

TRANSMITTAL OF RULES ADOPTED

FROM: STATE AIR POLLUTION CONTROL BOARD
(Name of Agency)

TO: CODE REVISER
LEGISLATIVE BLDG (Southwest Corner, Ground Floor)
Olympia 98501

The enclosed Permanent rules , being order No. 4
Emergency rules

relating to (Name of rules or description of subject matter)

the submission of information from thermal power plants, primary aluminum reduction plants, and chemical wood pulp mills as necessary for the development of standards.

(ALTERNATIVE A. Use only for adoption of permanent rules)

pursuant to Notice No. 2049 ^① filed with the code reviser on 5/1/68 ^② were regularly adopted as permanent rules of this agency at Spokane, Washington on 5/22/68 and are herewith filed in the office of the code reviser pursuant to chapter 34.04 RCW. The effective date of such rules shall be _____ ^③

(ALTERNATIVE B. Use only for adoption of emergency rules)

pursuant to its finding that the immediate adoption of these rules is necessary for the preservation of the public health, safety, or general welfare and that observance of the requirements of notice and opportunity to present views on the proposed action would be contrary to the public interest, were regularly adopted as emergency rules of this agency at _____ on _____ and are herewith filed in the office of the code reviser pursuant to chapter 34.04 RCW.

Dated this 28th day of May 19 68

WASHINGTON STATE AIR
POLLUTION CONTROL BOARD

Pursuant to the authority vested in it by the laws of the State of Washington, particularly Chapter 70.94 RCW and RCW 34.04.020, the State Air Pollution Control Board does hereby adopt as permanent rules and regulations Chapter 18-28 WAC which requires the submission of information from thermal power plants, primary aluminum reduction plants, and chemical wood pulp mills as necessary for the development of standards.

DONE in the City of Spokane, Spokane County, State of Washington, this 22nd day of May, 1968.

STATE AIR POLLUTION CONTROL BOARD

ATTEST:

Wallace Lane, M.D.

Chapter 18-28

INFORMATIONAL REPORTING BY THERMAL POWER PLANTS,
ALUMINUM PLANTS, AND CHEMICAL WOOD PULP MILLS

NEW WAC 18-28-010 STATEMENT OF PURPOSE AND APPLICABILITY. These rules are enacted under the provisions of the "Washington Clean Air Act" to provide a basis for the obtaining and compiling of necessary information to enable the state air pollution control board to establish standards for certain types or classes of air contaminant sources for the purpose of preventing and controlling air pollution and prescribing interim procedures with respect to new construction or major alteration of certain types or classes of air contaminant sources.

NEW WAC 18-28-020 DEFINITIONS. (1) "State board" means the state air pollution control board.
(2) "Thermal power reduction" means the production of electrical energy through the use of any fuel, including nuclear materials, for distribution through private and public power agencies for public use.
(3) "Chemical wood pulping" means the production of pulp by digestion of wood with solutions of various chemicals to obtain separation of lignin from cellulose wood fibers.
(4) "Primary aluminum reduction" means the production of aluminum from alumina in electrolytic cells.

NEW WAC 18-28-030 SUBMISSION OF INFORMATION. The owner, manager, or other person operating or responsible for operating chemical wood pulping mills and primary aluminum reduction plants, shall submit information to the state board under the following conditions:
(1) Information shall be on forms provided by, or in a manner acceptable to, the executive director of the state board.
(2) Information shall be submitted within ninety days after the effective date of this regulation for existing installations.
(3) The information shall include:
(a) Ownership, address, location, and name of manager of the plant.
(b) A description of the primary process and ancillary or complementary processes at the same location together with a description of air contaminant sources.
(c) Description and quantities of raw materials used and products produced.
(d) A description of available data on the emission of air contaminants as to kind and quantity from each source, size and height of emission points, the concentration of air contaminants in the carrying gas stream, and a description of the method of measurement or estimation used in developing the data.
(e) A description of available data obtained through measurements of air contaminants in the ambient air, vegetation or other environmental media, as they relate to the operation of the air contaminant source(s), and a description of the measurement methods used or proposed.
(f) A description of the systems, methods, and equipment used for controlling or preventing the release of air contaminants and available data on efficiency of air contaminant removal.
(4) The available data as described under subsection (3) (d), (e), and (f) above shall be furnished to the executive director of the state board when such data is requested by him.

NEW

WAC 18-28-040 INTERIM PROCEDURE. (1) Until such time as the state board adopts regulations setting forth standards and requiring the submission of plans, specifications and other pertinent information as a condition precedent to the construction, installation, establishment, or major alteration of air contaminant sources, the person operating or responsible for the operation of chemical wood pulping mills, primary aluminum reduction plants, and thermal power plants shall submit to the state board information equivalent to that required under WAC 18-28-030 for the purpose of review and consultation as to the adequacy of the proposed control measures and conformance with good industrial practice.

(2) The required information shall be submitted not later than sixty days prior to start of construction.

NEW

WAC 18-28-050 CONFIDENTIAL INFORMATION. Information submitted to the state board in accordance with this regulation shall be handled as provided in the Washington Clean Air Act, where applicable, with respect to confidential information.
