the current parameters. *United States v. Oregon*, Civil No. 68-513-KI (D. Or.), Order Adopting 2018-2027 *United States v. Oregon* Management Agreement (February 26, 2018) (Doc. No. 2607-1). Some salmon and steelhead stocks in the Columbia River are listed as threatened or endangered under the ESA. On February 23, 2018, the National Marine Fisheries Service issued a biological opinion under 16 U.S.C. § 1536 that allows for some incidental take of these species in the fisheries as described in the 2018-2027 *United States v. Oregon* Management Agreement.

Columbia River fisheries are monitored very closely to ensure consistency with court orders and ESA guidelines. Because conditions change rapidly, the fisheries are managed almost exclusively by emergency rule. As required by court order, the Washington (WDFW) and Oregon (ODFW) departments of fish and wildlife convene public hearings and invite tribal participation when considering proposals for new emergency rules affecting treaty fishing rights. *Sohappy*, 302 F. Supp. at 912. WDFW and ODFW then adopt regulations reflecting agreements reached.

[Order 23-118—Filed July 6, 2023, 5:18 p.m., effective July 8, 2023]

Effective Date of Rule: July 8, 2023.

Purpose: The purpose of this emergency rule is to open recreational sockeye seasons in Baker Lake.

Citation of Rules Affected by this Order: Amending WAC 220-312-040.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is needed to open seasons for sockeye salmon in Baker Lake.

A record number of sockeye have been trucked [tracked to] Baker Lake for this early in July. Due to the unprecedented number of early returning fish, the lake will open earlier than scheduled to maximize opportunity.

There is insufficient time to adopt permanent rules.

## EMERGENCY RULES

## DEPARTMENT OF HEALTH

(Pharmacy Quality Assurance Commission)

[Filed July 7, 2023, 12:07 p.m., effective July 7, 2023, 12:07 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Medication assistance in community-based and in-home care settings. As provided in RCW 69.41.010(15), the pharmacy quality assurance commission (commission) and department of health (department) are filing jointly to reinstate medication assistance rules as permitted under chapter 69.41 RCW by adopting new rules in WAC 246-945-710, 246-945-712, 246-945-714, 246-945-716, 246-945-718, 246-945-720, 246-945-722, 246-945-724, 246-945-726, and 246-945-728. This adopted emergency rule will extend WSR 23-07-056 filed on March 9, 2023 without change.

This rule establishes criteria for medication assistance in community-based and in-home care settings in accordance with chapter 69.41 RCW. The definition for medication assistance provided in RCW 69.41.010(15) states: "Medication assistance" means assistance rendered by a nonpractitioner to an individual residing in a community-based care setting or in-home care setting to facilitate the individual's self-administration of a legend drug or controlled substance. It includes reminding or coaching the individual, handing the medication container to the individual, opening the individual's medication container, using an enabler, or placing the medication in the individual's hand, and such other means of medication assistance as defined by rule adopted by the department.

These emergency rules provide further definitions for terms used within this definition such as "enabler" and establish those "other means of medication assistance as defined by rule adopted by the department." These rules help impacted individuals retain their independence and live in the least restrictive setting, such as their own home, longer by providing means and guidance for medication assistance.

Citation of Rules Affected by this Order: New WAC 246-945-710, 246-945-712, 246-945-714, 246-945-716, 246-945-718, 246-945-720, 246-945-722, 246-945-724, 246-945-726, and 246-945-728.

Statutory Authority for Adoption: RCW 18.64.005, 69.41.010(15), 69.41.075.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The commission's new chapter 246-945 WAC became effective in July 2020. The old rules, including the former rules on medication assistance (chapter 246-888 WAC), were repealed in March 2021. The commission's repeal of chapter 246-888 WAC has resulted in unintended disruptions for medication assistance in the community-based and in-home care settings permitted under chapter 69.41 RCW. Emergency rule making is necessary to immediately restore medication assistance regulations to preserve patient safety and welfare while the commission and the department work on permanent rule making. The CR-101 was filed on December 27, 2021, under WSR 22-02-015. Permanent rule making was originally delayed due to the novel coronavirus COV-

ID-19 pandemic but is still in progress. Commission staff and the department of social and health services (DSHS) met for preliminary discussions regarding draft language. Drafts of the amended rule language were written by commission staff and shared with DSHS personnel for interagency review. The commission will distribute draft language to the public leading up to the planned workshops in early fall of 2023.

