

**WSR 21-06-039
EMERGENCY RULES
DEPARTMENT OF
FISH AND WILDLIFE**

[Order 21-19—Filed February 24, 2021, 12:30 p.m., effective February 24, 2021, 12:30 p.m.]

Effective Date of Rule: Immediately upon filing.

Purpose: Columbia River commercial smelt fishery.

Citation of Rules Affected by this Order: Repealing WAC 220-358-06000D; and amending WAC 220-358-060.

Statutory Authority for Adoption: RCW 77.04.012, 77.04.020, and 77.12.047.

Under RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: This rule sets a limited Columbia River commercial fishery for eulachon smelt. The regulation is consistent with a conservative research-level fishery, reduced from the level-one fishery as described in the "Washington and Oregon Eulachon Management Plan" for the Columbia River. The expected return of eulachon to the Columbia River in 2021 is expected to be similar in magnitude to the run in 2020. The fishery serves as an important test fishery to monitor run strength and timing and to collect biological data. National Oceanic and Atmospheric Association fisheries concurs that a limited fishery is consistent with recovery of eulachon smelt. Rule is consistent with Columbia River Compact action of January 26 and February 24, 2021. There is insufficient time to adopt permanent regulations.
