

**WSR 21-01-144  
EMERGENCY RULES  
DEPARTMENT OF  
FISH AND WILDLIFE**

[Order 20-258—Filed December 17, 2020, 8:43 a.m., effective December 17, 2020, 8:43 a.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: The purpose of this emergency rule is to open additional subareas in Puget Sound Crab Management Region 2E.

Citation of Rules Affected by this Order: Repealing WAC 220-340-45500P; and amending WAC 220-340-455.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, 77.12.045, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The provisions of this emergency rule:

Opens subareas of Crab Management Region 2E to commercial harvest and commercial pot deployment effective immediately;

Permits commercial crab harvest in Puget Sound within Crab Management Regions 1, 2 East, 2 West, 3-2, and 3-3 until further notice;

Commercial crab harvest in Crab Management Region 3-1 remain closed until further notice;

Maintains a pot limit of forty pots per license per buoy tag number in Crab Management Region 1, a pot limit of twenty-five pots per license per buoy tag number in Region 2 East and fifty pots per license per buoy tag number in Regions 2 West, 3-2, and 3-3;

Opens subareas of Crab Management Region 2E to commercial harvest and commercial pot deployment effective immediately. In Regions 1, 2 East, 2 West, 3-2, and 3-3 the available quota is sufficient to accommodate continued commercial harvest. These provisions are in conformity with agreed management plans with applicable tribes. These management plans are entered into as required by court order. The Puget Sound Dungeness crab commercial fishing season is structured to meet harvest allocation objectives negotiated between state and tribal co-managers and outlined in related management plans.

WSR 21-01-079 requiring fishers to declare intent to participate in Regions 1 and 2E fisheries, remains in effect.

There is insufficient time to adopt permanent rules. Further adjustment of season structure may be made pending updated harvest data.