## PART 5 - MEDICATION ASSISTANCE

### NEW SECTION

**WAC 246-945-710 Scope and applicability.** (1) This section through WAC 246-945-728 only apply to medication assistance provided in community-based care settings and in-home care settings.

(2) The following definitions apply to this section through WAC 246-945-728 unless the context requires otherwise:

(a) "Medication" means legend drugs and controlled substances;

and

(b) "Practitioner" has the same meaning as in RCW 69.41.010(17).

[]

NEW SECTION

**WAC 246-945-712 Self-administration with assistance, independent self-administration, and medication administration.** (1) Self-administration with assistance means assistance with legend drugs and controlled substances rendered by a nonpractitioner to an individual residing in a community-based care setting or an in-home care setting. It includes reminding or coaching the individual to take their medication, handing the medication container to the individual, opening the medication container, using an enabler, or placing the medication in the hand of the individual/resident. The individual/resident must be able to put the medication into their mouth or apply or instill the medication. The individual/resident does not necessarily need to state the name of the medication, intended effects, side effects, or other details, but must be aware that they are receiving medication. Assistance may be provided by a nonpractitioner with prefilled insulin syringes. Assistance is limited to handing the prefilled insulin syringe to an individual/resident. Assistance with the administration of any other intravenous or injectable medication is specifically excluded. The individual/resident retains the right to refuse medication. Self-administration with assistance shall occur immediately prior to the ingestion or application of a medication.

(2) Independent self-administration occurs when an individual/resident is independently able to directly apply a legend drug or controlled substance by ingestion, inhalation, injection or other means. In licensed assisted living facilities, self-administration may include situations in which an individual cannot physically self-administer medications but can accurately direct others. These regulations do not limit the rights of people with functional disabilities to self-direct care according to chapter 74.39 RCW.

(3) If an individual/resident is not able to physically ingest or apply a medication independently or with assistance, then the medication must be administered to the individual/resident by a person legally authorized to do so (e.g., physician, nurse, pharmacist). All laws and regulations applicable to medication administration apply. If an individual/resident cannot safely self-administer medication or self-administer with assistance or cannot indicate an awareness that they are taking a medication, then the medication must be administered to the individual/resident by a person legally authorized to do so.

[ ]

NEW SECTION

**WAC 246-945-714 Self-administration with assistance in a community-based care setting or an in-home setting.** (1) An individual/resident, or their representative, in a community-based care setting or an in-home setting may request self-administration with assistance.

(2) No additional separate assessment or documentation of the needs of the individual/resident are required in order to initiate self-administration with assistance. It is recommended that providers document their decision-making process in the health record of the individual or resident health record.

(3) A nonpractitioner may help in the preparation of legend drugs and controlled substances for self-administration where a practitioner

has determined and communicated orally or by written direction that such medication preparation assistance is necessary and appropriate.

[]

NEW SECTION

**WAC 246-945-716 Enabler.** (1) Enablers are physical devices used to facilitate an individual's/resident's self-administration of a medication. Physical devices include, but are not limited to, a medicine cup, glass, cup, spoon, bowl, prefilled syringes, syringes used to measure liquids, specially adapted table surface, straw, piece of cloth, or fabric.

(2) An individual's hand may also be an enabler. The practice of "hand-over-hand" administration is not allowed. Medication administration with assistance includes steadying or guiding an individual's hand while he or she applies or instills medications such as ointments, eye, ear, and nasal preparations.

[]

NEW SECTION

**WAC 246-945-718 Alteration of medication for self-administration with assistance.** Alteration of a medication for self-administration with assistance includes, but is not limited to, crushing tablets, cutting tablets in half, opening capsules, mixing powdered medications with foods or liquids, or mixing tablets or capsules with foods or liquids. Individuals/residents must be aware that the medication is being altered or added to their food.

[]

NEW SECTION

**WAC 246-945-720 Medication alteration.** A practitioner practicing within their scope of practice must determine that it is safe to alter a legend drug or controlled substance. If the medication is altered, and a practitioner has determined that such medication alteration is necessary and appropriate, the determination shall be communicated orally or by written direction. Documentation of the appropriateness of the alteration must be on the prescription container, or in the individual's/resident's record.

[]

NEW SECTION**WAC 246-945-722 Types of assistance provided by nonpractitioner.**

A nonpractitioner can transfer a medication from one container to another for the purpose of an individual dose. Examples include: Pouring a liquid medication from the medication container to a calibrated spoon or medication cup.

[]

NEW SECTION**WAC 246-945-724 Oxygen order/prescription requirements.**

Under state law, oxygen is not a medication and is not covered under this rule. While oxygen is not considered a medication under state law, oxygen does require an order/prescription from a practitioner.

[]

NEW SECTION

**WAC 246-945-726 Self-administration with assistance of medication through a gastrostomy or "g-tube."** If a prescription is written as an oral medication via "g-tube," and if a practitioner has determined that the medication can be altered, if necessary, for use via "g-tube," the rules as outlined for self-administration with assistance would also apply.

[]

NEW SECTION

**WAC 246-945-728 Other medication assistance requirements.** A practitioner, nonpractitioner, and an individual/resident or their representative should be familiar with the rules specifically regulating the residential setting. The department of social and health services has adopted rules relating to medication services in assisted living facilities and adult family homes.

**EMERGENCY RULES**  
**DEPARTMENT OF**  
**FISH AND WILDLIFE**

Effective Date of Rule: Immediately upon filing.

Purpose: This emergency rule for WAC 220-340-52000G:

(1) Clarifies the pot limit for shrimp pot fisheries is specific to each gear type and allows a separate maximum 100 pot limit for spot shrimp pots and nonspot shrimp pots respectively.

(2) Defines the first spot shrimp catch accounting period as being from May 8 to August 1, 2023, and allows 5,000 pounds of spot shrimp to be harvested per license for the first catch accounting period.

(3) Opens Regions 5 and 2W to commercial spot shrimp harvest on July 10, 2023.

(4) Defines the nonspot species complex.

(5) Closes Subregions 1B and 1C to nonspot shrimp harvest on July 11, 2023, due to quota attainment.

(6) Opens nonspot shrimp quota areas; defines the nonspot shrimp catch accounting periods; sets per license catch limit of 1,500 lbs for catch period number 1 and 1,200 pounds for each subsequent catch period in Subregions 1A, 1B, and 1C and Region 2E; clarifies there is no weekly harvest limit in Regions 3 or 2W; and sets a 175-foot depth limit in Subregion 1A and Marine Fish-Shellfish Catch Area 23A.

(7) Modifies harvest restrictions for spot and nonspot shrimp fisheries.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000G; and amending WAC 220-340-520.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Permanent rules regulating state commercial shrimp harvest in Puget Sound and the Strait of Juan de Fuca require adoption of harvest seasons contained in this emergency rule. This emergency rule is necessary to prosecute state commercial shrimp pot and trawl fisheries in Puget Sound. This rule allows harvesters to both respond to dynamic changes in market conditions and promotes full utilization of both the commercial spot and nonspot shares. These rules are in congruence with comanager agreements. There is insufficient time to adopt permanent rules.

[Order 23-123—Filed July 11, 2023, 2:10 p.m., effective July 13, 2023]

Effective Date of Rule: July 13, 2023.

Purpose: The purpose of this emergency rule is to reduce the coastal commercial troll fishery weekly landing and possession limit for Chinook.

Citation of Rules Affected by this Order: Repealing WAC 220-354-30000V; and amending WAC 220-354-300.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is necessary to lower the weekly landing and possession for Chinook in Areas 1 through 4.

A harvestable quota of salmon is available for the troll fleet, but the remaining quota necessitates a lower landing and possession limits for Chinook in Areas 1 through 4. This regulation is necessary to both meet conservation limits and to provide fishing opportunity and its corresponding economic benefit. These rules are adopted at the recommendation of the Pacific Fishery Management Council, in accordance with preseason fishing plans, and have been adopted for federal waters by the National Oceanic and Atmospheric Administration.

There is insufficient time to adopt permanent rules.

**DEPARTMENT OF**  
**FISH AND WILDLIFE**

[Order 23-125—Filed July 13, 2023, 7:59 a.m., effective July 13, 2023]

Effective Date of Rule: July 13, 2023.

Purpose: This emergency rule WAC 220-340-52000I:

(1) Clarifies the pot limit for shrimp pot fisheries is specific to each gear type and allows a separate maximum 100 pot limit for spot shrimp pots and nonspot shrimp pots respectively.

(2) Defines the first spot shrimp catch accounting period as being from May 8 to August 1, 2023, and allows 5,000 pounds of spot shrimp to be harvested per license for the first catch accounting period.

(3) Closes MFSF Catch Area 25A to commercial spot shrimp harvest on July 13, 2023, due to quota attainment.

(4) Defines the nonspot species complex.

(5) Opens nonspot shrimp quota areas, defines the nonspot shrimp catch accounting periods, sets per license catch limit of 1,500 lbs for catch period number 1 and 1,200 pounds for each subsequent catch period, in Subregions 1A, 1B, and 1C and Region 2E, clarifies there is no weekly harvest limit in Regions 3 or 2W, and sets a 175-foot depth limit in Subregion 1A and MFSF Catch Area 23A.

Citation of Rules Affected by this Order: Repealing WAC 220-340-52000H; and amending WAC 220-340-520.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Permanent rules regulating state commercial shrimp harvest in Puget Sound and the Strait of Juan de Fuca require adoption of harvest seasons contained in this emergency rule. This emergency rule is necessary to prosecute state commercial shrimp pot and trawl fisheries in Puget Sound. This rule allows harvesters to both respond to dynamic changes in market conditions and promotes full utilization of both the commercial spot and nonspot shares. These rules are in congruence with comanager agreements. There is insufficient time to adopt permanent rules.

(ii) Non-spot shrimp may be harvested from Discovery Bay Shrimp District and Region 3 on the same day.

(j) It is lawful to have deactivated spot shrimp pots on-board of a commercial vessel that is listed on a Puget Sound shrimp pot license while fishing for non-spot shrimp.

A deactivated pot is un-baited, has the draw string or door fastened open, and/or is unable to be readily fished.

[Order 23-126—Filed July 13, 2023, 1:51 p.m., effective July 15, 2023]

Effective Date of Rule: July 15, 2023.

Purpose: The purpose of this emergency rule is to close recreational salmon fishing in Catch Record Card Area 11.

Citation of Rules Affected by this Order: Repealing WAC 220-313-06000V; and amending WAC 220-313-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is necessary to close salmon seasons in Catch Record Card Area 11.

The sublegal encounter limit for Catch Record Card Area 11 has reached 83 percent (3,209 of 3,845) of what was agreed to in this year's list of agreed [to] fisheries. Feedback from Puget Sound sports fishing advisory group and other members of the public indicated a desire to preserve salmon fishing opportunity for August. Therefore, the Washington department of fish and wildlife will suspend the fishery now to preserve opportunity for later in the summer season.

There is insufficient time to adopt permanent rules.

[Order 23-127—Filed July 13, 2023, 3:32 p.m., effective July 13, 2023, 3:32 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to close a portion of the Skagit River to all fishing and to increase the sockeye daily limit in Baker Lake.

Citation of Rules Affected by this Order: Repealing WAC 220-312-04000K and 220-312-04000L; and amending WAC 220-312-040.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is necessary to close a portion of the Skagit River to avoid gear conflicts with treaty fisheries.

This rule is also necessary to raise the sockeye daily limit for Baker Lake. Due to Baker Lake trap counts, the Washington department of fish and wildlife and tribal comanagers have updated the expected runsize to 52,000 sockeye. It is expected that by this weekend (July 15), over 20,000 sockeye will have been trucked to Baker Lake. This number of sockeye in the lake, at this point in the season, has only been topped once in the last decade. Broodstock collection is currently at 82 percent of the broodstock goal, which is expected to be met ahead of schedule. This runsize is sufficient to allow for increased opportunity in the lake.

Other previously scheduled salmon seasons for Cascade and Skagit rivers are also maintained by this rule.

There is insufficient time to adopt permanent rules.

(2) Threats. A threat is any conduct ((or statement)) and/or speech that, when viewed objectively, threatens bodily harm to another person or that endangers the health or safety of another person. If the threat primarily involves speech, the speaker also must have consciously disregarded a substantial, unjustifiable risk that the communications could be viewed as threatening violence.

(3) Bullying. Bullying is behavior that is:

(a) Intentional;

(b) Targeted at an individual or group; and

(c) Creates an intimidating and/or threatening environment that is so severe or pervasive, and objectively offensive, that it substantially interferes with another's ability to work, study, participate in, or benefit from the university's programs and activities.

(4) Discriminatory harassment. Physical, verbal, electronic, or other conduct based on an individual's race, color, religion, national origin, sex, age, pregnancy, marital status, sexual orientation, gender identity or expression, citizenship or immigration status, disability, or veteran status when one of the conditions outlined in subsection (3)(a) or (b) of this section are present:

(a) Submission to, or rejection of such conduct is made implicitly or explicitly a term or condition of a person's instruction, academic standing, employment, or participation in any university program, activity, or benefit, or is used as a basis for evaluation in making academic or personnel decisions; or

(b) Such conduct creates a hostile environment. A hostile environment is created when the conduct is sufficiently severe or pervasive, and objectively offensive, that it unreasonably interferes with an individual's academic or work performance, ability to participate in or benefit from the university's programs, services, opportunities, or activities. ## EMERGENCY RULES

## DEPARTMENT OF HEALTH

(Washington Medical Commission)

[Filed July 13, 2023, 6:27 p.m., effective July 13, 2023, 6:27 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Removing postgraduate medical training barriers to licensing in WAC 246-919-330 Postgraduate medical training. The Washington medical commission (commission) is amending WAC 246-919-330 to eliminate the outdated requirement for consecutive years of training in no more than two programs. This change will remove a barrier for qualified applicants to obtain licensure.

Due to the practitioner shortage, multiple pathways to board certification eligibility have been opened by the University of Washington (UW), the Accreditation Council for Graduate Medical Education (ACGME), and the American Board of Medical Specialties (ABMS). Multiple ABMS boards have programs that specifically target international medical graduates and place them in four-year training programs, with only years one and three ACGME accredited. The outcome of these programs would be physicians who are ineligible for licensure through the commission, despite four years of postgraduate training through the UW. The first graduates of those programs will complete their training in June 2023.

Separately and recently, applications have come through where the physician has six years of postgraduate training from their efforts to become dually licensed as a physician and a dentist. This clause has resulted in denial of those applications since parts of the training are accredited under ACGME and the rest under the Commission on Dental Accreditation (CODA), the dental profession equivalent of ACGME.

Citation of Rules Affected by this Order: Amending WAC 246-919-330.

Statutory Authority for Adoption: RCW 18.71.017 and 18.130.050.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The immediate amendment of WAC 246-919-330 is necessary for the preservation of public health, safety, and general welfare. Continued demand for health care professionals, especially qualified physicians, make it essential that qualified applicants are able to obtain licensure. This action will result in increasing the quantity of health care professionals able to respond to current and ongoing staffing demands. Observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to protecting immediate public interests. The commission will begin permanent rule making to adopt these updates.

(2) The commission approves only the following postgraduate clinical training courses:

**EMERGENCY RULES**  
**UTILITIES AND TRANSPORTATION**  
**COMMISSION**

[Filed July 14, 2023, 10:23 a.m., effective July 14, 2023, 10:23 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The Washington utilities and transportation commission's (commission) rules, specifically WAC 480-93-240, conflict with the statutes prescribing the method of calculation of pipeline safety fees. The rule requires the commission to offset pipeline safety fees by the total amount of penalties collected under RCW 19.122.055 (erroneously referenced as RCW 19.122.050), but RCW 19.122.170 directs the commission to spend those penalty funds on education, not to fund the pipeline safety program. The resulting offset would thus leave the pipeline safety program fund underfunded. Through this emergency rule making, to be followed by a permanent rule making, the commission permanently amends WAC 480-93-240 to remove the offset provision to allow the commission to accurately calculate and invoice pipeline safety program fees.

Citation of Rules Affected by this Order: Amending WAC 480-93-240.

Statutory Authority for Adoption: RCW 80.01.040, 81.01.010, 81.04.160, and 80.24.020.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The pipeline safety program provides for essential services that are necessary for the preservation of the public safety. Pipeline safety fees must be billed to the pipeline operators by August 1, 2023. Because the permanent rule-making notice and opportunity to comment time requirements would not allow the rule to be effective in time for the billing cycle, the commission finds that removing the offset provision immediately through an emergency rule making, to be followed by a permanent rule making, is in the public interest. This will allow the commission to ensure that the pipeline safety program fund is sufficiently funded for 2024.

AMENDATORY SECTION (Amending WSR 08-12-046, filed 5/30/08, effective 6/30/08)

**WAC 480-93-240 Annual pipeline safety fee methodology.** (1) This rule sets forth the commission's fee methodology for the annual regulatory fee paid by a gas pipeline company as that term is defined in RCW 81.88.010. For the purposes of this section, a gas pipeline company is called "company" or "companies" and the "commission's pipeline safety program" means the pipeline safety program that includes each company.

(2) Each company will pay an annual pipeline safety fee as established in the methodology set forth in subsection (3) of this section.

(3) The fee will be set by general order of the commission entered before September 1 of each year and will be collected in four equal installments payable on the first day of each quarter as listed below:

- 1st quarter fee installment due September 1;
- 2nd quarter fee installment due December 1;
- 3rd quarter fee installment due March 1;
- 4th quarter fee installment due June 1.

(a) The total of pipeline safety fees will be calculated to recover no more than the costs of the legislatively authorized workload represented by current appropriations for the commission's pipeline safety program, less the amount received in total base grants through the Federal Department of Transportation (~~and less any amount received from penalties collected under RCW 19.122.050~~). Federal grants, other than the federal base grant, received by the commission for additional activities not included or anticipated in the legislatively directed workload will not be credited against company pipeline safety fees, nor will the work supported by grants be considered a cost for purposes of calculating such fees. To the extent that the actual base grant proceeds are different than the amount credited, the difference will be applied in the following year.

(b) Total pipeline safety fees as determined in (a) of this subsection will be calculated in two parts:

(i) The commission's annual overhead charge to the pipeline safety program will be allocated among companies according to each gas pipeline company's share of the total of all pipeline miles within Washington as reported by companies in their annual reports to the commission.

(ii) After deducting the commission's annual overhead charge, the remainder of the total pipeline safety fee commission's annual pipeline safety program allotment will be allocated among companies in proportion to each company's share of the program staff hours that are directly attributable to particular companies. The commission will determine each company's share by dividing the total hours directly attributable to the company during the two preceding calendar years (as reflected in the program's timekeeping system) by the total of directly attributable hours for all companies over the same period.

(iii) For fee setting purposes, any program hours related to a commission investigation of an incident attributed to third-party damage that results in penalties collected under RCW 19.122.055 will not be directly attributed to the owner of the damaged gas pipeline.

(c) The commission general order setting fees pursuant to this rule will detail the specific calculation of each company's pipeline safety fee including the allocations set forth in (b) of this subsection.

(4) By August 1 of each year the commission staff will mail an invoice to each company.

(5) All funds received by the commission for the pipeline safety program will be deposited to the pipeline safety account. For each gas pipeline company subject to RCW 80.24.010, their portion of the company's total regulatory fee applicable to pipeline safety will be transferred from the public service revolving fund to the pipeline safety account.

(6) Any company wishing to contest the amount of the fee imposed under this section must pay the fee when due and, within 6 months after the due date of the fee, file a petition in writing with the commission requesting a refund. The petition must state the name of the petitioner; the date and the amount paid, including a copy of any receipt, if available; the amount of the fee that is contested; all reasons why the commission may not impose the fee in that amount; and a calculation and explanation of the fee amount the petitioner contends is appropriate, if any. The commission may grant the petition administratively or may set the petition for adjudication or for brief adjudication.

[Order 23-128—Filed July 14, 2023, 3:26 p.m., effective July 14, 2023, 3:26 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to extend the notification deadline for limited participation salmon net fisheries.

Citation of Rules Affected by this Order: Amending WAC 220-354-050.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is needed to extend the limited participation salmon net fisheries notification deadline. Many fishers participate in out-of-state fisheries and cannot submit notice by July 31. This action allows sufficient opportunity for all fishers to apply for limited participation salmon net fisheries. There is insufficient time to adopt permanent rules.

**EMERGENCY RULES**  
**DEPARTMENT OF**  
**FISH AND WILDLIFE**

[Order 23-129—Filed July 17, 2023, 9:17 a.m., effective July 17, 2023, 9:17 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Puget Sound recreational shrimp season.

Citation of Rules Affected by this Order: Repealing WAC 220-330-07000T and 220-330-02000D; and amending WAC 220-330-070 and 220-330-020.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule opens an additional day for recreational all shrimp fishing (including spot shrimp) in the Discovery Bay Shrimp District from 9:00 a.m. through 3:00 p.m. on July 25. This also opens recreational all shrimp fishing (including spot shrimp) in Marine Areas 8-1, 8-2, and the Elliott Bay portion of Marine Area 10 from 9:00 a.m. through 1:00 p.m. on July 25. The opening of the Elliott Bay portion of Marine Area 10 will be subject to a maximum of two pots per boat instead of the usual four pots per boat to stay within the remaining state share. This rule also opens Marine Area 7 West and a portion of Marine Area 7 South to harvest of all shrimp (including spot shrimp) from August 7 through August 14. It maintains the open nonspot shrimp fisheries in Marine Areas 7 East, 9, 11, and 13 with associated nonspot shrimp fishing depth restrictions. It opens Marine Areas 8-1 and 8-2 for nonspot shrimp fisheries with the appropriate depth restriction on July 26 after the all shrimp fishing (including spot shrimp) has concluded. This regulation is needed to ensure an orderly fishery, manage the fishery within court-ordered sharing requirements, and meet conservation objectives. There is insufficient time to adopt permanent rules.

**FISH AND WILDLIFE**

[Order 23-130—Filed July 17, 2023, 9:52 a.m., effective July 17, 2023, 9:52 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to close recreational fishing in Skykomish River, South Fork, upstream of Sunset Falls.

Citation of Rules Affected by this Order: Repealing WAC 220-312-04000F; and amending WAC 220-312-040.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is necessary to close fishing upstream of Sunset Falls on the South Fork Skykomish River. Chinook are being hauled upstream from the Sunset Falls trap and haul facility and are susceptible to fishing pressure. This rule also maintains previously announced closures in other areas of the Snohomish River system.

Limited allowable take of wild Chinook in the Snohomish system necessitates strict controls to conserve impacts for pink and coho fisheries this fall. The Snohomish wild Chinook population saw a record low return of 1,023 in 2019, the year when dominant age class four-year old Chinook returning in 2023 would have been hatched. There is now significant concern for a poor return of wild Chinook to the Snohomish [River] and its tributaries this year.

There is insufficient time to adopt permanent rules.

(iii) Create an intimidating, hostile, or offensive environment for other campus community members.

(b) **Sexual intimidation.** The term "sexual intimidation" incorporates the definition of "sexual harassment" and means threatening or emotionally distressing conduct based on sex including, but not limited to, nonconsensual recording of sexual activity or the distribution of such recording.

(c) **Sexual violence.** "Sexual violence" is a type of sexual discrimination and harassment. Nonconsensual sexual intercourse, nonconsensual sexual contact, domestic violence, dating violence, and stalking are all types of sexual violence.

(i) Nonconsensual sexual intercourse. Any actual or attempted sexual intercourse (anal, oral, or vaginal), however slight, with any object or body part, by a person upon another person, that is without consent and/or by force. Sexual intercourse includes anal or vaginal penetration by a penis, tongue, finger, or object, or oral copulation by mouth to genital contact or genital to mouth contact.

(ii) Nonconsensual sexual contact. Any actual or attempted sexual touching, however slight, with any body part or object, by a person upon another person that is without consent and/or by force. Sexual touching includes any bodily contact with the breasts, groin, mouth, or other bodily orifice of another individual, or any other bodily contact in a sexual manner.

(iii) Incest. Sexual intercourse or sexual contact with a person known to be related to them, either legitimately or illegitimately, as an ancestor, descendant, brother, or sister of either wholly or half related. Descendant includes stepchildren and adopted children under the age of (~~eighteen~~) 18.

(iv) Statutory rape. Consensual intercourse between a person who is (~~eighteen~~) 18 years of age or older, and a person who is under the age of (~~sixteen~~) 16.

(v) Domestic violence. Physical violence, bodily injury, assault, the infliction of fear of imminent physical harm, sexual assault, or

stalking committed by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the state of Washington, or by any other person against an adult or youth victim who is protected from that person's acts under the domestic or family violence laws of the state of Washington, RCW 26.50.010.

(vi) Dating violence, physical violence, bodily injury, assault, the infliction of fear of imminent physical harm, sexual assault, or stalking committed by a person:

(A) Who is or has been in a social relationship of a romantic or intimate nature with the victim; and

(B) Where the existence of such a relationship shall be determined based on a consideration of the following factors:

(I) The length of the relationship;

(II) The type of relationship; and

(III) The frequency of interaction between the persons involved in the relationship.

(vii) Stalking. Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for their safety, or the safety of others, or suffer substantial emotional distress.

(d) For purposes of this code, "consent" means knowing, voluntary, and clear permission by word or action, to engage in mutually agreed upon sexual activity. Each party has the responsibility to make certain that the other has consented before engaging in the activity. For consent to be valid, there must be at the time of the act of sexual intercourse or sexual contact actual words or conduct indicating freely given agreement to have sexual intercourse or sexual contact. A person cannot consent if they are unable to understand what is happening or are disoriented, helpless, asleep, or unconscious for any reason, including due to alcohol or other drugs. An individual who engages in sexual activity when the individual knows, or should know, that the other person is physically or mentally incapacitated has engaged in nonconsensual conduct. Intoxication is not a defense against allegations that an individual has engaged in nonconsensual sexual conduct.

(14) **Harassment.** Unwelcome and offensive conduct, including verbal, nonverbal, or physical conduct, that is directed at a person because of such person's protected status and that is sufficiently serious as to deny or limit, and that does deny or limit, the ability of a student to participate in or benefit from the college's educational program, that changes the terms or conditions of employment for a college employee, or that creates an intimidating, hostile, or offensive environment for other campus community members. Protected status includes a person's race; color; national origin; sensory, mental or physical disability; use of a service animal; gender, including pregnancy; marital status; age; religion; creed; sexual orientation; gender identity; veteran's status; or any other legally protected classification. See "sexual misconduct" for the definition of "sexual harassment." Harassing conduct may include, but is not limited to, physical conduct, verbal, written, social media, and electronic communications.

(15) **Retaliation.** Harming, threatening, intimidating, coercing, or taking adverse action of any kind against a person because such person reported an alleged violation of this code or college policy, provided information about an alleged violation, or participated as a

witness or in any other capacity in a college investigation or disciplinary proceeding.

(a) Unauthorized use of such resources or opening of a file, message, or other item;

(b) Unauthorized duplication, transfer, or distribution of a computer program, file, message, or other item;

(f) Use of such time or resources to interfere with normal operation of the college's computing system or other electronic information resources;

(g) Use of such time or resources in violation of applicable copyright or other law;

(h) Adding to or otherwise altering the infrastructure of the college's electronic information resources without authorization; or

(i) Failure to comply with the college's electronic use policy.

(17) **Unauthorized access.** Unauthorized possession, duplication, or other use of a key, keycard, or other restricted means of access to college property, or unauthorized entry onto or into college property.

(18) **Safety violations.** Nonaccidental conduct that interferes with or otherwise compromises any college policy, equipment, or procedure relating to the safety and security of the campus community, including tampering with fire safety equipment and triggering false alarms or other emergency response systems.

**WSR 23-15-101**  
**EMERGENCY RULES**  
**DEPARTMENT OF**  
**FISH AND WILDLIFE**

[Order 23-131—Filed July 18, 2023, 3:46 p.m., effective July 26, 2023]

Effective Date of Rule: July 26, 2023.

Purpose: The purpose of this emergency rule is to open recreational sockeye seasons for Lake Wenatchee and expand the area open for salmon for the Entiat River.

Citation of Rules Affected by this Order: Amending WAC 220-312-050.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule is necessary to open sockeye salmon seasons in Lake Wenatchee. Based on current sockeye passage analysis at Tumwater Dam and mainstem Columbia River Dams, the Washington department of fish and wildlife projects a surplus of harvestable sockeye destined for Lake Wenatchee, well above the natural spawning escapement goal of 23,000 fish. This fishery will be monitored closely and may close on short notice depending upon angler participation and harvest rates.

This rule is also needed to expand the area open to salmon fishing for the Entiat River. Entiat River hatchery Chinook returns indicate that hatchery broodstock needs will be met and that a harvestable surplus of hatchery Chinook exists in the river. Expanding the area open for salmon fishing will increase harvest opportunity for anglers.

There is insufficient time to adopt permanent rules.

**DEPARTMENT OF**  
**FISH AND WILDLIFE**

[Order 23-134—Filed July 18, 2023, 4:20 p.m., effective July 21, 2023]

Effective Date of Rule: July 21, 2023.

Purpose: The purpose of this emergency rule is to open one day of recreational salmon fishing in Catch Record Card Area 7.

Citation of Rules Affected by this Order: Amending WAC 220-313-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This emergency rule is necessary to open salmon seasons in Catch Record Card Area 7. Catch estimates for the Marine Area 7 summer Chinook fishery indicate that through July 23, 2022 [2023], 67 percent of the harvest quota (1,203 of 1,800), 25 percent of unmarked encounters (988 of 3,991) and 23 percent of sublegal encounters (593 of 2,573) have been reached. This allows space for additional days of fishing to be added to the 2022 [2023] summer Chinook season. There is insufficient time to adopt permanent rules.
